## INJUNCTION AGAINST ROAD SUITS ASKED

### WINE AND BEER TO BE ISSUE IN NEXT ELECTION

Nationwide Campaign for Repeal of Volstead Act to Be Made by Wets.

**CLEVELAND, Ohio, Jan. 18.**—Beer and wines will be the paramount issue of the next congressional elections in November.

In an exclusive interview today, Major Fred W. Marcolin, assistant to William H. Clayton, director of the Association Against Prohibition Amendment, Inc., made this prediction to the United Press, in telling of the nationwide campaign planned to force the repeal of the Volstead act, and assure the return of beer and light wines.

"The association, with a membership already more than the total number of prohibition votes ever cast in a national election, is prepared to fight every congressional candidate who opposed 2 3/4 per cent beer and light wines," said Marcolin, who is in charge of the activities in Ohio.

"We need only fifty more members in the house to assure repeal of the Volstead act," he declared.

### THURBER MAN USED AS SHIELD FROM BULLETS

**THURBER, Jan. 18.**—Bill Christian, stock clerk for a local hardware firm, figures he is one lucky person.

Monday afternoon Christian, with Leslie Bland, a negro helper, was busy in the warehouse when Beatrice, wife of Bland, appeared at the front door and took five shots from a Colt .41 at the industrious Leslie.

Only one of the shots took effect—in the sleeve of Leslie's overshirt. More serious damage was averted by the negro when he made Christian an unwilling shield against the irate woman's intended target.

Beatrice was taken in charge by local officers. It is said that domestic infelicity was the cause of the affair.

### DEATH PENALTY FOR JITNEY MAN'S MURDER UPHOLD ON APPEAL

**AUSTIN, Jan. 18.**—Carl Parker, given the death penalty for the murder of Mortie Conroy, jitney driver, on Feb. 3, 1921, will hang at Houston unless Governor Neff interferes with the carrying out of the decree of the court, the court of criminal appeals having overruled Parker's motion for rehearing. Parker, in asking for a rehearing, contended that the trial court should have submitted to the jury the question of voluntary character of the defendant's confession, and that the trial judge erred in not doing so. This was the sole contention made in the motion for rehearing.

In the opinion overruling the motion, which was written by Associate Judge Lattimore, it was stated:

"We believe that when the accused takes the witness stand on his trial and affirms under oath the truth of the matter contained in his confession, the question of whether such a confession was freely and voluntarily made is no longer material."

### KEEP YOUR CHICKENS IN OWN BACK YARD, RESIDENTS TOLD

As the result of numerous complaints from wrathful residents whose premises have been invaded recently by a horde of hungry chickens, the city authorities are urging that all persons having chickens and other poultry keep them confined. It is pointed out that it is a violation of the city ordinance to permit poultry to run at large and that a \$20 fine is provided in the ordinance in case of conviction.

Where complaints of this nature are filed in the future, it is stated that the city will have no option, under the city ordinance, than to prosecute the case.

The reports of the chicken depredations state that a number of Ranger residents have attempted to beautify their lawns and premises with flowers, but that their efforts have largely been wasted by poultry invasions.

While in the city the state inspector stopped all dairy wagons as they entered the city in the morning and obtained samples of the milk. Milk samples were also taken at restaurants and other places and forwarded to Austin for examination. ### Police Station Robbed of Arms and Officers Kidnapped; Prisoners Freed.

**DUBLIN, Jan. 18.**—Armed raids in the south of Ireland today were feared to be the first signs of Republican opposition to the Irish free state.

The police stationed at Charlestown, in county Mayo, were attacked by armed men, who seized quantities of arms and ammunition and kidnapped three policemen.

Two visitors to the Cork jail suddenly produced revolvers and forced the wardens to release the Republican soldiers under arrest for shooting a constable. The men escaped after the rescue.

**AUSTIN, Jan. 18.**—The court of criminal appeals today took final action in the Jewel Redwine case from Eastland county, when it overruled a motion for rehearing, and upheld the validity of the parole law. Redwine must now serve out his sentence of eighteen years for murder.

He sought to set aside Governor Neff's order revoking a parole which had been granted him by Governor Hobby, his contention being that the governor was without power to revoke a parole. The court held that the governor was clothed with such power.

Redwine was in Austin several weeks ago, and pleaded with Governor Neff to cancel his order revoking the parole. His request was refused.

Redwine was convicted in 1920 of a murder at Gorman and after serving about six months, was paroled by Governor Hobby. He was re-arrested last summer at Cisco, when Governor Neff claimed he had violated his parole.

