## LIQUOR RAIDER STRUCK DOWN FROM REAR

### Mayfield Leads Ferguson by 67,943 PEARL LONG VICTIM; LEON WILSON HELD

#### PRITCHARD WINS NOMINATION BY HUGE MAJORITY

Sue Nominated for County Treasurer; Mayfield and Blanton Sweep County.

With about 150 votes of five small boxes unreported, every county race has been settled and the Eastland county majority for state races determined.

Ed S. Pritchard was nominated county judge by a majority of 1,362, polling 3,210 votes to Ross' 1,848.

J. T. Sue received the nomination for county treasurer by a 505 majority over Felix S. Boland, receiving 2,769 votes to Boland's 2,264.

Earle B. Mayfield carried the county by 868 over James E. Ferguson with a vote of 2,948. Ferguson received 2,080.

Congressman Thomas L. Blanton carried the county over Oscar Callaway by a majority of 768, receiving 2,897 votes and Callaway 2,129.

In the lieutenant governor's race T. W. Davidson carried the county by a majority of 473 over Colonel Billie Mayfield, receiving 2,715 votes to Mayfield's 2,242.

George E. Garrett led in the state treasurer's race by only 33 votes, receiving 2,396 votes to 2,363 polled by C. V. Terrell.

Ed R. Bentley led by a majority of 350 over S. M. N. Marrs in the race for superintendent of public instruction, receiving 2,582 votes to the 2,232 polled by Marrs.

The boxes remaining unheard from are Tudor, Kokomo, Okra, Staff and Cook. The votes of the 19 others are given in the table below.

#### PALMER BEATS HAMILTON IN ONLY PRECINCT RACE

In the hottest contested race of the run-off primary in Ranger, P. P. Palmer, groceryman, won the Democratic nomination for constable over Deputy Constable C. C. Hamilton, by a majority of 70 votes. Earle B. Mayfield carried the Ranger box over Ferguson in the senatorial race by 113, while Col. Billie Mayfield, for lieutenant governor; C. V. Terrell, for state treasurer; Ed R. Bentley, for superintendent of public instruction; Thomas L. Blanton, for congress; Tip S. Ross, for county judge, and Felix S. Boland, for county treasurer, carried Ranger in the other races.

All of the candidates endorsed by the citizens' committee of Ranger carried the box with the exception of George E. Garrett, candidate for state treasurer, who lost by 14 votes.

#### Congressional Race "Open."

The committee, on the slips distributed on the streets yesterday, failed to express a choice between the two congressional candidates. Blanton's small lead here occasioned some surprise.

While the Ranger vote was considerably heavier than was anticipated by either side, the count had been completed by the election officials shortly after the polls closed at 7 o'clock. The total vote of 990 polled at the Ranger box, came within 172 of the total of 1,171 cast in the July primary.

Despite the interest manifested and the heavy vote polled the run-off primary was free from the tension and excitement that accompanied the first primary and no disorder was reported from any portion of the city.

The result in the constable's race was announced first and created considerable surprise among a number of eager partisans, who thronged around the door immediately after the polls closed, it having been freely predicted on the streets in a number of quarters that Hamilton was a sure winner.

Many considered the constable's race of more interest locally than even the senatorial race, although workers were especially active in behalf of the candidates in both.

The vote as officially announced by J. F. Connell, presiding judge, follows:

United States Senator—Earle B. Mayfield 544, James E. Ferguson 431. Lieutenant Governor—Colonel Billie Mayfield 533, T. W. Davidson 434.

#### Davidson Beats Mayfield for Lieutenant Governor; Bentley - Marrs Race Only One Undecided; Mayfield Leads From Start.

(Copyright, 1922, by Texas Election Bureau.)

DALLAS, Aug. 26.—Returns from the Democratic primary Saturday tabulated at 1 o'clock Sunday morning, indicated Earle B. Mayfield has been nominated for United States senator over James E. Ferguson.

Returns from 206 counties, 38 complete, accounted for 476,139 votes, of which Ferguson had 204,098, and Mayfield 272,041. This gave Mayfield a majority of 67,943. The story told by the returns was almost monotonous, Mayfield having led almost from the beginning of the tabulation. Of counties reporting and returns of which are complete it is indicated that Ferguson carried El Paso, Galveston, Bexar and Bosque, and Mayfield carried Dallas, Tarrant, Harris, McLennan and Wichita.

Figured on the basis of the count reported, it is estimated the total senatorial vote will be about 600,000.

For state superintendent of public instruction, S. M. N. Marrs had 218,779 in incomplete reports from 206 counties, 38 of which are complete, and Ed Bentley 205,702.

For lieutenant governor on the

same returns, T. W. Davidson had an apparently safe lead over Billie Mayfield Jr., with Davidson's count 254,514 and Mayfield 173,961.

For state treasurer, the vote stands: C. V. Terrell 235,371, George A. Garrett 180,372.

On the face of these returns, it seems safe to say the race for superintendent of public instruction is the only one undecided.

Those watching the vote pointed out that apparently there was more interest in the senatorial race than the others, as the total vote reported for superintendent of public instruction was only 424,481, against 476,139 for senator.

Six counties did not hold a run-off primary. These were Kerr, King, Goliad, Jim Hogg, Terrell and Real.

In congressional races, the incomplete vote in the Fourteenth district gave Hertzberg 16,059 and Cunningham 12,416. In the Seventeenth district, Blanton 25,419 and Callaway 15,484.

For judge court of civil appeals, incomplete, district No. 3 gave Baker 29,800 and Blair 26,085, and in district No. 5, Jones 36,773, Taylor 35,772.

#### COMMITTEES MEET TUESDAY TO PLAN WORK OF FARM CONFERENCE

#### FERGUSON LOSES IN HIS HOME BOX

TEMPLE, Texas, Aug. 26.—James E. Ferguson, candidate for United States senator, lost his home ward in the runoff primary today by 124 votes. The total vote in that ward was: Mayfield 297, Ferguson 173.

#### Word of Meet's Importance Will Be Sent to Every Farmer in Section.

Committees of business men and farmers of Ranger and the Ranger territory have been appointed to map out plans for the farmers' conference, barbecue and tractor demonstration which is to feature the launching next Saturday of the New Chamber of Commerce "Back to Agriculture" movement. The committees will meet Tuesday afternoon at 4 o'clock to go over the matter thoroughly and leave nothing undone for the success of the occasion. R. L. Bush, county agricultural agent, will co-operate with the New Chamber of Commerce in the move and assist in so far as possible in notifying each farmer of the section personally or by letter.

#### Tractor Expert Coming.

Next Saturday's meeting will be held under a tent at the corner of Hodges and Main streets. The Leveille-Maher Motor company will be hosts of the barbecue to follow and have arranged to have an expert tractor demonstrator here from Dallas.

Among the main purposes of the conference is to form a fruit and vegetable marketing association, the need of which has been acutely felt by both merchants and farmers and has resulted in many of the merchants being forced to buy a large part of their produce out of the city. It is claimed that under existing conditions the merchant is without any assurance as to a supply of vegetables and fruits, including melons, with any regularity and is therefore forced to go into the foreign market. A poultry and egg association of some kind is also badly needed, it is generally agreed.

