## RAIL TIEUPS CUT TRAFFIC TO COAST

### FIRST CHIEF OF DAIL EIREANN DIES OF ILLNESS

Arthur Griffith, Former Rebel, Regarded as One of Ireland's Strongest Leaders.

LONDON, Aug. 12.—Arthur Griffith, first president of the Dail Eireann, is dead, it was announced today by the colonial offices. Griffith was one of the signatories of the treaty with Great Britain by which the Irish Free State was created. He supported ratification of this treaty in the dail in opposition to even De Valera, at that time president of the "Irish Republic." Upon De Valera's resignation, following his defeat in the dail on the ratification issue, Griffith was elected to his place and became the first president of the dail, after the peace treaty with Britain.

Before negotiations of the Irish Free State treaty, Griffith was one of the leaders of the Sinn Fein rebels. He was arrested by the British and was in jail for a considerable period immediately prior to the truce in Ireland which preceded negotiations of the treaty. He was released along with many other Sinn Fein prisoners at that time.

Griffith was regarded by many as the strongest of all the Irish leaders. He was born in Dublin in 1872, the son of Arthur Griffith, a printer. He was founder and first editor of the Sinn Fein and later editor of Nationality, an Irish Sinn Fein organ.

Griffith was ill only ten days and his illness was not considered serious. Yesterday, however, he suffered a sudden collapse and died early this morning. His death occurred at 9:45 o'clock this morning in St. Vincent's hospital, Dublin, which he entered 10 days ago for an operation for tonsillitis. He was recovering from the operation and apparently regaining his normal strength during the last few days.

### IRISH REBELS RESUME FIGHT IN DUBLIN AFTER LULL

DUBLIN, Ireland, Aug. 12.—Irish rebels resumed hostilities today after officials believed they had stamped out the last revolutionary sparks in the capital.

Twenty rebels raided and set fire to the postoffice, according to an official announcement. Considerable damage was done. Efforts to demolish the telegraph instrument failed. One guard was wounded and one raider was captured.

### MORATORIUM REPORT IS READY FOR ALLIES

LONDON, Aug. 12.—The British cabinet today unanimously accorded full support to Premier Lloyd George with regard to negotiations concerning a moratorium for Germany and decided to leave the matter entirely in his hands.

The allied experts who are studying the British proposals on the reparations question continued in session this afternoon and expect to conclude their report to the allied premiers tonight. It is understood, however, that there will be no further meeting of the full council until Monday.

### HOUSTON STRIKERS TO PARADE THROUGH DOWNTOWN STREETS

HOUSTON, Aug. 12.—Houston shop strikers will parade through the downtown streets tonight to advertise their cause.

### BAND'S UNIFORM FUND CONCERT WILL END BEFORE CHURCH HOUR

Young women of Ranger will join hands tonight in selling tickets for the band concert tomorrow evening. It is hoped to complete the sale of 2,000 tickets, in order to furnish a complete set of uniforms for the organization.

The concert will begin at 7 o'clock and will end long before the church hour, it is announced. Although its duration is only an hour, the program will be far the most pretentious yet presented by the band, including classical as well as modern music. Among the numbers is "Peep," a char-

### Breck Mother Asks \$30,000 from Power Co. for Boy's Death

BRECKENRIDGE, Aug. 12.—Suit was filed in the Ninetieth district court Thursday for damages to the amount of \$30,000 and the Oil Cities Electric company is made the defendant. The plaintiff is Mrs. Ulla Touchstone. The suit grew out of the death of Webb Touchstone, a son of Mrs. Touchstone, who met his death July 31 when he came in contact with a high-power line of the electric company.

The boy was bathing in a large wooden tank and touched a wire that was overhanging.

### 'Better Off Dead,' So Woman Slays Her Father-in-Law

MUSKOGON, Mich., Aug. 12.—Four persons today had confessed, authorities claimed, to the murder of David Hodell and his son. The father was killed on Feb. 4 and the son three months later. Mrs. Medo Hodnell, age 26, the bride of Romi, the son, according to the confession made public, admitted she killed her father-in-law.

"He was old and feeble and I decided he would be better off dead," the girl admitted, according to authorities.

### WEST'S COTTON CROP MENACED BY HOT WINDS

ABILENE, Aug. 12.—A thorough canvass of the cotton-growing region completed today by the Abilene Daily Reporter shows that the production will be seriously reduced unless rain falls in the next few days. From the brightest prospects in her history a few weeks ago, West Texas has been brought by drought and in some places hot winds, to the point where moisture in large doses is the only thing that will save her cotton crop.

### M'CORMICK'S MARRIAGE NOT LEGAL IN ILLINOIS

CHICAGO, Aug. 12.—Under the Illinois laws Harold F. McCormick and Ganna Walska are not legally married. They are subject to arrest if they return to this state before Dec. 28, a full year after the divorce of McCormick.

### OPERATORS' INDECISION DELAYS NEGOTIATIONS

CLEVELAND, Aug. 12.—Indecision among the coal operators as to the form of their proposal for negotiations with the miners, developed today and temporarily delayed the work of the joint shop scale committee of operators and miners that had been created to consider an agreement that might effect a partial settlement of the soft coal strike.

### NORTHCLIFFE UNCHANGED.

LONDON, Aug. 12.—The condition of Viscount Northcliffe is "persistently grave" his physicians announced today. He had one hour's sleep during the night.

