SENATE TO OPEN BONUS DEBATE ON WEDNESDAY

Fight for Immediate Consideration of Measure Defeated; Senators Want Rest.

WASHINGTON, Aug. 19.—The soldiers' bonus, as a consequence of the passage of the tariff bill today became the pending legislation before the senate. The bonus measure was laid before the senate automatically but debate was deferred until next Wednesday, the senate taking an adjournment to give members a brief rest after the tariff fight.

A number of senators objected strenuously to even a brief recess. Senator Robinson, Democrat, of Arkansas, led a fight for immediate consideration of the bonus measure beginning next Monday, but his motion to adjourn until Monday was defeated, 48 to 18, and the senate adopted a motion of Senator Lodge of Massachusetts to adjourn until Wednesday. On both motions all party lines were broken and the roll call gave no test of strength between advocates and opponents of the bonus measure, a large number of the former being in favor of the Lodge motion, on which the vote was 46 to 16.

When the senate reconvenes Wednesday it was said that an effort would be made to adjourn again until the following Monday but there was doubt that such a motion would prevail over the wishes of bonus advocates.

HOOVER SEEKS TO LOWER OHIO COAL PRICES

WASHINGTON, Aug. 19.—Immediate action for the proper protection of the public in the price of coal mined in Ohio was asked of Gov. H. L. Davis today by Secretary Hoover. In a telegram to the Ohio governor, the commerce secretary declared that coal operators in that state would welcome some sort of voluntary arrangement for establishing their prices in Ohio.

"I am informed," Hoover said, "that mines now opening under the Cleveland agreement in Ohio are demanding from \$7 to \$10 a ton for coal." Mr. Hoover recalled that under the Garfield scale the average price for mine run coal in the Pittsburgh district was about \$2.50 a ton but added that the recent wage scale represents a large increase over the basis of pay at the time the Garfield scale was fixed. However, he added, in Kentucky where \$4.50 a ton has been allowed as a maximum fair price, production costs are higher than in Ohio.

West Virginia was brought into line with Kentucky prices today by Fuel Administrator Spencer, who allowed coal operators in that state a maximum of \$4.50 a ton at the mine. The previous fair price prevailing in that state was \$3.50. With the enactment of legislation as suggested to congress by President Harding for the creation of a federal coal purchasing agency, some officials believe that volunteer fair prices probably will approximate about \$4.50 a ton at the mines, unless production reaches a point where charges would drop automatically.

CHILDREN FLOCK TO FAIRY TALE PICTURE

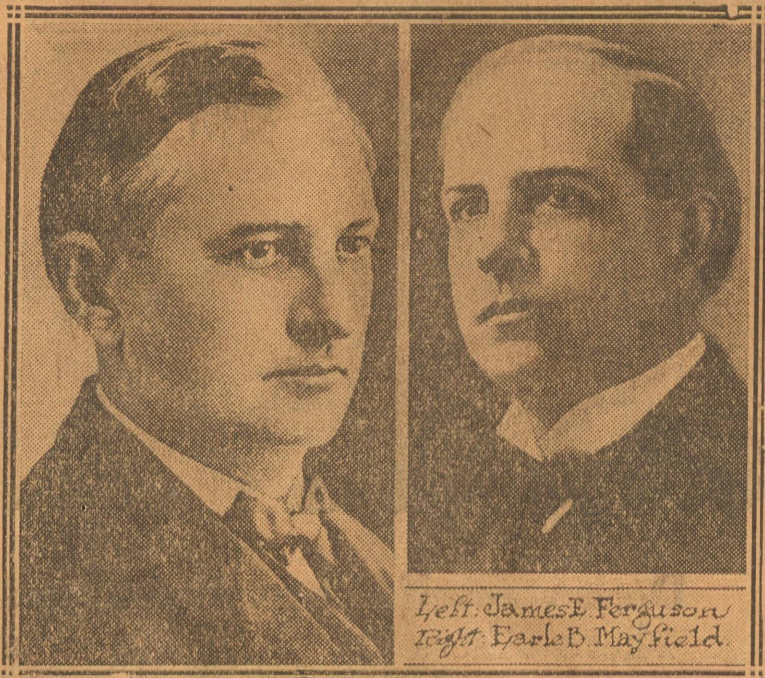

Several hundred children, many of them accompanied by their parents, were present at the Liberty theatre this morning to see "Jack and the Bean Stalk," the first of the children's pictures sponsored by the Junior Red Cross chapter. Following the picture there was a singsong led by Ernest G. Albright of the New Chamber of Commerce. The entertainment lasted from 10 until 12 o'clock.

According to the recent announcement other pictures for children are to be sponsored by the Junior Red Cross as part of their program this fall. The pictures, it is explained, are on the same financial basis as others shown in the theatre and the organization derives no financial benefit from the exhibitions.

WIND BLOWS ROOF FROM ABILENE GRANDSTAND

ABILENE, Aug. 19.—A high wind, accompanied by a shower of rain this afternoon blew the roof off the grandstand at the West Texas fair grounds here and also demolished some of the cattle sheds there. Apparently the rain was very heavy north of here.

Contestants in Senatorial Race

Left: James E. Ferguson
Right: Earl B. Mayfield

Former Governor James E. Ferguson, runner-up to Mayfield in the senate race, is seeking the nomination in the Aug. 26 primary on a platform including opposition to the Ku Klux Klan, favoring amendment of the Volstead act to allow light wines and beer, "if the people want it," and upholding union labor. Mayfield is said to have the backing of the Klan but denies he is running as a candidate of that organization. Mayfield's platform includes repeal of the Esch-Cummins act, in order to permit states to fix their railroad rates. Personal attacks have marked the campaigns of both candidates.

RATES OF SENATE TARIFF BILL HIGHEST EVER PASSED IN AMERICA

WASHINGTON, Aug. 19.—The administration tariff bill—officially "the tariff act of 1922"—was passed late today by the senate after four months of debate. It now goes to conference. Senator Borah of Iowa, was the only Republican to vote against the bill, while three Democrats—Broussard, Kendrick and Ransdell—voted for it. The vote was 48 to 25.

Immediately after the passage of the bill, Senator Cummins of Iowa, president pro tempore, announced the appointment of the senate conferees, Chairman McCumber and Senators Smoot of Utah, and McLean of Connecticut, Republicans, and Simmons of North Carolina and Jones of New Mexico, Democrats.

