## UNDERDOG MAVERICKS TRIM RANGER BULLDOGS IN 7-0 GAME

### NO EXCUSES ARE NECESSARY IN RANGER DEFEAT

Mavericks Just Simply Outplayed, Outfought and Outscored Bulldogs.

By GUS COLEMAN, Sports Editor, Ranger Times. Excuses don't go. Therefore there will be no excuse offered for the Ranger Bulldogs having gone down in defeat before the terrific battling of the Eastland Mavericks. The Mavericks outplayed, outfought, and outscored the Bulldogs and the valiant work of Bull Johnson, Osborne, and G. C. Smith is not by any means to be made light of. They went into the game as underdogs and came out on the long end of the score and their lot should be one of praise and not of criticism.

The Bulldogs went in as favorites and came out—well, you name it—and thereby hangs a tale, which we shall proceed to tell you and if you don't like it you can write us a letter about it.

We wish every one of you guys that lost six bits had lost \$600 and the ones that lost a hundred bucks had lost a cool thousand.

Without even attempting to distract one iota from the valiant fighting spirit of the Eastland Mavericks, for they did get out there and, without a single substitution in the whole game, played the Bulldogs off their feet, still the Bulldogs' supporters were the cause of the loss and not necessarily the Bulldogs.

Whenever the curbstone coaches get out and tell players what a cinch they have and what an easy game it will be and how they have had sledging getting a few bulls placed at 21-points odds they ought to lose every time they bet—which they did.

Of course, the Bulldogs have been torn up the last week because they did not know who would be eligible and so forth. But they saw the listless fight put up against the Breckenridge Breckaroos by the Mavericks and naturally they thought that the game was in a sack and all they had to do was to put it on their shoulder and carry it off. They were surprised indeed when Bull Johnson toted the pill through and around and over and under and passed them to death.

Homer Short of the Bulldogs made (Continued on page 2)

### UNITED STATES CONCILIATORY REPLY IS READY

Government Promises To Re-examine for Possible Tariff Revision.

By United Press. WASHINGTON, Oct. 22.—A conciliatory reply to the French note in the Paris discrimination dispute was completed by the state department today. Delivery of the note in Paris will probably be made late today or Monday.

The note pledges the United States government to re-examine for possible revision certain American tariff rates and sanitary embargoes protested by France as prohibitory.

But it points out that this government cannot under the law guarantee in advance as desired by France, reduction of the protested rates and lifting of the embargoes.

### French Aviators Contemplating Trip to New York

By United Press. BUENOS AIRES, Argentina, Oct. 22.—Dieudonné Costes and Lieutenant Joseph LeBrix, French aviators who made the first mainland-to-mainland flight across the south Atlantic, today were contemplating a flight from Lima Peru, to New York.

Costes told the United Press he and LeBrix were preparing to cross the Andes to Valparaiso, Chile, and thence on to Lima, where a takeoff might be made.

### PLLOT TO ASSASSINATE KING IS UNCOVERED

VIENNA, Oct. 22.—An unconfirmed report from Belgrade today asserted that the foreign ministry claimed to have discovered a plot to assassinate King Alexander, government officials and Jugo Slav diplomats abroad.

### As Fall and Sinclair Come to Court

Figures seen at the Fall-Sinclair trial in the District of Columbia supreme court are pictured here. In the group at the upper left are left to right: Martin W. Littleton, New York lawyer; Mrs. Phoebe Sinclair, gray-haired mother of Sinclair and Sinclair himself. Upper right is former Secretary Fall. At the lower left are the two bobbed jurors tentatively chosen. They are Miss Bernice K. Heaton left, telephone exchange instructor, and Miss Annella L. Bailey, who works for a piano company. At the lower right is Attorney William J. Leahy, representing Fall.

### Secretary Odessa Chamber Commerce Jubilee Visitor

J. O. (Jack) Eldridge, secretary of the Odessa chamber of commerce was one of the most interested visitors to the Ranger Home Coming Oil Jubilee. Jack was at the Jubilee to learn as much as possible about how events of this kind are handled, for Odessa is rapidly becoming one of the leading oil towns of West Texas and some day the citizens of that one time cow town may be called on to throw an entertainment for the oil fraternity.

Eldridge paid a mighty high compliment to the manner in which the Jubilee was conducted. He said it was just a smaller edition of the affair that was held in Tulsa last month.

Jack Eldridge knows the oil men of the southwest for he is a native of Oklahoma and has spent most of his life in Tulsa and in Fort Worth where oil men congregate.

Of course he didn't fail to put in a good word for his town and the many oil companies that are making it headquarters.

### Former Rangerite In Rumania Hears Of Ranger Jubilee

Mr. Harris a representative of the Western World was in Ranger Saturday attending the Jubilee and incidentally gathering up data and photographs for a story of the home coming in that publication.

Mr. Harris said that the Western World, which is published in Fort Worth, had a letter from a man in far away Rumania, who stated that he had heard there was to be some kind of celebration in Ranger and that as he used to live here, he'd like to read about it in the Western World.

### More Pickets Are Arrested At Colorado Mines

WALSBURG, Colo., Oct. 22.—Armed guards stopped I. W. W. pickets today as they approached the ideal mine, regarded as the stronghold of the coal operators.

Fifty-two pickets, 16 of whom were women, were arrested and brought to district court here.

The mine owned by the Colorado Iron & Fuel company was operating with its regular force of men today despite the threat of the I. W. W. to close it within two days after their leaders had called the strike.

### PAYMASTER ROBBED BY MASKED BANDITS

PHILADELPHIA, Pa., Oct. 22.—Three masked bandits, jumping from an automobile, attacked William Hanson, 51, a paymaster for the Weiss Cab company, as he entered the office of the plant today, shot him in the shoulder and escaped with a satchel containing a \$2,200 payroll.

### BONDS FOR NEW COURT HOUSE SOLD FOR PREMIUM OF \$8,405

While the Ranger Home Coming Jubilee was at its height Saturday afternoon the county commissioners' court met in Eastland and made history for Eastland county, for they sold the \$300,000 court house bonds to Brown-Cramer company.

However, the real kernel of this story is that the \$300,000 worth of bonds, were sold at par and accrued interest and for a premium of \$8,405.

This deal has been pending for several days but was not consummated until Saturday.

V. V. Cooper, county commissioner, stated Saturday night that the architects, Lange and Whitsell of Dallas, would submit their plans and specifications Monday to the commissioners' court and on final acceptance of these plans, the contract for Eastland county's new court house would be let at once.

### OLDEN CHILD STRUCK BY CAR LEG IS BROKEN

As he was re-crossing the street where he had been to a grocery store to get some candy, Eugene Norton, 5-year-old son of Mr. and Mrs. Jeff Norton of Olden, was struck by an automobile and sustained a broken leg and cuts and bruises about the head late Saturday afternoon.

T. R. Sudderth, district manager for the Murray Tool & Supply company of Abilene, was driving the car that struck the child. He was traveling east. Evidently his bumper struck the child and threw him against the car. The glass in the light on the car was broken out.

"I did not see the child and did not realize I struck anything until I heard the glass of my light break. I stopped immediately. Someone got to the child before I did and as they were picking him up I saw that he was still holding to a piece of candy of some kind," Mr. Sudderth said.

The child was placed in Mr. Sudderth's car and brought to a sanitarium in Eastland where X-ray examinations showed that there was no fracture of the skull. His right leg was broken above the knee. Physicians say that barring complications the child will recover.

About three weeks ago Mr. and Mrs. Norton, parents of Eugene, were injured when their car was struck by another car and knocked into a ditch at the side of the road not so very far from where Eugene was injured.

### FIRE DESTROYS RANGER HOME SATURDAY NIGHT

Fire of undetermined origin partially destroyed the residence of D. C. Jordan, located on South Hodges street, about 8 o'clock Saturday night.

The house is the property of Mrs. Sabina Tibbels and is located next door to her home.

Mr. Jordan and his family were away from home at the time of the fire and could not say as to the cause of the blaze that originated in the roof of the frame house.

There was no insurance on the house but the furniture belonging to Mr. Jordan was covered.

### Jury Commission Asked In Sanity Trial Millican

AUSTIN, Oct. 22.—A mandamus petition was filed here at 11 o'clock with the supreme court to compel Judge Jeffrey to appoint jury commissioners from which a jury would be drawn to try A. V. Millican on his plea of insanity.

Judge Hawkins, council for Millican said the court promised to give it immediate consideration.

The papers had already gone to the consultation room of the judge, he said.

Contention is made in the documents that Millican has a legal right to be tried by a jury regularly drawn by the jury commission and not picked by the sheriff.

The writ prepared asked that trial be halted and then proceed with a jury selection by the commissioner.

Justices of the supreme court went to lunch without taking action on the plea and indications were that motion might go over till Monday before court acts.

This was gleaned from the fact that court members have engagement for 3 o'clock this afternoon and it is intimated they would not act before that time.

### Representative Brown Is Before Text Book Board

AUSTIN, Oct. 22.—Representative H. T. Brown of Jacksonvill was before the state text-book commission today to start an inquiry ordered yesterday.

Brown was chairman of the house committee on education and has been active as a candidate for state superintendent in opposition to Marrs.

Newspaper men were excluded and Brown was left alone with the commission, presumably summoned there. Representative Brown remained with the commission only about 10 minutes. He was asked if he had been employed by a certain book company and answered that he is not in the employ of that or any other book company.

A number of questions were asked to trace any possible connection with the book company and Brown emphatically said he had no such connection.

### Was He, Or Not?

"My God, was I so drunk I missed all that," a Ranger man exclaimed Saturday morning when he picked up the Ranger Times and read the headlines "High Jackers Shot John Barnes," "Three Men Fight Duel, All Die," and other lurid headlines of the 1919-1921 period, which were put out by the Ranger Times in its special Friday morning.

### HORNED FROGS HOLD AGGIES TO SCORELESS TIE

Mathews, T. C. U. End Was Outstanding Individual Player of Game.

By United Press. FORT WORTH, Oct. 22.—Displaying the most stubborn defense known this season, the Texas Christian university Frogs held Texas A. & M. Aggies to a scoreless tie before 12,000 fans in the Horned Frog stadium here this afternoon.

The Horned Frogs resorted to a strictly defensive game at the start, taking the offense only on breaks. In the first few minutes of play the Frogs recovered an Aggie fumble and rushed the ball to the Aggies' 15-yard line. They were unable to make the necessary 18 yards and the Aggies were never in danger again until near the end of the game.

A. & M. had the ball on the T. C. U. one-yard line in the third quarter but four plunges were resisted by Rags Mathews, who was the outstanding individual player of the clash.

DALLAS, Oct. 22.—Out of the 41 state fairs Texas has held, George Reeves of Mineola, Texas, has missed one.

Reeves, a farmer, has for 40 years taken an active part in seeing that his county has an exhibit at the fair. Each year he makes the trip to Dallas to see his county's exhibit.

### TWO-DAY JUBILEE COMES TO BRILLIANT CLOSE

Visitors Are Free in Their Praise of Ranger As Gracious Host

Ranger's Home Coming Oil Jubilee, came to a brilliant end along about midnight Saturday night. There may have been a few ones who stayed later, but most everybody went home when the orchestras at the various dances tuned in on "Home Sweet Home."

Ranger people and their guests were tired and happy just as are kiddies who have had a birthday party, licked their lollipops sipped their pink lemonade and bursted their toy balloons. They had got what they wanted—a real genuine home coming—the gang had come back, and the gang was pleased with the hospitality accorded during the two days.

It took ten years to get ready for this party. It maybe another ten years before Ranger stages another home coming but the memory of this one will only grow mellow and sweeter as the years go by and it looks like it might become a ten year celebration.

Down town in Ranger Saturday night streets were thronged with people putting in the last hours of the jubilee as gayly as ever. While hundreds went to Lillard field to see the vaudeville, other hundreds made dances at the Elks and Legion Hall, while still more hundreds held high carnival on the down town streets.

