WILDCAT WELL BLOCKS TRAINS

By United Press.
BRISTOW, Okla., Aug. 4.—A "wild-cat" spitting 50,000,000 cubic feet of gas per day and approximately 50 barrels of oil an hour is holding up all passenger and freight service on the Frisco here. The well is but 150 feet from the tracks. Railroad officials have ordered all engines back from close proximity, fearing that a spark might cause a terrific explosion and fire. Automobiles are not allowed to pass close to the well for the same reason. A large force of men are at work in an attempt to "shut in" the oil and gas. The well "blew in" about 7 o'clock last night.

Under the mayor's plan the buses will be operated on five cent fares. Three million dollars would be required to finance the plan.

Other measures of retaliation are also contemplated. Money hurriedly transferred. The money was hurriedly withdrawn in anticipation of its being seized by the French government as part of the penalty to be imposed upon Germany for her refusal to pay the 2,000,000,000 pounds due for private debts contracted before the war with French citizens.

PAYMENT IS REFUSED.

By United Press.

ONLY MORATORIUM AND LOAN CAN SAVE GERMANY

By CARL D. GROAT.
(United Press Correspondent, copyright 1922, U. P.)
BERLIN, Aug. 4.—Germany's industries and finances face complete chaos. Andrew Hermes, finance minister, stated today in an exclusive interview with the United Press. The critical condition of the republic is due to the sudden falling of the mark, which declined suddenly with unparalleled force, Hermes stated.

"No nation could or would continue to bear such a load of economic woe as Germany has suffered in recent years, when every honest effort to pay debts merely became a never-ending labor through the sudden doubling and tripling of obligations as a result of the collapse of the mark," Hermes stated.

In the opinion of Hermes, if the Allies would grant a loan to Germany and a moratorium for a time the nation would recover economically, to the benefit of its creditors.

"But a quick decision is necessary," he stated. "Well meant resolutions alone will not help the world or us."

J. Bailey, wound Detective Ernest Caber, murder Anna Castor, wife of her youngest son, and then kill himself.

BOSTON TEA PARTY COMPARED WITH KLAN BEFORE BIG CROWD

"One hundred and fifty years ago a group of real Americans disguised as Indians boarded a British vessel in Boston harbor and gave the codfish their first taste of ice tea," Dr. W. A. Hamlett, Baptist minister, missionary and lecturer reminded a crowd of between 3,000 and 4,000 men, women and children last night in defending the disguise or regalia of the Ku Klux Klan.

"It is better to cover your face and do your deeds in the open than to keep your face open and do your deeds under cover," the speaker declared. The Ku Klux, he said, "are not against the Jew, the negro or the Roman Catholic, but stand for certain principles—principles that are impersonal and not personal."

Denies Lawlessness. The Klan, he insisted, never takes the law into its own hands, the Dallas News to the contrary and despite the fact that when a purse is snatched from a Dallas woman or a drunken anti-klanner drove his car and women into a ditch that the news accounts hold the Klan to blame.

"The Jews have their organization, the Catholics theirs and have a right to have them. Then why can't the protestant Americans organize?" he asked.

The hastily erected seats with a capacity of 2,500 persons were filled and others of the audience filled automobiles parked on the sides of the grounds and in the street and others packed the side lines when the speaker opened his address about 8:30. Lights had been strung over the seats and in the decorated bandstand for the occasion and the speaking was preceded by selections from the Merchants' association band, engaged for the occasion. The audience stood as "America," "The Star-Spangled Banner," and "Dixie" were played and uncovered as the band played "Nearer My God to Thee." The speaker was introduced by the Rev. M. F. Drury of the East Ranger Baptist church as one of the foremost Baptist ministers and a student of world affairs.

Throughout the hour's address, the speaker held his audience attentive and his remarks met with frequent applause. A few in the audience were seen to leave as he touched on the Catholic church. The expected attempt at disorder, arising from the report that a Ranger man had planned a rotten egg attack did not materialize. Dr. Hamlett in treating the threat lightly referred on several occasions to the rotten egg threat and declared that the man or men who made it "did not have the guts" to see it through.

Talks on Candidates. Declaring that Governor Neff was not a member of the Ku Klux Klan but that he had had the freedom of conscience to refuse to sign one of the Dallas questionnaires, the speaker praised the governor highly as Texas' big man. He paid his respects to Senator Culberson as running on an anti-klan platform "because he had no other to run on," and said that Cullen Thomas had signed his death warrant when he signed the Dallas anti-klan questionnaire in which "that city sought to dictate to the rest of the state." He spoke of Earle Mayfield as the winning candidate in the second primary and treating the assertions of former Governor Ferguson lightly, declared that he had rather listen to Jim talk than to see Charley Chaplin on the screen.

