## TIRE THIEVES SMASH OIL BELT SHOW WINDOW

Also Steal Car, Officers Believe, to Carry Away Loot.

One of the large plate glass show windows of the Oilbelt Motor company, on North Austin street, valued at between \$300 and \$400, was smashed some time last night by thieves, who escaped with seven automobile casings.

Between 7:45 and 10 o'clock last night the Ford car of T. J. McGill, rig builder, of 518 Bozeman avenue, was stolen from near the corner of Rusk and Main streets and police believe that the same thieves who smashed the show window and stole the casings escaped in the automobile. The wreck of the show window was not discovered until this morning when employees of the company arrived at the building. A large chunk of concrete and a brick had been hurled through the window.

The owner of the car was attending an auction sale in the H. Fair store on Rusk street, only a few yards away at the time of the theft. The car is described as a 1920 model with the engine number 4546741.

## SOME TAXATION FOR BONUS WILL BE NECESSARY

WASHINGTON, March 3.—Bonus leaders in the house said today that the non-cash gratuity plan will go through congress with comparatively little trouble. The subcommittee engaged in drawing the legislation to eliminate all cash payments except in bonuses of \$50 or less, estimated the bill would be ready in two weeks. The plan will involve taxation of some kind or other spread in small doses over twenty years. Thus far it is totally impossible to estimate the total cost of this measure, but it is not believed it will exceed \$500,000,000 in the twenty-year period.

## BONUS OPPONENT GETS BLACK HAND LETTER

WASHINGTON, March 3.—A "black hand" letter, evidently from someone in Philadelphia opposed to his stand on the soldiers bonus, reached Senator Pepper of Pennsylvania today. Pepper, who has opposed the granting of the bonus to ex-service men, has been the center of bitter attacks by persons in Philadelphia.

The letter today bore a huge black hand across the sheet and in one corner was written the word, "Bonus."

## MEETING TO BE CALLED TO SAVE ORIENT RAILWAY

FORT WORTH, March 3.—Immediate action to devise ways and means of preventing discontinuance of service on the Kansas City, Mexico & Orient railway will be taken by the West Texas Chamber of Commerce, according to an announcement by William T. Wheeler, assistant manager of that organization, and a meeting of interested citizens and shippers living along the line of the railway in Texas will be called.

Officials of the railway will be invited to attend and it is hoped to map out a plan whereby the threatened suspension can be averted. The time and place of the meeting will be announced in a short time, Wheeler said. Continuing deficits in operating and the failure of the road to obtain from the interstate commerce commission and the United States railway labor board certain concessions asked by Orient officials as a means of averting the necessity for suspension are given as the causes for the announcement just made by A. DeBernardi, vice president and general manager of the line, that the road will have to go out of business by July 1 unless relief can be had.

## KEELING WILL SUPERVISE MEXIA LAW MEASURES

AUSTIN, March 3.—For the purpose of seeing that the reorganization of the police department of Mexia and Limestone county forces is done strictly in accordance with the agreement of Limestone county citizens with the governor, Attorney General Keeling left today for Mexia. General Keeling said he would assist Major C. H. Machen, recently appointed city attorney of Mexia, in reorganizing the police forces in the manner desired by the governor.

# Oklahoma Governor Gets Draw in Fast One-Round Fistic Battle at Okmulgee

Oil Man Uses Emphatic Language in Refusing Executive's Handshake; County Attorney Defies Robertson's Power in Probe.

OKMULGEE, Okla., March 3.—Governor Robertson was attacked this morning by James P. Lyons, oil man, as the governor emerged from the private office of County Attorney Hepburn, after a conference between the county attorney and the governor. Robertson as he walked from the outer office of the county attorney was introduced to Lyons, bystanders said. The governor extended his hand and Lyons was said to have struck him in the face.

"I am a man," Robertson said, and struck back at Lyons. They exchanged ten or a dozen blows before being separated. Pandemonium broke loose in the crowded corridors of the courthouse, many fleeing in the expectation of a more serious occurrence.

As the party left the county attorney's office Hepburn turned to W. H. Crump of this city and requested that he "introduce the governor to the boys."

The governor shook hands with a reporter, the attorney general and others and followed Crump into the crowd. The first man they met was Lyons, who beside his oil connections and directorship in the Guaranty State bank, is president of the depositors' league formed after the failure of the Bank of Commerce.

"Mr. Lyons, shake hands with Governor Robertson," Crump said. "I won't shake hands with the governor," Lyons replied with an oath, according to the statements of all three men. The governor attempted to strike Lyons with his right fist, and according to the statements of all three, the governor struck the first blow. It was first reported that Lyons had struck the first blow.

The governor had arrived early today to present to the county attorney his letter offering to appear in person before the grand jury investigating the affairs of the defunct Bank of Commerce and testify. In a dramatic scene at the courthouse County Attorney Hepburn refused to consider the request of Governor Robertson

that he be permitted to appear before the grand jury. Hepburn declared that Robertson could not supercede him in conducting the probe. Robertson replied that he had the power to supercede the county attorney.

"No witness is going before that grand jury without my consent. I don't give a damn if he is the governor!" Hepburn shouted, pounding the desk with his fist. "I am going to tell you, just as I told George Short to tell you, that no man is going to supercede the county attorney of this county. You haven't got the power to do it."

"You know better than that, Jim; I have the power," Robertson responded.

Would Waive Immunity.

Robertson unexpectedly arrived here early today and declared he intended to go before the grand jury, waive immunity and demand to be heard in the jury inquiry into the failure of the Bank of Commerce. Recently, County Attorney Hepburn intimated that the governor was under investigation in the case. This was followed by a demand of the executive that he be permitted to testify before the grand jury "to prevent an action which might throw a stain on the state."

Hepburn said nothing further than that the governor would be called if his testimony was desired by the grand jury.

The governor was accompanied by his secretary, Joe O'Brien; William Tighman and J. D. Lydick. Lydick, after several ineffectual efforts to interrupt the exchange of remarks between the governor and the county attorney finally succeeded in gaining the attention of the two men and said:

"Save the Desk. "Mr. Hepburn, we have come to present this letter to you and do not care to discuss any other phase of the matter. If I can't talk to you without you pounding the desk to pieces, we will leave." Lydick had just presented Hepburn with the letter. The governor's party had met Hepburn in his outer office, and after a

(Continued on Page 2.)

## BANK EXPECTED TO PAY WARRANTS

### BUNCO MEN FLEE

NEW YORK, March 3.—Bucket shop operators are fleeing from Wall street by the score before the storm of the district attorney's investigation, it developed today. Detectives searching for men wanted on grand jury indictments found only vacant offices, in most instances. Out of fifty indictments, only five have been arrested. Brokers accused of grand larceny and operating bucket shops have folded up their gold stock certificates and faded away into the night.

## JAPS DISPOSED TO RECOGNIZE SOVIET REGIME

TOKIO, March 3.—Japan is disposed to recognize the soviet government of Russia under certain conditions, the United Press learned today from an authoritative source. Instructions to the Japanese delegation to the proposed Genoa conference are now being prepared but have not been completed, it was disclosed.

The informant said that the Japanese would present two main conditions: 1. That the soviet assume the debts of the old government. 2. That the soviet regime guarantee safety for property and lives of other nationals in Russia. If these requirements are acceded to and followed out, it is stated, Japan will be disposed to recognize the soviet government.

## BODIES WASHED UP ON PORT ISABELLE BEACH

GALVESTON, March 3.—The bodies of four fishermen who died from exposure and cold were found today washed up on the beach five miles south of Port Isabelle.