The vaudeville brought to Ranger by the entertainment committee, was a great treat. Two shows were given. One in the afternoon and one Saturday evening, both on the boxing platform at Lillard field. There were three fine acts. The La Lettios, a man and woman did some hair raising acrobatic stunts, not seen only in real vaudeville shows. Their act was splendid.

Six Russian dancers, two men and four girls, clad in picturesque Russian costumes and Russian boots did some real Russian dances. These dancers are imported from their own native land, to which they will soon return. The absence of music at the afternoon performance detracted from this act, but the Rainbow orchestra made up for that deficiency in the evening.

"Raffles" known from coast to coast was the third to appear on the program. This man, who can slip out of a straight jacket in thirty seconds, did that, opened a safe in almost as quick time and did several other entertaining stunts.

Saturday was a busy day and the attendance held up pretty well with the opening day as there were new people coming in all the time while some of Friday's guests had to depart early Friday evening. For instance the town lost 400 visitors when the Abilene special pulled out with its tired but radiant crowd.

The free aerial circus of the morning offered a varied entertainment

### UNVEILING OF BRONZE TABLET IS IMPRESSIVE

Memorial Mark Site of Discovery Well of Eastland County Fields.

With fitting ceremonies the bronze tablet erected to perpetuate the site of the discovery well, John McCleskey No. 1, one mile southwest of Ranger, was unveiled on Saturday morning. W. K. Gordon of Fort Worth was the master of ceremonies, this place being accorded him on account of his connection with the bringing in of the first oil well in Eastland county.

Little Frances Gholson, daughter of John D. Gholson and granddaughter of John M. Gholson, general chairman of the Ranger Home Coming Oil Jubilee, pulled the silver cord that held the well, and the bronze memorial to the pioneer well, was unveiled for the present and those to come to read and to reverse.

Albright of the Pathe News and Beckerman of the Paramount company, were present with their moving picture machine and "shot" the scene.

Officials present were John M. Gholson, Frank Champion, driller who brought in the well and several others who had a hand in the matter of the bringing in of the well.

On the bronze tablet is inscribed the following: "This tablet erected October 21, 1927, marking the site of the discovery oil well of Eastland county and the North Texas Fields, known as the J. H. McCleskey No. 1, spudded in July 2, 1917, completed October 21, 1917. Initial production 1,700 barrels. Land owner, J. H. McCleskey; lease owners, Texas Pacific Coal and Oil company; W. K. Gordon, vice president and general manager. Drilling contractor Warren Wagner; driller in charge, J. F. Champion; leases blocked by Cull Moorman, T. W. Duncan, Jack Phillips, S. J. Whiston and John M. Gholson; acres secured 35,000."

Reeves, a farmer, has for 40 years taken an active part in seeing that his county has an exhibit at the fair. Each year he makes the trip to Dallas to see his county's exhibit.

DALLAS, Oct. 22.—Out of the 41 state fairs Texas has held, George Reeves of Mineola, Texas, has missed one.

Reeves, a farmer, has for 40 years taken an active part in seeing that his county has an exhibit at the fair. Each year he makes the trip to Dallas to see his county's exhibit.

### CONFESSION PRINCIPAL EVIDENCE IN CASE

Defendant Unmoved By Verdict But Wife Of Few Months Weeps

By United Press. ANSON, Texas, Oct. 22.—A jury in district court here this afternoon returned a 99-year sentence against Lloyd Conatser, charged with the murder of Sheriff Bob Smith and his deputy, Jake Owens, of Fisher county.

The verdict was returned after one hour and 10 minutes deliberation.

Conatser, farmhand, appeared unmoved by the verdict. His 19-year-old bride of a few months sat by his side and wept when the verdict was read but did not break down.

The prosecution submitted a confession signed by Conatser as its chief evidence.

On the witness stand Conatser charged that the confession was obtained by threats and abuse.

### Roman Catholic Arch Bishop Is Dead In Ireland

CARLINGFORD, Ireland, Oct. 22. Cardinal Patrick O'Donnell, Roman Catholic archbishop of Armagh, died today.

He was born in 1855 and was created a cardinal in 1925.

Cardinal O'Donnell became the youngest bishop in the world when in 1888 he was appointed bishop of Raphoe at which post he remained until he was appointed titular archbishop of Attalia, and coadjutor to Cardinal Logue in 1922.

### HOSPITALS ARE FILLED WITH CRASH VICTIMS

Bleachers Collapse at Richmond and Cheers Are Changed to Groans.

RICHMOND, Va., Oct. 22.—Forty-eight persons were injured sufficiently to be taken to the hospital and a number estimated from 15 to 25 were less seriously hurt when a section of wooden bleachers collapsed at a football game today, throwing 200 persons on the ground. About a dozen of the more seriously injured remained in hospitals tonight.

The crash came at a high point in the first quarter of the Maryland-Virginia Military institute game, which Maryland won 10 to 6 after a half hour's delay for ambulances to remove the injured.

Barnes, a C. M. I. back, made a spectacular run and supporters of the cadet team rose cheering in the wooden section mostly reserved for Maryland rooters. Their cheers turned to screams as the rafters gave way, plunging men and women to the ground in a confused mass.

One young woman was suspended from a rafter when the stand went down and was rescued with difficulty.

### Jugo Slavia And Greece Moving For Protection

ATHENS, Oct. 22.—Greek and Jugo Slavian authorities along frontiers of both countries have taken concerted action against the Bulgarian bandits.

The government has ordered the Greek minister holidaying in Greece to return to his post in Belgrade next week as new instructions will be issued regarding the border problems.

**RANGER JUBILEE COMES TO BRILLIANT CLOSE**  
(Continued from page one)  
which was lucky as Ranger has not one place large enough to house the thousands who attended the home coming.

Ranger's luck was in the ascendant. As far as can be learned, the home coming passed off without an accident, which seems a little short of miraculous.

It was a good humored crowd throughout—feared by the spirit which prompted the event.

The program as given out officially was carried out in its entirety. The only changes being made were those made necessary by the non-arrival of some of the scheduled speakers.

Ranger's jubilee headquarters was deserted late Saturday afternoon, like the woman referred to in the bible "she hath done what she could"—there was nothing more to do.

Those hands and minds that for the last four months have lived, talked and thought jubilee could lay aside all worries and fears and not go over successfully for fear the guests might not come to the party—for fear there would not be enough places for them to sleep—for fear they might not get enough to eat—and a hundred other fears—they could not do a worse, for the thing was almost at a close.

The Ranger Home Coming Oil Jubilee has ended. The guests like Arabs have folded their tents and silently slipped away—but they took with them something from this home coming, something they did not go bringing here. That priceless gift was a memory of Ranger as it is today, a home town that wanted them back and was willing to pay the price to have them for its guests once more—even though for just two days and two nights, the unconquerable spirit of a town.

**MRS. GRAYSON MAKES SECOND START, FAILS**  
Overloaded Plane Forced to Land In Sea, Tomorrow Set For Next Hop.

By United Press.  
OLD ORCHARD, Maine, Oct. 22.—Undaunted by a second false start, Mrs. Frances Wilson Grayson prepared to make a new attempt tomorrow morning to get away on her flight to Copenhagen.

Just 15 minutes after she and two companions took off from the beach here this morning, they were forced to land in the water 100 yards off shore. The giant plane slightly overloaded, was unable to get altitude in the face of stiff headwinds.

She was ready for a fresh start this afternoon, the real estate woman declared as she alighted from the plane, "but we're anxious to take off at the beginning of the day and hence decided to postpone the start until tomorrow."

**Interscholastic Committee Uses Axe At Meeting**  
At a meeting of representatives of the class A. high schools that comprise the Oil Belt district of the Interscholastic League held in Eastland Saturday, the axe fell on several players in the schools and investigation ordered on several more.

Two records that have had rather doubtful shades hanging over them were cleared up and Robert Bryant of San Angelo and George "Eall" Johnson, bulwark of the Eastland high school team and a transfer from Stephenville high school were declared eligible to participate in all Class A. games.

Johnson had trouble getting his transfer altogether correct but finally received a transfer that cleared up his case.

Ranger players also were brought before the committee. Victor Short, Homer Short and Seth Hubbard were declared ineligible on the basis of over age until evidence is placed in the hands of the committee that will prove their age is below the limit. This will mean that unless their records are cleared up before the next conference game they will not be allowed to participate.

Layne Britton, stellar player of the Abilene Eagles, was declared ineligible because of the failure to make his grades at the close of last year's session. The other player that was declared ineligible without a clause was Ernest Jobs of Cisco who went out on the four year participation rule.

Another Abilene player was declared ineligible until his participation record can be cleared and brought before the committee who will act upon the case along with the others.

**Many Thousands At Big Barbecue Saturday Noon**  
By the time that Mayor John Thurman, garbed in regulation clothes which were covered by an apron large enough to grace the form of a befo' the war colored mammy, and mounted on the judges stand at Lillard Field announced through a red megaphone that "chuck" was ready, thousands were there to rush in the gate.

The barbecue, which had been cooking since Friday afternoon as it was placed in the long pits over red hot coals during the ball game, was part of the "free goods" that the people of Ranger showered on its visitors and it was done to a queen's taste.

Inside of an enclosed area tables were decked with tubs of barbecued meat, pickles, bread, potato chips and onions and these were presided over by Ranger citizens who helped the plates of the passing crowds, cafeteria style.

Further down the line Boy Scouts presided over the contents of the big coffee pot, and when served here, the crowds filed out of the field and ate picnic style, in their cars, on the ground or in the grandstand.

The meat was prepared under the direction of Mayor John Thurman who is a super chef in that line, and he was assisted by a man who runs a pretty close second to his honor, the mayor, when it comes to turning a piece of beef.

An account of the number served was not kept but it was clear to see that there were several thousands.

**Eastland County School Teachers Close Institute**  
R. D. Green, superintendent of schools at Abilene and president of the Texas State Teachers' association, and Judge N. M. Rosenquest, district governor of Texas Lions, were the principal speakers at the Eastland county teachers' institute in Eastland Saturday.

The program opened at 9 o'clock with a scripture reading and prayer by P. W. Walkhall, pastor of the First Christian church of Eastland. Following this the high school glee club of Eastland, directed by Mrs. Joseph B. Leonard, rendered a number of songs. Miss Wilda Drago, noted violinist of Eastland, gave several numbers.

Among those having places on Saturday's program were, R. F. Holloway, superintendent Ranger schools; B. E. McClammy, superintendent Gorman schools; Y. Y. Youngblood, superintendent Cisco schools; A. M. Limmer, superintendent of Desdemona schools; W. S. Bruce, Randolph College, Cisco; W. Z. Bates, superintendent Eastland schools; R. M. Cantrell, superintendent Kising Star schools; Lewis Smith, superintendent Olden schools.

Miss Beulah Spear, Eastland county school superintendent, conducted the institute.

**Baylor Loses Valliantly To Centenary, 9-6**  
By United Press.  
WACO, Oct. 22.—A rejuvenated Baylor university football team fought a valiant battle with the strong Centenary college of Shreveport here this afternoon but lost 9 to 6.

The Bears sprung a surprise in the opening minutes of the play by launching a vicious offense that completely upset the Centenians.

Centenary rallied however and returned the ball to Baylor territory, where Jennings drop-kicked goal for three points. A series of plunges and off-tackle plays enabled Baylor to work the ball to Centenary's eighty-yard line in the second period. Washam, Baylor quarterback, went around right end for the touchdown. A 15-yard pass, Hanna to Smith, in the closing period provided the spectacular moment of the game.

Smith made a beautiful catch and raced 65 yards down the field for a touchdown.

