FARM MEETING IS POSTPONED FOR ONE MONTH

More Comprehensive Program Can Be Worked Out With More Time, Is Belief.

The farmers conference, barbecue and tractor demonstration scheduled to be held under the auspices of the New Chamber of Commerce Saturday has been postponed until the latter part of September to allow more time for mapping out a program and in order that farm experts now out of the state may be brought here for the occasion. The date for the meeting will be announced shortly.

The co-operation of the Rotary club in the matter is promised in a letter received yesterday from the secretary of that organization in which it is declared that the Rotarians realize the vital importance of concerted work along this line and wish to extend their approbation and their help in any manner to make the conference on agricultural problems a success.

The Rotarians also expressed the desire to co-operate with the New Chamber of Commerce in all matters pertaining to the upbuilding of the community.

MORE SEATS ARE ADDED AT REVIVAL TENT

Seats to accommodate 500 more persons are being built around the sides of the Garrison revival tent on East Main street in anticipation of the evangelist's sermon on "Americanism" tomorrow night. The crowds attending the meeting have overflowed the tent for the last week and despite the fact that the seating capacity was increased to 1,800, hundreds have been forced to stand during the services.

A large crowd last night heard Evangelist Garrison's sermon on "Hell." He will preach tonight on "A Sure Cure for Snake Bite," and his special sermon on "Americanism" tomorrow night.

The Rev. M. F. Drury of the East Ranger Baptist church and the Rev. A. N. Stubblebine of the Presbyterian church are assisting at the meetings.

EYEWITNESSES FORGET MINE MASSACRE DETAILS

MAKION, Ill., Aug. 29.—Employees of the electrical railway running between Makion and Herron, Ill., and employees of the power house, working when non-union miners of the Lester mines were massacred, were the first witnesses today before the grand jury investigating the Herrin mine massacre.

The railway and power house employees were said to have been eyewitnesses to the tragedy.

Attorney General Edwin J. Brundage of Illinois, who is in charge of the investigation, stated the grand jury is going about its work with precision and that with the abundant evidence on hand, he did not expect it to take very long to complete its work.

Testimony of several witnesses today before the special grand jury investigating the Herrin massacre was disappointing, in that they appeared to have "forgotten" many phases of the mine war they were being relied upon to bring out, it was learned this afternoon.

U. S. GETS ROYALTIES

WASHINGTON, Aug. 29.—Royalties amounting to \$642,507 accrued to the federal government during July from oil, gas and gasoline on leased federal lands, the Bureau of Mines announced today. Of this amount, Wyoming was accorded with \$355,220, California \$269,889 and Montana \$17,498. The oil royalties alone were \$629,054, while those from natural gas amounted to \$10,857 and natural gas gasoline \$2,696. Total net royalties from these products up to Aug. 1, \$6,409,115.

INDIAN HEIRESS SAYS OIL MAN KIDNAPED HER

TULSA, Aug. 29.—Charged with abducting Millie Narharkey, a Creek Indian heiress, living at Red Fork, Okla., A. B. Reese, an oil broker here, and W. R. McKnutt, a local taxi driver, are in jail at Joplin, Mo.

EUROPE IS SAVED! COL. HOUSE ON JOB

LONDON, Aug. 29.—Colonel House, President Wilson's former confidential advisor, had breakfast today with Lloyd George. It is understood they discussed a remedy for the turbulent conditions in Europe.

RESCUE PARTIES HOLD OUT LITTLE HOPE FOR MINERS

48 Men Still Trapped Mile Underground; Wives and Families Wait in Silence.

JACKSON, Cal., Aug. 29.—Forty-eight miners are still imprisoned today nearly a mile underground in the Argonaut mines. Rescue workers are vainly endeavoring to reach them while families and friends of the entombed men await anxiously and fearfully at the mouth of the mine. The fire, which started yesterday at the 3,000-foot level, has worked up to the 2,400-foot level. Superintendent Gabarini of the mines said everything humanly possible is being done toward rescue. He said the workers expected to establish communication with the miners, if they still live, within 18 hours. A party of rescue workers from the state bureau of mines is expected to arrive some time today, equipped with gas masks and oxygen tanks in an effort to extinguish the fire. Hope of rescuing the men is still entertained but it is a small hope.

Gas Hampers Rescue. It was revived today, however, when it was announced that crews digging away at a tunnel obstruction were making better progress than expected.

The tunnel should be cleared in between two and three days, according to experts at the mines. Volumes of nauseating gas issuing from the burning depths of the mine, led many of the rescuers to the belief that the men had perished, but Superintendent Garbarini refused to abandon hope. It is barely possible that miners imprisoned in the 4,300, 4,400 and 4,500-foot levels of the mines may have succeeded in preventing the gas fumes from flaming timbers from penetrating the underground chambers where they were working.

Typewriter Given Phoebe K. Warner for Ranger Editorial

The gift of a portable Remington typewriter to Mrs. Phoebe K. Warner by citizens of Ranger last week in appreciation of her editorial, "A Stranger in Ranger," which appeared in the Star-Telegram, became known this morning on receipt of her letter of acknowledgement, received at the New Chamber of Commerce offices, in which she thanks the citizens of the city.