The measure will be returned to the house Monday with a formal request for a conference. "One Issue Disputed." American valuation will be the biggest issue in the conference, but the general belief at the capitol is that the house will yield on this, accepting the senate flexible tariff plan as a substitute.

Chairman Fordney said today he would hold out for American valuation, asking instructions from the house. Under this plan, the house would decide the issue by a direct vote and the conferees would then proceed with their work of adjusting the 2,000-odd points in dispute between the two houses. Fordney thought the work would be complete in a month and the same view was entertained by senate leaders.

This measure, the first Republican tariff measure in 13 years, became an even greater storm center in the senate than did the Payne-Aldrich bill of 1909.

Chairman McCumber of the finance committee, who piloted the measure through the senate, said in a formal statement tonight that it was estimated that the bill would yield more than \$400,000,000 in revenue during the first year it was in operation. This is \$500,000 more than had been yielded by any tariff in the history of the country.

McCumber lauds Bill. Summing up, McCumber said the bill as passed by the senate will: "Insure employment for American labor and the payment of a living wage.

"Permit the establishment and continuance of industries vital to the welfare of this nation.

Louisiana Farmer Put on Trial for Life Before Masked Court

WOMAN BEATEN, LEFT NUDE, BY GIRL STRIKERS

Fort Worth Garment Company Demands Rangers; Says Police Won't Protect.

FORT WORTH, Aug. 19.—How she was seized by woman strikers Thursday morning, stripped of clothing and beaten into insensibility, was recounted to Fort Worth police this morning by Miss Hallie M. Hinkle, 35, an employe of the Miller Manufacturing company here. Miss Hinkle was found in bed at the home of her sister in Dallas and told the officers that she was afraid to return to her home.

Business men of this city, it is announced, will request that state rangers be sent to this city to quell the disorder in connection with the strike of the garment workers at the Miller plant, according to resolutions adopted this morning at a meeting of the Chamber of Commerce. C. D. McCauley, manager of the company, told the meeting that it was impossible to obtain police protection unless the police chief and commissioner were on the ground personally. He recited an instance where one woman worker was attacked by strikers while six policemen looked on and made no move.

According to the story told by Miss Hinkle, she was seized by four women and one man while on her way to work early Thursday morning, thrown into an automobile and taken ten miles out on the Grapevine road. She was then taken from the car, stripped and beaten by the woman leader of the gang with a three-quarter-inch rope bound with wire, she stated. Miss Hinkle claimed that she finally lost consciousness and that when she came to she was at the farm house of a man named Lawrence, who said that he had found her unconscious and nude, lying by the roadside.

GAS PLANT TO BE ERECTED ON MARTIN TRACT

EASTLAND, Aug. 19.—The Producers Oil company of Tulsa closed a contract yesterday for a \$200,000 gasoline plant to be located on the Martin tract of the Eastland Oil company. The plant is to have a capacity of 8,000 gallons daily and will use approximately 5,000,000 feet of gas daily. W. H. Harrison and Charles E. Eddy are at the head of the company. The plant is to be constructed by Forrest E. Gilmore & Co., Tulsa contractors, who will employ about 40 men in the work. It is expected to complete the plant in about 90 days.

MAMMOTH COMPANY PAYS BIG FILING FEE

CHEYENNE, Wyo., Aug. 19.—Incorporation papers were filed with the secretary of state today by the Mammoth Oil company of Delaware, capitalized at \$2,500,000 and ordered to develop the Teapot Dome naval reserve, under a contract secured by the Sinclair oil interests from the federal government. The company paid a filing fee of \$40,000. The land which the Mammoth company will develop was that recently involved in a controversy between the Mammoth company and another, in which the department of the interior invoked the aid of marines to drive the second company off the property which the government had leased to the Sinclair interests.

The amount of the capitalization is a nominal sum only, for under the laws of Wyoming all stock is valued at \$1 a share and the Mammoth company capital stock was divided into 2,500,000 shares.

SEAPLANE AT CHARLESTON. CHARLESTON, S. C., Aug. 19.—The giant seaplane Sampaio Correia, flying from New York to Rio de Janeiro, Brazil, arrived at 5:16 o'clock this evening from Southport, N. C., where last night was spent. The flight was without incident.

"Acquitted" of Part in Murderous Assault; Told Alibi Saves Life.

MONROE, La., Aug. 19.—Samuel Richards, a Morehouse parish farmer, was seized by a band of 15 masked men late yesterday, carried by them into the woods and given a trial before a masked judge and 12 masked jurors, with masked prosecuting and defense attorneys, on a charge of complicity in an attempt to murder Dr. B. M. McKoin, according to reports here late today. He was acquitted and returned to his home.

According to a statement by Richards to county officials, the band swooped down upon him while he was engaged in his farming occupation late yesterday. Upon reaching a secluded spot in the woods near his home, one of the men assumed the role of judge, one was named as prosecuting attorney and one as defense attorney, while the remaining 12 composed the jury. After an investigation which followed the usual court procedure, lasting more than an hour, in which the prosecuting attorney endeavored to connect Richards with the attack on McKoin, a former mayor of Marrouge, La., who was recently fired upon from ambush and his automobile riddled with buckshot, the jury decided the farmer had established a complete alibi and ordered him released.

Richards said he was told his ability to prove an alibi had saved his life. No violence was attempted, he reported to the officers.

LONE VACANCY ON HIGH SCHOOL STAFF FILLED

DALLAS, Aug. 19.—The Ku Klux Klan does not belong in politics but has been dragged into it by opponents of the Klan, Dr. H. W. Evans, imperial kligrapp or secretary of the organization, declared today following a meeting of the officials of the 68 Ku Klux Klan branches of Texas at Klan headquarters here. Evans' headquarters are at Atlanta and he came to Dallas to address this meeting.

"The Ku Klux Klan is not a political body," he said, "and members in Texas have participated in politics as individuals because the Klan was assailed by people who sought to destroy it. The Klan seeks only harmony and good government. Members have been dragged in as individuals because opponents have sought to destroy it through newspaper crusades and through the formation of political organizations seeking to break up the Klan and elect men to office who are avowedly opposed to permitting it to exist.

"The Klan picks no man for office, or should not. The members supported as individuals, the candidates they think best befitted for office. No klansmen are permitted to use his Klan membership for political purposes." Evans said the Klan is a great patriotic institution whose aims and ideals are to teach men to support conscientiously and to love wholly and sincerely their own country.

"The Klan is growing by leaps and bounds, not only in Texas but throughout the nation," he said.

