ZERO WEATHER PREVAILING IN MIDDLE WEST

Intense Suffering Among Poor of Big Cities; Wheat Undamaged but Livestock Suffers.

WASHINGTON, Jan. 5.—The cold wave which has a grip on the middle west will extend over the eastern section of the country and far into the south by Sunday, the weather bureau today forecast. Temperatures ranging from a few degrees above zero to several degrees below will prevail. The cold wave is described by the weather bureau as severe.

ZERO AT KANSAS CITY.

KANSAS CITY, Jan. 5.—Intense suffering has been caused throughout the Southwest by continuation of the cold wave, which has new held sway for more than a week. The temperature in Kansas City today touched 23 degrees below zero, the coldest weather in many years, it is said. No relief from the cold wave is yet in sight, weather forecasters announced.

Charitable organizations in the larger cities are being besieged for assistance. Heavy demands for coal, food and clothing are made by the needy. Most of the wheat was covered by a light snow and is thought to have been fairly well protected. A considerable loss of livestock on the range was reported. Wire and rail communication was demoralized. Frequent fires were caused by overheated stoves.

Coldest Weather In Many Years; Twelve Lives Known Toll

CHICAGO, Jan. 5.—Intensely cold weather has prevailed in the lake and middle west regions during the last 36 hours, taking a toll of a dozen lives and demoralizing rail and wire communications. Temperatures as low as 31 degrees below were reported in several cities of the great lakes region. Other sections reported the mercury between zero and 20 below. No relief is in sight for at least 24 hours, the weather bureau announced.

Seven persons were frozen to death in Chicago, two in St. Louis, one in Cleveland, one in St. Paul and one in South Bend, Ind. Scores of others were severely bitten by the frost. Snow accompanied the cold blast in a few sections, but clear weather prevailed over most of the middle west. Strong winds blew uniformly over the belt. In addition to intense suffering in the larger cities, many fires brought exposure, pain and large property damage. Most of the fires in the middle west were due to over-heated stoves and furnaces. The Chicago fire department answered 150 fire alarms in 36 hours.

The low temperatures in many instances broke records of long standing. In Chicago the mercury reached 22 degrees below zero, breaking all records since 1883. Some places reported the thermometer below anything on record. Much relief work was conducted by charitable organizations in the large cities. The Chicago municipal lodging house was opened for the first time this winter and scores sheltered. Jail stalls were filled by vags in search of work. Communication by wire was almost destroyed over a large section of the middle west and train schedules were almost destroyed. Trains into Chicago from every direction were many hours late and passengers suffered from the cold despite efforts of the railroads to heat coaches.

MOTOR LAUNCHES SEIZED WITH LIQUOR ON BOARD

GALVESTON, Jan. 5.—Two large motor launches—the Cherokee and the E-873—were being held under federal guard today following a raid by customs officials on a "smugglers' cove" in a small group of islands off San Luis pass yesterday. Two thousand quarts of liquor were found on the Cherokee and 50 cases on the E-873, which were confiscated.

Delightful Weather Although Cold In Eastland County

A temperature reading of 16 degrees above zero Saturday morning at 7 o'clock was reported in various parts of Eastland county. The wind was not near so strong as on Friday, but the air was snappy.

The sun came out early and stayed throughout the day, making it a delightful day for the outdoor enthusiast. The skies were clear and there was no hint of unsettled weather.

At the Prairie Oil and Gas company pumping plant at Tiffin, a thermometer reading of 56 degrees in the afternoon on the south side of the plant was reported. A reading of 16 degrees was taken early in the morning, the mercury skyrocketing later in the day.

ROTARIANS TO ENTERTAIN THE LADIES FAIR

Will Have Them for Dinner Guests Tuesday Night When Losers Serve Winners.

Ranger Rotarians will entertain their ladies Tuesday night at an 8 o'clock dinner. Some short talks will be made, but it is not announced that the ladies will do any of the talking.

This entertainment is to carry out an agreement made several months ago when the Rotarians were divided into five groups with the understanding that the group making the best attendance record at the weekly luncheons during the last three months of 1923 should be honor guests at a dinner to be given the Rotary ladies and that the group making the poorest attendance record should wait on the winners' table.

The winning group includes: Albert Joseph, John W. Thurman, N. B. Lasch, C. W. Harless and A. L. Bergere. The lowest group includes: Raymond Teal, Abe Davis, Karl Jones, Dr. T. L. Lauderdale. Invitations to the dinner, which were mailed yesterday, read as follows:

Dear Rotary Ann: Tear down the radio, bust up the still, and burn the evening paper next Tuesday evening, Jan. 8, thereby removing all excuses for your Rotary companion not accompanying you to our Rotary ladies' night at the Gholson hotel at 8 p. m. This includes the kids who are big enough to go, so please phone my office Monday and leave word how many. Good feed, snappy program, no dance. Rotarily yours, GUS L. COLEMAN, President.

BOB WALTHALL APPOINTED ON STATE BOARD OF CONTROL

AUSTIN, Jan. 5.—Governor Neff today appointed R. D. Walthall of Nacogdoches a member of the state board of control for a term of six years to fill the vacancy created by the expiration of L. W. Tittle's term. The appointment is effective immediately. Walthall is at present chief supervisor of the oil and gas division of the railroad commission, to which he was appointed last March, previous to which he was the governor's private secretary.

IT IS THE LITTLE THINGS THAT LEAD TO ACTIONS

HOUSTON, Jan. 5.—A cat, a torn coat, a brick and a charwoman combined to furnish Houston coppers with one of their busiest nights.

A charwoman, working in the South Texas Commercial National bank, stepped on a burglar alarm and brought squads of police to the place post haste.

Henry Hamilton, negro, tore his coat. To make odds even he stole a suit from a fellow boarder and after a hectic search officers finally arrested him.

A cat moved to harmony by a brilliant moon, held a serenade on the back fence of Mrs. J. E. Bell. As she stepped to the door to "shoo" the cat away, a brick whistled thru the air and struck her on the head.

Police worked through the night to determine whether the brick was meant for the cat or Mrs. Bell.

BOK PEACE PLAN STARTS WAR IN SENATE HALLS

Senators Learn Its Terms in Advance of Publication; Some Denounce It.

WASHINGTON, Jan. 5.—The Bok peace plan has become a cause of strife. Even before its course has been made public, the plan selected for the \$100,000 award as the most likely workable means of maintaining peace has started the irreconcilables on the warpath, and arguments between senators who disagree on American isolation resound.

All the senators know what the Bok plan is. They all read copies of it days ago, although it will not be made public until Monday. Senators who are opposed to the League of Nations and the world court have disclosed an intention of fighting the Bok plan to the finish. They cannot say why they are opposed to it, as that would involve discussion of its terms, but it is certain that once the plan is published it will not only be spurned as unworkable but will be denounced as a violation of the American policy and contravening the popular will.

Senator Moses of New Hampshire is leading the opposition to the Bok plan and feels so strongly about it that he has asked the foreign relations committee to investigate what he terms as propaganda for an American entry into the League of Nations.

STATE FIRE INSURANCE COMMISSION EXPLAINS MILLS' RESIGNATION

AUSTIN, Jan. 5.—The state fire insurance commission today issued a statement concerning the resignation of Larry Mills as Chief Inspector of the commission to accept the secretaryship of William G. McAdoo's organization in Texas in his quest for the Democratic nomination for president of the United States.

When the commission learned that "Mills was seeking employment with some political organization," he was advised by the commission that "it would be in order for him to resign his position in the state fire insurance commission if he desired to enter such employment."

The commission denies that its action was prompted by political differences between Mills and Governor Neff, as has been represented by Mills.

COMMISSION COMPLAINS OF OVER INSURING PROPERTY

AUSTIN, Jan. 5.—The Texas state fire insurance commission complains that some agents, by writing over-insurance, are parties to incendiarism. "As soon as people realize that many fire are caused by over insurance, and that many buildings are burned for profit, the sooner the evils will be removed," the commission announced in its report, in summing up the activities of the commission for the past year.

POTTER COUNTY SHERIFF ACQUITTED OF CHARGE

AMARILLO, Jan. 5.—Sheriff Less Whittaker, charged with misconduct in office in connection with the flogging of E. T. McDonald by masked men, was found not guilty today by a jury in the district court. The jury deliberated only seven minutes.

SOUTH SEA FLAPPER REALLY VERY MODEST

LOS ANGELES, Calif., Jan. 5.—"They are all the same—the flappers on Broadway and the belles of the South Sea Islands," said W. F. Adler, who has just returned from a year's trip through Borneo, Java, and adjacent islands.

Adler, who is author of "The Isle of Vanishing Men," "Men of the Inner Jungle," and "The Artificial Empire," declared that the South Sea flapper is much more modest than her American sister. The suggestive cut of the American girl's clothing calls more attention to herself than the unconscious nudity of the girls of the Kia Kia tribes. The island girls feel very embarrassed if they are made to wear anything more than ear-rings and bracelets, the author said.

Facts About the Flying Circus

What is it? A flock of the world's most daring birdmen who cut up such capers 2,000 and 3,000 feet in the air that many would hesitate to do close to the ground. Where is it? At the grounds of the Oil Belt Power Co., on Leon creek, otherwise known as the Olden dam. When is it? At 3 o'clock Sunday afternoon. How to get there? Follow the Bankhead brick highway to where it branches midway between Olden and Eastland, and then follow the dirt road to the entrance of the company's grounds, about one mile from the dam. Admission: 50 cents for adults and 25 cents for children. Why the circus? It is given under auspices of the Eastland Elks No. 1372, which hopes thereby to raise a sum of money for its charity fund to help the poor and suffering through the winter.

REBEL FORCES STAKING ALL ON BIG OFFENSIVE

Mexican Federals Preparing to Resist Attacks on Several Fronts.

MEXICO CITY, Jan. 5.—Aroused by the knowledge that the federal troops will be equipped with modern equipment from the United States, the rebels are determined to stake all on a desperate offensive, the government's war office said tonight.

