Policy of the Allendale Oil Company

To Operate where the experience of the officers can be put

To Drill for Production in proven fields, placing half of the tools on company leases and half on contract work. The profit on the contract work will pay for all the costs of drilling the company's own wells, and leave a profit besides. Mr. Dale inaugurated this scheme in the West Texas oil fields to the best advantage for the company.

To Handle Its Production in storage and pipe lines. To Give a Written Guarantee to pay 50 per cent of the production from the first five wells in dividends until each holder of the first 250,000 shares has been paid \$1.00 a share in dividends; and thereafter to pay as large dividends as is consistently safe under the policy of the company.

To Refine Its Own Oil, making all the profit from producer to the ultimate consumer, selling finished products through its own filling stations and dealers.

To Drill twenty wildcat wells on large acreage in twenty differest fields, thereby overcoming the laws of average. These plans are well under way and can be drilled at no cost to the company. To Employ only experienced, competent men that will always

protect and look after the interests of the company. The officers of the company know who they are, where they are, and have learned how to handle and keep them. The acquaintance of the officers in the field will be one of the company's biggest assets. To Have Sufficient Capital Authorized to enable the company to pay dividends from the production and earnings, and to take care of the expanding, growing business from the sales of stock. In other words, by conservative and progressive methods to build up a great business enterprise ranking second to none, pay-ing as large dividends as the production and earnings of the com-

Martin So Weak **Could Hardly** Stand Up

"I simply cannot find words to express my appreciation for the benefits I have received from Orgatone treatment," said C. A. Martin, Fort Worth, Texas, in relating his experience with this treatment to the Orgatone representative, a few days ago. Mr. Martin is one of the best known carpenters and builders in that section.

"About two years ago," continued Mr. Martin; "my entire system seemed to become disorganized and I started going down hill and there wasn't a day that I felt like myself. I suffered severely with nervousness and had many bad fails in my line of work on account of same. My stomach was badly out of order, which caused me a great deal of misery and inconvenience and I suffered from constipation continually. My body felt full of pain all over and I couldn't get any rest or sound sleep at all. I would almost have to force myself to get up in the morning. I just kept getting worse until I was all run down and sick from my head to my feet and no kind of medicine seemed to do me a single bit of good. Finally I got so weak and irritable and so nervous and sick I couldn't go at all and was down in bed part of the time, unable

"Honestly, since I've been taking Orgatone I feel like a new man. All that weak, run down condition has left me and I actually feel like I could work for fourteen hours without get-ting tired. My stomach trouble and constipation have been relieved and all the had feelings caused by them are gone. You can tell the world that this new medicine has done all of this

Orgatone is not a so-called patent or secret remedy, but a new scientific treatment absolutely free from alcohol in any form and is sold in Ranger by the Ranger Drug Company exclu-sively under the personal direction of a special Orgatone representative.

THE CLEAN-UP.

The announcement of the city manager and the chief of police that Ranger will be cleaned up is one that will be received with approval by the majority of good Rangerites. Decent citizens do not want to live in a wide-

If, as some believe, Ranger will suffer from the immediate effects of the crusade against open gambling and vice of all sorts, it will be a temporary suffering well worth the gain. The city will lose the patronage of an undesirable and wholly transient class. It will lose the casual business they and their followers bring. It will lose an unsavory name. It will lose = money-gatherers who never make an investment in the city which is their temporary residence. It will lose a reputation which would keep honest home-makers away.

DR. ANNA EKOLA

A Driller who has spent around \$900 treating Rheumatism—a trip to Hot Springs and a lot of unnecessary drugs, is finally on the right track, having his Broken Arches treated. If Rheumatism in the feet and leg muscles was more often correctly diagnosed, in nine times out of ten we would find arch trouble.

One of the first symptoms of the arch breaking down is a feeling of extreme weariness when one is on the feet any length of time. They become tired and ache. They smart

and burn. There is pain in the arch at the bottom of heel, around the ankle, and in the muscles of the leg-In cases where one of the heads of the metatarsal bones has been dislocated you sometimes feel a sharp twinging pain often extending up through the calf, knee, thigh, hip, back and at times as far as the back of the neck. These pains are frequently taken for Rheumatism. Metal arch supports should not be worn unless adjusted to fit each foot, as they push bones out of line and weaken the foot. Wizard All-Leather Arch Builder is the only arch builder that can be adjusted to each foot; is light and flexible and will build up the arch by allowing muscular action.

It is a fact that any physician can easily verify
—by looking over his Case Records—that the majority of women patients who come to him are more or less run down and devitalized, and that his remedies frequently fail to produce permanent and satisfactory results-unless they are supported and supplemented by a course of tonic and systematic strengthening treatment for the whole system, like "REOLO.

Young girls frequently need a tonic treatment during the period of delayed development, or maturity, when the first symptoms of anaemia, or nervous and digestive disorders develop.

A little later, when motherhood, both prospective and present arrives, a strength builder is needed to overcome the debility and maintain the vitality during this wonderful period of woman's existence. A strength renewer is especially needed where motherhood has

weakened the resistive powers or where prolonged nursing has made too great a demand upon the mother's system.

Later, during the most critical period of a woman's life—"the change of life"—various serious disturbances are apt to occur; neurasthenia and even insanity manifest themselves.

The weakest point of the body is where the breakdown is most apt to occur, and it is only by the aid of a strengthening and revitalizing tonic and blood builder like "REOLO" that the resistance can be maintained, and this danger-ous period bridged over successfully.

Later on, when old age approaches and there is an ever increasing lack of vitality - the exhausted tissue must be given renewed life and activity to enable the body to utilize to the utmost, whatever vitality and energy it still retains.

Restores Vigor and Vitality

It has remarkable tonic and reconstructive properties. It improves the appetite, digestion and assimilation; increases the red blood cells and hemoglobin of the blood - tones up the heart and nervous system—and gives renewed

strength and vitality. By special arrangement with the Dr. A. L.

Reusing Laboratories, Al Ohio, we have been appointed Licensees for the distribution of "REOLO"—direct from the Laboratories, certified by Dr. Reusing and positively guaranteed to give satisfactory results or we will gladly refund your money. Large box of REOLO (100 tablets) costs only \$1.00.

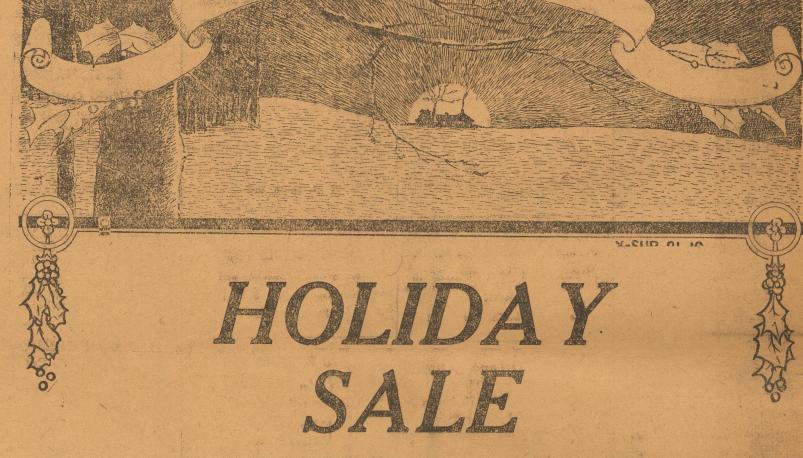

Mothers Need Reolo to Keep Them Strong