### Thurber Quarrel Adds to Ranger Jail and Hospital

A fight that had its inspiration in Thurber and its culmination in Ranger last night resulted in an increase of one to the number of patients at the Clinical hospital and to the guests at police headquarters. Others are alleged to have participated in the battle but their whereabouts are unknown. Ringside accounts of the fight are lacking and not likely to be available for publication until the tale of two cities is unfolded to Judge Jewellen of corporation court.

The hospital patient would give no details on the fight except that it had occurred on Main street and had been a warm one for an exclusive fistie encounter. The participant arrested was charged with affray.

### POLICE ISSUE IS PASSED UP TILL TUESDAY

Definite action on the situation existing in the police department, which was expected to be taken at the adjourned meeting of the city commission yesterday afternoon was passed over until the regular meeting Tuesday afternoon following a discussion. It was understood at the close of the meeting yesterday the matter is to be disposed of at the meeting Tuesday afternoon.

In the absence of the expected bid for the \$70,000 warrant issue voted to take up old obligations, the sale was also passed over until the meeting Tuesday.

### 35 FIREMEN OVERCOME IN GOTHAM FIRE

NEW YORK, Aug. 12.—Thirty-five firemen were overcome and thousands of tons of freight were destroyed here today when Pier D of the New York Central railroad burned at a loss of \$1,000,000. Joseph Martin, acting fire chief, thought in all probability spontaneous combustion was the cause of the blaze. Work of firemen was hampered because of explosions of chemicals that were stored on the pier.

### FORT WORTH MAN SHOT IN SOUTHLAND HOTEL

DALLAS, Aug. 12.—A. T. Johnson, registering from Fort Worth, was shot five times and probably fatally wounded in his room at the Southland hotel here shortly afternoon. Two other men were in the room at the time, police reports said, but no charges had been filed at 1 o'clock.

### MACK WINS COURT FIGHT.

HOUSTON, Aug. 12.—Emerging from a legal tangle of more than a score of suits filed in connection with the Mack Manufacturing company, \$2,000,000 oil field supply manufacturing concern, President J. O. Mack today had full power to act as trustee, following a court decision rendered here last night.

### NO, SUH! WON'T WUK FOR KLAN!

BONHAM, Texas, Aug. 12.—Ku Klux Klansmen experienced some difficulty here last night in getting the trenches dug to cook meat for their barbecue, in connection with an initiation. General sentiment among the negro population seemed to be to "let George do it." "George" finally proved to be white men. Klansmen from Dallas, Greenville, Paris, Sherman and other nearby towns attended the ceremonies. A huge fiery cross located on a hill could be seen for several miles. About 100 were initiated into the order. Many beavers were slaughtered for the barbecue.

### HARDING PLAN IS REJECTED BY RAIL WORKERS

Executives Make "Conditional Acceptance" of Seniority Proposal.

WASHINGTON, Aug. 12.—Heads of striking railroad unions shortly after 1 o'clock this afternoon announced that they had agreed on a response to President Harding's latest strike settlement proposal. The response was understood to be a rejection of the proposal to leave seniority of strikers to decision of the railroad labor board, but no statement was made. The decision of the union leaders, it was announced, had been forwarded to the White House by messenger.

Complete Rejection. Heads of seven railroad organizations now on strike were declared by one of their chief officials after the conference, to have decided to reject completely the last strike settlement proposal put forth by President Harding. The strike unions in a written response sent to the White House were said by this official to have told the President they could not call off the strike unless a guarantee was given that all of their men would be reinstated in service with seniority rights unimpaired. The President had proposed that the seniority status of the returning strikers be left to adjudication by the railroad labor board.

Officials of railroad organizations not on strike, including the brotherhoods of operating trainmen, headed by L. G. Sheppard, chief of the Order of Railway Conductors, will go to the White House at 2:30 o'clock to present a memorial. This in written form will be supplemented, Mr. Sheppard added, by verbal representation concerning the strike situation made by union officials. Mr. Sheppard stated that pending their meeting with the President the chiefs of the non-striking unions would have nothing to say.

Executives Also Confer. A committee representing the railway executives will wait on President Harding today with a reply to his proposal for settlement of the rail strike that was described by one railroad official as "conditional acceptance."

What the conditions were he did not state. Railway executives at their New York meeting reached the decision shortly before 7 o'clock Friday evening.

At the same time President Underwood of the Erie, announced that a committee had been named to go at once to Washington to confer with the President, and that a message would precede the committee.

Underwood declined to make known the nature of the message or the subjects which the committee intended to bring up with the President. He even declined to tell James Pendegast of Marion, O., a close friend of President Harding.

Rail Boss Unhappy. There were indications, however, that some sort of counter proposal had been decided upon, for when Pendegast asked Underwood what he was doing "sitting there alone," Underwood was overheard to reply: "Witnessing the defeat of my forces."

Underwood previously had expressed himself opposed to the Harding plan for restoration of strikers, with the question of seniority left to the labor board.

### PRESIDENT ABANDONS STRIKE LEGISLATION IDEA

WASHINGTON, Aug. 12.—President Harding was said by administration advisers today to have abandoned, temporarily at least, his plan for asking legislation of congress to deal with the railroad strike situation.

Conditional acceptance by the railroad executives of the President's latest proposal was declared to have been the controlling factor in the President's change of plans regarding legislation. In view of the executives' attitude, the President, according to advisers who conferred with him, was said to believe that any immediate legislation by congress now was unnecessary.

Mr. Harding, it was stated, in changing his plans to advise congress on the strike situation upon return of the house membership next week, still desires to have a large membership of the house in attendance in case the railroad strike would take a more untoward turn.

