TRUCE SIGNAL STOPS NORTH IRELAND RIOTS

Negotiations for Lasting Peace Will Begin Thursday in London.

Negotiations for a permanent settlement of the centuries old Irish question will begin Thursday.

Premier Lloyd-George asked Eamonn de Valera to fix the date to start the conference in London, and the Irish leader today selected that date. It was assumed that the slight delay was occasioned by de Valera's hope that in the interim he could reach an agreement with Sir James Craig, Premier of Ulster, thereby presenting a united Irish front to the British government.

Rioting and violence continued in the north of Ireland up to the time of the truce which became effective at noon today.

There were sporadic outbreaks of the rioting which began in Belfast on Saturday night, and continued unabated until military interference last night. A mail train was derailed between Belfast and Londonderry.

As the clocks of Dublin struck the hour of noon today, the sound of their bells was drowned in the roar of ship's sirens that welcomed the truce between the British forces and the Sinn Feiners.

Citizens gathered excitedly on the corners. Shortly after twelve o'clock, when the armistice became effective a group of unarmed black and tan strolled from their barracks. In a few moments they were fraternizing with the people, talking eagerly about the prospects of permanent peace.

WM. H. TAFT IS SWORN IN CHIEF JUSTICE

WASHINGTON, July 11.—William Howard Taft today took the oath of office as chief justice of the United States Supreme Court, achieving, he said, the ambition of his life.

Members of the Taft family, relatives and nearly 200 friends crowded into the office of Attorney General Daugherty to witness the ceremony. Taft, with his right hand raised, and his left hand placed upon an open Bible, repeated phrase by phrase the oath of office of nearly 200 words.

ANOTHER INSULT, IS GERMAN OPINION OF U. S. PEACE TREATY

BERLIN, July 11.—"No economic benefits offered by the United States could be sufficiently attractive to induce Germany to voluntarily affix, for the second time, her signature to the disgraceful peace treaty of Versailles, with all its humiliations, privations and confession of German guilt," says the industrial conservative organ, Der Tag, commenting upon the Porter-Knox resolution text, which has just been made known here.

USE DISCRETION, YOU BOLL WEEVIL, OR SOME LITTLE BUG'LL GET YOU

DENTON, Texas, July 11.—A farmer, driving in from the country here today, reported that a new species of bug, which attacks and destroys the boll weevils, has made its appearance. The farmer said the bug follows the weevil into the punctures and drives them out. Cotton in this vicinity has shown a marked improvement during the past week, but the majority of the farmers declare this is the result of the hot, dry weather, and not the bug.

PITHY JOKES ENLIVEN SERIOUS JOB OF MAKING 'RANGER MONEY'

See That the Signatures Listed Below Are Signed to Your Scrip.

When the fathers signed the Declaration of Independence, they no doubt passed pithy jokes as to what Johnny Bull was going to say. One can imagine Ben Franklin saying in his precise voice that he feared his majesty the king might be slightly irritated by the proceeding. But history was made that day.

Today, the Retail Merchants are making history. Men appointed to the task are turning paper into money by simply signing their names. As the work goes merrily on light jokes are passed back and forth. For instance, this morning more one dollar pieces were needed.

"Somebody telephone the mint to print some more dollars," it was suggested—meaning of course the print shop.

Another remarked that "if J. Pier-

HOW ABOUT EXPENSES?

AUSTIN, July 11.—A Chattanooga dispatch to today's papers that Andrew L. George has obtained a promise from Texas legislators that he be allowed to sue the state for damages because he served six years in the penitentiary for an offense of which he was not guilty, is the first intimation legislators here now have had of it.

ONSLAUGHT ON FARM PRODUCT CLIQUE BEGUN

Congress to Clean Up Route Leading From Farm to Dinner Pail.

WASHINGTON, July 11.—Congress started on the trail of the farm products profiteers today, when the agricultural inquiry was opened by a joint committee of the house and senate.

The committee has set out to find the men who are making big profits on foodstuffs. Wearing apparel will also be traced from the cotton fields and sheep ranches to the buyers' backs.

Agriculture, members of the committee contend, is in a state of distress that economic conditions do not justify, it is said.

Somebody is getting a large part of the farmers' share of the profits and the consumer is paying unduly for products, it is charged.

Matters which will be investigated are:

1. Cause of the present condition of agriculture.
2. Differences in the prices of farm products paid to the producer and received from the ultimate consumer.
3. Comparative conditions of industry other than agriculture, including relative prices of manufacturers and retailers.
4. Banking and financial resources and credits and transportation costs.

As to taking testimony of representatives of various lines of business, Chairman Andrews indicated that the committee would meet in several places where it was believed information might be obtained.

BUILDING FALLS IN KANSAS TOWN 2 MEN MISSING

SALINA, Kansas, July 11.—Two men are missing, following the collapse here today of that part of Salina's new million dollar Masonic Temple, which was under construction.

Concrete skeleton work gave way. The damage was estimated at \$35,000.

SAXOPHONE PLAYER IS SENTENCED TO LEARN JAZZ CLASSICS IN JAIL

NEW YORK, July 11.—Abe Chairken of Brooklyn, a saxophone player was sentenced yesterday by County Judge MacMahon of Brooklyn, to serve three months in the county jail for attempting to steal an automobile. Chairken admitted he meant to sell the automobile to get money to go to the Dempsey-Carpentier fight.

"Can you play 'The Lost Chord'?" Judge MacMahon asked.

"O' the 'Leg of a Duck' by Jerry O'Brien?" replied Chairken again.

"They are both good and you should learn them," Judge MacMahon said. "Go to the county jail three months and practice them."

POINT MORGAN COULD SEE US NOW, HE WOULD BE GREEN WITH ENVY.

However, business is serious in the Retail Merchants' office. At noon applications had been received for about \$5,000 worth of scrip. The applications will be verified and the paper probably issued this afternoon. And that the merchants are coming in, is evidenced by the red signs over town which reads "Retail Merchants certificates accepted here as cash for merchandise." During the afternoon it is expected that the total amount for which applications have been received will run high, and by tomorrow it may be that \$10,000 in scrip will be doing the duty of money in Ranger.

To be valid, the scrip must be signed by M. O. Burt as secretary of the Retail Merchants' association and by E. M. Hines as trustee. It must also be signed by the one to whom it is issued.

Powers Agree to Disarmament Meet

GIANT AIRPLANE RUNS AMUCK, KILLING FIVE, INJURING MANY

ATTACK, TACT!

DALLAS, July 11.—Easley Waggoner, vice-president of the Fidelity Insurance company, and Miss Alice Nicholson, prominent society girl, were held up and robbed while returning from a dance at Fort Worth last night.

The highwayman took about \$50 from Waggoner. Miss Nicholson dropped her jewelry down her waist and the robber failed to get anything from her.

MILFORD AND ADAIR INJURED IN AUTO SMASH

Slick Road, Sharp Turn and Bent Axle Sent Car Over Embankment.

Cut and bruised, but not seriously injured, John E. Milford and E. F. Adair are in the clinical hospital this morning, following the wrecking of the car in which they were riding last night. The car slipped from a wet embankment and turned until all four wheels were in the air. The accident happened about 9 o'clock and about seven miles beyond Weatherford. Milford was going into Dallas on business and Adair was driving the car for him. A passing car brought the men into Weatherford where their injuries were dressed and they came in to Ranger on a late train.