**Longhorns Snow Owls Under By 27 to 0 Score**  
By United Press.  
AUSTIN, Oct. 22.—A brilliant aerial attack coupled with an unleashing of powerful backfield material in the last quarter of the Texas-Rice game, snowed the Rice Owls under a 27 to 0 count today. Until the last period of the game Texas was able to make only one touchdown, this in the first quarter while the Owls were matching the steers in the passing end of the affray.

Practically all the Texas touchdowns were made after running the ball down the field on passes.

President Coolidge got a new pair of glasses. Probably to read the suggestions of those who are willing to advise the administration what to do with that four billion surplus.

**Ranger Junior College Plays Weatherford**  
The Ranger Junior College eleven has not overjoyed a little bit over their defeat by Randolph Thursday, though the Badgers only succeeded in putting over one touchdown. The Ranger boys were highly touted with their heavy-charging line and their fast and weighty backfield and expected to lift the Rangers from their feet by the tune of 40 to 6. But over-confidence has lost many a game. They were awed by the fighting spirit which the light Ranger college team displayed. They were even more surprised to see the Rangers thrice threaten their goal only to fail by mere inches.

The local colleges are undergoing their first year for Ranger Junior College and while they are a light team, Ranger fans who saw the game know that the old fight is with them, win, lose or draw.

So far, only one more game has been scheduled for the Rangers at home which will be with the powerful Junior A. & M. squad from Arlington. This has been undefeated so far. Friday it succeeded in downing Weatherford College in the tune of 13 to 0. This conference game will be played on November 17.

The game that the Rangers have on the brain at present is with Weatherford. While the strength of the Weatherford eleven has always ranked highly, the Rangers will have to do some strenuous training in the next few days to meet them in tip-top condition.

Ranger fans who journey over with the Rangers will probably have an opportunity to see the Grubbs brothers play against one another at the end positions as one attends college at Weatherford and the other at the local college.

**Big Dam Loboes Beat Bobcats In One Sided Game**  
The Big Dam Loboes of Cisco found it easy going Saturday and easily defeated the San Angelo Bobcats 34 to 0 in the first conference game played on the Cisco gridiron.

The Bobcats started out with a rush in the opening quarter, making one first down, but after that quarter they were at the mercy of the Loboes.

The Loboes scored three touchdowns in the first half and kicked three goals for the extra point. The other two touchdowns and the extra point was made in the last half.

Keyes, quarter for the Loboes, starred on the offense, making several long runs, and scoring three of the touchdowns.

Little, fleetly half, made a thrilling sixty yard run through a broken field, for a touchdown but the ball was called back on a technicality.

A good crowd attended the game.

**CHURCHES**  
Regular services will be held in all the churches of the city today.

The commission has been in session two weeks, hearing arguments on the various texts offered in competition.

**MUSTANGS BEAT MISSOURI 32-9 IN DALLAS GAME**  
Aerial Attack By Methodists Bewilders Gwen Henry's Missouri Boys.

By United Press.  
FAIR PARK STADIUM, DALLAS, Oct. 22.—Under a warm southern sun the Missouri University football team wilted this afternoon and southern Methodist University clashed through a 32 to 9 victory, the biggest upset of the mid-west.

Missouri was outclassed in every department of the game and in the final period the Methodists ran in a new team of second string men who held the Missouri team without difficulty.

Coach Ray Morrison's well drilled Mustangs launched an aerial attack at the opening moments of the game which took the ball into Missouri territory.

Gerald Mann, diminutive S. M. U. quarter back crashed through the heavy and sweating Missouri line for a 35 yard run to a touchdown. Again in the second period the Mustangs flashed a series of bewildering off tackle plays interspersed with several long passes. The pass combination Man to Swanson dealt misery to the heavy Missouri team. A 45 yard pass completed by this pair, placed the ball on Missouri's four yard line.

Remund Hume, veteran back plunged over for a touchdown. A few moments later another spectacular pass took the ball in scoring distance and Hume again plunged through the line for a touchdown.

Slamank, Missouri quarter, passed the goal line to Clarke for Missouri's only touchdown of the day. Missouri's passes which ended disastrously when Schaeferdel, Mustang tackle, intercepted a pass and raced 30 yards for a touchdown.

The Methodists unleashed a series of dazzling end runs by Hume in the third period which took the ball down the field to Missouri's 6 yard line, where Love, full back, plunged over for the only touchdown of the period. The rapidly tiring Missouri team resorted to line plays in the final quarter but were unable to make headway.

S. M. U. exact in second team to finish the game.

A fumble back of the line by S. M. U. netted Missouri a safety just before the game ended.

**Football Results**  
Abilene—Simmons college 7, West Texas Teachers 0.  
Nacogdoches—McMurry 0, Stephen F. Austin 0.  
Bloomington—Notre Dame 19, Indiana 6.  
New Orleans—Loyola 28, Southwestern 0.  
Columbus—Georgia 33, Auburn 3.  
Nashville—Vanderbilt 32, Tulsa 0.  
Atlanta—Georgia Tech 13, North Carolina 0.  
Newhaven—Yale 10, Army 6.  
Annapolis—Navy 32, Duke 6.

**Dallas Man Buys Ranger Building And Loan Shares**  
J. H. P. Jones, secretary-treasurer of the Ranger Building and Loan association thought that he had all he could stand in the way of happiness when the jubilee went over so successfully but he found he could stand a little bit more when he opened a letter Saturday morning and found in it a check for \$1,000 signed by I. Jalonick of the Republic Insurance company of Dallas.

Mr. Jalonick sent a letter along with the check and asked that ten shares of the Ranger Building and Loan investment shares stock be sent to him at once.

Mr. Jalonick is president of the Republic Insurance company of Dallas, the largest fire insurance company in Texas, and his company already carries \$5,000 worth of fully paid stock in the Ranger Building and Loan association and Mr. Jalonick is now adding another \$1,000 worth to his former \$1,500 purchase, making a total of \$7,500 worth of stock owned by himself and company.

Now Mr. Jones thinks that the wide publicity given the Ranger Jubilee and the spirit that prompted the town to put on the big home coming is behind the purchase and is the first example of a town casting its bread upon the waters.

**Commission May Reject All Bids For School Books**  
AUSTIN, Oct. 22.—It was reliably reported that the state text book commission would reject all bids and that announcement to that effect will be made this afternoon.

When commission adjourned at 12:15 all text book representatives were told to report at 1:30 when an announcement would be made of committee's action.

It is known that Dan Moody, has taken position that prices too high and bids should be rejected.

It is presumed his views have been adopted by the commission as a whole.

**Gripings**  
By GUS

We jubiled around here yesterday and had to get somebody else to fill up the Grip column for us. It was probably better than we could have done at that. Pat Coughlin has not made his report yet, therefore we are shy on subject matter today.

Our main gripe is elsewhere in the paper. It consists of a resume of the Bulldog defeat. If you don't like it you can write us a letter. We'll put it in print if you'll sign it and not use profanity.

Eddie Anderson of the Abilene Reporter didn't get his gripe in Friday's paper. Eddie didn't have much to gripe about, he was so darn glad to get to spend a day in Ranger that you couldn't see his face for the smile.

Le-Ray Mentzing of the Star-Telegram, seemed to have a fair time yesterday. He filled up an barbecue at Chestnut-Smith and then bumped around until the football game. We tried to get him a date for the dance last night. We had the date but Le-Ray backed out because he couldn't dance. That's a fine alibi for a Fort Worth newspaperman, don't you think?

You wouldn't think Curtis Hancock was grandpa, would you? He was telling us about his grandchildren and everything yesterday.

John Chamberlain, ex-mayor of East St. Louis and at present secretary of the Mineral Wells Chamber of Commerce, was as busy yesterday as a hen with a dozen chickens. The only political activities we were ever mixed in was in getting John to accept that job at Mineral Wells. They wouldn't take anything for him now.

L. Carlson of the Star-Telegram, was here too, and participated in the festivities, as well as John Naylor. Naylor stayed over Saturday and seemed to be right in the middle of things.

Howard Hampton of the Dallas News was here and wired in a long story of the jubilee that appeared on the front page Saturday morning. Gosh ding, we wish we could make the front page some time.

"Pete" Peterson—used to work for John Thurman in the old People's State Bank, was here. Felt just as much at home as if he had never been away.

Boyce House was all over town and saw some of practically everything. Boyce ate barbecue at Chestnut-Smith until we thought he would pop.

Pop Boone, of the Fort Worth Press, was here. The last time Pop

a few gains. Garland Hinman made the Bulldogs were Garland Hinman and Mitchell and there's no telling what the score would have been had it not been for these two boys and a few penalties.

Next Friday the Bulldogs go to Abilene to meet the high school team there in their second conference game of the season. If they don't show any more fight than they did against the Mavericks—you finish the sentence.

But—no. You curbstone coaches have learned a lesson. You'll keep your mouth shut and let Cherry and Davis coach the team. If you don't it will be several times as bad a slaughter as the Maverick game, only not quite so humiliating.

Now, let us voice the sentiment of most of the fans. We got beat bad. Seventeen first downs to three. But Eastland is our neighbor and the only thing we have any great rivalry over is the supremacy of the football teams. We'd rather be beaten by Eastland than any town in the district, if we have to be beaten, and if they can put out a team that will win the district championship, we'll get right in there and root for them just like they did us last year and if some means of getting by the rule book can be established we might even go so far as to loan them a player or so. No foolin'.

Coach Pena said Friday: "I would like to start Jones, for he is in good shape, but the rest of the team is in a crippled condition and I have to have SOMEBODY to keep in reserve."

His team was beaten before the game started but wouldn't admit it. You know who won. This last remark for the personal satisfaction of the writer hereof, who still thinks he is a smart sport writer and has the evidence on record to prove it.

**Mustangs Beat Gripings**  
The Mustangs beat the Gripings 32-9 in a game played at Fair Park Stadium in Dallas. The Mustangs' aerial attack was the key to their victory, with several touchdowns scored through the heavy Missouri line.

**Big Dam Loboes Beat Bobcats In One Sided Game**  
The Big Dam Loboes of Cisco found it easy going Saturday and easily defeated the San Angelo Bobcats 34 to 0 in the first conference game played on the Cisco gridiron.

**MUSTANGS BEAT MISSOURI 32-9 IN DALLAS GAME**  
Aerial Attack By Methodists Bewilders Gwen Henry's Missouri Boys.

By United Press.  
FAIR PARK STADIUM, DALLAS, Oct. 22.—Under a warm southern sun the Missouri University football team wilted this afternoon and southern Methodist University clashed through a 32 to 9 victory, the biggest upset of the mid-west.

Missouri was outclassed in every department of the game and in the final period the Methodists ran in a new team of second string men who held the Missouri team without difficulty.

Coach Ray Morrison's well drilled Mustangs launched an aerial attack at the opening moments of the game which took the ball into Missouri territory.

Gerald Mann, diminutive S. M. U. quarter back crashed through the heavy and sweating Missouri line for a 35 yard run to a touchdown. Again in the second period the Mustangs flashed a series of bewildering off tackle plays interspersed with several long passes. The pass combination Man to Swanson dealt misery to the heavy Missouri team. A 45 yard pass completed by this pair, placed the ball on Missouri's four yard line.

Remund Hume, veteran back plunged over for a touchdown. A few moments later another spectacular pass took the ball in scoring distance and Hume again plunged through the line for a touchdown.

Slamank, Missouri quarter, passed the goal line to Clarke for Missouri's only touchdown of the day. Missouri's passes which ended disastrously when Schaeferdel, Mustang tackle, intercepted a pass and raced 30 yards for a touchdown.

The Methodists unleashed a series of dazzling end runs by Hume in the third period which took the ball down the field to Missouri's 6 yard line, where Love, full back, plunged over for the only touchdown of the period. The rapidly tiring Missouri team resorted to line plays in the final quarter but were unable to make headway.

S. M. U. exact in second team to finish the game.

A fumble back of the line by S. M. U. netted Missouri a safety just before the game ended.

