KATY CUTS OFF 14 MORE TRAINS DUE TO STRIKE

Waco-Galveston and Dallas-San Antonio Service Is Materially Reduced.

HOUSTON, July 18.—The Katy Flyer between Waco and Houston and Galveston, one of the fastest trains on the Katy system, has been discontinued, and trains Nos. 5, 7 and 25 southbound, from Dallas to San Antonio, have been consolidated, Katy officials announced here today.

Scarcity of equipment due to the strike of railroad shopmen is assigned as the reason.

NON-UNION WORKERS IMPORTED INTO DENISON

DENISON, July 18.—Sixty non-union workers under heavy guard detained here today. There was no demonstration and no attempt was made to molest them. Danger of attack was lessened yesterday when federal officers issued orders clearing the vicinity of the depot and permitting the strikers to maintain only one picket at the street corner near the station.

Single-handed, Captain Tom Hickman of the ranger force, broke up a demonstration last evening when an attempt was made to kidnap two deputy United States marshals who had left an interurban car. The deputies were rescued by Hickman from a crowd of men who had gotten them into an automobile. Strikers complained after the affair that Hickman cursed them. The situation otherwise continued quiet.

The Katy took off 14 additional passenger trains in Texas at midnight Monday, officials announced, adding that the cancellations were made to conserve power.

Bill Hanson of the department of interior, former Texas ranger, is here and looking around. Hanson said he did not know what connection his department had with the strike. It is known that he has held several conferences with various persons connected with the strike situation.

BARTON AT GREENVILLE.

AUSTIN, July 18.—Adjutant General Barton left last night for Greenville to confer with Governor Neff on the strike situation. Barton's departure was not made public and did not become known until this morning.

STRIKER PAYS FINE AFTER ALLEGED KIDNAPING FIGHT

WACO, Texas, July 18.—The aftermath of an alleged attempt to kidnap Clark Martin, a Katy guard, here Sunday night, in front of the courthouse, came in the city court this afternoon when W. F. Sharp, striking railroad blacksmith, pleaded guilty in the corporation court to fighting. He was fined \$5. A similar case against Martin was reset for this afternoon.

It was claimed by officers of the Katy here that six men in an automobile came to the place where Martin was standing last night, at Washington and Fifth streets, and attempted to abduct him; that Martin showed fight, and his arrest, with that of Sharp, followed.

KATY FLYER CONNECTIONS AT WACO DISCONTINUED

WACO, Texas, July 18.—Effective Monday night, Katy flyer connections with Houston, and Galveston were discontinued. The flyer will continue to operate between Waco and San Antonio. This makes four trains on the Katy entering Waco, and two on the Texas Central to be discontinued since the strike began.

SIXTEEN BROTHERHOODS JOIN IN WACO MEETING

WACO, July 18.—Representatives

BRITISH NOT ENTHUSED OVER ANOTHER DEMPSEY CARPENTIER BATTLE

LONDON, July 18.—There is less enthusiasm in England than in France over the proposed return match of Jack Dempsey, world's heavyweight champion, and Georges Carpentier, world's light-heavyweight champion, although the genuine British fighter is making much noise in the hope that the bout may be staged in London. Those financially interested in the proposal are disappointed with the feeble public response.

Some of the British sport writers argue vehemently against the pair meeting again, "Punch," England's greatest boxing expert, asserting in the London Times that the result of the battle at Boyle's Thirty Acres in Jersey City last July was so decisive that Carpentier has no reason for soliciting another attempt at the crown and that the whole proposition is absurd.

FLOGGERS LEAVE MAN AND GIRL CHAINED TOGETHER IN DITCH

HOUSTON, July 18.—Authorities here are conducting an investigation to learn the identity of a party which took Dave Hunt, a prosperous young farmer, and his fiancée from his home at Cedar Bayou and after escorting them down the road for a few miles, brutally whipped Hunt with a knotted rope.

After the whipping was administered, Hunt and the girl were chained together and thrown into a ditch, where they were found by passersby.

