FROM GREATEST BOOK
The High Priest—"Aaron shall
bear the judgment of the children of
Israel upon his heart before the
Lord continually." Ex. 28:30.

Prayer
We rejoice that we have a High
Priest, even Jesus, who hath been
touching with the feeling of our in-
firmities.

BLANTON BROKE LOOSE.
Thomas Lindsey Blanton, repre-
sentative of this district in the lower
house, broke loose like a West Texas
tornado in the house yesterday and
challenged Representative Bowman of
West Virginia. The cause of the tor-
nado from the turbulent West Texan
was the Fenning case. Frederick A.
Fenning is commissioner of the Dis-
trict of Columbia. He is charged with
operating a ring and exploiting in-
sane veterans of the world war.

FRAUD ORDER PUTS PONZI OUT OF GAME

WASHINGTON, April 29.—Charles Ponzi, financial wizard of Massachusetts and Florida has been virtually put out of the real estate business in Florida with the issuance of a fraud order against him and the Charbon Land Syndicate of Florida by the Post Office department.

Ponzi was selling \$10 "unit of indebtedness" certificates entitling the buyer to receive \$30 cash or three \$10 Florida lots at the end of 30 days.

By a so-called turnover feature of the scheme, a \$10 investor might be entitled to receive at the end of one year a unit of indebtedness for \$7-290.00. In lieu of cash, the certificate holder was then entitled to 729 ten dollar lots in the "Rosa Maria" tract of land which Ponzi held.

Postal inspectors reported the scheme "inherently fraudulent and impossible for execution."

The lots cost Ponzi sixty-eight cents.

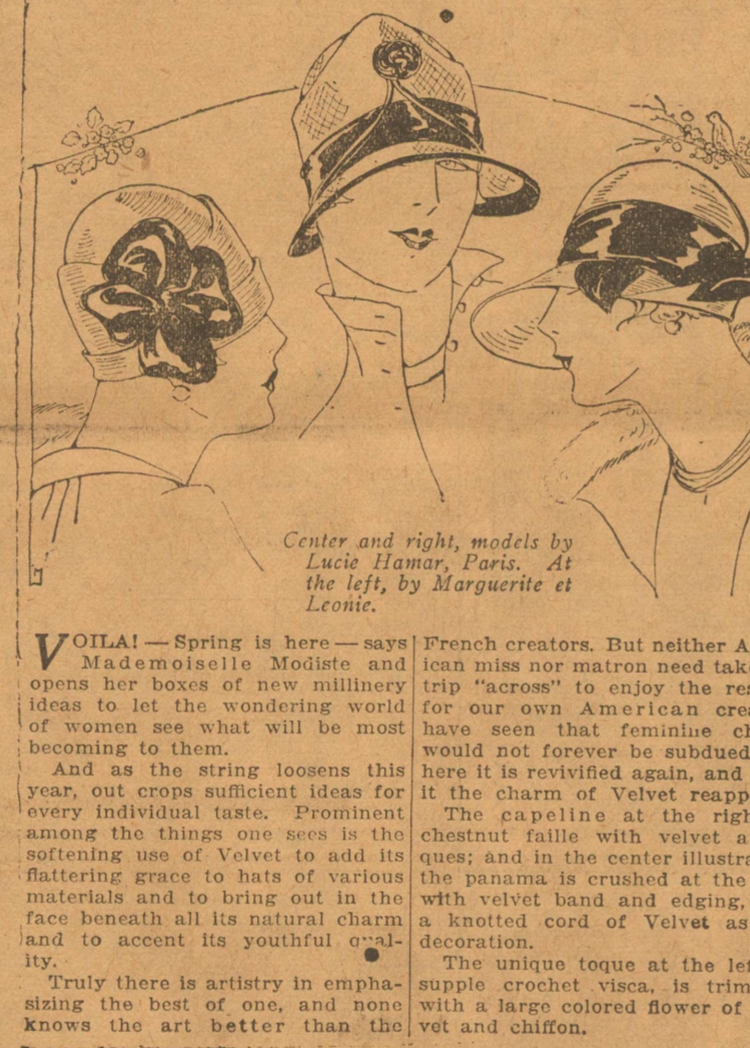

300 BARRELS PRODUCTION FROM DUNN 7

Producing 300 barrels a day from the 1,100-foot sand, the No. 7 Dunn of Conway Brothers, of Ranger, was completed Wednesday in the Rising Star pool. The well is on the western edge of the west Dunn tract and is regarded as indicating that the pool has a trend to the westward.

Debating Entry List Is Heavy For State Meet

AUSTIN, April 2.—Reports reaching the University of Texas interscholastic league state office from county and district meets indicate that the debating contests in both girls and boys divisions are being warmly contested this year, according to Roy Bedichek, chief of the league bureau.

The New French Spring Shapes All Show A Touch of Trim

VOILA!—Spring is here—says Mademoiselle Modiste and opens her boxes of new millinery ideas to let the wondering world of women see what will be most becoming to them.

And as the spring loosens this year, out crops sufficient ideas for every individual taste. Prominent among the things one sees is the softening use of Velvet to add its flattering grace to hats of various materials and to bring out in the face beneath all its natural charm and to accent its youthful quality.

Truly there is artistry in emphasizing the best of one, and none knows the art better than the

RED RIVER BRIDGE IS DEAD ISSUE

AUSTIN, April 29.—The State Highway Commission is permanently enjoined from using \$150,000 of the state funds as its share of the cost of constructing a free State highway bridge across Red River from Burkburnett to Randall, Okla., by an order issued by District Judge George Calhoun, fifty-third district court, Travis county, who granted the application for the injunction filed by S. J. Vaughn and others.

SOCIETY AND SOCIAL AFFAIRS

TONIGHT
"A Bunch of Fun" at Young School at 8 p. m. Benefit of P. T. A.

FRIDAY
Young Matron's Bridge Club meets with Mrs. Harry Logsdon at 2:30 P. m.

INVITATIONS TO ELKS DANCE ARE OUT
Invitations to an Elk's Dance are being mailed out to the dancers of this and near cities. This dance will be on May 5, with Chief Gonzales and his Texas Hotel Royals (WBAP artists) furnishing the music. The Elks claim that this will be the best dance of the season.

NATIONAL HEALTH DAY PROGRAM
Under the directorship of Miss Joyce Connolly city health nurse, a Health Day Program will be observed Friday evening at the High School. There will be no charge. The program will consist of songs, playlets and drills and will be participated in by all the schools of the city. The teachers of the different grades are all assisting Miss Connolly in putting over this elaborate observance.

POSTPONED.
The social that was to be at the Fred Yonker home Friday evening has been postponed on account of the program at the High school. Members of St. Rita's congregation please take notice.

Ranger Camp Sons Confederates Pass Up Convention

That no member of the Ranger Camp Sons of Confederate Veterans has as yet signified his intention to join the Abilene special train scheduled to run via New Orleans to Birmingham, leaving May 15, was stated by T. B. Tharpe, commander of the Ranger camp. However, word of the national encampment and the running of this special train has only recently reached Ranger and it is believed proabably some one or more will represent the Ranger camp, in which event, it is stated, they will undoubtedly avail themselves of this service.

Review Shows A Big Increase In Revenues

(Continued from page one.)
ed any day, confirming this statement.

Barrett Optimistic.
Hampered by no such restrictions as the railroad officials, and with the same frankness and exposition of figures which characterized the statement given out by the electric light company, Mrs. W. L. Barrett, assistant and accountant to W. L. Barrett, manager of the Texas-Louisiana Power company, the corporation which furnishes Ranger with gas, took figures right off the books showing that there are now installed and in operation exactly 120 more meters than were in use on the same date last year. Furthermore, the volume of business conducted by that concern, according to its records, covering a recent definite period of time, aggregated \$5,569.86 for 1926, whereas, for the same period in 1925, the aggregate was only \$3,992.67, when increase is said to fairly represent the advancement in the firm's local business.

