Bishop Garrett New Head of Episcopal Church in the U. S.

Upon the death of Right Rev. Daniel Sylvester Tuttle, presiding bishop of the Episcopal church in the United States, which occurred Tuesday afternoon at his home in St. Louis, the succession to the office fell to the Right Rev. Alexander Charles Garrett, D. D., bishop of Dallas, who is now the oldest living bishop in the American Episcopate.

He will hold office until 1925, when the next general convention of the church will elect a successor, who automatically will become president of the national council, a post now held by Bishop Thomas F. Gailor of Memphis, Tenn.

Plans for a new method of administering the church were adopted in 1916, the constitution being altered to provide that Bishop Tuttle's successor should be elected for a term of six years instead of succeeding to the post.

Bishop Garrett has a granddaughter and several great grandchildren living in Ranger, Mrs. George Taggart and children, of the Cooper addition.

Bishop Garrett is now 91 years of age, and though nearly blind was able to preside at the recent diocesan convention held in February in Fort Worth. He resides at St. Mary's hall in Dallas, one of the schools which he founded.

HOUSTON, April 18.—V. V. Vastel, 23, who with Miss Goldie Hughes established a record of 40 hours and 19 minutes for partnership continuous dancing at the dancing contest here recently, was under arrest today on information from San Antonio that he is a deserter from the United States army.

According to the information here, Vastel is alleged to have deserted March 6 from Fort Sam Houston. Officers there, reading accounts of the dancing in the San Antonio papers, recognized the name and wired authorities here to arrest him.

GREATER RANGER COMMISSION HOLDS ITS FIRST SESSION AND SETS MACHINERY IN MOTION

Moving with uncommon speed, the new city commission yesterday ratified the nominations to all appointive offices, issued definite instructions to all heads of city departments, called upon several of the department heads to prepare statements, and set the machinery in motion for further development of municipal organization.

The fire and police departments from now on will be expected to furnish the city secretary semi-monthly reports. Tenure While Useful. Department heads were told by Mayor Hodges that the city charter does not permit the commission to appoint any man to an appointive office for a definite length of time.

Plenty of Work For City Engineer Says the Mayor

H. E. Seward, city engineer of Waco, will be Ranger's new city engineer. His name was placed in nomination by Commissioner Raymond Teal at the board meeting yesterday afternoon and the commissioners unanimously agreed on Mr. Seward. A telegram was sent Mr. Seward immediately after the meeting by City Secretary E. A. Ringold telling him of the board's action.

The mayor was asked if the appointment of the Waco engineer did not presage a constructive program for the next two years. "Oh, yes; we'll have enough for him to do," he said. "We haven't the money to build paved streets, but they can be gravelled."

The office of engineer has been vacant for almost one month. M. H. Redwood was the last engineer to occupy the office.

1,000 SUBNORMAL CHILDREN WILL BE FED ON VITAMINES

ATHENS, April 18.—To bring up children on yeast is the aim of an interesting experiment which will be tried shortly in the Near East Relief orphanage here.

A thousand subnormal children, suffering from hardships encountered in the exodus from Anatolia, will be selected for supplementary feeding with vitamins in order to demonstrate how far these so-called "accessory food products" can combat and repair the results of prolonged malnutrition.

Two tons of concentrated vitamins have been received from New York. Miss Dora Miller, a dietetic expert from Chicago university, will conduct the experiment. "Yeast squads" of 150 children will be formed in seven large orphanages, and a teaspoonful daily of vitamin extract will be added to their soup or porridge. The first series of experiments will continue for a month and the results will determine how far this regime will be extended to the whole orphanage system of the Near East Relief in Greece, Syria, Palestine, Armenia and Persia, which is supporting over 100,000 orphans.

Ranger to Have Curfew Ordinance To Save Children

City Judge Flewellen is working on a curfew ordinance today. He was instructed yesterday by the commission to draw one up following a statement by Police Commissioner Terrell that children were roaming the streets late at nights in increasing numbers.

The commissioner suggested that it should include minors up to the age of 15 years but Police Chief Davenport, who was present, asked that it be made to include minors of the age of 16.

Commissioner Terrell said there were more complaints of petty thieving in Ranger than at any time and the small boys out at nights are taking a part in it. He said also it will have the effect of putting more children into school regularly than at present. "It will protect 12 and 14-year-old girls," he further said.