The feasibility of the farmers of this section putting in large grain crops is also to be discussed at the meetings. It is said that should sufficient acreage be planted, that Mc-

#### SHOP WORKERS 56 PCT. NORMAL, ROADS ASSERT

By Associated Press.

CHICAGO, Aug. 26.—Western railroads yesterday had 88,911 employes in their shops, this representing a gain of 30,838 men since Aug. 1, according to a statement issued tonight by the western department of the Railway Executives' association through its committee on public relations.

Western roads employed about 159,000 men before the strike and the present force is about 56 per cent normal, the statement said. That is a steady increase in the number of men at work, the statement said, and added there are few places where service is being interfered with because of unauthorized walkouts except where these conditions prevail, the roads are handling all traffic offered and in nearly all western lines carloading is in excess of a year ago, the statement asserted.

Over 100,000,000 hours of work must be made up before the railroad equipment will be in the condition it was when the strike was started, J. F. McGrath, vice president of the shopcraft organization, stated tonight. He declared this to be the measure of the repair work deferred as the result of two months' strike. To keep the number of bad order engines from gaining, he said, the railroads must give repairs requiring over 24 hours to about 25,000 locomotives each month.

#### SHOT KILLS WOMAN WHO TICKLES COPPER

By Associated Press.

NEW YORK, Aug. 26.—A bullet from a patrolman's revolver, which he was accidentally discharged, killed Mrs. Pauline Ge Lerce, 26, in the back yard of her apartment at Rosenbank, Staten Island.

The patrolman, a rookie, is Carmine Congo. He told the police that the accident occurred while he was cleaning his revolver. Shortly after noon, he said, he sat down on a bench in the yard to examine the gun, and while there Mrs. Ge Lerce, who was on friendly terms with his family, joined him. Congo said the woman began to tease him and finally tickled him in the ribs. It was then he dropped the gun, he said, which was discharged as the trigger struck the ground.

#### PRESIDENT'S EMERGENCY LAWS STRIKE ROUGH SEAS IN SENATE

WASHINGTON, Aug. 26.—Al-

though congress is to be asked to authorize emergency legislation permitting the President to operate coal mines and railroads in the public interest, President Harding has told his advisers that he will exercise the authority thus granted only in case of an eventual crisis which he does not now foresee.

Despite the apparent deadlock in both the rail and anthracite strike, the President is described as still confident a way will be found to protect the interest of the general public without resort to governmental direction in both industries.

Harding is said to consider it advisable that if congress is to recess, it first should clearly define his power to act and legislation looking to that end is being prepared for submission at the capital early next week.

#### Some Oppose Plan.

The proposed legislation at first met with approval among many of the majority leaders in congress but was followed by evidence of reluctance among others to go further than is provided in the industrial investigation and control legislation already pending. In every move they made to advance the pending legislation, its proponents met with opposition and delay, although they remained confident that all the emergency measures introduced with administration endorsement would be enacted into law. However, it was indicated that further consultation would be necessary to whip the whole scheme into shape. In the senate, the Borah bill for a fact-finding commission in the coal industry, similar to one already passed in the house, met with such prolonged attacks that it finally was agreed to lay it aside entirely until a vote had been taken on the bonus bill, probably late Tuesday.

#### Coal Control Delayed.

Provisions in a house bill for an inquiry into the advisability of nationalizing the industry met with the most stubborn opposition. In the senate, the bill proposing to create a coal distribution agency and to extend the authority of the interstate commerce commission over priority of shipments failed of the immediate approval hoped for by the Republican leaders and further consideration was postponed until Monday. A coal distributing bill of a similar character, to that under consideration by the senate was introduced by Chairman Winslow of the house interstate commerce committee but after a long discussion among committee members, it was decided that hearing on this measure also would be had on Monday. Only five hours was allotted to hear all of those interested and it was agreed that a report should be made before adjournment of the committee Monday, in order that it might have consideration in the house itself on Tuesday.

With attention occupied by these measures, Harding's recommendation for creation of a federal agency to buy and sell coal in the interest of the public dropped completely out of sight.

#### Rail Bill Ready.

A bill authorizing the President to take over individual railroads which do not adequately perform their functions as common carriers is understood to have already been prepared by Chairman Cummins of the senate commerce committee and he indicated today that it might be presented on Monday or Tuesday, along with a similar measure dealing with the coal mines. The President's attitude on measures to be taken in

#### Resentment Runs High As News of Attack Spreads; Wilson Taken to Eastland; Long Badly Battered.

#### MASS MEETING CALLED.

A mass meeting of the men of Ranger to consider and take action toward ridding Ranger of its present lawless element has been called to meet this afternoon at 2 o'clock in the Garrison revival tent on East Main street. The call for the meeting came last night from a large group of Ranger citizens following the attack and serious injury to Pearl Long on Main street.

Every man in Ranger who is interested in the enforcement of the law in Ranger and the protection of citizens from personal injury and attempted intimidation at the hands of the lawless element is urged to attend, the call states.

Pearl Long, one of the best known citizens of Ranger and one of the members of the citizens' committee which staged the booze raid in June that ushered in the law enforcement fight in Ranger, was struck down from behind last night and seriously injured by Leon Wilson, whose residence Long had helped Police Commissioner Cole search for liquor Friday.

"I will teach you to be searching my house," Wilson is said to have declared between curses as he came up from behind while Long was standing in front of the Oil City pharmacy about 9:30 o'clock, watching the election returns.

#### Rolled Under Auto.

The blow, with a club resembling a small baseball bat, followed, striking Long across the head before he could turn to see his assailant. Rendered helpless by the first blow, Long reeled under a second and was knocked or unconsciously rolled under an automobile parked at the curb, witnesses say. Wilson is then declared to have dashed around the car, striking at exposed parts of Long's body. Only one man of a number present made any effort to physically restrain Wilson or to raise a voice in protest. He was struck over the arm with the club.

Feeling rose high, however, when the attack became generally known, and following the gathering of a large crowd on the downtown streets and in front of the police station, Wilson was rushed to Eastland.

Policeman Floyd Daniels, who was directing traffic at the corner of Rusk and Main streets, was attracted to the scene, and chased Wilson around the car several times before catching him. Clevie Barnes and Cline Wilson are said to have assisted the officer in wresting the club from the hands of Long's assailant.

#### Head Badly Gashed.

Long was rushed to the Chical hospital, where it was found that he had a deep gash on the top of his head, cut to the bone, and another gash in the rear. On regaining consciousness he did not know who hit him, explaining that he had heard someone curse him from behind and then was struck over the head. Physicians late last night told Justice of the Peace McFatter that they could not say definitely about Long's condition. A later report from the hospital, however, stated that his injuries were not regarded as fatal and that the skull was not fractured.

#### Charged With Fighting.

Wilson was taken to police headquarters, where a charge of fighting was placed against him. Feeling rose high over the city when the report of the attack became known, and Chief of Police McDowell was advised by Commissioner Cole to keep Wilson at the police station for safe keeping and not release him on bond. It was later reported by Sergeant Jim Daniels that Wilson had been allowed bond of \$500 on the fighting charge.