Debt Funding Commission In Special Meeting

WASHINGTON, April 29.—A meeting of the American debt funding commission was called for 2:30 o'clock this afternoon, presumably to receive French Ambassador Henri Berenger's reply to the United States' demand for better terms to settle the French war debt of \$4,877,000,000.

Cape Scarf

Evesing scarfs are being worn as capes this spring. Very wide and long. This is of rose tulle with motifs of roses and silver leaves.

A "Broken Out" Face Holds You Back

Many men and women of middle age feel that they have never had a chance to make anything out of themselves. But the main reason for it usually is that they let such things as pimples, rash, "breaking out," eczema, tetter, etc., on their face, neck, hands or arms, make them feel that they are not wanted around and they keep to themselves too much.

So far as Nathaniel Winkle, 19 years old, of Atlantic City, N. J., knows, he is the only tom cat in the world with an artificial leg. Nathaniel "dots and carries three" in great style, and plans to kill rats with his peg leg when his teeth finally grow dull.

RINGOLD RESIGNS POSITION

That the Ranger Building and Loan Association will put on a membership drive within the next few weeks, that the association has engaged C. H. Harris, as sales manager of the forces during the drive and that at the end of the drive, E. A. Ringold, acting secretary since the organization of the association whose resignation has been in for some time, will retire and J. H. P. Jones, former Texas banker will take over the duties of permanent secretary, were among the announcements given out today by association officials.

ENTERTAINS TONIGHT.
The Elks will entertain their members and their families with a bridge party tonight at 8 o'clock in their new home.

CHENEY NEWS

Special Correspondence.
CHENEY, April 29.—Everything is humming around Cheney. Farmers all are busy in their crops. The recent rains put them behind some with their work as most crops had to be replanted.
 J. H. Hamilton, who has been sick with pneumonia, was able to attend church last Sunday.
 Brother Mattox of Gorman preached here Saturday night and Sunday at 11 o'clock.
 Oscar Strickler and James Howard were Stamford visitors Saturday and Sunday.
 W. A. Howard and family, Joe Blackwell and family, T. W. Howard and family, R. R. Browning and family, accompanied by others went to Howard last Saturday to work the cemetery.
 Next Saturday, May 1, is the date set to work the Alameda cemetery. Sam Love and wife of Ranger attended church here Saturday.
 W. J. Nabors of Eastland will preach here Sunday.
 The Cheney Literary society meets next Friday night.
 The party at Mr. and Mrs. Utley's home Friday night was well attended and was a most enjoyable affair.

day by the management of the Liberty Theatre, where she is appearing in "Why Women Love," a First National picture produced by Edwin Carowe from the Broadway stage success, "The Sea Woman," by Willard Robertson.

This is Miss Sweet's first offering under her new contract with First National Pictures, Inc. Others in the cast are Robert Frazer, Dorothy Sebastian, Edward Earle, Alan Roscoe, Russell Simpson, Bert Spottle, Charles Murray, Fred H. Warren and Herbert Prior.

"Why Women Love" has a marine setting, with most of the action taking place on shipboard, on the docks, and in and about a lighthouse on a bank shore. It is a tensely dramatic tale of primitive love, and is filled with spectacular scenes.

Stick in a few cucumber seeds now for early cukes. A pot in the kitchen window will give you a two-weeks' start over the outdoor plants.

You can sow larkspurs, bachelor buttons, poppies, sweet alyssum and snapdragons outdoors any time the ground is workable.

Cannon Is Shrewd Parliamentarian; Can't Be Tied Up

By CHARLES P. STEWART,
 NEA Service Writer.

WASHINGTON—Nobody ties Congressman Clarence Cannon of Missouri up in any parliamentary bow-knots.

Parliamentary procedure can be made pretty complicated. Tangling an unruly congressman up in it until he's helpless, and then chucking him carelessly aside, is one of the party leaders' favorite methods of preventing ventilation, on the floor, of subjects that they prefer to have left quietly in the cold storage of some committee room.

All this doesn't work on Cannon. Why not? Why, because he's the greatest parliamentary authority in America and one of the greatest in the world. He was the house of representatives' parliamentary expert for many years. Its present rules were largely made by him. When a knotty parliamentary point comes up to be settled, the speaker sends for one of his text books and what that book has to offer is recognized as the last word.

Well, the other day Cannon unexpectedly announced that he had some remarks to make.

The leaders instantly sensed what they were.

He wanted to tell them that congress, after a tremendous pretense of interest in agriculture's welfare, is now getting ready to adjourn without doing anything toward its relief—and that's what it meant to do all along.

And in spite of all that parliamentary ingenuity, on those leaders' part, could he, he got that speech off his chest. Probably not another man in the house could have done it, against such odds.

"It's an old parliamentary trick," he said, "by which legislation too important to be ignored—legislation that has been marked for slaughter but which congress has not the courage to slaughter openly—is delayed in committee until near adjournment and then reported out at the last minute, to be lost in the jam always attending the closing days of a long session."

Foundation Fund Aids Ranger Boy To Get Education

Over 700 students have been enabled to continue their agricultural studies at the Texas A. & M. college during the school year, 1925-26, by taking advantage of the Sears-Roebuck agricultural foundation \$25,000 loan fund, according to A. K. Short, chief of the foundation, Dallas. An Eastland county agricultural student who had made use of the fund is Wayne Barker of Ranger. The foundation student loan fund is administered by the Ex-Students' association of the college, of which Colonel Ike Ashburn is secretary.

"The boys who earn part or all of their expenses through the A. & M. college are rated as real men by their classmates," declared Colonel Ashburn. "Many of the outstanding students who lead in collegiate activities are men who are working their way through school. A large number of alumni who are making good in the business and professional world had no easy task to finance their way through college. Almost any young man who really wants to earn his expenses while getting an education can do so if he has the grit and stick-to-itiveness."

Colonel Ashburn reports that students use many unique ways in earning their expenses through the college. They wait on tables, conduct hamburger and peanut stands, handle baggage, deliver letters and packages, now lawns, set type in print shops and work at other odd jobs. One student earned nearly \$400 after

TEXAS FARMERS' TROUBLES TOLD

M. N. Baker, chairman of the park board is a great believer in Texas manufacturers and home industry. Recently a friend of his sent him the following "tribute" to the Texas Farmer. "I do not know the author," said Mr. Baker. "If I did I would write him a complimentary letter." The "tribute" follows:
 "The Texas farmer gets up at the alarm of a Connecticut clock. Buttons his Chicago suspenders to Detroit overalls. Washes his face with Cincinnati soap, in a Pennsylvania pan. Sits down to a Grand Rapids table. Eats Kansas City meat and Indiana hominy fried in Kansas lard on a St. Louis stove. Puts a Cincinnati buggy behind a Kentucky mule, fed on Iowa corn. Plows a farm covered by an Ohio mortgage with a Chattanooga plow. When bed time comes he reads a chapter from a Bible printed in Boston, and says a prayer written in Jerusalem. Crawls under a blanket made in New Jersey, to be kept awake by an Arkansas razor-back—the only southern product on the place. And then he wonders why he cannot make money raising cotton."

J. E. Dudlow recently used the same "tribute" in a speech before the Dallas Implement, Machinery and Vehicle club.—Dallas News.

his second year in college by working two shifts of eight hours each per day on a pipe line in an oil field during the entire summer. He returned to college in the fall with enough money to pay off all his notes.

In buying your seeds put quality first, earliness next, and ability to yield third.

Business Men Organize a City Baseball League

A business men's baseball league is now a reality in Ranger. Its name is the Business Men's Baseball League. Its permanent officers are Gus Coleman, president; Raymond Teal, vice president; C. C. Patterson, secretary; Wm. Cochran, official dopster, with the managers of the six teams which compose its membership, members of the executive committee, as follows:

Dr. Harry Logsdon, manager of the Jones; P. D. Wood of the Oil Belt Motor Company; C. D. Davis, of the Leveille-maner; B. H. Peacock, of the American Legion; L. E. Montgomery, of the Modern Woodmen and Jene Wagner, of the Salesmen. The younger fellows, as Panthers, Science Club will be encouraged but not admitted in the league.

