

EASTLAND COUNTY SCHOOLS LOSE \$32,942

SHALLOW OIL FIELDS SCORE HEAVILY IN DAILY PRODUCTION

RANGEL AND CLINE FACE ARREST AGAIN

DISTRICT ATTORNEY UNEARTH'S OLD CASES AGAINST FREED MEN

Assault to Murder Of Sheriff and City Marshal of the Town

By United Press.
SAN ANTONIO, Texas, Aug. 21.—Despite the fact that Governor Ferguson had pardoned J. M. Regal, Charles Cline and four others, who were serving life terms in the state penitentiary for the murder of Deputy Sheriff Candelario Ortiz and the kidnapping of Sheriff Eugene Buck of Dimmitte county in September, 1913, District Attorney John A. Wells will seek to have the six men arrested as soon as they leave the penitentiary, and before they can cross the border into Mexico, according to a special telegram dated at Laredo, Texas, appearing in the San Antonio Express here tonight.

District Attorney Valls, who prosecuted the cases against these men is securing from Dimitt county old warrants and data in the case and will have the warrants served on Rangel, Cline and others charging them with assault with intent to murder Sheriff Gardner of Dimmitt and City Marshal White of Corriazo Springs continued the Express article.

These two officers were members of the posse that started out with Buck and Ortiz.

One More

By the time all the bathing beauty champions get into the ocean at the Atlantic City pageant this fall the water will be crowded way up on Cape Gris Nez or some place. Here's the latest champion—Miss Dorothy Seiler, 21, who won the title in Madison, Wis.

METHODISTS PROTEST THE PRIZE FIGHT

By United Press.
WASHINGTON, Aug. 21.—A demand that the heavyweight championship fight between Jack Dempsey and Gene Tunney, scheduled for September 23 at the Sesqui-Centennial grounds in Philadelphia be prohibited, is voiced by the board of Temperance and Public Morals of the Methodist Episcopal church in a statement issued here today.

"A report that the Sesqui-Centennial exposition has been sold out to 'Tex' Rickard for one day and that the exposition is to participate in the profits of a prize fight is distressing to the Christian people," the statement says.

"The people of Philadelphia ought to demand that the threatened disgrace of their city be averted," the statement continues, denouncing prize fighting as being as "brutal as bull fighting."

Flatwood Couple Married 55 Years Celebrate Event

Mr. and Mrs. C. T. (Pete) Webb, who live four miles south of Eastland in the Flatwoods community, celebrated their fifty-fifth wedding anniversary Friday at their home by having a family gathering for the day. A generous old-fashioned dinner, around which sat twenty-eight loving faces beamed their good wishes for the happy pair who were married in Milligan, Brazos county, Texas.

Thirteen children were born to them, of whom twelve lived to be grown, and eleven are living, the death angel claiming another member of this happy circle. The day noted by the visits of the children and grandchildren, who took them gifts in congratulations of their anniversary.

Mr. Webb will be 78 years old in December and his help-mate is 72 years of age. Those present were: Misses Ella Webb and Mattie Webb, the oldest and youngest daughters of the house, Mrs. H. A. Coyllins and children, Mrs. S. S. Browner and children, Mrs. Meley Hardeen and children. There are forty-one grandchildren, including four sets of twins, and eight living great grandchildren. Mrs. Cal Yancey of Dallas, the sister of Mr. Webb, was also present Friday. Mr. and Mrs. Webb leave soon for an extended visit in the South.

NO ARRESTS MADE
No arrests had been made late Saturday in connection with the burglary of the Point filling station just east of Eastland Thursday night, officers said.

SHACKLEFORD CALLAHAN AND BROWN LEADERS

Cook Ranch Field Now Furnishes the Feature; Five New Producers

Shallow fields of Brown, Shackelford and Callahan counties scored heavily during the past week. Brown county lead with eleven new producers and three dusters, with a total flush production of 1,240 barrels. Shackelford added seven new wells, six of them being of the Cook Ranch owned by Roeser & Pendleton, while Callahan county witnessed five new producers with no dry holes.

Brown county now leads the Central West Texas counties in production, being nearly 100 barrels greater than Stephens county. Following is the production and completions by counties for the week:

County	Past Week	Previous Week
Stephens	11,510	11,550
Eastland	7,520	7,465
Shackelford	10,480	11,120
Palo Pinto	445	455
Callahan	4,720	4,625
Brown	11,600	11,435
Coleman	1,915	1,920

Completions
Shackelford County—Roser & Pendleton's No. 17-A Cook, 1,395 feet, 100 barrels; No. 7-B Cook, 1,295 feet, 800 barrels; 8-B Cook, 1,330 feet, 150 barrels; 10-B Cook, 1,360 feet, 25 barrels; 13-B Cook, 1,200 feet, 20 barrels; 16-B Cook, 1,240 feet, 100 barrels; Morton et al's No. 1 Davis, 1,445 feet, 25 barrels; Domestic Oil Company's No. 1 Colbert, 2,015 feet, dry.

Stephens County—Mid-Kansas Oil & Gas Company's No. 18 Hall, 1,380 feet, 60 barrels.

Brown County—Amerada Petroleum Company's No. 1 Fry, 1,335 feet, 50 barrels; Curry & Moore's No. 2 Kilgore Bros., 1,310 feet, 10 barrels; Curry & Moore's No. 2 Woolridge, 1,235 feet, 225 barrels; Gibson Oil Company's No. 1 White, 1,360 feet, 50 barrels; Gunn Production Company's No. 8 Gunn, 1,210 feet, 50 barrels; Humble's No. 1 Armstrong, 1,570 feet, dry; Humble's No. 7-B E. P. Kilgore, 1,185 feet, 100 barrels; No. 11-B E. P. Kilgore, 1,165 (Continued on page six.)

69 BADGES

Ira Wall, 20, assistant scoutmaster of troop 66, Boy Scouts, at Des Moines, Ia., is believed to be the highest ranking merit badge scout in the world. A seven-year veteran scout and an Eagle scout since 1922, he recently received his 69th merit badge. The national council offers only 72, and no other scout has earned as many as 69.

After 46 Years Absence Return To Visit Friends

After an absence of forty-six years, W. A. Roberts and H. N. Brown, former Eastland county citizens, came back last week to again visit the scenes of their early manhood and re-new the acquaintance of their friends of former days in this section. Roberts lives in Waco and Brown at Gatesville.

"We lived on Sandy, north of Cisco, for many years, but left there in 1880. At that time I knew most of the settlers in this section including John Sue, 'Press' Latham, C. S. Looney, Wiley Hitson, John Norton, and others, but I had not seen any of them since leaving here until I returned this time," Mr. Roberts said.

Mr. Roberts and Mr. Brown, accompanied by C. S. Looney of Cisco, were in Eastland Saturday meeting old friends. "Wiley carried us out to our old stamping grounds on Sandy, Friday, where we entertained us with a barbecue."

Democrats Open Campaign In Pennsylvania

By United Press.
ALLENTOWN, Pa., Aug. 21.—The Republican senatorial candidates chosen in the Pennsylvania and Illinois primaries bought their nominations, Representative Oldfield, chairman of the Democratic congressional campaign committee, declared today in an address prepared for the opening of his party's campaign in Pennsylvania.

"The American people will not tolerate a continuance of Newberryism," said Oldfield.

WEALTHY WOMAN LOSES HER GEMS

By United Press.
DETROIT, Mich., Aug. 21.—Gems valued at \$15,000 and owned by Mrs. Delphine Dodge Cromwell of Detroit and New York, were lost at a leading hotel here Friday, Aug. 13, according to reports to the detective bureau at police headquarters today.

The circumstances of the reported theft had not been fully disclosed to local authorities.

\$500 DONATED TO COLLEGE BY TEXAS PACIFIC

Directors To Dine The Graduating Classes Of The High School

A contribution to the Junior College fund of \$500 was made by the officials of the Texas Pacific Coal and Oil company today, following a visit to Thurber Friday by a junior college committee composed of C. E. May, M. K. Collier, W. W. Housewright, Guy Cummings, and C. C. Patterson.

The committee told the Thurber officials about the junior college, and they didn't have to talk their heads off either to sell it to them, they at once saw its possibilities as far as it would be a benefit to Thurber.

Thurber people have boys and girls, just like Ranger people have, who can stay at home and go to school until they finish their free school course and then they must go away to school. With the establishment of a junior college in Ranger, the Thurber people saw right away that their boys and girls could come here and board, coming home for week end, or with proper improvement of road conditions, could drive back and forth to school for two years before they finally entered college.

They took the matter under advisement, as to the amount, and telephoned a member of the committee this morning that they would contribute \$500 to the fund.

Postponed Meeting
The financial committee, scheduled to have met on Friday night for a report of their whirlwind campaign, postponed their meeting until Monday night, when they will meet, preceding a dinner that is being given to the graduating class of 1925-26 at the Ghoson by the junior college directors, who are John M. Ghoson, L. C. C. Buchanan and Mrs. G. H. Bohning; others, W. D. Conway, E. H. Mills, Frank Champion, Hall (Continued on Page Two)

EVANGELIST HOGG IS DUE HERE TODAY

Everything is ready for the opening of the big co-operative revival to begin Sunday evening at 8 o'clock. The new choir platform will accommodate 70 singers, the seats for the audience has been arranged in a circle making it possible for everybody to hear and enjoy the service. Church men were loud in their praise of the way the plan is working out for the success of the meeting.

Dr. Will Hogg will arrive from Memphis, Tenn., Sunday in time for the night service, Miss Bessie Rice, pianist and young people's worker will arrive from Newport, Ark., Sunday and be ready for the service Sunday night. E. H. Martin of Memphis, Texas, will be in Saturday afternoon. Rev. S. J. T. Williams is already on the job looking after the success of the work.

It is planned to seat all the Campus to accommodate the crowds that will want to attend and hear the forceful sermons of Dr. Hogg. Mr. Williams was in a delegation from that town to occupy reserved space and attend the meeting.

A shipment of Bibles have been received for free distribution in Ranger, literally hundreds of portions of Scripture will be distributed during the meeting.

A Bible reading campaign will be put on and everybody will be asked to read the precious book. In Amarillo during a three weeks meeting 185,000 chapters of the Bible read which was equivalent to reading the Bible through 58 times. This is to be a meeting for Ranger and not just for one church the four co-operating churches invite the whole community to take part in this campaign.

RAID NEAR PIONEER NETS 250 BOTTLES "CHOC"

A raid made by Eastland county officers in the vicinity of Pioneer Friday evening resulted in the taking of some 250 bottles of alleged "choc" beer, which was destroyed with the exception of a few bottles kept for evidence.

INDEPENDENT DISTRICTS WILL SHOULDER BALANCE OF \$23,585 IN LOSSES

She Rides, Too

Miss Norma Smallwood, an 18-year-old college sophomore, will be "Miss Tulsa" at the Atlantic City bathing beauty pageant this fall. Just to show that she can do other things besides swim, she poses in a riding habit. She's an Oklahoma girl, you know, and they can all ride.

HICKMAN WELL IS REAL FEATURE AT RISING STAR

The Texas Company's Hickman, five miles southwest of Rising Star, and which was drilled in for an initial production of 428 barrels, was the sensation for the week in the Rising Star oil fields. This well is separated from the main pool by two dry holes and operators are inclined to the belief that it belongs to an entirely new pool.

The Humble Oil & Refining Company has drilled in two wells this week, being their 6-B and 5-C E. P. Kilgore. The first named is making 100 barrels per day, while the second is standing 800 feet in oil with the bit fifteen feet in the sand.

Murchison & Bain, who have had a fishing job in their W. N. Nunally, just outside the southeastern limit of Rising Star, have resumed drilling and are now down below 1,200 feet and making good progress.

Barclay et al are reported to have reached a depth of approximately 1,500 feet in their W. Hill well, seven miles north of Rising Star.

C. O. Moore, on the W. E. Brunsel farm, six miles southeast of Rising Star, is again drilling and has reached a depth of around 1,000 feet, according to reports.

The Humble Oil & Refining Company are about ready to spud in on the Dr. J. R. Dill farm, one and one-half miles west of Rising Star.

L. A. DeLaney, drilling for the Humble Oil & Refining Company, has spudded in on the Irwin tract, two miles south of Nimrod.

J. C. Ross et al, on the O. A. Blakeman, two miles northeast of Rising Star, are making good progress at a depth of 1,000 feet, it is stated.

Drilling operations on the W. I. Allison well, four miles east of Carbon, have reached a depth of around 1,000 feet. According to reports a considerable gas flow was encountered in this well at around 800 feet.

The rig on the McAllister well south of Carbon, which has skidded some weeks ago on account of the loss of a bit when the well had only been drilled to a depth of 200 feet, will have to be skidded again for a like reason, it is stated.

Reports from the Neal well just east of Carbon are that it is ready to be drilled in just as soon as the necessary preparations can be completed.

Terms in Rural Schools Probably Will Be Cut 2 Months, Aid Needed

Unless the legislature should make a special appropriation, either at the coming called session in September or at the regular session in January, Eastland county schools will lose \$32,942 because of the reduction in the state appropriation which has been set at \$11.50, \$3.50 under what it was last year. Of this loss, the rural schools of the county will shoulder \$9,357 while the independent districts will shoulder the balance, a total of \$23,585. The approximate amount lost to the individual independent districts being as follows:

Cisco, \$6,020.00; Eastland, \$4,172.00; Desdemona, \$1,487.00; Gorman, \$1,715.00; Olden, \$854.00; \$910.00; Ranger, \$5,943.00; Rising Star, \$1,540; Carbon, \$931.00.

School Terms Cut
The average term of the rural schools in Eastland county last year, when the state appropriation was \$14.00 per capita, was 6 months for the elementary schools and 7 months for the rural high schools. This year, because of the reduction, the average term will not be more than 4 months for the elementary schools and 5 months for the high schools.

It is not generally known by the average citizen that the expenses of that office, including office help, is taken out of the appropriation for that county. This is a fact, however, and in Eastland county amounted to \$9 cents per capita last year, but will doubtless not exceed 75 cents per capita this year. Only three schools in Eastland county, Cisco, Eastland and Ranger, do not have to pay this assessment for the expense of the county superintendent's department.

The school boards for the various independent schools of the county are figuring now on some method of providing the funds necessary to run their schools the full term of nine months, should no relief be given by the legislature, and they doubtless will succeed.

Forecasting a reduction in the state appropriation, the county school superintendent, Miss Beulah Speary, and other educational leaders in Eastland county, began some time back plans for handling the situation. The plans now being worked on are to take the matter up with the representatives in the legislature and have them to seek to get a special appropriation for that purpose through the legislature at the coming called session, if the governor can be prevailed upon to submit it, and if not, at the regular session in January. Two or three educational rallies have been held in the county for this purpose and committees have been appointed to confer with Representative J. Frank Sparks of Eastland and M. H. Hagaman of Ranger, and Senator Jesse R. Smith of Breckenridge, on the matter.