## 5 FOUND GUILTY IN ASSAULT WITH POISON

NASHVILLE, Tenn., March 3.—J. T. Stout, Dr. John Vetrech, Jess Savely, Tom and Ernest Byrd, charged with assault with intent to commit murder in forcing W. J. Fulcher to drink laudanum, were found guilty by a jury here. The verdict carries a penalty of three to twenty-one years in prison. Motion for a new trial was made.

Fulcher charged the defendants undertook to kill him in such a way that his death would be mistaken for suicide because he was pressing grand jury investigation into the death of his brother, Ewing. The brother jumped from the Cumberland river bridge here following a conference at the office of Stout, a private detective, who had charged him with writing obscene letters to Savely's daughter.

## NO JURY YET IN WACO SUIT OVER KU KLUX RIOT

WACO, March 3.—The trial of the Crow-Buchanan \$50,000 damage suit was delayed again today. Attorneys for the defendant failed to have de-murrers ready when the court opened this morning and after a fifteen-minute session adjournment was taken until Saturday morning. The jury has not been selected.

## TOO LATE!

HALIFAX, N. S., March 3.—The Norwegian steamer Grontoft is feared to have foundered with all hands, according to a wireless message received at the Cape Race station at 11:30 a. m. today from the steamer Estonia, which arrived at the position indicated yesterday by the sinking vessel. No sign of the Grontoft or her crew was found by the Estonia.

## Judge Starnes Declares Closed Depository Will Realize More Than Enough to Take Up \$80,000 Issue Pritchard Refused.

The \$80,000 road warrants which County Treasurer Pritchard yesterday refused to sign and register were to be placed in escrow in the F. & M. bank at Fort Worth and were to be withdrawn only at the order of the commissioners' court, County Judge Starnes said this morning in a telephone talk. These, with the \$338,000 bonds, were to be placed there because the federal government insists upon such step in order to insure completion of any project on which federal aid was given.

The warrants were ordered issued at the same time the contract was let, on Jan. 13 or 14, Mr. Starnes said, and the tax levy was made at the same time. Both actions were taken in open court with several citizens present from Ranger and other towns, and no comment or objection was made by anyone.

Asked why the warrants were to be placed in escrow instead of the same amount in bonds, Judge Starnes said that there were other roads to be provided for, and the remaining bonds were being devoted to them. These \$80,000 in warrants, he said, will be retired out of the county's money recovered from the Security

State bank—"which is certain to yield more than enough to retire them, and possibly as much as 50 per cent, even if it is found that the county deposits are not protected sufficiently, either by the bond or the guaranty provision." In this way, the money will be put to use without any delay, and there will be no increase in taxes, the judge asserted.

No estimates have been submitted by Smith Bros., although the warrants state that they are issued for labor and material furnished. This, the judge asserted, was perfectly proper, for the reason that the warrants were in escrow and would not be turned over to Smith Bros. until such a time as the work had been performed and estimates submitted.

Judge Starnes designated Pritchard's refusal to register the warrants as "more politics," but did not know what steps would be taken in the matter. A mandamus could be sought to compel registration, he said, as has been done in several other cases, but the commissioners do not expect to take such action. If it is taken, it probably will be done in the name of the contractors.

## CHURCH ROUSES FROM COMA TO BID FAREWELL TO AGED PARENTS

CHICAGO, March 3.—After lying on a cot for forty days without speaking or opening his eyes, Harvey Church broke his silence today five hours before he was sentenced to hang for the brutal murder of two automobile salesmen in order to obtain possession of their car to "show off" before his home town of Adams, Wis.

The plea of his mother caused the condemned man to break his long silence. "Your father and mother are here to talk to you and you have only five hours to live," a guard bending over the cot told Church. The youthful murderer, whose twitching eyelids have given the only sign of life, mumbled something. "What did you say?" asked the guard—"Mother and father?"

Church mumbled and tossed on the cot but gave no intimation as to whether he would voluntarily eat his noon day lunch or whether the enforced feeding would have to be continued. He gave no heed to the pleas of his parents that he talk. His mother, too weak to walk, was assisted to the side of his cot and pleaded: "Harvey, won't you speak to your mother?" His father kissed him several times and walked away.

Church's ebbing life will be snuffed out on the gallows at 4 o'clock this afternoon. He will be taken to the

noose strapped in a chair if all efforts to arouse him fail.

This is the forty-third day of his fast. He has been unconscious for two weeks, failing to respond to any stimulants. Dr. Copeland, prison physician, said that he had already committed "mental suicide" and that he will be to all practical purposes dead when taken to the gallows. Church's last rite probably will be administered by Brigadier General W. G. Anderson of the Salvation Army, who has kept vigil over the boy intending to speak to him of the hereafter if he should awaken.

Breath Only Life Sign. Church, confessed slayer of two automobile salesmen to gain a coveted car, has lain on his cot in the death cell at the county jail for forty days, apparently dead, save for a rising and falling of the chest. He has been fed through a hose inserted through his nostrils. Despite the most scientific efforts to prove that he is shamming, he has given no sign of life. He has not uttered a sound, and as days passed and his condition has grown worse, alienists have come to the conclusion that the man is actually mentally dead.

Wasted Away to Skeleton. From an athlete, weighing 200 pounds, and, according to the doctors,

(Continued on Page Two.)

## BRAND NEW SCHEME LOSES RUM FORTUNE

NEW YORK, March 3.—Whisky worth more than \$250,000 was seized today in Westchester creek. Two scows had brought the liquor up the river, and with the arrest of several alleged rum runners prohibition officials say they have uncovered a brand new scheme for bringing liquor into the country.

## WOODEN LEG USED TO SMUGGLE O'CONNOR'S GUN

STANTON, Mich., March 3.—An unusual story of how Tommy O'Connor, famous train robber, escaped from the Chicago jail was revealed here Thursday in the arrest of Emmet Kain. It is said by the police that Kain has confessed to assisting O'Connor in a unique way. According to the confession, Kain, who has a wooden leg, secreted a revolver in a hollow portion of it. He was arrested in Chicago on a vagrancy charge and sent to jail, where he smuggled the hidden gun to O'Connor. Kain recently was arrested in Grand Rapids and brought here on a burglary charge. He later escaped. The police now believe he had the necessary tools to make his wooden leg.

## MEXICO STILL PEEVED ABOUT FILM VILLAINS

EL PASO, March 3.—The Mexican government has compiled a "black list" containing the names of several American motion picture producing companies whose representatives will not be allowed to enter the republic, according to advices received at the local Mexican consulate from F. Orozco, chief of information, Mexico City.

According to Mr. Munoz, the companies abused the hospitality of the Mexican government by taking pictures in such a way as to subject Mexico to ridicule when the films were shown in American theaters. The dispatch did not give the names of the companies.

## U. OF T. TEACHERS MAY ACCEPT SUMMER JOBS, ATTY. GEN. SAYS

AUSTIN, March 3.—Teachers at the University of Texas' school of industrial arts may accept employment in the summer school and receive the regular pay for the work without resigning, according to an opinion from the attorney general's office today.

## THE WEATHER.

West Texas—Tonight and Saturday, fair; rising temperatures.

## REPUBLICAN REJOICES THAT HAYS RETIRES

Congressman Says He Was the One Disappointment of the Administration.

