OKLA. OFFICIAL BLAMES ARREST ON REPUBLICANS

Lieutenant Governor, Held for
False Swearing, Says It's
Political Frameup.

By Associated Press.
OKLAHOMA CITY, Aug. 30.—Lieutenant Governor M. E. Trapp of Oklahoma was arrested here today on a warrant from Seminole county charging perjury and preparing false testimony. The warrant was served by an under-sheriff from Seminole county. No details regarding the charges were made public.

"It is very apparent that the charge is a piece of Republican political blackmail," Lieutenant Governor Trapp stated after his arrest. He stated he was going to Wewoka immediately to investigate.

The charge against Trapp is in connection with an alleged transaction with Seminole county three years ago. The lieutenant governor was victorious in the recent primary election in the race for re-nomination on the Democratic ticket.

Papers served on Lieutenant Governor Trapp also charge him with preparing false testimony. Immediately after his arrest Mr. Trapp issued a statement in which he stated:

"This is the same matter which was made the basis of the attacks on me by the Republican house of representatives two years ago. It is now very apparent that the complaint was drawn as a piece of the Republican political blackmail, following the conference of the Republican leaders assembled here at the state Republican convention this week. I was cleared of this charge nearly two years ago. It is only because of the fact that I was nominated again by the Democrats for lieutenant governor in the August primary that the Republicans deemed it necessary to make it the basis of one of those venomous attacks that they have been directing to all those active in the Democratic ranks, and especially those who have been nominated for office. I am not worrying one bit about this complaint."

'AMERICANISM,' IS GARRISON'S NIGHT SUBJECT

The Rev. L. C. Garrison's sermon on "Americanism," for which 500 extra seats have been built around the revival tent on East Main street, will be delivered tonight. With the additional seats the seating capacity in and around the tent has been increased to approximately 2,300.

Special music for the occasion has been arranged for by Choir Leader Carroll and the largest crowd since the services opened is expected.

NO CONCERT TONIGHT; BAND MEETS TOMORROW

The regular Wednesday evening concert of the Merchants Association band will not be held tonight owing to the indisposition of "Pop" Endicott who has not fully recovered from an attack of Dengue fever contracted during his visit in Galveston. The band will hold a rehearsal tomorrow night. Uniforms are expected here in about ten days.

Pop was laid up with fever three days after he reached Galveston on his vacation, he stated, and explained that there had been 12,000 cases in Galveston this summer. The disease is somewhat like a mild attack of yellow fever, he said, and is known in some sections as break bone fever.

SHARKS NEARLY GET CREW OF SEAPLANE

By Associated Press.
HAVANA, Aug. 30.—The crew of the seaplane Sampaio Correia would have fallen prey to sharks if rescue had been delayed another hour, according to the story told by the members of the New York to Rio de Janeiro aero expedition upon their arrival in Havana.

"Darkness overtook us while we were trying to reach Port Au Prince, Haiti, from Nassau," said Walter Hinton, pilot of the Sampaio Correia. "The searchlight from the U. S. S. Denver picked us up and fooled the sharks, which had gathered around the wrecked plane. Another hour would have given them a feast, for the Campaio Correia was sinking fast."

Trying to Speed Up
Shipments.

By United Press.
DETROIT, Aug. 30.—Closing of Henry Ford's mammoth automobile plants Sept. 16 may yet be averted, it was learned at the Ford Motor company's Dearborn office here today. Closing of the Ford plants would be unnecessary if success crowns the present mission of E. G. Liebold, Henry Ford's secretary, and E. L. Rockelman, general manager of the Detroit, Toledo & Ironton railroad, who are in Ohio, Kentucky and West Virginia points today in an effort to speed up coal shipments.

HIRAM JOHNSON RENOMINATED IN CALIFORNIA

By United Press.
SAN FRANCISCO, Aug. 30.—Returns today from most of the big counties of the state show Hiram W. Johnson leading Charles C. Moore by more than 25,585 votes for the Republican nomination for United States senator in yesterday's primary. The count stood: Johnson, 98,215; Moore, 72,630.

Returns from Los Angeles county, Moore's stronghold, were not complete but indications were that the official count would not change the stand materially.

