Prohibition Commissioner Addresses Citizenship Conference.

WASHINGTON, Oct. 13.—"President Coolidge stands foursquare for enforcement of the prohibition law. He is no less whole-hearted regarding this matter than the late President Harding. The department of justice is also dead in earnest."

These facts were flatly stated today by Prohibition Commissioner Haynes, at the morning session of the Citizenship conference. The meeting was called by 756 influential men and women of the country in the interest of the enforcement of the eighteenth amendment and the Volstead act., Mr. Haynes was speaking on "The Truth About the Enforcement of the Eighteenth Amendment and the Volstead Act."

More than a thousand men and women from all over the country have registered as delegates to the coference, which will continue in sion tomorrow and Monday. They represent religious, moral and s cial forces. Government officials, governors, United States senators, congressmen, labor leaders, churchmen, both Jew and Christian-are taking part

### Yes-Parker County WHEAT AND Now Has No Motor Traffic Cops on Duty

WEATHERFORD, Oct. 13 .--There isn't a single motor traffic officer working in the whole county of Parker, according to a statement made by a constable here. All of the constables at Weatherford, Aledo and Millsap have agreed to suspend the employment of deputies for this work, it is said.

Parker county commissioners will appoint officers to patrol the highway, it is said, and for this reason the constables will go out of the business which became so criticized that Weatherford civic clubs took action in the matter following claims of tourists passing through the county that they were wrongfully charged with state highway violations.

The October grand jury report declared that traffic officers had been collecting fees not allowed by law. The report further said that the officers had been advised by attorneys that they were entitled to collect such fees. The county atterney was instructed to see that no illegal fees are collected in the future.

# A Thought to -- Music

Let us give a thought to music. We all know that music has played an important part in the world's history.

As far back as history records we find that music has ever played upon and to the moods of man. Sacred writ tells of the sweet songs of King David and how the restless spirit of Saul was soothed by the strains of the

The savage races never went into battle until first they had appealed to their gods of music, crude though it was. The most ferocious animals have been lulled and charmed by the strains of enchanting music. Soldiers on a long dreary march cheer up and step out with renewed vigor at the sound of a military tune.

> And music in the home! No matter how beautiful your home-no matter how richly adorned-no matter how tastefully arranged-without music it has a void that can be filled only with music.

The Baldwin Piano and one of these machines should be as much a part of your home as the furniture. And All Records

Preparations had been made for a great demand, but the tremendous rush beginning early exceeded all expectations.

A surprising number of people presented coupons for The New Universities dictionary, saying as they did so that the 22 supplementary dictionaries of special activities appealed to them with greatest force. In one book, besides all the other aids to studying modern English, are special dictionaries of words used particularly as Amtricanisms and in automobiling, aviation, golf, baseball, commerce and lak, football, lacrosse, lawn tennis, war, music, photography, polo, wireless, telegraphy and yachting. Besides these are dictionaries of atomic weights, classical abbreviations, foreign words and phrases, forms of address, most common abbreviations, state names and meanings and words of opposite and like meanings.

# HOOVER CLEANER

#### It Is Cheaper to Own Than Not to Own a Hoover!

Old-fashioned broom-sweeping is disagreeable and tiresome drudgery—it is slow and unsatisfactory in its results, it scatters disease-laden dust into the air to choke one's throat, endanger health, cause extra dusting and soil expensive curtains, portieres, upholstery and walls—broom-sweeping actually costs more than to own a Hoover and it is dangerous to health!

Though a woman value her time, strength, health and looks at nothing—though she class as valueless an ever-clean home—though she consider it of no value to end the disorders of semi-annual house-cleaningsthough she disregard the savings in frequent laundering of dust-soiled curtains and redecorating walls even then, solely through the money value of the years added to the life of valuable rugs, plus the money saved by ending the beating of those rugs by professional cleaners, The Hoover pays for itself more often than once in a year!

To save money, invest in a rug-saving, work-saving Hoover. The money, in a Hoover, yields better than 100 per cent a year, for a lifetime! Furthermore, your floor coverings are clean and bright all the year 'round.