MERCHANTS TOLD HOW TO KEEP RANGER BUYING IN RANGER

"Human psychology isn't so complex that an intelligent group of merchants can't make the citizens of their town do all their buying in the city that supports them," according to Miss Virginia Schmuck, one of the latest entrants in the Retail Merchants' association "Buy in Ranger" contest. Miss Schmuck suggests that the local merchants help kill out-of-town competition by showing originality in window displays, carrying a more complete stock of goods and by showing the public that their prices are as low and their stock and styles better than those of the mail order houses. The letter follows: "The late war gave birth to the popular song, 'Don't Bite the Hand That's Feeding You,' but peace time finds just as great a need for such a slogan. It's Ranger that shelters us and feeds us and pays us our wages, or salaries or dividends, and its Ranger that wants to clothe us and furnish our homes, and supply us in miscellaneous ways. Nothing is more obvious than we owe it to the city that supports us in to turn help support the city and some of us who

PENNSY OASIS JUST A MIRAGE

JOHNSTOWN, Pa., Aug. 19.—The Johnstown "oasis" was only a mirage and tonight Mayor Joseph Cauffiel said he was satisfied with the "action" which followed his edict to saloonkeepers and brewers that they could make and sell real beer.

The mayor was dissatisfied with the dry enforcement machinery and last night he issued his orders and promised not to prosecute any dispenser of pure beer. He said it was his idea to rid the town of bootleggers and sellers of poison liquors.

The "action" which the mayor said pleased him was the arrival here of additional dry agents and the dismissal of O. R. Stiffler, chief federal prohibition agent in this district. Agent C. A. Spragg was placed in temporary charge.

OKLAHOMA MAY PUT GUARDSMEN ON STRIKE DUTY

SHAWNEE, Okla., Aug. 19.—With state troops mobilized at Oklahoma City ready to be rushed here, federal, county and state officers were taking every precaution tonight to prevent possible outbreaks here in connection with the strike of railroad shopmen. Thirty deputies under the direction of United States Marshal Alva McDonald patrolled the streets around the Chicago, Rock Island & Pacific shops, where firing took place early Friday morning. About 30 shots were fired into the shops by unknown persons. Federal officers let it be known that they feared attempts to bomb the shops.

Several members of the Industrial Workers of the World are said to have come here recently to stir up trouble. Warning was given to the citizens of Shawnee in a message issued this evening by Mayor George B. Caruth that unless all persons co-operated with federal and county officers in keeping the peace and stilled agitation, the city would be placed under martial law. Caruth declared the situation has assumed rather serious proportions in the last few days and it seems there are some misguided persons who persisted in violating the law.

OKLAHOMA GUARD ASSEMBLED

OKLAHOMA CITY, Aug. 19.—Members of three national guard companies began assembling at their armory here late today. Guard officials when asked if the movement had any connection with the situation at Shawnee, where United States deputy marshals have been guarding property of the Rock Island road, declined to comment. Col. B. F. Markham, acting adjutant general, declared no order had been issued to the guard. He said that the situation at Shawnee was being watched and that a course of action would be determined later. Governor J. B. A. Robertson, who is at Jay, Okla., declined to comment on the apparent mobilization. He declared over long distance telephone that he would have nothing to say until he had conferred with his officers.

ENGINEERS AND FIREMEN GO BACK TO WORK AT ARDMORE

ARDMORE, Okla., Aug. 19.—Adjustment of differences and the calling off of the strike of engineers and firemen on the St. Louis & San Francisco railroad in the Hugo-Ardmore division was announced here tonight by F. L. Sorrels, local agent.

GOMPERS SAYS HARDING ADDS TO DIFFICULTIES

WASHINGTON, Aug. 19.—Samuel Gompers, president of the American Federation of Labor, expresses belief today that President Harding had added to the difficulties of the present industrial situation by his message to congress of yesterday and likewise had chosen an unfortunate time to present it.

The labor chief in a critical discussion of the President's message announced that his organization would oppose any legislation that would give the railroad labor board power to enforce its decisions or to allow the federal government to punish crimes against aliens, such as those alleged to have been committed during the Herrin, Ill., massacre, while he described the President's proposal for legislation to control coal distribution as "probably impractical."

BANK BANDIT CAUGHT

LOUISVILLE, Ky., Aug. 19.—Arthur Lockard, 35, wanted in connection with a \$95,000 robbery at Kincaid, Ill., Aug. 13, 1921, was arrested here late today. Lockard is alleged to have been a member of a band that assaulted Frank Jones, messenger for the Kincaid Bank & Trust company, and escaped with \$95,000 he was carrying. Lockard's brother, Marcus Jerome, is serving a 20-year sentence for implication in the robbery, local officials said following the arrest.

SCIENCE ADOPTS INDIANS' SYSTEM OF RAINMAKING

Tribes That Set Fire to Prairies During Drouth, Working on Right Idea.

NEW YORK, Aug. 19.—When the early American Indians fired the prairies in time of drouth in the hope of producing rain they were carrying out the principles of artificial rain-making that science now looks upon with favor, according to Dr. D. W. Hering, emeritus professor of physics at New York university.

Whether the Indians learned from long observation of accidental fires that such conflagrations often were followed by rain, or whether there may have arisen a scientist among them as there were astronomers among the ancient Chaldeans, is one of the mysteries locked from the possibility of solution, but it is a curious fact, nevertheless, that these savage tribes possessed a knowledge that present-day meteorologists look upon with respect.

It was James Pollard Epsy, father of the United States weather service and humorously known in the days before the Civil War as "Old Storm King," who first gave scientific support to the practice of the Indians, says Professor Hering, writing in the Scientific Monthly.

Epsy Regarded as Crank.

In those days Epsy was regarded as a crank on the weather, and he gave the jokesmiths of that period the opportunity for many laughs by asking congress for an appropriation to enable him to build large fires over an extensive area, as the Indians did, to see if he couldn't produce rain. After many laugh-producing speeches, congress killed the bill, but before he died, in 1860, "Old Storm King" had the satisfaction of being internationally recognized as a meteorologist and being made head of the meteorologist bureau of the war department, out of which grew the United States weather bureau.

Epsy's theory, according to Professor Hering, and that of the Indians, if they may be considered to have had a theory, was that the fires would cause a great column of heated air to rise to rarer regions and expand. This expansion would be accompanied by a fall of temperature and would condense the vapor in the contiguous air, as well as that in the column. This condensation would liberate enough heat to stimulate the further rising of the central column, and the continuous expansion and cooling and condensation of vapor would eventually precipitate rain.