SIXTY-GALLON STILL SEIZED NORTH OF TOWN

By Associated Press.
EASTLAND, Aug. 30.—A 60-gallon copper still, seized Monday afternoon five miles north of Ranger by Prohibition Agent T. A. Bendy and Deputy Sheriffs John Barnes and Shell McDowell was placed on exhibition on the court house lawn here after it had been battered into uselessness by the officers. One arrest was made and another man has promised to come in and give himself up, it is stated.

Only a small quantity of whisky was found at the still, although there was abundant evidence that the still had been operated regularly, the officers state. Prohibition Agent Bendy explained that whisky was usually buried some distance from stills as fast as it was made.

"There are not nearly so many stills as formerly, and those which are being operated are larger and the loss heavier when they are caught," Bendy said, "and while the enforcement of the prohibition law is difficult, the people are gradually being educated up to its observance."

MOTOR CAR BURNED.

By Associated Press.
BROWNSVILLE, Aug. 30.—An unidentified man set fire to a railroad motor car of the Gulf Coast line at Mission last night, according to a report received here today. The car which operates between Brownsville and Mission was destroyed. The car had been left in the Mission yards, according to the report, and a negro brakeman said a man in soldier's uniform came in the car at 4 o'clock this morning, sprinkled gasoline on the floor and set it on fire.

CAN'T SATISFY PRESIDENT ON BONUS TERMS

By Associated Press.
WASHINGTON, Aug. 30.—White House callers discussing the bonus question this morning left with the impression that the chief executive regarded the addition of the McNary reclamation and the Simmons foreign debt amendments adopted by the senate yesterday as making the measure more objectionable than in its original form.

Numerous complaints have also been received at police headquarters of speeders on the Caddo highway and warning has been issued that it must stop at once.

Europe Alarmed by War Threats in East

Turks Attack Greeks; Jugo-
Slavia in Border Row; Con-
stantinople Endangered.

By Associated Press.
PARIS, Aug. 30.—Capture by the Turkish Nationals of Eski-Sher, the principal stronghold of the Greeks on the Asia Minor fighting front was reported in Paris official circles this morning. The Turkish advance is being continued and is now more than 40 miles in depth.

Ten divisions are participating in the offensive. The attacking forces are equipped with artillery and an abundance of ammunition. The Greeks have called to the colors all classes of reserves which have not been mobilized.

An equally menacing situation has developed with the mobilization on the Austrian frontier of Jugo-Slav forces, which are reported to be preparing to march into Austrian territory. Italy is ready for emergencies, and has warned the nations of the Little Entente that she will not tolerate a violation of Austrian territory.

Pierce Fighting in Asia Minor.
The Italian cabinet meeting in Rome, is considering the possibility of intervention in behalf of Austria.

Allies May Have to Act.
The Greeks are massing troops before the outer defenses of Constantinople, which injects another element into the situation. The recent Greek threat against the city brought from the allies prompt notice that such a move would be met with decisive action.

The situation in the Balkans and the Near East has alarmed London. The Evening News reflects a widely prevalent opinion. It says, "Europe is confronted with the peril of a great new war, of which the Near East would be the cockpit."

Fair Golfer Climbs Tree, Plays Ball From Bird Nest

CRAWFORDSVILLE, Ind., Aug. 30.—The birds in the treetops at the Crawfordville Country club golf course received a thrill when Mrs. Galen Blackford, portly society matron, and semi-finalist in the women's golf tournament, calmly climbed a tree and played a mashie niblick approach from the bird's nest.

She was playing Miss Esther Detton in the 18-hole semi-final match. Her third shot to the green on the long hole pitched over a road, was short, crashed into a tree and failed to fall to the ground. Caddies investigated and found the pellet lodged in a robin's nest. The gallery remained composed on the surface at least while Mrs. Blackford "shinned" up the tree and played her shot clean onto the green for a halved hole.

LITTLE HOPE FOR ENTOMBED MINERS

By Associated Press.
JACKSON, Cal., Aug. 30.—Hope of rescue for the prisoners in the Argonaut mine waned today. Ten men from the United States bureau of mines rescue crew have been going down into the burning mine in relays. These men have reported they had again reached the 2,700-foot level, from which the crew was driven last night. The smoke was intense there and the fire was reported raging fiercely below that point.

CITIZEN-POLICE HAVE QUIET NIGHT

The new police administration's third night in office passed quietly, with the exception of a hurry call of citizen-police to a home on the East Side where an armed man was reported to be demanding entrance to a residence of a neighbor. In view of trouble that has been threatening in the section for several days, two car loads of men were sent to the scene. The alleged trouble-maker was taken into custody an hour or so later but allowed to remain at his home on convincing the officers that his intentions had been misunderstood.

