WILSON AND BRYAN ARE IN A CLASH

WASHINGTON, Jan. 9.—President Wilson's decision that the League of Nations issue should be placed before the voters as a "solemn referendum," and the contention of William Jennings Bryan that the Democratic party cannot go before the country on the question but should accept such compromises as may be possible, are the twin surprises of the Jackson day dinner here.

The president's message to the party was written from the sick room and read to the diners. It made no mention of a third term for himself and no announcement was made on his impending retirement to private life as many predicted it would.

Bryan's speech taking definite issue with the president's decision on the great question of the League of Nations was accompanied by a statement that he would not be a candidate for the presidential nomination this year.

BLUNDER CAUSE OF HEAVY LOSS OF U. S. SOLDIERS

WASHINGTON, Jan. 9.—Responsibility for the loss of American lives through attacks ordered on Armistice day should be charged to American general headquarters and not to the French, a house war investigating committee was told today by Brigadier General John H. Sherburne, a national guard officer of Boston, who commanded the artillery of the Twenty-sixth (New England) division and later the artillery brigade of the Ninety-second (negro) division.

"So horrified were my men and those of other American commands near us at the needless attack of the morning of Nov. 11 and consequent loss of life that they did not enter into the general celebration of the signing of the armistice," General Sherburne said.

"It was freely said at the time that some one had blundered and that there must some day be an investigation."

Asked if the corps and division commanders could not have been justified in disregarding the orders General Sherburne said that while some officers did refuse to send their men to the attack, the majority "so pitifully feared the all-powerful triumvirate at Chaumont and the entire general staff 'gang' that they dared not risk court-martial by evading in any particular the attack orders."

The witness said he did not refer to General Pershing, Liggett or Bullard when he spoke of the "general staff triumvirate" at Chaumont. The only officer he named was Brigadier General Fox Connor, chief of operations.

No French or British troops except a few Canadians attacked on armistice day, General Sherburne declared, adding that both the French and British were horrified at the "reckless disregard" for human life shown by the American commanders.

Higher Pay for Judges Upheld

AUSTIN, Jan. 9.—The constitutionality of the act of the Thirty-sixth legislature, which gave judges of district and appellate courts salary increases was upheld by a special court sitting as the third court of civil appeals today.

All three judges concurred. In this case A. H. King or Throckmorton sought to enjoin the state comptroller from issuing warrants covering these increases and the court refused the injunction.

The plaintiff has fifteen days in which to file a motion for a rehearing.

Want to Keep It Exclusive.
Did you notice that most of the criticism of working girls who wear silk stockings, and of working men who wear silk shirts, come from people who never saw a pair of silk stockings and shirts?—The Transcript.

State Land No. 13 Makes 300 Barrels

Humble Oil and Refining company, on the long, keen strip paralleling the Texas Pacific Coal and Oil company's Norwood, has another producer which is making 300 barrels from the top of the sand and a second that probably will be a well within a few days.

No. 13 is at the top of the sand, at 3,530 feet, and its production of 300 barrels is expected to increase with further drilling. No. 6 is drilling broken lime at 3,350 feet and will be down to the pay inside of a few days' operations.

In Stephens county T. P. has a producer on the Satterfield tract, No. 16, which is at the top of the pay at 3,175 feet and making 300 barrels before being drilled in.

938 CASES ON DOCKET OF THE DIST. COURT

EASTLAND, Jan. 9.—District Judge E. A. Hill at Eastland has announced that it would take him three years to dispose of the 938 cases now on the district court docket ever though no other new cases should be filed during the time. Not counting a large number of dismissed cases, the court disposed of six hundred and six cases in the November-December term. During those two months 251 cases were filed. From two to ten cases are filed each day.

The grand jury is now in session and will no doubt add many new indictments to the 243 criminal charges now pending and awaiting trial.

A new court will be asked for Eastland when the legislature is again convened. The facts to support one or more additional district courts for Eastland county are overwhelming.

The court now in session is engaged in the civil docket and on next Monday will begin on the criminal docket.

The cases of Bill Shamblin, Neil Shamblin and P. E. Stokes, each charged with robbery, and of W. A. Warren, J. R. Benson, R. R. Mills, J. T. Sullivan, Jens Sorenson and Charlie Hoffman, each charged with theft, will be first on trial.

HUNGARY IS IN GRIP OF "WHITE" TERROR, REPORT

BERNE, Jan. 9.—A socialist news paper today printed a letter written by a Hungarian communist leader who declares wild reaction rages throughout Hungary.

The writer says that while during the "red" terror last spring only 200 persons were killed, the present "white" terror has a death list exceeding 5,000. In addition to 15,000 arrests, 4,000 socialist families are being kept in notorious concentration camps constantly ravaged by epidemics.

SUGGESTS THAT HOOVER BECOME A CANDIDATE

PORTLAND, Ore., Jan. 9.—Democrats here exhibited interest today in the telegram read last night at the Jackson day banquet in which James W. Gerard, former ambassador to Germany, and himself an active candidate for the democratic presidential nomination, declared that there are plenty of good men from which the party could make its choice, adding that Herbert Hoover is one of them.

TEXAS CATTLE NOT SUFFERING IN BLIZZARD

FORT WORTH, Jan. 9.—Texas cattle are not suffering from the blizzard now raging in the Panhandle, according to a message received by the Cattle Raisers' association headquarters here today.

'REDS' ARE TO BE LANDED AT COPENHAGEN

COPENHAGEN, Jan. 9.—The undershirts, departed from the United States, will be landed here and transhipped to Danzig, according to reports reaching here.

The operations will be carried out under the supervision of the Danish police and the radicals will not be permitted to mingle with the population of the Danish metropolis.

Each ship will carry 600 persons and the United States government has arranged with a private company here to take them to Danzig.

NO POLL TAX FOR SOLDIERS THROUGH 1920

Ex-service men will not be required to pay poll tax to vote in 1920 is news that will be received with approval by members of Ranger's American Legion. The statement was made with assurance by Earl McAlister, deputy tax collector for Ranger, an ex-service man himself, who has the authority of Comptroller of Public Accounts (Hilde) for the statement. Mr. McAlister wrote to the department at Austin for authentic information, and his statement puts an end to the doubt that former service men have felt.

It had been supposed that former soldiers, sailors and marines who lived in Texas before the war and returned to their old homes, or established residences in Texas, were exempt in 1919, but that they would have to pay the tax in 1920. Mr. Hilde corrects this impression. It will not be necessary for ex-service men to have poll tax receipts or exemption blanks, but merely to present their discharges when applying to the polls, he says. Election judges will mark such ballots "Soldiers' ballot."

Residence in Texas of one year and a Eastland county of six months will be necessary for those who did not make their homes in this state, and his county, prior to entering service.

Thursday and Friday, the first two days that he has opened his office, with the city inspectors, in the Marton building, have been busy times for Mr. McAlister, who is receiving oil taxes and other county and state taxes. For the convenience of the public, he is maintaining office hours at night, from 6:30 to 10 o'clock, to receive taxes.

REVOLUTION IS SPREADING IN BULGARIA

GENEVA, Jan. 9.—The revolutionary movement in Bulgaria is spreading among the peasants and working men according to Belgrade advices.

Another important railroad bridge has been blown up by the strikers, it is reported. King Boris and the royal family are reported to be secluded under a heavy guard.

NO WORD IN PARIS

PARIS, Jan. 9.—The French foreign office, which is in constant touch with the Balkan situation, has received no confirmation of the alarming reports relative to the spread of the revolutionary movement in Bulgaria.

EXCHANGES ON PEACE TREATY SET FOR JAN. 10

PARIS, Jan. 9.—Exchange of ratifications of the peace treaty with Germany are to take place January 10, it now seems certain.
The supreme council today fixed this date for the ceremony and decided it should be held in the French foreign office.

FORMER AMERICAN WOMEN, NOW WIVES OF GERMAN NOBLEMEN, RETURN TO AMERICA

Baroness Edith Berwind Kleist and daughter Asta, at left, and Countess Fanny Montgolas and her two sons, Carl and Rudolph.

Included among the well-known persons arriving recently in the stream of visitors from Europe are Baroness Edith Berwind Kleist and her daughter, Asta, and Countess Fanny Montgolas and her sons, Carl and Rudolph. Countess Montgolas and her children will visit Grand Rapids, Mich., where the countess, then Fanny Hazeltine, lived before her

marriage to Count Montgolas, a German diplomat. The count was stationed in Japan when the war broke out and was recalled. It was he who handed Ambassador James Gerard his passports in February, 1917. Baroness Kleist is a daughter of Edward J. Berwind, Philadelphia coal baron. Both families have been living in Berne, Switzerland.

2 AMERICANS KILLED IN MEX.; WERE WARNED

MEXICO CITY, Jan. 9.—F. J. Rooney and Early Boles, Americans, who met death in the Tampico region recently, were killed by rebels after disregarding the warnings from local authorities, who advised them not to venture into the lawless regions alone, according to official telegrams received here today from officials at Tampico.

The Americans were shot by the outlaws while on the seashore between camps belonging to the International and Transcontinental Oil companies.

Stephens Co. Field Scouts to Meet Here

Scouts of the south half of the Stephens county territory, recognizing the advantages of Ranger as headquarters, will meet at 2 p. m. next Thursday at the offices of the Sinclair Gulf Oil company for the purpose of organization and to divide the district for the more perfect scouting of it each week. The meeting of scouts at the Sinclair office will be made a weekly feature and Ranger will be the clearing house for reports of the development of the coming territory to the north.

