TWO WELLS EXTEND 'STEWART POOL'

C. & S. Supt. Caught in Line Shaft

HIS CLOTHING RIPPED OFF AND WRIST BROKEN

F. G. Yonkers Now in Hospital After Narrow Escape From Death at Plant.

F. G. Yonkers, superintendent of the Chestnut & Smith company here, had a narrow escape from death shortly before 2 o'clock this afternoon, when his clothing became entangled in a line shaft at the plant. When found by employees of the plant, Yonkers was almost unconscious, his right wrist smashed and his body practically stripped of clothing. He was rushed to the Clinical hospital and his wrist set after an anesthetic had been administered. The injured man was badly shaken up and will be kept at the hospital for several days, it is stated.

Employees of the plant were unable to say this afternoon just how the accident happened. Yonkers, it is stated, was alone in that part of the plant when his clothing was caught in the line shaft used for conveying barrels which are suspended from hooks.

NEGROES SEEK LIFE OF BLACK WIFE SLAYER

TEXARKANA, Oct. 18.—A mob of more than seventy-five negroes last night followed officers who were taking Eddie Hopkins, negro, to the jail at Boston, threatening to take him from the officers and lynch him. Hopkins was charged with the murder of his wife, whose body was found in a field a few days ago, with the throat cut. At a preliminary hearing in DeKalb yesterday, he was held on \$5,000 bond, and taken to New Boston, jail. The mob formed in DeKalb and followed the party going to Boston. Several white men accompanied the officers, to prevent violence. The mob finally dispersed and the negro was brought here for safekeeping.

Mrs. Campbell can be reached by telephone at No. 418 or by letter at the Times office, and all clubs, church societies and other women's organizations are invited to get in touch with her in order that their meetings and work may receive adequate recognition. Personal items and private parties also are welcome additions to these columns.

The home life sections of the Times is one that the management has desired to build up ever since Ranger passed from the boom stage, but such development awaited the finding of the proper person, and the Times believes it has obtained her in Mrs. Campbell, who has had two years experience in this work on Wichita Falls papers.

ONLY LONG DRAWN OUT STRIKE WOULD HIT RANGER VERY HARD

With Principal Product of Its Industry Being Shipped by Pipe Lines, Operations Would Continue; Few Believe Strike Will Actually Occur; Grocery Stocks Not Over-Large.

Pipe lines radiating from Ranger and furnishing means of transportation to the markets for its principal product, places this city among the few in the country which will not be materially affected in the event of a railroad tieup, unless the strike were to continue indefinitely, according to the consensus of opinion of oil and supply company officials and other business interests yesterday.

An unlimited supply of fuel within easy reach also adds to Ranger's security, it is pointed out, and eliminates one of the serious problems confronting cities depending on coal transported over the roads. An adequate gasoline supply for motor transportation is assured by local refineries in the event that it becomes necessary to bring in food supplies and other commodities from outside points. Then again, strike or no strike, Ranger is promised service over the Hamon line, which according to officials, will not be affected by the strike order of the brotherhoods, the employees of the road not being organized and seemingly content with their jobs.

No Shutdowns in Field. Oil company officials state that unless the strike continues indefinitely, that the operations here will not be

materially affected, as all crude is transported through pipe lines and there is little movement of fuel oil to outside points at the present time. The supply houses here state that their main business now is the shipping out of surplus stock to other points, particularly to Mexico, which, of course, would be shut off.

Retail stores of the city are all said to have sufficient stocks on hand to last for sometime and with the continued operation of the local industries, do not expect to be materially affected.

No Question About Food. The staple food supply on hand in local wholesale and retail stores would last for two or three weeks, according to the estimates of wholesale men yesterday under the present rate of buying, with the exception of coffee sugar, etc., which would have to be replenished in a shorter period. It is considered that trucks operating to Fort Worth and Dallas would insure this supply.

The possibility of a general railroad strike over the country with its attending affects could not be accepted by the majority of business men over the city, who expressed the opinion that some means would be found to bring about a settlement before Oct. 30.

