SHANTUNG PACT FINALLY SIGNED AT WASHINGTON

Document Written in English,
Official Language of Arms
Conference.

By Associated Press.
WASHINGTON, Feb. 4.—The treaty between Japan and China embodying the settlement of the Shantung controversy was signed late today in the Hall of the Americans at the Pan-American union by the representatives of the two powers. Attending upon the signing were Arthur J. Balfour, head of the British arms delegation, and Secretary Hughes, whose good offices together with the intercession of President Harding brought about the settlement.

The treaty was signed for Japan by Admiral Baron Kato, Ambassador Shidehara and Vice Foreign Minister Hanihara, and for China by Minister Sze, Minister Koo and Chief Justice Wang. Two copies of the treaty were signed and sealed, one to be deposited in Tokio and the other in Peking.

The treaty is in English and signed in English, the English language having been adopted as the official language both for the negotiations and for the treaties.

THRONGS WAIT IN VAIN TO HEAR NEW POPE NAMED

By Associated Press.
ROME, Feb. 4.—The balloting of the members of the sacred college for the successor to Pope Benedict XV today again proved fruitless. Shortly before sundown the vast crowds which had assembled around the Vatican and St. Peter's dispersed with great disappointment than on yesterday evening, when the failure to select a pontiff was announced by the black smoke issuing from the Sistine chapel.

Gendarmes and troops had difficulty in untangling the intense assemblage of pedestrians and vehicles of all sorts that were massed together, awaiting throughout the day the final announcement, and although there was considerable disorder only a few minor accidents occurred.

No definite announcement has come from the conclave as to the course to be pursued on Sunday. In some quarters it is believed the usual work of the conclave will be suspended for religious ceremonies but as cardinals make their own rules of procedure, they may continue to ballot.

EDUCATORS RUN SKIN GAME OVER NEGRO DISABLED

By Associated Press.
NASHVILLE, Tenn., Feb. 4.—W. J. Hale, president of the State Agricultural and Industrial Normal school for negroes, and H. N. Robinson, coordinator and training officer at the school, both negroes, are under \$2,500 bond each for preliminary hearings Wednesday before the United States commissioner on charges of unlawfully taking funds from former service men taking vocational training at the school. Some of the 270 negro former service men alleged that Hale loaned them money on short time and charged them 240 to 300 per cent interest, taking the amount from their government checks, which Robinson conspired with.

FIFTY-EIGHT INDICTED; SMALL NEWS OF ARRESTS

So far as can be learned by daily, diligent and determined inquiries at the office of the sheriff in Eastland, only two arrests have been made as the result of the fifty-two felony indictments and six misdemeanor indictments returned by the grand jury Wednesday afternoon.

It is understood that papers have been served on one man here, indicted on several misdemeanor counts, but no official confirmation can be obtained from the sheriff's office.

16-YEAR-OLD BLAME AR THEFTS ON CALIFORNIA REN'S WILES

Claiming to have been led to ruin a California siren, a 16-year-old Dallas boy was arrested here yesterday afternoon by Constable Faircloth, Ray Faircloth and Deputy Sheriff Edmondson on a charge of stealing two automobiles from Dallas. The boy was lodged in a cell at police headquarters and is being held for Dallas officers.

Following his arrest here, he is said to have confessed to the theft of the cars, a Dodge touring car and a coupe, and to have claimed that he had committed the crimes in order to get money to visit a woman in California with whom he was infatuated.

The officers here stated that the boy had been working in a Ranger cafe for over a week after having here from Dallas in the coupe. He attempted to sell the coupe to the cafe proprietor, who insisted on a clear bill of sale and he returned to Dallas several days ago to procure it. He returned driving the Dodge car, with a bill of sale for the Ford, said to be his. Advice from an automobile theft bureau in Dallas state that it is a record of the Ford car but none of the Dodge.

FORT WORTH WOMAN DIES AFTER LEAP FROM SPEEDING MOTOR CAR

Special to the Times.
FORT WORTH, Feb. 4.—Mrs. M. Osborne, 32, wife of a local theater employe, found fatally injured on Fourteenth street Friday night by a police officer, received her injuries in leaping from a speeding automobile, according to a statement made today by Mrs. S. M. Dickson, who claims to have been an occupant of the car.

"Mrs. Osborne did not want to go to a party on the North Side," Mrs. Dickson is said to have told Assistant District Attorney W. H. Tolbert, "and when the driver refused to stop, she leaped out." The same machine was given by the witness. He thought Mrs. Osborne was stalled and did not stop when she struck the paving, the other woman continued.

It is understood that the woman is being detained as a witness while the officers are searching for the man.

Mrs. Osborne was found dying by Patrolman Acuff about 7 o'clock Friday night on Fourteenth street, between Throckmorton and Houston streets. She was unconscious from a deep gash back of one ear and her skull was fractured. She was rushed to a hospital, where she died a few moments later. According to the police, Mrs. Osborne left her husband, A. F. Osborne, at the Queen theatre about 5 o'clock Friday afternoon and is supposed to have gone to her home in the Lake View addition. The driver of the car is supposed to have gone to her home after her and to have brought her back to town, and it is thought that the woman leaped from the machine when the driver refused to stop to allow her to keep an appointment with her husband. Although considerable mystery still surrounds the case, the police do not believe the woman was murdered and admit that even though the driver of the car is found, criminal prosecution is unlikely.

The dead woman is survived by her husband and two children, aged 10 and 12.

BRADY WANTS SPEEDY TRIAL FOR ARBUCKLE

By Associated Press.
SAN FRANCISCO, Feb. 4.—District Attorney Brady announced today that he wanted the third manslaughter trial of Roscoe Arbuckle set for some time next week or at that latest Feb. 13, a week from Monday.

Twice juries have disagreed as to Arbuckle's guilt or innocence, the second trial ending yesterday with a 10-2 vote for his conviction in connection with the death of Miss Virginia Rappé.

WEDDING DATES KEPT HIS WIFE RIDING TRAINS

DENVER, Feb. 4.—For a wife to have one or two husbands might be excusable, according to the circumstances.

But four or five is too much for James Wickliff, who called upon Deputy District Attorney Pollock seeking relief from "spouse innumeration."

Wickliff says he married an Edna Carruthers in Joplin, Mo., about March 25, 1920.

"But, lo and behold, about six months afterward, I found she was Edna Hunt," he told Pollock. "I found she had married a man in California about two weeks before that time, and made a flying trip to Missouri in time to wed me."

"Then I began to dig deeper, and discovered that three weeks before she had married a fellow in St. Louis, and had speeded to California to meet victim No. 2."