## COMMISSIONERS AFFIRM BONDS ENTIRELY LEGAL

"Concerted Movement to Prevent Work," Alleged as Reason for Suit.

**EASTLAND, Jan. 18.**—An injunction restraining "the plaintiffs and all other persons with whom they may be acting from harassing and filing unwarranted suits against this defendant and the commissioners court of Eastland county" is asked by Judge Starnes and the county commissioners in their answer to the Chastain, Judkins & Chastain suit seeking annulment of all road bonds in excess of \$500,000, which answer was filed Tuesday afternoon in the Ninety-first district court.

The court's answer waives issuance of citation and service thereof, and requests a speedy trial, in order that legal delays to the construction of the county highway system may be overcome.

**Issue is Legal.**

It affirms that the bond issue is legal, under the constitution, the general laws of the state and the special road law passed for Eastland county, and denies all the allegations made by the plaintiffs.

It is specifically denied that the tax levy is unconstitutional and that the bond issue is excessive, and in proof says that the record of the bond issue was made up and presented to the attorney general of Texas for approval and that it was by him "approved and held to be regular and in accordance with law."

**Statistics Quoted.**

The authorities for the bond issue and the tax levies are given as article 637-a-b-c of chapter 2, revised statutes of Texas, under which commissioners' courts are empowered to levy all necessary taxes to create sinking funds and pay the interest on the bonds. Article 8, section 9, is quoted as providing that legislatures may authorize an additional ad valorem tax for the maintenance of public roads, and in this connection a special road law for Eastland county was passed authorizing such levies.

The answer charges that this suit is part of a "concerted movement upon the part of some individuals" with the expressed purpose of preventing the further building of public roads in this county, and it is alleged that these suits threaten to cause untold waste and loss to the county, including withdrawal of federal and state aid on the Bankhead highway.

For this reason, the injunction against further suits is asked.

## SOLDIER BONUS BILL TO FOLLOW ACTION ON DEBT

**WASHINGTON, Jan. 18.**—The senate will take up the soldier bonus bill as soon as possible after the foreign debt refunding bill has been disposed of, Republican senators decided today in a secret caucus. **Action Not Guaranteed.**

Senators attending the conference emphasized that the vote was to take up a bonus bill. This means that the conference did not go on record as approving the measures passed by the house and sent back to the senate finance committee last July at the request of President Harding.

Much of the time of the conference was understood to have been taken up with a discussion of the methods of supplying the money for the bonus. No decision was reached but the discussion was said to have revolved largely around funds to be derived from the foreign debt refunding, the imposition of a sales tax or some other form of taxation.

# FATTY HAS HAD FOUR MONTHS OF SIMPLE LIFE

### Trouble Over Death of Virginia Rappe Said to Have Broke Him.

SAN FRANCISCO, Jan. 18.—The past four months have been the quietest in the life of Roscoe ("Fatty") Arbuckle.

Up until his arrest just four months ago the famous film comedian led a care-free existence.

"The party's the thing!" was his motto, according to his friends, and he always sought to get all the fun available out of life.

He staged parties galore, they say, in the old days.

Then came almost three weeks in jail. During this time "Fatty" talked to no one but his counsel. He had lots of time to think.

Freed on bond when the charge against him was reduced to manslaughter, he went to his Los Angeles home with his wife, Minta Durfee, who came from New York to his side when the storm broke about him. She, who had been separated from him for three years, has been his constant companion ever since. She sat through every session of his first trial and was with him when he arrived here for his second trial.

"Fatty's" career has been a picturesque one.

**Born in Kansas.**  
He was born in Kansas in 1887. He early began to act and toured with stock companies and finally had a company of his own. Later on, when the "movies" began to take hold, he started with Keystone, at \$3 a day, as an extra man. Later he got to be a leading man and a director.

That "extra" man, Arbuckle, was quite a different man from the pie throwing "Fatty" in whose honor film producers and exhibitors tendered a banquet in Los Angeles Feb. 16, 1917, on the eve of his departure for New York.

"Fatty" became a connoisseur of motor cars. He always bought cars that could speed, but the average "cop" passed "Fatty" up most of the time, they were so rapt in astonishment at the sight of his cars. This was the result of his purchase of five different custom-built bodies for his various cars, and he always insisted on shining nickel and loud colors.

"Fatty" gave the world another thrill early in 1919 when it was announced that he had been signed up for three years by Adolph Zukor for \$3,000,000. Whether this was to be all salary or was to include the turning over of a certain number of films to Famous Players-Lasky was never made public. This was the biggest contract indulged in by Zukor up to that time.

