RANGER, TEXAS, SUNDAY MORNING, JANUARY 25, 1920.

No. 255.

GOVERNMENT PLANS TO NAME RECEIVER TO TAKE CHARGE IN TEXAS-OKLAHOMA BOUNDARY DISPUTE

REPORT 1,000 BARREL WELL IN CALLAHAN

Special to The Times. ABILENE, Jan. 24.—Callahan county as an oil field! Such is the expectation of those who have daily confirmation of their belief by the westward, ever westward, extensions of the Deadwood pool. Information believed to be authentic was received here today, reporting the completion of the test well on the W. C. Hilburn farm, six miles northwest of Rising Star, in the southwestern part of Eastland county. The sand was reached at 3,000 feet and oil flowed over the top, estimated at 1,000 barrels. The well is shut down for storage, continues the report. This extends production thirty miles west of Deadwood and comes to within two miles of the Callahan county line. Numbers of Abilene people having holdings near this well and connected with the fact that Abilene has pinned her faith on Callahan county, the bringing in of this well was quite a sensation and it is expected to be an added stimulus to the development of Callahan county, which already has begun to take on the appearance of an oil field.

Communists Are Seeking Ruin of U.S.—Sec. Wilson

WASHINGTON, D. C., Jan. 24.—The Communist Party of America was held by Secretary of Labor Wilson today to be "a revolutionary party" within the meaning of the statute providing for deportation of aliens who affiliate with such organizations. In the case of Engelbert Preis, an Austrian, arrested in recent raids, execution of a deportation warrant has been asked, paving the way for deportation of this alien now in custody and against whom similar charges have been brought. The ruling was made in an opinion in which documents relating to the Communist party are discussed. The secretary said that "the only conclusion is that the Communist Party of America is an organization that believes in, teaches and advocates the overthrow by violence of the Government of the United States."

Lady Astor Says Prohibition Not Possible Just Now

LIVERPOOL, Jan. 24.—Lady Astor, member of parliament for Plymouth, speaking today in support of a bill, purchase and control of the liquor trade, declared prohibition was impracticable. "I hate the word 'prohibition,'" she said, "and have just enough devil in me that if anyone prohibits anything it becomes one thing I want." People go to public houses, she continued, for warmth and comradeship.

ALLIES NOT TO CEASE FIGHT FOR EX-KAISER

LONDON, Jan. 24.—In diplomatic quarters the belief was expressed this morning that the Dutch reply with regard to surrender of the former German Emperor does not close the incident. It is held that the Allies have strongly committed themselves in the peace treaty on this matter and that they cannot withdraw without further conversations with Holland. At the same time, public opinion in England regarding the trial of the former war-lord has changed considerably since the conference. At that time the country appeared very keen for bringing the ex-Kaiser to justice. In recent days, however, the feeling seemed to have become more or less apathetic.

DECISION IS FINAL. THE HAGUE, Jan. 24.—While there may be a future exchange of notes with reference to the Allied demand for the surrender of the former German Emperor, the government of the Netherlands is declared inclined to the belief that its decision will be considered as final. The Dutch press does not expect any belligerent action by the Allied powers. The Dutch people are not particularly happy that the ex-Emperor sought refuge here but so far as the press comment can indicate, the government's refusal to surrender him was what the people expected and wanted.

GERMAN PRESS PLEASED. BERLIN, Jan. 24.—The Pan-German press joyfully hails what it characterizes as the mainly attitude of Holland on the question of the extradition of former Emperor William. The Bourgeois journals and those of the Radicals and Majority Socialist persuasion also express satisfaction with the Dutch government note.

LONDON, Jan. 24.—The Evening Standard in its comment on the Dutch reply says: "The reply of Holland is not very convincing although its general purport is in accordance with expectations and meets with some measure of sympathy in this country. Few men in Holland, will deny that the Kaiser deserves to be tried, and there are plenty, even in Germany, who wish he might be brought to judgment. The Allies cannot attempt to abandon the trial merely because Holland makes the objection that hitherto no written international code has actually denounced the acts the Kaiser committed."

The clearing of the world politics demands the clearing up of the conspiracy which brought calamity to Europe and a demonstration that crimes are not tolerated by the offenders' station or murder excused by its magnitude. By obstructing these ends, Holland places herself in a position of an ally with criminals and confirms the widespread impression that she is merely a glove covering the German hand."

Blanton Urges Passage of Anti-Sedition Bills

WASHINGTON, Jan. 24.—Enactment of the anti-sedition legislation was urged before the rules committee today by Representative Blanton, who vigorously attacked President Gompers of the American Federation of Labor for opposition to such legislation and charged that the Department of Labor was "honey-combed" with anarchy.

EFFORTS TO GET COMPROMISE ON TREATY HALTED

WASHINGTON, Jan. 24.—Compromise negotiations in the senate on the peace treaty were halted temporarily today while Republican senators took stock of the situation caused by the protest against further compromise made yesterday by Senator Lodge by Senators Johnson of California and Borah of Idaho and other Republicans. To give opportunity for the Republican senators, conference, Senator Lodge cancelled the meetings of the bi-partisan conference of Republican and Democratic leaders considering compromise reservations. Another meeting of the conciliation committee was called for Monday, however, and meantime informal conferences on both sides were planned. Numerous consultations between members of all senate factions were held today and leaders generally agreed that the outlook for an early settlement was not promising. It was conceded in all quarters that the protest by Senators Borah and others had made future negotiations more difficult.

Besides conferences of the Republican leaders today the "mild reservation" Republicans and also a number of Democrats consulted separately and with each other. The "mild reservationists" were sounded out by Senator Hitchcock and other Democratic leaders, and it was stated by assurance that if the opposition from Senators Johnson, Borah and their adherents to further compromises blocked the conciliation movement, some of the "mild reservationists" were prepared to treat with the Democrats independently in an effort to "split about ratification." Both Republican and Democratic leaders agreed today that the situation was developing where the war are soon might break out on the senate floor.

Marooned Ship Is 'Bombed' With Meat by Plane

CHICAGO, Jan. 24.—Fourteen sailors marooned six miles off Chicago harbor since last Monday when their ship, Sidney Omesa, was frozen in the ice floes, received relief today when an airplane "bombed" the vessel with 200 pounds of meat. The flyers missed the steamer by a mile, but the precious packages of food fell on the ice packs and the sailors retrieved them. Shortly after the aerial expedition, a second relief party reached the ship after a perilous journey over the ice, bringing a lifeboat filled with provisions.

Daniels Asks Exportation of Helium Stopped

WASHINGTON, Jan. 24.—Congress was asked today by Secretary Daniels to prohibit the export of helium, a non-inflammable gas obtained from natural gas of Kansas, Oklahoma and Texas and used for filling military balloons and dirigibles. Mr. Daniels proposed that five years' imprisonment and \$5,000 fine be imposed for violation of the export ban. Exportation, he said, soon would exhaust the supply.

G. O. P. Leaders at Cisco Making Poll Tax Campaign

CISCO, Jan. 24.—Local G. O. P. leaders are making a poll tax payment campaign here. Local politics will loom up in Eastland county this year, judging from the way the G. O. P. leaders are planning. It is believed that a full county, district and state ticket will confront the Democrats this year in this county. All the people haven't the habit of reading the "Want Ads" daily—you should take advantage of our time rates in order to reach those who are negligent.

CARRANZA AND HUERTA BREAK IS REVEALED

SAN ANTONIO, Jan. 24.—Copies of official telegrams that indicate Carranza's refusal to recognize Huerta as the basis for a more personal interest than the "avenging of the blood of Madero" were placed in evidence at the last hearing here today of the senate sub-committee investigating the Mexican situation. Evidence tended to show that it was not until Huerta took Carranza, then governor of Coahuila, to task for extorting money from banks at Saltillo that he determined to attempt by revolution the restoration of constitutional order. From the terms of the messages it is contended there were two conditions which Carranza sought to impose on General Huerta in return for his former recognition of Huerta as president of Mexico. They were that Carranza be permitted to remain as governor of Coahuila and that the federal government should agree to continue the auxiliary forces together with the federal subsidies.

Carranza, however, objected to the control of the state troops by the federal government, other messages show, and disregarding the conditions reached by General Huerta through his commands to finance his patriots by making levies on financial institutions in the state of Coahuila. General Huerta learning of this sent the governor of Coahuila the following message: "Please inform us for what purpose you extracted \$40,000 from the bank as this government has no information on this subject." Carranza then decided to avenge Madero. The committee left here tonight for El Paso, where the hearings will be resumed the latter part of next week.

JAIL BARS FOR PROFITEERS IS BEING URGED

WASHINGTON, Jan. 24.—Jail bars for profiteers was urged by Senator Capper, republican, Kansas, in an address today in the senate. Profiteers, he said, are more dangerous than "Reds." Advancing legislation by congress to curb profiteering, Senator Capper said the people could help themselves if they would organize to boycott the "profit hogs" by refusing to buy goods offered at extortionate prices. The Kansas senator declared there could be no doubt that "the general public is being sandbagged" in view of profits reported by large manufacturing corporations and the rise in the value of their securities. He cited figures regarding the American Woolen Company and others. Referring to increased prices of clothing, Senator Capper read a telegram from the National Wool Growers' Association stating that the wool in a suit of clothes selling for \$100 cost only \$7.37.

Appropriation for Ship Repairs Refused by House

WASHINGTON, Jan. 24.—By a margin of one vote, the House appropriations committee today refused to include in the deficiency appropriation bill a fund of \$10,000,000 asked by the navy department for repairs to ships. Naval officials had informed the committee that unless the money was made available, necessary repairs to many ships and destroyers could not be made and that 12,000 navy yard employees would have to be discharged next month. As approved by the committee, the bill, the second of the current fiscal year carried \$88,684,000, of which \$71,700,000 was for expenditures growing out of the war. The measure includes an appropriation of \$12,000,000 for the vocational rehabilitation work of disabled service men and \$4,500,000 for the care of war risk insurance patients.

Bank Robbers Smash Vault and Secure \$5,000

DALLAS, Jan. 21.—Robbers used a pickaxe and crow-bars to smash their way through a 26-inch brick wall into the vault of the First Guaranty Bank at Cedar Hill near here today and escaped with more than \$5,000 in Liberty bonds and saving stamps. Considerable money in the bank was untouched as the robbers apparently were unable to open the safe. BOY SHOT BY HIS LITTLE BROTHER DIES. International News Service. TRENTON, N. J.—George Pullen, fourteen years old, of Hamilton Township, this county, who was shot by his eight-year-old brother Arthur, on January 2, when the little fellow playfully pointed a shotgun at him and pulled the trigger, is dead in the Mercer Hospital. His lower jaw and part of his throat were torn away.

ANTI-SEDITION BILLS LIKELY BE RETURNED

WASHINGTON, Jan. 24.—Return of pending anti-sedition bills to the House judiciary committee for modification of provisions attacked as too drastic was indicated tonight as the probable action of the rules committee, which closed its hearing tonight on application for a special rule to expedite passage of the legislation. The rules committee is expected to decide next week but committee members said the protest against both the Sterling senate bill and the Graham House measure made it impossible to say that they should be modified. Frederick M. Ralston, counsel for the American Federation of Labor and the National Popular government, urged today on the bill and charged Attorney General Palmer and department of justice agents with violation of constitutional rights in connection with some phases of the campaign against radicals; while Representative Blanton, Democrat, Texas, and Davy, Democrat, Ohio, urged enactment. Blanton declared congress must "smother anarchy," and attacked Samuel Gompers, president of the American Federation of Labor, and the labor department, which, he said, was "honey-combed with anarchy." If the redaction law fails, he said, congress would "bear the mark of having bowed to Gompers."

NO CAUSE FOR PANIC OVER 'FLU,' SAYS OFFICIAL

WASHINGTON, Jan. 24.—Although reports received by the public health service in the last twenty-four hours showed a gradual increase of influenza cases over the country, Surgeon General Blue today said there was no real cause "for the people to get snicker" and that state and city health authorities apparently had the situation well in hand. Decrease in Chicago. CHICAGO, Jan. 24.—Influenza and pneumonia cases decreased today in Chicago as compared with Friday's report and tonight Health Commissioner Dill Robertson declared the situation was encouraging. Influenza cases reported today numbered 1,808, a decrease of 422 over Friday, although deaths numbered fifty-one, three more than yesterday. Of pneumonia there were 207 new cases, a decrease of fourteen over yesterday. Deaths from this disease today numbered forty-six, a decrease of seven.

2,361 New Cases in N. Y.

NEW YORK, Jan. 24.—A total of 2,361 new influenza cases were reported to the city today as compared to 1,332 yesterday. Thirty-three deaths, or ten more than yesterday, were reported from this cause. Pneumonia cases numbered 346, with eleven deaths. Yesterday's figures were 406 cases and eighty-nine deaths.

Bank Robbers Smash Vault and Secure \$5,000

DALLAS, Jan. 21.—Robbers used a pickaxe and crow-bars to smash their way through a 26-inch brick wall into the vault of the First Guaranty Bank at Cedar Hill near here today and escaped with more than \$5,000 in Liberty bonds and saving stamps. Considerable money in the bank was untouched as the robbers apparently were unable to open the safe.

BOY SHOT BY HIS LITTLE BROTHER DIES. International News Service. TRENTON, N. J.—George Pullen, fourteen years old, of Hamilton Township, this county, who was shot by his eight-year-old brother Arthur, on January 2, when the little fellow playfully pointed a shotgun at him and pulled the trigger, is dead in the Mercer Hospital. His lower jaw and part of his throat were torn away.