All the larger companies which maintain scouting departments will be represented. The following scouts will be present: J. B. Jones, representing Sun company; R. R. Huddleston, Texas company; Jack Pezler, Sinclair Gulf Oil company; Homer Brown, Empire Oil & Gas company; T. E. Dean, Gulf Production company; M. B. Oberle, Sinclair company.

BELIEVE ROBERTS COMMITTED SUICIDE

Special to The Times.
PORT WORTH, Jan. 9.—If the theory that R. E. Roberts of Filton, N. Y., who was found dead in his room at the Southland hotel Wednesday night, did not commit suicide because he had no worries and instead was murdered by thieves for his money, is not considered, how is it that the description of a man who bought the same pistol found pressed in the dead man's hand, tallies identically with that of Roberts' pistol ask.
This is the puzzle now confronting city detectives with their disconcerting discovery yesterday afternoon that the .32 caliber hammerless Iver-Johnson revolver in Roberts' hand was bought from a Main street hardware company Wednesday morning. The only difference in names is that the man who bought the gun gave his name as "R. E. Roberts" instead of Roberts.

MEXICANS IN GREAT FEAR OF VOLCANO

MEXICO CITY, Jan. 9.—Intense excitement and panic reign among the inhabitants of Cordoba and Oirdeba in the western part of the state of Vera Cruz over the opening of the new crater of the Orizaba volcano, fifteen miles northward.

The new crater is emitting smoke, according to information received by the presidential military staff from army officers in the earthquake district.

Experts believe that this explains the earthquake, which did so much damage between Vera Cruz and Puebla states.

New advices tell of 200 deaths near San Miguel and in the country district near Cordoba.

DEATH LIST AT 2,000.

MEXICO CITY, Jan. 9.—It seems improbable today that the final list of casualties in last week's earthquake will fall below the original estimates of 2,000, even if reports of the 1,999 deaths at Cuetzalpan have been exaggerated.

From the compilation and comparison of the varying dispatches, it is believed that twenty villages were completely destroyed with almost double that number of towns and villages partially demolished.

Arkansas Store Owner Bound to Post and Burned

OSCEOLA, Ark., Jan. 9.—Bound to a post, supposedly by robbers, with his face and clothing saturated with gasoline, W. E. Hansel, owner of a chain of plantation stores, was burned to death last night after his store at Holt had been looted.

The section is largely populated by negroes.

Times Printers Organize Chapel

Members of the typographical departments of The Times met in preliminary session Thursday afternoon for the purpose of considering the formation of a Times chapel. Application will be made to Secretary John W. Hays, secretary of the International Typographical union, for papers and with affiliation. All printers of Ranger will be asked to attend the meetings, Herbert Boxeman was elected chairman of the chapel.

WORK STARTS AT ONCE ON NEW P. O. QUARTERS; RENT OF \$12 A YEAR

The contract for a postoffice building has been awarded to George J. McManus and George A. Parton, both of Dallas. The building will be located at the corner of Elm and Rusk streets, where the proposed Natatorium was to be built.

Mr. McManus and Mr. Parton own a part of a block at this point. They offered to put up a permanent building with at least 7,000 feet of floor space, for use of the postoffice, and to lease the building to the department for a consideration of \$12 a year. Other property owners on South Rusk street are financially interested in the project, it is understood, and will help bear the expense of putting up the building.

Work on the structure will begin at once. An effort will be made to have the building ready for occupancy within three months. Mr. McManus and Mr. Parton have arranged plans for development of the rest of the property on this block, according to reliable information.

An alley from the rear of the postoffice building to the railroad will be converted into a track and the mail brought to the building on hand cars, instead of on wagons, according to plans now being matured.

The need for a new building is emphasized by the report of the local postoffice for the month of December, which was completed today. The report shows 5,223 money orders issued, to the amount of \$108,409.20. Stamp sales amounted to \$8,652.87. The number of letters registered here reached the figure of 4,164 and parcels insured numbered 4,879.

Business at the postoffice has increased on an average of 15 per cent a month since last July. An increase of 15 per cent a year is counted substantial growth in most cities. The postoffice received a second class rating last July, and it has done enough business since July to entitle it to a first class rating, exclusive of the business transacted the first six months of the year.

Since the department makes its rating only once a year, this city will remain in the second class until next July.

A comparison of the figures of the Ranger and Eastland postoffices is interesting. According to an Eastland dispatch carried in yesterday's issue of the Times, stamp sales for the last quarter at Eastland amounted to \$10,682.87. For the same period stamp sales at Ranger ran over \$23,000. Money orders here exceed orders at the Eastland office by more than \$1,100 a day. Other figures of the Eastland office were not given.

Revolt Likely to Follow Prohi, Says Preacher

SYRACUSE, N. Y., Jan. 9.—A revolution is likely to follow in the wake of prohibition, according to the Rev. C. Campbell Morgan, pastor of the Westminster chapel, London, who is now visiting here.

"Whenever a great country banishes strong drink, it must prepare for a revolution. When a man stops drinking he begins to think all that has happened in Russia occurred since vodka was abolished. Whenever London goes dry, her East End will arise in a revolt," he said.

State Contract Bidders Must File Affidavit

AUSTIN, Jan. 9.—In letting state contracts the board of control will require bidders to file an affidavit that they have not violated the Texas anti-trust laws during the twelve months preceding the submission of the bid.

Heretofore the mere statement to this effect was required by the attorney general held that the prosecution for false swearing could not be based on a mere statement.

HORRORS OF PROHIBITION

NEW YORK, Jan. 9.—Prohibition will sweep hip-pockets in men's trousers into innocuous desuetude, according to the prediction made by experts of the International Association of Clothing Designers, who issued the edict to make this particular part of man's habilliment "small, er and more shallow this season."
Commenting on the attitude of the designers, a member of the organization said: "It is illegal to tote a gun it is unhandy to carry a handkerchief there and you can't buy anything but wood alcohol to put in your flask; so the pocket just naturally will shrink away."

RANGER BONDS ONLY LACKING OFFICIAL O. K.

Ranger's city bonds, passed in the December election, are all but approved by the attorney general, in the cheering word that has come indirectly from Austin, though the official confirmation remains to be received.

C. J. Moore, representing the Brown & Crummer interests of Wichita, Kan., who are handling such of the city warrants as it will be necessary to issue to cover first steps on the new paving contract, brought the word to Ranger when he came to complete arrangements for the taking of the warrants.

Only a small fraction of the city warrants, which were authorized to care for the paving up to the time that city bonds can be sold, or to finance the work in case the bonds had failed to carry, will be sold. Once the bonds are given the official okay at Austin, it will be a matter of a few weeks until that part of the money needed is raised by their sale.

W. M. Harris, of the legal firm of Harris, McCall and Graham, were the city's advisors in the preparation of the bond issue for the bond election, told Mr. Moore, of Brown & Crummer, that only the official word was lacking, that the election found no disfavor in the keen eyes of the attorney general's department this time.

Allies Seek to Expel the Turks From Europe

WASHINGTON, Jan. 9.—Having abandoned hope that the United States can be induced to accept the mandate over Turkey, the allied powers are in correspondence with a view of finding some solution of the problem of expelling the Turks from Europe without causing such an uprising among the Mohammedan peoples as would endanger the control of the European nations over them.

: Cisco News :

NEW ACTIVITY IN OIL LOOKED FOR IN SPRING

LEERAY TO TAKE ON BOOM; NEW RY. SOON TO RUN

Special to The Times.
CISCO, Jan. 9.—Oil leases around Cisco are just beginning to be developed and with the advent of spring great activity is contemplated in the Cisco field.

The Gillman well, on the Ward tract, four and one-half miles north of this city, is producing 6,000,000 feet of wet gas from the top of the lime at 3,300 feet. It is understood that a new location has been made on this lease and that the gas sand will be gone through for the oil sand lower down. The New Domain is drilling around 2,000 feet three-quarters of a mile north of the Gillman well also on the Ward tract. Exall No. 1, Texas company, seven and one-half miles north of Cisco, is a small producer at 1,900 feet with No. 2 drilling around 1,600 feet. Ray No. 1, the Gulf Production company, five and one-half miles north of Cisco, filled up with oil at 2,500 feet, but on account of losing the tools and a bailer the rig was skidded over and No. 2 is now drilling. Southwest of Cisco six miles, Shore No. 1, of the Humble Oil & Refining company, recently on a gauge showing 5,000,000 feet of wet gas with 800 pounds rock pressure. The gas is being utilized by the Humble company for heat and lighting at their headquarters in this city, comprising thirty-one acres, completely covered with all character of permanent buildings. It is understood another location has been made on this lease to drill through the gas for the oil sand.

By reason of the fact that the Cisco territory has not been handled by a press agent, leases may be obtained a great deal more reasonably than many of the other fields. The probabilities are that by late spring the prices will be on a par with other proven fields.

To Start Work on Country Club in Near Future

Special to The Times.
CISCO, Jan. 9.—Plans for the Cisco Country club are now in the hands of a committee and construction work on the building will begin at once. The building will be erected on the banks of Lake Birney, two miles from this city. It will be built of stone and concrete. There will be a large ballroom 35x70, sun parlor 14x70, porch 17 feet wide entirely surrounding the building, men's reading and smoking room, card rooms, ladies' parlor, kitchen, pantries and store room.