#### BLANTON WINS OVER CALLAWAY BY BIG MAJORITY

With Five of His Strongest Counties Out, Indications Point to Lead of 10,000.

Congressman Thomas L. Blanton was renominated by a majority of 10,000 to 12,000 over Oscar Callaway of Comanche, it is indicated by complete returns from three counties and incomplete returns from 11 others Saturday night. Five counties in the district have not reported. The returns compiled give Blanton 23,388 votes and Callaway 14,763, a lead of 8,625. The counties not reporting are Burnet, Llano, Lampasas, McCulloch and Mills, all on the southern fringe of the district and strong Blanton territory.

Blanton carried every county except Comanche and possibly Stephens, where the race is so close as to require an official count to determine which gets the majority. With these exceptions, the only question is the size of Blanton's lead over his opponent.

Following are the reports by counties, Brown, Taylor and Rannels being complete and the others incomplete:

#### BIG JAMBOREE NEXT FRIDAY WILL LURE PLEASURE LOVERS IN DROVES

All the territory in 30 miles of Ranger is interesting itself in the big celebration planned here next Friday, according to men coming to town from districts which have been circularized. Everybody recalls the wonderful time had at Ranger's Labor day celebration last year and is anxious to be in on a repetition of it. Some of the territory has not been circularized, however, and President Smith of the baseball club will gladly turn over a flock of gaudy pink and green documents to any booster who will take them out and arrange for their distribution.

A list of prizes is being worked out for the field day events at the ball park and is attracting interest. One young fellow this afternoon was anxious to bring his Shetland pony five miles in order to show his speed be-

fore the multitude. The time and place of entries and the prizes to be offered are expected to be ready for announcement Monday.

#### Everybody's Prize.

There also will be a prize given at the dance Friday night at the Gholson, which every person present will be competent to win, making free entrance to everyone, and \$3 clear cash money besides. It's this way: It will cost two plunks to horn in on the dance and the prize will be \$5. Since everyone will be able to win it, it stands to reason everyone will be able to put up the \$2 investment, in order to reap dividends of 150 per cent in a few hours, besides all the gaiety which will be thrown in free gratis. That makes an event that no one can stay away from. The committee isn't expecting anyone to stay away.

He did not leave the station, however. Major Cole, accompanied by a number of citizens, appeared at the police station to protest against the release of Wilson on bond at this time. He was accompanied by Commissioner C. O. Terrell. It was then decided to file charges before Justice of the Peace McFatter, who committed Wilson to jail without bond on a charge of assault to murder, in view of the fact that the extent of Long's injuries was not known at the time.

Wilson was then rushed quietly to Eastland by Deputy Sheriff John Barnes and Police Chief McDowell, where he was expected to be confined to jail until his bond could be fixed by the courts.

**Police On Guard.**

During Wilson's stay in the sergeant's office at police headquarters his brother and a number of his friends remained with him, while practically every member of the police department was on guard in and outside the building. A large crowd gathered in front of the station during Commissioner Cole's visit and another crowd filled Austin street in front of the hospital.

Little was said by any of the number, who appeared to be awaiting developments, other than the oft-repeated assertion that the time was over when such attacks could be made with impunity in Ranger. At an early hour this morning the crowd still remained on streets while members of the police department left the police station and gathered on the outskirts of the throng and likewise awaited developments.

**Home Raided Friday.**

The raid on Wilson's home in the Gholson addition, which is declared to have brought on the attack, was led by Police Commissioner H. S. Cole under authority of a search warrant issued by Justice of the Peace J. N. McFatter. Other members of the raiding party included Assistant Police Chief Eugene Reynolds, S. B. Henry, and a service car driver. The search warrant was issued on information received that liquor was hidden in or around the Wilson house. Wilson was not at home when the party arrived at 2 o'clock. They were admitted by a woman and conducted a search without finding any liquor, the searchers reported.

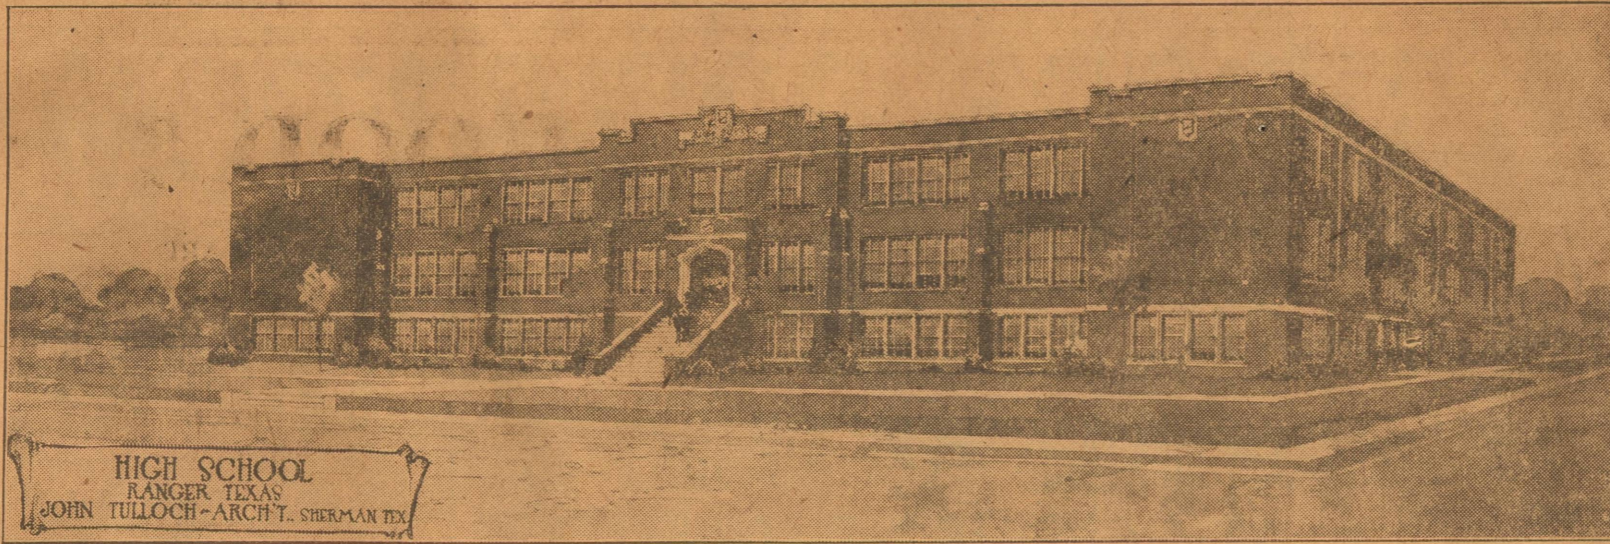

Leon Wilson was one of the men arrested following the June liquor raids. He was released under bond of \$500 by Justice of the Peace McFatter to await action of the grand jury.