Bastile Made Sanitary.
A cleanup of the police station, including the cells, began this morning with two prisoners working out their fumes with mops and brooms. Old comforts found in the cells were taken out and burned and the floors washed down with a hose. An order was given for the repair of jail plumbing.

As has been the case since the volunteers went on duty shortly after midnight Sunday, all sections of the city were patrolled on foot or in automobiles during the night. Four officers were kept on duty in the downtown section.

HOUSTON WOMAN HOLDS PAPERS IN MILLION-DOLLAR DAMAGE SUIT

By United Press.
DALLAS, Aug. 30.—Private papers belonging to the late Sterling Adair, former husband of Evan Burrows Fontaine and for which search has been made by private detectives employed by several different sources during the past month, have been recovered in Dallas and turned over to Adair's mother in Houston, according to P. C. Short of Dallas, attorney for Mrs. Adair.

These papers, including letters of Sterling Adair's, are claimed to establish the legitimacy or illegitimacy of Cornelius Vanderbilt Whitney Jr., 3-year-old boy, whom the mother, Evan Burrows Fontaine, claims is the son of Harry Payne Whitney, of New York. The letters will never be made public but will be kept as a family secret by Mrs. Adair, according to Short. Her only motive in seeking the missing papers has been to avoid further publicity, Short declared.

Suit for breach of promise has been filed in New York by Evan Burrows Fontaine, against Harry Payne Whitney Jr., and it is alleged both sides in the case have made extensive search for the papers mentioned above. Miss Fontaine also is seeking \$1,000,000 through another suit for the support of her child.

MAN WHO TICKLES HEAD WITH TOE ON BASEBALL JAMBOREE PROGRAM

Tom Onzo, "the man who tickles his head with his foot," and claims to have been "physical culture and contortionist champion of the world" since 1882, as well as being the world champion walker, has been added to the attractions at the baseball jamboree Friday afternoon.

Onzo confesses to being 67, but judging by his actions yesterday at the ball park and on the streets last night, he's the spryest young fellow in town. He actually tickles the top of his head with his toe, and it's an excruciating spectacle. He also does contortionist stunts in a way that makes them laughable instead of horrible. The visit to Ranger "just happened" while he is on a trip across the continent.

Prospects are that the final game of the season will have as large a crowd as the opening day and will furnish a lot more fun.

NEGRO FOUND HANGED

By Associated Press.
SHREVEPORT, La., Aug. 30.—The body of Thomas Ross, 25-year-old negro, accused of criminally assaulting a young white woman of this city, was found hanging to the limb of a tree by Bossier parish authorities this morning near the Shreveport-Bossier highway, 12 miles from here. SHOP STRIKE IS 'CLOSED ISSUE' WITH TRAINMEN

Won't Even Be Discussed at
Meeting of Chiefs, Lee
Declares.

By United Press.
CLEVELAND, Ohio, Aug. 30.—Strike of the railroad shopmen is a closed issue with the big railroad brotherhoods, at least temporarily. This was the statement of William G. Lee, president of the Brotherhood of Railway Trainmen, as conference of "Big Four" chiefs opened shortly before noon today.

Lee denied that the rail strike was to be brought up at today's session and explained that "many routine matters, including the political situation in various parts of the country" would be discussed.

Hooper, chairman of the railroad labor board, announced this morning at the hearing of the application of the maintenance of way men on more than 100 railroads for an increase in minimum rates of pay, that no decision in the case would be rendered until all the members of the labor group have returned to Chicago. NO BODIES FOUND IN KANSAS CITY AUTO GRAVEYARD

KANSAS CITY, Aug. 30.—With one car two-thirds out of the water and with grappling irons fastened to a second, Wyandotte county authorities, engaged in dragging what they believed to be a "murderers' graveyard" in the Missouri river near here, last night were forced to abandon their grim search because of darkness.

Search in the river followed reports that a car, with the body of a man lashed to the steering wheel, rested on the bottom. No body had been discovered last night. The car, which has been partly pulled from the river, is a red roadster stolen Aug. 19, according to police records.

The dragging was continued today. That other cars, and possibly the bodies of murder victims will be found was the belief expressed last night by David Kepler Jr., under-sheriff of Wyandotte county.