There will be an eighteen-hole golf course, boat houses with rowboats and gasoline launches will be provided, and numbers of people will take advantage of the fine bass fish in the lake.

It is expected that this will be the most complete pleasure resort in Western Texas.

8 Stories to Be Added to the Daniels Hotel

Special to The Times.
CISCO, Jan. 9.—The foundation is being put in for an eight-story addition to the Daniels hotel in this city, and when completed will give the Daniels hotel 200 rooms.

Plans are in the hands of B. S. Huev of this city for a large modern hotel of 200 rooms capacity, work upon which will begin early in the spring. The manager of this hotel is now operating one of the largest hotels in the south and will work with the architects and the builder with a view of furnishing his practical experience in order to make of it a complete plant in every particular from the practical standpoint.

"It Has Made a New Woman of Me," She Says

"My friends are so astonished at my recovery that I just tell them I am taking Orgatone Treatment, which is enough to account for me feeling like a new woman," said Mrs. W. A. Stinson, of 2017 Clinton avenue, Fort Worth, Texas.

"I suffered from such awful attacks of nervous headaches," she continued, "that it became so I spent a good part of my time in bed, and I could hardly drag along when I was up. I had suffered for three years with these attacks and got so I had no appetite scarcely at all, and what I would eat often distressed me, and at night I could hardly sleep I was so nervous. I heard so many recommendations about the Orgatone Treatment, so I started taking it, and before long I was eating just anything and feeling much better, my strength began to return and those nervous head aches disappeared and I have been gaining ever since. I can do my own housework now I sleep like a child and get up in the morning feeling fine. Orgatone Treatment has helped me so much after everything else failed that I really give it credit for making a new woman out of me."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form, and is sold in Ranger by the Ranger Drug Company exclusively, under the personal direction of a special Orgatone representative.—Adv.

\$500,000 BOND ISSUE FOR DAM TO BE VOTED ON

Special to The Times.
CISCO, Jan. 9.—On Feb. 2 an election will be held in the city for the purpose of voting bonds in the amount of \$500,000 with which to build a dam 125 feet in height, 1,200 feet long at the top, connecting two mountains on Big Sandy creek, about two and one-half miles north of this city. The engineers' report shows a possible impounding of 6,000,000,000 gallons of water, which will furnish a city of 75,000 population adequate water for all purposes. This will be in addition to the large supply of water which Cisco now has. Realizing that a city requires plenty of water and railroad transportation, the city officials are preparing for the future in the matter of water supplies for a city of 250,000 population.

When this water project is completed and connected up, Lake Birney, one of the present water supplies for the city will be turned into a pleasure resort for Cisco citizens, and among the improvements will be the Cisco Country club.

Another Ry. to Run to Eastland

Special to The Times.
FORT WORTH, Jan. 9.—Another railroad has been obtained for Eastland by C. U. Connelley, Cyrus Frost, H. P. Brelsford, Tom Harrell and Earl Connor, according to word received in Fort Worth. Contract has been entered into with L. B. Williams of Fort Worth and H. Burks of Comanche to contribute \$100,000 in cash and half the right-of-way from Desdemona to Eastland for a line to be run from Comanche to De Leon and Desdemona and from Desdemona to Eastland.

The Burks Construction company is grading this line from De Leon to Desdemona and will begin September 1. Construction toward Eastland will begin when the line is completed to Desdemona. It must be completed into Eastland within eighteen months, according to the contract entered into yesterday. It will have trackage and terminal rights over the Ringling road at Eastland.

Rev. C. M. Collins Chosen Chaplain American Legion

The Rev. Charles M. Collins, pastor of the Presbyterian church, and veteran of nine months' work with the boys of the A. E. F., was chosen as the chaplain of the John Barnes post, American Legion, by a gathering of a few of the faithful at the Baptist tabernacle Thursday night. Mr. Collins promised the legion his hearty co-operation and interest.

Reports made by R. H. Hansford, finance officer, showed that the chapter has better than \$850 to its credit, with expenditures of \$21 to the national post for 1920 dues, \$20 to the Central's Wash., post to aid in the fight made in the courts against Bolshevism, and \$25 to the Baptist church to help purchase an encyclopedia for the church library. The last expenditure was authorized with expressions of gratitude for the church's generosity in giving the use of the comfortable and convenient quarters for the legion meetings.

With favorable weather for the next meeting night, next Thursday, it

is expected to have a large enough attendance so that new executives for the legion may be chosen.

\$1,000,000 Damage to Steamer at N. Y.

By Associated Press.
NEW YORK, Jan. 9.—The damage to the American steamer St. Louis, which burned at the Hoboken shipyard last night, is estimated today at \$1,000,000.

Greatest Discovery of Medical Science

Science has proved that the body is only a collection of cells and that Nature requires twelve cell-salts to keep the cells of the body in perfect health.

It has been demonstrated that these cell-salts not only build, nourish and repair the cells, but govern the health and vitality of the tissue, nerve, blood, bone and brain, of which the cells are a part.

These cell-salts attract and retain the oxygen as it passes from the lungs into the blood, and by their presence in the cells repair, nourish, revitalize and maintain the vigor, vitality, health and energy of the cells, of the blood, tissues, nerves, veins, arteries, bones, muscles and brain.

For many years Dr. A. L. Reusing has conducted an exhaustive series of experiments in his chemical laboratory to combine the phosphates of calcium, sodium and iron with the phosphates of potassium and magnesium, in a perfect solution, ready for prompt assimilation, so that a rapid increase in the number of red blood cells and a greater percentage of hemoglobin are produced in the blood.

Dr. Reusing recently announced that a perfect combination of the revitalizing cell-salts has been obtained and that clinical tests in his professional practice have demonstrated beyond the slightest question that the formula which he named Reolo brings back the cells of the body to health, restores their vitality and enables the diseased cells to again perform their functions. It gives the cell protoplasm renewed life and energy, tones the exhausted nerve cells, rapidly increases the red blood cells, controls the warring forces of life and decay, always contending for mastery in the cells of the body, and by its power of cell nutrition and reconstruction checks the slow, gradual decay of the vital forces.

REOLO is sold in sealed packages, containing 100 pleasant, tasteless tablets, sufficient for two weeks' treatment. It only costs one dollar a package and is positively Guaranteed to give beneficial results or your money will be refunded.

REOLO is sold in Ranger by TEXAS DRUG CO.—E. L. Johnson—J. T. Harness—111 North Austin Street, Licensed Distributor for the Dr. A. L. Reusing Laboratories, Akron, Ohio.—Adv.

TUNGSTEN FOR THE ASKING IN CHINA

International News Service.
 WASHINGTON—Ambitious Americans desiring to become owners of tungsten mines without paying anything for them may do so by going to China, according to advices received by the department of commerce from Vice Consul Charles E. Kline, at Shanghai. According to his report, at the present time, with few exceptions, the mines are not owned by private companies or by the government, and anyone may employ men to work one.

The discovery of tungsten mines in China has been recent. The principal districts in which the mineral is found are the provinces of Hunan, in the southern part of China, in Hangchow and its vicinity, Nankanghsien, Taiyu, Kaiyung, Heifung, Lefkung and Chungking districts. The districts mentioned above are only those in which operations are now being carried on, there being other large areas in which tungsten deposits are found which have not as yet been opened.

Chinese tungsten in the form of wolframite occurs either as sands or pebbles in the streams or in small veins in the granitic rocks. The former deposits are sometimes accompanied by cassiterite or magnetite, or both, usually mixed with quartz sands, the latter in the form of veins ranging in thickness from a fraction of an inch to two or three inches. Although both kinds of deposits are found in many widely scattered regions, they are never found in large quantities in any particular area. For this reason and also because this industry is of very recent origin in China, no modern systematic methods have been inaugurated to explore this field.

The principal method of mining is the use of rakes, toms and pans, which are used for washing the stream ores, and sometime black powder is used for extracting the valuable content of the ore. With the exception of a few places in Hunan and Kwangtung, nearly all of the tungsten is carried on by farmers who work during their spare time after their farming work is completed. But during the early part of 1918 the industry had grown to such an extent that many of the farmers suspended their farm work and devoted themselves entirely to tungsten mining.

MOONLIGHT DANCING IN PARIS AROUSES REFORMERS

International News Service.
 PARIS.—The government edict closing all Paris dancing palaces at 11:30 and restricting the number of light as a coal-saving measure did not work out exactly as some folks thought.

The reform element cheered it on the ground that it would discourage fashionable fox-trotting and put an end to some of the pajama dance masked balls and other goings on the had complained of. But promptly the manager of the most ultra-chic club in Paris announced that he would get the government one better by shutting off all the lights not absolutely essential. Now the reform leaders are protesting that the "moonlight dancing at this establishment, patronized only by the very wealthy, has degenerated into an evening orgy of hugging and kissing.

FALLS SEVEN STORIES AND LANDS ON HIS FEET

International News Service.
 NEW YORK.—Compound fractures of both ankles and both feet were the only serious injuries sustained by John Ralph Williams, army chauffeur, when he landed on his feet after falling seven stories from the roof of an apartment house, where he had gone to take the air while attending a party.