### LUXURIOUS TRAINS STRANDED IN DESERT

Trainmen on Southern Pacific and Union Pacific Join in Walkout as Protest Against Guards; Fruit Losses Enormous

Strike of Big Four brotherhood members today spread to the Southern Pacific railroad, interrupting another great artery of communication with the Pacific coast. The tie-up of the Santa Fe continued.

Fifty million dollars worth of California fruit may be a total loss through inability of the roads to transport it.

The strikes of brotherhood members in protest against the use of armed guards by the railroads in the shoppens' strike was expected to spread.

Hundreds of passengers marooned aboard stalled trains in the desert region of California and Arizona, were awaiting rescue by motor stage. Motor trucks

also will probably be used to carry mails.

Representatives of the railroad executives were to see President Harding at 4:30 eastern standard time and hand him their reply to his proposal for settlement of the strike. The latest Wall street report is that the executives will accept the proposal with unimportant qualifications. What action the unions will take towards the President's proposal is unknown, although it has been forecast they will refuse it.

The executives' meeting in New York agreed on a conditional acceptance, which includes counter proposals and named a committee to submit it to the President. Railroad labor chiefs meeting in Washington, seem determined to reject the President's proposal.

### HUNDREDS ENJOY WATERMELON FEAST OF CHAMBER OF COMMERCE

"You have here, in and about Ranger, all the essentials to develop an important economic unit as part of the country's industrial system," Peter Molyneux, of the Fort Worth Star Telegram told several hundred persons, including many women and children, attending the big open air meeting of the New Chamber of Commerce last night at Shamrock Park. The speaker stressed the importance to this city of the cheap fuel and raw material available. Mr. Molyneux as principle speaker of the occasion was introduced by President O. D. Dillingham of the Chamber of Commerce.

Although the musical numbers on the program were not available last night, their lack was made up by the individual concerts presented during the watermelon feast following the speaking, by those adhering to the old method of face-to-rind eating. The park was well lighted for the occasion and the temporary seats were filled to overflowing with many seated in cars. Fifty-five cold watermelons were served under the direction of J. S. Echols who had an imported Georgia negro and watermelon expert on hand to do the slicing. Lumber for the seats was donated by the Burton-Lingo company.

Stresses Agriculture. The program was opened by Secretary Ernest G. Albright who spoke on the future of Ranger and urged that the city turn its attention to the agricultural interests, stressing the importance of poultry farming, fruit growing, truck farming as well as cotton production.

John W. Thurman of the Peoples State Bank spoke on confidence in the banking situation and declared that the banking and business conditions had shown marked improvement of late.

Dr. W. C. Palmer, president of the Lions club, made a talk on the need of more homes and sidewalks in the city. Dr. A. N. Stubblebine of the Presbyterian church talked on new and old faces in Ranger and pointed out that many former residents had returned to Ranger to make their homes here again. Mr. Dillingham explained the New Chamber of Commerce policies to the gathering and their effect and importance in the upbuilding of the city.

Mr. Molyneux, who followed Secretary Albright on the program, held the close attention of the crowd in his presentation of the fundamental economies of modern industry. He said in part:

### CULBERSON TO STAY OUT OF FIGHT ON FERGUSON

SAN ANTONIO, Aug. 12.—United States Senator Culberson will be no party to an effort to have former Governor Ferguson's name taken off the ballot at the runoff primary. He wired this statement to Judge John W. Gaines, who considered bringing an injunction proceeding to eliminate Ferguson's name. Culberson declared that he will stand by the Texas Democratic party, whose leaders have decided to let Ferguson's name stand on the ballot.

### Comments Gas Statistics

"You have here in and about Ranger all the essentials to develop an important economic unit as part of the country's industrial system. I was interested in what was said about your gas supply and to learn that your Chamber of Commerce is to compile all the facts available in relation to it. That's the kind of thing you must work on, for the whole economic process consists in the application of capital and skill and knowledge to natural resources in the production of the things we all use. Gas is a cheap fuel that can be utilized to develop your other natural raw materials, like cement, for example, and by all means you must know what you have here in that respect."

He declared that in spite of depressions and talk of hard times, the standard of living of the average man in the United States today is the highest in the world and the highest in all history. He cited figures to prove this, showing that whereas during the year before the world war the United States produced in goods of all kinds about \$1 per person for each day in the year, Australia produced only 72 cents, the United Kingdom 67 cents, Canada 54 cents, France 51 cents, Germany 40 cents, Italy 31 cents, Austria-Hungary 28 cents and Spain 15 cents. He pointed out also that in this country in 1880 the production per person for each day in the year was 40 cents, in 1870 it was 29 cents and in 1850 it was 26 cents.

"The average man does not realize," he said, "just at what a high standard we live. Compared with the average man of other countries and with our grandfathers we live in luxury."

Molyneux outlined the elements that make this possible and pointed out how essential it is to use these elements efficiently to keep up the standard of living in the United States.

"There is one element that is not considered by economists, which is the very driving force of progress," he said. "That element is faith. I saw many very tangible evidences of somebody's faith in Ranger this afternoon. Every fine building in your city is the embodiment of somebody's faith in its future. Faith must be the foundation of your program. With the other elements you have here, and a faith based upon a knowledge of what you have, you are bound to build an important community."

### AMERICAN AVIATOR SEIZED IN MEXICO WITH BOOZE PLANE

By FREDERICK NEUMEIER, United Press Correspondent. MEXICO CITY, Aug. 12.—Irving Davis, an American aviator, has been arrested by Mexican authorities while trying to fly across the border near Laredo, Texas. Officials allege they found 12 cases of whisky in the plane. Finance Minister De La Huerta announced the plane would be confiscated.