"I do not feel that I deserve any such expression of your kindness. I only did my duty to myself and my paper when I wrote the editorial on Ranger. But it makes my heart glad to know that the citizens of Ranger saw something worth while in it. And I hope it has helped to correct some of the wrong impression that always follows in the wake of a person or town. I believe that I have had enough real experience to know just how false such impressions can be.

The typewriter is just what I have needed so long. No other gift could serve me better and I wish you to express my thanks to every citizen of Ranger and every member of the Chamber of Commerce for their kind thought of me and their appreciation of my work.

"May the Melting Pot of American Ideals never boil dry is my wish for Ranger and her citizens."

PASTURE FIRE RESULTS IN CHILDRESS KILLING

CHILDRESS, Aug. 29.—E. P. Halyard, 41 years old, died yesterday afternoon from injury received Sunday. A. C. Carter is in jail in connection with an alleged attack upon Halyard. Both men are tenant farmers living six miles east of here. A pasture fire is said to have burned out fence posts resulting in stuck getting in Carter's barn. Both men have families, Halyard being survived by a widow and four children.

Men Found Bound to Steering Wheels of Submerged Cars

Growsome Discovery Is Made in "Bandit Graveyard" at Kansas City.

KANSAS CITY, Aug. 29.—The swirling, sullen depths of the Missouri river are expected to reveal evidence of two weird murders today. Two men found bound hand and foot and lashed to the wheel of motor cars lie at the bottom of an 18-foot eddy on the Kansas side of the river at Nearman, near here, Wyandotte county officials asserted.

Neither has been recovered yet. One of the dead men was thought to be white and the other a negro.

Divers and workers rigging tackle to automobiles said to be on the river bottom, discovered the corpses, according to Kepler.

Other Machines Located. A number of other machines, estimated variously at from two to 15, are on the river bottom at this point, divers and investigators stated.

They fear other bodies may be found.

Discovery of one dead man was made when operators of the sheriff's office attempted to raise one of the sunken machines. The car was brought nearly to the surface of the river with tackle.

David Kepler Jr., under-sheriff, is in charge of a crew of divers and workmen who are putting ropes around the sunken cars again today.

Kepler appeared positive that there were at least two dead men and was hunting for more. He denied the possibility that two different crews of his workmen might have seen the same corpse. A crowd numbering into the thousands lined the river bend above the spot where two dead men are said to be seated at the wheels of motor cars under 18 feet of water.

NEARMAN, Kan., Aug. 29.—Divers and equipment were arriving here this morning from Kansas City to drag from the Missouri river bottoms sunken automobiles, including one said to contain the body of a murdered man. Crowds of spectators were gathering. Machines lined both sides of the road near the river bank.

Gilmer Gun-Man Is Shot Down With Load of Buckshot

GILMER, Texas, Walter Harris, 35, was shot from ambush and instantly killed at James, near here, early this morning, according to word reaching here today. Harris was on his way to the cotton patch when fired on with a shotgun loaded with shot varying in size from bird shot to buck shot.

Harris was under peace bond at the time for promiscuous shooting in the neighborhood.

He is survived by a widow and three children.

DIPSY DIVER CALLED TO DIG KANSAS SHAFT

HUTCHINSON, Kan., Aug. 29.—Far removed from either ocean, a deep sea diver is at work near here under 60 to 100 feet of water, and salt water, too. He is helping sink a 16-foot circular shaft in a new salt mine on the outskirts of Hutchinson. So bountiful is the Arkansas river underflow, it was impossible to use pumps in sinking the shaft. The diver operates high pressure water jets which eat out the shale at the bottom of the shaft, coming to the surface of the water-filled hole every two hours. The operation will be continued until the shaft is down about 150 feet. Then it will be possible to case off the water with a concrete tube. The balance of the 670 foot shaft, to the salt bed, will be lined with timber like the ordinary mine shaft.

FLAPPING AIDS HIKING

SYRACUSE, N. Y., Aug. 29.—The Misses Jessica and Marcia McManus have reached Syracuse from California, hitch-hiking their way to college. Escorting and chaperoning each other they have come from San Francisco in two months, walking and riding in hitch-hiking and that feminine attire is part of the game. Unlike the majority on the roads, Jessica and Marcia wore skirts. Marcia, the "kid sister," contends that "flapping" a bit is an aid to success in hitch-hiking and that feminine attire is part of the game. Jessica is going to Radcliffe. Marcia is going to Columbia to enter the Pulitzer School of Journalism.

EX-OFFICERS NOT MADE DEPUTIES

GERMAN MONEY BARONS MEET TO SAVE COUNTRY

BERLIN, Aug. 29.—The four richest men in Germany, Stinnes, Voegeler, Kirdos and Thyssen, gathered today in an attempt to save their country from ruin. The millionaires met with Chancellor Wirth to discuss the grave economic crisis brought about by the unprecedented slump of the mark. They also presented details of their plan to underwrite the fatherland's ability to pay reparations in case a moratorium was granted by the allies. Treaties between the wealthy industrialists and Belgium and France are to be drawn up under the plan.