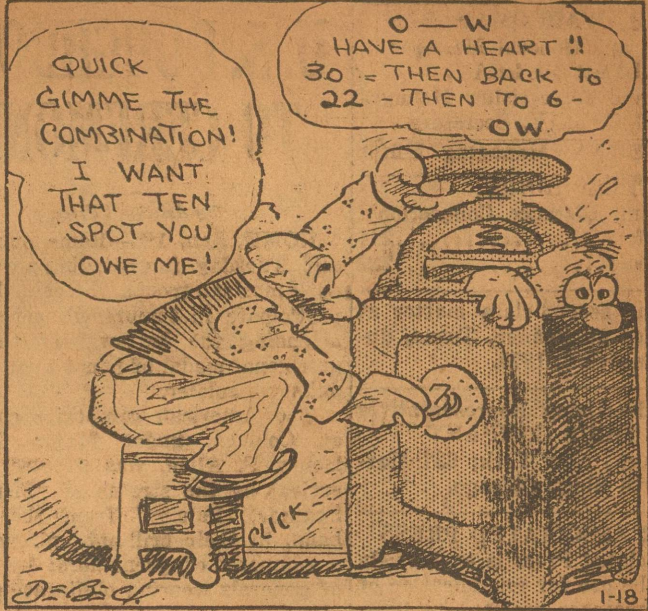

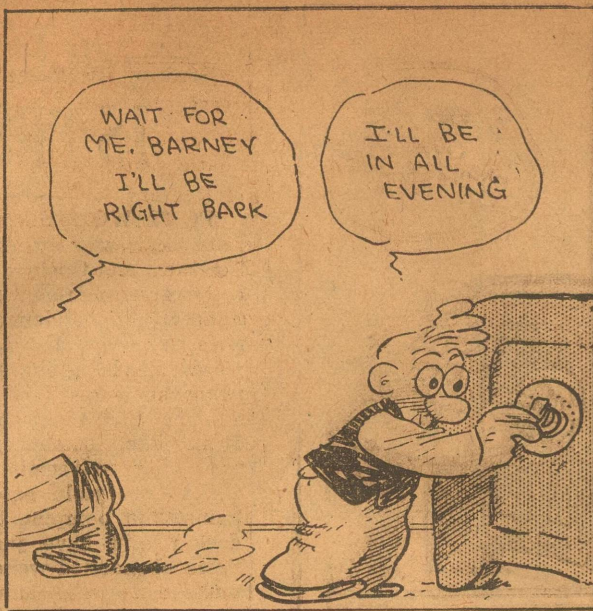

**Bought Old Mansion.**  
While "Fatty" was getting quickly wealthy, several years ago, he purchased the magnificent West Adams street home of the Miners.

A more Bohemian atmosphere was created with "Fatty's" purchase of the house, for which he is said to have paid almost \$100,000. From that time until his arrest party followed party. The motion picture colony when bored could always find relaxation in "Fatty's" home. Wine and song were always there to charm the boys and girls.

Late in 1920 "Fatty" sailed for France and was greeted there so enthusiastically that he was severely injured. A number of men in a crowd attempted to carry "their hero" on their shoulders, but they did not calculate his avoiderous carefully enough, and "Fatty" fell to the pavement.

Early last year came rumors from

## Barney Is Hard Pinched for Money

the East that he was about to be married, but "Fatty" denied this by saying he was still married to Minta Durfee, the actress, and had no desire to commit bigamy. His arrest brought about a reconciliation.

Arbuckle now is "broke." The money for his defense was furnished, it is understood, by Joseph M. Schenck, well known producer, who owns Arbuckle's contract. He has declared that he put up the money because he was a friend of the comedian and because he believed in him.

### PREACH GOSPEL FROM PULPIT NOT FASHIONS, SAYS WOMAN EVANGELIST

Miss Frances B. Adams, widely known woman evangelist, who is conducting a series of religious meetings in this city, today stopped talking so much in Boston, asks the ministers of the about women's fashions from the pulpit and to confine themselves to preaching the Gospel. "The old-fashioned preaching of the Gospel is needed today to bring about a renewed interest in religion. The pulpit is not the place in which to settle fashions. It is the place to save souls," she asserts.

### TEN THOUSAND ATTEND GOOD ROADS CONVENTION

CHICAGO, Jan. 18.—No single improvement has done more for the general good of the country than the development of our highway system, President Harding told delegates attending the national good roads conference, which opened here today, in a personal message brought to Chicago by the president of the American Road Builders' association. The congress opened in the Coliseum here, with more than 10,000 delegates in attendance. Among them were governors of forty-eight states and mayors of 4,730 cities and towns, either in person or represented by an official delegate. All Canadian provinces were also represented and builders from all of the island possessions of the United States were on hand.

