Everybody Is Stockholder Is Baseball Club's Motto

Oil Men Offered Places on Board of Directors; Financing Certain.

The Ranger Baseball club was formally organized last night by election of officers and directors, after which those directors present issued a statement for the information of the public, setting forth the exact condition of the club and its principles of operation, so that all may know.

The statement says: "The Ranger Baseball club is an organization formed for the promotion of sport in Ranger. It belongs to the sportsmen of Ranger and is not the private property of any man or set of men. It has no capital stock, and will pay no dividends. If any profit is made this year, it will be expended as needed for the welfare of Ranger sporting interests.

"This organization has no connection with the clubs which have preceded it. It owes no debts. It has no property except its league franchise, which would have been lost except for the efforts of Mr. Fleming; therefore, the past has no claim on it. The park and grandstand belong to the Ranger Park association, which represents the city of Ranger and is appointed by the city commission."

W. R. Fleming was unanimously elected president at last night's meeting, George Murphy, first vice president; J. C. Smith, second vice president; C. C. Chenoweth, treasurer, and George Hemmingson, secretary. The board of directors is to be composed of "Pete" Davis, Frank Champion, Frank Brahaney, William McMichael, L. T. Summers, Leslie Hagaman and H. E. Bozeman. The first four of these were not present at the meeting, but were chosen because of their interest in last year's team and through a desire to have all business elements in Ranger represented on their board. "Ranger's team," is to be the motto this year.

Pot Filling Up. Continued success in raising the money needed to start the season was reported by the finance committee. Yesterday afternoon, \$456.50 in cash was raised, bringing the cash total to \$1,709, with the downtown district only partly covered. No fears are felt that the \$3,000 needed will be easily raised.

In addition to the cash donation, various persons pledged their services. George Hemmingson drew the secretary's job because he volunteered to keep the books without cost. C. C. Chenoweth will act as treasurer on the same salary basis, and no money will be expended without his O. K. M. H. Holloway and sons, Harvey and Al, will make any repairs needed without charge. The Liberty theatre, in addition to its \$50 cash, will donate the proceeds of a matinee some day soon.

An April fool ball is planned to further increase the league's pot. All in all, the financial path ahead of the club appeared to be covered with bitulithic asphalt.

The players will report about April 1, according to present plans. Sixteen contracts were sent out yesterday by Manager Albright, to players he knows personally. In a few days it will be possible to know something about who is to be whom in Nitro circles this year.

Following are the contributions yesterday, not previously published: Leveille-Maher Co. \$ 50.00 Exide Battery Co. 10.00 Dr. J. A. Stackable 5.00 Huber Bros. 10.00 A. E. Fimmin 5.00 E. A. NOLLEY IS ORDERED TO RAID AND SMASH PIONEER GAMBLING HALL

Special to the Times.

EASTLAND, March 17.—Judge E. A. Hill of the Eighty-eighth district court returned from Pioneer late yesterday afternoon after an unsuccessful attempt to locate a gambling hall there, which County Treasurer Ed Pritchard and three other Eastland citizens reported running in full blast Wednesday. Following the judge's return here, it was reported that the gambling house had only been closed temporarily "in respect to the judge's presence in the city."

Sheriff on Watch. "The place will be closed; if not one way then in another." Judge Hill told a newspaper man when advised of the resumption of gambling in Pioneer. The judge declared that he had spoken to Sheriff Nolley regarding the matter and that the sheriff had promised to raid the establishment and destroy the paraphernalia.

On Judge Hill's trip to Pioneer he is said to have found the gambling hall deserted of occupants, only tables and chairs showing that the room had been used as a gathering place. He returned to Eastland late yesterday afternoon. His visit, it is understood, was made as the result of

affidavits made by County Treasurer Ed Pritchard and three other reputable citizens of this city, who swore to finding the gambling hall in operation Wednesday, with men and boys crowding the seven tables there. A "big fat man," whom some of the party are said to have recognized, was acting as the major domo of the establishment and as fast as one player left a table he would announce the fact and invite others to take his place. According to the testimony of the citizens from Eastland, entrance to the establishment is affected through a shed in the rear of a two-story building. Passing from the shed the path leads up a winding stair to the front porch of the building where it enters a long hall-way.

September Morn. The county attorney and his friends seeking the habitat of the Goddess of Chance received a momentary set-back when they opened one door and encountered a large fat goddess taking a sponge bath. As they passed down the hall, sirens in various stages of disfigurement floated back and forth across their back. The party finally came to a door in the rear and opened it to find poker, crap and other games running, they state.

ACQUITTAL PREDICTED IN OBENCHAIN TRIAL

LOS ANGELES, March 17.—Courtroom attaches today expressed the belief that Madalyne Obenchain would be acquitted of the charge of murdering J. Belton Kennedy, her former sweetheart.

The judge was to charge the jury of nine men and three women when court reconvened. Long arguments of opposing counsel prevented the case going to the jury yesterday, as expected.

OKLAHOMA MOTHER KIDNAPS CHILDREN

ARDMORE, Okla., March 17.—Kidnapping her 13-year-old daughter and a 10-year-old son as she met them on their way to school at Madill yesterday morning, Mrs. C. A. STUDENTS IN DECLAMATION MEET TONIGHT

High and Central to Select Winners at First Baptist Church.

High school and Central school representatives in the interscholastic league declamation contests, both boys and girls, will be selected tonight in a contest to be held at the First Baptist church. The winners in the High school contests will represent Ranger at the county meet to be held in Cisco March 31, but the Central winners must contest for this honor with the winners in other ward school contests.

In addition to the declamation contests, there will be a practice debate between Ranger and Strawn on the interscholastic league question. "Resolved, that congress should prohibit immigration into the United States for a period of two years." George Henshaw and Perry Jones will represent Ranger, taking the negative side of the question. This debate will give both teams needed practice and will not eliminate either, as they are in different districts.

Ranger will enter a girls' debating team as well as boys, in the Cisco meet.

No admission fee is to be charged for these contests.