The admission to games will be a popular price, probably 25 and 10 cents.

Practically all games will be played after 5 p. m. It was decided to omit the word, "Twilight" from the name.

The J. H. Mead Novelty Company will award a large silver cup to the winning team of the season.

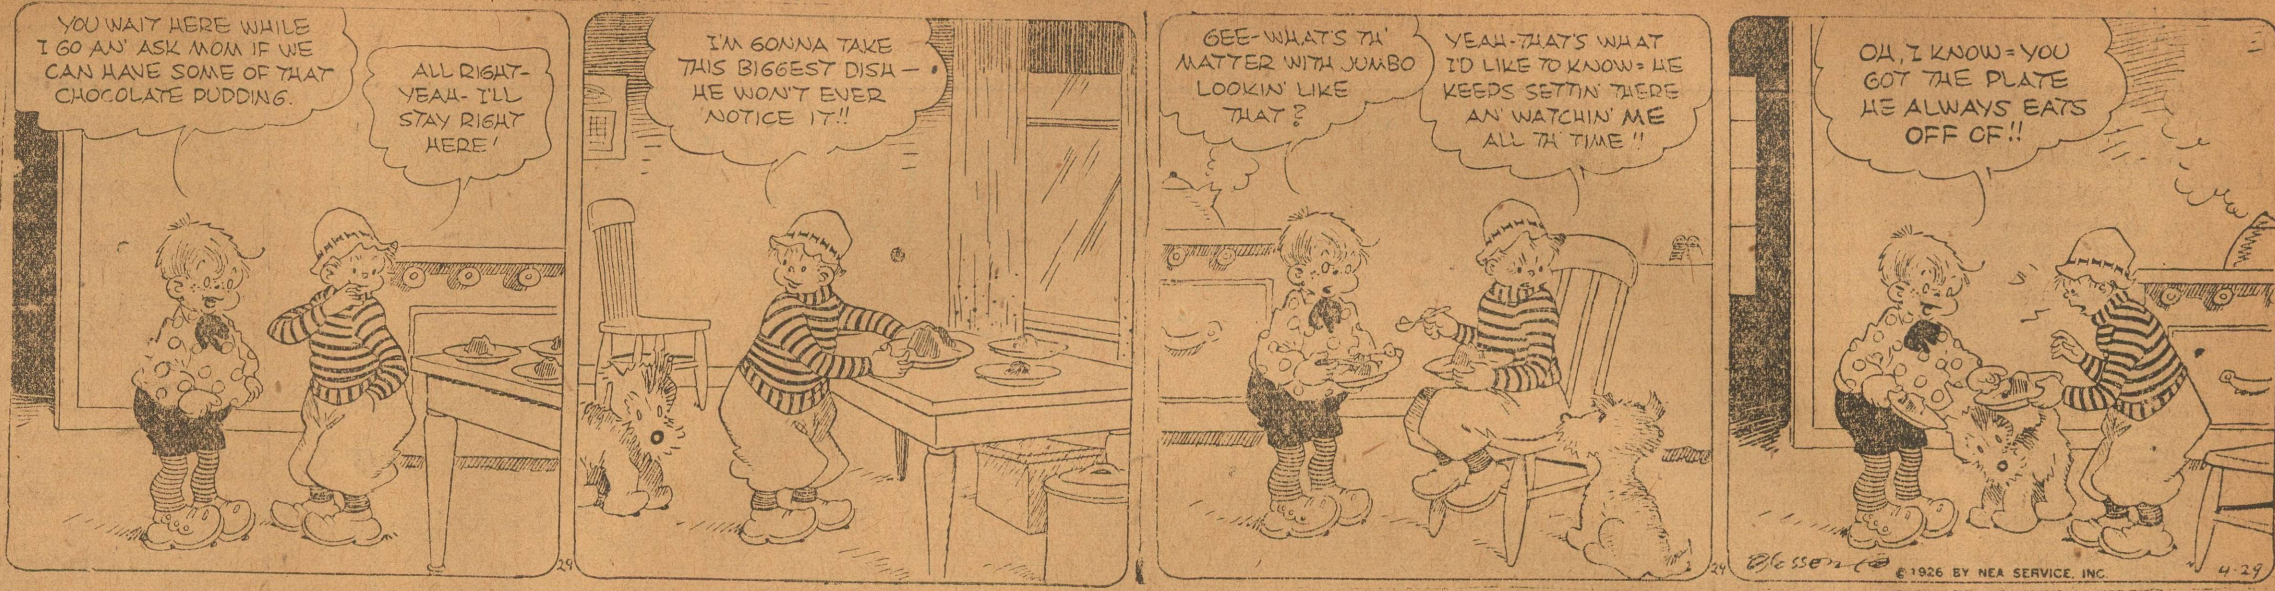

The Fountain, will give a good pipe to each player on the tail end team. Other awards and prizes for the two teams playing to the largest attendance, the team scoring most hits in any game of the season, and to individual players and teams scoring other high points during the season, will undoubtedly be awarded, it is said, by various business men of the city, although only two at this time have actually been approached and made the tenders of awards.

L. E. Montgomery acted as secretary. The executive committee divided its forces into two bodies. One composed of Logsdon, Montgomery and Hood, was entrusted with drafting by-laws, rules and regulations; the other, composed of Messrs. Wagner, Davis and Peacock, being delegated to arrange schedules.