Sometimes Rain Would Come.

Thirty-one years after Epsy's death the government sponsored General Dyrenforth's rain-making experiments in northwest Texas, but the results were not conclusive, but since that time private rain-making companies have flourished from time to time in the middle west. Sometimes rain followed their efforts: sometimes not.

Now scientists are taking up the matter again, and, according to Professor Hering, they are not hopeless of ultimate success.

One of the processes they favor is the filling of the air with dust nuclei (surface fires such as the Indians used being one method of doing this) and producing jars of concussions that will so disturb the air that water particles will attach themselves to these nuclei and descend in the form of rain.

About 100,000 people bathe daily at Atlantic City, N. J., in the height of the season.

THIS WOMAN WOULD REFORM WORLD

"I made Georgia dry in 1908, helped to make the United States dry, and now I am going to help make the world dry," declared Dr. Mary Harrie Armour.

FRENCH AUTOS SAVE GASOLINE BUT COST MORE

PARIS, Aug. 19.—Gasoline consumption for automobiles is such a serious question here, with gas costing from 55 to 60 cents a gallon, that French tests to develop better carburetion are being continued.

Cars smaller and lighter than those generally used in the United States, recently have averaged about 60 miles to the gallon of gasoline in official public contests. The winner in the principal competition of this sort made 61 miles to the gallon.

Large cars weighing more than 4,000 pounds, averaged close to 15 miles to the gallon in the recent Strasbourg race of 440 miles over the Grand Prix course and under the same regulations.

The reasons for the better results obtained by French cars over their American competitors are attributed to several things. The American cars are heavier, and it was mathematically certain that it would take more fuel to drive the greater weight, particularly as the American cars travelled 20 per cent faster. The American also stood higher from the ground and met greater wind resistance, also the American cars had much larger motors which turned over at a much slower speed, so that greater consumption was inevitable.

When the different conditions to be met by the French and the American manufacturer are considered, experts do not generally feel that there is any remarkable superiority in the French car. These differences grow out of costs of operation and the temperament of the public. Gasoline costs nearly twice as much in France as in the United States, and French makers, therefore, find it profitable to spend more money to produce an economical motor. This is done in several ways, but principally by having a well-finished small motor, with relatively high compression, turning over at a high speed. Some small motors make 4,000 revolutions per minute, and French racing cars approach 5,000. The French are educated to look more to gasoline consumption than to speed and acceleration. They prefer a small motor with four speeds, and they are content to shift gears constantly so as to save gasoline.

Americans over here sometimes wonder whether the higher original cost of French cars really offsets the saving in gasoline. French cars corresponding in size, power, appearance and ability to travel cost much more than their American rivals. American quantity production accounts for much difference in price, although Citroen, called the "Ford of France," by far the numerical leader among French cars, still suffers greatly when compared with American cars in price.

DAILY TIMES CLASSIFIED ADS BRING RESULTS.

WE ARE WHAT OUR GLANDS MAKE US, SAYS BOOK, TELLING WHAT THEY DO

NEW YORK, Aug. 19.—Now that the transmutation of elements has been achieved, is the transmutation of human beings next on the program? Is science on the point of discovering a way to make over your entire personality at will?

These are questions asked by John Walker Harrington in discussing in the Popular Science Monthly the latest scientific fad—the theory advanced by Dr. Louis Berman, physician and biological chemist at Columbia university, that every individual is a creature of his own ductless glands, from the length and curve of his eyelashes to the innermost quirks of the mind or soul.

The fuse that has set off the latest explosion of popular interest in this biological subject is a book, "The Glands Regulating Personality" (Macmillan), by Dr. Berman. Some of the interesting theories about the hidden glands in our bodies, as outlined by Mr. Harrington, are these:

Thyroid Is Arch Conspirator.
The arch conspirator of the gland

system is the thyroid, just over the windpipe and near the larynx. The lack of thyroid secretions means a dearth of "pep." The thyroid gland is where the punch comes from. When it is working full time, we are self confident, on our toes with vibrant energy, and are ready to do our utmost.

Another important factor in keeping up the tone of the body is the pituitary gland, which is a bony cradle in the base of the brain known as the "Turkish saddle."

This gland regulates our growth and height, its activity or failure being held largely responsible for the giants and dwarfs of circus side shows, and for variations in size between more normal persons.

The quality that makes some men always ready for a fight or frolic is due to the "glands of combat," the adrenals, which are so called because they are perched on top of the renal organs, or kidneys. The active principle, or hormone, of these glands is adrenalin. It is thrown into the blood in a steady stream, when the sensation of fear comes. Nature thus makes an effort to flood the body with the chemical basis of courage. The coward, then, may be merely a person deficient in a reserve stock of this valuable substance.

When the adrenals fail to function, we have the nervous breakdowns and prostrations. Women who have too much of the adrenal secretion become masculine.

Infant Frolicy and His Thymus.
One of the least understood of the glands is the thymus, which is in the

He will be chief commissioner to the Brazilian Centenary exposition.

person whose thymus has lost its brake.

Abnormally brainy youngsters may trace their own powers to the activity of another gland also—the pineal situated in a bony socket under the pituitary gland.

The parathyroids are four tiny glands, no bigger than mustard seeds, which are really thrust into the substance of the thyroid itself.

MURPHY TAKES PLACE WITH TEE PEE COMPANY

Fire Chief George Murphy, who has been in charge of the fire department for the last year, will discontinue his service with the department effective at noon today. He will be succeeded by Jake Friedman, assistant chief, who will take over the

department under orders from Commissioner H. S. Cole.

Chief Murphy announced yesterday afternoon that he had been offered and accepted a position under Superintendent Watson of the Texas Pacific Coal & Oil company and will continue his residence here. Chief Murphy has served over a year as head of the fire department, having succeeded Chief Buttomer on July 25, 1921. Before being appointed

fire chief he served on the police force.

SOCIETY

AND ACTIVITIES OF WOMEN

MRS. R. B. CAMPBELL, Editor Telephone 418

MRS. RAREY HAS TWO PARTIES THURSDAY.

Last Thursday the Rarey home at Tiffin was the scene of two beautifully appointed parties, when Mrs. Frank Rarey entertained the Thursday Bridge club and a few other guests in the morning and four tables at bridge in the afternoon. House decorations for both parties were pot-pourri, blending with nasturtiums. The morning party began at 9:30 and bridge was played until 12, when the hostess served a delicious two-course luncheon of fruit salad, creamed chicken in pattie shells, olives, hot rolls and ice-cream, followed by ice cream and macaroons.