The road was slick and a fine mist was falling, Milford said. They approached an abrupt curve at a moderate rate of speed but because of a bent axle on the machine which interfered with the steering gear, the turn could not be made quickly enough and the car slipped over the embankment and turned over.

Adair was pinned beneath the wreck. A moment later help arrived and he was released. Both men have bad cuts on their faces from flying glass. Adair also has cuts on both arms.

The automobile was left where it wrecked.

EASTLAND HILL TO MEET C. OF C. ON ROAD ROUTE

Eastland Hill folks who are objecting to the Pleasant Grove highway leaving Ranger north of Mirror lake will meet this afternoon at 4 o'clock with the good roads committee of the Chamber of Commerce. The meeting will be held in the rooms of the chamber and an effort will be made to reach an agreement.

The Eastland Hill folks have insisted the road should leave the city along the old route, up the hill and say unless it does, they will be badly injured. Previously the good roads committee had recommended the Mirror lake route, and unless its recommendation is changed before tomorrow that route will stand, unless it is changed by a court decision.

OBREGON ORDERS OIL COMPANIES TO PAY SUSPENDED EMPLOYEES

MEXICO CITY, July 11.—President Obregon was reported today to have ordered the oil companies at Tampico to pay their discharged employees three months' wages.

The alleged order is in accordance with a labor law still to be enacted, but required by the Carranza constitution.

PEN PROBE BEGINS.

AUSTIN, July 11.—Members of the joint legislative penitentiary investigating committee are in Austin today, preparatory to a meeting this afternoon for consideration of committee affairs.

The committee is authorized by a resolution adopted at the regular session to investigate charges of brutality to convicts. A report of its findings will be made special session.

WEATHER

Tonight and Tuesday, partly cloudy.

SCORES OF DEAD AND WOUNDED AND DEMOLISHED CARS LEFT IN WAKE OF PLUNGE.

MOUNDSVILLE, W. Va., July 11.—Army officials from Washington and Dayton, Ohio, flying fields were en route here today to conduct an official investigation into the airplane accident yesterday, which took a toll of five lives, injured more than a score, and destroyed sixteen automobiles.

The accident occurred when a giant Martin bombing plane, taking off from a local field, plunged into a line of automobiles. One of the gasoline tanks of the bomber exploded, spreading fire over the cars. Their gasoline being exploded. Most of the dead and injured were seated in the burning machines.

Lieut. M. C. McIvor and Lieut. E. H. Duntion in charge of the plane, were in the airplane. They escaped with slight injuries.

Rescue work among spectators was hampered by exploding gasoline and the fire.

HOOTCH DEVOTEE, WITH CAT'S AID, OUTWITS COP

SAN FRANCISCO, July 11.—"He let the cat out of the bag," an thereby hangs a story, not of how someone "spilled the beans, but of a volsteadian genius who figured out cat and human psychology in order that he, and San Francisco, might be enriched by one case of Scotch whisky.

It happened on a steamer from British Columbia. The intrepid genius had purchased a case of whisky at \$3 a quart in Vancouver, and he wanted to export it into San Francisco to save the expenditure of \$20 a quart here. So he borrowed the ship's cat from the purser.

"What have you in that bag?" asked the customs inspector, as our hero walked down the gangplank.

"A cat," he replied.

"Lесsеe it," ordered the c. i.

The genius opened the bag, the cat jumped out and ran back "home" on board the ship, with the supposed owner and his traveling bag in full pursuit. Soon he returned.

"Do you want to see the cat again?" he inquired.

"No," said the inspector.

And the genius walked off with a bag full of whisky while his cat gave chase to a festive rat.

MORE BABIES

PARIS, July 11.—"American women must have more babies if they wish to retain their beauty," Dr. Brettman, one of the foremost beauty surgeons of Paris, said Wednesday.

Contrary to what seems to be the general impression in America, Brettman said, motherhood really is not only an aid to beauty, but is necessary, if a woman wishes to realize the acme of beauty.

"Venus was not a virgin," he said. "She must have had at least one and perhaps two children. Otherwise she could not have been as beautiful as she was."

Brettman declared that American women also make a great mistake in rearing their babies on bottles.

"The glands which function during maternity are connected with those of the neck which govern the complexion," he explained. "Restrict the functioning of one and you check the functioning of the entire system."

Brettman declared the effects of this practice of "evading the obligations of motherhood" were already evident, in that it was becoming more uncommon in America to find beautiful women of middle age.

"SALL WRONG, SAYS ANNE.

NEW YORK, July 11.—"American women should have fewer babies and their complexions and general health would take care of themselves," Mrs. Anne Kennedy, associate editor of the Birth Control Review, declared in an interview Wednesday.

Mrs. Kennedy made this statement in refutation of a theory advanced by Dr. Brettman of Paris.

"If what Dr. Brettman maintained were true, the American women living in the congested districts of cities and in the poorer farming communities would be the greatest beauties in the world," she said.

"These women, with families of six to twelve children, always are prematurely aged. As a rule they have neither beauty of face nor figure, and their children generally are inferior, physically and mentally."

WHOLESALE TO CO-OPERATE IN SCRIP PLAN

Will Make Agreements With Retail Dealers as to Amount Handled.

Wholesalers of the oil belt will co-operate with retailers in carrying "Ranger scrip" until the affairs of the Guaranty State bank are settled. That was the assurance given at a meeting at the Chamber of Commerce this morning, when representatives of wholesale houses and retailers met at the Chamber of Commerce to discuss carrying out of the plan.

Irving Schwartz, chairman of the scrip plan committee, explained the plan and answered all questions concerning it, including the handling of scrip from both the wholesalers' and retailers' viewpoints.

The wholesalers were heartily in favor of the plan in principle and all expressed their willingness to co-operate, with certain restrictions for their own protection.

Ask Distribution.

They will accept a certain per cent of their payments in scrip, the amount to be arranged with individual customers. They do this, they said, in order to secure a fair distribution, as it would not be well for any business house, either wholesale or retail, to run a "special" on the issue. And they would not think it fair for the retailer to pay his bills in scrip and keep all the money taken in. They advised that retailers place their orders among the various houses just as they are doing now, and not seek to pay one house all in scrip and do a cash business with another.

With co-operation between the two branches, there will be no trouble, the retailers were assured.

Wholesalers represented were: Walker-Smith, Waples-Platter, C. D. Hartnett, Ranger Tobacco company, Radford Grocery company, J. P. Webster and Purcell Grocery company. Armour and Swift of Fort Worth had agreed to send representatives but they did not arrive. It is thought however that the packing firms will fall in line when the proposition is fully explained to them.

SUSPECT HELD IN GIGANTIC DIAMOND THEFT

SHAWNEE, Okla., July 11.—Oklahoma City police today planned to question Wm. M. Motesbocker, held in jail here, in connection with the disappearance of diamonds valued at \$125,000 from the Skirvin hotel in Oklahoma City on May 21.

The jewels were the property of the M. M. Brustre company of St. Louis. Motesbocker, who local police declare is a notorious police character of the southwest, was taken into custody yesterday. As yet, no formal charge has been placed against him.

STATE WITHDRAWS POISON CHARGE IN KABER INDICTMENT

CLEVELAND, July 11.—The charge that Daniel F. Kaber was poisoned was withdrawn today at the request of counsel for Mrs. Catherine Kaber, on trial for the murder of her husband.