The question will also be brought before the Eastland county Teachers' institute, which convenes in Eastland on the week beginning Monday, September 6, in an endeavor to have that body pass resolutions favoring an appropriation by the legislature, the resolutions to be wired to the various members of the House and Senate of the State.

KILLS WIFE'S FATHER AND HURLS DEFI

ELDORADO, Ark., Aug. 21.—Walter Ballard, armed with a high powered rifle and hurling the defi that "I will never be taken alive," was being hunted by officers here this afternoon after he is alleged to have shot and killed his father-in-law, Joe H. Williams, and seriously wounded Mrs. Williams.

Ballard went to the Williams home last night where he shot Williams while he slept and turned the gun on his mother-in-law. He also threatened his wife, who was staying with her parents, but was prevented by two men from harming her.

H. N. Stiles, L. D. Walker and a girl named Braun, who are alleged to have accompanied Ballard to the Williams home, are being held by the officers for questioning.

FROM THE BIBLE

Masters, give unto your servants that which is just and equal; knowing that ye also have a Master in heaven. Colossians 4-1.

PRAYER—Teach me, O Lord to do justly, love mercy and walk humbly before Thee.

CALLES STANDS PAT.

President Calles refuses to suspend the religious clauses of the constitution and stands firm on his ground as opposed to church and state rule. That is good and well enough, we are opposed to union of church and state. The Mexican religious fight is a century old. Mexico, no doubt, has drastic laws on the subject. It may be necessary because of the general ignorance of the proletariat to have drastic laws on that subject. It is not for us to criticize because we do not know what conditions are in Mexico. However, we are opposed to shutting up churches and preventing people from serving God according to the dictates of their own conscience. Catholics have as much right to worship God as any other sect. It's their belief. It's their philosophy of life. But the moment the Catholic church or any church or faith try to dictate to policy of the government, then that calls for more talk and some action.

Church is one thing, and religious liberty is another.

The church must keep its hands out of governmental affairs. Churches must not try to run free public free public schools should be forbidden. The public schools of the state are supported by tax payers of all faiths, and no one or sect or denomination or belief should try to foist their faith down the throats of all. Religious instruction should be given the child in the home and in the church to which that father or mother belongs. But church and state must be kept separate—in that we agree with Calles.

EVANGELISTIC SERVICES

Sunday night will mark the opening of a joint evangelistic meeting to last for sometime under the auspices of a number of the Protestant churches of Ranger. The Hogg evangelistic party, with Rev. Will Hogg in charge, will conduct the campaign to show people the right way of living.

These meetings usually do a vast amount of good in a community when the religion of love is taught. We believe in aiding everything that uplifts humanity. The churches are great institutions and without them chaos would reign and men would fly at each other's throat.

We are strong for toleration in religious belief. We are willing to give every man the right to worship God according to the dictates of his own conscience. We hope that the Hogg evangelists will preach tolerance in religion. We hope they will preach love. We hope they will preach tolerant love that was taught by the meek and lowly Nazarene. We favor a broad religion. There is too much good in all faiths for us to find fault with others than our own.

We hope the Hogg evangelistic party does as much good in Ranger as did "Billy" Sunday when he invaded Fort Worth.

Leasing Active Around Bowers Well in Brown

BROWNWOOD, Aug. 21.—The advent of the Andy Bowers well on the Cason ranch seven and a half miles northwest of here put new life in the oil business in all of its ramifications. The leasing game is unusually active, with almost as much business going on as in the boom times. While practically all the land surrounding the wildcat has been under lease for sometime, yet, quite a few transfers are being made at high prices. Acreage at some distance is bringing good prices.

In the meantime, locations for new tests are being made and an active drilling campaign is underway. It is said that at least a dozen rigs will be erected and drilling begun in the new locations within the next week. Supply houses are here getting in on the ground floor.

The Bowers well found the pay at 1,525 feet, a new level for this district. It was gauging 428 barrels a day, according to the last report, although the drill had penetrated the sand not more than eight feet. Some expressed an opinion that the well, if deepened may increase its flow to 1,000 barrels.

6 Ranger Lads Will Attend The DeMolay Camp

Ranger will be represented at the DeMolay camp, Bear Creek, Colo., by Floyd Killingsworth, Cecil Cole, Truett Weir, Clyde Alworth and John Stacks. The camp will be opened on Sept. 15.

The trip will be made by the boys in a Ford that cost the magnificent sum of \$50 which was donated to them by several public spirited citizens.

There are three DeMolay camps in the United States conducted for the purpose of training members in DeMolay work and its objects. Each boy is required to pay a camp fee of \$25. The attendance at these camps is limited to 150 members. It is the plan of the lads to hike to Pike's Peak, 75 miles north of Denver.

Troops Dismantle Old Army Camp At Columbus, N. M.

By United Press.

COLUMBUS, N. M., Aug. 21.—Three hundred American soldiers arrived here today from Ft. Bliss to salvage an old army camp, according to information from army officers, who emphatically denied the troop movement had anything to do with the Mexican internal troubles.

At the same time, J. H. Breen, U. S. custom collector, denied a report that Mexican rebels had crossed into Mexico from Columbus, adding that there had been no signs of revolutionary activity here for several days.

Little Theatre To Stage "Good Evening Clarice"

"Good Evening Clarice," will be the name of a three-act play to be staged by Ranger's Little Theatre, early this fall. Rehearsals on the play will start on Sept. 1, and the cast of ten, with Mrs. Marion F. Peters, as director are ready to go. The second performance will be in November.

This year Ranger Little Theatre is going in for the high honors at Dallas. Last year they thought they were most too young in historic art to attempt it, but they are going down there and do their stuff this year, feeling that they have as good a chance as any other little theatre to win.

The New Era Club backed them last year, letting them give their annual club play, and they are going to repeat the same thing this year.

Last year's was quite successful in spite of all the "growing pains" the Little Theatre suffered in getting started. It was handicapped in many ways, yet it put on several plays, giving one in about four different places and scoring a big success each time.

This fall they are starting out with renewed faith in themselves, and in Ranger, for Ranger has to be with them if they succeed, and feel that this year will make a history for the Little Theatre.

\$500 Donated To College By Texas Pacific

(Continued from page 1)

Walker, Steve Lillard Jr., Morris Eardix, Mrs. C. E. Maddocks, Marvin Collier and Mrs. R. H. Hodges.

This board of directors, ably abetted by R. F. Holloway will attempt to sell the junior college to the graduates of Ranger high school, and a live program has been provided to that end.

In addition to the two graduating classes that will be present at this banquet, will be the board of directors and the presidents of the various ladies clubs of Ranger.

Sell to Students.

The purpose of the meeting in addition to the selling of the college to the young men and women, will be to discuss fully the program of the junior college both from a standpoint of the management and the faculty and also to give a bird's eye glimpse into the activities of the students, to those who are contemplating attending.

Matters of affiliation and accrediting will be explained by Superintendent Holloway, so that there may be no doubt in the minds of those who intend to attend as to the possibility of recognition by the state department.

Expressions from the graduates of the past two years show that a lively interest in the beginning of the junior college is being shown.

Excavation Work Is Under Way For Central Ward School

Excavation work has begun of the new Central Ward school building, in the Page Addition, Ranger, and shacks are being moved away. Ten or twelve men are busy in this work and it won't be long until the walls of the new building will begin to rise. Work will be rushed as fast as is practicable with god workmanship.

BABY BANDIT MOTHER TO FIGHT CASE

By United Press.

PUEBLO, Colo., Aug. 20.—Mrs. Sarah Gonce, mother of the "baby bandits" today filed a petition with district judge James A. Park, asking that the twenty to thirty years prison sentence imposed on Forest Gonce, be set aside.

In the petition Mrs. Gonce set out that her son had been coerced into pleading guilty, by Sheriff Sam Thomas, and his deputies.

She also says that her son was refused the right of an attorney and that she was denied the right to see him.

Simultaneously with the filing of the petition A. T. Stewart, attorney for Mrs. Gonce, announced that Monday, he will file a civil damage suit against Deputy Sheriff C. L. Ficus for shooting Leslie. He is still conscious but physicians maintain he will not live.

Doctors say that the position of the four bullets, none of which have been removed, indicate the youth was shot once from behind.

Valentino Takes Turn for Worse, Fear Pneumonia

By United Press.

NEW YORK, Aug. 21.—A consultation of four physicians was held late this afternoon when the condition of Rudolph Valentino took a turn for the worse.

After the physicians had been in conference an hour and a half, it was learned that an attack of pneumonia was feared and reports spread that Valentino's condition was such as to cause grave alarm.

The screen sheik was operated on last Sunday for appendicitis and gastric ulcers. His recovery pursued a normal course until today when attending physicians admitted there had been a slight spread of infection.

Shortly before 10 o'clock tonight, George Ullman, Valentino's manager announced that the movie star's nurse had just administered a quarter of a grain of morphine in order to make the patient sleep.

It was learned that the physicians discussed the possibility of a blood transfusion to bolster Valentino's but had arrived at no conclusion.

Eastland Shows Growth of 135 New Citizens

Twenty-seven new families, or, counting an average of five persons to the family, 135 new citizens moved to Eastland during the past thirty days, according to the records in the water department at the City Hall.

City Secretary W. E. Dakan stated Saturday that the increase of water customers for the past thirty days, was greater than for any like period since he has been an employee of the city. "It keeps us on the jump to install meters and make water connections as fast as they are called for," Mr. Dakan said.

MEXICAN SITUATION UNCHANGED

By United Press.

MEXICO CITY, Aug. 21.—The Mexican government and episcopate of the Catholic Church in Mexico have virtually reached an armistice, with the state still in the commanding position. Despite the cordial tone of recent declarations both by the episcopate and President Calles, there is slight prospect that either side will recede from its position.

The episcopate committee of the church voted to accept the suggestions of President Calles and seek relief from the new religious laws both in congress and in the courts, seeking injunctions against the operations of the law.

President Calles conferred today with Bishop Pasquale Diaz and the bishop of Michoacan regarding the means of ending the controversy now in progress between the church and state. Eduardo Nestre, who is acting as intermediary between the church and state officials was present. The conference lasted for an hour and a half.

The situation remains unchanged, but there seemed to be a probability that some agreement might be reached whereby the clergy could return to their churches pending the church's plea for a reform of the constitution.

Valentino Takes Turn for Worse, Fear Pneumonia

By United Press.

NEW YORK, Aug. 21.—A consultation of four physicians was held late this afternoon when the condition of Rudolph Valentino took a turn for the worse.

After the physicians had been in conference an hour and a half, it was learned that an attack of pneumonia was feared and reports spread that Valentino's condition was such as to cause grave alarm.

The screen sheik was operated on last Sunday for appendicitis and gastric ulcers. His recovery pursued a normal course until today when attending physicians admitted there had been a slight spread of infection.

Shortly before 10 o'clock tonight, George Ullman, Valentino's manager announced that the movie star's nurse had just administered a quarter of a grain of morphine in order to make the patient sleep.

It was learned that the physicians discussed the possibility of a blood transfusion to bolster Valentino's but had arrived at no conclusion.

Excavation Work Is Under Way For Central Ward School

Excavation work has begun of the new Central Ward school building, in the Page Addition, Ranger, and shacks are being moved away. Ten or twelve men are busy in this work and it won't be long until the walls of the new building will begin to rise. Work will be rushed as fast as is practicable with god workmanship.

BABY BANDIT MOTHER TO FIGHT CASE

By United Press.

PUEBLO, Colo., Aug. 20.—Mrs. Sarah Gonce, mother of the "baby bandits" today filed a petition with district judge James A. Park, asking that the twenty to thirty years prison sentence imposed on Forest Gonce, be set aside.

In the petition Mrs. Gonce set out that her son had been coerced into pleading guilty, by Sheriff Sam Thomas, and his deputies.

She also says that her son was refused the right of an attorney and that she was denied the right to see him.

Simultaneously with the filing of the petition A. T. Stewart, attorney for Mrs. Gonce, announced that Monday, he will file a civil damage suit against Deputy Sheriff C. L. Ficus for shooting Leslie. He is still conscious but physicians maintain he will not live.

Doctors say that the position of the four bullets, none of which have been removed, indicate the youth was shot once from behind.

Leasing Active Around Bowers Well in Brown

BROWNWOOD, Aug. 21.—The advent of the Andy Bowers well on the Cason ranch seven and a half miles northwest of here put new life in the oil business in all of its ramifications. The leasing game is unusually active, with almost as much business going on as in the boom times. While practically all the land surrounding the wildcat has been under lease for sometime, yet, quite a few transfers are being made at high prices. Acreage at some distance is bringing good prices.

In the meantime, locations for new tests are being made and an active drilling campaign is underway. It is said that at least a dozen rigs will be erected and drilling begun in the new locations within the next week. Supply houses are here getting in on the ground floor.

The Bowers well found the pay at 1,525 feet, a new level for this district. It was gauging 428 barrels a day, according to the last report, although the drill had penetrated the sand not more than eight feet. Some expressed an opinion that the well, if deepened may increase its flow to 1,000 barrels.

Troops Dismantle Old Army Camp At Columbus, N. M.

By United Press.

COLUMBUS, N. M., Aug. 21.—Three hundred American soldiers arrived here today from Ft. Bliss to salvage an old army camp, according to information from army officers, who emphatically denied the troop movement had anything to do with the Mexican internal troubles.

At the same time, J. H. Breen, U. S. custom collector, denied a report that Mexican rebels had crossed into Mexico from Columbus, adding that there had been no signs of revolutionary activity here for several days.

POLICE HEAD SLAYER HAS VAMOOSSED

By United Press.

BELTON, Texas, Aug. 21.—No new developments have occurred up to a late hour Saturday afternoon in connection with the search of the hill country in Williamson county for Albert Bonds, former Bell county sheriff, according to the sheriff's office here. Bonds auto was found near Jarrell in Williamson county late Friday night, was brought to Belton by the former sheriff's sons. Armed bodies of men now are searching Williamson county country near Jarrell. Bonds is charged with the killing of Wiley Fisher, police chief at Temple, who was shot to death on the streets of Belton Friday morning.

Fisher was preparing to enter a funeral parlor to attend the funeral services of Mrs. George Burtchell when Bonds drove up. Three charges from a shot gun entered the Temple officer's body. He died instantly.

Fisher's wife and three small children Mrs. Burtchell witnessed the shooting. Bonds continued up the street to a filling station where he had his gasoline tank filled and then disappeared.

Bonds was defeated in the sheriff's race in 1924 and again in 1925. Fisher opposed his election both times.

BERLINS SLIP OUT OF CANADA ON QUIET

MONTREAL, Canada, Aug. 20.—Irving Berlin and his wife, who slipped out of Canada from Europe and almost avoided all publicity, checked out of the Ritz hotel here today for an unknown destination.

They had come to Montreal from Quebec, and were here while reports had them at points scattered over Canada.

Hoover Favors Utilization Of Water Resources

By United Press.

