## WEST TEXAS NOW HOLDING ITS REUNION

### OFFICERS PUT SALE OF "JAKE" UNDER THE BAN

Notify Dealers To Use Care In Selling Preparations Containing Alcohol.

Following the recommendation made by the recent Eastland county grand jury regarding the enforcement of laws relating to the sale of preparations containing alcohol, County Attorney W. J. Barnes, Sheriff R. W. Edwards and Chief of Police H. E. Lawrence of Eastland have addressed a letter of warning to dealers handling such goods, notifying them they expect to enforce the laws governing such matters and prosecute those guilty of such law violations. The officers also appeal to the citizenship of the county to assist them in doing their duty by calling their attention to violations of the law.

Following is the letter, dated at Eastland on May 1, 1925, addressed "To Whom It May Concern," and signed by R. W. Edwards, Eastland county, Texas; W. J. Barnes, county attorney, and H. E. Lawrence, chief of police, Eastland, Texas:

"It has been continually called to our attention that there are a great number of persons in the county selling Jamaica ginger, extracts and other similar preparations containing a large percentage of alcohol. It is reported to us that these preparations have been sold under circumstances that would convince any ordinary prudent person that these articles were sold to be used as a beverage.

"Notice is hereby given that we intend to prosecute all such sales reported to us in the future, and we suggest that all persons carrying the above mentioned articles in stock do absolutely refrain from selling these articles unless they know they are sold for cooking or medicinal purposes only.

"We will appreciate any citizen who knows of any violation of the above mentioned matters reporting it to us immediately as we intend to prosecute all persons guilty of such offenses."

### Examiner of Aliens For Naturalization Visits Eastland

Charles F. Tucker, naturalization examiner for the northern district of Texas, is in Eastland for the purpose of examining aliens, of which there are several who have made application through the courts here. A hearing will be given them in the eighty-eighth district court Wednesday.

Heretofore applications had to be sent to Abilene for this district, but they can now be filed with the clerk of the district court in Eastland. The examiner comes twice each year and will be in Eastland again in October.

### RADIO PROGRAMS.

WBAP, Fort Worth, 475.9 meters: 7:30 to 8:30 p. m., concert given by the Old Gray Mare band broadcast from the convention hall, Mineral Wells; 9:30 to 11 p. m., band concert broadcast from the Baptist church, Mineral Wells. The following bands will be heard: Hundre and Eleventh Medical corps, John Tarleton college and North Texas Agricultural college; 11 p. m. to 1 a. m., ball given in honor of Miss West Texas, broadcast from the convention hall, Mineral Wells.

### SPEAKERS AT COMMENCEMENT EXERCISES OF C. I. A.

DENTON, May 5.—James Hampton Kirkland, chancellor of Vanderbilt university at Nashville, Tenn., has been selected as the commencement speaker at the graduating exercises of the College of Industrial Arts on June 2. Dr. Peter Gray Sears, pastor of the Episcopal church at Houston, will deliver the baccalaureate sermon on June 1. Chancellor Kirkland is well known in Texas, having visited the state often in the interest of various alumni movements. He has served as head of Vanderbilt since 1893 and has attained considerable reputation as an editor and author.

### MAY TERM OF 88th DISTRICT COURT OPENS.

Judge Elzo Been opened the May term of the 88th district court Monday morning. Today the non-jury docket will be called for orders. The following cases are set for hearing Wednesday:

Eastland county vs Green Hazel et al.; Eastland county vs H. A. Collins et al.; Eastland county vs Tom Harrell et al.; J. R. Stubblefield vs E. T. Murray.

### SHEPHERD VERY WEAK MAN, SAYS PROSECUTOR

Compares Alleged Germ Murderer and Wife With Macbeth and Lady Macbeth.

CHICAGO, May 5.—William D. Shepperd, indicted for the poison murder of Billie McClintock, and Mrs. Shepperd, his wife, are a modern Macbeth and Lady Macbeth, Chief Justice Harry Olsen, conducting the case for the state, declared today. Summing up the evidence at the inquest into the death of Billie McClintock, Mrs. McClintock and Dr. Oscar Olsen, he said:

"Sixteen years ago a poison conspiracy was hatched to gain the McClintock fortune. Shepperd and Mrs. Shepperd entered into that conspiracy. The characters are like Macbeth and Lady Macbeth. Like Macbeth Shepperd is a weak man with little will power and little courage, he has a woody mind. Like Lady Macbeth, Mrs. Shepperd is a powerful woman, strong in will and possesses a driving force.