Judge Vernon ruled however, that testimony tending to show that Mrs. Kaber administered arsenic must stand.

The count in the indictment charging her with the murder by stabbing remains.

The state rested its case at noon and court was dismissed until Wednesday when defense witnesses will be introduced.

NEPHEW OF LINCOLN IS DEAD AT AGE OF 68

SPRINGFIELD, Ill., July 10.—Edward T. Smith, 68, nephew of Abraham Lincoln, is dead as a result of injuries received when he was struck by an automobile.

His mother, Mrs. Anne Smith, and Mrs. Lincoln, were sisters. His father, G. M. Smith, was known as the "merchant prince" of Springfield. It was in the rear of the Smith store that Lincoln wrote his first inaugural address.

MEXICAN DICTATOR HASTENS TO TAMPICO

SAN ANTONIO, July 11.—General Manuel Pelaez, dictator of the Mexican oil fields, passed through San Antonio today enroute from Los Angeles to Tampico. He is rushing to Tampico because of the troubled situation there.

General Pelaez has been touring the United States for the past two months. He was visiting his family in Los Angeles when the trouble arose.

ACTION REGARDED AS FIRST STEP TOWARD WORLD ASSOCIATION

Secretary Hughes Preparing Documents Preparatory to Calling Conference; Question of Anglo-Japanese Alliance Will Be Threshed Out at Meeting.

WASHINGTON, July 11.—A disarmament conference in Washington was regarded as certain today.

Following the informal inquiry to the great powers, asking whether they would be willing to enter into such a conference, Secretary of State Hughes was preparing the official investigations, in order to be ready to dispatch them upon receipt of word that they were acceptable.

Great Britain and Japan, through public statements of their government leaders, have already bound themselves to join in a disarmament conference if the United States should call it. Public opinion in France and Italy will not allow leaders of those nations to refuse the invitation, even if they should regard it unfavorably, it is believed here.

China, whose friendliness to this country has been many times emphasized, will certainly accept, it is thought. China will participate in Far Eastern discussions.

May Fulfill Fledge.

One of the fundamental factors back of the decision to call the conference is by this step the administration has virtually begun the framework of its promise of an association of nations to prevent war. It has been pointed out that disarmament hinged on the events of the Pacific.

It has been made plain that American sentiment is opposed to the Anglo-Japanese alliance. This question will be threshed out in the conference, and the result will probably have much to do with the disarmament question.

HARDING WILL TELL CONGRESS TO SPEED UP

President to Read Message Asking Enactment of Tax-Tariff Bills.

WASHINGTON, D. C., July 11.—President Harding will personally read to Congress this week his message urging haste in enacting tax legislation and tariff legislation, it was learned on high authority today.

The message is expected to call for laying aside of the soldier bonus and hastening tax and tariff legislation, for which the present special session was called.

Harding, senators expect, will ask co-operation for the national good, and urge that personal aims be subordinated.

BOLL WEEVIL GETS GRIP ON TEXAS COTTON

HOUSTON, Texas, July 11.—Reports of heavy rain from central, East and South Texas points indicate the boll weevil is getting a deadly hold on the 1921 cotton crop, cotton men here said today.

Ginning, however, has started in several sections in the Rio Grande valley, a result of the dry, hot weather for a couple of weeks. Rains were reported today from Victoria, Cuero, Bryan, Yoakum, Gonzales, and other towns. Wind and electrical disturbances accompanied the rain.

PARIS' BEST-PROPPED WOMAN ON WAY TO U. S.

CHERBOURG, July 11.—Michael Fokine and Mme. Vera Fokine, the famous dancers, sailed on the Mauretania for New York yesterday. Fokine said he goes to get in touch with his Choreographic institute and produce at the New York Hippodrome with 200 American artists, his ballet, "Birds of Paradise," with music by Borodine. Fokine expressed a high opinion of American talent in the new Choreographic art. He and Mme. Fokine will return to Paris in October to fill an engagement at the opera.

Also sailing on the Mauretania is Mile. Mistinguett, a popular Parisian music hall artist, who her admirers declare, has the shapeliest legs in Paris. Mile. Mistinguett goes to see Florenz Ziegfeld about a projected engagement in New York.

CRIMINAL BELIEVED TAKING POST-GRADUATE CRIMINOLOGY COURSE

SAN FRANCISCO, July 9.—Believing that a real criminal has enrolled in the criminology course in the University of California summer session, the Berkeley police, aided by Dr. Jan Don Ball, head of the criminology department, recently began one of the strangest searches for a criminal ever conducted in the West.

The police are satisfied that among the 500 summer session students who have enrolled in the criminology course there is one who seeks learning in the ways of crime for purely ulterior purposes.

The criminal made his presence known to the police through the report of Mrs. I. B. Bolles, who is conducting a boarding house for summer session students in the Theta Delta Chi fraternity house. She reported that her roomers had been robbed of \$90 in money.

Efforts to find the criminal will form a part of the investigation work of the department of criminology.

The instructors and members of the class will attempt to pick out from the class the thief who is masquerading as a student to study his profession from a scientific basis.

FACE TO FACE

CHICAGO, July 11.—Seven former White Sox baseball players on trial here in connection with the alleged throwing of the 1919 world's series, faced their former teammates today.

Seven of their teammates were in court in answer to subpoenas.

VAGARIES OF DEFLATION.

When credit and currency are inflated prices go up; when they are deflated prices come down. This is one of those generalizations that sound well and in a large way are true, but which do not describe what is really happening.

The present obstacle in the path of recovery, the reserve board appears to think, is chiefly the accumulation of stocks in the hands of the retailers, and not the high wages of labor.

Lenine and Trotsky have survived their ailments reported some time ago. They evidently saved enough out of the soviet financial wreck to get a few prescriptions filled.

A scientist tells us that one uses thirteen muscles in smiling. If you refuse to smile people will say you're superstitious.

Paris faces a serious water shortage. Water is used in Paris for mixing water colors and for washing the pavements.

Besides producing more paper than any other country in the world, the United States wastes more.

New Russia Hails U. S. as Godfather, According to Former Prime Minister

DOG HILL PARAGRAFS By GEORGE BINGHAM.

Slim Pickens returned today from the Cliff Ribs neighborhood, bringing with him all of a saw mill that he could carry.

THE HAMMER WIELDER.

The "knocker" is truly a foeman he should himself dread, as Mr. Wheaton C. Ferris declared in a recent St. Louis address.

This is particularly the case with the man who talks against his home city. Is he not undermining his own good? Where he lives is the place best suited for undertakings of business success.

COURT DEFINES FIVE COURTSHIP ESSENTIALS

LONDON, July 10.—Five essentials of courtship were laid down by counsel in Mr. Justice Dush's court.

There was no engagement ring, and the young man took the widow to no theatres—not even to a picture theatre.

The judge, summing up, said he did not know what the jury thought of a young woman who had been married sixteen or seventeen years and had two children who within ten days of hearing of the death of her husband while serving his country made agreement to marry someone else.

By PRINCE G. LVOFF Former Prime Minister of Russia. (Written Especially for International News Service.)

PARIS, July 10.—I believe that the situation in Russia is now rapidly clearing and that the time is not far distant when we Russians shall see our vast country again at work, helping in the reorganization of the world.