ONE-STOP FLIGHT ACROSS CONTINENT TO START SUNDAY

By Associated Press.
SAN ANTONIO, Aug. 4.—Lieutenant James A. Doolittle of Kelley Field left the field at 7 o'clock this morning for Jacksonville, Fla., in preparation for an attempt to make a one-stop trip from coast to coast. The flight is on authority of the chief of air service officer, in order to determine the feasibility of a coast to coast one-stop flight. Officials here say that success of the flight would mean that in time of war the entire air fleet of the United States could be moved across the continent in one day in an emergency.

Friend and his little son, Earnest, were attacked by a Jersey bull. The first onslaught of the animal crushed the bones in Friend's ankle. Lying on the ground he met the attacks of the enraged animal with an open pocket knife, slashing it across the head at each lunge. Friend's little son, who escaped the bull, returned with a pitchfork and drove the animal back while his father dragged himself outside the pasture.

Friend suffered a broken leg and collarbone and bruises over the body.

EMPLOYEE DISCHARGED FOR PRAYING IN PUBLIC ORDERED REINSTATED

PORTLAND, Ore., Aug. 4.—Praying in public is not an offense against the civil service and therefore George Winters, veteran employe of the city park bureau, is to get his job back. This is the ruling of the civil service commission, which found that Winters had been improperly dismissed.

Winters was discharged several weeks ago because he persisted in praying as a preamble to opening his lunch pail, a rite which had proved objectionable to his foreman and associates.

SOLON WANTS PROBE MADE BY TARIFF FOES

Charges Big Newspapers Are Trying to "Sell America to Europe."

By Associated Press.
WASHINGTON, Aug. 4.—Frank A. Munsey, owner and publisher of the New York Herald, was charged today in the senate by Senator Gooding of Idaho, chairman of the Republican agricultural bloc, with fighting the administration tariff bill in the interest of his investments in Europe. Following the demand that Munsey be investigated in relation to his connection with the tariff, Gooding demanded that the senate should investigate the St. Louis Globe-Democrat and other papers which he said were most critical of the pending tariff legislation.

Asserting that Munsey had interests in steel plants, mines, glass factories, pottery plants, woolen mills, sixteen beet sugar factories and other industrial institutions in foreign lands, Gooding declared "it was not hard to understand why Munsey had turned his hounds loose on these senators who are trying to protect American industry and American labor."

Says People Should Know. Urging adoption of his resolution, Gooding told the senate that in view of Munsey's great newspaper holdings in America and his efforts to prejudice public opinion against American legislation in the interests of his foreign investments, the people of the United States have a right to know all the facts relating to Munsey's holdings in European stocks, bonds and other securities.

"While we are investigating Munsey," Gooding continued, "we should also investigate the financial interests of other newspapers, such as the Boston Herald and those which it advertises as its associates in the plan to sell America to European manufacturers and merchants."

The newspapers listed as engaged in "selling America to foreign manufacturers and merchants" compose those which have been most critical of the administration protective tariff. They are the Chicago Tribune, New York Times, Cleveland Plain Dealer, St. Louis Globe Democrat and Minneapolis Tribune.

MAGNOLIA JOINS WITH OTHERS IN OIL PRICE CUT

With the announcement from Dallas today that the Magnolia Petroleum company has posted a reduction of 15 cents a barrel in Cement, Okla., crude and 25 cents in the price of other oils, \$1.50 crude became general. The new prices announced by the Magnolia are:

Electra, Burkburnett, Henrietta, Moran, Ranger and the Stephens county district, Strawn and Thrall, \$1.50 per barrel; Augusta, Kans., Yale, Comanche, Cushing and Duncan, Okla., \$1.25; Cement, Okla., 85c.

Eighty-five cents per barrel is within ten cents of the low record for Cement oil, according to the Magnolia headquarters. On June 4, 1921, the price fell to 75 cents, but was suddenly put up to \$1 and recently began to decline in connection with reductions in other oils.

WON'T HOLD WATER. "Ranger is being 'punished' in regard to road construction because the Ranger Times has raised so much trouble over wages and other road matters," is the substance of a charge made yesterday at a Lions club discussion of a report that paving of the Pleasant Grove road is to be stopped at the outskirts of town.

If there were any foundation for such a belief, expressed by the speaker and others about town, it would be a sad state of affairs, truly. It must be unfortunate for a city to have a paper that is always gumming the works by expressing its convictions, and thereby calling down the righteous wrath of duly-elected potentates on the heads of a whole population.