**OFFICIALS MAN LONE CHICAGO & ALTON TRAIN**

*By Associated Press.*

ROODHOUSE, Ill., Aug. 26.—Manned by officials of the locomotive department, one Chicago & Alton train succeeded in getting out of Roodhouse tonight carrying a large number of passengers for points north who had been marooned here all day. There are still more than 100 passengers here who were unwillingly detained when the train crews refused to take their trains out following explosions in the vicinity of the roundhouse Friday morning.

**New High School Will Be Best in West**

HIGH SCHOOL  
RANGER, TEXAS  
JOHN TULLOCH - ARCHT., SHERMAN, TEX.

The construction of Ranger's imposing and thoroughly modern high school building, at first slow on account of heavy rains during May and later on account of having to blast out a five-foot ledge of rock for the gymnasium and boiler room, is now progressing rapidly, and with favorable conditions will be completed some time next January, John Tulloch, architect, stated during his recent visit here.

Mr. Tulloch, who designed the building in collaboration with Superintendent E. O. McNew, declared that the Ranger High school building will be the largest in West Texas, with the possible exception of Wichita Falls and Amarillo and that none will be better equipped or more complete. Ranger's new building, he claimed, will set a record for economy of construction of first class structures, the cost per cubic foot of space, exclusive of heating, plumbing and electrical work being 18 cents. Heneagar & Chambers of Dallas are the contractors, with Superintendent Slaughter, a former Ranger resident, in charge.

The requirements of the state board of education relating to lighting, heating, ventilation, sanitation, etc., have not only been complied with, Mr. Tulloch said, but have been exceeded, and the heating and sanitary equipment is the very best that money can buy.

**Description of Building.**  
The building is to be three stories high and have a frontage width of 170 1-2 feet and a depth of 127 feet. The construction is reinforced concrete, brick and steel and the building throughout will be as nearly fireproof as is economically possible in a school building, he explained.

The style of architecture is pure Tudor Gothic, which is emphasized by the generous use of stone copings, cornices, sills and panels, all distributed in strict proportion and pleasing harmony.

The ground story (first floor) walls are of massive concrete and will be treated in stucco with stippled finish. The second and third story walls will

be of Thurber paving brick with exterior veneer of smooth Denton brick in mingled tones of color ranging from tan to dark brown.

The interior dividing partitions will be constructed of tile, and will, as will the floors, be sound-proof. The wood trimming of doors, windows, etc., will be plain, neat and sanitary. The floors will be finished in concrete and maple lumber.

**First Floor Arrangements.**

On the ground floor will be located the manual training department, consisting of drafting room, bench and machine room, metal working room, finishing room and lumber room; domestic arts and fitting room; music room; domestic science room; pantry and cooking room and a lunch room 22 feet wide by 48 feet long. On this floor also is located the gymnasium, 50 by 82 feet and 16 feet from floor to ceiling, two spacious combination locker and toilet rooms for boys and girls, having up-to-the-minute showers, toilets, lavatories, etc. These locker and toilet rooms are easily accessible from the outside and from the gymnasium and corridors of this floor.

**Second Floor.**

On the second floor are located six class rooms for grade classes, two study halls, library and museum, stock room and superintendent's and principal's rooms, each having reception, toilet and coat rooms. Boys' and girls' toilet rooms are also provided on this floor, as well as on the third floor, and two Duplex drinking fountains are installed in the main corridor of each floor.

**Large Auditorium.**

The auditorium, opening directly from the main corridor of this floor, and situated immediately over the gymnasium, has a seating capacity of approximately 900, inclusive of a balcony to which access is obtained from third floor corridor. The auditorium is provided with a stage 28 feet wide and 18 feet deep and has a proscenium opening 26 feet wide by 16 feet high. The stage is provided with

dressing rooms and all the electrical lighting installations usually provided in a high-class theatre.

**Fire Escapes Provided.**

Panic exits are provided connecting with standard fire escapes through passages on the level of auditorium floor. A special study was made of the visual lines so that an unobstructed view of the stage will be obtained from every seat in auditorium and balcony. On the second floor are situated teachers' rest room with toilet room and dental clinic room adjoining.

On the third floor are located six class rooms; bookkeeping and typewriting rooms; physics and chemistry rooms with lecture room adjacent to both, and agriculture and botany rooms with lecture room.

Five entrances to the building are provided, one on the east (principal) front, one on each side and two in the rear, and ample fire escape facilities have been provided of the very best pattern.

LONDON, Aug. 26.—Passengers in commercial aircraft must not sit beside the pilot.

This is the decree of the British air ministry, and is evidently one of the consequences of the inquiry held regarding the disaster in the English channel, when it was assumed that a passenger had been attacked with a sudden fit of madness and shot the pilot, the result being that four lives were lost.

connection with roads crippled by strikes was made known after he had talked over with other administration and party leaders the plan discussed at last night's White House conference, in which Attorney General Daugherty and Chairman Cummins took part. After this meeting Cummins had predicted that unless there was a radical change in the industrial situation, the railroads would pass into government hands without much delay.

**Borah in No Hurry.**

When the Borah fact-finding bill was laid aside today in the senate, its author said he was not disposed to push his measure to the exclusion of other legislation and indicated that he was ready after passage of the bonus bill to let more pressing legislation take precedence. He warned senators, however, that they might as well disabuse their minds about an adjournment of congress within a few days.

**HEAD RENOMINATED AS STEPHENS SHERIFF**

*Special to the Times.*

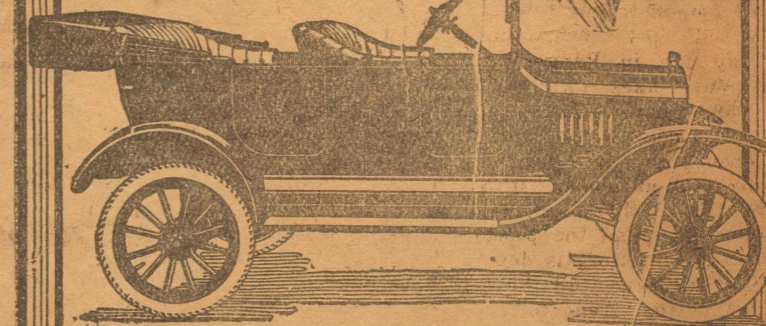

BRECKENRIDGE, Aug. 26.—Sheriff L. D. Head was renomiated by a majority of approximately 400 votes over Sterling, his opponent, re-

turns of five-fourths of the county's vote indicated. About 2,000 votes were cast in the county, a red-hot race bringing more to the polls than did the first contest, it is indicated.

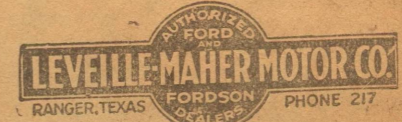

Mayfield and Ferguson are running neck and neck while Callaway has a lead over Blanton of about 25 votes.

## MISS ALMA WILSON WINS FIRST PRIZE IN BUY IN RANGER CONTEST

Miss Alma Wilson of Ranger was awarded first prize for the best essay on "Buy In Ranger" in the contest of the Retail Merchants contest that closed Friday at noon, it was announced last night by the judges. Mrs. R. B. Campbell was awarded second prize; Miss Virginia Schmuck, third prize, and honorable mention was given Mrs. Helen Gifford Clegg and Miss Evelyn West. The three judges, J. M. Dodson, Gus Coleman and J. T. Gullahorn, explained that their decision was largely reached on the booster spirit of the respective essays.