According to the report to the authorities by Hunt's brother, the girl was at Hunt's home to care for his aged mother, who was ill. He said the mob came

to the door, saying it had a warrant for Hunt's arrest. When he resisted, they forced him at the point of a gun to enter a car. Two other members of the mob then dragged the girl from her bed, partially clad, and forced her to accompany them, the brother said.

Hunt, who has just recovered from a severe illness, is in a critical condition but is expected to recover. His mother is said to be at the point of death as a result of the affair.

The girl, who snatched the mask from one of the mob, was struck in the face and rendered unconscious. When she regained consciousness, her hair had been cut off close to her head.

SUICIDE AND HANGING ARE FATES OF FOUR EUROPEAN ASSASSINS

Slayers of German Minister Shoot Selves as Pursuers Close in.

BERLIN, July 18.—Herman Fischer and Edwin Kern, the assassins of Dr. Walter Rathenau, foreign minister, committed suicide last night as police were about to arrest them at Bad Koenen, Thuringia. The two were traced to Bad Koenen, where they barricaded themselves in a tower on top of a mountain Volley after volley of shots were fired into the place by the police. As the two men were being closed in on, police heard them shout, "You cowards!" This was followed by two shots in the stronghold. The men were dead when the doors were broken down.

INDICTMENTS FOR WAR FRAUD ARE RETURNED

WASHINGTON, July 18.—An indictment of ten persons charged with defrauding the United States government of more than \$1,000,000 in the disposition of government lumber after the war was returned today by the special federal grand jury which has been in session investigating war frauds since June 1. Among those indicted was John Phillips, republican state committee man from Georgia, and James Stephens, Phillips' partner.

The indictments were the first returned in the investigation for which congress appropriated \$500,000.

MOTORIST HURLED ON TOP OF LOCOMOTIVE IN CROSSING CRASH

BRAINTREE, Mass., July 18.—Albert Cowart is rejoicing over his escape from death when a train struck two automobiles at a grade crossing.

Thrown from the car he was driving to the top of the locomotive, he clung to the smokestack and when the train stopped at a station, 150 yards from the scene of the accident, he climbed down. Except for minor bruises he was uninjured.

A woman was killed and another woman and a man were injured seriously in the accident.

GILLET STOREKEEPER ATTACKED BY FARMER

LOCKHART, July 18.—Willis Branyon, storekeeper at Gillett, five miles south of here, was dangerously wounded last yesterday in an argument with C. C. Stegall, farmer at Gillett. Branyon was struck with an iron bar in the hands of Stegall, officers state. Business difficulties were the cause of the affair.

KILLED IN EFFORT TO STOP RUNAWAY

ABILENE, July 18.—In trying to stop a runaway team and save the life of the boy driver, Smith Douthitt, living 10 miles south of Plainview, was killed this morning when the horse he was riding collided with the runaways. The boy escaped uninjured. Douthitt removed to Plainview recently from Olney.

Death Penalty Is Returned Against Two Assassins of British Field Marshal.

LONDON, July 18.—Reginald Dunn and Joseph O'Sullivan were sentenced to death today for the murder of Field Marshal Sir Henry Hughes Wilson, who was shot to death in front of his home last month. Precautions were taken to see that no sympathizers with the Irish republicans gained admittance to the court room. The few admitted to the public galleries were scrutinized carefully.

He will call a conference tomorrow with his chief assistants to review the reports submitted by the companies involved and by the Government's own investigators.

NEGRO BEATEN TO DEATH WITH HARNESS HAME

Domestic Trouble Causes Fatal Fight in Front of Tee Pee Camp.

Dock Harden, negro, was struck over the head and almost instantly killed late yesterday afternoon by James Smith, another negro, on Tiffin road, in front of the Tee Pee camp. Smith wielded a harness hame and the force of the blow buried an iron staple into the head of the other negro. Smith walked to his home nearby and awaited the arrival of the officers. Following statements from the prisoner, his wife and a note from the woman found in the dead negro's pocket, Smith was released on a \$2,000 bond to await action of the grand jury.

