The shock of the explosion shook the windows of the hospital and of the dwellings in the best residential section of the town. Fifty of the prisoners who escaped had been recaptured this afternoon. Others, including Michael Donnelly, commander of an irregular force, have not been arrested.

'PREMATURE PUBLICITY' RUINS MINERS' MEETING

By Associated Press.
ST. LOUIS, July 27.—President Frank Farrington today rescinded his call for a state miners' convention at Peoria, Aug. 3. He stated this action was taken because of what he termed "premature newspaper publicity" of the convention.
At that time a consignment of liquor worth \$70,000 was en route from the United Kingdom to the Yukon, the property of the Yukon government. In the emergency the government here purchased a like amount in Vancouver and had it shipped by fast freight to Dawson. It passed the international boundary into the Yukon a few hours before the United States ban went into effect. Thus, the territory's liquor supply for a couple of years is safe.

CAFE SLAYER IS IDENTIFIED AS DALLAS WOMAN

Bertillon System Discloses Identity After She Refuses to Talk.

O'Connell of Haywood, Conn., in a fashionable restaurant. She is Mrs. Mabel B. Champion, wanted in Indianapolis on a charge of grand larceny.

BAND ROUSES ENTHUSIASM OF RECORD CROWD

Before a record crowd the Merchants' association band last night outplayed itself and held a large audience until the last note had died away. The bandmen handled classical selections in a manner that would do credit to a veteran organization, music lovers in the audience declared. Many present who have attended all the concerts given by the band, unhesitatingly expressed the opinion that the concert was a very marked improvement over any other that has been given and that each of the members deserves especial credit. Pop Endicott who has heretofore played the lead was enabled by the progress made by the band to give all his attention to directing it.
Tickets went on sale today for the concert to be given on the evening of Aug. 13 at the ball park for the uniform fund. It is expected to sell 2,000 tickets for the performance which will fully equip the band. The ticket sale is in charge of George Bryant of the Gilbelt Motor company, cornettist in the band.

YUKON ASSURED OF TWO YEARS BOOZE SUPPLY

DAWSON, Y. T., July 27.—Special permission from the United States government for the transshipment through Alaska of a consignment of liquor to Yukon has assured this territory a two years' supply of drinkables.
When an order issued at Washington recently banned the shipment of intoxicating liquor through United States territory en route from one country to another, it began to look as if the Yukon would have to go dry in spite of its popular vote in favor of government sale of liquor. All present roads to the Yukon lie through Alaska.
At that time a consignment of liquor worth \$70,000 was en route from the United Kingdom to the Yukon, the property of the Yukon government. In the emergency the government here purchased a like amount in Vancouver and had it shipped by fast freight to Dawson. It passed the international boundary into the Yukon a few hours before the United States ban went into effect. Thus, the territory's liquor supply for a couple of years is safe.

Sixty Strikebreakers Quit Denison Jobs

Escaped Convict's Downfall Blamed On Corn Whisky

By United Press.
DALLAS, July 27.—Corn whisky was believed today to have caused the downfall of Beverly Woods, age 43, convicted murderer, and said to be wanted in Indiana for breaking his parole at the state prison at Michigan City, Ind., where he was serving a term for grand larceny.
When arrested by the police on a drunk and disorderly charge, Woods unintentionally gave his correct name, and local officers quickly recognized him as being sought by Indiana authorities. He later admitted, according to Dallas police, that he was convicted in 1917 at Jacksonville, Ind., on a charge of grand larceny and sentenced to one to 14 years in state prison. He was later paroled and broke his parole. He has been a fugitive from justice since 1919.
Woods admitted having killed Charles Miller at Mexia in 1906, for which crime he was sentenced to 65 years in the penitentiary, but served nine years of that time and was pardoned by Governor Ferguson. Woods declared the shooting at Mexia followed an argument he had with Miller over a pint of whisky.