"While I was busy running down the facts, she left my home, and started westward. I followed when opportunity afforded, and now she's living here, where I'm told she has another spouse, though I haven't had time to verify that yet."

Pollock is investigating the Denver angle.

Wickliff declares his wife has admitted the bigamous charges, and defies him to do anything about it.

FEET NOT NEEDED

By Associated Press.
PEORIA, Ill., Feb. 4.—New wiggles and shakes and not new dance steps, are the only desire of young girls and men of Peoria today, dancing instructors and dance hall proprietors told a committee of women's club members and city commissioners, working to decide on some form of regulation and chaperonage in the licensed halls.

An ordinance restricting jazz dances, shimmies and shakes was proposed.

Tons of Food Condemned by Authorities at Mexia

MANUFACTURING END OF LIQUOR TRAFFIC AT MEXIA IS BROKEN UP

Stills Aggregating 1,000 Gallons Daily Capacity Seized and Scores of Operators Held; Supply Cut Off at Source, Officers Believe.

By United Press.
TEAGUE, Texas, Feb. 4.—Heavy rain which fell over Freestone county most of the day caused a halting of the raids in moonshine territory east of here which since early yesterday have netted fifty-seven prisoners and eleven stills having a combined daily production capacity of 1,000 gallons.

Eighty-five arrests have been by state rangers and military and prohibition officers since the martial law area was extended to include all of Freestone county at 5 a. m. yesterday. However, twenty-eight of those have been released, leaving fifty-seven in custody.

Major Machen, judge-advocate general of the martial law district, and Clifford L. Stone, assistant attorney general of Texas, spent the day at Fairfield, county seat of Freestone county examining witnesses. Charges against those under arrest are expected to be filed in the federal court at Waco within the next few days.

Still at Coolidge.
A still was captured this morning in the vicinity of Coolidge, ten miles west of Mexia, and an arrest made. A large quantity of mash was confiscated.

With the prisoners and liquor making apparatus thus far taken, authorities believe they have virtually destroyed the production end of the illicit liquor industry which has done a thriving business in this section since the opening of the Mexia oil field and which was largely responsible for the declaration of martial law on Jan. 12, last.

Ring Broken Up.

Following the declaration, first attention was given to the apparently well organized ring whereby the liquor, was sold and distributed, but even after the ring had been seemingly broken up, liquor continued to flow in and around these points in copious quantities. Then authorities directed their attention to the backwoods of eastern Freestone county, which thus far had so well concealed the stills and their operations. Surveys of the tract were made by airplane, maps prepared and plans laid which resulted in the unexpected and successful raid of the last two days. As soon as weather conditions permit, the moonshine area will be further canvassed by authorities, in hopes of making further arrests and confiscations, although it is believed that those alleged moonshiners who escaped the first raid have made a clean getaway.

No Public Statement Until They Have Talked Over Miners' Invitation.

By Associated Press.
CLEVELAND, Feb. 4.—Railroad brotherhood chiefs will probably meet here early next week, it was learned today, to consider the invitation sent them by John L. Lewis, president of the United Mine Workers of America, asking the transportation brotherhood executives and other executives of the sixteen railroad organizations to meet the miners in a joint conference to consider combined action to combat further wage cuts.

While brotherhood chiefs would not make any public statement until they have formally conferred regarding the invitation, they probably will meet with the miners and talk over the situation. One railroad leader today pointed out the vital connection between the wage cuts threatened against the miners and railway employees, saying a prolonged tieup of the coal mines would paralyze the country's railroads, most of which depend on coal for fuel.

COURSE OF BULLET WHICH KILLED MOVIE DIRECTOR PUZZLES POLICE

By Associated Press.
LOS ANGELES, Feb. 4.—The entire force of detectives investigating the slaying of William Desmond Taylor, motion picture director, formerly known as Desmond Deane-Tanner, was sent out late tonight on a mission, the nature of which was not divulged at the police headquarters.

Up to this time the investigators said they were still unable to express an opinion concerning the identity of the person who shot the director Wednesday night in the living room of his apartments in an exclusive residence section near West Lake park.

"Open Verdict" Rendered.
The inquest held today lasted less than forty-five minutes and resulted in an open verdict, the jury declaring Taylor came to his death from a gun wound inflicted by an unknown person with homicidal intent.

Practically the only new development in the inquest testimony was that the bullet which took Taylor's life ranged upward after striking him about four inches above the hip and lodging near the shoulder. This indicates, according to detectives, that the slayer fired from a reclining position or that Taylor was bending over when the shot was fired.

Miss Mabel Norman was the only one of a number of motion picture actors and actresses subpoenaed who was called to the stand.

Mrs. Douglas McLean, one of those who told of hearing the shot, was at the inquest but was not called to the stand.

Visit Re-Enacted.
The force of detectives investigating the slaying of Taylor, with Miss Mabel Norman, film actress, late today paid a visit to the house where Taylor was shot to death. Miss Norman at the request of detectives re-enacted the scene at the Taylor apartments Wednesday night when she visited Taylor a short time before the time the police say the tragedy occurred.

A check was being made tonight upon the movements of several persons Wednesday night, it was stated, at least one of these being a man connected with the motion picture industry. It also was stated that an important witness had been located.

EX-WIFE IN NEW YORK.

NEW YORK, Feb. 4.—Mrs. E. L. C. Robins, former wife of William Desmond Taylor, slain Los Angeles motion picture director, tonight told of her married life with the murdered man, who she said then went by his real name, William Cunningham Deane-Tanner. She said she could throw no light on the mystery of his death.

SECOND HUN SLAYER ESCAPES FROM PRISON

BERLIN, Feb. 4.—Lieutenant Dittmar, a German naval officer convicted at Leipzig of having deliberately fired upon the survivors of a torpedoed ship for the purpose of removing the witnesses to the illegal attack, has escaped from prison. He is the second officer to make a similar escape, Lieutenant Boldt, who was convicted of the same crime, escaping a few weeks ago. It is believed that the escapes are certain to lead to a renewed demand on the part of the French that war prisoners be delivered to them for trial and punishment.

NEW COSDEN DEEP WELL EXTENDS BUNGER POOL

The Bunger pool was extended a short distance to the west Friday with the completion of the Cosden Oil & Gas company's well, two miles east of Oil City. WOUNDS IN SIDE AND STOMACH MOST SERIOUS

Slight Improvement Noted Tonight; Six or Seven Wounds on Head and Body.

Special to the Times.
CISCO, Feb. 4.—The condition of L. J. Starkey, Cisco legionnaire and service car man, who was seriously if not fatally cut in the abdomen shortly before noon Friday in an encounter with Sheriff Sam Nolley and Newt Mahaney, was reported to be improved tonight. Starkey is still at the Humboldt hospital, where he was carried following the encounter.