The high score club prize, a hand-embroidered luncheon set, went to Mrs. D. M. Steele, while the club consolation, a hand-painted fly swatter, went to Mrs. C. E. Crawford. The high score guest prize, another hand-embroidered luncheon set, went to Miss Marie Oldenettel, while the guest consolation prize, a fan, went to Mrs. Frank Champion. The club members and guests present at this party were: Meses, D. M. Steele, C. E. Crawford, Frank Champion, John Thurman, H. E. Crawford, Walter Burden, Howard Gholson, J. B. Haden, William Conway, R. B. Craft of Fort Worth, Misses Marie Oldenettel of Brownsville, Ruth Hagaman, Chastain of Eastland.

In the afternoon refreshments were ice cream and cake served after the cards were laid aside. Mrs. L. L. Rector made high score and received a lovely lunch cloth, while Mrs. E. L. McMillen received a fan, as the low score prize.

PROGRESSIVE 42.

Miss Callie Morris entertained with a progressive forty-two party at her home at 319 1-2 South Marston street Thursday evening in honor of Miss Ursie Alford of Hico. House decorations were an abundance of cut flowers.

Ice cream and cake were served to the following guests: Misses Ursie Alford, Nell Tibbels, Ethel and Edith Cornelius, Geneva Armer, Fay Pearce, Callie and Mittie Morris; Messrs. Peterson, Dooley, Prince, Rhoades, Tibbels, McFatter; Mr. and Mrs. C. R. Spaulding.

TWO-YEAR-OLD HAS BIRTHDAY PARTY.

Among the charming parties of the week was one given by Mrs. W. H. Rice Thursday for her little daughter, Doris, who on that day was 2 years old. The house was decorated with pink crepe paper and cut flowers. A big kewpie doll, surrounded by cut flowers, formed the centerpiece of the dining table, where the children were served pink ice cream with cherries and nuts, and cake. The little folks assembled at the Rice home in Hodges Oak Park and went in a body to the park, where they enjoyed playing in the sand piles and swinging in the swings. When they returned to the house, kodak pictures were made of the little ones and games were played. The little honoree received many lovely gifts, but probably the one that Doris liked most was a beautiful necklace with three real pearls, which was the gift of her father.

Those present were: C. E. May Jr., Elmer Rust Jr., Burton Davis, J. T. Butler, Jennie Lee Rice, Emily Faulk, Evelyn Wilson, Dorothy Helen Davis, Betty Jean McMillen, Clara Rice, Betty Jean Wiss.

A BIRTHDAY PARTY.

Mrs. Virgil Williams entertained a number of little boys and girls yes-

SOCIAL CALENDAR

TUESDAY.

Greek letter women meet with Miss Ruth Hagaman in the morning.

Recreation club meets with Mrs. A. L. Duffer from 4 to 6 p. m.

WEDNESDAY.

G. M. C. club meets at Golf lake.

D. D. Sewing club meets with Miss Lila Brashier in the afternoon.

Circle A of the Woman's Missionary society of the Methodist church meets with Mrs. Copps in the morning, at her home on Smallwood avenue.

FRIDAY.

Willing Workers of the Christian church meet with Mrs. Reames.

terday afternoon with a theatre party in honor of the tenth birthday of her daughter, Martha. The guests assembled at the Williams home on Pine street and went from there to the Lamb theatre for the afternoon matinee. After the program was over they went to a drug store and were served refreshments. Martha was the recipient of many lovely gifts, all calculated to make glad the heart of a 10-year-old girl.

Those wishing the honoree many happy birthdays were: Mary Edna Davenport, Elizabeth Valliant, Edna Ruth Fair, Dixie Neal, Reba Farquhar, Mildred Berry, Margaret Calhoun, Brantley Cole, Patty Parr, Nicol Crawford, Charles and Billy Terrell, John Williams.

PASTIME CLUB ENTERTAINED.

Mr. and Mrs. J. C. Pullen entertained the members of the Pastime club and a few other guests at their home on Spring road Friday evening, honoring their guests, Mr. and Mrs. R. H. Nash of San Antonio. The house was attractively decorated in garden flowers, while a color motif of pink and white prevailed, which was especially carried out in the refreshments of pink and white ice cream and pink and white cake.

Bridge was the pastime for the evening and the prizes were distributed as follows: Mr. J. B. Haden won the men's high score club prize, a fancy clothes hanger, while Mrs. J. B. Haden won the ladies' high score club prize, a flower vase in a silver holder. Mr. E. E. Crawford received the men's low score club prize, cigars, while Mrs. E. E. Crawford received the ladies' low score club prize, ice tea sippers. The men's high score guest prize, a clothes hanger, went to Mr. Leo Parr, with Mrs. Leo Parr receiving the ladies' high score guest prize, a community silver pickle fork. However the "family jinx" was broken when Mrs. F. A. Brown received the low score guest prize for the ladies, a set of ice tea sippers, and Mr. E. E. McMillen the men's low score guest prize, cigars.

Those enjoying the hospitality of the Pullen home were: Messrs. and Meses, E. E. Crawford, R. B. Waggoner, Earl Taylor, J. B. Haden, George Jennings, E. L. McMillen, C. E. Tarrell, Richard Lavery, F. A. Brown, Leo Parr, J. T. Gullanorn, and the honor guests, Mr. and Mrs. R. H. Nash.

TWENTIETH CENTURY CLUB MEETS WITH MRS. NEIL.

Mrs. A. Neil was hostess to the members of the Twentieth Century

Aubrey Smith has returned from an extensive automobile trip which covered Denison, Galveston and other Texas towns.

Dr. and Mrs. J. M. Stueckl arrived Saturday night for a visit to Mr. and Mrs. Virgil Williams, motoring through from Mexia.

Mrs. A. B. Clarke, who has been the guest of her cousin, Mrs. Virgil Williams, has returned to her home in Dallas.

Dr. A. N. Harkrider has returned from a motor trip to Colorado. Mrs. Harkrider and the children will remain in Manitou and Colorado Springs for several weeks.

Miss Ursie Alford of Hico is visiting her sister, Mrs. J. N. McFatter.

Mrs. J. L. Heydon has returned from a visit of several weeks to friends in Sweetwater, Rotan and other cities.

Mrs. V. E. Lampkin of Denison is the guest of her sister, Mrs. T. R. Valliant.