ROMANTIC PAIR DO NOT REGRET IMPULSIVE STEP

ATLANTIC CITY, N. J., July 27.—"Adorably happy! Do it again ten thousand times."
"No regrets, certainly not."
"No, we haven't heard a word from poor Burton."
So spoke the former Charlotte Gardner Demarest, daughter of Mrs. Warren C. Demarest of New York city, who eloped with the Count Edward George Zichy last May, the very day she was to wed a wealthy New Yorker.
The countess looked stunning in a gown of the newest Parisian creation. Between loving glances the pair was interviewed Friday in their ocean front suite of one of Atlantic City's most fashionable hotels.
The count said he had been offered a moving picture contract. "However, he added, "the contract must be for two, for we don't intend to be separated."
"Yes, we mean to make good, with the capital M and G," the countess interpolated. "I hope our critics won't be too hard. First they tell you to give up everything for love. When you do so, then you are told what a fool you had been. I am sublimely happy in my love. My big ambition is to help Eddie get somewhere."

One piece, it was reported this morning, was a nugget worth \$40 at present gold prices.

The Charles Braley was outbound from Tampico and the fire followed an explosion, the cause of which is unknown.

STRIKE SUMMARY

President Harding's conferences with railroad executives and union leaders today, revived hope of an early settlement of the railway walkout.
Efforts to negotiate separate peace by the Chicago, Milwaukee & St. Paul ends without results at Seattle while the parley between the Baltimore & Ohio and its striking workmen continues at Baltimore.
Road officials again contend that the passenger and freight service is almost at normal and that the increasing recruiting is building up a new shop force.
Union leaders maintain that the walkout is 100 per cent effective and that none of the men who went out on strike have returned to work.
Three non-union men were kidnaped and assaulted at Galesburg, Ill.

The figures show that in ten industries there were increases in the number of persons on the payroll in June as compared with May, and in two decreases. Respective percentage increases of 8.4, 7.2 and 6.9 are shown in men's ready-made clothing, automobiles and car building and repairing. By United Press.
ATLANTA, Ga., July 27.—Negotiations to establish an international organization for the maintenance of white supremacy are in progress between the Ku Klux Klan of Alabama and an Anglo-Saxon order of England, it was announced here today by the Ku Klux Klan. In an exclusive interview with the

Situation Quiet; Katy Officials Say 400 Men Are En Route There.

By Associated Press.
DENISON, July 27.—Denison entered upon its second day of martial law today with little different arrangements from the routine of yesterday. Aside from the excitement of national guardsmen in the city park, and clearance of area covered by the railroad shops, there is little suggestion of a military atmosphere. Swimmer Can't Sink in Jordan, It's Too Salty

(P. W. Wilson in the World's Work.)
In one matter, Palestine enjoys an advantage obvious at once to the student of her maps. The River Jordan, which Joshua crossed dry-shod, in which Naaman the Syrian bathed away his leprosy, and where John the Baptist preached, is unique. Among the rivers of the world, there is no other like it. The source of the Jordan is 900 feet above sea level.
From that source to its outflow, the distance is only sixty miles, but it is a distance which the river itself, by the frequent winding, more than trebles. The outflow is not into any open sea but into a lake surrounded entirely by mountains and exhausted only by evaporation or soaking of the water into its bleak and desolate shores. This lake is so charged with various salts that to sink in its waters is impossible, while bathing severely tests the complexion.
Most remarkable of all is the fact that the lake, supposed to contain the ruins of Sodom, Gomorrah, and other cities of the plain, is situated 1,300 feet or thereabout below the level of the sea. Nowhere, not in the Grand Canyon itself, is there a phenomenon so mysterious and so sensational.

DRY AGENTS TEMPT TO CRIME.

Two prohibition agents hire a room at a hotel, send for a bellboy and offer him \$20 to buy them a bottle of whisky. When he refuses they send for another bellboy, and keep on till they find one who needs \$20, or so much of it as the rumeller leaves him.