Early this (Sunday) morning hospital authorities stated that Starkey has a chance to live, but that his recovery is still uncertain. He was wounded in six or seven places, a gash in his abdomen being the most serious. A knife wound in one side is said to have passed between the ribs and penetrated the liver. Other knife wounds are reported in the thigh and left arm. A cut on his head is thought to have been inflicted by the butt of the sheriff's gun. It is not believed the skull is fractured but doctors have not been able to ascertain as yet.

RAILWAY MEN'S CHIEFS PLAN TO MEET NEXT WEEK

By Associated Press.
CLEVELAND, Feb. 4.—Railroad brotherhood chiefs will probably meet here early next week, it was learned today, to consider the invitation sent them by John L. Lewis, president of the United Mine Workers of America, asking the transportation brotherhood executives and other executives of the sixteen railroad organizations to meet the miners in a joint conference to consider combined action to combat further wage cuts.

Special to the Times.

THEATRE CRASH VICTIMS BURIED AT ARLINGTON

By Associated Press.
WASHINGTON, Feb. 4.—Two funerals were held today in Arlington national cemetery for Knickerbocker theatre victims. They were those of Edward W. Shaughnessy of Chicago, second assistant postmaster general and former colonel with the American expeditionary forces, and Captain and Mrs. William F. Warner. High government officials attended the funeral of Shaughnessy. Mrs. Shaughnessy, herself injured with her young daughter in the disaster, prevailed upon physicians to also permit her to attend her husband's funeral.

Four airplanes scattered flowers over the graves.

MERCHANTS' ASSOCIATION REPORT SHOWS HOW ROAD MONEY WAS SPENT

Although but \$211.43 is available from the balance of \$1,762.03 remaining from the fund raised a year ago for improving the Caddo road, the work recently resumed will be completed within a week's working time, it was learned yesterday. Of the balance remaining from the original fund the sum of \$1,417.81 is tied up in the First National bank and \$132.79 in the F. & M. bank, according to the financial report given out by Secretary Burt of the Retail Merchants' association yesterday.

The continuation of the work is made possible, it is stated by the assistance of the Texas and Prairie companies in furnishing two teams each and of the Leveille-Maher Motor company, which has donated services of a tractor. The association is also using two road drags and a road plow on the work. Since the road was graded from the Stephens county line to Caddo last spring there had not until recently been sufficient rain to pack the road and permit it to be properly worked.

Secretary Burt's report follows: Started Year Ago.

At a meeting of the Ranger Retail Merchants' association, held Jan. 5, 1921, the motion was made, seconded and carried that the association with whatever help it could secure would repair and put in usable condition roads leading into Ranger.

The committee handling the details as to which road to select, made a selection of the Caddo road, and this road was repaired from our county line to the town of Caddo.

The general public and users of roads will remember that this road was practically impassable, and the work that was done on it made a usable road, and it has by small amount of upkeep been kept so to date.

Mammoth Road Day.
In connection with this road work, Tuesday, Jan. 7, 1921, was made and known as Good Road Day, on which the stores closed their places of business, and some 7,000 or 8,000 individuals and citizens of Ranger went out and worked on the roads, and this work was immediately followed by regular road work.

The statement following of receipts and expenditures is made so that the public of Ranger may get a correct idea of this item, and also know that the results accomplished were with the additional help of many of the oil companies, firms and individuals of the city.

Financial Statement.

Cash donations	\$6,612.13
Expenditures—	
Wages to men and teams	4,333.38
Ledger and account books	5.00
Painted signs for road day	5.00
Road day lunch	204.37
Window cards and advertising	27.75
Tools and machinery	203.20
Repairs tools and machinery	69.40
Incidental expenses	2.00
Balance in banks	\$4,850.10
Total	\$1,762.03

Of the above balance shown, \$1,762.03, \$1,550.60 is not usable for the reason that \$1,417.81 is tied up in the First National bank, and \$132.79 in the F. & M. bank, leaving us at this time a usable amount of \$211.43.

We also own as assets two three-blade drags, one road plow, five picks, five shovels.

These accounts are open to inspection in our office of any interested individual or firm.

Yours truly,
RANGER RETAIL MERCHANTS' ASSOCIATION.
M. O. BURT, Secretary.

"COMMON SENSE" HEELS WON WOMAN DAMAGES

PITTSBURGH, Feb. 4.—The size of the heel of her shoe was the point which determined the state supreme court in sustaining a verdict for damages granted to Nora Colligan in her suit against the city of Monongahela.

The suit was for damages for injuries suffered when her heel caught in a hole in the sidewalk.

PERSHINGKS REDUCT IN ARMY OFFICERS

WASHINGTON, Feb. 4.—The passage by congress of the war department bill for reducing to approximately 12,000 the number of commanding army officers would permit, Pershing explained today, the retention of highly efficient officers of the regular army to the national guard and the organized reserve said in addition, the regular army could be greatly improved by the under-officers who remain in the service.

"Only officers fit for duty," the general said, "would be of course that is what we wish they will be used for development of the citizen army, which is one of the most important things from the standpoint of the future of this country. The passage of the bill will raise the standard of officer personnel very much and one efficient officer is worth several inefficient." "The high class of officer material then will be sent to service in the national guard and organized reserve. That assignment will do much more in those two elements a few of actually belonging to the army of the United States, which they do."

WIFE TOO BRUVE.
"Why did you leave your wife?" Judge T. I. Fitzpatrick shot the terse question at Joseph Becker when Becker appeared before him in a Chicago court and asked an adjournment. Becker replied: "I didn't leave her. She kicked me out and told me she would find some other sucker. I'm her fourth husband." The court annulled the marriage.

GREECE PLANS CASINOS TO RIVAL MONTE CARLO

ATHENS, Feb. 4.—A bill has been drawn up by the Ministry of National Finance allowing the establishment of gambling casinos, similar to that of Monte Carlo, in certain Greek spas.

Tenders will be invited for the construction of three casinos, at Corfu, Loutrakis and Aidypsos. The minimum value of the buildings will be \$150,000 at each spa. The government gives the sites free, and also exempts the building materials and furniture from the customs duty. A tax of 10 per cent on the gross profits will be used on local public works.

WILL DRILL TWO WELLS SOUTH OF EASTLAND

EASTLAND, Feb. 4.—The Donnelly Drilling company has contracted to drill two additional wells on the Martin tract just south of town and are building a rig for well No. 2 on that lease. The Donnelly No. 1 on the Martin has been a fairly good producer although there was considerable trouble with it at the time it was drilled in on account of a string of tools having been dropped in the hole.

A well is also being spudded in on the Burkett by the Donnelly company. This is on the adjoining tract to the Martin and near the big Burkett gas well. Harper & May on the same tract are now down about 2,000 feet.