INDIANA TRAIN WRECKERS SIGN CONFESSIONS

GARY, Ind., Aug. 29.—Individual confessions have been signed and sworn to by four men held by the Gary police on charges of murder in connection with the wreck of a Michigan Central express train on Aug. 20 are in the hands of the county prosecutor for presentation to the Lake county grand jury, according to the authorities. The grand jury is expected to convene in a few days to hear the wreck evidence. Though only four men are held here, it is reported that six others are held elsewhere. Affidavits have been filed charging the men with murder in connection with the deaths of the engineer and fireman.

All four men are Russians. They claim union membership.

SERVICE CAR DRIVERS TEST CITY LICENSE

As a test case E. E. Jones, service car driver, was arrested by the police yesterday afternoon for operating without a license. The case against him was continued this morning in corporation court on request of the city attorney.

It was stated that Jones had been selected by the service car drivers of the city to test the recent ordinance enacted by the city commission fixing the annual license on service cars at \$25 a year. The ordinance was passed following the demand of the drivers that the former ordinance fixing the license at \$50 annually be repealed. The ordinance under fire also fixed maximum charges for service cars and drays.

TWO-YEAR-OLD BOY HAS TWO NARROW ESCAPES

SULLIVAN, Ind., Aug. 29.—Joe Ogle, 2 years old, son of Oliver Ogle, apparently possesses a charmed existence. The boy's father parked his automobile near his home and went about his work. A little later the mother looked out the kitchen window and saw the car speeding down the lane with the child at the steering wheel. A crash followed and the car took the ditch, head-on.

Little Joe was pinned against the steering wheel by the cushion which was hurled from the front seat by the force of the impact. The child was bruised only slightly.

Monday Joe accompanied his father into the pasture, where a cow with a calf was grazing. The animal, with lowered head, charged the infant, catching him with its horns and tossed him into the air.

When the child fell to earth the cow again charged and began stamping the little victim with its feet. The father rushed to the child's rescue, grabbing the animal by one horn and dragging the boy to safety. The child is bruised, but is not in a serious condition.

Police Situation Quietens, With Relays of Citizens Actively Patrolling Town.

The former members of the police department have not been commissioned as special deputy sheriffs, it was declared this morning at the sheriff's office. Sheriff Nolley was not in Eastland when called over long distance phone but his office deputy explained that the sheriff after conferring with city officials here and becoming acquainted with the situation had made no such appointments.

The city was quiet last night and no trouble was experienced by the force of citizen policemen. Every section was well patrolled by temporary officers afoot and in automobiles and a sharp watch was kept to prevent disturbances of any nature. Another force was held in reserve in case of emergencies. A lone drunk found on the streets was carried to the police station after efforts to otherwise get him off the streets failed. On a plea of guilty a fine of \$5 and costs was entered against him this morning by Judge Fwellen of corporation court. The drunk refused to answer questions of the court as to his source of supply and was warned that if brought in a second time a much heavier fine would be assessed. A Mexican was taken into custody on complaint of stealing a suit case filed by another Mexican and is being held for investigation.

On request of the city officials, a service car driver was arrested on charge of operating without a license as a test case. Eugene Reynolds and Leonard Davenport, former assistant chief and poundmaster, yesterday refused to accept temporary appointments in the police department, which were offered them following the passage of the resolution early Monday morning vacating all positions in the department. Reynolds stated this morning that because of the unsettled conditions that he did not think he should stay in the department. Davenport was not at police headquarters.

No Coal Shortage, Says Ford, Shutdown Is War on Profiteers

DETROIT, Aug. 29.—Henry Ford in announcing Saturday that his plants would be closed Sept. 16, because of conditions in the coal industry, has started a fight for what he believes is a great principle, the Associated Press was informed Monday.

Mr. Ford is said to have started what he declares is his fight against profiteering in coal and that he believes he is perhaps in a better position to do so than anyone else. He feels that it was needed and that by taking up the fight he is doing every other manufacturer as well as others throughout the country a real service.

Mr. Ford denies there is a coal shortage. He is convinced, his representatives stated, that coal operators of the country have enormous supplies of coal on hand. The Ford Motor company could obtain enough coal to cover a plot of 10 acres square if it would submit to being victimized by profiteers, it is declared.

OKLAHOMA G. O. P. BIDS FOR DEMOCRATIC SPLIT

OKLAHOMA CITY, Aug. 29.—Denunciation of Governor Robertson and the Democratic administration, and an invitation to all Democrats who are dissatisfied with the administration or with the so-called socialistic tendency of the platform adopted at a recent Democratic convention, to join the ranks of the Republican party for the coming election, was made by leaders in the platform to be submitted to the Republican state convention, which opened here Monday afternoon.

WOOD ALCOHOL BOOZE CLAIMS 130 LIVES IN SIX MONTHS

NEW YORK, Aug. 29.—Wood alcohol collected a heavy toll in the United States during the first six months of this year, as shown by figures gathered by the national committee for the prevention of blindness. Deaths from this cause numbered 130 and 22 cases of blindness were reported. Officers of the committee said that these figures are incomplete and that the total loss of life or sight from drinking bootleg whisky containing wood alcohol was much higher.

240 LIVES LOST IN SINKING OF CHILEAN LINER

SANTIAGO, Chile, Aug. 29.—Two hundred and forty persons were drowned today when the Chilean passenger steamship Itata sank off the Choros Islands near Coquimbo.

It was believed the sinking of the ship was due to overlaid condition in heavy seas.

