

BAINBRIDGE COLBY CHOSEN NEW SECRETARY OF STATE

BREWERS IN FIGHT WITH REFERENDUM

ATLANTIC CITY, Feb. 25. Brewers of the United States will use every constitutional means to "keep that liberty and property guaranteed to us by the constitution," Christian Feiganspan declared at the United States Brewers' conference, at which he presided.

He pointed out that there are twenty-one referendum states where the people reserved to themselves the power to approve or reject at the polls any act of legislation.

He inferred that this would be the procedure in an attempt to retract the prohibition amendment.

RAILWAY BOOM IN WEST TEXAS AFTER MARCH 1

STAMFORD, Feb. 25.—Railroad construction in West Texas is expected to take on a sensational turn following the return of the lines to private control and increased freight rates being granted, think the West Texas Chamber of Commerce.

Semi-official information is that the Southern Pacific railway, one of the longest in the nation, has, or shortly will take over the Kansas City, Mexico and Orient railway, running from Wichita, Kansas, to Alpine, Texas, with about 800 miles in Old Mexico. This line is given the distinction of having "cut West Texas on the map." Over 232 miles of the line runs through a scantily settled country. Only liberal through business in that territory makes the line pay its way.

The Southern Pacific a few years ago turned over many trains of oranges and California fruit to the Orient-Alpine for movement to the north. Another through route established later gave this line a severe setback until it represented itself unable to operate unless taken over by the U. S. Railway administration, along with other Texas lines. The Orient was a former Stillwell line projecting from Kansas City to Topolabampo, on the Mexican coast. The road has large locomotives and a grade complete from Wichita to Kansas City, giving the Southern Pacific a northern terminus. It is expected that as a consequence the Southern Pacific will route most of its fruit and other large tonnage over the Orient, causing a revival in the affairs of the line, employing a larger number of train crews, telegraphers and other employes.

The advent of the Vestal well in the extreme northern part of Callahan county, a few miles from Cross Plains, is expected to cause the M. & T. railroad to extend its DeLeon to Cross Plains line to Abilene and on to a point in New Mexico, to which section it was projected several years ago and preliminary surveys were made. Abilene might become a division point on the new line, which would tap a very fertile agricultural belt in Callahan and Taylor counties. It is rumored that the Chicago, Rock Island & Gulf railroad is planning an extension of its line from Graham to Stamford. This line would serve a territory in the oil belt at present very inadequately served.

The Roby and Northern railroad is said to plan an extension of its line from Roby to Sweetwater, a distance of about twenty-eight miles. The line's present terminus are Roby and North Roby, where connection is made with the Katy.

An extension of the line from May to Rising Star is now projected by Brownwood people, who have the matter up with railroad officials.

The Kansas City, Mexican and Orient may shortly undertake to extend its line from San Angelo to Del Rio, opening a territory which is developing rapidly and permanently.

A short line railway is to be built from the Pecos and Northeastern line north of Pecos to the celebrated sulphur mines in that section, said to be the largest in the nation.

The Hamon & Kell, Ringling, and Cisco and Northeastern roads are already rushing work on their lines into the Brokenridge and Desdemona fields. A further extension looked for is a southern projection of the Cisco and Northeastern line from Cisco to Rising Star, Cross Plains and Brownwood.

Among projects which may be developed during the year is a line from Pecos to Fort Stockton or Chin, connecting two trans-continental lines.

M. A. TURNER'S RESIGNATION IS ACCEPTED

M. A. Turner, who has served in the capacity of city manager for over a year, handed his resignation to

the board of commissioners Tuesday. His resignation was approved to become effective Sunday.

Prior to his appointment to the position of city manager, shortly after the incorporation of Ranger, Mr. Turner was secretary of the Chamber of Commerce, coming to that position with experience in chamber of commerce work in Fort Worth, Dallas and Houston.

He will enter the oil investment office which he has established with Leon D. Brooks of the Lane Oil Syndicate in the Marston building. The new firm is known as Brooks & Turner.

Parent-Teachers' Club Seeking a Playground Fund

The Parent-Teachers' club of the Central ward school is considering the problem of raising additional funds for playground equipment. These members have been appointed to serve on a committee to plan a campaign for funds: Mrs. Harrington, chairman; Mrs. Terrell, Mrs. Turner, Mrs. Duffer, Mrs. Stackable, Mrs. Brown, Miss Gilpin, Miss Spear. The committee will meet at the Marston building Tuesday afternoon to discuss plans for a campaign to raise funds.

All who are interested in the work the Parent-Teachers' club is doing are invited to attend the meetings.

WASHINGTON LOOKS INTO LIQUOR RIOT

WASHINGTON, Feb. 25.—A complete investigation of the prohibition controversy in Iron county, Michigan, will be made by the bureau of internal revenue, Commissioner Roper announced today. Deputy Prohibition Commissioner Gaylord leaves tonight for Michigan to take up the matter.

FORMER PREMIER IN PARLIAMENT

LONDON, Feb. 25.—Former Premier Asquith has been elected to parliament from the Paisley constituency in a recent election, it was announced today.

CHARGED WITH FEEDING CHILDREN FRO MGARBAGE

NEW YORK—Charged with endangering the health of his three children all less than six years old, by feeding them food taken from garbage and not providing sufficient clothing for them, John Parade, 40 years old, a farmer, was arraigned before Magistrate Simpson in Washington Heights court.

Parade was held in \$500 bail for trial in special sessions. He denied the accusations.

RECEIVES LETTE RFROM BERLIN WRITTEN IN 1914

DOVER, Ohio—Written eight days before the war started in July, 1914, a letter was received by Dr. E. S. Wagner, a local dentist, from Berlin the other day. The man who wrote the letter was killed in an engagement in France early in 1917.

the Orient and the Texas and Pacific. The Gulf, Western Texas and Pacific is also in a mood to build west from Seymour under favorable conditions. A number of new lines have been proposed for the Panhandle, especially a line from Amarillo northward through the world-renowned gas belt and on to a connection with the main line of the Rock Island in the northernmost part of the Panhandle.

The Santa Fe is expected to make a number of extensions along its line in West Texas in the next year or two, provided legislation is not inimical and a living rate for the roads is granted.

AMERICAN KIDNAPPED IN MEXICO

WASHINGTON, Feb. 25.—Barry Hogarty, American citizen, kidnaped by Mexicans at Matimi, Durango, is being held for ransom, according to information received by the state department.

Hogarty was employed as superintendent of the smelter of the American Metals company at Matimi. The kidnaping was reported by the company from its New York headquarters and was based on a report received yesterday from the company offices at Monterey, Mexico.

STATE DEPOSITORY ACT IS UPHELD

AUSTIN, Feb. 25.—The constitutionality of the state depository act was upheld in the Third court of civil appeals when that court affirmed the decision of the trial court in the case of H. S. Lawson vs. the State Depository Board. The case originated in Travis county when Lawson attempted to secure an injunction to restrain the depository board from performing the duties delegates to it by the depository act, which Lawson contended was a violation of the state and federal constitutions.

SENATE WILL VOTE ON TREATY WITHIN NEXT FEW WEEKS

WASHINGTON, Feb. 25.—A vote within the next two weeks on the ratification of the treaty of Versailles is contemplated by senate leaders. Pressing legislation displaced the treaty on the floor today, but it will be called up tomorrow by Senator Lodge, who asks that it remain the business of the senate until acted upon.