JAIL TERMS GIVEN MEN WHO WOULDN'T ANSWER QUESTIONS ON KLAN

AUSTIN, March 17.—An attack on Judge Hamilton's order yesterday, imposing \$100 fines and jail sentences on Police Commissioner Copeland and F. G. Reynolds for contempt of court in refusing to answer grand jury questions about the Ku Klux Klan, was started this morning by defense attorneys, with the filing of briefs before the court of criminal appeals.

Application for a writ of habeas corpus was filed in the appeals court late yesterday and Copeland and Reynolds were released on \$500 bond each. The two defendants spent approximately four hours in jail yesterday.

STOLEN CARS FOUND ON EASTLAND-CISCO ROAD

EASTLAND, March 17.—Two automobiles, one of them identified as having been stolen Wednesday night from the garage of F. W. Timer of Eastland, were found wrecked and abandoned late last night near Cisco. The Timer car, a Dodge, had turned over in the road and was almost demolished. Blood on one of the seats indicated that an occupant had been cut by glass from the windshield. A short distance away a Ford car, thought to have been stolen, was found with one wheel broken. The latter machine has not been identified.

MORE WETNESS SEEN BY DRYS IN NEW RULING

Wherever Possible, Local Courts Will Try Cases, Daugherty Says.

ST. AUGUSTINE, Fla., March 17.—Responsibility for prosecution of liquor law violations will be turned over to state officials and courts wherever possible, Attorney General Daugherty declared today on arrival here to join President Harding's vacation party. "However, in such states as cannot or will not enforce the prohibition laws, the federal government will do it," Daugherty declared.

CHICAGO, March 17.—The United States government today quit the prosecution of liquor law violations and turned them over to local authorities for action. Robert M. Crowe, state attorney, has been asked by representatives of Attorney General Daugherty to be responsible for the enforcement of the prohibition laws and announced today that all cases in the future will be tried in municipal courts.

Crowded condition of the dockets of the federal courts is assigned as a reason, he said. Thousands of liquor law violations, amounting to home rule, are seen by bone-dry advocates today as the result of the change.

TREATY FOES NOW PIN HOPES ON WILSON AID

WASHINGTON, March 17.—Hope for eleventh-hour aid from Woodrow Wilson today was keeping alive some Democratic opposition to the four-power Pacific treaty.

The mere mention of Wilson's name gave rise, as usual, to a crop of unsubstantiated rumors but only one fact was certain: Some Democratic leaders have appealed or will appeal to Wilson to use his influence against the treaty.

CONGRESSIONAL AID FOR WAR PRISONERS SOUGHT

WASHINGTON, March 17.—In the face of apparent outspoken opposition, lawyers and representatives of various labor organizations pleaded with the house judiciary committee Friday to report a resolution asking the President to give careful consideration to the propriety of granting immediate amnesty to 113 political prisoners serving long terms for violation of the espionage act.

Committeemen indicated that the resolution never would pass, insisting that congress had no right to direct the President in such matters, especially because of the lack of opportunity to review the cases. Gilbert E. Roe, an attorney of New York, who advocated the general principle of amnesty, said when questioned that he saw no impropriety in requesting the President, the attorney general and the secretary of war to look into the appeals, because "the resolution seems as harmless as the four-power treaty."

TEXTILE MILL WAGES SCORED BY LABOR HEAD

WASHINGTON, March 17.—Textile mill owners of New England are engaged in a deliberate attempt to lower the standard of living of their employes, according to Samuel Gompers, president of the American Federation of Labor.

Gompers has just returned from a three-day trip through the districts where more than 60,000 mill hands are on strike.

"From my investigation it would seem that the only reason given by the mill owners for attempting to reduce the wages and lengthen the hours of their employes is to place them in the same miserable condition as the Southern mill hands," said Gompers.

"They say that they can not compete with the Southern mills unless the standards of life and work of thousands of New England wage earners are dragged down to that level.

Poor Wages Are Paid.

"In New England at the present possible wage of \$17 a week, it is necessary that not only the father but the mother go into the mills to support a family in common decency. A 20 per cent reduction, against which the workers are protesting, would take \$3.50 out of each pay envelope every week and with it would go what little pleasure and joy there is in life as well as some of the direct necessities.

"The mill owners, not satisfied with offering a reduction in wages, are insisting upon lengthening the hours from forty-eight to fifty-four a week. These same workers scarcely more than a year ago accepted a 22-1/2 per cent wage reduction.

"To drag the New England textile workers down to the Southern standard in order to increase their dividends is something against which the workers of New England will fight to the last ditch."

The same financial interests that control the Southern mills also largely control the Northern mills, Gompers said.

JURY FREES SALOONIST BY DRINKING EVIDENCE

PHILADELPHIA, Pa., March 17.—Judge Ferguson, in quarter sessions court here, rebuked and discharged a jury for further service a jury from the contents of a quart of whisky, given to them as evidence in a case, mysteriously had disappeared.

"It is one of the most surprising incidents I ever have heard of," said the judge sternly, while the jurors hung their heads, and one or two of them grinned broadly.

He said he could not condone such action. He explained he ordered the "exhibit" to be entrusted to them so that the bottle might be sipped for jurors to distinguish whether it held whisky.

Judge Ferguson emphasized that he was not turning over the bottle for the twelve men to empty it.

"I cannot permit such conduct to go unnoticed and unrebuked," he declared, while he issued instructions for the jurors to be dismissed from further service in his court.

The incident was all the more unusual because the jury was out three hours, when the judge, tiring at the delay, sent for it, and appeared to be amazed when informed that the jurors could not agree and that the evidence had "disappeared."

A saloon keeper was the defendant, and as the result of the "vanishing act" of the quart his prosecution may be dropped.

BOYS FURNISH FUN AT K. OF C. SMOKER

A bunch of small boys furnished a holiday last night at the Knights of Columbus entertainment at the lodge rooms. A shoe race, a treasure-hunting contest in which the boys, with hands in pockets, roamed through plates full of flower for coins, and other diversions tickled them immensely, as well as the lodge members. Various other features, topped off by refreshments, made it a memorable meeting, those present say. E. J. Bunch and Sam Wasaff directed the entertainment program.