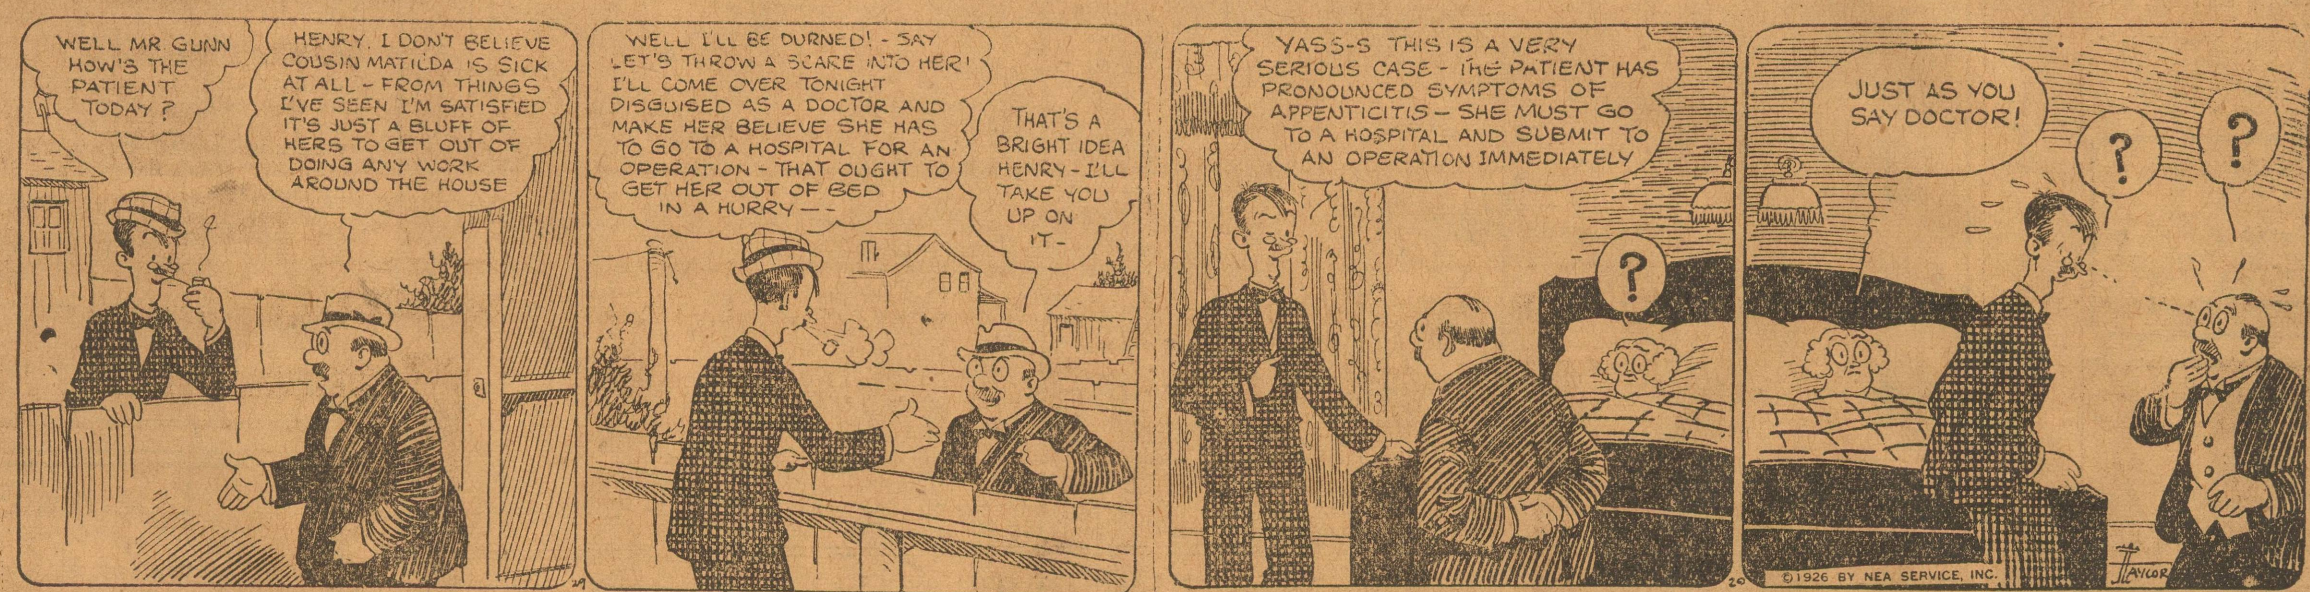

Watch the bulbs in the cellar at this stage. See that they don't get too warm and start to making spindly sprouts.

Mustard will grow in any soil. Sow a row of it for greens. It will be a welcome change from spinach and beets.

FRECKLES AND HIS FRIENDS

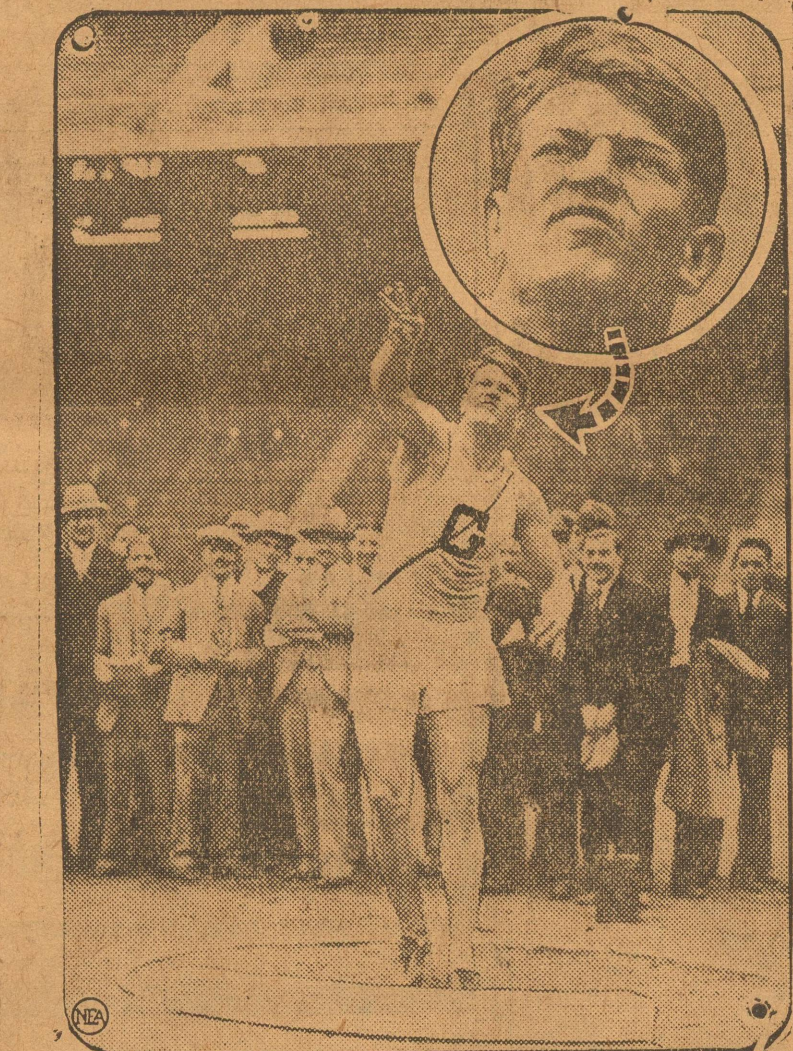

Mon'n Pop

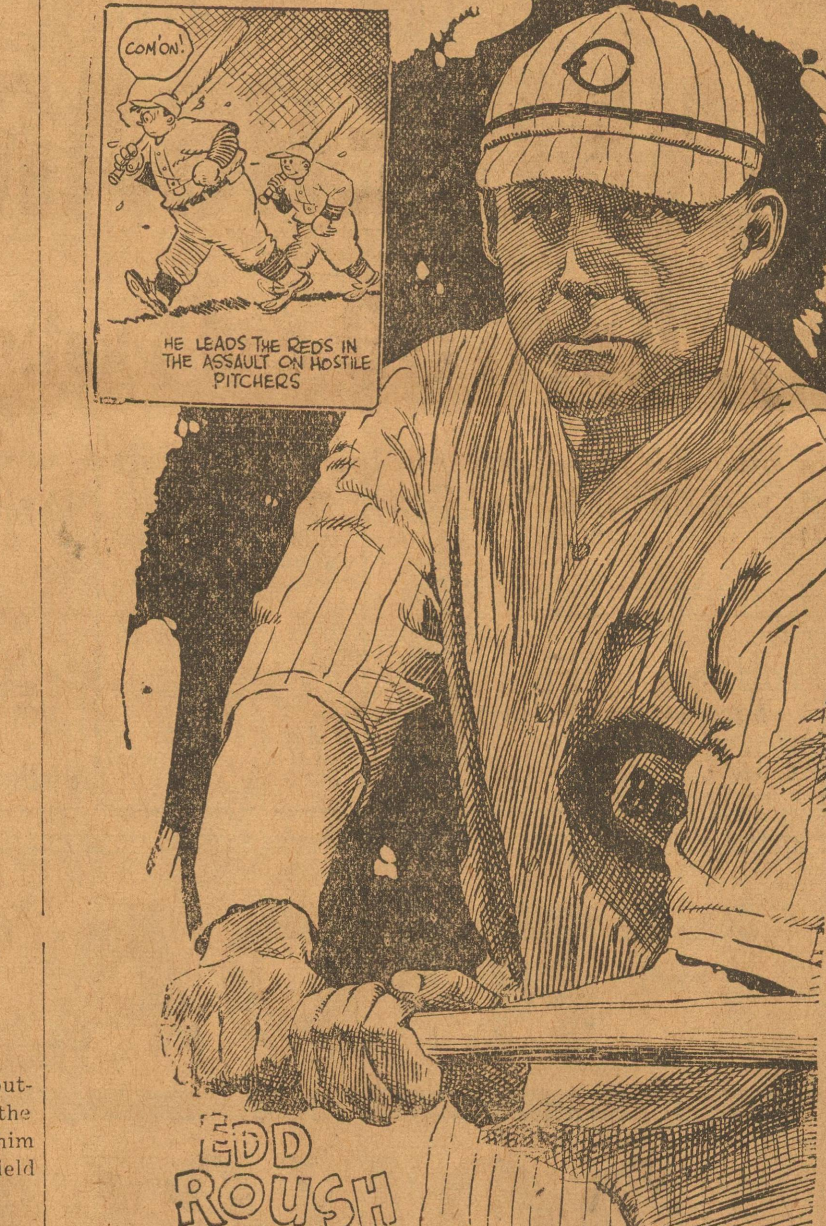

By Taylor

He's the Best

Anthony Plansky, of Georgetown University, Washington, D. C., was putting the shot 42 feet 4 5/8 inches when this picture was taken. Note the intense expression of Pennsylvania relay games in Philadelphia won him for the second consecutive year the title of best all-round track and field athlete in intercollegiate ranks.