We used to think that the agent provocateur was an institution of nefarious Russian czarism, like brutal Cossacks and debauched Grand Dukes. But anything is good that serves a good purpose, and people inclined to violate the prohibition laws ought to have their latent wickedness provoked into action so that they can be properly punished, even if it takes agents provocateurs to do it.

Had Lots of Fun, Not a Bit Sore, Says Fleweller

"I extend my best wishes for a successful administration to my friend, W. J. Barnes, and feel that he will make a good county attorney," Judge L. H. Fleweller of the corporation court and one of the unsuccessful candidates in the recent primary, declared this morning in pledging Mr. Barnes his cooperation at all times.

"This statement would have been given the Times sooner," he declared, "but it has taken me some time to get out from under the snow."

In extending his thanks to his friends and supporters Judge Fleweller declared that no man had ever had more loyal friends and that he appreciated them more than words could express. "I am a good loser and have had lots of fun out of the race, although I was defeated. I have no hard feelings toward any one," he continued.

PURIFYING FAST FATAL TO MOUNTAIN PREACHER

NADA, Ky., July 27—William Rice, mountain preacher, dead by reason of a voluntary fast begun May 13, was buried near here. His fast was undertaken, he had declared, for the purpose of "purifying his body."

Prior to his death Mr. Rice expressed conviction that a great storm would mark his burial. The sun shone down from a clear sky on the crowd gathered for the burial service.

Prior to his death Mr. Rice expressed the conviction that an angel would be sent to earth to escort him away "on a train." Later, however, he stated that he had lost hope that his departure would be thus signalized.

Mr. Rice said he had given up hope that life would be left to him if he did not take food, but still he refused to eat. The only sustenance he had had since his voluntary starvation began had been water.

He had expressed a desire to visit a graveyard before his death, but his condition was such that he could not be taken from his home. He died firm in the belief that he had done right in refusing to partake of food.

The 8-months-old daughter of Mr. and Mrs. J. Remonte still continues well and happy despite the fact that the open safety pin which she swallowed last Friday is still in her system. The course of the pin is still being watched by physicians by means of X-ray photographs. The child is expected to relieve herself of the pin without injury.

NEW YORK, July 27.—Joe Weber and Lew Fields, Dutch comedians, who won fame during the days of Tony Pastor, and who became estranged more than ten years ago, have been reunited. IS HE TO WED MILDRED HARRIS?

In her compartment on the Broadway Limited, Mildred Harris, formerly Mrs. Charlie Chaplin, denied she was to become the bride of Byron Munson, son of Arthur Knox Munson, Chicago board of trade man. But when the train reached the union station in Chicago she stepped right into Munson's arms, and he kissed her with fervor. Her mother, who accompanied her, greeted Munson warmly.

EDITORS URGED NOT TO POKE FUN AT DRY LAW

MISSOULA, Mont., July 27.—Plea that editors uphold the slogan "Law and Order" in their various communities was made before the opening session of the National Editorial association's annual convention here Monday by J. C. Brimblecomb of Newton, Mass., president of the association.

Mr. Brimblecomb placed emphasis on enforcement of the prohibition laws. "Newspapers of this country have a great opportunity to give substantial aid to the cause of law and order by refusing to publish any of the so-called jokes and sneers on the eighteenth amendment to the constitution of the United States," he said.

"No matter what you or I may think as individuals of the merits or demerits of prohibition, we must never forget that it is the fundamental law of the land and is entitled to as much respect as the laws against murder."

The Boston police strike in 1919 and the recent mob outrage at Herrin, Ill., were referred to by the speaker as examples of "how woefully thin is the shell of our civilization." He also touched on the news print situation, matters of newspaper ethics and plans for further organization of the association he heads.

PRICES MUST BE CUT IF MINE TROOPS STAY

DENVER, July 27.—State troops now patrolling coal fields will be withdrawn unless coal operators rescind recent increases in prices, Gov. Oliver H. Shoup announces.