BOY OF 16 TRIES TO BLAST VAULT OF DENVER BANK

DENVER, March 17.—Harry Singer, 16 years old, is said by police to have confessed an attempt made to rifle the vaults of the Metropolitan State bank.

Singer, according to police, declared that he had worked without the aid of an accomplice and had drilled and blasted half way through the walls of the vault before he became frightened away by the detonations of nitroglycerin which he had used in attempting to effect an entrance.

According to Chief of Detectives W. A. Riniker, Singer declared the last blast which he used had been so loud that it frightened him. Hearing the police riot squad it is said, he dashed out and hid on the roof of the bank building, which is near the heart of the downtown business district. After police had left the building, he is reported to have said, he crept to the roof of an adjoining building, then entered a skylight and proceeded to rifle the cash registers of a restaurant. He also took a waiter's coat which he found in the building when he crept, police say. It was while he was leaving the restaurant that he was arrested.

In addition to leaving his coat in the bank building, Singer, it is asserted, left two suitcases containing an elaborate set of burglar tools.

SAVES LIFE WITH PENKNIFE.

CINCINNATI, March 17.—Surgery with a penknife saved the life of 2-year-old John Washington, who was taken to a Cincinnati hospital with a peanut lodged in his windpipe, causing strangulation. The child had stopped breathing when Dr. C. C. Payne arrived at the ward last night.

Realizing that death would ensue before he could send for surgical instruments, Dr. Payne took his penknife, slit open the boy's throat and incised the trachea just below where the peanut was lodged. This permitted the passage of air and the child soon was revived. Later the peanut was removed.

DETROIT MILLIONAIRE IS GIVEN FIVE DAYS IN JAIL

DETROIT, Mich., March 17.—John Duval Dodge, millionaire son of the late John F. Dodge, the Detroit automobile manufacturer, was sentenced to five days in the House of Correction and fined \$100 by Judge Charles L. Anston said he started to work on his invention twenty years ago at the age of 13.

SUGAR RATES IN TEXAS ORDERED REDUCED BY I. C. C.

WASHINGTON, March 17.—Railroads in Texas, under an interstate commerce commission order issued today, are required to reduce the rate on sugar from the refineries to points within the state. The federal commission some time ago held that the Texas railroad commission could not lower the rates in intrastate traffic below the rates existing after the rate increase in 1920. Later, however, the roads voluntarily reduced the rates on sugar from the Louisiana and Gulf coast refineries and the order of the commission was made in order that the Texas refineries might compete on a parity with the outside refineries.

THE WAGE OF LEISURE

BEGGS, Okla., March 17.—Six masked men wearing white robes and masks yesterday seized Harley Smith, 30-year-old negro, spirited him out of town and severely whipped him with a length of garden hose. With ball and chain attached to his leg, he was placed on the street yesterday and told to go to work. Instead, he sat down and refused to move. The masked band then seized him and administered the whipping.

WYOMING GIRLS ARE LEFT NUDE AFTER JOYRIDE

CHICAGO, March 17.—As Policeman William Finn was "wending his weary way" down East Eighty-fourth street he was given a sudden start. He drew his revolver and advanced cautiously, when he saw a white figure slip out of an alley. He had no idea what he was confronting until it spoke in a thin, chattering voice. Then he made out the comely figure of a young woman, whose only mentionable covering was a skirt of cotton waste.

"You'd better put that gun away and do something useful," she told the copper. "My sister's worse off than I am. There wasn't enough of this stuff for two skirts."

Finn peeled off his overcoat and wrapped it about the girl and followed her into a garage down the alley. There they found the other girl in a garage huddled behind a barrel. He escorted the pair to the police station.

The girls, Dorothy Maxwell, 21, and her sister, "Tootsy," 18, said they had gone for an automobile ride with two men. They quarreled and the men took their clothes and left them in the garage.

The girls said they came to Chicago six months ago from Casper, Wyo.

WOMEN GETTING BALD HEADED, BLAME COOKING

PHILADELPHIA, March 17.—Femine prowess is branching out into new territory.

Several of the "fashionable" hairdressers state that women are beginning to get bald.

What the women are going to do about it could not be ascertained, as all of them questioned on the subject indignantly denied that there is anything wrong with their "permanent" wavy tresses.

They united in saying that if other women are losing their hair as the result of repeated "bobbing," ironing and marcelling, they can look out for themselves.

But those are not the main reasons for growing baldness among women, according to a well-known hirsutary artist, who stated that modern cooking methods are at the root of all the trouble.

Lots of red meat in the diet will work wonders, he says, and golf before and after eating will send the red corpuscles chasing up to the scalp to make the hair sprout like Jack's beanstalk.

Dr. Alfred Gordon, noted Philadelphia alienist, thinks that a "low state of nutrition" is one of the prime factors contributing to the exodus of hair.

NAVAL SCRAPPING NO GREAT SAVING, BARON KATO SAYS

TOKIO, March 17.—"The world is wrong in thinking that the armament reductions agreed upon by the Washington conference mean great financial saving."

This was the outstanding declaration of a wireless interview with Baron Kato, leading Japanese delegate to the Washington conference, on board the Taiyo Maru, en route home, printed in the Ashahi. The Baron added:

"The day is probable, after economy recovery when nations will compete in a naval race in the building of auxiliaries and submarines. Then a new conference will stop it."

FIGHTS DISBARMENT FOR WEDDING BRITON

NEW YORK, March 17.—"Why should I be disbarred simply because I married a man who was not an American?"

That is the question Mrs. Ida Biensstock Landau, 22, living at 6 MacDougal alley, asks.

Mrs. Landau graduated from the law school at New York university in 1920. At that time she was unmarried. She went through a period of clerkship and began to practice law. In 1921 she married Jacob Landau, a British subject, who recently came from London.

The board of examiners informed her two weeks ago that by marrying an alien she lost her citizenship, and was, therefore, disqualified to practice law.