He's Red's 'Big Bertha'

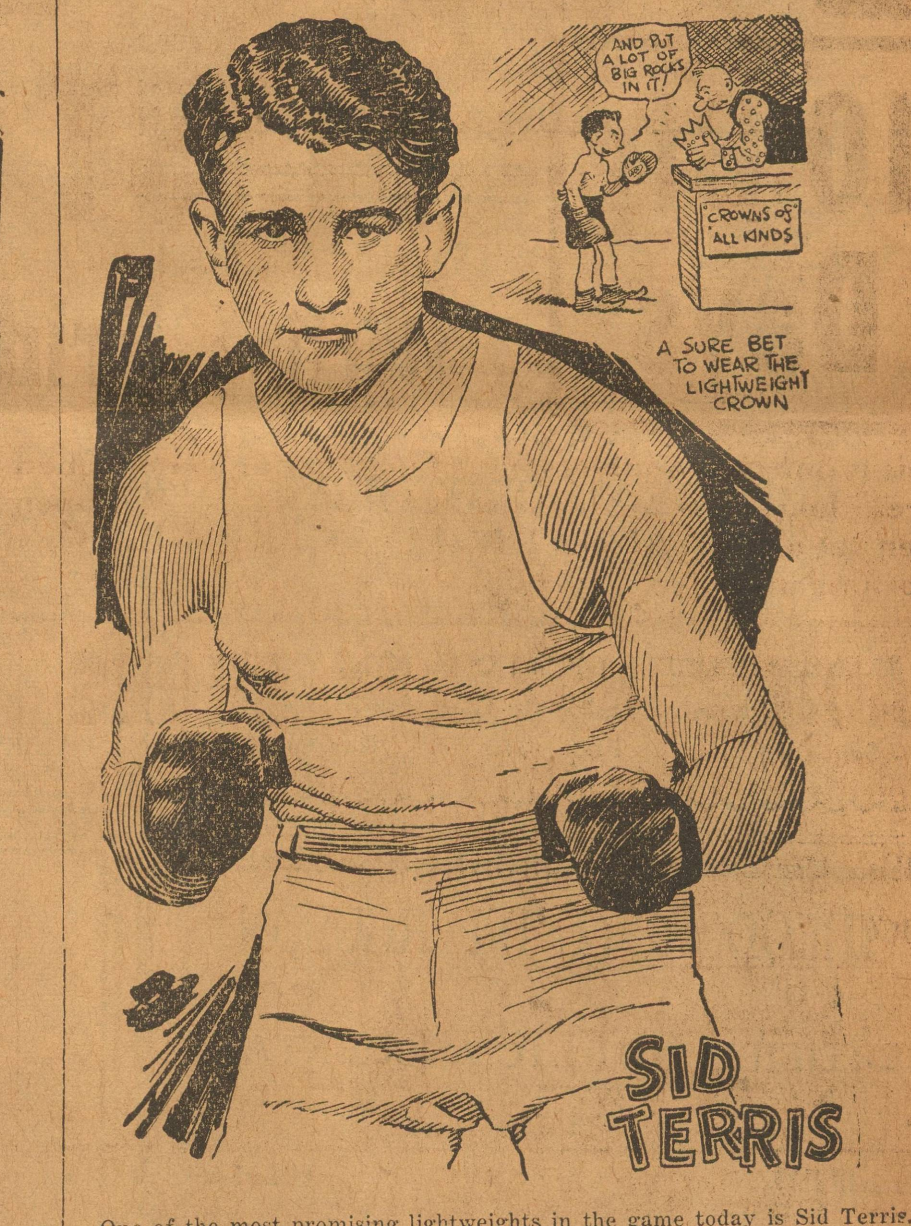

Edd Roush is the "Big Bertha" of the Cincinnati Reds' attack. A consistent .330 hitter, Roush is largely responsible for most of the success the Hendricks entourage has against opposing hurlers. Roush can swat the apple, as they say in various baseball circles. He's also a nifty fielder. Edd has been in the main ten many years. But he still seems as good as ever. With the exception of a brief stay with the Giants, he's spent his entire big league career in Cincinnati.

Roush is long been famous for his holdout proclivities. or quite a while Roush and unsigned contracts were synonymous. Holding out was an annual stunt with Edd. He usually won his case, too.

Along with Max Carey, Zack Wheat and a few others, Roush rates as one of the best outpost fellows in the old circuit. He's a veritable ball-hawk; can haul 'em down most anywhere, so long as they are inside the playing confines.

Stepping to Front

One of the most promising lightweights in the game today is Sid Terris. In the last year he's stepped to the front rapidly, beating such prominent pugns as Ace Hudkins, Jimmy Goodrich, Johnny Dundee and Pal Moran.

Terris started out as an amateur, where he was a sensation. He won 50 bouts in a row. He was never defeated. He copped several titles in his days as a simon-pure.

Terris started his professional career in 1922. Since then he's engaged in close to 100 fights. He likes action and plenty of it. His only setback last year was in his bout with Sammy Mandell. After 15 rounds of hectic scrapping Mandell was given the decision.

Many critics opine Terris is one of the best bets for the lightweight championship at this time. Some even go so far as predicting that the Gotham gladiator will be the next title-holder. Terris is 23.

Morvich Colts Will Appear This Season

FRENCH LICK SPRINGS, Ind.—Morvich, winner of the Kentucky derby of 1922, has four fleet colts who will run their first races this season, Ben Block of New York, owner of the mighty Morvich, today told a group of turf lovers gathered here for the pre-derby festivities.

This quartet of two-year-olds—Morvich's first contribution to the sport of kings—already have been shipped from their native pasture at Lexington, Ky., to New York, in anticipation of their early debut on the tracks, Block declared.

"Speed begets speed, and every one of Morvich's colts is fast," is the way they are described by Block, who confidently expects one of them to follow his distinguished sire's hoof prints to the blue ribbon place in the great Kentucky classic.

"Morvich is my favorite of the four colts," Block continued. "He looks and runs like his sire, and his lam was Mask and Face. The other colts are Mormine, whose dam was Armine; Morbelle, out of La Belle Helene; and Morgold whose dam was Gold Vale. Yes, every one of them carries the contraction of Morvich's name. Just watch them add glory to it!"

"I've watched these colts since they were born. They have been as frisky as little boys. Morvich's first colt was so active that he broke his neck one day trying to do a somersault. These four have done everything but that. Now they're ready to frisk down the home stretch."

Morvich won \$185,000 in prize money before he retired, and Block optimistically expects the combined winnings of Morvich's quartet of colts to amount close to a million. Victory in the 1927 derby, however, is the chief goal toward which their owner is pointing them. Achievement of this goal would give Block the rare distinction of being twice the owner of the winner of the blue ribbon event in horsemanship.

Racing will experience the best season of its history in America this year, Block believes. More tracks are open and more people going to them than ever before, he pointed out. The fact that more "super-horses" are being developed is the explanation he gave for growing popularity of the sport. He said:

"When Americans boost their track favorites just as they boost the 'Red' Granges and Walter Johnsons, horse racing will rival baseball and football in popularity. That day is coming fast, for turfmen now think more of putting good horses on the track and less of exploiting the sport."