"The rebels are preparing to attack on all fronts," the war office bulletin said. "Our forces await them with calm confidence. We know the Huerta troops are short of arms and equipment. This offensive is the last card of the rebels, played in the belief that we are not adequately armed."

The wounding of Henry Bretherton, American vice consul at Aguas Calientes was confirmed. A stray bullet struck Bretherton in his leg while he was riding through the street in an automobile. It came from the pistol of a man engaged in a political brawl.

On the west front, rebel troops under Gen. Manuel Daguerrre, are moving towards the city of Leon, which is threatened, the war office statement concluded.

President Obregon has dispatched General Ortiz with a strong column of troops to disperse this rebel army. An engagement is expected momentarily.

On the east front, the federalists will have San Marcos as their first objective.

Democrats Strike At the Mellon Tax Reduction Program

WASHINGTON, Jan. 5.—Democrats in congress struck the first blow at the Mellon tax reduction plan today by offering a detailed program as a substitute. The plan agreed upon by members of the house ways and means committee differs radically from the administration bill.

The democratic plan designs to lift most of the burden from the small taxpayer and place a more equitable burden on the wealthy, its sponsors said. At the same time the democrats evoked the use of the radio to beat the Mellon program. The principles of the democratic program were announced by Senator Robinson, democratic minority leader, to thousands in radio audiences.

BRYAN SCHEDULED TO MAKE THREE ADDRESSES IN TEXAS

AUSTIN, Jan. 5.—Governor Neff, who is to join William Jennings Bryan at Galveston, Jan. 30, as the guest of W. L. Moody Jr., for a hunt on Lake Surprise, today announced speaking dates of the Com-moner in Texas. Bryan will speak in Waco Feb. 1, and at Austin at night on the same date; at San Antonio, Feb. 2, and at Houston, Feb. 3.

GREEKS MAKE VENIZELOS PRESIDENT OF ASSEMBLY

ATHENS, Greece, Jan. 5.—Eleutherios Venizelos, Greece's man of the hour, was elected president of the national assembly by a unanimous vote this afternoon. The election clears the way for the reorganization of the Greek state under Venizelos' leadership.

CROSS COUNTRY RACE BECOMING VERY EXCITING

Barney Google Hopeful Spark Plug Will Win, but Odds Against Him 10 to 1.

By BARNEY GOOGLE SOMEWHERE IN THE GRAND CANYON, Jan. 5.—When Sassy Susie breezed under the wire here ahead of my Spark Plug today and I actually ran into the Grand Canyon myself, results tend to show that an Arizona desert is no place in which to spend a New Year's Eve.

Here we are—Sparky, Sunshine and myself—about to start on the last lap of the great \$100,000 cross country continental race from New York to Los Angeles, and we are all worn and as battered as my famous puddle jumper, which is today decorating one side of the Grand Canyon as evidence of any slip in falling to sleep while racing.

Spending New Year's Eve on a desert last Monday seems to have jinxed my entry. Sparky is no camel, you know. We've all had the heebie-jeebies ever since.

Though banged up badly by that crash into the canyon, I was able today to enjoy a laugh in which many other racing fans can join me. By radio via Hoboken, I received the following message:

Mr. Barney Google, On Board Spark Plug, Going West.

Prospects of racing in Jersey bright. Already planning race tracks for Newark and Atlantic City. Would like to name them after you and Spark Plug if you win cross continental race. A committee of noted boxing judges will make final decision, picking names from hat as they do at Madison Square Garden. Give my regards to Goldfield should you pass through the old home town. Hope you win that hundred grand. Should celebrate victory next spring at opening of Barney Google and Spark Plug tracks.

EASTLAND HI OUTCLASSES RANGER BASKETBALL FIVE

Eastland Mavericks outclassed the Ranger High school team Saturday night, winning 22 to 12. The Ranger five showed a reversal of form as compared with the first meeting of the two teams last month when Ranfer won, 35 to 15.

A fair sized crowd saw the game played at the American Legion gym in Eastland.

SOLDIERS' BONUS AND TAX REDUCTION ARE OPPOSITES

NEW YORK, Jan. 5.—The soldiers' bonus and tax reduction can not be accomplished together and it would mean the defeat of any political party that attempted it, Senator Borah of Idaho told the members of the Republican National club of New York today in debating the bonus issue with Edwin Stafford, state league commander.

Well To Be Drilled On Williams Tract North of Ranger Very Soon

Drilling will begin on the Thompson Oil corporation's J. M. Williams No. 2 shortly, it is announced. The Williams No. 1 came in for 200 barrels last July. Further drilling on this tract was halted after No. 1 came in because of the low price of crude. The location adjoins the Nannie Walker field, 11 miles north of Ranger.

Rigging will be brought up this week for the Chapman No. 1 well, 14 miles south of Ranger. The Chapman is an extension of the northwestern edge of the Desdemona field. Thompson-Kirk-Brewer and McLeister are owners of the new well. The Kirk-Brewer and Shugart well is on the west of Chapman No. 1.

PRESIDENT COOLIDGE UNYIELDING IN SUPPORT OF MELLON TAX BILL

WASHINGTON, Jan. 5.—American taxpayers today faced the possibility of a 2-year wait for lower taxes. President Coolidge's non-compromising stand on the Mellon tax bill was expected in congress and announcement has been made that he will veto any measure that changes materially the principals of the Mellon plan.

President Coolidge's position was made known by a White House spokesman yesterday and created a stir in congress.

SEINE CONTINUES ON ITS WILD CAREER IN THE FRENCH CAPITAL

PARIS, Jan. 5.—The Paris floods reached their crest tonight. Thousands in the suburbs are reported homeless and damage that will take several months to repair includes damage to city subways and sewers, factories closed and three bridges put out of commission. Two lives are known to have been sacrificed.

The flooded Seine invaded the Invalides railroad station today, adding to the demoralization of Paris rail traffic. A big wall between the river and the station broke suddenly and the water rushed in, filling the lower part of the building.

The railroad tracks which follow the Seine for several miles to alev are filled with 16 feet of water.

SECOND ATTEMPT TO KILL JAPANESE PRINCE REGENT

TOKIO, Jan. 5.—A bomb explosion at the entrance of the imperial palace late today marked the second criminal attack against the rulers of the empire within a fortnight. An unidentified man, believed to be a Korean, who placed the bomb, was arrested immediately after the explosion.

The man was about 40 years old. He refused to give his name or to explain his attempt to damage the place. He seemed to have no accomplices. The palace was not damaged. Confusion resulting from the explosion was quickly suppressed by the police.

Only a few days ago an attempt was made to assassinate the Japanese prince regent, but he was not injured. The anti-government display resulted in the resignation of the Yamato ministry and caused an upset in government affairs, which had been barely smoothed over when the new threat was made.

DONLEY BROS. START DRILL ON HIGHTOWER TRACT

A visit to several of the oil fields of Eastland county Saturday by an oil lease broker of Ranger revealed that numerous oil workers had been laying off because of the holidays. He found some of the wells shut down because of holiday festivities. Donley brothers spudded in the Texas company No. 4 on the Hightower tract, five miles south of Ranger Saturday. Texas company No. 3 was completed about 10 days ago.

THE WEATHER. West Texas — Sunday partly cloudy; probably snow flurries in the Panhandle.

ASHTON HARVEY DIES WHILE OIL MAGNATE PLAYS

New York Millionaire Slumps to Ground as John D. Is About to Tee Off.

ORMAND BEACH, Fla., Jan. 5.—The vacation of John D. Rockefeller was marred by tragedy today. Although 85 years of age, the financier was smiling and appeared happy as he started for his favorite golf course with Ashton Harvey, an aged New York capitalist and his golf companion for the last five years.

The two millionaires were playing their usual hard-fought and consistent game, had reached the first green and Rockefeller was just preparing to tee off for the second when Harvey, without a word or signal of warning, slumped to the ground. Rockefeller summoned a caddy and together they managed to get the fallen golfer to the club house and medical aid was hurriedly summoned. The physician found he could do nothing, however, for Harvey was dead. The cause of death is given as heart disease.

Shocked and grieved, Rockefeller hastened to his winter home here and secluded himself. He refused to see any callers and also forbid his secretary and servants to give any details of the tragedy.

Ormand Beach was a flutter with excitement and the death on the golf course was the only subject of conversation. Wild rumors were quickly circulated and as quickly denied.

Harvey was 70 years of age and the head of a New York house manufacturing dehydrating machinery. He had been a regular visitor here for the last nine years.

TRAFFIC OFFICER WARNS AUTOMOBILE OWNERS TO OBTAIN NEW LICENSES

"It is a violation of the law now for any one to drive a car that has not been registered for 1924."

This warning was issued Saturday in a statement by J. F. O'Brien, county traffic officer. The inference in his warning is that motorcycle officers will "pick up" motorists on the highways of Eastland county from any time on until all owners have registered their cars.

"Some are under the impression," he said, "that they have until the first of February to register their cars, as in the case of other taxes, but this is a mistake."

There was a rush in Ranger, Saturday morning, on the part of motorists to have their cars registered, according to Fred Maddocks of the real estate firm of C. E. Maddocks & Co., at which office Ranger auto owners may purchase license plates. Sixteen numbers were issued in a short time Saturday morning.

BURGLARS MAKE RAID ON RANGER STEAM LAUNDRY

The Ranger Steam Laundry, Austin and Cypress streets, was burglarized Friday night between the hours of 8 and 10 o'clock. C. R. Cheney, owner, reported Friday night about 10:30 o'clock.

The robber or robbers took care that only laundered clothes were picked up. Entrance was effected at the rear and exit made through the front door, Cheney reported.

Silk shirts, collars, socks, handkerchiefs, overalls, plain shirts and jumpers were among the things reported stolen.