\$10,000 TOO HIGH PRICE FOR HUSBAND'S LOST LOVE

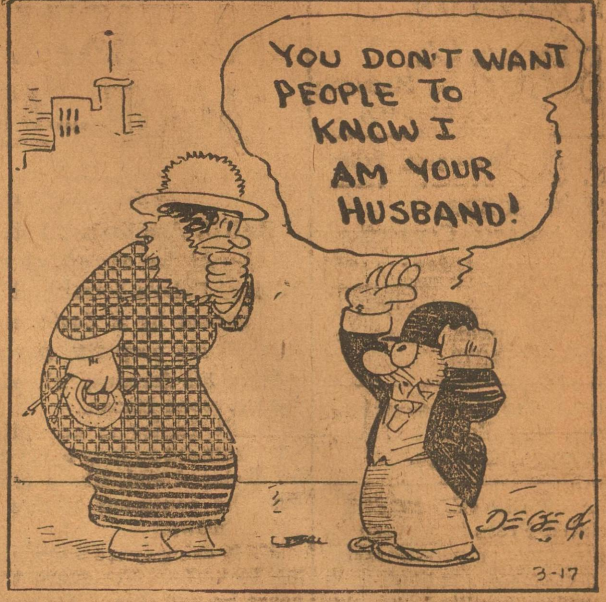

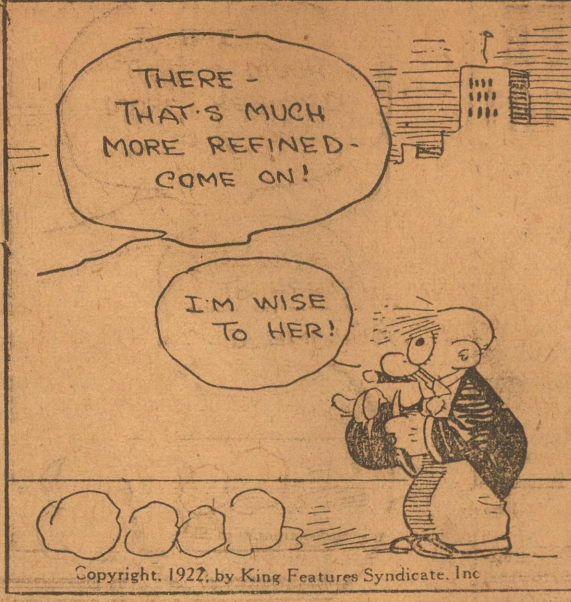

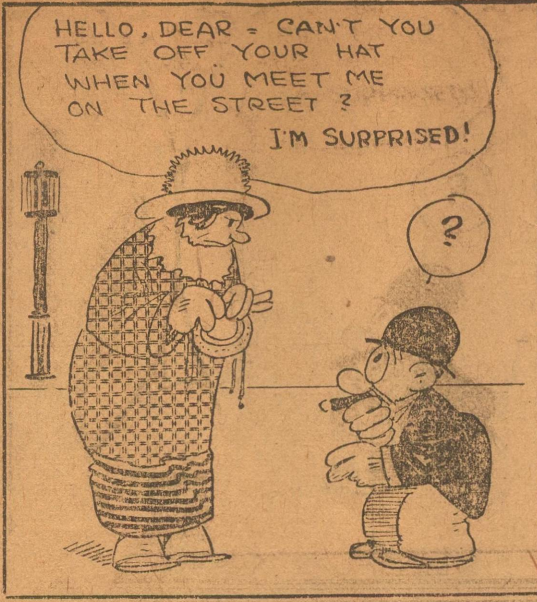

TRENTON, N. J., March 17.—Declaring a verdict of \$10,000 excessive, the supreme court here today awarded \$5,000 to Mrs. Eloise Harding Dey against her husband's cousin, Miss Sarah Dey. The wife had sued the latter for alienation of the affections of Frank Clinton Dey. All the parties are from Newark.

Mrs. Dey said she married Dey in 1880. She charged that Miss Dey had caused her husband to desert her in 1911. The suit has been tried three times.

BOSTON CUPID'S DARTS PIERCE AGE AND YOUTH

BOSTON, March 17.—Has Dan Cupid got a "May and December" corner on the Boston marriage market? Whatever the cause, there is an epidemic of marriages of young women to aged men in the little old Hub. The latest is Mrs. Ada M. Hodgkins of Penfield street, Roslindale. She plans to marry this week Dr. Thomas M. Strong, well known ear, throat and nose specialist. She is 38 and he is 73—a difference of thirty-five years in their ages.

Attractive, pleasing manner, brilliant conversationalist, Mrs. Hodgkins, a divorcee, is the type of woman who would charm a man of much lesser years—a woman who would fit into any home of any prosperous business man of middle age. But she, like other Boston women, turns to age for her life partner, and declares that she has done it with her eyes wide open and after considerable thought.

"Age does not matter," said she, with a joyful smile. "I love him just the same. After all what more is there to it? I know that we will be happy."

Owens Her Home.

Mrs. Hodgkins owns her own home in Roslindale, is a member of the Eastern Star, is an accomplished pianist, and strikingly pretty. The man she will wed is a graduate of Rutgers' college, is treasurer of the Massachusetts hospital and is prominent in his profession.

Only a few days ago Miss Clara Connelly of Waltham, eloped with Dr. Cornelius J. McCormick, of the same city. She is 34, the husband is 74—a difference of forty years. The pair slipped off to New York and married quietly.

One of the extraordinary features of this marriage is that Dr. McCormick brought his bride into the world thirty-four years ago as the attending physician to her mother. Since then the physician has married twice.

Considerable Opposition.

He is a rugged specimen of manhood. Considerable opposition was raised by Miss Connelly's family, but the doctor won the day—and the bride.

Another romance with twenty-five years difference between the bride and the bridegroom is that of Miss Mary A. Mock, 19 and pretty, and her employer, John J. Cloutman, 44. Their wedding is set for an early date. Miss Mock came from Bluffton, Ohio, to attend the New England Conservatory of Music. For six months she has been secretary to Cloutman, well known Boston shoe man.