MEXICO CITY CLOSES UP AGAINST FLU

MEXICO CITY, Feb. 25.—Schools, churches and other public meeting places have been closed indefinitely because of the influenza. It is estimated that the number of cases in Mexico City run as high as several thousand, but there have been comparatively few deaths.

PRESIDENT'S REPLY REACHES COUNCIL

LONDON, Feb. 25.—President Wilson's reply to the allied note on the Adriatic situation reached London today and has been delivered to the allied supreme council.

RIVAL WEDS GIRL AS HE PREPARES FOR CEREMONY

International News Service. BRIDGEPORT, Conn.—Leaving the home of his bride-to-be to purchase a bridal bouquet of roses for the ceremony on the morrow, Albert Lee Cowles, of Barton, Vt., returned an hour later to find that she had changed her mind and married William C. Pugsley, a Bridgeport traveling salesman.

Mr. and Mrs. Pugsley are enjoying their honeymoon, while Cowles, a garage owner, has returned to his work of dismembering flivvers.

Cowles is an ex-soldier, having served with the A. E. F. in France. He had been engaged to Miss Kinney before leaving for the scene of the fray.

Recently he came to Bridgeport from Barton and went to the Kinney house at No. 105 Capitol avenue to make plans for the ceremony. He left the young woman's house to order the roses, intending to return in an hour. During his absence Pugsley, an old sweetheart of Miss Kinney's, stepped into the scene, stormed and captured her heart once more in a few minutes and induced her to step down to the marriage license bureau with him. They were married by the Rev. Hal T. Kearnes of the Universalist church.

WADES FIVE MILES IN SNOW TO GET AID FOR ILL FAMILY

WILKESBARRE, Pa.—Henry Jacobs, aged 50, waded through deep snow drifts from Dallas to Hayes Corner, a distance of five miles, to get medicine for his sick family, five members of whom are suffering from influenza. He arrived exhausted from the long tramp.

When the pitiable plight of the family was discovered, Edward Hoffmann, superintendent of the Wilkesbarre Railway company, sent a force of forty men to open the trolley line that had been snowbound for several days, are now running and Jacobs is able to get supplies for his family.

LATEST PHOTO OF FRANCE'S "FIRST LADY"

Madame Paul Deschanel. This is the most recent photo of Madame Paul Deschanel who became France's "First Lady" upon the election of her husband to the presidency to succeed Raymond Poincare.

REDS IN ITALY SEIZE CITY; MANY WOUNDED

LONDON, Feb. 25.—Workers at Pieve Dia, Soligo, Italy, have seized the municipal buildings and proclaimed a soviet government, according to Rome Central News dispatches. In the fighting between the workers and the authorities, many persons were wounded.

Disorders also occurred at Vittorio, Montedelluna and elsewhere.

SHOPYARDS FIRE COSTS A MILLION

NEW YORK, Feb. 25.—Sir Thomas Lipton's challenger for America's cup, the Shamrock IV, and the cup defender Vanitie were threatened, but escaped destruction early today when fire swept through the shipyards of Robert Jacobs at City Island, burning eight private yachts, three buildings and with an estimated loss of nearly \$1,000,000.

POLAND IS READY FOR PEACE PARLEY

WARSAW, Feb. 25.—Poland is inclined to enter into peace negotiations with the Russian Soviet government immediately, it is stated officially.

ACTS AS SPECIAL ATTORNEY GENERAL IN NEWBERRY CASE

Judge W. H. Eichhorn.

Judge W. H. Eichhorn, special judge in the famous Indianapolis election fraud case in which 150 men were indicted, is assisting the government in the trial of Senator Truman H. Newberry and 134 others charged with fraud in the senatorial campaign Newberry waged with the late Henry Ford.

MID KAN. RY. CROSSING WILL BE EFFECTED

Mayor Hagaman stated Tuesday that a compromise had been effected in regard to the Rice property for the T. & P. crossing near the Mid Kansas. This crossing has been badly needed by the city for some time and will relieve the congested traffic now using the Main street crossing.

Four New State Banks Chartered

AUSTIN, Feb. 25.—The State Banking board recently approved charters for four new state banks with a total capital stock of \$390,000. The new banks are: Liberty State Bank, Dallas, capital \$100,000. Farmers and Merchants State Bank, Lelia Lake, capital \$15,000. First State Bank, Alamo, Hidalgo county, capital \$25,000. Security State Bank, Mineral Wells, capital \$250,000.

ASSASSIN SLAYS; TRIES TO SET FIRE TO GIRLS' SCHOOL

LOS ANGELES, Cal., Feb. 25.—Florence Housel, 50 years old, owner of the Huntington Hall School for Girls in South Pasadena, was shot and killed in her room last night by an unknown assailant, who then fired the building. Her father extinguished the flames.

BUSINESS MEN PROTEST LOSS OF RUSS TRADE

NEW YORK, Feb. 25.—Trade relations between the United States and Siberia which bade fair to run into millions have been suspended as a result of the capture of Vladivostok by the social revolutionaries. Local business men have announced that they requested the state department to inquire into the possibility of getting thousands of dollars worth of furs which are in Vladivostok awaiting shipment to the United States.

MUSICIANS' ASS'N PUTS BAN ON SUGGESTIVE JAZZ

BOSTON.—Jazz music is to be toned down so as not to offend City Censor John M. Casey. The official guardian of the city's morals beamed with delight when he received this communication today from the Boston Musicians' Union. "Suggestive movements or exaggerated jazz playing for dancing will not be tolerated by the Boston Musicians' Protective association, and members found guilty of the above will be fined."

STAMFORD HOME SELLS \$12,000.

STAMFORD, Feb. 25.—The residence of S. Abbott on North Street was sold for \$12,000, one of the most beautiful in the city.

CENSUS TAKER GETS YOU WHEN YOU GET MAIL

"Have you been enumerated?" This query is asked the minute you start in the postoffice lobby. A member of the committee in charge of census work from the Chamber of Commerce is stationed at the door, to gently remind the public that this is census time.

Most answers are in the affirmative. A few content themselves by shaking their heads, and some merely leave it to the imagination of the questioner to decide whether he meant one of affirmation or negation.

"ep," one burly lad replied to A. C. Kenley, who was on duty at the door Tuesday morning. "The census man got me in West Virginia a few days ago."

Three fast working enumerators who sat at a desk in the postoffice, were kept busy taking down names of those who had not previously been enumerated.

The number of names secured by his method will not be known until the list is checked over, but the check will add materially to the total or Ranger.

In addition, special workers have been assigned to cover districts of the city which are thought to contain individuals or families who have not been listed. The students in the Ranger schools have left very little territory uncovered, however.

Special workers are assigned to these districts: Main street, all between Rusk street and the T. & P. railway, Jells Castellaw; Main street, south of Hodges estate, all between Rusk and Marston streets, Jol Erwin; Main street south to Hodges estate, all between Marston and Hodges streets, R. J. Richardson and C. S. Heffern.

In the additions these workers are active: Hodges Oak Park and Hodges Central, Dr. R. H. Hodges; Rust addition, Drs. Duffer and Hodges; Ghoulon, Goforth, Gordon and Davenport additions, Jack Ratliff.

At a special meeting of the directors of the Chamber of Commerce held Wednesday morning the census question was taken up and discussed in full. This is the last week that enumeration can be taken and all steps will be made to gain a full count from Ranger. "The children who have been competing for the \$20 and \$10 prizes have gained several hundred names that were missed by original enumerators, according to their reports at noon Wednesday.

