

STRIKE

(Continued from page 1.)

state troops be sent here to protect the company's workers and property. The governor said today he would reply to President Harding's invitation to the state government to provide protection for coal mining. "You can say I will wire the President and give him assurance that the protection desired will be given as far as possible," the governor told the Associated Press.

Governor Neff completed his investigation here today with a conference with the strikers and left for Waco at noon. He will probably stop in Dallas. The governor would make no comment on his survey other than to say that his visit had been successful and profitable.

MORTUARY

INFANT MADDOCKS.

William Bernam Maddocks, 3-month-old son of Mr. and Mrs. E. W. Maddocks of 309 South Hodges street, died last night at 10 o'clock. Funeral services will be held this afternoon at 2:30 at the residence. The Rev. W. H. Johnson will officiate. Burial will be in Evergreen cemetery. The Milford Undertaking company is in charge of arrangements.

HUNS PLAN CONTROL OF RUSSIAN WATERWAYS

PETROGRAD, July 21.—German private capital and the soviet government have launched a corporation which bids fair virtually to monopolize the inland water transportation of Russia.

Simultaneously with the signing of the Russo-German treaty at Rapallo, last April, an agreement was signed by M. Karakhan, assistant commissar for foreign affairs, and M. Leshava, assistant commissar for foreign trade, acting on behalf of the soviet government, with the German firm of Robert Wenckhaus, of Hamburg, granting the Germans a concession for the transportation of home and foreign goods through the Baltic sea, the Caspian sea, and the Mariensky canal system, which connects the basin of the Volga with the Neva.

According to this agreement a syndicate will be formed with a capital of 2000,000,000 gold marks to be taken up in equal shares by the soviet government and German capitalists. The firm of Robert Wenckhaus undertakes to provide the tonnage needed and to arrange a loan for the soviet government through German banks to the amount of 500,000,000 marks. Part of this money will be used for the organization of the proposed Asiatic bank for trade with Persia. The tonnage left over, after carrying out the soviet government's program of transportation, may be used by the syndicate for trading purposes.

FORD HAS PLAN TO PACIFY MEXICO WITH FACTORIES

DETROIT, Mich., July 21.—Henry Ford's plans to establish a large assembling plant in Mexico is but a step in his scheme to "pacify Mexico with factories" revealed several years ago during the last period of strained relations between that country and the United States, it was stated on high authority at Mr. Ford's office in Dearborn.

Advices from Mexico City to Washington, stating Mr. Ford was desirous of erecting a plant in Mexico were confirmed at the Ford offices. It also was recalled by persons close to the motor manufacturer that when invasion of Mexico on a large scale was discussed by prominent persons several years ago, Mr. Ford made the statement:

"Let me invade Mexico with factories and give the people of that country something to do. Then there will be no more war there."

It was learned the assembly plant proposed may be the first of several to be established throughout the southern republic.

It was declared that if negotiations for a plant were carried out successfully, the first enterprise would be under way "just as soon as it is possible."

TREE BLOWS DOWN ACROSS WAGON; TWO MEN HURT

SHERMAN, July 21.—Sam Perley and Robert Bray were injured yesterday afternoon when a tree blew across a wagon in which they were riding. This happened near Van Alystone during a high wind.

A heavy rain fell in parts of the county about the same time, but not where the accident occurred.

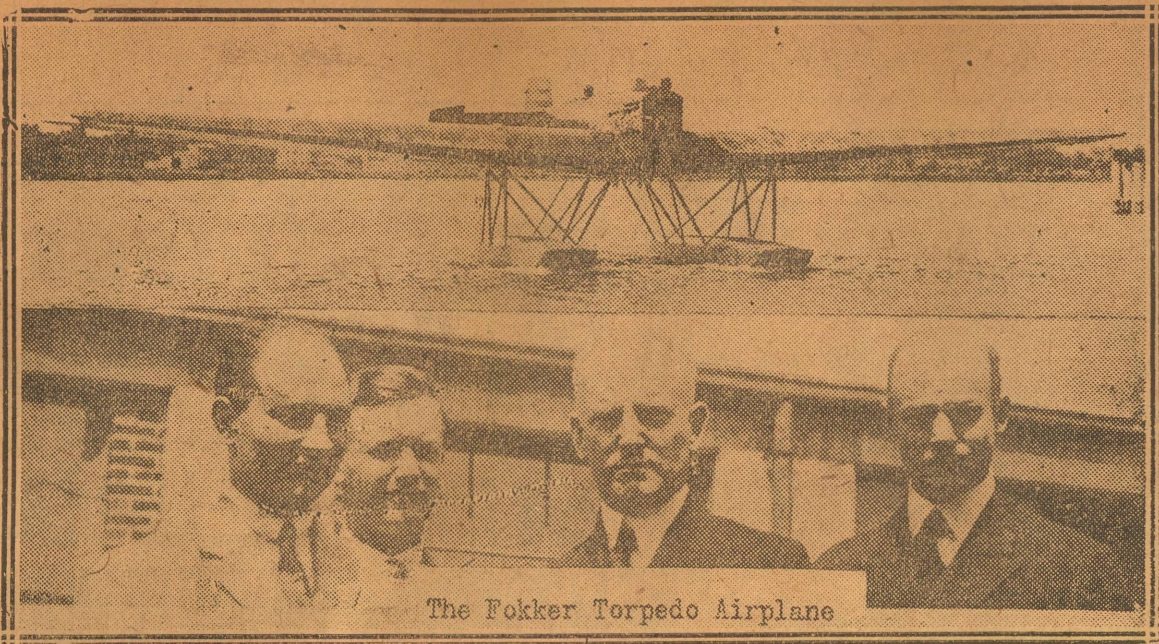

NEWEST FAD IN STAMPS IS "VELVET" TO THE U. S.