WASHINGTON, March 3.—Will H. Hays' retirement from the cabinet brings thanksgiving and rejoicing to the Republican party, Representative Thomas S. Williams of Illinois, Republican, declared in a speech in the house today, bitterly attacking Hays' record as postmaster general. Calling the postmaster general the "prince of postgumps" and "the one disappointment in the first year of the Republican administration," Williams declared the most popular act of Hays' career is his retirement to enter the movies.

## ILLINOIS MINE WORKERS PLAN NOT TO STRIKE

SPRINGFIELD, Ill., March 3.—Illinois union mine leaders threatened today to fall from the solid ranks of the United Mine Workers and make a separate peace with their employers.

Frank H. Farrington, president of the Illinois miners, predicted as the union miners gathered here that they would throw the April 1 strike overboard and accept the invitation of the Illinois operators for a parley. In case Farrington's plan is accepted by the officials of District 12, it will mean that the miners of Ohio, Indiana and Pennsylvania will have to battle alone.

## OPERATORS WILL FIGHT

WASHINGTON, March 3.—Leading coal operators of the country are ready to fight a nation-wide coal strike if the miners refuse to accept wage reductions. This was clearly the outstanding sentiment of the board of directors of the National Coal Operators' association, composed of some of the leading operators of the country, in session here today.

## LLOYD GEORGE AGAIN WINS IN STRENGTH TEST

LONDON, Mar. 3.—Premier Lloyd George has weathered another political crisis. "Die Hards" in the unionist ranks, who would have forced the resignation of the premier or a general election, were checked by leaders of the conservatives at a stormy meeting yesterday which lasted until nearly morning.

Arthur G. Balfour, fresh from Washington, where he added new laurels to his political career, is understood to have thrown his influence on the side of Lloyd George.

A group of conservatives, headed by Sir George Younger, had sought to bring about the return of party politics at the present moment, when due to conditions in Ireland, postponement of the Genoa economic conference and other matters, the position of the premier was not overly strong. Personal attacks had been heaped upon Lloyd George recently and he threatened to resign unless the conservative party gave him a vote of confidence.

## WASHING BABY CLOTHES BENEATH BOY'S DIGNITY

ARRON, Ohio, March 2.—"No, sir, a 15-year-old boy does not have to wash his baby sister's clothes in Akron." That was the ruling of Juvenile Judge H. C. Speer today. The boy's mother asked that he be sent to the reform school for his refusal to wash his sister's clothes. "Honestly, Judge, if you wuz me, big and strong and 15 years old, would you like to do baby washing, honestly, Judge?" The boy won. He will go to work on a farm instead of Lancaster. Names are not divulged in Juvenile court here.

## TWO FIREMEN INJURED BY FALLING WALL

SULPHUR SPRINGS, Texas, Mar. 3.—Two firemen were injured today by falling walls at a fire which destroyed the Connally grocery and the Hooten-Phillips machine shop. The loss is estimated at \$20,000.

# MRS. CARUSO CONVINCED BABY INHERITS FAMOUS TENOR'S GIFT

NEW YORK, March 3.—Was Caruso able to bequeath his daughter Gloria, now 2 years old, the natural gift for music that was his?

His widow is convinced that he was and announces that in two years more Gloria would begin her piano lessons as the tenor desired.

Some time ago Mrs. Caruso thought she detected in her baby precocious efforts to express herself in song, an appreciation of music and a remarkable memory. Daily she became more convinced, and this conviction was further strengthened when Antonio Scotti and other artists who had been associated with the world-famous singer at the Metropolitan admitted musical talent.

**Not a Prodigy.** Mrs. Caruso refrains from characterizing her child a musical prodigy, but insists that she is possessed of an unusual aptitude for music.

"If Gloria inherits some of her father's natural gift, it would not be the first time such talent had been passed on, parent to child," said Mrs. Caruso. "There is Miss Louise Homer, on whom nature has bestowed a talent resembling that of her mother, Madame Homer. Music history is replete with such instances. I hope history will repeat itself in the case of Gloria.

"When Gloria was only 4 months old, Enrico used to sing to her, softly, some of the quaint melodies of childhood, including snatches of Neapolitan songs with which he himself

was lulled to sleep when a baby. Gloria would kick her little legs with glee and cry for more. Her father used to say that musical training should begin with the cradle—that the boy or girl should be made to 'feel' music from infancy. He insisted that Gloria should take piano lessons when 4 years old, and I intend to see that his wish is carried out.

**Piano Comes First.** "I'm starting Gloria with the piano instead of in voice culture because I want to develop in her a high degree of musicianship before attempting to train her voice. I want her to 'feel' music, as her father said. Many of our recent and our present-day singers began as instrumental musicians—Emmy Destinn and Julia Culp with the violin; Marcella Sembrich with the piano and violin.

"Gloria's little fingers will span perhaps half an octave; but I don't think that will matter much."

Recalling that once in Mexico her husband had sung in "Ballo in Maschera," without having seen the written score for six years, Mrs. Caruso said:

"Not long ago a woman friend, a pianist, called at our home and played the air of one of the songs that Enrico used to sing to Gloria before his illness. In the midst of the music Gloria burst forth with a half dozen or more words of the song, although she had not heard them for six or seven months."

# ENGLISH DEBTORS CAN STILL BE IMPRISONED—IF POOR ENOUGH

LONDON, March 3.—Judge Parry, a famous English county court judge, has begun a campaign for the abolition of imprisonment for debt. If you ask the average Englishman he will tell you that imprisonment for debt was abolished by the debtor's act of 1869, which resulted from the agitation begun by Charles Dickens. It was, but it still remains. The act of 1869 abolished imprisonment for the comparatively well to do debtor, but the poor man can still be, and is, sent to jail if he fails to pay his debts.

It is true that the process of getting your debtor behind bars is rather more complicated than it used to be. You must first go to the county court and get a judgment. The sheriff must then try to execute it and report that he can find nothing to levy on.

You then have your creditor up before the court again and prove that he is regularly employed and can pay,

at any rate by installments, and the court makes an order that he shall pay so much a week or a month. If he then fails to pay you, have him up again for contempt of court in disobeying the order to pay and the court commits him to prison. About 5,000 Englishmen get into jail by this process every year.

Everybody agrees in principle that imprisonment for debt is a bad thing, but when an effort is made to abolish it the reformers get up against all sorts of vested interests.

Chief of these are the "credit drapers" or dry goods peddlers, who have the big wholesale houses behind them, the "tally men," who sell cheap jewelry on weekly installments to working men's wives and servant girls, the publishers of family Bibles, histories of the world and other gaudily printed books of this character, also sold to working men for an exorbitant price in weekly installments.

# OLETS SETS OHIO CITY SWAPPING SNAPPY SALUTE

YOUNGSTOWN, Ohio, March 3.—This city is in throes of a "saluting" craze, following instructions by Mayor George L. Oles to Police Chief James Watkins that all policemen must salute him. Watkins has issued orders to patrolmen to salute "His Honor," under rules of the department, contained in the book of rules regulating conduct of the force.

**Everybody's Doin' It.**

Persons meeting friends saluted gravely. The salutes were returned. Even girls lifted their three fingers to the "forelock" and saluted. Prisoners in the dock before Municipal Judge George Gessner saluted the court when he took the bench.

Gessner returned the salute and smilingly remarked: "Ave Caesar, mituri te salutant." (Hail Caesar. Those about to die salute you.)

Patrolmen who were too old to serve in the World War asked younger "coppers" to instruct them to salute in proper military fashion. At police station officers saluted each other every time they passed.