News which I received from the interior of Russia is encouraging. Thinking men everywhere are doing their utmost. In many cases, no doubt, their zeal is a poor guide for their efforts, but there is encouragement in the fact that at least they all are trying for the achievement of the same ends.

Russia Needs American Money. My message to Americans at the present moment is to urge them to study Russia, to get better acquainted with its possibilities, to cherish the friendship which already exists between the two peoples, to continue the bonds of sympathy and faith and good will.

Then, when the time comes—as come it will ere long—we shall count on America to help gloriously, as she has always helped those who struggle valiantly for the right. The new Russia will need many things from America—it will need great gifts of charity; it will need the utmost credits of American banking groups; it will need American brains and energy and organizing ability.

Meanwhile, if Americans will set their minds to an intensive study of Russian problems and Russian psychology, we shall be able in the future to avoid much waste motion, much loss of time and effort.

The whole world is convalescing from a long illness, and each nationality feels the weakness of the long struggle. We must all put our shoulders to the wheel if we wish a speedy and thorough recovery.

Russians have Virtues. Study the Russian character, and you will learn to love the Russian. He has his faults, but he has great virtues as well. And they are the faults and virtues of a virile race which seeks and is worthy of your friendship and help.

Our relief organization is a continuation of a movement started early in the war to aid our soldiers. The organization now embraces all the leaders among the two million Russian refugees who are scattered throughout Europe.

We have been watching events in Petrograd and have been hoping that would enable us to help the thousands that are suffering from hunger and disease and privation there.

Perhaps the greatest problem which the outside world must solve is the exact method which shall be used in helping Russia. The Russian psychology is perhaps a little intricate, and only Russians can deal with it successfully and efficiently.

The thing which new Russia will need for her economic reconstruction will come mainly from America, or from Germany. But all Russians would prefer American goods and American co-operation.

was true, allowing a young man to come to her when her husband was alive and talk about his being willing to marry her if she were free.

SHE CAUGHT THIS COSTUME HERSELF; THAT'S WHY SHE IS PROUD OF IT

Miss Eileen Young, who

It isn't every woman who can go out and catch or trap her own costume. Among the costumes worn at San Francisco's "Boosters' Ball" was one especially interesting.

IRELAND'S NEW DAY.

Most public events which are dramatic are unimportant in this workaday modern world; but recent happenings in connection with the fate of Ireland, while picturesque, hold a more definite hope of settlement than has been visible for a long time.

Peace in Ireland has been in sight before, though hardly as a reality within the memory of most members of the present generation. It has failed by such a hair's breadth that no one will be oversanguine about the present attempt at reconciliation until definite accomplishment has been reached.

LAWYER AND FAMILY TO GO TO AFRICA FOR A LITTLE GORILLA HUNT

CHICAGO, July 10.—Hunting ferocious gorillas in the heart of Africa would not appeal to the average person as the most deliberate sort of vacation, but that is what Herbert E. Bradley, an attorney, his wife and 6-year-old daughter have chosen.

The hunt for gorillas will be made around Lake Kivu, but baby Alice will be left in care of Miss Hall at a British mission nearby during the hunting. Specially constructed motion picture cameras and rifles are to be taken on the expedition.

COME-BACK OF BATHER SPOILS GOOD MYSTERY

"Tragedy" Is Entitled "Where Was George, or Brother Ask No Questions."

NEW YORK, July 11.—A bundle of clothes in a bathing house locker. A zealous amateur detective. The police. A notice to the Bureau of Missing Persons that George McCormack, of No. 161 Bergen Street, Brooklyn, was missing, probably drowned.

Patrolman Michael Markey yesterday entered the Coney Island station house with the bundle a locker man in Weber's Bath had found.

Late yesterday Lieut. Spellman was interrupted in a yawn by a man in a bathing suit.

"You need 'em," answered the Lieutenant. "You're a disgrace, going around like that."

"How can you prove you are?" asked the Lieutenant. George fished for his pockets, but it wasn't one of those bathing suits.

"Let me try them on," he suggested. His vote carried. They fitted.

"Now what'll we do?" he asked the Lieutenant. And just then George's brother walked in to identify the clothes of his dead brother. A reunion when strong men wept, and as they left:

"Say, George, where were you all night, leaving your clothes out, and getting the family all upset?"

"I don't see how that concerns you. We're brothers, aren't we? That should mean we're friends. And friends don't ask questions."

DAN CUPID EXPECTED TO FILE VOLUNTARY BANKRUPTCY PETITION

NEW YORK, July 10.—Through-out the country as well as in New York, June brides were not as plentiful this year as last.

This decrease is attributed to several causes. Deputy City Clerk Quayle, who has charge of the Brooklyn marriage license bureau, said yesterday it undoubtedly was due to the large number of unemployed.

Peace in Ireland has been in sight before, though hardly as a reality within the memory of most members of the present generation.

—Like all businesses, particularly the production of raw products, the oil industry has suffered from a severe, rapid deflation in values.

—Two factors will tend towards a satisfactory readjustment in the industry. If present prices for crude are economically too low, then prices will advance.

—The re-adjustment period will add to the prosperity of the North Central Texas Oil Fields. Ranger will share in the "come back."

—Oil is a life necessity in man's present degree of civilization. Man must have oil; anything mankind must have, must eventually be paid for at its cost of production plus a reasonable profit to the producer.

NEW CHIEF OF STAFF OF PACIFIC FLEET

Rear Admiral B. F. Hutchinson, who has been assigned to the Pacific fleet to be chief of staff for Admiral E. W. Lberie, the new commander-in-chief of the Pacific fleet.

WOMEN WILL DISCARD BROGANS FOR LIGHT KICKS NEXT WINTER

CHICAGO, July 9.—Shoes for women will show few changes in style or prices the coming winter, according to the opinion of members of the Shoe Travelers association.

"We say there will be no change in styles," explained one of the delegates, "but there is not a soul who can tell just what women will do. They may upset all our plans."

"It is safe to say, however, that there will be no further reduction in prices, owing to the increased cost of labor."

"The preference for light kids in oxfords for winter wear will continue in the city. Women are wearing heavy brogue oxfords during the hot summer months but when cold weather appears they will be in strong for the light kids."

"Explain it? Frankly I cannot, any more than I can explain why women wear furs in the middle of summer and wear light, flimsy waists in the dead of winter."

EL PASO, Texas.—"Over the world and under the world and back at the last to you," sang Yee Yuen Fong, as he rode 8,333 miles via San Francisco and Hong Kong to Canton, China, from El Paso to marry his old-time sweetheart.

THE OIL BUSINESS IS FUNDAMENTALLY A SOUND, STAPLE BUSINESS

—Like all businesses, particularly the production of raw products, the oil industry has suffered from a severe, rapid deflation in values.

—Two factors will tend towards a satisfactory readjustment in the industry. If present prices for crude are economically too low, then prices will advance.

—The re-adjustment period will add to the prosperity of the North Central Texas Oil Fields. Ranger will share in the "come back."

—Oil is a life necessity in man's present degree of civilization. Man must have oil; anything mankind must have, must eventually be paid for at its cost of production plus a reasonable profit to the producer.

60-ACRE Farm near Ardmore, Oklahoma to trade for hotel furniture. Jess Akers, Breckenridge, Texas.