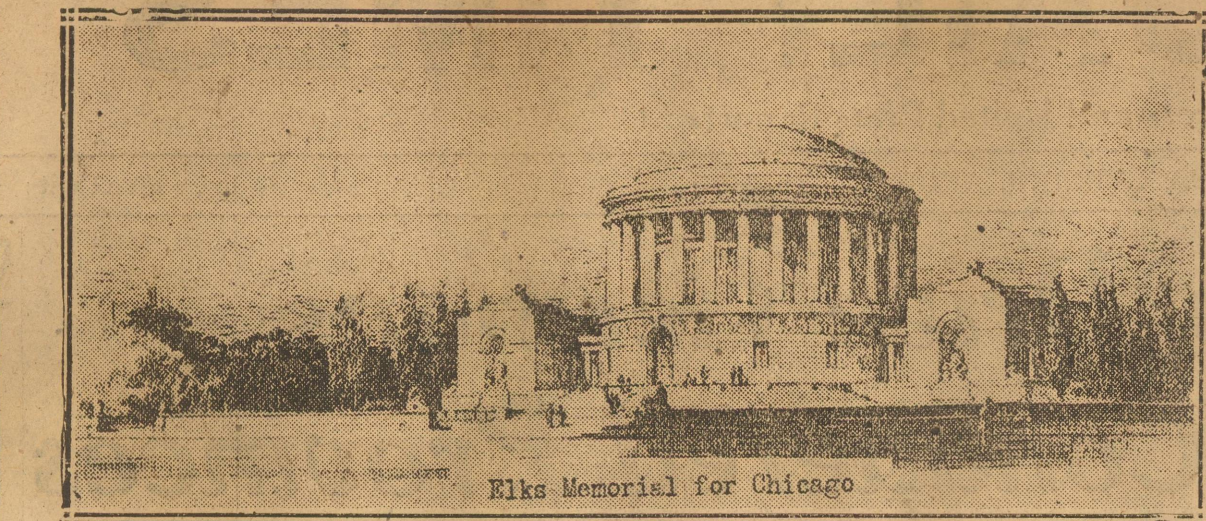

It is a specious argument, rendered absurd by a review of conditions, and adds nothing to a constructive solution of any problem that may exist. Suppose it IS true that the Times has criticized the road scale being paid by the contractors. Is that any reason why county officials would penalize a whole community? If so, would they not on the same grounds be penalizing Eastland and Cisco, where there has been more criticism—and more violent and bitter criticism—than the Ranger Times has ever voiced?

So much for Ranger's punishment because of the Times. As a matter of fact, if Ranger has gotten or is to get the worst of the deal, it is because Ranger has been asleep on the job for the last year. Ranger has been officially known as the friends of the commissioners' court. Being friends, it has trusted to its friends to give it a square deal and thought no more about the matter. It is human nature consciously or unconsciously, to give advantages to those who are most insistent upon obtaining them.

As for commenting on various phases of the road program, and in taking an open stand for a decent scale of wages on highway work, the Times cheerfully pleads guilty. That it was not alone in this stand, that it was not in the minority, is clearly shown by the recent election, when candidates and voters took a decided stand for an adjustment of highway wages.

If the Times is responsible for that clear-cut expression of opinion, it cheerfully assumes all blame. Any time it can do anything to enhance the wellbeing of Eastland county and its citizens, it will cheerfully assume

TARIFF BILL NOT WANTED.

Senator Lenroot of Wisconsin is not an insurgent sensationalist or a professional trouble maker. He is of orderly and sensible mind. His temperament is not one which urges him to go on the warpath. Yet Senator Lenroot deemed it his duty to tell his colleagues that it was highly doubtful whether he would vote for the McCumber-Fordney tariff bill.

Senator Edge, of New Jersey, a business man of conservative temper, who represents a great manufacturing state, feels impelled to give a similar warning. A stalwart protectionist, he is not satisfied that the bill as it now stands is in the national interest. He favors postponement of action until international business conditions are normal and there is a base from which to judge production costs and thus to measure protection. Senator Borah's criticism may be discounted, and the advice of Senator LaFollette, who isn't happy except in opposition, may be rejected; but it means something when men like Senators Lenroot and Edge express profound dissatisfaction. When the final test comes it cannot be that an immature and inopportune permanent tariff bill will be jammed through by blocs and the bargainers. There is no evidence that the Republican party, much less the country, asks the passage of the McCumber-Fordney bill.—New York Tribune.

DOG HILL PARAGRAPHS By GEORGE BINGHAM

While he was engaged in earnest conversation with Miss Peachie Sims last Sunday afternoon, Sidney Hocks didn't notice what he was doing and picked off a lot of the wall paper.

Atlas Peck says it is a hard matter to conceal anything from the public long at a time. He has had a corn on one of his toes for the past few days, and while he did not mention it to a soul, the people began stepping on it the first day.

There is some talk of a postoffice being established in the Rye Straw store, the proprietor having recently entered politics.

KINSTON, N. C., Aug. 4.—A long freight train was held up from 8 a. m. to 8:18 p. m. here because of a one-man strike. When the shipmen walked out, there were no railway workers here connected with the union save one whose job was that of coupler on the Atlantic Coast Line yard. When this individual put on his coat and the strike here was declared "100 per cent effective," trainmen and others failed to perform the coupler's duties. These said they had no right to couple up the cars. The trainmaster finally substituted for him.

It's harder still to keep it sweet and untainted on the hottest days when you count on it most. KLIM is milk—pure, rich, country milk, minus the water. When you need milk, you just add the water to KLIM. KLIM makes it easy to have just as much sweet, pure, fresh milk as you need—just when you need it. KLIM is rich, pure, cow's milk pasteurized first—then powdered. Only the water has been taken out of KLIM, not another thing done to it. So when you need milk, all you do is restore the water to KLIM. In the can on your pantry shelf, before the water is added with it, KLIM will keep indefinitely. Try KLIM buttermilk and cream cheese. Make them just as you would from bottled whole milk. ALICE L. DAILEY DISTRIBUTOR Care Ranger General Hospital, Phone 190 Ranger, Texas"

A BREAKFAST AND A SWIM.