WASHINGTON, July 21.—Stamp collectors are buying up at the rate of \$200 a day in Washington alone the new special delivery stamp depicting a postal motorcycle messenger delivering a special delivery message. The money will be all "gravy" to the government, as no service will be performed in exchange for the stamps thus bought. Their only use will be to decorate the philatelic stamp books.

CLOSE RACE IN NEBRASKA.

LINCOLN, Neb., July 21.—Adam McMullen led by a scant 183 votes in the race for the Republican gubernatorial nomination today, with 50 precincts yet to be heard from. The official count of Tuesday's ballots started today and upon this will hang the outcome. The vote stands: McMullen 47,468 Charles H. Randall 47,285, A. H. Bynum 12,216.

Fokker Torpedo Plane for U. S. Navy

The Fokker Torpedo Airplane

The upper photograph shows the new Fokker airplane built to launch torpedoes for the United States navy. The plane is said to be the best its famous designer, A. H. G. Fokker, the Dutch inventor who built Germany's war planes, has ever turned out. The lower photograph shows Fokker, who is in Washington aiding the navy; Commander J. C. Hunsacker, navy aviation expert; Admiral Moffatt, chief of naval air service, and R. P. C. Woodruff, American representative of Fokker.

SCIENTISTS WATCH CHANGES OF SEASON ON "LITTLE RED PLANET"

FLAGSTAFF, Ariz., July 21.—Members of the staff of Lowell observatory here are elated over recent studies of the planet Mars, which they assert, bear out the theories of the late Percival Lowell, founder of the observatory, as to snowfall and vegetation on the little red planet. Mars, nearest neighbors of the world with the exception of Venus, is closer to the earth now than at any time in eighteen years. Observations have been in progress for the past five months each hour of every night that weather conditions would permit. Hundreds of photographs and charts have been made.

The seasons on Mars have the same significance as on our earth and occur in the same manner, but are about twice the length of our own, according to Doctors E. C. and V. M. Slipher of the observatory staff. A statement by them on the latest observations here follows:

"Winter has been occurring in the southern hemisphere of the planet Mars and the extensive dark areas there are now faint and have been so for some time, betokening the dead season of vegetation in conformity with the view held by Lowell regarding the seasonal changes on the planet. "The large winter cap of white about the south pole of Mars, which for some months has appeared of only mist or cloud covering the south polar regions of the planet down to latitude 40 degrees, is now dissipating and disclosing a mantle of snow beneath. The spring season for the southern hemisphere is now approaching, the season there at present corresponding to our March 21, and these changes are characteristic of late winter over the south of Mars. "In the northern hemisphere winter is arriving and the polar cap there has already become conspicuous, having increased rapidly during the last

few Martian nights. On the night of June 17 it was observed that when the planet's longitude 265 came into Martian sunrise, and therefore visible to us, that a vast area there had during the preceding night been covered by a bright canopy. This bright hood faded off toward the equator but was discernible down to nearly fifty degrees north latitude and veiled the darker markings of the northern part of the planet. This event marked the first really big autumn storm in the northern hemisphere of Mars so far this year. On that date the Martian season corresponded to our September 18. Early indications of autumn made their appearance a month and a half ago at a Martian season corresponding to our late August. These observations have been recorded on photographs.

"These conditions and changes occurring in unison with the planet's seasons indicate that conditions are more analogous to those of the Earth than to any of the other planets."

MC'CUMBER TO GET JOB IS WASHINGTON RUMOR

WASHINGTON, July 21.—Senator Porter J. McCumber, of North Dakota, recently defeated for renomination in the North Dakota republican primary election, is being considered for appointment to the chairmanship of the war finance corporation or another responsible federal appointment, according to information current in senatorial circles.

Eugene Meyer, Jr., present head of the corporation, is to be recommended to the President for appointment to the Federal Reserve Board to succeed W. P. G. Harding as governor, according to these reports.

These recommendations are said to come from the Middle West agricultural sections benefitted by loans extended under the administration of Chairman Meyer.

Because of attacks made on Governor Harding by Senator J. Thomas Heflin, of Alabama, democrat, the President will move slowly before making any change in the personnel of the reserve board, it is said.

AIR MAIL RUNS YEAR WITHOUT ONE FATALITY

Planes Carry Forty-nine Million Letters in Twelve Months.

WASHINGTON, July 21.—When the last air mail pilot trundled up to his hangar Sunday night the transcontinental service had completed exactly one year's flying without a single fatality.

Planes flying in the various divisions between New York and San Francisco had covered more than 1,750,000 miles and carried over 49,000,000 letters weighing 1,224,500 pounds.

In the preceding year when this writer as a special agent for the air mail service carried the first thru shipment from coast to coast, seventeen lives were lost, including those of three pilots who flew him across.

The record from July 16, 1921, to July 16, this year, is by far the most wonderful performance in the history of practical flying. The percentage of trips completed was 92.5 per cent as compared with 83 per cent of the previous year. This is comparable with the best railroad records.