Governor Shoup issued a statement charging it was the "height of ingratitude" for coal operators to increase prices while the state was paying for guards to enable the mines to operate. The statement declares that wages of the miners have not been increased and that "unnecessary advances in the prices of fuel are not to the public interest at this time, particularly when the nation is now facing a shortage."

WAR VETS GIVEN LAST CHANCE TO REGISTER SERVICE DISABILITIES

DALLAS, Texas, July 27.—Veterans of the world war who were injured in any war or contracted disease during government service, are urged to obtain a certificate of injury before August 9, the last day for registering such cases, in a statement issued by S. C. Kile, district manager of District 14, U. S. Veterans Bureau here. Failure to obtain such a certificate before the period of registration expires, will revert the former service man from receiving compensation benefits from the government even though the injury may become serious at some future time, the statement said.

"It is not necessary to file a claim for compensation or to take any formal action to register such minor injuries or defects which resulted from service," the statement says. "All that is necessary is to write to the director, U. S. Veterans' Bureau, Washington, giving name, rank, organization, date of enlistment and discharge, and stating circumstances under which the disease or injury was incurred."

EVEN BREAK IN TWO FINE GAMES AT NITRO PARK

Sixteen innings of the most hectic baseball seen in Nitro park this season resulted in an even break yesterday, Ranger taking the first game, 5 to 1 and Clovis the second, 3 to 1.

Lefty Adkins hurling a neat ball game in a duel with Big Jim Sewell, ex-Dallas Marine, emerged the victor when a bunting attack hurried the Buzzer infield, and wild tosses, mixed with solid whacks by Dockery and Pyle, gave the Nitros three runs.

White Is Star. Up to the seventh, both teams had played phenomenal ball, with Binie White having the greatest day of his career in a Nitro uniform. Binie snagged liners and redhot grounders ticketed as hits, three of his spectacular feats coming when Adkins was in a hole. He made one high weave which Conley blocked, but it came after an elegant stop. With Binie showing the way, both teams played dashing. Holloway was perhaps the Buzzer star, making a great catch of a foul play and acting as the fulcrum of two fast doubles.

Sewell's speed was just a bit more unsolvable than Adkins' dinkies, but when rapped, the apple traveled and Nitro finesse enabled the home gang to tie up the score and then take a slender margin, before the blowup came.

A successful squeeze play, following Clary's error and White's double, put Adkins across with the tying run in the third round. White dashing tried to count on the same play and was nipped only by a speedy double killing.

Costly Wild Heave. In the seventh, the Buzzers wobbled again and the Nitros forged to the front. Clary missed Pyle's rap, and when Leedy bunted, Erwin heaved the ball to the right field palisade, Pyle counting.

Three bunts, two of which were mishandled, followed by solid whacks from the bats of Dockery and Pyle, added the clinching runs in the eighth. The Buzzers' only score came in the second, when Erwin's drive got by Pyle, after Williams had singled and Sloan sacrificed. Both teams had several opportunities but fast fielding cut them down. Each pitcher once led off the inning with a double, only to be left stranded on the sacks.

Burleson Too Tight. The excitement bred by the first encounter lasted all through the second affair, which was an errorless and equally hard fought encounter between Parson Pyle and Burleson. The Buzzers emerged on the long end of a close score by getting to Parson in the sixth round. Clary led off by heating out a rap to Brooks; Holloway tripled to the club house and McIver dumped a single into left, counting two runs and breaking a tie.

Burleson was too much for the Nitros in two tempestuous offensives, grouped fore and aft of the successful onslaught. In each of these, clean hits by the Nitros put runners on first and second, but two were down each time and the pinch poke was not forthcoming. Bud Ammons injected himself as a pinch hitter in the sixth and was walked.

The Nitros only marker came in the third, when Palmer, catching his first game for the Nitros, took a pitched ball in the ribs, virtually stole second while Erwin looked for a dropped pitch and came home on a rap which Craig stretched to a double by speedy legwork. This led endured until the fifth, when Burleson tied up his own game by dropping a homer over the wall. He was the first Buzzer to see first in four innings. Except for that untimely swat and the fatal sixth, the Parson hurled a nice game. He had some trouble in the first, the bases being filled with one down, but pulled out when Conley threw Clary out at the plate.

