

MORE ARRESTS EXPECTED IN BIG MAIL PLOT

Loot Totalling \$5,150,000 Result of Gigantic Plan, Officers Say.

CHICAGO, June 16.—More arrests were expected today as postal inspectors unravelled what they call a gigantic plot to raid the United States mails.

"Big Tim" Murphy, Chicago labor leader, was still in jail, together with Vincenzo Cosmano and "Mike" Northrup, charged with implication in the Dearborn street mail robbery. Some of the bonds and money stolen in the raid were found in the home of Murphy's father-in-law.

"We feel that we have stamped out the conspiracy which has cost the government millions of dollars in the past," assistant attorney general John Northrup stated today.

Northrup said he expected about eleven arrests to be made today. Some are involved in mail thefts other than the Dearborn station raid.

These are the mail robberies of the last few months, that Northrup said are solved, or near solution:

Omaha, \$3,500,000.
Toledo, \$1,000,000.
Union Station, Chicago, \$500,000.
Pullman, Ill., \$100,000.
Minneapolis, \$50,000.

Murphy has been indicted for the Pullman robbery.

SENATE VOTE ON PACKERS IS DUE TODAY

WASHINGTON, June 16.—The senate is under agreement to vote on the packer control bill late today.

Some kind of bill will pass, it appeared certain, as the final day's debate began, but whether it will be the house bill, empowering the secretary of agriculture to regulate the meat packing industry, or the senate bill, entrusting such regulation to a commissioner, under the secretary of agriculture, appeared doubtful. Even senator Norris, part author of the senate measure, was not very confident today of acceptance of his plan as substituted for that worked out by the house.

FINAL ACTION ON LEGION MEMORIAL HOSPITAL DEFERRED

AUSTIN, June 16.—Final action over the American Legion Memorial hospital at Kerrville, has been deferred by the state board of control until a meeting of the executive committee of the legion is held at Dallas next Monday.

This decision was reached at a conference between the board and representatives of the legion.

Assistant Attorney General L. G. Sutton declared that the legion must surrender to the hospital fund \$20,000. This will probably be one of the most important matters to come up before the meeting Monday.

WELL, HERE'S WAY TO GET RID OF SKETERS

AUSTIN, June 16.—The sure mosquito annihilator is one "mother gambusia affinis," commonly called "pot belly," or "top minnow." As a mosquito exterminator, there is nothing quite as good as "mother gambusia," according to assistant state health officer Blevins today.

The merits of the minnows were called to the attention of the press when Mr. Blevins returned from lunch to find one hundred and eighty-three "gambusia affinis," which before there had been one only—"mother gambusia."

"Just get a 'mother gambusia,' and place her in water barrels, cisterns, or any other breeding places of the mosquito," said Blevins.

"Mother gambusia" will do her part, and then the little minnows will devour quantities of "wiggie-tails" every day." Destruction of the wiggie-tail means no mosquitos, which means no malaria and no yellow fever, according to health officer Blevins.

SURGEON'S TEETH PULLED HE REGAINS HIS SANITY

DUQUOIN, Ill., June 16.—Illinois physicians marvel at the recovery of Dr. Bartz, prominent surgeon who has been released from the Southern Illinois hospital for the insane at Anna.

Dr. Bartz became violently delirious several days ago and was ordered to the asylum. Physicians there discovered that defective teeth were the cause of his condition, and after these were extracted Dr. Bartz in two days' time, became perfectly normal and has been permitted to return to his home.

Three Lose \$6,945 To "Mutt and Jeff"

BRITISH RAID!

United Press. BELFAST, June 16.—One of the most extensive military raids yet attempted in Ulster was under way in County Monaghan today.

All military units were employed in a dragnet which practically covered the county. Airplanes aided the movement; cavalry and motorcycle squads sped over the rough roads, cutting off the escape of Sinn Fein sympathizers.

ONE LONESOME DOLLAR GIVEN FOR KIDDIES

Out of All the Wealth in Ranger Fund Is Now But \$53.

It is with fleeting hope and bowed head that little children, victims of circumstances over which they have no control, will read today's announcement of the growth of the Ice and Milk fund since yesterday. The fund has increased by one dollar. That dollar was contributed by Bob Taylor. The total sum is now \$53.

In commenting on the lack of interest, a welfare worker who is in close touch with the situation said: "Everyone understands how necessary it is for children to be well fed, to have a bloom in their cheeks instead of a shadow; to have a sparkle in their eyes and a happy, joyous smile on their lips. The unfortunate children may have these things if the more fortunate would only wake up and give them to them. The burden of the individual would be almost nothing. A dollar or two here and there it is done. It is a wonderfully contented feeling one has down inside when they know their hearts have proved human and they have done a little act that they know has helped someone else."

Out toward the West End there is a widow and a little child. She could not help being a widow and the child could not help being born. The baby is ill and in such a condition that its mother must be with it constantly. She cannot leave it to obtain money for funds even for milk. The possession of ice is beyond all hope. Neighbors have helped and are helping.

It is for such as these that the Times is asking contributions.

ANTI-DRY PARADE IN NEW YORK WILL BREAK RECORD, IS BELIEVED

NEW YORK, June 15.—To mourn—and, if possible, to resurrect—John Barleycorn, an army larger than that with which Alexander conquered the world will march in New York July 4.

The call, sent out in a two-inch advertisement by Frank C. Drake, newspaper artist, for "100,000 men opposed to the tyranny of Volsteadism, to parade for the restoration of personal liberty," has been answered by 325,000 New York residents, and "enlistments" still are pouring in at the rate of from 25,000 to 100,000 a day.

The originator of the idea called for "men," but the women refused to be left out, and more than 100,000, from every walk of life and every status of society, are pledged to march.

It is estimated that more than 500,000 persons will participate in the parade, which probably will be the largest New York has ever seen.

CONFEREES ON NAVY BILL AT LOGGERHEADS

WASHINGTON, June 16.—House and senate conferees on the navy bill today broke up in complete disagreement, the house conferees withdrawing from the conference.

TELLS HOW TO ENTICE FLIES INTO DEATH DRINKING ORGY

MILWAUKEE, Wis., June 16.—A prescription for "fly hootch" that makes flies fall in a dead faint was given by Health Commissioner George C. Ruhland.

Dissolve three tablespoonsful of formaldehyde in a pint of water. Fill a glass three-fourths full and put a blotter over the top. Then invert. The blotter stays wet. When you put the blotter where the flies can see it they drink heavily and fall over.

If there are babies about be sure the blotter is out of their reach, Dr. Ruhland warned.

REP. MASON DEAD.

WASHINGTON, D. C., June 16.—Representative William Mason, of Chicago, died at his hotel here today. His death followed a recurrent heart attack.

LEON WILSON GIVES UP GEMS WORTH \$6,800

Companions Accept Invitation to "Put 'Em High" and Donate Cash.

REWARD!

A reward of \$500 has been offered by Leon Wilson for the recovery of the diamonds stolen from him last night by two highwaymen.

In true melodramatic style the highwaymen described as "Mutt and Jeff" threw a dead tree across the road last night and thereby collected a toll of \$7,000 in money and diamonds. The victims were Leon Wilson, Nelson Hemman and Fred Pearce who rode in Wilson's car from Eastland. The hold-up occurred about 10 o'clock a short distance west of Oiden. The bandits collected two diamonds, one a stud, and a ring from Wilson. The gems are valued at \$6,800. Wilson was also relieved of \$70. Hemman donated \$55 and Pearce was touched for \$20.

Deputy Sheriff John Barnes and Berry Nalls were notified and spent several hours going over the ground but could find no trace of the hijackers.

Accepted Invitation.

The party was coming down the hill when they came to a dead tree that had been thrown across the road. The machine was halted, and by the time it was still a man was standing on either side of the running board, inviting the men to "put them up and put them high." They did. None of them was armed.

The victims were forced to step to the ground where they were searched thoroughly.

It is believed by officials that the robbers knew of the movements of the party and had framed the plan for the purpose of securing Wilson's diamonds.

The men are described as being one tall and one short when follows the general description of the men implicated in nearly every robbery that has occurred in this vicinity in several weeks. This has caused the police and county officials to label the pair "Mutt and Jeff."

MINERS PLANNING AID TO COMRADES DISPERSED

CHARLESTOWN, West Va., June 16.—Miners reported last night concentrating at a number of points in the Kanawha coal fields preparatory to marching to aid the miners of Mingo county were sent back home by officials of the United Mine Workers of America, President Keeney of district No. 17, announced today.

ITALIAN WARSHIP IS DOCKED AT GALVESTON

GALVESTON, June 16.—The Italian cruiser Libia arrived at Galveston today to remain until Tuesday. The vessel is commanded by Captain Ernesto Burzagli and carries 400 men and twenty-one officers. The vessel is open to visitors here.