### AUTOS SENT TO RESCUE OF PASSENGERS

Trainmen in Iowa and Illinois Also Refuse to Work on Account of Danger.

LAS VEGAS, Nev., Aug. 12.—Transcontinental traffic over the Salt Lake line of the Union Pacific was completely tied up here today when members of the Big Four brotherhoods refused to handle trains on the Las Vegas division, which extends 296 miles, from Yermo, Cal., to Caliente, Nev.

### TRAINS DELAYED IN IOWA.

OMAHA, Neb., Aug. 12.—Four transcontinental trains on the Chicago & Northwestern, three of which go to the Pacific coast over the Union Pacific after they leave Omaha, were tied up three or four hours at Boone, Iowa, because firemen did not want to man the engines, it was stated at headquarters of the C. & N. W. here today.

### BROTHERHOODS STRIKE FOR ONE NIGHT AT DUPO, ILL.

EAST ST. LOUIS, Ill., Aug. 12.—Members of the Big Four brotherhoods composed of engineers, firemen, trainmen and conductors, went on strike at Dupu, near here, last night, after a reported exchange of shots between company guards, strikers and a deputy constable, but returned to work today pending the outcome of negotiations between railroad officials and representatives of the brotherhoods.

### L. & N. COMPLETELY TIED UP.

EVANSVILLE, Ind., Aug. 12.—Service on the Louisville & Nashville railroad was completely tied up here today, the second day of the walkout of engineers and firemen.

### SHOTS FOLLOW BOMB THROWING IN CALIFORNIA

ROSEVILLE, Aug. 12.—Five bombs were exploded in the yards of the Southern Pacific and the Pacific Fruit & Express company here early this morning.

One of the bombs exploded at 2 a. m. in the rear of roundhouse No. 1. Windows in the building were shattered and the portion of the wall nearest the explosion was wrecked. Three of the bombs tore a great hole in the ground in the east side of the yard near the plant of the Pacific Fruit & Express company.

Immediately following the explosions company guards fired shots in the direction from which the bombs were reported to have been hurled. Answering volleys of shot met their firing. More than 100 shots were exchanged. United States Marshal Sullivan was struck down by a bullet, according to word reaching here following the skirmish. The extent of his injuries was not learned.

### AIR HOSE ON KATY TRAINS FOUND CUT AT DENISON

DENISON, Aug. 12.—The first report of disorders here in several days was received by Colonel Nimon, commander of the martial law zone, when the Katy railroad reported that several air hoses on a freight train at Ray yards were found cut. The train was delayed while the hose was replaced. Guards on duty at the stockade surrounding the Katy car shops during the night fired at a man who was trying to climb over the fence, the officers today reported.

### NEFF CONSIDERS OPEN PORT LAW FOR TEXARKANA

AUSTIN, Aug. 12.—An official report on the railroad strike situation at Texarkana is expected today from Ranger Captain Lampkin, who was sent there several days ago to investigate the strike conditions, and action by Governor Neff on the report will be taken immediately, state officials said today. The governor has been contemplating applying the open port law to Texarkana for several days, it is understood.

AUNT HELD FOR  
MOCK MARRIAGE  
OF YOUNG NIECE

CHICAGO, Aug. 12.—Anna Shelo,  
15 years old, is the central figure to-  
day of a strange story involving al-  
leged collusion between a young man  
and the girl's aunt in a mock mar-  
riage ceremony, a flight to Ohio and  
a serious charge.

The young man in the case is  
James Fatigati, 21, son of a wealthy  
farmer in Urichsville, Ohio. He is  
under arrest there at the request of  
Chicago officers.

The aunt, Mrs. Palma Shelo, 50,  
of Chicago, is under arrest here. She  
is charged with having contributed to  
the delinquency of her niece. The  
same charge is lodged against Fati-  
gati.

On the night of Nov. 12, of last  
year, according to the girl's story,  
her aunt called her over the telephone  
at the home of her father, Joseph  
Shelo. She asked the girl to come to  
the house. Upon arriving there she  
found young Fatigati, she said. There  
were drinks and the girl became un-  
conscious. Awakening she found her-  
self with Fatigati in Urichsville, she  
asserts.

She begged to be brought to Chi-  
cago and two months later Fatigati  
brought her here on condition that  
she would involve her father in the  
charges, she declared. He deserted  
her, it is alleged, at the Illinois Cen-  
tral station. She appealed to her  
father, unfolding her story to him.  
He swore vengeance, and after a fu-  
tile search of months appealed to po-  
lice.

Records show that Nov. 12 a mar-  
riage license was issued to Fatigati  
and Annie Shelo, 18. The clerk at  
the county building said he was sure  
that the 15-year-old girl was not the  
one who came with Fatigati, and  
Judge Harry McEwen said he re-  
membered having performed the cere-  
mony, but that he was sure the girl  
was of age. The Shelo girl is notice-  
ably under age.

CHILD DIES FROM BURNS  
RECEIVED PLAYING WITH OIL

TAYLOR, Texas, Aug. 12.—With  
her little body enveloped in flames  
and fleeing with fright from all pos-  
sible assistance, Adeline, 6, daughter  
of Mr. and Mrs. Ferdinand Poldrack,  
sustained burns that caused her death  
a few hours later. She and some  
children were playing with kerosene  
and matches that Mrs. Poldrack had  
used in her washing, when a sudden  
gust of wind blew toward the child,  
igniting her clothing, and choking  
her with flames.