The planes flew, winter and summer, through all kinds of weather over mountains, deserts, forests and windy plains. Pilots did not hesitate to take off in blinding gales when to reach their destination meant flying thru blizzards over the Rocky mountains. This writer speaks by the book, as his transcontinental trip was made in mid-winter and included seven forced landings, one of them in a blizzard in the Rockies and another following which his pilot and himself were lost on the desert in Nevada.

TRUCKS CARRYING DE LEON AND CROSS PLAINS MAIL

FORT WORTH, July 21.—With the discontinuance of the branch line trains of the Missouri, Kansas & Texas between De Leon and Cross Plains, truck service for the movement of mails between those two points was put into effect Wednesday.

BIELASKI ASKS PERMIT TO COME TO UNITED STATES

MEXICO CITY, July 21.—A Bruce Bielaski, American oil producer, who recently told of being kidnaped by bandits, today asked authorities for permission to return to the United States. He had promised to remain here until investigation of his story was completed.

"There's MY lunch! I tell you, fellows, there's nothing like Kellogg's Corn Flakes and cold milk when the thermometer's high! Kellogg's make it possible for me to hustle all day because they digest so easily! I've cut out the heavy stuff, YOU BET!"

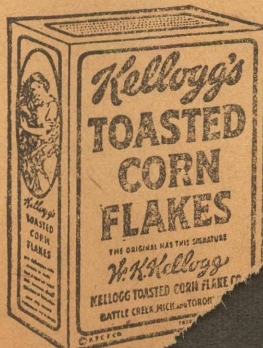

Give your stomach a chance! Eat Kellogg's CORN FLAKES extra-refreshing with fresh fruit!

Agree to eat lighter foods this summer and you'll feel a lot cheier and work and think a lot better! Heavy, greasy foods in hot weather dull the mind and slow you up physically and mentally! Every man, woman and child would enjoy better health if they ate sustaining, easily digested food such as Kellogg's Corn Flakes.

And, eat Kellogg's liberally—all you want; let the little folks and the old folks have their fill, for Kellogg's Corn Flakes are not only beneficial, but with Kellogg's you use plenty of health-giving milk! And, you never tasted more delicious food than Kellogg's Corn Flakes, particularly when eaten with the luscious fruits now in season!

Think of Kellogg's Corn Flakes as the perfect breakfast cereal; as the cooling, refreshing lunch for the hottest day—served with fresh fruit—and for the daintiest, most satisfying dessert for the evening meal served with fresh fruit and cream!

Insist upon Kellogg's—the kind in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Also makers of KELLOGG'S KRUMBLER and KELLOGG'S BRAN, cooked and krumbled

CELLOGG'S CORN FLAKES

Why Vote for Earl Bender

1. Because he has given universal satisfaction and is only asking for the SECOND TERM.
2. Because he has never received the fees of the office, but is paid a straight salary. Since June 1919 all fees by a special act of the legislature, must be paid into the county treasury. Although he has done and is responsible for about five times as much work as any other clerk, yet he has received less pay in proportion, because all former clerks received all the fees of the office. Therefore, from a financial standpoint is he not justly and democratically entitled to two full terms?
3. Because his reports are all made and properly filed and every dollar handled is accounted for in written itemized reports.
4. Because he has been on the job day after day and has not used the office as a stepping stone to something else.
5. Because he stands for honesty in public office, clean politics, and the practice of good service to all.

IS THIS THE KIND OF AN OFFICER YOU WANT TO SERVE YOU THE NEXT TWO YEARS? THINK IT OVER AND VOTE FOR HIM ON JULY 22.

Vote for

MISS ULALA HOWARD

for

County Superintendent

To the Citizens of Ranger:

I stand for law enforcement and have, in a public speech, declared my intention of backing the Citizens Committee and the other law enforcers in their fight to make Ranger a better place to live.

I have been a prohibitionist for 15 years. In 1912 I went from Texas City, Texas, to Houston, Texas, to vote for prohibition. A man who is that much in earnest about enacting such laws is sure to want to enforce them. I served 4 years in the U. S. Navy and did not take a drink of intoxicant during that time.

I am a candidate for the office of Justice of the Peace of this precinct, Place No. 2, now filled by J. N. McFatter.

If you elect me to this office I will endeavor to administer the duties of the office with zeal. I will enforce the law as nearly as I can. I will try cases according to the law and the evidence. I will endeavor to be just and impartial.

Very sincerely,

M. T. LYMAN

V. V. Cooper for Commissioner Precinct No. 1

As a last appeal to the voters, I wish to state that I have tried to be fair, open and above board in my campaign, stating my position on every question that has been propounded to me. If you still think I am qualified and endorse my stand upon the several issues in the race, I ask that on tomorrow you will not only give me your vote, but also your influence and support.

If I am elected it will not only be my duty, but a pleasure, to see that the interests of Eastland County are protected.

