WHY MAINTAIN A FIRE DEPARTMENT?

Because when they are needed, nothing else will suffice. Nobody regrets that they have paid taxes to support their fire department, even if they don't have occasion to call them even once a year.

Your ice company must also be ready to serve you at a minutes notice. We must maintain a part of our organization the year 'round; our taxes, which is no small item, and our insurance, and other overhead must go on the year 'round. And, listen to this:

THE AVERAGE ICE CON-SUMER TAKES ICE LESS THAN 150 TIMES A YEAR, while we must carry our investment and feed our teams the full 365 days. In other words, 60 per cent of the year our equipment is either idle or undergoing repairs so as to be able to serve you the remaining 40 per cent of the year.

It came just after the only break the Nitros had had in the game—an error by Wilburn that gave Pyle life at second when Gober rapped to Hall.

It dazed Moore, who had pitched sterling ball all through the game. He stood in the box as if waiting for the next batter, with his teammates streaming past him on their way to the bench. Finally, he moved on, after one of the Buzzers called, "Come on, you've pitched enough; you've pitched one ball too many!" Crowd Goes Crazy

The crowd also couldn't realize for a moment what had happened The drive was near the two-bagger mark recently put into effect when it was found the extreme right of the fence was less than 235 feet from the plate. They watched Downs trot to second, and past-and then folks over in Eastland began to wonder what was happening in Ranger. Zap Has Trouble Meanwhile, Zapalac was working hard, but in trouble all the time. Sharp fielding left five Buzzers stranded on the bags in the first four innings. In the fifth, Plumlee's wild throw of Hall's drive gave Clovis an opportunity. It put Hall on third, and Pa Wetzel promptly slammed a single past Gober, knotting the count In the sixth, the Buzzers forged two to the good, on a walk to Wilburn, followed by three clean singles.