LONDON PRESS HITS AT LLOYD GEORGE

LONDON, Feb. 25.—The announcement of the allied policy toward Russia has evoked mixed comment from the London press. The Times, a strong opponent of Bolshevism, accuses Lloyd George of having for over a year "sought for his own purposes to throw weak, ignorant, reluctant Europe into the vernal arms of her Bolshevik seducer." It says that the council's announcement is an indication of the progress that the premier considers he has made toward his goal. His next step "is to compromise Europe beyond recall."

GEN. BOOTH CHIEF OF U. T. C. STAFF

FORT WORTH, Feb. 25.—Gen. A. B. Booth of New Orleans, has been appointed adjutant general and chief of staff of the United Confederate Veterans by Gen. K. M. Vandant of Fort Worth, commanded-in-chief. General Booth succeeds General Mickle of Mobile, who died recently.

BEARS DESCEND ON NEW JERSEY VILLAGES

PEARL RIVER, N. Y.—Leo Hesse, the village butcher, saw bear tracks in the snow on the outskirts of Montvale, N. J., just across the state line. Hesse followed the tracks to the home of Edward Serrel and there telephoned to everybody about the country to be on the lookout for bears.

Mr. Hesse himself saw the bears, two of them, after he left the Serrel home, but the ywere half a mile away and he did not consider it necessary to try to catch up with them. Half a dozen men armed with rifles traced the bears to the home of Mrs. Laura Hollis in Pearl River. Mrs. Hollis said she had seen them, but thought they were straw dogs and drove them away. It was reported the animals had killed several calves near Allendale, N. J.

"CAMERA SHYNESS" OF MANY OVERCOME BY WAR

ATLANTIC CITY, N. J.—The war is responsible for the change in the attitude of noted men toward the camera. Men who years ago would not have permitted their pictures to be taken under any circumstances, but who during the war posed for the camera to help along various "drives," thus overcame "camera shyness," according to speakers who addressed the delegates assembled at the annual convention and exhibition of the Photographers' association of the Middle States.

SUCCESSOR TO LANSING APPOINTED

WASHINGTON, Feb. 25.—Bainbridge Colby, of New York, one of the leaders of the Progressive party, under Theodore Roosevelt, succeeds Lansing as secretary of state, it was announced today at the White House.

The selection of Colby is a surprise, most officials assuming that Acting Secretary Polk would be the choice. The first inkling that the President would appoint someone outside his official family came when Colby visited the White House early today, saw the President on the south lawn and a few minutes later the formal announcement of his selection as secretary of state was made.

Colby was a member of the shipping board and the emergency fleet corporation in July, 1917, also a member of the American mission in the inter-allied shipping conference in Paris the same year.

He retired from the shipping board over a year ago.

Colby was a lifelong Republican until the famous Bull Moose bolt from the Chicago convention in 1912. When Roosevelt threw the weight of his influence for Hughes in the 1916 presidential race, Colby identified himself with the Democratic party. He was born in St. Louis, fifty-one years ago.

On leaving the White House, Mr. Colby said: "I had a long and unhurried conference with the President which impressed me with the great confidence he has reposed in me. I hope I shall not prove inadequate, with those great duties."

He said that pending consideration of his nomination by the senate he did not care to make a statement.

After Colby takes offices, Polk is expected to retire from the state department, as his health is not good and physicians have advised him to take a long rest.

\$1,500 Ring Lost, Found, Restored, in 17 Minutes

T. Clyde Brown, general manager of the Red Line Transportation line, while washing his hands Tuesday evening took his \$1,500 diamond ring off his finger and laid it on the soap rack. He forgot about it and only discovered his loss about an hour later. He went back to the bathroom, but the ring was nowhere in sight.

Chief of Police Parrish was notified, called in Captain Gambill and they went at once and found the negro porter on duty at the time. He denied all knowledge of the ring but after being questioned he obligingly produced the ring.

The ring was produced seventeen minutes after the police had received notification of the loss.

TEXT OF 3 NOTES TO MEXICO TOLD

MEXICO CITY, Feb. 25.—Texts of three notes which recently passed between Mexico and the United States were made public here today. The first is a request from Secretary Lansing that the Mexican government vise the passports of Henry Forbes, American witness before the Fall sub-committee. The second is Mexico's refusal. The third is Secretary Lansing's refusal to allow the issuance of permits for shipments of arms and munitions to Mexico.

FOOD RIOTS IN GERMANY; MOBS PLUNDERING SHOPS

BERLIN, Feb. 25.—Food riots are reported at Ludwigschaven, where mobs are said to be plundering shops. Numerous arrests have been made.

At the Leading Amusement Houses TODAY

LIBERTY—Mary Miles Minter in "ANNE OF GREEN GABLES."
LONE STAR—Charles Ray in "RED HOT DOLLARS."
LAMB—"SHOULD A HUSBAND FORGIVE?"
HIPPODROME—The French Frolics present "THE WINNING MISS."
OPERA HOUSE—Dolores Cassenelli in "THE VIRTUOUS MODEL."

LAMB.

Thrills in "Should a Husband Forgive?"

An Arkansas race track was engaged for the photographing of the horse racing scenes in "Should a Husband Forgive?" the big William Fox Special which will be seen today at the Lamb theatre. Thus it was possible to get the most exciting racing scenes ever shown on the screen, and also to accomplish the unusual objective of having Miriam Cooper, who plays Ruth Fulton in the picture, actually riding a horse in jockey's garb in a real race.

LIBERTY.

Portrays Her Heroine's Life
Mary Miles Minter, who is being starred in "Anne of Green Gables," herself for years an admirer of the L. M. Montgomery "Anne" stories, portrays Anne Shirley just as the author described her.

This Picture at Liberty Today.
Anne Shirley, who is sent to "Green Gables," the home of Marilla and Matthew Cuthbert, a New England spinster and her farmer brother in response to a request from them that a boy be sent. They accept Anne, who proves a mischievous girl whose pranks irritate the villagers. She grows up and is graduated from the Academy with honors.

HIPPODROME.

Extremely Funny Bill Presented Tonight at the Hippodrome
At the Hippodrome tonight the "French Frolics" will present an entirely new bill entitled "The Winning Miss." A miniature production of the original bill that has had such a successful run in New York this season.

"Winnie" the title role, is played by Hazel Garrison, who enjoys the distinction of having played the same part in the original cast.
Sid Garrison, the detective that of a Sherlock Holmes variety and later through no fault of his, a skipper of the "Wolf," a speed boat that portrays a character that is extremely funny.
The captain, a gruff old sea dog as played by Dan Friendly, recalls to the buccaneer in "Treasure Island."

LONE STAR.

Youthful Star Has Sudden Rise to Fortune in Attractive New Picture.
Charles Ray dons overalls and carries a dinner pail in his new picture, "Red Hot Dollars," which will be the attraction at the Lone Star theatre for two days, commencing today. The youthful star has a role of Tod Burke, a machinist in a small town iron foundry. Peter Garton, owner of the foundry, is old and selfish and has been the means of driving to the wall Angus Muir, his old business associate. Muir and his

HILBURN FARM IN NEW POOL, IS CONTESTED

Special to The Times.
EASTLAND, Feb. 25.—The district court is engaged in the trial of the case of F. J. Hutson vs. Frank Kirk and A. J. Irvin. The case involves the lease estate of a large tract of land in the Desdemona field, the plaintiff claiming to own the prior lease.