Thursday morning eight ladies were the guests of Mrs. Frank Rarey at an early morning breakfast, which was preceded by a swim. The guests assembled at the Rarey home in Tiffin and drove to a private lake, which is an ideal spot, and enjoyed swimming for some time. In the meantime, a chef, who prefers to remain incognito, was preparing barbecued chicken and the "fixins" for their delectation. Barbecued chicken on toast, homemade jelly, coffee, and cantaloupes formed the breakfast menu and satisfied the appetites of the morning swimmers.

The participants in this pleasurable outing were: Meses. E. E. Crawford, E. L. McMillen, Frank Champion, John Turman, A. N. Harkrider, Frank Brahaney, J. T. Gullahorn, Garrett Bohning, and the hostess.

THURSDAY BRIDGE CLUB.

Just before leaving for a summer trip, Mrs. A. N. Harkrider entertained the members of the Thursday Bridge club and several other guests, yesterday afternoon. In bridge, Mrs. Walter Brahaney made high score for the club, receiving as a favor, an ivory crumb tray. Mrs. J. B. Haden made guest high score and received an ivory dresser tray, while the low score favor, an ivory handled nail file, went to Mrs. B. S. Dudley.

BREAKFAST AND BRIDGE.

Breakfast and bridge are two charming combinations, especially when the setting is so very cool and inviting as it was yesterday morning, when Mrs. A. J. Orth and Mrs. L. A. Vandervoort entertained a few of their friends, at the Vandervoort home with a beautifully appointed breakfast, followed by bridge. The breakfast was served in the dining room at 9 o'clock. Bridge following, was played until almost noon. Mrs. Ed Maher made high score and the cut prize went to Mrs. A. S. Bergere.

Covers were laid for Meses. Ed Maher, A. S. Bergere, W. H. Burden, C. C. Craig, L. L. Rector, Jack Shannon and the hostesses.

PURELY PERSONAL.

Mr. and Mrs. W. H. Fouke and children will leave tonight for Los Angeles, where Mrs. Fouke and children will spend the remainder of the summer. Mr. Fouke will be away about two weeks.

Mrs. A. N. Harkrider and Diane, left on the afternoon train for Sweetwater, where they will join Dr. Harkrider and son, Autrey, and will then proceed by car to Amarillo, for a short visit to Mrs. Harkrider's mother. Mrs. Harkrider and children will probably motor on to Colorado for a several weeks' stay.

Mrs. DeGraffenreid, stenographer in L. J. Mark's office, is visiting her mother and little daughter in Bridgeport.

Mrs. Saunders Gregg and sons are visiting Mrs. Gregg's mother, who is summering at Kerrville during the Presbyterian encampment. Miss Lucile Gregg accompanied them as far as Fort Worth on her return to her home in Houston.

Mrs. C. O. Terrell and sons have returned from a visit to relatives in Celeste and Fort Worth.

Mrs. Frances Farquhar is expected home from Abilene and Sweetwater today. Mrs. Farquhar was called to Abilene Tuesday on account of the illness of her sister-in-law, Mrs. Howe, who died before she reached there. Mrs. Howe was buried in Sweetwater yesterday.

Mrs. S. B. Tunnell is spending the week end in Strawn, visiting her parents.

'GREEN' BOOZE IS HELD MENACE TO FINE PRINTING

CHICAGO, Aug. 4.—Because the drinking of moonshine is said to be threatening the printing art in Chicago, the local branch of the United Typothetae, representing 600 employing printers, has declared war on the "sale of all booze that has not been mellowed by age."

The employing printers' campaign is not a "reform movement" in the generally accepted sense of the term. It is one of business protection which has been found necessary.

Moonshine always affects vision first and that has brought havoc to printing, particularly color work.

WILL TRY TO CROSS U. S. IN ONE DAY

Lieutenant Leland S. Andrews, U. S. A., has been given permission by the Chief of the Army Air Service to attempt to fly across the United States, from Jacksonville, Fla., to San Diego, Cal., in one day. Early in May he made the first lap of the coast-to-coast trip by flying from San Diego, Cal., to San Antonio, Texas, in eleven hours and thirty minutes. Lieutenant James H. Doolittle will make the flight with him as alternate pilot.

FATHER CONVICTED OF CRUELTY IN CONFINING GIRL IN SMALL SHED

BUCYRUS, Ohio, Aug. 3.—The jury in Justice John R. Rummels' court at Galion, after more than two hours of deliberation, returned a verdict of guilty against Jacob P. Menges, charged with cruelty to his daughter, Irene Menges, 26 years old, now an inmate of the state hospital at Toledo.