### M'INNIS IS CLEVELAND'S BEST BUY SINCE SPEAKER

CLEVELAND, Jan. 18.—James C. Dunn, president of the American League club, thinks the deal whereby the Indians acquired Jack McInnis, star first baseman from the Boston Americans, is the biggest thing he has done since he purchased Tris Speaker back in 1916. "McInnis is one of the marvels of baseball," said Dunn. "He is bound to prove a tower of strength to our club on the defensive, save us many a ball by his plays and I'm not so sure he won't hit as hard as the next one. "With McInnis to bolster up our infield, I feel certain that the Indians are destined to win the 1922 pennant."

### OFFSET BEING DRILLED TO GASSER NEAR DUBLIN

DUBLIN, Texas, Jan. 18.—The Texas-Iowa Oil Syndicate's Laney No. 2 is attracting attention in this section. This well is located fifteen miles east of here in Erath county and is now drilling below 1,200 feet. The Laney No. 2 is an offset to the Laney No. 1, which was drilled during the latter part of 1919 to a depth of 2,690 feet, when 2,000,000 feet of wet gas was struck. The well was abandoned, however, when the casing telescoped. Several unsuccessful attempts were made to remove the casing from the well. Several Comanche county citizens are financially interested in the drilling of the No. 2. The syndicate owns 6,000 acres surrounding the well.

### OLD OIL FIELD GAME BOBS UP IN CININNATI

CINNINNATI, Jan. 18.—According to a tale that comes from Cincinnati insurance men, there is a new type of accommodating automobile thief operating in this city. This crook first finds out if you want your automobile stolen, and if you

do, he is only too willing to pull off the job with neatness and dispatch and sends no bill for services rendered. According to the story as has been related to the police department, an insurance man getting it from a client who resides in the West End, one of these de luxe crooks entered the client's store and asked if it was his machine which was parked in front. Upon nodding yes, the

storekeeper was asked if it was insured against theft. Again he nodded yes. "Do you want the car stolen?" the crook asked. "What for?" roared the storekeeper. "So you can collect the insurance," reported the crook. "No, thank you," came the motorist's reply. "All right no harm done, thank you," said the crook, bowing his way out of the store. Now, who can beat that!

TOWN FARMING.

What activities County Farm Agent Bush plans for the boys' and girls' agricultural clubs he will organize in the Ranger schools today are at present unknown.

But there are two obvious divisions of husbandry which might be practiced on a small scale and combine some profit with instruction.

These are gardening and poultry raising.

Gardening is a hobby which all sociologists recommend. Hereabouts, of course, it must wait on rain. But it is probable that rain will again fall in this section and possibly before spring opens up. And if precipitation does make conditions propitious for gardens, every family should have one. It is healthful exercise. It cuts down the grocery bill, and besides that, the eatables have an indescribable tang and relish that comes through the knowledge that they are one's own product, cajoled from a benevolent Nature. A garden is good instruction for a boy, and under proper direction and with the spur of competition which should be provided by an exhibition, with prizes for the winners, would become a pleasure, instead of a mere sentence to exercise with the hoe.

As to poultry raising, therein lies a way for gradual progress into community prosperity. There is one large poultry farm here. It wants competition. It wants it because the market for poultry products is worldwide, and if there is sufficient competition established in one locality, then an industry is established, which facilitates marketing. There are hundreds of oil workers who maintain families in Ranger, and are away from home, a good part of the time. Suppose those families took an interest in chicken raising. Suppose the countryside were dotted with small poultry farms. They would not enrich their owners, to be sure, but they would go a long way toward supporting the family, and it would be "pickup money" added to the income. It would be the many little things that are conducive to enjoyment of home life. Let's by all means encourage the small poultry raisers. Some of them will grow into big poultry raisers. And all will be benefitted—individually, as will the community as a whole.

ROME WELCOMES U. S. DOUGHBOYS TO CEREMONIAL

ROME, Jan. 18.—Rome outdid itself Tuesday in extending a welcome to American troops who came here to participate in tomorrow's ceremonies attending the bestowal of the congressional medal of honor upon Italy's unknown soldier. The American composite company at Coblenz, under Major General Henry P. Allen, was greeted on its arrival by the strains of "The Star-Spangled Banner" from the Royal band, in their brilliant uniforms; by a company of grenadiers; by scores of generals wearing obliterating medals; by squadrons of cavalry and a brigade of infantry. It was the most spectacular event Rome has seen since the war.