BIG TOWN BEANERIES AMERICANIZE HASH AND SOUP BATTING ORDER

CHICAGO, July 11.-Managers of American hotels believe the time is at hand to call a spade a spade, or in other words to put potatoes on the bill of fare as potatoes instead of pommes of kalter aufschmitt. It will de terre or kartoffel. Instead of kalter aufschmitt it will appear as cold cuts of meat so that the visitor from the rural districts who desires to pack in a hearty meal will know what he is ordering. The haughty waiter who formerly lifted his eyebrows and shrugged his shoulders when the farmer blindly stumbled thru the foreign bill of fare in a hard effort to discover something familiar will be required to learn the English language so that he can answer the questions of patrons with some degree of intelligence. This innovation will be one of the principal features of the National Hotel Men's association, which convenes here next week. It was announced Thursday that immediately after the convention, schools will be opened in other cities for the Americanization of all hotel employees.

STERN UMPS FEATURES NITRO "FAREWELL"; MAGNOLIAS DROP TIGHT GAME TO BUSINESS MEN

Keck's Sidearm Serves too Much for Fast Nine From Olden; Score 3-2.

Baseball vaudeville, followed by a tight and dramatic game between the Business men and the Magnolia nine from Olden, amused and thrilled yesterday afternoon at Nitro park, in what was billed as the Nitros' farewell tour. Many Dismissals. Murphy, "the Law," as his Umps was the star of the Nitro-Semi-Pro entanglement, which the last named outfit took, 5 to 4, in seven sassy sessions. Murphy plastered fines right and left, pulled his watch on bellicose ball players and answered only when addressed by the name of "Davis."

The Nitros displayed annul at times and benches in the outfield gave them a chance for a well-earned rest except that occasionally some obstreperous Semi-Pro whaled the ball to the outer gardens, to their great discomfort. Especially was this true in the last session, when Johnny Singleton, playing left field in shoe-and-sockless garb, was forced to sprint madly to keep a dinky drive from being a home run.

The Nitros, featuring Allen as rf., lf., p. and ss.; Singleton as 3b., p. c. and lf.; Lovelace as p. and 3b.; and other players in diverse roles, led until the final session, when it came Lefty Adkins' turn to hurl. The Semi-Pros, two runs behind, connected for a hit through the box and three Texas leaguers in a row, putting over three counts, after two were down, breaking up the matinee and making the standing of the two teams as follows: Semi-Pro 1 0 1,000 Nitros 1 0 1,000

The Nitros, by good burlesquing, alibied their failure to hit Carter. Coming down on the train, they announced an intention of winning 49 to 0, but changed their minds and made a good show of it. With Nick and Robbie serving the Semi-Pros as battersmen, there wasn't much else to do.

A Real Game. In the afterpiece, which was such a good ball game that most of the crowd took a chance on missing Daredevil Miller in order to see the end of it, the Business Men downed the Magnolia, 3 to 2. Mostly they did it through the effective pitching of Keck, who succeeded Poole in the third round. The Nitro heaver's sidearm had the visitors fishing, and he struck out twelve of them. He was especially effective in the eighth, when he struck out three in a row after Hatchitt had let Rav's fly go through his fingers and the runner landed on third. The ninth inning was the only one in which he failed to whip a batter.

Magnolia scored twice in the first round, on a walk to Ray, followed by Lemma's wild throw to second when Mays dumped the ball, putting burners on third and second. Colburn's fly to left scored Rav and when Hatchitt heaved the ball in the general direction of the diamond, Mays took third. He counted on an infield out.

Gibson, second basing for the Business men punched one over in the second, after Groves had thrown wild and allowed Hazzard to reach the halfway station. Thrill Every Inning. From the second until the seventh, the game rocked along in four up and three down fashion, inning after inning. Three times the first Magnolia batter hit safely and was glued to the bag while his teammates fanned.

In the seventh, McFatridge nearly took a leg off Pitcher Hall, went to second when Keck drew a walk and knotted the count on Cowsert's safety to right center. In the eighth, Summers' grounder through the box and Texas leaguers by Hazzard and Taylor counted the winning run.

A close play at second, when Rosenberger was caught off the bag after slapping a double to left, removed a Magnolia threat of a tied score.

HOW THEY STAND

TEXAS LEAGUE.

Standing of the Teams. Teams - Played. Won. Lost. Pct. Houston 1 1 0 1.000 Fort Worth 2 1 1 .500 Dallas 2 1 1 .500 Galveston 0 0 0 .000 Shreveport 0 0 0 .000 Wichita Falls 0 0 0 .000 San Antonio 0 0 0 .000 Beaumont 1 0 1 .000

SHOT BURGLAR, PAUL AKIN TELLS POLICE

Believing his shot had taken effect, Paul Akin this morning, reported to the police that he shot at a prowler last night at his home. The hospitals, however, had not received anyone suffering from gunshot wounds.

GENEALOGIST FINDS HALF MILLION AT ROOT OF SOMEONE'S FAMILY TREE

NEW YORK, July 10.-A scrap of paper lay unknown to five generations of custodians between the pages of a faded old copy of Spencer's Fairie Queen. A genealogist delving into the behavior of somebody's ancestors came upon the neglected trifle and found it had been gathering interest for nearly a hundred years. The surprised heir to the bonanza, a restaurateur of moderate means, values the scrap at more than \$500,000. He has so far been supported in his claims to the document by the courts. The reputed fortune is embodied in a certificate of sixty-seven shares of stock in the Mechanics bank left by Thomas Williams, who died in this city in 1822. Alfred Watkins Seymour, a small restaurant keeper of Seattle, Wash., has to date established his claim in the local courts as the sole heir to the stock, a decision handed down by Justice Robert F. Wagner of the supreme court on June 21 last adding strength to the validity of the document.

PUZZLE IS WHY DIDN'T THEY STEAL THE SHOP

ST. LOUIS, July 11.-Burglars who entered the butcher shop of Theodore Boone, last night, carried off: One roast of beef. One ham. Two chickens. Three butcher knives to carve them. And a \$235 scale with which to weigh them. Police today were wondering if the robbers took the scale along to see that they had not short-weighted themselves.

A FAMILY AFFAIR

This ingenious London "Bobby" prefers the strange vehicle shown to a flivver. He constructed it himself and arranged for enough seats to accommodate his whole family.

DARE DEVIL MILLER FREES SELF AS HE DRAGS AT PERILOUS SPEED

"STEW BAD," SAYS JUDGE, AS HE STAMPS HEEL OF LAW ON MASHING

ST. LOUIS, July 9.-Edward V. Chartrand, 24 years old, an advertising correspondent, and Joseph Brueggeman, 35, a salesman, each were fined \$10 on each of two charges of disturbing the peace of two policemen, whose services have been employed recently by the police morality squad as decoys for male flirts.

In assessing the fines, Judge Itner today in police court remarked that it was too bad "the ancient customs of mashing" was to be stopped, but that this form of diversion be abolished. The policemen, Alice Cory and Tillie Geisler, set the stage for their latest romantic exploit in Lafayette park. Miss Cory testified that Chartrand and Brueggeman approached and that the former airily remarked, "Good evening girls. Walking through the park?" She said they paid no attention to the remark, and the men evidently took their silence for an invitation to stroll, as Chartrand said to Brueggeman, "Come on, we'll walk with them."