The ordinance will compel children below and of the age of 16 years to be off the streets at 9 o'clock.

'HARDEN YOUR HEART,' MAYOR TELLS CHIEF

Police Administration Is Discussed by City Commission At First Meeting. Ranger's police administration was accorded special recognition at yesterday's commission meeting.

The department's personnel, policy of conduct and handling of prisoners came under the gaze of the commissioners. Confidence in the department was voted when Commissioner Terrell's motion that the entire force be re-nominated to hold their present positions was carried unanimously.

Mayor Hodges suggested to Chief O. V. Davenport that he be firm in his treatment of law violators. "You mean for me to harden my heart a little more?" asked the genial chief. "Yes, harden your heart a little more," replied the city executive.

The chief head told the chief he would have the moral support of the commission in the execution of his policies. "We will dismiss any of your force not in accord with your administration," he said.

L. E. Davenport was made assistant chief of police on the motion of Commissioner Terrell. Mayor Hodges remarked that he "has been faithful." His new office will carry with it the duties of poundman in addition. He will serve at the same salary as heretofore.

Commissioner Terrell said he would need an additional patrolman for day duty. The request was filed and will be acted on favorably, it was said.

A change at the office of the day desk sergeant will be made. A fireman who has been serving in that capacity will be returned to the fire station and A. B. Pitcock will take up these duties. Mr. Pitcock has offered to do this work in exchange for using the sergeant's office for the office of the Ranger Sanitary company. Minor details of this arrangement will be made by Commissioner Terrell.

SOME MISTAKE ABOUT HIS DEATH, SAYS DRY AGENT

DALLAS, April 18.—Reports that he had been killed in East Texas and his body badly mutilated, were declared to be exaggerated by "Lone Wolf" Gonzales, prohibition agent. "Say, I understand they got 'Lone Wolf' over in East Texas," a voice over the telephone informed the prohibitions headquarters here.

"No, there must be some mistake about that," replied Gonzales, who answered the telephone. "You probably have the wrong dope; I'm not dead."

The companies are given until May 25 to reply.

Each railroad is asked for data relative to the shopmen's strike and if settlement was made with employees. Where no agreement was formally reached, the railroads are asked to state what demands were made by the shopmen before they would return to work.

LIFE MUCH THE SAME AS IT WAS 4,000 YEARS AGO

AUSTIN, April 18.—Proof that the everyday life today is not so greatly changed from that of three or four thousand years ago is found in the records left by the Babylonian kings, priests and merchants. Recently a clay tablet picked up at random in the anthropology department of the University of Texas proved to be a butcher's bill some 4,300 years past due.

This was a record for one fat sheep, and two goats which had been butchered to the customer's order in 2,300 B. C. This old record was found among the ruins of Jokha in Babylonia.

Ranger Using Phones

More Than 800 Subscribers Now on Local Exchange and Number Increasing Fast So That 1,000 Soon Will Be Reached.

Between 40 and 50 new subscribers have been placed on the Ranger telephone exchange board within the last 40 days, all being within the city of Ranger, according to D. E. Daniel, local manager, who, with C. L. Stewart, district manager, has been making a check of prospective subscribers and ascertaining who is getting telephone service and who is not.

Probably 100 more subscribers will be added within the next 30 days, according to Mr. Daniel, who says that the steady growth of Ranger at this time and the continued accession of permanent residents is indicated by the increase of telephone subscribers.

Many new subscribers have been added in the Lackland and Burkes additions and the service is to be extended to Eastland hill within a short time. Within the last two days orders for 17 new phones in Ranger suburban additions were booked. The Ranger telephone company is now serving a few more than 800 subscribers and Mr. Daniel said he was quite confident that the total number will be above 1,000 before the middle of summer. The company is well pleased with conditions in Ranger and, according to Mr. Daniel, believes that it now has a permanent list and will be able to get some return on its large investment here.

PRISONERS IN CITY
JAIL MUST WORK
OUT THEIR FINES

Woe to the man who cannot pay a fine in city court. He is to work it out on the streets, according to the instructions that will be passed out to the police department by the city commission. The subject of fines broke loose yesterday at the board meeting. It was generally agreed by all present that Ranger's streets can be improved. And a financial statement prepared for the commissioners yesterday made it plain that the city treasury cannot stand any heavy drafts of this nature.