COUNTERFEITING PLANT FOUND ON STATE FARM

SAN ANTONIO, Jan. 18.—Discovery of a crude counterfeiting "plant" in a prison cell on a state penitentiary farm in South Texas last week was made public Monday by Edward Tyrrell of the secret service, who cleared up the case after several weeks of investigation.

Two negro convicts operated the "plant" on an upper bunk in their cell, while scores of other prisoners were ignorant of the existence, it was said.

The "plant" consisted of a plate for a \$10 bill, which one of the negroes made out of a piece of metal. Crude materials, such as green paint, turpentine and black ink were employed in the counterfeiting. Mr. Tyrrell declared today that the negro had apparently "engraved" the plate from memory, as no \$10 bill had been in circulation among the convicts of the farm. The bogus bills were put in circulation by convicts who would be released on serving their terms. An odd angle of the case is that the two made nothing out of their activities, as it is believed they gave the bills away.

The first clue was obtained recently in Dallas with an arrest of a man.

NEW YORK, Jan. 18.—A robber olution, calling on the secretary of state for full information concerning the costs of land armament maintained by the nations that owe the United States large sums of borrowed money, was introduced in the senate Monday by Senator McCormick, Republican, of Illinois.

"The American people should have the full information," McCormick said, "that they may form just conclusions as to the remedies for the chronic deficits of European States."

RUSSIAN DEVISES NEW ELECTRIC TRAIN

Here is shown the first complete electric train devised from plans drawn by I. I. Makhonin, a Russian electrical engineer. Motive power is supplied by great electro-motors capable of 3,000 horsepower each. The run from Moscow to Petrograd, a distance of almost 500 miles, is made without stopping to reload the motors. Details concerning the construction of these powerful accumulators are kept secret, the Soviet government, which sponsored the construction of the electric train, refusing to allow the information to be made public. Below is J. I. Makhonin, the inventor.

BOOKMAKERS FOR THE SIGHTLESS HAVE QUEEREST PRINTSHOP IN U. S.

LOUISVILLE, Ky., Jan. 18.—Louisville has a print shop such as is found nowhere else in the United States. Its books for elementary grades weigh fifteen pounds; its type setting machines have only six keys as compared with the ninety-odd combinations possible in the average type setting machine, and a hammer and nail punch are the tools of the proof reader. Miss Susan B. Merwin, superintendent, says all this is true, and she probably knows.

The publishing house with these queer devices is the American Printing House for the Blind, and because of its publications thousands of blind persons read what otherwise would not be available to them.

The federal government pays the house \$50,000 annually, and for this amount books are provided for fifty-six schools for the blind throughout the country. As an indication of the volume of work put out by the house, the report for the last fiscal year shows that 3,489,786 pages of printed matter and 12,580 bound volumes

were produced, and in addition 4,211 pamphlets and 1,044 copies of musical selections were printed. The type setting machines have only six keys because the alphabet for the blind comprises six points or dots, with each letter consisting of from one to six dots, in different combinations.

Sheet brass is used in the machines, the words being punched in the metal. The plates go from the machines to the proof reader, who removes all mistakes with a hammer and a nail punch. Plates then are sent to the press room, where they are placed on cylinder presses, which use paper that has been immersed in water for twenty-four hours so that the texture will not be torn.

Lack of a single code complicates the work of the establishment, Miss Merwin says. There are three codes—the New York Point, the American Braille and the revised Braille. Type of all these systems is used at the plant.

Mrs. Mary Freed, first woman magistrate in Atlantic City, N. J., says she will carry a gun when she takes office.

'COMEBACK' OF OLD WELLS HERE IS PREDICTED

FORT WORTH, Jan. 18.—J. A. Leidecker, who drilled forty wells in Hogtown and thirteen in Sipe Springs has returned from California and is purchasing abandoned holes in Desdemona and Ranger, which he intends to clean out and put on the pump.

"The high-grade oil produced in Ranger and Desdemona makes these old holes extremely valuable, provided they yield enough oil to pay the cost of pumping them," said Leidecker. "I have just taken over three abandoned wells in Desdemona put them on the pump and they are more than paying for themselves. One of them is netting thirty barrels daily."

"I intend to open an office in the F. & M. building and try to get in touch with the owners of dozens of abandoned wells in the Ranger, Desdemona and Breckenridge fields.