There were two women on the jury. The case grew out of the fact that on May 5 Sheriff Edward J. Knappenberger went to the Menges home, midway between Galion and Crestline, and found the girl, partly nude, in a smokehouse near the barn.

The shed contained little but a cot and blankets.

Irene was brought to Bucyrus, where she was cared for by Mrs. Knappenberger, wife of the sheriff.

She was reported to show signs of long neglect.

May 16 she was sent to the state hospital and Menges was arrested on a state warrant charging cruelty.

The release of Irene attracted widespread attention, as the statements made by county officials at the time revealed that the girl had been a prisoner in the shack for a long time, reports as to the duration of her captivity varying from two to six years.

Members of the party raiding the Menges home met opposition and interference from members of the family.

The girl was passive, accepting relief without a syllable.

When she was brought to the Bucyrus county jail here she remained inert, and her only words

were a few brief acknowledgments of thanks for acts of kindness shown to her.

Under the care of the sheriff's wife she brightened noticeably, but showed little response to attempts to induce her to explain her captivity in the shed.

State records obtained by authorities here revealed that Irene had been confined in the Toledo institution in 1914, but released as being mentally competent June 30, 1915.

At the trial of Menges his wife denied testimony of Mrs. Knappenberger as to the condition of Irene at the time of her arrival at the jail. On the stand Mrs. Menges flatly declared that the sheriff's wife had exaggerated the facts.

SLOW SERVES OF FLEHARTY BEAT NITROS

SWEETWATER, Aug. 4.—The Swatters trimmed the Nitros in a fast contest here Thursday, 5 to 3. The game, played in an hour and 28 minutes, was a duel between Fleharty and Lybrand, with both having ragged support but the Swatter slowballer being a trifle tighter in the pinches.

Shortstop Brooks grouped two errors in the first round, giving the Swatters three runs, and Swatter errors enabled the Nitros to tie the count in the third. After that round it was a tight battle, with the result decided in the sixth, when Bupp led off with a double, Pipkin scored him with a hit, and after two were out Fleharty administered a drive that put Pipkin over.

The contest, though filled with errors, was also crowded with flashy plays, White, Bupp and Shell several times cutting down rallies by speedy and accurate fielding.

About a dozen Ranger fans came over for the game.

ITALIAN KING IS TURNED-FROM DOOR OF CZAR'S MOTHER

PARIS, Aug. 4.—Private diplomatic dispatches received here describe King Victor Emmanuel of Italy as being "mortally insulted" by the former empress-mother of Russia, the mother of the late czar.

The Italian king proposed visiting the empress during her forthcoming visit to Denmark. She replied that she "would not let him in the house." "I do not want to talk to any man who shook hands with the murderers of my son," she said, referring to the incident during the Genoa conference, when the soviet delegation met the king of Italy aboard the latter's yacht.

FANNING WITH FARRELL

PENNANT CHANCES LOST BY STINGINESS By HENRY L. FARRELL, United Press Sports Editor.

NEW YORK, Aug. 4.—Two good pennant chances were virtually blown by two club owners this season by a squabble over a few dollars.

If the pennant would be offered to Barney Dreyfuss and Charley Comiskey for \$5,000, they probably would commit larceny, if necessary, to close the deal.

Yet a sum not greater may have cost them a championship. Dreyfuss refused to grant the raise in salary demanded by Walter Schmidt and the star catcher of the Pittsburgh Pirates is out of baseball.

Comiskey would not meet the terms of Dicky Kerr and the great little southpaw pitcher is playing outlaw baseball.

With Schmidt behind the bat, there is no doubt that the Pirates would be going better, if they were not today fighting for the lead, and with Kerr leading the White Sox boxmen, Comiskey would have an excellent chance for the American league pennant.

The absence of Schmidt behind the bat not only disorganized the Pirates, but it paved the way for the resignation of George Gibson as manager of the club. The differences between Dreyfuss and Gibson are said to have started when the Pirate chief would not give Schmidt the money he demanded.

Pittsburgh is working with Gooch, a brilliant youngster, behind the bat, but he doesn't know the batters and he hasn't had enough experience to keep the young pitchers on the ground.

The value of a star catcher behind the bat is well demonstrated in the case of the Chicago White Sox.

Wise baseball men give most of the credit for the sensational showing of the Sox this season to Ray Schalk, long rated as the greatest catcher in baseball.

Schalk takes the young pitchers and works untiringly with them to teach them control. Once out of wild ways, all Schalk asks is to get the ball just where he calls for it.

After Jim Robertson, the rookie pitcher, has jumped into fame with a no-hit, no-run, perfect game earlier in the season, he said that all the credit should go to Schalk because he merely put the ball where Schalk ordered.

Because he is forced to work in a rather routine way in an inconspicuous place behind the bat, the catcher seldom gets the credit due for fine services.

Miller Huggins placed the responsibility for the terrible recent slump of the New York Yanks on the absence of Wally Schang, a catcher of invaluable assistance to the club.