ROTARIANS PLAN LIVELY TIME IN MINERAL WELLS

Ther Rotary clubs of Ranger and nearby towns are arranging for a 100 per cent representation at the eighteenth district conference to be held in Mineral Wells on March 27 and 28. More than 1,500 delegates are expected at the conference and elaborate plans for their entertainment are being made. Visiting Rotarians are urged to bring their golf clubs and take advantage of the opportunity offered by the splendid course at Mineral Wells.

"Boys Work," a subject occupying the principal place in the working program of Rotarians all over the world, will be taken up at the conference by Frank Gambol, boy's work counselor of the International Rotary clubs, in a special address.

George Holmgreen of San Antonio, district governor of the Rotarians, has been in Mineral Wells, with a party of Rotarians from various parts of the district, for the purpose of making a survey and arranging the program and entertainment features of the conference. Among the Rotarians in the party were: John V. Singleton, of Waxahachie, candidate for district governor; Lester Dawley, past president of the Paris club and general chairman of the 1921 conference; Walter Kingsbury, vice president of the Dallas club; Andy Bush, president of the Waco club, and Rufus Whidden of the Gainesville club.

UNUSUAL STORY OF LOVE IN OKLAHOMA COMES TO CLIMAX

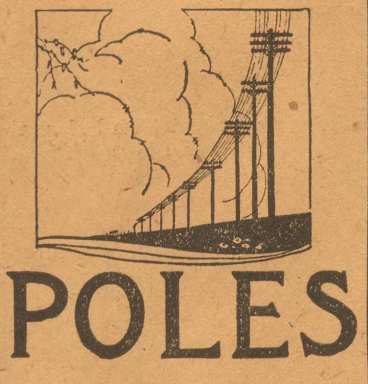

OKLAHOMA CITY, Feb. 4.—A story of love which survived most unusual barriers came to a sensational climax today when the contracting parties, Clyde Buchanan, 19, and Ruth Louise Johnson, 17, announced to the world that they had remarried at Chandler, Okla., Friday, despite the former annulment of their marriage; a church row which resulted in Buchanan being expelled from membership; and the stern opposition of the father of Buchanan at first.

TURN ON THE LIGHT.

From all accounts, there is going to be some action resulting from yesterday's tragic occurrence at Cisco. In fact, there was some action last night, though it accomplished nothing except register the state of a community's mind.

Calling the grand jury to probe the occurrence and promptly affix the blame is an eminently proper step. With a community at white heat, as Cisco appears to be, the circumstances should be diligently inquired into and whatever action is warranted should be taken promptly, in order that any mistaken ideas may be cleared up and prejudices abated, so far as possible.

As to what part Sheriff Nolley took in the difficulty, and his culpability therein, there should be especially diligent investigation, and the grand jury should do strict justice. If the sheriff is not blamable, he should be exonerated. But he should not be exonerated merely because he is sheriff nor unless the grand jury can state the facts so clearly that all persons will recognize that unjust accusations have been made against the officer.

Unless this can be done, there will be open dissatisfaction and perhaps worse. The sheriff has on other occasions shown an attitude far from the even-tempered, impersonal one that should characterize the chief peace officer of a county. He at least erred in this respect yesterday, if it be true, as asserted, that he retaliated with a gun when struck by the fist of an angry man. This, it is said, is the mildest interpretation that can be put on his offense, and there are hundreds of men who in a resolution, have publicly announced their belief that worse motives than anger guided the sheriff's actions.

That is an action that demands clarification of the whole matter. Undoubtedly passions were flaming at the time the resolution was passed, but also undoubtedly, Eastland county is not satisfied with the law enforcement it has had. It is not satisfied with the fact that though arrests are made, there are so few Eastland county criminals in the penitentiary. It is not satisfied with the fact that men generally believed to be engaged in illegal occupations go their way unmolested.

But Eastland county's desire for law enforcement does not mean an embargo on Sunday recreation, even though the sheriff has expressed himself as thinking that can be the only aim of his critics.

HEALTH RULES ARE GOOD IF YOU BREAK 'EM

CHICAGO, Feb. 4.—He was smoking a big black cigar. From under his black derby hat his white hair was visible.

Without ado he flipped over a reporter's desk and stood on his head in front of the rewrite man's typewriter. "I am 66, sir, and I can do almost anything anybody else can do in the form of acrobatic stunts," he announced, as he flipped back on his feet.

He said his name was John Hartig, and that he was celebrating his sixty-sixth birthday.

With that he vaulted over a chair. "How do you do it?" he was asked. "Get plenty of sleep," he replied.

"I got to bed every night at 9 o'clock and get up about 6 o'clock. That's the answer. Here in the city you folks turn in about the other way. That's wrong. Why, I see snips of girls out at 2 and 3 in the morning. That's all wrong. Sleep—that's the ticket!"

"Are you careful about your eating?" he was asked.

"Sure, I eat anything that's set before me."

"And you don't drink?"

"Not if I can't get it."

"But I generally get a little, you know," he added.

"By the way, how do you know girls stay out until 2 o'clock in the morning?" he was asked.

"Well, you see, I step out once in a while myself," he said.

Barnyard Hero Attacks Winger of Darling's Neck

WAUKEGAN, Ill., Feb. 4.—The hero of the barnyard is not to be lightly regarded, nor any of his darlings to be slain while he can prevent it.

Miss Agnes Schinsky, employed at George's cafe here, discovered that Monday when she was busy wringing the neck of a hen. The hen was large and the hole in the crate had given freedom to an eight-pound rooster. This was noticed by the woman until the rooster crowded, flew at her and tried to tear out her eyes. The woman raised her hands to her face, but not fast enough to save the tip of her nose, out of which a bite was taken.

Her sturdy peasant hand was so effective, however, that the hen will be eaten at George's, but the woman will not be at work for several days. A friend came to her rescue, seized and killed the rooster.

WASHINGTON, Feb. 4. Plans for house hearings on the offer of Henry Ford for the Muscle Shoals, Ala., nitrate and power plant were made today and indications developed that the senate also may hold hearings.

NEVER TRUST YOUR WIFE, IF BANKS ARE HANDY!

NEW YORK, Feb. 4.—Mrs. Max Gitemacher, wife of a Harlem drug-gist, was robbed of \$30,000 which her husband had drawn from the bank of the United States and entrusted to her to take home for safe-keeping.

Mrs. Gitemacher, who accompanied her husband to the bank, took the money and drove home in a taxicab. Soon after entering their apartment she heard a knock on the door. She opened it and two men walked in, forced her into a closet, took the \$30,000 from her and locked the closet door.