"The total output of the North Texas fields will be largely increased when all the abandoned holes around Leary, Frankel, Breckenridge, Ranger, Desdemona and Breckwalker are resurrected, which surely will be done," he said. "North Texas' high-grade oil is too valuable to be overlooked, and every hole capable of producing three or four barrels will be worked over eventually."

AUTO TOURIST CAMP PROVES BIG SUCCESS

By International News Service CHILLICOTHE, Mo., Jan. 18.—The auto tourists' camp is a paying proposition, according to figures compiled at the camp here the past year.

"Up to Dec. 15, last year, 23,520 tourists passed through Chillicothe and 3,140 of this number took advantage of the many conveniences at the free tourist camp ground," declared Harry W. Graham, secretary of the organization.

ST. LOUIS DOCTOR HELD FOR MYSTERIOUS MURDER

ST. LOUIS, Jan. 18.—Dr. R. X. McCracken, former county coroner, was arrested Monday in connection with an investigation into the deaths of Mrs. Clara Richwine, aged 35, and her father-in-law, William Richwine, aged 74, who were found shot to death in their home here last Monday afternoon.

The questioning of a woman friend of Mrs. Richwine by police preceded the arrest of Dr. McCracken. The nude body of Mrs. Richwine with a bullet hole in her head, and the body of her father-in-law were found in the home by Mrs. Richwine's son, Earl Reicklein, aged 12, upon his return home from school.

CHEYENNE, Wyo., Jan. 18.—City Commissioner W. H. Owens, sitting for the first time as a magistrate, ruled that it is not a man's privilege to break down the back door of his own home with an ax at 1:30 o'clock in the morning when denied admission by his wife, and fined Louis Caldwell \$5 for disturbing the peace. The charge was preferred by Mrs. Caldwell.

LEGGER PICKS COP FOR CUSTOMER, GETS JAILED

OWENSBORO, Ky., Jan. 18.—When William Gray is alleged to have attempted to sell Patrolman Arthur Bollinger a pint of moonshine liquor at an early hour today he was placed under arrest.

The officer was in civilian clothes. Gray, it is said, told the police it was his first attempt as a salesman. E. C. Aubrey, G. H. McDaniels and Charles McCulloch were arrested today on charges of having made moonshine whisky in a storeroom in the western section of Owensboro.

NIGHT-GOWNED PRISONER ESCAPES FROM HOSPITAL

CHICAGO, Ill., Jan. 18.—With the thermometer as low as it has been this winter, Walter Wallace, ex-convict, Monday jumped out of a window of the county hospital in his night-clothes and disappeared. Wallace had been wounded seriously in a pistol battle with police. He was guarded at the hospital by a patrolman. Going to the bathroom, he dropped through a window to the ground. No trace of the night-gowned prisoner could be found.

ANNE STILLMAN LEAVES FOR PARIS

"Good-bye, my darling little baby brother!" Miss Anne Stillman buried her face against the rosy cheek of Baby Guy, in whose behalf his mother is now scouring the frozen Canadian wastelands. She almost smothered the youngster with kisses. Baby Guy, over whose advent into the world one of the greatest American divorce cases has been instituted, was at the pier to see his sister off on the steamship Finland.

MAN WHO ROBS SLEEPING BROTHER LOSES OWN CASH IN FAKING STORY

ST. LOUIS, Jan. 18.—Thoughts of "brotherly love" must have been far from the mind of Otis Hobbs, 37, as he lay abed beside his brother, Arlie, in their room at 4214 Olive street. If such were not the case, he would be richer today by \$12 and his watch, which he lost while trying to make it appear that a burglar, and not himself, had taken \$93 from beneath Arlie's pillow. Otis convinced everyone but Capt. John Hoffman and Sergeant Stanton of the Newstead Avenue station that a burglar took Arlie's money, and his own, too.

Arlie's money. It was in the hedge. When they looked for Otis' money it was gone.

Arlie, who manages a grocery, and the representatives of the latter concern, said they would not prosecute. Police held Otis for questioning, however.

'SPIRIT' MAKES WRONG GUESS TO POLICEMAN

ST. LOUIS, Jan. 18.—"You are having trouble with your husband. The spirit suggests that you take a few shots at him."

This advice rather startled Policewoman Wilson, unmarried, who was sent yesterday to 4355 West Bell place to investigate the tales of mystic power, voodooistic preachments and weird communions with spirits possessed by two negro women.

Reports had come to police that the negro colony there had been considerably wrought up of late, due to advice emanating from the spirit world. It was said that the teaching of voodooism, healing claims and talking with the spirit world were wrecking otherwise happy homes. Family skeletons were bared and ideals and idols wrecked.