The winning essay follows.  
"BUYING IN RANGER."  
"Of course I buy in Ranger, my home town in which I live and which I love."

"The entire business world is becoming more and more conscious all the time of the fact that to stabilize general conditions it is necessary that every person recognize an obligation and an opportunity of supporting their home institutions. As the farmer is fast learning the lesson of making his living at home, he is also learning that it is his obligation to support the retail merchants who are doing business in his community. In fact, it is just a simple truth as well as good business to lend every support possible to every institution that has for its purpose the up-building of any particular community.

"If every person in our town and community will spend every dollar they possibly can in Ranger, each dollar so spent makes its contribution to the general public good. Naturally the basis of our commercial life depends upon the prosperity of the individual at home. It is a well accepted fact that the prosperity of any community and the prosperity of any trade territory is dependent upon the success of all the people who live in that trade territory. Therefore we should patronize our home merchants, who are the tax payers and the backbone of our town and community. In this way each dollar put in circulation makes a substantial contribution to every department of business and serves in this way every person residing within that territory.

"As Ranger is our home, the place where our interests are centered, merchants and customer should boost together and use different kinds of tactics to make it a better place in which to live. We choose the kind of world we live in and we paint it's hue golden or drab, as we will.

"If we buy at home and co-operate for the common good, I am sure we will be happier and more contented, and after all, that is what really counts. Let's not forget the slogan, "BUY IN RANGER."

"ALMA WILSON."  
Mrs. Campbell's essay, winning second prize advised the Ranger merchants to understudy the methods used by the city merchants in luring his trade away—to use his bait, to conform to his prices, to have as good salespeople and to advertise as much as he does.

Miss Schmuck's essay, which called on Ranger people to support the

town that is feeding them, advised the merchants to exert their originality in window display, to carry a more complete stock of goods and to make a first hand study of the bigger city methods in attracting trade.

Mrs. Clegg's essay was written in verse, in praise of the Ranger merchants and Ranger as a shopping center for the territory.

Miss West reminded Ranger buyers that they were called upon to pay cash by the city merchants and mail order houses while credit was allowed them by their home merchants when funds were low, and that the local merchants are tax payers and all trade given them helps them.

## TAKE THE CHILDREN WITH YOU, SNAPS WIFE TO JAILED HUSBAND

NEW YORK, Aug. 26.—When Magistrate Polwell, in Brooklyn, sentenced John J. Welence to 15 days in the workhouse, Welence's wife, Sadie, pushed her three small children toward the bench and hysterically screamed:

"Take these children with you. They belong to you. They are all you gave me in the eight years of my married life. I haven't got a penny."

Welence violated probation on a charge of beating his wife.

## Milwaukee Bathing Beauties Give New Thrill to Loungers

MILWAUKEE, Wis., Aug. 26.—Since the irreducible minimum was reached in bathing suits, spectators at the beaches have been difficult to arouse from their lethargy. A wisp of a maiden did it at Bradford beach, however, says the Milwaukee Journal, and treated persons in the vicinity to a tantalizing five minutes.

The atmosphere was quiet at the beach when the 16-year-old water nymph trotted out of the water and headed for a pile of clothing on the sand. Suddenly the air was charged with anticipation. Shocked wives turned to remark to their husbands and found them sitting up at attention, already aware of what was transpiring.

From Bathing Suit to Petticoat.

The shivering maiden slipped a petticoat over her head, at the same time edging her swimming suit down over her shoulders. With oncoming petticoat overlapping receding bathing suit by a bare margin of, rather, without a bare margin—the tow garment moved slowly downward as she wriggled out of one and into the other, but she did it. Then she serenely proceeded to don what went under and over the petticoat.

But the performance was not over. A boy of 12 and a young woman of 20, evidently brother and sister of the girl who dressed on the beach, followed her out of the lake.

Brother picked up another pile of clothing and the watchers sat up once

more, perplexed as to how, lacking a petticoat, he could duplicate her stunt. He slipped out of the upper part of his swimming suit and put on a waist. Then he sat down on the sand and his sisters closed in to obscure the view while he skinned out of the rest of it and pulled on his trousers. The older girl lent a helping hand to get the pants on when they stuck.

Husbands at Attention.

Anticipation was at its height, however, when the older girl bent down and gathered up another pile of garments. Wives prepared to march their husbands away from the spot—husbands prepared to resist for once if they never resisted again.

With the clothing in her arms, the young woman glanced around at the battery of eyes—for by this time all the beach was interested—motioned to her companions, and started for the bath house with a bit of a smile which almost made it suspicious that she enjoyed the disappointment of the spectators as much as they enjoyed watching her brother and sister dress on the beach.

## ADMITS SLAYING FORTY YEARS AGO; KILLS SELF

LITCHFIELD, Ill., Aug. 26.—Solution of three murder mysteries, which have remained unsolved for 40 years, is seen in the alleged confession of Silas Foster, aged 55, who took his own life Aug. 6, after falling in an

attempt on the life of Mrs. Charles Barner of Sorento.

The four Foster claimed to have killed were a Mr. Bellwood of Carlyle, Mrs. Ernest of Mount Olive, murdered March 20, 1882, and two McClellan brothers at Centralia. Records show that Alexander McClellan was

mysteriously murdered 46 years ago. No mention of a brother is made.

They say there is going to be a famine in sugar next year. But we are not apt to get excited about that until we have our winter's coal in.—Buffalo Express.

MAKING FARM DOLLARS.

Next Saturday, Ranger will have  
an opportunity to take a deliberate  
forward step, if it will plan wisely.

That opportunity is the town-farm  
conference, at which, its proponents  
hope, plans can be put under way for  
co-operation between business men  
and farmers, which will result in the  
upbuilding of a prosperous farm  
population.

Even at first glance, there are  
many steps apparent which would be  
of mutual benefit, revolving about the  
fundamental of providing a market  
for farm products.

For instance, here is the matter of  
vegetables being expressed into Ran-  
ger from Fort Worth while local  
farmers must spend time in peddling  
their produce as well as raising it.  
Instead of this, Ranger farmers  
should not only be able to fill the  
local market, but their surplus should  
be exported, as well. Proper market-  
ing arrangements, entered into whole-  
heartedly and with intentions of fair  
dealings on the part of both producers  
and distributors, will reverse the present  
condition, to the profit of both.  
That means more dollars in Ranger.