The Red Star Oil and Gas company, a joint stock association of Fort Worth, through their attorneys, Harrison, Cavin & Key of Eastland, has filed suit against S. J. Hilburn and others for the title to the 171 acres of land on which the Hilburn well is located in the southwestern portion of Eastland county. It is alleged that on June 4, 1919, defendant Hilburn gave a lease to J. W. Wideman and that this lease was assigned to and is now owned by the plaintiff; that after the assignment of the Wideman lease, the Hilburns gave a lease to the same land to H. V. Foster without regard to plaintiff's lease; that in September, 1919, the Hilburns also gave a lease on a portion of the same land to O. C. Garves, without regard to either the Wideman or the Foster leases. The Hilburns are also alleged to have made even later leases on portions of the same land to H. H. Camp and others.

Afterwards a suit was instituted by some of the parties to confirm the title and leases made subsequent to the Wideman lease and a judgment was secured so confirming that judgment, but plaintiff in the present case alleges that it was not a party to that suit and had no actual constructive notice that such a suit was pending.

It is shown that defendant Foster has drilled a well on the land, all without the consent or knowledge of the plaintiff. It is shown that the lease to the land is now worth \$1,500 per acre.

T. & P. IS NOT BLOCKING H-K RY., YOUNG SAYS

The public is laboring under a misapprehension regarding the suit between the Texas & Pacific railroad and the Wichita Falls, Ranger & Fort Worth railroad over a grade crossing in the north part of town. C. B. Jonz, freight and passenger agent for the Texas & Pacific railroad, declared Wednesday.

"We are not trying to hamper the work of the new railroad," Mr. Jonz said. "On the contrary, we are lending assistance. They are using our travel cars and other equipment. Of course, they pay for this use, but that is to be expected."

"The crossing is located about the middle of a steep grade sloping into Ranger, and it would be dangerous to let the new road cut into our tracks at that point."

"According to newspaper reports, the railroad commission decided last Friday to have an interlocking plant put in. Next to an overhead or underhead crossing, that is the best solution, in our view, as it is much safer than the grade type."

"The work of the new road is not being hindered by the litigation. It is my personal view that the matter will be settled in a way satisfactory to both roads."

Meanwhile legal talent of the two roads seem to be lining up for a fight to a finish. A plea for an injunction

restraining the Wichita Falls, Ranger & Fort Worth railroad from crossing, as decided by the railroad commission, will be taken up at Austin this afternoon, before Judge Cahoun and Clarence E. Gilmore, railroad commissioner.

WHY MOTHERS NEED REOLO

Every mother knows that the constant care, lifting the baby and loss of sleep, with sometimes prolonged nursing, are a severe strain on the mother's system.

Amusing the baby all day long and then being up half the night when the baby is feverish from teething or perhaps some serious illness, result in backache, headache, weakness and nervous exhaustion. Yet ever the mother love watches over the little one regardless of aching head and wearied body.

But for her baby's sake every mother should keep strong and vigorous. She should renew her strength to meet this steady sapping of her health and vitality.

Rich, healthy blood, full of life-giving oxygen, iron, and the cell-salts that must be supplied to the cells of the body to maintain health and vigor, will keep you strong and well, restore the glow of health to the pale cheeks, and give renewed strength.

REOLO, the great discovery of Dr. A. L. Reusing, has remarkable tonic and strength renewing properties. It makes rich, red, healthy blood, vitalized with oxygen, iron and cell-salts. It stimulates the appetite, aids digestion, tones up the heart and nervous system, increases the red blood cells and

sends through the entire body a stream of vitalized, health-restoring blood, that nourishes every cell of the tissues, blood, nerves, brain and body. Healthy blood makes the whole body healthy. The cheeks glow, the eyes sparkle, the step becomes light and elastic and the whole body thrills with the vigor and vitality of perfect health.

This wonderful REOLO formula, which has been used with remarkable success by Dr. Reusing in his private practice, may now be obtained through registered druggists who are Licensed Distributors of the Dr. A. L. Reusing Laboratories, Akron, Ohio.

REOLO is not expensive. Each sealed package contains 100 pleasant, tasteless tablets, sufficient for two weeks' treatment, and only costs a dollar. It is sold under the Positive Guarantee that if you are not absolutely satisfied with the results after taking the two weeks' treatment, your money will be promptly refunded.

Reola is sold in Ranger by Texas Drug Co., licensed distributors for the Dr. A. L. Reusing Laboratories, Akron, Ohio.

LAUGHTER and TEARS!

Bring them with you when you come to see

Mary Miles Minter

IN "ANNE OF GREEN GABLES"

from the four "Anne" Books by L. M. Montgomery
Directed by Wm. D. Taylor

You'll need them! And you'll need to hold your sides, too, to keep from splitting over the antics of "orphan" Anne. Really, she ought to have been a boy!

But then, she has a "serious side," also, and well did the villagers know it. Especially the Pie family!

And she has a way of snuggling right into your heart. Look at old Cuthbert above. She certainly won him over, and he didn't want her at all in the beginning—he wanted a boy!

THIS IS A FAMILY "PICTURE." BRING THEM ALL ALONG!

Should a Husband Forgive?

A problem of the ages reduced to the terms of modern life.

A Jilted Suitor Wrote to Her:—

"Do you remember the days when we used to hunt four-leaf clovers?" he asked. "You sent me one in a letter filled with passionate wishes. I need money—pay or I give them all to your husband."

She Paid!—

Paid dearly with money and tears. Yet she was wholly innocent of wrong-doing.

WHY — Could she not have told her husband everything at the beginning?

THERE WAS ONE GREAT REASON

Texas Best Stock Will Better Cattle in the Philippines

By Associated Press
FORT WORTH, Feb. 25.—Fifty thousand dollars worth of Texas' best range stock is being assembled in Fort Worth, preparatory to starting for the Philippine Islands, where the stock will be cross-bred with the native cattle.

The United States government will sponsor the tour and watch the outcome. One hundred bulls and twenty heifers are in the lot. If the introduction of the Texas blood grades up the Philippine herds, more bulls will follow at the expense of Uncle Sam.

From here the cattle will go to San Francisco where an army transport will be waiting. Thence they will be conveyed to the island of Mindanao, which has been picked for the Texas cattle by the government, because it has been freed of rinderpest, the Asiatic cattle plague.

In Mindanao, twenty Texas heifers will be used as the start of the new herd. One of the Texas bulls will remain with the heifers, the remaining ninety-nine will be distributed to various municipalities and crossed with the native cattle.

The work of collecting the choice Texas stock has been entrusted to Dr. A. S. Shealy of Manila, who is chief of the division of animal husbandry in the island's government. He came to the United States last fall and has now completed his visit to the Texas ranges.

The herd has been assembled here for the tuberculin tests which will keep them in Fort Worth until some time in March.

Rigid specifications were made out by Dr. Shealy for his Texas purchases. Forty-six of the cattle were bought in this county, fifty-five in Brown county and nineteen in Hill county. Tests of all kinds were applied to the bulls and heifers before being accepted by the government.

The crossing of the Texas cattle with the Philippine herds will be watched with greatest interest by ranchmen and stockmen because of the future effect. If it is successful, it will open to Texans a new market in grading up the weaker and smaller herds of the Orient.

FOOD CONTRACTORS PAY FOR INFERIOR SUPPLIES

AUSTIN, Feb. 25.—The State board of control has obtained substantial refunds from contractors who had agreed to furnish the state with certain quantities and grades of goods and then furnished inferior grades, according to a statement by S. B. Cowell, chairman of the board. This practice of substitution, he continued, will not be allowed in the future.

In certain instances, he said, contractors have furnished inferior goods under the plea that the grades they had agreed to supply were not on the market.

WAR HERO MEETS FATE.