PAY YOUR POLL TAX AND PAY YOUR POLL TAX NOW

Now is the time to pay your poll tax. It must be paid before the end of January 31 to carry the right to vote in elections this year and it might as well be paid right now instead of waiting until the eleventh hour. It is the duty of every man and woman to pay a poll tax. The state requires it and only those who are able to evade the law can avoid paying the tax. It contributes to the support of the schools, it confirms to every citizen, otherwise qualified, the right to vote, it advances the morale of the community. Pay your poll tax now.

BIBLE THOUGHT.
RICHES HAVE WINGS:—Labour not to be rich; cease from thine own wisdom. For riches certainly make themselves wings; they fly away.—Proverbs 23:4, 5.

JOE BURKETT FOR GOVERNOR
Joe Burkett of Eastland county formally opened his campaign for governor in an address at Llano last Thursday afternoon. He is a native of Llano county, as was told by W. B. Collins of Llano in introducing him and although he has long been a resident of Eastland county following his removal from Callahan county, it was a neat compliment to the county of his birth to fire there the opening gun of his campaign for the office of the state's chief executive.

Mr. Burkett showed in his address the careful study he has given to questions relating to the present and future welfare of the state. He spoke of Texas' splendid natural resources and the means that should be taken to develop them; urged a more perfect system of state and lateral highways; suggested how the automobile tax be made fairer to all interests; urged a central bank as a means to give better protection to farmers and the business men; urged a reduction of the interest rate from 10 per cent to 8 per cent, insisting that it would save the people of the state upwards of \$14,000,000 annually, or sufficient to pay all state taxes; proposed that more money be expended for the maintenance and improvement of the common schools, and that students seeking higher education should be required to pay a small fee to assist in maintaining the institutions of higher learning.

Mr. Burkett endorsed the rights of organized labor, advocating reasonable and fair wages. He urged all citizens to work for stricter enforcement of all laws. He expressed his disapproval of the Ku Klux Klan and urged there was no place for such an organization in this country's scheme of government. He advocated state-owned warehouses and elevators, better penitentiary systems and management, ownership of their homes by people, abolishment of certain state boards and bureaus and stricter economy in expenditures by the state.

Mr. Burkett, like many other notable men of this country, was born on a farm and spent his early years on a farm. While yet a very young man he managed a newspaper, then taught school, afterwards he was elected district clerk, then county judge, then district judge, later a member of the Texas house of representatives and since 1921 has been serving as senator from the "Jumbo" district of Texas, which includes 32 counties.

By training, education and experience and inherent ability, Mr. Burkett is well qualified for the high office he seeks. Although not yet 40 years of age, he possesses mature judgment and the calm poise of a much older man, which, combined with the energy and daring of a man who has not yet entered the middle span of life, should fit him admirably for the chief executive of the state which yet is young in the development of its resources and just beginning to realize its power and influence in the galaxy of states.

Mr. Burkett knows Texas, but especially is he posted on West Texas, in which he was born, reared, has lived and campaigned and is yet living and campaigning. He is neither radical in his views, nor burdened with conservatism. It is natural that all should not agree with him in all his views, but a majority of the people in West Texas and every other section of Texas give ready approval to most of the planks in the platform on which he is making his race for governor and he is, therefore, entitled to favor. Here in Eastland county, and in adjacent counties where he is so well known, he should have unqualified and unanimous indorsement and support.

Berger says the profiteers should pay the bonus, but the trouble is finding a fellow who will admit he is a profiteer.—Indianapolis News.

France reports an earthquake, but it was a small affair when compared to some of the recent jars in Germany.—Boston Transcript.

Ranger Churches

METHODIST.
Elm near Marston.—Rev. A. W. Hall, pastor. 9:45, Sunday school, W. R. Pettitt, superintendent; 11, short sermon by the pastor, followed by the sacrament; 2:30 steward's meeting; it is absolutely necessary that each member of the board be present at this meeting; 6, Senior Epworth league; 7, preaching by the pastor; 8, Monday afternoon, W. M. society; 7, Wednesday, evening, prayer meeting; 10, Thursday morning, at Eastland, a great district laymen's meeting. This meeting will be addressed by Prof. G. L. Morelock, of Nashville, Tenn.; Judge Y. E. Williams, of Fort Worth, and others. These men are coming a long way to bring a message to the laymen of the Cisco district. Will we be dealing fairly with them or with the church if we fail to go and hear them? Let us start off the new year by each person being in his place of Christian duty and every time that duty calls. There is always a welcome to "the stranger that is within thy gates."

FIRST BAPTIST.
Walnut near Marston.—Rev. W. H. Johnson, pastor. Sunday school, 9:45 a. m. Morning service, 11 o'clock; subject of sermon, "The Passover Pilgrims." Sunbeams meet at 3 o'clock. B. Y. P. U. at 6:30 p. m. Evening service, 7:30 o'clock; subject of sermon, "The Confusion of Tongues." The auditorium is large, with cushions for the pews, and a cordial welcome awaits everyone. Special music at both services.

CHURCH OF CHRIST.
Rusk, corner of Mesquite.—Bible school, 10 a. m.; services, 11 a. m.; services, 7 p. m.; Bible study Wednesday evening at 7 o'clock. O. G. Lanier will preach at morning and evening services. Everybody is welcomed at all services.

EPISCOPAL.
Opposite Young School.—Sunday school, 10 a. m. Morning prayer with sermon, 11 a. m.

ROMAN CATHOLIC.
Blackwell Road.—Rev. R. A. Gerken, pastor. Mass at 8 and 10 a. m.

CHRISTIAN SCIENCE SOCIETY.
420 Pine Street.—Sunday school at 9:45 a. m. Services Sunday, 11 a. m. and Wednesday at 8 p. m. Reading room open Tuesday from 2 to 5 p. m.

SALVATION ARMY.
Sunday school, 2:30 o'clock; street meeting at 7:30 p. m. Meeting in hall at 8 p. m. Weekly meetings at the same hours. Ladies' Home Service league meets at hall Friday at 2:30 o'clock to sew for the needy.

CENTRAL BAPTIST CHURCH.
The first Sunday of the new year should sound the tocsin for all the Sundays to follow. Let's make this a red letter day for Bible school and church attendance in Ranger. Many should unite with the church today and enter into active service. We have a place for you. Let this be a day of dedication and consecration of time, talents, substance, with all our powers and capabilities to the biggest business known to men or angels, the King's business and ours. Morning worship, sermon theme: "The First Question God Ever Asked." This is a new year's message, heart-searching, and leads to self-testing. Evening worship: This service will be evangelistic. Theme, "The Needle's Eye." There were three additions and two conversions last Sunday evening. There will be special music at both services and reception of new members.

We will have three young people's training schools in progress Sunday evening, beginning at 6:30 o'clock. The young married people's union at the annex. There were 38 present last Sunday evening. The young people on the second floor of the main building. The Junior union in the annex.

PRESBYTERIAN.
All Presbyterians and friends of Presbyterians and "whosoever will" are cordially invited to attend and become a part of the Bible school, which meets at the Presbyterian church, 10 a. m. The sacrament of the Lord's supper will be observed at 11 a. m. New members will be received into the church and those desiring may dedicate their infants by baptism. The subject at the evening service, 7 o'clock, will be "Getting Victory Out of Defeat."

As a new pastor in Ranger, I wish to acknowledge my appreciation of the kind and cordial reception I and my family have received by Presbyterians, and others as well, since our arrival in Ranger. We hope during the year to more truly express our gratitude in service.

G. D. ROBISON.

Eastland Churches

PRESBYTERIAN.
Walnut and Valley streets.—Sunday school meets 9:45; communion service and reception of members, 11 a. m.; no evening service; Junior Endeavor meets 3 p. m.; choir rehearsal 7 p. m. Follow the arrow.

Dr. Israel Zangwill should know Dr. Woodrow Wilson. They could discuss America and Americans without quarreling.—Toledo Blade.

AERIAL CIRCUS TO SWELL ELKS CHARITY FUND

Experienced and Daring Flyers and Acrobats Will Perform This Afternoon.

Gates Flying circus, a flock of the world's most daring birdmen, will give an exhibition, beginning at 3 o'clock this afternoon in the field at the Oil Belt Power company grounds on the Leon river, about three miles from Eastland.

The exhibition is under auspices of the Eastland Elks, No. 1372, for the benefit of their charity fund. Elks will patrol the grounds and sell tickets, which may be obtained at the junction of the road to the power house and the brick highway and also where the road enters the enclosed grounds.

The four stunt flyers and aerial acrobats are reckoned among the finest and most daring in the world. They are in demand whenever aerial exhibitions are to be given. Probably the best known because of his hardihood and the danger attending his acts is Milt Girton, otherwise known as Diavolo. Others are the wing dancer, Tommy Thompson, "Upside Down" Pangborn and Phil Lininger.

Upside Down Flier.
Pangborn is probably one of the best known of America's former army flyers. Although not an over-zealous flyer he probably has a more sensational record than any of our best known aces.

Pangborn was one of the first to enter the air service at the beginning of the war, but he spent more time on the ground than any other flyer who had been in the service the same length of time. Being grounded is the penalty for officers who do not comply with the rules of flying in the army air service and this and other penalties were accorded Pangborn more often than any other officer in the service for his chance taking tactics while an instructor at the army flying school.

Daredevil Performer.
"Diavolo," the foremost of all aerial performers, has out-classed by a great margin all who have attempted aerial acrobatic performances on airplanes. Formerly a member of the air service of the United States, he started doing this work while doing services in the air service on the Mexican border in 1919. Reading notices of the achievements of the great Locklear, who was the original "aerial acrobat," Diavolo began to duplicate his stunts and in a short time outclassed the originator in this line of work. In a short time Diavolo obtained his release from the army and entered into a contract with a well known moving picture producer in Los Angeles and for the

past three years has been doing all the death-defying aerial stunts which have been seen reproduced in the moving pictures.

In order to get the full benefit of the aerial circus it will be necessary to gain admission to the grounds. From the highway, about one mile distant, it will be hardly possible to see the airplanes rise from the ground and none of the acrobatic performances will be visible. So those wishing to see the circus will have to purchase tickets. The gates will be opened at noon and it is promised that the exhibit will start promptly at 3 o'clock.