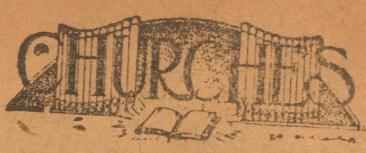

Then again, several Ranger dairies  
are mere delivery agents for Fort  
Worth creameries. Why in the world  
should cream be shipped from New  
Mexico into Fort Worth and then  
back to Ranger? Why shouldn't  
Ranger, with the vast acres at her  
disposal, have surplus cream to ship  
to Fort Worth? The answer, of  
course, is that there are not sufficient  
cows. From that premise, how-  
ever, it is easy to work along lines  
of definite progress. There is land  
suitable for dairies, now lying idle.  
There are men who know dairying  
methods, and who are willing to work  
energetically, if they can obtain the  
land and the opportunity to better  
themselves. In agricultural sections,  
banks are not averse to loaning  
money to buy cattle, realizing that it  
promotes the prosperity of the com-  
munity. Presumably, the Ranger  
banks would do the same thing, if  
plans were formed along business  
lines. Success would mean not alone  
the shipping of cream, but a cream-  
ery to handle it. That would mean  
more dollars in Ranger.

These things are but instances of  
what farm-town co-operation could  
bring about. There are others. There  
is the chicken industry, which puts  
many persons on few acres, and other  
types of specialized farming for  
which Ranger is well situated. All  
would mean more dollars in Ranger.

But these things, if left to grow  
of themselves, will develop only  
gradually, whereas applied effort can  
save years in bringing them to a  
high state of development.

Get behind the farm conference.  
Get every farmer you know behind it.  
If it functions as it should, this en-  
tire district will be materially bene-  
fited. Bigger towns than Ranger  
have been built virtually on farm  
prosperity alone.

The Hague being closed, the Rus-  
sian delegates had no place to go but  
home.—Chicago News.

**DRY SLEUTHS AFTER  
PHYSICIAN WHO 'DIED,'  
NOW REPORTED ALIVE**

CHICAGO, Aug. 26.—Federal offi-  
cials have begun an investigation  
into strange reports of an amazing  
"resurrection" of Dr. J. Newton Roe,  
director of several medical schools,  
supposed to have died in March, 1921.  
Dr. Roe was under sentence to  
serve 18 months in the Atlanta peni-  
tentiary for violation of the federal  
prohibition laws at the time of his  
supposed death.  
Recently many reports have reach-  
ed federal authorities that the phy-  
sician, was seen alive in South Amer-  
ica and that his supposed body was  
obtained from a medical school. Foley  
& Co., embalmers, were ordered to  
disinter the body, but positive identi-

fication was impossible because of  
the length of time since death.

While Dr. Roe's holdings were sup-  
posed to amount to millions of dollars  
at his death, he left no will, no heirs,  
and his estate passed to the public ad-  
ministrator. Instead of the millions  
expected, only a few thousand dollars  
worth of securities were found.

The best way to learn a person's standing and re-

Should someone inquire about the character and

be subconsciously—is, "Does he pay by check?" The  
man who pays by cash may be as prompt and all

### STARS BROUGHT TO LAMB BY 'PARAMOUNT WEEK'

This week will be a Paramount week at the Lamb as the management has booked a Paramount picture for every day of the week—all of them magnificent productions—in fact, it looks as though they had reached out into the firmament of filmdom and gathered a handful of star pictures. Beginning today with Cecil B. DeMille's new production, "Male and Female"; Monday, "Behold My Wife"; Tuesday, "Don't Change Husbands"; Wednesday, "Something to Think About"; Thursday, "Old Wives for New"; Friday, "On With the Dance."

Today's picture, "Male and Female," is said to be one of the most lavish productions of the screen. The play is adapted from Sir James M. Barrie's famous play, "The Admirable Crichton," with an all-star cast assembled to interpret it. Thomas Meighan has the role of Crichton, the resourceful butler, who became his master's master on a desert island. Gloria Swanson, whose gowns for this play cost over \$10,000, plays the part of the lord's daughter. Other stars appearing in the cast are Lila Lee, Theodore Roberts, Bebe Daniels, Raymond Hatton and Guy Oliver. The picture of this picture cannot be described. No effort has been spared by DeMille to make it a faithful reproduction. There are scenes from ancient Babylon, a real shipwreck scene, opulent scenes of a life of ease among the titled rich, barbaric scenes of struggle with nature on a South Sea isle, costumes of grass and skins, of silk and satins—in fact all the passion and yearning of the race fused into a real story that beats with red blood. "Male and Female" is a story with a real thought behind it, a drama of old society versus new, a love story that holds one spellbound, a thrill that takes the breath away. To miss the Paramount pictures for the week, is to miss some of the best pictures the screen has to offer.

### WOMAN'S INFLUENCE ON MAN SHOWN IN DRAMA

Those who doubt the world has progressed during the last two thousand years should witness the showing of Allen Holubar's famous Associated First National production of the eternal drama "Man-Woman-Marriage," starring the talented actress, Dorothy Phillips. The picture is now at the Liberty theatre.

"Man-Woman-Marriage" is a condensed history of the world's progress—a screen epic and proof positive of woman's subtle and benign influence over the destiny of mankind.

In the retrospective Roman scenes of this stirring modern story, beautiful Dorothy Phillips is seen as a Christian slave girl at the court of the Emperor Constantine. In the mighty splendor of this potentate's magnificence is pictured the decadence of civilization—the period when man lived for pleasure. It is the period whose unrestrained orgies were notable even in the reign of an Augustus Caesar. In striking contrast is Dorothy Phillips in the role of a despised and tortured slave steadfastly refusing to forswear the tenets of Christianity.

Down through the ages, as depicted in "Man-Woman-Marriage," the talented "Miss Phillips" indelibly impresses the spectator with the influence for good woman has wielded over man. In the modern story of this magnificent film, Miss Phillips is no less impressive in her role as a woman of our times.

The story is strong and convincing, and the work of the star stamps her as an artist of rare talent and ability.

### 16-YEAR-OLD BOY IS NAMED PRINCE OF BOOTLEGGERS

NEW YORK, Aug. 26.—Much has been heard about the "king" and the "queen" of bootleggers, but a "prince" of bootleggers had not appeared hereabouts until William H. Behm, 16 years old, of Brooklyn, was arraigned before Commissioner Hennessy in a charge of violating the Volstead act. Behm, when he saw others becoming rich over night through their lawless activities, decided bootlegging was the most profitable business to enter. Thereupon he set out to be a broker for a number of druggists in the east New York section, was prospering until Prohibition Enforcement Agents Sassi, Potter and Rosen brought about his downfall, when, they say, they bought 15 gallons of grain alcohol from him and negotiated for the purchase of 10 cases and five barrels of whisky. Behm was succeeding so well as a bootlegger, according to the dry sleuths, that he and his mother lived in an expensive apartment and drove about in a fine automobile.

### ANCIENT STATUES OF BRITISH ROYALTY FALLING TO PIECES

LONDON, Aug. 26.—The outer walls of the Houses of Parliament are crumbling. Hundreds of carven images, mostly of imaginary royal figures, have been unable to withstand the ravages of the weather, combined with the smoke-laden London atmosphere. They also suffer from the lack of respect shown them by hundreds of pigeons which roost on the sceptres and sharpen their beaks on the noses of kings.

Scarcely a day passes but what a monarch's hand or toe falls into Palace Yard. Not long ago a king's head was found in fragments on the terrace.