LEARNING ABOUT STRIKES.

"The nation has laws to govern men, but none to govern dollars," says Arthur Brisbane in summing up the lessons of the coal and rail strikes.

That is a lesson newly learned by America. In former times, it was believed that capital as well as labor suffered immense loss through industrial strife. Now it views with exasperation the futile efforts of the government to prevent profiteering in coal; it sees involuntary industrial loss through shutdowns of industry.

The coal miners, it seems, have been used as pawns by the coal barons in a raid on the country's finances. They get the onus of striking—thereby bringing about a coal shortage—when latest developments indicate such action was deliberately forced on them in order that the coal operators might make inordinate profits through an artificially created shortage.

Rather, the miners were blamed for the condition when the strike started, but the scales are being torn from the eyes of the people and they are coming to the same conclusion as Mr. Brisbane. They are rapidly learning that the machination of giant combines may make things seem what they are not, that it is not always undue greed of workmen that disrupts industry.

It is a new situation for America to face. But it is one that must be faced and solved. The world is rapidly learning that liberty has a financial phase as well as a political one. Some day the personal liberty of money will be restrained if it assaults the dollars of other men.

REPUBLICANS BOAST OF LARGE CAMPAIGN FUND

Working Quietly to Give Texas Democrats Warm Fight in November.

DALLAS, Texas, Aug. 30.—Texas Republicans have laid full plans to contest election of Democrats to the United States senate, all state offices, several congressmen, and many county offices in Texas this year.

They have been working quietly and watching with interest the outcome of the Democratic primary campaigns. Since both Democratic primaries now have been held, the Republicans plan to concentrate their efforts to defeat the choices of their opponents.

Col. W. E. Talbot is in charge of organization work. Reviewing what has been done in the past two years, he said:

"After the wonderful strides made by the Republican party in the election of 1920, it was decided to organize and make a strenuous effort to build up the Republican party in Texas.

Headquarters at Dallas. "Dallas was decided upon as the logical place for state headquarters, and I was engaged as director of organization, with a contract for two years. While attempts had been made in the past to elect county tickets, nothing much had been accomplished. The organization work started September 1, 1921.

"While the Terrell election law provided that the election judges should be selected from both political parties, practically 99 per cent of the election judges in Texas were Democrats. State headquarters started a strenuous campaign to have election judges appointed in the different counties and today there are 91 counties with their quota of Republican judges in Texas.

"A number of counties have had county chairmen, but it was in isolated cases that a full complement of the precinct chairmen had been elected. State headquarters concentrated on building up the county organizations until today there are 214 counties in the state with regularly elected chairmen, and 1,750 precinct chairmen.

Women Organized. "There are also 61 counties with women organizations, 160 precinct chairwomen.

"The next important feature was to get adequate publicity, therefore, a newspaper was organized and is being published today under the able editorship of E. C. Senter, former senator. The name of this paper is "Industrial Dixie" and today has circulation in every county in the state.

"At the county conventions on July 29, 50 Republican county tickets were nominated, over 33 candidates endorsed for the legislature and ten endorsed for the state senate.

Have \$80,000. "At the state convention, a full ticket was put in the field for state offices from senator down. Since September 1, 1921, state headquarters have raised \$27,000 additional in pledges, which gives them a total of \$80,000 for organization work over a period of two years. This is in no sense of the word a campaign fund simply to organize the Republican party in Texas."

DOG HILL PARAGRAPHS By GEORGE BINGHAM

Washington Hocks says the other morning he hoisted a window, and then didn't have a stick to put under it, and he had to let it back down until he could go out and hunt up one, just like nearly everybody else does nearly every time they go to raise a window.

She denies the charge in full.

GARY PUZZLES WALL STREET BY PAY BOOST

NEW YORK, Aug. 30.—The business world was still discussing the announcement of E. H. Gary that "the wage rate of day labor at the manufacturing plants of the United States Steel corporation have been increased 20 per cent to become effective Sept. 1, and that other rates will be equitably adjusted."

The announcement is considered in financial circles as likely to have a far-reaching influence. Just what the effect will be no one could definitely predict. One pointed out that the announcements will probably stiffen the striking railroad shopmen and the miners in their demands for a favorable settlement.

To Undermine Unions. "Others took the view, however, that the move on the part of the steel corporation would undermine the strength of labor unions. The manufacturing plants of the corporation are open shop basis.