His head also was bruised after his spectacular landing right side up.

SHOOK WITH NERVOUSNESS

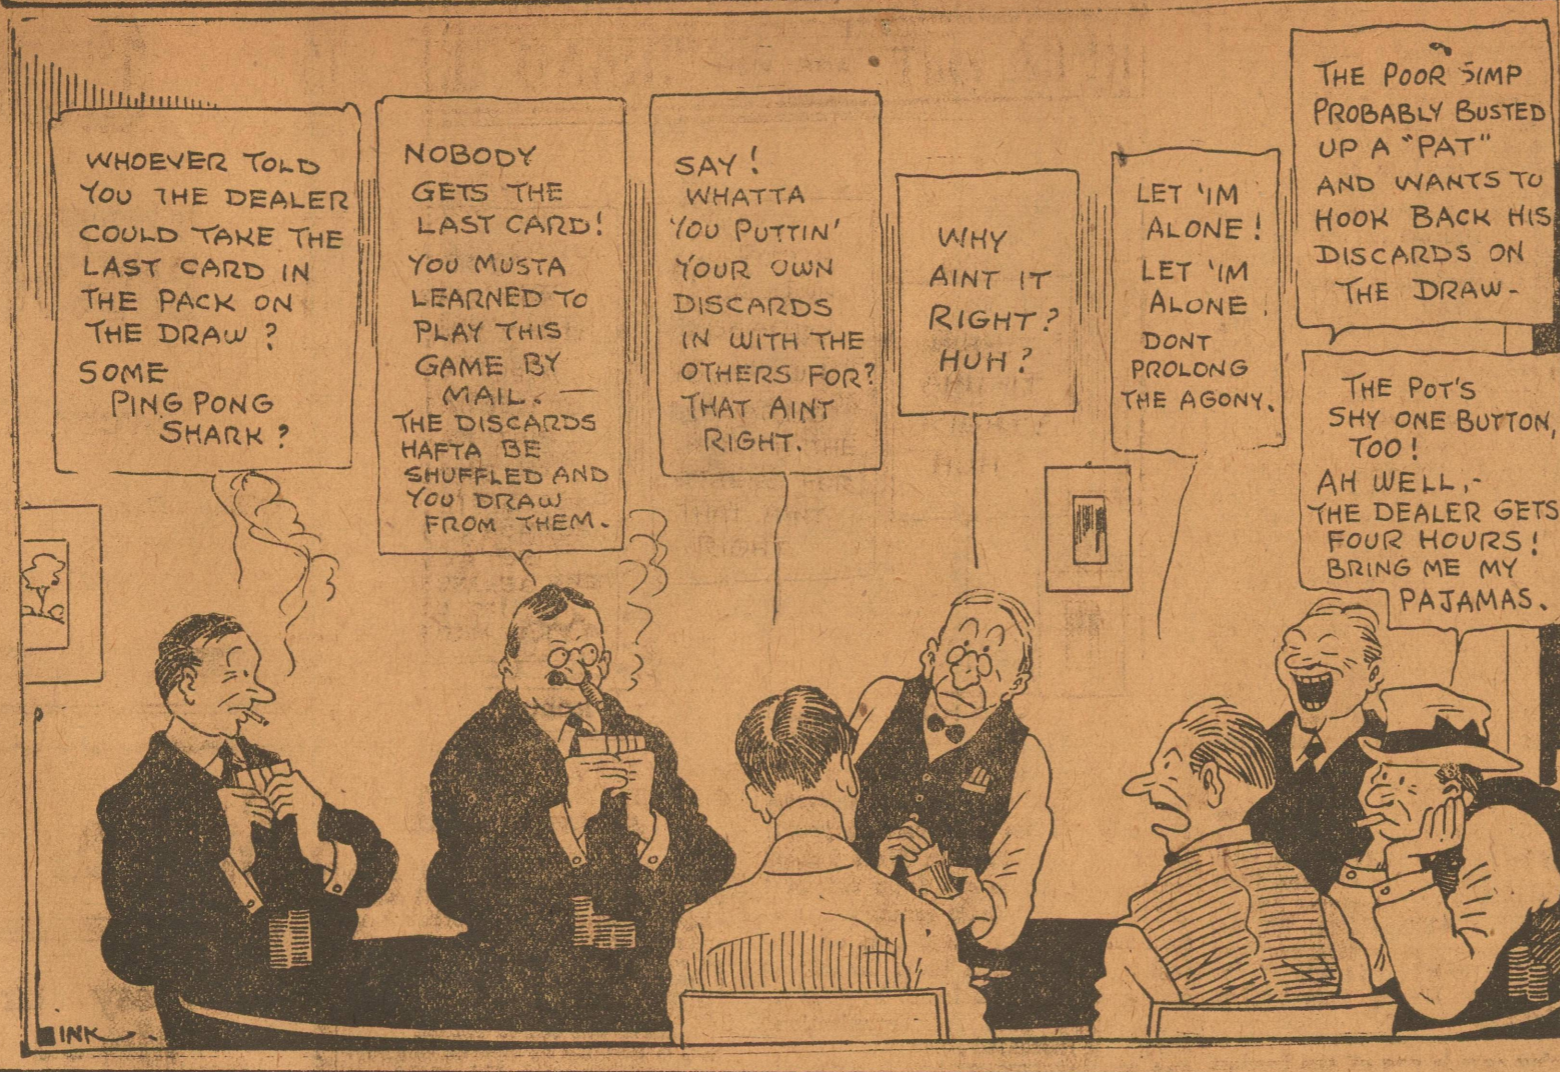

A Lady Was Flat On Her Back With Terrible Spells, But Her Husband Got Cardui—And Now She Is Grateful.

McKinney, Texas — Mrs. Mary Stephenson, of this place, states: "About a year and a half ago I was down in bed for six weeks, not able to sit up. I was flat on my back and had terrible spells. . . . Why, it looked like I would die. At times I didn't know anything. I would get nervous, I couldn't bear anyone to talk to me—I would just jerk and shoo with nervousness. . . . across my back was so sore and ached me all the time. I would have a dizzy feeling. My limbs ached me and I would get numb and feel so weak. . . . I said to my husband I knew Cardui was good and I believed I had best try it.

He got me a bottle of Cardui, and when I had only taken one-half bottle of Cardui I felt stronger. I took a half a dozen bottles altogether, then in two weeks after I began taking I was up, in three I was doing my work. I praise Cardui for I believe it saved my life and I am grateful."

For over 40 years Cardui has been helping weak, sick, nervous, and old people.

NO LIQUOR SMUGGLING FROM JUAREZ, HE SAYS

By Associated Press.
 JUAREZ, Mexico, Jan. 9 — The Texas-Mexican border here is closed to liquor smuggling, according to Pablo Delgado, chief of the Mexican fiscal guards.

"At Juarez nothing is going over the line," said Chief Delgado, "and the only trouble we are having is south of the city around the island." We are doing all we can to cooperate with American authorities and reports that I am aiding Mexicans in my filthy business are untrue. I have the greatest respect for Americans and your country and will be glad to see the day when Mexico goes dry."

Senor Delgado pointed about his office for mute corroboration of his statement that he is fighting smugglers. In every corner and piled high in the center of the room were bottles and cases which he estimated contained 1,000 quarts of intoxicants, mostly whiskey. Included in the lot, however, were thirteen cases of wood alcohol, which he said he believed was intended to be used in making "bootleg" whiskey in the United States.

"The poor Mexican has not the money to buy liquors in large quantities," continued Delgado. "This lot here was purchased with American money on the Texas side and your authorities could well look into the matter closely. As far as possible the border is closed. A bottle of whiskey here and there may be slipped across undetected, but big shipments are not getting by my men, who are cooperating to their fullest ability to stop liquor traffic into the United States even though there is no Mexican law to prevent exportation of liquors."

"If Only—"

There had been a quarrel. Everybody could see that the minute they came into the tramcar. The woman at with tightly pressed lips, her hands gripping her umbrella firmly. The man sat down on his spine and glowered at the advertisements. The other passengers got interested. Then there came a dead silence as the car halted to let off a passenger. In the silence came the woman's thin, angry voice:

"If it wasn't for me you'd be the biggest fool in London!"

Then for the first time the man smiled and the others joined with him.—London Answers.

GO BELOW IN ALASKA NOT AS COLD AS 7 IN OKLAHOMA

International News Service.
 SHAWNEE, Okla.—Mrs. Dennis Leaton, a resident of Alaska, now visiting friends here, declares that 60 degrees below zero in Alaska has nothing on 7 below in Oklahoma. Mrs. Leaton, who has experienced weather as low as 60 degrees at her home, says she never felt as cold in Alaska as she has during her visit here.

Seven below has been the official low mark for Shawnee this season.

YANK SEEKS BRITISH BRIDE

International News Service.
 LONDON.—An American soldier who can't find a bride at home thinks Sir Nevil Macready, chief commissioner of police, can do the trick for him.

"The only thing is, I cannot bank on the American girls," he writes, "for I have seen too much of them, so if you can find me a nice young woman in the twenties," etc.

The doughboy can't "bank on" the head of Scotland Yard, either. He positively refuses to take up the assignment.