SEATTLE, Wash., Aug. 21.—A national policy for the development of the nation's water resources, was advocated tonight by Secretary of Commerce Herbert Hoover, in an address before the Columbus River Basin League.

A program for full utilization of every river stream and like in the country, for navigation, flood control, reclamation, irrigations or electric power, is vitally necessary to insure continued prosperity, the United States Caesar declared.

"Reclamation is necessary," Hoover affirmed, "because within a comparatively short time we shall need more food supplies than our present lands afford."

"In the next quarter of a century, the population will increase by forty million," he predicted.

"Development of inland water systems is needed," the secretary asserted, "because in twenty-five years transportation demands will double and the railroads will be unable to handle the burden."

"Water is our greatest undeveloped resource," Hoover said. "The amount flowing into the sea without yielding its full commercial returns can be commuted as a loss totaling billions of dollars. We still have 30 million acres of possibly reclaimable land," the secretary said.

He urged that appropriations for the development of water sources now averaging about 65 million dollars annually be increased 25 million dollars to 100 million dollars to carry out the program.

Perhaps the man who is best at organizing voters serves the people best, and perhaps he doesn't.

Always look to see if medicine is marked "poison" and read the radio programs for "sopranos."

LEAVE IT TO US

Few people can tell at a glance whether a Used Car is as good as it appears to be. Which makes it doubly important to patronize a dealer who has a reputation for giving honest facts and honest values.

126-127 S. Austin Phone 352
Rutherford Motor Co.

A USED CAR IS ONLY AS DEPENDABLE AS THE DEALER WHO SELLS IT

"Smiling Service"

—After your car ran about a year, you noticed that one day, there appeared to be a little canary singing sweetly under a fender, and

—It sounded like somebody had planted a concrete mixer under the hood, and the old bus got so it wouldn't pass a filling station without turning in.

—Your neighbors all knew what time you came in of a night—and you "TRADED IT IN."

—On a sultry summer night, you had used up the little dab of ice it made and gone to bed wanting a drink of ice water.

WHAT WOULD YOU DO WITH AN ELECTRIC ICE BOX, UNDER SIMILAR CIRCUMSTANCES?

—Then, just as you dozed off to sleep, you would be awakened with a sudden whir-r-r and a grind and then be entertained with a rhythmic pounding for a couple of hours.

COMPARE THAT WITH

—Our SMILING ICE SALESMAN, paying his morning visits, courteous and polite, chattering merrily as he puts the ice in the box, and you are through with your refrigerator troubles for the day.

—Unless you want him to kill a chicken for you or open a fruit jar, or some of the many little things they do for their trade every day.

AND YOU DON'T HAVE TO PAY US TEN YEARS IN ADVANCE.

Judge Will Purge Docket of County Court; Old Cases

Judge Tom J. Cunningham of the Eastland county court-at-law believes that when a case has been on the court's docket for more than a year without trial that it has been long enough, and indicates, in his announcement of settings for September, that such cases will be dismissed unless the parties see fit to go to trial in them.

The following cases have been set by Judge Cunningham for the remainder of the present term of his court: Wednesday, September 1: Nunn Electric Co. vs. Ed Hall, Commercial Insurance and Banking; Cade & Lilly vs. Phoenix-Jackson, et al; Cade & Lilly vs. Prairie Oil and Gas Co., et al. Saturday, Sept. 4: W. J. Key vs. garnishee; Mary R. Michaels, Ind.

Ex. vs. L. N. Choat; Wagner Supply Co. vs. S. W. Oil & Dev. Co. Thursday, Sept. 2: C. S. Ruber Company vs. A. Joseph; O. D. Dillingham vs. Peoples State Bank; Maye & Kiser vs. J. C. Warren; J. E. McCord vs. E. B. Noell; Texas Tool & Supply Company vs. Advance Oil Co., et al; O. M. Hurst, et al vs. S. M. Williams, Jr., et al; The Vinmedge Co. vs. Rodgers Cafe, et al; A. M. Knox vs. E. T. Murray, garnishee; Southern Loan Co. vs. C. A. Leonard; Frank Vance vs. T. G. Jackson.

Friday, Sept. 3: J. N. McFatter vs. Thos. J. Woods, et al; Minter Womack vs. C. R. Hightower; Mrs. S. A. Collier vs. J. L. Lancaster, et al; Wm. McDonald vs. Mrs. Lena Halley; Harris & Clay Lumber Co. vs. A. H. Johnston; W. D. Conway vs. Continental State Bank (Supply Co.); C. E. Day vs. Groce Ernest (Nee Groce Thompson); H. G. Murphy, et al vs. First National Bank, garnishee; Mrs. S. A. Collier vs. J. L. Lancaster, et al; A. P. Jordan vs. H. O. Westerfield, et al. Saturday, Sept. 4: W. J. Key vs. C. Douglas, garnishee; Reliance

Life Co. vs. Frank W. Williams; J. L. Chapman, Com. vs. H. A. Axtell; Phoenix Assurance Co. vs. W. J. Nabors, et al; J. C. Wilkins vs. D. B. Van Nest, et al; J. L. Chapman, Com. vs. F. C. Britton; J. L. Chapman, Com. vs. R. L. Davenport, et al; Cisco Banking Co. vs. J. H. Nusbaum; Parkersburg Rig & Reel Co. vs. Barner Carter; Atchafalaya Fish Co. et al vs. City Fish Market, et al; Plateau Oil Co. vs. Joe Gabler; R. A. Parker vs. Jagers Wallace Oil Corp.; Crossett & Dunlap vs. Maurice Rubin; First National Bank (Gorman) vs. R. K. Wallace, et al.

Monday, Sept. 6: D. W. Burleson vs. E. F. Stratton, garnishee; J. L. Chapman vs. A. W. McDowell, garnishee; J. L. Chapman vs. James S. Irving, garnishee; J. L. Chapman vs. K. R. Hyman, garnishee; Minter Womack vs. R. L. Huffmeyer, garnishee; W. W. Edington vs. W. M. McGee, garnishee; J. A. Simmons vs. G. C. Cobb, garnishee; Chas. C. Austin vs. W. V. Dunman, garnishee; E. L. Fullerton vs. P. Chirminise, garnishee. Tuesday, Sept. 7: Chas. O. Austin vs. Mrs. Rose Shelton, et al; Chas.

O. Austin vs. Sidney Sackett; Chas. O. Austin vs. J. F. Duncan; J. B. Coit Co. vs. N. M. Baird; Chas. O. Austin vs. C. E. Sprull; Sam Letnlin vs. H. I. Stock; Commercial State Bank vs. Joe B. Truly, et al; J. H. Martin vs. W. G. Maness; Mrs. Georgia Ridley vs. W. M. Collins; Chas. O. Austin vs. Robt. D. Gordon.

Wednesday, Sept. 8: S. F. Bower & Co. vs. T. K. Taylor; Woodward Motor Co. vs. Cont. State Bank, Gorman; W. D. Clay vs. C. B. Hutchins, et al; L. A. Hightower vs. Robt. D. Gordon; Lovinia Kidd vs. Grand Lodge K. of P. of Texas; Gilvie Hubbard, Receiver vs. L. T. Wood; Chas. O. Austin vs. J. E. T. Peters; Chas. O. Austin vs. A. N. Stubblebine. Thursday, Sept. 9: J. T. Ernest et al vs. American Bank & Trust Co., garnishee; A. L. Nelson, et al, defendants; L. B. Jones vs. Oil Belt Motor Company; Annie F. Smith vs. M. & M. Auto Paint Works; City of Eastland vs. P. H. Giens, et al; Cisco Banking Co. vs. C. M. Erwin, et al; First National Bank (Rising Star) vs. E. M. Nance; Wright Herring Co., Inc.

Rising Star Boy Scouts Winners Of High Honors

Lone Scouts James Tomlinson, Harry Wigginton, Clark Coursey and Walter Tomlinson of Rising Star, took several honors at the Lone Scout rally at Clifton, August 14 and 15.

James Tomlinson won third place in amateur writing. Harry Wigginton won third in debating. Clark Coursey won second in swimming, third in fire building, second in knot tying, third in declamation, second 100 yard dash, third in poetry and third in a number of points. Walter Tomlinson won second in poetry and third in observation. The rally was held in the fair park on the banks of the Bosque river. Besides the regular conference work there were contests in swimming, diving, under water swim, swim sprints, fire building, knot tying, wrestling, trailing, signaling, bandaging and track events.

Tourist Park Registrations 210 Cars, 30 Days

Registrations at Lancaster Park, Eastland's new tourist park, show that 210 cars, representing more than one-third of the states in the union, entered the park during the past thirty days. The register also shows that a majority of the tourists are headed for Arizona and California.

U. S. Plans Making Flight Around South America

WASHINGTON, Aug. 21.—Five United States army airplanes will attempt a flight around South America within a few months, the war department announced today.

The State department has asked the countries which will be touched for permission for the American planes to fly over their territory, the war department said. Some of the governments have agreed but until all are heard from no details of the route or other plans will be made public it was announced.

Notice
Beginning September 1 will take a few private pupils for voice. Phone 299 or see Mrs. R. W. LaPrelle at 454 Pine St., Ranger.

What Fabric Decrees for Fall

Those first hints of what the smart world would do in fall, have now developed into the authentic mode, represented by these distinctive Frocks and Wraps. There is a marked simplicity of line and absence of adornment, for fabrics are beautiful in color and often patterned. Moire is the latest innovations, and has acquired a well-deserved popularity.

The skirt receives marked attention on new Frocks—often it is tiered, or cleverly pleated. Necklines are ingenious, and varied enough for every visitor here.

\$12.75 TO \$59.50

Coats are sometimes straight and sometimes bloused, but always abundantly trimmed with fur.

\$29.50 TO \$59.50

CROWNS Dare New Heights

New hats accentuate the importance of the crown which reaches its height by a surprising number of clever paths. Crushed or folded, pointed or square, it is utterly individual and becoming.

Felt and Velvet Lead the Mode

For they are stunning in the rich violet and lilac shades so popular now. Trimmings are very simple. The prices range,

\$5.00 to \$17.50

One style is of rich black velvet with a silk lace over the crown and gathered as it comes down to just beyond the edge of the brim. A small silver ornament adorns either side of the crown. This style..... **\$16.50**

Salesmen Stop Chivvers March Toward the Cup

The Salesmen stopped the upward march of the cup aspiring Oilbelt boys Friday afternoon, 6 to 3. Cook, who heretofore has been more or less a mystery to opposing batters yielded up four hits and a base on balls in the first inning for four runs and with a little wildness in the second he gave the Peddlers another run. Two hits, an error and a wild throw was good for another run in the third.

The "Chivvers" lucked in three runs in the fourth on an error, passed ball and a single by Bryant, the only hit the Oilbelt got off Lingle. Only nine men faced Lingle in the first three innings. It looked for a while if he was going to duplicate Gallaway's feat of the day before and score a shut out but poor support in the pinch let in the three runs. The Oilbelt boys were rapping the ball hard but there was always a fleet footed fly chaser under them when they fell. There were five put outs registered in the outfield which is something out of the ordinary for the Business Men's League. Usually there are never more than three at the most. The fourth inning was the only one in which more than three men batted for the Oilbelt. The Salesmen played errorless ball except for that fourth inning.

Juror in Osage Indian Murder Case Taken Ill

GUTHRIE, Ok., Aug. 21.—Threatening temporary suspension of deliberation, Elmer Mills, one of the jurors in the Hale-Ramsay case was taken suddenly ill this evening, it was learned, as the jurors were taken out to dinner.

Dr. Melvin, a government physician, diagnosed his malady as "nervous exhaustion," but did not indicate whether or not it was serious. A white parlor was noticeable on the tanned face of Mills, who is a farmer living near Mulhall, Okla., as he passed through the hotel lobby to dinner.

Leveille-Maher Will Play 2 Games This Afternoon

Leveille-Maher will play the Salesmen and the Modern Woodmen's teams this afternoon at Nitro Park. The first game will begin at 2:30, and will be with the Salesmen, to be followed by the second game with the Woodmen.

Two games that Leveille-Maher were scheduled to play were rained out, hence the necessity of the double header.

Judging by the increasing crowds at week day games, an unusually large crowd is expected to attend this afternoon's double header.

INCH ROUND SNAKE SWALLOWS SQUIRREL

OROVILLE, Cal., Aug. 21.—Pictorial evidence that a three-foot, inch-round rat snake is capable of masticating a full-grown ground squirrel has been obtained by County Agent Drobish, who photographed the reptile in the act.

Plan Benefit Ball Game Labor Day, Help "Pep" Squad

Steps are being taken to play a benefit ball game in Ranger on Labor Day, it was learned today. The two contending teams will be two picked teams from the Business Men's League, probably the two highest point teams, and the proceeds from the game will be donated to the Pep Squad for uniforms.

The plans are just in the making and no definite steps have really been taken, but since Labor Day is just around the corner, it's not too early to sit up and take notice that Ranger will not let the day slip by without some sort of a celebration.

"Billy" Mitchell May Be Head Of National Airmen

By CHARLES P. STEWART (NEA Service Writer)

WASHINGTON.—Not much has been heard lately from Col. "Billy" Mitchell, aviator, but there's liable to be shortly.

When the National Aeronautic Association meets in Philadelphia Sept. 4-11, a drive is to be launched to make Col. "Billy" the organization's president.

The colonel's supporters say a majority in his favor is assured already, and the colonel himself, now on a vacation in Maine, is quoted as having promised to accept, if elected.

Now, as we all know, Colonel Mitchell holds that navies are obsolete and armies nearly so—that military aviation is everything these times.

We also know that orthodox army and navy men dissent from this judgment and that the colonel was driven out of the service, not, perhaps, for his opinions, but for the way in which he expressed them.

After his enforced retirement, Mitchell tried to keep up his fight but wasn't very successful. He was a good leader but he lacked an organized following. Maybe here's where he gets it.

The National Aeronautic Association's motto is "America First in the Air," which speaks for itself.

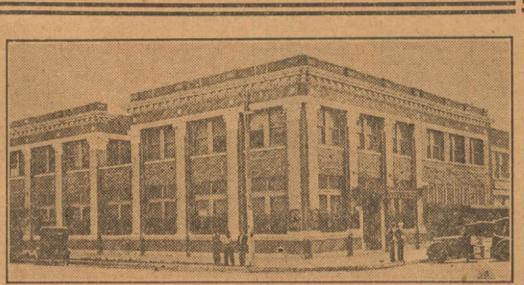

It was formed in Detroit in 1922. Its first president was Howard E. Coffin, who served on President Coolidge's aircraft board. Its second was Fred B. Patterson of the National Cash Register Company. Godfrey L. Cabot, Boston manufacturer and aviation expert, the third, is just finishing his second term.

The association opened up with a flourish of trumpets, but its enthusiasm waned presently. Of late it's hardly been heard from.

Saving for a rainy day is fine. But by your coal now so you can give winter a warm welcome.