KANSAS INDUSTRIAL COURT GOES ON TRIAL IN STATE PRIMARY

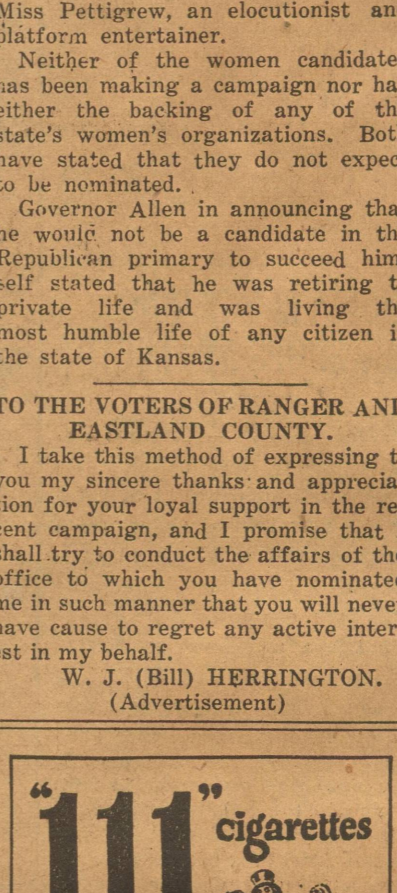

TOPEKA, Kan., July 27.—The fate of the Kansas industrial court, which, during its life has been opposed at every turn by organized labor, will rest with the voters of the state at the primary of Aug. 1.

CRASH OF RYAN'S FORTUNE LAID TO HIS DEFIANCE OF WALL STREET

NEW YORK, July 27.—While the jangle and crash of Allan A. Ryan's fortune still echoed through Wall street and the same sounds were being heard less distinctly in the bright light and luxury belts of Broadway and Fifth avenue, the second guessers in clubs and brokers' rooms of New York were saying "Ryan got fresh and the powers nailed him."

For Ryan's defiance of the stock exchange governors and his consequent expulsion were regarded as incidents which could portend nothing but disaster for the most spectacular "operator" in the current history of the "street."

Cash Assets \$16.

Ryan defied the stock exchange and finally Ryan came down with the crash of a cookstove on a concrete courtway. Ryan, a millionaire thirty times over but a short time since, now lists his cash assets in the bankruptcy proceedings at just \$16, which wasn't even small change in vest pocket of the Allan Ryan whom Wall street looked upon with strange misgivings when he was running the Stutz corner.

The bankruptcy was personal to Ryan and did not include the firm.

The move of the Ryan lawyers in filing a petition in bankruptcy caused

considerable surprise in most quarters. There had been rumors, however, that he had been dealt heavy blows in recent stock transactions.

Mrs. Sarah Pack Ryan, his wife, was named as an unsecured creditor in his petition. Mrs. Ryan set forth that there was due her in cash and securities, including 1,033 shares of Stutz stock, \$2,860,669.

The Morton Petroleum company, the Ryan Petroleum corporation and the Ryan Consolidated Petroleum corporation issued a joint statement saying that they were in no way affected by the bankruptcy proceedings, explaining the active management of the corporation was directed from the offices at Bartlesville, Okla., with A. Morton, the president, in charge.

That Ryan is completely "broke" was emphasized Saturday by the fact that his son has taken a job as "runner," or messenger, for a Wall street brokerage firm.

Although Ryan's father, Thomas Fortune Ryan, is a multi-millionaire whose wealth nearly rivals that of Rockefeller, father and son have been estranged for years and friends of Allan say he expects no assistance from his father.

Among the liabilities are \$8 for toys, dues to eight clubs and \$384 for theatre tickets.