28 TEXAS RANGERS ARE ENCAMPED IN RED RIVER DISTRICT, WELL ARMED

(By The Associated Press.) AUSTIN, Jan. 24.—The federal government will soon move for a receiver to supersede and replace Texas and Oklahoma receivers who have been appointed for oil lands along the Red river, which are now in dispute between the two states, according to T. J. Robison, Texas land commissioner, who said tonight that he received this information while in Washington recently. The federal agents, Mr. Robison continued, will take charge of the property until litigation to determine its ownership is ended and thus terminate the disputes which have threatened clashes between rival claimants.

20 Squadrons of Bolshevik Cavalry Are Driven Back

LONDON, Jan. 24.—Advices to the War Office from South Russia dated January 22, report that 20 squadrons of Bolshevik cavalry, supported by strong mixed force, crossed the Don at Makhirev on January 21, but were thrown back leaving 1,000 prisoners. An attempt by the Reds to cross at Restov also was repulsed.

3 ARE DEAD AS RESULT OF HOTEL FIRE AT DALLAS

DALLAS, Jan. 24.—Search of the ruins disclosed that three lives were lost in a fire which destroyed the interior of Hotel Main here early today. Six persons are in hospitals suffering severe burns and bruises and several others sustained minor injuries. None of the hospital cases are believed to be critical. The fire followed an unexpected gas explosion at an early hour and the corridors of the three-story structure were filled with smoke and flames before many of the fifty guests in the hotel were awakened. The dead, whose bodies were found in the debris here: A. L. Chastain, an express company employe; C. L. Cowan, telegraph messenger of Little Rock, Ark., and a man believed to be A. Learned, a stranger here.

Bryan Says That Hoover Will Have to State Position

NASHVILLE, Jan. 24.—Pending a statement of "his position on the question at issue," by Herbert Hoover, W. J. Bryan told newspapermen today he could not consider the candidacy of the former food administrator for the presidential nomination. "When Mr. Hoover takes the people into his confidence and states his position on questions at issue," Mr. Bryan said, "it will be time enough to hear from him today. Punishment was meted at five years in the penitentiary. The case was tried on a charge of embezzlement."

What Your Sunday Times Contains

Your Sunday is not complete without your copy of the Times. It has its metropolitan comic section, on a par with that of the dailies of much larger cities. What newspaper readers of whatever age, does not consult the gay pages of the comic section for the smiles it is sure to contain—Maud the Katries, the inimitable humor of Rube Goldberg in his accounts of Bomb McNutt, and the whims and delights of childhood in "Say, Pop." There are the serious news features offered by the Associated Press, the International News Service and the Central Press Association, conceded to be the king trio of reliable, interesting and speedy news services. There is news of your own city, given to you in complete detail, and fresh. News of the world's greatest oil field—the Ranger field—and of the sections that are immediate to Ranger, the oil city. Sunday isn't complete without the Times.

CHAMBER OF COMMERCE FOR A BIGGER AND BETTER RANGER RANGER, TEXAS January 24, 1920. Ranger Daily Times, Ranger, Texas. Gentlemen: As president of the Chamber of Commerce, I wish to voice the opinion of this organization to express thanks and appreciation for your hearty support and co-operation in securing the "Third Annual Meeting of the West Texas Chamber of Commerce." With such spirit as you have shown, the prosperity of Ranger is assured. Yours sincerely, CHAMBER OF COMMERCE, HH-NLA.

Shows This Week at Leading Playhouses

LIBERTY—TODAY, Dorothy Gish in "I'll Get Him Yet;" MONDAY AND TUESDAY, William Farnum in "Wings of the Morning;" WEDNESDAY AND THURSDAY, big road show, "Experience;" FRIDAY, Bryant Washburn in "Something to Do;" SATURDAY, Fox production, "Lost Money."

HIPPODROME—TODAY, Marion Davis in "Getting Mary Married;" Commencing Monday, ALL THIS WEEK, Billy Whedles, "Blue Grass Belles."

OPERA HOUSE—TODAY, "Guardian of the Accolade" and Neal Hart in "When the Desert Smiled;" MONDAY, Hoot Gibson in the "Double Holl-Up;" TUESDAY AND WEDNESDAY, Frank Mayo in "The Brute Breaker;" THURSDAY, "The Right to Happiness;" FRIDAY, Anita Stewart in "The Comrat;" SATURDAY, Gertrude O'Neil and Otis B. Thayer in "Miss Arizona," and comedy, "The Hall Room Boys."

she has been taking lessons in flying on Staten Island, where her own aeroplane is housed in a big hangar.

Miss Davies' latest picture is a screen adaptation of E. Phillips Oppenheim's novel and provides the talented player with a striking vehicle in which mystery and romance play prominent parts. She is cast as an actress of great promise who nearly comes under the dominance of an unscrupulous financier, but is saved by her love for a young playwright who is himself under suspicion for the supposed murder of his cousin. Nigel Barrie is the leading man and heads a good supporting company. The picture is released as a Paramount-Artcraft and was directed by George D. Baker.

LIBERTY Historic Cruiser is Used in Farnum Play.

The eighty-odd members of the crew of the U. S. S. Alert, berthed at the submarine base at San Pedro harbor, California, never will forget a visit to them by William Farnum, the William Fox screen star, who, in company with Director J. Gordon Edwards and a supporting company of players, spent a day on the historic United States gunboat filming scenes for "Wings of the Morning," a picturization of the novel of the same name by Louis Tracy, which will be shown at the Liberty Theatre commencing tomorrow.

Permission had been granted Mr. Farnum and his company to work aboard the vessel and on his arrival Ensign J. M. Jensen, the officer of the

day, had all the sailors lined up to extend a cordial greeting to the star. Both the land and sea forces of Uncle Sam were cognizant of the work done in their behalf by Farnum during the war.

In company with several officers, Mr. Farnum was taken around the ship, which has been in service for nearly forty years and was at the Azores during the late war, acting as a mother ship to the subs.

The entire day was spent in taking scenes in and about the vessel, while many of the officers and "gobs" acted as extras. They watched the taking of the various scenes with a great deal of interest and gave their screen idol an abundance of hearty applause. When he left the boys lined up alongside the rail for a farewell of three hearty cheers and a cordial invitation to return.

NEW THEATRE TO OPEN FEB. 1.

The Lamb Temple of Photoplays, located next door to the Commercial Hotel, will open February 1, according to an announcement made yesterday by the manager. This new theatre will be modern in every respect and will show only first-run pictures. It is practically finished now, a few finishing touches remaining including the installation of a new pipe organ.

OPERAHOUSE

When there is a convention of old-time lumbermen in northern Michigan, the second day is always devoted to camp reminiscences. Among the old standby stories is the one about the famous board sidewalk in Saginaw.

When Tim McCoy's father was running the village, the town boasted of a fine strip of elegant board sidewalk. Every spring when the boys came down out of the woods with the drive and liquor was strong and plentiful, the good citizens packed up and moved temporarily to Ka'mazoo. When they returned, the board sidewalk was nicked with boot calks, and many of the boards had been torn up for battle clubs.

According to tradition, one of the wildest fights took place when a lumberman stepped on somebody's meal ticket with his calked boots and punched out \$3 worth of food.

The north woods will always live in tradition and in the realm of the silent drama.

"The Brute Breaker," which is to be shown at the Operahouse Monday and Tuesday, tells a dramatic story of the north.

Frank Mayo and Kathryn Adams hold starring honors in the production which was directed at Universal City by Lynn F. Reynolds.

In the cast are Harry Northun, Jack Curtis, Purwell Hambrick, Bert Sprotte, Frank Brownlee and Charles LeMoine.

CHICAGO—Recommendations to banks and trust companies in all federal reserve districts that no rates in excess of 2 1/4 per cent be paid on net and available daily balances were made in resolutions adopted at a meeting of representatives here of federal reserve districts.

The Search.
We saw Diogenes the other day with his lantern.
"Still looking for an honest man?" we asked.
He shook his head mournfully.
"No; I gave that up long ago. I wish I'd stuck to it. It wasn't half so hopeless as what I'm doing now."
He certainly did look despondent, and our near. went out to him.

"What are you looking for now then?" we asked.
He sighed.
"I'm looking for a congressman who made out his income tax without anybody's help."—Life.

When it comes to news in general of the world and West Texas and its fast-growing city in particular, the Times tells 'em about it.

NOW—ALL DAY

DOROTHY GISH

"I'LL GET HIM YET"

That darned old railroad! She couldn't make him love her because she was a bloated railroad magnate—and he hated railroad magnates!

Oh, Government Ownership! Where is thy sting for Dorothy Gish in 'I'll Get Him Yet'!

Ranger's Finest Theatre

BEAUTIFULLY DECORATED.

OPENING WITH
MARY PICKFORD
in her own production of
"POLLYANNA"

Hold no!

Once in a while, and only once in a while, there comes a photodrama of such stupendous magnitude and of such intensely dramatic situations that it grips us; holds us; and will not let us go until the final scenes have faded from the screen leaving us bewildered by what we have seen. Just such a photo-drama is "The Still Alarm," which comes to the Queen Theatre tomorrow.

HIPPODROME

Wonderful Interior Sets in "Getting Mary Married."

Some of the most remarkable interior sets ever seen in motion picture form the background for "Getting Mary Married," Marion Davies' latest Select Picture, which can be seen today at the Hippodrome Theatre.

Large, light bedrooms, handsome dining rooms, spacious living rooms, beautiful ballrooms and lengthy halls of palatial residences—all combine to form an interesting panorama, which passes on the screen and affords the spectator a lesson in interior decorating as well as a diverting amusement. All the rooms are exquisitely furnished and correct to the last detail. The excellent photography, which shows these sets off to advantage, is due to the skill of Lyman Broening.

Marion Davies was never more beautiful in her life, and she is cast in a role for which she is admirably adapted and of which she takes full advantage to display her talents. "Getting Mary Married" is a high class comedy of many laughs and will interest the most blasé theatregoer.

It is the story of a girl who is held under the thumb of aristocratic but avaricious relatives. Her stepfather has stipulated in his will that she must live with his brother's family for one year before she can get one cent of the fortune he has left her. Circumstances force her to make an attempt to live with her relatives for the year.

This fascinating tale of romance, youth and aristocracy was directed by Allan Dwan.

CONGRESSIONAL RECORD SHOWS BATTLE—P. O. DEPARTMENT VS. BLANTON AND POSTMASTER KELLY

The dry, dull pages of the Congressional Record offer harbor interesting reading. In the Record of January 13, 1920, is found an angle on the recent appointment of a postmaster at Ranger. Congressman Thomas L. Blanton is quoted:

"When Mr. Ryan told me in October that he had complied with the requests of every postmaster in the oil fields, I wrote the postmaster, F. O. Kelly, at Ranger, Texas, so informing him and asking him to advise if it were true, and, if not, to tell me what he still needed in order to give the proper service to the 25,000 people in Ranger.

"He wrote back that the department had not furnished him with the needed requirements and gave me a specific list of his needs. At this time, people in Ranger were paying \$1 and \$2 for a place in line to get their mail, which was perfectly outrageous. I sent this letter to the department and later on, to my great surprise and mortification, I found that the department had written an insulting letter to this loyal postmaster, who was serving more as an accommodation to his people than anything else, and had threatened him with suspension for having called on congressmen for help, when, as a matter of fact, such congressmen had invited the communication.

"Let me read you what the department wrote:

"It is not understood why you should consider the congressman's influence with the department necessary in order to secure authority for the employment of necessary clerical assistance. Furthermore, your statements to him are so grossly inaccurate as to raise the question as to your integrity. Ordinarily, such conduct would subject the offender to summary removal. However, your record prior to the date of your letter to the congressman has been good and you have evidenced an earnest effort to maintain the service at Ranger on a satisfactory basis. Therefore no action will be taken pending your reply to this letter, which you will be expected to submit promptly to me under personal cover.—J. C. Koons, First Assistant."

In regard to this letter, the Record shows, F. O. Kelly wrote to Congressman Blanton:

"I took this office at a financial sacrifice in order to try to get the service on a basis that would be satisfactory to all concerned, feeling that I would be rewarded by the co-operation of both the patrons and the department, and that the salary would increase as the office progressed until I would not be wholly unpaid for the effort expended and the loss sustained.

"In view of the fact that I have been accused of grossly misrepresenting matters and unlawfully soliciting legislative influence to secure service at this place, I feel, Mr. Blanton, that if I am guilty of these charges I am not a fit person to hold this responsible position and I believe that it is your duty to ask that I be removed from the place. But if there is a doubt in your mind as to the correctness of these charges, I respect-

fully refer you to any of the following persons of Ranger:

"M. H. Hazaman, mayor; R. Gray Powell, cashier First National bank; C. H. Butler, vice president Bank of Ranger; C. C. Chenoweth, Texas Bank and Trust Company; George P. Hemmingson, secretary of the Chamber of Commerce; Dr. M. S. Alexander, Dr. L. C. G. Buchanan, or any prominent business man in this city, and if after your investigation you find that I am worthy to remain in this position as acting postmaster, I ask that you will kindly place this communication in your waste basket and forget it.—F. O. Kelly."

And the letter to J. C. Koons, first assistant postmaster general, from Mr. Kelly:

"Refer to my two letters of September 24.

"There had been allowed eleven regular clerks. I asked for sixteen additional, to bring the total to twenty-seven clerks, and gave designations to which they would be placed. I asked for two additional carriers, to make a total of five foot carriers, and one parcels post carrier; also asked for my department-owned delivery truck for this parcel post. I stated that this was necessary to give the patrons satisfactory service.

"Then, on October 18, your letter stating that I had been allowed seven additional clerks, three at \$1,500, plus fifteen per cent, and four at \$1,200, plus fifteen per cent, and with the five auxiliary clerks granted this made a total of twenty-three clerks.

"In the same mail I received a letter from Thomas L. Blanton, member of congress, stating that you had informed him that I had been granted all that I asked. This letter from the congressman came to me unsolicited. His statement that you granted me all that I had asked and his request that I advise him at once if there was anything else needed to give his people service were in a letter dated October 17. I held this letter, waiting advice from your office as to the help you had promised him to grant.