The victim was found by relatives, who forced entrance to the apartment when their knocks for admission were unanswered.

PUZZLE: FIND OUT WHERE TUESDAY WENT

"Lewis Carroll" was an eminent mathematician as well as author of "Alice in Wonderland." He is responsible for the following problem, entitled, "Where does the day begin?" which, in spite of its apparent simplicity, has cast a gloom over many a pleasant party.

If a man could travel so fast round the world that the sun would be always directly over his head, and he were to start traveling at midday on Tuesday, then in twenty-four hours he would return to his original day of departure, and would find that the day was now called Wednesday. At what point in his journey would the day change its name.

CE-EDS TO LIST ATTRIBUTES OF PERFECT MALE

AUSTIN, Feb. 4.—Within a short time there will be announced to the waiting and expectant world the characteristics possessed by the ideal man—"perfect," as seen through the eyes of twenty University of Texas co-eds.

Girl students in advanced psychology are now engaged in gathering and compiling the "dope" on this creature which so many of the fair sex profess to believe does not exist. The tests are being carried out under the supervision of Dr. T. R. Garth, adjunct professor of psychology.

Each girl is required to make an exhaustive study of the mythical man, as she conceives him to be, and then to write down her findings. The reports of the twenty girls to be carefully sifted, and those points indicative of perfection which appear the greatest number of times in the twenty reports are to be jotted down as attributes of the ideal man. Thus, if eleven girls say that the "ideal" man will part his hair in the middle, while only nine favor modern styles of male hair "culture," then will the "ideal" man be forced to adopt the scheme of the majority.

Much interest is being manifested by the men students of the campus in these vital tests, for, naturally, every man desires to approach the "ideal" standard as nearly as possible. The composite qualifications of the "ideal" will appear in the February number of the Longhorn magazine, the university monthly publication. It is thought that the revelations there laid bare may create a revolution in the manners, looks and habits of the men students of the student body.

RETENTION OF EASTERN REMOUNT DEPOT URGED

NEW YORK, Feb. 4.—The Association of American Horse Shows, Inc., of which Reginald Vanderbilt is president, tonight telegraphed to President Harding protesting against any attempts to cut appropriations for the war department's remount service or to abandon the remount depot at Fort Royal, Va.—"the only remount depot in the East or South."

The telegram asserted that a horse supply was essential to farming and ranching, as 70 per cent of the farm operations was done with horses. The association declared the breeding work of remount service had been of incalculable value.

RANGER SCHOOLS SHOW WELL IN READING TEST

"Silent Reading" was the topic under discussion at the regular monthly meeting of the teachers' institute which met this morning at the High school building. Tests have been given at each school in the city in the past month to the pupils from the third to the seventh grades on silent reading. Ranger schools were found to be above the average in the state when compared with other schools.

Papers were read on the subject by Mrs. Heater, Mrs. H. D. Woods, Miss Kerley and Mrs. McNew. An instructive and enjoyable talk on school development was made by Superintendent McNew.

FINE FOR HUSBANDS

Apologies of the bad weather and the dull social life of the past two weeks, it is an evident fact that "it's an ill wind that blows no one good," and in this case the husbands seem to have been the particular "lamb" the wind was tempered to.

There have been several very pleasant events during the past week, and it looks as though the balance of the month is going to be "full up" with parties and dances.

After two weeks of comparative rest, folks are ready for another whirl. Society maids and matrons are rested, friend husband is all darned and fixed up, the young men have had an opportunity to lay up a little during the rainy days, so the stage is all set for future activities, which we hope will begin at once.

THE MILE IS MOST A MILE-HI

The mile is growing and it seems that before long the goal will be reached. The Gholson hotel is trying to grow a yard a day, as are several other places where you stand and "watch 'em grow." A penny is such a little bit to give and yet many pennies will swell the fund—so help the cause along with your pennies. The Texas Drug company, since it can no longer collect war

tax, gets your pennies for this cause, as it is practically impossible to get out of that store without making a contribution to the "Mile."

A COMING PARTY

Mmes. M. O. Burt, J. B. Stackable and F. W. Haifley, will entertain at bridge Tuesday, the 13th, at the Gholson hotel.

MRS. CHARLES CONLEY ENTERTAINS

The most notable party of the week was that given by Mrs. Charles Conley at the Gholson hotel Friday afternoon, at which time she entertained the members of the Young Matrons' club, and had a few extra tables, in honor of Mrs. E. A. Bradley of Tulsa, Okla., who is the guest of her daughter, Mrs. Leo Parr.

This was the very first Valentine party of the season and all the decorations made one remember that the day of the "little blind god" is just around the corner. The color scheme was red and white, and was carried out very effectively. Hearts were strung from one colonnade to another of the mezzanine floor, while heart shaped numbers marked the tables, and dainty score cards, in hearts and cupid designs further carried out the decoration motif.

In the final count, Mrs. E. J. Barnes was awarded the high score club prize, a lovely tea pot, while Mrs. Richard Lavery received the high score guest prize, a dainty piece of lingerie. Mrs. E. E. Crawford received the club low score prize, an incense burner, and Mrs. Carroll Clark the low score guest prize, a fancy pin cushion.

Another very attractive feature of this party were the refreshments, which tasted as good as they looked, and looked beautiful, as heart shaped party shells, filled with creamed peas, marshmallow pudding in red, topped with whipped cream, tomato jelly, served with bread and butter sandwiches and coffee, completed this very pleasing decoration motif.

The following club members were present: Meses. J. D. Hill, Frank Branahney, Ed Maher, L. A. Vandervoort, J. E. T. Peters, C. C. Craig, E. E. Crawford, D. M. Steele, Arthur Kinard, A. Orth, E. J. Barnes, Jack Gul-lahorn. The guests were: Meses. Richard Lavery, Leo Parr, Carroll Clark, W. H. Burden, Walter Cluney, Lloyd Rhoades, R. C. McCoy, A. N. Harkrider, Cabe Terrell, J. L. Thompson, E. A. Bradley, J. B. Haden, Jack Pullen, W. D. Conway, L. L. Rector, George Sturgis, Richard Barclay, M. K. Collier, George Jennings, Vincent Wakefield, S. S. Gergere, H. H. Madern, A. G. Jury, M. H. Hagaman, Frank Campion, Miss Mary Bonner Campbell.

Mr. and Mrs. Jack Young are entertaining a little son, who arrived last Sunday.

There is a new daughter in the home of Mr. and Mrs. Homer Packwood. She arrived Friday night.

Mrs. W. T. Carter, who has been the guest of her sister, Mrs. H. B. Wilson and nephew, Dr. Carl Wilson, returns today to her home in Corsicana. While in Ranger Mrs. Carter has been the honoree of a series of dinner parties and other social affairs.