**Football Results**  
Abilene—Simmons college 7, West Texas Teachers 0.  
Nacogdoches—McMurry 0, Stephen F. Austin 0.

### DEVELOPMENT OF GASOLINE INDUSTRY TOLD BY SPEAKER

D. E. Buchanan, vice president of Chestnut and Smith Corporation and past president of the association of Natural Gasoline Manufacturers, was the principal speaker of the day at the down town open air meeting held in front of the Gholson Hotel Saturday afternoon.

The meeting was well attended, the crowd filling the street in front of the Gholson and the sidewalks being blocked. The group of speakers were the main attraction of the second and closing day of the Ranger Home Coming Oil Jubilee.

"I firmly believe the entire petroleum industry is, right today, face to face with the necessity for inaugurating a scientific research program dedicated to the development of new markets and the enlargement of markets now supplied, and that such a movement must concern itself with every known product of petroleum from the lightest gases clean down through the hydrocarbon series to asphalt and coke. In the natural gas field, the American Gas association is already engaged in some very constructive work in market development of this kind," said Mr. Buchanan at the opening of his speech.

Mr. Buchanan told of the beginning of the gasoline industry over the world and traced its progress to its present position it holds in the eyes of the oil fraternity. He told of the ever changing conditions in the industry and the relations between the automobile manufacturers and the gasoline manufacturers. He talked on government legislation of production and predicted that at the next session congress would enact laws that would regulate over-production along this line. He stressed the value of sales, and insisted that if the major companies would spend more time in investigating sales conditions and scientific research instead of endeavoring to "get oil over the top of the derrick" that conditions would be better than they ever have been.

"It seems high time that this industry devoted more thought and scientific effort to the merchandising of its products," Mr. Buchanan said in the course of his speech.

Mr. Buchanan said that the roar of the gusher was sweeter music to the ears of the producer "than the click of the cash register." He said the only solution for the present condition of the petroleum industry in general was the development of additional markets and the curtailment, to a certain extent, of present day production.

In reference to the idea that the supply of crude oil will be exhausted Mr. Buchanan had to say, "Before the supply of petroleum is exhausted, scientists will have the present day automobile engine resembling the famous one horse shay."

The content of Mr. Buchanan's lecture was educating to the crowd of oil operators that were present. He told of conditions in Europe and foreign countries that were undreamed of over here. He stressed the sales point to the limit and paid tribute to the many scientists that had given their lives to developing the by-products of crude oil.

M. H. Hagaman, the first mayor of Ranger, opened the series of short talks, and expressed gratitude at the crowds that had attended the two day session, and expressed hope that they would return. He gave a slight history of the development of Ranger, commenting upon the community spirit.

R. Q. Lee of Cisco, past president of the West Texas chamber of commerce, made a short talk on crop diversification and the need of West Texas farmers to raise hogs, chickens, cows and a variety of foodstuffs. He told of conditions throughout Texas and said that many farmers were paying their wheat money and cotton money out for meat and especially for pork products. Mr. Lee pointed out Texas farms that were producing more than farms throughout the United States.

Ed Maher, who introduced the speakers assured Mr. Lee that his presence "was as welcome as the new Ford car would be to Ford dealers universally." One of the wildest speakers on the program was H. H. Haynes of Amarillo, one-time candidate for governor of Texas on the republican ticket. Mr. Haynes praised the citizenship of Ranger and insisted that affiliation with citizens came before political affiliation.

In speaking of his party affiliation Mr. Haynes said, "You got your first mayor in Ranger, your diversification man in Eastland county but you had to send nearly 500 miles for a republican." Mr. Haynes said that

he "welcomed the opportunity to preach the gospel to the political heathen" and urged that these Texans "plan diversification in political opinions as well in crops."

Mr. Haynes said that by having a republican on the platform the committee had arranged to receive a greeting from the nation.

Joe Weaver, Eastland, president of the States Oil Corporation, spoke on the "Voice of Eastland county." He paid sincere tribute to the unconquerable spirit of Rangerites, especially in defeat. He paid tribute to Rangers' pride, the fighting Bulldogs, and said that although he was glad Eastland won he wanted to say that he had never seen a town take a defeat so masterfully.

"What is the voice of Eastland county?" he asked. "It is the buzz of the bullwheels, the hum of the gas plants, the beating of sheep or the mooing of cattle. Yes. But moreso it is the greeting of friends, the cordial message of the handclasp."

Mr. Weaver in speaking of the part oil has played in developing this part of the country, urged that the surface be developed first, then the ground below.

He said that he was proud that he lived in the town of Eastland and one reason he was proud was because it was 10 miles from the city of greatest hosts.

W. K. Gordon, Fort Worth, made a short talk in which he paid tribute to the late Luther Devenport and told of the trying times when the mines were operating in this part of Texas and the part that Mr. Devenport played in settling the disputes and creating the open shop. Mr. Gordon's talk was short but the tributes he paid went deeply into the hearts of the many listeners.

J. H. Sullivan, spoke instead of Mr. Hull, of the Texas Pipe Line company, and expressed thanks for the wonderful time extended them by the citizens of Ranger and Eastland county.

Fred Yonkers superintendent of the Chestnut and Smith corporation, spoke briefly, thanking the committees for their work in making the jubilee a success.

John M. Gholson spoke a few words along the same line.

### One Man Killed Five Injured In Refinery Blast

CRAIG, Colo., Oct. 22.—Five men today succeeded in putting out flames which swept the refinery of the Texas company, one mile east of here, following an explosion in which one man was killed and five others injured seriously.

Floyd Sullivan, 35, father of four children, was killed instantly in the blast which rocked houses here and shattered buildings near the refinery.

Damage to the plant was estimated at \$30,000.

### CITY COMMISSION MAY DISCUSS NEW ORDINANCE

The Eastland city commission meets Monday at the city hall. It is expected that at this meeting the matter of the ordinance recently passed regulating the keeping of cows and other livestock within the city limits, will be discussed.

### Jubilee Flyers Were Delighted With Reception

The air was full of airplanes during the two days of the Ranger Oil Jubilee. The government sent three planes from Fort Crockett, Galveston, and two from Kelly Field, San Antonio. One of the planes from Fort Crockett was one of the latest model all-metal planes, and had with five machine guns and had a highpowered Liberty motor, was self starting and equipped with all the latest devices.

Miss Maxwell House, sent to Ranger through the courtesy of the Cheek-Neal Coffee company of Houston was a Ryan plane, and was made by the same company that made Colonel Chas. A. Lindbergh's plane. The engine in this plane was an exact duplicate of that in the Spirit of St. Louis.

The Jewell Flying Circus had three planes here, and took up a number of passengers, as well as did some fine aerial circus stunts on both days of the jubilee.

Landra Flying Park at New Braunfels, was also represented by one plane here.

In commenting on the aviation field here, the government aviators voiced the opinion that Ranger had a fine flying field, but if many high powered air ships came here it needed to be made larger.

They praised the performance of the free Naturalene gasoline furnished them by Chestnut and Smith corporation and the Thurnar oil furnished by the Texas-Pacific Coal and Oil company, and when they left here they carried a supply sufficient to take them to their destination and promised to send back reports on their trip and how the gasoline and oil functioned.

A National Air Transport plane was also here, from Fort Worth.

All the visiting captains and pilots expressed their pleasure and appreciation of the Ranger Home Coming Oil Jubilee and said that if Ranger ever had another one they hoped they would be detailed here at that time.

Mr. and Mrs. Chas. Moore entertained them at dinner Friday.

### Fort Worth People Guests at Cooper Home For Jubilee

Mrs. W. H. Bennett and Mrs. A. J. Powell, both of Fort Worth, are with their husbands, guests at the V. V. Cooper home for the oil jubilee. Both are sisters of Mrs. Cooper and were born and reared in Ranger. Mr. and Mrs. O. R. Cooper of Breckenridge and Mr. and Mrs. Cecil Cooper of Albany and Miss Marcia Riddle of Fort Worth and Powell, Jr., are also guests in the Cooper home.

### One Of Old Time Boys Couldn't Be At Jubilee

One of the boys who came to Ranger after he was released from the service of Uncle Sam, did not come to Ranger Home Coming Saturday, but went on his final Home Coming, and was buried at Winona, Miss., Saturday afternoon.

Marshall Lusk, 26, a nephew of

E. A. Ringold, came to Ranger soon after the war and in 1921 was a salesman for the Ranger Tobacco company.

While here he joined the Elks Lodge but about two months after he joined the lodge he became ill from a trouble following an attack of flu at Muscle Shoals when he was in the government service, from which he never recovered.

AMARILLO.—The Southwestern Bell Telephone company is soon to complete the installation of a dial telephone system in their new telephone exchange building here.

### American Legion Organizes Post At Rising Star

An American Legion post has been organized at Rising Star, and is the fifth post in the county, posts having been organized sometime ago at Cisco, Ranger, Desdemona and Eastland.  
Officers for the newly organized post at Rising Star are, E. M. Howard, vice commander; T. B. Edmondson, post commander; C. L. Smith, adjutant; Cecil Shultz, finance officer; Mark Pelfrey, sergeant-at-arms; Wyatt Jacobs, Historian; Clark Crowover, chaplain. Executive committee, Mark Pelfrey, T. B. Edmondson, and Wyatt Jacobs.  
The new organization starts off under very auspicious circumstances. A ladies auxiliary may be organized in the near future.

**EASTLAND GROCER HAS MINERAL WATER DEPOT**  
The J. W. Turner Grocery, at 1005 West Commerce street, Eastland has just established a mineral water depot where fresh water from Mineral Wells is received daily.  
Mr. Turner has gone to considerable expense and trouble to add this service for the benefit of his customers. He offers free delivery service on this water the same as on groceries and meats sold at his store.

### SCRANTON ORGANIZES COUNCIL FOR COMMUNITY BETTERMENT

The organization of a community council was perfected at a meeting of citizens in the Scranton high school building Thursday night and the following officers were elected: B. T. Leveridge, president, and A. S. Reese, secretary. A program committee composed of John H. Shrador, T. B. Ledbetter, and A. T. Bladock with County Agent J. C. Patterson and E. H. Varnell vocational expert of the Cisco high school, as advisory members; and a membership committee including B. B. Brummett, R. L. Williams, A. F. Foster and J. G. Stuber, were selected. John Shrador, presided at the meeting.

The purpose of the Scranton community council, which meets in the high school auditorium on the first and third Thursday nights of each month, is to act as a clearing house for community projects. When matters of general community interest come up for discussion they are referred to the community council. A project discussed at the Friday night meeting was that of dairying, which is attracting county-wide attention in Eastland county just at this time.

A fact worthy of note and one which evidences the wide-awakeness of the people of the Scranton community, is that Thursday night was the only night in the week on which there was not something of community interest going on at the Scranton high school building, which is a modern, brick structure recently erected at a cost of approximately \$15,000.  
Only heads of families attended the meeting Friday night. There were thirty-five of these, however, in attendance. County Agent Patterson

### NEW MANAGER FOR LOCAL GAS COMPANY

THOUGHTFUL SHOPPERS WILL SELECT

## Winter Apparel Now!

—Fashion wise women plan their wardrobe in advance—and then buy early while stocks are at their best. It's easy choosing winter apparel now—you've the choice of complete lines to select from.

Select the major part of your costume first—Frock, Coat and Hat and then build around these with Shoes, Hosiery, Gloves, Purse, etc.

## Dresses

that are decidedly different.

At Joseph's you'll find new Frocks that are different—yet each one follows the style trend—tight hip-lines full or uneven skirts—a rhinestone pin in just the correct place—all of these distinguish these frocks as new and individual.

Shades of brown and black predominate but greens and reds have a place. Satins and crepes vie for honors as the favored materials.

—The style trend is so well defined in winter apparel that you need not have the slightest hesitation about selecting for winter now. If it comes from Joseph's it's authentic.