JAPAN AND BOLSHIEVISM.
 San Francisco Bulletin:

Japan has issued defiance to bol-
 shevism, and provided no allied ob-
 stacles are placed in her path she
 ought to be able to cope with the
 menace of radicalism, at least in its
 movement eastward. A strong Japan,
 though greatly feared by alarmists in
 this country, should prove a safeguard
 to civilization by serving as a barrier
 against either a bolshevist advance or
 a Russo-German combination.

The Japanese appear to be willing
 to assume this responsibility, and in-
 deed feel that it is necessary for their
 self-preservation, but as they cannot
 afford to wait until bolshevism has
 reached their borders, and as they
 must strike in Siberia if they are to
 fight effectively, they should be given
 a free hand and not be subjected to
 irritating criticism on the score of
 seeking territorial conquest in Asia.
 As a matter of very evident fact Ja-
 pan is going to be tied down by Asi-
 atic problems for at least another half
 century. The feat that she is gather-
 ing strength for the purpose of an
 attack on America is alarmist non-
 sense. This country has done much
 to exasperate the Japanese, but it has
 not driven them to the madness of
 challenging western civilization,
 though persistent allied interference
 with the defensive plans of Japan may
 tend to drive her into an alliance with
 Russia and Germany when bolshevism
 begins to crumble and the agents of
 Berlin resume their control of the
 Russian government.

Bolshevism has openly challenged
 civilized government, and if the Ja-
 panese are ready to take up the sword
 against anarchy they should have the
 good will, if not the active assistance,
 of the allied powers. All things con-
 sidered, it is the duty of Japan to
 take up the fight against bolshevism.
 She has suffered the least among the
 allies in the loss of men and money
 and she is geographically and in many
 other ways best fitted for the task.
 As for the criticism that her purpose
 is the conquest of Siberia rather than
 the defeat of radicalism, what does it
 matter if bolshevism is defeated? The
 League of Nations will be able to deal
 with the Siberian question, and while
 on the subject of the league, due at-
 tention should be given to the official
 promise of the Japanese premier that
 the matter of a full return of all ter-
 ritory in China will be taken up the
 minute peace is signed. True, it is
 no more than a promise, but it can
 be tested the moment the senate rat-
 ifies the treaty.

SCRIPTURE

Luke 5:1-7.
 And it came to pass, that, as the
 people pressed upon him to hear the
 word of God, he stood by the lake of
 Gennesaret,
 And saw two ships standing by the
 lake; but the fishermen were gone out
 of them, and were washing their nets.
 And he entered into one of the
 ships, which was Simon's, and prayed
 him that he would thrust out a little
 from the land. And he sat down, and
 taught the people out of the ship.
 And when he had left speaking, he
 said unto Simon, Launch out into the
 deep, and let down your nets for a
 draught.
 And Simon answering said unto
 him, Master, we have toiled all the
 night, and have taken nothing: never-
 theless at thy word I will let down
 the net.
 And when they had done this, they
 closed a great multitude of fishes
 in their net brake.
 And they beckoned unto their part-
 ners, which were in the other ship,
 that they should come and help them.
 So they came, and filled both the
 ships, so that they began to sink.

CIVIC PRIDE
 One of the things badly needed in
 Ranger is civic pride. The streets and
 alleys and vacant grounds of the city
 are in a deplorable condition, from a
 standpoint of cleanliness. In places
 the accumulations of rubbish rise to
 the proportions of small hills. Creeks
 running through the town are littered
 with trash of every description, alleys
 resemble a dump heap.

The best efforts of the sanitary
 company will not remedy the situa-
 tion. The town could be cleaned
 without a sanitary company if busi-
 ness men and residents would look
 each to his own premises. A clean-
 up week has been suggested as a pos-
 sible alleviation of the condition, but
 the real remedy, in the opinion of The
 Times, lies in individual action.

One of the things rigidly taught and
 practiced in the army campments was
 cleanliness. Thousands of men
 lived in a space no larger than the
 business district of Ranger. These
 men gave on an average of twenty
 minutes a day to "policing up," with
 the result that the camps were kept
 clear of all rubbish, even to cigarette
 and cigar stubs.

The army camps, in war time, were
 busier places than any city—even
 busier than Ranger. Yet the camps
 were not too busy to attend to mat-
 ters of cleanliness.

If people here would take a little
 time from a busy day and "police"
 their own premises, the result would
 be startling. Such action by a few
 would set a good example to others.
 In the mean time, the city or in nei-
 ght against dumping trash in the city
 limits should be rigidly enforced.

Ranger has seen many soldiers, but
 never a full fledged general. General
 John J. Pershing may have seen other
 oil territories, but never the Ranger
 pool, or the wonder city.

**England Expects
 Near-Coal Famines
 for Next 10 Years**

International News Service.

LONDON.—England expects to face
 near-famine coal supplies for at least
 ten more years.
 C. Easton-Grey, mine expert, points
 out that it takes twelve years to de-
 velop a British mine to production
 capacity of 1,000,000 tons yearly, and
 that for five years during the war
 very few new mines were opened.
 Consequently, he says, mines now
 being worked soon will begin to "pe-
 ter out."

During the war there was neither
 labor nor capital available for keep-
 ing British coal mining up to stand-
 ard. Even repairs and proper devel-
 opment of existing coal mines were
 retarded. Consequently national coal
 production fell off some 50,000,000
 tons annually.

Britain is relying to a great extent
 on coal exports to help pay off the
 war debt and to keep the pound ster-
 ling at the top of all European ex-
 changes.

To do this, home consumption of
 coal has been restricted. And that
 the future outlook also for home con-
 sumers.

Mr. Easton-Grey estimated that
 mine development work totalling
 \$200,000,000 should have been carried
 on during the war, but was not.

Summarizing the situation, Mr.
 Easton-Grey says:

"When it is remembered that coal
 is among the two or three most im-
 portant materials with which we pay
 our debts to foreign countries for the
 vast quantities of raw materials and
 food they send us, it will be readily
 seen that the supply and price not
 only of coal but of other equally nec-
 essary commodities will very largely
 depend on the rate at which we can
 now sink new pits and bring up the
 coal."

**GERMANY DEPENDS ON
 OUTSIDE WORLD FOR FOOD**

By Associated Press

BERLIN.—Germany is absolutely
 dependent upon foreign sources for its
 immediate food requirements, says
 Paul Mankietwitz, a director of the
 Deutsche bank.

"We need the courage to acknowl-
 edge these facts," the banker declares.
 "It is intolerable that the minister of
 economics should tell the world that
 Germany's food supplies are safe-
 guarded, while on the other hand we
 are forced to admit in the conference
 of international bankers that Ger-
 many is facing a fresh era of hunger
 unless the banks of the country take
 hold of the situation."

Her Mankietwitz supports the cur-
 rent conviction that a long time credit
 of a large amount is imperative, and
 he suggests the formation of units,
 comprising various branches of indus-
 try, which would co-operate with sim-
 ilar units in America for the purpose
 of obtaining American products.
 Those, he says, would be offset in a
 greater part with German commodities,
 the balance to remain pending
 until the German economic situation
 bettered itself.

**SAYS IT WAS A LEMON
 THAT GOT EVE IN TROUBLE**

International News Service.
 TOPEKA, Kan.—According to a
 speech delivered by B. E. Smith, well
 known horticulturist of Lawrence, be-
 fore the State Horticultural society
 here a few days ago, 'twas a lemon
 and not an apple that got Adam and
 Eve into trouble in the Garden of
 Eden.

Smith's argument was that the
 word translated "apple" in the Bible
 is with great probability supposed to
 mean the citron tree and the tree's
 fruit is a species of lemon.

There Were Others, Too.

West Texas News

STAMFORD, Jan. 9.—M. J. Nor-
 rell, until recently chief of the war
 savings department of the federal re-
 serve bank of Dallas, has been ap-
 pointed and has accepted the position
 of assistant organizer of the West
 Texas Chamber of Commerce. He
 will enter upon his duties this month.
 He and J. E. Barrow are assistants to
 W. T. Wheeler, organization manager,
 giving the organization three organ-
 izers and bringing the total number
 on the payroll up to eleven. Mr.
 Norrell has had considerable experi-
 ence in commercial work, for a time
 being secretary of the Comanche
 Chamber of Commerce.

Believing in the future of West
 Texas and in the strong efforts of the
 West Texas Chamber of Commerce,
 O. A. Ryals, president and general
 manager; J. J. Hutchinson, assistant
 general manager; and J. Louis David-
 son, secretary and treasurer, of the
 Central Texas Electric company of
 Waco, who are holding an inter-
 view between the city of Waco
 and San Antonio via Bolton, Temple
 and Austin, have become members of
 the West Texas Chamber of Com-
 merce.

Tracing cars is one of the hardest
 tasks confronting the traffic depart-
 ment of the West Texas Chamber of
 Commerce at present. The depart-
 ment is located at Fort Worth. Al-
 most every town in West Texas is
 having trouble getting delivery on
 coal, hay and commodities. Such
 towns which are members of the or-
 ganization find quick relief if possi-
 ble through this channel. Many cars
 which have been set out have been
 replaced in movement for early deliv-
 ery.

During the past seventy-two hours
 most of the central part of West Tex-
 as has been the recipient of slow, pen-
 etrating rains which, while hamper-
 ing cotton picking, adds to the reserve
 store of moisture upon which the agri-
 cultural interests of the section base
 their hopes for a repetition of the
 enormous 1919 crop, according to the
 West Texas Chamber of Commerce.