FAREWELL CASE IS TRIED BY JUDGE LANDIS

Kenesaw Mountain Landis no longer is a federal judge. He has tried his last case, pronounced his farewell sentence from the bench, laid down his gavel and entered into his duties as dictator of organized baseball. The famous erstwhile jurist here is shown in a characteristic pose as he pronounced sentence on his last day in court on a man who had fleeced his partner in a business deal. A fine of \$5,000 was imposed.

In England and Wales women outnumber men by 1,721,000, and in Scotland by 185,000.

COLOR LINES FORGOTTEN AT COMEDIAN'S FUNERAL

NEW YORK, March 17.—Throngs that filled the Masonic temple of St. Cecile Lodge and overflowed into the street attended the funeral services for Egbert Augustin (Bert) Williams,

famous American negro comedian, who died here Saturday.

Scores of his former associates, officers of the lodge and prominent members of Williams' race, who had come from southern and western states, accompanied the body to Woodlawn cemetery.

This was the first time a negro ever was buried with the Masonic ritual. Williams was a member of Waverly Lodge No. 597 of Scotland, and it was the cabled request of the grand lodge of Scotland that the services were conducted at St. Cecile's, the theatrical lodge of the city.

Williams' sheepskin apron, received from the lodge in Scotland, was placed on the coffin. An orchestra

from a Broadway theatre played the funeral march. Soloists from New York's most exclusive churches chanted the Lord's prayer.

In Florence, Italy, when the high cost of shoes leaped more than 100 per cent, the girls there, instead of going on shoe-hunger strike, turned cobblers for themselves and made their own shoes.

FISH FOUND IN BEXAR COUNTY WATER WELLS

By Associated Press.
SAN ANTONIO, March 17.—Strange wells and peculiar geological formations are to be found in Bexar and nearby counties, according to a report made to the United States geological survey some years ago, by H. M. Madison, now farm and immigration agent of the San Antonio & Aransas Pass railroad.

Wells with fish in them, wells that drop into cavernous depths and are connected with caves, wells that suck air and discharge it, were described in the report. One well drilled at Crystal City, according to Mr. Madison, showed four feet of asphalt at a depth of 356 feet.

In Atascosa county there are reported to be wells that give both gas and water, the gas being for lighting and cooking and the water for domestic purposes.

A well drilled on the Fredericksburg road went into a cave at 900 to 950 feet and in the cave were found blind fish, pink in color. Some of the fish were brought to San Antonio and exhibited. Another well was drilled on the Fredericksburg road that extended into a cave which had water in it. In time of storm, cold air rushes with a moan from it.

Many wells all through the country north of San Antonio were drilled or dug into caves, many of which furnish the purest kind of water for domestic purposes. There are said to be sections where horses driven over the roads disclose the presence of caves from the sound of their feet striking the road.

MERCHANT TO MATCH RAT AND RATTLESNAKE IN HIS SHOW WINDOW

By Associated Press.
AUSTIN, March 17.—The holding that a rat is the deadly enemy of a rattlesnake is soon to be tested in Austin. Fred Petmecky tried the test once, but the contestants would not get together and he is going to try again.

Petmecky placed a rather large-sized rat and a rattlesnake in a show window of his store. Announcing it through the newspapers ahead of time, he collected a considerable crowd to see the mortal combat. The crowd apparently frightened the combatants and they would not fight, according to Mr. Petmecky. It might have been too early in the season for the rattler and as soon as the weather gets warmer and the snake has an opportunity to shake off its winter lethargy, Mr. Petmecky announced, he will place the rat and the rattler in the window and leave them there until they fight or until it is evident that they will not meet in combat.

REFUSE TO ANSWER KLAN QUESTION; ARE JAILED

AUSTIN, March 17.—J. D. Copeland, police commissioner of Austin, and F. G. Reynolds, clerk of a fraternal organization here, were held in contempt of the Travis county grand jury late Thursday and committed to jail until they answer the questions propounded them by the grand jury. This was the result of a decision reached late yesterday by Judge James R. Hamilton of the criminal district court.

Copeland and Reynolds gave notice they would apply for a writ of habeas corpus to the court of criminal appeals.

The questions were in regard to their connection, if any, with the Ku Klux Klan.

TRAFFIC COP NABS WIFE FOR CUTTING CORNERS

By Associated Press.
OAKLAND, Cal., March 17.—Traffic Policeman W. H. Garrett appeared at the police court Thursday as the complaining witness against his wife for cutting a corner at the crossing where he was on duty. He halted the offending driver before discovering her identity, but arrested her anyhow and ordered her to proceed to the police station. She obeyed and deposited \$10 bail.

CASHIER TALKS BANDIT OUT OF BANK ROBBERY

FORT WORTH, Texas, March 17.—Lack of nerve on the part of a would-be bank robber and abundance of the same commodity on the part of T. G. Davis, the cashier, prevented the looting of the State Bank of Mansfield Wednesday at noon.

An unidentified youth, 20 or 21 years old, walked into the bank while the cashier was out to lunch and asked B. A. Green, the only person in the bank at the time, if he was alone in the bank.

When informed that the cashier was at lunch the young man took a seat and waited for him to return. Davis, on his arrival asked if there was anything he could do. The young man pulled a gun and said he had to have some money, and ordered him to pull down the curtains. Davis refused to do so and told him to put up his gun before he hurt someone.

The two men then talked him out of his intention to rob the bank, but he stayed in the bank and drew his gun the second time, whereupon the cashier dissuaded him again and offered to give him a meal at the restaurant and some money if he was broke. He declined the offer and started to Fort Worth in a service car previously ordered. When the car arrived the youth gave Bert Hall, the driver, his gun in lieu of money for payment and got out in the city.

WOULD BAR KU KLUX KLAN FROM COLORADO

By Associated Press.
DENVER, Colo., March 17.—Victor E. Keyes, attorney general of Colorado, in an opinion furnished Carl S. Milliken, secretary of state, declared that in his judgment of articles presented the secretary by the Ku Klux Klan in seeking incorporation papers are defective and do not comply with the requirements of the state.