AUSTIN, Feb. 25.—Alfred R. Simpson, who won four war crosses and a recommendation for the Congressional Medal by his stand before charging Germans on the western front, capitulated under the attacks of Cupid. The Travis county hero was married to Miss Honora Riordan of Austin.

TECHNICALITY LOST WATSON CO. LICENSE

By Associated Press
WASHINGTON, Feb. 25.—Assistant Attorney General Figg on Feb. 18 recommended to Attorney General Palmer a re-issue of a license to the H. H. Watson Grain company of Longview, Texas, by the United States Grain corporation. Attorney General Palmer, acting as head of the food administration, is expected to issue the license. When the license was revoked last fall it was stated in news dispatches that the Watson company was accused of deceptive practices. This was an error. The company was accused of not complying with certain technical regulations.

WHEELING A TRAINING SHIP.

By Associated Press
GALVESTON, Feb. 25.—The gunboat Wheeling, now lying in the roadstead at New Orleans, will be moved to Galveston as soon as the navy department can secure a complement. The vessel will serve as a training ship for men of the naval reserve corps in the Texas-Oklahoma district. Approximately 6,000 reservists will receive training each year.

BOARD OF CONTROL SAVES BY CONSOLIDATING

By Associated Press
AUSTIN, Feb. 25.—The State board of control, by consolidating the forces of the four departments whose work they assumed, has effected a saving in salaries which will amount to \$1,000 a month, according to a statement by S. B. Cowell, chairman of the board.

THIS WAR TOO LARGE AN ORDER FOR SIR WILLIAM

By Associated Press
LONDON, Feb. 25.—Sir William Orpen, distinguished artist, refused an offer of a million pounds sterling for painting 300 portraits. The offer is said to have been made by an American. Sir Orpen said that it would take more than a life time to do the job.

Boy Scouts Plan Three Camps in Coming Season

At a call meeting of the Boy Scouts, held at the Methodist church Tuesday night, ten new members were added to the organization, bringing the total up to thirty-five.

After the scout oath and regular preliminary work, the boys fell out and lined up for thirty minutes' pep drill. Great interest was shown at the meeting, and plans were discussed to bring the membership up to a hundred or more.

KELLY REALTY ASSOCIATION, Rooms 9-10 Terrell Bldg.

FOR SALE—17-room hotel, centrally located. Well furnished, modern, rent reasonable. A bargain.

INTEREST IN RANGER.

Ranger real estate agents report many inquiries from out-of-town people, asking about realty prices and values here. Some of the letters come from thousands of miles away—from the Pacific northwest, the New England states, and Canada.

Ranger is the most widely advertised oil city in the world, judging from specimens of letters received here. Other oil centers wax and wane, and their fluctuations have little effect on the Ranger field or its chief city. That capital of a country over realizes the permanency of the Ranger field and of this city is evidenced by the large number of inquiries about Ranger values, and the influx of outside capital.

Suburban real estate is changing hands in considerable quantities, and numerous new residences are under construction, in various parts of the city.

CO-OPERATION.

"Co-operation—the association, or collective action, of persons for their common benefit."

So Webster puts it, in that volume which is the inspirational fount of the despairing rhymster, the last resort of the short-storyist at a loss for a beginning and the court of final appeal in arguments growing out of the diverse uses of "transpire."

It is, perhaps, the most called-on word in the vocabulary of the man who is filled with the urge to help out the city in which he lives. No more over-worked, though, than the man who uses it, in an attempt to secure that which he knows is essential to civic advance.

Collective action, for common benefit. Webster named it. His terse expression cannot be battered.

But he might have dropped in, had he not been pushed for space, a word or two covering the essentiality of it. He might, in that sometime highbrow way of his, injected a Latin phrase, "nisi quid, nullum."

Without it, nothing. It is the prerequisite, the essence and the continuation of every community effort toward betterment.

The city that is without it, is without the possibility of greatness. Positive, natural wealth, industries—these are secondary.

Mr. Schwab, money king standing at the head of a super-powerful organization, stated his view briefly: "Give me the hundred men of my choosing and I will place them in the Sahara desert and in ten years they will have built a city of a million people."

The men he would have chosen would be those who had learned, in their successes, the priceless value of co-operation.

Ranger has it, in a measure. When men of the city apply it, that urge goes over. When they do not cooperate, the move at hand lags.

Examples are hardly needed. It is the solution for the "one man" committee, which leaves the bulk of work with a single enthusiast. It is the solution of every problem, of every "drive." It is a city's biggest asset, or its biggest lack.

The Rev. Dr. Marie A. Blackwell of Elizabeth, N. J., ninety-four years old, pastor emerita of All Saints Unitarian church of that place, is the first woman to be ordained a minister in the United States. Despite her age, Mrs. Blackwell is mentally active, but her eyesight is failing. She hopes to live until next November and then be able to cast her first vote.

WAR NEED TAKES GREAT LAKES SHIPS

By Associated Press. DETROIT, Mich., Feb. 25.—One hundred and forty-nine lake steamers were taken into the ocean service during the war, according to reliable figures compiled here. The figures show that up to the close of the navigation season of 1919 the tonnage removed from the lakes to help win the war totaled 297,103 gross.

A few of the steamers of American registry have been returned to the lakes, but none of those of Canadian registry have been sent back. Some of these vessels, well known on the lakes, will never come back; they have found a final resting place on the ocean floor after clashing with the German submarines.

Among these are such well known craft as the Chemung, the Donacoona, Empress of Fort William, Midland Queen, Strathcona, Scottish Hero and Schuykill.

Steel bulk freighters taken from the lakes to the Atlantic numbered thirty-six American and forty-four Canadian. There were also a number of American and Canadian package freighters, and wooden vessels.

SHORT WEIGHTS. MEASURES GENERAL THROUGH TEXAS

By Associated Press. AUSTIN, Feb. 25.—Contentions that widespread and general fraud by the use of short weights and measures rife in Texas, which were made by E. C. Weimer, commissioner of weights and measures, when he began enforcement of the law weights and measures last June are being supported by reports of his inspectors who are now working in various cities of the state.

Inspector Stovall, who is one of the four men at work in Houston, found 42.6 per cent of the linear measures examined in that city to be inaccurate. Of fifty-four measures inspected, twenty-three were found so bad that they were confiscated.

Scales ran 30 per cent bad—156 were found correct; thirty-nine were ordered repaired, and twenty-seven were confiscated. Weights showed a bad percentage of only 7.06. Dry measures were 17.85 per cent bad.

Liquid measures were better with only 8.82 per cent of them being off. The inspector reported that very few boxes of candy examined contained the weights they were supposed to hold, and that two candy dealers were convicted of violating the net container act.

Milk bottles were not molested, but the department has notified businessmen to buy no more 1-3 quart bottles, as it is expected that the use of these "little pints" will be forbidden soon.

Don't be discouraged if you don't find just the article that you seek—use the property that you would rent or buy from your first appeal—be persistent and use the Daily Times want Ads.

MARRIAGE LICENSES FOR ENTIRE WEEK

Marriage licenses issued by the county clerk for the week ending Feb. 21: Charlie A. Statham and Maybelle Fox.

Charles Pond and Miss May All-n. L. B. Beney, Owensburg, Ky., and Miss Beatrice Pearl of Madison, Wis. Elbert Richardson and Miss Myrtle Reese, Eastland.

MANY GERMAN WORKS ARE REACHING PRE-WAR STATUS

International News Service. WASHINGTON, Feb. 25.—Many German industries will revive completely it is indicated in various reports received recently by the Department of Commerce here.

