LAW TO CURB STANDARD OIL RECOMMENDED

Federal Trade Commission Denounces Present Monopoly on Gasoline.

WASHINGTON, July 13.—A denunciation of the policy of Standard Oil in "continuing to maintain a monopoly of the gasoline supply of the United States" was contained in a report of the federal trade commission today.

Immediate legislation to prevent interlocking stock ownership among the various Standard Oil concerns was suggested as the only solution of the situation. The combination is now apparently within the law, in view of the supreme court interpretation of the Sherman anti-trust law, the report said. This decision permits common stock ownership in corporations which have been members of a combination dissolved under the Sherman law and hence the only remedy open is to create a new law to prevent such stock ownership, the commission concludes.

The pin lodged just below the baby's stomach several days ago. It was located by the X-ray and removed yesterday in a local sanitarium.

LIONS PLAN HATPIN ATTACK TO COUNTER ROTARIANS' PLOT

Hippopotami on the inner works and gazelles in the outer gardens, is the deep laid plot Ranger Rotarians plan to perpetrate Sunday, July 16, when they meet their rival Dutch treat lunch gang—the Lions—in an alleged game of baseball at Nitro park.

While the plot is neither denied nor affirmed, it was plain to the eye of the beholder yesterday as the Rotarians dispersed themselves in athletic endeavor, in preparation for the contest. Their lineup signified their intention of making the road rough and rougher for Lions as they strayed around the diamond. Hark for yourself, and see if the Lions are not betrayed:

L. A. Vandervoort, slim, suave and skinny, at first base—no doubt to give a gentlemanly welcome to invading batsmen, thus putting them off their guard.

And then: Tubby Gholson at second; Squabby Waggoner at third; and Porky Pitcock behind the plate. You see it now?

Well, the purpose of those pachydermic guards is to sit on those

Among the operators present at the conference was Harry Taylor of Kansas City, president of the Southwestern Coal association, which includes Oklahoma and Texas. Taylor has served as floor leader for the operators at all the various conferences that have been held since the strike situation became acute.

The proposal put forward by President Harding for arbitration of the differences in the coal industry was formally accepted yesterday by the anthracite operators.

Crash Heard for Miles; Four Known Dead, Twenty-five Injured.

Fifteen men were working on the eleventh floor when the collapse occurred.

The fire department and ambulances were quickly summoned to the scene and guard lines were established to prevent persons going near the building, as another of the walls bulged and it was feared it, too, might collapse. Cause of the collapse could not be learned at this hour. Police are investigating.

Ranger Women Sing "by Radio" For Rotarians

The latest thing in radio concerts was presented yesterday by the Rotary entertainment committee at the noon luncheon of the club. Vocal solos and sextettes were heard with a clearness never before experienced by a radio audience and caused many to believe that the singers were in an adjoining room.

The radio receiving set was placed on a table near the diners and despite the fact that no aerials were used, worked to the satisfaction of everyone.

The first number on the program was a solo "broadcast" by Mrs. J. M. Dodson. A sextette was composed of Mrs. M. H. Smith, Mrs. A. C. Ratliff, Mrs. Roger Fenlaw, Mrs. T. J. Holmsley, Mrs. Robert Wilson, Mrs. J. M. Dodson and Mrs. Roland. Mrs. Robert Wilson of Amarillo sang two solos.

DAUGHERTY HOLDS HEARING ON UNCLE SAM'S 'BOOTLEGGING'

WASHINGTON, July 13.—Uncle Sam holds open forum today to determine whether he can legally continue to dispense liquor aboard the merchant marine when outside the three-mile limit.

Attorney General Daugherty, upon whom has fallen the task of rendering a final decision on the legality of this practice, has issued an invitation to all interested persons to attend the hearing this afternoon, at which arguments both pro and con may be presented. DENISON STRIKERS BEAT TWO MORE; PICKET IN RAIN

DENISON, Texas, July 13.—Two more alleged strikebreakers were kidnaped, taken into the country and given a beating here early today. The men with two others who escaped, arrived on a northbound Katy passenger train late last night and were stopped on the railroad platform by 200 strike sympathizers, it was said. None of them have been heard from since the kidnaping, it was said.

Picketing was continued today at all entrances to the shops here. In spite of a downpour of rain, the pickets patrolled almost every place where strikebreakers might gain entrance to the shops. In many instances the pickets were accompanied by their wives. Union men declare every effort will be made to prevent the railroad getting men to the shops to take the places of the strikers.

Some apprehension was felt here of reports that state troops might arrive here shortly. No word has been received from Governor Neff, who is at Granbury on a speaking campaign. The mayor and the sheriff have sent messages to the governor advising against troops being sent. Additional

RAIL CHIEFS BALK EFFORT TO END STRIKE

Won't Talk Until Men Return to Work, They Tell Labor Board.

CHICAGO, July 13.—Railroad peace activities which loomed large in the strike situation yesterday, slept today while the railroad executives, strike leaders and members of the labor board marked time awaiting developments.