Smith, who is employed as porter by the Times, claimed that the Harden negro had drawn a knife and had cut him on one hand when he struck the fatal blow. According to his statement, the Harden negro had been persistently visiting the prisoner's wife since last winter and had refused to heed the warnings that he stay away from her. The prisoner stated that he had found his wife and Harden on a creek bank near his home yesterday afternoon and that both had run when he came up. He claimed to have followed Harden, who he said threw a rock at him and then ran some 100 yards and pulled a knife and cut him on the left hand. It was then, he admits, that he picked up a harness hame lying beside the road and struck the blow.

The woman in a statement admitted that she had been intimate with the Harden negro but claimed not to have seen the fight that followed her detection. A note found in the dead negro's pocket appeared to be a Justice scrawl from the woman, inviting Harden to meet her on the creek bank.

LENINE DEAD AGAIN

COPENHAGEN, July 18.—Nicolai Lenine, Russian premier, was murdered en route to a Caucasus watering place, according to a dispatch received today from the Riga correspondent of the Svenska Dagbladet.

The report, which lacked confirmation, said poison had been administered to Lenine on the train from Moscow and the body was hurled into the river Don near Rostov. It was reported from Riga that one of the assassins was an executive of the Third Internationale, who is now impersonating Lenine at the southern watering place.

Ranger Crude Now \$1.75; Kansas and Oklahoma \$1.50; Other Grades Also Cut.

North Texas and Mid-Continent crude took another tumble this morning when the Sinclair company posted a 25-cent reduction, bringing the present price of North Texas crude to \$1.75 and Kansas and Oklahoma, with the exception of Healdton, to \$1.50. The Healdton crude tumbled from \$1 to 75 cents. The cut was met shortly before noon by the Prairie company. None of the other companies with offices here had received notification to meet the cut at 1:30 this afternoon.

This reduction is the second within the last four days, the Prairie company having posted a 25-cent reduction from the \$2.25 price last Saturday, which was immediately met by the other companies. At the time one of the oil company officials predicted that another cut would follow because of the large quantity of oil in storage.

DR. M'ADON NOT SERIOUSLY HURT WHEN HIT BY CAR

Dr. L. E. McAdon, who was run over and painfully injured yesterday afternoon by a Times truck at the corner of Main and Rusk streets, was reported to be resting well at the Clinical hospital this morning. Hospital authorities reported that so far as had been determined, no broken bones had resulted from the injuries to Dr. McAdon's ankles and hips.

Aubrey Niven, news carrier, who was driving the machine at the time of the accident, was released yesterday afternoon under a \$200 bond for reckless driving and will be tried tomorrow morning at 10 o'clock before Justice of the Peace McEatter. Jim Smith, negro, regular driver of the truck, was in the machine but not driving, claiming that the boy had slid into the driver's seat and started the truck while he was carrying a tire in the Hub garage.

Harding Weary of Experiment In Daylight Saving

WASHINGTON, July 18.—President Harding has informed the Federal Employees' union that the executive departments of the government have made its last experiment in voluntary daylight saving. The union asked that government employees be allowed to vote on continuation through the summer of the existing plan whereby the departments begin an hour earlier and close an hour earlier, but the President refused the request, saying:

"The executive branch of the government was committed to the plan and there will be no general order changing it until the latter part of August. Then it will be put aside not only for this year but for all time so far as this administration is concerned."

The voluntary plan was put into effect early in the summer at the request of Washington business men and a number of government employees, but after a few days' trial both groups started an agitation to return to standard time.

CATHOLICS AND SOCIALISTS IN MEXICO CLASH

Thirty-five Killed, 100 Injured, as Armed Men Riot in Church at La Paz.

NOGALES, Ariz., July 18.—A battle between Catholic and socialist workmen, staged in a church at La Paz, in the Matasuala mineral district of Mexico, in which 35 were killed and nearly 100 wounded, was reported in advices received here.

Two priests who were lecturing in the camp on economic topics invited the socialists into the church and in the midst of the address, someone started an alarm among the Catholic workmen that the priests had been attacked. Armed Catholics invaded the church and a riot that involved the entire camp followed. Troops were called to the scene after the violence had ceased and are still patrolling the camp.

Soaks Playmate With Gasoline; Applies Match

AKRON, Ohio, July 18.—Billy Durbin, aged 7, died today as a result of a childish prank. He was fatally burned when a playmate threw a bucket of gasoline on him and touched a match to it.