American Girl to Be Adopted By French Countess

NEW YORK, Aug. 4.—Documents permitting the adoption of Mrs. Pierre Tartoue, daughter of Mrs. R. Bengue Barnet, of Portland, Ore., by the Countess Clarel de Toqueville de Rampan de Chanquetot, have been approved by Surrogate John P. Cohalan.

Through the adoption, the American girl becomes a legal member of the aristocratic French family, and may use the title "Countess de Rampan and Countess de Chanquetot."

The new countess may also share in the estate of the family, which includes among other historic possessions, a luxurious home in Paris and a chateau near Cherbourg.

Mme. de Toqueville has been attached for a time to the girl she has adopted as her daughter.

"My own daughter who died," the countess said, "would have been about Claudia's age had she lived."

The Countess de Toqueville is the widow of Vicomte Augustin Rene Clarel de Toqueville, an officer of the Legion of Honor.

DUKE RIDES BAREBACK, COUNTESS WALKS TIGHT ROPE, IN PARIS CIRCUS

PARIS, Aug. 4.—A duke riding bareback and a countess walking the tight rope were among the attractions at the 1922 Molier circus, the annual event in which all the performers are members of Parisian society.

The private arena just off the Avenue du Bois de Boulogne was filled for three nights in succession with the "pick of Paris," for whom the society circus is a red-lettered date on the calendar.

Among the performers were Count de Lamartine, lion tamer—the count is accredited as one of the richest sportsmen in France—Duke Decazes, bare-backed riding; Count de Meunier, clown; Countess de Vignerat, tight rope walking, and Countess de Saumur, equestrienne.

One of the greatest features was the boxing match, refereed by Duke Decazes, between Baron d'Hottinger and M. Aymon de Massine. The front ranks of the audience, exclusively occupied by society women in extreme décollete and dazzling jewels, were in furore when the baron was knocked out.

To The Public Men employed in our mechanical and car departments have been on strike since July 1st against the decision of the United States Railroad Labor Board. The officers and loyal employees of this company are doing all in their power to keep trains operating. If we can have that protection for life and property which the law guarantees, we will succeed. The strikers and their sympathizers, on the other hand, are doing their best, through a campaign of lawlessness, intimidation and terrorism, to prevent our operating trains. The welfare and prosperity of the communities we serve depend upon who wins. The law will be enforced if the public demands it. If the law is enforced, the railway can and will continue to operate trains and give that service so vitally necessary if crops are to be moved and producers and consumers alike spared the suffering and financial loss involved in a tie-up of the transportation industry. DEMAND THAT THE LAW BE ENFORCED! J. L. LANCASTER, Receiver.

VETERANS URGED TO REINSTATE GOVERNMENT WAR INSURANCE

The advantage of ex-service men reinstating their war risk insurance and converting it into old line insurance backed by the government is set forth in an open letter to the former service men of the state from the district office of the War Veterans Bureau in Fort Worth. The manner in which the insurance can be reinstated also is set forth by the bureau. Any additional information can be obtained from the United States Veterans Bureau, Crowder building, Fort Worth. The communication follows:

"Any ex-service man may reinstate his term or war-time insurance by paying two month's premiums on the amount of insurance reinstated and by submitting satisfactory proof of insurability.

"If you are unable to reinstate under the condition just mentioned on account of a disability which was contracted in or aggravated by active Military or Naval Service during the World War, you may reinstate, if not permanently totally disabled, an examination being required to determine physical condition, by paying all premiums due since your insurance lapsed with interest at the rate of 5 per cent per annum, compounded annually on each premium from date such premium was due. You may reinstate any amount you desire, in multiples of \$500, but not less than \$1000, not more than the amount of insurance originally granted you.

May Convert Form.

"Any ex-service man may convert Term or War-time insurance which is in force into any or as many of the six forms of permanent insurance as you desire, in multiples of \$500, but not less than \$1000, by making application and paying the first monthly, quarterly, semiannual, or annual premium in advance. It is advisable to convert now, to secure your permanent insurance at your present insurable age, which carries a lower rate than if you delay conversion. On account of your military or naval service you enjoy a privilege accorded no other class of citizens in the United States, that of purchasing life insurance backed by the United States government at absolutely net COST.

"All forms of Government permanent Life Insurance, namely, Ordinary Life, Twenty-payment and thirty-payment Life, Twenty-year and Thirty-year Endowment, or Endowment Maturing at Age of 62 Years, are payable as death claims in "ONE SUM" or installments at the option of the insured. All permanent (converted) policies have a Cash Loan, Paid-up and Extended Insurance Value, available after the policy has been in force one year. The Converted or Permanent Government Life Insurance is written at guaranteed premium rates, which rates do NOT increase each year as do the Yearly Renewable Term (war-time) Insurance rates.

Dividends Paid.

"Any excess interest earnings over 3 1-2 per cent, together with any savings in the mortality, accumulate

a fund from which dividends may be apportioned by the director and paid to government (converted) policy holders. One million thirty thousand dollars has been apportioned to be paid in dividends during the year of 1921 to those whose policies have been in force a year or more.