## Fur Trimmed Coats

The vogue for fur on coats remain undisputed—and why shouldn't it? A luxurious fur collar and perhaps cuffs give a coat a distinctive air that's indefinable.

The most stunning styles in coats for both dress and sport are on display now. You'll make no mistake by selecting before stocks are picked over.

SECOND SECTION

### EASTLAND FLOWER SHOW BIG SOCIAL EVENT OF COMING WEEK

#### EIGHTH ANNUAL EVENT BE HELD OCTOBER 28-29

#### Women From All Over East land County to Participate in Show.

Final preparations have been made and everything is in readiness for the eighth annual flower show which will be held at the community club house, Eastland, October 28 and 29, under the auspices of the Civic League.

The flower show is the outstanding social achievement of the year in Eastland, and is attended by people from all Eastland county.

The classification committee, composed of Mrs. A. H. Johnson, Mrs. Elanora Tanner and Mrs. J. H. Cheatham, has arranged this year's flower show into five groups which include exhibits in flowers, art, both professional and amateur, needle craft, antiques, school art, and county demonstration. The county demonstration department is under the direction of Miss Ramey.

Mrs. C. U. Connelley, general chairman of the flower show and prominent social worker in Eastland, expressed the opinion Saturday that the show this year would be the best that has ever been held. The show promises to be better and more complete in every detail than any that has been held heretofore.

Eastland women from all club circles are working with the Civic League to assist them in making the show a success. Not only are the women assisting with the work but the Civic League is being given the support of practically all Eastland merchants who are donating the prizes to be awarded at the show. A complete list of the merchants and their awards show that the prizes this year are better and of more value than those that have been given heretofore.

All of the committees report that their work is being rushed to completion and that everything will be ready for the opening of the show Friday morning.

The complete list of classification entries in the show follows:

**Horticulture:**  
All flowers and plants entered must have been in the hands of persons entering same for at least thirty days before the flower show.

No entries will be received after 10 a. m. Friday, October 28.

**I. Roses:**

1. Largest collection of choice blooms, first prize, second prize, ribbon.

2. Best six blooms, any single variety in one container, first prize, second prize.

3. Best single rose bud, any variety, first prize, second prize.

4. Professional rose display (a) largest collection of choice blooms, blue ribbon, red ribbon. (b) Best single rose bud, any variety, blue ribbon, red ribbon.

**II. Chrysanthemums:**

1. Largest collection of choice blooms, first prize, ribbon.

2. Best single specimen, first prize, ribbon.

**III. Dahlias:**

1. Largest collection of choice blooms, first prize, ribbon.

2. Best single specimen, first prize, ribbon.

**IV. Old fashioned garden flowers:**

1. Best collection, first prize; ribbon.

**V. Plants:**

1. Best Boston fern, first prize; ribbon.

2. Best asparagus fern, Sprengerii, first prize; ribbon.

3. Best asparagus fern, Plumosus; first prize; ribbon.

4. Best single plant, any variety, foliage or blooming plant, first prize; ribbon.

5. Most unusual plant, first prize; ribbon.

**VI. Decorative flowers:**

Most artistic arrangement for living room, container to count, first prize, second prize; ribbon.

**VII. Grand champion prize:**

Woody, Roy Nunnally, Perry Sayles, A. C. Simmons, Beal

### Belles and Beaux OF THE FUTURE

—Photo by Kinberg

Gloria Virginia Williams, daughter of Mr. and Mrs. Ed Williams of Ranger, was born on Oddie Street, Ranger, two years ago. She immediately broke into print, as her name was given her from a story running at that time in the Times, "The Flapper Wife."

Gloria had a birthday party a few weeks ago to celebrate her second birthday. She is a lovely blond Gloria—just as pretty as the girl from whom she was named.

Smith, Carl Springer, C. D. Sweringer, K. B. Tanner, Jos. Weaver, W. Weigand, W. B. White, Wolf, Roy Allen, Ed T. Murry, Wilburn Collie, Frank Sparks, P. L. Parker, Jep Little, J. F. Cunningham, Frank Day, J. B. Leonard, J. M. Ferrell.

**COURTESY BRIDGE GIVEN TO VISITING WOMEN**

There was an interesting bridge party Saturday afternoon at Acorn Acres Tea Room, given for those visitors to the Jubilee who are devotees of bridge.

The affair cannot be credited to any one person, each hostess in town bining her own guests and going "dutch" for herself and them.

There were seven tables of players and prizes were awarded, charming enough in detail to be coveted by any one.

A tea room luncheon, beautifully served and expressing the spirit of the occasion, followed the game, which was called at 2:30 o'clock.

**DANCES DURING THE JUBILEE ALL CROWDED**

The dances given each night of the Jubilee were all crowded. If one had keen ears they could have heard the music, or might have gotten a peep at the dancers now and then, if tall enough to look over the crowd of onlookers that hemmed the dancers and the orchestra in.

One dance was at the Legion hall and the other at the Elks club, both places being beautifully decorated for the occasion. Before 9 o'clock

#### SOCIAL CALENDER

**MONDAY**  
Order of Rainbow meets at 7:30 at the Masonic Hall.

City Federation Organization meeting at the Gholson at 4:30 p. m.

Junior New Era Club meets at the Gholson at 7:45 p. m.

Womans Home Missionary Society of the Methodist Church visits Monday but has social meeting on Friday.

Circles of the Central Baptist Church; circle No. 1 and circle No. 3 will visit poor farm.

**WEDNESDAY**  
Ad Libitum Club meets with Mrs. D. W. Johnson at 2:30 at home.

Rotary Club luncheon at 12:15 at the Gholson.

Prayer meeting in the evening at all churches.

New Era Club meets at 3 p. m.

**THURSDAY**  
Lions Club luncheon at 12:15 at the Gholson.

**SATURDAY**  
Twentieth Century Club meets at 2:30 with Mrs. A. Neil.

**TWENTIETH CENTURY BRIDGE CLUB ANNOUNCEMENT**

The Twentieth Century Bridge Club will meet on Saturday afternoon with Mrs. A. Neil, at her home in the Prairie Camp. Members please note change in date.

delicious salad, followed by a creamed chicken in pattie shells course and finishing up with pumpkin pie topped with whipped cream, its menu was pleasing in taste as it was in looks.

The Methodist women served dinner on Friday, next door to Penny's store, and had the pleasure of feeding the thirty nine members of the T. C. U. band, as well as many other visitors.

At the same place on Saturday the Christian church women served a splendid dinner.

Members of the Altar Society of

St. Rita's church served lunches both days of the Jubilee, in the Poe Building on South Marston street.

**PERSONALS**

Mr. and Mrs. Ted Swift of Cross Plains were Jubilee visitors.

Mr. and Mrs. H. L. and C. H. Ice, of Brownwood, came back to Ranger this week end for the Jubilee.

Mrs. W. L. Hayden of Abilene was shaking hands with old friends here Friday.

T. E. Baker, of Houston, one of the old timers, here is visiting his sister, Mrs. R. L. Hodges.

Misses Margaret and Elizabeth Billingham of Abilene, are guests of Miss Marguerite Adamson for the Jubilee.

Shag Floore of Breckenridge was among those old timers who were here Friday helping to put the Jubilee over.

Mrs. F. E. Wright and Miss Irene Bahns, of Breckenridge were honor guests at the women's luncheon Friday. Both rode in the Breckenridge float.

Mr. and Mrs. John Shannon of Amarillo now, but formerly of Ranger, and Mr. Claude Whitaker of Tulsa, were Mr. and Mrs. A. Neil's guests during the Jubilee.

Merritt H. Gibson, of the State banking commission department, who is located in Ranger, left Saturday for a short visit in Austin.

### W. L. McCleskey Is Among Visitors At Rangr Jubilee

W. L. McCleskey of Weatherford, one of the sons of John McCleskey, on whose land was drilled the discovery oil well of Eastland county, was a Jubilee visitor, and attended the big free barbecue Saturday.

Mr. McCleskey was very happy over the celebration and thought Ranger a far different Ranger from ten years ago—but the spirit of the people the same.

He commented on the number of new buildings here and the way Ranger had grown. He was very pleased to see so many of his friends here, and said he saw more old timers at one time than he had seen since the boom came to Ranger.

Mr. McCleskey has a beautiful home in Weatherford and he and his son are in the automobile business there.

Other members of the original McCleskey family were also present during the Jubilee.

**RED-BLOODED PERSONS!**  
Red-blooded persons are healthy persons! Thousands of people who formerly were suffering from lack of strength, who were dull and listless and whose eyes lacked the animated sparkle that comes with good health now are praising the famous old tonic known as Waterbury's Compound. Waterbury's Compound contains all the "goodness" of cod liver oil—the Vitamines—with none of the disagreeable taste of ordinary cod liver oil. Waterbury's compound combines with Vitamines A and D derived from cod liver oil by action of the pancreas and spleen, many other proven ingredients intended to help build up wasted tissues, increase the oxygen carrying powers of the blood, and impart new vigor and strength to the body. It is known all over the world, being sold not only everywhere in the United States, but in Europe, Africa, South America and the Orient as well. Such universal praise is evidence of its superior merits. If you feel dull, tired, drabby, listless, lacking in energy, or if you are suffering from the after effects of fever or "flu" of you lack strength, go to your nearest druggist today and get a bottle of Waterbury's Compound and learn for yourself the benefits to be had from this truly fine product. Waterbury's compound is endorsed and distributed by all druggists.

### Dodges Aren't Trying to Dodge One Another

How to be divorced though friendly, the above pictures might be called. To the left are Horace Dodge, Jr., of the Detroit Dodges, and the former Mrs. Dodge, who is now Mrs. Benjamin F. Manning. They're still good friends. To the right is Lieutenant Manning with the two Dodge children, Horace III and Delphine, and they seem to think their new step-father is O. K. After the pictures were taken, at Honolulu, Mr. Dodge and the two children sailed for Vancouver, B. C., while Mr. and Mrs. Manning embarked for the orient.

### Condemned Man Prepares Own Plea To Court

By GORDON SHEARER  
(United Press Staff Correspondent)  
AUSTIN, Oct. 2.—Harry J. Leahy, under death sentence for the murder of Dr. J. A. Ramsey of Mathis, has written his own plea to the court of criminal appeals in his cell in the Georgetown jail.

The highest court in criminal cases is to hear the appeal on Nov. 2. Leahy has sent his own brief to the court. Leahy was a law student at the time he was arrested on the murder charge. He has continued his studies during his confinement.

He will not be permitted to argue his own case in the court of criminal appeals. Though the constitution gives every accused a right to be heard himself, or by counsel or by both self and counsel, the state courts have previously held that the right extends only to the original trial and does not permit a convicted defendant to take part in the argument of the appeal.

In his cell at Georgetown, Leahy has prepared more than 136 pages of argument to offset his convictions. Besides, he personally read and re-read the record of the case prepared for submission to the court. In it there appears many a notation made by him. He is a stickler for short clear sentences. On page after page, long sentences have been cut up into

shorter ones of unmistakable meaning.

Leahy is a model prisoner, according to Sheriff Will Love. He keeps busy working on his own case.

If his appeal is overruled and he is sent to electrocution, it will be his own choice between that and a prison term. At his first trial at Sinton he was given a prison term. He demanded retrial. He declared he would rather die than take a prison term which branded him with the mark of Cain. The second jury gave him death.

Brutality of the murder of Dr. Ramsey precludes any possibility of clemency, if the courts finally decide that Leahy was the slayer. The wealthy Mathis physician was called from his home on a plea that his medical services were needed. He did not return. For weeks there was search. Then the body was found in a little grove reached by a little traveled road. It had been buried in a shallow grave. The physician had been tortured and then killed with a blow that crushed his skull.

The state gave as the motive hatred because Dr. Ramsey had, through mortgage foreclosure, come into possession of land once owned by the Leahy family. A Mexican who admitted he participated in the slaying testified that Leahy struck the blow. The defense was an alibi and that the Mexican was merely putting blame on Leahy to save himself.