During the coming recess scaffolding will be erected and many workmen employed, at a cost of \$11,000, picking off the loose bits. Thus may one man in a day uncrown scores of kings.

Sir John Gilmore, who represents the government department that looks after public buildings, is of the opinion that none of the kings or other distinguished folk will be allowed to stick it out much longer on the walls of Parliament. "I think the day will come before long," he says, "when all the statues will have to be taken away. The situation does not agree with them."

### PRISONER WEAK AS HE ENDS JAIL TERM AND 20 DAY FAST

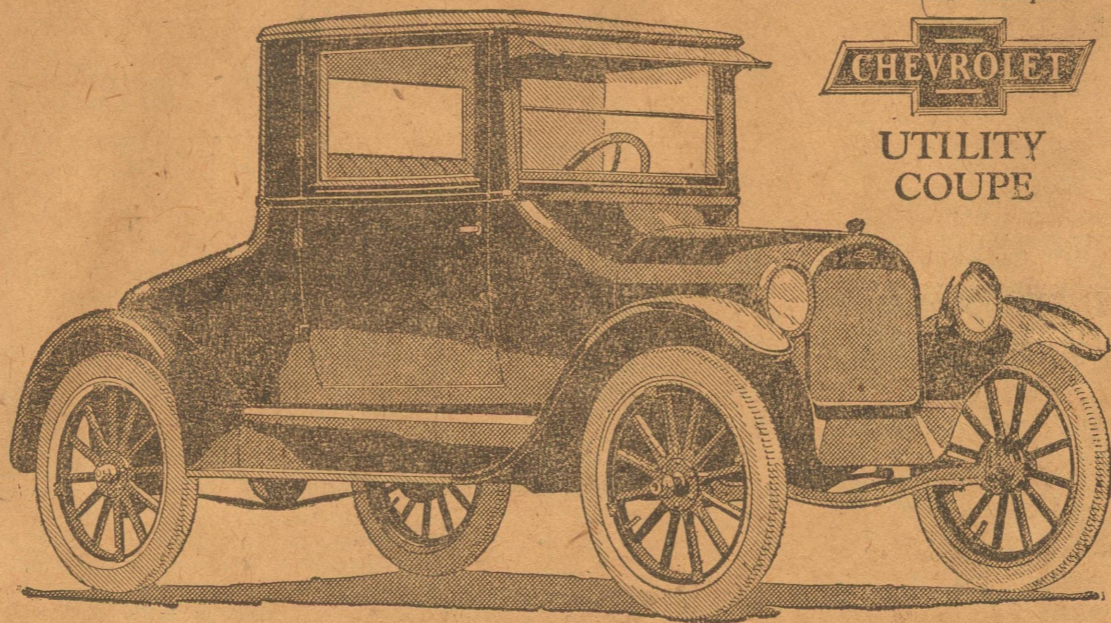

GRAND HAVEN, Mich., Aug. 26.—Making good his threat to refuse food during his 20-day incarceration in the

county jail, which he declared was illegal, Arthur McBride of Duluth has completed his term. His condition is serious. McBride was sentenced on a vagrancy charge.

A cattle plague that visited England in 1745 destroyed over 3,000,000 animals.

**KLUXETTE MARRIES.**  
ATLANTA, Ga., Aug. 26.—Mrs. Elizabeth Tyler, until last fall identified with the propagation department of the Ku Klux Klan, has been married here to Stephen W. Grow, of Atlanta, southeastern representative of a film company. They will make their home here.

CIRCUIT CLOUTS, PINCH HURLING, BEAT STAMFORD

NITROS HOME TODAY. The Nitros return home today from an 11-day road trip and will play the last series with San Angelo, today's game starting at 3:30.

STAMFORD, Aug. 26.—Powerful punches and bewildering pitching by Lybrand in the ninth gave the Nitros a 5 to 4 victory and an even break on the series here today.

Home run crashes by Pyle and Craig in the fourth round, Pyle's coming with Dockery roosting on the sacks, gave the Nitros a lead, which was increased in the eighth when Leedy also clouted one for the circuit.

Thomas, pitching with errorless support—the third day of play by the Nitros in the four-day engagement, blocked the Colonels except in the sixth, when they got to him for two runs, and in the ninth when he was driven to the showers.

WEST TEXAS GAMES

FOUR STRAIGHT FOR CLOVIS.

CLOVIS, Aug. 26.—Clovis made it four straight from Lubbock by winning today, 5 to 2. Errors behind Ferguson figured in most of the buzzer scores, while Clovis gave Burleson errorless support.

GASSERS SLUG APPLE.

AMARILLO, Aug. 26.—Sweetwater lost the usual slugfest to the Gassers today, 16 to 6. However, they had the satisfaction of driving Runt Morton from the box in the third round.

BRONCS WIN IN NINTH.

SAN ANGELO, Aug. 26.—San Angelo took a tensely fought battle from Abilene today, 3 to 2, scoring the winning run in the ninth after Abilene had tied it up in the eighth.

## SEPTEMBER BRINGS NEW LIFE

Friday ushers in the first day of September, and while there is not yet a twang in the air that suggests that we are listening to the retreat of summer, still there is an intangible something that tells us it has almost gone. September will be properly ushered in by an all-day affair given in honor of our baseball season ending, and its first day will come to a brilliant close that night with the ball the Gholson. This ball will be in the lobby and it is needless to say that for this occasion the lobby will be "dolled up to the nines."

Forecasting gay times this fall when it is open season for parties, are the invitations to the Tunnell-

Waggoman-Jones bridge, to be given Tuesday afternoon at the Gholson. The big parties are starting early. Early parties mean early shopping—new frocks, and a new zest to those fagged out by the summer's heat. It is told that already reservations have been made for other parties—so judging by the signs one may expect a rather full fall and winter season.

Each train brings vacationists home and already the boys and girls are beginning to go away to school. In a few weeks the clubs that have been disbanded all summer will take up their year's work, church societies will get into harness—and the whirl of social events will move on apace.

### YOUNG MATRONS' CLUB.

Mrs. D. M. Steele was hostess to the members of the Young Matrons' club and several other guests Friday afternoon. In bridge, the club high score prize went to Mrs. C. C. Craig, the guest high score prize to Mrs. C. O. Terrell and the low score prize to Mrs. Wilkie of Big Spring. Mrs. Steele served an ice course at the close of the game.

Club members present were: Mmes. Frank Brahaney, Ed Maher, Karl E. Jones, C. C. Craig, L. L. Rector, J. T. Gullahorn, L. A. Vandervoort, E. E. Crawford. Guests were: Mmes. C. O. Terrell, Frank Rarey, Sandford Terrell. Out of town guests included Mmes. Ralph Stockman of Fort Worth, Wilkie of Big Spring, Miss Marie Oldenettel of Brownsville.

## INDIAN LOVE AFFAIR SETTLED CHICAGO'S SITE

CHICAGO, Aug. 26—Here's a new version of the founding of Chicago that just came to light.

George W. Bolling, editor of the Daily Calumet, South Chicago's neighborhood paper, vouches for the story's authenticity.

"More than a hundred years ago the United States government sent a young engineer with instruction to select a site for a fortification on the southern end of Lake Michigan," Mr. Bolling said.