### 'Casey' Jones of Eastland Has Two Ribs Fractured

"Casey" Jones, oil field worker of Eastland, sustained two fractured ribs and other possible injuries Monday morning in an accident at the well where he was at work on the Holcomb lease, just east of town. He was working for M. H. Lobough, who brought him into Eastland to the sanitarium where he was given medical attention.

About 60 or 90 days ago Jones had one of his arms broken while working on a well being drilled southwest of town by the Leon Oil company and had just recently got able to work.

### Riffians Trying To Drive Spaniards Out of Morocco

PARIS, May 5.—A new and important battle is under way in the region of Bbano, on the west of the French line in Morocco, it was officially announced today. General Colombat is endeavoring to relieve important outposts.

The Riffians, who were driven back yesterday west of the river Ouergha, losing 50 killed and many prisoners, are putting up a strong resistance.

TANGIERS, May 5.—Abd-El-Krim, the fighting Riffian chieftain, marshaled heavy forces at the holy city of Sheshaun today and apparently has planned a concerted attack on the Spanish line fortified by General Primo Rivers on the frontier of the Tangiers zone. It is believed that Krim's attack on the south is merely a diversion aimed to deceive the Spaniards.

### Greenville Banker Faces Charges of Bank Law Violation

DALLAS, May 5.—Charges of violations of the national banking acts were filed here today against William Kemp, cashier of the Commercial National bank of Greenville. The charges were filed against the cashier following the discovery of an alleged \$80,000 shortage in Kemp's accounts, according to E. H. Geehan, department of justice agent. Kemp was recently taken into custody in Kentucky, but came to Dallas and voluntarily surrendered.

### Prisoner Shot to Death In Oklahoma

HUGO, Okla., May 5.—Hugh Cochran, 45, was shot to death at Antlers, north of here, during the night, by Deputy Sheriff Ben Bedford, according to advices here today. No details were given.

Several cases of homicide were pending against Cochran in Pushmataha county, officers here said. The killing was believed to have grown out of Cochran's arrest by the deputy several weeks ago in which the officer was forced to beat his prisoner into submission.

### BRAZILIAN REVOLUTIONISTS CLASH WITH PARAGUAIANS

ASUNCION, Paraguay, May 5.—Paraguay cavalry clashed today with a force of Brazilian revolutionaries who crossed the frontier, according to the newspaper El Libero. Several of the intruders were killed in the engagement and 60 captured.

### Queen of Appleland

Huma Erickson of Wenatchee, Wash., will reign as 'Queen of Appleland' at the Apple Blossom Festival in celebration of the world's record for apple production for one community, 12 million bushels.

### FOREST OF DRILLING RIGS BEGINNING TO MARK SITE OF RANGER'S LATEST OIL POOL

A veritable forest of rigs is rising rapidly in the new pool whose general direction was extended by the bringing in of the Pritchard No. 1 last week. Rigs are being built while a number of operators are spudding in this week on their tests. With the majority of the wells that are now being made ready for drilling offsetting the Pritchard well, a number of additional producers are expected within the next 60 to 90 days.

Leasing is assuming large proportions, as farmers owning land in the vicinity of the well are in Ranger trying to locate operators to lease. Virtually the entire territory surrounding the well is under lease, with activities in all directions as the mad rush to grab the available territory is at its height. Operators who have leases further south than the location of the Pritchard well are holding off awaiting the outcome of the drilling of the offsets in an effort to determine the exact direction of the pay formation from which the Pritchard and Langford well are producing. With both wells flowing natural, it is impossible to determine whether the pay formation is sand or limestone. A thickness of structure ranging from 40 to 50 feet is available for drilling in the wells, according to estimates made by drillers working on the wells.

Thomason-Carters Langford No. 1 that came in about 10 months ago for 850 barrels, flowing by heads, is still maintaining the rate of production that it has had ever since the well was drilled in. Steadily to 225 barrels, then dropping to 250 and back up to 375, the well is now holding steady again at 325 barrels a day, flowing a heavy head every two and one-half hours, according to Barney Carter, one of the owners. The Thomas-Carten Langford No. 2 is now down 2,500 feet with the six-inch casing set last week.

The Langford No. 3 is now being spudded in, offsetting the Pritchard well on the north.

Corzelius Bros. and Weaver are spudding in on their Sikes No. 1, offsetting the Pritchard well on the southeast.

Jerome McLester et al. are spudding in on the northeast 40 of the Pritchard lease, offsetting the Pritchard No. 1.

Hickey, Hart and Carter are spudding in on their Pritchard No. 2, located on the south 84 acres of the Pritchard farm. They are also preparing to rig up on their No. 2 and 3 wells on the same lease.