"I ordered the police to salute me," declared Oles, "because they have been walking past me with their heads up like bank presidents. They're sore because I desire their wages out so that taxes may be reduced. Police regulations demand such salute. Every other mayor has had this honor and I'm going to get it, too."

**Dismisses Guard.**

Oles today dismissed the last of his bodyguard, saying that he would defend himself if he were attacked. Two officers originally were detailed to guard the mayor, following receipt of threatening letters.

"I don't care personally whether any policeman salutes me or not," declared Oles, "but they've got to pay respect to the city's chief executive. I'm not going to demand anything special. Just an ordinary salute will do. The police don't need to stand at attention and click their heels together. And one thing I won't stand for is the 'goose step.'"

"What if they don't obey the order?" Oles was asked.

"It won't hurt my feelings at all. I'll automatically will reduce the force, because those who don't do their jobs."

# DRIVER BITTEN IN CLOSED CAR WITH MAD DOG

ANN ARBOR, Mich., March 3.—Ten days' strenuous treatment by physicians of a hospital here has saved Frank C. Longman, famous "point-a-minute" football star, from death by rabies. With this fact is revealed the story of a feat by Longman, known the state over as "shorty" since his college days, which rivals any he ever performed on the gridiron—that of driving 106 miles in a closed car with a mad dog chained to the floor.

This took place after midnight on Lincoln's birthday, Feb. 12, after Longman's pet dog Brute and the son and grandson of international champions, had bitten a nephew of Longman in the cheek in Athens, Mich.

When a physician declared "Brute" showed symptoms of rabies Longman undertook to save the animal from death by a heroic midnight drive with the dog chained to the floor of his coupe. The swaying of the car gave the maddened animal sufficient play to get at his master, and the football star suffered a gouge on one of his hands and a nip in the lobe of one ear. The dog had nearly torn his chains loose when his master got to Ann Arbor, three hours after he set out.

# 'HOW COME?' DENVER ATTORNEY ASKS KLAN

DENVER, Colo., March 3.—District Attorney Phillip S. Van Cise has called upon officers of the Denver branch of the Ku Klux Klan to explain a letter, purporting to be from that organization, threatening the life of Ward Gash, negro, unless he left the city.

Gash fled to Ogden, Utah, a few hours after receiving the letter several days ago.

The letter, which the district attorney characterized as "the first unlawful act of the Ku Klux Klan" in Denver, is written upon the official stationery of the clan and bears the order's seal, the district attorney said.

The letter charged Gash with having annoyed white women.

# CHURCH ROUSES FROM COMA TO BID FAREWELL TO AGED PARENTS

(Continued from Page One)

"hard as steel" physically, he was wasted away to a skeleton of not more than 100 pounds. His muscles and fibers have become flabby and all muscular nerve reaction has ceased. Pin pricks in the body and under the eyeballs have not netted the slightest reaction, it is said.

It is declared that, though he will live to hang, yet he has literally cheated the gallows because he will not know when the trap has been sprung.

He started to refuse food the day he was sentenced. Medical authorities declare that he attempted to prove insanity and that his self-hypnosis went so far that he could not regain normalcy if he were freed. His finger nails are dug into the palms of his hands so firmly that strong guards can not relax them. His toes are likewise knotted.

**Case Is Remarkable.** So remarkable is his case that his attorneys have been in every court in Chicago, as well as the state supreme court, attempting to have another sanity hearing. He was found sane by two juries.

His last hope was lost Thursday when Federal Judge George A. Carpenter refused to issue a stay of execution or to allow an appeal to the United States supreme court. Governor Small was also inaccessible for further pleas. Circuit and superior court judges refused to grant another sanity hearing.

The alienists declare that Church is not insane—that his condition is due to the most marvelous will power they have ever observed. He went so far, they say, that he killed himself mentally.

Scores of eminent physicians will see him hung today. They want to see if Church makes any human sign, as, strapped in an invalid chair, he is plunged through the trap.

# OKLAHOMA GOVERNOR GETS DRAWN IN FAST ONE-ROUND FISTIC BATTLE

(Continued from Page One)

A few commonplace remarks had been exchanged, Hepburn entered his private office, followed by Robertson, Tilghman and Lydick. Hepburn took a seat at his desk, while the others remained standing. Several court attaches, lawyers and others gathered in the room.

Robertson was not injured. The governor with members of his party returned to his hotel, where following a conference with the county attorney he announced that he did not care to make any statement. He likewise declined to comment on the grand jury.

Lyons is president of the Lyons Petroleum company and a director of the Guaranty State bank.

"I have no statement to make except that I am county attorney of this county and Governor Robertson is the governor of Oklahoma," County Attorney Hepburn told a reporter on emerging from the conference a few moments before the encounter.

# MAN ADJUDGED LEGALLY DEAD NOW APPEARS

WATERLOO, Ia., March 3.—From the port of missing men William B. Murphy, born and reared in Cedar Falls, Iowa, but for ten years lost to wife, kin and friends, reappears.

Many men have vanished from the scenes they knew best, from loved ones and, in many cases, from valuable property rights, nevermore to be heard from.

Murphy reappears under unusual circumstances. He comes to stay, and to claim \$7,000 left him by his father, C. J. H. Murphy, who died during the younger man's absence.

On the very day that Judge H. B. Boies made an order giving the money to Olive Belle Murphy, 10-year-old daughter of the missing man, a letter was received from him. It came out of the Southland. It was the first communication that had come from Murphy since he vanished ten years ago. A few days later he appeared in person and is now asking the court to set aside the order depriving him of his rights under the terms of his father's will.

Under the laws of Iowa, if a man is not heard from for seven years, action may be started to declare him dead. Such an action was started in the courts of this county. The daughter, Olive Belle, heir of her grandfather, claimed her father's inheritance. A guardian was appointed for her. A judge signed an order Jan.

26, 1922, declaring William B. Murphy dead and giving the money to Nellie B. Murphy, wife of William and mother of Olive Belle, for the latter's care and education.

Murphy is now endeavoring to have the order declaring him dead set aside and contends that inasmuch as he is very much alive he is entitled to the money from his father's estate.

Attorneys for the daughter maintain that inasmuch as the father has not contributed to her support for ten years the money should remain in the hands of her mother to defray the cost of raising her and providing an education. Judge Boies has taken the case under advisement. It is the first time in the history of the local courts that a man declared legally dead has returned to claim an estate.

The effective range of a sneeze, from the germ point of view, is three feet.

# INFANT DURHAM DIES

Milton Dean Durham, 16 months old, died at 9 o'clock this morning at the home of his parents, Mr. and Mrs. T. M. Durham, on Pershing street, Young addition.

Funeral services will be held Saturday afternoon at 2 o'clock at the grave in Evergreen cemetery. The Rev. L. A. Webb will officiate. Funeral arrangements are in charge of the Millford Undertaking company.

# CONNUBIAL REPARTEE.

She—"This book says that men grow bald because of the intense activity of their brains. I have sometimes wondered how you were able to retain so good a crop of hair."

He—"Yes? And I suppose the absence of whiskers on the faces of your women is due to the activity of your chins?"

# CLAIM IOWA SCIENTIST MADE GOLD FROM LEAD

IOWA CITY, Ia., March 3.—The recent claim attributed to a German chemist that he had perfected a process for making gold from other metals, has brought forth a statement from Dr. Charles R. Keyes, Des Moines geologist, that Dr. Gustav Hinrichs of the faculty of the University of Iowa demonstrated in 1883 that lead could be changed into gold by removing two atoms of the lead molecule.