Hit yourself in the nose and see if you can't think Dempsey is going to earn his money.

Let 'em pr fessor says crabs make love. We'd like to see a couple of them holding hands.

Satisfied Customers

The best advertising this Bank gets is through their satisfied customers. They are the cause of 80% of the new business coming here.

But it isn't unusual for an old customer to come in and want to reopen an account and they come because they know from experience that they can get better service here.

Just come in any time and let's talk over the advantages of opening an account here.

Mineral Wells Golfers Call Off Match Today

On account of a mix-up in dates the Mineral Wells golfers have called off their game for today with Ranger golfers, but will be here two weeks from today for a combat with local players.

Dr. Harry Logsdon, who had been very much interested in this tournament has suggested that all the Ranger players, who wish to get in some good games before the visitors come for their game, gather at the Country Club this afternoon and enjoy a few games. He stated that the grounds and the clubhouse were in splendid condition and that no cooler place could be found to enjoy a Sunday afternoon than the club offers.

English Nobility Work for Living Like Other Folks

By C. P. WILLIAMSON (United Press Staff Correspondent)

LONDON.—Titled England—pictured by Hollywood as a people who live in high silk hats and frock coats—contains some of the most democratic and hardworking persons in the British Isles.

Prominent among these is Hon. John Roby Benson, son and heir of Lord Charnwood. Benson is 25 years old, and although he will some day inherit the barony of Charnwood, he is never more content than when dressed in overalls in a large automobile business he operates in fashionable Kensington.

The Earl of Macclesfield is another member of the English nobility who has taken to automobiles as a business. The Earl is managing director of a new motor manufacturing company and is at his desk early every morning.

William de Meuron Wentworth, 7th Earl of Fitzwilliam, was one of the pioneers in the English motor industry, and for many years was actively associated with several motor companies. He still retains extensive holdings in various companies, for a Sunday paper.

Viscount Castleross, eldest son and heir to the Earl of Kenmare, is another peer who has entered journalism as a profession. Castleross writes a regular "Man About Town" column for a London Sunday newspaper.

Mallory to Meet Elizabeth Ryan In Title Match

By United Press.

FORREST HILLS, N. Y., Aug. 21.—Mrs. Molly Mallory, six times American national tennis champion and Miss Elizabeth Ryan, who never has won a major tennis title, will meet Monday at the West Side tennis club to decide which will succeed the throne, vacated by Miss Helen Wills.

Mrs. Mallory survived the semi-final rounds here today, when she defeated Miss Martha Bayard, Short Hills, N. J., 6 to 3, and 6 to 3, and Miss Ryan became a finalist when she defeated Miss Mary K. Brown, captain of the Wightman cup team 6 to 1 and 6 to 3.

Frankie Frisch Of the New York Giants Has Gone

By United Press.

St. Louis, Mo., Aug. 21.—The mysterious disappearance of Frankie Frisch, captain of the New York Giants, coupled with reports that he had been criticised by Manager McGraw for his playing yesterday, gave rise to the rumor that he had "jumped" the club.

McGraw announced a number of changes in the team line-up and this morning Frisch was seen leaving his hotel with his baggage.

He did not appear at the ball park for today's game and McGraw would only say that he had heard nothing.

To buy a closed car may be a poor way to get ready for a rainy day.

It is the "age" that sometimes puts the "mar" into marriage.

SIX BALLOONS READY FOR FORD'S RACE

By United Press.

DETROIT, Aug. 21.—Six balloons were scheduled to be cut adrift from the Ford airport here this afternoon in quest of the Detroit News trophy as a preliminary completion of the second commercial airplane reliability tour.

Ideal sailing weather was in prospect as work of inflating the big bags proceeded.

Only one aid to a pilot of a ship is to be carried, something new in American balloon racing.

Europeans Fall For American Methods and Ideas

(By C. P. WILLIAMSON)
 LONDON.—England is slowly, almost imperceptibly, adopting American methods and ideas. American jazz was the first "Americanization" which came, saw and conquered England without resistance. It was quickly followed by the American dancing styles and as a result England has been swept off its feet by the Charleston—in so many cases in an exaggerated form. The English stenographer has followed the lead of her American cousin and England is now annually chewing \$1,000,000 worth of gum stamped "made in America."

Men's Apparel.
 With Bond Street still the dictator of men's fashions, however, imports of men's wear and shoes into England is practically a zero quantity with little hope of an American invasion in these lines in the future. This is partly attributable, it is said, to the contempt with which Englishmen view American styles. The full trousers, loud hat bands and flashy overcoats of the American tourists visiting England are nothing short of an absurdity in "proper dress" to an Englishman.

"Iceless England" however, is only a distant hope to the American refrigerator manufacturers. For the average Englishman is still content to take his beer warm—because it has been that way for centuries.

London has completely fallen a

LOANS AGGREGATING \$43,000 TO BUILD AND IMPROVE HOMES HAVE BEEN MADE SINCE JAN. 1

The first loan made by the Ranger Building & Loan Association of Ranger, was made on Jan. 4, 1926. Since then twenty-nine complete loans, aggregating \$37,750 have been made, and four applications, amounting to \$6,500 have been approved, making a total of \$43,000 that has gone and will go to the purchasing and improvement of Ranger real estate.

The total amount of installment stock sold is \$208,500, and the amount of prepaid stock outstanding is \$18,000.

Figures do not lie and a glance at the above figures is an eloquent testimony as to how the Ranger Building & Loan Association is prospering in Ranger, and Secretary Jones says that the demand for loans is strong and at this time a number of people are seeking information and planning to build through the assistance of the building and loan association.

\$100,000 Goal
 The management does not seem to think that they are too optimistic when they state that their plans are to run to over \$100,000 by the end of the year.

The loans have been made to people in all walks of life, the business man taking advantage of the building and loan plan for financing this building program, as readily as the laborer. The low cost per thousand, for carrying a loan, is less than one could get rent for. Of course, their is initial payment to be made, but after that any one can meet the monthly payments without sacrifice or handicap.

Improvements
 Mr. Jones stated that money was often loaned for the improving of property, already bought and paid for and one has but to ride through Ranger to see houses being repainted, or re-roofed, or additions of rooms or porches being made and back of most of them is the Building and Loan Association.

Since the first loan of the Ranger Building & Loan Association there have been more building permits issued already this year than in any entire year since the latter part of 1920, when the slump caused a cessation in building activities.

The Ranger Building & Loan As-

Government Needs Chemists Salary Is Good

(By United Press.)
 WASHINGTON.—Youths entering college this fall who are undecided as to what course of study to pursue should consider the opportunities of chemistry, officials of the U. S. Civil Service Commission advise.

Chemists with college degrees are in demand and the salaries range up to \$10,000 and higher. The United States Government employs more chemists than any other organization in the world and often furnishes the stepping stone to positions in private industry at greatly increased salaries, it was stated.

After eight years' work, a government chemist, 32 years old, obtained a position with a salary of \$3,400 with a leading manufacturer of a

Wealthy Osage Indian Enroute To Oklahoma

(By United Press.)
 LOS ANGELES, Aug. 21.—Jackson Barnett, 76 years old, the world's wealthiest Indian, was en route eastward in custody of a deputy United States marshal.

The aged Osage Indian was seized at his home here on a writ of attachment issued by Federal Judge Robert Williams at Muskogee, Okla. He is being taken there in an automobile to face charges of contempt of court after he had ignored a subpoena issued for him in June.

His wife and daughter attempted to stop the officers, believing them to be kidnapers, Barnett was hurried away to a waiting automobile.

Barnett is wanted in Oklahoma to appear before the grand jury in connection with an investigation of the charges that Mrs. Barnett came into unlawful control of a large part of the aged Indian's wealth.

A RESOLUTION PROVIDING FOR NOTICE OF INTENTION TO BE GIVEN OF THE PROPOSED PASSAGE OF AN ORDINANCE SUBMITTING AMENDMENTS TO THE CHARTER OF THE CITY OF RANGER, TEXAS:

WHEREAS, it is considered to be the best interest of the City that an ordinance be passed submitting certain proposed amendments to the Charter of the City to the vote of the people, and

WHEREAS, the existing Charter of the City and the provisions of Chapter 13, Title 28, Revised Statutes of the State of Texas, 1925 Revision, provide that notice of said intention be published:

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF RANGER, TEXAS:

1. That notice of intention of the City Commission of the City of Ranger, Texas, to submit to the qualified voters of said City three proposed amendments to the Charter, hereinafter fully set forth, be given by publishing a copy of this resolution in some newspaper published within said City for at least twenty days, said publication being accomplished by inserting said advertisements in the newspaper in at least ten issues thereof, the first insertion being not less than twenty days from the date said ordinance is to be passed.

2. That said ordinance shall provide for the submission to the qualified voters the following amendments to the Charter:

PROPOSED AMENDMENT NO. 1:

Article 11 of the existing Charter is amended by adding immediately after section 2 a new section to be numbered 2-a, which shall be as follows: "Section 2-A. The City of Ranger, in addition to all other powers, hereunder shall have all of the rights and powers granted to cities and towns under the provisions of Title 28 of the Revised Statutes of 1925, said rights and powers to be cumulative of any and all other powers held by said City."

PROPOSED AMENDMENT NO. 2:

Amend article IV of the Charter by adding a new section to be numbered Section 2, which shall be and read as follows:

"Section 2. No bond shall be issued unless they shall have been authorized at an election held for the purpose, except funding and refunding bonds which shall not require an election except as otherwise herein provided. The City Commission shall have the authority to pass all necessary ordinances to provide for the funding or refunding of the whole or any part of the existing debt of the City, or of any future debt by cancelling the evidences thereof and issuing to the holders bonds or treasury warrants with or without coupons, bearing interest at an annual rate not to exceed six (6) per cent per annum, provided, however, that the outstanding bonds of the City may always be refunded into bonds but the outstanding warrant and note indebtedness of the City may be refunded into bonds only to the extent of the notes and warrants outstanding at the time this Charter amendment is adopted and said note and warrant indebtedness outstanding at any time in the future incurred for the purpose of permanent street improvements may be refunded into bonds, but no other future note and warrant indebtedness shall be refunded into bonds except when refunding bonds are authorized at an election held for that purpose."

PROPOSED AMENDMENT NO. 3:

Amend Article IV of the Charter by adding a new section to be numbered Section 3, which shall be and read as follows:

"Section 3. The City Commission shall have the power, when in its discretion it deem expedient and necessary, and at any regular meeting, to pass an ordinance or ordinances authorizing the issuance of interest bearing time warrants, with or without interest coupons, not to exceed in amount \$25,000.00 at any one time, for the purposes for which bonds are authorized to be issued under this Charter, such warrants to bear interest not to exceed six per cent per annum, payable annually or semi-annually, and to mature at such times, and to be payable at such places, as may be fixed by the City Commission; but before any such warrants shall be issued or sold, they shall be submitted to and approved by the Attorney General of this State and registered in the office of the Comptroller of the State of Texas. At the time any such warrants are ordered to be issued, the City Commission shall levy a sufficient tax to provide for the payment of the necessary annual interest on, and to create a sinking fund for, such warrants so authorized to be issued. They shall be signed by the mayor, countersigned by the City Secretary, shall state the purpose for which they are issued, the place where payable, and shall bear the seal of the corporation."

ADOPTED AND APPROVED THIS THE 10th day of August, A. D. 1926.

R. H. HODGES, Mayor, City of Ranger, Texas.

Attest:
 S. J. DEAN, Secretary, City of Ranger, Texas.

Texas Ranks Third In Extension Enrollment

(Special Correspondence.)
 AUSTIN, Aug. 21.—T. H. Shelby, dean of extension of the University of Texas, is in receipt of a copy of a study recently made by Prof. A. W. Castle, director of extension education in the Commonwealth of Pennsylvania, giving recent data on enrollment in extension class courses, correspondence courses, and in radio courses for twenty-eight universities and colleges of this country. Included in the list are the leading universities in the land giving extension work, among which are California, Chicago, Columbia, Harvard, Indiana, Michigan, Minnesota, Wisconsin, Virginia and Texas.

The data show that in the twenty-eight institutions there were 132,834 enrollments in extension class courses and 64,153 in correspondence courses. In radio courses there were 2,737 enrolled.

Texas takes high rank in correspondence enrollment, according to the survey, being third in this respect. Wisconsin and Chicago are the only institutions having a larger enrollment in correspondent courses than Texas.

The enrollment in correspondence courses in the five leading institutions was as follows: Wisconsin, 13,747; Chicago, 7,000; Texas, 5,931; California, 5,900; Minnesota, 5,884.

Poetry Contest Being Arranged To Build Theatre

LONDON.—Poems in any language on earth honoring the Bard of Avon are invited by the Poetry Society as part of its effort to secure funds for constructing the Shakespeare Memorial Theatre. The awards of gold and silver medals will be made by critics competent to read and judge verse in every language. Any form of poem may be submitted.

The four best lines in any of the poems submitted will be marked for a special award. In addition, they will be engraved on stone and set into the wall at the entrance of the theatre, signed with the successful writer's name, where they will remain as long as the Shakespeare Memorial Theatre stands. A separate contest for children has also been announced.

Girls no longer kiss and make up, if they do the make-up's all off.

YOUR CAR

Is it running good? Just drive in and let us look it over and tell you what is wrong. The information is free. Many times an inspection will reveal some minor repair and if properly looked after at the right time will save a big bill in the long run.

Remember we have a break lining machine—the only one in Ranger.

TWO MULES PATIENTLY WAIT FOR THEIR MASTER WHO HAS ANSWERED HIS LAST SUMMONS

By RENA B. CAMPBELL
At a Ranger blacksmith shop yesterday two little mules waited for their master to come and drive them home. Another's hand took them late yesterday to the home of their former master, J. P. Wallace, in Byrens-Riddle Addition, for death had come to him shortly after he left the blacksmith shop and sought the aid of a local physician for the pain that was shooting through his chest.

According to the physician, Wallace called on him about 10:30 Saturday morning, complaining of a terrible pain in his chest and he gave him medical aid and advised him to wait around the office for a while. In the meantime, Wallace seemed to

feel better, so the physician went out on his call, leaving his number for his office girl to call him, if there seemed to be any necessity. He was later advised that he was ill and when he returned to the office, he had passed out. He died of acute dilation of the heart, according to the physician in charge, about noon Saturday. The remains were taken to the Owens Undertaking parlor and later to his late home in the Lackland Addition.

Survivors
The deceased was born in Bell county and was 48 years of age. He is survived by his widow, and seven children, namely, Mmes. V. C. Long of Kingsville, Mrs. D. C. Owens of Ranger, John B. Pearl, J. P. Jr., Hoseo and Jack Smith.

Lions of Ranger Paint Up Town To Aid the Autoists
Ranger Lions painted up the town Friday night—but not red, although somebody did supplement their work by slipping in some big red feet, all headed toward an automobile salesroom. They painted it nice and white, so that wayward automobiles may watch their step when parking on Main street, or its tributaries. Every little auto has a place of its own—provided it keeps in the right pew, since the work of re-marking is done.
The Lions do this little painting stunt once a month. Reins and street sweepings obliterate the markings, so once a month the painting squad, some ten in number, take their paint buckets and brushes and paint up the town.