Belief that all the passengers and members of the crew were drowned was expressed from a report from the cruiser Chacabuco.

The Chacabuco was cruising in the neighborhood of the Choros Islands when the vessel sunk.

The Itata was believed to have sunk very suddenly.

The theory expressed by members of the crew of the Chacabuco is that the bottom of the Itata was scraped against rocks near the islands and torn completely off.

WAGE INCREASE CALLED BID FOR RAILWAY LABOR

CHICAGO, Aug. 26.—The rising tide of prosperity has not only wiped out the unemployment problem of a few months ago, but has created an actual shortage of men with an accompanying increase in wages, according to employment agents, railway officials and manufacturers.

One evidence of this, they say, was to be found in the raise in pay announced for employes of steel corporations this week. Employment agents complain that there is a scarcity of both railroad labor and farm hands and said that as a result higher wages are being offered. One railroad official attempted to show that the steel companies were being forced to pay higher wages because of the wages paid for the same class of labor by the railroads acting under authority of the United States railroad labor board.

While common labor in the steel mills here is receiving 30 cents an hour at present, he said, section hands constituting common labor on the railroads are receiving a maximum of 35 cents an hour in the Chicago district. This maintenance of way men, he said, even with the decrease in wages authorized by the labor board and effective July 1, are still receiving 5 cents an hour more than the common labor in the steel mills.

While the increase granted to steel workers will in a great measure equalize this, he pointed out, maintenance of way workers have a wage case involving all the class one roads of the country coming before the labor board Aug. 28, at which time their leaders will ask that the wage out of July 1 be reconsidered and that an increase be granted, the expectation being that they will ask that the old rate, with a maximum of 40 cents for this district be restored.

Not to Oppose Raise. A number of railroads, this man said, have offered resistance to this action and apparently do not expect to do so. Virtually all roads, he said, waived the provision requiring 30 days' notice before wage cases can be submitted to the board, indicating a willingness to aid the employes in a readjustment upward of wages to this extent.

"The result has been," he said, "that steel mills can't get men. The reason is railroads are paying more money. Now the steel mills have raised wages. And pretty soon, from all indications, the railroads will see the maintenance of way men—constituting the common labor—apply to the labor board for an increase and offer very little resistance. Then it will be up to the steel mills again."

ANTHRACITE STRIKE MAY BE SETTLED SATURDAY

PHILADELPHIA, Aug. 29.—Following a conference with John L. Lewis, president of the United Mine Workers, Mayor John Durkan of Scranton, unofficial mediator, stated that the anthracite strike probably would be settled by Saturday.

BROTHERHOODS DENY WILL HOLD SECRET MEETING

No Plans for Immediate Session on Cancellation of Wage Contracts.

WASHINGTON, Aug. 29.—Legislative headquarters of the "Big Four" brotherhoods here today denied reports that a secret meeting of brotherhood leaders would be held in Cleveland within 48 hours to determine whether cancellation of the wage contracts of these powerful labor organizations with the railroads should be made effective in 30 days.

E. H. Sheppard, head of the conductors, was here yesterday and made no mention of any such possibility, it was stated.

LABOR BOARD REFUSES "LIVING WAGE" PRINCIPLE

CHICAGO, Aug. 29.—The railroad labor board today denied motion of W. Jewett Lauck, labor statistician, that the board immediately sign the principle of "a living wage" in the case of maintenance of way employes who are seeking an increase of the minimum rates of pay. At the request of C. F. Grable, president of the maintenance organization, the hearing was adjourned until tomorrow morning.

Mr. Grable announced that he was telegraphing President Harding and Senator Cummins today asking them to present to congress an amendment to the transportation act, which would make it mandatory on the labor board to "protect the principles of a living wage."

The board in its denial of Lauck's request, declared it could not go beyond the transportation act, which prescribes the establishment of a "just and reasonable" wage.

ALTON TRAINS MOVING. KANSAS CITY, Aug. 29.—The first train over the Chicago & Alton since the complete tie-up became effective on that line Saturday, arrived here today.

BELT LINE REOPENED.

JOLIET, Ill., Aug. 29.—A strike of trainmen on the Elgin, Joliet & Eastern railway which has tied up the "outer belt line" serving Chicago, for more than three weeks, was settled today. The men will return to work at 3 p. m.

STATE RANGERS SENT TO TYLER AND COMMERCE

AUSTIN, Aug. 29.—State rangers today were dispatched to Tyler and Commerce as a result of a conference of attorneys for the Cotton Belt railroad with Governor Neff and Adjutant General Barton this morning. The rangers were sent immediately to protect Cotton Belt property at those points, with the possibility that the open port law would be declared later, it was said.

Attorneys for the Cotton Belt line stated that a number of men would be put to work in the shops of the road in the near future and indicated the plan would meet with resistance. Plans regarding action to protect property at Waco, Texarkana and Lufkin also were discussed with the adjutant general.

YOUNG WOMAN FATALLY WOUNDED BY SMALL BOY

WEATHERFORD, Aug. 29.—Miss Annie Woody, 12, daughter of Mr. and Mrs. S. T. Woody of Veal Station, seven miles north of Weatherford, was possibly fatally wounded at her home Sunday afternoon when she was accidentally shot with a .22-caliber rifle in the hands of her 6-year-old cousin. It was thought the gun was unloaded.