Dr. Keyes states that the problem was worked out mathematically by Dr. Hinrichs and that at a later time the success of the project was actually demonstrated. It was found however, Dr. Keyes states that the process was so costly that the artificial gold was much more expensive than natural gold.

# J. M. WHITE & CO.

You want yours to be the right hat—every woman does, because her spring outfit can be as smart as any, yet lose all its charm if she is wearing the wrong hat

# Come and See Our Wonderland of New Hats

Hats with every conceivable charm of shape, color and adornment

Our Hat department is a veritable wonderland with its showings of the smartest new spring hats you have ever seen. You will revel in the exquisite new colors—Canna, Periwinkle, Dandelion, Jade, Lipstick Red, Rust, Copenhagen, Sand and the always satisfying navy blues and blacks.

The very newest hats are delightful combinations, such as gray and jade, gray and copen, gray and red. The shapes have such charming variations, off the face and drooping, close fitting and medium, large and small. The fineness of the straws matches the beauty of the colors. Never were there such exquisite flowers, such colorful fruit, such perky quills and wings. Every color and adornment to make milady's hat a thing of beauty and charm... \$5 to \$17.50.

# "I want a Cape above all other things" ---

Is What Every Woman Is Saying This Spring  
You are glad that it is a cape season, for women have always loved capes, and you will wonder how you ever got on without one. Is there anything so delightfully feminine? Hanging gracefully from the shoulders, there is no wrap quite so artistic in line and contour.  
Capes have been worn in all ages and countries. Court ladies of the Empire days knew their charm—Priscilla hid the soft whiteness of her kerchief under a demure gray cashmere cape. Seldom does a fashion contain greater possibilities of charm as well as practical usefulness.

# New Springtime Dresses

You will be charmed and captivated with the refreshing loveliness of the new springtime colors. The artful trimming ornamentation, the newness of materials, the total difference in styling, the almost limitless variety of modes represent a display of dresses unequalled for attractiveness and style newness.  
Surely You Will Be Suited. Certainly You Will Be Pleased.

AND WOMEN'S ACTIVITIES

Conducted By  
MRS. R. B. CAMPBELL  
Telephone 418

## TONIGHT'S ENTERTAINMENT.

Since the sun is out and the weather is moderated there will be no excuse for anyone missing the entertainment to be given tonight at the Methodist church by the Parent-Teachers' association of the High school, for the benefit of the entertaining fund. The church will be nice and warm and the program excellent, and it is an indisputable fact that if Ranger folk are going to entertain the delegates who will be here on the 9th and 10th, attending the Mother's congress and Parent-Teachers' association district meeting, they must attend all these entertainments, thus contributing their mite toward the fund, and in so doing let those who are in charge of the entertainment know what kind of a backbone they can depend upon. In every case auditors will find that

this duty is a pleasure for the programs rendered at the different affairs will be many times worth the price of admission.

## REHEARSAL TONIGHT.

Immediately following the entertainment at the Methodist church, those who are to take part in the 1920 club plays will go to the Liberty for a rehearsal. Members of the cast please take notice.

## TOMORROW.

Big parade at 2:15 of the cast in the "Districk School" and "The Bachelor's Dream."

At the Liberty in the evening the 1920 club plays.

## 1920 CLUB MEETING.

Ever mindful of the comfort of her friends, Mrs. George Davenport offered the hospitality of her home to the members of the 1920 club yesterday afternoon, so the meeting was there instead of at the Methodist church, as is usual. The subject for the afternoon was "Texas," which was a very fitting one considering that yesterday was Texas Independence day. Mrs. C. C. Chenoweth had a splendid paper on "Natural Resources," while Mrs. S. P. Boon took up "The Nature Life

of Texas," and read a very interesting paper of "Animal Life." Mrs. Vincent Wakefield favored the club with a beautiful piano selection. On account of the inclement weather several who were on the program were absent, so the program arranged in honor of the day could not be given in full. After the program the members of the club discussed plans for their plays, "Districk School" and "Bachelor's Dream," which are to be given Saturday night, also other plans for the coming meeting of the Women's Federated clubs, which is to be held here in April.

## MEETING WITH MRS. WINSETT.

The Woman's Missionary society of the Christian church had a very interesting meeting Thursday afternoon at the home of Mrs. Winsett, on Pine street. There were very few in attendance, but in spite of that everyone present had a most enjoyable afternoon, as some how these smaller meetings give one an opportunity to get closer together, and better acquainted. The study for the afternoon was "Africa" and Mrs. E. A. Shipp conducted the Bible lesson. Following the lesson the hostess served hot chocolate and cakes to the following ladies: Meses. Blodgett, Dyer, Wilson, Shipp, Peyton.

## T. E. J. CLASS.

The regular monthly meeting of the T. E. J. class of the First Baptist church was held Thursday afternoon at the home of Mrs. J. T. Pitcock in the Rust addition. The program included a Bible discussion by all members, a solo by Mrs. Landig and a reading by little Miss Pitcock. Refreshments were served to the following members: Meses. Weber, W. S. Jackson, B. Bloodworth, A. A. Right, L. Jacobs, Adamson, Hamilton, Landig and Miss Pitcock.

## PURELY PERSONAL

Miss Helen Brown is spending the week-end with her parents, Mr. and Mrs. F. A. Brown.

Preston Martin of Weatherford visited in Ranger yesterday.

Cliff Wilson of Eastland spent yesterday in Ranger.

Mrs. E. F. Reynolds, who has been ill for some time with a light attack of pneumonia, is in an improved condition at her home on South Austin street.

## FLOOD WATERS CUT OFF TOWN'S FUEL SUPPLY

DIXON, Ill., March 3.—Water from Gorged Rock river, rising slowly during the night, flowed into the fire pits at the city gas plant Thursday and stopped further manufacture. With less than a day's supply of gas in the holder the city faces a complete fuel famine. Many business institutions which are dependent on gas fuel, including the city newspapers, were forced to suspend operation.

After midnight there was a split in the gorge here, the wagon and footbridge becoming the head of a new gorge, which now extends up the river several miles, while gradual compact of the ice below made an open space in the river's surface.

This resulted in a drop of three inches in the stage of water at the power dam, but a rise of six inches below the bridges brought the surge which put the gas plant out of commission.

Officials of the utilities company stated this morning that it might be a week or ten days after the flood subsides before the gas plant can be in condition to operate. The surge of the flood early this morning backed the waters further into the inundated residential districts and early police reports indicate that at least a dozen more families had been forced to vacate their homes, bringing the total of those driven out since Wed-

nesday to over half a hundred.

One man, Gus Pyfer, routed from his home by the flood early this morning, dropped dead, probably from the excitement.

## BAIRD VOTES BONDS FOR WATERWORKS PLANT

BAIRD, Texas, March 3.—In the city election here waterworks im-

provement bonds in the sum of \$60,000 were voted. The waterworks, owned by the city of Baird, will be enlarged by larger mains and also by a concrete reservoir.

Your Choice **98c**

We Sell Gordon Hosiery Exclusively

## You've Told Us, Now Tell Others!

Hundreds of people have indorsed J. M. White's stand for 6 o'clock closing. The coupons returned during the last few days show conclusively that the people think it is fair to employes and more efficient and businesslike.

That is right and justice; and if "no cause is settled till it is settled right," as has been said, then this movement will not end until all merchants follow this practice.

But this question will be settled right if the people of Ranger let their wishes be known in an unmistakable manner. We have been converted to it. Now the thing to do is to convert others.