"The specification of the business and objects for which the organization is formed," said the attorney general, "is too vague, general and indefinite."

The articles as filed contained this statement:

"The particular business and objects for which said corporation is formed are to unite white, male, Gentile, native-born citizens of the United States into a fraternal, militant society, having as its ideals and objects the support and maintenance of the principles of true Americanism, as embodied in the constitution and the laws of the United States of America."

JURY IS COMPLETE FOR THIRD ARBUCKLE TRIAL

By Associated Press.
SAN FRANCISCO, March 17.—The jury box was filled temporarily again Thursday afternoon in the third manslaughter trial of Roscoe C. Arbuckle, after which a recess was taken while the prosecution considered exercising peremptory challenges. Three of the temporary jurors were women.

Questioning of talesmen was much briefer than in the two preceding trials and the attorneys expected to have the jury complete today. Two alternate jurors probably will be selected.

Recent census figures show that in Warsaw there are 85,000 more women than men.

SOUTH AFRICA IN THROES OF BLOODY REVOLUTION

The South African gold and iron mining district known as the Rand is in the throes of a bloody revolution. Striking miners are said to be fighting for the establishment of a soviet. Great throngs have stormed the law courts for permits to remain in the streets at night following a declaration of martial law. Many soldiers and civilians have been killed and wounded. General Jan Christian Smuts, South African premier, went to Johannesburg, seat of the trouble.

CHILDRESS COUPLE KILLED BY TRAIN

CHILDRESS, Texas, March 17.—Mr. and Mrs. J. L. Green of Carey were killed here Thursday when the automobile in which they were riding was struck by a Fort Worth & Denver train at the stockyards crossing. Mrs. Green was killed outright and her body was carried about 100 yards on the pilot of the engine. Her husband died shortly after reaching the hospital.

The train was going down a steep grade when the automobile was hit.

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering tonight. The scourge of rheumatism has wrecked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never disarranges the stomach. It is, in fact, a splendid tonic, a blood maker, a blood enricher. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can't get out to get a bottle of S. S. S. yourself, surely somebody in your family will. Somebody get a bottle of S. S. S. now! Let somebody's mother begin to feel joyful again tonight. Maybe, maybe let your mother, S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

UNPERTURBED RAFFLES INVADES GIRLS' SCHOOL; CHATTERS FREELY, BOWS SELF OUT AS HELP ARRIVES

BOSTON, Mass., March 17.—"The gentleman burglar" has stepped from his niche in the fiction hall of fame into real life.

While six pretty girls, students at in Brookline, and two instructors an exclusive training school for girls drew bedclothing closer about their shoulders in the early morning hours of today and shook with terror, a burglar, carrying a running fire of polite comments, sorted jewelry with a critical eye, rifled bureau drawers, emptied purses of cash and thoroughly searched the girls' bedroom for valuables, and then, his loot stowed away in his pockets, with a polite bow and a Chesterfieldian "Good-morning," stepped through one of the bedroom windows and was gone.

At 2 o'clock one of the girls was awakened and saw a man clambering through the window of her room. She pretended sleep. The man went to her dresser and began an inspection of her jewels, ransacking the drawers and finding a jewel case.

Part of the jewelry pleased the burglar and he voiced soft spoken comments of approval as he pocketed the pieces. He threw other pieces aside. "Cheap stuff, some of this," the burglar remarked.

When the burglar moved to the next room, the girl coughed, hoping to frighten him. Undisturbed, however, the burglar continued his work, making a careful examination of the jewelry he found there and pocketing a purse.

The victim called students occupying nearby rooms. A few of them, hearing the man moving about, kept still, feigning sleep. Two became terror-stricken, jumped from bed and wheeled heavy pieces of furniture in front of the door. Meanwhile the burglar continued a tour of the house, entering several rooms and speaking in friendly tones to his victims as he relieved them of their precious jewelry.

In response to repeated calls for help from Miss Alice B. Foote, principal, one of the girls opened a window and shouted "Help, burglars, thieves."

While confusion filled the house the burglar was unperturbed. It appeared it would be but a moment before help would arrive and he would be captured. Men summoned by the cries from the window were at the front door. Given courage by the approach of assistance, the principal advanced upon the burglar and pointing her finger at him she ordered: "Now you get right out of here this minute."

With a little bow he stepped into a bedroom and vanished through a window at the instant the rescuers entered the house.

THE SUSPENSE IS AWFUL.

The hangman was having difficulty in adjusting the noose on account of the condemned man's nervous contortions.

"Come, now, my lad," jocosely spoke up the painless exterminator. "This will never do. You'll have to get more into the swing of the thing."—American Legion Weekly.

THEIR 'DOC' IN JAIL

OTTUMWA, Iowa, March 17.—A hurry call for a physician at Lock Ridge, Iowa, where a number of persons are said to be ill, would find Dr. P. J. Shorlock, the only physician of the village, at the county jail. He was sentenced by Magistrate D. E. Wilson to serve four months for intoxication.

Residents at Lock Ridge, alarmed because of the prevalence of disease, are preparing petitions to Governor W. L. Kendall for Dr. Shorlock's release.

Sheriff Walter Harris has telephoned to the governor, who said a recommendation from four county officials for release of the physician would be acted upon promptly.

HIS FLOCK SEEKS TO BREAK PASTOR'S STRIKE

ELK RAPIDS, Mich., March 17.—Members of St. Paul's Episcopal church here are discussing means to break the "strike" of their pastor, Rev. Merton Ross, who has left his congregation with the announcement he "would remain away until the members displayed a greater interest in church work."

Rev. Mr. Moss, who also is pastor of the Episcopal church at Traverse City, eighteen miles from here, walked over the icy roads from Elk Rapids to Traverse, because trains were not being operated, due to the recent storm.

Membership in St. Paul's, aggregating more than 100 last summer during the resort season, has shrunk to twenty-two, eighteen of whom are women. Preaching to empty pews once a week discouraged the pastor, it was said.