Police investigated reports that the boy had been burned while playing a game of "Indian" and burned at the stake. This was denied, however, by S. B. Hagebarger, a grocer, who took the boy to a hospital.

GERMANS TO MAKE SOFT WOODS HARD

BERLIN, July 18.—Conversion of pine, poplar and other ordinary woods into hard wood, comparable in all respects to ebony, mahogany and the like, is possible under a new German invention.

Rights to this invention have been obtained by Albert Theodore Otto, New York business man, who represents in America the great Krupp concern.

Otto believes that the invention will have a marked effect upon the hardwood industry of the world, causing a vast drop in the importation of mahogany, ebony and such woods.

The device consists in a hydraulic apparatus, which compresses ordinary soft woods to the point where they are so heavy that they will sink in water. Any desired color of wood can be obtained by putting a stain through the wood fiber under force before the actual compression of the wood is accomplished. Then the whole structure has the same color. Ebony is obtained with black stain; mahogany with the rich brown stain. It is absolutely impossible to distinguish the fabricated hardwood from the natural for it has all of the characteristics of weight, wear and beauty, according to German experts.

MORE CUTS MADE BY MAGNOLIA COMPANY

LEADER OF MT. EVEREST CLIMBERS STILL LOST

LONDON, July 18.—Anxiety prevails in India regarding the whereabouts of Brig. Gen. Charles G. Bruce, leader of the Mount Everest expedition, according to the Daily Mail's Calcutta correspondent.

Nothing has been heard of General Bruce or the other members of his party, says the Calcutta dispatch since George Finch, Lieutenant Colonel Strutt and Dr. Longstaff arrived at Darjeeling a fortnight ago, and it is not known whether they are returning or are making a further attempt to scale the mountain.

Officials of the Royal Geographical society in London share in the surprise at the silence of General Bruce and his companions, which they cannot understand.

HARDING TELLS OPERATORS TO REOPEN MINES

Asks Governors to Send State Troops; "Can't Get Enough Miners," Says Gompers.

WASHINGTON, July 18.—President Harding late today will send telegrams directing operators of all bituminous mines shut down because of strike conditions to resume operations at once, and requesting the governors of those states in which mines are operated to furnish such military protection as may be needed.

If the state troops find it impossible to cope with the situation, federal troops, it is understood, may eventually be employed.

The prediction is made by Samuel Gompers, president of the American Federation of Labor, that Harding's invitation to the bituminous operators to return to their property and resume operations would result in no appreciable increase in the production of coal.

Gompers predicts failure. "The country is drifting into a state of irresponsibility and the situation resulting from the rail and coal strikes are such as to cause grave concern in every quarter," Mr. Gompers declared.

The veteran labor leader predicted a flat failure of President Harding's plan to resume operations at the mines. The striking miners, he said, will not dig coal under such a plan and non-union miners or strikebreakers cannot be obtained in sufficient numbers to man any number of mines.

Gompers sharply attacked the administration, saying there was a "lose bond of sympathy shown by the government's and the employers' statements."

"The nation cannot at this time afford to put anything ahead of justice," Gompers said, and issued an emphatic warning against the use of troops in the coal strike, declaring that "this is no time to rattle sabers or the mailed fist."

MYSTERY FIRE IN N. Y. CAUSES MANY INJURIES

NEW YORK, July 18.—Working feverishly to check the flames sweeping through a warehouse in Greenwich village, firemen today were unable to pierce a cloud of mysterious black smoke which shrouded the building and surrounding section. The fire started at 8 a. m. with an explosion and was followed by a series of other explosions and at noon today the death list stood at two, with thirty injured and three missing. The fire took its toll chiefly from the ranks of the firemen and policemen.

Nearly 200 families were driven from their homes and the policemen were forced to draw the firelines four blocks on either side of the building. The persons driven from their homes were chiefly artists and poets.