Sincerely,

V. V. COOPER

VOTE FOR W. J. BARNES

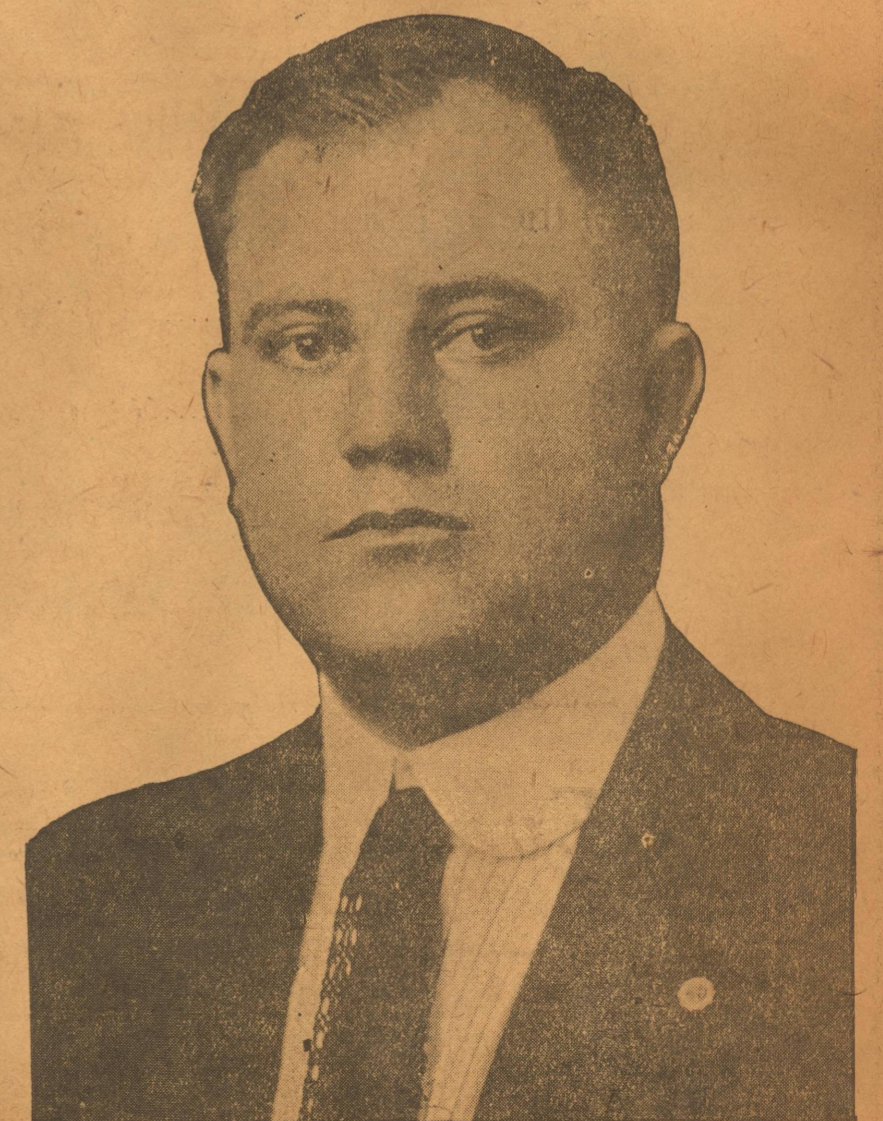

For County Attorney

His Friends Expect Him to Win the Nomination in the First Primary

He Stands For Law Enforcement Anywhere and Everywhere.

He Has the Ability, the Courage and the Will to do his duty.

A Vote for W. J. BARNES Is a Sure Vote For Our Best Interests

W. J. BARNES

RECORD, FACTS AND FIGURES

TO THE VOTERS AND CITIZENS:

By request I have prepared the voting strength as well as the rendered property values of the 540 persons whose names appeared in the Ranger Daily Times, Sunday, July 16, endorsing the names slated for county officers by the Citizens' Law and Order League.

It is my understanding that this list will be published showing how each named person appears as to their law abiding qualifications as tax payers. Against such publication I wish to say my findings from the records show the following:

Number Signing Said Endorsement	540
Number Having Poll Tax Receipts and Can Vote	137
Number Not Having Poll Tax Receipts and Cannot Vote	353
Number of the 540 Shown to Be Property Owners	147
Number of the 540 Not Shown as Property Owners	393
Assessed Value of the Property of the 147	\$140,075.00
Assessed value of the 393	NONE
Or an average value of \$259.40 Each for the 540.	
GROSS COUNTY ASSESSMENT FOR 1922	\$44,600,000.00

The Entire 540 Represent About 1-300 part of the County Valuation

The above gives the correct standing of the endorsers of the said slated candidates of which I AM NOT ONE. I believe the other 299-300 part should be represented in the Assessors office. Having served ONLY ONE TERM (and not three as charged by my opponent, which is an unfair charge made by him and which I don't believe he really intended to be unfair when he made it, and believing he would not hesitate to tell you that it was an oversight on his part not to have stated that after serving four years as collector I was out of office four years and that now I have ONLY BEEN IN OFFICE ONE TERM AS TAX ASSESSOR.) I believe I should be the one to serve the big bunch, especially since my record has not been questioned as to law enforcement so far as the official duties are concerned.

Tell your friends these facts and let me be the representative of at least the 299 out of the 300 as shown above. I do not believe it good policy for an assessor to CATER TO ONLY 1 OUT OF 300.

Yours for Service
H. A. COLLINS,
For Tax Assessor, Second Term.

PATTERSON'S PATRIOTIC PLATFORM

In his opening address at Cisco, Hon. B. W. Patterson, candidate for representative in the Texas Legislature, promulgated the following platform upon which he is making the race. The voter will find it patriotic, constructive and democratic.

Patterson's Platform.
DEMOCRACY. I approve the platform adopted by the Democratic Party at its State Convention in 1920.