Policewoman Wilson was satisfied that the mystics were not 100 per cent guessers in her case, and she "flushed" to officers outside the house.

Frances Dade, 36 years old, and Blanche Spencer, 38, were arrested and charged with violating the city ordinance prohibiting fortune telling. They will be arraigned today.

PARADISE OPENS FOR STREET URCHINS WHEN PENNY BAG BURSTS

CHICAGO, Jan. 18.—The small boy's dream of Paradise came true here when a bag containing 10,000 new pennies split and the coppers rolled all over the street.

It was being pushed up a wooden runway into the Illinois Trust Company bank, when the bag broke.

Scores of small boys, and many not so small, yelled and there was a small riot until traffic police cleared the street and white wings were called to sweep the street.

The bank announced that almost every penny was recovered. But there was an unusual number of lollypop sucking youngsters in the neighborhood for some reason.

BOY FINANCIER SOUGHT FRANC'S WORTH OF MARKS

PARIS, Jan. 18.—Even the school-boys of Paris now speculate in money of foreign countries. The fever which has prompted French people of all classes to invest their francs in German marks, recently led a 12-year-old boy to one of the large Paris banks where he asked for "a franc's worth of German money."

The clerk was amazed at the youthful request and stuck his head out of the cage so that he might better see the boy whose head scarcely reached the window ledge. The child continued, as though seeking advice: "Perhaps it would be better if I bought Hungarian money. I read in the paper this morning that marks had gone up but Hungarian money hadn't, but Hungary has lots of corn and I think her money will go up soon, don't you?"

The clerk told the child the bank did not transact business on such a limited scale, and advised him to invest his franc in candy.

WAITER SELLS DREGS OF DRINKS LEFT ON TABLES

SAN FRANCISCO, Jan. 18.—The admission of Vincent Fralocetti, cafe waiter, to a United States commissioner, that he saved the liquor left on the cafe tables by guests and sold it to other guests at 50 cents a drink, gave prohibition enforcement agents a new angle of the drink situation to consider Wednesday. He was bound over to the United States district court on a charge of violating the Volstead law.

Fralocetti said he did not segregate the liquors that he found, but mixed them together in the same bottle and that as a result he accidentally hit on cocktail combinations that brought a brisk demand.

COLUMBUS TRAINS AT MACON

COLUMBUS, Ohio, Jan. 18.—Manager Clarence Rowland of the Columbus club of the American association said today that he plans to have the players report for spring practice on March 8. The camp will be Macon, Ga. Work of lining up exhibition games for the Senators is under way.

SQUIRREL GROCERY PATRON

PUTNAM, N. J., Jan. 18.—One of the most regular patrons at the green groceries store here kept by Harry Chew is a gray squirrel. Every day the squirrel comes to the store, which is near the center of the business district. It climbs upon the ledge of the show window and then hops to the step when the door is opened. Whenever Chew sees the squirrel he opens the door and the frisky little customer makes a streak for a box of assorted nuts. He picks out the best and biggest nuts and departs with all that he can carry.

# Every Detail Pleasing at Shrine Club's Bridge Tournament and Ball

Once again the Shrine club has staged a wonderful entertainment. At 1 o'clock this morning the curtain dropped, the audience departed, and those who had even the slightest part in making this event a success, were thrilled by the plaudits of the participants. For the Shrine club bridge tournament and dance, reads like a miracle tale; it was an epic of action and of achievement. If you had part in it, you can never forget it, but perhaps you would like the story of it from another's angle of vision, so that in its reading you may again relive its splendor.

At 8:15 the mezzanine floor of the Gholson hotel began filling up, guests were registering, hostesses were arranging tables for bridge, friends were forming groups here and there, and when the bell announced "it's on" bridge and 500 began. There were tables everywhere and the members of the receiving line and the hostesses for the different clubs, whose names were announced in Sunday's paper, busied themselves in seeing that every table was filled and that everybody was having a good time.

The games clicked merrily along until 10:30, at which time the score was counted. Mrs. John Moyer, hostess for the Amusu club, made ladies high score in bridge, receiving a lovely bulb bowl as a prize. A similar prize was awarded to Mrs. Fred Dreinhofer, who made high score in the 500 game. Mr. J. B. Haden made the gentlemen's high score in bridge, and Mr. S. B. Tunnell the gentlemen's high score in 500, both receiving as prizes a box of cigars.

**March Was Beautiful.**  
Following the awarding of the prizes the grand march was formed, which was led by Dr. Carl Wilson and Mrs. Arthur Kinard. Marching

the entertainment committee and the others who worked with them to make this a success, so that other might have an evening of pleasure, we feel like saying "God bless them all."