"On November 24, sixty days after my request for relief in the city delivery section, not having received any word from you, at the request of Dr. M. S. Alexander, who had just received a letter from Congressman Blanton, stating that he had not had a reply to a letter addressed to me, I could do nothing else than answer the congressman's letter; and I gave him a plain statement of facts as they confronted us.

"Your letter was not written, granting me the extra help for the city delivery, until November 22, fifty-eight days after I had asked for it, and thirty-five days after the congressman's letter to me stating that I had been granted everything I asked.

"If you can prove that any statement I have made to you or Congressman Blanton is not true, I am sure Congressman Blanton is man enough to ask that I be removed.

"In appreciation of your statement that my record has been good and that I had evidenced an effort to maintain satisfactory service, allow

me to say that I am here for the good of the service and am trying to give everyone a square deal and run the office as near to the postal laws and regulations as possible and without fear or favor to anyone.

"Any additional information you wish on this matter will be cheerfully given.—F. O. KELLY."

Remarks of Mr. Blanton, in the Congressional Record, defended the stand taken by Mr. Kelly and scored the department for its attack on him. Whether or not these excerpts throw any light on the recent appointment, they have a certain interest.

Items of Interest

BATTLE—Capt. John F. Blaine has been indicted here in connection with the alleged frauds in the wartime construction of ships.

PITTSBURG—A warehouse of the Atlantic Refining company in the Lawrenceville district of Pittsburgh, housing 300,000 gallons of lubricating oil, was destroyed by fire of an undetermined origin. The loss is estimated at from \$300,000 to \$500,000.

DALLAS—After he had sold three quart whisky bottles filled with tea for \$10 apiece, a negro was arrested in East Dallas on a complaint of his

Coming to Opera House This Week

ANITA STEWART

victim. It is said the negro had enough tea to net him a small fortune had he been able to dispose of it all.

CHICAGO—Suits have been filed

demanding more than \$1,000,000 in damages from the city of Chicago from deaths, injuries and property damage in last summer's race riots. Of this, more than \$100,000 is sought by relatives of twenty-two men and women said to have been killed in the riots.

FORT WORTH—A \$1,000,000 Masonic charitable home for orphans and the aged with a possibility of it being located in Texas was pleaded for by W. Freeman Kendrick of Philadelphia, imperial potentate of the Mystic Shrine of North America.

DENTON—Heavy ice, resulting from twenty-four hours of freezing rain, caused much trouble here by the breaking of telephone and electric light wires. The power plant was forced to shut down for several hours because of a number of breaks in the cable.

FORT WORTH—Embargo has been placed on the movement of all freight from points in the southwest to Shreveport, La. All shipments in transit, when the order becomes effective, will be allowed to proceed to their destination. This drastic action was made necessary due to the accumulation of vast quantities of oil well and other supplies in the warehouses in Shreveport. The congestion is expected to be relieved in a few days.

TOWN FIRE DEPT. SEARCHES FOR LOST EQUIPMENT

International News Service. ALTOONA, Pa.—The Martinsburg fire department has lost part of its equipment and is advertising to locate it. This ad appeared in a local newspaper recently:

"Will the party who borrowed the ladders from the fire company please return them."

The firemen loaned the ladders out and then forgot to whom they were loaned.

RANGER ASKS WHY NOT GET CONGRESS' AID

Out of the tangle that exists in the Ranger postoffice question, complicated by the unwillingness of the winning bidder for a new postoffice to go ahead with their project at Elm and Rusk streets, comes a beam of hope in the word of Postmaster F. O. Kelly, brought back from the West Texas meeting at Abilene.

Claude Hudspeth, congressman from the El Paso district, talking to Postmaster Kelly, suggested, "Why not get a federal building for Ranger?"

The subject found a warm audience, for that hope had been in Mr. Kelly's mind for some time.

"Can it be done at this session?" he asked.

"The bill may be presented by the congressman from your district, Thomas L. Blanton, supported by other Texans, including myself, and put through."

Such an appropriation, if generously made, would solve the question for Ranger, is the postmaster's opinion. The site should, in his opinion, be within a block or two of Main street and not too far from the Texas & Pacific station. All proposed sites could be put into the building, he suggested, as nearby property owners should be enthusiastic enough about the location of such a building to donate a site.

Ranger has not only the influence that may be brought to bear by its representatives and other Texas congressmen, but has the influence of big men and big companies located in Ranger with offices in other states. The question undoubtedly will be considered by Ranger men in the next few days, as action must come soon if the appropriation is to be put through.

Two-Thirds of Lower California Is Foreign-Owned

MEXICO CITY, Jan. 24.—Two-thirds of Lower California, equal in extent to Cuba and Porto Rico combined, and an area in Chihuahua equal to England, are held by foreign interests, according to Excelsior. The paper states it secured its information from the agricultural bureau of the department of fomento, or development.

These figures are being studied with interest because of the constitutional provision (the famous article 27) barring foreigners from holding land within 100 kilometers of the Mexican frontier and fifty kilometers from the coast line. All Lower California, except for a few points in the interior, is in the prohibited area, while Chihuahua is also affected about its long extent of frontier.

Congress has been asked to grant the president authority to float loans not to exceed 50,000 pesos for the purpose of indemnifying foreign interests suffering from the application of the constitutional provision in regard to frontier and coast lands. Value of the property involved is enormous, especially when the rich lands adjacent to California, United States, are considered.

His Day. "Times have changed," said the buet-private-that-was, with a grin. "What's the matter?"

"Nothing. Life looks mighty good to me today. I've got three second lieutenants taking orders from me now."—Detroit Free Press.

Poor Boy. "Cholly's father was handsome, brainy, magnetic and prepossessing. Did Cholly inherit any of these things?"

"No, all he left Cholly was a million dollars."—Judge.

Writer of "Experience" Is Ex-Newspaper Man—Began Career as Herring Packer

George V. Hobart, Author of "Experience."

From a barrel of fish to a barrel of money is the shortest summary of the "By Inspiration and Industry We Thrive" career of George V. Hobart, the author and playwright.

The barrel of money is coming in from royalties on "Buddie," "The Ziegfeld Follies," "Hitchy Koo," "Experience" and perhaps a dozen or more other successful plays in New York in stock and on the road some where between Frisco and Broadway.

The barrel of fish, or rather many barrels of fish, will line up in Hobart's memory, because as a lad of 8 and upward, he assisted the family finances by packing herrings in barrels on the fishing wharves of a Nova Scotia fishing hamlet at 10 cents a barrel—and the barrels were taller than he was.

At half past 10—not of the clock, but of his age—he forsook the fishing industry and got a job as messenger boy at a Nova Scotia railroad depot.

Then followed his activity as telegraph operator, train dispatcher, conductor and then finally he landed a job as a United Press operator due to his experience as a telegraph operator. Then followed a brief newspaper career, in which he became a dramatic editor, and that was followed by his great love for the theater. Hobart then started a newspaper of his own in Cumberland called the Scimitar. All this while in Cumberland the handsome Hobart was the life of all parties and head and center of the local theatrical club. He staged and rehearsed and played leading roles aside from running his newspaper and acting as dramatic critic.

Impressive Feature. "You have doubtless admired monuments in the old world."

"I have," replied the traveled person.

"And what impressed you most about the pyramids?"

"So far as I could judge from a rather hasty inspection, they were quite free from all advertising matter."—Birmingham Age-Herald.

Have you noticed how far in advance of the other papers circulating in Ranger is the Daily Times with the news of the world?

WEST TEXAS CHAMBER COMMERCE COMMENDS LAST LEGISLATURE FOR WISE PROTECTION OIL INDUSTRY

Particular interest for the Ranger delegates to the West Texas Chamber of Commerce meeting was held in the address of Senator H. P. Brelsford, president-elect, on "Oil and Gas," and in the resolutions passed by the body on the same subject. The concluding thoughts of Senator Brelsford's talk, which met the approval of the Ranger oil men, ran parallel with the text of the resolution.

"West Texas owes a debt of gratitude to the Ranger pool," said Senator Brelsford. "To W. K. Gordon and the men with him, to that little group of workers who made possible the original pool of 20,000 acres."

"The oil industry in Texas, covering a half dozen counties, now is second only to one industry in the state—cotton. In 1919, oil realized \$375,000,000, and cotton \$475,000,000, with the expansion that the next year will bring, and it is impossible to estimate its scope, oil will surpass cotton and Texas stands third of the states in its cotton production."

"Oil is an industry which deserves protection. There have been moves on the part of the tax comorants to make the industry pay the taxes of the entire state—through barrel-cross production, pipe line and even income taxes. Such cases eventually will come back upon the producers upon the owners of the land. Oil deserves a square deal."

Expressing much the same feeling with approval for the work of the last legislature, the resolution passed at the conclusion of the banquet read:

"The development of the oil and gas industries in West Texas and the almost nationwide interest in the prospecting for oil and gas throughout West Texas has caused immense progress and development in almost every corner of West Texas; this development and prospecting is of the utmost importance to the people of West Texas in particular and to the country at large and should continue upon an enlarged and growing scale, so that it may be determined just what our resources are in these vastly necessary commodities; millions of dollars of home and foreign money has been and is being expended honestly and courageously in this mighty

work, the ultimate purport of which cannot now be reckoned.

"We commend the genius back of this development to all the people of the United States and promise outsiders and home folks alike that so soon as we can we shall to the utmost attempt to protect investment in this development. While wise legislation for the protection of this industry may be necessary, we suggest that this nor in other industry, mattering how great, can reach a maximum development by ill-advised legislation, and we therefore commend the last session of the legislature of Texas for the statesmanlike manner in which oil and gas legislation was considered, and congratulate that body upon its desire, so shown, to endeavor to promote this industry, promising much for the interests of mankind in West Texas."

BABY SHOE PRICES ADVANCE.

International News Service. BOSTON.—"Baby needs new shoes" is a common prayer at games of chance when the devotees wish to make an especially urgent appeal to fortune, but dady will have to hold more "naturals" or the stakes be higher when he wins if his offspring is to be properly shod, for the prices are higher. Baby shoes have advanced 15 per cent in the last three months, according to exhibitors of those articles at the shoe convention here.

New samples of shoes on exhibit will retail from \$1.75 to \$7.50 a pair, the exhibitors say. Hand embroidered and gold leaf shoes for baby are among those shown.

RANGER RANKS HIGH AS SHOW TOWN OF SOUTH

BY DONALD M. BANGS.

Of the many things that prove the real value of a town's substantial growth, there are none perhaps prove it more than the theaters and the kind of shows they support. Ranger is outclassing every town throughout the south in its demand for theaters and first class pictures as well as vaudeville.

Speaking of photoplays, which have become very popular here, the population demands the very best as well as the latest productions released by producers. The people here are educating themselves on pictures and Ranger soon will become one of the most looked-to cities in the country for their comments. Although not as large as Fort Worth or Dallas, theaters here have shown better judgment as to what is a real high-class production and what is not.

At the present time Ranger has eight theaters and in the near future the number will be increased to perhaps ten or fourteen. Some of the biggest theater men in the country have come here and others are making for our city and why are they? The support is here for them. And we want them in the family.

It might be well for Fox or the Metro or some other big producer to take a look at Ranger. It might help them a little to know just how their pictures went over here. And it also might mean a few dollars more for their attraction.

One of the greatest faults found, however, with the present movie problem here is the fact that the exchange in Dallas has given such rotten service to the theaters that they are often compelled to run their pictures without giving the public any announcement. This and many other things such as pictures failing to arrive on time have caused a great deal of disappointment.

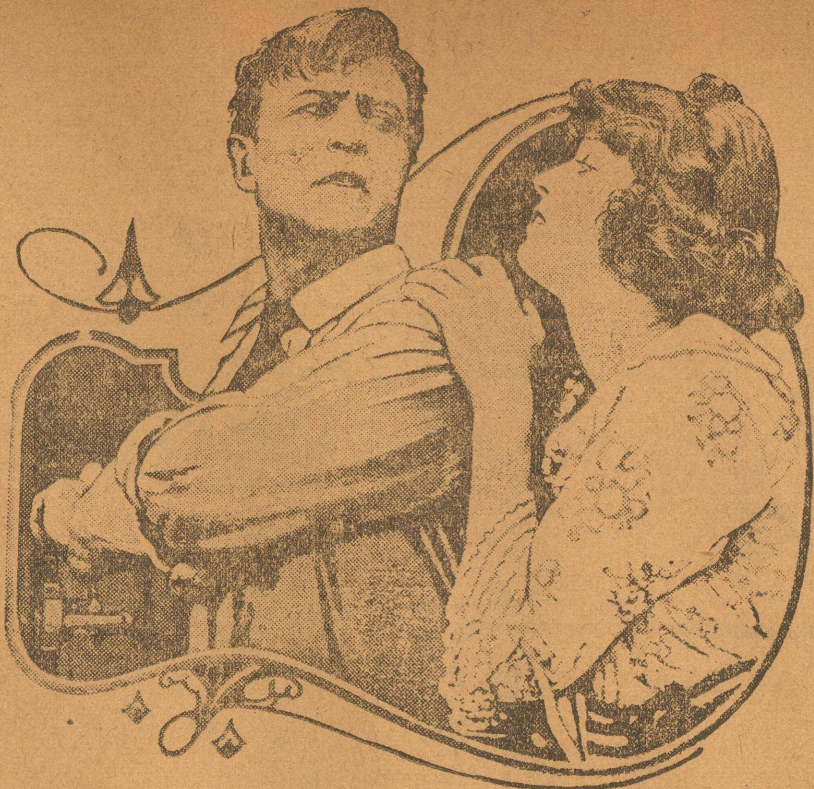

Rocky Mountain Club to Welcome Last of A. E. F.