There are no restrictions in the policies as to residence, travel, occupation or military or naval service. No charge is made in the premium for permanent total disability benefits, which are not limited as to the age at which disability may occur or the cause of such disability.

Radio Concerts By Regular Phone Latest Wrinkle

OLYMPIA, Wash., Aug. 4.—Radio by telephone is the newest service to be offered by the Puget Sound Telephone company of Everett, in connection with a supplemental tariff filed with the department of public works effective Aug. 1. The company recently installed telechronometers on its Everett telephones.

The company, it was said, will install radio devices on its patrons' telephones in connection with the Seattle Radio association and will provide a 24-hour program of music, readings and other forms of radio entertainment at a charge, it is said, of \$5 a year. The devices are said to be powerful enough to receive within a 100-mile radius of Seattle and will not interfere with regular telephone service.

FIRE FIGHTERS "FIRED" START NEW BLAZES TO KEEP JOBS

OLYMPIA, Wash., Aug. 4.—With the discharge of several fire fighting crews in this vicinity it has become known that certain fire fighters were suspected of having started new fires, that they would not lose their jobs after putting out old ones. The number of fires and the area burned over are the greatest of any year in the state's history, but the damage has not been as heavy.

Buyer Who Said Girls Could Dress on \$87.50 Year Admits It Can't Be Done

NEW YORK, Aug. 4.—Miss Nell Berger, buyer for a Topeka, Kan., department store, who recently gained public attention by listing the price of necessary clothing for an American working girl at \$87.50 a year, admitted here that she would have to revise her figures upward.

The Kansas industrial court was trying to find out how much it cost a girl in the middlewest to dress. The big mistake was made when the job of listing girls' clothing was turned over to men, while the task of set-

ting down the prices was turned over to Miss Berger.

The men, in their ignorance, listed such things as corsets, petticoats, corset covers and woolen stockings when everyone knows that no girl wears these things any more. Miss Berger, who is here for her firm, said so herself.

She also said that even the humblest working girls pay more than 25 cents a pair for stockings.

New York Is City of More Tongues Than Europe Has

(Raymond G. Carroll in the Philadelphia Public Ledger.)

A ten-day holiday jaunt into the United States certainly does play havoc with one's command of the polyglot language of New York.

Upon the return: "Wus machst du?" greeted the Yiddish tailor who presses our trousers.

"Ich bin gesund," we falteringly respond, reaching through the door for the wrinkleless garments.

"Com sta," saluted our Italian barber as we sank back into his chair for the morning shave.

"Molto Bene, Grazie," we muttered up through the soft layer of lather.

"Comment vous, porter vous?" chirped the little French manicure.

"Tres bien, merci," we responded as we headed out for breakfast.

"Wie gehts," hailed our German waiter, bowing low from the table at the window.

"Sehr gut, danke," we returned with the proper military certitude of the victor.

"Come esta usted?" smilingly accosted the young Spaniard in charge at the cigar stand.

"Perfectamente, gracias," we re-

sponded, lifting our choice out from its tiny silver overcoat of tinfoil.

"Ti kanis?" welcomed our Greek florist, whom next we visited.

"Kalla efcharisto," we stumblyingly responded.

All this for "I'm well, thank you," in reply to informal inquiry as to the state of one's health. And so it went throughout the first day home—other greetings in Russian, Armenian, cabaret English, Hungarian, flapper talk, Swedish and the rest of the lingos of the metropolis. Right you are. It is the grand old American town. To get comfortably along with these New Yorkers one has to know snatches of more foreign languages than are necessary for a tour of Europe.

BABY GIRL SOLD AT AUCTION TO SATISFY DEBTS

CHICAGO, Aug. 4.—Held for ransom to satisfy a \$405 board and doctor bill incurred by her father, now serving a term in the house of correction, Marie Baker, 5 years old, was sold at auction by Judge Adams in the court of domestic relations to the highest and best bidder.

The child was "knocked down" to Mr. and Mrs. John Kenney, wealthy residents of Kentville, Minn., who had journeyed to Chicago to attend the sale. Their bid was \$30.

When Marie's mother died a year ago, her father took her and himself to board at the home of Mrs. A. Stolman. He fell behind in his payments and Mrs. Stolman brought him into the court on a charge of contributing to the dependency of a child. When he could not pay, the judge sent him to the house of correction.

Mrs. Kenney, sister of the child's dead mother, heard of these conditions and sought to have the child added to her flock of eight, but the Stolmans blocked her efforts. They finally agreed that the Kennys might take Marie if they would pay all back indebtedness. Judge Adams arbitrated the claims and allowed them but \$30, the board for the child since her father went to jail.

Mother Stole Her Husband; Daughter's Divorce Plea Says

NEW YORK, Aug. 4.—Mrs. Helen O'Neill, of 210 West One Hundred Fourth street, names her 40-year-old mother, Mary E. Duggan, as the cause of her suit for separation from Walter O'Neill, which she has filed in the supreme court.