A. & M. College Teachers Will Conduct Institute
COLLEGE STATION, Aug. 21.—Prof. W. L. Hughes, head of the department of rural education and G. B. Wilcox, associate professor of rural education, both of the A. and M. College of Texas are members of the faculty which will conduct the Tri-County Teachers Institute at Palacios for five days beginning on Sept. 13. Professor Hughes is director of the meeting during which an intensive educational program will be rendered. The A. and M. College instructors will deliver several addresses to the institute.

want to come home," and from the little home this afternoon the funeral service of J. P. Wallace will be conducted.

Stock and Fixtures Of Julianna Shop Sold at Auction
The stock and fixtures of the Julianna Store of Ranger were sold to the S. & S. Store and E. Y. Jennings of Ranger, respectively, who were the highest bidders, subject to the approval of the bankrupt court of Abilene, Friday afternoon. Judge W. R. Haines conducted the sale. The owners of the Julianna Store filed a voluntary petition in bankruptcy recently and the sale is a sequel to that petition.

KEEPING PARTIES "MUM"

When the hostesses in Ranger explain to the society editor that their reason for keeping lovely little parties they give out of the paper, is for fear of hurting someone's feeling, one wonders if Ranger is really getting small towns. Of course keeping it out of the paper does not keep it from being known, for it's generally known before the guests all get home—some little bird tells these things, and those who are not invited feel just as slighted hearing it by word of mouth, as through the paper. Practically everybody has had a big party during the last year and paid off their social

gatherings, so everybody does not expect to be invited to everything. Let's get over that feeling and live up to the reputation that Ranger has always had for broadness. There were several affairs here last week that were not reported and those who were and were not present wonder why the editor doesn't keep up with social affairs when these are not reported. The guests like to see accounts of these parties, even if the hostess thinks it best not to put them in, and they wonder why no account is printed. Surely folks are not as caty as they are often painted.

MONDAY
Church Societies as usual.
TUESDAY
Childs Study Club meets at 2:30 with Mrs. E. H. Peacock.

Prayer meeting at 8 p. m.
THURSDAY
Lions Club Luncheon at 12:15 at De Goff Hotel.
SATURDAY
Public Library open from 9 a. m. to 5 p. m.

HONORING MISSES SCHMUCK AND HAMILTON
Mrs. Lena Hight and Miss Gilda Buchanan, entertained with a swimming party, followed by eats of ice cold watermelon and lemonade, Saturday evening at Lake Cisco, in honor of Misses Laura and Virginia Schmuck, who are home from the east, and Miss Buchanan's house guest, Miss Fay Hamilton of Roscoe.

The party left the city about 5:30 and made their way to Cisco's popular swimming resort, where they enjoyed a long swim, and later refreshments. Those who participated were Mr. and Mrs. R. M. Schmuck, and daughters, Laura, Virginia, Christine and Barbara, Mrs. C. G. Buchanan and daughter, Mrs. Gillian and Lucille, Mrs. Hight and daughter, Freda, and Misses Sue Dean, Marie Armer and Fay Hamilton.

NOTABLE GATHERING IN HONOR OF C. U. CONNELLEE'S SEVENTY-FIFTH BIRTHDAY.
Little did the sturdy youth pioneering through the vast untrodden paths of Texas in 1874, dream that the virgin soil upon which he wielded his ax and where later he saw grow into existence the little city now called Eastland, the land would team with the richness of oil, and that the town he founded would ultimately become the distribution bureau for great oil and gas companies.

Still less did C. U. Connellee dream of the giant strides that became possible for his project of up-building in new country, nor of the lovely home which, in its smiling serenity, crowns in domestic peace the fulfilled years of his manhood.

Mr. Connellee has taken an important part in all the developments for the good of Eastland and is possibly one of the best known figures in this section of the state. His talented and accomplished wife of great executive ability, has proven a worthy helpmate, and enters into his plans for the entertainment of friends, for relief of the suffering, and for help for the poor in winter, with a generous and untrammelled spirit.

Connellee Hill, so called, was aglow with lights Saturday night sending welcoming beams over the spacious grounds, set in picturesque array with benches, tables and chairs. A caravan of cars which left Denton at half-past one o'clock Saturday p. m., brought forth members of the faculty of the College of Industrial Arts, including the new president, Dr. and Mrs. H. L. Hubbard, who arrived at the Connellee residence at five thirty o'clock to attend the evening's entertainment.

Other guests were asked to meet them and the honor guest of the event, Hon. C. U. Connellee, from seven to nine o'clock. The wide galleries were softly lighted. Wall vases held trailing vines with niches adorned with ferns. Rugs and garden chairs created an ideal background for Mr. and Mrs. Connellee, and the former's daughter, Mrs. John Graves of Oklahoma City, who received the hundred and twenty five guests, who met the Denton visitors grouped on the plaza steps, who swept by after greeting the host and hostess and descending the stairs on the way to the lawn.

The tea table, sixteen feet in length and laid in India print, the delicate shades blending with the large center bouquet of crepe myrtle and snow on the mountain, was placed beneath the trees amid whose foliage soft lights twinkled. Green and white, the color motif, was carried out in all details of this charming lawn supper. Assisting at the table were Mrs. Eugene Whitehurst, Mrs. K. B. Tanner, Mrs. Oscar F. Chastain, Mrs. Scott W. Key, and Mrs. Milburn McCarty.

An orchestra, six colored musicians furnished soft harmonies in the shadow of the trees where they were screened from view. On the wide veranda, a big marble topped table bore a punch-bowl at each end, with vase of bowls wreathed fresh in pink and white grapes, from Mr. Connellee's vineyard. Delicious iced loganberry tea was dispensed by Mr. Connellee's granddaughter, Miss Ruth Graves of Oklahoma City, and Mrs. Edward E. Freysehlag of Eastland.

The delicious buffet supper of roast beef, fried chicken, Virginia baked ham, hot buttered rolls, potato salad in lettuce cups, frozen tomatoes, pickles, olives, chow chow,

had a surprise party note, in the beautiful birthday cake made of ice cream and covered with pink roses, wrought from whipped cream, and bearing the monogram, "C. U. C." and date of Mr. Connellee's birth lettered around the wide surface. Small ice cream birth day cakes bearing the monogram, "C. U. C." were served the guests.

A dainty hostess book was in charge of the hostess' little daughter and son, Monnie Jane and Jim Hill. The local guest list included, Messrs. and Mmes. H. P. Brelsford, J. M. Weaver, W. T. Garrett, Garrett Bohning, John D. McKee, C. B. Frost, E. A. Hill, H. P. Brelsford, Jr., J. H. Chastain, A. H. Johnson, W. H. Taylor, Scott W. Key, George L. Davenport, W. K. Jackson, John Sue, R. L. Scott, Leonard Hightower, F. Drummaese, John M. Mouser, Eugene Whitehurst, J. E. Lewis, J. P. Little, Milburn McCarty, C. G. Norton, Earl Conner, Earl Johnson, T. L. Overby, R. L. Davenport, Louis Bingham, Edward Horrigan, Walter Hart John E. Littler, Miles Westbrook, Harry Brelsford, R. F. Jones, Oscar F. Chastain, Jack Williamson, Edward E. Freysehlag, Mmes. Susan Steel, Dykes, Dugan, May Harrison, Mart Hill, G. R. Whittington, Virginia Bowles, Ruth Haire, Mrs. J. D. Alexander of Cisco; Mrs. J. T. Gregg of Houston; Mrs. Emma Roberts of Marlin; Rev. and Mrs. L. R. Hogon; Dr. and Mrs. E. Roy Townsend, C. H. Carter, H. B. Tanner, W. S. Poe; Misses Johnnie Hightower, Cecelia Haas, Betty Dykes, Bess Chastain; Mr. and Mrs. M. H. Hagaman, Leslie Hagaman and Charles Terrell of Ranger; Mr. and Mrs. E. Roberts of Rising Star; Mr. and Mrs. Bryan Brelsford of Mineral Wells; Mr. and Mrs. Neal of El Paso; Mr. and Mrs. George McQueen and Messrs. T. J. Clegg, and John Snyder of San Angelo; Judge and Mrs. J. J. Butts, and Miss Mary Butts of Cisco; Tyler Lockett of Chicago and Mineral Wells; Judge J. R. Striblefield, John Sayles Hob Gray, Adkinson and Col. Robert D. Gordon. Mr. and Mrs. John Graves, and Miss Tully Graves of Oklahoma City, Oklahoma, the son-in-law, daughter, and granddaughter of mine host.

Hearty congratulations were showered upon Mr. Connellee who has borne his years gracefully and is apparently not affected by the slight stroke he suffered a few months ago and which occasioned his large circle of friends great uneasiness. The evening was one long to be remembered and marked an epoch in the social life of Eastland. The beautiful Connellee residence was brightly lighted throughout. Many of the visitors from Denton remained over Sunday. The home was prepared with the old time Southern hospitality for the many or few, who might stay over.

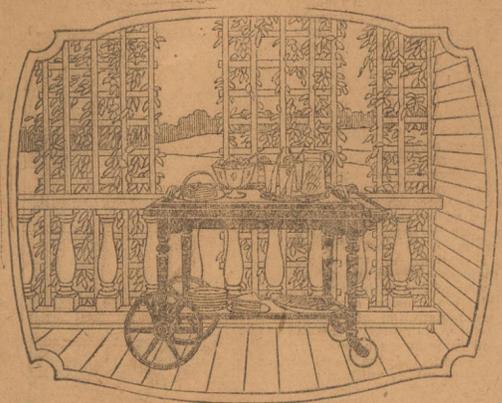

The unusual and beautiful birthday cake and the little birthday cakes were shipped here from Oklahoma City, from the ice cream factory of Mr. John Graes, who is a manufacturer on a large scale in this class of work. —Eastland Telegram.

MRS. J. U. FIELDS WRITES OF CONVENTION
Mrs. J. U. Fields, state president of Women's Federated Clubs, sends out a circular letter, which is quoted here in part, relative to the Texas Federation of Women's Clubs State Convention at Dallas, on Nov. 3-12.

"The twenty-ninth annual Convention of the Texas Federation of Women's Clubs will convene in Dallas November 3-12 with the Baker Hotel as headquarters. All sessions will be held in the hotel. The Executive Board will meet at 8 a. m. November 8th. Monday afternoon at three Miss Kate Friend will conduct a Club Council. All delegates and visitors are most cordially invited to attend this session. Monday evening, November 8th, State President's evening with Mrs. J. C. Nagle, Dallas, First Vice-president, presiding. Each morning at 8:20 Mrs. R. F. Lindsay, Mr. Pleasant, State Parliamentary will conduct a school of parliamentary law.

"Tuesday morning the Pres of the state will be honored with a breakfast. During the entire session the same place is to be reserved at the Press Table for the press reporters. Tuesday morning the meeting will open for business. The American Home session will be Tuesday at 2:15 p. m. District President's Evening, Tuesday 8:30 p. m. Each District President will be allowed ten minutes to tell about "My District." Tuesday noon there will be two luncheons—Junior membership in charge of Mrs. Paul Donald, State Chairman of Junior Membership, (the young members of the Federation are to be present at this luncheon) Club House, presided over by Mrs. P. P. Langford of Wichita Falls, State Chairman of the Club House.

"Wednesday at 9:45 a. m. Congressional Session, Wednesday noon, Mrs. M. H. Hagaman, Ranger, State Chairman of Applied Education will preside over an Educational luncheon; Mrs. A. R. Kerke, Angleton, State Chairman of Public Welfare will present the work of this Department at a luncheon program. Wednesday afternoon honoring the Southern Gen-

Four O'Clock Tea

AFTERNOON tea in the shadow of a summer porch is a delightful way to entertain through the warm months, but the hostess only enjoys it completely when the menu has cost her little effort. A simple menu of tea sandwiches with pastes made of canned foods, or easy salads from prepared foods, fruit drinks, and wafer-like slices of fruit cake, which also comes in cans, represent small effort and excellent results. Peanut butter combines well with other foods for sandwich pastes. It is packed in cans with tops that can be replaced on the can. Use peanut butter with white, graham, and whole-wheat bread to secure variety. The peanut butter may be mixed in equal quantities with cream cheese for one filling. Another sandwich, a "three-decker," is made with one layer of peanut butter, the other of Russian dressing and a leaf of lettuce. The Russian dressing is made of one half-

cup mayonnaise and three tablespoons canned chili sauce. For sweet sandwiches, use peanut butter with grape or currant jelly or with chopped dates. Tuna fish may be used in good salad combinations. Use it with Russian dressing or with mayonnaise and sprinkle chopped green olives over it. Those good looking cans of mixed fruits for salads should not be forgotten. Also excellent salads may be made of canned pears or Hawaiian pineapple with balls of cream, pi-miento, or neuchatel cheese. When fruits are used, save the juices in the can for fruit drinks. The most delicious fruit drinks may be made from these canned fruit juices. The juice of mixed fruits with lemonade makes excellent fruit lemonade, the juice of pineapple flavors either tea or ginger ale, and canned raspberries added to lemonade make a remarkably delicious summer drink.

lemen. All of the men are most cordially invited to this dinner. The dinner-program will be very short and will be followed by a reception. Thursday morning at 9:45, Legislation Session, Mrs. Maggie W. Barry at 11:15 will conduct a Fact Finding Session (an old fashioned Question box); Thursday noon Mrs. C. D. Kelley, Groesbeck, State Chairman of American Citizenship, and Mrs. A. H. Bailey, Dallas, State Chairman of the Department of Fine Arts will present Luncheon Programs. Armistice Day, November 11th; Mrs. W. W. McCrory, San Antonio, State Chairman of International Relations, will present Judge R. E. L. Sauer as speaker. Mr. J. Lee Roundtree of Bryan will have charge of a patriotic session at which time Texas Talent will be introduced. The Governor of the State of Texas will be invited to be the speaker to conclude this program.

MRS. DURHAM HOSTESS TO TUESDAY BRIDGE CLUB
Mrs. Harold Durham extended the hospitality of her home, on Thursday to the members of the Tuesday Bridge Club and several other friends. Brilliant colored zinnias filled flower vases and bowls throughout the receiving suite of this attractive home. The high club prize, a vase, went to Mrs. Walter Cash, and the second high club prize, a candy jar to Mrs. K. C. Jones. Guest high honors were won by Mmes. Aubrey Jameson, and C. B. Pruett, who received a flower bowl and a candy jar respectively. A two course luncheon, charming in its appointments was served to Mrs. R. J. Norman, C. C. Patterson, T. M. Combs, John Moyer of Cisco, Chas. Overlie, of Eastland, K. C. Jones, P. J. O'Donnell, Walter Cash, D. L. and Aubrey Jameson, J. T. Gullahan, Chas. Edwards, C. B. Pruett, Buzz Johnson, Davidson, Jim Baldwin of Eastland, B. A. Tunnell, Ross Hodges, T. B. Scott, A. Rizotti of Waco, and Misses Madeline Norman, Blinn of Brownwood and Myrtle Allen of Eastland. Misses Norman and Allen assisted the hostess in serving and entertaining.