Chairman Hooper of the labor board held a conference with the executives today following their refusal yesterday to talk with the strikers as long as they remained away from the shops. Hooper refused to discuss future plans, but President Jewell of the shop crafts adopted a hopeful attitude. He expressed the opinion that the roads would soon realize the situation and get down to business.

A telegram was sent today to President Harding by Jewell in answer to the White House proclamation on the strike. The telegram declared that the reason for the strike was the "unjust" low wages fixed by the labor board in face of the fact that 94 of the roads had refused to themselves comply with the orders of the board.

TRUCK MOBILIZATION TO CARRY MAILS PLANNED

WASHINGTON, July 13.—Postmaster General Work today prepared a letter to President Harding, notifying the President that a survey prepared by all departments of the government showed that a thoroughly organized fleet of 50,000 motor vehicles could be mobilized in 24 hours should the railroad shop strike further interfere with movement of the mails.

OROVILLE, July 13.—About 50 armed men early today surrounded the Western Pacific shops here and after a battle in which nearly 200 shots were fired, overpowered the guards and rushed into the place, roughly handling strikebreakers there. Five workers were injured. The only damage to the plant was caused by bullets.

Moving on the shops in autos about 1 a. m., the rioters parked their cars and deployed around the plant. As a signal they opened fire on the surprised guards. Yardmaster Tom Wilkinson was struck on the head with a large rock as he slept and knocked unconscious. Four of his companions were injured.

MERCEDES TO CONSTRUCT FLOOD WALL ABOUT CITY

Work will start soon on the construction of a concrete flood wall which will completely encircle the town, according to present plans. The wall will be at least four feet higher than the recent flood levee, and will be about 20 feet wide on top. County commissioners plan to make a driveway on top of the wall and plant grass on it, which will materially add to the attractiveness of the city.

A SCHOOL MIRACLE.

Some time when Ranger is pinning medals on the breasts of its heroes, it should cast a reflective eye toward its school system and express its gratification for a near-miracle that has been accomplished there.

Three years ago, Ranger schools had no standing with the higher educational institutions of the state. Its graduates were given two credits toward entrance in universities, and were forced to take an examination to attest their qualifications for entry.

Today, Ranger schools are given 21 1-2 credits at the state university, with presentation of a certificate all that is needed to obtain admittance.

That is progress with giant strides. It indicates that wise leadership has been at the head of public education in Ranger. It indicates a high standard of teaching excellence, for the work of the Ranger schools has been made meritorious and recognized as such in spite of physical handicaps which might well have driven instructors to despair.

Ranger education is no longer "scrub education;" it is registered with the "bluebloods."

With the additional facilities provided by the new high school building and a continuance of the efficient instruction which has caused this advancement, Ranger schools will continue to be among the best assets the city can boast.

SUMMER SCHOOL ENDS TOMORROW

The seven weeks' summer session conducted by the Ranger High school closes tomorrow, Principal H. D. Woods announced this morning. Thirty-odd students have been attending the summer session, he said, and it is felt that the work done will be of great assistance to them.

So far as active student participation in school life goes, there will not be a lull in school life until the opening in the fall. Constructive plans are now being made by the principal and faculty for the most successful year in the history of the school.

The High school has been allowed a half unit credit in domestic art or sewing, the work along this line being highly commended by the state department of education. This half unit, granted in addition to the 3 1/2 units allowed several days ago in English, economics, physics and third-year Latin, represents a total of 21 1/2 units, 19 1/2 of which have been allowed the school in the last three years.

RADIO TO PUT PUNCH IN MOVIES, INVENTOR SAYS

CHICAGO, July 13.—Development in laboratories of the University of Illinois of talking motion pictures through a process of photographing and reproducing sounds, is announced by W. L. Abbott, president of the board of trustees. The invention is the work of Prof. Joseph Tykocinski-Tykoiner, of the physics department. Mr. Abbott said that Prof. Tykociner's invention belonged to the university; patents had been applied for by the school and the institution would develop the scheme and if it were successful it would be turned over to the public at a nominal price. Prof. Tykociner's apparatus to receive sound consists of an ordinary telephone speech receiver. Fluctua-

tions in electric current caused by vibration of the transmitter cause vibrations in a beam of light and these variations are photographed on a strip of film alongside the regular picture negative. By means of a cell that is sensitive to light and the amplifiers used in radio this sound is reproduced simultaneously with the picture, Mr. Abbott said.

This home is an ideal one for midsummer affairs and for the occasion its already beautiful appointments were further enhanced by exquisite cut flowers banked effectively about the receiving rooms.

Mrs. O. L. Phillips assisted Mrs. Dodson in receiving the incoming guests, while Mrs. Dodson introduced the honoree. Mmes. M. K. Collie and Howard Gholson served iced orangeade and also assisted the hostess in serving delicious collation of pineapple ice, ice cream, cake and ice tea, after the program.

The numbers of the program were given by some of Ranger's best talent, together with several numbers by the honoree and her little daughter. Each number brought its round of applause and hearty appreciation and since home musicales are rather an innovation here, and a decided change from the regular bridge parties, the hostess was greatly complimented by her guests on the success of the event and assured of their every minute's enjoyment.