FILE APPLICATION FOR MAYFIELD'S PRESENT JOB

AUSTIN, Aug. 29.—The first application for member of the state railroad commission to succeed Darle B. Mayfield, Democratic nominee for United States senator, was filed with Governor Neff today.

The applicant is J. R. Smith, of Burnet, former county judge of Burnet county. Numerous individuals are being mentioned for the position.

THE "BLACK EYE" WAIL.

The usual wail is heard from cer-
tain circles that the Times is giving
Ranger a "black eye." By that pic-
turesque expression they mean that
the Times is fulfilling its mission of
giving unprejudiced accounts of what
happens in Ranger, to as full an ex-
tent as it believes the citizens desire,
in order that they may be informed of
conditions.

However, the Times has so often
been accused of the same offense, that
it by now is able to entertain a com-
placent doubt as to the accuracy of
the accusation.

Poor old Ranger! Would it be here
now if the "black eyes" given it by
the Times had been as numerous and
as damaging as some timid citizens
believe? It is impossible to believe
such would be the case.

The plain truth of the matter is
that so long as Ranger periodically
furnishes events of sensational inter-
est, Ranger periodically will give it-
self "black eyes"—and broken heads.
Both will result, whether or not there
is publicity.

As to Ranger being given a black
eye by determining to overthrow law-
less conditions—that's a hot one. Ac-
cording to that line of reasoning, it is
a disgrace for a town to harbor a de-
sire to remedy such a state of affairs,
and the weakness should be strictly
concealed from residents elsewhere.

If the Times has given Ranger a
black eye by publishing to the world
that Ranger desires decency and law
enforcement, then the Times must
bear the blame.

But in the minds of a number of
citizens, the "black eyes" that Ranger
gets are laid on persons who to all
appearances line up with the lawless
element, though they camouflage
their position by ranting on various
issues which have no relation to the
matter at hand.

Let's stick to the "previous question"
—line up either for law and order or
against it. When that issue has been
settled, there will be plenty of time to
take up any others.

It has been stated that nothing in
this world can be absolutely perfect,
not even a tariff bill.—Washington
Star.

INDIANS WOULD MOVE
FAMOUS CHIEF'S BODY
FROM PEN CEMETERY

By United Press.
ANADARKO, Okla., Aug. 29.—The
Kiowa Indian nation, living on the
government reservation, here, will go
on the warpath soon.

A verbal scalping expedition will be
made on Washington to secure the
removal of the remains of their great
war chief, Satanta, buried in the Tex-
as penitentiary cemetery at Hunts-
ville, for reinterment in Oklahoma.

Satanta, second high chief of the
Kiowas during the Civil war, and one
of the most noted Indians of the
southern plains country a half cen-
tury ago, killed himself while confined
in the Texas prison, in 1878. He had
been sent to the prison after being
found guilty of murder, in connection
with the leading raid on a government
supply train in North Texas in 1871.
Seven white men and two of the raid-
ing party were killed.

Satanta was tried in federal court
at Jacksonville, Texas, and sentenced
to be hanged. His sentence was com-
muted to life imprisonment, and later
he was paroled. He was returned to
prison for leading the last Kiowa out-
break in 1874. He killed himself by
plunging from the second floor of the
prison hospital.

Satanta was known as a great orator
and Indian patriot.

LEVEILLES RETURN.
Mr. and Mrs. Morris Leveille re-
turned Sunday from a six week's trip
through the North and East, embrac-
ing all varieties of a vacation. They
had fine fishing in Michigan, took a
boat trip through the St. Lawrence
rapids, and enjoyed metropolitan at-
tractions in Montreal and New York.
It was cold enough for an overcoat in
Canada, Mr. Leveille said.

Three radio sets brighten the lives
of prisoners in a Michigan prison.

DOG HILL PARAGRAPHS
By GEORGE BINGHAM

Sim Flinders went over to a neigh-
bor's house Tuesday and borrowed a
big stone jar, in which to make some-
thing. In order to prevent anybody
from knowing who it was that had
the jar, he walked home with it over
his head.

The Postmaster comes to the front
with a remarkable incident. He says
that on day before yesterday a man
came into the postoffice, transacted
some business, and then went on out,
without saying one word about the
hot weather.

Columbus Allsop says he finds the
surest way to get the best of an argu-
ment is to present your side of the
case and then not listen to what the
other fellow says.

CUPID NO RESPECTER OF
PERSONS

Four years ago Miss Mary McMul-
len, pictured here, took a job with the
county clerk of San Diego, Cal., and
issued her first marriage license.
"I'll never marry," she said, as the
first happy couple left the courthouse.
Two years later she issued her four
thousandth license and repeated her
vow. Recently she issued her 7,999th
license—and then decided that No. 8,-
000 would be for herself and Chester
Duffy, the county clerk.

As a form of salutation the Franks
pulled out a hair and offered it to
the one saluted.

Chinese Wine Worth
\$7,000,000 May Be
Poured Into Sewers

SAN FRANCISCO, Aug. 29.—Con-
signments of Ng Ka Py, a Chinese
wine, valued by their owners at more
than \$7,000,000, may be poured into
sewers, S. F. Rutter, federal prohibi-
tion director for California, says.