Leahy's keen mind has hit upon the weak point in his trial at Georgetown. He was not permitted to question the widow Ramsey. State attorneys say this is because he used insulting questions to her in a previous questioning.

### Dodge Brothers Reorganizes Its Service School

To maintain and improve the high quality of service to owners for which Dodge Brothers' dealer organization has become so well known throughout the country, the factory has completely reorganized its training school

for service managers and service men. The school has been in existence for several years, giving a comprehensive course in servicing Dodge Brothers four cylinder cars which has been taken by thousands of service men from all parts of the country.

The reorganized course of study includes, in addition to the former instruction on four cylinder cars, detailed study of the company's Senior line. The school is modern in every respect and the instructors in charge are specially trained service engineers who know the proper method of performing every mechanical detail of service on both lines of cars.

The training course now includes instruction on servicing motor, clutch, transmission, universal joint, front and rear axles, steering gear, breaks and other mechanical features. All major parts are on display in the room as well as two cutaway chassis. With the latest and most efficient tools for both the four and the Senior in hand the students and instructors go through all service operations, giving the students a chance to see how each is performed. A number of the more modern and highly efficient shop tools that Dodge Brothers recommend are shown and by actual demonstration the proper method to use them is fully explained.

Already approximately 100 service men have come in to the factory to go through the new course of study and during the next few weeks it is expected that many dealers from all over the country will send their men to Detroit to take the course of instruction.

In addition to the service school Dodge Brothers maintains field service men all over the country whose sole work is to maintain contact with dealers' service departments and keep them informed on the most up to date methods of servicing Dodge Brothers cars. Each of these traveling representatives is a trained service engineer whose work in his particular territory supplements that of the factory's service school.

**SILENT SLAYER HANGED IN SAN QUENTIN JAIL**  
By United Press.  
SAN QUENTIN, Calif., Oct. 2.—Charles Sieber, known as "the silent slayer," was hanged at state prison here today for the murder of his wife in Los Angeles.

Sieber, a native of Oklahoma, went to the gallows without making any statement. He had refused to discuss the crime since entering the prison last summer.

Shark shooting was a popular sport when sharks in large numbers invaded Loch Pyne, Argyllshire, Scotland, recently.

### Rare Clock Put On Exhibit At Big Jubilee

Olan J. Cooper of Rising Star, had on exhibit at the Texas Drug store, his famous Apostolical clock.

This clock, or temple as he calls it, is really a wonderful bit of artistry. It shows the twelve apostles and other bits of Biblical history. It is equipped with twenty tiny electric lights and two little girls in one "set" keep time with the chimes that sound on the stroke.

This clock is seven feet high and stands on a 52 inch base. It weighs 300 pounds, has 12 different kinds of wood in its make-up and 2,000 pieces of material in it.

It took Cooper six months to build it.

### English Woman Fails In Second Channel Effort

CAPE GIS NEZ, France, Oct. 2.—Miss Mercedes Gleitze, London stenographer failed today in her "vindicating" attempt to swim the English channel, but she proved her courage in what experts said was an impossible effort.

Miss Gleitze entered the channel here at 4:20 a. m. today with the water temperature 56 degrees, and carried on gamely until 3 p. m. when she was within eight miles of Dover, her objective.

## Why Chevrolet Performance is Thrilling Millions!

Never before was a low-priced car so delightful to drive as today's Chevrolet!

Fast get-away... easy, smooth operation... high speed roadability... unfailing power... and flashy acceleration—

—exactly the type of performance that everyone wants in an automobile today!

And the source of this matchless performance is the Chevrolet valve-in-head motor, a motor that has established a world-wide reputation for its remarkable power, dependability and economy.

In addition, there is all the finger-tip steering, all the positive braking and

effortless gear shifting that have made Chevrolet so decidedly popular for congested traffic.

And never before was a low-priced car so comfortable—for Chevrolet springs are 88% as long as the wheel base... and built of chrome vanadium steel!

Come in! Learn what a feeling of confidence it gives you to drive a car that is powered for every need... that is smooth and quiet at every speed... that responds to the slightest pressure on the steering wheel.

Then you'll know why millions have acclaimed today's Chevrolet as the finest performer in the low-price field!

The Chevrolet valve-in-head motor now possesses such modern improvements as AC air cleaner, AC oil filter, improved oil pump, chrome plated piston pins and Delco-Remy starting, lighting and ignition—features that make this remarkable power plant even more efficient than ever before.

## Collins Girls May Be Sent Back

Eva (left) and Martha Collins, said to be relatives of the late Michael Collins, prominent Irish politician, are held in Detroit charged with illegally entering the country.

## Oakland Pontiac Mileage Cost Is Extremely Low

A remarkable cross-section of automotive operating costs throughout America is revealed in the motor travel expense of 200 field representatives of the Oakland Motor Car company who drove 3,453,232 miles during the company's recently completed fiscal year at an average cost of \$0.0398 per mile.

Since the Oakland and Pontiac Sixes which the field representative use in their travels are factory-owned cars covered by blanket insurance, the factors of depreciation and insurance do not appear in the costs compiled by the company's statistical department. The average figure of \$0.0398 per mile represents only the actual cost of maintaining and operating the cars. Of the 200 cars used, 130 were Pontiac Sixes and 70 were Oakland.

Here is the cost per mile "broken down" into its various components:  
 Gasoline . . . . . \$0.0151  
 Maintenance labor . . . . . \$0.0073  
 Storage and parking . . . . . .0069  
 Washing . . . . . .0034  
 Oil . . . . . .0033  
 Parts . . . . . .0028  
 Tires and tire repairs . . . . . .0010

Total . . . . . \$0.0398  
 The field representatives, driving

a distance equal to more than 134 times around the world over all types of American roads and through all extremes of American climate and weather, are believed to have eliminated from their operating statistics the variants which would affect mileage costs compiled in any one state or region.

For instance, the average cost in the New York district where both traffic delays and winter storage ex-

pense are encountered was \$0.0540 per mile, the highest figure in any of the 22 districts. In the Charlotte, N. C. district, where neither of these factors is present, the average cost was only \$0.0270 per mile. In the mild climate of Charlotte district the total parking and storage cost for a year's mileage of 175,000 was only \$258.85 or an average of \$0.00147 per mile against the grand average on this item for the entire country of \$0.0069.

An interesting fact shown by the figures is that gasoline represents about 37 per cent of the operating cost, while tires and tire repairs constitute only between two and three per cent.

## Oklahoma In Row Over Calling Of Extra Session

By United Press.  
 OKLAHOMA CITY, Oct. 22.—State house circles were speculating today on the outcome of the first formal reply from the office of Governor Henry S. Johnston to rumors of a special legislative session.

Declaring present agitation for a special session was the result of a "Hotel lobby campaign" by "disappointed spoilsmen," the governor's secretary, H. E. Sullivan, last night issued a statement saying the governor could no longer remain silent.

His statement made while the governor was in Tulsa on a speaking tour was taken as that of the governor.

### COMMUNITY MEETING TO DISCUSS DAIRYING

County Agent J. C. Patterson, accompanied by E. H. Varnell, vocational expert of the Cisco high school, attended a meeting of citizens of the Shady Grove community near Cisco Saturday afternoon. The meeting was called for the purpose of discussing the dairying industry.

## Demonstration In Farm Terracing Be Held Wednesday

A farm terracing demonstration will be held at the farm of J. C. Sturville in the Dan Horn community Wednesday afternoon at 2 o'clock. County Agent J. C. Patterson and E. H. Varnell, vocational teacher in the Cisco high school, will give the demonstration.

County Agent Patterson is very anxious that as many people as possible, who are at all interested in terracing, see this demonstration. Interest in this work is growing rapidly in Eastland county and Mr. Patterson's time allotted to this work is rather limited, therefore he wishes to accomplish as much as possible from his efforts by getting as large crowds at these schools as possible.

The financial commission appointed in Peru to consider the advisability of a government gasoline monopoly has voted the proposal and has proposed instead a consumption tax on petroleum derivatives.

## Texas University Seems Strange To Student Of Peru

AUSTIN, Oct. 22.—If you were 3,000 miles from home and were thrust suddenly on to a 40-acre block in a foreign city where 5,000 people jabbered in a tongue foreign to your own, would you be bewildered? Perhaps so, and perhaps not.

Anyway, Eleodoro C. Vilela of Lima, Peru, found himself in the above predicament when he put in his appearance on the "Forty Acres" the University of Texas campus, a few days ago. Arriving in Austin with a little scrap of paper containing an address, given him by a Dr. Taylor in Panama, of an acquaintance residing in the Little Campus dormitory as the only means of getting located, Vilela soon found his way to the education building and presented his credentials to the University registrar.

These credentials consisted of a transcript from the nation school of Our Lady of Guadalupe, Lima, Peru, and a certification of the authenticity of the papers by John M. Cabot, vice-consul of the United States at Lima, Peru, Vilela having graduated there in February, 1927. He was granted full admission and entered the College of engineering.

Vilela says that English here does not seem much like what he learned in Peru but that he is determined to "tackle" English 1, nevertheless. He is registered for applied mathematics, English, chemistry, drawing, physics and physical training.

Vilela was reared on a farm near Huacho, Peru.

The first school in the Netherlands for civil aviation is being financed through the efforts of the Rotterdam Aero club which has been assured that no competing school will be authorized.

## History of Texas Farm Bureau May Be Published

AUSTIN, Oct. 22.—A history of the Texas Farm Bureau Cotton association may be published this year by Dr. Robert H. Montgomery, associate professor of economics at the University of Texas. Dr. Montgomery has made a study of the co-operative marketing of cotton for the past five years or more. The history of the Texas association is Dr. Montgomery's thesis written at the Robert Brookings Graduate School of economics and government in Washington, D. C. when a candidate for a doctor of philosophy degree in 1925-26. Dr. Montgomery spent that year in Washington studying while the holder of the Walden-Bead fellowship in economics. In addition to his studies in the Brookings school, he spent considerable time working in the United States department of agriculture.

Dr. Montgomery expects to go to the east with the beginning of the second semester of the University when he will be granted a leave of absence from his teaching work, and study one of the cotton associations in that part of the United States, probably in North Carolina and Georgia. Following that work, he expects to spend some time in Memphis,

Tennessee, working with the American Cotton Growers' Exchange, a national organization of the state co-operatives.

## IDENTIFIES OHIO RIVER VESSELS BY WHISTLES

By United Press.  
**POMEROY, O.**—The multitudinous fog horns and whistles of steamboats plying the Ohio river come pat to the ears of Benjamin Skinner.

He understands the language. The dubious have often challenged Benjamin's statement that he can tell the name of any boat running between Pittsburgh and Cincinnati, but he has never failed to demonstrate his knack. "It's a gift, like wagging the ears," Ben says. He simply cocks an ear to one side, and tells the name of the boat whose whistle is screeching.

## SWAM DESPITE EFFORT TO DROWN WITH FAMILY

By United Press.  
**TOKIO**—Shire Narichika, a coolie, appeared dripping at a Tokyo police station with the tale that he was the sole survivor of his family of four. He said he owed his life to the fact that he could not forget how to swim. He had been playing in hard luck, he explained, and he and his wife had decided to close the book and die.

With their two children, boys of 4 and 2 years, they had gone to a high bridge near the Zenkoji temple, prayed over the children and then tossed them into the river below. He and his wife, after bidding each other

goodbye, had then jumped over after their boys. When he struck the water he found it impossible to drown, his arms and legs swimming in spite of him and bringing him alive to the river bank.

Leads the World in Motor Car Value

**NEW PRICE**  
Advanced Six 4-door Sedan  
**\$1545**  
F.O.B. FACTORY

## Greater Speed

and greater smoothness and quietness

You know how Nash engineered the 7-bearing motor to the greatest degree of power-smoothness ever achieved. Now DRIVE this Advanced Six 4-Door Sedan and see all Nash has done in the way of developing SPEED.