The announcement also brought forth another question: "What will be the attitude of J. P. Morgan and company toward the 'die hard' rail executives regarding the strike settlement?" The United States Steel corporation is regarded as a Morgan company. At the same time J. P. Morgan and company acts as bankers for some of the more important railroads and is kept fully informed of developments when any conferences looking toward a strike settlement are in progress.

The announcement is puzzling Wall street in other ways.

Dividends Passed. In the last calendar year the corporation failed to earn its dividend on the common stock by more than \$15,000,000. The first quarter of this year net earnings were only about 60 per cent of the net earnings of the first quarter of last year.

About 156,000 men will share in the increase. The payroll will share in the increase. The payroll will be swelled about \$15,000,000 to meet the raise. It is believed the independent companies will be forced to take similar action.

SEWER LINE ORDERED BUILT TO HOSPITAL

The construction of a sewer line from north of Main street to the City-County hospital site was authorized yesterday afternoon at the regular meeting of the city commission. The authorization was in the form of a motion determining the route. Plans for the opening of roadways to the hospital grounds were also discussed with City Engineer Redwood but no action was taken. The county, it was stated, was willing to leave the construction of the roads to the supervision of the city engineer.

The personnel of the hospital board, elected by the county commissioners and published some time ago, was formally reported to the commission. The commission likewise went into the proposed financial arrangements of the county to provide its share of the cost of the building and improvements and adjourned after some discussion of local matters.

SPEEDING TRAIN KILLS TWO MEN AS THEY BATTLE ON RAILROAD TRACKS

CHICAGO, Aug. 30.—Unmindful of everything except the battle between them, Michael Burke, a special policeman for the New York Central railroad, and James Wallace, a negro, whom Burke arrested for trespassing, were struck and killed here by the "Westerner" New York Central express as they fought on the tracks here last night.

Wallace was arrested by Burke when found prowling around the yards. He attempted to escape and Burke tried to hold him as the train bore down upon them. They fought back and forth across the tracks while the engineer attempted with shilling whistle and screaming brakes to attract their attention nor bring the train to a stop.

With the speeding locomotive only a few feet away the negro dragged the policeman onto the track. Both were dead when picked up.

OKLAHOMA GOVERNOR CHALLENGES TRIAL JUDGE

OKLAHOMA CITY, Aug. 30.—The state supreme court today granted an alternative writ ordering District Judge Mack L. Bozarth to show cause why the mandamus petition filed by Governor A. B. Robertson to disqualify him as trial judge in the case charging him with accepting a bribe could not be granted. Final hearing on the mandamus action was set for Monday, by which time Judge Bozarth's answer is expected to be filed.

MUNS TOO MUCH FOR NITROS AND BRONCS WIN, 6-1

The Nitros had no luck against Pitcher Muns yesterday and dropped the odd game of the series to the Broncs, 6 to 1. The 1 was compiled only on a homer by Parson Pyle in the ninth round, after he had knocked out a triple and single in previous rounds but received no support from his teammates. Muns' pitching was so effective that no two of the Nitros' six knocks came in the same inning, and though three of them were triples, two lucky—and the Broncs' only bobble put another on third, no scores resulted.

Thomas, on the other hand, was pelted vigorously and though given startling support in some rounds, failed to get the backing he was entitled to in others, and the Broncs ran up a good sized count.

Brooks, rushed back into the fray with his right hand still strained from an injury received at Stamford last week, had the worst day of the lot, though all his misdeeds—and several of the others—came on chances made hard by well executed whacks of the Broncs.

Fast Double Play. A sparkling double play with Brooks as the pivot wiped out a Broncs threat in the opening round. In the second, Alexander, first up, lifted a homer over the wall, giving the Broncs a one-run edge which stood up for five innings, though twice triples put Nitros on third, once with no outs and again with one down.

In the fifth, the Nitros rose to great offensive heights in retiring the Broncs runless. Robertson led off with a single but was nipped at second when Wristen laid down a bunt. Muns followed with a liner down the right field line that sent Wristen to third. Greer hit a red-hot slam at White, who by a great play stopped the rap and headed Wristen off at the plate. Then Thomas' snap throw to Leedy caught Muns off second and he was chased down.

