TEXAN DENIES MAN

Employes of Smith Bros., contractors for the Bankhead highway, arriving here yesterday afternoon with three carloads of mules and road machinery, were greeted at the Texas & Pacific station by a delegation of four or five white men who announced their intention of preventing several Mexican and negro employes from unloading the cars. The agitators, who are said to have been headed by the same men who led the raid against Mexican workers on the Texas & Pacific depot last fall, left the vicinity, however, before the arrival of county officers who had been summoned. No further trouble is anticipated by the company.

Work is expected to start on the highway between Ranger and Cisco some time this week. One of the camps is to be established about two miles south of Ranger, it is stated. Three ca:loads of teamsters and special workmen of the company and their families are expected to arrive here tomorrow or next day, it is stated. P. B. YOUNG PEOPLE'S CLUBS.

In Ranger, as in every other town, a clamor sometimes arises that young people run around too much and get into mischief that will be regretted.

Perhaps that is true. It seems that reople-especially young peoplemust have action and entertainment.
If these are not provided for them, they will provide their own-and the amusements they select may not be what is best for them.

Real reform consists in directing ing certain things without providing church, with the club now being formed to use its basement for healthful and pleasurable exercise and fun, appears to be on the right track. It will give young people a chance to meet and mingle under proper auspices. They will no longer be forced to twiddle their thumbs as the only alternative to seeking the dance halls which sporadically spring up in the outskirts, and other things' of a similar non-elevating nature.

Promotion of sociability like this is common sense. It is much better than merely hanging out stop signals and red lanterns and letting things go at that. This club and similar organizations should be encouraged and supported by the older people of Ranger who really want to remove conditions which lead to immorality.