JANUARY TERM 88TH DISTRICT COURT OPENS NEXT WEEK

Joseph, Dave Fincklin vs. Sun Oil company, Ida Fairchild vs. Independent Torpedo company et al., Enos Fairchild vs. Independent Torpedo company et al., C. V. Williams vs. Comanche County Oil company, Mrs. S. E. Reynolds vs. McMann Oil & Gas company, W. R. Rose et al. vs. J. E. Brewer.

CAPTAIN AND MRS. BATSON GOING TO BRECKENRIDGE

Capt. and Mrs. J. W. Batson will leave Monday for Breckenridge, to which city they have been transferred by headquarters of the southwestern division of the Salvation army. The Batsons came to Ranger last summer from Corsicana. They have made many friends while here.

Envoy and Mrs. Marvin of Alexandria, La., will succeed the Batsons here and they are expected to arrive in Ranger shortly.

A farewell service will be held at the meeting hall on South Austin street Sunday night at 7:30 o'clock. Several soldiers will be sworn in at the services.

Captain Batson today expressed his gratitude to the people who have supported his efforts to relieve suffering among the unfortunate and in carrying on the work of salvation. "I have never met better people," he said.

EASTLAND WORKING FOR NEW FEDERAL BUILDING

Every possible effort is being made by the Eastland Chamber of Commerce to get congress to pass the bill for a federal building in Eastland, which was introduced by Congressman Thos. L. Blanton of this district in the house of representatives at Washington a few weeks ago. Secretary Briggs of the Eastland Chamber of Commerce has been in communication with Senators Sheppard and Mayfield regarding the matter, and has received letter from each of them in which promise is given to assist in the matter.

The measure, as introduced by Mr. Blanton, calls for the appropriation of congress of \$100,000 with which to purchase a site for and the building of a federal building in Eastland. The site is to cost not more than \$20,000.

Similar bill were introduced for Ranger and Cisco by Congressman Blanton.

A call for the above articles has been made by the Welfare Committee of the Community Chest through its chairman, Mrs. J. B. McLaughlin, 705 South Halbryan street. Other members of this committee are: Mrs. Joseph M. Weaver, 500 south Bassett street; Mrs. J. B. Nunn, 106 Lens street; Mrs. William Outward, 1100 South Seaman street.

WANT HELP FOR THE NEEDY
EASTLAND: Jan. 5.—If you have any clothes, shoes, bedding, etc. that you do not need but that are still serviceable and that you are willing to donate to charity, there are those who are in need of them and who will gratefully appreciate them and if you will send or bring them to the basement of the First State bank building and turn them over to the Community Chest they will be placed where they are most needed. If you cannot send or bring them, notify the committee and they will be called for.

AUTO LICENSES BEING PAID SLOWLY THIS YEAR

It is estimated that there are approximately 10,000 automobiles in Eastland county. Approximately 2,000 of these have had the 1924 license paid on them. This time last year 3,000 license for cars had been paid in the county.

The tax collector has a number of clerks busy issuing license to automobile owners and they are kept busy, but could wait on more so car owners are urged to get their car license at once.

Double Your Happiness—Economically

Satisfy your craving for a home and a place for the youngsters to play. Live at less cost in an un congested section far from the noise and dirt of city traffic and factories.

The lower cost of living and the saving in doctor's bills will offset the cost of operating a Chevrolet for going back and forth to work, shopping or taking the children to school.

besides being economical to buy and maintain, is a quality automobile anyone can be proud to own. It is modern in appearance and construction. It is so easy to drive that any member of the family can use it.

Call at our showrooms and inspect this automobile which has doubled the happiness of thousands of families at little, if any, added cost.

MR. AND MRS. CLEVELAND OF TIFFIN ENTERTAIN.

Mr. and Mrs. J. F. Cleveland gave a dancing and card party Wednesday night at their home in Tiffin. Invited guests, who attended, were:

Misses Annabelle Phillips, Mable Enoch, Henryetta Goes, Mrs. W. W. Hearn, Mr. and Mrs. S. E. Miller, Mr. and Mrs. Cox, Mr. and Mrs. E. O. Nentwig, Mr. and Mrs. Pat O'Neil, Mrs. Anna Barman, Mrs. N. J. Novakovich and Herbert Knox and Howard Barman.

Refreshments were served near the end of the evening's fun.

NEW YEAR'S DINNER AT BOLLINGER HOME

Mrs. W. I. Jackson and Mrs. B. V. Bollinger were joint hostesses at a New Year's dinner given at the home of the latter. A delicious four-course meal was served with turkey as the main course and pineapple jelly with white cake and fruit cake as dessert. Those who enjoyed this hospitality were Mr. J. A. Hillis, Sr., Major M. W. Tobin, Mr. and Mrs. J. B. Heister, Mr. and Mrs. W. R. Jackson, and Mr. and Mrs. B. V. Bollinger.

ST. MARY'S GUILD TO MEET MONDAY

Regular meetings of St. Mary's Episcopal Guild will be resumed on Monday at 3 o'clock at the home of Mrs. Crawford, with Mrs. Fraser assisting hostess. This will be a business meeting with election of officers for the new year and all members are urged to make an effort to attend. The contest will be discussed and appointments made for the next program meeting.

PRAIRIE CAMP HAS NEW DANCE CLUB

Members of the Prairie Camp and friends have formed a new dance club which will meet at regular intervals at the Prairie club house. The initial dance was held Saturday night with music by Coleman's orchestra. Members of the club are, Messrs. and Mrs. W. H. Burden, A. Neal, E. J. Wiss, C. A. Conley, F. T. Brahaney, F. A. Brown, Saunders Gregg, John W. Thurman, Frank Reames, E. E. Crawford, E. R. Maher, C. A. Walts, W. N. McDonald, W. E. Lowe, E. L. McMillen, J. T. Gullahorn, G. B. Watson, J. F. Champion, Dr. and Mrs.

H. A. Logsdon, Dr. and Mrs. C. O. Terrill, Dr. and Mrs. C. C. Craig.

PASTIME CLUB ENJOYS MEETING WITH CRAWFORDS.

The Pastime club members and a few guests enjoyed their regular meeting on Wednesday evening instead of Thursday, at the home of Mr. and Mrs. E. E. Crawford. Ladies' high score prize went to Mrs. Logsdon and low to Mrs. Pearson. High for gentlemen went to Mr. Harry Pearson and low to Mr. Frank Reames. A delicious salad course was served.

Those attending were: Messrs. and Mrs. Frank Reames, Harry Pearson, C. A. Conley, Roy Jameson, Dr. and Mrs. H. A. Logsdon, Dr. and Mrs. A. N. Harkrider; Mrs. F. A. Brown and F. T. Brahaney and Mr. Earl Taylor.

CHEERFUL WORKERS WILL MEET ON WEDNESDAY.

The Cheerful Workers of the Christian church will meet on Wednesday afternoon at 2:30 o'clock with Mrs. Rowles in the Sun company camp. Last week's meeting was called off on account of the stormy weather.

MRS. GREGG HOSTESS TO THURSDAY BRIDGE.

Mrs. Saunders Gregg entertained in her usual delightful way on Thursday for the bridge club of same name. Cut flowers ornamented each table. Luncheon was served at 1:30 followed by an afternoon of auction for which there were four tables. High club prize went to Mrs. Brahaney, low to Mrs. Crawford, and guest prize to Mrs. Peters.

Those present were: Mrs. E. E. Crawford, F. T. Brahaney, C. O. Terrill, E. D. Finney, Garrett Bohning, A. N. Harkrider, H. J. Mendenhall, W. R. Bowden, Howard Gholson, J. E. T. Peters, D. L. Jameson, Frank A. Brown, John W. Thurman, L. L. Rector and Miss Hallie Jameson. Mrs. J. T. Gullahorn will be the next hostess.

RANGER PERSONALS

Miss Arline Haynes of Wichita Falls, who was the house guest for a week or more of Miss Mamie Ruth Langston, returned with her to C. I. A. Denton, which both young ladies are attending.

Mrs. Mable Cline of Baird returned recently to her home after spending the holidays with her mother, Mrs. Smith, of 429 Hunt street.

NEW ERA CLUB WILL HAVE ELECTION WEDNESDAY

The regular meetings of the New Era club will be resumed on Wednesday with election of officers. A special program has been arranged and at the Gholson hotel. Full attendance of members is desired.

MONDAY

W. M. U. of First Baptist Church meets at 10 o'clock for all day prayer service.

Central Baptist W. M. U. business session 2:30 o'clock at church.

Presbyterian auxiliary meets at 3 o'clock at club rooms.

Methodist W. M. S. meets at 3 o'clock at church.

St. Mary's Episcopal Guild meets at 3 o'clock with Mrs. Crawford.

Eastern Star meets at 7:30 o'clock at Masonic hall.

NEW YEAR'S PARTY OF 1920 CLUB ORIGINAL

A tone of distinct originality was found in the lovely New Year's party given Friday night by the ladies of the 1920 club for members and their husbands and a few invited friends. It was a four seasons party, beginning at 7:30 o'clock at the home of Mrs. J. M. White, which was beautifully decorated to represent spring.

The name of this season appeared on the door, but no reminder was needed once the guest was inside, for quantities of growing plants and ferns decorated the house, and singing birds reminded one of summer fields and woodlands. The centerpiece in the dining room was ornamented with a basket of ferns, on which reposed an infant doll marked 1924, symbolical of the beginning of the New Year.

Here the first course of a dinner, shrimp cocktail, was served and visitors were entertained with musical selections by Miss Blanche Garber and Mrs. Norton. Favors of small baskets were presented each caller. The baskets contained sprigs of grass.

Mrs. White was assisted by Mrs. A. L. Leake, C. G. Norton and Miss Garber.