"Who will win the Kentucky derby next month?" Block was asked.

"Well, Carlaris looks good," was his reply.

Either Twin Can Drive This Buick

One of these young ladies is driving an automobile for the first time in her life.

She is Daisy Hilton, one of the famous Texas Twins. She and her sister Violet have been joined together since birth at the base of the spine. Because Daisy is the right hand twin, she has always had to pilot the passenger's seat while Violet tilted the car.

But in a recent visit to California the Howard Automobile Company, Buick distributors, solved the problem. The Buick used by the Twins has double control, and is used to teach new drivers how to handle a car. Violet is seen giving Daisy her first lesson in driving at the wheels of the double control Buick. These charming young girls are high school graduates, talented musicians and accomplished entertainers.

Eastland Club Shoot Draws Big Crowd Wednesday

Interest in the Eastland Gun club continues to increase and each weekly shoot is attended by a larger and more enthusiastic number of marksmen. A number of the members of the Eastland club are planning to attend the state shoot, which will be held in June at Temple.

Among the visiting marksmen at the club's shoot Wednesday were C. F. McCubbin, Dallas; Mayor Brown of Mineral Wells; Mr. Akers of Abilene, and Mr. Needham of Mineral Wells. The visitors, together with a number of "scatter-gun artists" of the Eastland club, enjoyed one of the best shoots held in Eastland this year. The visitors met some real competition and stated that they expected to come again soon.

The pass word of the marksmen seemed to be, "We will see you at Temple in June." The program for the state shoot includes the contest for state champion, handicap champion, lady champion, and double champion. There will also be an added attraction in the way of a contest for champion of champions, each county to select a champion to enter the state contest. The state shoot this year will last three days and Temple citizens advise that everything is being made ready for entertaining 1,000 visitors.

Last year's classics were held at Fort Worth and was attended by a large number of Eastland members. James Horton of Eastland won the handicap championship for Texas and Mrs. James Horton was the winner of the lady championship in this contest at the Fort Worth meet.

The Eastland county championship is yet to be decided, with the contest between James Horton, Mrs. Horton, L. A. Hightower, C. C. Lowe, J. C. Harrell, Jim Amyx, Mr. Kimbrell, Guy Parker, A. C. Simmons, W. A. Martin and others strictly in the running and just a few misses either way will decide.

Following is the score for Wednesday's shoot:

Visitors.
Shumaker, 45x50; McCubber, 43x50; Needham, 32x50; Brown, 31x50; Akers, 17x25.

Homefolks.
James Horton, 49x50; L. A. Hightower, 48x50; J. C. Harrell, 46x50; Kimbrell, 46x50; W. Gray, 39x50; W. A. Martin, 36x50; George Bryant, 32x50; Mrs. Horton, 25x25; A. Woods, 19x25; W. A. Hart, 16x25; Ferguson, 19x25; J. H. Cheatham, 14x25; George Titlar, 12x25.

Doubles.
J. C. Harrell, 21x24; James Horton, 20x24; W. A. Martin, 17x24; H. Shumaker, 16x24; Ferguson, 16x25; Kimbrell, 16x24; C. F. McCubber, 14x24; Needham, 13x24; Brown, 13x24; McIntire, 12x24.

Dynamos Trim Tigers; Score 9-1 In Eastland Park

After two hectic innings in which the Breckenridge Dynamos scored freely, the game yesterday at Eastland settled down, the Tigers losing 9-1.

Two bases on balls and an error or two gave the Dynamos a pair of tallies in the first round and several more errors, coupled with solid blows added six runs in the second inning but in the final seven innings Breckenridge made only two hits and one run.

The Tiger's lone score came in the ninth, George Guydis doubling and scoring on an error and a fielder's choice. The Tigers made only three hits, two of them by Guydis and the other a double over the fence by Andrews. Alfred pitched for Breckenridge while Glenn Bryant hurled for Eastland, allowing only seven hits to the hard hitters from Stephens county.

The game did not count in the Oil Belt League standing as it was not on the schedule. Eastland business men closed their stores for the game, the fire trucks turned out and a large crowd saw the two teams play.

Flewellen To Sit As Chief Justice Supreme Court

Judge L. H. Flewellen, of Ranger, left Wednesday night for Austin where he will sit as Chief Justice of the Supreme Court of Texas along with associate justices, John Coffey of Austin and W. H. Ward of Houston, in the case of Bailey vs. Woodmen of the World, in which case all the judges of the Supreme Court are disqualified. The present court was named by the governor to sit on this special case which was reversed and remanded by the Court of Civil Appeals of Texarkana.

Cooper School Trims Eastland South Warders

Cooper School baseball team of Ranger defeated South Ward School team in a hotly contested game played in Eastland Wednesday, the score being 6-4. The game is said to have been a pitcher's battle featured by a sensational catch deep in center field by William Miller of Cooper, making the third out with the bases full and saving the game for the Ranger lads.

Lions and Woodmen Play Tie Game Nitro Park Wednesday

A work-out and pep-up practice game was played at Nitro Park, Ranger, Wednesday evening between the Lions and the Woodmen, the game went five innings and resulted in a 5-5 tie. For four innings the Woodmen went scoreless except for a home run by Pace. In the fifth, the chip-chops scored the other four. When starting the fireworks by a single, followed by singles by Cooper and Owens and a sacrifice fly by Hazard. Lambert for the Lions and Watson for the Woodmen featured in the game.

Following was the lineup:
Lions: Keith, 1b; Lambert, p; Murphy, c; Clark, ss; Forrest, 2b; Larson, 3b; Newton, lf; Durham, cf; Underwood and Moore, rf.
Woodmen: Cooper, c; Watson, p; Love, 1b; Pace, 2b; Hodges, ss-3b-rr; Hazard, 3b; Coalson, lf; Wren, cf; Bryan, c-rf.

Numerous shifts in the lineup were made to try out the several players for the positions, pending the first city league game, it was stated.

It takes 100 days for the early tomatoes to ripen. Figure it out and order plants if you didn't get seeds planted in time.

French Marshal Jumps Over Table; 74 Years Old

By United Press.

PARIS, France.—Marshal Lyautey, who retired last year as resident general of Morocco because of precarious health, proved at banquet here that now, at the age of seventy-four, he is by no means a feeble old man. His speech was wildly applauded by fellow colonial officers and the distinguished soldier jumped over a table. He then turned to General Bucan of the Algerian cavalry and ordered, "Jump, Bucan." The general jumped. Then the marshal challenged one of the younger officers, Colonel Faure of the Eleventh Cuirassiers, with "Jump, Faure." With considerable effort the colonel complied.

Northwestern Will Encourage Independence

EVANSTON, Ill., April 2.—Northwestern University next year will encourage independent study, according to regulations recently passed by the

college of Liberal Arts. Under this plan a student who desires to major in a certain subject will be favored. But in order to do this the student must show sufficient qualifications and prove beforehand that he will be a good student, the announcement said. If he does qualify, the student will be exempt from regulation class attendance and from the regular examinations at the end of each semester but will be given a comprehensive examination at the end of his senior year.

College Trained Men Wanted For Highways

By United Press.

WASHINGTON.—The demand for college trained highway engineers with the ability to organize and maintain an intact construction system is greater at the present time than at any period in the history of highway building, according to Charles M. Upham, business director of the American Road Builders Association and chairman of the Highway Research Board of the National Research Council. The recent convention of the association in Chicago brought out the necessity for highly trained engineers with executive ability.

Lyons Resents Seating Soviet With President

LYONS.—Because the Soviet Ambassador Rakowski was given the seat of honor at the right of President Doumergue at the recent Trades Fair Banquet at Lyons the townspeople of Lyons were much incensed and manifested their disapproval by a demonstration at the railway station when Rakowski left town. Rakowski was given the place of honor by virtue of his rank as senior ambassador at the banquet. Back of the demonstration against Rakowski, it is understood is the fact that former Lyons invested a large amount of savings in Russian bonds which have since been repudiated by the Soviet government.