THESE MARINES HAVE VERY PROMINENT NAMES

WASHINGTON, June 16.—Secretary of the navy, Edwin Denby was at one time a member of the United States marine corps.

At present on the muster roll of the marine corps there are thirty-six men bearing the name of "Davis," fourteen bearing the name of "Wallace," eleven whose surname is "Hughes," six "Hoovers," two by the name of "Weeks," one "Fall," one "Daugherty," one "Hays," and one "Mellon." Not to mention a "Harding" whose home is in Washington, D. C.

BLUSHING HURTS CHANCE FOR HIS LIFE INSURANCE

CHICAGO, June 16.—When a young man blushes readily his chances of getting life insurance immediately diminish. His blush marks him as a high blood pressure "suspect."

This was related to the American Institute of Actuaries by F. E. Flanagan, of Des Moines.

WISCONSIN BILL TO CLOSE ROADHOUSES AT 10 P. M.

MADISON, Wis., June 16.—Roadhouses in Wisconsin open after 10 p. m., will be considered disorderly if the assembly concurs in the senate's Bennett bill.

WEATHER

Tonight and Friday, partly cloudy.

ARMENIAN DIPLOMATS HERE TO THANK AMERICA FOR AID

Gabriel Noradounghian, vice-president of the Armenian mission to the peace conference, who recently arrived in New York from Europe. He is here to thank the American people, through President Harding, for the aid given to his stricken people.

QUIT DRILLING!

ARDMORE, Okla., June 16.—Drilling operations in the new Hewitt oil field, near here, ceased today, under orders of the state corporation commission.

Overproduction in that field is the reason for issuance of the order, according to advices from members of the commission.

The order will be extended to cover other oil fields in the state if the overproduction continues, it was understood today.

NINE TRIED TO DEFRAUD GOVT CHARGES SAY

LEAVENWORTH, Kan., June 16.—Nine men were at liberty under bond here today, following their arrest on charges of theft and conspiracy in connection with the disappearance of army supplies from Fort Leavenworth.

Other arrests were expected, bringing the probable total to eighteen men.

Dr. S. N. Jackson, negro, was charged with theft of surgical instruments from the Fort Leavenworth laboratory. His hearing was set for June 24.

Others arrested were taxicab drivers, former soldiers and inmates of the prison, who are charged with being implicated in removal of blankets and other supplies from the fort.

WATERS OF PECOS ARE RECEDING IS REPORT

STAMFORD, Texas, June 15.—Word has been received by the West Texas Chamber of Commerce that the high waters of the Pecos river in the vicinity of Barstow have receded and that the actual damage done by the rise is not as great as was first expected. The lowlands overflowed but most of the damage resulting from the storm was caused by hail and hard rains.

BIG BUSINESS SEEKS CONTROL KENYON SAYS

WASHINGTON, June 16.—Big business has seized on the Republican pledge of "less government in business" and more business in government, as an excuse for trying to control the United States, Senator Kenyon of Iowa charged in a speech to the senate today on the packers control bill.

FIGHTING FOR MONEY ON WANE IN MEXICO

MEXICO CITY, June 15.—The business of making a living by fighting seems to have undergone a decline in Mexico. This is indicated by the fact that 1,200 soldiers, some of them retired and some in active service, have asked the government for tracts of land for small farming.

PRAGUE-WARSZAW AIR LINE OPERATES DAILY SERVICE

PRAGUE, June 15.—The Franco-Romanian Air Navigation company has opened its direct communication, Prague to Warsaw. Airplanes leave the Prague airfield twice a week on Tuesdays and Saturdays, at 8 p. m., reaching Warsaw at 1 p. m.

The flight from Warsaw to Prague is timed for the same days, the planes leaving Warsaw at 8 a. m., arriving at Prague at 11 a. m. From Prague they go on to Strasbourg (3:30 p. m.) and Paris, arriving at the French capital at 7 in the evening. Letters and parcels are also carried.

RANGER WOMAN SUED BY WOMAN FOR \$30,000 FOR ONE HUSBAND

EASTLAND, June 16.—"She stole my husband, depriving myself and my children of his love, protection and association, and in return I ask \$30,000 'heart balm.'" That is the gist of the pleadings of Mrs. R. A. Green in a suit filed against Mrs. L. E. Hatfield for the \$30,000 damages. The suit will probably come up for hearing today in the Ninety-first district court and is the first "heart balm" suit ever filed by one woman against another in Eastland county.

Both the plaintiff and defendant are residents of Eastland county. Green is manager of the Corner Drug store in Ranger.

Stole Husband's Love. The petition of the plaintiff, Mrs. Green, asserts that about Jan. 1 defendant, Mrs. Hatfield, "with malicious intent to entice, influence and induce plaintiff's husband to abandon her, took up intimate and continuous association with him and traveled about from place to place with him in an automobile and went with him and induced him to go with her to Dallas, Vernon, Olden and Ranger and gave him large sums of money, about \$12,000 to \$15,000, to use in operating drug stores in Olden, Vernon, Dallas and Ranger."

Green Sues for Divorce. These inticements, influences and inducements caused R. A. Green to lose love and affection for his wife and family, the petition alleges, and in spite of the pleadings, protestations and wishes of his lawful wife he stayed away from them and in November entered his plea for a divorce.

Because of these things and others the petition states that plaintiff has suffered damages to her reputation, mental suffering, humiliation and the loss of her husband, his assistance, companionship, love, attention and support in the sum of \$30,000.

Mrs. and Mrs. Green were married in 1911 and their children were born, Martin Green 8 years of age at the time of the filing of the petition, and twins, who were 2 years old at that time.

Mrs. Hatfield's husband has been dead for several years.

FIDELITY AT FRANKELL IN STEWART PAY

The Frankell pool again occupied the limelight yesterday when the Fidelity Oil & Gas company reached the Stewart pay. Its well came in with a production of 15,000,000 feet of gas and 300 barrels of oil, from the 3,600-foot level.

It is believed that this well will be one of the best wells developed on the new horizon. As quickly as the gas subsidies sufficiently the well will be given a shot and it is thought that it will equal the flow of the Stewart No. 2 which came in for 2,500 barrels and is steadily producing.

Slightly lesser importance is considered the action of the Williamson No. 1, owned by the Eldorado Oil & Gas Co., in the Pleasant Grove section. This well has been producing 250 barrels of oil for about a year. Yesterday it was given a shot while the flow could not be judged by the Eastern Torpedo company and at that time the response gave assurance of it becoming a heavy producer.

Another old well in the same neighborhood will be shot today.

'WORKIN' STIFFS' AND THEIR PROBLEMS ARE BEFORE FEDERATION

DENVER, Colo., June 16.—The American Federation of Labor today battled with the problems of the unskilled workers. A plea for organization and protection of the unskilled men was contained in a resolution reported out by the committee on organization with a recommendation that it be killed.

SHRINE TO BUILD CHILDREN'S HOSPITAL

DES MOINES, June 16.—The Imperial Council of the Shrine decided in secret session to establish a hospital in St. Louis dedicated to the crippled children of North America, it was learned today. The site to be purchased will cost \$150,000.

CATTLEMEN SAVED!

CHICAGO, June 16.—Many livestock raisers of the country have been saved from possible bankruptcy today following the formation of a \$60,000,000 pool to help them out of financial difficulties.

Details of the pool were being worked out today in a conference of the leading bankers of Chicago.

PATRIOTIC ESSAY PRIZE WON BY RUSSIAN, HERE ONE YEAR

LOUISVILLE, Ky., June 16.—A year ago, Alex Applebaum, 11 years old, came with his family to Louisville from Russia. When he entered the George W. Morris school he could not speak a word of English.

And Alex Applebaum was awarded the first prize of \$3 for his patriotic essay on "Love of Country," for the primary grades. The prize was given by the Kentucky Sons of the American Revolution.

JERSEY CITY, June 16.—Selection of the referee for the Dempsey-Carpentier bout was indefinitely postponed today by the New Jersey state athletic commission.

FIRST WHEAT!

WICHITA FALLS, June 16.—The first wheat of the season was marketed from wagons here yesterday, bringing \$2 a bushel, including 75 cents bonus. It was raised by C. McKinley.

WRECK KILLS FIVE, 35 HURT IN NEBRASKA

Several Missing When Train Plunges Through Weakened Bridge After Storm.

OMAHA, Neb., June 16.—Four persons are known to have been killed, and thirty-five injured, when three coaches of Chicago & Northwestern passenger train No. 606 plunged through a bridge over Cottonwood creek, two miles east of Crawford, Neb., early today.