From this hospitable home they passed on to the residence of Mrs. L. H. Flewelling, where summer reigns. Here there were decorations of roses and lillies, and a salad course was served from a corner nook arranged to resemble a summer garden house.

Mrs. C. D. Woods and E. L. Shattuck who assisted Mrs. Flewelling were arrayed in sport suits of white with red jackets. Tiny fans were presented as favors.

The next hostess was Mrs. M. R. Newnham, whose pretty home was artistically decorated to represent autumn, as the name on the door announced. Here tops of grain, and ears of corn together with great baskets of apples reminded the visitors that this was the harvest time.

Delicious creamed turkey, with bread and butter sandwiches, potato chips and olives, were served here, and the guests were entertained delightfully with songs sung by a trio of little girls, Nannie Katherine Newnham, Marguerite Vandervoort and Martha Marie Gholson, accompanied by Mrs. Newnham. Mrs. Besse Luke, who assisted Mrs. Newnham, also delighted the guests with a vocal number.

Every home was a complete surprise as no one knew, except the committee, what sort of a party had been planned nor where the evening was to be spent, but the greatest surprise of all awaited them with "winter," at the home of Mrs. George Bohning, where they were ushered from the porch into a cold, dimly lighted room which was a perfect simulation of a snow scene. Cotton covered with artificial snow covered the artistically arranged furniture completely and made it look like hills and vales, while a mirror was used to represent a lake, and frosted window panes were perfect in their likeness. Cedar branches covered with the pretty white stuff, represented a bit of woodland, and a doll house in a corner of the room resembled a snug little home. The guests were met (Continued on page four)

VIOLIN AND PIANO RECITAL IS DELIGHTFUL

The violin and piano recital of Thursday night, when the Misses Drago were presented in recital at the city hall auditorium, under auspices of the Missionary society of the Methodist church, assisted by the Rev. H. L. Mungen, pastor, was a most delightful musical treat.

The young musicians were in good form, and the program of some 12 numbers was charmingly interpreted. As usual, Eastland failed to respond to this class of entertainment. About 100 persons attended. However, had the weather been more favorable, the audience would have been larger.

The artists were quaintly garbed in Grecian robes of white, and were an artistic combination.

MR. AND MRS. McCARTY ENTERTAIN AT HOME

Mr. and Mrs. Milburn McCarty were at home to a number of friends at their attractive residence the last of the week, entertaining with cards. The rooms were arranged for seven tables of auction, occupied by Mr. and Mrs. Oscar Wilson, Mr. and Mrs. Alex Clarke, Mr. and Mrs. Theodore Ferguson, Mr. and Mrs. W. K. Jackson, Mr. and Mrs. L. E. Edwards, Mr. and Mrs. R. D. Mahon, Mr. and Mrs. Bryan Brelsford, Mr. and Mrs. T. J. Cunningham, Mr. and Mrs. Arthur W. Spear, Mr. and Mrs. J. P. Little, Mr. and Mrs. E. G. Schreck, Judge and Mrs. Earl Conner, Mrs. Wilber, Miss Quenod, and Joseph F. Orr.

High social favor, a handsome leather or embossed recipe book, was awarded Mrs. Alex Clarke. Mr. Ferguson received the men's favor for high score, a big box of delicious candies.

The hostess served iced punch and at close of evening a delicious supper of chicken and mushrooms in timbales, potato flakes, Welsh rarebit wafers, stuffed olives, coffee, salted nuts, celery with cheese stuffing, and fruit ice, with angel food coconut balls. The rooms were prettily lighted with pink tapers, and bouquets of pink roses adorned mantel piece, bookcases and piano.

ELKS ANNUAL CHARITY BALL IS BIG SUCCESS.

The annual charity ball of the Elks, New Year's night, excelled in beauty of arrangements. The ball was unusually brilliant in point of attendance and costume and marked by the choosing of the queens of Elkdom, who were crowned and photographed on the ballroom floor, as features of the film of Eastland, to be shown by Manager Stalcup at Connelley theatre in the near future.

The beautiful decorations for the holiday functions in the Elks club-rooms, were added to by graceful bouquets of cedar, whose spicy odor reminded the reveler of the mountain side, where Elks abound.

Mrs. Lloyd E. Edwards and Miss Agnes Harwood were chosen as the queens, and, following their crowning, horns and confetti were distributed and ribbon streamers thrown through the air. The Mardi Gras scene was brilliant in coloring and action.

The exalted ruler, M. H. Lobaugh, and the chairmen in charge, W. E. Stalter, G. L. Gillespie, and Joe Lobaugh, were untiring in their efforts to make the evening a decided success.

REBEKAH LODGE HAS ANNUAL ELECTION.

The annual election of officers of the Rebekah lodge of Eastland, was held Friday night. Those elected: Mrs. Will Keith, noble grand; Mrs. Mattie Butler, vice noble grand; Mrs. Mae Thomas, secretary; Mrs. Robert Pearson, treasurer; Mrs. Mae Thomas and Mrs. Joe Hague, representatives to the grand lodge; trustees; H. A. Collins, Ed Morgan, Mrs. Mattie Butler.

On account of the cold weather the installation of officers was postponed until the third Friday in January. Mrs. Naomi Nichols was initiated as a new member.

Mrs. Mae Thomas, the retiring noble grand, has made an efficient officer. The order has increased materially in membership, new furnishings have been installed in the lodge rooms, and a piano purchased. Many beautiful entertainments have been given by the lodge, that reflected credit on the order.

ELEMENTARY PRINCIPALS ASSOCIATION MEETS.

The Elementary Principals' association enjoyed an informal session Thursday night in the high school, called to order by Mr. Isaacs of Cisco. A round-table discussion occupied the time after the athletics for the grammar schools of the three cities, Eastland, Ranger and Cisco, were discussed and the next subject, "What Is Expected of the Grammar Schools by the Public." The relation of the rural schools to the city schools developed some interesting facts. The association decided to ask Mrs. Burnett, county superintendent, to speak to them along this line at the next meeting.

One of the interesting discussions was "Whether it was preferable to have married women or single women teach in public schools." The meeting was attended by Messrs.

CALENDAR

MONDAY, JANUARY 7

Presbyterian women's auxiliary holds all day session, opening 11 a. m. in church, noon luncheon, Mrs. F. G. Hoffman, chairman; hostesses, E. A. Bills, H. T. Johnson, Edwin Otto, and John D. McRae. Business session and missionary program in afternoon. Mrs. D. B. Van Nest, president.

Christian Women's Missionary society meets with Mrs. Eugene Day, 2:30 p. m.; study and program; Mrs. J. N. Wooten, president.

Methodist Ladies' Missionary society meets in tabernacle 3 p. m.; business session and Bible study; Mrs. J. A. Caton, president.

Baptist W. M. U. meets 2:30 p. m. as follows: Central circle with Mrs. Davis, Mrs. Bibby, chairman; South circle with Mrs. H. A. McCannies; Mrs. W. S. Poe, chairman; West circle with Mrs. Bates, chairman.

Lewis and Pettitt of Ranger; Mr. Isaacs, and the grammar school coach, Mr. Williams of Cisco, Mr. Layton and Mr. Andrews of the South and West ward schools of Eastland.

A program will be planned for the next meeting, two weeks hence, to be given by the Eastland members. It was decided for the following meeting, that Cisco will have charge of the program, and the next thereafter regular session will be conducted by the Ranger members. Also, that the three meetings will be held in Eastland as this city is the middle point between the three cities in the combination.

MRS. MIZELL HOSTESS TO MUSIC CLUB.

Mrs. Rivers R. Mizell was club hostess to the Music Club of Eastland at her residence Friday afternoon. Mrs. Grady Pipkin assumed her duties as president.

A picture show benefit at Connelley theatre was discussed and Mrs. J. P. Little and Mr. Barnard named to consult with Manager Stalcup and make the necessary arrangements.

The resignation of Mrs. Perry Sayles was accepted with regret.

A delightfully informal program was presented, opening with the chorus, "Star-Spangled Banner," by the club.

Mrs. Charles F. Smith gave two delightful voice numbers, "Drink to Me Only, With Thine Eyes," and "Love's Old Sweet Song."

Mrs. Barnard's voice number, "The Swan," was beautifully presented.

The club enjoyed a wonderful treat given by the Misses Wilda and Wanda Drago in violin and piano duets.

The piano solo, "Liszt," was rendered by Miss Wanda Drago, and Miss Wilda Drago presented an original arrangement for violin of "Mighty Lak a Rose."

The next meeting of the club will be held in two weeks with Miss Agnes Harwood.

Attendance was small on account of the cold and wind. Those present: Mrs. Mmes. Barnard, Frank G. Hoffman, Charles F. Smith, Grady Pipkin, J. P. Little, J. E. Lewis, Drago, E. W. Freyschlag, Rivers R. Mizell, and guests Miss Meadows of Plainview, Mrs. Wikidal of Hutchinson, Kan., and the Misses Wilda and Wanda Drago of Eastland.

CONFERENCE ON PLANTING MEMORIAL TREES

Mrs. William Reagan of Cisco, president of the sixth district T. F. W. C., has called a meeting of the sixth district officers to confer with the presidents of the clubs of Eastland, Cisco and Ranger, the secretaries of the chambers of commerce of Cisco, Eastland and Ranger; County Judge Ed Pritchard, and the superintendent of the highways, relative to planting of memorial trees along the highways between the three cities. The session is called for tomorrow morning, at 10 o'clock, in the Chamber of Commerce of Eastland.

The officers notified are Mrs. M. H. Hagaman of Ranger, first vice president; Mrs. Kelley of Cisco, secretary treasurer, and the presiding officers of the federated clubs as mentioned.

The presidents of the federated clubs of Eastland are: Mrs. W. H. Taylor, Thursday Afternoon club; Mrs. Grady Pipkin, Music club of Eastland; Mrs. J. B. Nunn, Alpha Delphian chapter; Mrs. W. K. Jackson, Civic league of Eastland; Mrs. Nunn, president Central P. T. A.;

Mrs. Joe Weaver, president South ward P. T. A., and Mrs. W. Z. Outward, president West ward P. T. A.