Mr. and Mrs. Jack Blackwell and daughter, Miss Vera, and Mrs. George Bryant, are visiting in Houston, Galveston and San Antonio and Brownsville and probably will cross the line into old Mexico while at the latter place.

Mrs. J. F. Meunse returned last evening from a 10 days' visit with Mrs. H. J. Streif of Wichita Falls.

LITTLE THINGS

Purchase about a yard of rubber tubing of a size to fit the faucet of the bathtub. One can then enjoy a bath as early in the morning or as late at night as is desired without disturbing other members of the household, the flow of water being absolutely silent.

For a child's party try this novel centerpiece! A tall glass vase

filled with drooping asparagus fern and in place of blossoms a gorgeous long-stemmed bunch of red toy balloons. Red candles arranged gracefully about the base of the vase will send up a current of hot air to keep the balloons swaying prettily. There should be one for each little guest. A wise hostess will have an extra balloon or two ready in case some extra refreshments served, it won't be necessary to suggest a game, the balloons will do the rest.

A mother has a pleasing way of calling her children. She blows a little whistle and each child has a special signal. Harry's is two long notes and one short one, and Mary's is one long note. These short notes, as the signal for them. When the signal is sounded the child for whom it is intended goes home at once. It is a most efficient method, agreeable and even more refining, this 5-cent whistle than the shrill, ear-splitting calls necessary to find children.

The Draped Frock-- Newest of Fashion's Fall Creations

—ready for you at White's to be the complement of your own personality

Yes, the skirts are longer—the mode of drape would naturally compel added length. Yes, the new mode loses the freedom of the boyishness of the short skirt. But we gain instead the grace, the dignity, the charm, that after all is the distinction of true femininity.

The mode is drape—and ever so many new dresses are fashioned of crepe! What better medium could drapery have!

Only if you come and look at them can you appreciate their charm. And only if you try them on can you see how really becoming they are.

Fur Trimmings, Elaborate Sleeves, Box Jackets, Longer Skirts, give a Sophisticated Beauty to the New Fall Suits

Every woman with romance in her soul will revel in the ornamentation and the dash, the color and the character of the New Fall Suits.

They depart most decidedly from the simplicity of past seasons

Thursday, Mary Roberts Rinehart story, "The Glorious Fool," comedy, "Hightie Knight." Friday, Douglas Fairbanks in "Headin' South," comedy, "Jiggs in Society." Saturday, "Isle of Zorda," comedy, "Say Uncle," Topics of the Day.

LIBERTY—Sunday and Monday, Richard Barthelmess in "Sonny," and Educational comedy, "Oh Promise Me." Tuesday, Pearl White in "Any Wife," and "The Monkey Bell Hop." Wednesday, Betty Compton and Tom Moore in "Over the Border," and "Get Rich Quick Peggy." Thursday, Gareth Hughes in "Don't Write Letters," and "Punch the Clock." Friday, "The Half-Breed," and Harold Lloyd in "Follow the Crowd." Saturday, "The Cave Girl," also "Rolling Stones" and "The Timber Queen."

WOMEN, WAKE UP TO HOW TO MANAGE HUSBAND

"Woman, Wake Up!" the Associated Exhibitors feature starring Florence Vidor at the Lamb theatre today contains the moral that it isn't necessary to kill a dog just because he has fleas—get rid of the fleas!

After marriage, Anne and Monte Collins discovered they were miles apart in understanding and widely differing in their manner of living. But instead of letting their differences lead to the divorce courts, Anne set about to get rid of the trouble!

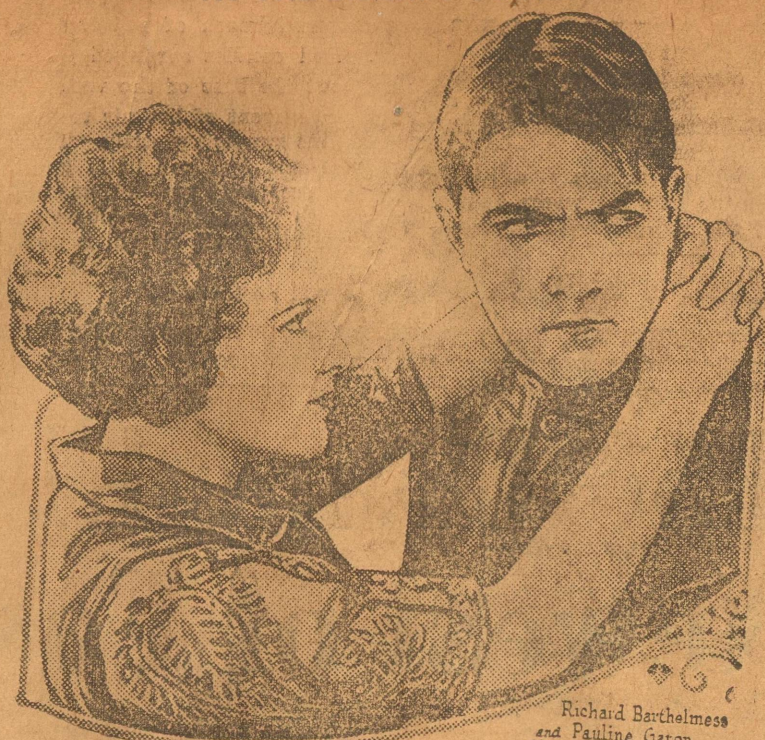

How she awoke to a realization that her husband had no right to a corner on tyranny, took matters into her own hands, and exercised the same freedom her husband thought was his right, makes "Woman, Wake Up!" a deliciously amusing comedy-drama.

Miss Vidor makes her debut as an Associated Exhibitors star in "Woman, Wake Up!" Following after her tremendous success in "Lying Lips," "Beau Revel" and "Hail the Woman," this picture is said to present her to even better advantage. She is transformed from an unaffected, athletic girl, raised in the seclusion of the mountains, to a woman affecting sophistication and reflecting the atmosphere of her jazzed city life in order to bring her husband to his senses.

Louis Calhern plays the role of the husband, and Charles Meredith is the best man at the wedding, who nearly proved the best man after all. Marcus Harrison directed. The story is by Ben Moore Clay.

In France during the middle ages charivaris were generally raised against persons contracting second nuptials.

AT THE LIBERTY TODAY

Richard Barthelmess and Pauline Gerson in "Sonny"

The Milan cathedral is decorated with over 2,000 statues rising hundreds of feet above the streets.

The Buick Creed

A Buick automobile must be so built that it will, at all times and under all circumstances, give the owner uninterrupted use of his investment.