The secretary of the treasury, he
said, directed him to seize and de-
stroy, under Section 25, Title II, of
the national prohibition act, all
Chinese wines whose importers had
failed to remove them from the coun-
try within 90 days after May 12, 1922.

The order, it was said, was a re-
classification of Chinese wines as
"liquor" instead of "medicine."

EASTLAND OIL MAN
TO RUN FOR TREASURER

Dr. H. B. Tanner of Eastland, sec-
retary of the Gordon Petroleum com-
pany, will make the race for county
treasurer in November as the Repub-
lican nominee, he announced in Ran-
ger yesterday. The Republican nom-
inee declared that he is running on a
platform of the widest publicity on
matters pertaining to the office of
county treasurer, and if elected would
publish a financial statement on the
affairs of the office each month.

Dr. Tanner, who is the Republican
precinct chairman at Eastland, has
been a resident of Texas for 10 years
and of Eastland county for four

Railroad statistics state that more
than 1,500 persons were killed in
grade crossing accidents the last year.

COLORADO DOG SAVES
CHILD'S LIFE BUT DIES
OF CENTIPEDE BITE

PUEBLO, Colo., Aug. 29.—"Moate,"
a pet collie, died a hero here. But in

giving his life he saved that of Otto
B. Thum Jr., 4 years old.
This week "Moate" frisked and
played about a picnic ground where
little Otto and several other children
were having a gleeful time. As Mrs.
Thum approached her child she saw
him raise his hands in terror. Sudden-
ly "Moate's" paw shot out and
struck the child on the shoulder.

SPORTS

NITROS DROP ALLEGED GAME OF BASEBALL

Whether or not spitball pitching hampers the batter, the big leagues made a wise move in barring it from the metropolitan ballfield. It takes up so much time that it makes a ball game look like those slow-motion pictures that turn some folk seasick.

Yesterday was no exception, with Spitter Moore in the box for San Angelo. Furthermore, the situation was augmented by it being Phillips day to hurl for the Nitros—since Lefty is no slouch himself at using up the hours. More than that, said situation was what might be called exasperated by a flock of dinky drives off both of them—which were mishandled, not handled and otherwise messed up until everybody but some of the players who were burlesquing the exhibition took refuge in the dry grins for want of something better.

Hope springs perennial in the human heart, some poet is alleged to have said. He spoke true. Only about half the crowd left—the others sticking around because their minds, for some unexplained reason, conceived the idea that something might possibly happen. Let us hope that, though they were deceived yesterday, that same hope will flourish today in their breasts, and the breasts of many others—the ball club needs the money. Let us hope the ball players will remember they are hired to play ball and not horseplay—when folks want to laugh, they go to see Harold Lloyd or vaudeville. When they journey out to the apple orchard, they expect to see an exhibition of skill, overhung with a combative atmosphere.

This isn't the account of a baseball game. Rather it is a wail of woe, a howl of lament, vicariously offered in behalf of the six-bit customers. Yesterday's "ball game" isn't worth a detailed description of points of interest; there were none. In surprising contrast to Sunday's exhibition, it was the rottenest, most depressing spectacle of diamond ludicrousness ever exhibited at Nitro park. The score itself was a triumphant of baseball inefficiency over greater inefficiency. The Nitros, crippled by the absence of Ammons and Brooks, and presenting a makeshift lineup, tossed runs into San Angelo's pot. By failing to function with commonplace baseball workmanship, they cut themselves out of runs. The Brones were their equals in the first mentioned accomplishment, but failed in the latter demands of a giveaway game.

SEPARATION OF OIL AND WATER SOLVED; IS WORTH MILLIONS

MEXICO CITY, Aug. 29.—W. Lindsay, of Houston, Texas, before a large crowd of oil men at Tampico last week, demonstrated the possibility of the easy separation of oil from salt water. His discovery is said to be worth millions to the oil interests.

'OLD FAITHFUL' LOSES RECORD TO NEW GEYSER

YELLOWSTONE, Wyo., Aug. 29.—With a prodigious cough on the fiftieth anniversary of the opening of Yellowstone Park as a national playground, a new geyser spouted into the air from an old hot mudhole, shooting higher than "Old Faithful" and smashing all previous records for altitude.

H. M. Albright, superintendent of the park, took a look at the newcomer to the wonders of the place and decided to call it the semi-centennial geyser. A motoring party drawn close to the innocent old mudhole called it various other things, for the machine and the members of the group were bathed in goey mud and pelted with bricklike fragments of rock, apparently baked mud.

DESDEMONA WELL HAS GOOD SHOWING OF OIL

DESDEMONA, Aug. 29.—The pay sand was reached in the well being drilled by the Lowe and Parry Oil companies on the Fuquay tract at 3-115 feet Saturday. At the first showing of gas, the tools were removed from the hole and the bailer run in. Only about a foot of oil showed on the bailer the first time, and when it was brought up the second time about 10 feet of oil showed on it.

WEST TEXAS GAMES

THIRTY RUNS FOR CLOVIS. CLOVIS, Aug. 29.—Clovis piled up the record score of the West Texas season Monday by walloping Amarillo, 30 to 5. The Gassers hopped off with a five-run lead in the opening inning but after that Buzz Wetzel had them on the hip, while the Buzzers were slapping three would-be pitchers to all corners of the lot.