Only the coal shortage precludes the porcelain industry reaching its pre-war status, it is said, and the optical industry is in general fully occupied and will continue for a long time to receive a considerable demand for its products.

The temporary shut down of pas-

senger train service in Germany is reported to have had a stimulating effect in coal traffic, although offset by freezing temperature and heavy snow.

The coal difficulty has directly influenced any revival in the hardware trade. Stocks on hand have been almost completely bought up by foreign buyers, and replacement of these stocks is very difficult because of lack of raw materials and the reduced capacity of the mills through the coal shortage. The production of iron and steel has been slightly increased. Other kindred industries are similarly affected.

Reports show that if transportation and other similar difficulties could be eased, the toy, musical instrument and furniture, as well as many other lines, would quickly pick up.

Japan has a silk mill which is operated by women, and the total capital of \$1,500,000 is subscribed by women.

Miss M. Annie Poace, a newspaper woman of Ashland, Ky., has been appointed aide-de-camp on the staff of Governor Black. She has a rank of colonel and is probably the first woman in the country to have this distinction.

CANDIES ADDED TO HOTEL MENUS IN N. Y.

By Associated Press. NEW YORK, Feb. 25.—Chocolates, bon bons and other candies have been added to the menus of the leading New York hotels. The change is credited to prohibition.

In Lemberg, now called Lwow, the capital of Galicia, there is a women's battalion, still 350 strong.

More than 350,000 clubwomen in Nebraska have organized what is called the State Economy League, the object of which is to cut down the high cost of living.

ALLENDALE OIL COMPANY

If you have not invested or feel that you have not bought sufficiently of the stock with the special dividend feature, we wish to announce that the ALLENDALE OIL COMPANY advises that of our reservation of the first or initial issue that we are entitled to about 2,000 shares, and we are allowed ten days about to sell out the balance of this last issue of the stock at \$1.00 par value, after which time if not sold in Ranger or through this office the reservation will be canceled and diverted to some other representative who has over-looked his reservation.

It is your last chance to be among the first.

looked as if America, whose output crept up to, equalled and surpassed ours, would within a decade come to possess the largest mercantile marine out during the last quarter of 1919 Great Britain is once again able to show a larger gross tonnage than America.

The Chronicle now declares it is a "neck and neck race" between England and America for world's leadership in shipping.

Profits made by British ship owners during 1919 totalled \$1,600,000,000, according to Sir Leo Money, statistician. This does not include profits due to great appreciation in the capital value of ships. He holds that since the government controls only about one-sixth of the tonnage and imports today, the inflated ship owners' profits is one of the reasons for high prices in England.

OSLER THEORY IS SHATTERED IN OHIO

International News Service.

CINCINNATI, O., Feb. 24.—The famous Osler theory regarding the age boundary of usefulness is being shattered daily in Ohio. The various county poorhouses bid fair to become manless institutions, for the old men are becoming imbued with "young ideas," and are stepping forth into well-paying jobs.

"The industrial world and the old men have awakened to the truth that they can and should combine successfully to the well being of both," one very large Ohio employer said today. "It is a new idea and it is working out."

For several years, one old fellow out at the city infirmary, near here, a chap who is nearing his seventieth year, was cloistered from the world, rusting away, and spending his hours in gloomy contemplation and memories. Along came the new idea.

"Say," exclaimed the old man to Superintendent Proctor, "I was a good shoemaker in my day. I'm still a good shoemaker."

The old fellow cheerily said "Good bye," and is now earning \$36 a week, and in the evenings may be seen at downtown theatres and in other public places. Others, as old, or nearly as old, have discovered they have "pep" and have landed jobs at from \$20 to \$30 a week. Many of the women at the infirmary likewise have departed and found employment. In all, the southern Ohio infirmaries here lost more than 200 men and women in the last few months, because of the high wages paid.

Numerous old men who had retired long ago to the privacy of their homes have learned that the world is welcoming them back and that it has discovered that there is no such thing as a "has been." In short there is work and there is fun in the world, for the Ohio old man, so-called. Probably 500 of these have resumed work, which is at least some slight relief in the shortage of man power.

YANKEE DRY'S INTERFERENCE RILES BRITON

By Associated Press.

LONDON, Feb. 24.—Some British newspapers have been stirred to indignation by receipt from the United States of a report that prohibition organizations there were going to use 10,000,000 pounds for prohibition propaganda throughout the world, but chiefly in Great Britain. A few have expressed resentment at what they characterize as outside interference with "the right of the Englishman to drink what he likes."

"A subscription to dry up the Atlantic would have as much chance of success," says the Saturday Review. "But there arises the question why, when everybody is harassed with post-war problems, we should allow our peace to be disturbed by a band of Yankee fanatics with never so many millions to scatter. It is a most unwarrantable intrusion on our domestic life at a time when we are in no mood to be trifled with."

Referring to disorders that recently attended a prohibition campaign conducted in Wales by an American, the paper adds: "We really think the government might ask the permission of the Washington cabinet to repatriate these meddling maniacs, and to forbid, at all events for the next year or two, their landing on these shores."

The Liverpool Post, commenting on the proposed fund says: "It argues a poor appreciation of the character of the British people and of the conditions in this country that such a madcap scheme should have been evolved. Such 'Fussyfoot' tactics on the scale now threatened open the door to international ill-feeling that might prove very mischievous in the present state of the world."

"America has chosen prohibition for itself. It is not absolutely inconceivable that Great Britain may some day follow the example. But it will not be as a result of American methods, the more likely effect of which might be to discredit the prohibition idea, and even to retard temperance progress on lines that are likely to appeal to the British temperament."

"We should be so much obliged if our good, kind friends in America would refrain from doing us good," says The Globe in an editorial. "Unregenerate creatures that we are, we do not like it, and we have a sort of

idea that they might find enough to occupy them at home. The fox which has lost his tail is generally quite willing to assist in the decaying of the rest. All the same we do not think the plan will be successful."

When it comes to news in general of the world and West Texas and its fast-growing city in particular, the Times tells 'em about it.

The depth bomb, which came into use during the World war, was invented in 1903 by W. T. Unge, a citizen of Sweden.

The Terrell Publishing company, of which H. B. Terrell, former state comptroller, is at the head, recently started a new newspaper at Sweetwater, called the Sweetwater Daily Reporter. O. H. Roberts, formerly on the staff of the San Antonio Express is editor.

ENGLAND REGAINS SHIPBUILDING LEAD

International News Service.

LONDON, Feb. 24.—England has regained the lead as the world's ship-builder.

During the last quarter of 1919 shipyards in the British Isles passed those of the United States in the amount of tonnage under construction. Lloyd's register shows England has 757 vessels of 2,994,247 tons under way, while the United States has but 2,966,515 tons made up of 647 vessels. In addition there were 113 vessels of 251,480 tons being built in the British Isles, thus making John Bull's total 3,245,727 tons.

This, figured in tonnage, Great Britain has increased production of merchant ships by 60 per cent over a year ago, having one million more tons under construction than then.

The rest of the world has 1,649,119 tons under construction, Holland leading with 328,338 tons.

The Daily Chronicle hits the nail on the head when it says:

"If our shipping and our building of ships have always been the backbone of our trade, there has never been a time when they were so absolutely essential to our prosperity. For there is still a large world shortage of ships, and the profits from freights are now more than ever an immense addition to our national income, and an asset without which we could not hope to balance our imports and exports. For some time it has

SAYS TROUBLE IS FOMENTING IN GUATEMALA

International News Service.