AD LIBITUM CLUB ANNOUNCEMENT
The Ad Libitum Club will meet Wednesday afternoon with Mrs. H. B. Clifton, at her home in the Magnolia Camp, Olden, at 2:30 o'clock.

A SHOWER FOLLOWS BETHROTHAL PARTY
Following the betrothal announcement made last week, when Mr. and Mrs. James Gray, announced the engagement of their daughter Hilda Gray to Myron K. Ice, Mmes. H. L. Ice and C. O. Ice, mother and sister-in-law respectively of Mr. Ice, entertained in their honor at the H. L. Ice home Thursday night. The Ice home was very attractive in its floral decoration and was amply large to take care of the fifty guests who assembled to congratulate the affianced couple. A drawing contest, in which each one was asked to draw a picture of a bride, resulted in Miss Gray winning the first prize. Physics Gray and Ruth Ice were asked to present the prize. They appeared with a big white clothes hamper between them, which they presented to Miss Gray. When she opened it, she found it filled with the most exquisite presents, all attestations of the love and friendship her friends bear for her and her fiancé.

The rest of the evening was spent in games and music, and was featured by delicious refreshments, served by the two hostesses, late in the evening. Miss Gray, is cashier at the Southwestern telephone company and has lived in Ranger many years, her father, being district foreman of the Prairie Oil and Gas company. Mr. Ice is with the Lone Star Gas

company, and has also lived in Ranger for several years. On this occasion, Miss Gray looked very charming. She was gowned in a beige Georgette frock, of distinctive style, with accessories in keeping.

WILSONS ARE HONOR GUESTS
On account of the short time that Dr. Carl Wilson and his mother, Mrs. H. B. Wilson, had time to get ready to move to their new home in Houston, they were compelled to refuse a number of invitations extended them by Ranger friends, for farewell events. On Friday evening they were guests of Dr. and Mrs. W. C. Palmer, at a six o'clock dinner, and on Saturday morning, Dr. and Mrs. A. N. Harkrider entertained with a pretty breakfast, served at a table laid with a white cloth embroidered in roses, with vases of pink roses, from the hostess' garden, furnishing the floral decorations. Covers were laid for the honor guests, the host and hostess, Mrs. Rena E. Campbell and Mrs. Hiram Forbing, of Forbing, La., sister of Dr. Harkrider. At noon on Saturday, the Wilsons were luncheon guests of Mr. and Mrs. R. R. Stafford at their home on the Spring road, where their final good-byes were said, prior to their departure immediately after lunch to Houston, via automobile.

PERSONALS
Mrs. Hiram Forbing and children of Forbing, La., are guests of Dr. and Mrs. Harkrider. Mrs. Forbing is Doctor Harkrider's youngest sister. Mr. and Mrs. M. K. Collier returned to Ranger late Saturday. Mrs. Collier returning from a six weeks visit with her parents in Amarillo and Mr. Collier from Fort Worth, where he collected over to meet her.

WILL YOU BE AT YOUR PLACE THIS MORNING?
FIRST BAPTIST CHURCH
Sunday school 9:45 a. m., Walter

CHURCHES

FIRST METHODIST CHURCH
The general public is invited to worship with the First Methodist church congregation today. Sunday school will open promptly at 9:45 and close at 10:40. The Pastor will preach at the 11:00 o'clock hour. Every member is urged to be present for both preaching and Sunday school hours. At 8 o'clock the co-operative revival campaign will begin on the high school grounds with the Hogg evangelistic party in charge. Don't miss this opening service. If you come once you will "get the habit." Let all our people come praying and prepared to work in the meeting God will do His part; the evangelistic party will do their part; but neither one will do our part. A. W. HALL, Pastor.

GOLDEN RULE BIBLE CLASS
The Golden Rule Bible Class of the First Christian church will meet at the Lamb Theatre at 10 o'clock this morning. The public is cordially invited. Every body welcome. All Presbyterians are urged to be in their places in all services. G. D. ROBISON.

FIRST PRESBYTERIAN CHURCH
Corner Marston and Walnut. 9:45 a. m., Sunday school, S. B. Baker, superintendent. 11:00 a. m., Worship. The pastor's subject, "The Christian Soldier's Equipment." 7:15 p. m., Y. P. S. C. E. 8:30 p. m., Union evangelistic services on school campus. All Presbyterians are urged to be in their places in all services. G. D. ROBISON.

CENTRAL BAPTIST CHURCH
Sunday School 9:45, N. O. White, superintendent. In our Sunday school there is a class for every age and a warm welcome awaits you. 11 a. m., morning worship. Sermon subject, "Giants." Some astonishing facts will be revealed. You should hear them. 7:00 p. m., B. Y. P. U. service. 8:00 p. m., Evangelistic Hogg and party will have charge of the service at the high school campus. Let every member of Central Baptist church give nothing short of their very best in this evangelistic campaign.

W. M. S. will meet at the following places Monday at 2:30: Circle 1, Mrs. R. J. Taylor, on Strawn road. Circle 2, Mrs. Rucker, at Langston Apartments. Circle 3, Mrs. O. S. Driskoll, Ranger Heights.

FIRST CHRISTIAN CHURCH
Main near Marston, H. B. Johnson, pastor. Sunday school 9:45 a. m., E. T. Walton superintendent. Preaching at the morning hour by Rev. Williams the advanced man for the Hogg Evangelistic party. Brother Williams is a very forceful speaker and will bring us a great message and you can't afford to miss it. Come and let's have a great hour in worship. Don't forget the Golden Rule Bible Class at Lamb theatre at usual time. Read again the sixth chapter of Mark. Brother Holloway will be with us and will bring some new thoughts that, perhaps, you had not gotten from the lesson before. We will have special music and those who have heard the music for the last few Sundays know what that means. Remember we are beginning our union revival tonight and we are very anxious that every member of the church attend every service possible. Talk about the meeting and pray for its success. Will you be at your place this morning?

FIRST BAPTIST CHURCH
Sunday school 9:45 a. m., Walter

A. Champion

This three-year-old had claims to be the best Charleston dancer for his age in the country. He has 14 distinct steps in his repertoire, and recently won a juvenile Charleston contest at Minden, La. He is J. B. Schriftman, Jr., of Shreveport, La.

Women Athletes May Represent United States

NEW YORK—Gertrude Ederle's astounding achievement in swimming the English Channel in almost two hours less than required by any of the five men who performed the feat before she did, may mean a trip to Amsterdam and a chance for international fame to a number of other young American girls.

Since the International Olympic Committee decided to add a number of events for women athletes to the 1928 Olympic program in Amsterdam, officials of the A. A. U. have been considering plans to enter a small team of American girls in these events.

Just because Trudie Ederle's record made poor man look weak in swimming, it does not follow that other girls could go to Amsterdam and smash the best of men's records on the track and field but it does mean that there will be tremendous public pressure on the American Olympic officials to recognize that girls in athletics are no longer freaks good enough only to afford a trick feature for meets.

Go to Public
The American officials have to go to the public for funds to pay the expenses of the Olympic teams that are sent to foreign countries and the contributing public is sure to respond to the tremendous pressure on the American Olympic officials to recognize that girls in athletics are no longer freaks good enough only to afford a trick feature for meets. Solicitors for Olympic funds next year probably will hear many regular contributors say—"Yes, you can put me down on the list if you send some girls with the team."

The A. A. U. certainly cannot be charged with having been slow in recognizing that American girls were progressing fast enough in athletics to warrant consideration. Four years ago or more, the A. A. U. assumed jurisdiction of women's track and field activities and the scope of the field has increased each year since.

Along with the recognition of women's athletics, the A. A. U. saw the need of developing that branch of athletics slowly and allowing girls to compete only in events that could not hurt them. The present rules do not permit running events longer than 220 yards and they do not encourage high jumping, broad jumping, pole vaulting, hurdling, and heavy weight events.

It is freely admitted that with girls taking more interest in athletics, they will develop physically with more speed and that within a few years they might be strong enough to compete in an unrestricted program.

So far in the preliminary planning for the Amsterdam trip, the committee has been governed solely by the problem of finances. The officials would like to organize a girl's team but the expenses would run far in excess of the most conservative estimate that has been made. Addition of girls to the team would mean the transportation costs and the expense of special quarters and accommodations for from fifty to one hundred girls and the added problem of coaching.

Women Equal To Men in All Business Lines

By VICTOR W. KNAUTH (United Press Staff Correspondent)
LONDON—Viscountess Phonda, who is a director in 28 important companies, refuses to believe that women as a whole are either better or worse suited to business than men. She was recently elected president of the Institute of Directors, the first woman to hold the position.

"It is purely an individual matter," she said of women in business. "It is impossible to generalize. There has been a big development recently and signs of a general awakening to the idea of women working side by side with men in business. This is a good thing, I believe, for the commercial world, and for the nation as a whole. In a country where business and trade are premier factors you want to recruit the whole of the business ability of the country instead of only men."

Sir John Cockburn, inaugurating Lady Rhonda as president of the Institute of Directors, said that women generally are more even-tempered and more businesslike than men. "They do not rise to such heights of disastrous imagination or sink to such depths of despair and they are less likely to plunge," he said. Lady Rhonda did not agree with him.

There are now more than two hundred women acting as directors of important business concerns in England, Lady Rhonda said. She is, in her own words, "keen to see women admitted to the Stock Exchange."

FADS OF THE FAMOUS
Senator Smoot
Senator Reed Smoot, Republican, Utah, prominent Republican leader of the Senate, is an "Edisonian." He thinks folks spend too much time in bed.

"Sleeping is more or less of a habit and really is not necessary in eight-hour doses," Smoot says. Four or five hours are enough for me and I don't think I'm made any different."

Smoot does not go to bed until after midnight, usually, and is to be found on the golf links not later than five-thirty the next morning. Smoot plays golf like a football game. He rushes the ball and walks swiftly between the greens. He seldom saunters. He says he wants to get as much exercise as possible while engaging in his sport.

Wife of Hindu Unfolds Life of Brahmanism

CHICAGO, Aug. 22.—Abani began to talk about going to India, to his home in Barodi. He said he wanted to take me to his family so they could see he had not married beneath himself. I reminded him of his promise to stay in America.

He replied sullenly that he only wanted to visit India and would bring me back to Chicago in a few weeks, just as soon as he had proven to his family I was worthy to be his wife. I finally consented to go for a short visit. We sailed for Calcutta in January 1918, from New York. On the voyage across the Atlantic and through the Mediterranean, my husband was the same wonderful man that he had always been—broadminded, clear headed, except that he seemed to brood, on the way his mother and brother had accepted our marriage.

Calcutta was my first glimpse of a world entirely different from what I had been accustomed to. Rioting was then being carried on against British rule. English soldiers patrolled the dirty streets, the few white people were hissed and spit at by the natives as they passed through the city.

It was then too that I learned that Abani was an ardent follower of Mahatma Chani, nationalist leader whose slogan was "India for Indians." My husband, the nobleman who had spent many years in the United States learning American ways, was an anti-white agitator. He was worried. And he seemed to change suddenly as soon as we landed in India. He took less notice of me, being intent, seemingly, on only one thing—the forcing of my acceptance by his family, which was still staying in Calcutta. Abani soon lost his American ways completely. He reverted back to an Indian. He was silent, cross, quarrelsome. His family, however, accepted me into their home.

The Indians, however, are a people of moods. One day they could treat me as an equal, and the next day I would be nothing more than a servant. I wore the long flowing robes of the Indian women and the veil she is forced to keep over her face when men are present. In every way I tried to please my husband's relatives. And I would have succeeded had it not been for their Brahmin priest.

The priest's only duty was performing a religious ceremony night and morning for the family. When I arrived he refused to continue the service. He vowed that I was unclean, untouchable, and even threatened to oust the Bose family from the church—all on account of me.

Of course the rulers of Barodi were angry, both at me and at the priest. Abani finally decided to have his brother take me to the family castle in Barodi, leaving the hire of another priest was negotiated. Then, too, Abani said he wanted me to meet his mother, who was staying at the palace out in the wilds of East Bangai.

A CAR DOG THANKS
We take this method of expressing our deep and sincere appreciation of the many acts of kindness and sympathy shown by our friends during the illness of our devoted and beloved wife and mother, and for the many beautiful flowers which cheered her in her long hours of intense suffering and those floral pieces which went to beautify her last, long resting place.

Sincerely,
JOE A. WRIGHT,
CORLEY WRIGHT.

Strenuous Sport Now

They used to call tennis a "ladies' game," but that was long ago. Tennis is now considered one of the most strenuous of sports, a test of skill, speed, stamina and what not. Above we see Miss Evelyn Colyer, noted English star, almost flying in an effort to make return a hard drive. Looks more like a ballet dancer, doesn't she?

Buicks Retain Popular Lines In 1927 Season

Buick has retained three popular 120-inch wheelbase models in the 1927 line. These are the two-door sedan, the four-door sedan and the four-passenger coupe. The chassis is the same as that used for the 128 inch de luxe models, except in length.

The Buick engineering department says that these cars, with the exception of minor details in finish and equipment, are identical with the de luxe models.

They are finished in Delaware green Duco, with double gold striping. The wheels and window necessities are the same color as the body. The tops, fenders, etc., are black. Tires and rims are jet black. The upholstery is mohair. The hardware was newly designed for these models and has a satin finish.

The floors are covered with tapestry carpet. All window moldings have walnut finish. There is an elastic pocket in the right rear door of the four-door sedan. This model also carries a vanity and smoking case. A smoking case is furnished in the two-door sedan.

The four-passenger coupe has new high deck lines, a low straight belt line, low back corner panel and doorposts of new form, giving it a long, low appearance. It carries the same finish and equipment as the sedan models.

The engine with which these cars are powered is claimed to be without vibration periods at any point. This is accomplished by a counter-balanced four-bearing crankshaft with torsion balancer, light pistons and heavy flywheel.

Oil filter, air cleaner, gasoline strainer, thermostat temperature control and crankcase ventilator was developed by Buick engineers to prevent crankcase dilution. In combination with the oil filter and gasoline strainer it keeps the engine oil clean

She Leads the Dance Hall Girls

Dance hall girls of Seattle, Wash., are up in arms against Mayor Bertha Landes' edict forbidding them to introduce themselves to men on the dance floors. They have organized a union, which is affiliated with the American Federation of Labor, and Miss Bob Le Roy (above) is its leader.

and full-bodied for a long time. Buick recommends a complete change of oil only four times a year.

All four wheels are balanced, helping the car hug the road at all speeds. The cars are free from rumble, and the entire operating mechanism is very silent, due to the balanced engine in combination with

newly designed transmission gear teeth, a new muffler and exhaust system, and rubber insulation at all three points of engine suspension.