Staff Special to The Times.

WASHINGTON, Jan. 24.—With the S. S. Northern Pacific, bringing Gen. Connor and the last of the A. E. F., a week late in arriving in New York, due to the accident to the Powhatan at sea, the program of the Rocky Mountain Club in New York was postponed, and will be held Monday. At that time the official welcome will be extended by the club.

The Northern Pacific was forced to stand by until the Powhatan was out

Big Scene in "Behind the Door" Coming to the Lone Star This Week

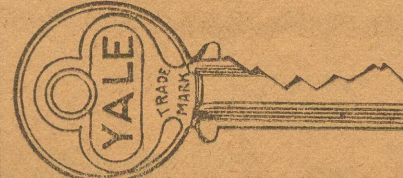

of danger. As a result of the delay the big party of senators and congressmen did not go to New York as had been planned. A banquet at the Waldorf and a theatre party at the Hippodrome will comprise the entertainment Monday.

The next to last batch of Texans who were in France during the war arrived here aboard the Great Northern. In this party were the following Texans:

Willis Wallace, Haskell; Norwood E. Brown, Houston; Seth W. Hamilton, Groesbeck; Ellis G. Morrow, Amarillo; Lester Lee Curtis, Somerville; Albert Hommesee, Beaumont; Arrid L. Nasman, Hedgate; Gerald A. Counts, El Paso; Charles H. Dixon, El Paso; James G. Williamson, Fort Worth; Emmett Welch, Port Arthur; Leonard N. Mertz, San Angelo; James P. Blakeney, Cleburne; Levi S. Johnson, Richmond; Louis J. Dana, Eagle Pass; Ben S. Hiller, Water Valley; Claude S. Osborne, Jacksonville; Thomas Roberts, Howland; James E. Howell, Archer City; Clint Joblin, Slayton; Theodore M. Shomer, Fort Worth; Willard W. Fisher, Cedar Bayou; Robert L. Watson, Houston; Clement Royns, Samfordvce; Graydon L. Ware, El Paso; Earl E. Lefebvre, Oregon; Charles M. Rush, Augusta; John B. Grant, Dallas; Carroll Aderhold, Dallas; Fred P. Clark, San Angelo; Leonard Rasmussen, Houston; Dewey C. Younger, Newark; Edward K. Crudginton, Beaumont; John R. Spoon, Stamford; Hubert H. Horton, Amarillo; James D. Aimes, Martins Falls; Frederick S. Stoner, Houston; Matt Klem, Galveston; Patrick F. Sullivan, San Antonio; Jose S. Kubecka, Caldwell.

1919 BANK DEPOSITS OF FRENCH BREAK RECORDS

International News Service. NEW YORK.—The deposits in French savings banks during the first nine months of 1919 reached a record never attained before the war in an equivalent period, and yet savings banks of France represent a very small fraction of the investments of the people. France is the thriftiest of nations and their large savings in 1919 are significant because the French, the people themselves, have accomplished wonders in the rebuilding of their devastated regions. That the United States is in comparison quite lacking in thrift is evidenced by many facts, one being that 41 per cent of the depositors in our postal savings system are American born and they own only 28 per cent of the money on deposit. The rest is in the hands of foreigners.

SIMPLICITY MAKES GREATEST STAGE APPEAL SAYS "LOVE" IN "EXPERIENCE"

Girls, if you would win a husband and be happy ever after with one of nature's noblemen, wear simple gowns, discard jewelry, and let your hair hang in ringlets.

This is the stage advice of "Love" and her words should be heeded because she speaks from the play "Experience," which F. Ray Comstock and Morris Gest will present at the Liberty Theatre Jan. 28 and 29.

In other words, Miss Blanche Menden, the very attractive young woman who impersonates Love in "Experience" re-asserts once more the old familiar adage that "rags are royal raiment, etc." and that "true hearts are more than coronets, and simple faith than Norman blood," or something like that.

For the astonishing truth is hereby promulgated for the first time, that the young lady has received no less than seventy-seven proposals of marriage since the play opened, while not one proposal has so far been addressed to any of the twenty beautiful show girls in gorgeous trappings and magnificent "creations" who appear in the Primrose Path cabaret scene.

If clothes, jewels, paint and powder can upholster the average beautiful woman until she appears fairly radiant when behind the footlights—and if all this trouble and expense fail to win a single proposal when there are at least twenty of these wonderful creatures to look over and consider—then what is the use?

Meanwhile a frail miss of 19, looking like a school girl, her hair in long curls, her youthful beauty framed in a rustic setting with only a simple white dress to emphasize her natural attractions, romps off with the great engagement handicap stakes, without an effort. Evidently the modern men believe in going back to nature and wooing sweet simplicity.

Not that the young actress has succumbed to any of the alluring proposals. She is already embarrassed over the attention she has been receiving. "I don't know why men pick me out for attention," she said, recently, "I am sure that at school no one ever pronounced me a raving beauty. But what shall I do with all these men who wish to marry me? I am not in love with any of them. Most of them are out north."

I have never even heard of I get two and three mesh notes every day, and about half of the men write that I seem such a sweet and innocent young thing on the stage that they wish me to know beforehand that their intentions are strictly honorable.

Even that does not interest me, for I do not wish to marry anyone—at least not just yet."

Eminent psychologists would perhaps explain that the reason the actress becomes the object of so much sentimental attention is due to two causes. First, she portrays Love, a role which naturally attracts attention and excites the anatorically-inclined, who thereupon concentrate their thoughts upon the ideal Love of which she is the personification. The second—and the greater cause—is that by contrast with the glittering feminine birds of Paradise who flutter so gaily in the cabaret scene of "Experience," Love appeals to the innate love in every human heart for a return to primitive conditions. Every rich man longs for the little home in the country of his penniless childhood. Every smart woman of fashion who boasts of her drawing room and her motors and her diamonds has a secret yearning for the cows and the chickens and a quiet home life. This young actress as Love, in her little white frock, unconsciously represents the embodiment of the eternal desire of the human race for peace, quiet simplicity and contentment.

95,000 Civilians in Britain Must Return to Work

LONDON, Jan. 24.—Ninety-five thousand civilian men and women must go to work as a result of the discontinuance of the government's dole to the unemployed. This is expected to have considerable effect upon the labor market. In all 135,000 persons were receiving the government's donation, but of these 40,000 were engineers, rendered idle by a strike of iron molders. Of the other 95,000, 61,000 were men and 34,000 women. It is generally hoped that the women will again enter domestic service.

The government's unemployment dole to demobilized service men and women will continue until March 31. The government's donation, however, is limited to a maximum of nine weeks at one pound a week for men and 15 shillings a week for women. The American Chamber of Commerce states that, since the armistice, 3,000,000 demobilized soldiers and sailors and 1,500,000 demobilized munition workers have been reabsorbed into peace industries.

CALL TO CANDIDATES TO DECLARE THEMSELVES ON REAPPORTIONMENT BRINGS OUT NEFF AT W. T. C. OF C.

Redistricting of West Texas for a fair state senatorial representation got the approval of the West Texas Chamber of Commerce and as soon as the meeting, on suggestion of President H. P. Brelsford, approved making every candidate declare himself on the question, the move got results. Pat Neff of Waco, candidate for governor, in attendance on the meeting, came to bat at once with his declaration for the redistricting.

The resolution read: "At the first annual convention of this association held in the city of Wichita Falls, February 8, 1919, R. E. Huff, president of the Wichita Falls Chamber of Commerce, presented the matter of state senatorial reapportionment, advocating the same, so that West Texas might have its proper representation in the Senate of Texas.

"It is likely that the tabulations of the 1920 federal census will be made known during the summer of 1920 and the new reapportionment for the Senate of Texas should be made on the basis of that report.

"W. P. Hobby, governor of Texas,

in a conference with President Herring and other members of this association in Mineral Wells, April 21, 1919, agreed to submit to any special call session of the legislature the matter of senatorial reapportionment.

"We urge the governor to submit the senatorial reapportionment at the first special call session of the legislature held after the tabulations of the 1920 census shall have been given out.

"We call upon all fair minded people of Texas, wherever located, to urge upon their representatives at the next session of the legislature the matter of giving the state a new senatorial apportionment equitable to all regions of the state. We also ask the governor to submit at the earliest possible date after the tabulation of the 1920 census shall have been given out, the matter of the new congressional reapportionment of Texas.

"We understand, of course, that the next congressional reapportionment must be based upon the action of the federal Congress re-establishing the ratio of congressional representation in the several states."

SCHOOL BONDS TO BE VOTED FEBRUARY 24

Not enough votes were cast at the recent election of the Ranger school district on the authorization of school bonds to merit the board attempting to market them, was the opinion of the school board at a meeting in the office of Mayor M. H. Hagaman Saturday afternoon. A better expression of the citizens' confidence in the schools will be expected at the next election, which has been set for Feb. 24.

The market for the bonds, with such a scattering vote, would be poor, members of the board felt. Those present at the meeting were: Mayor M. H. Hagaman, M. H. Smith, V. V. Cooper, T. G. Deffebach, E. A. Mills and P. E. McDonald, superintendent of schools.

Kennison No. 1 of Jasmine Petroleum Nearing the Pay

Kennison No. 1 of the Jasmine Petroleum company, located south of Desdemona on a fourteen-acre tract, probably will be the first completion of the company. It is drilling now 2,100 feet. On the Jasmine's Averson tract, north of Desdemona, the No. 1 derrick has been erected and is rigging up.

Some other tracts are held by the company, which is capitalized at \$100,000, and other operations will be started a month to two months later. Officers of the company are: M. H. Hagaman, president; M. H. Smith, vice president; and F. D. Cochran, secretary-treasurer.

A Bargain, This And Yet Again . . .

There's a tale going the rounds at police headquarters about the adventures of one customer of a friendly bootlegger, and though there is pathos aplenty in the account, from the standpoint of the customer, none of the officers who hear it or tell it seem to be profoundly affected. In fact, there is the suspicion of a smile on the raconteur's map.

They were a drinking together, these two, the customer and the friendly bootlegger. And, as is apt to happen in these days of short stocks and dubious supplies, the drinking liquor ran out.

"What to do?" wailed the first (the customer).

"I know where there's a couple quarts," suggested the f. b. i. "They'll cost fifty."

Well, what's fifty in these arid days?

"Here you are," acquiesced the first and thirsty one.

In time, the f. b. i. returned, bearing a package whose size and shape filled the heart with assurance.

"Here," hushed the f. b. i.

"Thanks," whispered the thirsty one.

He tore the wrappings from the package, not noticing that by now he was alone. It was two quarts—of vinegar.

"What would you do about it?" he plaintively asked the officer to whom he brought the story.

"If I bought two quarts of vinegar for fifty dollars, I don't believe I'd say much about it," was the only encouragement he got.

GEORGE T. HEMMINGSON ILL AT HIS HOME

After the strenuous day at Abilene in the worst of weather, during which he was not in the best of condition, George Hemmingson, secretary of the Ranger Chamber of Commerce, is at his home suffering from an attack of grippe.

C. of C. President Thanks Workers at Big Banquet

Feeling that the work of the women who acted as volunteer waitresses at the Chamber of Commerce banquet was largely responsible for the success of the banquet committee in serving the 200 guests, Dr. R. H. Hodges, president of the Chamber of Commerce, has expressed his gratitude to the workers and the hope that in further activities of the Chamber of Commerce, that the organization may count on their valuable co-operation.

Not all of the volunteers secured by Miss Neal Allen were able to be present at the banquet, but those who were there, and who assisted in the program and in serving, have the sincere thanks of the Chamber of Commerce.

60 INMATES OF TEX. CONFED. WOMAN'S HOME

(By Associated Press)

AUSTIN, Texas, Jan. 24.—There are ninety inmates of the State Confederate Woman's Home, according to the annual report which has been filed with Governor Hobby. The youngest was sixty-two and the oldest eighty-nine years old.

Maintenance of the home cost an

average of \$2,300 a month. This provided twenty-four employes to care for the old ladies, eleven of whom are helpless. The report states that buildings are in need of repair, and that there is a long waiting list of women desiring entrance to the home.

The Sunday Times' comic section is on a par with that of the metropolitan dailies. Look for it next Sunday.

ATHENS JACKSONVILLE WAXAHACHIE RANGER

SLOAN NO. 1 AT SAN SABA HAS SPURRED IN

Special to The Times.
SAN SABA, Texas, Jan. 24.—The Wichita Oil and Gas company spudded in its Sloan No. 1 Wednesday on the Sloan farm which is in the Fleming survey, fifteen miles northwest of here, and thus becomes the third contestant for the \$20,000 bonus offered by this county for the first producer in the San Saba field. The hole is being put down with standard rigging, with sufficient water, fuel and supplies on hand to permit drilling without interruption for lack of either. The location for this test is said to be on most favorable structure and as promising as any in the field. A second location has been made three-quarters of a mile from the first and the company announced that it would start its No. 2 well within a few days.

Lease holders in this county and operators in this field are holding out great hopes for this well. Geologists have stated that the first deep sand should be picked up in the neighborhood of 1,800 feet. The Fidelity Oil company's Young No. 1, directly across the Colorado river in Mills county, found an eighteen-foot sand between 1,731 feet and 1,749 feet, according to the log of that well. This sand was dry, however, the oil probably having been shut off by water. Eight-inch casing has been set in this well at 1,722 feet. The well is now in gray lime at 2,042 feet.

At present the deepest test in San Saba county is that of the Royal Duke Oil company, which is down 1,085 feet on the Heatherly farm, Lucas Burchel survey, six miles north of Richland Springs. This well has encountered three showings of gas and is now in a soft gray shale. The company will complete the well with its own tools, it was announced, and is moving in new machinery for that purpose. Two additional locations have been made on the Royal Duke holdings which were originally a part of the acreage belonging to the Lick Hollow Oil company of Richland Springs.