Mrs. C. D. Town, member of the church for thirty years and spokesman for the congregation, said the church members, although few in number, had been active in the cause of religion.

DEVICES SCHEME TO BEAT GAMBLING GAMES

Adolph C. Bokou

Adolph C. Bokou has arrived in America from Paris to teach youths of this country that gambling doesn't pay. Bokou has devised a scheme, he says, whereby he could beat the bank of Monte Carlo, but officials of that institution have barred him. Those same officials, he says, have offered huge sums for the suppression of his talks against gambling. He will tour the principal cities of this country on a speaking campaign.

BLOOD TELLS!

TOLEDO, Ohio, March 17.—Denial of a father to have his son punished for having committed a robbery was turned to a plea for mercy here when the son was sentenced to serve a term of imprisonment.

William Reiter, Jr., pleaded guilty of robbery in the Lucas county common pleas court. The father, William Reiter, Sr., was prosecuting witness.

When Judge Byron F. Ritchie sentenced the son to serve from ten to twenty-five years in the Mansfield reformatory, the father relented and asked that the sentence be suspended.

Judge Ritchie took the request under advisement.

NICE HOTELS NOW EMPLOY 'LIZARDINES'

NICE, March 17.—Lizardines have joined the company of lounge lizards on the staffs of Nice hotels. The lizardine cure is prescribed for tired business men to inoculate them with the dance habit.

But don't make the mistake of confusing the female lounge lizard with our old acquaintance the vamp. The lizardine is on the regular payroll of the hotel; she punches the time clock beside the head waiter.

The head waiter busies himself at the table of the henpecked husband, who is listening to how old he is getting because he doesn't dance.

"If madame cares to dance perhaps she would permit me to introduce one of our professional dancers. Cost? Oh, nothing, sir. The hotel pays them. Unless perhaps you wish to give a little tip. If m'sieu wishes to try some steps with a lizardine, sir?"

The waiter with but little formality introduces a young Swede American, or Frenchman, who proceeds to dance as simply or intricately as his partner wishes. At the end of the dance he conducts her to a table, bows and departs. If madame wishes

another dance, and the lizard is free, just nod to him or signal him as you would a waiter.

The lizardine's specialty is to help the man who refuses to dance with his wife, because he hates "these new-fangled steps" to regain confidence. When not otherwise engaged the lizards and lizardines dance together.

The average tip to a lizard or lizardine is from about 50 cents to a dollar, depending upon how many times they have been used during the afternoon or evening.

NINETY-YEAR-OLD IS TOO ROUGH FOR WIFE

NEW YORK, March 17.—Ninety-year-old William Chester, veteran of the Civil War and, as he puts it, of two previous marriages, was haled into court in Brooklyn by his third wife, Louise, 52 years his junior, "because he was so rough."

Mrs. Chester testified her aged husband had hurled teacups at her with speed and accuracy. Then she induced Magistrate Reynolds to suspend sentence on the charge of disorderly conduct, although she declared she would not hazard living with him again.

"That suits me," said Chester, who admitted he had a quick temper, but insisted he was "not a bad man."

Their Lone Match Saves Castaways on South Sea Reef

HONOLULU, Feb. 23. (By Mail.)

A lone match, saved carefully in a tin can to prevent it from becoming wet was the instrument that resulted in the rescue of four of the five members of the Japanese fishing vessel Ebiisu Maru No. 1, after they had been marooned fifteen days on a wind and storm-swept coral reef in the South Seas, with no shelter, few clothes and little food or water, according to the story they told when they were brought back to Honolulu aboard the Ebiisu Maru No. 2, which had been sent to rescue them. The fifth member of the crew was washed away and drowned.

The fishing crew left here last year for Necker island, considerably south of Honolulu, and after unsuccessful casts sailed farther south on Jan. 18. Ten days later in a heavy storm, she struck a coral reef off Sand Island, near French Frigate shoals. Under the battering of the heavy seas, the sampan broke up almost immediately.

A rude raft was formed from the timbers and Captain J. Yonemuku, with a rope around his waist, swam for a bar some distance away. He

made the small piece of land and succeeded in pulling the raft after him. For the next fifteen days the four men subsisted on birds they killed and a little fresh water. With their lone match they kindled a fire from pieces of driftwood. This thin line of smoke was sighted by the Ebiisu Maru No. 2, the rescuing vessel, which proceeded to the bar and took the four survivors aboard.

WOMAN CANDIDATE TO TEST LOYALTY OF SEX

CHICAGO, March 17.—"I am going to show the world that women are loyal and will support one of their sex in a political campaign."

That is one of the keynotes sounded by Mrs. Winifred Mason Huck, who is running for congressman-at-large to succeed her father, the late William E. Mason.

"My opponents tell me women are cats and that I cannot depend on them," she says. "I am going to end that argument for all time and prove that women are as loyal as men are." She has five opponents. Four are men. The fifth is Mrs. Mary Belle Spencer, public guardian of Cook county.

Miss Mary L. Dutton, who owns and operates two cafeterias in Chicago, is planning to open a third establishment which will be the largest eating place of its kind in the world.

BABYLON BOASTED PETTICOAT RULERS

PARIS, March 17.—The ruins of a Babylonian city dating back to 2,000 years before the Christian era have been discovered at Kolsa Nyek, Asia Minor.

The city was named Burus; it seems to have been one of the earliest homes of feminism, if not, indeed, of woman's emancipation.

Cuneiform inscriptions give many odd details of the organization of the city, which was governed by a prince and prefect, assisted by a princess and a woman prefect, whose powers are said to have been precisely equal to those of their male colleagues.

Records of a regular postal delivery service have been found, the letters being written on baked tiles of a circular shape. References to an early form of the bank check system have been discovered, a bearer check being found which contains instructions to the addressee to pay to the persons named in it a stated sum.

LITTLE WOMAN GAINS 20 LBS. TAKING TANLAC

Mrs. B. F. Smith Was in Such Bad Condition She Had to Stay in Bed for Weeks at a Time and Had Given Up Hope of Getting Well.