Among those present were: Mr. and Mrs. A. G. Jury, Dr. and Mrs. A. N. Harkrider, Dr. Carl Wilson, Mrs. H. B. Wilson, Mrs. W. S. Knott, Mrs. M. Alexander, Mr. and Mrs. S. D. Cohen, Mrs. R. B. Orth, Mrs. Robert McCoy, Miss Aubrey Cornell, Nate Davis, Lon Garrett, William McCauley, Charles Wells.

One could not conclude this story without a tribute to the Mile Hi orchestra. It was wonderful. It did not depend upon its rhythm to create interest, for so melodic was its music that its foremost suggestion to the dancer is a suggestion of gliding, and needs only to be heard to enshrine itself in the hearts of its listeners.

Nor could one for a minute forget that clever artist, Mrs. R. C. McCoy, whose "whimsicalities" are charming, and whose voice holds its audience spell bound, until the last note sighs itself to rest—she sang, and sang again, and then we sorrowed because she would not sing again. Mrs. McCoy was accompanied by Mrs. Vincent Wakefield.

During the evening punch was served—and then when you have read the list of those present, you have a story of the latest Shrine club triumph and, like Tiny Tim, when we think of those members of

# PROFESSORS FIGHT WHEN WRONG DOORBELL IS RUNG

NEW YORK, Jan. 18—A slambang thrilling battle for the pedagogic championship ended in a draw, it was testified yesterday in Washington Heights court.

The contenders were Professor Ralph C. Bennett and Professor William H. Carpenter, both of Columbia. Who's Who in America gives Professor Bennett the titles of D. C. L., LL.D. and A. B. The same authority grants Professor Carpenter an A. E. and Ph. D. Ringside weight and length of reach are not given, however.

Round One began extremely early on Dec. 19, when the doorbell of Professor Carpenter's home at No. 417 West One Hundred and Seventeenth street rang and rang and kept on ringing. Professor Carpenter came out, equipped with a cane.

He is 67, but it was testified that he swung a wicked cane on the wrist of Professor Bennett. Bennett, who is 43, countered with a left to the eye. It developed yesterday that Bennett, who lives next door at No. 421 West One Hundred and Seventeenth street, had thought it was his own doorbell he was ringing.

## SMALL HOUSE BURNS ON CADDO ROAD; CHEMICALS STOP FLAMES' SPREAD

The two-room dwelling of Mrs. Millson, one mile from the city on the Caddo road, was destroyed by fire late last night together with all furnishings. The occupant has been visiting at the home of her daughter in Rising Star since Christmas and no one was in the house at the time of the fire. The loss on both the house and the furnishings is estimated at approximately \$150. The house is said to have been owned by Tom J. Adams.

The arrival of the fire department with chemicals saved the homes of R. R. Newton and Henry Mitchell on either side of the burning dwelling, as well as other houses in the vicinity. The nearest fire plug is said to be approximately one mile from the scene of the blaze and the house was practically destroyed when the fire department arrived there.

The alarm was turned in at fire department headquarters by passing motorists. Neighbors in the vicinity are arranging to express their appreciation to the firemen for their work with gifts of cigars.

With the names and ages of 165 women—matrons and old maids of the city—on the poll tax books, extra precautions are being taken at the Chamber of Commerce to guard this record against burglary, theft or mischievous prying. Such a list of ages, it is felt, would reveal many closely guarded secrets and would be in great demand at sewing circle gatherings or other feminine affairs where "mewing" is indulged in. Such a list, it is pointed out, would also create consternation among many of the elderly Beau Brummels of Ranger.

For this reason, if you want to know how many poll taxes have been paid, you will have to take Josephus Evans Temple Peter's word for it without any age statistics. If, however, any man or woman declares that poll tax receipts are not necessary for them to vote in the summer election, the chances are that they have become 21 years of age since Jan. 1, 1921, or have passed the age limit of 61 years of age.

Forty-two tax receipts were issued at the office of the deputy tax collector yesterday afternoon and this morning, bringing the total number issued to 472.

# MORE THAN MILLION FORDS SOLD LAST YEAR

The sale of Ford cars, trucks and tractors increased 10 per cent in 1921 over the preceding year and there is every indication that the sales in 1922 will show an even larger increase, according to the Boston Financial News. The sale of cars, trucks and tractors for 1921, totaled 1,093,000, of which 1,050,740 were produced during the year by the Ford factory and assembling plant.