The Martin Oil company's Gray No. 1, on the A. Fox survey No. 445, eleven miles due north of here, remained shut down at 437 feet this week awaiting new cable. The Irons well, which has been shut down for over a year, will start drilling again, according to reliable information received here. Other old tests, which were discontinued at shallow depths at the outbreak of the war, are to be completed.

The San Saba field is apparently receiving serious consideration by oil operators in various parts of the country. This is evidenced by the fact that the local Chamber of Commerce is receiving inquiries daily for detailed information about the field. Many requests for acreage for drilling contracts have recently been received. The San Saba field is probably one of the most promising wildcat territories in the state. Seven separate anticlines have been found here by geologists. Five of these anticlines have their termination in the county. The formation is Pennsylvanian. Outcroppings of what is known as the Bend series of the formation are found in the southern extremities of the field.

The appearance of marble in the limestone in the southern portion of the county, which would ordinarily not be considered a favorable indication, is believed by some geologists to form a natural fault, preventing the escape of the oil which is believed to follow the sands in the general southern direction of the five anticlines which terminate here. This ledge of marble, then, is thought to serve as a dam, holding back what might be one of the largest reservoirs of oil on the continent.

Drilling activities are being resumed with renewed determination in all adjoining counties and in those comprising the west-central fields. Development has been delayed in most fields due to the inability to move material over the heavy roads, but with the generally fair weather of the past week operations were again in progress in a number of fields.

In McCullough county reports that the Hall-Dutton well of Thad O. Day is still standing full of oil and sloping over at intervals created new interest in the Brady field. There is now about 400 barrels in storage at the well, and pumping has been discontinued until additional storage can be secured or some disposition is made of the oil. The Phil-Tex company of Philadelphia last week acquired additional acreage immediately west of the Prairie Oil and Gas company's holdings in that field. Material which had been held up on account of impassable roads began moving out to the field with the first clear weather this week.

Two new tests were spudded in last week in Lampasas county, despite the bad weather. The Waxa-Tex No. 2, on the White ranch. The Waxa-Tex of Nix postoffice, and the Boston-Lampasas, six miles northeast of Lometa, are the two latest wildcats in that field. The reported sale to eastern capitalists of half interest in the Howell well, which found a small flow of oil around 900 feet, insures the immediate completion of this important test. This well is also located on the White ranch. The Waxa-Tex No. 1, on the same ranch, is drilling around 850 feet, with good indications of both oil and gas. Additional drilling reports received here from Lampasas county follow:

Texoleum Trust company, setting up new boiler; Groves Oil company, drilling at 1,800 feet in black shale; Smith White, shut down; Nelms-Marvin, shut down at 1,100 feet; California-Texas Oil and Development company, derrick; New York Oil Syndicate, Tennant No. 1, drilling at 2,915 feet, and same company's Gocher No. 1, drilling at 2,475 feet, both in black lime with good showings of oil.

All standard brands are advertised, guaranteeing to the public full value.

PAN-AMERICAN CONGRESS DOES A GREAT WORK

By Associated Press.
WASHINGTON, Jan. 24.—A description of the accomplishment of the international high commission toward promoting trade relations among the countries of the Americas was given to the Pan-American financial conference today by John Bassett Moore, vice chairman of the commission, which was created by the first Pan-American financial conference held in Washington in 1915.

"Substantial ameliorations of methods of customs administration have been secured in various quarters," said Mr. Moore. "Regulations permitting the simultaneous loading and unloading of cargoes, and the advance preparation of cargoes, have been brought about in numerous countries. Progress has been made with the adoption of a uniform statistical classification of merchandise. Six countries have already taken favorable action, and two more are understood to be on the point of so doing."

"Every effort has been made to advance uniform legislation in regard to bills of exchange, checks, bills of lading and warehouse receipts. We seem to be rapidly approaching the time when, so far as concerns bills of exchange, there will, in effect, be only two systems, in use in the western hemisphere, based, respectively, on The Hague rules of 1912 and the United States negotiable instruments act of 1916."

"The commission has also been glad to observe a growing interest in the adoption of uniform legislation on the subject of warehouse receipts, as well as on that of conditional sales."

Mr. Moore suggested that countries of the southern group which had ratified a treaty for the international protection of trade marks be permitted to register trade marks at the international bureau in Havana pending the establishment of a bureau at Rio Janeiro, which awaits ratification of the treaty by a sufficient number of countries of the southern group.

Progress had been made toward facilitating operations of commercial travelers, he said, by a treaty which substitutes a single national fee in place of local taxes on travelers. This convention has been signed and ratified by five countries and signed by three more while seven others are ready to sign.

A treaty for the establishment of an international gold clearance fund to assure the safety of deposited gold, avoid its shipment and stabilize exchange has been signed by two countries and approved in principle by eight others.

Agreements for the arbitration of commercial disputes have been made between the United States chamber of commerce and the national chambers of commerce of Uruguay, Ecuador, Panama and Guatemala. Other agreements are being negotiated.

ZUYDER ZEE IN HOLLAND IS TO BE RECLAIMED

By Associated Press.
THE HAGUE, Jan. 24.—Work is to begin this year on the reclaiming of the Zuider Zee, one of the world's greatest engineering projects, by which it is proposed to restore to Holland within thirty-five years what was once hers but was taken away by the storming of many centuries.

When the work is finished, not only the original land will be restored, but many thousands of acres which always have been beneath the sea will be ready for cultivation.

According to pre-war estimates the entire work of reclaiming the Zuider Zee would have cost approximately \$88,800,000, but, with the increased cost of labor and materials in the past six years, it is now believed the cost will be well in excess of \$125,000,000. The work will be done and paid for by the state, through special loans, and the state, through rental of the land reclaimed, expects the scheme to pay for itself within a few years, and thereafter yield a handsome revenue.

The total amount of land to be reclaimed will be 827 square miles, which will constitute a twelfth province of Holland, capable of support-

ITALIAN ROSE JOINS AIRPLANE AND BIRD AS UNIQUE ADORNMENT FOR FAD SEEKERS

Miss Roa Eton and the Italian rose decoration on her back.

Some American faddists recently decided to have mice painted on their chests and backs. English faddists selected painted birds to beautify their backs. French girls chose stenciled airplanes for the nose and now comes Miss Roa Eton, opera star, with an Italian rose as a special adornment on her back.

ing a population of 300,000, and wherein several cities of ancient trading fame are expected to be restored to commercial importance.

The engineering work is now well under way.

Centuries ago, at the beginning of the Christian era when the Romans had their settlements in Holland, much of the space now occupied by the Zuider Zee was land and the south part of the present sea was a lake called Flevo. Northwest tempests swept the North Sea, washing away the tract of dry land between the sea and the lake. One large, shallow body of water—the Zuider Zee—was formed.

The towns situated on its banks thrived as the merchantmen came into their ports. But, as ships became larger and of deeper draft, traffic was diverted to deeper seas, leaving the once famous towns on the Zuider's shores mere fishing villages, which they are now, while Amsterdam's commerce came to her through a canal leading direct to the North Sea.

Dr. A. A. Beekman, of The Hague, who has devoted nearly all his life to the ideal of reclaiming the Zuider Zee, explained the plans to The Associated Press correspondent. He is now a member of the state council which will carry out the work.

"The first thing to do," said Dr. Beekman, "is to construct a gigantic dike to keep out the North Sea. This will be thirty miles long, stretching from Wieringen to the Frisian coast, where the water ranges in depth from thirty-three to eleven feet. It will be everywhere sixteen to seventeen feet above the sea level. There will be a double track railway on top of the dike. Its construction will take nine years, and its cost, by pre-war estimates, will be more than \$20,000,000."

"The total surface to be reclaimed is 827 square miles. There will remain a lake of 600 square miles, which will act as a reservoir during the periods when, owing to northwestern storms, the waters of the river Yssel and of the canals cannot be emptied into the North Sea. The water of the lake will be let out into the North Sea through five great sluices at the Wieringen end of the dike."

"Most of the land to be reclaimed now lies thirteen feet beneath the sea level. Part of it is expected to be dry within fourteen years, as pumping out will begin as soon as the dike is completed. The last of the land is expected to be dry within thirty-five years."

BELGIUM FAST REBUILDING HER TRADE

International News Service.
WASHINGTON.—Heroic Belgium, war ridden, almost ruined by the depredations of the invader, apparently is going to be the first of the European nations to fully rehabilitate herself. This is foreshadowed by the nature of her imports from the United States as well as the fact that on no occasion since the cessation of hostilities have her merchants overlooked an opportunity to renew and restore to pre-war standards, their trade with this nation. Figures made public by the department of commerce give proof sufficient of Belgium's plans to build again, on the ruins of the old, her homes, her commerce and her industries.

For the first nine months of 1919 Belgian imports from America included: Household goods and personal effects, \$1,505,000; cattle and horses, \$790,000; lumber, \$1,215,000; iron and steel products, \$9,524,000; electrical machinery and appliances, \$648,000; binder twine, \$387,000; refined copper, \$908,000; aluminum manufactures, \$398,000; zinc spelter, \$416,000; tannin, \$91,800; and malt, \$2,722,000.

All of these to Belgium, whose total area is only 11,373 square miles. Conscious among the iron and steel products, and indicative of the energy being put forth by the stricken people to regain a lost commercial ranking, are lathes and other machine tools, sharpening, grinding and metal working machinery, together with countless items of lesser importance. All, however, will serve to replace in Belgium factories the machinery and equipment carried away or destroyed when the German hordes drove across the little nation.

Can You Beat This? London Writer Says Dempsey Must Fight Two Men if Match Is Staged With Georges Carpentier

By The Associated Press.

NEW YORK, Jan. 24.—Apparently Jack Dempsey will have to fight two men when he meets Georges Carpentier for the world's heavyweight championship, if the deductions of a London writer are correct. According to this authority Descamps, manager of Carpentier, possesses some sort of a mystic eye with which he cast a spell over Beckett in the recent battle in London, with the result that the French pugilist had an easy task in knocking out the be-fuddled Britisher.

In the words of the discoverer of this alleged dual combination which confronted poor Beckett during the seventy-odd seconds he stood before Carpentier, the strange influence made its effects felt as follows:

"There were two personalities fighting Joe Beckett from the moment he entered the ring. Carpentier was one. The other was Descamps, his manager. Descamps is a very excitable man. He is a bundle of nerves, a typical Frenchman, overflowing personality, whose individuality oozes from every pore. He does not effervesce. He exudes.

"Descamps says that when Carpentier meets Jack Dempsey, Carpentier will win in six rounds. Watch Descamps. He is the man who is watching Carpentier with all mental force. His mentality accompanies Carpentier into the ring every fight. He is his unseen, silent partner, and to him as much as to Carpentier is Beckett indebted for the blow on his jaw which finished the fight and took the championship of Europe out of his reach.

"What was Descamps doing as Beckett came into the ring? Those who were near him tell me he was watching Beckett intently. The fact is, he began to fight Beckett as soon as Beckett stepped into the ring. Beckett was constantly glancing round at Carpentier as he was getting his gloves adjusted. There you have the personality of Descamps beginning to work; impinging itself on Beckett's brain and beginning its task of confusing the English boxer's thoughts. Possibly Descamps is not quite conscious of his own power, but it is there all the same. This projection of personality is not hypnotism, but it is to be seen operating everywhere.

"Descamps, they say, feels every defeat of Carpentier as a defeat for himself. If you took Descamps' mind to the analytical table you would find that he would make a first class medium. He is a psychic subject. His personality stands beside Carpentier in every match, for he has trained Carpentier's mind as well as his body. Carpentier acts as Descamps wills. That is why Beckett made the mistake at Holborn stadium. Carpentier alone he might have beaten. Carpentier and Descamps were too much for him."

In the absence of a definite statement from the British Olympic council on the subject of preparation for the Olympic games at Antwerp this year, an English writer has obtained the opinions of three distinct personalities on athletics generally and the Olympic games in particular. These three are Lieutenant Colonel Arnold, N. S. Jackson, an English officer and well known athlete; Sergeant Linton Hewitt, a soldier who, prior to the war, had done much for athletics in Australia; and Charles B. Cochran, an English promoter of professional sports.

All three believe, he says, that the international Olympic committee made a great mistake in deciding to hold games this year and that it will be impossible to reorganize the sport in sufficient measure to enable Great Britain to be adequately represented at Antwerp. In order to save British prestige from the injury it sustained at Stockholm it will be necessary to spare no effort in securing the best possible team and make a united attempt to improve the British athletic standing.

With this object in view he writes: "All three agree that up to now the attempts at organizing Olympic teams have been a failure, and that to get the best of our goods on show at Antwerp next year we must strike out on fresh lines. Also there is a general idea that instead of leaving the organizing side, and especially the financial end of it, in the hands of a scratch collection, we should call in the best brains of the nation, the best business men, to assist in devising a sound plan of campaign, one on which we can build, not merely for the 1920 games but for the future.

"It is generally agreed that the very first thing needful to the organization of an efficient Olympic team for Antwerp is money, and plenty of it. As to the directions in which the money should be applied, and even how it should be raised, there are divergent opinions, but money must be found. I am very much of Mr. Cochran's opinion that money could be found by exploiting the public taste for sport itself."

The writer suggests a publicity campaign which would have the effect of interesting the great business men of the country in the preparations. He says that everyone should do all that is consonant with their principles as sportsmen. In conclusion he says, "I believe in advertisement and if the games can do nothing else they can give us that, as they have America, and it is just as well to have a good one."

At a recent meeting of the British Olympic council, after consultation with the various governing bodies of sport in the United Kingdom, it was decided to ask the Belgian Olympic committee for the following modifications in their draft problem:

To limit the stadium events to a period of three weeks from Aug. 20 to Sept. 10.