VOLUNTEER FIREMEN. I favor the enactment of such laws as will benefit the volunteer firemen of our state who without compensation, are risking their own property, health and lives for the preservation of the property and lives of others.

SOLDIER RELIEF. The American Legion in Texas is composed of about 20,000 of our ex-service men. By their heroic military service, they have proven their loyalty and patriotism. Feeling sure this splendid organization would not ask anything that is not right, I would not only vote for, but strongly urge the enactment of any laws advocated by the American Legion for their relief.

LABOR LEGISLATION. I favor strengthening our present statutes with reference to labor so as to render more certain the relief intended. I also favor amendments of our Compensation Liability statutes by increasing the maxi-

mum weekly indemnity and by providing adequate compensation to attending surgeons.

FARMING INTEREST. In addition to relief advocated in our Democratic platform for the agricultural interests of our state, I favor the establishment of a demonstration farm in Eastland county that our farmers may learn by observation how to reclaim their impoverished land and overcome the ravages of the boll weevil.

PUBLIC SCHOOLS. I favor such legislation as will improve our public schools and guarantee the benefits thereof to the children of the rural districts as well as those of our towns and cities, having at all times due regard for our constitutional limitations with reference to taxation and class legislation.

PUBLIC UTILITIES. I favor giving exclusive jurisdiction to our railroad commission for the fixing of rates to be charged for commodities furnished or service rendered by Public Utilities corporations, and the enactment of such laws as will guarantee such rates to be equitable alike to such corporations and the consumers.

LAW ENFORCEMENT. I believe that the speedy and certain enforcement of our laws through the courts and executive officers of our state is the only sure safeguard for our homes,

our property, our liberty and our lives, and the only means of the preservation of our glorious Republic and of a patriotic, loyal and contented citizenship. To that end, I favor:

(a) An amendment to our prohibition statute making the possession or receipt of intoxicating liquors prima facie evidence that such possession or receipt was for the purpose of sale.

(b) The repeal of the "suspended sentence" law or the enactment of such amendments as will make it much more restrictive in its application.

(c) The repeal of the statute prohibiting reference to defendant's failure to testify in criminal cases.

(d) A law giving the state the right of appeal on purely questions of law in criminal cases.

(e) A law providing that the granting of a new trial to the defendant in a criminal case shall preclude him from pleading former jeopardy or acquittal of any offense by reason of such original trial.

(f) A law simplifying our civil and criminal court procedure and guaranteeing a speedy and just determination of all cases.

(g) A law authorizing the removal of any elective officer by a two-thirds vote of the people of the county or district by which he was elected.

"VIOLENT NEWS."

Some persons deplore so much "violent news" appearing in the Times. They have the idea that the Times scorns to publish a dispatch that does not register bodily hurts to some individual, through murder, accident or storm. Yet if they will compare the Times with other papers, they will find the same things are "played" in them. And the reason is fundamental. "News" is a chronicle of changes—something out of the established routine. And practically every change in human affairs is accompanied by violence of one sort or another. The waters of the Colorado may have hewn the Grand Canyon from solid rock by continuous work, but the accomplishment is too slow for the human mind to register what is done each day. Trees may grow, but no one would be interested in what the tree has done that day, in its normal avocation of growing. But if it is a stately tree, known around the countryside for its beauty, everyone is interested when a storm blows it down. If some cataclysm should fill the Grand Canyon to the brim, everyone would be interested. But there wouldn't be much thrill in a statement that drifting sand would fill it up in six million years or so. Human life proceeds along its ordered courses much as does nature. Sometimes one builds a house, or some great project is launched. That is given prominent treatment in any newspaper. Sometimes oil wells are brought in, which is revolutionizing in its effect on industry. That also draws big headlines. In one sense, even such news as that is "violent," because it registers a sudden change in conditions.

Love and death are the two great interests of people. They want to read about both. Accidents, strikes, murders, storms, bring death, and accounts of them are read avidly. Nearly every murder has a love interest somewhere at the bottom of it, thus combining the two great interests. If it weren't for violent news, there wouldn't be any newspapers to speak of.

It is not explained why those rebels are fighting down in Brazil, but, of course, it is not strictly necessary to have a reason for a revolution in Latin America.—Indianapolis Star.

Several million movie fans think that the Reformation refers to the time that Will Hays took charge of the picture industry.—New York Tribune.

They've found a California skull estimated to be between 2,000 and 10,000 years old. Isn't scientific accuracy wonderful?—Dallas News.

Sister Alice Robertson opened her campaign for re-election by speaking from a Bible text. You can't blame her for not using the Fordney-McCumber tariff bill as her subject.—Houston Post.

RAILROADS NOT EAGER FOR CUT, EXECUTIVES SAY

Denies Carriers Are Trying to Break Down Unions.

SPOKANE, Wash., July 21.—Many persons suppose that the railroads were turned back to their owners and managers in 1920, but "this is only one of the half-truths that will not bear investigation," declared Charles Dillon, assistant to the chairman of the western committee on public relations of the Association of Railway Executives, in an address before the chamber of commerce here today.

Mr. Dillon also asserted that "nothing could be farther from the truth" than the impression that the railways "are trying to break down the unions, and that they are eager to reduce the men's wages."