NOTES AND PERSONALS.

Postmaster A. H. Johnson, a local chicken fancier, was a visitor Friday to the poultry show in Abilene.

Francis Leary, son of D. P. Leary, district superintendent of the Prairie Pipe Line company, left Thursday for Notre Dame, after a holiday visit with his parents.

Mrs. Henry Seale and the Martha Dorcas class, chairman of the Christmas seals sale, closed their work Friday afternoon with satisfactory results. Mrs. Seale stated that between \$175 and \$200 cash had been made, and that the ladies engaged in the work feel satisfied with the results.

NEW YEAR'S PARTY.

(Continued from page three.)

at the door by Mrs. George Bohning and Mrs. J. M. Gholson, both wearing "fur" collars and caps of white sprinkled with snow. In this fascinating room refreshments of hot coffee with whipped cream and mince pie were served, and the visitors lingered long in admiration. Mrs. Rex Outlaw was assistant club hostess to Mrs. Bohning, others assisting her being Mmes. J. M. Gholson and Howard Gholson. Miss Beulah Bowles and Miss Cleo Motes.

As the guests assembled in the large living room, each was given an animal cracker, told to find a partner with similar cracker and write an essay together on the animal. Papers for New Year's resolutions were also passed and much merriment followed when the essays and resolutions were read by Old Blanche Garber, who later delighted the guests with several fine readings. Vocal solos by Mrs. Heatley, and Mrs. Luke, with a duet by Mrs. Luke and Mrs. Newham, accompanied by Mrs. Nerton, completed the program.

Those attending the party were, Messrs. and Mmes. M. R. Newham, J. M. Gholson, M. H. Hagaman, Howard Gholson, L. H. Flewellen, C. E. Maddock, C. G. Norton, C. D. Woods, J. M. White, A. L. Leake, S. P. Foon, Rex Outlaw, Mmes. R. H. Hodges, R. A. Jameson, E. L. Shattuck, H. A. Logsdon, Luke, Stafford, Heatley, George Bohning, Miss Bowles and Miss Motes.

PROBE OF MAYFIELD'S ELECTION TO SENATE MAY OCCUPY A YEAR

WASHINGTON, Jan. 5.—Enough material to keep the investigation running for a year has been gathered by opponents of Earle B. Mayfield of Texas, whose right to a seat in the upper house of congress will be inquired into by a senate committee, beginning next week.

A list of witnesses from a score of states all the way from California to the Carolinas has been prepared and they will be brought to Washington for examination.

N. A. SHAW, BANKER OF TEXARKANA, WELL KNOWN POLITICIAN, IS DEAD

United Press.
TEXARKANA, Texas, Jan. 5.—N. A. Shaw, president of the Guaranty State bank of Texarkana and well known in farming and political circles over the state, died this morning, death being due to blood poisoning from an infection in his hand early in the week. He was about 65 years of age and is survived by his widow.

The body will be taken, Monday, to Clarksville, Texas, where interment will be made.

STATE FIRE INSURANCE 18 IN YUCATAN GOVERNOR DEAD.

MEXICO CITY, Jan. 5.—Execution of the socialist governor of Yucatan, Carellio, is confirmed in an official statement today. Governor Carellio was executed at Merida, Yucatan, by rebels.

MAYOR OF FORT WORTH NOW RIDES IN FLIVVER

FORT WORTH, Jan. 5.—Mayor Cockrell has set Fort Worth citizens an example in the matter of economy. With the city deeply in debt, Mayor Cockrell has abandoned the expensive six-cylinder automobile furnished him by the city and now takes his air in a flivver.

TIFFIN

TIFFIN, Jan. 5.—The parent teachers association of Tiffin held its regular meeting Thursday at 4 o'clock in the school house. Mr. Wynne, principal of the Tiffin school, reported that he had bought 22 books for the school library for \$18.95 out of the club funds. A social meeting for the club members and their friends is planned for the third Thursday, regular meeting day. A more definite announcement concerning it will be made later.

C. Miller, teaming contractor, has been hauling crushed rock from the crusher and placing it for some distance in front of the doors of the Tiffin school. This greatly improves conditions in muddy weather. Mr. Miller is a patron of the school and has always shown his interest in its improvement.

Several new pupils have entered Tiffin school since the holidays. The little Crusher (Dudley and Oer's) is running a night shift.

CITY-COUNTY HOSPITAL MAY DETERMINE TODAY DATE FOR THE OPENING

The City-County hospital board will probably meet Sunday to finally determine upon the head of the City-County hospital, opening of which has been delayed from time to time.

An opening date will also be decided upon, R. H. Hodges, chairman of the board, said today. An announcement of the decisions reached will be made Monday, Hodges said.

The Eastland county commissioners will turn over to the board the money promised more than two months ago with which the deficiency the board faces in funds will be met. The settlement agreed upon was about \$3,500.

MISS SPEER ANNOUNCES FOR OFFICE OF COUNTY SCHOOL SUPERINTENDENT

One of the most important positions to be filled in the county is that of county superintendent of public instruction. Miss Beulah Speer, who is regarded as one of the best teachers in the county, is announcing for that place.

Miss Speer has spent practically all of her life in Eastland county and has for many years taught in the various schools of the county. She has taught in the small one-teacher rural school, in two-teacher schools, and in fact, in all sizes and grades of schools. She has taught in Carbon, Eastland and Ranger, having been supervisor of the grammar grades in the Ranger school two years during the oil boom. She is now head of the elementary department of the Rising Star school. She has had much experience in all departments of the various schools in which she has taught.

Six years ago Miss Speer was solicited to make the race for county superintendent of public instruction and since that time has been a close observer and made a study of the requirements of the office with a view to some day filling the position. With her wide experience in the schools of the county she is probably in a position to better know the conditions of the schools than any other teacher.

Miss Speer had her early training in the schools of Eastland county, her college training in the North Texas State normal, the University of Colorado and the University of Texas. She is a life long Democrat, but says that she is asking for the office on her merits. She stands for better schools and more efficient teachers. In fact she believes that the schools should keep abreast with the progress in every other line. She asks the support of all the voters of the county and urges that her friends in different communities give her their support among their friends.

MAYOR OF FORT WORTH NOW RIDES IN FLIVVER

FORT WORTH, Jan. 5.—Mayor Cockrell has set Fort Worth citizens an example in the matter of economy. With the city deeply in debt, Mayor Cockrell has abandoned the expensive six-cylinder automobile furnished him by the city and now takes his air in a flivver.

MAVERICKS BEAT PEDAGOGUES IN BASKETBALL TILT

EASTLAND, Jan. 5.—Eastland High school Mavericks easily defeated the Pedagogues Friday night at the American Legion gym, 41 to 21. The Outlaws took a scheduled game by forfeit from the Pedagogues, because of the non-appearance of the latter.

Next week's games promise keen competition. The Elks meet the Legion post and the Barbers stack up against the Pedagogues Jan. 8. Other games are: Jan. 9, Elks vs. Arabs; Jan. 11, Arabs vs. Politicians; High school vs. Outlaws.

In the Friday game, the five-man defense of the Mavericks made it necessary for the Pedagogues to take long shots at the goal. Captain Frieman of the Pedagogues caged several balls.

When it was seen the Pedagogues were not going to show up, a scrub team was formed to give the Outlaws opposition. The game was decided, but the "scrubs" made a game fight. The last tab on the score was 68 to 8 for the Outlaws.

FUNDERBURK TO TALK ON K. K. K. BEFORE COUNTY CONSTITUTIONAL CLUB

EASTLAND, Jan. 5.—Judge O. C. Funderburk of Eastland will address the County Constitutional club at the regular monthly meeting in the city hall here Monday night at 7:30 o'clock.

Mr. Funderburk served a term on the bench at Palestine, Texas, and was appointed special justice on the state supreme court. He also served as assistant attorney general under Attorney General Lightfoot. He is regarded as a very forceful speaker and everyone is urged to hear him. Ladies are especially invited.

The County Constitutional club, a purely political organization, was organized several months ago for the purpose of opposing the political activities of the Ku Klux Klan, and is growing in membership daily. There are no initiation charges and no dues to pay. Neither is there any obligation to take that will interfere with the duty you owe yourself, your family, your neighbor, your country or your God. The club has no secrets and meets in the open.

According to Earl Conner, chairman of the executive committee, large delegations of members and others from other towns in the county and from the rural precincts, have signified their intention of attending the Monday night meeting. A large attendance from Eastland is also expected.

CLEM GRAY APPEALS AFTER PLEADING GUILTY

AUSTIN, Jan. 5.—An appeal has been filed in the court of criminal appeals in the case of Clem Gray, from Upshur county, convicted of burglary and sentenced to 10 years in the penitentiary. Gray was also recently convicted of the murder of Otis Ballard in Titus county and given the death penalty.

According to the record in the burglary case, Gray pleaded guilty at his trial and made confession. In his appeal to the higher court he alleges that the trial judge committed error in permitting the state, over objection of the defense, to introduce testimony with reference to Otis Ballard and two other young men. This testimony, it is alleged, was prejudicial to the defendant. The burglary is alleged to have been committed April 29, 1923.

SHORT COURSE ANNOUNCED ON POULTRY AND FARMING

EASTLAND, Jan. 5.—The John Tarleton Agricultural college of Stephenville, Texas, will hold a short course on next Friday and Saturday, the first day to be devoted to poultry and the second day to general farming. The Eastland County Poultry Raisers' association, of which N. N. Rosenquist is president and Secretary Briggs of the Chamber of Commerce is secretary, is planning to send as many Eastland county farmers and poultry raisers down there for the two days as possible.

CHRISTIAN SCIENCE LECTURER SPEAKS IN EASTLAND ON WHAT IS REVEALED IN SCRIPTURES

William W. Porter of New York Takes for His Subject, "Salvation for Humanity and the Law of Love."