BOSTON, Feb. 25.—Reports of a political uprising in Guatemala, Central America, through the formation of a new religious sect known as "Unionistas" reached here with the arrival from Guatemala City of Louis E. Ferro, chief of the aviation school there.

"These Unionistas," states Mr. Ferro, "declare themselves organized 'not to sustain personalities, but ideas,' and since this is a direct criticism of the present political administration, the most bitter indignation prevails among the people. Dr. Manuel Estrada Cabrera, president of Guatemala, has been in power for the past twenty-two years, and his administration is probably the most popular in the history of Guatemala. For this reason, as well as because business men and interests fear that the new party's success would plunge the country in the chaotic state in which it was previous to Cabrera's rule, the 'Unionistas' are meeting with denunciation on all sides.

"The Unionistas have claimed that they have the sympathy and backing of the United States, and in order to correct this false impression the administration has appealed through its envoy to the state department at Washington for a statement which may be transmitted to the people of Guatemala, showing that this country is not interested in the aims of the Unionistas. Thousands of business men and professional men, including Francisco Figueroa, one of the biggest financial powers of the republic, have signed a proclamation declaring in favor of the Cabrera regime.

"American business men are taking more than a passing interest in the political situation because of the vast American interests in the republic, which they wish to safeguard against insurrection and its effect. Railroads, fruit companies, mines, farms and electrical plants are owned and operated by American interests, and these have prospered as never before under the tranquility which President Cabrera has maintained.

Since the earthquake, Guatemala has progressed wonderfully. The new government palace, occupying about four acres, will be completed in September, 1921, at a cost of \$2,500,000. There are now twenty-three public schools in operation, a military academy with 300 students, and the Estrada Cabrera university, named in honor of the president, has greatly increased its enrollment.

"In aviation alone, my country is making great strides. There are at present fifty-two students studying to be pilots, and the whole population is aviation crazy. Both American and French planes are in use, and the flight of an airplane has long since ceased to evoke the marvel even of the most ignorant countryman.

CHILLS, COLDS, FEVERISHNESS

Black-Draught Is Used by Virginia Lady for Colds, Fever and Other Troubles With Fine Results.

Rocky Mount, Va.—Miss Mae Chitwood, of this place, recently stated: "I have used Black-Draught for colds and stomach trouble and certainly have found it very satisfactory.

When I would feel bad and feverish, as though I was taking a fresh cold, I would make a good cup of Black-Draught tea and it would soon set me all right.

I can recommend it as a splendid laxative and gladly do so. You may publish my statement."

When you feel, chilly, tired, feverish, headachy and fear that you are taking cold, take a good dose of the old, reliable, liver medicine you have heard so much about—Theford's Black-Draught. It is made from purely vegetable ingredients, acts in a gentle, natural way, and by helping to drive out poisonous waste matter from your system, it will often, if taken in time, prevent a chill from developing into a cold.

Thousands of people, during the past 70 years, have found Black-Draught of benefit in such cases.

Try it, the next time you chill or sneeze.—Advertisement.

19—HOUSES FOR SALE.

FOR SALE—A 2-room house and furniture. House is completely furnished and is in splendid location. A bargain if sold soon. Lease rent, \$5 per month. Inquire at Estes Bros. Store, N. Marston St.

"The government is selling coffee at auction. All the sugar and coffee plantations belonging to the Germans were confiscated early in the war, as was an electrical plant owned by German interests.

"With the country in such a prosperous and such a progressive state the far seeking people are joining hands with the commercial interests to preserve the peace of Central America."

L. T. Belmont, athletic director at the University of Texas, announces the following baseball schedule for 1920: March 2, St. Louis Browns, Taylor; March 22-23, Simmons college, Austin; March 26-27, Trinity university, Austin; March 30, Chicago White Sox, Austin; April 5, Southwestern university, Austin; April 7-8, T. C. U., Austin; April 12-13, A. & M., College Station; April 15, Southwestern university, Georgetown; April 19-20, Rice Institute, Austin; April 26-27, Trinity univer-

sity, Waxahachie; April 28, S. M. U., Dallas; April 29, T. C. U., Ft. Worth; April 30-May 1, Baylor university, Waco; May 5-6, Baylor university, Austin; May 10, S. M. U., Austin; May 14-15, A. & M., Austin.

Silent reading tests recently conducted by C. T. Gray, adjunct professor of the art of teaching at the University of Texas, in the third, fourth, fifth, sixth and seventh grades in various schools of the state, showed that the fast silent reader is the more accurate. The tests are said to be valuable in determining the relative success of different systems of teaching reading, of the growth of the child from grade to grade, the relation between the speed in reading and the accuracy of comprehension of material read. Mr. Gray hopes to present the results of his work to superintendents of the various schools visited and obtain their cooperation in making the tests of practical use.

What Are You Going to Do About Your Catarrh?

Improper Treatment Leads to a Serious Stage.

Because you have doubtless been fairly comfortable through the mild summer months, and free from the soreness and irritation of the membranes, do not make the mistake of thinking that you are rid of your Catarrh. For if you suffered with this disease last winter, it will again be with you in all its severity unless you have eliminated entirely from the blood the germs which cause the disease.

Are you going to further temporize with a disease that leads to such a serious condition? Don't you know that you can use gallons upon gallons of local treatment without the slightest permanent benefit? Just give the matter a little careful thought, and you will realize that it is but a waste of time and money, besides seriously jeopardizing your health, to continue a method of treatment that has proven of so little value in making any real progress toward genuine benefit.

First of all find out just what causes your Catarrh. If it was merely a local irritation and inflammation of the delicate linings of the nose, throat and air passages, then you might reasonably

expect to be cured by the use of local remedies. But have you ever known of one single person to be freed from the slavery of Catarrh by any kind of local treatment?

Why? Simply because they have overlooked the cause of these symptoms, and hence the treatment has been misdirected. Remove the cause of the clogged up accumulations that choke up your air passages, and they will naturally disappear for good. But no matter how many local applications you use to temporarily clear them away, they promptly re-appear and will continue to do so until their cause is removed.

But if you will take a treatment that goes right down to the very source of the disease and attacks it at its starting point, then you are on the right track, and can expect results. S. S. S., the fine old fifty-year old blood remedy is an antidote to the millions of tiny Catarrh germs with which your blood is infested. Don't waste further time by continuing a treatment that can make no progress toward permanent relief, but begin to take S. S. S. today, and you will receive the same benefit that others have. S. S. S. is sold by all drug stores. Write us for free medical advice about your own case. Address Chief Medical Adviser, 17 Swift Laboratory, Atlanta, Ga.

WHITE & HARVEY Architects We respectfully solicit your patronage. We are prepared to design and engineer your buildings in an artistic and efficient manner. The World's Largest Tire Factory Building 30x3, 30x3 1/2 and 31x4-inch Tires Owners of small cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages. They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30x3-, 30x3 1/2-, and 31x4-inch sizes. They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned. If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes. 30x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$2000 30x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$1765 Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water-proof bag \$390

MEMBERSHIPS IN THE LEGION WELL DEFINED

By Associated Press
INDIANAPOLIS, Feb. 25.—Franklin D'Olivier, national commander of the American Legion, today issued the following statement with regard to women eligible to membership in the American Legion:
"All women nurses who served in the nursing corps of the United States army or navy are eligible to membership in the American Legion. The American Red Cross before and during the war recruited thousands of trained nurses, most of whom were later enlisted in the nursing corps of the army and navy, upon request made to the Red Cross nursing service. There were, however, many who went abroad under the direction and pay of the American Red Cross, who are not eligible to membership. All female members of the navy and marine corps who were regularly enlisted upon the same terms as the men in those branches of the service are eligible to membership in the Legion.
Civilians who were simply at-

taches of the military service and were not regularly enlisted personnel under commission or enlistment contracts, are not eligible to membership.
"The above applies to regular membership in the American Legion and should not be confused with the Women's Auxiliary of the American Legion, which was provided for in the constitution adopted at the Minneapolis convention and which makes provision for membership therein as follows:
"Membership in the auxiliary shall be limited to the mothers, wives, daughters, and sisters of the members of the American Legion, and to the mothers, wives, daughters and sisters of all men and women who were in the military or naval service of the United States between April 6, 1917, and November 11, 1918, and died in line of duty or after honorable discharge and prior to November 11, 1920."