Hungry Russian Peasants Quickly Grind and Cook Corn Brought Into Famine Zone by American Workers

These two pictures, taken in the
famine region of Russia, give a frag-
mentary idea of the way the American
corn, provided by the appropriation
of Congress last winter, is being re-
ceived and how quickly it brings a
look of health into the faces of the
unfortunates. This corn has reached
thousands of villages far from the
railway lines. When the first Ameri-
can Relief Administration workers ar-
rived at some of the villages in the
Samara region the villagers knelt and
hailed them as deliverers.
As the relief work continues with the

backbone of the famine broken, it is es-
timated that more than 3,000,000 children
are being fed, in addition to 5,000,000
adults on corn diet, and 250,000 in the
soup lines. The corn is provided by
Congressional appropriation. The rest
is from private gifts of the American
people. In addition to the feeding
work the medical department of the
A. R. A. is fighting existing epidemics
and preventing others by educating the
people in improved sanitation and hy-
giene, introducing bathhouses in many
cities, assisting established hospitals
and providing emergency centers for
treatment. For this work Congress

gave \$4,000,000 of surplus army medical
supplies, and the American Red
Cross \$3,400,000.

The larger of the two pictures above
shows former Governor Goodrich, of
Indiana, measuring out some of the
first consignment of American corn
to reach an isolated Russian village.
The peasants who have already re-
ceived their allotment are seen with
their sacks filled. Governor Goodrich
in this picture is tilting the measure
laden with "Amerikanski maize"—the
Russian name for the corn and an
expression which is spoken almost
with reverence by the peasants.

In the smaller of the pictures one
of the peasants is seen grinding his
allotment of corn, in order that he
and his family may lose no time in
cooking it. The method of grinding
is a primitive one and it is probable
that few Americans of the present
generation have seen such operations
conducted, except for exhibition pur-
poses. However, it is the only method
which these peasants know.

WHEN LAW DOESN'T COUNT

LOS ANGELES, Cal., July 17.—
William Strickler, 19 years old, whose
wife and babe were ill, got a day's
work and a check for \$4 in payment.
He wrote a zero after the "four,"
cashed the check and spent the \$40 on
his family.

Strickler admitted everything to
Judge Sidney N. Reeve, of the su-
perior court, and the public defender
told how, a few days later, Strickler's
wife died, and how Strickler, at her
grave with his four-month-old babe
in his arms, was arrested, handcuffed
and taken to jail.

Then the public defender asked for
probation for Strickler.
"Probation?" thundered the court.
"Why, the case is dismissed."

of the 16 railroad labor unions were
arriving here early today for a mass
meeting to discuss the strike situa-
tion. The meeting will be held at
Cotton Palace race track this after-
noon.

Resolutions urging the Big Four
brotherhood members and other rail-
road labor men to refuse to work with
hazardous equipment are expected to
be acted on. Many of the leaders ar-
riving here declare reports they have
received show much shoddy and dan-
gerous equipment is being used in
the emergency.

FOUR STRIKEBREAKERS BEATEN AT FORT WORTH

FORT WORTH, July 18.—The
first disorder of the local railroad
strike occurred last night when four
alleged strikebreakers were flogged
and ordered to leave town. The men,
all under 25, and employed at the local
Frisco shops, are Clyde Marino of
Dallas, E. C. Blair of Abbott, Lewis
Clay and Julian Woodward of Fort
Worth.

A mob of about 100 unmasked men
kidnaped the men at Dreamland
dance hall in Forest park. They
were carried about six miles out of
town on the Cleburne road, stripped
and lashed with leather straps, after
which they were told to head south
and not return, according to their
story to the police. Several shots
were fired at the fleeing men but
none took effect.

They arrived back in Fort Worth
about 3 p. m. and after going to the
home of one of the boys' parents,
reported the case to the authorities.
The boys were preparing to return to
the Frisco shops, where they say they
are being fed and quartered, when
seized.

Wheat King's Wife Makes Fortune Raising Goats

CHICAGO, July 18.—Mrs. James
A. Patten, wife of the former wheat
king, having gained a reputation as
the cultivator and raiser of blooded
goats for milk purposes—a business
out of which it is said she has been
able to gain an independent income—
has branched out into more extensive
lines in the goat business.