The death list may run much higher, as many of those injured may die. Many passengers have not yet been accounted for, and these may be dead.

The train was bound from Lander, Wyoming to Omaha, Neb., on a branch line. The engine and several coaches had passed safely over the bridge before the structure collapsed.

The three coaches were hurled into the mad flood waters of Cottonwood creek, which has destroyed thousands of dollars worth of property in the northwestern part of the state in the last three weeks.

Rescue Impossible. Rescue work was impossible for several hours after the disaster because of the swollen stream. Those imprisoned in the coaches cried for help.

Relief trains with doctors and nurses on board, and laden with first aid supplies, arrived at the scene shortly after daybreak.

The dead were removed to Chadron, Neb.

The injured were being rushed to a hospital at Hot Springs, South Dakota.

The heaviest injuries and probable loss of life is believed to have occurred among passengers in the smoker and one of the day coaches.

One Pullman is reported hanging precariously on the left bank of the creek, and is liable to plunge into the surging waters at any moment. The passengers in this car are said to have escaped.

Rescue workers are helpless, according to word received here. Dragging and diving for bodies perhaps imprisoned in the submerged coaches is impossible, because of the strong current of the creek, dispatches said.

Aviators from Omaha and Council Bluffs are going over their machines, preparatory to "hopping off" for the scene of the accident, to offer their assistance in rescue work.

STORM CAUSED WRECK.

CHICAGO, June 16.—The sudden rising of Big Cottonwood creek three miles east of Whitney, Neb., due to a local storm weakened the Chicago & Northwestern bridge, causing a wreck last night, according to railroad reports today. The tender, baggage, mail, day coach and chair cars plunged into the creek. The engine passed safely and the sleeping cars remained on the tracks.

OMAHA SAYS FIVE.

OMAHA, June 16.—The known dead in the wreck of the C. & N. W. passenger train which plunged into Big Cottonwood creek near Crawford, Neb., reached five, according to reports received here today.

The fifth body was taken from one of the three submerged coaches in the creek. Identification was impossible. Several were reported to have died while being rushed to a hospital at Hot Springs, S. D. At least thirty-five persons were reported severely injured.

WOMAN FACES CHARGE WHEN MAN IS SLAIN

WINNSBORO, Texas, June 16.—John Milan, 30, was killed, and Guy Carlisle seriously wounded in a shooting scrape that took place near here last night.

Charges have been filed against Mrs. H. S. Newsome and her son in connection with the shooting.

Milan was both shot and stabbed in the breast. Carlisle, a son of Joe Carlisle, of Mineola, was shot through the neck with the same weapon with which Milan was killed.

Mil Milan and Carlisle were drilling an oil well for a local company.

LEGISLATURE'S SPECIAL SESSION MAY BE SET FOR ONE WEEK LATER

AUSTIN, June 16.—Governor Neff indicated today that he is now considering calling the special session of the state legislature for Monday, July 18, a week later than his first suggestion of July 11. His reasons are not known but he broached the matter today to representative Frank B. Horton, Dallas, and rather indicated that he now favors the later date.

ALL THE NEWS OF THE WEST TEXAS LEAGUE

WRANGLESOME MELEE GOES TO BRONCS WHEN NICK IS PEEVED

Two-Bagger Ruled Foul at Critical Time and Carter's Hurling Is Easy for Angelo.

Between Nitro boots, umpire's decisions and Angelo knocks, the Nitros lost a ball game yesterday. Principal offenders were Nick Carter—himself—and, possibly, Umpire Davis. It was Nick's error in the third which paved the way for four Bronco scores. It was the umpire's decision in the same round which speeded the difference between two Nitro runs across the pan and three men dying on the bases. It was the resulting wrangle and the 100 per cent peeve resulting therefrom that neutralized any stuff Nick may have started out with, and as a result, the final score was 17 to 9. The 9 itself indicates the Nitros are on the upgrade, for at one time the count was 14 to 0. Fast play in the first round made it appear that the Nitros had struck their old gait and were about to win a ball game, at least so far as the defensive end of it was concerned. Speedy work by the fielders had held the Bronco away from the plate, although Nick was reached for two dinky bloes, and one was fouled out. Truesdale led off with a Texas leaguer to right, but was pitched at second when Scoggins hit to Hamilton. Williamson followed with another dinky dropped just back of Tate, putting two on. Robinson punched a sizzler through short, but Clapp held Scoggins at third. Nick rallied and struck out McKay and Conrite, but Murphy after the count had been worked 3 to 2. Scoggins had rushed in and had to wait for Conrite to get out of his way. Under other circumstances he might have stolen home.

Too Many Boots. But in the third came the break Nick's poor support of himself aided in giving the Bronco four runs, though he had some help. Two were down when the explosion occurred, and Scoggins was watchfully waiting at second, whence he had proceeded on a solid swat to left. McKay hit one of those high bouncers between third and the box. Both Carter and Tate went after it and Jody fumbled the ball. With the double steal on, Robinson peg turned McKay back from second, Scoggins edged off third as McKay moved back toward first and was allowed too long a lead, so he counted when Hamilton's relay of Murphy's toss came too late. A bit more watchfulness on the part of Murphy would have cut off the run. McKay made second on the throw to the plate. Conrite walked. Lewis tapped one to Nick, who let it filter through his legs and two men scored when Murphy's hurried stop and throw went by Hamilton. Kelly poked what should have been a clean hit to right, but Lovey raced in, tripped the ball and his throw beat the runner to first and Hamilton dropped the peg. Another score. It was a good example of how many runs can be manufactured out of nothing when the breaks come right and numerous enough.

Much Wrangle. Then came the Nitro half, with the game apparently lost and nothing to worry about. Clapp walked and two successive fielders' choices nipped the runner at second. Then with Singleton on first, Hamilton hit through short. Lovelace drove a high fly down the first base line. It hit the boards somewhere within inches of the foul line. He said last night it hit the plume on the hat on the rider on the horse on the sign painted on the fence. But the stands went crazy and the wrangle on the ball field resulted in Allen's banishment from the park. Lovey hit one back at Baugh too hot to handle, but it didn't bring in any runs. The crowd rode Davis through-out the remainder of the game. His decision, whether right or wrong, and both sides are sure as to which it was—had taken away Ranger's chance to win a ball game. But Nick was through. A walk, Truesdale's three-bagger and Nick's second error allowed two more runs to come in in the next round. Nick's peeve or alibi lasted one-third of the next round, during which time he was nicked for six long hits and eight runs. There was one error and several balls that might have been handled more perfectly, but they were due to the Nitros' eagerness to handle hard-hit balls. Lefty Adkins finally took the mound and retired the side. The Bronco got to him for three runs at intervals, one of them due to Elz's bonehead when he had a forecourt at the plate and the other two to a walk and clean hitting.

Nitros Huddled. The massacre was redeemed by the hustling spirit of the Nitros, who tried for everything just as though they might have won the game, and by their offensive work, during the latter stages, they pounded Baugh freely, and had the best of the game's final innings. New York's Women league cared for nearly 40,000 suffering animals last year.

THIS TIME LAST YEAR. Ruth made his nineteenth home run off Lefty Williams in Chicago. McHenry's home run was the only tally in the St. Louis-Philadelphia game. The gates were locked at Atlanta because Little Rock presented players against whom Atlanta refused to play.

Score: SAN ANGELO. AB. R. H. PO. A. E. Truesdale, 2b, 6, 1, 3, 3, 1, 1; Scoggins, ss, 7, 2, 2, 3, 0, 1; Williamson, cf, 6, 4, 3, 0, 0, 1; Robinson, rf, 4, 1, 1, 4, 0, 0; McKay, 1b, 6, 2, 3, 4, 0, 0; Conrite, lf, 5, 2, 1, 4, 0, 0; Murphy, 3b, 4, 0, 1, 2, 0, 0; Lewis, c, 5, 2, 1, 0, 0, 0; Kelly, c, 4, 1, 0, 7, 1, 0; Baugh, 1b, 6, 2, 3, 0, 1, 0. Gray hairs appear in some heads much earlier than in others. Nothing has yet been discovered to prevent them. Dyeing the hair destroys its natural beauty, and is not restored by the use of the best taste.

HOLLIS WINS AND LOSES IN DOUBLE BILL

Special to the Times. ABILENE, Texas, June 16.—Big Bill Hollis went the entire route on the mound in a double matinee here Wednesday and won the first from the Sweetwater Swatters nicely, 2 to 1, letting the league leaders down with but three hits.

In the second matinee Hollis was going as good as ever, but a wobbly game in the field put across two mark-ers in the second session and one in the third, and after that the Swatters began to hit the big boy freely. Old man Fleharty was touched quite lively in the first game.