They did accompany the policemen for about ten minutes, and were detected by Sergeant Ryan and Special Officer Rodan, who had been lurking near by, appeared at a signal from the policemen and made the arrests.

Chartrand denied the charge stating that he and Brueggeman were arrested as they were passing the women. He added, "And, besides, I've got a steady girl and am to be married in September."

Brueggeman testified that he and Chartrand were strolling, when the "girls came along walking invitingly." He said he inquired if they were "enjoying the cool evening breeze," and that Miss Cory coyly responded that they were "star gazing."

Detective Ryan said today that twelve young men have been arrested in the last two weeks and fined for annoying women by flirting.

KANSAS CITY, July 10.-Mrs. Thelma Smith, 18, committed suicide here. She had been married two months. According to Coroner Haywood, several brothers and sisters of the husband have been making their home with the couple. Smith and his wife are said to have quarreled over the relatives living there.

PRESIDENT 'PUTTING OFF'

CHICAGO, July 11.-An awkward green parrot, extremely loquacious, not sparing of profanity, was the means of keeping Edward Peterson from being locked up as a burglar. Mr. and Mrs. Paul Johnson went away over the three-holiday period and Mrs. Johnson asked Edward Peterson, her brother, to go to the flat and water and feed the parrot and canaries. He lost the key and was climbing in a window when neighbors called the police. The desk sergeant laughed uproariously as his explanation, but the boy insisted that if the sergeant would accompany him to the flat, he would prove he was right. So they went back to the flat. "Hello, Polly," said Peterson. "Hello, Ed," responded the bird. "How's a boy? Watta golly on yer lip?" "Hello, Polly, How's a Polly?" asked the sergeant, still unconvinced. "Arraawk, rawk. Go to hell!" screamed the parrot. "You win," said the sergeant. "Go ahead and feed and water these birds."

Will Return to Ranger for Still More Stunts Within Month.

Dare Devil Miller can free himself from a straitjacket, buckled as tightly around him as two men can pull the straps and with hands confined by his arms being crossed and his closed sleeves buckled behind his back. He can do it while being dragged at race horse speed behind an automobile.

This he demonstrated yesterday here perhaps 1,500 persons at Shamrock park. Leather padded clothes saved the performer from injury during the drag, which started just east of the bridge across Main street and ended a short distance west of the dam. The stretch traversed was about 600 or 700 yards long and the speed averaged thirty miles an hour, going as high as thirty-five. George Murphy drove Bill Frost's Cadillac eight for the exhibition.

Doesn't Use Hands.

Miller rode most of the distance in a sitting position, but at several places the rocks threw him backward. By the time the car had gone 150 yards, his hands were free and the remainder of the time was devoted to wiggling himself loose. He unlocked only two buckles, the one at the back of the neck and the one holding the strap through the crotch.

These he opened by "springing," he said; that is, pushing on the strap by body movement and thus raising the tongue of the buckle, after which another wiggle slips the tongue from the hole in the strap. After the crotch and neck straps are released, he wiggles out by hunching one shoulder and then the other until the garment slips over his head. Simple, he said.

The action was too fast for spectators to pick out details, but it was apparent that Miller was doing the impossible.

Coming Back.

"The Dare Devil" will return to Ranger in about a month for another series of feats, which will be planned on a still larger scale. The performance will be advertised throughout the oil fields and a large out-of-town crowd is expected here for the occasion. Miller will perform his sensational "death drag" downtown, and afterwards, will be dumped into Shamrock lake, manacled and fastened in the straitjacket, then tied in a sack. He guarantees to come to the surface in less than a minute.

Miller, who is only 28 years old, started in on his unique profession at the age of 12 and has gradually extended his stunts and made them more spectacular.

LOQUACIOUS PARROT RESCUES YOUTH FROM CLUTCHES OF THE LAW

CHICAGO, July 11.-An awkward green parrot, extremely loquacious, not sparing of profanity, was the means of keeping Edward Peterson from being locked up as a burglar. Mr. and Mrs. Paul Johnson went away over the three-holiday period and Mrs. Johnson asked Edward Peterson, her brother, to go to the flat and water and feed the parrot and canaries. He lost the key and was climbing in a window when neighbors called the police. The desk sergeant laughed uproariously as his explanation, but the boy insisted that if the sergeant would accompany him to the flat, he would prove he was right. So they went back to the flat. "Hello, Polly," said Peterson. "Hello, Ed," responded the bird. "How's a boy? Watta golly on yer lip?" "Hello, Polly, How's a Polly?" asked the sergeant, still unconvinced. "Arraawk, rawk. Go to hell!" screamed the parrot. "You win," said the sergeant. "Go ahead and feed and water these birds."

OSTRICH KICK FATAL TO SCREEN COMEDIAN

LOS ANGELES, July 11.-William "Billy" Ritchie, motion picture comedian, and for twenty years on the American vaudeville stage is dead as a result of injuries suffered when he was attacked by ostriches at a motion picture studio here. He was 42 years old. A simple remedy for a squeaking door hinge is the application of the tip of a lead pencil to the hinge.

LONGHORNS TO FACE STRONG AGGREGATIONS

With But Seven of 1920 Squad Ineligible Texas U. Has Good Prospects.

AUTSIN, July 9.-Football training for the University of Texas team will begin Sept. 10, and sixteen letter men will be on hand for practice. Only two letter men on last year's squad will fail to be back on the team this season. Eight other members of the first squad will be in the game again this year, and these veterans will be backed by eleven eligible members of the previous Shorthorn team. Scholastic records of the players show that only seven men will be ineligible to represent Varsity in the many important contests scheduled for next fall, and none of those ruled out because of scholastic requirements were stars on the championship team of last year, according to Coach Berry M. Whitaker, who led the 1920 team to victory. He will be assisted by Line Coach Seddon from Columbus, Ohio, in training the Longhorns for the 1921 season.

According to the schedule which has been arranged, the first game of the season will be on Oct. 1, with Simmons College in Austin; the next game will be on Oct. 7, with Austin College on the Longhorn's field. This will be followed on Oct. 15 by a game with Howard Payne in Austin. The fourth game will be played in Dallas with Vanderbilt on Oct. 22, while the state fair is in progress, and the game with Rice will be played in Austin, Oct. 29. Southwestern will play the University of Texas team on Nov. 5, in Austin. On Nov. 11, the Longhorns will contend with Mississippi A. & M. The concluding game on Thanksgiving day will be played at College Station with the Farmers.

BALD HEAD SAVES MAN FROM MURDER TRIAL

FAIRMONT, W. Va., July 11.-Joe Larossa probably mourned disconsolately when his hair began to leave him, but today he is satisfied with his bald head, for it saved him from standing trial for the murder of Rocco Vardiglione.

The only witness produced for the state at the preliminary hearing, I. C. Straight, admitted the prisoner resembled the murderer in every particular except one, a difference in the appearance of the scalp, for the slayer had long, curly black hair. So, although the police believe Larossa committed the crime, he was discharged.

ANOTHER NEW CITIZEN

Mr. and Mrs. Harris Hogg Harris are this morning the parents of a very new daughter. The young lady arrived via the stork air line at an early hour this morning. Both the mother and daughter are doing well.

GIMME CHAW, COMMENT OF RIP V. WINKLE II

Man Whom Chickens (Feathered Variety) Scared to Sleep - Is Non-Committal.