Along with its greater speed this model has the EASIEST riding ability you've ever experienced. Its new-type springs are built of special, secret-process steel. And it has shock absorbers, too.

Another outstanding feature is its new-type Nash steering mechanism. You turn and park with an ease never offered a motorist before. New-type form-fitting cushions rest you as you ride. Upholstery is of select mohair, tufted. All fittings and appointments are of costly quality. Genuine walnut is used in the steering wheel. Door panelings, window moldings, instrument board and crown panel above are walnut finished. Vanity case and smoking set, leather mounted, contribute their touch of luxury. See this car at once and get our exceptional TERMS on your present car before you buy!

## High Compression Performance that thrills the most Veteran Experts

By the Automobile Expert of "Automobile Topics"

"It has... all the 'punch' in the world... a smart push in the back every time the accelerator pedal is trod upon. Throughout its whole range, the response to throttle seems to be precisely the same. 'Soft spots' are simply not to be found.

"... it will walk away from the traffic signal faster than anything Hudson has ever built... It will step out of line and jump into the lead from any speed without the slightest hesitation.

"But further, all this is accomplished without a vestige of that tinkle-tinkle business under the hood that Englishmen know as 'pinking' and American engineers as the gas knock, or detonation. Apparently this present Hudson engine just isn't going to 'ping' when the throttle is quickly opened, or when the car is driven hard against a hill.

"Under precisely similar conditions most any other modern engine will detonate when running on ordinary fuel... "The Hudson motor does what it does on any old fuel at all, it is said, and assuredly does it on the run of pump fuel that is sold at base prices every where."

## SUPER SIX MOTORS CO.

RANGER, TEXAS

### Chryslers Will Be Made To Suit Varied Tastes

An announcement of unusual interest comes this week from the Chrysler headquarters in the form of a notice that the company is broadening its special service to meet the growing demand for cars with special equipment according to the taste of individual purchasers.

The company is advising its distributors and dealers that it is now prepared to give prompt attention to orders for special color, upholstery and equipment other than standard in its four great lines of cars which cover all of the four great markets, and is in a position to deliver at slight extra cost a large variety of optional equipment and accessories for customers who desire unusual distinctive appurtenances for their automobiles.

The list of equipment to be supplied through the new service includes among other numerous articles wool, disc and wire wheels, fenders with wells, tire covers and tire locks, clocks, cigar-lighters, special type bumpers, trunks, trunk cases and racks, heaters, water indicators, monograms and non-shatterable glass, in addition to providing for special upholstery and color. Some of this equipment is now standard on certain Chrysler models and by the new plan they will be available on all other cars of the company's production.

The lists prepared by the company, the announcement says, are in response to a growing demand for factory built cars in special colors, upholstery and equipment to meet the individual tastes of customers who require something different from standard production cars. The scope of articles included is so comprehensive that it will enable dealers to supply any kind of equipment desired.

The Chrysler corporation has already in operation a special division to assist dealers in handling orders for specially built cars and the present addition to its facilities is devised to extend this service to cover equipment and accessories for the full field of Chrysler production.

Officials of the company state that the demand for all four of their cars—which now include the new "52," the great new "62," the illustrious new "72," and the Imperial "80"—has been exceedingly strong through-

### Texas Christian University Board Late For Parade

While Claude A. Sammis' Texas Christian University Band, was a little late in arriving at the Ranger Jubilee Friday, they were here strong to say nothing of "sweetheart" Vera Turbeville of Fort Worth.

It was too bad they did not get in the parade, as the major domo, or band director had a head dress on that would have done honor to the Sultan of Turkey and the boys in their beautiful uniforms of purple and white would have lent a splash of color and a fanfare of music, that would have made the parade just bigger and better.

It was a fine aggregation of young men and ran true to the spirit of co-operation Fort Worth has shown in Ranger's Jubilee ever since it was first announced.

### Legendary Tales Of the Southwest By J. Frank Dobie

AUSTIN, Oct. 22.—"Legendary Tales of the Southwest" is the title of a book which is now being written by J. Frank Dobie, associate professor of English at the University of Texas and editor of the Texas Folk-Lore society publications. Mr. Dobie has been granted a leave of absence from his teaching work this year in order that he may spend all of his time in writing and in collecting material. He recently lectured before the meeting of the Old Trail Drivers in San Antonio on the "Early Drivers of Cattle Out of Texas."

Young Lochinvar no longer comes out of the west to plight his troth—he comes out of the air. At any rate, one Paul Oscanyan, Greenland radio operator got on the same wave length with Astrid Funder, feminine operator aboard the Danish government ship Disko, and asked her the question. The answer was "Yes," and the wedding, it is reported, will take place next spring when the ice melts and opens the way.

out the year, and they anticipate that the inauguration of the special service will increase it to even larger volume.

OUT FOR A RECORD of parachute jumping, Helen Lach of Wallington, N. J., gets ready to go up for another leap. She is the first woman to jump over the metropolitan area of New York City and it looks as though she planned to land in the water this time.

### T. C. U. Band Wins First Prize In Ranger Contest

The band contest in connection with the oil jubilee at Ranger, October 21-22 was held on Main street in front of the old First National bank building.

The contest was judged by Mr. Rex Gaither of Brownwood with one silent judge assisting on points and placement.

The local committee wished this double check on points so that there would be no criticism by contestants on account of the single judge.

There being a prize offered only in one class, it was decided to handicap the more experienced bands. The entrants were the T. C. U. band of Fort Worth conducted by Claude Sammis; the Simmons College Cowboy band of Abilene; the McMurray band college Indian band of Abilene; and the T. P. band of Thurber. The latter band being only eighteen months old, was allowed a handicap of ten points. The McMurray band was allowed a handicap of five points. T. C. U. won first place with ninety points; the McMurray college band second place with eighty three points including the five point handicap. Simmons Cowboy band seventy-nine points. The T. P. band seventy-seven points including the ten points handicap allowance.

### Former Students Texas Tech Will Serve Banquet

LUBBOCK, Oct. 22.—A banquet for all former students of Texas Tech college will be given by the Tech Alumni association on the night of October 27 as one of the entertainment features of the Tech-A. & M. game on October 28.

Ned Camp, president of the Alumni organization, says plans are under way to have just as many ex-students present as possible. President P. W. Horn will be one of the speakers at the banquet.

J. A. Raley, Jr., president of the Matador club, an organization which has for its purpose the fostering of athletics in Tech, announces that the club will assist the ex-students of A. & M. who reside in Lubbock in giving a barbecue to all visiting A. & M. students and alumni. The barbecue will be given in the Tech stock judging pavilion at noon on the day of the game.

The man who invented the postcard is to be honored with a monument in Vienna. We only hope they don't carve on it: "Having a fine time; wish you were here."

# CHRYSLER

Five Body Styles \$725 to \$875

gives you

Seven Body Styles \$1095 to \$1295

Seven Body Styles \$1495 to \$1745

Eleven Body Styles \$2495 to \$3595

more for your money in the four great price classes

IT IS easy to understand the widespread public acceptance of Chrysler in the four great price divisions from \$725 to \$3595.

Chrysler engineering, which never rests its efforts, has maintained its product as fresh and as new as it was in its very outset four years ago.

This spirit of progressiveness has been responsible for the pioneering and development of every significant improvement in motor cars since the first Chrysler. And through the Chrysler plan of Standardized Quality these refinements have been made available to all Chryslers.

Thus Chrysler has set up entirely new standards of motor car value and has given new meaning to "price" and "price classes" in the industry.

Chrysler cars can be compared only with others far above them in price in every field. For they represent not only far more than money could buy in the past, but more than the same money will buy elsewhere today.

New Chrysler "Red-Head" Engine—designed to take full advantage of high-compression gas, is standard equipment on the roadsters of the "52," "62," "72" and sport roadster of the Imperial "80." It is also available, at slight extra cost, for all other body types. For a reasonable charge it can be applied to earlier Chrysler cars now in use.

## "All Right As a Favor, But I'm a Very Busy Man"

Your "good friend" the confidence man is always a very busy person; too intent on making millions to be bothered with small fry. But don't feel badly; he always has time to do you a favor—like robbing you of all you own.

Norfleet's personal story, appearing daily in this paper, reveals the secrets methods of the swindling "rings" tells how they strike high and low, boasting that no one is clever enough to escape their traps.

Many are the tricks of the swindlers. They are as well organized as a great corporation and the routine of choosing their victims, winning their confidence, leading them step by step to the fleecing, is as carefully planned as a field marshal's offensive.

But there is one sure protection. Before investing in any "get rich quick" scheme or buying in on the "ground floor" of some wonderful new corporation, consult your banker. They are trained to guide you sanely and wisely along the path of good investment.

# RANGER MISSED ONE PIONEER AT CELEBRATION

### Drilling Contractor on Discovery Well Died Shortly After Boom.

Not all of the men who helped to bring in the discovery oil well in Eastland county were present Saturday at the unveiling of a bronze tablet to mark the site of the McCleskey No. 1. Warren Wagner, who had the drilling contract for the McCleskey, was not here, for he like some others did not live to see Ranger come back. His widow, Mrs. Norma Wagner Mims, was here and was enthusiastic over the way Ranger has improved in the last few years and over the spirit shown in staging the home coming jubilee.

When Mr. Wagner was busy with his duties here, Mrs. Wagner who looked after the affairs of the Wagner Supply company at Strawn, said that she used to often drive over here and bring supplies to the well and that she felt she really had a hand in bringing it in.

Warren Wagner, whose company, the Wagner supply, is managed by his widow, was one of the most colorful operators in the Ranger field. He was one of the first to drill at Merriman, drilling in two wells on the school lo and later drilling at Desdemona. He passed away shortly after the hectic days of the boom.

# Horse and Buggy Brigade Novel Parade Feature

Ranger's big parade, was so immense that it has to be taken almost in broken doses, to be really assimilated.

A feature that registered in the minds of every spectator, was Mrs. Nannie Walker, one of Eastland county's largest land owners, riding a horse immediately behind the horse and buggy brigade.

Mrs. Walker wore an old fashioned riding habit and did not ride cross saddle, but rode on a side saddle, which is now as obsolete as the dodo bird.

The first oil well came mighty near being on Mrs. Walker's land, as the first well in the county was started on her farm, but it turned out to be a gas well and did not come in as an oil well until after the McCleskey well came in.

The Nannie Walker leases and royalties brought fabulous prices during the boom days.

Mrs. Walker is the mother of Mr. R. Newnam and Hall Walker of Ranger.

### WEATHERFORD EDITOR IS JUBILEE VISITOR

R. K. Phillips, of Weatherford, who came to Eastland county in the early days of the boom and lived at Eastland five years, was a Jubilee visitor.

Mr. Phillips when in Eastland was owner of the Oil Belt News. He is now owner of the Weatherford Democrat, a weekly paper. Saturday Mr. Phillips visited the Ranger Times office where he found a large number of old friends with whom he had either been associated in Weatherford or in this county.

### TRAVELING EVANGELIST VISITS RANGER JUBILEE

Rev. John Carney of Fort Worth, traveling in his evangelistic car on which is printed "Jesus Saves" was an interesting visitor to the Jubilee Friday.

Rev. Mr. Carney, a Baptist preacher, was ordained in Ranger forty years ago, when he was a resident here. Rev. Carney is a street evangelist and chalk talker.

### Three Factors In the Promotion of Aviation

The Daniel Guggenheim School of Aeronautics of New York University, established in June 1925, was Daniel Guggenheim's (right) first gift toward the promotion of aviation. The new building for the school (top) is located on the campus at University Heights, New York City. It contains one of the largest wind tunnels in the world (left). The picture shows the huge, eight-bladed aluminum propeller which makes a safe force of more than 100 miles per hour for testing planes and materials.