Tim Griesenbeck joined the Eagles today from Fort Worth, and will be used to relieve Joe Lewis of some of the backstopping work.

Score: First Game. SWEETWATER. AB. R. H. PO. A. E. ORPHANS TAKE LAST HOME GAME WITH BEARCATS

Special to the Times. CISCO, June 16.—The orphaned Scouts beat Ballinger 10 to 4 yesterday, in what was perhaps their last visit to the old homestead. Edgar was pounded to all corners of the lot, the Scouts collecting seventeen knocks, including healthy homers by King and Browning, and seasoned with a bunch of two and three-ply raps. Earnshaw, who second bases, first bases and otherwise breaks into the lineup, pitched for the Scouts and held the Bearcats to nine blows. They trailed all the way. Less than 100 fans witnessed the game.

BASEBALL POOLS WORST IN PITTSBURGH, IS CHARGE

CHICAGO, June 16.—Pittsburgh probably is the greatest center of baseball pool gambling in the United States, the board of temperance, prohibition and public morals of the Methodist Episcopal church declared today. The board listed 120 towns, mainly in Pennsylvania, New York, New Jersey and New England states, where it has investigated gambling. It presented photostatic copies of clippings from twenty-four newspapers telling of fatal quarrels growing out of gambling games. In the twenty-four cases twenty-one were killed and eighteen wounded.

"YOU AIN'T SEEN NO HARD LUCK"

If you are sorry for yourself—if the whole works are wrong and the world is dark and dreary—look at this picture and cheer up. In the Massachusetts Hospital School they call him "Sunny Jack" Guiney. Study the picture, and you will know why. The other day his team, every member of which is a cripple, played ball at Franklin Park, Boston, and "Sunny Jack" did the honors from the slab. Here is a picture of the cheery-looking fellow, photographed during the play while pitching a hot one over the plate.

Boost 'Em

The Nitros, when they are right, are easily among the topnotch teams of the league. They proved that during the first six weeks of the season.

Now comes a season of disaster. For the last eleven days their best efforts have gone astray and been ineffective. They have not won a game. But their losses have not been for lack of trying. Yesterday they were out there hustling from beginning to end in spite of the lopsided score.

The biggest trouble with the team is merely that it is not winning. When an hustling nine sees its best efforts go astray, when it sees the results of an afternoon's work spoiled by some one break or other, it is bound to lose some confidence and become more erratic. That interferes with the speed and accuracy with which it functions.

But some day fortune will smile again. A hustling ball team cannot be kept down, and when another game is won, it will be a different story. The old confidence and the old results will be back. The hitting will be harder—though the Nitros are grabbing off a respectable number of knocks—and the fielding will be cleaner, because nervousness will be gone.

Nitro players should have the support of Nitro fans. They are not there doing their best all the time, and best efforts deserve best support. That way, results will show the sooner. It is a hustling ball club because it is not winning makes bad matters worse. To quit the game because they are going bad takes the spirit out of the players.

Razzing the Umps

Umpire Davis will be out there all alone today and probably the stands will ride him. It might be well for the fans to take a leaf from the players' notebook. Ask them about it. They will tell you they are not sure over that decision yesterday.

At any ball game, the umpire may expect some razzing, but not as vicious as at Ranger. They all say that Ranger is the worst town in the league in that respect and that Sweetwater, the next worst, is a poor second. An umpire is human. He is out there calling them as he sees them, and he has to make about 800 decisions in every ball game. It is to be expected that he will miss some of them. Whatever the umpire says goes. There can be no change, regardless of razzing yells from the stand. So why not accept whatever he decides as part of the game, and win or lose within the limits he lays down? Encourage good plays by either team, be as funny as you please without being malicious, and there will be more sportmanship and enjoyment of sport. Take Davis, for instance. He is a clean young fellow, a Shriner and a student at New Mexico Military Institute, where he graduates next year. There he is, editor of the school paper and a first lieutenant in the cadet corps. That speaks well for his popularity among those who know him. Let's give him a chance. Try being friendly and admit the umpire is honest, for a change. We haven't won any games by being harassed, and continual razzing certainly mars the game for a large number of the spectators. Do not confine your drinking of water to mealtimes. Drink before breakfast, between meals, and in the evening, but not later than one-half hour before bedtime; cold water in the stomach prevents sleep. American women in Tokio, Japan, have refused to accept the honor of being allowed to become members of the American association in Tokio.

TRANSFER TRACK FOR BRECKENRIDGE HELD UP BY COMMISSION

The question of a transfer track at Breckenridge whereby the Cisco & Northeastern would have access to the tracks of the Hamon road is being held up until the railroad commission decides if it has jurisdiction. It is doubted if it has. This information was brought from Austin by J. A. Fraser, vice-president of the Hamon line who, with its president, Frank Ketch and Jake Hamon Jr., was present when the question was put before the commission. Mr. Ketch and Young Hamon with their attorneys returned to Ardmore, Oklahoma.

The C. & N. E., it is said, has been fighting for a transfer track at Breckenridge since the two roads were built into that place. The request has been denied by the local road, and the opposition line carried it before the state commission where the question of jurisdiction was raised. While it is under advisement both sides are preparing themselves for the hearing if it comes up.

ONCE YEARLY SUNLIGHT HITS BOTTOM OF MINE AND SCARES NATIVES

By Associated Press. SOMBRETE, Zacatecas, Mexico, June 15.—Once a year, on June 21, sunlight penetrates to the bottom of the deep La Joya mine shaft at Sombrete and illuminates it as though the infernal regions had been opened, according to the miners.

The phenomenon was explained by Vice Consul Oscar Harper to El Paso, Texas. The mine is on the line of the Tropic of Cancer. At noon, every June 21, the sun is vertically above penetrating to the bottom of the 1,400 foot excavation, where before all was darkness, alarms many of the native miners, who fear that they have opened up the infernal regions, according to the vice consul.

In a letter to J. W. Hamilton of St. Paul, who is urging that May 30 be made a day of international observance, Mr. Ward said he was sure his endorsement would be iterated by Colonel Crossfield, head of the British Legion and Charles Bertrand, president of the Inter-Allied Veterans.

Mr. Ward refers to the resolution adopted by the Inter-Allied Veterans that the organization's members "should do all in their power to secure that other nations adopt May 30 as Memorial Day for those who gave their lives for their country in the late war."

Mr. Hamilton also has letters from prominent Europeans approving the idea, which brought forth a letter from Stephane Luzanne, editor of the Matin, Paris, with an editorial favoring the proposal. Senator Eward Wavrinisky, of Stockholm, a member of the Interparliamentary Union, said "Swedish papers will support the movement."

One point in Mr. Hamilton's plan, which he stresses, is that on May 30, "all the world would halt its activities for five minutes at noon, while silent tribute would be paid to the hero dead."

INTERNATIONAL MEMORIAL DAY IS SUGGESTED

By Associated Press. ST. PAUL, Minn., June 15.—An international Memorial Day, to commemorate the sacrifices of the world war, has just received the endorsement of Cabot Ward, vice-commander of the Inter-Allied Federation of Veterans.

Mr. Hamilton now is seeking the aid of Southern senators to have the Memorial Day in the Northern states made national. He hopes to accomplish this through action by congress.

BACHELOR WANTS TO INVEST IN RANGER; DON'T CROWD, LADIES!

A gentleman from the state of South Carolina writes to the Chamber of Commerce for information as to how he can best invest twenty thousand cold simoleons in Ranger in the oil or some allied industry. Careful men, dont crowd. His name can only be secured from the Chamber of Commerce anyway. The gentleman goes further and says that he is a bachelor and would like to have a position before investing. Carefully active in campaigns for physical examination of your child, or your wife, or your husband. Don't out everything on the Lord for He has enough to stand from our individual "cussedness." Had you ever thought that the death might be due to carelessness?

Child welfare is the foundation stone of the temple of civilization and progress. As the bodies of the kiddies are builded so is the nation and in this work the state board of health is increasingly and successfully active in campaigns for physical examination of your child, or your wife, or your husband. Don't out everything on the Lord for He has enough to stand from our individual "cussedness." Had you ever thought that the death might be due to carelessness?

RINGWORM ON FACE AND NECK

Sore, Red and Itched Terribly. Cuticura Heals in 3 Months.

"My trouble was ringworms on my face and neck. At first I had little red pimples in circles and then they got dry and scaly. The skin around the ringworms was sore and red and itched terribly, and I would scratch. "This trouble lasted a good while before I started using Cuticura Soap and Ointment. After I had used them about a month I got relief, and when I used them for three months I was healed." (Signed) Miss Helen Dolan, 644 Roborg St., Baltimore, Md. Cuticura Soap daily and Cuticura Ointment occasionally prevent pimples or other eruptions. They are a pleasure to use, as is also Cuticura Talcum, a fascinating fragrance for perfuming the skin. Soap: E. C. Clark & Co., Baltimore, Md. Ointment: W. L. Chas. & Co., Baltimore, Md. Cuticura Soap & Ointment without charge.