Those invited to honor Mrs. Wilson were: Mmes. M. H. Smith, Howard Gholson, O. L. Phillips, Skillern, M. R. Newnham, A. J. Orth, Jack Gullahorn, C. O. Terrell, W. J. McFarland, W. J. Rowland, Harry Reed, S. W. Bobo, H. S. Cole Jr., F. E. Langston, C. H. Endicott, Frank Champion, E. L. McMillen, C. D. Woods, Gifford Clegg, William Clegg, L. L. Reator, C. E. May, Saunders Gregg, Ira

Flannery was charged with first degree murder. He set up a defense that he had mistaken his wife for a burglar and had shot a shadowy form in their home just after midnight. He claimed he thought the shadowy form was an intruder, but when he fired his wife screamed:

"My God, Jim, you've shot me." He immediately surrendered to the police.

WHITEWASHING HANDED NITROS AT AMARILLO

AMARILLO, July 13.—The battling Nitros wilted in the fifth round yesterday, after four innings of tight baseball had made Gasser fans wince in fear that the home club might lose the first game of the series.

Both Phillips and Maples were pitching masterly ball when the blow-up came. Maples had yielded hits to Flagg, Leedy and Phillips, scattered through the third, fourth and fifth innings, while the Gassers had clustered two knocks in the fourth—a double by Meador and single by Fitzgerald, counting one run.

After the fifth round the Nitros saw first only in the ninth, when Leedy walked.

The game was one of the fastest played here this year, requiring only an hour and 25 minutes. Douglas' fine work in left field robbed the Nitros of several lengthy drives that might have affected the result.

HORSESHOE PITCHING CHAMPS TO GATHER

DES MOINES, Iowa, July 13.—The largest horseshoe pitching arena in the United States, comprising twenty standard courts with bleachers surrounding them, has just been completed here on the Iowa State Fair grounds in preparation for the national horseshoe pitching tournament to be held at the Iowa State Fair, Aug. 28 to Sept. 1.

Sixteen of the courts will be used for the men's national tournament, and four of them for the women's national tournament. Both meets will be held at the same time.

Entries have already been received here from every part of the United States. Every state in the union is expected to have at least two stars and many will have at least a dozen representatives.

Prizes and trophies have been offered totaling over \$1,300. The Iowa state championship tournament will be held the two days preceding the national meet.

SWORD FISH CONQUERS IN DUEL WITH WHALE

SAN FRANCISCO, Cal., July 13.—An unusual demonstration in the ocean off Point Sur, below Monterey, Cal.—a battle between a whale and a swordfish—was reported today by Frank McDonald, custodian of the customs house here.

"The first I saw of the battle," said Mr. McDonald, "was when the leviathan of the deep churned up a field of foam that looked like a white island in the sea."

"Then the big fellow spouted and leaped. I knew he was fighting a foe unseen.

"Suddenly, as though he had been coming straight up for a solar plexus blow, a swordfish pierced the air."

After a battle lasting more than a half hour the swordfish was victorious, Mr. McDonald said.

INDIANS AND JEWS HAVE PLANS FOR COLONIZING IN MEXICO

By Associated Press.

EL PASO, July 13.—Although they have received discouragement from official sources, Indians in Oklahoma are still hopeful of some day settling in Mexico, according to Chief Sun Rise, who is known as George W. Paisano. The chief is a private in headquarters troops, first cavalry, Fort Bliss. He is greatly interested in colonization schemes of his people.

He is a full-blooded Choctaw, and has been in the army since 1918. The Choctaws, Creeks, Cherokees, Osages and Black Feet Indians of Oklahoma, numbering 10,000 want to colonize in Mexico, he said.

"We have no room for hunting and fishing in the United States," he said. "We have money and royalties and schools and the white man's civilization, but we are not happy. The Indian loves the outdoors, and loves to be free and away from other people. The white man has not only taken our land away from us, but has put us on a reservation and does not want us to leave."

"The white man says: 'Well, but look at the civilization we give you.' But we do not care for his civilization. We prefer our own, and hope we can do as we please if we get to Mexico."

Chief Sun Rise says Chief Wahshe has negotiations on foot to get land from the Mexican government and it is known that he has been through El Paso several times on his way to Mexico City in the interest of the Indians. President Obregon, the Indians say, declares he would be glad to have them, but they doubt that Uncle Sam will let them leave the United States without protest.

Jews Have Eye on Mexico. Plans have been made by rabbis in America and Europe to colonize thousands, if not millions of homeless Jews of Europe in Mexico. The plans also include giving homes in Mexico to hundreds of Jews who are stranded there. And, according to local Mexican officials, the Mexican government looks kindly upon such a proposal.

Reports from the Mexican capital said that President Obregon favored granting 64,000 square miles to Jewish colonists, but officials said that such an offer, if really made at all, was conditional. They say that Mexico will sell at reasonable figures, and probably grant to Jews small tracts, but that assurance must be given that the land will be properly cultivated, and that the people will be loyal subjects of the Mexican government, and will promise to remain several years in Mexico.

As the case with the Menonites, they will be promised protection by the federal government, and will be given religious liberty.