Ask Mr. Merchant what excuse he has for forcing his employes to labor during the evening hours, which should be devoted to rest, recreation and companionship of loved ones? Ask him why he should go to the expense of keeping open later hours, when he can do just as much business in daytime? Just ask him to state his case, and see if he has even a cork leg to stand on!

J. M. WHITE

## WE are letting the people of this community know what a real bargain is. Here are a few examples

### Galvanized Wash Tubs

Best grade galvanized rolled steel tub, with strong rimmed edges and raised foot—No 1, 85c; No. 2, 95c; No. 3, \$1.05. Extra large Galvanized Pail, 39c. A good Galvanized Pail, 25c.

WHY NOT PHONES?

Ranger will be willing to await two weeks longer for the opening of the new telephone service, since that is the best it can do. But it is doubtful if another postponement of the opening of the new exchange, for any reason whatsoever, will be acceptable. Too many dates have been set for this opening, too many delays have been encountered in the fulfillment of the promise, for the people to be in full sympathy with the telephone company and admit the necessity of delays previously encountered.

Take the last case, for instance. The phone company says the ceiling must be fixed before it can move into new quarters. That is reasonable, certainly. But how long has the company known that? Surely for some time. Then why couldn't it have been replastered or repainted or otherwise dolled up some time ago? In other words, why can't the company solve its difficulties simultaneously instead of consecutively? With the exception of the fact that there are about half as many phones here as there is a demand for, and the company has shown the speed of a backing tortoise in making extensions, the phone service has been very fair. Aside from the fact that local operators seem to think one connection is supposed to last all day, and do not comprehend that a person sometimes desires to call two or more numbers one after the other, they are exceptionally painstaking and courteous. And if Long Distance would just quit butting into a conversation with an anxious "Waiting?" her service also would be perfect.

Considering its facilities, the Ranger telephone office has done remarkably well, and is to be commended. But service will not supply more phones. And that is what Ranger wants and needs.

Take the matter of fire protection, for instance. Persons living in half a mile of the fire station have been forced to come to the station in automobiles to turn in an alarm. Houses have been burned meanwhile that might have been saved.

And for the last year, new quarters have been rented. For eight months material for the new exchange has been at hand. But it is not yet in operation, though definite openings have been promised once a month and sometimes twice. If the telephone company doesn't make good on its latest promise of March 15, something ought to be said, and said in a very brusque Big Bearish sort of voice.

For as somebody has well said, if we can't have a real phone service there isn't much use in having any at all.

Mr. Edison hopes to live till 90. We'll bet a hundred on him any day.—Atlanta Constitution.

You often find some narrow minds in some big heads.—Dayton News.

Prohibition poster says: "Many on the water wagon feel better off."—New York American.

PERSHING'S NEPHEW IS NOW "DRY" OFFICER

James F. Pershing Jr., nephew of General Pershing, has accepted appointment as assistant to Ralph A. Day, prohibition enforcement director for the state of New York. Pershing served in the army during the World War. He is a Republican and has been in business with his brother as a stock and bond broker in New York City.

FARMER CAN'T COLLECT ON CAR BULL WRECKED —HE'D PAINTED IT RED

TOPEKA, Kan., March 3.—Fred Knudson, a farmer, has appealed to the state superintendent of insurance for aid in collecting collision insurance on his automobile. Knudson complains that he painted his automobile red, that a bull at a public sale at Orion, Kan., wrecked it and the insurance company refuses to consider his claim.

MYSTERY CLOAKS DEATH OF CORPUS CHRISTI GIRL

CORPUS CHRISTI, Texas, March 3.—After ten days of futile search from Brownsville to Texarkana, admission was made in the sheriff's office today that no clew has been found to direct suspicion toward any individual guilty of the assault and murder of Blanche E. Perrigua, 16 years old, on Tuesday of last week.

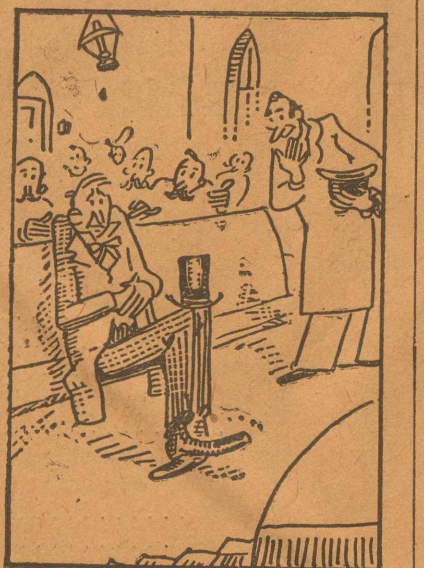

Approximately thirty suspects have been taken into custody and questioned in connection with what officials declare to be the most heinous crime in the history of this district in which a young girl was choked to death, her throat cut and the body hidden by being shoved head foremost into a clump of underbrush and covered with weeds.

Although officers yesterday were working as persistently as the first day, mystification was acknowledged and the case promises to be filed among the unsolved riddles in the criminal archives of this county.

SULPHUR MAYOR HELD AFTER BANK CLOSING

SULPHUR, Okla., March 3.—Mayor W. H. (Pat) Riley has been arrested on charges of embezzlement filed on information furnished the county attorney following investigation into the affairs of the defunct Bank of Commerce. Date of preliminary trial has been set in justice court for March 9. Riley is now at liberty on bond.

DOG HILL PARAGRAPHS By GEORGE BINGHAM

Fit Smith, who had almost quit going to the Hog Ford church because the preacher never did ask him to do anything, went last Sunday, and was asked to put in a dollar on the organ fund.

The Postmaster believes the general daily average of attendance around the stove at his place of business will show a substantial gain over a similar period of last season. He says he has just got to make one improvement, however, and that is to hire some good stout man to turn some of the loafers around when they begin to scorch on one side.

Poke Eazley started on building his new house on Gander creek last week, but forgot to leave some blank spaces for the doors, which he will have to do before he can move in.

BRICKLAYERS DROP RULE TO LIMIT OUTPUT

WASHINGTON, March 3.—Announcement is made by Attorney General Daugherty that the executive heads of the international organization of bricklayers, masons and plasterers have signed and executed a consent to the entry of a far-reaching court decree restricting their activities which have been a disturbing influence to the building industry of the country.

The decree directs that it be published by the labor organizations and read to all of their local unions at their regular meeting and be incorporated as part of the constitution of the international union and appended thereto in their next constitution to be adopted.

The decree lays down and adopts these four basic principles:

- 1. There is to be no limit to the productive capacity of the individual workman within the working day or any other given time. 2. There is to be no limit upon the right of the employer to purchase his materials wherever and whenever and from whomsoever he may choose, whether those materials be union made or otherwise. 3. There is to be no favoritism

shown by organized labor towards employers or trade associations or contractors' associations and no discriminations are to be indulged in against the independent employers who may not be a member of such an organization.

The labor organization is not to be used or permit itself to be used by material men or contractors or subcontractors as an instrument for the collection of debts or enforcement of the payment of alleged claims.

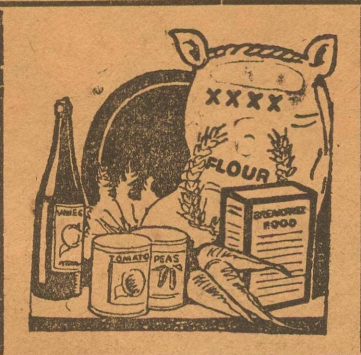

The court decree will be entered in the United States district court for the southern district of New York as the culmination of the investigation by Col. William Hayward, United States district attorney at New York, in conjunction with the department of justice into the building trades and housing situation.