West Texas lays claim to the right
 to produce as much cotton as it can

At the Liberty Saturday

EASTWARD HO! WILLIAM FOX PRODUCTION.

plant and gather in 1920, says the
 West Texas Chamber of Commerce.
 The organization is opposed to prop-
 aganda disseminated in West Texas
 asking farmers to cut down acreage
 in 1920. The climatic conditions and
 semi-aridness of a large part of the
 region demand that those crops re-
 quiring the least moisture be grown.
 Especially does the organization
 encourage increased acreage of cotton
 and the sorghum grains in view of
 the fact that very little of West Tex-
 as or the Panhandle sowed wheat dur-
 ing the fall. The wheat crop will be
 considerably less than it was in 1919,
 due to the lateness of gathering row
 and cotton crops. Prediction has been
 made by members of the state de-
 partment of agriculture that flour in
 the fall of 1920 will reach \$5 for a
 forty-eight-pound sack.

**PEKING SHOW PLACE
 GOES BACK TO CHINESE**

International News Service.
 PEKING.—The beautiful pavilion
 on the Tartar city wall above Chien-
 men gate has been returned to Chi-
 nese custody. In the mutiny of the
 troops in Peking early in 1912 after
 Yuan Shih-kai had assumed the presi-
 dency, the commanders of the foreign
 legation guards in the capital decid-
 ed that, as a military measure, the
 pavilion should be occupied by fore-
 ign troops. The American legation
 guard has occupied it ever since.

**DESTROYERS AND DEPTH
 CHARGES MOST EFFECTIVE
 AGAINST SUBMARINES**

LONDON.—Destroyers and depth
 charges are the most efficient ways
 of slaying submarines, according to
 war data published in the "Navy,"
 organ of the Navy league. It shows
 that British sea services destroyed
 ninety-five submarines, about half the
 total number put out of action.

The best means of bagging U-boats
 was with depth charges, twenty-eight
 being got that way, thirteen were
 rammed, ten smashed by gun fire and
 five were torpedoed. Bombs and ex-
 plosive sweeps got the others.
 Only seven ships had a record of
 sinking two U-boats each.

AT THE THEATERS

OPERA HOUSE
The motive of love is stronger than ambition for worldly honors. This is one of the underlying suggestions projected by the story which is visualized in Vitagraph's new picture, "The Gamblers." This production, with Harry T. Morey as star, will be shown at the Opera House Saturday and Sunday.

"The Gamblers" is a screen adaptation of the famous play of the same name by Charles Klein. It will be remembered that in the stage version the heavy villain was actuated in prosecution and persecution of the hero by purely political ambition. His desire to gain preferment was the only incentive for persistent activity toward bringing about the ruin of the other man.

The picture provides another and greater motive that of jealousy in love.

Wilbur Emerson, hero of the play, whose role is played by Mr. Morey, is a young man who sets out to beat the money trust, using his father's fortune. His operations so preoccupy all his thoughts that he neglects the woman he had been virtually engaged to marry. This neglect causes the young woman to fall easy prey to the courtship and importunings of Darwin, the prosecutor.

There are many unusual situations in "The Gamblers." The glimpse of affairs that take place in the world of finance afford interesting entertainment.

LIBERTY THEATER

In "Oh Baby," the 1919-20 edition of the perennial series of Marcus extravaganza, which comes to the Liberty theater Wednesday, January 14, the effort has been made to amalgamate every known form of stage entertainment from grand opera to travesty. If there is anything missing to make this melange complete no doubt Impresario Marcus will esteem it a personal favor if the lack is pointed out.

To enumerate the various forms of entertainment represented in "Oh Baby" would be to mention every known style, past and present. An idea of the gamut of "Oh Baby" may be gathered when one sees Mike Sacks and his assistant clowns engaged in a comic game of poker, employing the most nonsensical of material, and the next instant the ridiculous gives place to the sublime when our first Miss Yvonne Vallal, Mons. Roland Zermain and the corps de ballet in the Dresden china divertissement, "The Artist's Model."

As one laughs at Mike Sacks and Charlie Abbate so does one marvel at the acrobatics of Marie Gerard or relish the airy banter of droll Richie Covey, while the yodeling of Billy Dale reminds one of that master of song, the late "Fritz" Emmett. Then there is the instrumental melody of the Morette sisters, to please the musically inclined, and of all emotions evoked none can be more potent than those engendered by the frequent appearance of the Marcus Peaches.

In truth, "Oh Baby" in the old days would have been a pousse cafe—when there were such animals. Its diversity of features are shuttled forth only to give way a moment later to something else unique in character. So rapid is their projection that the auditor is fairly bewildered in their unfolding.

LIBERTY THEATER

Announcement is made from the Liberty theater that William Russell, the big, handsome star who can do the hero stuff to suit the most exacting, will appear there Saturday and Sunday in "Eastward Ho!" a picture of the stirring novel by William M. Raine. Here is another instance of the best literature being put into photoplay and handled by an actor who can play the western hero minus the usual cheap imitation. "Eastward, Ho!" is a William Fox production, and should prove to be a genuine treat.

LONE STAR

Nazimova's great production, "The Brat," which comes to this theater today for a three days' engagement, is the story of the ennobling influences of love. Its heroine and dominating character is a waif of the city's slums who has never known any name save "the brat." To eke out a precarious existence she plays in the chorus of a cheap musical comedy. But the pittance she receives for wages is not enough to clothe her in even the half decent style of the other girls. "Fired" for being shabby, she faces the world desperate. A masher insults her she slaps his face and is hailed to the night court on an outrageous charge falsely made by the man she rebuffed. There a celebrated author salvages her from the human wrecks awaiting justice for their misdemeanors. He takes her home to study her as the heroine of his forthcoming novel. Love is kindled and fanned to flame—but jealousy stalks in his wake and there ensues a drama of heart-throbs and smiles, with surprises and tremendously moving climaxes. By reason of her simple faith the odd little "brat" eventually triumphs after heartburnings and sacrifices that touch the whole narrative with the superb qualities of genius.

Nazimova Keeps Same Players
Four players who were in the support of Nazimova in her big oriental drama, "The Red Lantern," are again cast with her in her newest production, "The Brat," now being shown at the Lone Star theater. They are Frank Currier, Darrell Foss, Amy Verness and Henry Kolker. The brilliant Russian artistes leading man in "The Brat," Charles Bryant, did not appear with her in "The Red Lantern," although he was her leading man in all of her other big screen successes. In addition Bonnie Hill, Mill-Davenport and Ethelbert Knott have excellent parts in "The Brat."

HIPPODROME

Last night at the Hippodrome Lewis' Virginia Beauties presented a

POLICE SEEK SENDER OF 12 FALSE FIRE ALARMS

International News Service.
ELIZABETH, N. J.—The entire fire and police departments of this city are searching for Luke Heery, who gives his address as Jersey City. They believe that Luke may know about six false fire alarms that were sent in Friday and a like number Thursday. The police say Luke spent sixty days in the county jail for a similar offense in 1906.

FOREIGN MINERS QUITTING COUNTRY IN GREAT NUMBERS

PITTSBURG, Kan.—A local photo-

graph studio, according to its proprietors, has been and still is one of the busiest places here since the starting and even settling of the coal strike.

The studio has been open day and night for several weeks in order to turn out photographs for foreign-born miners who are returning home in large numbers and require the pictures to comply with passport regulations.

MAN RUNS BUTTERFLY FARM NEAR LONDON

International News Service.
LONDON—A butterfly farm sounds like the dream of a small boy, but at least one such farm exists in the neighborhood of London. It is run by Mr. L. W. Newman, of Salisbury road, Bexley.

"If 10 per cent of the butterfly eggs laid in the winter were hatched out, every tree and plant in England would be stripped of its leaves," said Mr. Newman to a Daily Express representative. "As it is, only 2 per cent are hatched, but a successful butterfly farmer can raise 90 per cent."

Shrubs and small trees, covered with gauze veiling, form the homes of the Bexley farm of the caterpillars, which on their transformation into butterflies and moths are transferred to glass houses.

"I sell an enormous number," added Mr. Newman, "mostly the common white species, for experimental purposes for testing insect-killing sprays. Butterflies of all kinds are also in great demand for educational

purposes, but chiefly for collectors who have increased in number. Butterflies can sometimes be kept as pets. My wife used to keep peacock butterflies in a warm room during the winter, when they hibernated. They could be trained to eat honey from her hand."

ORGAN MUSIC

A Tremendous Screen Presentation of a Great Stage Triumph with the Greatest of All Stars

A Nazimova Production
THE BRAT
Adapted by Nazimova & Charles Bryant
Directed by Lambert Hickey

In her study of the strange little waif of the streets, Nazimova runs the entire range of emotions. Never has she had a role which called for so amazing a display of her powers of mimicry, facial expression and pantomime. No more admirable impersonation could be found for Nazimova.

WHAT NEW YORK CRITICS SAID ABOUT "THE BRAT"

NEW YORK SUN:
... "Interest maintained to the end * * * bright and catchy lines."

NEW YORK TIMES:
... "A female 'Chimmie Fadden' * * * an amusing piece."

NEW YORK TRIBUNE:
... "Again and again there are those delightful moments which right things inspire. * * * The play was enthusiastically received."