Lost in Sixth. The Nitros broke in the sixth, however, a hit by Scoggins, a hurried throw by White that pulled Leedy off first and a walk to Alexander filling the bases with none down. Klindworth rapped a hot one to Brooks' right. His injured hand would not stand the strain and Scoggins scored. Butler fanned with the bases full, but Robertson delivered a hit to center that counted McBride. Alexander, trying to score from second, was nipped by Craig's fast throw. That ended the scoring, though, the Broncs again filled the bases before the final out was made.

In the seventh, two hits, one of which Pyle let get through him, a wild throw by Craig, another error by Brooks and a sacrifice fly by Klindworth added the clinching runs.

Speck Snags Two. Dockery horned into the limelight in the eighth with one of the greatest catches of the season, he going far back as the crow flies for many yards, and turning just at the right time and place to snag Greer's long drive. The catch saved a run, as Muns was on the bags. Speck also opened the ninth with a phenomenal running catch of a drive by Scoggins.

It was a fair to middling game at that.

N'Awlins Prepares to Answer Veterans' 'When Do We Eat?'

NEW ORLEANS, Aug. 30.—New Orleans is preparing an effective answer to the well known army question, "When do we eat?" The reply will be ready for thousands of members of the American Legion, who come to the Crescent city for that organization's annual national convention, Oct. 16-20.

Delectable old-time Spanish and French creole dishes, instead of the ordinary victuals on the menu will appease the appetites of the restaurant men say.

Descendants of old creole cooks and those whom they taught the mysteries of preparing famous dishes will concoct the "gumbo fillet," "Jambalavas," "courtbouillon," "entremets" and "creole desserts" especially for veterans at the convention.

French drip coffee, aptly termed "morning joy," will be served, it is rumored, early in the morning at the visitor's bedside.

No careless hand can make a perfect salad. It looks simple enough when watching the cook throw in a dash of this, a pinch of that, and pour in vinegar and oil with seeming abandon. Yet the cook has acquired by long practice the simple touch that produces a masterpiece. Only artists will make the salads for legionnaires.

Gumbo is a delicious soup that belongs particularly to the New Orleans cuisine. It is a product of both the Spanish and French types of cooking but belongs distinctively to neither. The fillet used to thicken the soup is a powder made from the leaves of sassafras trees gathered and dried when very young and tender.

Sea foods are a staple but are found prepared in such enticing fashion and are so delicately seasoned that the appetite for them is never dulled. There is high voltage joy in masticating a mess of river shrimp, trout with tartar sauce, or a soft shell crab served in the New Orleans way.

Restaurants are making arrangements to feed the 150,000 guests expected. Tables are to be placed on the sidewalks and every available space that can be utilized for the quick serving of meals will be employed. There are scores of little French and Italian table d'hotes which serve a substantial meal at a reasonable price.

During China's famine in 1877 the loss of life was 8,000,000, while a similar tragedy last year resulted in only a few hundred thousand deaths, because of the advance of industrial engineering.

ITHACA, N. Y., Aug. 30.—Irene Castle Tremain sustained a broken collar bone and other injuries here while training her horse Buckshot for the coming New York horse show.

The mount carrying Mrs. Tremain was about to clear a five-foot barrier when it hesitated and then toppled over in a heap with its rider landing underneath the animal. A groom hastened to her aid.

Her physician said that Mrs. Tremain will be confined to her home for the next eight weeks.

SHALLOW SAND AROUSES INTEREST AT EASTLAND

EASTLAND, Aug. 30.—There has been unusual excitement attached to the recent shallow development in this section, one well located three miles southwest of the city, the other that distance north of town. The Plateau Oil company's Owens No. 1 reported in last Friday when it touched the shallow pay sand at 1,370 feet, and showed for 2,000,000 cubic feet of gas, has not been drilled deeper but has gradually increased its flow. Tuesday's gauge showed that it had made 90 barrels in the last 24 hours.

This shallow sand is found to underlie the surface south to northwest in a circle around this city, but is not always productive.

North of town, Herrington et al. have picked up the sand at 1,670 feet and have a well showing up for 50 to 75 barrels.

New York producer of musical comedy called "Strut, Miss Lizzie," has dedicated it to Henry Ford.

Cable report says Russia needs somebody to stop them from fighting. Jack Kearns, Dempsey's manager, is the man for that job.

Speaking of Jack Dempsey, maybe he's trying to make a liar out of some fortune teller who told him a dark man was coming into his life.