Mrs. Fred Hight, stenographer at the Hamon-Kell railroad, is spending a few days with relatives at Ardmore, Okla.

A Column for Card Players and Question Box

Auction Bridge—No. 17

"Keep your eye on the enemy"

The deductions from the different bids are most important at every stage of the game of auction, and often are very difficult to make correctly. Many times a player is forced to guess the meaning of his partner's bid or double and guesses wrong, with very disastrous results.

The opportunity to make this dubious double occurs only after a no-trump has been bid by partner, and a bid by the adversary to the right of the doubler has two tricks. The theory is that the double of such a bid tells the no-trump bidder that the adverse suit is not dangerous, and leaves it to him to decide whether to allow the double to stand or bid two no-trumps.

Suppose a no-trump has been bid with (O means small cards under ten spot):

- Spades—A, J, O. Hearts—O. Diamonds—K, Q, O, O. Clubs—K, O, O, O, O. Or Spades—K, J, O. Hearts—O, O. Diamonds—A, Q, O, O. Clubs—J, Ten, O, O, O.

Under these conditions a game with hearts at 16 per trick is quite possible for adversaries.

On the other hand, take the same no-trump holdings, and one of the following heart holdings for the doubler:

- A, Q, O, O;—K, Q, O, O;—Q, Ten, O, O; plus strength in some side suits.

It would be very bad to have it guessed.

The above examples show most conclusively that the no-trump bidder was skating on thin ice on his make, and a double of any kind is not sound, for original bidder will at once raise his bid.

In the following deal, where a player has doubled an adverse call, and the partner can give no assistance,

consummation easy for everybody concerned.

GUILD MEETING

The members of St. Mary's guild will meet Monday afternoon at 3 o'clock with Mrs. Earl Taylor. There is some very important business to come before the guild and a full attendance is requested.

FIREMAN SWINGS BY FEET TO RESCUE FIVE FROM FLAMES

NEW YORK, Feb. 4.—Swinging head downward from the roof of a burning house in Brooklyn while companions held his feet, Edward Steihler, a fireman, rescued a woman and her four children from a window on the top floor, after escape by the stairway had been cut off.

VALLEY SET AFIRE TO DRIVE OIL FROM KEROSENE SHALE

SYDNEY, Australia, Feb. 4.—An experiment by John Fell in the treatment of kerosene shale in the Wolgan valley, Blue mountains, New South Wales, has led to a remarkable discovery which will, it is believed, revolutionize present methods of deriving oil from shale.

Before the discovery oil was derived from the shale by distillation from retorts, a comparatively costly process. By the new method the shale itself is set afire, thereby forming a natural retort which drives the oil out of the shale in rushes. In no country in the world has any body of shale been set fire to for treatment purposes before, so that the work done by retorts after great expense in mining will for the future be performed by nature.

Mr. Fell set fire to the great shale body in the Wolgan valley. The oil flowed in such volume that he was unable to find enough containers to hold it.

MANY MANAGERS SHIFT ABOUT IN WESTERN LOOP

CHICAGO, Feb. 4.—With the signing of the veteran Gus Fisher as pilot of the Oklahoma City club, all of the managers for Western league clubs have been selected for the 1922 season, according to reports to President A. R. Tearney today. During the winter season, there was a general shake-up of managers and six clubs will take the field under the direction of new leaders. Four of them will make their debut in the Western league.

The new pilots are Joe Dunn, former manager of the Bloomington club of the Three-I league, who will lead the Joplin club; Walter Smith, formerly of the Minneapolis club, who will be in charge at St. Joseph; "Chick" Mattick, the new half owner of the Sioux City club and Gus Fisher at Oklahoma City, who was obtained from the Portland club of the Pacific coast league. Mattick formerly played with the Chicago Americans, and later owned and managed the Dallas club of the Texas league.

New One at Tulsa. Jack Lovell, who managed the Omaha club at the start of the 1921 race, will direct the play of the Tulsa club this season, while Dick Breen moves from Oklahoma City to the leadership of the Des Moines club. Joe Berger will remain in charge of the pennant winning Wichita club, while Fagen Burch will continue at the helm at Omaha. Burch succeeded Lovell when the latter resigned last season.

All of the managers will direct the play from the field instead of the bench. Three of them are catchers and two hold down first base. Breen, Fisher and Dunn are the backstops. Smith and Lovell are first basemen. Berger plays shortstop, Mattick the outfield, and Burch is a pitcher.

COOPER BOYS AND GIRLS WIN BASKETBALL GAMES

Cooper School boys' and girls' basketball teams defeated the two teams of the Cisco South Ward school Friday afternoon at Cisco. The girls won their games 13 to 8, while the boys' score was 15 to 7. These games leave Cooper with two undefeated teams so far this season.

Cisco plays two games with Cooper here on Feb. 11.

HI GAME POSTPONED

On account of the rain Saturday morning, the basketball game that was to have been played at Eastland between Ranger High and Eastland High Saturday afternoon was called off. It was thought at first that Eastland had an indoor court built and that the game could be played despite the weather, but was later found that no indoor court was to be had. The game has only been called off temporarily and is to be played some day this week.

JACK O' LANTERN FOLLIES WILL TICKLE FUNNY BONES SOME MORE

The Jack O'Lantern Follies company, which has delighted theatre-goers at the Majestic for the past week with various and clever musical comedy programs, will remain over in Ranger this week. As last week the Follies will be confined to musical comedy, with comedy predominating, but sufficient music, both of the popular and old fashion type, to please the mixed audiences.

Starting Sunday with "A Mountain Romance" the program will be changed every two days, four different comedies being presented during the week. Pictures are combined with the musical comedy and although the changes in program are frequent, the cast demonstrated last week that the changes do not interfere with their knowing the lines of each comedy.

The best of the good cast of the Follies is Bobby Fitzsimmons, a real comedian and a funmaker in any character role in which he is placed. As the old man in two of the comedies last week he made a decided hit with Ranger people. Fitzsimmons before joining the Follies several weeks ago produced a musical revue which ran two weeks at the Hippodrome in Dallas.

Erin White, the soubrette, is all that a soubrette should be and an encore league stands next to Fitzsimmons. Jane Kermit, character woman of the company, played with Mack Sonnet's Keystone companies in the movies for two years. A very pleasing voice makes her appear to better advantage on the stage. Arthur Jackson and the Ferguson brothers are good.

PROFESSIONALISM MUST BE STAMPED OUT, SAYS NOTRE DAME DIRECTOR

SOUTH BEND, Ind., Feb. 4.—Father William Carey, chairman of the athletic board of Notre Dame university, which recently felt the full effect of the football scandal, tonight in a statement declared that the only salvation of the colleges is to meet the threat of professional football fairly and squarely and outline drastic measures to combat the inroads. He said professionalism is wrecking intercollegiate sport.