NEW YORK HERALD:
... "Witty, highly satirical and original * * * It is a 'one woman show' as was 'The Chorus Lady.'"

NEW YORK GLOBE:
... "audience laughed heartily * * * most consoling play I have seen this season."

FOR SALE—Hudson super-six, like new, at a bargain. A. M. Beeman, at Texas Bank and Trust Co.

VISITORS FROM INDIANA KEEP CALIFORNIA THRILLED

International News Service. SAN FRANCISCO, Jan. 9.—Does Indiana furnish every state with the principals in its most sensational murder cases?

This was asked by a native son of California of a native Hoosier. The reply, of course, was "Indiana, being the greatest state in the union for producing writers, must therefore produce something for these writers to write about, and therefore, now and then a murderer gets into the Hoosier lists."

Harry New, charged with the murder of Miss Freda Lesser, his sweetheart and fiancée, on July 4, 1919, near Los Angeles, is the murder trial sensation of Southern California, while the cases against Gordon Teacher, Lawrence McCarthy, both of La Brel, Ind., and John Helm, of Muncie, charged with the murder of Michael Needham, San Francisco rent-car driver, in San Mateo county on Nov. 1, is the sensation of the murder courts of Northern California.

The case involving the alleged son of Senator Harry New of Indianapolis, is of national interest because it involves persons of national reputation and character, while the case against Teacher, Helm and McCarthy is of vital interest to perhaps but two states, although in ordinary peace times it would assume a national character because of the very charges preferred against the three Indiana youths, two of whom are but eight years old and the third member of the trio but a year the senior of his chums.

Interest in the Needham murder case, now in progress at Redwood City, does not so much depend upon the principals involved, because none of these were known to any great extent outside of their own little circle of personal acquaintances. The fact that has stirred Northern California in connection with the Needham case is the manner in which the rent-car driver was slain and in which the trio of boys actually committed the act. A series of at least three confessions have been made by each of the boys, each of these nine confessions contradicting the other in some particular.

A parallel analysis of the Needham case and the New case in a few outstanding particulars, from a legal point of view, has been made by a lawyer here as follows:

"In order to convict a man of having committed murder several things must, under our law, be proved beyond any doubt. First, it must be made an established fact that someone is dead. This has been done in both the Los Angeles (New) and the Redwood City (Needham) case. In the first instance

it is Freda Lesser who is known to be dead, and in the second case Michael Needham, San Francisco rent-car driver, is dead.

"Second, it must be proven that the dead person was killed by another person. This also has been established in the New case to a fairly acceptable degree as it has in the Needham case, violence being evident in both. Miss Lesser was shot and died as the result of her wounds. Needham was beaten over the head with a hammer and then bound and gagged following a terrific struggle with his assailants.

"Third, it must be shown that it would have been possible for the defendant to have been the party committing the crime, that is, causing the death by violence of the murdered person. This has not been fully established in either the Los Angeles or the Redwood City case, although confessions have been obtained from the defendants in both instances.

"In the New case, it is alleged that the state will place an eye-witness on the stand to testify against the defendant. In the Needham case neither the counsel for the defense nor the state has even so much as intimated that there is a possibility of finding an eye witness. Circumstantial evidence and voluntary confessions alone will be brought out in the testimony against the three Indiana youths who are charged with slaying Needham. That automobiles figured in both cases is but another coincidence, in the two cases involving Indiana defendants, while it may also be said that in neither case was the victim a native of Indiana."

THE BULL IS DOCILE AS A LAMB, SAYS LAND GIRL LONDON.—The bull has been sadly slandered all these years. He isn't a rough guy at all, according to the Landswoman, official organ of women and girls who took up farm work during the war. Why mere man fails

At Lone Star, Friday, Saturday, Sunday

NAZIMOVA in "THE BRAT"

to be on good terms with the bull is explained thus: "He drives his bull, and the bull resents it; the woman leads the bull, and the bull follows—meekly!" The land girl, in fact, treats the bull as a lovable creature and he becomes as docile as a lamb. Margaret Starkey confesses she was afraid of bulls when she first joined the land army, but by kindness she taught them to eat cake out of her hand. "Many a time," writes Miss Starkey, "I have sat on the back of my present bull and fondled him as he was lying down." But Peggy Fisher, of East Sussex, has a different story. She rescued a man who was being gored by an angry bull. Now she's just been married to the man. She kicked the bull on the nose until he was obliged to retire.

RECORD WHEAT CROP.

International News Service. TOPEKA, Kan.—The total 1919 wheat crop produced by Kansas was 145,795,455 bushels of winter wheat and 313,737 bushels of spring wheat. It was from almost 12,000,000 acres, according to the small grain report issued by J. C. Mohler, secretary of the state board of agriculture. The average yield per acre was 12.56 bushels. The crop was the second largest harvested in any state this year.

**ALDERMAN WHO STRUCK
OIL OFF TO TROPICS IN
THE VANDERBILT YACHT**

International News Service.
PITTSBURG.—J. J. Kirby, alder-
man in the Second ward for twenty-
three years, has closed his office,
retired from active political and busi-
ness life and chartered Gen. Cornelius
Vanderbilt's yacht for an extended
cruise in the tropics, taking several
of his intimate friends with him.
Kirby, on the advice of a close
friend, invested in Oklahoma oil
fields. Several years elapsed before
his ship, or "yacht," came in, but
when it arrived it carried his wealth
into six figures.

To abort a cold

MUSHROOM SAILOR FOR SOUTHERN WEAR

This flirtatious mushroom sailor
gives indications of a romantic
year. The hat comes down
far enough to allow the eyes to
peep out in bewitching fashion.

Rough novelty straw banded in
grosgrain ribbon is made up in all
colors to suit both blondes and
brunettes as well as the betwixt
and between. This one is de-
veloped in the ever popular white.

**AERO SHOW AT
CHICAGO TO BE
BIG FEATURE**

CHICAGO, Jan. 9.—Exhibition flying
and the road of propellers as well
as displays of many types of Ameri-
can and allied aircraft will be a part
of the aeronautical show, to be held
here Jan. 8-15 inclusive. The show
is to be given with the approval and
patronage of the Manufacturers' Air-
craft association, Inc., and will be
followed later in the year by similar
shows in New York and San Fran-
cisco.
Pilots of the various large aircraft
corporations will demonstrate safety
devices and will display the good
points of their craft. If the weather
makes it possible, Walter Hempel,
secretary of the executive committee
in charge of the show, says that the
exhibition will probably be over Grant
Park on the lake front. According
to him one pilot has promised to make
a parachute jump from a plane only
seventy-five feet off the ground.
Little one-man scouts will be
ranged alongside of great multi-pass-
enger planes and gas filled blimps in
the Coliseum, where the display will
be.

Eddie Rickenbacker, American ace
of aces, will visit the show and one of
the bullet-riddled Spads he flew over
the western front will be on display.
Reed Landis, who became an ace and a
flight commander while serving
with the British, will also visit the
show. There will be a Rickenbacker
and Landis day.

British aviation will be represented
by the Interallied Aircraft corpora-
tion. The Aero-British training
plane will be one of the planes the
corporation will show.
Col. William Bishop, leading Cana-
dian ace, will visit the show, accord-
ing to present plans. He has seven-
ty-two Hunts to his credit.
Curtiss planes of many types will
be there, including the little triplane
in which the world's altitude record
was broken and the Eagle—a three-
motored eight-passenger bus.
Army, navy and postal department
planes and aeronautical appliances
will be part of an educational exhibit.
There will be non-inflammable para-
chutes, steel propellers, tiny models
of new types of craft, anti-aircraft
guns, flares, radio telephones, aerial
bombs and flying torpedoes. An aerial
postoffice will be maintained in the
Coliseum. A Thomas-Morse mail ship,
capable of carrying 2,000 tons, with
trigger arrangements to drop pouches
in flight, will be exhibited.
The Canadian air board will be
represented and the Aviation club of
Chicago will show official pictures of
the British air force, loaned for the
occasion.

**GALLON OF JERSEY
"EVIDENCE" DISAPPEARS**

JERSEY CITY, N. J.—Following a
recent order by Prosecutor Stricker
that crime must be stamped out in
Middlesex county, N. J., everywhere
but in the county detectives' office at
New Brunswick there has been a ces-
sation of crime.
Chief Detective Peltier's fountain
pen disappeared almost under his
eyes. Then a gallon or so of "evi-
dence" held for the prosecution of il-
legal liquor selling charges disap-
peared. A stock of "evidence" was on
hand, but special guards had to be
out on to keep it there. Overcoats
and umbrellas disappeared as if by
magic, and now the county detectives
find the only safe place for their be-
longings is away from the office.

**ALL DIAMONDS
IN WORLD EQUAL
WAGON OF COAL**

CHICAGO, Jan. 9.—If all the dia-
monds mined in history and existing
today as cut and polished gems were
gathered from the ends of the earth,
they would form a pile about as large
as a wagon load of coal dumped on
the sidewalk, says a Chicago statisti-
cal expert. The pile would contain
46,355,474 carats and the gems would
weigh 10 1/2 tons. If the pile were in
the form of a cone, it would have a
base diameter of eight feet and a
height of five feet. Breaking the
diamonds at \$300 a carat, it would
have a value of \$13,906,642,200. It
would contain 710 1-3 gallons, worth
\$5,539,023 a gallon; or 76 1-3 bushels,
valued at \$51,570,729 a bushel. All
the world's diamonds could be packed
in an ordinary clothes closet or a
kitchen pantry.