These cars are designed to give all the performance and comfort of the large Deluxe Buicks at a considerable saving in price, according to the Buick announcement.

Owners Urged To Use Locks And Foil Auto Thief

Nearly one-fourth million motor vehicles of an approximate aggregate value of 218 million dollars were stolen in the United States during the year 1925, as revealed by an investigation made by the research division of the American Automobile Association. Assuming that 80 per cent of these were recovered, the dead loss to motorists was 35 million dollars for the vehicles alone.

Each vehicle recovered as well as those never recovered cost something to every car owner who pays insurance premiums, because the cost of recovery and of putting the vehicles back into their original condition tends to maintain the cost of theft insurance. Moreover, the owners lose a day or more in going to court.

Several ways of frustrating the automobile thief are in use or available. One is state registration of motor vehicles and the required proof of ownership in some states before licenses are issued, but the requirements are by no means uniform and often are insufficient. Another method is the stamping of serial numbers into the engine and frame. These measures aid in recovery, but do not prevent theft, although they may be deterrents.

Lock on the cars provide the owners with the best preventive of actual theft. These are discussed at length by Charles M. Manly and C. B. Veal of New York City, in the August issue of the journal of the Society of Automotive Engineers. All statistics on the subject clearly point to the fact, they state, that any locked car, if the lock has merit, is immune from theft. The finest lock imaginable is of no avail, however, unless it is used. Figures collected by the Underwriters conference and other national agencies show that about 85 per cent of cars equipped with approved locking devices are habitually left unlocked when parked.

The coincidental lock, which automatically locks the car when the ignition is switched off, has been evolved to take advantage of the fact that most drivers turn off the ignition and remove the key when leaving a car unattended.

Some of the requirements of a lock are that it should be conveniently, easily and positively operated both in the light and in the dark under all climatic conditions, that a key should not be required or locking should be coincidental with removal of the switch key, that there should be slight chance of accidental locking while the car is in motion, that it should not prevent quick stopping of the engine while the car is in motion, that if it is very similar to the ordinary ignition switch it should not simultaneously lock any control element of the car when the ignition current is broken, that it should allow coasting with the ignition off, although this is not good driving practice, should permit the car to be moved in a garage or in case a fire when parked on the street with the key removed, should lock the car so as to prevent towing, should permit the transmission to be left in engagement or the front wheels to be cramped against the curb when the car is parked on a grade, and the entire lock mechanism should be simple, rugged, easy to install and of low cost.

Various types of locks have been produced that lock the transmission, steering system, ignition system, fuel supply, intake, or exhaust valves, or the clutch and brake pedals. Each type is described and illustrated by the authors.

Hope the fellow who predicted a cool summer has to spend most of it in a telephone booth.

'Plenty of Room' In Small a Car Is Chrysler Idea

There is an increasing curiosity among the people interested in motor cars—which about embraces the whole public—in the details of the new Chrysler four-cylinder car which is shortly to be announced.

While Chrysler has acknowledged that such a car is on the way, there has been no intimation from official sources as to what will be its chief characteristics.

Word comes from Detroit, however, that the formal announcement will stress the fact that the new Chrysler is a "full sized car." This is taken to mean that exceptionally large passenger room in a car of its class will be a leading feature.

As the same engineers who designed the Chrysler "70," "60" and Imperial "80" designed the new car, it is taken for granted that it will embody marked mechanical improvements.

It is understood that the car will sell in the lower price range and will actively compete for a full share of this large market.

Why New Cars Should be Driven Slowly Explained

Every motorist is familiar with the little white sticker which is pasted to the windshields of most new automobiles, cautioning against driving at a speed exceeding twenty-five miles an hour for the first 500 miles. Many persons, observes H. H. Brooks, general sales director of the Marmon Motor Car company, do not understand the reason for this precaution. "With many cars, this method is taken to 'wear-in' the engine parts. When engine parts are not made to close limits, the inequalities in the

mechanism force the bearings to be drawn up tight in order to secure the proper fit, making a new engine so stiff that a strong man is unable to turn the crank handle. "Consequently, to prevent the engine from being totally wrecked in the first miles of driving, it is necessary that it be run at a low rate of speed in order that the moving parts may wear themselves into a smooth fit. This crude wearing in is made necessary by the lack of time allowed because of volume production. "This trouble is not found in the Marmon precision-built engine, because the deviation, or tolerance, allowed, is so small that it is almost negligible. A new engine, assembled from well made and correctly machined parts, does not have the excessive stiffness spoken of above. "Another erroneous impression shared by many people is that dynamometer tests are intended to

Saves 8 Lives

Eight people have been saved from drowning in swimming pools near Dayton, O., during the last three years by John Charles Ramby, 20. One of the eight he saved twice, and on every occasion he put his own life in danger. But he won't talk about his exploits for fear his chums will think he's trying to be "smart."

Custom Designed Broughams Made By Studebaker

The beauty of the custom-designed sedans announced by the Studebaker Corporation of America as additions to its line is strikingly exemplified in the big six custom brougham. Flowing lines and the graceful contour of body, swung low on the chassis, impart a suggestion of fleetness matching the spirit of Atlanta, whose silvered figure adorns the radiator. The entire atmosphere is one of smartness and the body coloring of kinick green and tuchi gray with black molding and delicate apple green striping contributes appreciably to that motif.

The interior provides all the custom luxuries which the first glance at the car suggests. Seats are wide and deep with form fitting upholstery of fine Chase mohair with broadlace trim. Appointments include Butler finish hardware, dome light, toggle grips and silken draw curtains at the wide rear windows. Other new features make for driving ease and convenience. Instruments—speedometer, ammeter, gasoline gauge, oil pressure gauge and engine heat indicator—are conveniently and artistically grouped under glass and illuminated by indirect light. The no-draft ventilating windshield, which may be tilted outward by a turn of a handle, is an exclusive Studebaker invention and provides abundant ventilation without draft. The two-beam headlights are controlled by a switch on the steering wheel. Spark is automatically controlled. Full vision is provided by the one-piece windshield and narrow roof pillars. A coincidental lock to ignition and steering gear is controlled by the same key which operates the locks of the doors and the spare tire carrier. Front bumper, rear bumperets, balloon tires, disc wheels, snubbers and four-wheel brakes which are standard equipment, insure safety and complete freedom from road shocks.

If Rip Winkle returned today he would find "No Parking" signs where there were hitching posts.

"break in" the engine, doing away with the period of slow driving. This again is wrong, because the dynamometer is most generally used to check the mechanical perfection of the engine. Every Marmon engine assembled spends many hours in the dynamometer room before it can take its appointed place in the Marmon chassis. The results of the dynamometer test are electrically recorded, assuring absolute accuracy in the reading of the work done.

The "Lapping In" Process
"The first two hours of this eight-hour period are consumed by what is known as 'lapping in,' a precaution process to uncover defects. During this process, the engine is pulled by an electric motor, and special attention is paid to the oil pressure and water temperature.

"When the preliminary two-hour period is finished, the oil is drained from the crank case and the engine is prepared for the regular dynamometer run by filling with new oil, adjusting valves, and connecting wires and controls.

"At the start of the regular run, the engine works at 700 revolutions per minute, with resistance adjusted in the dynamometer to make the engine develop 5 h. p. Oil and water action are checked for charging rate. The speed of the engine is gradually increased until the required results are obtained.

"At the completion of this test the engine is thereby checked for valve setting, and other adjustments. The oil is drained again, the oil pan removed and bearings, camshaft, valve tappets and push rods are examined for imperfections."

Buicks Again Win Coveted Honor for The Ninth Time

For the ninth consecutive year the Buick Motor company has won the most coveted honor in the automobile industry—first choice of display space at the national automobile shows for 1927 in New York and Chicago. This was made known through the announcement of Alfred B. Reeves, president of the National Automobile Chamber of Commerce. The N. A. C. C. award goes annually to the member company which does the greatest volume of business in dollars and cents during the fiscal year preceding the annual auto shows. Buick won this honor in 1919, and has held first place every year since.

Every automobile company of size except the Ford Motor company belongs to the N. A. C. C. Thus the winning of the annual award carries with it the leadership of the industry in volume of business done with the exception of this one company. Buick confines its manufacturing to a line of sixes, with a price range between \$1,000 and \$2,000.

E. T. Strong, who has been general sales manager of the Buick Motor company for ten years, and under whose administration the nine awards have been won, points out that in order to equal the Buick record, another company would have to win first place every year to 1936, inclusive. Strong observed, when notified of the award, that it was especially significant in view of the fact that Buick sells a high-grade line and operates in a field which does not lend itself well to the largest volume of business. "Winning of first place by a company selling a low priced car," Strong said, "would be a much easier accomplishment because of the larger volume of sales possible in the low price field. In view of this fact, we are especially gratified over the Buick showing in taking first honors for the ninth time in succession."

The prize of the industry goes to Buick as a climax to the most successful selling period ever experienced by this company. According to a recent factory announcement, sales for the eleven months ending July 1 totaled more than 225,000 cars. This exceeds by many thousands the best previous twelve-month period in the history of the company. Recent plant developments have increased the production capacity to 1,200 cars a day. The recent purchase by the General Motors corporation of the Flint Mo-

Presenting The New **CHRYSLER "50"**
Highest Quality and Value
Sensational Chrysler Performance
Built as only Chrysler Builds..

\$750

For the first time all the fine car qualities that purchasers of low-priced cars have had to do without are now offered at amazing low prices in the new four-cylinder Chrysler "50".

Come in for a ride. Once you do that you will never again want to consider any other car near this price—because no other gives you such value as the new Chrysler "50".

FINEST OF FOURS

CHRYSLER "50" COACH
\$780
f. o. b. Detroit, subject to current Federal excise tax

Quality Standardization

Built as only Chrysler builds—under the great Chrysler plan of Quality Standardization—group manufacture in Chrysler's vast plants by one manufacturing organization where all the gigantic Chrysler facilities and resources are utilized.

Value

Never before, at this price, have you been able to get so many features, such great operating economy, such astonishing value.

5 to 25 Miles in Eight Seconds
Chrysler "50" gives you brilliant, flashing Chrysler pick-up—far finer than any car of equal price.

Now ready for your inspection and giving such a demonstration of Speed, Power, Comfort, Beauty and Economy as was never shown before in any car near this price.

50 Miles per Hour
Speed with comfort. No rattle or shake or shimmy. 50 miles per hour—and the easiest, smoothest miles you ever had in a four.

CHRYSLER "50"—Coupe, \$750—Coach, \$780—Sedan, \$830
All prices f. o. b. Detroit, subject to current Federal excise tax.

Economy

25 miles to the gallon—thanks to engine improvements and scientifically accurate gas distribution.

Full-Sized All-Steel Bodies

Chrysler "50" is a full-sized car. Nothing cramped or skimpy in its strong all-steel bodies. Seats wide and easy. Every detail planned to give finest riding and greatest comfort.

Beauty

Each Chrysler "50" is a beauty. Each extra generous in quality details, in fineness of finish and fittings. Striking in color and line. Each is a Chrysler—and that means the finest, the most alluring style.

Greatest Volume Of Tire Business In Five Months

AKRON, Ohio.—Sixty per cent of the total 1926 purchases of tires will be made within the last five months of the year, according to W. F. Pfeiffer, prominent local tire man.

"The July price decrease, bringing tire prices lower than July, 1925, prices, has proved a big stimulus to buying," he said. "Consumers who awaited lower prices earlier in the year are now buying freely and without the hesitancy that characterized the first six months."

Although the demand for tires has increased greatly, dealers' stocks are 25 per cent lower than they were a year ago, according to surveys. Many dealers will not be able to meet customers' needs unless stocks are filled at once, and in some cases actual shortage of tires will be experienced, it is believed.

Greatest demand for tires is in the low pressure, or balloon field. Production of balloon tires the first half of 1926 was 50 per cent greater than for a corresponding period in 1925, while a decreased 20 per cent in high pressure types was noted. Approximately 30 million tires were produced the first half of this year.

Chevrolet Plans Convention Of Its Field Force

With the Chevrolet Motor Company's \$10,000,000 expansion program well under way, providing production facilities for 1,000,000 cars during 1927, more than 800 members of the company's field force will hold a three-day convention in Detroit, starting Monday, Aug. 23, when the sales campaign for the coming year will be outlined by R. H. Grant, general sales manager of the company.

This convention, the largest and most important sales gathering in the history of the automotive industry, marks the culmination of the greatest sales production period in the activities of the Chevrolet Motor Company—an enormous and startling rise to national popular favor that is conceded to be without precedent in the automotive industry.

With more than a half million cars produced during 1925, the close of this year will see production far above the 600,000 mark and the possibility of one million cars in 1927. It is the potential production for 1927 that has called the entire field sales force of the Chevrolet organization to Detroit that plans may be made known to the whole selling organization in every part of the country for the merchandising of the 1927 production.

Sound Keynote
General Sales Manager R. H. Grant will sound the keynote of the convention "1,000 more cars per day"—to the selling organization including regional managers, zone managers, division representatives, sales promotional representatives and service promotional representatives.

His statement will be backed by the most remarkable record ever made by an automobile manufacturer in recent years and will more than

ever accentuate the Chevrolet Company's record as the most interesting and absorbing topic today in automobile circles.

The part that each member of the sales force will play in the handling of the tremendously increased production which the company plans for 1927 will be detailed by Mr. Grant.

8,500 Dealers
A sales organization, serving more than 8,500 dealers, will be told of the service to be rendered through advertising campaigns, nation-wide in their scope, of local dealer campaigns under the Chevrolet co-operative system, and of scores of sales promotional and service helps that have contributed so strongly in the past to the unparalleled growth of the company.

Besides the members of the field sales force from the thirty-two sales zones, the meeting will be augmented by the attendance of officials of the General Motors Corporation, the General Motors Acceptance Corporation, the Chevrolet Motor Company of Canada, Ltd., and various other General Motors units.

Four solid trainloads of Chevrolet factory sales representatives will arrive in Detroit Sunday, Aug. 22, from four important centers—Chicago, St. Louis, Cincinnati and New York. At these points the men have congregated from Chevrolet zones in the east, south and west. Each train is to be met at the station in Detroit by a band, guides, and fleets of Chevrolets which will take the men to their hotels where every arrangement has been made for their comfort and entertainment.

Program
The formal opening of the convention takes place Monday, Aug. 23, at 9 a. m., in the main auditorium of Detroit's new Masonic Temple, the largest building of its kind in the world. All the business sessions of the convention will be held in this new and beautiful building. Following Mr. Grant's introductory address Monday, several interesting and novel features will be presented by the sales promotion department. John E. Grim Jr., advertising manager, will summarize and explain the advertising campaign of the Chevrolet Company, the largest campaign ever staged in the United States. Successive days will be taken up with addresses of officials and entertainments. Special importance is attached to group meetings scheduled for Tuesday. On Wednesday representatives will take a lake and river trip on a chartered steamer. On Thursday the men will visit the General Motors' 1125-acre proving grounds at Milford, Mich., and the Chevrolet factories at Flint.