Every Buick owner is entitled to, and will receive, prompt and efficient service—the kind that will insure him the motoring pleasure he expects.

Buick reputation, so pre-eminently firm and fair, was not won by chance, but is due to the policy established with the production of the first Buick car and so consistently adhered to ever since—that of giving the owner the maximum of service for the minimum of cost.

No matter what its price, a Buick car must and will give the maximum of that service for which it was intended, and must bear its proportion of the responsibility of maintaining that high prestige which Buick cars have attained.

The product from 800,000 acres of virgin forest is required to supply the annual demand for turpentine. Horsehair ropes will not keep away rattlesnakes, say experienced campers.

SPORTS

HAPPY SCHERTZ CHOSEN CHEF OF TRAINING CAMP

Happy Schertz, skipper of last year's high school football team, was unanimously chosen chef for the 1922 training camp, at an informal meeting held here this week. The camp will be installed on Leon lake, about two miles above the dam, and for 10 days before school opens, the boys will engage in pleasurable as well as strengthening exercises designed to put themselves in shape for the start of a strenuous season.

With only three letter men lost from last year's winning aggregation and a strong coaching staff, prospects are that Ranger Hi will be a prominent contender for championship honors, if they maintain anything like the morale that marked last year's club. That this latter ingredient of success will be present this year is virtually assured by the fact that G. T. Keahey, who had had such good success at Strawn for several years, will be in charge of athletics and he probably will be assisted by M. H. Winkler, the godfather of last year's eleven.

14-REAL ESTATE THE SPEARMAN FARM LANDS located in Terry, Gaines and Yoakum counties, South Plains of the Panhandle, Texas, are now being offered at prices and terms, which will enable any industrious farmer to buy and pay for a farm with less money than pay rent. Productive lands, a fine climate, abundance of good pure water, and a country in which one man raises more cotton, more corn and more sweet potatoes and other farm products, than a whole family can gather. No insect pests. We make landlords out of our customers instead of renters. Farmers who are anxious to own their own farms, are invited to come to Seagraves, inspect our farm lands, look at the crops, and talk to the men who raise them. A card to W. A. SoRelle, General Agent, 12 Santa Fe building, Seagraves, Texas, will bring you a descriptive pamphlet, giving detailed information about these lands and plan of purchase. A reliable agent wanted in each county.

15-HOUSES FOR SALE FOR SALE—Four-room house with large sleeping porch and 9x20 front porch; weatherboarded, ceiled and papered; two rooms cost what I want for the house and lot. Will take good car as part payment, balance like rent. A. C. Edwards, Victory Service Station.

16-AUTOMOBILES ROADSTER for sale or trade for motorcycle. 421 Mesquite. FOR QUICK SERVICE—Midway Garage & Filling Station. General repairing and storage. 301 E. Main. FOR SALE—Ford Sedan; 1921 model; in good condition. See Mrs. W. J. Hall, Tiffin.

William Cullen Bryant was 16 when he wrote "Thanatopsis."

NITROS WHALE APPLE; TRIM BRONCS, 10-3

SAN ANGELO, Aug. 19.—Ranger defeated San Angelo, 10 to 3, today in the first game of the series, knocking Ray from the mound and taking advantage of seven errors by the shifted Bronco lineup. Both Leedy and Alexander smote homers in the first inning, McBride scoring ahead of Alexander. Lybrand scattered 10 hits, got two doubles and a single in five times up and registered three runs. His support was tight in the pinches. Robertson, Nag second string catcher, pitched the last three innings well. On account of no game Sunday a double-header will be played Monday.

Brooks, who was injured at Sweetwater by a batted ball 10 days ago, got back into the Nitro lineup today. The score: Ranger—AB. R. H. PO. A. E. White, ss.....5 2 1 0 2 1 Leedy, 2b.....4 2 1 2 1 0 Ammons, 3b.....5 1 1 1 1 0 Pyle, cf.....5 0 3 3 0 0 Craig, cf.....5 0 3 3 0 0 Conley, 1b.....5 0 1 4 3 1 Dockery, lf.....5 1 1 2 0 0 Clayton, c.....5 1 0 9 0 0 Lybrand, p.....5 3 3 4 0 0 xBrooks, 3b.....0 0 0 0 0

SWATTERS BLANKED. AMARILLO, Aug. 19.—Roy Mornton had the Indian sign on the Swatters today and scored a shutout victory, 7 to 0. The Swatters could accumulate only three hits, while the Gassers got nine and by grouping swats in the seventh, compiled a lopsided victory. Score by innings—R. H. E. Sweetwater.....000 000 00—0 3 3 Amarillo.....001 10 40x—7 9 2 Gressett and Bailey; Morton and Byers.

Stamford at Abilene, rain. STATE UNIVERSITY MUST BUILD NEW TEAM AUSTIN, Aug. 19.—In spite of the hardest schedule in the history of football at the University of Texas and the loss of 10 first-string men, the coaches are optimistic over the prospects for 1922. Although the Longhorn eleven for this season will be seriously hit by the absence of many of the veteran stars of the 1921 squad, it will be strengthened by a flock of prospective gridiron stars, some of whom showed in brilliant form last year. The Texas-A. & M. clash will be staged at Austin on Thanksgiving day this year, and football lovers are already discussing the outcome.

Training for the Longhorns will start Sept. 11. There will be only four men of last year's team back to serve as the nucleus for the 1922 team. These men are Captain A. M. C. Swenson of Stamford, center; Lane Tynes of Cooper, backfield; Joe Moore of Austin, end, and Ivan Robertson of Dallas, backfield. The remainder of the team will be made up from the second and third string men of last year's squad, and a number of promising men from last year's freshman and Shorthorn teams.

One million; telephone calls are made each day in Philadelphia.

HOW THEY STAND

WEST TEXAS LEAGUE.

HORSE RACING WILL FEATURE ABILENE FAIR

ABILENE, Aug. 19.—Lovers of racing of any variety, whether running horses, harness horses or automobiles, will have an opportunity to enjoy their favorite sport under the best conditions at the West Texas fair at Abilene, Sept. 25 to 30. Racing on the five-eighths mile oval will hold the boards for five of the six afternoons of the fair. The horses will be in the limelight the first four days, while automobiles are scheduled for Friday, the fifth day. Saturday, the closing day, will be featured by a double-header college football game between Simmons college and New Mexico A. & M., and Christian college and Clarendon college. Each evening of the fair there will be presented in front of the grandstand a big, hippodrome show, with some of the best acts from the majestic theatre circuit engaged.