A considerable reduction in the number of entries allowed.

The addition of a 3,000-meter steeplechase, a ten-mile cross country run and a twenty-mile road walk

to the contests, and the elimination of bomb-throwing.

To add a 500-meter swim and a fancy diving contest to the swimming events.

To add miniature rifle shooting, revolver shooting and running deer shooting in that branch of sport.

To add ladies' doubles to the lawn tennis events.

In cycling to fix the distance for the road race at 200 kilometers and the addition of 1,000-meter, 2,000-meter tandems and 4,000-meter pursuit race (teams) and 100 kilometers motor racing.

Various technical arrangements regulations for the conduct of different sports also were suggested on the initiative of the Amateur Boxing association, National Rifle association and the Lawn Tennis association.

JAPAN IMPORTS AFFECT MARKET OF U. S. LITTLE

By Associated Press.

WASHINGTON, Jan. 21.—Despite the steady growth of imports from Japan since the signing of the armistice, officials of the department of commerce today declared that American markets have been but little affected by the influx of oriental goods. Imports from Japan have increased mainly in value rather than in quantity, it is said.

During the eleven months ending with November, 1919, the latest available figures, America imported goods valued at \$367,130,187 from Japan, compared with \$264,269,502 in 1918 and \$238,550,617 in 1917.

One reason for the increase in imports is the shipping facilities, now available, officials declare, though Japan's expansion in foreign trade is regarded as general. Japanese goods which are sent to this country, however, are of the cheaper grades, it is said, and do not compete with the high class American manufactures. Low grade paper and cotton goods, tea, vegetable oils, silk and bamboo manufactures are said to form the bulk of the Japanese imports. The only classes of manufactures in which Japan and the United States are on a competitive footing are toys and a few novelties in which the two countries now lead the world, officials say.

The constant increase in Japan's export trade not only with the United States but with the world indicates a heavy demand will be made in the Far East for American machinery and mechanical devices, experts declare. Japan, it is said, can manufacture cheaply low grade goods but must import machinery with which to do it. Trade experts seem to concede that Japan will control the trade of the Far East in the cheaper lines but they believe the demand for American manufacturing machinery and office appliances will keep step with the growth of Japanese trade.

No invasion of the American markets by Japanese manufactures is expected by trade experts of the department of commerce. At present Japan has the advantage over European exporters, they say, because of the unsettled conditions brought on by the war. But when the industries of Europe have readjusted themselves a return of the normal flow of imports into the United States is looked for. For the next few years Japan's

TEXAS WOMAN IS ARDENT WORKER FOR DEMOCRATS

Mrs. Percy V. Pennyacker. Mrs. Percy V. Pennyacker of Texas is one of the most active women among the feminine ranks of the democrats. She is associate national committee member for her state and attended the recent party dinner at the capital.

progress as a manufacturing nation will be almost wholly along the lines of her peculiar domestic products and low grade manufactures, it is asserted.

BROKERS SWAP PRIVATE STOCKS OF TWO RARE OUL-TIME LUXURIES

International News Service. NUTLEY, N. J.—J. C. Horter, a Wall Street sugar broker who lives here, was going to stage a certain celebration the other day, but discovered his wine cellar was empty. While thus distressed he met another Wall Street man, to whom he confided his trouble.

"Well, if you can get me about 110 pounds of sugar," said the other broker laughingly, "I'll give you some of my stock."

After convincing him that he had 100 pounds of the precious staple, Mr. Horter asked what he would offer for it.

"I'll give you a bottle of gin, two bottles of 100-proof whisky and four bottles of Burgundy wine," his friend told him.

The bargain was then gone through with in the most serious manner possible.

Which is the cheapest, spend fifty cents for a "Want Ad" or have that room vacant until some one sees you "for rent" sign? Only a few pass your place. Advertise and reach all the people.

Salesman of Bogus Oil Stock Has a Sad Awakening

International News Service. PITTSBURG—An immaculately dressed and dapper young man dropped on the cushions of a hotel lounge alongside an elderly gentleman whose appearance indicated prosperity.

"The recent reaction of stocks," he cautiously began, as he pulled a paper from his pocket, "was attributable to very unnatural causes. For instance, take United States Steel common. No reason for a depression here. Best managed corporation in the world, and its president, 'Jim' Farrell. Ah, there's a fine fellow. Honest as the day is long and capable. I am very fond of 'Jim'. We are like two peas in a pod."

The elderly gentleman showed some interest and the stranger continued: "But, speaking of stocks," he said, "Strange, isn't it, how the conservative investors and speculators are turning their attention to unlisted stocks? Was a time when anything not on the big board wouldn't interest them. For instance, I just purchased 50,000 shares in an oil company. Couldn't buy less than a 50,000 block, although it was just 25,000 shares more than I wanted or could easily handle. Selling now at \$9 and tipped to go to \$10 in July. I'll have to dispose of half of my stock to some one who wants to make some money quickly." But I'm not worrying. All I need to do is to wire my friends, John D. Rockefeller Jr., Mr. Farrell. They'd take it off my hands in a hurry if they knew I was fortunate enough to have it."

A group of men approached and one of them stepped up to the elderly gentleman. "Let me introduce my friends," he said. "Gentlemen, this is Mr. Farrell, president of the United States Steel corporation."

Mr. Farrell turned to thank the dapper young man for the information about the oil stock. But the young man was too quick. He had flown.

ONE 'HOOKER' OF NEW BOOZE CONCOCTION IS A-PLENTY

International News Service. ARDMORE.—Police officers are up against a "facer" in the shape of a new brand of intoxicant which recently made its appearance here.

The new concoction is said to have a wonderful and instantaneous effect and one drink will, it is claimed, make a cowboy embrace a rattlesnake or tango with a centipede.

"Casinthead" is the name by which the substitute has become generally known.

THEY WEAR U. S. FOOTWEAR IN THE BALKANS

By Associated Press. PETCH, Montenegro, Jan. 24.—Americanization of the footwear of the Balkans within a few years may be one of the unexpected results of the war.

The Serbian sandal or opanchi, of soft pliable leather, was abandoned when Serbia was compelled to call upon the allies for equipment, for only the stiff shoe, to which western European and American armies were accustomed, was available. Now, after having been habituated to the modern shoe, the Serbian soldier upon demobilization finds it difficult to return to the primitive sandal.

Supplies of old shoes gathered in America which were distributed recently by the American Red Cross were snatched up by the peasants with avidity. American business already has begun to exploit this new source of demand so that a few more years probably will see the Balkan peasant wearing American shoes.

The war has dealt the venerable headgear of the Montenegrin a telling blow.

More than 600 years ago, in 1389, those Serbs who were driven to take refuge from the Turk in the mountains of Montenegro after the overthrow of the Serbian empire at the Battle of Kossovo, adopted a cap which was intended to keep fresh in their minds forever a national consciousness. The cap still worn to this day is brimless and bordered by a black band of mourning. The crown is a crimson red for the blood which was shed in the battle and em-

broided about the edge are six gold threaded circles for the six centuries which have elapsed since 1389. Some now have discarded the cap for, now that Montenegro and the Serbs have come into the glory which was theirs before Kossovo, there seems to many of them to be no reason for the perpetuation of the sentiment which the cap was calculated to keep alive through the period of adversity of the nation.

Historically Sound.

Visitor—So this is the famous original Binks restaurant that I've heard about for so many years! City Host—Yes, this is it. Of course, old man Binks died some time ago and the place has changed hands several times since. The last owners moved it from its old location, which was fifty blocks farther downtown, to this present place and last year built an entirely new place here, which they remodeled completely last summer. Otherwise it hasn't been changed a particle since the old days.—Judge.

STEALS COUPLE'S FURNITURE; REJECTED SUTOR'S REVENGE

International News Service. SAN FRANCISCO.—There is more than one way for the unlucky sutor to "get even" with the lucky man.

This was proven here by Thos. Larkin, a machinist, who told the police it was he who removed all the furniture from the home of newly wedded Mr. and Mrs. T. P. Semlar.

Larkin sought the hand of Mrs. Semlar before her marriage. When the bride went away on her honeymoon he had a van driven to their home, took all the bright new furniture, and left a cheerless cot for the pair on their return. The furniture was recovered.

Edison Paid \$3,000,000 You Pay Less Than \$300 The NEW EDISON "The Phonograph with a Soul" It took years of work and the expenditure of three million dollars before Mr. Edison completed the first Official Laboratory Model of The New Edison, "The Phonograph with a Soul." He had determined to develop a phonograph which would RE-CREATE music, not merely reproduce it; and what is more HE DID IT. Three million musicians and music lovers who have heard fifty great artists sing in direct comparison with the New Edison know it is the greatest phonograph. They can tell you that there is no difference between the singer's voice and its RE-CREATION by the New Edison. They have seen the singer stand beside the instrument and have heard him sing. They have seen his lips cease, and yet have heard his voice go on without interruption. Had their eyes not told them the New Edison was singing alone, they would have sworn the voice came from the living singer. To Mr. Edison, it was worth three million dollars to be able to give music lovers the pleasure of hearing our great singers and instrumentalists when and where they would, exactly as they would hear them on the concert platform and operatic stage. A visit to our store will prove to you that this advertisement tells "the truth, the whole truth and nothing but the truth."

Call at Lackland addition home office on Lackland Ave. and Tiffin highway and let us show you these lot bargains.

COL. RUFUS J. LACKLAND.

NEXT SULTAN OF TURKEY WILL BE FIRST TO HAVE BUT ONE WIFE

By The Associated Press.

CONSTANTINOPLE, Jan. 24. - Turkey's next sultan, Abdul Medjid, now the heir apparent, will be the first to have but one wife, and as such will enjoy the same romantic position as the celebrated Raxalana, the all-powerful favorite wife of Suleiman the Magnificent, whose tombs or centuries have attracted visitors to the Suleiman mosque in Constantinople.

Abdul Medjid is regarded as one of the most interesting personalities of Turkey. For thirty-three years he was a prisoner in the house of his father, Abdul Aziz, who was sultan for fifteen years until his deposition and death in 1876.

"I was happy during those long years," he said to the Associated Press "because I married early, at 24, married for love, and then I used my time improving my mind, drawing wisdom from the works of the world's philosophers." He is no longer officially a prisoner. Since the dethronement and sudden death of Abdul Hamid in 1908, and the advent of the young Turks, he has won his way to liberty at last so far as travel in Asia or Constantinople is concerned, and also to a certain freedom of speech.

In person he looks not unlike the old-fashioned gentleman farmer of England or America. Stout, bluff, hearty, his dress is of rough, loosely fitting homespun, with only the red fez which Turks wear in or out of doors to indicate his nationality.

When he doesn't smile, which is not often, his greying hair and moustache and wide Circassian blue eyes give him the thoughtful air which has led Turks to declare he will be a great sultan if the whirligig of politics, internal and international, give him his chance to fulfill his dream of salvaging the wrecks of the Ottoman empire.

"We have the makings yet of a great people, of a people that will get ahead in the arts of peace and industry under proper conditions," he said with an air of deep conviction. "Why won't America give us a start?" he asked in a quick, pathetic manner common to many of the men of the nations defeated in the war.

"Why should we have those hostile war vessels in our harbor a year after the armistice?" he asked, pointing to the ships swinging in the Bosphorus. "Why not settle our affairs; let us rest from the wars without number which we have had?"

The prince was looking out from a second story window, as he talked, of the Dolmabahcheh palace, the show palace of Constantinople, where he has the use of one wing.

"Aren't the Turks anxious for an American mandate because they hereby see an opportunity to save themselves from partition and the loss of Constantinople?" he was asked.

Here the prince dropped his French and began talking rapidly in Turkish, to Ahmed Emin Bey, a graduate of Columbia University and editor of the nationalist paper, Vakit, who interrupted as follows:

"We have no means of letting the people in America know what kind of people we are and what we think. The Turks want the Americans because they know the Americans would treat them honestly and help them develop a rich country to the profit of both. The Americans have never traveled here much, nor gotten to know the possibilities of our people, who are reasonably honest and hard working. It cannot be said that the Turks have ever betrayed their foreign friends so long as the latter act-

ed in good faith. We have a long tradition of friendship with the liberal western powers. After the Turkish revolution of 1908, we were most anxious to continue these relations.

"But here came our difficulty. These powers (England and France) wished to maintain good relations with the Russians, who, without our seeking it, were hostile to us, and finally the Russian influence became so strong that every person favorable to Turks in the French and English embassies were drawn home by their governments. I personally went to the French and English ambassadors and warned them that if this policy were continued we should be driven into a German alliance which would injure both the French and English and ourselves. This warning had no effect, and the Germans began to send us big military missions, also our officers were trained in Germany, so we entered the war on the German side.

"If the Americans don't come to us now, the end of it all may be a partition leading to other wars in which America may be involved. It might be cheaper for America to risk millions on us now rather than to spend billions later on a new war."

Asked if he were a partisan of the nationalist movement, the prince answered: "A person in line for the throne can't become involved in particular movements but must represent his entire people."

The interview ended by the prince saying: "Now let me interview you. Will America keep her word and sign the peace and enter the League of Nations?" Then he shook hands warmly, and touched his heart and his forehead in sign of farewell, and motored back to his home and studio where he is painting new pictures of his beloved Circassian wife and his son and daughter.

N. D. CHILDREN IN HYGIENIC MOVEMENT

BISMARCK, N. D., Jan. 23. - More than 25,000 North Dakota school children are enrolled in a statewide campaign for personal hygiene and cleanliness.

This fact was brought out in an announcement by the executive committee of the State Anti-Tuberculosis association, outlining the organization's program for 1920.