This estimate is based on an ap-
proximation of the total output of
rough diamonds in the world's entire
history. India, it is estimated, has
produced, all told, 50,000,000 carats;
Brazil, 15,000,000; South Africa, 170-
574,000; Borneo, 1,000,000; British
Guiana, 50,000; Australia, 150,000;
China, 2,000; Siberia, 500; United
States, 500. This is a total rough
output of 236,777,374 carats or 53 3-5
tons aoviduois.
Only about 50 per cent of rough
diamonds are cut into gems and lose
about 60 per cent of their weight in
being cut and polished. Diamonds are
practically indestructible and the first
diamond ever mined may possibly still
be in existence. But the estimate al-
lows for the loss of at least 1,000,000
carats by flood, fire, shipwreck and
other disasters. These reductions and
losses leave a total of cut and pol-
ished diamonds at 46,355,474 carats.
The estimate of \$300 a carat is the
minimum price at which diamonds can
be bought today. The popular demand
for diamonds was never so great and
they have become the gem of working
people as well as the wealthy classes.
They are worth three times as much
now as before the war and sell at
from \$300 to \$1,000 a carat.

One time a young gent from the West
had a dragon tattooed on his chest.
That got restless one day
And sneaked right away
Through a hole that he found in the
vest.

BUSINESS MEN'S CLUB SEEKING NEW CLUBROOMS

Officers of the Business Men's club were busy yesterday going over plans for the new club rooms for the organization, as outlined by Secretary Jennings. Also a number of important problems are being worked out for the good of the club and the advancement of the city.

The postponement of the banquet and smoker, which was to have been held tonight but was put off on account of bad weather, has given officers of the club time to prepare a detailed report to present at the meeting.

Two-Bit Touch Costs This Youth Roll Worth Much More

"Could you spare me enough for a meal?" queried a pleading voice.

The eyes of the man addressed, a well known oil operator of the Ranger field, took in the neat garb, the youth and the apparent good health of the speaker. A refusal started to his lips. Just then the hand of the young man came from his trousers pocket and something dropped on the sidewalk.

"Why, let me see," queried the oil man, moving on towards the T. & P. station, where he was headed when hailed by the young pan-handler. "Here's a quarter—and maybe I have another. No, it's a nickel," and he handed the young man a second coin, moving away from the spot where he had been stopped.

The young man took a note-book from another pocket and asked for the name and address of his benefactor murmuring something about returning "the loan."

"Don't do that," directed the Rangerite and moved away. The young man pocketed the note-book and moved down the street.

And the oil man, retracing his steps to the place where the young pan-handler had first addressed him, stooped over and picked up the roll of currency that the youth "in need of food" had unwittingly brought from his pocket as he made the touch. The touch contained \$12.

Modern Tailor Shop Is Opened

C. M. Session, who was in charge of the shoe department of Castellaw & Dietrich's store from last June until the first of this year, has opened up a modern cleaning, pressing and alteration shop in the rear of Castellaw's.

Mr. Session has employed two expert tailors to aid him in his new work. He plans to enlarge his place of business and purchase additional equipment, making his shop one of the best in the city.

He specializes on expert alterations and quality work.

North Central Field Shows a Slump for Week

Special to The Times. FORT WORTH, Jan. 9.—Production in the North Central Texas fields is more than 15,000 barrels below the daily average of a week ago. All of the larger pools registered declines, with the single exception of Electra. The total daily production of the northern part of the field is 98,935 barrels, compared with a daily average last week of 105,150 barrels. The daily average for the southern part of the field is 111,045 barrels, compared with an average a week ago of 119,700 barrels.

Following are the production figures:

	This wk.	Last wk.
Electra	10,160	9,650
Burkburnett	37,400	94,750
Petrolo	375	375
Iowa Park	350	350
Holiday	40	40
Ranger	50,035	56,790
Stephens county	35,875	36,700
Desdemona	24,155	25,165

: Eastland News : MONTREAL OIL CO. WELL SHOT; OTHER OIL NEWS COUNTY CLERK ONE OF BUSIEST CO. OFFICIALS

Special to The Times. EASTLAND, Jan. 9.—Montreal Oil company on the J. R. Nivers sixty-two and a half acres, south of Pleasant Grove and about four miles from Eastland, was shot with 220 quarts of nitro at 3,330 to 3,380 feet. The well flowed and filled the tanks and then bridged. It is being cleaned out. This well is one location from the States well on the P. P. Barber farm that came in several months ago, making about 700 barrels from the lime. It was drilled to the sand but did not increase its flow. The Montreal well will be shot in the lower sand found around 3,450 feet as soon as it is cleaned out from the upper sand. This well was known as the Texas Venture Oil company until it was taken over by the Montreal Oil company, which is composed entirely of Canadians. The shot was placed in the hole and was expected to explode within seventy-two hours. It went off within a few minutes of the time. Quite a heated discussion has arisen as to whether the heat of the earth at this depth explodes the shot or that the chemical action of the limestone water causes the explosion.

Albers Oil company J. A. Brown No. 1, that was rumored to be producing 2,300 barrels, is not producing at all. The six-inch casing has not been set.

Frank Day Oil company, on the Downtown tract, is setting six-inch casing on the top of the lime and expects to drill in a short while.

Root & Telling A. C. Bond No. 1 is flowing by heads from 3,488 feet. A severe cold snap, followed by rain and snow, has greatly handicapped operations in this field for the past few days.

Other Operations. Black Diamond Oil company Courtney No. 1, spudding; Frensland Oil company Stokes No. 1, drilling at 1,980; salt water, show of gas; Sammie Oil company Baeggett No. 1, rigged up; Mid-Kansas C. J. Harrell No. 1, drilling, 2,460; El Paso Ranger company No. 1, drilling at 1,000; North American Refining company C. U. Connelley No. 4, 2,500 feet of oil in hole at 3,784; States Oil corporation Ray No. 1, spudded; J. E. Nix No. 1, location; No. 2, location; No. 3, rigging up; Burke Central Langford No. 1, rig; Magnolia Petroleum company Loper No. 1, fishing, 1,050; Mid-Kansas C. J. Harrell No. 2, fishing at 700; No. 3, location; No. 4, location; Ranger Texas C. J. Harrell No. 2, rig; Sinclair Gulf W. T. Davis No. 7, flowing by heads, 1,954; Vulcan Oil company Bryant No. 1, drilling at 385; Jarney Carter Pierce No. 1, shut down for fuel at 3,570; Guggenheim interests Barker No. 2, drilling at 2,670; No. 3, rig temporarily abandoned; Gulf Production company M. Barnes No. 8, shot in hole at 3,453; No. 9, rig; Rickard Texas Barker No. 1, drilling at 2,240; John Markam Thompson No. 1, rig; Ohio Cities Pierce No. 2, rig; Sinclair Gulf W. T. Davis No. 3, rig; No. 5, location; No. 6, drilling at 605; J. E. Barnes No. 1, shut down at 3,580; Sun company Christmas No. 1, cleaning out at 3,580; No. 2, 1,225, drilling; T. P. Coal and Oil Terrell No. 4, shut down at 3,070; Vulcan Oil company W. T. Davis No. 2, rig; B. A. Davis No. 3, rigging up; No. 4, drilling at 1,310; McKensie Griffin No. 3, fishing at 490.

Special to The Times. EASTLAND, Jan. 9.—Earl Bender, county clerk of Eastland county, would be a thousand dollars better off each month if the old fee system that was in vogue when he first came into office was now in effect. Prior to July, the county clerk received a commission on each of the instruments that were filed. Following the discovery of oil, the number of instruments filed reached such a high number that the clerk was put on a straight salary, the same as other county official receive.

Twelve thousand instruments of all descriptions have been filed since Aug. 1, 1919, and if Mr. Bender was on a commission he would be about \$5,000 richer than he is now. The 12,000 instruments do not include chattel mortgages, of which several hundred are filed each week.

Mr. Bender also helps along Dan Cupid. Those matrimonially inclined must receive their license through him. During the month of December 111 marriage licenses were issued through his office. Many of the ceremonies were performed in the office by Justice of the Peace H. B. Horn.

Under the management of Mr. Bender, the office has been systematized and everything put on a more businesslike basis. New equipment has been ordered, some of which has arrived, and as soon as all its equipment is received, the county clerk's office of Eastland, which probably is one of the biggest in West Texas, will also be the most up-to-date.

The office force numbers fifteen persons, most of whom are girls, and these girls are offered tips ranging from \$1 to \$10, by oil men who are

in the habit of tipping, but these are always politely but firmly declined. One of the girls kept track of the tips offered her for one month and found that they were in the neighborhood of \$100.

The county clerk's office has been a good source of revenue to the county, more than \$75,000 is now on deposit in Eastland banks. Most of this is taken from county court cases, of which there are a great many.

Bender was appointed to office, to fill the vacancy caused by the resignation of Mrs. Maud Crossley Young, who resigned to enter the oil game.

ADELE ROWLAND has a quality in her voice that goes very far in its appeal and it certainly reaches its mark in the song "GRANNY"

Van and Schenk wrote their own music and sing "Open Up the Golden Gates to Dixieland." Columbia Record No. A2820