BLUE SKY SALESMEN WHO NICKED NORFLEET CAUGHT IN OKLA. CITY

OKLAHOMA CITY, Oct. 18.—A nationwide hunt for Reno Hamlin and William Sperry, alleged blue sky salesmen, ended here today with their arrest.

According to local authorities, Hamlin and Sperry are wanted at Hale Centre, Texas, to face charges of swindling J. R. Norfleet of that city out of \$45,000 through fake stock deals in November, 1919.

The arrest of Hamlin and Sperry was brought about through the efforts of O. H. Leverich of Union City, Okla., one of their victims, and the local police. Leverich told police he gave the men \$1,718 to invest in copper stocks and that he never realized on his investment.

Hamlin and Sperry were taken into custody as they were about to leave the city.

OCEAN RATES CUT

NEW ORLEANS, La., Oct. 18.—A 20 per cent reduction in freight rates between this port, Havana and New York, via steamship, was announced by the Southern Pacific Company steamship lines. This reduction will mean that the port of New Orleans will be able to compete with New York in handling Havana shipments, according to officials of the company. Shipments to other points in the East will be more numerous with the reduced rates in effect, it was said.

LYCEUM COURSE SCHEDULED FOR WINTER MONTHS

Chamber of Commerce and 1920 Club Join in Obtaining High Class Program.

The Dixie Lyceum Course, consisting of three numbers to be presented through the fall and winter, was secured for Ranger yesterday afternoon by the Chamber of Commerce, following a meeting of a special committee of the organization with a committee from the 1920 Club. The 1920 club will have charge of the sale of season tickets, which will be placed on sale in the near future, J. E. T. Peters announced this morning.

The Lyceum course consist of the Vivian Players, who will appear here on Nov. 18; the Ladies' Sextette, on Jan. 24 and the Symphony Orchestra on Jan. 21. Arrangements are being made to have the numbers presented at a local theater.

The Dixie Lyceum is well known throughout Texas for the high character of the numbers and was the organization that brought Ex-President Taft to Ranger last year. In signing the contract, the Chamber of Commerce, it is stated, was actuated by the desire to secure for this city a form of high class amusement that could not be provided from other sources. Manager Peters of the Chamber of Commerce will appear before the next meeting of the 1920 club in the interest of the ticket sale.

The committees yesterday afternoon with a representative of the Lyceum Bureau were composed of J. T. Gullahorn, Ralph Stockman and Edward Maher of the Chamber of Commerce and Mrs. H. R. Gholson, Mrs. M. R. Newnam, Mrs. C. D. Wood and Mrs. E. B. Reid for the 1920 Club.

CLEBURNE, Oct. 18.—The National Bank of Cleburne, one of the oldest banks here, failed to open its doors this morning. RUTH DEFIES LANDIS TO STOP HIS PLAYING

BABE DON'T CARE.

JAMESTOWN, N. Y., Oct. 18.—Babe Ruth declared today he would continue to play baseball next year, even if Judge Landis barred him from the major leagues. Ruth indicated that he would organize his own independent team and engage in exhibition games all over the country, when informed that Judge Landis, high commissioner of baseball, may suspend him from the league for a year because of his playing exhibition games in violation of the rules.

CHICAGO, Oct. 18.—Babe Ruth is about to learn who is the boss of organized baseball.

Judge Landis, high commissioner of the game, declared Monday he elected to be the teacher. He declared either a heavy fine or suspension hovered over the Babe after the champion home run hitter started his barnstorming career in opposition to the rules of baseball about world's series players participating in exhibition games.

Landis came to this decision on his return here from New York, where he looked over the world's series. "I notified him two weeks ago that the rules prohibited this sort of thing," he said. The judge stated he was holding off his decision due to more pressing matters and that he would show in his statement "what sort of a gentleman" Ruth was.

That Ruth has lined up a tough customer to pick on seemed to be the general opinion.

YANK OWNERS EXPRESS REGRET OVER AFFAIR

NEW YORK, Oct. 18.—Regret that some Yankee players had violated the rule prohibiting world series contestants from appearing in post-season exhibition games was expressed in a statement issued tonight by Colonel Jacob Ruppert and Colonel T. L. Huston of the New York Americans.