"I was in such a bad condition I had to stay in bed for weeks at a time and I guess if it hadn't been for Tanlac I never would have seen another well day," said Mrs. B. F. Smith, 3305 Ave. P, Galveston, Tex. "I suffered so much during the past four years from nervousness and stomach trouble that I would almost become hysterical at times. Nobody will ever know just how much I suffered because I can't describe it. I fell off until I weighed only hundred and ten pounds and had almost lost hope of ever getting well.

"Tanlac seemed to get right at the cause of my troubles, and now I am in better health than in ten years. I eat anything I want, my digestion is almost perfect and I have gained twenty pounds in weight. No medicine could do more for a person than Tanlac has for me."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug store.—Advertisement.

IRISH MEUSEL HAS NEW IDEA FOR SCORING

SAN ANTONIO, March 17.—As an outfielder who contributed materially to the success of the New York Giants last season, "Irish" Meusel, in spring training with his teammates here, says he is ready to break into the statistician class. He says batting averages should be revised. And he says he is not in favor of the new system simply because he proved a leader of it in the recent world series games. He says his plan will give credit where credit is due.

Meusel's scheme is to credit the batter with the amount of bases he advances a man.

It is well known among baseball men that some batters are better at the plate than others when there are men on the bases. The nervous tension proves too much for some of the hitters.

Premium on Pinch Hitting. Sluggers who can whale the ball a mile when the sacks are empty often take that long walk back to the water bucket when there are two or three men on the sacks.

Meusel's scheme is if a man is on second base and the batter hits a long single and scores the runner the hitter should be given credit in a special column for three bases—the one he made himself and the two he advanced the runner.

If the sacks were loaded and he cleaned them with a double he would

get credit for the two bases he made himself, the three the man covered who was on first, the two the man from second passed and the single base for the player who was on third. That would give the slugger a credit of eight bases.

Not So Good for Scorers. While Meusel's system might make a hit with ball players it would not go over strong with the scorers.

"In games in southern California this winter I have noticed how the present system of basing averages fails to tell a player's true value," said Meusel.

"A hit that advances a man is more valuable than one without anyone on base. They are not worth ten cents a dozen, but imagine how the fans would clamor for a hit with the bases loaded, or with only one man on!"

BEAVERS DAMAGING IRRIGATION DISTRICT

EL PASO, March 17.—Beavers are causing much damage and a great deal of trouble to farmers who depend on irrigation, by damming up drainage ditches in the Rio Grande valley.

The reclamation service reports that the beavers are doing most damage where drainage ditches pass under irrigation ditches. The holes in the irrigation ditches flood the drainage ditches with water. The beavers cut willows and wedge them tightly in culverts, plastering the branches over with mud. It is difficult to pull the willows out and if they are pulled out at one place, within three days the beavers will have another place plastered up.

ANTI-CHICKEN THIEF LAW IS PLATFORM OF OKLAHOMA CANDIDATE

LAWTON, Okla., March 17.—John R. Wilson of Lawton, is running for the state legislature on a "fowl" platform.

If elected he pledges himself to work for passage of a state law making it a felony for one to steal chickens either in the day or night time. The present state law, Wilson explained, makes the stealing of chickens in the day time only a misdemeanor and punishable by only a small fine. Chicken thieves, Wilson said are taking advantage of this law and are doing all of their plundering in the day time nowadays.

From Nov. 1, 1921 to Jan. 1, 1922, Wilson declares thousands of dollars worth of chickens and turkeys were stolen in Comanche county. "It is to protect the farmers and their wives from the depredations of these low, degraded curs that I consented to make the race for the legislature," he said.

Wilson is engaged in the poultry business here.

SAYS INFORMATION AND EDUCATION ARE CONFUSED

WASHINGTON, March 17.—The president of the American Educational association, Dr. Charles Aubrey Eaton, says the Americans continually confuse "education" with "information."

Dr. Eaton believes the major educational problem of the day is not teaching quantities of isolated facts, but inculcating knowledge of how to think, and so to be able to realize responsibilities as citizens.

VERIFY KILLING OF YOUNG CALVES BY HUNGRY RATS

PENDLETON, March 17.—County Agent Fred Dennion received a complaint from R. C. Rasmussen, of Stanfield, that wharf rats had killed four of his calves. The assistance of the U. S. Biological Survey was requested.

It was found that the rats worked in bands, chasing the calves until they were exhausted and then gnawing the flesh about the hoofs, causing the young animals to bleed to death.

By United Press.
 M'ALESTER, Okla., March 17.—Steve Sabo, Italian miner, today was executed in the electric chair at the state penitentiary here for the murder of his niece, Sofia Sabo, 17, whom he admitted stabbing to death following an attempted assault.

The crime was committed at the home of the girl's parents near Colgate. Three days later a sheriff's posse found Sabo huddled in the deep recess of an abandoned mine. He had broken his leg in a fall down a shaft of the mine and he was in a weakened condition. Sabo was removed to the county jail at Colgate and his trial held about a month later.

 The 1920 club held its regular meeting yesterday afternoon at the Methodist church. The program was "American Music," and was arranged as follows:

"The Lure of American Music," Mrs. George Bohning; "American Musical Development," Mrs. L. H. Flewelling; "Cadman, the Typical American Composer," Mrs. C. E. Maddocks; "At Dawning" (Cadman), Mrs. R. C. McCoy, accompanied by Mrs. Vincent Wakefield; "To a Wild Rose" (McDowell), Mrs. M. R. Newham; original poem, "In Memoriam," to Texas heroes, Mrs. George Taggart.

The last number was to have been included in the Texas program given on March 2; on account of the absence of the author from that meeting it was carried over to this meeting, but the delay did not effect the excellence of the poem. In addition to the program, which was in every way a splendid one, plans were discussed for the federation meeting of Women's Federated clubs, which convenes here in April.

The German explained that he thought the Legion was an organization of all soldiers, no matter where they fought.

An old custom, which is still adhered to, is the sending of "first night" floral tributes to hospitals by Broadway actresses.
