Nathan Hale was born at Coventry, Conn., June 6, 1755, and was graduated with honors at Yale in 1773.

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary Shawnee, Okla., Board of Commerce.

That no city is immune from hard knocks. That if a city has a community spirit well-developed, hard knocks just spurs it on to greater achievements.

That if it has a few narrow-gauged citizens, it should pass on and forget them.

That narrow-gauged citizens are just fellows living in the past and only thinking of themselves. They don't amount to much anyway.

That if nobody cared, a city would not last long.

That a city where the people care is always a progressive city.

That a city where the people contribute generously of their time and money to help it on its way, always becomes a greater city.

That a city should not expect something for nothing; they won't get it.

That a waiting policy never brought any new industries.

That if they are worth having, they are worth going after.

Some cities are always going to do something. Now is the time to act; get something done.

Oil Flows Freely In Persian Fields

LONDON, April 23.—Oil flows so freely in Persia that the natives scoop it up by the pailful and use it like money in the purchase of food and goods.

This feature of the oil wealth of the Near East has come to light in connection with the extensive concession recently granted to the Turkish Petroleum company by Persia's neighbor, Iraq.

The Mesopotamian fields, like the Persian, are being exploited primarily by the Anglo-Persian Oil company. This company figures notably in the \$5,000,000,000 behind the Turkish Petroleum company, a fusion of British, United States, Dutch and French interests, and it has a concession of 500,000 square miles in Persia.

It is reliably stated that the Persian deposits are so rich that their production could be increased tenfold, if necessary, with the development of pipelines and refineries.

In some parts, it is said, oil flows spontaneously into the rivers, making the water unfit for consumption.

The country is declared to be one of the few where spontaneous springs and seepages reveal certain indications of the existence of this liquid treasure.

The Anglo-Persian recently has opened up a new field at Naft Khana, within what are known as the Transferred Territories, and which now form part of Iraq.

British financial observers are awaiting with great interest the forthcoming delimitation of Iraq's frontier to see how much Mosul will be affected, for one of the richest oil deposits of the world is located in the Mosul area.

YOU SHOULD HAVE THE BEST IF YOU NEED A MEDICINE

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicine preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended to those who are in need of it.

For example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale.

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many peo-

ple claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Advertisement.

Wool From 30,000 Sheep Used Daily By One Carpet Mill

The wool used daily in the weaving of carpets and rugs by a New York manufacturer is equal to the shearing from 30,000 sheep. The soft, rich coats of these animals are turned into the looms at the rate of 12,000 pounds every day.

These and many other interesting facts were revealed recently through the publication of statistics concerning their mammoth mills at Yonkers, N. Y., by Alexander Smith & Sons Carpet Company, said to be the largest manufacturers of carpets and rugs in the world.

If all the wool used in these mills were reckoned according to the num-

ber of animals from which it is sheared, a year's output at the mills would represent the clip from 9,000,000 sheep—a number which would constitute herds beyond the imagination.

For the manufacturing of all this wool into American-made carpets and rugs, the energy and industry of 7,600 employees is devoted with a spirit of cooperation craftsmanship resembling the loyalty given to his individual loom by the smaller weaver of by-gone days.

This army of workers operate 1,500 looms, with a total daily production of 90,000 carpets and rugs. Place one day's tremendous output in a continuous line and would make a strip of carpet 53 miles long. In one year of eight-hour working days, the 1,500 looms turn out 28 million yards, making an annual production of almost 16,000 lineal miles. The carpet made through a year's effort would reach more than half way round the world.

Every hour this mill produces, 11,250 yards, or 187 1/2 yards per minute. The amount of mechanical energy entering the work may be fancied from the fact that the company uses 225 tons of coal every day. And all this activity takes place in mills which occupy 52 1/2 acres of floor space, ample area to accommodate the parking of about 40,000 motor cars.

It is interesting to note that the founder of these giant mills was also the administrator of the famous Axminster loom. The institution which has carried on since 1860 has specialized, it is said, in the making of four basic weaves known as Axminsters, Velvets, Tapestry, Brussels and Wilton Velvets.

By United Press.
PARIS, April 23.—Returning to the senate for the first time since he was condemned there by the high court of the senate and sentenced to exile, Joseph Caillaux tranquilly took his seat on the ministerial bench today. Not the slightest disturbance marked his appearance.

The calm in the senate today with the galleries nearly empty was in sharp contrast with scenes in the chamber of deputies yesterday and the day before.

CONGRESS OF PARENTS AND TEACHERS NEAR

National Convention Meets in Austin April 27-May 2; To Feature Exhibits

One interesting feature of the annual convention of the National Congress of Parents and Teachers, which convenes in Austin April 27th to May 2nd, will be the educational exhibit which has been arranged. The Marie Antoinette Ball room on the mezzanine floor of the Stephen F. Austin hotel has been given over to these exhibits.

First in interest to the delegates will be the state exhibits. These will consist of maps marked to show district, county and local organizations and all bulletins, leaflets, constitutions for state, district, and local clubs, loan papers, etc., everything used in the states with a place here. Highly organized states like California will have exhibits that will be of real value to less well organized states.

Next in interest will be the publicity exhibit for the national. This will consist of not only state bulletins, clippings, and articles written by the publicity directors and chairmen, but will be so arranged as to show the comprehensive plan of the national organization for publicity. The states are divided into sections, each with a sectional director, five or six states to the section. Each state publicity chairman has prepared a map showing the organization of her state as to districts or counties, indicating on this map the live reporting local press chairmen, and has sent these to her sectional manager. Clippings and articles showing the kinds of publicity and an estimate of amount will be included in reports.