Mrs. Patten recently has sold eight
goats of an extremely tender age to
the Animal Therapy company, mak-
ers of powerful lymph compounds for
the treatment of certain chronic dis-
orders and the general building up of
wasting tissues.
This was learned from W. P. Hen-
dry, expert caretaker and herder of
goats for Mrs. Patten, who has charge
of the animals, both at the Evanston
hospital, where a number
are kept for their milk, and at Mrs.
Patten's farm on Dempster road.

To the Citizens of Ranger and Sur- rounding Territory

I take this method of expressing
my appreciation of the endorsement
you had printed in the Ranger Daily
Times. It is doubly appreciated be-
cause it came without me having to
make a personal solicitation and
from persons who were under no per-
sonal obligation to me. I have no
relatives in Eastland county or any
other persons bound to me by any
ties stronger than a common aim to
make our county a place where our
lives and property are protected and
realizing that this endorsement came
because you believed I advocated the
principles of good government, I
pledge myself anew to that end.

EX-SERVICE MEN ARE GRATEFUL VOLUNTARY ENDORSEMENT!

Fort Bliss, Texas, July 11, 1922.
To the Citizens of the 17th District:
We, ex-soldiers of the world war,
at William Beaumont General hos-
pital, El Paso, feel that we cannot
let the most excellent services of
Thomas L. Blanton go by without
favorable mention.

Thomas L. Blanton has been and
is still the most loyal to ex-soldiers
of any of the public spirited men. A
great many cases but for him would
never have received any considera-
tion. Mr. Blanton has not confined
his efforts to men from his own dis-
trict, but ex-soldiers from nearly ev-
ery state in the union who appeal to
him have found him to be a real
champion of their cases, where their
claims are just.

His untiring efforts and his devo-
tion to disabled soldiers of the world
war has caused him to be rightly
named "THE CHAMPION OF
WORLD WAR VETERANS." On
every hand in this hospital men speak
of him in highest terms because he
has stood up and fought for their just
claims irrespective of where men live
or their color, creed or nationality.

Thomas L. Blanton has done more
for ex-soldiers at this hospital than
any other congressman or senator in
the great Southwest. He has brought
happiness to disabled men, and their
families, who had given up hope, and
has fought for their rights as none
other.

This is voluntary, and has not been
requested by anyone. We believe
that the good people of his district
will loyally support him, so that the
disabled men of the world war will
not lose their champion.

Mrs. Peter Oleson, nominated on the Democratic ticket in Minnesota for the United States senate, is not so much of a politician that she leaves her husband to do the housework. STAMFORD WORRIED BY CANCELING OF TRAINS

STAMFORD, July 18.—Three passenger trains on the Wichita Valley were cancelled today due to the seriousness of the shopcraft strike, it was announced by railroad men here today.

Both of the Wichita Valley night trains operating between Wichita Falls and Abilene were lopped. The Stamford & Northwestern railroad passenger trains in both directions were pulled off and a mixed train will be operated each way alternate days, according to the report.

The Missouri, Kansas & Texas has already removed three passenger trains from the service out of Stamford, two between here and Waco and one from Stamford to Rotan. It is said that practically no service is being rendered to Rotan. Saturday the mixed train which left Stamford for Rotan "died" on the main line one-half mile west of town and was reported abandoned by the train crew. Local freight houses are piling up with freight, outbound wholesale supplies. It is said that only one freight train has moved between Waco and Stamford over the Katy in several days.

BRITISH CONSIDERING HOME RULE FOR BURMA

By Associated Press.

LONDON, July 18.—Home rule for Burma has been taken up by the house of commons. The subject was expounded by Earl Winterton, who said that the proposed Burmese constitution provided a council of state and a legislative assembly, and went even further than was contemplated in India.

In India no woman had a vote, the speaker said, but in Burma under the proposed constitution there would be no sex disqualification, the reason being that Burmese women were far more advanced than their Indian sisters. All the heads of Burmese households would be virtually enfranchised. The total electorate, urban and rural would be 3,000,000, of whom 200,000 would be women. The principle that there should be no taxation without representation—the principle for which the American colonies fought, and won their independence—would be conceded to Burma without a struggle.