"The truth is we have about all the government in railroads right now that the business will stand. It is the government which says what the rates are to be and how much the roads may be permitted to earn if they can do it; it is the government which controls wages and it controls the conditions under which the men shall work. All the reports are made and the bookkeeping of the railroads is done according to the rules of the United States government through the Interstate Commerce Commission and upon forms prescribed by that commission. There is scarcely any item of management not directly under the scrutiny of the government at Washington or Chicago.

"We are now facing an entirely new order, a new labor condition. When the United States Railroad Labor Board made the largest advance in wages ever recorded, amounting, indeed to more than \$720,000,000 a year, the railroads accepted the decision without resistance. The men at that time did not question the jurisdiction of the board in making this enormous advance.

"The railroads promised, last October, to pass on to the public in reduced rates any saving in operating expenses resulting from wage cuts. Rates have been reduced since in January \$400,000,000—\$265,000,000, approximately, more than wages have been cut, based on the earnings in 1921, or \$500,000,000 if we compare with 1920.

"If total earnings do not increase very materially, the rate reductions and the recent wage cuts will allow the railroads about 3-1-2 per cent on their valuation. There is a difference of about \$442,000,000 between this 3-1-2 per cent and the 5-3-4 per cent which the Interstate Commerce Commission says the railroads may earn.

"If the net return from your business were reduced as the net return of the roads has been you probably would close it out.

"Your business will prosper largely according to the volume the roads can handle promptly. The whole present controversy, therefore, becomes as much your concern as it is the concern of the railroads, because unless investors are assured a reasonable reward, new capital will not be available—and without this it will not be possible to provide adequate facilities.

"The tie that binds this people together in national unity is the railroad tie and if it isn't kept in good repair the neglect can easily create a national calamity for which every man and every family will have to pay."

The public, the speaker said, will be benefited by the recent rate reductions only as these reductions, in part, are reflected in lower prices instead of in increased profits.

DEATH MISSES WITH TRAIN, EXACTS TOLL WITH INTERURBAN

SCOTTSBURG, Ind., July 21.—Cheat momentum when a touring automobile containing five passengers leaped safely ahead of a fast Pennsylvania passenger train, death exacted its toll an instant later when the motor vehicle was demolished by an interurban car on the Interstate Traction Line, near Scottsburg, three of the occupants dying and two of them suffering serious injuries.

The accident happened at the Owen street crossing, which is on the outskirts of Scottsburg, just as the automobile had cleared the railroad track in front of a speeding south-bound passenger train and one of the autoists was waving triumphantly to the engineer at having beaten the train to the crossing. The tracks of the steam and electric lines run parallel at this point and are but a few feet apart.

Men and Women Wanted

J. T. Sue, candidate for County Treasurer of Eastland county, want the men and women of Eastland county to vote for him in the July primary. He has been in Eastland county forty years and has never had a case in court. He is worthy and well qualified and will appreciate your vote.

Feet Tickling Warns Cockroaches and 'Electric Chair' for Bugs Fails

DOG HILL PARAGRAPHS

By GEORGE BINGHAM

Frisby Hancock has been keeping house for a week while his family was visiting her folks on Musket Ridge, and he has now used up all the dishes and cooking vessels except one spoon.

Miss Peachie Sims spent the weekend at Tickville, and the Tidings gave her a nice notice, saying she was beautiful and charming. Miss Flutie Belcher read it and remarked that the papers certainly do print a lot of things that are not so.

SIX or seven flies accidentally escaped from the Tickville Cafe Saturday afternoon, but finally got back in.

FORMER JUDGE PREFERS FIRING SQUAD TO NOOSE

SALT LAKE CITY, Utah, July 21.—Omer R. Woods, former Idaho Probate Judge, who was convicted of having murdered his wife and burned her body upon an oil-soaked bed in

ROCHESTER, N. Y., July 21.—A device for the electrocution of cockroaches was the subject of controversy in city court here when George D. Forsyth, an attorney, appeared as his own counsel in an action charging breach of contract in the manufacture of the device.

"Electric chairs" were shown in court. It was alleged one was defective because the roach was warned of danger by a tickling sensation in his front feet when he touched the live metal. The roach, according to the specifications of the invention, was to have been induced to walk on the metal by quantities of celery juice placed at convenient spots. Decision was reversed.

their home here last January, chose to face a firing squad rather than hanging, and was sentenced accordingly by Superior Judge Ephraim Johnson.

Omer will face a firing squad at the Utah state prison September 1 at sunrise.

At the trial it was alleged that he killed his wife to obtain \$1,600 life insurance.

His defense was that his wife had been murdered by robbers who ransacked the house.

SATURDAY.

Bake sale at Texas drug store given by the members of Company F of the Woman's Missionary society of the Methodist church.

EARLY MORNING GOLF.

Big Ben grows in popularity, and he is wound the night before—not to wake father up, but to wake mother up so that she may be off for an early morning game of golf. Five o'clock is the popular rising time, and the cars leave town promptly at 5:30. This morning there were three cars headed for the golf course, filled with nine golf enthusiasts, one small caddy, several large lunch baskets, and two brown jugs, one filled with ice water—and the other with hot coffee. Immediately on hitting the little white sphere, and seeing it bound away, one becomes a golf enthusiast—one gets the germ that quick, and it's small wonder that the participants in this morning's game were so enthusiastic, as most of them had played before and were thoroughly inoculated with the "golf bug." Three holes were played, and with the fact that at the beginning of the course there was a hot breakfast waiting, the game moved swiftly—and the strokes became surer and fewer each hole. A breakfast consisting of bacon and eggs cooked out there, bread and butter sandwiches, cantaloupes, jelly, doughnuts and coffee was eaten, with the zest of appetite that only an early morning game of golf can produce. They will play again Wednesday—in fact they are becoming so popular that no doubt a regular day will soon be set, and the early morning golf game will take its rightful place on the social calendar.