Asserting that the rule had been violated so defiantly that Baseball Commissioner Landis had no alternative but to meet the situation firmly, the statement continues:

"This rule appears to be unjust in many respects, but as long as it exists it should be obeyed. The players made the mistake in not petitioning for a modification of the rules."

CHARGES STRIKE THREAT IS TO INFLUENCE GOVERNMENT

WASHINGTON, Oct. 18.—Charges that railroad executives and union labor leaders both are endeavoring to utilize the railroad crisis to force the government to action beneficial to them will be made in congress within the next few days. The railroad wants passage immediately by congress of the railroad refunding bill, by which they will receive \$500,000,000 from the federal treasury, with an amendment giving them the right to sue for the "inefficiency of labor" claims, totalling hundreds of millions.

The brotherhoods want the railroads forced back into the hands of the government, with eventual government ownership.

LABOR BOARD TO MEET WITH UNION CHIEFS

Proposals to Avert Strike Will Be Submitted Thursday at Chicago.

WASHINGTON, Oct. 18.—President Harding, as a means of preventing the second rail strike has decided that railroad executives and a brotherhood chiefs must be forced to obey the decisions of the railroad labor board, it was stated at the White House today.

The president, it was said, was ready for a showdown as to whether the board is a useless agency or whether its orders are to be obeyed.

CHICAGO, Oct. 18.—Telegrams summoning the chiefs of the Big Four brotherhoods and the Switchmen's union to a conference with the United States labor board, in an endeavor to forestall an actual walk-out on the nation's railroads, were dispatched to labor chiefs today.

The conference was called for 2 o'clock Thursday at the labor board's offices here.

All of the members of the board are in the city except the three public members, who were called to Washington for a conference with President Harding and the interstate commerce commission. They will reach Chicago late today.

No outline of what the conference will discuss was given out, but it was said a few proposals would be presented to the labor men in an effort to prevent an actual cessation of work on the roads.

B. M. Jewell head of the shop crafts which comprise six of the eleven organizations, none of which has issued an actual strike call, said he had not been summoned by the board. The board's first efforts, it was indicated would be circulated toward those organizations which have set the strike pace.

"We are going ahead with our plans," Mr. Jewell said, "and we will have reached our decision by the end of the week. At this time there has been no determination of what will be done."

WILL ATTEND MEETING.

CLEVELAND, Oct. 18.—A scheduled meeting here today of executive leaders of the five transportation brotherhoods was cancelled this morning when the five executives received telegrams sent by the railroad labor board, inviting them to meet with the board in Chicago Thursday morning. Warren S. Stone, president of the Brotherhood of Locomotive Engineers, announced.

The message from the labor board reached Stone in his office here during the morning. He declared he had no information as to what the labor board would discuss with the leaders of the railroad workers but said all scheduled conferences here would be postponed until after the Chicago meeting.

T. C. Cashen, president of Switchmen's Union of North America, and L. E. Sheppard, president of the Order of Railway Conductors, are still in Chicago. They will be joined here by Stone, W. G. Lee, president of the trainmen's brotherhood, and W. S. Carter, head of the Brotherhood of Locomotive Firemen and Enginemen. In addition to making his announcement, Stone repeated and made more specific his charge that the railroad executives are seeking to force a strike to further a general fight for the "open shop."

"There is no question that this is a move aimed at the destruction of organized labor," he said.

WHITE CO. AND RAMEY-JACKSON GET PRODUCERS

White's Nannie Walker Good for 1,000; Other Well to Be Drilled in Today.

The bringing in of the White Oil corporation's well on the Nannie Walker lease near Frankell and the striking of pay sand in the Ramey-Jackson well, nine miles north of the city on the Caddo road, were important oil developments announced last night.

The Ramey-Jackson well, which will be brought in today, extends the Stewart pool approximately half a mile to the east and is expected to result in a number of offset wells being drilled at once.

The White well came in yesterday afternoon from between 3,574 and 3,584 feet with an estimated flow of 1,000 barrels. The well was an old pumper that had been deepened from 2,000 feet and is the second well brought in from the deep sand on the lease. Drilling started last May when the first deep well was brought in, but was repeatedly delayed by fishing jobs until Sept. 28, when drilling was resumed. Superintendent John Bahan of Fort Worth and his daughters, Misses Nellie and Annie Bahan were present when the well was brought in. The White Oil corporation now has two deep wells and one shallow well on the lease.