School teachers throughout the state report that the work has made a marked improvement in the studies of the pupils. A celluloid button, known as the "squire's button," is awarded the student who performs daily deeds such as brushing teeth, keeping hands clean, etc. A silver button is awarded for more extensive work and a gold "knight banneret" is given if the habits are maintained consistently for fifteen consecutive weeks.

The Anti-Tuberculosis association plans to enlarge the work among school children the coming year.

WOMEN OF RUSSIA GOVERN TOWNS AND DO MEN'S WORK

International News Service. KHARKOV, South Russia. - Many villages in the Caucasus are now being governed by women. Carpentry, blacksmithing and other work unusually left to the men are also being done mostly by women. The reason for this is that the men are all out fighting.

When the czar mobilized his armies in 1914 the great bulk of the male population was taken from all of the towns. Women gradually assumed their places. Even after the Russian debacle few of the soldiers were able to return home.

When the bolsheviks came they impressed the few remaining men into their own service. After they were

driven out by Denikin's army, every able-bodied male resident who had returned immediately joined the Cosaks for the "liberty of Russia."

Americans distributing Red Cross supplies and other relief throughout the country have found the women carrying on government activities and occupying men's positions everywhere. With imports of manufactured articles cut off for more than five years, the people have returned to homemade articles of the eighteenth century.

KEEPIN' ON.
Ranger has proved what it could do, shown its ability to the representatives of other parts of West Texas and, what is much more important, proved it to Ranger. For better than the inspiration that the boosters found in the first annual banquet of the Ranger Chamber of Commerce and the subsequent successes at Abilene, was the demonstration of the effect of Ranger men working together.

The successes of the week just past are closely linked.

Starting with the reorganization of the Chamber of Commerce less than three weeks ago, the first annual banquet, necessarily was the work of a small group of men, who counted their time in the few bustling days prior to the banquet as devoted to that cause.

Its success is a matter of record. It did more than come up to expectations. It was more of a unification of Ranger business men, Ranger workers, Ranger fighters, than the most optimistic had thought possible. It brought together 200 of the best in Ranger, furnished them expression for their belief in the city and sent them away with a renewed confidence in Ranger and their Chamber of Commerce.

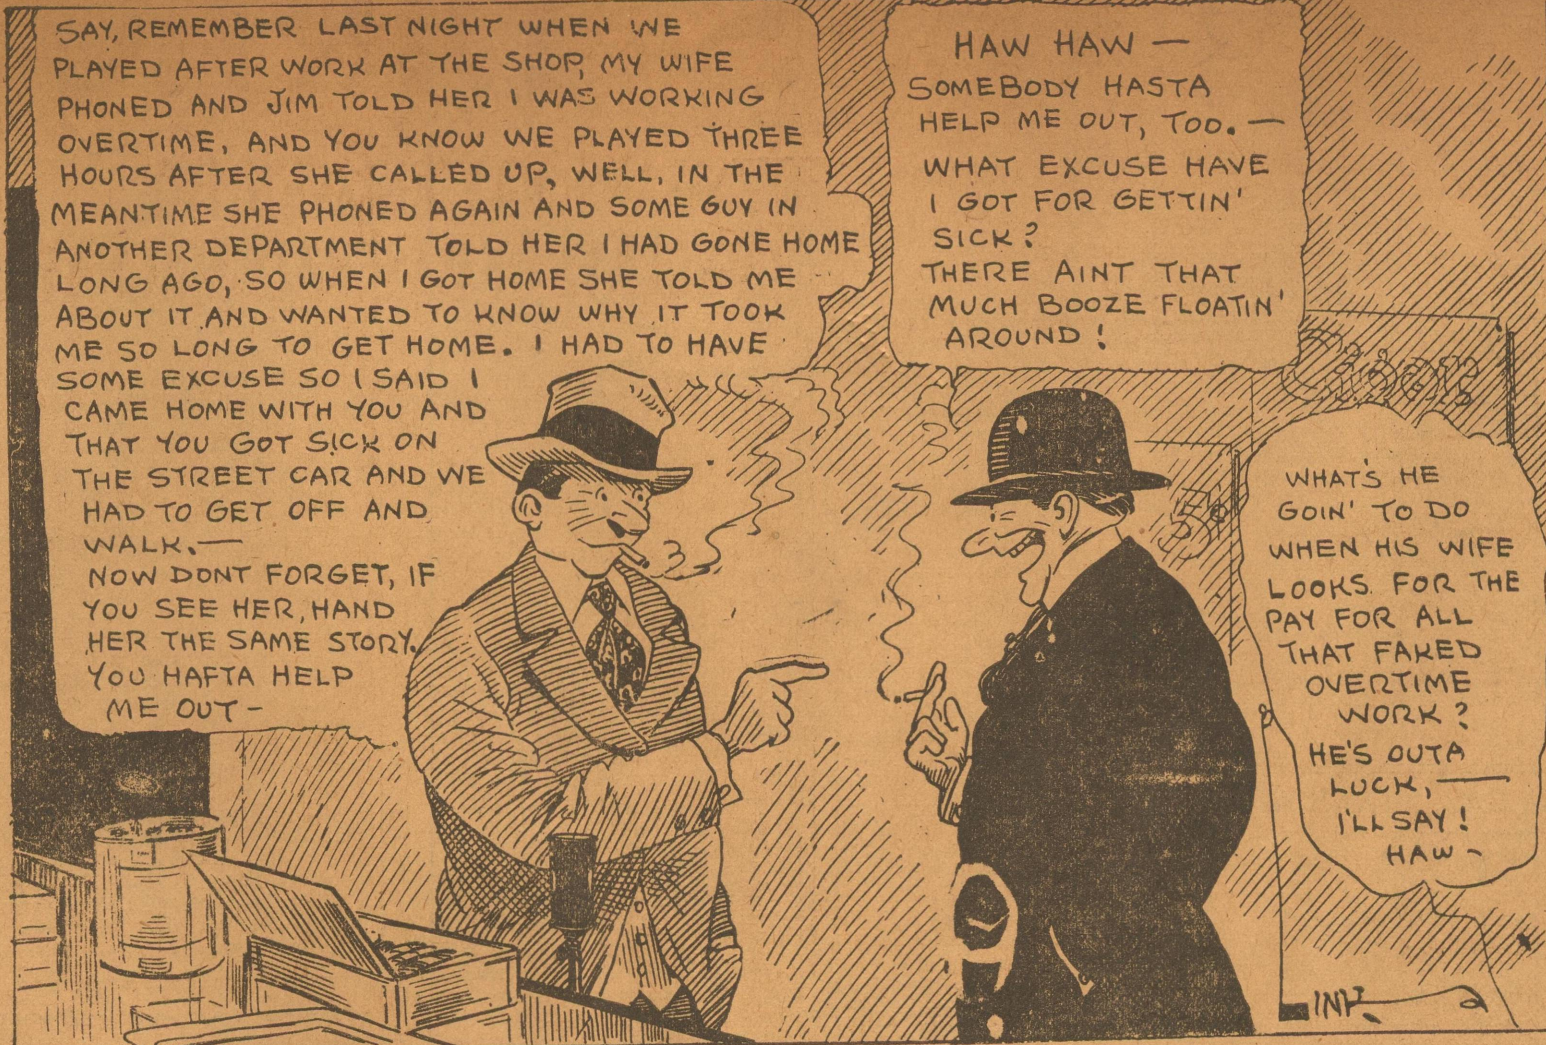

Though the delegation that went from Ranger the next night to the West Texas Chamber of Commerce meeting in Abilene was not overwhelming in numbers, it was large in meaning and in confidence. It represented that banquet of 200 Ranger men and women, and that banquet represented the liveliest city in the state. The Ranger drive to Abilene found its strength in the Ranger banquet.

The spirit of a city was in that special car to Abilene. It was felt, not only by the Ranger delegates themselves, but by every West Texan at the banquet.

Cisco, almost twice the strength of Ranger in numbers, and accompanied by a band, voiced it when one of their men said, in the hearing of a Rangerite: "Why, they've got as many here as we have."

In the work of the day, in the talks at the banquet, in the confidence shared with other men from a powerful section of a great state, Ranger

"THAT LITTLE GAME" --- Framing An Alibi

received the benefits that were certain from a meeting of the West Texas Chamber of Commerce.

In the proof of the city's ability at co-operation in the first real test outside of Ranger, it gained immeasurably more. It gained the prizes it sought—every one; it gained the approval of every other delegation at the meeting, including Mineral Wells; it gained inspiration for the work of 1920.

Most of all it gained for Ranger, belief in Ranger's power; a warm brotherhood for future co-operation; a huge store of incentive to: Keep On A-Keepin' On.

To keep in touch with opportunity, read the Daily Times Wants.

BARBER'S BAY RUM MAKES WAY FOR PERFUMED WATER

International News Service. BOSTON, Jan. 20.—No more haircuts will be sprinkled with bay rum at barber shops.

It will be perfumed water instead. This rule is enforced at the barber shop in Tremont Temple, where nearly all the patrons have been strong prohibitionists.

It has also been discovered that in many other barber shops since the ban upon alcohol, bay rum is side-tracked from haircuts.

The Finish.
After everything has been prohibited that some of the people want others not to drink, eat or do, all that will remain necessary will be the erection of a monument to this nation.—Albany Journal.

That which is not worth advertising is not worth buying. It pays to be persistent in the use of Daily Times Want Ads.

Allendale Oil Co. Has Just About Sold Out

of the Initial Issue of a Quarter Million Shares

A trip to the main office, Second Floor Burton Building, Fort Worth, will convince anyone of several things about the ALLENDALE OIL COMPANY

—Its sincerity of purpose to earn and make and protect its shareholders in dividends and profits and at a minimum cost.

Again, being managed by men who are experienced and capable oil men as well as men of large business experience has given to the ALLENDALE OIL COMPANY a certain amount of confidence that few oil companies have enjoyed, especially in such a short time as has the ALLENDALE OIL COMPANY since its organization.

We suggest that if you, the reader of this advertisement, have not bought ALLENDALE OIL COMPANY stock, that as an investment, you could hardly invest your money to better advantage. To buy now you get the benefit of stock at \$1.00 par value, with a 100 per cent special dividend coupon attached.

Purchasers of stock since the 14th can get their certificates by calling or advising where same should be sent.

LOUISIANA OIL FIELDS

WONDERFUL OPPORTUNITY FOR SMALL INVESTORS

We are now selling our Louisiana acreage in as small blocks as 5 acres at \$100 per block—near railroad and surrounded by drilling wells. Leases 3 miles southeast are held at \$50 to \$175 per acre, in which is known as the "Proven Gas Field." A few miles northwest leases are selling around \$40 per acre. New locations are being made in all this territory, and prices have advanced on lands adjoining ours 200 per cent in last sixty days. This land is in line between Caddo and Bull Bayou proven oil fields in same geological structure, and close in to heavy gas wells. All the conditions make almost certain further material advance in values, and a good chance for big things. We will probably have to advance our prices AGAIN in a very short time. Closest investigation and personal interviews solicited.

AUSTIN AND WALNUT STREETS.

SCRIPTURE

Psalm ix, 1-10.

I will praise thee, O Lord, with my whole heart; I will shew forth all Thy marvelous works.

I will be glad and rejoice in Thee: I will sing praise to Thy name, O Thou most high.

When mine enemies are turned back, they shall fall and perish in Thy presence.

For Thou hast maintained my right and my cause; Thou satest in the throne judging right.

Thou hast rebuked the heathen, Thou hast destroyed the wicked, Thou hast put out their name for ever and ever.

O thou enemy, destructions are come to a perpetual end; and Thou hast destroyed cities; their memorial is perished with them.

But the Lord shall endure forever: He hath prepared His throne for judgment.

And He shall judge the world in righteousness, He shall minister judgment to the people in uprightness.

The Lord also will be a refuge for the oppressed, a refuge in times of trouble.

And they that know thy name will put their trust in Thee: for Thou, Lord, hast not forsaken them that seek Thee.

BIG SWAPS MAY ENLIVEN THE CONCLAVE OF BASEBALL MAGNATES

By JACK VELOCK,
International News Sporting Editor.

NEW YORK, Jan. 24.—Baseball fans are looking for some live off-season news to break when the major leaguers get together at Chicago, February 11.

In addition to the appointment of a new chairman for the National Commission and the adopting of playing schedules, the moguls are expected to do quite a bit of trading in players.

The annual winter meetings held here in December were about as interesting as last year's calendar, even though the lawyers did manage to raise such a rumpus in the American League. The only deal announced during the meetings was the purchase of Rowdy Elliott from Oakland by the Dodgers.

But there are some big deals in the making if we are to credit reports from a majority of the major league cities. The Yankees evidently started something akin to an epidemic in the way of spreading a desire among the magnates to make deals by their purchase of Babe Ruth from Boston. That was some deal. But the little birds are chirping of some more big ones.

The Giants, who have been dead ones all winter, with McGraw in Cuba are going to do quite a bit of trading in the player market. "Lip" Mac is expected to make a switch in his outfield, revamp his infield and, if possible, hook another good pitcher. This means that the Giants may have four or five deals to announce.

President Baker, of the Phillies, promises some action at the February meeting. This ought to be interesting to the Philadelphia fans, for the action in question will be progressive, according to the Philly owner. Manager Cravath will be at the Chicago meeting with an eye open for practically all kinds of talent.

Clark Griffith is another magnate who is expected to go after several players of the winning variety with whom to bolster the Senators. Hughie Jennings will be looking for pitching talent, as usual, and Harry Frazee and Ed Barrow, keen to appease the ire of Boston fans over the disposal of Ruth, may be expected at the Windy City powwow ready to "talk turkey."

George Gibson, the new manager of the Pirates, will also be on the job at Chicago, and there will be any number of minor league managers looking for talent. The balky player who refuses to intimate what he is going to do about the 1920 contract that was mailed to him prior to January 1 will probably feel his ears burning when the magnates get together.