Movie people living in Beverly Hills section of Hollywood are all worked up because real estate men insist upon calling the rest of the town "Hollywood proper."

Selznick Company has signed contracts with both Theda Bara and Elinor Glyn. All they need now is a good supply of inflammable film.

"Don't scold the boy," said Ma as a stumbling step was heard upon the stairs. "He's got a lot of good stuff in him."

"I'll say he has," growled Pa. "It cost me \$25 a quart."

THURSDAY.

Thursday Bridge club meets with Mrs. D. M. Steele.

TUESDAY'S BRIDGE PARTY.

If yesterday's bridge party at the Gholson is an opening gun of the coming season, then party going folks may expect some festive times—for it was indeed a gala affair. The good times began with the welcome extended each incoming guest by their three hostesses, Meses. S. B. Tunnell, R. B. Waggoman and Karl E. Jones, and so sincere was this welcome, that its spirit radiated throughout the entire assembly. Everybody was extending greetings to friends who had been away for the summer, or who had retired from social affairs during the hot weather, and it made one feel that it was a real home-coming day.

The mezzanine floor, where 15 tables were arranged for bridge, was decorated with trailing ferns, palms and other foliage plants, while festoons and lover's bows of green crepe paper were used effectively against the white colonades, carrying out the green and white color scheme which prevailed. Green is always suggestive of cool places and so effectively was it intermingled with the white in tally cards, pencils, prizes and refreshments that one forgot that summer still lurked on the outside.

The hostesses were assisted in entertaining and serving by Meses. Ralph Stockman and Earl Taylor and Meses Marion Stubblebine and Helen Stafford. Refreshments carried out the general color scheme to perfection, being green and white brick cream, angel food cake iced with green, green and white mints, all served on green-covered plates, with white lace doilies over-covering, also green punch, decorated with green cherries.

The high score prize, a green pyrex dish in a silver holder, went to Mrs. J. C. Pullen. The next to highest score prize, a silver cake tray, went to Mrs. Carroll Clarke, while the consolation prize, ice tea sippers with green bowls, went to Mrs. R. M. Schmuck.

Notable among the many new fall gowns that were in evidence at this party were the gowns of the hostesses. Mrs. Tunnell wore black canton crepe with red trimmings, Mrs. Waggoman a black canton crepe with jet trimmings, and Mrs. Jones a dark

blue poiret twill, with Alice blue trimmings.

Those who were invited to partake of the hospitality of these three charming hostesses were: Meses. E. G. Albright, Garrett Bohning, A. S. Bergere, G. C. Barkley, S. P. Boon, Frank Brahaney, F. A. A HAY RIDE.

Mrs. C. C. Smith's Sunday school class of the Methodist church enjoyed a hay ride last night. The big truck conveying them to a spot on the Desdemona road, about seven miles out, was furnished by the Oil-belt Motor company and driven by "Tubby" Gullahorn who, by the way, was the only man present. The crowd left town about 8 o'clock and on arriving at their destination they spread a picnic lunch that was consumed with amazing dispatch. Games and songs were enjoyed, and then came the ride back home. The "hay riders" were: Meses Edna Brashier, Hortense Champion, Elinor Alworth, Merkel Mills, Phyllis Williams, Reba Alworth, Azaline Cox, Alice Dreby, Hilda Grey, Willa Byers, Dixie Heath; chaperones, Meses. E. J. Gilbert, C. C. Smith, Watson, and "Tubby" Gullahorn.

HONORING OUT-OF-TOWN GUEST

Miss Nellie Chilton, whose home is at the Page hotel, entertained a number of her friends there last night, honoring her house guest, Miss Irene Rush of Dallas. Music was furnished throughout the evening by Miss Mildred Carlyle of Strawn and Rupert Murphy. A number of games were played and delicious refreshments were served. Mrs. Gregg states that the climate of Kerrville is ideal, and that as a play ground for children and grownups, it cannot be surpassed.

HER ROMANCE ENDED, SHE ASKS AID

Mrs. Lola Hart

Mrs. Lola Hart, who claims to be a cousin of a former governor of Alabama, with influential relatives in Birmingham and Atlanta, has complained to the federal authorities in San Francisco that she was induced to come to California with Albert Garman, interior decorator, 60 years old, under promise of marriage, which, she says, he failed to keep. She declares Garman beat her, and she had him arrested. He asserts, however, she followed him and that he could not get rid of her.