Pay sand was struck in the Ramey-Jackson well last night, where at 3,630 feet a test resulted in a good gas showing and later 200 feet of oil was found in the hole. Plans are being made to drill the well in today. The new well is located in the southeast quarter of Section 26 and extends the pool a half mile east. Oil men state that the Texas & Pacific Coal and Oil company will be forced to drill three offset wells immediately.

TO MR. GUARANTY BANK
CLIFF DWELLER:

The Times is in receipt of a letter; a letter which would be amusing were it not so sad and plaintive in its wail, and the wail so typical of the attitude of those who are not aware of and in sympathy with "the other fellow be darned" manner in which our populace conducts itself. "Dear Times," the letter runs, "What kind of egg is this bird who has a suite in the Guaranty bank building, and a victrola with which he amuses himself in the mid hours of the night? Does he think anyone enjoys being woke up by the rasping strains of jazz dance stuff breaking the air into jagged clusters of uneven rhythm? Even if he knows home folk will stand for it, in the long suffering way they put up with the siren promenaders and chug-chug artists who hold 2 a. m. serenades on the main streets, doesn't he have any consideration for strangers who are accustomed to a little civilization. "Does he realize, or does he care, that in town building, one must have the liking and patronage of strangers and travelers? Does he think they will care to come here, and stop here, if they are to have the enforced pleasure of waking to the lilting strains of torturing refrains they cannot stop? Doesn't he have any sympathy for those who, perhaps unlike himself, work in the daytime and need some sleep at night, and who on once being awakened, with jangling nerves lie and listen to the minor noises which ordinarily pass unnoticed? "And lastly, if his artistic temperament must have expression in nocturnal melody (so-called), is it necessary for him to enjoy this vice with shades well up, in order that exasperated guests of the nearby hostelry may view his manly form bulging through the portieres of his union suit?"

No comment seems necessary.

"I am no lame duck," former Vice President Marshall told the Washington correspondents. No, sir, he's not. He belongs to that part of our crowd who simply died a natural political death.—Houston Post.

ANY TREATY IS
BETTER THAN
NONE, HE SAYS

By Associated Press.
WASHINGTON, Oct. 18.—Reestablishment of peace with Germany as necessary for American and world rehabilitation, was the fundamental reason given today by Senator Hitchcock of Nebraska, ranking Democratic member of the foreign relations committee, for favoring ratification of the peace treaty with Germany.

"The question before us," said Senator Hitchcock, "is not a choice between the Versailles treaty and the pending treaty, but between the pending treaty and a protracted uncertainty without any treaty at all." The long sought peace with Germany was near today with the ratification of the peace treaty by the senate by a small margin of votes virtually assured.

Only the exchange of resolutions of ratification between the United States and Germany will then remain to restore a complete peace basis. This will be followed by the exchange of diplomatic and consular representatives, which is expected to greatly increase commerce between the two nations.

ULSTER TO ARM;
IRISH ALL SET
FOR CIVIL WAR

By United Press.
BELFAST, Oct. 18.—The Ulster volunteers are to be armed and mobilized.

This drastic step, which threatened to have such serious consequences in 1914, and which constitutes an open challenge to Sinn Fein, has been decided upon by the Belfast government, it was announced today, caused by the British failure to prevent Republican troops from drilling.

The stage has now been set for civil war on the largest scale Ireland has ever known, should a break in the negotiations cause fighting between the north and south to begin.

Catholics in Belfast have long lived in terror of the day when the Unionist irregulars should be mobilized, and considerable emigration southward across the Boyne was expected to follow the mobilization of the volunteers.