PROGRAM

LAMB—Gladys Walton in "All Dolled Up," also Rollin comedy and Pathe Review.

LIBERTY—"Tex" in the "Trail of the Cigarette," and "Century comedy," "Fresh From the Country."

MAJESTIC—Six acts of Pantages vaudeville and popular picture program.

TEMPLE—Elsie Ferguson in "Sacred and Profane Love," also Mack Sennett comedy "Officer Cupid."

MAJESTIC.
Paul Fetching, a beautiful electrical novelty introducing the Musical Pear Tree, musical roses, musical sun flowers and last the musical flower garden in which all the known flowers are made to send out fragrant tunes.

Wells and Boggs; Jack Wells and Joe Boggs two well known vaudeville favorites in their latest comedy success, "The Grand Army Maa."

Orville Stamm, a versatile and clever entertainer presenting feats of strength such as playing a violin with a 70-pound bull dog strapped to the arm that carries the bow, he also introduces singing, recitations and crayon drawing.

Olga Steck with pianist; the musical comedy favorite.

Wilkins and Wilkins, presenting comedy patter and novelty dancing. Charles Wilkins is known as "the world's greatest pantomime dancing comedian."

Stever & Lovejoy, two well known vaudeville favorites in their latest success, "How I Discovered Her," a rhythmic playlet that is a decided novelty.

Majestic, Thursday, Friday and Saturday. This is the last time Pantages vaudeville plays here this season. However, the Majestic will remain open and will bill the best musical comedies and vaudevilles on the road.

LAMB.
A love story with a fight for every kiss is promised playgoers who like excitement, when "All Dolled Up" begins its local engagement at the Lamb theatre today only.

Gladys Walton, the fascinating screen lassie who won thousands of new friends with "Pathe Tights," is the star of "All Dolled Up," and she exceeds her previous record for thrills per minute.

The story deals with Maggie Quick, a shop girl, whose fairy prince comes in just in time to save her from the advances of a floor-walker but who, in turn, leads her into a situation from which she has to fight her way against terrific odds. Scene by scene the story is swept to a climax that is breath-snatching in its force and which leaves the spectator with a feeling that he or she has been in the middle of the fray.

Florence Turner, well known to every theatregoer, plays the principal feminine role in Miss Walton's support, while such popular players as Fred Malatesta, Ed Heary, Richard Noron and John Goff have important "masculine" parts. Helen Bruner, Ruth Royce and Lydia Yeamans Tius have appealing feminine characterizations which add to the interest of the story.

"All Dolled Up" was written especially for Gladys Walton by John Colton. The screen adaptation was made by A. P. Younger, and the production was directed by Rollin Sturgeon.

Like an Arabian Nights extravaganza the locale shifts rapidly from a palace to a dingy hall bedroom, from a big department store to a red house and from the city to the country, keeping the spectators' interest thoroughly engaged at every point.

TEMPLE.
Elsie Ferguson has in "Sacred and Profane Love," which will be the feature attraction at the Temple the-

ORDINANCE ON BOND ELECTION IS NOT PASSED

Donation of Fifteen Feet on Commerce to T. & P. Goes Through.

An ordinance to call an election to vote bonds for a water supply for Ranger was discussed at an adjourned meeting yesterday afternoon but was not passed. The ordinance to donate fifteen feet of Commerce street to the Texas & Pacific Railroad company was passed to the final reading. M. R. Newnam presided at the meeting in the absence of Mayor John M. Gholson who is in Colorado.

Both Commissioners R. H. Hodges and Sandford Dean objected to the passing of the water ordinance until a complete report on the Haganman lake had been made by Engineer Hawley who is now working on a report which it is hoped will be ready for the commission within a day or two.

Could Recall Election.
Mr. Newnam declared that he could see no harm in passing the ordinance and getting things under way for the reason that if the commission was not satisfied with the terms and conditions of the Ranger water system it could recall the election. He declared that he knew nothing about the project and would not until the engineer's report had been received, and was agreeable to postponing action until a later time.

It was explained that the only reason for bringing the matter up at this time was to get the legal wheels in motion and thus save much time in case the commission decided to buy the water system.

Neither Mr. Dean nor Dr. Hodges could see the need for haste.

No man who has suffered from a disease of shame has a moral, and he should have no legal right to marry until he knows as the result of an expert examination that he is no longer the bearer of an infection which can produce terrible results.

afre, today and Friday, a splendid adaptation of her stage success which was in turn adapted from Arnold Bennett's novel, "The Book of Carletta."

It has been some time since this beautiful and talented Paramount star has been seen on the screen. She has been enjoying a highly successful season on the legitimate stage, and "Sacred and Profane Love" was received with loud acclaim. In the supporting cast, Court Nagel is seen in a good part, while Thomas Holding is a prominent part. It is a picture which has for its theme a woman's deep, abiding faith. A passionate highly strung girl indulges in such hero-worship for a gifted, temperamental pianist that her romantic fancy conjures up an overwhelming love.

Carletta first saw the musician on the occasion of a big concert. Like sympathetic magnets their glances met in all the vast auditorium, met and held until after the concert, when the artist sought out the woman whose inspiring attention had been wafted across the footlights to him. A mutual love developed between the two. Simultaneously with the girl's discovery that her lover was an asinine fiend, her guardian's death separates her from him.

Though sought by other men, thinking her lover lost forever, she was yet faithful to his memory, and finally there came a time later when it was possible to give him something of the consuming love she felt for him. The chance to serve him was a glorious opportunity to her, and the manner in which his regeneration was brought about makes a story of gripping interest.

NEGLECTED TITLES.

If states, or "nations," or individuals and what not continue to be permitted by the supreme court to file suit against the state of Texas for the "recovery" of land alleged to have been unlawfully taken, at some time veiled in the fogs of antiquity, there will soon be no need for partition to make Texas smaller.

The Greer county suit sliced considerable off Texas. The Red river suit gives Oklahoma another strip. New Mexico itches for some hundreds of square miles at two different places along the border. Now come the Cherokee Indians and ask for some.

Suits like these may be the delight of the lawyer and the justice, but to the layman, they are the most ridiculous pieces of business ever given the stamp of solemn judicial approval.

Admitted that a stream is a boundary, it stands to reason and common sense, if not to exact interpretation of the wording of a treaty, that somewhere in the flowing water is the boundary line. There certainly can be no intent to give one state or nation a strip of territory a mile or less in width on the opposite side of this natural division. If the "south bank" or the "north bank" or any other bank is named as the boundary, it was so stated for some reason other than the control of the territory bordering thereon. At least so our horse sense would tell us.

But for the sake of argument, let us grant that this premise is wrong. Nearly a hundred years ago, it would not make any difference. Whatever the treaty title, there was no real title to these lands. There was nobody there to claim them. But with the westward march of people, they were occupied, claimed, administered and otherwise taken possession of. They were improved and otherwise handled as to benefit mankind. And then because they have become immensely valuable, a counter claim which has been allowed to rest for years is set up and held valid.

It would seem that present conditions as well as forgotten "scraps of paper" should have some bearing on such suits. As a matter of equity it is a disgrace to our civilization that such claims can be permitted. Changed conditions should have more bearing than musty documents which conferred titles not worth claiming at the time of their writing. To rule otherwise is to turn a hardworking and industrious people over to the tender mercies of sharpers and schemers.

Perhaps some Americanization expert will explain to us how it is that the first things a foreigner learns after leaving Ellis Island are profanity and how to ask for more pay. —Buffalo Express.

About all that ever happens to national extravagance in congress is to be scored and flayed, and it doesn't seem to mind these experiences at all. —Ohio State Journal.

Russians are beginning to realize that raising hell doesn't produce enough food to keep them from starving. —Toledo Blade.

So far, retail price cutting has been done so carefully that you can hardly notice the scars. —Brooklyn Eagle.

Waiting in the Barber's Chair

BY MORRIS

MOUNTAIN OF GOLD IS IDLE IN AUSTRALIA

Consists in Great Accumulation of Wool Which Can't Be Moved.

SIDNEY, Australia, June 16.—Australia, today, in common with the rest of the world, is feeling the economic pinch. Europe is sick, and its economic sickness, like the measles, is catching. That sickness has infected Australia just as it has infected other countries equally dependent upon Europe for the sale of their primary products.