FORT SMITH, Ark., July 11.-The news of the great war was gently broken to Jim Eschinger, Thursday. Jim, who evidently started out to outspan Rip Van Winkle, finished a nap of a little over three years in a hospital here the other day. Jim was told how the world was made safe for democracy. "What war?" asked Jim blankly. "Gimme a chew of tobacco."

He stared at the ceiling when told Harding was now the president. "Harding?" he murmured; "gimme another chew of tobacco."

"What do you think of Andy Volstead and prohibition?" Jim was asked.

But he did not get a chance to answer. Dr. J. C. Bryant interrupted.

"Don't talk about prohibition to him," commanded the doctor. "It may shock him so badly that he'll go back to sleep three more years, or it may prove fatal."

Jim was told about the Carpenter-Dempsey fight. "I thought you said the war was over," he murmured. Then he turned over in disgust and took a little doze.

A flock of chickens (Leghorns) scared Jim into his long slumber. He was being pushed in an invalid chair when the flock frightened him and he went into a coma. Hospital attendants fed him with a tube for three hours.

A LA BOSTON HAIRCUT FOR SCHOOL-MA'AMS ON ITS WAY, SAY TEACHERS

DES MOINES, Iowa, July 11.-Visions of future schoolma'ams with their hair fetchingly bobbed!

It's coming, they say, and a great many teachers attending the conference of the National Education association are for it. There aren't any fad and fashion symposiums listed in the official program of the N. E. A. but the majority of the educators are feminine. Get them together in an unofficial session and they will talk style stuff.

Discussion of the bobbed-hair mode came up at a picnic of recreational supervisors. Arguments waxed fast and furious with all the ardor for the affirmative.

None supported the contention of F. K. Daniels that "all women who bob their hair are useless."

"Every girl and woman will wear her hair bobbed eventually," was the prophecy of Miss Sarah Given, director of physical education at Drake university. "We've been following a foolish, bothersome custom long enough. Why should not women have the convenience of short, unbound hair, the same as men?"

WRIGLEYS advertisement featuring a cartoon character and text: "AFTER EVERY MEAL" Mint leaf, peppermint or luscious juicy fruit, either flavor is a treat for your sweet tooth. And all are equally good for you. Teeth, appetite and digestion all benefit. Your nerves will say "thank you," your vim will respond. WRIGLEY'S is liked for what it does as well as for its BIG value at the small cost of 5c. The Flavor Lasts. Includes images of Wrigley's Spearmint, Doublemint, and Juicy Fruit chewing gum packs.

Program

LAMB—Owen Moore in "A Divorce of Convenience," also comedy, "Moonshine," and Bray Pictograph.

TEMPLE—Constance Talmadge in "Mamma's Affair," and new Universal comedy.

LIBERTY—Mary Pickford in "The Heart of the Hills," also "The Invisible Ray," and Mutt and Jeff comedy.

NITRO PLAYERS GO ON AUCTION BLOCK AT ONCE

Sales May Enable Club to Pay Off Without Going Down Into Jeans.

Affairs of the Ranger baseball club will be wound up for the season within the next few days, it is the expectation of the management. Wires are out now to many clubs in the south-west and it is probable that nearly all the players will be sold to other clubs, some outright, others possibly with strings attached. None have been sold as yet, however.

A few sales will enable the club to pay off without being forced to dig up, it is said.

Johnny Singleton, the ball-busting outfielder, has been sold to Memphis of the Southern association, under ten days' trial.

Tommy Lovelace has been sold to Muskegoe.

Robertson and Johnson go to Sherman.

All of these transfers were made under optional agreements, but it is believed most of the boys will stick.

Other deals are pending.

Although Ranger is out of the league for the balance of the season, plans are under way to provide strong semi-pro ball on Saturdays and Sundays through the remainder of the season.

MAN CHARGED WITH KILLING AT SABANNO IS RELEASED ON BOND

EASTLAND, July 11.—W. P. Armstrong, wealthy farmer of the Sabanno community, charged with the murder of Grady Tarber, on June 28, at his home near Sabanno, has been released on a \$10,000 bond.

Following his recent indictment it became necessary for Armstrong to make a new bond.

When Armstrong appeared in the eighty-eighth district court Saturday, where the question of the amount of bond came up, he had his right arm in sling and his left arm swathed in bandages. His face was pale, and he appeared weak from his injuries.

As soon as the amount of bond was named, it was readily made, as friends of Armstrong had accompanied him to court for that purpose.

RANGER STEAM LAUNDRY EMPLOYEES GIVEN DINNER

Employees of the Ranger Steam Laundry and their families gathered yesterday at the Ranger cafe and feasted as the guests of B. G. Cheney, one of the proprietors. More than thirty were present at the long table, which occupied nearly all one side of the cafe. The occasion was described as just a good fellowship affair, with no special significance except a desire to show appreciation of the co-operation of the Cheney employees.

REVIVAL CONTINUES AT NEGRO BAPTIST CHURCH

The revival at the negro Baptist church continues this week. The evangelist, Rev. A. L. Wright, of Wichita Falls, will preach tonight, his subject, being "The Lost Child in Town."

White friends are cordially invited and seats will be reserved for them. The pastor, Rev. J. W. Washington, and his congregation, thank the friends of the church for the financial aid given the solicitors.

PARTY AT YOUNG SCHOOL HONORS MRS. DEFFEBACH

All members of the Young School Parent-Teachers' association are invited to a party at the Young school auditorium Tuesday afternoon from 4 to 5:30 o'clock.

The party is in honor of one of the beloved members of the association, Mrs. T. G. Deffebach, who is leaving the city.

CORRECTION

A transposition of figures in Sunday's Times caused the city's assets, in an account of the auditor's report, to be listed as \$675,558.58, when it should have read \$675,558.58. This error is called to the attention of The Times by the auditors, Wakefield, Clarke & Plummer.

TULSA REALTOR HERE.

J. A. Bailey, a Tulsa real estate man, is looking about Ranger this week with a view to future business. Mr. Bailey was properly impressed with the improvements that have been made here, but gave the report as it came to him.

"Ranger has been plumb ruined," Oklahoma folk told him. "They've put up skyscrapers and paved the streets, and it doesn't look like the old town any more."

Barney's Admiration Aroused Suspicions

ALBERT T. SMITH DIED LAST NIGHT IN KANSAS CITY

Albert T. Smith, Ranger citizen and former owner of the Ranger Drug Co., on Main street, died last night in Kansas City, Mo., according to information received here.

Mr. Smith came to Ranger in the early days of the boom and with his sons, he engaged in the drug business. Surviving him are three sons, Lynn, Forrest and Albert Jr. The body will be buried in Mr. Smith's native state, West Virginia.

PETERS GOES TO C. OF C. MEETING AT AUSTIN

Manager J. E. T. Peters of the Chamber of Commerce left today for Austin, where he will attend the state convention of the Texas Commercial Executives' association. Mr. Peters will appear on the program. Also, if the delegates aren't set on going to some other town for their next convention, he will ask them to meet in Ranger in 1922.

BACK TO PHILADELPHIA.

Sam Kern who has been in Ranger for the past several months left last night for his home in Philadelphia. Mr. Kern was one of the leaders in many social events.

Having failed as a movie actress, 22-year-old Jane Rand capitalized her ability to make pretty aprons and now owns and operates a factory in California employing more than 600 girls.