### State School Can't Get Good Man For Salary Offered

AUSTIN, Oct. 27.—Texas cannot get a suitable man to make the state training school for boys an industrial school at the salary allowed by the legislature, according to H. H. Harrington, chairman of the state board of control.

The building has been provided and the machinery has been purchased. The state appropriation bill provides an \$1,800 a year man for the place.

Up to the present the boys have been given farm work. The school at Gatesville has 800 acres. In busy seasons the boys formerly were hired out to work on farms about the school. This resulted in charges of political favoritism in distribution of labor.

Governor Moody stopped it this summer with an order that the boys be no longer hired out.

Harrington's statement is issued as an individual, not as chairman of the board of control, he said. He said that if the institution is to be made a real industrial school "it will be necessary to have a superintendent who has the necessary training to visualize the work as outlined or adapt himself wholeheartedly to the changes necessary in the management of the institution."

### WEATHERFORD PEOPLE ARE JUBILEE VISITORS

Mr. and Mrs. Preston Martin of Weatherford attended the jubilee Saturday. Mr. Martin who is a prominent attorney of that city, used to spend a great part of his time in Ranger, as he was appointed receiver of the Vulcan Oil company

shortly after the boom, by Federal Judge James C. Wilson, and served as such until the affairs of the company were closed up.

### STERLING HOLLOWAY IS CALLED TO CHICAGO

Sterling Holloway, assistant county attorney of Eastland county, and son of Mr. and Mrs. R. F. Holloway of Ranger, was called to Chicago Friday by the National Young Men's Christian Association to attend a week's conference of the association, as a representative of the state of Texas.

Last Year Holloway visited Denmark in interest of the Y. M. C. A. work and is a member of the national board.

## The Proof of the Pudding is in the Eating

Note our answers to the following questions: Do you place your graduates in good positions? We placed thirty-two in August, twenty-eight in September, could have filled eight more but for lack of unemployed graduates. Did you place them with large concerns where there is room for good advancement? We give you a partial list of firms with which we have recently placed from one to six: Butler Bros., The Dallas News, Gulf Refining Company, A. & P. Corporation, Lone Star Gas Co., Southland Life Insurance Co., National Air Transport, Paramount Film Exchange, Texas Power & Light So., N. O. Nelson Mfg. Co. Do you keep a record of each student placed and whom with? Yes, and it is open to the public, that every one may see the splendid work our employment department is doing. How do you qualify your students to hold the better positions in three months less time than other schools? By the use of seven of the famous Byrne copyrighted textbooks which we own and control, and our original method of individual advancement. How do you save your students from \$200 to \$500 over the cost in other schools? In the three months time we save them they earn from \$200 to \$425 salary and save three months board, \$75 to \$90.

Fill in and mail today for large, free catalogue, giving more proof of our big school.

# NORFLEET

## The Manhunter's Own True Story

### As told to Gordon Hines

ALL RIGHTS RESERVED - IMPERIAL PRESS - SUGAR LAND, TEXAS

#### WHAT HAS BEEN TOLD

Frank Norfleet, a Texas rancher, swindled out of \$45,000 resolves to destroy the confidence ring. His search for his men leads him to Florida where he is amazed by the duplicity of some of the police who seem to be standing in with the swindlers. Posing as a sucker, he is taken up by an outpost of the swindling ring and has a narrow escape from a club house near Daytona Beach, when a mysterious note is received that quickly changes the attitude of the chief wire tapper. Norfleet escapes and succeeds in forcing two of the swindlers to go with him. Fearing to take them to jail because it would reveal his own identity and handicap his efforts at locating his own swindlers. Norfleet allows the two crooks to beg for their lives on their bended knees before he finally turns them loose. Norfleet procures the mysterious note which came to the club house and when he is alone reads it. It says "That is Norfleet himself. Don't get him started. If you do he will kill every one of you. Don't let him get away boys, don't let him get away—Joe." Norfleet goes to Palm Beach and on to Miami where he meets Charles Rakin, mayor of a small city in Ontario, Canada, who had been swindled that day out of a large sum. Norfleet shows him the pictures of Joe Furey and he quick-

ly identifies it as that of the man who robbed him. Norfleet rushes to the place where Furey had stayed while executing the trimming and finds that the swindler has flown.

#### CHAPTER 20

"That's the man! He's the one who got my money!" He became real excited and could hardly tell me what he knew about the swindlers. Finally he gave me the address where Furey had stayed while executing the trimming. I went to that place as fast as a taxi could take me. It was a little, inconspicuous bungalow in the heart of a pine forest, ideally situated for a hiding place. The landlady's deafness added to the advantage. She identified Furey's picture as that of the man who had left her place the day before. That was that!

I had gone to Miami to look out for both Furey and Spencer and now I felt that, with Furey gone, Spencer would be likely to have gone also. I felt it a hopeless task, but I remained a few days to see what I might dig up in the way of information.

I became friendly with some of the Federal authorities and learned from them, of another job the gang had put over. A farmer from Illinois had been swindled at Key West by the old, old stock exchange game which had trimmed me so nicely. They must have tried to rap him for a second amount, as they had me, for

he started home to get more money out; "confirm his bids." On the way home he must have done some thinking, for he became suspicious and got off the train at Miami, where he notified the Federal authorities. They wired the farmer's son in Illinois asking him to wire the crooks, in the father's name asking for advice as to sending the money to them instead of bringing it himself.

It was hoped that the crooks would reply and it was upon their answer that the Federal men hoped to base a charge. The wise ones, however, did not answer the wire and the Federalists had to drop the matter. I secured the farmer's name and his Key West address and boarded the first train. I arrived barely in time to see him before he left for home. He had returned to Key West to collect his belongings and was ready to leave. When he had come back from Miami, he had been seized at the Key West station by a gang of swindlers and taken to the outskirts of the town where he was badly beaten and warned to leave.

I asked him where the "stock exchange" was located. He showed me, then said a hasty good by as he rushed off to his train, fear-stricken. The "exchange" was a long building of three stories, apparently a combination of offices and studios. I shadowed it for twenty-four hours. It was a windy, stormy day and the task was not pleasant. I wondered where I might shelter myself for the night's vigil, if I should learn nothing during the day. Darkness lends mystery to a standing figure and I was anxious to station myself where I would not rouse suspicion or curiosity.

Nature came to my rescue. The wind fell a tall, thickly foliaged tree, cornerwise across a fence directly opposite the entrance to the building. In this three-cornered pen, I would be safe from prying eyes.

At dusk, I saw a man enter the building whom I took to be Furey. I was at some distance, but that athletic figure and swinging stride could not deceive me. I reasoned that they were a confident lot, due to the scanty they had thrown into the Illinois farmer. Probably Joe was on his way to the "exchange" to prepare the scene for the next day's business.

range, though I was tempted to fire a shot or two, just on a wild chance.

It was a hard hand to draw so early in the morning, after so bitter a night's vigil, but I was so determined and so heartened by the sight of Joe Furey that I lost no time in grieving. I set out to conjecture as to where the trio would land and how I might be on hand to receive them. They had set out toward the Cuban coast and I reasoned that this would be their destination. If I was to be there first, I would have to make it snappy.

I rushed to town and chartered a hydroplane and, with the pilot, slid down the skids, gathered speed over the water and, after a breathless moment, took the air. We swept the water's surface with binoculars, but could see nothing of the little craft we were seeking.

We circled all the coral keys, then flew to Cuba, but there was not a trace of the three men in the boat who had put off from the shore but a few minutes before. The search on the Cuban shore was fruitless. The sea had washed out the trail of Joe Furey and the two "officers." I hope, if that sheriff who had run the rusty nail in his foot ever reads this, he will drop me a line of explanation.

The next day I went back to Miami and conferred with the Canadian mayor, Mr. Bacon. While we were talking, I bought a paper and scanned the headlines. Nothing of note met my eyes and I was about to cast the sheet aside, when I noticed that the magnificent estate of William Jennings Bryan was to be thrown open that afternoon to entertain the general public. Once a year, the Bryans were accustomed to invite the public to visit the estate and to feast their eyes upon the beautiful, rare shrubs and blooms which were carefully fenced in during the remainder of the year.

"Thousands of persons usually throng the winding paths and wander among the fragrant flowers on this day of days," the paper stated.

I was always wishing for crowds. Much of the information I got was gleaned from casual acquaintances and it was very easy to scrape up a nonchalant conversation with persons in a large crowd. I could stroll among them and "howdy" here and "howdy" there until I found a congenial soul who was seeking company.

I also knew that the con men used the same reasoning and that many of their "business deals" were begun

with acquaintances started in such places. There were always good reasons for mingling with crowds and keeping my eyes open. I decided to go to the Bryan estate early and to stay late.

People thronged through great bronze gates at the entrance to the estate, and, shortly after those were thrown open, I stationed myself there assuming the role of gatekeeper to the Bryan family. It was one of the most interesting jobs I ever had.

(To be continued)

Perhaps one reason why more politicians don't throw their hats into the ring is that they like to talk through them.

## The Bosch Radio For Your Home

THERE is a Bosch Radio Receiver for every purse—and every one distinctive, a leader in artistry of cabinet design, in mechanical and electrical engineering performance. You will be proud to have your friends say "What a wonderful tone"—you will enjoy its simplicity of tuning with the single station selector.

Bosch 6 and 7 tube Receivers are armored and shielded—built on a steel chassis, with short, solid connections—Bosch Receivers don't jar out of order. Wired for battery or socket power operation.

The new Bosch cabinets hold all equipment. Some have built in speakers and loops, others operate with the famous Bosch Cone-Type Speaker. Come in and let us demonstrate the famous Bosch Models for you.

### Rural District Operates Year Round Beef Club

The citizens of the German communities of Eastland county are noted for their progressiveness, especially in agricultural pursuits. In the Word and Boland communities, in the southwestern portion of the county, a beef club was organized five years ago, which has functioned and is still functioning successfully. This club was organized largely through the efforts of O. P. Weiser of the Word community. The club operates during the late spring, summer and early fall months. At present the membership in the club totals 23, each of whom must furnish an animal for slaughter during the year. When the club was organized, a membership fee of \$2 was charged. Funds raised in this manner were used to build a slaughter house, which is centrally located in the community, and where all beefs are butchered. The only way in which one may become a member of the club now is to purchase a membership from a member.

An experienced butcher is employed for the year by the club. One animal is butchered each Saturday for which a fee of \$3 is paid to the butcher. The farm furnishing the animal to be butchered, pays the butchering fee. This farmer gets the animals hide however, and this usually brings him a sum almost equal to the \$3.00 butchering fee.

After slaughter, the forequarters, hindquarters and the body is cut into 23 pieces, the butchering schedule being so worked out that at the end of each year every member has received every cut made, or a whole animal. In the event a member does not care for his full share, he receives pay at the end of the year for the meat he does not use. The price for this is 12 cents per pound, which is the "give-or-take" price agreed upon at the beginning of the year. Under the plan of the club its

members have a fresh supply of beef every week and this at a very moderate cost. Care is taken to slaughter nothing but first class animals, which usually dress around 300 pounds.

### Eastland County Farmers Buying Pure Bred Stock

Col. R. Q. Lee, owner of the Lee farm near Cisco, is a believer in Thoroughbred stock and recently purchased three registered billy goats of the Angora breed, which he has placed on his farm. Mr. Lee recently placed 104 high grade sheep on his farm. Walter Ray also of Cisco, bought three of the same breed of goats as those purchased by Lee for his farm. Five of the goats secured by Lee and Ray were brought from Oregon by Riddle Bros., well-known Texas goat breeders, while the sixth was raised on the Riddle ranch from original Oregon stock.

Col. Lee is attending the National Dairy association at Memphis, Tenn., where he is making a study of the dairying problem as he is at this time building up a fine dairy herd on his Eastland county farm.

The British army is going back to red coats, according to a war office announcement. We hope they have better luck with that costume this time.