TWO PROHIBITION AGENTS  
SHOT IN WHISKY RAID

KEMMERER, Wyo., Aug. 12.—  
James Harris and R. F. Lacey, fed-  
eral prohibition agents, are in a local  
hospital suffering from bullet wounds  
following a gun battle with bootleg-  
gers at Fossil, west of here.

The officers had purchased liquor  
from several alleged bootleggers in  
the town and were planning arrests  
when attacked. The outlaws took the  
whisky from the officers after dis-  
abling them and escaped.

Six Men Must Die for One Murder

This photograph might be of six successful business men of any well-regulated city. But in reality it is of six men who are doomed to die for murder. The men were plotting to rob a bank at Anita, La., and were over-  
heard by Dallas Calmes, a New Orleans restaurant keeper, who gave the alarm. One shot was fired, and Calmes  
fell dead. The men were arrested and convicted. From left to right they are: Joseph Rini of Chicago, Andrea La-  
rantia of Chicago, Joseph Giglio of Brooklyn, Roy Leons of Brooklyn, and Joseph Bacchio and Natali Deamore  
of New Orleans.

MOTORLESS AIRPLANES MAKING  
SUCCESSFUL FLIGHTS IN FRANCE

By Associated Press.  
CLERMONT, Ferrand, France, Aug.  
12.—Optimism over the future of mo-  
torless flying prevails at Camp Mouil-  
lard, where the "gliders" contests un-  
der the auspices of the first interna-  
tional experimental congress of mo-  
torless airplanes began Saturday, to  
continue until Aug. 20.

The builders, pilots and officials  
living in the canvas city, near the top  
of Mount Combegrasse, are sanguine  
that machines propelled by manpower  
or merely by the wind are destined to  
make as much progress in the next  
20 years as the gasoline-motored  
planes have achieved since the Wright  
brothers made their test flights at  
Kittyhawk, N. C.

Maneuvers 3,000 Feet in Air.  
General Large, commanding the  
Thirteenth army corps, whose soldiers  
are patrolling the camp, pointing to  
a "glider" piloted by Lieutenant Trot-  
ter, maneuvering 3,000 feet above the  
camp, dipping, looping and volplan-  
ing, said:

"Anyone prophesying this 15 years  
ago would have been interned in a  
lunatic asylum."

A pessimistic note, however, was  
struck by a French peasant harvest-  
ing in a nearby field. After watch-  
ing a Caudeton-Chardon machine fly  
for four minutes, he said: "It can't  
be done." And, prodding his team of  
oxen, he lumbered away.

Fifteen of the motorless airplanes  
which are entered in the contests have  
arrived and some of the machines al-  
ready have made successful unofficial  
flights. An American monoplane en-  
tered by the Aeronautical Engineering  
society, is being held up in some rail-  
road yard between Clermont Ferrand  
and Havre, from which latter port it  
was shipped eight days ago. Edmund  
Allen will pilot the American plane.

"Stiffs" and "Flappers."  
The gliders already at Camp Mouil-  
lard include machines with the flap-  
ping wings of the bat and types re-  
sembling the flying fish which are  
propelled by human muscular motive  
power and wind-propelled sailing  
planes with canvas wings, mobile and  
stationary. The machines are of the  
monoplane, biplane and triplane  
types. Those with stationary wings  
are called "stiffs," and those with  
mobile wings "flappers."

A Swiss designed, stationary, thick-  
winged monoplane manufactured by  
Francis Chardon and piloted by M.  
Guendet, remained in the air four  
minutes, covered about a mile and  
three-quarters in a half circle with a  
loss in altitude of about 300 feet.

"A flapper" parasol machine, built,  
piloted and propelled by Daniel Mon-  
tagne of France, covered about 200  
yards at an altitude averaging be-  
tween six and 10 feet. It landed be-  
cause the human motor gave out. The  
wings of this machine are worked by  
a contrivance somewhat similar to  
that used on the chainless bicycle.

Most of the pilots and builders on  
the ground express the determination  
to break the records for duration in  
motorless flight held by Harth, of  
Germany. This record is 21 minutes.  
One hundred thousand francs will be  
distributed among the winners.

AUTO FLOPS TWICE;  
SIX TOTS ARE UNHURT

MEXIA, Aug. 12.—A large Over-  
land touring car, driven by a young  
son of City Commissioner J. L. Riddle,  
turned over twice on the Frost pike  
in Navarro county, with six small  
children, none of whom were injured.  
The car landed in a ditch alongside  
the road on all four wheels, but was  
badly demolished.

WESTERN UNION ALLOWED USE  
OF MIAMI-BARBADOS CABLE

By Associated Press.  
WASHINGTON, Aug. 12.—The re-  
quest of the Western Union to open  
the Miami-Barbados cable for emer-  
gency use for transmission of mes-  
sages to Europe was granted today  
by President Harding.

OIL BRINGS RICHES  
TO PIONEER CHURCH

PIONEER, Aug. 12.—The latest  
gusher in the Pioneer field, the Block  
28 townsite well of the Drury Pe-  
troleum company, has enriched the  
First Methodist church of this city.  
The well came in this week for a daily  
flow of 700 barrels and the church  
owns a one-twelfth interest in the  
production.

Moore No. 1 of the Sims oil com-  
pany, on the northeast side of the  
field, has been drilled in and is re-  
ported to be making 300 barrels daily.  
In the southwestern part of the  
field the Shipp No. 1 of the Gulf Pro-  
duction company, regarded as one of  
the most important of the tests in  
the field, has reached a depth of 3-  
000 feet and will be drilled on down  
in search of the Hilburn sands.