The purchase of a block of stock in the Milwaukee club of the American Association by Secretary Joe O'Brien of the Giants may serve as a tipoff to any Giant players who feel themselves slipping regarding where they may expect to land if they go back to the minors.

O'Brien, who became a Milwaukee stockholder on his own initiative and not as a representative of the Giants, has been trying to purchase into the club in his home town for several years. His close connection with the New York club will be a big help to the Brewers, however, for McGraw is a great fellow to have as an ally, and even though Milwaukee may be dubbed the "Giant Farm," it is a practical certainty that the club will lose nothing by carrying the kind of players McGraw will have to let out for more seasoning.

USES BIBLE TO ANNOUNCE WEDDING TO HIS FRIENDS

International News Service.

DENVER.—The Bible was used by Herbert S. Sands, local manager of the Westinghouse Electric company, to announce to friends here that he had become a benedict.

A few days after Sands had left for the east on an "important business trip," this message was received by his associates:

"Dust off your Bible and read the twentieth verse, chapter ten, of the Book of St. Luke."

When the office force succeeded in securing a copy of the Scriptures, the place indicated in the telegram:

"I have married a wife, and therefore I cannot come."

Sands was married to Miss Elizabeth Clark in St. Luke's Episcopal church, Washington, D. C.

ABE RUEF'S 14-YEAR SENTENCE IS ENDED

International News Service.

SAN FRANCISCO.—The law recently released its grip on Abe Ruef, one-time political boss of San Francisco, convicted in the famous graft scandal following the great fire of 1906. Thus ended the fourteen-year sentence imposed on him by Judge Lawlor.

Ruef has been at liberty on parole since 1915 and exemplary conduct shortened his sentence. While under parole he was barred from taking part in any political campaign. Since his release Ruef has been engaged in managing his own business affairs.

PETRIFIED CATS FOUND UNDER OLD FLOOR

International News Service.
POUGHKEEPSIE.—While repairing the floor of the academy of music of Beacon carpenters found the bodies of two cats that had become thoroughly petrified. Fifty years ago, at the time the floor was laid, the cats must have run under it. The carpenters, unknowingly, had walked them in.

They evidently had attacked each other, as one had an ear chewed off. The bodies are as hard as flint, but lifelike, and no parts are missing except the chewed ear.

In These Servantless Days.

The head of one house where war conditions had left the place helpless drove his daughter to a party.

The head of the house where the party was held was performing as his own carriage man and door-opener.

Afterward, when they were formally presented, one said:

"I certainly must beg your pardon for something, sir."

"What is it?"

"You know that night when you drove your daughter to my daughter's party?"

"Yes."

"Well, when I came to open the door I thought you were your chauffeur."

"Cheer up. I thought you were your butler."—Farm Life, England.

Stampley Feels Fine Every Morning Now

W. B. Stampley, the well known agricultural iron and steel man, who resides at the Brady hotel, is still another citizen of high standing who comes forward with an unqualified endorsement of Orgatone. While in Toy R. Getman's drug store a few days ago, for more of the treatment, Jr. Stampley said:

"My improvement in every way has been more than satisfactory and I don't hesitate to endorse such a fine medicine as I have found Orgatone to be. I hadn't been feeling at all well for over five months. I suffered from indigestion, which caused gas to ferment in my stomach, causing much pain. I couldn't sleep soundly, felt lazy, tired and drowsy. I had become so run down that I was easily tired out and didn't feel much like work. I can't describe just how I felt, but I knew I needed something to relieve my stomach trouble and that first drowsy feeling and build up my strength and energy."

"Orgatone just hit the spot exactly and I now feel like a different man. Why, before I took it I had no appetite and could go all day without eating, but I am hungry all the time now and can eat anything without the slightest bad feeling afterwards. I sleep fine, get up in the mornings feeling fine and my daily tasks are much easier. I have gained wonderfully on five bottles and I couldn't ask for better results. My stomach trouble is gone, my tired, worn-out feelings have left me and I simply feel altogether different."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Ranger by the Ranger Drug Company exclusively under the personal direction of a special Orgatone representative.

ALL TYPES OF PLANES WILL BE ON EXHIBITION

NEW YORK, Jan. 24.—Commercial passenger aircraft provided with virtually all the comforts found in high priced automobiles will be featured in the second annual aeronautical exposition of the Manufacturers' Aircraft association, which will be held here from March 6 to 13.

Leather padded cockpits, wicker chairs with velvet cushions, heated compartments protected from the wind by unbreakable windshields, silk curtains, mirrors, luncheon tables and telephones are found in America machines entered in the exposition.

Aerial limousines and coupes are among the most popular entrants. The first three-motor airplane to be built in the United States will be on exhibition. It carries eight passengers in comfortable wicker seats, is equipped with a self-starter and capable of making 107 miles an hour. One huge transport plane carries twelve passengers and is constructed for long distance travel at a speed of approximately two miles a minute. It is 46 feet long, 7 1/2 feet wide and 14 feet high and is driven by two Liberty motors of 400 horsepower each. One company has entered a limousine flying boat with such comforts as a cigar lighter for men passengers and vanity cases for use of women passengers. An aerial coupe which has been entered for the show seats three passengers, including the pilot, and carries a supply of gasoline sufficient to last five hours at a speed of 95 miles an hour. A cabin cruiser destined to make 125 miles an hour and fitted with typewriter tables so that those "who fly may work," will be one of the exhibits.

Two types of mail planes are entered, a twin-engine machine carrying two men and 1,500 pounds of mail with a gasoline supply for six hours and a mail plane capable of attaining a speed of 122 miles an hour. Popular priced models, known as "flyabouts," to be seen at the exposition sell for as low as \$1,500. These are almost capable of being landed on one's lawn and are small enough to be housed in the ordinary automobile garage. One model, 18 1/2 feet long, 33 feet wide and 5 feet high, carries two persons. Another model, known as "butterfly," is of the monoplane type, measuring 29 feet from tip to tip and weighing only 736 pounds, fully loaded. It has attained a height of 12,500 feet and flies at 70 miles an hour.

One of the most conspicuous exhibits is a "pony jump," the smallest dirigible ever constructed for practical use in this country. It is 95 feet long and the gas bag is 28 feet in diameter. Two passengers are carried and the dirigible is propelled by a 40-horsepower motor with a maximum speed of 40 miles an hour and cruising radius of 400 miles.

Sport and speed models complete the types of planes shown in the exhibition.

SILK HAT RETURNING TO FAVOR IN LONDON

LONDON.—The silk hat, which in days gone by was the conventional and inevitable headgear of the business man of any standing at all, is creeping back. But London revolts against pre-war conventions in another direction.

Dinner jackets actually have been seen a half dozen or more of them, at social functions in such exclusive places as Londonderry house. A few years ago men might well have been turned back from any society door as improperly dressed if they came attired in anything but dress suits.

DR. ANNA EKOLA
Foot Specialist

Corns are removed (not trimmed) without blood, pain or after soreness. Ask the satisfied patrons of Ranger or anybody from Arizona. In-growing nails successfully cured while working. AVOID OVERPAYING TAXES

Federal taxes are often a firm's largest single item of outgo. How important it is then, when preparing returns, to be sure they're absolutely correct.

The Prentice-Hall Federal Tax Service shows clearly how each report is prepared.

Leading business houses, lawyers, accountants, banks, private auditors, tax officials and others—thousands of men with difficult tax problems—are using the Prentice-Hall service.

With this service, you will find it easier to prepare tax reports; you will find it possible to revise reports already filed; and you will avoid overpaying taxes; your tax reports will be correct and you will have had the assistance of a service that is now recognized as the most helpful and dependable tax authority.

Write for complete description of service. Alex Turner, Dist. Mgr., 615 Southwestern Life Bldg., Dallas, Texas.

13 DESTROYERS OF U. S. NAVY TO THE SCRAP HEAP

PHILADELPHIA, Jan. 24.—Thirteen torpedo boat destroyers of the United States navy here have been sold to be scrapped.

The vessels are the Stewart, Hull, Lawrence, Paul Jones, Perry, Preble, Truxtum, Bainbridge, Barry, Dale, Decatur, Worden and Whipple, and are in the basin of the Philadelphia navy yard.

All the destroyers, before the war, were units of the Asiatic, Pacific and Atlantic fleets. During the war they were in active service. The Decatur, it is reported, won two service chevrons.

This is the largest fleet ever purchased from the navy by a private concern. The ships were constructed between 1901 and 1906 and cost the government approximately \$250,000 each. The purchase price in the present sale has not been announced, but it is understood it runs into several hundred thousand dollars.

The purchasers will have the vessels transported to their property at Bridesburg, Pa., near here, on the Delaware river, where they will be dismantled.

HORSE GOES INTO SUBWAY TO ESCAPE SNOWSTORM

BOSTON.—During a heavy snowstorm here a wise and comfort-loving horse attached to a milk wagon loaded with bottled milk entered the subway at Pleasant street, and penetrated the warmth of the underground tube as far as Par street. He was captured and taken out with no casualties except to the nerves of commuters.

The horse and wagon presented a ludicrous appearance as they moved slowly over the ties, pursued by the hysterical clanging of motormen's gongs.

DETROIT MAY HAVE FORD GASOLINE STREET CARS

DETROIT.—Mayor James Couzens has asked the common council to place before the voters at the election on April 5 a proposal for a \$15,000,000 bond issue for the construction of a municipally owned and operated street railway system. Mayor Couzens is hopeful, if the bond issue is voted, of using the Ford gasoline street car, which he said would reduce the cost of equipment 50 per cent and obviate the necessity of power plants.

Experts of three national news associations furnish the Times with their opinions on world movements, politics and sports. The Times service is inclusive, as well as exclusive.

TO USE GAS AND MACHINE GUNS ON CANNIBALS

NEW YORK, Jan. 24.—Mustard gas and machine guns are to be used by Capt. Harry de Windt, an English explorer, against the poisoner arrows of a tribe described as 'white cannibals' in Tiburon island, on the Pacific coast, he announced here today. Captain de Windt said he would leave New York in a few days to lead an expedition of six civilians and three score Mexican soldiers to the island. Tiburon is said to have rich deposits of pitchblende from which radium is made.

The island is about forty miles from Guaymas, Mexico, which, in turn, is only about forty-eight hours by rail from Coronado Beach, Cal. The inhabitants are said to be descendants of Dutch, Swedish and German prisoners who escaped from Mexican prisons several centuries ago. Of sixteen persons known to have visited the island in the past few years, in parties of two and three, only nine are said to have returned alive, the others falling victims to the flaxen-haired, blue-eyed "white Indians," as the Mexican people call them.

"Four miles from the Mexican coast," said Mr. de Windt, "Tiburon is easily accessible. Yaqui Indians, who live on the mainland, call Tiburon the 'Island of Death' for the reason that any person who lands on it is shot by poisoned darts and then eaten by the natives. The cannibals in addition to bows and arrows, use an ancient blunderbuss. They are supposed to number from 500 to 2,000 persons.

"Besides myself, the expedition I will lead will consist of Mackenzie Grieve, the companion of Harry Hawker when he fell during his attempted trans-Atlantic flight; an expert radium mining engineer, an expert cop-

WIN OR LOSE

A "WILDCAT" IS ABOUT TO BE TAMED

The thirty acres mentioned in an advertisement in this paper on Tuesday, the 20th, a half mile from a "Wild Cat" well offered at \$1,500.00 cash, has been purchased by G. A. Bryant of this office, who has purchased an option, paying down One Hundred Dollars cold cash, WIN OR LOSE, the option being for ten (10) days.

Of the \$1500, \$1150 is accounted for and most of it paid in to this office, WIN OR LOSE.

\$350.00
MUST BE RAISED AT ONCE
in the same way. If you want a chance get in by NOON TUESDAY, 27TH.

The purchase of the lease will be syndicated pro rata to the amount of interest taken, WIN OR LOSE.

per mining engineer; Anton Gibbon, nephew of President Carranza of Mexico, in whose name the concession permitting the exploration of the island was issued; a man servant and sixty Mexican soldiers, assigned to the party by the Mexican government. I imagine the searchings on the island will consume about three or four months."

SURGEONS TAKE BULLET FROM HEART; MAN LIVES

OMAHA.—A surgeon at St. Joseph's hospital here took the heart out of Steve Zakich, an Austrian who had shot himself, removed the bullet from the heart, replaced the organ and sewed up the incision. Zakich is now practically out of danger.

The operation was performed when the bullet had been in Zakich's heart nearly thirty-six hours. The first doctors to see the man after he had shot himself thought he would die in a few minutes.

END OF YELLOW FEVER IN WORLD PREDICTED

NEW YORK.—Complete elimination of yellow fever throughout the world will soon be a reality, in the opinion of Dr. George E. Vincent, president of the Rockefeller foundation. At a luncheon of the Rotary club in the Hotel McAlbin here he said that "flying squadrons" were rapidly driving the malarial from South American and African countries. He added:

"We intend to eliminate malaria altogether, if possible, and the slogan of the south will be: 'Malaria must be eliminated once and for all time.'"

Expect Rush of Mexicans from U. S.

LAREDO, Texas, Jan. 24.—American immigration officials along the Texas-Mexican border are preparing for a big rush of Mexican laborers back to Mexico within the next few weeks. They are expected to come from all parts of the United States and have been under contract in this country. Under a special ruling these laborers must quit American soil by Feb. 1.

During the war thousands of Mexican laborers—men, women and children—were secured under contract from Mexico, with an agreement that they would return to their native land by the end of January, 1920. No more contract labor can be brought here and the laborers due to leave the United States shortly cannot re-enter except as individuals seeking employment. To do this they must pay a head tax of \$8 and meet other immigration regulations.