DEATH PENALTY FOR
M'KINNEY WELL MURDER

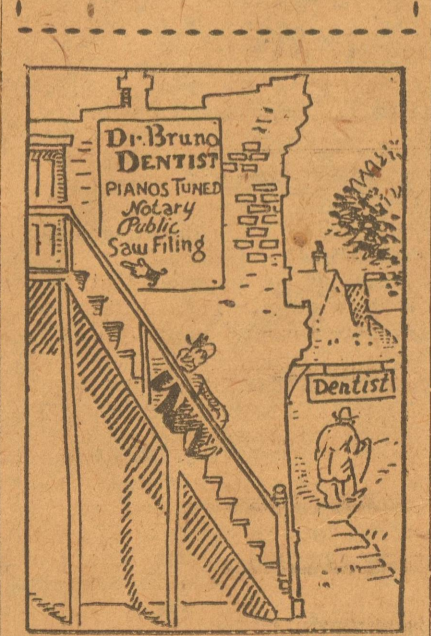

M'KINNEY, Texas, Oct. 18.—A jury at 4:30 o'clock Monday afternoon, after three hours' deliberation, brought in a verdict of guilty, and gave Ezell Stepp the death penalty for the murder of Hardy Mills, on the morning of Sept. 2, and placing his body in an old well, where it remained for fifteen days before discovery.

The murder of Mills rivaled any that ever occurred in this county. Stepp is the third man to be given the death penalty in this county. Only two persons were ever legally executed in this county. They were Stephen M. Ballew and a negro named Shack.

"THE OLD NEST" GRIPS
MOST HARDENED CRITICS

People who write or produce motion pictures usually keep their emotions well in check. They are so busy watching technical effects that they do not have time to let their emotions run riot. A notable exception to this was made recently, however, when "The Old Nest," comes to the Majestic theatre for three days, commencing Wednesday, was shown to the Goldwyn sales organization that had gathered at the Culver City studios.

When the sales managers emerged from the projection room nearly all of them had tears in their eyes. Soon they were seen making their way towards the studio telegraph office. It was learned later that nearly every one of them after seeing this picture of mother-love had telegraphed to his mother. "The Old Nest" was written by Rupert Hughes and directed by Reginald Barker. At the conclusion of the picture this subtitle is thrown on the screen: "If this picture should persuade you either to remember your mother piously, if she is dead; or if she lives, to send her a long love-letter or even a telegram saying: 'I am well. I think of you and love you,' or, above all, to go home and see her, then this picture would give more real joy than any other picture ever made."

TEMPLE.
Sub-titles of epigrammatic brilliance are taken for granted in a Cecil B. DeMille production following the high mark set by the sub-titles in "Why Change Your Wife?" "Something to Think About," and "Forbidden Fruit." However, "The Affairs of Anatol," the latest production of the famous producer, which is the feature at the Temple theatre today and Wednesday, is said to excel all previous efforts in this respect. Jeanie Macpherson, author of the story—suggested by Arthur Schnitzler's play of the same name—is responsible for these sub-titles and to her goes the credit for their scintillating phraseology, thought and wit. "The Affairs of Anatol" is a searching analysis of the matrimonial and divorce problem handled with the mastery which is Cecil B. DeMille's chief distinction. He has developed a powerful story that deals in real truths, it is said, and to this he has added a sympathetic comedy note that serves to relieve the serious vein of the story without in anyway detracting from the power or vividness of the central theme. Wallace Reid and Gloria Swanson head an all-star cast in this picture.

LAMB.
The new theatric art invented by

David W. Griffith in producing "The Birth of a Nation" coming to the Lamb theatre, Wednesday, Oct. 19, for a four days' engagement with matinee daily, has enabled him to surpass by far any stage spectacle. "Ben Hur" and "The Blue Bird" were supposed to be the high-water mark of such productions. They sink into insignificance beside this epic of American history with its 5,000 scenes, 18,000 characters, 3,000 riders and 200,000 details, the result of eight months of tireless labor and the expenditure of half a million dollars.

The war plays of the state such as "Shenandoah," "Held by the Enemy," and "Barbara Fritchie" seem tame after seeing the splendors of "The Birth of a Nation." In the Griffith spectacle the scenes of sheer beauty and strength are of Romeric grandeur, the night riding of the Ku Klux Klan looks like a company of avenging spectres sweeping along the moonlit roads. There is a pictorial punch in every scene.