Hill No. 3 of the Duquesne Oil cor-  
poration, which came in recently for  
300 barrels, has gradually increased  
its flow until it is now reported to be  
making 600 barrels daily.

EASTLAND WELL IN,  
MAKING 400 BARRELS

EASTLAND, Aug. 12.—The East-  
land Oil company Martin No. 5 came  
in Friday with an estimated produc-  
tion of from 300 to 400 barrels per  
day.  
The sand was struck at the usual  
depth of about 3,000 feet. This well  
is south of the Martin No. 3 and  
north of the Burckett No. 1 of the  
Eastland Oil company.

NORFOLK, Neb., Aug. 12.—William  
Jennings Bryan on his arrival here  
got a real hair cut for the first time  
in years. The Commoner declares he  
has felt better since he had his locks  
shorn. Bryan for many years wore  
hair long.

DOG HILL PARAGRAPHS  
By GEORGE BINGHAM

Sidney Hocks mounted his new  
mule Sunday morning, dressed in the  
height of fashion, and expected to  
create quite a flutter of admiration,  
but his mule kicked up so much dust  
nobody could tell who Sidney was.

Sile Kildew, who worked all last  
week, has had his money changed into  
dollar bills, and temporarily is one of  
our most financial citizens.

Atlas Peck got his mind confused  
last night while reading two different  
advertisements of rival stores at Tick-  
ville.

CAVEMAN TACTICS FINALLY WON HER

Caveman tactics won the heart and hand of Mabel Sandberg of Jamaica,  
L. I., for Charles A. Lindsay, but the job was slow. Early in 1921, before  
she knew she loved him, Mabel had Lindsay arrested on the charge that he  
had forced her to accompany him to Newark, N. J., where, he said, they  
were to be married. But Mabel got to a telephone and told her father. The  
Newark police got Charles, who had a gun in his pocket, and he spent 17  
months in jail as a result. Now she realizes she loves him, and she met him  
at the prison door when he was released and told him she would marry him.

EIGHT MEMBERS  
OF DENBY PARTY  
RETURN TO U. S.

SAN FRANCISCO, Aug. 12.—Eight  
of the sixty members of the United  
States Naval academy of 1881, who  
have been attending a reunion of the  
class in Tokio, have returned to this  
country on the United States trans-  
port Logan. Secretary of the Navy  
Denby, a member of the class, and  
the rest of the party are expected  
to arrive here on the transport Hen-  
derson about Sept. 1.

The members of the class who ar-  
rived Sunday were unanimous in  
praising the cordiality and hospitality  
of the Japanese people in receiving  
them.

Judging by the tone of public ad-  
dresses they heard and the attitude  
of the people generally, the members  
of the party were convinced, they de-  
clared, that Japan intends to carry  
out in spirit as well as letter the  
agreements reached at the Wash-  
ington conference.

With the docking of the Logan  
Sunday and the landing of her dis-  
tinguished party the final chapter  
was written on the log of the old  
transport. She is to be placed out  
of commission. The Logan's service  
record extends over a period of twen-  
ty-five years.

LOVE FOR WIFE  
LANDS FUGITIVE  
IN CHICAGO JAIL

CHICAGO, Aug. 12.—With the ar-  
rest Sunday of Peter Gusenberg, for  
sixteen months a fugitive in the  
\$400,000 mail robbery at Dearborn  
street station, federal agents re-  
double their efforts to find Harold  
"Fatty" Watkins, last of the alleged  
bandits accused with "Big Tim" Mur-  
phy in the sensational robbery.

Gusenberg's love for his wife land-  
ed him behind the bars. For eleven  
nights United States sleuths, tipped  
that he would visit her, waited with  
city detectives. At 3:30 Sunday  
morning Gusenberg slipped into the  
house and was arrested.

A new hunt for Watkins started  
Sunday. "We'll get him," declared  
A. E. Germer, postal inspector in  
charge. "We always get them sooner  
or later. It takes months, sometimes  
years, but they all know that federal  
detectives are hunting them relent-  
lessly. We'll get Watkins and that  
will clean the case."

A swift trial for Gusenberg will be  
sought. He escaped after the big  
mail robbery in April, 1921, by the  
simple expedient of walking away  
from a deputy marshal after arraig-  
ment before Judge Landis.

Wood, stone, stucco or brick build-  
ings are about equally likely to be  
struck by lightning.

MURDER INDICTMENT  
FOLLOWS SHOT AT BOYS  
FIRED SIX YEARS AGO

WEATHERFORD, Aug. 12.—Earl  
McKinney of Mineral Wells will go  
on trial in the district court in Quit-  
man, Wood county, Sept. 18, accord-  
ing to his attorneys in this city, on a  
charge of murder alleged to have been  
committed six years ago. The case  
is unusual inasmuch as he was not in-  
dicted until last April, although the  
grand jury which met immediately  
after the killing failed to find a bill,  
and succeeding grand juries have  
never returned an indictment. Ac-  
cording to his attorney, McKinney  
was farming in Wood county, and one  
night took a shotgun and fired at ran-  
dom in order to scare some boys or  
young men who were supposed to be  
raiding his watermelon patch. One  
young man was struck by shot or  
bullets and died shortly after.

TEGAN CHOSEN HEAD OF  
COTTON BELT RAILROAD

ST. LOUIS, Aug. 12.—Daniel Up-  
thegrove has been elected temporary  
president of the Cotton Belt railroad,  
it was announced at the road's head-  
quarters here today. He succeeds  
President J. M. Herbert who died a  
week ago. Upthegrove is a native  
Texan.