COLONELS WIN AGAIN. STAMFORD, Aug. 29.—Belcher, out of the game for two months, broke back into the Stamford lineup yesterday on account of injuries to Baker and Dinsmore. His two hits spelled the difference and the Colonels beat the Eagles for the second time, 3 to 2.

SAME OLD STORY.

LUBBOCK, Aug. 29.—Lubbock drubbed the Swatters again Monday, 8 to 1. Schraub yielded only four hits and missed a shutout only by a long windup that enabled Seiser to steal home in the fourth round.

PROHIBITION LOSES IN SWEDISH ELECTION

STOCKHOLM, Aug. 29.—The "drys" seem to have lost the day in the Swedish prohibition plebiscite, according to the latest provisional returns available. The figures issued this morning are 772,747 for prohibition and 848,536 against.

SOCIETY

AND WOMEN'S ACTIVITIES

Conducted By
MRS. R. B. CAMPBELL
Telephone 413

WEDNESDAY.

Circle A of the Woman's Missionary society of the Methodist church meets with Mrs. C. D. Woods in the morning.

D. D. Sewing club meets with Miss Glenn McKinley in the afternoon.

A LAWN PARTY.

Mmes. Frank Champion and Frank Reames entertained with a bridge party on the lawn between their homes Saturday night. The Prairie camp on the Blackwell road is one of the few places in town that can boast uniformity of walks, streets and lawns, and the strip of lawn that divides the Champion home from the Reames home, is particularly pretty. It was here that bridge tables were arranged and the game was played. Electric lights effectively strung gave daylight clarity and the cool breezes of the outdoors proved quite a happy contrast to indoor parties.

Mrs. John Thurman won the high score prize, a linen breakfast cloth and napkin. Mr. Frank Rarey won the gentlemen's high score prize, a smoking stand. The ladies' low score prize, a jar of Mary Garden talcum powder, went to Mrs. J. Scott Blair, while the gentlemen's consolation prize, a pair of clocked hose, went to Mr. A. Neil.

Refreshments of angel and devil's food cake, punch and cherry ice cream were served to the following guests: Messrs. and Mmes. J. Scott Blair, E. L. McMillen, A. Neil, Walter Burden, Frank Brahaney, L. A. Vandervoort, J. T. Gullahorn, Frank Rarey, John Thurman, W. D. Conway, A. S. Bergere, William Lowe; Messrs. Champion and Reames.

PASTIME CLUB NOTICE.

The Pastime club will meet with Mr. and Mrs. Roy Jameson Thursday night.

A FAREWELL PARTY.

The Climbers class of the Methodist church entertained with a farewell party this morning, in honor of two of their members who are leaving the city, Miss Pearl Willie, who leaves Sunday for California, and Miss Juanita Murphy, who leaves tomorrow for Abilene. The scene of this event was Shamrock park, the time, very early this morning, and swimming was the diversion, followed by a splendid breakfast, cooked in the open.

Those in the party were: Misses Idaline Ballard, Verdi Scheil, Chaney Brasher, Juanita Murphy, Nellie Chilton, Irene Rusk, Audrey Cornell.

PURELY PERSONAL.

Mr. and Mrs. Dick Jones are entertaining a little daughter, who was born Sunday at the Clinical hospital.

Miss Rosalie Jameson, who has been attending school in Austin, is expected home in a few days. Miss Jameson will teach English in the High school here this year.

Mrs. D. L. Jameson is in receipt of a letter from her daughter, Miss Hallie, stating that she had arrived in New York, after spending the summer in Europe. She reports a rough voyage home, having returned by the northern route. Miss Jameson will enter Columbia university and will probably not visit Ranger until the Christmas holidays.

PENCIL VENDER SLAIN FOR FOURTEEN DOLLARS

TOLEDO, Ohio, Aug. 29.—James Shelby, 30 years old, a crippled pencil vender, was murdered for \$14 near the New York Central freight house on Perry street.

Police and the coroner are working on the theory that several men attacked Shelby as he lay asleep near the Maumee river, took \$14 out of his pocket and threw his body into the river.

Ten or more men were lying close to the spot where Shelby met his death.

HOT TAR IS HURLED INTO YOUTH'S FACE

By Associated Press.

SAN ANTONIO, Aug. 29.—Russell Hodges, 18, driver for the Walsh Sheet Metal Works, was fearfully burned about the face and may lose the sight of his left eye, as the result of a negro hurling a ladle, filled with hot tar, in his face at 10:55 Monday morning.

Police and civilians formed a posse that is engaged in combing San Antonio for the negro, who fled after the assault.

The assault occurred directly in front of the Morgan Woodward automobile plant, where the white youth and negro were employed by the sheet metal company in repairing a roof. The two are said to have engaged in a quarrel, which, it is said, arose over dropping a barrel of tar, to be used in the heater, on the ground. The negro, fire tender at the tar furnace, is said to have suddenly dipped the long-handle ladle into the vat of boiling tar and hurled it flush into the white youth's face. He fled when the latter cried out in agony.

The first case of blood transfusion on record was in 1492, the patient being a pope of Rome.