The grave position of the wool trade, owing to the large surplus of unsold wool on hand and the fact that the new crop is coming in, has accentuated the position. Under the conditions of high prices, Australia enjoyed unexampled prosperity. Prices in the world's markets were high, and we benefited correspondingly. Now we are confronted with a fall in prices so rapid, of those things upon which Australia depends as to compel us to look the position squarely in the face.

Before his departure for the imperial conference, the prime minister, Mr. Hughes, uttered a note of warning regarding the present position. It was a clarion call for economy prompted by his recognition of the financial difficulties of today. Australia lives mainly on what its gets for its wool, its hides, and skins, its meat, wheat, metals, and other products, but with the exception of wheat, everything has fallen and is falling. Seventeen Millions Locked Up.

According to one prominent in the trade, the wool-grower has anything from fifteen to seventeen millions of money locked up in his unsold wool. Under the old scheme, this amount would have been in the vicinity of \$24,000,000. With the co-operation of the wool growers, the federal government is now tackling the whole problem. Representatives of Bavaria, the carry-over wool, which was formed to stabilize prices, so that our wool might not be sacrificed, of the Woolgrowers' association, and the associated banks conferred with Mr. Hughes, at his invitation, before his departure for London.

They asked that the government should not permit the export of wool except on the guarantee that the shipper would not sell under the Bavaria reserve. It has now been suggested that the restriction of export should be limited to a few months, by which time, it is considered, the whole position would be tested.

A PRAGMATIST'S DIARY.

Newspapers nowadays carry on their financial pages a statement of the rates at which American money may be exchanged into currencies of divers nations. It makes a pretty little list, as printed; but there are heartaches in it.

There is a business man in a central European country today who knows that. So do his wife and daughter, doing housework in a home in Pelham Manor.

This business man, until a few months ago, owned a flourishing factory in his native city in Europe. Everybody in Europe was either wrecked or rescued by the war; and he was in the latter class. He did so well that not long since he decided to sell his business, retire, and come to those fabulous United States, where his daughter should attend the university and become a true American girl, just like the stenographers he had seen in the Hoover relief office at Prague.

Over they came, trunk and suitcase, inspected, landed, money changed into dollars everything—all complete. They went to a mild little New York hotel to live and then came the staggering shock. They discovered that in view of American prices in dollars, and the disastrous rate of exchange, their "comfortable fortune" in central Europe had become a beggar's pittance in the U. S. A.

Desperately frightened, the father took part of the precious, dwindled funds and sailed back on the next boat. He will start in business over again in the home town, and send for wife and daughter as soon as he is able. In the meantime the two left behind have been sitting in a room in the cheapest hotel they could find, waiting and worrying, and seeing their funds ebbling away.

Last Sunday they were down to three dollars. Daughter, who reads a little English, pored over the "Help Wanted" section of the Sunday paper, and found a Pelham Manor family needing a sturdy aid below stairs. Neither had ever done much housework, but hunger sharpens the wits. So there they are, waiting. When the father can manage it they will go back—without having seen this Niagara Falls of which travellers used to tell.

It would astonish this good family to find itself posted in a list of war casualties. But, after all—why not?

EX-DEPUTY CONSTABLE FINED FOR GUN TOTING

EASTLAND, June 15.—Luther Browder of Cisco, was convicted in the county court at law on charge of carrying a pistol and fined \$100 and costs this morning. Browder was a deputy constable at Cisco at the time of the alleged offense. It is pointed out that under the amended law it is not permissible for a deputy or special officer, drawing a salary of less than \$40 to carry arms, this amendment having been passed in 1918, and it was under this phase of the law that defendant was convicted. Notice of appeal was given by the plaintiff.

Gorms are usually a hand-to-mouth affair. Better wash up.

HENRY FORD PAYS \$100,000,000 DEBT, OFFICIALS ARE INFORMED

Letter Says Detroit Manufacturer Has Met Last of Notes, Failing Enemies' Plot to Ruin Him Financially; Statement Explains Articles About Jews.

Copyright 1921 by the United Press. DETROIT, June 15.—Henry Ford, in a letter to officials of his company throughout the country declares he has foiled certain enemies who sought to ruin him financially and has paid up the last notes against him, amounting to \$100,000,000.

The letter which referred to Ford in the third person was signed by his secretary, E. G. Liebald. The communication also explained the Dearborn Independent's anti-Jewish campaign.

The letter follows: "The most talked of publication in the United States today is the Dearborn Independent. No Ford official doubts that. He probably hears about it more than he cares to, sometimes. And that is what we want to talk to you about.

Backs Dearborn Articles. "The Dearborn Independent is Henry Ford's own paper and he authorizes every statement occurring therein.

"One proof of the virility of the Dearborn Independent is the enemies it has made. Henry Ford has always had enemies. He made enemies when he single-handedly fought the first auto trust which sought to restrict auto manufacturers under the so-called Selden Patent. He made enemies when he voluntarily raised the minimum wage of the country to the highest point it has reached and then raised it again. He made enemies when he proclaimed his horror of war. He made enemies again when he threw his whole energy into winning the war and refusing to take a dollar out of it for himself.

"There are a lot of persons and interests in this country who would like to see it proved that business cannot be run on the Ford idea. "You have a most intimate example in recent months. You remember when a 'whispering campaign' started with its slogan, 'We'll get Ford!' A little later it broke in a deluge of newspaper reports that the Ford organization was in financial difficulties.

Whole Story False. "You did not see any denials, did you? Mr. Ford was watching the progress of that storm of propaganda across the country, deaf to the appeals of the press associations for one word from him that would let them down gracefully from the hoax they had perpetrated on the country. "He wanted to discover where and

how that storm started and he did. "The whole story was false. "Every banker in the United States who was at all conversational with the Ford financial status knew it was false.

"Mr. Ford was not asking for a delay, although more money than Wall street controls was offered him for the taking.

"Recently he paid the last of the notes involved in the transaction of buying out the stockholders, an enormous transaction involving one hundred million dollars.

"The last of these notes were paid before maturity. You did not see any spurge about that in the paper, did you?

"A man of whom it was said two months ago, 'we've got him,' clears himself of every financial obligation in an enormous sum and yet it is not news to the interests that will never forgive Henry Ford for introducing the square deal in business. "No Attack on Jews.

"People ask you every day perhaps a question which runs like this: "Why is Henry Ford attacking the Jews?" The answer is: "There is no attack and no campaign against the Jews."

"The whole Jewish question, as every business man knows, has been fostering in silence and suspicion here in the United States for a long time and no one has dared to discuss it because Jewish influence was strong enough to crush the man who attempted it.

"The Jews are the only race whom it is verboten to discuss frankly and openly, and, abusing the fear they have cast over business, Jewish leaders have gone from one excess to another until the time came for a protest or surrender.

Calls Articles Fair. "The Dearborn Independent, in a series of articles, eminently fair, temperate and judicial, has endeavored to set forth the facts and has won the gratitude of tens of thousands of Americans by so doing.

"You, as officials of the Ford Motor company, may deny all Jewish explanations for this series of articles, namely, that 'a Jew stung Ford in a business deal'; that Jewish bankers refused to let Ford have a loan, and that Ford is a Jew hater anyway."

"No Jew has succeeded in getting the better of Mr. Ford. No Jew has had a chance to refuse him a loan. No Jew can say that he ever got anything but the squarest kind of a man to man deal from Mr. Ford as thousands of Jewish Ford employees can testify.

YOUTH HELD BY POLICE HAD IN SUITCASE ALL CHARTS OF FAME'S SEA

ST. LOUIS, June 16.—Three grizzly bear knives, a lariat, a black mask, a ranger's badge, a detective's star, three books on the Ku Klux Klan, others on wrestling and camping and a large volume on "How to Become a Detective," comprised the accoutrements with which Carson Nigro, 17, 2030 De Kalb street, Chicago, set out to conquer the wild and woolly West.

Thus armed, he reached St. Louis, with a pal. Yesterday, while carrying a suitcase, Nigro was stopped in the railroad yards near Seventeenth street and Clark avenue, by men, who already had learned "how to become detectives." They took Nigro to the place where detectives are prone to reveal their knowledge. Nigro's pal fled at the approach of the policemen.

To the regular detectives Nigro confided that he, and his friend had desired to get a taste of the world at large, Chicago not being sufficiently extensive to satisfy them. They had no definite aim in view, he said, but the contents of the suitcase bore out his claim that any of divers careers possessed certain

tures. His father, he said, had tried to discourage Nigro's desire to explore the country at large and backed up his efforts with certain physical arguments on the nether portion of Nigro's anatomy.

The father has been asked by the police to make known his wishes as to the disposition of the son, who is perusing the numerous volumes of the suitcase in a cell at police headquarters.