"The engineer had practically de-

ecided upon the mouth of the Calumet river, when he made a tour further north, found another river and a friendly Indian chief, who had a beautiful daughter.

"The result was that Chicago was built at the mouth of the Chicago river rather than at the Calumet."

Of course, that isn't the version found in the authorized histories, but Mr. Bolling said he would stick to it, histories notwithstanding.

# FRANCE NOT TO ACCEPT FINAL GERMAN PLAN

By Associated Press.  
PARIS, Aug. 26.—Premier Poincare has rejected the eleventh hour guarantees offered by the German government and independent measures by France against Germany seemed assured tonight after failure of the reparations commission to obtain in Berlin the basis of a compromise acceptable to France. In well informed French circles it is considered reasonably certain that the reparations will be granted by the commission for the rest of the year with the final German proposal as an additional guarantee.  
The final proposal of Germany to the commission just before it left for Paris provided for a contract between the German government and the biggest German industrialists, including Hugo Stinnes, for delivery during the period of a moratorium of products of the Ruhr mines and wood from the state forest. German industry would guarantee faithful delivery and penalties would be enforced against the industrialists in the event of failure.  
Details of the schemes were to be submitted by Germany next week but the French premier rejected the plan this afternoon after a conference with M. Dubois and M. Vaulere. The premier's opposition is said to be due to the fact that he believes the scheme made the industrialists more important than the government and since the business mart in Germany is in a position to dictate to the government, refusal to carry out the agreement would leave the German government powerless to act.  
British optimism which continued up to this afternoon had given away tonight to frank gloom over the situation after M. Poincare refused to accept the latest German proposals.

# CONCESSIONS MADE IN PUBLIC INTEREST, SAYS STRIKE CHIEF

By Associated Press.  
NEW YORK, Aug. 26.—The strike of 23,000 shopmen in the metropolitan district will now be fought to a finish and no settlement will be considered which does not include all original demands, John J. Dowd, chairman of the central committee declared in a statement tonight. He predicted that the strike would be won by the shopmen within a month.  
"The railroads and the newspapers," the statement added, "have interpreted the position we have offered in the public interest as a sign of weakness. We will now begin the strike over again, with the same firmness with which it was begun on July 1. The responsibility belongs to the executives and the press. Time also fights, and on our side."

# GOMPERS DECLINES TO MAKE STATEMENT!

By Associated Press.  
PHILADELPHIA, Aug. 26.—The United Mine Workers are ready to negotiate a satisfactory wage agreement with governmental representatives should the federal government take over the anthracite mines in case no agreement can be reached with the operators, John L. Lewis, president of the union, said tonight in a statement relative to the possibility of such action by congress.  
With a deadlock existing between the miners and operators for peace in the hard coal fields, Lewis said that the anthracite consuming territory would be seriously embarrassed for lack of fuel during the coming winter and described the possibilities of such a situation as appalling.  
Samuel Gompers, president of the American Federation of Labor, who came to Philadelphia yesterday from Canada, left with Mrs. Gompers for Washington today. He declined to comment on the situation, stating that the labor end of the dispute was in the hands of Mr. Lewis.

# CELEBRATE TOO OPENLY

C. E. Good and Jim Hughey, two oil field workers from Caddo, pleaded guilty and paid fines of \$20.70 each yesterday afternoon on charges of drunkenness and disturbing the peace after they were alleged to have been found in possession of three or four soda pop bottles of corn liquor, filled and partially filled.  
Both men were arrested by Sanitary Officer Wade Swift on lower Main street, after the officer was advised by a Ranger citizen that one of the men had been seen to enter a restaurant with a bottle in his possession. The larger part of the liquor is said to have been found by the officer in an automobile. The men are said by Swift to have been released on payment of fines on advice of County Attorney Ove E. Overson. Officers state that both men were merely celebrating and had the liquor for drinking purposes only.  
Will Hays says the public can improve the films. Maybe so, but the public isn't paid \$150,000 a year to do it.—Kansas City Times.

## REPUBLICANS NOMINATE CONGRESSIONAL CANDIDATES

By Associated Press.  
DALLAS, Aug. 26.—Democratic nominees in the eight congressional districts of Texas will with a few exceptions have Republican opponents in the November election. The Republicans held conventions in nearly all of the districts today and named their candidates for congress.  
Following are the nominees:  
Second district, C. A. Lord, Beaumont; Fourth, C. A. Gray, Bonham; Fifth, Heber Page, Dallas; Seventh, Judge Frank F. Camper, Palestine; Eighth, E. G. Barden, Houston; Ninth, W. W. Wilson; Tenth, W. J. Keendon, Sealy; Eleventh, R. A. Hamrick; Twelfth, Joe Kingscherry Jr., Fort Worth; Thirteenth, J. E. Smith, Denton; Fourteenth, Harry Wurzbach, San Antonio; Sixteenth, M. J. Simpson, Marfa; Seventeenth, W. D. Girard, Abilene; Eighteenth, H. O. Ward, Matador.

**HERTZBERG WINS.**  
SAN ANTONIO, Aug. 26.—With more than 25,000 votes counted in eight counties of the Fourteenth congressional district, the nomination of State Senator Harry Hertzberg over John H. Cunningham, both of San Antonio, is indicated. Hertzberg's lead is 9,000 votes, most of which were obtained in Bexar county, but he also has carried Comal and Nueces counties.

## SAN ANTONIO REPUBLICANS IGNORE K. K. K. AND BOOZE

By Associated Press.  
SAN ANTONIO, Aug. 26.—The Republicans of the Fourteenth congressional district this afternoon renominated Congressman Harry M. Wurzbach on a platform that ignored the Ku Klux Klan and omitted any mention of light wines and beer, the two subjects most mentioned by the two Democratic candidates for the nomination of their party.

## MOVIE ACTOR SLAIN

EDGEWATER, N. J., Aug. 26.—George Cline, movie location finder, was held on a murder charge today after he had given the authorities two versions of the shooting in his home last night of John Bergen, screen actor, who, he said, admitted having assaulted Mrs. Cline several weeks ago while they were in the Adirondacks.

# FORD BLAMES WALL STREET FOR THREATENED TIIEUP OF INDUSTRY

DETROIT, Aug. 26.—Industry the country over "must throw up its hands in surrender within a few weeks if the rail and coal strikes continue," Henry Ford declared today in announcing the decision of the Ford Motor company to close its plant here and in many other cities on Sept. 16 because of the fuel situation.  
Ford held financial interests responsible for the industrial tieup, declaring the money barons were manipulating the labor unions and that public officials, state and national, were impotent in the crisis.  
"The strike would end, he continued, "when the majority of the people are cold and hungry enough to resort to drastic action."  
"Blames Wall Street."  
"Continuance of these disturbances to the economic life of the nation is due simply to the greed and avarice of wall street," Ford asserted, adding that these interests dominate the railroads, coal mines and public utilities of the country.  
The deadlock in the strike negotiations indicated, he declared the existence of a plot to unload the demoralized and rundown railroads on the government at their own price and to