MAN IS KILLED BY BLOW  
ON CHEST WITH A ROCK

COVINGTON, Ga., Aug. 12.—Struck  
on the collarbone by a rock, S. W.  
Ott is dead here and Will Weldon is  
under arrest, charged with throwing  
the rock.

According to witnesses, Weldon  
threw the rock when Ott advanced on  
him with a knife. Ott is said to have  
died within five minutes after being  
struck.

TEGAN CHOSEN HEAD OF  
COTTON BELT RAILROAD

ST. LOUIS, Aug. 12.—Daniel Up-  
thegrove has been elected temporary  
president of the Cotton Belt railroad,  
it was announced at the road's head-  
quarters here today. He succeeds  
President J. M. Herbert who died a  
week ago. Upthegrove is a native  
Texan.

what you want—if not, let me put in an ad of your own. That's  
bound to get results.

A WANT AD IN THE DAILY  
TIMES IS THE ANSWER

## PARIS PRAISES OLD-TIME WAYS OF MATHILDE

By Associated Press.  
PARIS, Aug. 12.—The French newspapers are devoting much space to stories and pictures of Mathilde McCormick. She is called "the richest girl in the world," and there is much comment on her plain dress and modest deportment.

Le Journal says:  
"She is not a spoiled child of fortune. She is not the familiar type of the American girl often presented in the movies. She is neither sporty, nor athletic nor ill-mannered and self-assertive. She is the gentle, sentimental, old-fashioned girl we used to love."

"She is brave enough to face notoriety and love the man of her choice, no matter how humble. Let her go meet Prince Charming in Switzerland and disappear forever as Mrs. Max Oser. Surely there would have been no objection to the union had she attempted to contract a vulgar marriage with a broken down prince."  
During Miss McCormick's stay in Paris her father, Harold F. McCormick, has shown her much affection, driving her about in public taxis, showing her the sights, with his arms about her.

## QUITS HUSBAND'S BIER TO LEAP FROM WINDOW TO STREET

NEW YORK, Aug. 12.—Leaving the bier of her husband, Mrs. Ada Kiers, 50, of Brooklyn, ran to the rear window of her apartment and leaped to the street. She suffered a fracture of the skull, and was taken to the Kings county hospital.

Since the death of her husband, John, Mrs. Kiers had remained in the room with the casket. Frequently she would kneel for half an hour at the side of the body. She was unconscious when taken to the hospital. The funeral services of the husband were held shortly afterward.

## EUGENE O'BRIEN, MOVIE STAR, IS SERIOUSLY HURT

By Associated Press.  
LOS ANGELES, Aug. 12.—Eugene O'Brien, a well known motion picture actor, is in a critical condition at a Hollywood hospital today with internal injuries and a possible fracture of the skull as a result of having been run down by a motor truck last night while walking on a highway in the Hollywood hills. The Japanese driver of the truck, who said he did not see O'Brien walking, hurried the actor to the hospital.

Michigan leads the world in the manufacture of automobiles.

## World Weary Vets Seek Simple Life On Pacific Isle

By Associated Press.  
LONDON, Aug. 12.—Discouraged at the outlook in this country, dissatisfied with the after-war Britain, but actuated mainly by a love of adventure, about a dozen engineering students of Loughborough college are setting out on Sept. 1 for an uninhabited Pacific island belonging to Ecuador.

Most of them are ex-officers. Among them is an author, D. L. David, who wrote "Ya Brot." He expects to find in the new settlement work for his pen as well as his hands. A 90-ton vessel is being made ready for the expedition.

The chief means of existence they hope to find by utilizing the resources of the island itself; the development of fruit-growing and the breeding of cattle.

All hands will be required to work, although climatic conditions, it has been ascertained, are ideal and all they will need for food can be obtained.

ed without working, if they are content just to "loaf" and invite their souls."

Their destined home, the adventurers say, is about 500 miles from the Panama canal.

## LONE ROBBER HOLDS UP NEGROES WHILE IN CHURCH

BRISTOW, Okla., Aug. 11.—A lone robber held up the congregation in the Church of God in the negro section here Wednesday night. Entering while members of the church were giving religious testimonials, the bandit rifled the collection box and took a watch from the pastor. He escaped. Members of the church said he was a masked white man.

## DON'T WORRY ABOUT EMPLOYMENT IN FUTURE

The Publishers' Typesetting School at Macon, Ga., can solve the problem for you. Write for information.

To be sure of a chance to earn a living should be your chief consideration. Without it, your wife will be a failure. To have a trade or profession is absolutely essential unless you are to live from hand-to-mouth—unless you are to be uncertain at times whether you can get the necessities for existence.

The course of study in the typesetting school at Macon, Ga., is getting remarkable results. The diploma is accepted in the trades as the equivalent of an apprenticeship. The publishers of this paper will gladly advise with you if you want to go into the work. Write TYPESETTING DEPARTMENT, GEORGIA-ALABAMA BUSINESS COLLEGE, MACON, GA.—Advertisement.

## THE ART OF PRINTING

**O**RIGINALITY IN PRINTING nowadays is one of the most difficult of qualities to attain. You must use the types and blocks and papers and colors which have been in use for ages; hence it is extremely unlikely that rearrangement of all of these things in a manner admittedly satisfactory and at the same time quite original can be achieved by those lacking experience.