The bricklayers, masons and plasterers organization embraces all of the local unions throughout the country with a membership of more than 100,000.

"The first of the principles in the decree," said Attorney General Daugherty, "is directed against any rule that a bricklayer must lay so many bricks an hour or a mason set only a certain quantity of stone a day and so on down the line."

The fourth strikes at a general practice for contractors and builders to use labor unions as an instrument for the collection of their debts.

The chief drawback to smoking for women is stated to be the effect it has on the voice and throat.

Customers Kicked About Weak Booze; Now It Cracks Safes and Chars Wood

ATLANTIC CITY, N. J., March 3.—Brooding over the complaints of customers that his whiskey had been diluted with water, a local bootlegger has invented and placed on the market a beverage which cracks safes and eats legal documents.

It was first tried out on a local miscellaneous drinker, who instantly christened it "white mule."

A bottle of "white mule" was seized Thursday by United States Commissioner Steelman, who put it in an iron safe with a number of sworn

complaints against bootleggers. When he opened his office next morning the safe was open, the cork was out of the "white mule" bottle, and the documents were charred, the woodwork of the safe was bitten into and the steel was etched.

It was first tried out on a local miscellaneous drinker, who instantly christened it "white mule."

OIL

NORTHWEST YOUNG GETS THOUSAND BARREL WELL

WICHITA FALLS, March 3.—Showing an estimated production between 1,000 and 2,000 barrels, the test of the Konow Oil company located on the Stovall tract of the Sarah Tankersville survey, in Young county, has been completed, according to reports received here from the field. The well, which is four miles northwest of the main producing area of the South Bend pool, struck pay sand at 3,400 feet, the flow starting after the hole had been cleaned out following a storm. The well gives northwest Young county its first deep producer and is third in the entire county to show a constant production below 3,000 feet. The development, coming as a surprise, is causing considerable excitement among operators in that section.

WORK AT COLORADO STOPPED BY STORM

COLORADO, Texas, March 3.—The worst blizzard of the winter has gripped the Colorado section since Monday night, when a gale from the north, blowing snow and sleet, struck here and practically tied up operations in the Colorado field. Water lines at several of the locations have frozen and when the thaw comes additional delays will be had until repairs to the burst pipes can be made. J. L. Vaughan of the Underwriters' Producing & Refining company, owners of Morrison No. 2, said that the shot which was to be given the well Thursday would be delayed indefinitely.

The Morrison well, which began to flow by heads late Saturday afternoon, Feb. 11, has continued the performance twice daily with clock-like regularity, producing approximately 200 barrels. The gas sand was reached at 2,943 feet and drilled in three feet. Drilling was resumed last week at a depth of 2,967 feet, and the formation is practically unchanged.

The well was swabbed for three hours recently and at each swabbing twenty-five barrels of oil was brought up. The swabbing was repeated each fifteen minutes and at the end of three hours the well had produced 300

18—WANTED—Miscellaneous

Wanted—Second-hand furniture. Wright Furniture Co., 207 S. Rusk street. Phone 154.

21—LEGAL NOTICE

NOTICE OF FIRST MEETING OF CREDITORS.

In the District Court of the United States for the Northern District of Texas, in Bankruptcy. Abilene, Texas.

In the matter of Edward Joseph Duggan, doing business as Ranger Electric Co., Bankrupt. No. 896 in Bankruptcy. Abilene, Texas March 2, 1922. Office of Referee.

To the creditors of Edward Joseph Duggan, doing business as Ranger Electric Co., of Ranger, in the county of Eastland and district aforesaid, a bankrupt. Notice is hereby given that on the 2nd day of March, A. D. 1922, the said Edward Joseph Duggan, doing business as Ranger Electric Co., was duly adjudged bankrupt and that the first meeting of his creditors will be held at my office in the city of Abilene, Taylor county, Texas, on the 13th day of March, A. D. 1922, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

D. M. OLDFHAM, Jr., Referee in Bankruptcy.

20—OIL, GAS AND MINERALS

LEASE FOR SALE—40 acres in Rising Star field; section 115, block 3, H. & T. C. railroad (Co. lands, Eastland county; 3 years to run; \$1 acre rental; abstract. What am I offered? F. D. Hicks, care Times, Ranger, Texas.

barrels without noticeably lowering the oil in the hole.

LITTLE EXCITEMENT IN OIL LAND SALE

PAWHUSKA, Okla., March 3.—The first sale of Osage Indian oil lands for 1922 was being held here today with but little excitement manifested. Bidding was slow and low compared to the Dec. 12 sale when 230 tracts brought the record smashing sum of \$7,267,600.

Up to noon today sixty-five tracts had been offered, the bids reaching a total of only \$55,050. There are 237 tracts open to bidders in today's sale but only six are in the rich Burbank district. It was freely predicted that two of these 160 leases would bring \$1,500,000.

PRODUCTION DROPS IN BURKBURNETT AND STEPHENS COUNTY

Losses of more than 1,000 barrels daily in the average production from Stephens county, a 1,000-barrel loss in the Burkburnett district and smaller losses in other parts of the territory for the past week reflected the unfavorable weather and brought the daily production average to 129,500 barrels.

The daily production, estimated upon runs, follows by pools: Burkburnett, 35,400; Electra, 12,100; Iowa Park, 2,700; Holiday, 1,550; Petrolia, 325; Young county, 10,150; Stephens county, 46,600; Ranger, 12,500; Desdemona, 5,700; Strawn, 1,150; Moran, 600; Coleman, 90; Brown, 625.

SECOND DALLAS COUNTY TEST WILL START SOON

LANCASTER, Texas, March 3.—Grimes No. 1 of the Carnahan Drilling company is drilling at 100 feet in a hard lime formation. This well is being visited daily by Dallas oil men and scouts. The drilling of the Grimes well, which is being done with cable tools, will allow a careful check to be made of the various formations and all sands will be thoroughly tested, according to H. L. Camahan, president of the Carnahan Drilling company.

From all indications, Lancaster's second test will be under way within the next fifteen days. This well is located about four miles north of this city.

LANDIS IS THROUGH WITH "OFFICE" JOBS

CHICAGO, March 3.—Kenesaw M. Landis, commissioner of baseball, who resigned as a Federal judge Tuesday will not go into politics in Chicago, he has informed a friend in a letter which became known today.

"I note what you say about mayoralty of Chicago," the letter states, "and I thank you for your kindly sentiment, but don't get it into your head that I have it in my head ever to be interested in holding a public office."

FORCES MAN INTO ICE BOX, ROBS STORE

ARDMORE, Okla., March 3.—With the mercury hovering around zero and in the midst of a snowstorm late Wednesday afternoon, a hijacker entered the grocery store of John Smith in Ardmore and ordered the proprietor into the ice box, forcing submission at the point of a revolver. After locking Smith in the box the thief rifled the cash register and made a getaway.

BOOKOUT NOT GUILTY OF OFFICIAL MISCONDUCT

SHERMAN, Texas, March 3.—The jury at 5 o'clock Thursday afternoon returned a verdict in the ouster suit against County Attorney Hubert Bookout, failing to find true the charges of official misconduct brought in the suit to remove him. Bookout retains his office by the verdict, but is yet to face two criminal indictments returned against him by the December grand jury in the Fifty-ninth district court, charging extortion growing out of the same alleged transactions which were made the basis of the civil suit against him to remove him from office.