GALVESTON.—Following an invasion of ants here, Hooker Larson, 12 years old and exceedingly business-like, announced a remedy. Master Larson's means of check-mating the invaders is toads—horned toads—and he appeared in the downtown business district here with a basketful of them, together with a sign announcing that his wares would put the most beligerent ant to rout. "They open their mouths and follow the ants' trail and swallow 'em up," Master Larson explained to prospective customers.

JUAREZ, Mexico.—Consular bulletins reaching the consulate in Juarez announced that a school of agriculture just established in Nuevo Leon has been assured of state and federal support. That state now has a college, normal school, law school, medical college and a business college.

RICHEST HEIRESS TO WED

Miss Dellora Angell, of Lake Forest, Ill., who inherited \$37,000,000 from her aunt, Mrs. John W. Gates is to wed C. Wilson Campbell, Los Angeles oil promoter, according to reports from Chicago announcing the engagement. Miss Angell met Campbell while at school in California last winter. He is a graduate of Ohio State University and owns oil lands around Tulsa, Okla. The bride-to-be is eighteen years old and will receive a quarter of her inheritance when she is thirty, another quarter five years later and the remainder when she is forty. The young woman also inherited and received \$400,000 from the estate of Charles W. Gates, her cousin and son of John W. Gates.

TINKER BOB STORIES

By CARLYSLE H. HOLCOMB.

A TRAVELING BRIAR PATCH.

Now Billy Mink had a long body and short legs. He was very spry but could not run very fast. He was seldom caught away from the underbrush of the forest where he could find hiding places easily. His feet being short, and his neck being long, he could crawl into very small holes. And not a few times did he chase Jack the Rabbit out of a hole. Jack knew better than to enter a hole that had only one entrance for he was always on the lookout for Billy Mink was Mr. Waseel.

When Tinker Bob appeared Billy was in a pickle for he knew he had done wrong by going after Chief Porky, the Forceme of the Forest. Whether the King had seen him or not the King could see the thorn-quills in his nose and by them alone he could tell where Billy had been. And Oh, those old thorn quills anyway! His nose would be all swelled out of shape if he didn't get them very soon. But he would rather suffer and have his nose swell up than to have the King of the Forest know anything about his trouble with the Forest Chief.

"Well, well, well," said Tinker Bob as he came up. "What does all this mean Billy? You look as though you had run into the Briar Patch."

"O King, I did run into the Briar Patch," said Billy, thinking that would let him out very nicely and he would not have to mention anything about Chief Porky. "My nose is pretty sore but I think it will get better after while. I want to go to see Dr. Coon about it soon."

"What kind of a Briar Patch did you get into?" inquired the King. "Well, it was a terrible Briar Patch and so full of Briars that I could not see my way to go through or to come out," replied Billy.

"But the Briars seem to be black and white, and some of them very long. I don't know where there's a Briar Patch like that about here."

most imperceptible accumulation of responsibilities, obligations, and dignities, the unpleasant habits of his wife and children, the round of family quarrels, the jealousies, the half-concealed and unadmitted hatreds, the degrading monotony, the dreary level of all ways being restrained and decent. Then would come the breaking point—the pretty waitress with her friendly ways, the forgetting of bald head and wrinkled face, the inexplicable return of a caricature of the fervor of youth, the more inexplicable surrender of the innocent—or half innocent—cause of this amazing phenomenon. Such a narrative is sorid enough for anybody. It is chock-full of the bloomiest sort of modern psychology. Pollyanna herself would sour and grow morbid under it. The opportunity ought not to be missed. —N. Y. Globe and Commercial Advertiser.

EASTLAND WAR HERO'S BODY EXPECTED SOON

EASTLAND, June 15.—The family of Winter Daniels, for whom the Eastland American Legion Post was named, and who lost his life overseas during the late war, has received notice from the war department that his body is en route home, and as soon as it is definitely known as when it will arrive notice of funeral arrangements will be given out. The remains are expected almost daily. The funeral services will be conducted under the auspices of the American Legion, and will be of a military nature.

"In the health of the people lies the wealth of the nation."—Gladstone.

DOG HILL PARAGRAFS

By GEORGE BINGHAM.

A cow was seen standing in front of the Tickville millinery store Saturday afternoon looking wishful at the new green straw hats in the window.

Cricket Hicks is saving up his one-cent stamps and as soon as he gets one more he can send his letter off.

Miss Hostetter Hocks, who recently sent off after a mail order catalog containing about twelve hundred pages, has finished the task of perusing it from cover to cover and wanting all the things that were priced higher than she could pay.

GERMANS IN PRUSSIA BITTER AGAINST OCCUPATION BY ALLIES

DUSSELDORF, Germany, June 15.—The anti-occupation sentiment is much stronger in Dusseldorf, Ruhrort and Duisburg, the cities of Rhenish Prussia recently occupied by the French.

The reason may be that the French are occupying that part of the right bank of the Rhine that held near the Ruhr in real military fashion and the occupation is much more severe than that on the left bank.

The hatred of the population is directed more especially against the French, and children are being brought up in a constant terror and

undisguised score of the occupying forces which gives but little promise that the real brotherly love between French and Germans will be achieved with the coming generation.

The Humorous Side. Occupations bring out the witty sides of the populations and books have been written about the good jokes which the Belgians perpetrated on the Germans while the latter were ruling their country by force.

The absolute refusal to speak French even by persons well acquainted with the language is one of the most common ways in which Germans show their dislike of the French military men.

Few women in Dusseldorf, Ruhrort or Duisburg will be seen in the company of a uniformed French soldier or officer in the streets.

The entrance of a party of French officers in a beer garden caused the temperature to descend to the freezing point and surrounding tables to be vacated as promptly as they were by Belgians in their cafes when German officers came marching in.

The Belgians and the French suffered occupation of territory more stoically than the Germans and with self-pity. The owner of the palatial home recently requisitioned in Dusseldorf for the general staff of General Degoutte, the French commander, wept bitter tears as he departed from his house.

The Mild and Ice fund committee of fifteen club women will meet Thursday afternoon at 4 o'clock at the home of Mrs. C. E. Terrell on Pine street.

The women are meeting for the purpose of making plans to arrange for the distribution of the fund. The results of the meeting will begin the campaign to find the needy ones.

Dr. Terrell will give free prescriptions where attention is needed. The following women will meet this afternoon: Mmes. C. O. Terrell, Gullahorn, Collie, E. J. Barnes, E. D. Finney, Scott Hill, Branney, Stockman, Terrell, Steele, H. R. Gholson, Jones, Garrett Bohning, Harkrider.

CHICAGO, June 16.—A woman moonshiner de luxe was arrested here. She is Mrs. Margaret Beltz. In her home was a thirty-gallon still in operation. A 4-year-old daughter was "minding it" while her mother cleaned the house.

Mrs. Beltz refused to ride in a police patrol, but paid for a taxicab for herself and the officers.

INDIA IS NEW MARKET FOR TEXAS COTTON

GALVESTON, June 16.—A new market for Texas cotton is opened, according to Galveston cotton and steamship men, with the departure here recently of a cargo of that staple destined for Bombay, India.

Some 3,000 bales of Texas upland cotton already have been lifted at shipside here and several thousand more bales are soon to be shipped, according to available information.

Like other tropical and subtropical countries, India produces a staple inferior to the hardy Texas product. Her cotton is said to be short, coarse and unmarketable and her total crop in 1919 aggregated only 4,676,000 bales.

SMALL CHANCE FOR DUTY ON VEGETABLE OIL

Department of Agriculture Shows More is Exported Than is Imported.

WASHINGTON, June 15.—What is apparently a death blow to the fight of the southern tariff congress to obtain a duty on vegetable oils was struck today, when a report by the department of agriculture showed that the export of vegetable oils from this country for the first three months of the year exceeded the imports by nearly 85,000,000 pounds.

The southern tariff association in a brief had said that this country is being ruined by importations. In the face of these figures showing exports to exceed imports, Republican members said that the brief of the southern high tariff men has been demolished.

In 1914 the imports exceeded the exports by about 105,000,000 pounds. The next year the pendulum swung the other way and it was not until 1916 that a steady increase put the exports away ahead of the imports.

In 1914 the imports exceeded the exports by about 105,000,000 pounds. The next year the pendulum swung the other way and it was not until 1916 that a steady increase put the exports away ahead of the imports.

HOSPITAL BIDS WILL BE OPENED SATURDAY

According to its advertised proposals, the city commission and county commissioners will open bids for the construction of the city and county hospital Saturday. Seven contractors have applied for plans of the new building and it is thought they will all submit bids. Cash bids were asked and it is thought that if the award is made Saturday construction will start within a very short time.

NOTICE

We have just installed a new 2,000-lb capacity refrigerator in our fresh fish department.