The players this morning were: Mmes. W. H. Fouke, E. E. Crawford, Charles Conley, Garvin Chastain, A. J. Orth, John Thurman, Garrett Bohning, J. B. Haden, R. B. Campbell and Nicol Crawford, who acted as a most efficient caddy and ball hunter.

FASTIME CLUB HAS PLEASANT MEETING.

In spite of the heat of last evening, the Pastime club had a most pleasant meeting with Mr. and Mrs. E. E. Crawford. Several large electric fans played a prominent part in cooling the atmosphere. The two high tables were placed on the porch, which fact made these two tables very popular.

Everything that forethought on the part of the host and hostess could do to make the home comfortable was done, and done so successfully that one forgot how the thermometer had been climbing all during the day.

Mrs. J. C. Pullen made the club high score for the ladies, receiving for a prize a lunch set. Mrs. F. A. Brown made guest high score and received two dainty handkerchiefs as a low score favor. Mr. W. H. Fouke made the club high score for the gentlemen, receiving a pair of silk socks. Mr. A. J. Orth made the gentlemen's high guest score and received a tie, and Mr. L. L. Rector received the gentlemen's low score, an Eversharp pencil.

House decorations were cut flowers used in profusion. A luncheon of creamed chicken, bread and butter sandwiches, pear salad, angel food cake and ice tea also lent much pleasure to the evening. Those pastiming at this party were: Mr. and Mrs. R. B. Waggoman, W. H. Fouke, Roy Jameson, Lytton R. Taylor, J. C. Pullen, J. B. Haden, Chas. Conley, John Thurman, C. C. Craig, A. J. Orth, L. A. Vandervoort, L. L. Rector, George Jennings, Mmes. F. A. Brown, Frank Brahaney, Oldenettel, Mr. Earl Taylor.

SWIMMING PARTY.

Last night Messrs. Mickey Newman and Dewey Jones met a crowd of their friends at the East Ranger Baptist church, with their truck and took them to Tee Pee springs for an evening of swimming and picnicking.

After the swim a bountiful picnic lunch was spread which was enjoyed by: Misses Dorothy Williams, Ruby French, Allie Walker, Helen Carpenter, Phyllis Williams, Mabel Harding, Florence Sandlin; Messrs. Richard Williams, Bill Robertson, Dewey Jones, Barrett Walker, Mickey Newman, Floyd Arnold, C. A. Hubbard; Mr. and Mrs. H. T. Carpenter, Mrs. M. A. Cowan of Baird, Mrs. Swearingen.

PURELY PERSONAL.

The condition of Mrs. Ted Drienhofer, who is critically ill at the Clinical hospital, remains unchanged. Her father, R. B. Barker of Weatherford has joined other relatives here. A blood transfusion will be taken this afternoon. Her many friends in Ranger are hoping that this will be successful and that she may soon improve.

L. J. Marks has returned from a visit to his mother in Cincinnati.

R. F. Polk of the Prairie Pipe Line company has returned from a three weeks' vacation spent at Winnsboro, La.

MISS HELEN CLAY FRICK SERIOUSLY ILL

Miss Helen Clay Frick.

Miss Helen Clay Frick, daughter of the late Henry Clay Frick, of Pittsburg and New York, is reported seriously ill at her estate at Frick's Crossing, near Boston. She suffered a nervous breakdown as a result of her untiring efforts cataloguing the works of American artists in her fathers' New York palace.

GENERAL STRIKE IS FEARED IN ENGLAND

LONDON, July 21.—Serious labor troubles loom threateningly on the British horizon. Britain is watching the strike troubles of the United States from under a cloud of her own. The house of commons is considering a bill limiting the rights of trade unions. Laborites are bitterly hostile to this measure and threaten to plunge the nation into a general strike of unionized workers if it is enacted into law.

Executives of the British coal miners will meet soon to consider the wage question and grave fears already exist that these discussions will lead to a walkout in the coal fields. Already several local strikes have been called in the Welsh coal fields. The British railroad commission handed down decisions Saturday affecting the wages of railroad shopmen. The shopmen claim that the decisions are unsatisfactory and are threatening to strike.

The dock workers also are restive and are threatening trouble.

Chicago Court Ponders Legal Tangle If Husband, Legally Dead, Returns After Wife Who Can't Divorce Him, Remarries

CHICAGO, July 21.—Because Edward Kendig left his wife, Elizabeth Kendig, thirteen years ago and has never been heard from since, he is legally dead. Being dead, Mrs. Kendig cannot divorce him. And altho she cannot be divorced from the "dead" man she can remarry because he's legally dead. Then if Edward does an Enoch Arden and returns to place the thumb of his right hand pointedly against his nasal organ and face in the direction of the law that declares him dead, there may be some live dougts in our town. All this being development in Mrs. Kendig's divorce hearing before Judge Joseph B. David. The judge gave Attorney Clarence Hansen another chance to file proof that Kendig isn't dead, with legal precedents allowing him to divorce Mrs. Kendig from the dead man if he isn't a dead man.