Here is how the commissioners expressed themselves when Mayor Hodges said the city could profit with a street working gang:
"If a man is arrested and fined he is put in jail and kept there until his fine is paid, said Commissioner Terrell. It is at the city's expense, but from now on we will find a way for the prisoners to help the city."

Said Commissioner Brashier: "If a man hasn't the money to pay a fine, let him work it out on the street."
And when Judge Flewelling, who was an interested spectator, was asked for an opinion, he said: "We can fine them and if they don't pay, we can force them to work it out."

DOG HILL PARAGRAPHS
By GEORGE BINGHAM

A stranger who was suspected of having robbed a train or a bank somewhere, was taken into custody by the Tickle Town Marshal, while he didn't have anything else to do, last Friday, and when searched a good pocket knife and a plug of chewing tobacco were found on him.

Jeff Potlock's wife and children went visiting day before yesterday and stayed away all day. Jeff remained at home and during their absence he was boss of the entire house.

Washington Hocks had as his guest last Sunday a relative from the village of Thunderation. He is Wash's double cousin, and Mrs. Hocks says she knew it from the start because he helped himself twice to everything on the table.

ARMENIANS ARE FLEEING FROM ALEXANDRETT

Strained Relations Between France and Turkey Start New Outbreak.

CONSTANTINOPLE, April 18.—Christians are fleeing from Alexandrett, owing to strained relations between France and Turkey, according to the official Anatolian News agency. Five hundred Armenian families already have departed from the city. An outbreak is feared as a result of recent disagreement over the Chester concessions to the United States, against which the French have protested to Turkey.

A band of 50 Armenians from Syria attacked a Turkish village called Acacibozkale in the Adana district, according to the news agency. Turkish detachments "rushed up and destroyed the attackers," the report said. The Turks at Adana are in a mood of restrained belligerency as the time for the resumption of the Lausanne conference draws near. Ismet Pasha arrived here today for a conference with the allies on the subject of the Chester concession before leaving for the Lausanne conference.

FOSTER PARENTS MORE NUMEROUS THAN FOSTER CHILDREN IN EL PASO

EL PASO, April 18.—Social service workers, having taken a census of the Salvation Army Rescue home, the Associated Charities, and the county probation office, report that the supply of babies to be adopted in El Paso is not in keeping with the demand for foster children. Many more Anglo-Saxon babies are needed to fill calls. The demand for negro babies and Mexicans is fairly well taken care of, it is said.

There are a few children several years older available, and it is difficult to furnish homeowners with foster children, according to the report to the Associated Charities, but there are more calls for bright, healthy infants from persons who are childless than can be filled. "There is always a list of childless parents on file at the Salvation Army rescue home, said Adjutant Leonard Hanna, "and we provide them with children to raise as soon as we get them. But there are more childless couples than there are babies for them."

WITNESS TELLS HOW PRISONER WAS MURDERED

Revolting Treatment in Florida Convict Labor Camp Exposed

TALLAHASSEE, Fla., April 18.—Martin Tabert's body was a mass of bruises when "Whipping Master" Walter Higginbotham finished flogging him in a convicts' camp, an ex-prisoner told a legislative committee. Tabert's bunkmate had to assist investigating the camp today.

"Blood was streaming from a half a hundred wounds," Gardner, who was at the Putnam Lumber company convict camp when Tabert died of alleged brutal treatment, said. "The day after the whipping, Tabert was very ill," he continued. "When he failed to get up in the morning, he was forced to dress and appear in the mess hall. He couldn't eat anything. He was too sick. Negro attendants were told to force quinine down his throat. He suffered great agony. No doctor came around to give him attention."

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Often Means You Have Not Been Drinking Enough Water.

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and sluggish. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.—(Advertisement.)

ROTARIANS WILL SHOW LIONS HOW THEY PLAY BALL

Organize Club and Name Jack Gullahorn as Manager; Visitor Praises Ranger.

The Ranger Rotarians have organized a baseball club with Jack Gullahorn as manager. This was determined at the weekly Rotarian luncheon in the Gholson hotel today, when President Gus Coleman pronounced an anathema on all absent Rotarians. He expressed the hope they would hear and heed.