A balloon ascension and parachute drop and thrilling aerial acrobatics will be presented daily as a part of the free entertainment on the grounds.

TIGERS KILL EIGHT TOURISTS. METIHO CITY, Aug. 19.—A pack of tigers, driven from their mountain lairs by hunger, attacked three families who were traveling from Puerto Vallarta to Mascota, state of Jalisco, killing three women, two men, two small boys and a babe, according to El Heraldo Gráfico. Natives who went to the rescue fought the tigers, killing one of them. The rest escaped to the mountains.

CHRISTY MATHEWSON WINS HIS FIGHT

Christy Mathewson and his father.

After a prolonged stay at Saranac, in the Adirondacks, where he has been fighting tuberculosis contracted while a captain in the Chemical Warfare section of the U. S. army in France, Christy Mathewson, idol of millions of baseball fans, has sufficiently recovered to motor down to his old home at Factoryville, Pa. He is shown shaking hands with his father. After a short stay he will return to the mountains until his sickness has been thoroughly routed.

PREVENTION OF BRENNAN BOUT DISGUSTS JACK

CHICAGO, Aug. 19.—Jack Dempsey left Michigan City in disgust and came to Chicago today when he learned efforts to stage the bout between Bill Brennan and himself had finally failed. He arrived here in a none too cheerful frame of mind, particularly in view of the fact that the preliminary preparations have cost in the neighborhood of \$5,000. Jack Kearns, his manager, was left at Michigan City to gather up the loose ends and will join Dempsey here.

Since Governor McCray has prohibited the bout at the Indiana summer resort there have been reports that Charles Murray, Buffalo promoter, was making efforts to have the bout transferred there. Dempsey said he expected to remain here for a day or two and then go to California to visit relatives.

DRY SLEUTH SEARCHING FOR DAUGHTER'S KITTY FINDS STILL IN OWN HOME

EL PASO, Aug. 19.—Thomas Wheeler's baby daughter was crying for her little gray kitten which was lost. Wheeler, a local prohibition agent, heard the kitten meowing in the basement of his apartment and went to rescue it. The kitten had crawled into a dark recess in a far corner of the basement. When the prohibition agent reached for the cat, his hand touched a sack of corn. "There are no chickens in this apartment," Wheeler thought, so he got a lantern. Besides a sack of corn, the agent found a five-gallon kettle with coils attached, used in the operation of a still.

BERLIN, Aug. 19.—Seven wives at the same time is nothing extraordinary in Turkey, but seven in succession is a record even there. This record is held by Turkey's most famous poet, Abdul Hamid Bey, who has just obtained his seventh divorce.

His latest wife was a Belgian and was a beautiful blonde. The Turkish poet evidently is trying to conjure up the paradise of Mohammed into this world, and expects soon to marry for the eighth time. He is a Turkish senator and was a member of the Turkish delegation to the Paris peace conference. He is considered to be the greatest poet in the near East.

Whether an egg is a potential rooster or an embryonic hen can be determined by a sexometer, it is claimed.

YESTERDAY'S RESULTS

TEXAS LEAGUE.

Results table for Texas League showing scores for Dallas, Beaumont, Houston, Galveston, Fort Worth, San Antonio, and Shreveport.

At Galveston—R. H. E. Galveston.....2 2 3 Fort Worth.....9 15 0 Sigan, Knight and Griffith; Ross and Moore.

RUINS OF ANCIENT METROPOLIS AS GREAT AS NEW YORK, FOUND IN COLOMBIA BY U. S. EXPLORERS

CHICAGO, Aug. 19.—Ruins of a city of great size, a community center that in its day must have compared with the London, or New York or Chicago of today, has been discovered in Columbia by an expedition from the Field museum of Chicago. It is located in a portion of Colombia that is now uninhabited and almost unknown to science. Once it must have been one of the great centers of population, the home

AFTER 50 YEARS, HEADS GREAT FIRM

John G. Shedd, after 50 years' uninterrupted service with Marshall Field & Co., is now president of the great Chicago department store. "Fifty years is just like a minute and all filled with real fun," he says.

of immensely wealthy people of culture and intelligence, but now even its name is unknown. Articles taken from the remains of the great group of villages and the carving on the stone pavements, retaining walls, steps to the houses, etc., indicate a high grade of workmanship. Jewelry dug up out of the ruins shows the people possessed great skill in the working of gold and the setting of precious stones. The excavating work has progressed sufficiently to show that these people were expert road builders. Thousands of roads extended from the main center all through the mountains. These connected up with broad stone paved

highways, or main arteries leading to the group of villages. All the roads are paved with flat, waterworn rocks of uniform size. The smaller roads, or by-paths, are paved with stones four feet wide, edged with upright stones. On inclines the stones are set in as steps. The cutting on the large stones in the terrace of what must have been the community center, show exceptionally fine carving.

The expedition has dug up some splendid examples of pottery, especially one set of fine black pottery, incised or carved. Spanish invaders are known to have taken fabulous sums from this territory. The dead were adorned with gold ornaments and costly jewels and the Spaniards robbed most of the graves. Enough is left, however, to indicate that the extinct people must have been very wealthy.

Specimens already received at Field Museum include gold bells, small, exquisite gold figures and jars and other articles of shell, Carnelian and agate. So far in the exploration, there is nothing to indicate what caused the sudden disappearance of what, in its day, must have been one of the greatest centers of population in the world.

Break of Woman's Shoulder Straps Sets Paris Style

PARIS, Aug. 19.—A catastrophe to an American woman's shoulder straps is responsible for the bringing back to Paris of last year's fashion of wearing shawls.

The woman, a resident of Philadelphia, purchased an "irreducible minimum" gown from a famous French dressmaker. The whole fate of the corsage lay in the strength of the shoulder straps. If these broke there was no more corsage—and literally nothing above the waist.

They did break—at the Chateau de

Madrid—most fashionable restaurant in Paris. In consternation the woman sent an S. O. S. and, surrounded by women friends, made her escape to a private dining room, where she sent a chauffeur to her hotel for another robe.

By mistake the chauffeur brought back a beautiful cashmere shawl. Sooner than miss the evening's gaiety the woman draped the shawl about her, leaving one shoulder bare, and descended to the garden to rejoin her party.

So chic was the effect that the next day the fashionable Rue de la Paix shops had a tremendous run on shawls, and now no woman is "smart" without one.

The radiating period of radium is computed as about 2,500 years.