William W. Porter, C. S. B., of New York, member of the board of lectureship of the Mother Church, the First Church of Christ Scientist in Boston, Mass., was a recent visitor in Eastland and spoke in the high school auditorium on "Christian Science, Salvation for Humanity, the Law of Love."

Announcement of the coming of Mr. Porter to Eastland had aroused interest among members and friends of the Christian Science churches of Eastland and adjoining cities and a large audience greeted him. Mr. Porter said:

The presentation of Christian Science today, as throughout history, is strengthened by the premise that no person is expected to accept any part of this Science of salvation otherwise than as it appears to be revealed; and let it here be recognized that revelation itself is that orderly process of understanding in which thought is led by Christ, the true idea of love, out of the dim chambers of mystical existence into the mount of transfiguration where the nature of true being appears.

In Christian Science, salvation from sin, sickness and limitation is not a haphazard, uncertain future experience, but is the fulfillment of right desire according to law.

Law may be defined as exact and inevitable procedure. Spiritual law may be said to be the true idea of infinite love of God operating in human thought.

Referring to His words and to the fidelity with which they express lawful activity, Jesus declared: "If ye continue my word, . . . ye shall know the truth, and the truth shall make you free." Here is a clear statement of salvation indicating that salvation is in accordance with law, God's fulfillment. Jesus did not transcend law; He fulfilled it; that is, He carried out the promise lawfully. The influence of Christian Science upon human thought is natural and lawful.

Healed by With Word.
We read in the Scriptures: "He sent His word and healed them." The

creative cause called God must be expressed or manifested, and this expression, or manifestation, must come to the consciousness of men by means of the idea which reveals the nature of true being or God. This Word, or true idea of God, is tangible and true, although obviously it is not a material thing which can be weighed on the scales or measured with a yard stick; it is the divine or true idea of God. This true idea of God, entering human consciousness by the gateway of Christian Science, forms and reforms human thought until, through the process of evangelization, thought truly reflects the nature of the divine mind or God.

The solution for every problem exists in the divine mind. Because of this the nature of the divine mind

must be recognized to be identical with infinite love. That is reasonable. Is it not?

Hence the activity of the divine mind exists, as the law of love, alike for every person. On page 17 of the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, the discoverer and founder of Christian Science, one of the most concise statements of this law is found in these words, "Love is reflected in love." Here is a definite statement of unimpeachable law. God is love. When the true idea of love is present in your thinking you will find that your health, your business, your home, your sense of life are controlled by the law of infinite love or God.

Throughout the ages mankind has looked ever toward the promises. The children of Israel looked toward the promised land, yearningly; they sang psalms and comforted themselves with visions of a land flowing with milk and honey; and many are still viewing afar off this traditional land of promise, waiting to cross some material borders in order to reach it. Subsequent promises bespeak the advent of a Deliverer, whose name should be called Wonderful, the Prince of Peace. Inspired thought voiced the promise: "I will bring

the blind by a way that they know not; I will lead them in paths that they have not known; I will make darkness light before them, and crooked things straight. These things will I do unto them, and not forsake them," Isaiah 42:16). Jesus promised the coming of the comforter which should unfold the way of truth. During the intervening centuries, human thought has looked steadily, eagerly toward these promises, viewing them always through the uncertain mists of the future.

With human thought ever looking to the attainment of salvation in the hereafter, is it surprising that the people, their leaders and teachers have been so slow to hear and to understand the message of fulfillment which the Nazarene Prophet brought to tired, waiting humanity?

One of the evil results of looking into the future for salvation is found in delayed healing from sin, sickness, failure and lack. When suffering from these evils it is difficult, apart from Christian Science, to believe that relief from the discordant condition is straightway at hand. The inability to see that the healing balm is instantly found in Christ, the true idea which reveals the nature of God, is due to the educated beliefs that salvation is in matter or in a future state. This evil of procrastination may be broken, and health may be found, if one will only begin to realize that the fulfillment of the promises is not a reward to be obtained in a hereafter state, but that it is the unending and lawful activity of love in response to pure desire or prayer, here and now. And one may begin at this moment to experience the fulfillment of God's promises. Regardless of what mortal consciousness may argue about you for sin, sickness, failure, sorrow, you may at once begin to experience freedom from these evils by holding your thought rightly related to God.

The beginner may ask how he is to gain this realization. On page 465 of Science and Health, it is to be found the following definition of God: "God is incorporeal, divine, supreme, infinite mind, spirit, soul, principle, life, truth, love." When you think of God in the light of this definition—and you will be surprised and gratified to learn how constantly and helpful this definition will be present with you—you will find that your understanding of God

is growing in wonder and joy as Christ, the true idea of God, unfolds the grandeur of God's nature to your eager, hungry thought. When you think of God as the love which has tenderly mothered man and the universe throughout the ages, "world without end," when you realize that love's government is related just as much to you and to your affairs as to the worlds in space or to the orderly progress of the seasons, you will find that your day is much brighter, that discordant conditions are disappearing, that confidence is growing where fear held sway, that evil habits are leaving you, that good is becoming distinctly attractive, and that your influence and usefulness are finding expression in ever-widening activities of good. You will really prove in this way that God's law, the law of love, is always present to meet your human needs.

The promises have been ready for fulfillment throughout the ages. The trouble is that men have been busy preaching about a future salvation, looking forward to the future for the fulfillment of the promises, until this has become a sort of traditional rite or religious attitude of thought. It is this attitude of thought which has tended to exclude from human experience the idea of salvation when-ever it has lawfully appeared. Truth, however, chooses its own time and place as well as its messenger of manifestation.

Discoverer and Founder.
The healing of Mrs. Eddy in the year 1866 from a so-called incurable illness was to her the evidence of a present salvation, or the fulfillment of promise. This incident revealed to Mrs. Eddy the all-important fact that a healing and regenerative influence is associated with a radical or scientific reliance upon God. With this great revelation, there came to Mrs. Eddy a strong desire to learn how her healing had been wrought in order that she might

bring this understanding to those who suffered.

In the book, "The Life of Mary Baker Eddy," by Sibil Wilbur, is recorded interesting details of how, step by step, healings were brought about in the lives of other people through the ministrations of Mrs. Eddy. As others were healed of sickness and sin, the science of the healing process began to unfold clearly in her thought; and Mrs. Eddy saw distinctly that the healing and regenerative influence associated with a radical reliance on God is not and never was a supernatural power, but the natural effect upon the human mind and body of truth understood and demonstrated. Then followed a period of consecrated study, and the writing down in a precise and orderly way the logical conclusions growing out of these unusual experiences. These conclusions, together with the

premises of Christian Science and rules for its practice, are embodied more or less in all the writings of Mrs. Eddy, but more particularly in the book, "Science and Health with Key to the Scriptures." To present here a recital of the life and works of Mrs. Eddy would take more time than we have at our disposal. Such a recital would naturally include the details of how Mrs. Eddy founded and developed Christian Science in the face of what seemed to be overwhelming odds and opposition. It would include the history of how Science and Health was written and published—an incident filled with startling unfoldment as well as the proof of marvelous protection. It would tell of how a church was organized and later reorganized into The First Church of Christ, Scientist,

A New Body Type

THE Tudor SEDAN

F.O.B. DETROIT **\$590** FULLY EQUIPPED

The Tudor Sedan is a distinctly new Ford body type, admirably designed for harmony of exterior appearance and excellence of interior comfort and convenience.

At \$590, its price is not only lower than any previous Ford Sedan, but lower than any sedan ever put on the American market.

Body lines, long-panel rear quarter windows, broad cowl and high radiator give it grace and poise from every angle.

Wide doors, hinged to open forward, folding front seats, well spaced interior, dark brown broadcloth upholstery and attractive interior trimmings add measurably to its individuality, comfort and convenience.

See this exceptionally desirable new Ford product in Ford showrooms.

The 1924 Model Studebaker Light-Six Touring Car
\$995

The unprecedented popularity of the Studebaker Light-Six can be traced to the fact that it represents a degree of automobile value that the public has sought for years.

It is built complete in the great Studebaker factories.

By manufacturing complete motors, transmissions, axles, frames, bodies, tops, castings, forgings, and stampings, parts-makers' profits are eliminated from costs, and one profit only is included in Studebaker prices.

Phone or call for demonstration.

CHRISTIAN SCIENCE LECTURER SPEAKS IN EASTLAND

(Continued from preceding page.)

The Mother church, in Boston, Mass., with its branches extending into all parts of the civilized globe. It would set forth the organization of various church activities and related interests; the editing and publishing of weekly and monthly periodicals; the founding of a college and a board of education to perpetuate the correct teachings of Christian Science; the establishment of a daily newspaper, the Christian Science Monitor, which has been pronounced by representative men and women to be the ideal of ascendant journalism; the formation of a system of church government, the Manual of the Mother church, which has won the admiration and the commendation of the brightest judicial thinkers of the times. To carry out any one of these activities is a task which might well represent the life-work of any highly trained industrial captain. As thought is removed from her immediate day, the divine idea which molded and shaped Mrs. Eddy's nature becomes more and more apparent. Mrs. Eddy did not become the leader of Christian Science because she desired to be a leader. The power which impelled her progress was irresistible and final, and she became a leader because of her love for God and for humanity. Mrs. Eddy's life-work will stand as an enduring monument depicting fearlessness and faith, and pointing human thought with infinite tenderness to the compassionate and sheltering nature of God.

Christian Science Preserved
Mrs. Eddy gave to her discovery the name Christian Science. This name will always identify and distinguish the discovery. With rare insight also she founded the institutions necessary to protect and preserve the integrity of Christian Science teachings and works.