It requires years of thought and study to master the art of printing. Novices can "print" in a way, but compare the product with that of a student of the work.

We claim to have mastered the art, and take pride in the fact that our work cannot be equalled by the ordinary printer. Of course, it takes money to manufacture a product of quality, the same as in any other line. Our prices are made up to quality, not down to price.

Phone 224 for Quality Printing.

**RANGER DAILY TIMES**

## They Overlooked the Diamonds

**T**HERE is a modern flippancy to the effect that, "What you don't know won't hurt you." It is also a fallacy. For instance:

The farmers of Kimberley were a disgusted, disheartened lot. They said the soil was too rocky to earn them a living. Some of them left. Others died in poverty. And all the time their children were playing with diamonds.

But the farmers didn't know. They thought the price-less gems were pebbles.

Don't be like those Kimberley farmers. Know!

Don't seek opportunity in some distant place and overlook the diamonds that are daily within your grasp. Know!

Advertising is a mine of opportunity. It tells of values you wouldn't know about if it were not there to guide you.

The secret of economical buying is information. The man or woman who is best informed is the one who buys to best advantage.

Read the Advertisements. Know!

SPORTS

WIRED PLAYING GIVES STAMFORD OPENER, 10 TO 8

Slim Thomas, making his debut before a home town crowd, was nominated as a loser yesterday by a third-round comedy interlude in a ball game, during which the Nitros grasped the ball as firmly as if it were a frisky pup they were trying to pat on the head. Their misdeeds in this round netted Stamford six runs, which proved enough to edge over a 10 to 8 victory in a slugging match.

Thomas, due to his teammates refusing to retire the side at various times, was hit freely, but Dutch Meyer, the collegian spitballer who had a tryout this year with the Indians, was given one of the most vicious lacerations that ever fell to the lot of a winning pitcher. Homers, triples and doubles caromed off Nitro bats, to the total extent of 17 knocks for 28 bases. But the Colonels never failed to field flashily, in the pinches and out, and the great majority of Nitro knocks were wasted.

Good at Start.

The Nitros got away good, taking a lead on a homer by Pyle to center field in the second round, and retaking it after Smith's triple had given Stamford the tying run in the third. White's single in the same inning, followed by Craig's triple and a wild throw to the plate that allowed Dude to make the circuit had given the Nitros a goodly edge when the Nitros skidded into the ditch. Be it said in their behalf, they did it completely, but without a sign of nervousness or a blowup at any time; just a steady succession of muffs and things that enabled the Colonels to trickle over the pan, one run at a time.

Leedy started it when he ran back into right field and prevented Pyle taking a fly, after one was down. A clean hit by Dinsmore and a drive by Williams that bounded badly and tried to brain Ammons filled the bases. White—who played a sterling game at shortstop all through the engagement—stopped the rap with one hand, but had nowhere to throw it. Then Nitro fozzles began. Clayton dropped Ammons' throw to the plate for a forceout. Leedy dropped a toss from White. Ammons let a drive get through him. A snap throw by Thomas caught Smith off first and a double steal resulted. As a final clincher, Stewart doubled left and drove in the final run of an inning which was so ridiculous that it couldn't be tragic. The Colonels should not have scored at all.

Wildness Helps.

After the sixth, the Nitros pestled freely but unavailingly, except in the eighth and ninth. In the eighth Meyer lost control, passing Conley and after three hits walked White, forcing a run across the plate. A high ball that would have walked Dockery for another run was called a strike by Knadler and averted an interesting situation—Pyle up with the bases jammed. In the ninth, Leedy singled and Conley parked the apple, for the Nitros' last two runs.

The Colonels added to their lead in the fifth on the celebrated third-out play made famous at Lubbock, about which there was quite a good-humored argument. In the eighth, they reached Thomas for what proved to be the winning runs, on a single, triple and sacrifice fly.

The Nitros are somewhat shaken up by the absence of Brooks, who was hit under the eye by a bad bouncer in Friday's game at Sweetwater. He will be out for several days.

Score: Stamford AB. R. H. PO. A. E. McElwee, rf-c 5 3 2 1 5 0 0 Stewart, cf 4 1 3 4 0 0 0 Baker, lf 5 0 1 3 0 0 0 Schmidt, c 4 1 1 1 0 0 0 Appleton, rf 1 0 0 0 0 0 0 Dinsmore, ss 5 1 2 3 5 1 0 Williams, lb 5 1 2 11 1 0 0 Moore, 3b 4 1 0 1 2 0 0 Meyer, p 4 0 0 1 0 0 0 Totals 42 10 13 27 13 1

GREENVILLE BLANKED IN FOURTH OF SERIES

GREENVILLE, Aug. 12.—In one of the most brilliant pitching duels ever staged in the T-O league, between "Nellie" Gray, the pride of Paris, and Lefty Coop, reputed the best left-hander in the circuit, the Paris Snappers finally won out in the eighth and ninth frames when they counted four runs, the only tallies marked up by either club. Both hurlers were backed by spectacular fielding.

HUBBERS POUND PILL. SWEETWATER, Aug. 12.—Lubbock pounded Gressett for 21 hits Friday and won, 12 to 5. Sweetwater fielded miserably. The game was close until the eighth, when Lubbock put over six runs.

EAGLES WIN DUEL. ABILENE, Aug. 12.—After seven scoreless innings in which each team made but two hits, the Eagles got to Ray for three runs in the eighth, and won, 3 to 2. The rally gave barely enough to stave off the Brones, who came back in the ninth with two, and Ward averted a tie by fanning Meade, a pinch hitter, for the final out.