Geodetic Survey Aided Florida To Stage Big Boom

WASHINGTON, April 2.—The United States coast and geodetic survey is aiding the Florida land boom

by supplying real estate promoters, city engineers, and private citizens who have bought land, information concerning tides, temperature and elevation above sea level, the Commerce Department announces. Many unfounded fears are being set at rest by the survey, it was learned, by information concerning the highest and lowest storm tides, the influence of the Gulf Stream, and the height of new ground above the level of the sea along the Florida coast while engineers are given data for laying out streets, sewers, roads and other projects from the coast and geodetic bench marks.

Lincoln Method Of Teaching Aliens Will Be Followed

LINCOLN, Neb., April 2.—The plan of preparing candidates for American citizenship used in Lincoln will be recommended for use in fifty cities of the United States, according to Miss Laura Presby, national secretary of the immigration department of the Y. W. C. A. of New York. Details of the methods of teaching foreigners the rudiments necessary to pass naturalization examinations and the program used in welcoming newly enfranchised citizens has been forwarded Miss Presby by the Lincoln authorities.

Star Resembling
Gigantic Balloon
Latest Discovery

By United Press.
WASHINGTON, April 29.—A star resembling a gigantic gas balloon with a diameter of 250,000,000 miles, but composed of material only one ten thousandth as dense as the earth's atmosphere, has been discovered.
It is the variable star, Mira. Its nature has been brought to light by a ten year study just completed by Dr. Alfred H. Joy, of the Mount Wilson, Cal., observatory. His findings were presented at the annual meeting of the National Academy of Science here.
Mira is changeable. In a period of eleven months it changes from a fairly bright star to one so dim that a powerful telescope is needed to see it. A variable veil over the star caused this phenomenon. The size of the star is also changeable, its diameter varying about forty million miles in the 11 months.
Stars have a tendency to travel in "gangs," according to Dr. Frank Schelsinger, director of the Yale University observatory. He told the academy that observations at Yale University were continually showing groups of stars traveling in the same direction with the same velocities.
Dr. A. F. Blacksee, of the Biological Station, maintained by the Carnegie Institute at Cold Springs Harbor, Long Island, told the academy of thousands of experiments per-

formed there which proved that the female sex was more active than the male. The greater activity was a chemical one.

Program Ready
For Boys Week;
Parade Friday

The program for Boys' Week is now complete in its main outlines, although minor details are being worked out from time to time, according to Wm. McDonald, publicity man for the occasion. The actual program is made out for Friday only as the events will comprise more of "boys' day" than a week, although some observation of the overlordship of young America will be recognized for the entire seven days, it is stated. Friday of next week, however, the boys will be in full control.
The events scheduled for that day follows:
10:00 to 11:00—Parade.
11:00 to 12:00—Program at school auditorium.
1:30 to 4:00—Boys in various business enterprise.
4:00 to 5:00—Stunts at baseball park.
5:00 to 7:00—Eats at Rotary park.
DIRTY SHEIKS.
They are brave, handsome, dishonest and dirty. Yet the tradition of the sheik as a passionate and romantic figure somehow persists. It is liberty, rather than the call of the desert, perhaps, which holds them

there. They love the desert, but it is its freedom, not its privations, that holds them. They look down with a lofty contempt on those Arabs who have degenerated into town dwellers, and suffer their own constant hardships with real pride.

The desert Bedouin has no sense of order. He unpacks his camels and lets the stuff fall where it may. Dirty, slatternly, delicately featured women with beautiful slender bodies, bare-footed, tattooed with blue on the chin and wearing many bracelets and a ring in the right nostril. Tall and bearded men.—Mary Roberts Rinehart, in Hearst's International-Cosmopolitan.

Cardinal climber seed is slow and needs a warm soil. Start a few seeds in pots in the house to get them up in the air early.

Singing as you work is all right, unless the boss thinks you are well satisfied and votes a raise.

This year will be half gone before long and all the 1927 models of autos not on the market yet.

Chicago Plans
To Entertain
Eucharists

By United Press.
CHICAGO, April 24.—Committees are busily canvassing the city to make a success of the transformation of Chicago into the church center of the world on June 20 to 24. During that time more than 1,000,000 persons, members of both the clergy and the lay field, will be here to attend the Eucharistic Congress of the world.
Every hotel in the city will be taxed to its capacity. It is expected these will take care of 250,000 of the delegates. Every room in the city available for renting purposes is being registered. All hotels and restaurants, as well as home owners, are being cautioned to have sufficient food on hand to care for this immense crowd.
It will be Chicago's biggest event since the World Fair in 1893, and it is the chief interest of the Roman Catholic world this year.

Chicago will be able to handle the immense crowd, backers of the unique convention said today. While railroad facilities will be taxed, there are sufficient carriers operating into the city to care for the delegates. Railroads from the east, probably will have the biggest task in handling the immense delegations coming from abroad.

The arrangements committee announces that there will be little confusion. A room will be designated to each delegate. On the card address, instructions on how to reach the lodging place, and the price of the room. This will prevent there being a milling mob in the railroad stations, without proper.

While Chicago proper is preparing for the task of being host to a million Mundelein, Ill., is watching a fevered bit of activity.

Workmen there are preparing the grounds of the St. Mary of the Lake Seminary for the influx of delegates. Carpenters, cement workers, bricklayers and landscape gardeners are rushing improvements and promise the immense project will be ready by May 1.

The improvement project there entails a cost of \$300,000. Included in the work are five arched bridges across the lake; a new \$100,000 boat house; rolling, trimming and smoothing of the grassy approaches and completion of several tiers of stairways leading down from the Edward Hines memorial chapel.

The stairways will connect with the miles of winding paved roads which will be the path of the great delegations when they attend the last mass of the congress at the memorial chapel.

Although plans are incomplete it is planned to have altars along the roads at which benediction will be given.

Ranger Boy Scouts
To Have Blowout
On Friday Night

The meeting of the Ranger Boy Scouts Friday night is going to be a live one, according to E. H. Peacock, scout master. Eats and games and the completion of arrangements for boys' week including the naming of the leader of the parade, will be included in the evening's program, it is announced.

"PUSSYFOOT" JOHNSON'S START

One day early in 1906 an official of the Anti-Saloon league came to me. He said that congress had appropriated a considerable amount of money to "suppress the liquor traffic among the Indians" and that Indian Commissioner Lurup and President Roosevelt had commissioned him to offer me the job, under that part of the appropriation for cleaning up sin in the Indian territory and Oklahoma.

The net result of these tumultuous years was the conviction by my force, of something more than 4,400 offenders, for all sorts of offenses ranging all the way from murder down almost to spitting on the sidewalk. Some of my customers, "lifers," are still in prison.—William E. ("Pussyfoot") Johnson, in Hearst's International-Cosmopolitan.

Ranger Creamery
Begins Operations
Saturday, May 1

May 1 has been named as the positive opening day for the Ranger creamery. Workmen are rushing the installation of the machinery and will, it is announced, be ready for the opening on that date. The opening will be more or less informal. Manager J. J. Clark announces, adding that a good cool drink of Bulgarian buttermilk or some such item will constitute the day's "favors."
Six dairymen representing a daily output totaling 250 gallons, something like two-thirds of Ranger's milk supply, have already signed up with the new dairy, it is announced, and will handle exclusively, pasteurized milk in the future. It is the announced policy of the management backed by local banks, it is said, to assist farmers in the Ranger territory to secure not less than from 300 to 500 cows, the creamery to give oversight to these herds, also to hens and hogs and provide cold storage and refrigeration space for 500 cases of eggs in addition to milk, butter and cream.