Fashion Expert Bemoans Hair Nets on Pretty Women

CHICAGO, July 27.—"The glory of a woman is her hair."
So declared Solomon, whose reputation as a connoisseur in feminine loveliness was equal to his fame as the wisest of men.
Fashion experts of today, assembled in convention in Chicago,

agreed with the ancient king, but they declared that to be a woman's glory hair must be arranged with an art that counterfeits nature.

"Nothing," said a beauty specialist at this national gathering, "is so conspicuous in a woman, as her hair. Gown, toque, lingerie, jewels have each their separate appeal to the eye. But their combined effectiveness is destroyed if the coiffure is incorrect. The hair must be arranged with careful carelessness. It must have the appearance of unstudied naturalness. The mechanics of the coiffure must not be noticeable. Hair nets, pins, and other contrivances for holding the hair in place must not show. The prettiness of a coiffure is lost in evidences of artificiality."

"On a correctly gowned and beautiful woman a double-mesh hair net plainly visible is a tragedy. It is a detail out of drawing in the picture, a discord in the music. It has an air of cheapness. Its only excuse is its durability, but who wants durable ugliness?"
"Well-bred women have discarded

these coarse-strand visible nets. They lack style as well as beauty. Fashion has placed its imprimatur upon single-strand invisible nets of real hair or fine silk. They create an illusion. An indefinable charm distinguishes the woman who preserves the individuality of her coiffure beneath their strong, invisible strands."

DRIED DRINKS VERY DRY.

WASHINGTON, July 27.—Postmaster General Work issues a warning to all Americans who would "buy for \$1 only Rhine wine, Moselle, sherry, port, Bordeaux, Burgundy, Tokay, Malaga, beer of Munich, Pilsener, porter, ale, etc.," in dried form. There is no such thing, he said, but if there were it would be barred from

the mails by the prohibition laws. "Stemming a tide of 'dehydrated' alcoholic beverages of reminiscent names is a steady job of the fraud department of the postoffice department," said a notice issued today. "If they contained alcohol; and since they do not have the latent possibilities advertised, they violate the mail fraud statutes."

20 HURT WHEN STEAMER RAMS COLLIER IN FOG

BOSTON, July 27.—Twenty persons, several of them women and children, were injured when the steamer Dorothy Bradford rammed a collier in the harbor during a dense fog. The steamer was able to reach her

dock here without assistance and later resumed the trip to Provincetown.

Grass Protein for only 20 lbs. of Milk

How does she make that extra 10 lbs.?

COWS that get only enough protein and calcium from grass to make 20 lbs. of milk may make 30 lbs. for a time on grass alone. They do it by drawing upon their bodily tissues for the other 10 lbs. But their milk will suddenly fall off unless a concentrate is fed.

Don't let cows "run down"—

Volume Savings Permit Greater Value

There are hundreds of parts in a motor car. Many companies buy all, some makers build a few, of the parts that go to make up a complete motor car. For every part they buy, a partmaker's profit must be included in the final price.

Studebaker builds every vital part. Motors, bodies, axles, transmissions, frames, tops and other parts are designed and manufactured completely from raw material to finished product in Studebaker plants, under Studebaker control and inspection.

The savings, because of tremendous volume, give the buyer extraordinary value.

Complete manufacture also explains the uniform high quality that you get in a Studebaker car, whether it is a Light-Six, a Special-Six or a Big-Six.

And uniform high quality has made Studebaker cars known everywhere for their dependable performance in owners' use.

THE ART OF PRINTING

ORIGINALITY IN PRINTING nowadays is one of the most difficult of qualities to attain. You must use the types and blocks and papers and colors which have been in use for ages; hence it is extremely unlikely that rearrangement of all of these things in a manner admittedly satisfactory and at the same time quite original can be achieved by those lacking experience.

It requires years of thought and study to master the art of printing. Novices can "print" in a way, but compare the product with that of a student of the work.

We claim to have mastered the art, and take pride in the fact that our work cannot be equalled by the ordinary printer. Of course, it takes money to manufacture a product of quality, the same as in any other line. Our prices are made up to quality, not down to price.