THE JAMESONS

N. AUSTIN AT WALNUT ON THE CORNER

The Domestic Science Expert Says:

"There are two things all women should know about ice."

"One is that the economical way to use ice is to keep the ice chamber of the refrigerator well filled. Ice does not melt so rapidly then."

"The other is that in hot weather—or cold—ice is a mighty small investment for the big protection it brings—protection of food, health and comfort."

The proper place to stage a strike against the United States government is at the polls. Any other place is risky, and exceedingly dangerous.—Houston Post.

VOTE FOR V. V. COOPER

Before you go to the polls to vote, There is one good man you should note.

V. V. Cooper is his name, His public works have caused his fame.

From Mississippi to Texas he came in his youth And made Ranger his home in spirit and truth.

Miss Lulu Riddell soon won his heart. They were happily married never to part.

A good Christian home was his first aim in life; He soon builded one with the help of his wife.

He believes that the churches come next to the home, And has helped to build several from basement to dome.

After the church he believes in Education, Of this Cooper School is his manifestation.

Good roads are part of his earnest desires, You would surely have roads instead of mires.

He was a successful farmer before the oil boom; Since then he has caused his addition to bloom.

Built many good homes and helped the whole County To derive great benefit from the oil's bounty.

He has answered the "Voters' Questionnaire" In a manner you must agree is fair.

He's an honest, generous, upright man; For all good things he takes his stand.

As County Commissioner none can excel Mr. V. V. Cooper as all know well.

MRS. GEORGE K. TAGGART.

PRIESTS ASK RIGHT TO MARRY, REPORT SAYS

Some Cardinals Said to Have Signed Petition to Vatican.

ROME, July 21.—A petition has been addressed to the vatican asking for a dispensation to relieve priests of their ecclesiastical obligation of celibacy. The indications, however, are that the petitions will have no results.

The Italian newspaper Epoca had declared that the petition was signed by a number of priests and several cardinals, but inquiry at the vatican elicited the information that the petition was anonymous with no names to indicate the authorship.

Officials of the vatican denied that there is a general desire on the part of priests to marry. They pointed out that the papal policy in this respect is best exemplified by the recent excommunication of a Roman Catholic priest in Czecho-Slovakia because he had joined an anti-bachelor organization.

In view of the policy of the vatican regarding the private life of priests and the fact that the authors of the petition dared not sign it, belief is prevalent that it will get no attention at all.

To use the language of the Italian newspaper, the priests asked to be relieved "of impossible observance of ecclesiastical celibacy." The petition states further on:

"Purity of life, which is the highest aim of the church, is reached thru the free working of man's nature; not by coercion and the imposition of laws against nature."

Celibacy on the part of Roman Catholic priests is as old as the church itself. Bachelorhood was imposed thru a desire to model the lives of the churchmen, as far as possible after the life of the Savior.

SUCH A PITY! CHICAGO'S MOST BEAUTIFUL MALE MUST LANGUISH IN JAIL

CHICAGO, July 21.—Isadore N. Beck, described by his wife as the "most beautiful man in Chicago," was ordered to be sent to the House of Correction for one year, or until he gives a bond of \$1,000 to insure the support of his wife, Mrs. Charlotte Beck.

Beck is a paint salesman. He was brought back from Kansas City by detectives on complaint of his wife that he did not support her. His wife's attorney said Beck had induced a young girl to leave her home and accompany him, but that this girl was innocent of any intention to wrong Mrs. Beck.

Judge Asa Adams intimated that Beck was too handsome to be permitted to be free, but that if he supported his wife properly the world would have to take its chances with him.

Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it. When the cause of skin troubles and eruptions is in the blood, it isn't com-

Let S. S. S. Give You An Angello Skin! Common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

WILKERSON SUCCEEDS JUDGE LANDIS

James H. Wilkerson, formerly United States District Attorney and prominent legal authority of Chicago, has been appointed to the Federal bench in that city, succeeding K. M. Landis, who resigned to become supreme baseball commissioner.

YOUTH IS DROWNED WHILE BATHING AT SWEETWATER

SWEETWATER, July 21.—Joe Sistrunk, 15 years old, was drowned while in bathing at the bathing pavilion at the city lake Wednesday afternoon.

The boy had been in bathing with several companions but drowned without being noticed. His body was recovered by divers and prompt efforts made by physicians failed to resuscitate him.

Gould Forfeits Large Estate to Marry Actress

NEW YORK, July 21.—George Gould, whose marriage in Paris to Mrs. Alice Sinclair, an actress, became known here last week, loses an estate of between \$2,000,000 and \$3,000,000 as a result of his second marriage.

This estate, including the Gould town house at Fifth avenue and Sixty-seventh street, and another residence in East Sixty-fourth street, was bequeathed to Mr. Gould by his first wife "during his life and until he remarries."

That part of the estate now will be divided into equal shares and held in

trust for the seven children of the late Mrs. Gould. The town house recently was offered for sale.

The new Mrs. Gould was formerly an English actress. The mother of two children, a boy aged 7 and a girl of 5, she possesses all the beauty, grace and charm requisite to a theatrical career.

Shortly after coming to this country, Mrs. Gould abandoned the idea of devoting her life to the stage and went into a life of comparative seclusion. Altho Mrs. Gould had every facility for entertaining, a magnificent home on Long Island and an attractive house in this city, she had no desire to enter society, preferring to devote her time to her children.

Milk, the only complete food, contains all the food elements the body requires and in their proper proportions.