On returning to Detroit the representatives will leave for their respective zone headquarters, carrying with them the inspiration that comes from attendance at a convention that has laid the ground-work for a still more impressive record of accomplishment—a record that will be an enlarged reflection of the vigorous and tremendous vitality of the company.

Insurance Will Not Aid Safety Declares Expert

WASHINGTON.—Following an investigation extending over several years, the American Automobile Association issued a statement today expressing unflinching opposition to compulsory automobile liability insurance, which is now being agitated in many sections of the country.

The national motoring body has reached the conclusion that the claim of its sponsors that compulsory insurance would promote safety is wholly unfounded and is based on a deep-rooted fallacy. Today's statement from A. A. A. national headquarters put the proposal under ban on the following counts:

- First—It is in no sense a safety measure as there is no relation between prevention of accidents and compensation for accidents.
 - Second—All the evidence points to the probability that compulsory insurance would breed recklessness rather than promote greater care.
 - Third—It would subject the car owners in mass to a burden of 200 million dollars in compulsory premiums in order to provide protection against a comparatively few motorists who are financially irresponsible.
 - Fourth—It would tend to increase insurance rates because it would do away with the principle of selective risks.
 - Fifth—It would inevitably degenerate into state insurance and be an entering wedge for state control of every other business.
- The position of the A. A. A. is set forth in the following statement: "It is generally admitted that less than 20 per cent of motorists carry insurance, leaving something like 16 million of the total of 20 million motor vehicles of America without insurance. Consequently, if these com-

pulsory insurance proposals became law in all the states, 16 million vehicle owners would be compelled to purchase insurance, and on the basis of the ordinary premium for the amount of insurance carried, these 16 million would be required to pay more than 300 million dollars in premiums to comply with the law. This would bring the total bill, now something like 100 million dollars, to approximately 400 million dollars.

"If the present ratio should hold, in the event compulsory insurance was adopted, only about one-twentieth of the gigantic amount would be paid back to the motorists in realization on insurance after damages had been done. Thus, there would be the enormous total of 400 million dollars in premiums to carry insurance to meet but 20 million dollars in uncompensated damages."

Characterizing as a fallacy the belief that compulsory insurance would decrease accidents, the statement continued:

"When insurance is arranged for, the feeling liability on the part of the individual is lessened. No insurance can prevent suffering or restore life. No doubt, a great many motorists who are insured feel that, because of their insurance, they need not exercise so much care while driving. It would be a most human, a most natural, if unfortunate and regrettable attitude.

"If the state guarantees to pay everybody who is hurt on the roads a stipulated indemnity, the reckless and irresponsible can go the limit with no fear of anything but criminal responsibility.

"That there is a crying need for some drastic action to reduce automobile accidents cannot be denied. It is not to be wondered at that legislative bodies, civic organizations and good citizens generally are deeply concerned in finding a remedy. But it is a source of wonder that the latest medium proposed contemplates indemnity for the injured. Instead of making a real effort to enforce ample speed laws and traffic statutes and ordinances, it is proposed to let the carnage go on, seeing only that the heirs of the dead are provided for in a material sense and that the maimed and the injured are assured monetary compensation.

Shall America contemplate such a method of obtaining its patrimony, and permit financial redress to become the price of human life?"

British Plan Big Winter Programs For Broadcasting

By United Press.
LONDON.—The autumn and winter programs of the British Broadcasting company will be more ex-

tensive than ever before. Many ambitious schemes are being planned by the company and productions are to be attempted on a larger scale. Studio productions are to be continued from the company's stations and the broadcasting of a series of 12 operas is being planned. The concert world has never favorably regarded broadcasting of its talent in England and the Broadcasting company is making an attempt to overcome this attitude.

Smart New Rumble Seat For Sport Roadster

Rumble seats are justly popular. They add a smart, rakish touch to roadster lines, and increase the carrying capacity by two passengers.

That Dodge Brothers Sport Roadster now provides this convenience, will be welcome news to thousands.

Like the main seat, it is deeply upholstered in gray Spanish genuine leather, and the seat back is high and well pitched, providing unusual comfort.

When closed, the rear compartment is absolutely waterproof, even in rainiest weather.

Ample space is provided behind the main seat for golf clubs, suit cases, tennis rackets and similar luggage.

Brilliant pheasant green lacquer body and hood, strikingly in contrast with the tan top, black fenders and full special equipment, complete a general color scheme of exceptional dash and charm.

Former Cadillac Engineer Joins Oakland Forces

A. R. Glancy, president and general manager of the Oakland Motor Car Company, announced this week the election of B. H. Anibal as vice-president in charge of engineering. Mr. Anibal was appointed chief engineer for Oakland in March, 1925, after having been associated with various motor car units of the General Motors Corporation for 12 years, starting with the Olds Motor Works in 1909.

For the ten year period from 1911 to 1921 he was intimately connected with every engineering development of the Cadillac Motor Car Company, including the introduction of the first eight cylinder car in the country. He also assisted in designing the 1912 four-cylinder Cadillac which first introduced electric starting and lighting in the industry. He was chief engineer of this company for a number of years before he resigned in 1921 to accept the position of chief engineer with the Peerless Motor Car Company.

TEARLE STARS IN FILM VER-SION OF FAMOUS STAGE HIT
 Conway Tearle, popular screen lover, makes his latest screen appearance in "The Sporting Lover." This is an adaptation of the famous Drury Lane Stage hit, "Good Luck."
 "The Sporting Lover" gives Tearle the character of Captain Larence Connaughton, who has inherited a rusticated Irish castle and a lot of mortgages and debts from his ancestors and faces the problems of service in the war and of making his own living. The picture unfolds a story of romance, horse racing and wartime sacrifice.

FERGUSON'S PALAVER
AND DAN'S BIG RALLY

Cisco Preparing
For The Greatest
Meet in History

Attacks Kuklux
And Defends The
Gasoline Tax

Special Correspondence.
 CISCO, Texas, Aug. 21.—Cisco today was preparing for what is expected to be the greatest democratic rally in the history of West Texas to be held here next Thursday afternoon at 2 o'clock when Dan Moody, candidate for governor, will deliver his only speech west of Fort Worth during the present second primary campaign.

In anticipation of entertaining a crowd much too large to be accommodated in any building in West Texas, arrangements have been made to use Lobo field, home of the champion Cisco high school football team, where it is estimated 25,000 or more persons can be accommodated. Seats are permanently provided for 6,000 persons at the field, while thousands of others can be cared for. Loud speakers will be used to carry the speaker's voice to all parts of the huge crowd.

While Cisco was selected for the West Texas rally because of its central location and accessibility by railroad and highway, many other towns in this section are joining in making arrangements for the gathering. N. N. Rosenquest of Ranger, as chairman of the Eastland county Moody club, will be master of ceremonies, but many others who did not support Mr. Moody in the first campaign are participating in arrangements for the assemblage. Dr. Edgar Gobbold, president of Howard-Payne College at Brownwood and himself a Davidson man, has accepted an invitation to introduce the speaker, while even some local Ferguson supporters have

By United Press.
 TEMPLE, Tex., Aug. 21.—Bitter attacks upon oil companies of Texas and upon the Ku Klux Klan featured the address here tonight of James E. Ferguson, opening his wife's campaign for Governor in the second Democratic primary.

Governor Miriam A. Ferguson made a brief speech which she declared was her last word in this political campaign. Both she and her husband made reference to their charge that Moody has violated the election laws by accepting campaign contributions from other candidates for office and that his name should not be permitted to go upon the ballot.

Ferguson dealt with this subject at some length, quoting the election statutes and declaring that Moody has never denied that he had knowledge of the contributions and that if he had such knowledge he had no right on the ballot.

"In the closing of this campaign we find the people concerned with only three issues upon which they are going to the polls and decide this election," Ferguson said. "These issues may be stated to be (1) Fergusonism vs. Ku Kluxism (2) Moodyism vs. Legal Election (3) Moodyism vs. Gasoline Tax for Schools and Roads,"

accepted invitation to serve on the reception committee.

Besides the mammoth political rally, a banquet is to be served in honor of Dan Moody here at noon. He will be met at Brownwood where he will arrive on an early morning train, and it is now planned for the famous Old Grey Mare band of Brownwood to meet him and escort him to Cisco. The banquet will be spread at noon when representatives from all parts of West Texas will be special guests.

Every band in this section of the state is being invited to come here for the gala day, and immediately following the banquet a parade in which Mr. Moody, the reception committee, and the numerous bands will participate, will wind its way through the principal streets of the city and thence to the football field for the rally.

While most of the crowd is expected to arrive by automobile, Moody supporters in several sections are reported to be attempting to charter special trains to bring large delegations here. Moody county chairmen in all counties of West Texas are being asked to urge attendance from their districts and, if necessary, help arrange for special trains or automobile caravans.

Judge Lauds Newspapers;
Wars on Business Burglars

FOLLOWING the conviction of the proprietors of a chain of beauty shops for substituting their own product as a highly advertised hair coloring manufactured by Inecto, Inc., Judge George W. Simpson, of the Commercial Frauds Court, gave a statement today in which he said:

"It is high time that we got after these white collar bandits. Many have been punished, but the malicious practice of substitution is increasing at an alarming rate. Not only do these commercial crooks trade on the reputation built by national advertisers, which in itself is criminal, but they frequently endanger public health. The New York newspapers, and even the public, are helping the Commercial Frauds Court to unearth these fraudulent practices, and with their continued assistance we hope to carry our war to a successful issue."

"The work of Miss Ruth Weber, a public spirited young woman, who turned crusader in unearthing the beauty substitution banditry, is an example of what the public can do to the Commercial Frauds Courts."

It was through the testimony of Miss Weber that the beauty shop proprietors were convicted and heavily fined. Not only were they

guilty of fraudulent substitution, but the article they sold is alleged to have contained a dangerous chemical known as paraphenyline diamine, while the product asked for was free from poison. When Miss Weber was offered a substitute, on the representation that it was the same thing, manufactured by the same firm, she telephoned the Inecto people, asking if they had discontinued manufacturing their hair coloring product. Upon being informed that they had not, and that the substitute was not of their manufacture, Miss Weber advised bringing the case before the Criminal Frauds Court.

Judge Simpson may be said to play the role of Arthur Train's "Ephraim Tutt" in digging up convicting evidence. He is the sole presiding justice in the Commercial Frauds Court the only one of its kind in America, which holds sessions in the Criminal Courts Building, New York. Judge Simpson has a record of 98% convictions, only two per cent. having escaped indictment by the grand jury or conviction by the Court of Special Sessions. The court has protected such famous names as Gillette, Houbigant and Worumbo. It was founded in 1922 at the suggestion of District Attorney Banton, of New York.

the former Governor declared.

In defining his advocacy of a 3c tax on gasoline Ferguson launched into an attack on the oil companies, declaring that they and Moody are lined up together for the purpose of defeating this tax.

Mrs. Ferguson's speech was brief, requiring but a few minutes. "I come here tonight to say my last word in this political campaign," the Governor said. "As everybody knows I entered public life because of my conception of a public duty. I am continuing in public life because of same reason. I am no longer impelled by personal ambition, and whether I suffer or gain victory in this campaign, matters but little to me."

"I am fighting for a principle—for the rights of the people and for the education of the children. Let me again say boldly that I did not resign and I will not withdraw from this contest and turn this State unopposed over to the Ku Klux," she said.

Ferguson in support of his gasoline tax proposal said the people did not pay the tax but that it is paid by the oil companies. "The oil companies make the people pay all they can stand whether we have a gasoline tax or not," he said. "Therefore whatever tax can be collected from the oil companies by law is just that much saved to the tax payers and if the government does not levy the tax on these oil companies who have made billions out of the price of gasoline, then the government will be compelled to levy an addition ad valorem tax on the real estate and personal property of the people to provide for the maintenance of their schools and the construction and upkeep of roads."

Ferguson said the price of gasoline in California generally is cheaper than in Texas, although the Pacific coast State levies a 3c gasoline tax.

EASTLAND FOLKS RETURN
FROM TOUR OF WEST

Mrs. H. E. Lawrence of Eastland and her sister, Mrs. E. F. Agnew of Rising Star, returned Friday evening from a two months trip through California, Utah, Idaho and Colorado, visiting many of the principal cities in each of these states where they had relatives and friends.

 RANGER EASTLAND

Free! Free! Free!

(AND WE KNOW WHAT THAT WORD REALLY MEANS)

We're not known as Ranger's and Eastland's leading philanthropist. If you came in and asked us for a tire for nothing We'd throw a fit. But here's a fact:

Our whole business is built upon the truth that We give away more FREE miles than any other tire dealer in Ranger or Eastland.

Just big-hearted? No, sir! But, believe us, We're dead sure that automobile owners are smart enough to buy their tires where they get the most miles for their money.

So here's what we do: We sell Goodyear Tires. And then we maintain the finest Tire Service Station to give our customers every convenience, and to enable them to get every last mile that Goodyear builds into these wonderful tires.

Now, what's your idea of a Tire Service Station? Some dealers seem to think that a Free Air sign makes a tire store a service station.

Our idea is different. When you drive up here and toot your horn you learn the difference. Of course, if you think it's fun to play with the air hose yourself and get your hands and best pant dirty, we'll let you do it.

But we really like to inflate tires properly (and free of cost) while you sit in the car, or look over the show-cases, or rest in a comfortable chair.

There's no "catch" to this. You can't even slip anybody a thin dime.

While you're here, take a look at the equipment we have for making any repair your tires may need. It's interesting, and the best equipment of the kind in Ranger and Eastland.

When our boys do a job you can bet your last nickel that it's right; that it will give you longer wear, more certain safety, and general satisfaction than you can get anywhere else. And because we have the right men, the right materials, and the right equipment, these jobs can be done at astoundingly small cost.

Those extra miles are free miles, and you get them in return for letting us give your tires a little attention at regular intervals—say, once every week or ten days. Keeping accurate pressures in balloons is the whole secret of balloon tire economy.

If you want the very best tire money can buy, we'll show you the famous Goodyear All-Weather Tread for your car. If you want the very best tire that little money will buy, we'll show you Goodyear-built Pathfinder Tires—genuine cords.

And here! The price we name will be the honest price. We won't try to kid you into buying by knocking off a few cents. Neither will we rub a little dirt on a tire and tell you it's a "soiled bargain." And we have no "special prices for extra good friends." Our prices on Goodyear-built tires are low and honest, like these—

30x3½ Pathfinder Cord, . . \$8.75
31x4. Pathfinder Cord, . . \$14.90

(That's just a couple. Other prices in proportion. By all means ask the price for your size before you let yourself be kidded into some "extra fancy discount" story.)

Come on over. Help yourself to the best tire service. We're giving away thousands of free miles every week, and you really ought to get your share.