Arrangements to finance farmers who will take up the business of supplying the new concern, are made, Mr. Clark says.

Mr. Clark is a creamery man of long experience and will engage the services of competent assistants from time to time, it is announced. He was in charge of the college creamery for Randolph College at Cisco for some time and was manager of the creamery of Stephenville. He is a son of Dr. Randolph Clark, founder of Randolph College and Texas Christian University and a brother of Mrs. R. F. Holloway of Ranger. He will move his family to Ranger as soon as the present term of school in Stephenville closes, he states.

Eastland County Auto
Club Receives Letters
From Eastern Cities

Letters have been received by C. C. Patterson, secretary of the American Automobile Association for Eastland county, from numerous automobile clubs throughout the country including Detroit, and Cleveland, Ohio, felicitating the Eastland county club on its propitious start and tendering co-operation.

On Waxahachie
Police Force 53
Years; Still Going

WAXAHACHIE, April 29.—Fifty-three years an officer of the law and taking the oath to keep the peace for another year.

That's the record of City Policeman Tom Dixon of Waxahachie. Although he is seventy-seven years old "uncle Tom" as he is known to residents says he doesn't feel old and still believes he is capable of taking care of any "bad eggs" that try to get gay in or around Waxahachie.

Dixon began his career as a mounted policeman and often yet he will be seen riding his big bay horse around the courthouse.

CHILDRESS—Plans have been completed for the erecting of what is known as the Woodridge long staple gin. The stock necessary to build the gin has been purchased entirely by Childress capital. The gin will have a capacity of 120 bales per day. The machinery is of a different type than now used and is built especially for handling bollie cotton and long staple varieties of the better quality varieties of cotton.

OUR SPECIAL TRADE-IN SALE
is your best time to trade your tires for General
6-Ply Balloons
Owners of the heavier cars now realize the tremendous advantages of the 6-ply balloon—hundreds are changing to this improved balloon tire.
To run on General 6-ply balloons is to know real tire comfort and satisfaction—more mileage—no more punctures than regular size tires—the greatest riding comfort you ever experienced.
Now is the time to make this change—for our Trade-in Sale gives you an advantage over today's tire prices. In this sale we offset the cost by making special allowances on your present tires. No matter how much or how little your tires have been used, it will pay you to come in.
We are going to take into consideration the fact that when the high cost of rubber caused tire prices to rise, it also increased the value of the tires already on your car. So your present tires will never be worth more to you than now.

Ladies' White Nainsock Gowns, colored hemstitching, \$1.50 value, extra special 95c
O. N. T. Crochet Thread, all sizes and colors, special, 2 for 15c

Dressmaking Now Is Simplified and Is Done at Home

By HEDDA HOYT (Written for the United Press) NEW YORK.—Everything has been done to make home dressmaking simplified. Patterns are so perfect nowadays that one can't go wrong using them providing one has one's correct size. Nevertheless, women who do their own sewing often do go wrong and simple frocks are botched because women do not always know the simple rules which should be followed—rules other than those of cutting.

In making a dress one should always run a basting thread down the center front and center back of the material to prevent the dress from becoming lopsided. Always run a basting thread about the pattern so that you will have the exact pattern outlined while fitting. Allow at least an inch beyond this thread if you are not familiar with your pattern so that you are certain to have enough material.

It is best to finish the shoulder seams and neck line before putting in sleeves. The hanging of the skirt should be done last. Where the material is cut circular, that is where the hem is to be a circular one, hang the dress over a figure a day or so so that it can sag a bit before you finish your hem.

The most difficult material to work on is chiffon or other flimsy fabric. Only the expert should attempt a chiffon frock, particularly, if the skirt is to be circular.

In sewing buttons on a frock place a pin across the top of the button and sew over this since buttons do not look well when sewed too tightly to the material and one can not sew them loosely and evenly without placing some small object on the button.

Each seam should be pressed as soon as one is certain that it is correctly stitched. A skirt should never be hung until the side seams have been pressed.

The hemstitching machine has done much towards taking the home-made look away from home-made frocks.

Cheaper to Live Than to Die In Moscow, Russia

By United Press. MOSCOW, Russia.—The Moscow Soviet has placed a premium on living, at least for private traders and businessmen, by raising the charge for graves in the municipal cemeteries from ten to twenty-five dollars.

Class distinction does not stop at the grave in Moscow. Workers and employees belonging to trade unions are only obliged to pay fifty cents for their burial places, just as they are charged relatively low rents for their rooms. Professional people, doctors, lawyers, etc., pay \$2.50 for their graves; and the rate for the harassed trader has now been put up to twenty-five dollars.

The funeral department of the Moscow municipality has been running at a loss, estimated at a penny to every grave. In order to overcome this deficit the new charge has been imposed upon the business men.

The Muscovite who might be driven to contemplate suicide because of the extremely cramped conditions in which he lives would only be jumping from the frying-pan into the fire, for the cemeteries of the city are passing through a crisis of overcrowding. They were very much neglected during the times of civil war, and ten of thirty-three city cemeteries have been closed down as unsuited for new burials.

Distant Thunder Is Heard Over Indian Affairs

By CHARLES P. STEWART, NEA Service Writer. WASHINGTON.—It isn't much more yet than a faint rumbling of a distant thunder, but it hints at a storm coming, and my guess is that it's headed for the office of Indian affairs, in the interior department.

Proceeding with our meteorological metaphor, the lightning flashes are away over on the other side of the horizon and it's impossible to tell much about 'em from here, but they're significantly rumorous.

According to Mead Steel, a Sioux from the Fort Peck (Mont.) reservation, who's here trying to do something about it, the trouble isn't so much with the office's personnel as with the system.

He complains that it has too much arbitrary power, which frequently, he says, is exercised oppressively and unjustly.

Steel, he it understood, is the Fort Peck Sioux's unofficial representative in Washington. Such of the various tribes' official delegates as come here from time to time, almost invariably declare that everything's lovely.

"Sure they do," agrees Steel. "The regular way for a tribal council to be held, to choose a delegate to Washington, is for the reservation superintendent to call and control it and see that it makes a selection that suits the Indian office.

"But if the tribe holds its own council, independently of the superintendent, and picks out a real kicker—why, the Indian office says that wasn't a tribal council at all, and refuses to recognize its delegate.

SENSATIONAL! DARING!

A drama that dares to show life as some people live it!

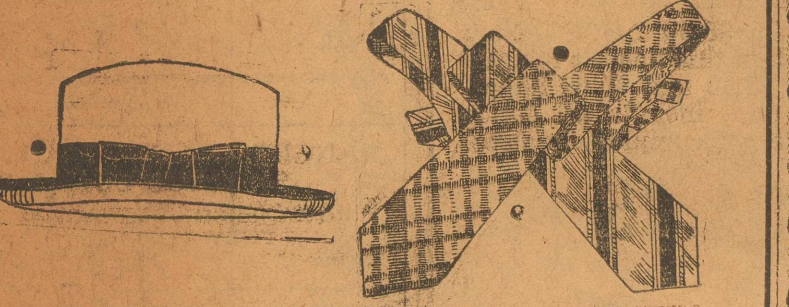

Another big drama of sails and sacrifice. And the sea that lashes at the faith of the girl who waits and the man who wanders.

BLANCHE SWEET ROBERT FRAZIER CHARLES MURRY

Women who wait—men who wander—they know Why Women Love.

We can't help but urge you to see "Why." No one has a right to miss this one. 10c—LIBERTY TODAY ONLY—35c

Hats for Spring

will be as light in color as a Spring breeze. Hats of better quality will be refreshed to original brightness and shape. Send hats and ties with your suits for dry cleaning.

Summertime Neckties

will be dry cleaned as fresh and bright as the morning you tied it first. Like your suit and hat, a tie requires frequent refreshing by dry cleaning.

Send your rugs and drapes to be cleaned and refreshed. Up to your expectations in workmanship and service. Responsibility also. Your belongings are insured while in our care.