We will appreciate your order, large or small.

SHOE PROFITS REACH HIGH AS 81 PER CENT

Everybody in Business, Tanner to Retailer, Shared in Earnings.

By International News Service
WASHINGTON, June 15.—Large profits taken by everyone in the shoe business, from the tanner down to the retailer were disclosed by the Federal Trade commission in a report to congress.

The Trade Commission's report was in response to a congressional resolution directing an investigation of the high prices for shoes which prevailed during 1918 and 1919.

Earnings of thirty-two typical of shoe leather, whose production in 1918 was about 65 per cent of the total production, were 131 per cent on investment in 1918, the report states, "and 29.8 per cent in 1919." Of these tanners the earnings of twenty-two companies tanning kid leathers with production in 1918 about 70 per cent of the total reported kid leather production, were greatest, averaging 26.8 per cent on investment in 1918 and 81 per cent in 1919. Earnings of 341 shoe manufacturers with output in 1919 representing about 62 per cent of the total output shown in the census of 1919 were 16.2 per cent on the investment in 1918 and 29.8 per cent in 1919.

Earnings of thirty-two typical shoe wholesalers and jobbers averaged about 22 per cent on investment in 1918 and about 31 per cent in 1919. These earnings, like those of tanners and shoe manufacturers, resulted from wide margins of profit taken on each shoe sold. The increased earnings in 1919 were due to the fact that selling prices increased by greater amounts and percentages than did costs.

While the high shoe prices were largely attributable to large profits, the report of the commission declares that the whole situation was "the result of abnormal conditions of supply and demand arising from the war which were both economic and psychological."

"Strike" Halts Advance.

The onward march of prices and profits was finally ended by the consumers themselves with the "buyers' strike" of 1920, the commission finds.

"The failure of leather prices and shoe prices to decline as extensively as did hide prices after the buyers' strike," the commission finds, "may be attributed to the fact that other costs had not declined as much as raw material costs, and to an apparent tendency to base selling prices on actual, rather than replacement costs—a policy inconsistent with that adopted in 1919, when prices were advancing."

While the commission's investigation closed with the year 1920, it holds that present prices of hides and conditions existing in the industry "justify an expectation of still further declines in the quoted prices of leather and shoes."

ELKS OFFER LITTLE CONSOLATION TO THE VICTIMS OF BARBECUE

Free transportation to hospital and flowers is all the Elks promise candidates who cannot stand the "gaff" June 24 at the Elks' barbecue to be held in Ranger. If there is any slow marching and sad singing the candidates will have to pay their own bills.

The celebration is open to all Elks. Candidates from several out-of-town points will on that date take their lives in their hands and with a supplication for mercy attempt to survive their fate, whatever it may be.

TEXAS-CUBA TRAFFIC IN PRODUCE GROWING

By Associated Press.
GALVESTON, Texas, June 15.—The ingredients for many Tom and Jerries, egg-nogs, sherry and eggs and golden fizzies left here recently aboard the shipping board steamer Lake Florian, destined for Havana, Cuba. The vessel carried 185 cases of Texas eggs, believed to be the first direct shipment of its kind from this state for a number of years.

The Lake Florian also had between her decks seventy-five coops of Texas chickens, 640 crates of onions, forty-eight sacks of potatoes, twenty-five steers and 514 live porkers, all destined for the Cuban capital. According to commission men of Galveston this is the beginning of an extensive farm products movement to Cuba. Regular sailings between Galveston and Havana, it is said, are to be maintained to accommodate these shipments.

DOG PROVES LOVE AFTER AGED MASTER'S DEATH

EUGENE, Ore., June 15.—Proof that there is no greater love than that of a dog for his master was given by a Scotch collie which had to be lassoed before neighbors could remove the dead body of his master, Christian Wizenreid.

When neighbors came upon the body of Wizenreid, a 93-year-old resident, the dog refused to allow them to come close. After he had been subdued the faithful animal followed the hearse twelve miles and entered the undertaking parlor, where it took considerable maneuvering to put him out.

COWARDLY SPIDER STINGS SLEEPING POLICE CHIEF

PASADENA, Cal., June 16.—A humble spider nearly put Chief of Police C. H. Kelly hors du combat. The spider, instinctively a cowardly insect, the chief avers, stung him over the eye while he was asleep. Result: The optic is swollen almost shut.

MASONS WILL HOLD BANQUET FRIDAY NIGHT

Members of Ranger Chapter No. 394, Royal Arch Masons, and visiting companions to the number of several hundred will assemble tomorrow night at Masonic hall for the chapter's annual banquet.

A council of Royal Arch and Select Masters, opening at 2 o'clock will precede the banquet.

Dinner will be served at 7 o'clock and at 8:30 the Good Samaritan degree will be conferred on a large class by High Priest J. F. Dreinhofer, assisted by two companions, Rev. J. W. Griffith of DeLeon and T. J. Taylor. All Royal Arch Masons, their wives, widows, mothers, sisters and unmarried daughters over the age of 15 are eligible for this degree.

Following the initiation a program consisting of a song by Miss Arreta Davenport, reading by Mrs. J. F. Dreinhofer and address by Grand High Priest O. O. Chrisman will be rendered.

The celebration will be concluded with the serving of refreshments at 11:30 o'clock.

THREE MORE DAYS OF PANTAGES VAUDEVILLE WILL CLOSE SEASON

Three more days of Pantages vaudeville are announced by the Majestic beginning tonight and continuing through Saturday night. These three days will mark the end of the vaudeville season, as the Pantages circuit suspends for the summer months.

It was the intention of the Majestic management to end the Ranger season with last week's performance, but its plans were changed at the last moment.

Olga Steck, the popular musical comedy star, heads this week's offering, and there will be five other pleasing acts.

FORD TRUCK LOSES FORWARD WHEELS WHEN SHE'S 'HIGH-TONED'

A plebeian Ford truck was high-toned by a touring car of the same family yesterday afternoon at 4 o'clock and lost two wheels because of the snubbing. The touring car was able to go about its business. The accident occurred at Pine and Rusk streets.

The touring car, going south on Rusk street, struck the truck, headed east on Pine, just abaft the forward wheels, hurling it into the curb, where it remained for some time. Eye-witnesses said both vehicles were traveling at a goddly rate of speed, but there was no arrest and no curiosity evident as to the ownership of either vehicle.

CONVICTS ARE SMARTER THAN FOLKS OUTSIDE, INVESTIGATOR SAYS

By Associated Press.
CLEVELAND, Ohio, June 16.—Convicts in penitentiaries show a higher average of intelligence than the general population, Dr. Herman Adler of the Cleveland Foundation's justice survey told members of the Cleveland Academy of Medicine at a recent meeting.

Repeaters, men returned to the penitentiary time after time, show a higher average of intelligence than those who learn their lessons the first time, Dr. Adler said.

Criminals who are caught and convicted are not necessarily those least intelligent, but those with an antagonizing personality, Dr. Adler explained. An engaging personality is the most frequent cause of miscarriages of justice, he added.

Ten million people in the United States are classed as feeble minded, that is, they would be confined if brought into court or a mental clinic, he said.

These conclusions were derived from tabulation of mental tests of 1,700,000 men in the draft army, and 1,000 convicts in the Illinois state penitentiary. The tests in turn were confirmed by examination of selected groups picked according to military qualifications before the tests were made.

MAN ON DEATH'S BRINK RECLAIMED AFTER LONG YEARS OF TREATMENT

By Associated Press.
DENVER, Colo., June 16.—Deaf, dumb, blind and paralyzed in every limb, so helpless that it was necessary to feed him by means of a tube through his nostrils, unable to feel, smell or taste or even to think, to all intents and purposes unconscious, Luther Dionne was carried into the county hospital here nearly eight years ago. Today he can hear, see, smell, taste, feel and, in a limited fashion he can talk. His right side remains partially paralyzed.

Never was a man nearer to being dead though alive than Luther Dionne eight years ago, say the doctors at the hospital.

Dionne's brain was operated on. Then, literally he began to be born again. Slowly the powers of life were redeveloped. Came the day when he could move one finger, then a whole hand, and, after weeks he stirred his head upon its pillow. One day, he spoke.

As yet Dionne's speech is confined to a whispered "yes" or "no," but he can make himself understood. On a map he can point out the town of his birth, and with a pencil he can print, laboriously the name of the village.

During a recent week England and Wales were without a single case of smallpox, cholera or typhus fever.

2,000 Fine Madras, Silk Stripe and Percale Shirts Go Into This

SHIRT SALE

FRIDAY AND SATURDAY

—In this sale of Shirts for Men, there are some of the best looking, the best "feeling" and the best wearing shirts you have seen for a long time.