AWAY WITH BOBBED THATCHES LONG MAY THE MARCEL WAVE

New York Employers War on Circus Rider Coifs—Brevity May Be Soul of Wit—But Bosses Think Abbreviated Skirt No Joke.

NEW YORK, July 11.—Taking a tip perhaps from the Aetna Life Insurance company at Hartford, which announced Monday that short-haired women could no longer anchor in their employ, New York is developing a little movement all its own toward getting the girls to shun the barber again. The idea has undoubtedly percolated into New York heads, though not uniformly.

Miss Helen Winne, of the employment bureau of the Y. W. C. A., which places hundreds of girls annually in every kind of position excepting domestic service, said yesterday New York employers shared the Aetna company's prejudice against bobbed heads among their women employees.

"They ask over and over for ones with long hair," she said. "This for two reasons: The short-haired girl is often seeking to get a husband harder than to get on in her job. Or else the short-haired girl is a middle-aged woman who looks freakish in a debutante cotillion. This prejudice is frequent enough for us to advise our applicants to net their bobs and grow them out as rapidly as possible. We don't go so far as to try to control them; we only suggest, and let their good sense do the rest."

The Aetna company, which employs 6,000 women in its main and branch offices, announced its ban through its employment manager, Frank K. Daniels, who said the reason for the order was that they "wanted workers in their offices, not circus riders." But according to information given out at the New York branch the offices here are still going to take a chance on the circus riders by not announcing a definite plan.

But other employers here are not such gamblers with fate, according to Miss Teresa O'Donahue of the League of Catholic Women, which served cafeteria luncheon for 25,000 business women during the last six months. Her experience and her convictions point toward making one sex unbarbered.

"Employers don't like short-haired women, and I don't see why they should," she said. "They're in the same class with women who wear short skirts and sleeves above the elbow and other extraordinary clothes. What would we think of the man if they took to long hair and shirt-sleeves rolled high on the street and trousers tucked up around their knees?"

Miss Jenkins, Treasurer of the Carroll club, which has 6,500 business women members said the problem was not conspicuous there, but she thought employers might object to

U. S. AMBASSADOR TO JAPAN

Charles Beecher Warren of Detroit, Mich., who has been appointed by President Harding as ambassador to Japan. Mr. Warren has never been connected with diplomatic questions, although he was in the government service on some of the important international questions. He was born in 1870 and graduated from the University of Michigan in 1891. During the World War, Mr. Warren was a major in the Reserve Corps. He will succeed Roland S. Morris of Philadelphia.

WOMAN SAVED AFTER TAKING LYSOL DRAUGHT

Shortly after dispatching two letters to the police station in which she asked God to forgive her for taking her life and saying that she was tired of living, Mrs. Frank Girause this morning drank lysol. The letters which were addressed to her husband and her father, P. B. English, were read by Desk Sergeant Jim Daniels, who at once sent Assistant Chief of Police George Murphy to the woman's room at the Pacific hotel. Murphy called physicians and quick work saved the woman's life. An hour after drinking the liquid, which is only slightly removed from carbolic acid, she was pronounced out of danger. It is thought that the quantity of the liquid she drank was not great.

Murphy found her lying on the floor of her room with the bottle beside her. Doctors J. B. Stackable, W. L. Farmer and C. H. Day were called and administered emetics. Once while physicians were working with her, she asked that she be allowed to die.

Her husband, Frank Girause, is a cook in a local cafe.

TEXAS BRIEFS

By Associated Press.

EL PASO.—To permit street cleaning without interference, an ordinance prohibiting parking of automobiles on El Paso streets between midnight and 6 a. m., has been prepared by the city attorney.

AUSTIN.—The report of the state bureau of vital statistics shows that 23 sets of twins and two sets of triplets were born in Texas during June. The total births reported was 5,459.

DALLAS.—Farm tenancy has increased considerably in Texas since 1910, according to the Texas Industrial congress. In 1920 farms operated by tenants in Texas numbered 232,335, as against 218,575 in 1910. Of these 142,645 were share tenants and 68,374 were croppers. Texas has more share tenants than any other state, the congress announced.

EL PASO.—An El Paso Labor Temple association has been organized by representatives of local unions. The object of the organization is to build a three-story labor temple to cost \$150,000. It is planned to lease the first floor to commercial concerns, with an auditorium on the second floor and lodge rooms on the third floor.

The Titanic memorial marble statue by Mrs. Harry Payne Whitney has been purchased by the French government for the Luxembourg museum.

HOUSTON MAN ASSERTS HE IS HAPPY AS A BOY

"When a man has suffered from stomach trouble practically all his life like I have and then finds something that fixes him up so that he eats anything he wants and never has a touch of indigestion it's time for him to talk for the benefit of others. This is the way I feel about Tanlac. It rid me of the greatest curse of my life and I know there are lots of other people who are looking for just such a medicine and don't know where to find it," said George Turbville, 1013 1-2 Preston st., Houston, Texas.

"As far back as I can remember I had dull pains all through my ribs and a gnawing in my stomach. Everything I ate soured and turned to gas that would make me swell up and suffer agony. I got to the point where the only thing I could eat was soft boiled eggs and I couldn't always digest them. I was so nervous and racked with pain I couldn't half work either, and it seemed to me that it was only a question of time when I would have to give up.

"This was my condition when I began taking Tanlac. I expected some help of course, but I had no idea it would take hold of me the way it did and make a new man out of me. Why, I feel different in every way. Not only is my digestion perfect but I sleep like a log every night, jump out of bed in the morning feeling fine, eat a big breakfast and go off to work as happy as a boy. It's great to feel like I do. I know if Tanlac could help me it can help anybody."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Palace Drug Co.—Adv.

PET MUSSEL IS NOT VERY AFFECTIONATE BUT MAY BE PROFITABLE TO OWNER

JERSEYVILLE, Ill., July 9.—Pearls are parasites on the bodies of mussels, according to Dan-nie Dorman, Illinois river fisherman. Dannie recently found a mussel that apparently was producing a large button pearl. He kept the mussel in a secret cache. And the pearl is growing, he says. Dorman expects to realize a neat sum from its sale after it "grows up."

CARUSO'S VOICE MAY BE LOST FOR ALL TIME

NEW YORK, July 11.—Grand opera's most valuable possession, the voice of Enrico Caruso in his prime is apparently lost forever.

Capt. Charles Anthony Fulton of the army intelligence service, who returned from Italy Monday, expressed the opinion that the tenor would never recover his old strength of voice. He said that when he saw Caruso the latter was in poor health.

Captain Fulton said that Caruso clasped his hands and muttered tearfully that he would sing no more, that is, he would sing no more as he once was able.

It was also stated that doctors in Italy are pessimistic about the chances of Caruso for recovering his full voice power.

TOWN SELLS "HOODLUM" AS POLICE BUSINESS SLUMPS

BELLVILLE, Ill., July 10.—Gone are the days—"wet" days. And need for a patrol wagon here no longer exists. The city sold its historic Black Maria at public auction. Folks didn't think much of the notorious municipal vehicle, and only one bid-

der was present. Mrs. Louis Beyer took down the prize at \$42.50. She will convert the old conveyance into a vegetable wagon.

Baroness Shidehara, wife of the Japanese ambassador to the United States, is considered one of the best educated women in Nippon, having studied in many lands.