JONES COUNTY FARMERS MAKE OUT INCOME TAX

Special to The Times.
STAMFORD, Feb. 25.—Farmers of Jones county are busy working on their income tax returns. Few farmers will not have to pay this tax. The First State Bank here employed an expert for two days to assist the bank in making out their returns.
The farmers all appreciate their good fortune in having been able to produce enough to get into this class but they all feel that personal exemption is too low in that for two years prior to 1919 they never made expenses and old debts paid in 1919 were not allowed as deductions.

MANY BOOKS TODAY—12 MIKE MURPHY MEMORIAL

By Associated Press
PHILADELPHIA, Feb. 24.—The University of Pennsylvania will erect a new structure to house its athletic offices, which will be known as "The Mike Murphy Memorial" in honor of its late athletic trainer. It will relieve the athletic association of its financial offices, thus permitting the establishment of an athletic club and training house with lounging, reading and club rooms for the athletes.

Make Your Million Now

Comanche Oil Association's Sturki well No. 1, in Comanche County, fifteen miles south of Dublin and three miles east of Hasse, Texas, on the Frisco, is in the Black Lime. The well may blow in a gusher any minute.

Offset acreage—all that is available—150 acres is offered in blocks of five acres at \$150.00 an acre. Prices not guaranteed and subject to momentary advances. The acreage for sale only by owners. The above acreage was offered ten days previous to the 18th at \$40.00 an acre. An advance of almost 4 to 1 in a week's time. All those who bought interests in WIN OR LOSE NO. 2 last week are happy and well pleased.

Every Man in Ranger or Reader of This Paper

is offered another opportunity to speculate in offset lease acreage about the Sturki No. 1 well.

Oil in the Black Lime

and if every person who doubts our sincerity will call at this office we will show by demonstration and acid test the oil in the black lime in the Sturki well now drilling, Saturday, 21st, at 3,105 feet. To those who know—to those who do not know, ask a driller or oil man: The last five feet in the black lime has softened up to some extent, which means very likely that the well may go into the real oil sand. It is possible that were the well shot now it would be a producer.

SYNDICATE FIVE or more acres among your friends. Call and find out from us how to do it. Don't lose this opportunity to win money for yourself by speculating in these leases.

HOW TO DO IT

At \$150, five acres is \$750. Each \$25 speculated is a one-thirtieth interest. Each \$50 speculated is a one-fiftieth part. Each \$150 so speculated is a one-fifth interest. GET TWELVE FRIENDS and yourself and take each a \$50 interest, viz., \$650, and this office will take \$100; total \$750. Thus own and control the lease yourselves among your friends. WHAT WILL IT DO? We are frank. We don't know. But if the Sturki well should make another "Callahan Vestal," or even make 1,000 barrels, this acreage that sold last week at only \$40 an acre, now at \$150 an acre, will be worth with 1,000 barrels offset production at least \$3,000 an acre. Last week before the 17th, at this estimate \$100, so speculated, would represent a possible and probable and likely comparison to \$7,500. You did not get in last week. It wasn't our fault. You must now pay more or stay out. We are not spending money for expensive advertising for nothing. We repeat that if we had enough money, the offer made you here would not have been. WHY? Because we are as confident that the Comanche Oil Association Sturki well No. 1, offset to acreage above, controlled by this office, will be a producer as we are that the SUN will continue to shine for many ages.

We would not be surprised if this advertisement was canceled tomorrow, next day, any day, and this office moved to HASSE, TEXAS. We know that the deeper the well is drilled now, that the nearer to oil the driller's bit goes. The acreage may be suddenly withdrawn from the market. On reports from the well it may jump to very high prices. Act on your hunch. Come in and talk it over. A delay may mean the loss of the fortune that you came to Ranger for.

If you are able, own a five-acre lease. If you can put in \$500, we'll put in \$250. We came to Ranger and the oil fields to make a MILLION. We think it is our chance. It may be yours.

Census-Takers' Horses Sought by the Police

The two horses used by census enumerators in the outlying districts and loaned by Chief of Police Parrish to the city, got away Tuesday morning and cannot be located. Any one who has any information concerning two bay horses will confer a favor by phoning or calling at police headquarters with the information.

Single Taxers Threaten New National Party

By Associated Press
CLEVELAND, Feb. 25.—Single tax clubs throughout the country propose this year to form a new national party, according to James Robinson, Philadelphia, national organizer. Tax on land values only is the frame work of the platform and the candidate for president may be General William Gorgas, of Panama canal fame.

Texas Bank Gains Tenfold, 8 Months

Officers of the Texas Band and Trust company Wednesday surveyed with satisfaction the figures that showed the growth of the bank in its first eight months. Deposits at the close of the day were \$1,391,400. The first day the bank opened, it took in \$145,000 in deposits. The gain in eight months is between 900 and 1,000 per cent.

COST OF WORK ON TIFFIN ROAD TO BE RAISED

L. L. Rector came before the city commission at its meeting Tuesday afternoon and asked the city's aid in payment of a bill rendered by J. Ketchum for work on the Tiffin road. Mr. Rector stated that this bill amounted to \$8,395 and that he had checked this bill and thought it fair. He proposed that the City of Ranger pay half of the bill and that the companies and projects benefitting by the improved conditions of the road pay the balance. While the commission agreed that the work done was an important one and of great benefit it was further stated that the city had not ordered this work done, that it was handled by private supervision and that the city, at this time, could not establish a precedent by agreeing to take up and pay one-half of this or any other bill for road improvement that had not been authorized by the city management itself.

Alley Track Work Is Moving Faster

The alley track of the Texas and Pacific railroad is being pushed to completion. A gang of laborers is laying ties on the south part of the track and gravel cars are following with ballast. Switches have been installed at various places, to serve wholesale houses. The track will add three-quarters of a mile to the yard facilities of the city.

Tie-Apron Party Carpenters' Hall

The local Carpenters Union No. 2014, are giving a Tie and Apron party on Friday, the 27th, at the Carpenters' Hall over Russell's Grocery. All are invited to attend. A good time is promised to all. Dancing and luncheon.

The total cost of pulp wood at the mills in the United States in 1918 was \$73,167,118. The greatest producer of pulp wood was Maine, with 1,234,969 cords.

he benefited by this pavement. A meeting of the commission will be held on the 16th day of March at 3 p. m. and all objections, remonstrances and differences regarding this assessment will be given a hearing and disposed of at that time.

Permission was granted A. Carter to put in a water line on either Pine or Elm street, as determined by the city engineer. This water line will run to a dispensing station in the business section of Ranger and will be built for the purpose of dispensing drinking water in and around Ranger. Mr. Carter has been hauling water from out of town and states that this line will enable him to supply more customers at reduced rates.