Human thought begins to understand today that Mrs. Eddy did not build the structure of Christian Science with "untempered mortar" upon the foundation of human personality. One of the far-reaching effects of Mrs. Eddy's teachings is to turn the thoughts of Christian Scientists away from the contemplation of her personality to divine principles. Thus Christian Scientists have learned the doctrine of pure Christian Science. When questioned concerning His teachings, Jesus replied, "My doctrine is not mine, but His that sent me." Christian Scientists have learned that the doctrine of Christian Science is of the divine realm of God, and that its coming is in fulfillment of promise and for the salvation of the race.

The religion which Jesus and his followers practiced healed the sick and regenerated thought. It thus gave evidence of spiritual power. In this the teachings of Jesus differed from the religious teachings of his day. Had the teachings of Jesus been obeyed in name and in purity, mankind today would know less of sin, sickness and death. History, however, bears no record of any distinguishing name given to these teachings or to this religion in those early days. Human thought succeeded in merging certain features of Jewish ritualism and pagan priesthood into a system of religion which adopted the name of Christ; but this system, thus formed, was not able to bring forth the spiritual understanding necessary to heal the sick. As a result of this, within three centuries thereafter, the healing power disappeared from the early church. The uplifting and healing influence of love unmistakably associated with the Nazarene and his followers is what distinguished the teachings of Jesus from the systems of his day. When, therefore, the influence disappeared in the third century we are compelled to admit, whether we want to or not, that dogma began to take the place of demonstration. When dogma is substituted for demonstration it is not long before unbelief and agnosticism begin to ask, Where is thy God?

Agnosticism Removed
Much of the discord and woe of the world is due to the lack of understanding concerning the nature or character of God. The main hindrance to the development of the true understanding of God is to be found either in an admitted or a hidden state of agnosticism or unbelief. In the presence of Christian Science agnosticism disappears. The basic teachings of this science unfold the nature of truth, or God, in a reasonable light. Agnosticism says, I do not know. Christian Science reveals the idea of true being or God; it dispels ignorance, which is the basis of agnosticism, with the simple facts of understanding. Christian Science shows that God does not need to be reconciled to men. It is very true, however, that the thought of men needs to be reconciled to God. This reconciliation Christian Science effects by revealing the true nature of God which heals and satisfies sick and tired humanity.

God.
Mankind, it may be observed, possess the capacity to think. In our thinking, however, it is not so important for us to know whether material man sprang from monkeys or from protoplasm. That, after all matters very little, except that such speculations may lead to confusion, as in the case of the man who fell asleep and dreamed that he was protoplasm, and who, when he awakened was puzzled, and wondered if then he might not really be protoplasm dreaming that he was man. The really important thing for us to know about man is whence comes his ability to think. This is not an undervalued capacity with man—something has created it. Obvi-

ously that which is responsible for the power to think is mind, because thought is a property or quality of mind. Should you believe that it is what you call your human mind which creates the capacity to think, try to bestow this capacity upon something. Where will you put it? In the brain, in the stomach, in the heart, in the lungs, the blood, or the bones? And after you have decided where you will place this capacity, just how will you go about to make it think? Of old it was Job who pondered: "Who hath put wisdom in the inward parts? or who hath given understanding to the heart?" The conclusion is natural that what you call the human mind—that which you would identify with the human brain—is not mind, because it cannot bestow the ability to think. That which creates and bestows the ability to think is infinitely above the human mind; it so far transcends the human mind that it must be identified as the divine mind or God, and as nothing else.

The inarticulate cry of humanity today is: Tell us about God!

Truly, if men are to believe in God, then must God be revealed to men as something other than a mystery. God must be revealed to the understanding. The Scripture says, "No man hath seen God at any time; the only begotten Son, which is in the bosom of the Father, he hath declared him" (John 1:18). God, the divine principle of man, cannot be known through the physical senses. In Christian Science God is known through the spiritual idea, or Christ, which reveals the eternal principle of the universe and man. And there is no other way than the way of Christ, or the spiritual idea, by which God can be known of men.

Whether a man follow the leading of revealed truth, or what he is pleased to call his reason, the conclusion is inevitable that a governing power, or what we call God, exists. For the sake of illustration, no one will contend that the universe is controlled either by the genius or the hands of men. The universe and its government may be accepted as an object lesson indicating by goodly and precise activity something of the nature of a governing power which transcends human capacity. If we are agreed upon this we must, in the nature of things, accept the statement that the universe is controlled by a power apart from men. This power, by reason of its goodly operation, evidenced by "the early and latter rain," and by fruitful harvest, meeting the needs of mankind as a mother meets the needs of her children—this goodly power must be recognized to be infinite love.

Men have marveled that the study and the understanding of true being or God as revealed in Christian Science should bring healing to the sick, reformation to the wrongdoer, cheer to the sorrowing, strength to the weak, and life to the dying. But why should it be thought strange that the nature of God understood unfolds the harmony of true being? To know God to be infinite mind, transcending mightily the limitations of the human mind, unfolds the comforting and kindly assurance of the actual omnipresence of God. It is a fact which brings no little comfort to the Christian Scientist that no place exists where infinite mind is not; hence the presence and protection of the divine mind or God may be enjoyed everywhere.

Reconciliation.
Christian Science enables men to have one God and to look to the infinite mind for guidance. By rightly relating desire to the divine mind thought begins to manifest the wisdom and activity of this mind, in whose government there is found no incentive to array men against men and class against class. The antagonisms which obtain among human personalities, the conflicts which arise between classes, will cease only when men learn, as taught in Christian Science, that there is a supreme governing principle which controls harmoniously all existence, and that the nature of this principle is found to be the nature of unchanging love.

One may say that if this be true then Christian Science has solved an age-old problem—that of antagonism or conflict between men and classes. And this is the exact fact. Christian Science reveals a universe which is filled with spiritual or true ideas—ideas of health, agreement, courage, kindness, confidence—God's ideas; and these ideas are becoming more potent and permanent than are the educated beliefs in sickness, old age, war, conflict, death.

Christian Science imparts the true idea of man and creation in the midst of imperfection; and this true idea unfolds unity of thought and agreement, together with the consciousness of health, confidence, and success. Think for a moment what this revelation means! Men and women surrounded by a world of failure, sickness, and conflict suddenly learn that these distortions are not legitimate; that they are trickeries and impositions; and that there is at hand in Christian Science a new heaven and a new earth wherein is found the consciousness of true being. Think of what this understanding means of men and women who have heretofore believed that the only way they can escape from this world of failure, sickness, and conflict is to die out of it! Have you ever pictured to yourself a day in which evil tendencies, sickness, death, would not be known? Yes, you have thought of it; and you have yearned to see the dawning light of that day. This era is at hand in Christian Science. Like the wireless and the radio it always has been here

though unrecognized by human thought.
Today Christian Science has revealed the science of salvation which is unfolding to human thought with infinite tenderness the nature of divine love and its availability to meet human needs, whatever those needs may be. In this revelation of divine love is found the fulfillment of that Scripture which declares, "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ."

OFFICERS OF CENTRAL BAPTIST CHURCH ELECTED RANGER, Jan. 5.—At the annual conference of Central Baptist church last Wednesday evening officers were elected for ensuing year as follows: Judge J. N. McFatter, treasurer; B. V. Bollinger, clerk and financial secretary; E. O. McNew, Sunday school superintendent; T. B. Russell, chorister; Miss Elliott, pianist.
The clerk, Sunday school secretary and 10 or 12 new deacons will be elected at the next meeting and ordained for active service this year. The annual report of the church contained an enviable record.

U. S. MARSHALL ELDREDGE ANNOUNCES RESIGNATION.
United Press.
FORT WORTH, Jan. 5.—United States Marshal A. R. Eldredge for the northern district of Texas, said today that he had resigned his office, sending his resignation by letter to Attorney General Daugherty at Washington.
Eldredge has been marshal only two months. Sam Gross, of Dallas is mentioned in Republican circles here as Eldredge's possible successor.

HEIRS PRESENT CLAIMS TO BURIED FORTUNE.
United Press.
ATCHEISON, Kan., Jan. 5.—Three heirs to the estate of Mrs. Mary Tharels today sought to establish claim to \$35,000 in gold buried in two caches, one in Atchison and the other near Superior, Neb.
When the will of Mrs. Tharels was filed for probate, it was found to relate that her grandfather had buried \$35,000 on his farm near Superior, leaving a chart describing the location. Mrs. Tharels said that in 1904 she had located the treasure and had

exhumed \$12,000, which she believed was her share. She said she had left the remainder where it was buried and had buried the \$12,000 that she carried away at the end of Seventeenth street in Atchison.

Snug Comfort for Winter Driving

Those whose business needs require a car of the roadster type will find this Buick four-cylinder roadster with its winter enclosure ideally suited for cold weather driving. Its roomy body provides ample comfort for two passengers. Large compartments afford unusual space for samples and baggage. The powerful Buick valve-in-head engine assures more than enough power for every kind of road and grade. Added to these features is the greater certainty of control contributed by its Buick four-wheel brakes.

J. R. STUBBLEFIELD'S BARN IS DESTROYED BY FIRE

EASTLAND, Jan. 5.—The fire department made a run Friday afternoon to the J. R. Stubblefield place in response to a call which stated that a barn was burning. Owing to the rough condition of the roads it was impossible to make any speed, and the barn, together with about 500 bales of hay had been destroyed by the flames when the department reached the scene of the fire.

FELONY CASES SET DOWN FOR TRIAL THIS MONTH

The following felony cases are set for trial in the 91st district court for the week beginning Monday, Jan. 21:

Monday—Cleve Barnes, possessing liquor; Ide Lee Brown, theft (three cases); A. W. Brown, theft (three cases); Frank Ames, transporting liquor.

Wednesday—Earl Hart, manslaughter; George Lines, manufacturing liquor; Jim Curtis, selling liquor; C. E. Richardson, forgery (7 cases.)

Over 90 per cent of One Million Still in Service

Since delivering their first car, early in December, 1914, Dodge Brothers have manufactured and sold one million motor vehicles.

Over 90 per cent of these cars are still in active service.

This striking fact stands alone—a unique and overwhelming tribute to the principles and methods responsible for a product of such enduring worth.