Father Carey asserted that the chief reason professionalism has gained a foothold is that high school and college lads realize it is easy to "get away with." He urged that it be made so hard to get away with that there will be virtually no infringement.

LANDIS REINSTATES BARRED BALL PLAYER BECAUSE OF WAR RECORD

CHICAGO, Feb. 4.—Judge Kenneth M. Landis, baseball commissioner, today reinstated Joe Harris of the Cleveland Indians. Accompanying his decision with a statement that Harris' service in France during the world war entitled him to consideration which might not otherwise be granted.

Harris had been declared ineligible for playing against ineligible players in independent games.

IOWA EXONERATES LOCKE DEVINE AND LOCKE

IOWA CITY, Ia., Feb. 4.—The University of Iowa athletic authorities declared today that there were no new developments tending to show that Aubrey Devine, captain of last year's Western conference championship football team, or Gordon Locke, captain-elect, are guilty of engaging in professional or semi-professional athletics at any time.

Members of the athletic board today reaffirmed their statements of yesterday that in their opinion both athletes were innocent. Locke stated today that he knew the rules regarding professionalism, and the receiving of money for playing and absolutely conformed with these regulations in his activities at Kanawha and elsewhere. "I was working in Kanawha, and my sole purpose in playing baseball was to keep in training for football," he said. Locke says he has no knowledge of purses being split among players on the Kanawha team. He says he never received a cent for his services. Coach Howard Jones said:

"There is no question that Devine has never participated in a professional contest of any sort or violated any conference rules, and from the statements of Locke and Oscar E. Johnson, president of the Kanawha Baseball association, I am convinced that Locke is also absolutely innocent."

WAITRESS REFUSES TIPS, SO NOW SHE HAS \$10,000 AND BIG FARM

CHICAGO, Feb. 4.—Elizabeth Hill, Chicago girl, refused to accept tips while working as a waitress in a railway restaurant. She assured her patrons that she was being paid for her work and they were entitled to courteous and prompt service without paying an additional fee.

As a result she is now the owner of \$10,081 cash and a thousand acres of Nebraska's best grazing land.

Elizabeth used to sling hash and slip patrons the "coffee-and" in a depot restaurant at Council Bluffs, Ia. She came to Chicago from a small Massachusetts town and worked in various restaurants here before proceeding to Iowa.

Among her patrons was "Old Man Dexter," 78 years old, a pioneer rancher of western Nebraska. On his trips to and from Chicago, selling many carloads of cattle, he invariably stopped at the Council Bluffs depot restaurant and had Elizabeth wait upon him. He always tried to give her a tip, but it was always returned. One time he mailed her a \$100 bill and she mailed it right back.

Last week she received a letter from him saying he was going back to England to spend his remaining days.

"You deserve a better fate than sweating behind a restaurant counter," it said. "You are a real American and the only person who ever refused my tips."

"In the hills of Devonshire I have a wife and daughter buried. In memory of them and with my best wishes for the future, I beg you to accept these remembrances."

The letter contained a deed for the thousand acres and a check for \$10,000 all made out to Miss Hill. This time she accepted, for the donor had departed for England and she could not return the gifts.

WOODED WELL, BUT NOT WISELY; SIXTY DAYS

DETROIT, Feb. 4.—Selling a half dozen eggs to a housewife, who had informed him that she did not want to buy any, so convinced John J. Merritt of his own personal charm that he straightaway began to make love to the customer.

"Dearie, if you will be mine, I will keep you in butter and eggs all summer," Merritt, who is 38 years old and a dealer in dairy products, is quoted as saying to Mrs. Ada Martin.

Mrs. Martin appeared in Judge John Faust's court to press a charge of assault and battery against Merritt. She says that he grabbed hold of her during his ill-advised wooing.

Merritt was given the option of paying a fine of \$100 or serving sixty days in the house of correction. He is married and lives with his family.

I. W. W.'S IN JAIL AGAIN.

LITTLE ROCK, Ark., Feb. 4.—The seven alleged I. W. W.'s departed from Eldorado yesterday and who were arrested here last night will be released if they can furnish transportation out of town. Otherwise charges of vagrancy will be placed against them, it was announced today. H. S. Julian of Kansas City, their attorney, who also was departed from Eldorado, was not with them when they arrived here.

BROADWAY INSISTS MARILLYN MILLER HAS WED JACK PICKFORD

NEW YORK, Feb. 4.—Despite forty denials of the delicate Marilyn, Broadway persists in the belief that the dainty star of Flo Ziegfeld's "Sally" Marilyn Miller, has been married to Jack Pickford.

Today the story of the marriage grew when it was said that on the occasion of the wedding the bride and bridegroom both used the names given them at birth, Mary Lynn and Jack Smith, for the first time. The date of the rumored wedding was fixed at three weeks past.

Marilyn's first husband, Frank Carter, an actor, was killed in an auto accident in Philadelphia last year. Jack Pickford's wife, Olive Thomas, died more than a year ago in Paris, from drinking poison.

CONFERENCE 'PACKED' AGAINST FARMER, SENATORS ARE TOLD

WASHINGTON, Feb. 4.—President Harding's recent agricultural conference was "packed" against the farmer and the platform adopted by the conference does not represent the desires of the great body of American farmers, according to William H. Lyon of Sioux Falls, S. D., testifying before the senate committee on agriculture. "The farmers were outvoted by other interests," declared Lyon, referring to the representatives of so-called allied industries, packing, grain dealers, bankers, etc.

Jack Mower and Leatrice Joy in a scene from the Paramount picture "Saturday Night... A Cecil B. DeMille Production.

TEMPLE

Giving up fortune and position to become the wife of a poor man, Iris van Suydam today admitted that she married her chauffeur, Tom McGuire, last Saturday night. It will be remembered that only a few weeks ago Miss van Suydam's fiancé, Richard Prentiss, the well known clubman and millionaire, eloped with Shamrock O'Day, the daughter of his washerwoman.

"I love Tom, that explains everything," said the former queen of the four hundred today. "He is a real man, and that is what any girl wants, whether she be rich or poor. I will try to make a good wife to him." When interviewed, Mrs. McGuire was engaged in cooking her first dinner in a tiny little apartment in Harlem. The couple will be forced to live on the husband's earnings, as the van Suydam fortune is in control of the bride's uncle, who has disinherited her for what he considers her rash marriage.