"If the Ranger Lions think they can play ball they will have a chance to demonstrate," said the Rotarians' ball manager. "They may think they can eat raw meat, but the Rotarians will show them how to eat up scores."

The subject for the day was "Advertising." The scheduled speakers had been called out of town, so "Bill" Palmer was enlisted and he gave an inspiring talk. He gave notice, however, that he did not propose to act as a substitute again.

H. M. Russell of Dallas, general manager of the Studebaker corporation for the state of Texas, was a visitor, a guest of Jack Gullahorn, and spoke his appreciation of Ranger. He gets here about once every 90 days, he said, and always enjoys the time he spends in Ranger.

Volunteers were called for to work in the Rotarian garden and some responded for 6 o'clock this afternoon and others for 6 o'clock tomorrow afternoon. Guest Russell offered to donate flowers for a Studebaker flower bed in the garden. Dr. L. C. G. Buchanan was appointed chairman of the Rotarian garden project.

SERVICE CAR DRIVERS AND DRAYMEN TAX

City of Ranger May Take Action on License Fees That Go Unpaid.

City of Ranger tax department is going after service car drivers and draymen who have ignored requests to come in and pay up. The department will have the backing of the legal forces and police department.

Final action against delinquent drivers and draymen will be ordered after the next meeting of the city commission, which will be on April 24, it was said. The delay was ordered by Mayor Hodges that several details of the ordinance might be studied with a possibility of a revision.

It was brought out that no license fees were collected last year from service car men and draymen. Fifteen hundred dollars could have been collected in all, it was said.

The statement of Tax Collector Ringold that the service car drivers have employed an attorney to resist any attempt of the city to collect these fees served to stiffen the determination of the commission to make the collection.

The fee of \$25 was declared by Mr. Ringold to be reasonable for both draymen and service car drivers. "The draymen for the most part don't pay any taxes but they use your streets," he said. He said that many of the draymen live outside of the city limits.

The desirability of gathering in these special fees, he indicated, comes from the fact that all of the special license funds goes into the street fund as directed by the city charter. He said that \$11,000 was collected in special taxes during 1920.

Service car drivers of Fort Worth and Dallas fought a losing fight against the tax fee, Mr. Ringold said. Both cities carried their contention to the supreme court and won.

Ranger's New City Secretary Has Been Very Useful Citizen

E. A. Ringold, the new city secretary of Ranger, is the man who made the first assessments and collected the first taxes not only for the city but also for the Ranger independent school district.

A Mississippian by birth, a salesman in bonds and real estate by training, he came to Ranger in December, 1918. He arrived here with the intention of engaging in real estate matters, but passed it up by a strange incident.

He went to the postoffice to get his mail at the general delivery window. He stood in line three and one-half hours awaiting his turn. His sympathies were directed towards the clerks who were wading through piles of parcel post packages. It was Christmas time. The next day on returning he found the piles still higher. Men, women and children were lined up almost a block waiting to ask for their mail. It was wet weather and as he found it difficult and next to impossible to get out to the country to investigate the oil lease business he volunteered to help at the postoffice. He worked without pay and the following day the head of the postoffice asked him to help out until the rush was over. He did so, and on Jan. 1, 1919, when O. R. Cooper was made postmaster, he was asked to serve in the office. During his work in the postoffice he made the acquaintance of M. H. Smith,

superintendent of schools. Mr. Smith told him he was looking for a school tax assessor and on Feb. 11, he took over these duties.

His service for the city started on April 22 when he was made city tax assessor. He was also school tax assessor and collector in 1919 and 1920.

Mr. Ringold has collected approximately \$785,000 in taxes for both the schools and city during his term of office. Of this amount \$636,000 was collected for the city.

The new city secretary left his native state in 1906 for Oklahoma. For 10 years he made his residence in that state, five of which he spent in selling bonds and 5 in the real estate business. In 1916 and 1917 he traveled in the North for a bond investment house. He spent the following year in Oklahoma City in salesmanship work.

BEAUMONT PUTTING HER STEADY LOAFERS TO WORK

Special to the Times.

BEAUMONT, April 18.—Twenty-four men were arrested in 24 hours here in the "get a job or go to jail" campaign started by the police department. The object of the drive is to rid the city of "perpetual" loafers who refuse good jobs daily, according to Chief Trevis.

Those unable to show visible means of support will be heavily fined and be required to work it out in municipal service.