The case was given the jury at 1:30 o'clock this afternoon. The jury, under the court's charges, considered five issues of alleged official misconduct charged in the petition against him by forty-eight citizens. All of these involved collection of fees for examining trials which relators charged were irregularly conducted in several ways, and included the charge of the adoption of a scheme by the county attorney and his assistants for collecting fees in examining trials to which they were not by law entitled.

JIM JEFFRIES MAY BECOME EVANGELIST

LOS ANGELES, March 3.—James J. Jeffries, former heavyweight champion of the world, may become an evangelist—if nothing happens to prevent it, according to a story the Los Angeles Examiner printed Thursday.

Jeffries, now a farmer at Burbank, near here, has become interested in religious affairs through a visit from A. F. Stutterer, a friend of the former pugilist's father, who was a minister of the gospel, according to the newspaper.

"My desire is to bring religion closer to the hearts of the men of today," Jeffries is quoted as saying.

"S. S. S." Makes Skin Clear and Beautiful—Your Body Plump!

This shows what S. S. S. can do in clearing up your skin, brightening your eyes, clearing your skin, and many years in appearance stricken off of your face!

Amazing Results from Increase of Blood Cells! S. S. S. a Remarkable Blood-Cell Builder.

Do you know that your loss of flesh is due almost entirely to the small number of blood-cells in your blood? Do you know that you can build up your whole body, from your face to your feet, to the normal, natural, beautiful plumpness which it should have, by using the great blood-cell builder, S. S. S.? You don't have to change your diet, or figure out the guess-work theories about fats in foods, or use new fad treatments, or anything of the kind. Take S. S. S. Your skin will clear up remarkably, your complexion will be like a rose-petal, your lips ruddy, your eyes clear, your neck and cheeks will fill out. Also S. S. S., being one of the most powerful blood-cleansers, your skin eruptions, pimples, blotches, black-heads, acne, disappear. Just try it, you'll see. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

BAILEY DENOUNCES FEDERAL USURPATION OF RIGHTS OF STATES

DALLAS, March 3.—That present-day Texans have drawn sadly away from the paths of their fathers and that if Texas was out of the union now he would vote for it to remain out, because the federal government has usurped the rights of states, were among the declarations of former Senator Joseph W. Bailey, in a Texas Independence day address here Thursday. This is the first public utterance he has made since the campaign for governor two years ago.

Senator Bailey declared that if he had been in Texas when the people voted to join the union he would have voted yes, but if Texas was out now he would vote to stay out. He urged the people to return to the old-time standards of democracy and predicted that the time is near at hand when they will do it.

One of the leading department stores in St. Louis, Mo., is planning to erect a four-story garage, in which the automobiles of its customers may be parked while they are shopping. The proposed garage will accommodate 400 cars.

The commission for the erection of a monument in the Argonne region of France in memory of the Missouri heroes, who gave their lives in the World War has been awarded to Mrs. Nancy Hahn of St. Louis.

Such delicious flavor, such crispy crunchiness never before was believed possible in corn flakes! You have a great treat awaiting you the very first time you sit down before a generous bowlful of Kellogg's Corn Flakes and a pitcher of milk or cream—and fresh fruit, if it's handy! It isn't fair to yourself and your family not to share in the pleasures that Kellogg's Corn Flakes so generously spread over the nation—and the world! You are missing a taste-thrill! So, tomorrow morning, serve Kellogg's Corn Flakes for breakfast, or for lunch—or for between-meals nibbles! They're wonderful—and never tough or leathery or hard to eat! Insist upon your grocer supplying Kellogg's Corn Flakes—the delicious kind in the RED and GREEN package that bears the well-known signature of W. K. Kellogg, originator of Corn Flakes. NONE ARE GENUINE WITHOUT IT! Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND. Kellogg's TOASTED CORN FLAKES. Also makers of KELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and krambled.

**GRANDMA COWS FRISKY LIKE CALVES, IS REPORT FOLLOWING GLAND TEST**

HARRISBURG, Pa., March 3.—The principle employed in monkey glands for rejuvenation has been used with success in experiments on cows, it is announced by officials of the state bureau of animal industry. Eleven dairy cows, which had become grandmothers many times, were made young and frisky by a serum extracted from glands of a serous statement said. The old cow took the serum in

capsules and not only did they fail to develop any traits of pigs, but were reported by observers to have become useful again. Complete reports of the experiments have been sent to the secretary of agriculture from the department's laboratories at Philadelphia. Some of the women who have recently forsaken their social obligations for business careers are: Mrs. Ledyard Stevens, misses' dress shop; Mrs. Charles De L Oelrichs, perfumes; Miss Clare Cassell, specialty shop, and Mrs. Norman de R. Whitehouse, leather.

**\$100 Loan Grows to 300 Trillion in Twenty-five Years**

By Associate Press. SAN JOSE, Cal., March 3.—When George Jones borrowed \$100 for three months at 10 per cent interest monthly on Jan. 18, 1897, from Henry R. Stuart, he did not figure perhaps that the loan would lead up to a judgment against him for \$304,840,332, 912,685.16 in the superior court yesterday.

"Compound interest," is the explanation. Stuart charged that Jones disappeared after the loan. He reappeared recently and Stuart brought suit, holding that the debt was not outlawed because Jones had remained outside of the state. The court found for Stuart, named the figure and announced that it was the "only judgment it could return under the circumstances."

Counsel for Jones said that his client expected to go through bankruptcy. It took the court and two accountants two hours to figure the amount of the judgment.

**HAMON HOTEL BURNS AT BRECKENRIDGE**

BRECKENRIDGE, March 3.—Fire originating in a rear apartment of the Hamon hotel, across the street from the Wichita Falls, Ranger & Fort Worth railroad depot, partially destroyed the structure Thursday with a loss estimated at \$1,200. No insurance was carried. The fire department prevented the spread of the flames to other buildings. A number of flimsy wooden structures are in the block.

**ELKS HOLD ANNUAL ELECTION TONIGHT**

The Ranger Elks will meet tonight at the club rooms on Main street for the annual election of officers and to vote on changes in the by-laws, reducing the salary and bond of the secretary and reducing the bond of the treasurer.

A general good time is promised the members and a feed will be furnished at the close of the meeting.

**CHURCH WINDOWS WORTH \$365,000,000, DEAN SAYS**

LONDON, March 3.—York Minster has stained glass in its windows worth \$365,000,000, according to a statement made by Dr. Foxley Norris, Dean of York, today. The price is based on that paid for a small

piece of thirteenth-century glass 30x31 inches in New York city. This was purchased for \$92,000. "In York Minster there is 25,000 feet of priceless glass," said Dr. Norris. "If we dismantled the windows we could easily get a record price for the panels, but we want to preserve it in its original setting. We need at least \$250,000 to do this, and we are trying to raise that sum in England before we appeal to the colonies or America." Dr. Norris is instituting a campaign among art societies and organizations to collect funds.

**CODY, WYO., TO ERECT BUFFALO BILL STATUE**

NEW YORK, March 3.—Mrs. Mary Jester Allen announces on the eve of the seventy-fifth anniversary of the birth of her uncle, Col. William F. Cody, that the state of Wyoming had

commissioned Mrs. Harry Payne Whitney, New York society woman and sculptress, to carve a statue of the late "Buffalo Bill." The statue will be erected in Cody, Wyo., which the noted plainsman founded in his pioneering days. It is planned in London to do away with all railways above ground, and the old roadbeds are to be connected into highways or speedways for motor traffic.