The sequel to this remarkable elopement is fully outlined in Cecil B. DeMille's superb Paramount picture, "Saturday Night," which will be the feature at the Temple theatre today and tomorrow. It is said to be one of the strongest picture productions of the year. Leatrice Joy has the role of Iris van Suydam and Jack Mower is the chauffeur.

In connection with the appearance in person of Charles Perez at the Temple theatre, there appears in front of the theatre a complete old Kentucky copper moonshine still, claimed to have been captured by the federal officers, Jan. 2, 1915, which shows a number of historical records inscribed thereon in rough but legible characters, evidences of rough experiences during its operations in the mountains of Kentucky. Another unusual exhibit is the original pardon given to Charles Perez, Oct. 27, 1918, granted and signed by the president, Woodrow Wilson.

FIREMEN FIGHT BLAZE FOURTEEN STORIES IN AIR

BALTIMORE, Feb. 4.—Watched by thousands of spectators, firemen this afternoon fought a blaze on the top-most floor of the fourteen-story building of the Baltimore & Ohio railroad.

President Daniel Willard and other high officials of the road were in conference in the president's office on the fifth floor and knew nothing about the fire until the engines dashed up. Most of the 2,900 employees already had left at the Saturday afternoon closing hour. The chief damage was to records, which were kept on that floor.

EX-RANGER MERCHANT HERE FROM PANHANDLE

Wheat is badly in need of rain, but otherwise crops are in fairly good condition in the Plains country, according to C. L. Williams, a wheat grower of Lubbock, who is here this week looking over business interests. Maize, kaffir corn, millet and other feed crops are being planted in every available space and farmers are very optimistic over prospects for the coming season. A bumper wheat crop is expected should it rain within the next two weeks, and a good season has been put in the ground by the recent freezing weather.

SPEED RECORD SET IN PROHIBITION CASES

NEW YORK, Feb. 4.—Federal Judge Harlan B. Howe, of Vermont, who was sent to Brooklyn to hear 700 liquor violation cases that have been clogging the judiciary for months, set a speed record when he cleared the day's calendar of forty-nine cases in one hour and fifty-eight minutes. One hundred cases a day is to be the pace from now on, he told the clerk.

Fines, forfeited bails and dismissals were the means he used to quickly dispose of bootleggers, saloonkeepers and others. No one received a jail sentence.

Some one expressed wonder that Judge Howe could make such speed with so much "red tape" to contend with.

"Red tape?" he said, "I brush them through."

TEN-POUNDER IS NEW BOSS AT JONES HOME

Karl Jones today is happier than if he had a contract to fill out all the income tax returns in the oil fields. He and Mrs. Jones are the parents of a male child, which arrived 'bout supper time last night, bringing with it the terrific appetite that 10-pounders always possess. The youngster is nameless as yet, as Karl says they want to extend the pleasure of debating a cognomen through as long a period as possible.

STOLEN AMERICAN CARS DRUG ON MARKET IN NORTHERN MEXICO

WASHINGTON, Feb. 4.—Stolen American automobiles are overrunning the Mexican market, according to a report to the commerce department today from Consul John W. Dye, at Juarez. The report said so many automobiles stolen in the United States are being sold in northern Mexico for about half their real value that legitimate dealers are seriously affected.

The cars, the report added, are principally from California and points near the Mexican border, although some have come from as far as Chicago.

CORSETLESS THROUGH HAS LARGE EVENING AT CORSET MAKERS' BALL

PARIS, Feb. 4.—The promoters of the corsetmakers ball which wound up in the morning, were pleased at the big crowd of handsomely dressed women who were present, but they were discouraged because not a single woman present wore stays. A half dozen professional dancers who fox-trotted and shimmed with the fair ones present affirmed that not a single partner was trussed up in corsets.

Frenchman Declares American Women Act as Though They Own the Whole Town

—FRENCHMAN DECLARES DC24. CHICAGO, Feb. 4.—"The American woman marches down the street as if she owned the town," Jules Bois, president of the French Society of Physical Research, said in an address here. "She really feels superior to men," he added. "I was astounded when I came to America a few weeks ago. In Europe Freud declared women are handicapped by an inferiority complex, that is, they feel a deficiency when competing in the world of men. That may be true in Europe, but it certainly is not true here. They have what I would describe as the superiority complex. Women here will go far."

Noises made by the elevated trains, coupled with the general love for jazz music and entertainments on the part of the modern girl, were reasons given by M. Bois for the dearth of Joan of Arcs today.

CHEMISTS LAY TRAP FOR PARIS VITRIOL SPRAYERS

PARIS, Feb. 4.—The gang of vitriol sprayers that has been terrorizing Parisiennes worked overtime yesterday afternoon at sprinkling the garments of expensively clad women in the opera district. Hundreds of detectives failed in their efforts to nab the gang.

Police disguised as women promanaded the streets where the acid atomizers were used.

Chemists are preparing to trap the acid throwers by smearing the coats of detectives, disguised as women, with certain chemicals that will give off instantaneously a thick smoke, if touched by vitriol.

Spring Suits Show Short Coats With Soft Collars

By MARY BROOKS PICKEN

BLUE cloth, such as tricotine, poiret twill, and fine serge, is as indispensable in the wardrobe of the modish woman as are low shoes and frocks with easy waist lines, and one seems safe in always selecting blue cloth and black satin for a suit. The becomingness and satisfaction of these colors keep these materials always in first place in fabric selection.

The smart spring suit shown evidences that an attractive one-piece dress is concealed beneath the blouse coat, as the skirt is cut so that a panel extends up in both front and back and attaches to a blouse of plaid Georgette. Couch and outline-stitching make up the embroidery design on the coat. The novelty girle is of dull silver, and the collar and hat trimmings are of black satin.

One thing to be noted especially in the spring fashions is that both frocks and suits are decorated, but the decorations seem as a part of the garment and not just set on as an ornament, as is so often the case when much trimming is used. Hats with brims are beauty's friend, for they enhance rather than conceal any claims to a pretty face. Such brims are agreeable to the wearer, and two such good reasons insure their popularity.

SCRIPTURE

Job 5: 17-24.

Behold, happy is the man whom God correcteth; therefore despise not thou the chastening of the Almighty: For he maketh sore, and bindeth up; he woundeth, and his hands make whole. He shall deliver thee in six troubles; yea, in seven there shall no evil touch thee. In famine he shall redeem thee

from death; and in war from the power of the sword.

Thou shalt be hid from the scourge of the tongue; neither shalt thou be afraid of destruction when it cometh.

At destruction and famine thou shalt laugh; neither shalt thou be afraid of the beasts of the earth.

For thou shalt be in league with the stones of the field; and the beasts of the field shall be at peace with thee.

And thou shalt know that thy tabernacle shall be in peace; and thou shalt visit thy habitation, and shalt not sin.