The national chairman of publicity, Mrs. Laura Underhill Kohn of Peekskill, N. Y., with her assistant, Mrs. Abbott, will arrive in Austin Friday, the twenty-fourth, and will place this exhibit.

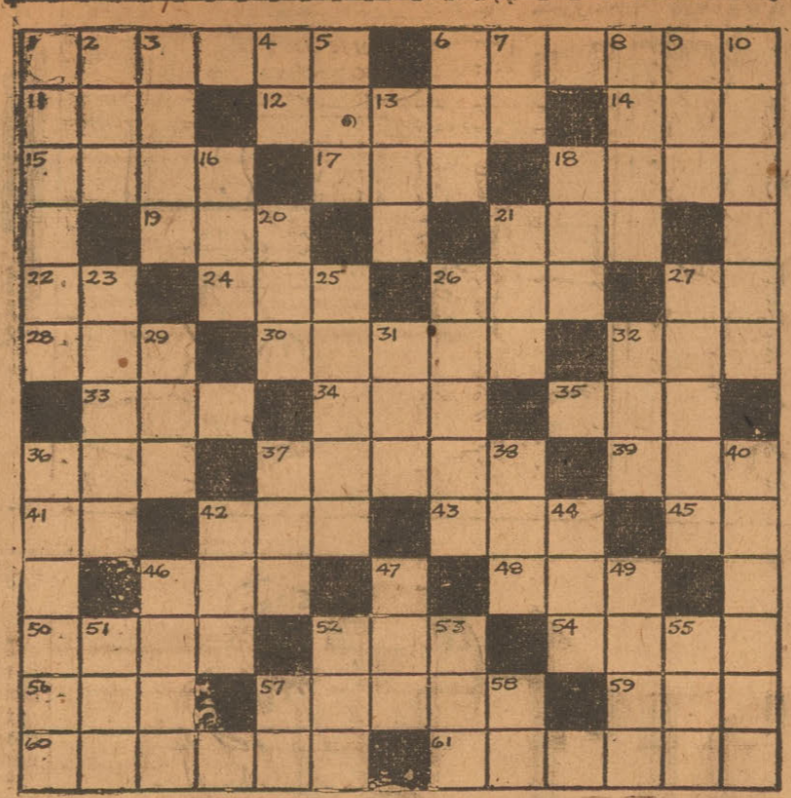

Other national departments will have their exhibits and with those of the co-operating organizations will completely fill this large ballroom.

The following organizations have signified their intention of placing exhibits and already many have arrived: Better Homes in America, Boy Scouts of America, American Child Health association, Camp Fire Girls, Abington Press, Bureau of Education-Home Education division, Department of Agriculture-Home Econ. miss. Division, National Child Welfare association, American Medical association, Federation for Child Study, Children's Bureau-Department of Labor, National Dairy council, Safety council, American Library association, American Social Hygiene association, National Kindergarten association, and Bureau of Education-Kindergarten Division.

Mrs. Karl Eaton of Springfield, Mo., is chairman of exhibits and plans to come a day or so early and arrange all exhibits. A local committee, headed by Mrs. Stephen Channes, will assist.

CARD OF THANKS.
I sincerely wish to express my appreciation for the loyal support of my friends and for the votes cast during the recent contest for Miss Ranger. MABEL KNIGHT. (Advertisement)

MAKE YOUR FACE AS LOVELY AS YOU ARE

All most people see in anyone is what is on the outside. Naturally, those who are handicapped by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention. You can "make the face as lovely as the picture really is" by simply getting rid of those skin disfigures, if you will just use Black and White

Ointment, and Soap. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be around you. They are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.—Advertisement.

Right Again!

Abraham Lincoln once said he had "rather be right than president," and he was both. We don't aspire to the presidency, but we plead guilty to a great hankering for Right Merchandise, especially Footwear.

Menus for a Family

Breakfast—Grapefruit juice, hash with pbached eggs on toast, crisp wheat toast, milk, coffee.

Luncheon—Vegetable luncheon, steamed brown bread, keswick pudding, sponge cake, milk, tea.

Dinner—Boiled mutton, caper sauce, boiled potatoes, stewed tomatoes with toast cubes, molded spinach salad, combination sandwiches, peach tapioca pudding, milk, coffee.

Sandwiches are often served with the salad to add to the food value as well as the "tastiness" of the course. In this instance, the sandwiches add a pleasant touch to a mildly flavored salad besides increasing the nourishment.

Vegetable Luncheon
One pound dandelion greens, 8 tiny new beets, 1 head cauliflower, 1 bunch asparagus, 1 tablespoon minced parsley, 1/2 cup butter.
Wash and look over greens, removing the roots. Let stand in slightly salted water for half an hour. Drain and cook in boiling water to cover until tender. Wash beets carefully, making care not to break the skin. Cut off tops about two inches from the beet and cook in boiling water until tender. Dip into cold water and rub off skins. Let cauliflower stand in cold salted water, head down for half an hour. Separate into florettes and cook in boiling salted water until tender. Drain from water. Cut the tough ends from the asparagus and tie in small bunches. Put into boiling water, standing the bunches up so that the heads are out of the water. When the stalks are almost tender, wash beets carefully, making care not to break the tips. Drain if necessary. Arrange vegetables in a deep platter, separating one vegetable from another by strips of toast. Season the greens with salt, pepper and lemon juice. Season the beets with salt, butter and minced parsley. Pour the following sauce over the asparagus and cauliflower. (Copyright, 1925, NEA Service, Inc.)