The young wife's affidavit is supported by those of her father, Patrick Duggan, who swears he left his wife because of her relations with their son-in-law.

"I fully appreciate the seriousness of the charges I am making against my mother, but I cannot refrain, as it is the truth," concluded Mrs. O'Neill in her affidavit.

The plaintiff declares in her petition that her mother took a trip to Boston with young O'Neill, and the girl's father in his affidavit says that Mrs. Duggan told him that she and O'Neill had occupied the same stateroom on a Fall River Line steamer.

"My mother said that my husband had married me only to be near her, that he loved her, not me, and that the ring on my finger belonged to her," alleges Mrs. O'Neill.

O'Neill and his mother-in-law deny all charges of intimacy.

Regarding the boat allegation, both say they occupied separate quarters and were not in the same stateroom.

"Last Christmas," declares Mrs. O'Neill in her petition, "my husband made me no gift, but he gave a \$200 ring to my mother."

"Later she tired of the ring and he changed it for a \$220 one."

"He also bought shoes, silk camisoles, fruit and candies for her."

False Teeth Bar Tom Marshall from Politics Forever

NEW YORK, Aug. 4.—False teeth—or the possible need of them—will keep Thomas R. Marshall, former vice president, out of politics for the rest of his life.

Mr. Marshall does not need them now, but he said as he came home from Europe on the Aquitania, that if he ever did need them he wished to be certain that he had enough money to pay for them.

"I started in politics 12 years ago," he said. "Now I'm where I started from, and I'm older, even, than I am the day when I'll need false teeth. And if that time ever comes I want to be sure to have enough money on hand to pay for them. So I'm out of politics forever."

The former vice president, with Mrs. Marshall, left Boston several months ago to tour Europe. They went to Scotland, England, France, Belgium and Germany.

Mr. Marshall said he was neither a banker nor an economist, so he did not wish to discuss Europe to any great extent.

"I'm just a former vice president," he said, smiling, "and that does not mean much. But while I was in Europe I used my eyes and my ears. Seriously, I came to one conclusion. The biggest hope for Europe lies in an arrangement which will permit English and American bankers to take charge of European affairs until the rate of exchange in all countries is firm."

MEN AND WOMEN ATTACK SCHOOL BOARD WITH EGGS

PEORIA, Ill., Aug. 4.—Trouble of long standing between directors of the community high school at Hollis, near here, reached a head when a mob of 100 men and women stormed the school while directors were holding a meeting.

The board was put to rout with a barrage of decayed vegetables, rotten eggs and electric light globes.

Aged Iowa Man Wields Ax Carried for Years as 'Protection' Against Whistlers

HARLAN, Iowa, Aug. 4.—John Schaefer, 70 years old, whose aversion to whistling first gained him the name of "Crank," then sent him trudging moodily about carrying an ax as a threat against whistlers, and finally landed him in a cell charged with murder, has been transferred to a secret hiding place by Sheriff Hansen for protection.

Schaefer carried his ax around the streets of Panama for years without more than raising it as a threat until last Friday, when it brought a whistler to death. The victim was the village blacksmith, John M. Hersdt, 60.

Hersdt, who was a notably cheerful whistler, and went from one tune into another since a horseless age cut into his business, stood in front of the shack that housed his forge and watched Schaefer storm at some whistling boys. The boys fled and Hersdt shouted:

"Come on over, John, and I'll whistle for ye."

Hersdt was struck and died in a hospital later.

Fall Through Train Window Leaves Passenger Stranded in Nightgown

ANDERSON, Ind., Aug. 4.—A stranger, who said he was G. L. Binkley, six feet tall and weighing approximately 200 pounds, wandered up a coal dock in a suburb here early this morning clad only in a nightgown.

He told dock workers that he had fallen from his berth through a window of a Pennsylvania railroad train bound for Chicago.

The train had stopped at the dock and he said he had plunged through a double screen and out an open window, and that when he rallied from the fall he could not overtake the train.

A passenger station was informed and another train two hours later took him to Chicago.

The railroad confirmed his statement, as his money, clothing and baggage were in the berth that he had occupied.

Trainmen could not understand, they said, how he fell from the sleep.

WIFE ONE TOO MANY FOR BRAVE EX-COP

LOUISVILLE, Ky., Aug. 4.—Frank Zell, former Louisville policeman, retired from the force a number of years ago with a record for daring, established by his arrest of a number of desperate characters at various times, makes public admission that he has met his match.

This admission came in the form of a divorce petition, in which he declared that he was afraid of his wife, calling upon the courts to protect him from her.

Mrs. Maggie Zell, her husband says, weighs between 230 and 250 pounds. She is possessed of a temper described by the former policeman as being "fierce and unmanageable," and, whenever moved to do so, which, he says, is painfully frequent, she turns upon him and administers a beating, he charges.

Mr. Zell now is exhibiting to all who will look a lacerated head, the result, he alleges, of the pugilistic tendencies of his wife.

He informs the court that he fears he will risk safety, if not life itself, by residing further with Mrs. Zell. He demands a limited divorce.