KILLS SWEETHEART

TEXARKANA, Aug. 29.—Calantha Atkins, 20 years old, was shot and instantly killed by her sweetheart, Ernest Barfield, 27 years old, here Saturday when he mistook her for a burglar.

Barfield was called to the house by the young woman and her sister when the two women were frightened by a prowler. He told them that he would watch the house while they slept. Barfield fell asleep, however, and failed to awaken when the women again heard the prowler. Miss Atkins attempted to reach a car to summon help, just as Barfield awoke. He fired one shot at her with fatal results, thinking she was a prowler.

WACO, Aug. 29.—Bishop J. E. Dickey, of Georgia, one of the few bishops elected at the Hot Springs Methodist conference, has been given the presidency of the Texas conference and will reside here, to succeed Bishop W. M. Ainsworth, who goes to Macon, Ga., to preside over the conference of that state. Bishop Dickey is expected the latter part of this week.

RED LIQUOR TO BECOME JUST VANILLA EXTRACT

LANSING, Mich., Aug. 29.—An experiment intended to convert five barrels of aged-in-the-wood guaranteed proof Kentucky whisky from roaring red liquor into meek flavored liquor for tea cakes is being conducted by the state department of agriculture chemists.

The liquor is to be turned into vanilla and lemon extract for distribution to state institutions. It is asserted the state can manufacture the finest flavoring extracts at about two-thirds the market price.

The process is simple, the chemists say. The alcohol is distilled and poured into a vat. Ground Mexican vanilla beans are added and the mixture is allowed to stand. Vanilla extract is the result. For lemon extract Italian lemon oil is added to the alcohol. The whisky was seized by the state police two years ago and since has been guarded behind steel doors.

Inhabitants of the Pelew Island in saluting seize the feet and rub their face with it.

SPANISH DUKE IS ASKED TO LEAVE ENGLAND

The Spanish Duke de Luzarraga has been banished from England because of his persistent attentions to Lady Diana Manners Cooper, one of England's most beautiful women. He wrote her many times, asking her to marry him, though everyone knows she is happily married. Lady Cooper is the brilliant dancing and acting daughter of the immensely rich Duke of Rutland.

Many of the streets of Canton, China, are but eight feet wide.

150 REPORTED MISSING

SANTIAGO, Chile, Aug. 29.—One hundred and fifty persons were reported missing today when the Chilean passenger steamer "Italia," bound from Valparaiso to Coquimbo, sunk off Choros island.

The Cheapest Health Protection You Can Buy

A GOOD refrigerator—kept well filled—regularly cleaned—properly placed—is the cheapest health protection on the market.

Because this is the only known way to keep food properly during hot days or cold.

When the ice chamber is kept well filled, cold air passes constantly over the ice, down to the food chambers, up again and over. This constant flow of germ-killing cold not only protects your health; it makes life more worth living through better, fresher, crisper foods for your table.

And the ice itself? Just telephone us.

Dr. H. B. Tanner

Republican Candidate for

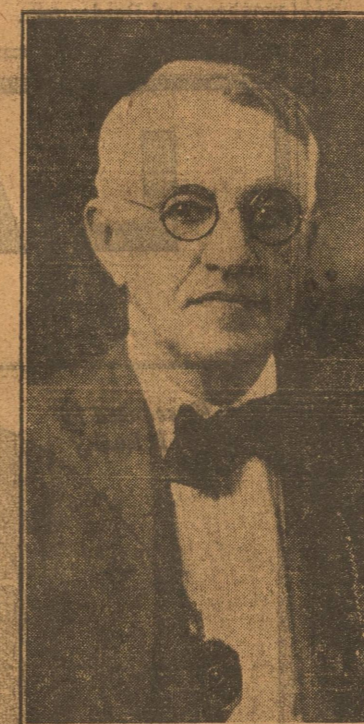

County Treasurer

To be Voted for in November Election

Biographical Sketch:

Born in Wisconsin in 1859 one of the 7th generation of "Tanners" born in the United States, which fact ought to entitle me to an ALL-AMERICAN medal.

Am a graduate M. D. Practiced medicine for 33 years in Kaukauna, Wisconsin. Was elected the first Republican mayor in that city in 1894 and re-elected for a second term. In 1895 was appointed state oil inspector for Wisconsin, held the office six years under Governors Upham, Scofield and La-Follette.

A resident of Texas for ten years, the last four at Eastland. Member of the Eastland County Medical Society and Texas State Medical Society. Belong to the Eastland Masonic Lodge and Chapter and Wisconsin Knights Templar, also an Odd Fellow for the past 42 years. Belong to the Eastland Presbyterian Church.

Business at present, Secretary of the Gordon Petroleum Company.

My Platform:

If elected County Treasurer will buy a surety bond from the most responsible bonding company doing business in the state to cover all monies coming into my possession. I am absolutely opposed to personal bonds for public officials.

I will never sign a check withdrawing funds from the county depositories unless authorized to do so by law.

I will cause to be published monthly in every newspaper in this county an itemized statement of all monies coming into my hands and the same of the expenditures. I am a positive believer in PUBLICITY when it comes to public affairs. This is your business, Mr. Voter, and you are entitled to know where the money comes from and WHO gets it and WHAT for.