This realistic picture of history in the making is of untold value to both old and young. Besides the historical worth of this great spectacle, the constant emotional throbs of the romantic story thrills the hearts of all. It is the supreme achievement of modern histrionism in its new guise untrammelled by the limitations of the theatre.

MORE JUDGES FOR
VOLSTEAD.

No man in the United States has more vigorously criticised the delays of American justice and demanded the simplification and speeding up of judicial business than William H. Taft. When, as chief justice of the supreme court, he appears before the senate judiciary committee to urge the creation of eighteen more district judges we may safely assume that there is work for them.

The Volstead act has in Mr. Taft's view "added greatly to the jurisdiction of federal courts," as well as clogging unendurably the tribunals of the states. It is responsible for 8 per cent of increased court business. Asked by Senator Reed if there would not presently be a falling off in the

number of liquor cases in federal courts, the learned chief justice replied that the number of such cases is likely "to grow a good deal before it grows less."

Something must be done, in the view of the highest judicial officer of the land, to keep the courts from being swamped. The need in state courts is framed in the same words. When legislators essay to turn backward the immemorial course of custom and ban human nature they may not succeed but they are certain to make much trouble for the courts.—St. Louis Post-Dispatch.

MASTER CROOK TELLS VICTIMS HOW IT'S DONE

ST. LOUIS, Oct. 18.—"A decent burglar works in the afternoon during the summer months and in 'wee sma' hours' in winter; never robs an apartment house, never burgles a house located on a street car line, and remains within his district at all times," James Caravalla, who police say has confessed 100 burglaries here in a year, told nearly 200 visitors, mostly women, who visited police headquarters to ask Caravalla if he took their jewels.

Tells of Exploits.

He regaled the visitors with stories of his exploits. He said he usually rang the bell and if no one responded, jimmied a door or screen. On one occasion he was in a house when furniture movers arrived. He told them his wife was not home and to come back in a week, Caravalla said.

He told J. A. Schmidt, an undertaker, that the funeral coat he took from Schmidt's home was a better fit for him than for Schmidt. In some cases he immediately identified the address or articles stolen when the victim would give a description of the loot.

Rheumatism Can Be Cured!

But You Must Clear Your Blood of Waste Products.

Lack of exercise and improper diet causes waste products to accumulate in the blood. You will at once realize that unless the blood is pure, some part of the body will become diseased.

Rheumatism, with its pain and agony, is one of the most serious diseases caused by waste products in the blood. You know, of course, the blood is not confined alone to the arteries and veins. It passes out of these channels to all parts of the body. This is how sediments or waste products are deposited in the muscles and joints. Genuine relief can be had only by correcting the basic trouble—waste products.

Thousands and thousands of men and women during the past 50 years have cleared their blood of waste products with S. S. S. It is the ideal remedy for rheumatism, because it removes the poisonous waste matter which is causing the trouble. There are no bad after effects and the result is wonderful. Begin taking S. S. S. today and write for 56 page illustrated booklet, "Facts About the Blood"—free.

Personal medical advice, without charge, may also be had by sending a complete description of your case. Address: Chief Medical Director, Swift Specific Co., 731 S. S. S. Laboratory, Atlanta, Ga. All good drug stores sell S. S. S.

SHRINE REHEARSALS.

STEAM COOKER AND DRESS FORM DEMONSTRATION

That the old-fashioned arts of cooking and dressmaking are not obsolete but are still a very vital part of a woman's life, was shown by the large number of ladies attending the steam cooker and dress form demonstration given Monday afternoon at the Woman's Exchange. These demonstrations were given under the auspices of the Women's Auxiliary of the Presbyterian church, Mes. Walker and Outlaw acting as hostesses.

The Denver steam cooker, with all its possibilities, was cleverly demonstrated by Mrs. C. F. Maddocks. Mrs. Maddocks prepared a well balanced meal, consisting of baked hen, Irish potatoes, onions, and navy beans. This meal was cooked perfectly in twenty minutes' time.

The dress form demonstration was given by Mrs. Outlaw and Miss Bowles. This demonstration was very interesting to those who attempt home dress making.

After the completion of the demonstrations the hostesses served coffee and sandwiches to their guests.