Barkley, Six and Little are making a location on the southeast corner of the northwest 40 of the Pritchard lease, where their first well came in.

### Europe Will Get No Financial Aid While Nations War

WASHINGTON, May 5.—President Coolidge is hopeful that Ambassador Houghton's speech in London last night, warning European nations that further American financial help is dependent on maintenance of peace, will be helpful to the world as to what this government is trying to do and what it hopes will be accomplished in Europe, a white house spokesman said today.

### GEORGIA TECH FOOTBALL COACH IS FOUND DEAD

ATLANTA, May 5.—Fay F. Wood, line coach of Georgia Tech football eleven, was found dead in his home today, his head mutilated by a lead shot. Police believe he killed himself. A small shotgun was found nearby. He had been in bad health for some time, friends said.

### GOVERNOR HAS ISSUED NO PARDON FOR TWO DAYS

AUSTIN, May 5.—Gov. Miriam A. Ferguson has slowed up in the exercise of her pardon power. For two days it was announced at the office today she has not issued any proclamation extending clemency.

### WITNESS SAYS MEN EXECUTED WERE INNOCENT

Declares His Testimony Which Sent Them To Electric Chair Was False.

BROOKLYN, May 5.—Nicholas Lucinao, long lost witness who testified to the killing of the two west end bank messengers, today was quoted by the police as having told District Attorney Charles J. Dodd that his testimony which sent Morris and Joseph Diamond and John Farina to the electric chair last Thursday was "absolutely false."

Lucinao, who surrendered to the police in Bayonne, N. J., has been arrested and is held on a charge of perjury.

Lucinao had previously, in an affidavit, branded his testimony as false, but the authorities gave no credit to it because Lucinao was missing.

BROOKLYN, May 5.—Three men were electrocuted at Sing Sing last Thursday after being convicted of complicity in the murder of the West End bank messengers on testimony which Nicholas Lucinao, state's attorney, now says was perjured.

Tomorrow, District Attorney Dodd will bring Lucinao, who is held on a charge of perjury, before the grand jury.

If it is found Lucinao gave false testimony, Anthony Pantano, now in the death house at Sing Sing and a fifth defendant awaiting trial in Italy may escape the fate of their three companions, but in the case of Morris and Joseph Diamond and John Farina, who were put to death last Thursday, his recantation comes too late.

### WRECKING CREW ENDING MADISON SQUARE GARDEN

Historic Edifice In New York Removed From March of Progress

NEW YORK, May 5.—Chunk of crowbar and pickax into plaster, ring of hammer and whine of saw sounded through the tower of Madison Square Garden today as a wrecking crew began the final assault upon the historic edifice that has been a New York landmark for 35 years.

Pine scaffolds reached up to bring down Diana, undrained diety, by St. Gaudens, which tops the Moorish tower designed by Stanford White. The latter's apartments and studio, which figured so fantastically in the famous trial of Harry K. Thaw for White's murder 19 years ago, were the first to be demolished. Nothing remained of them when the workmen broke the rusted locks save walls and dust and a few massive pillars. The mirrors that once covered these walls and the lavish appointments that led Stanford White to notoriety greater than the fame won by his architectural skill, had long since been carried away.

A step lower down, where the roof garden, scene of the sensational murder, stretched from the tower's base to Madison avenue, nothing remains but the ornate steel cage of what was once an elevator shaft to remind one of the days of the fin de siecle and later when the smartest of New York society and the fastest of the sporting crowd came to wine and dine at the garden.

### British Delegates To Ad Convention On Way to Texas

NEW YORK, May 5.—Twenty of the British delegates to the convention of the associated advertising clubs, who arrived here yesterday on the Cunard liner Samaria will leave Thursday for Houston, Texas.

### HOUSTON POLICE PROBE INTO ALLEGED HOLDUPS

HOUSTON, May 5.—One woman and five men were held by police today for alleged complicity in an attempted holdup of a street car here by Jack Henderson, 17.

Henderson is in the hospital suffering from wounds received when his gun was turned on him by J. W. Lindley, operator of the street car. Lindley was shot three times in the holdup. Both will recover.

### METHODISTS OF CISCO DISTRICT IN CONFERENCE

Sessions Being Held Today and Tomorrow In Ranger Methodist Church

The annual conference of the Cisco district of the Methodist church south, first session was held this morning at the Ranger Methodist church at 9 o'clock.

About 200 delegates from the 20 pastoral charges were present when the business meeting was called to order. Twenty-one ministers with officials of the various churches and delegates from the stewards and laymen were present when Presiding Elder L. A. Webb of Cisco called them to order.

The conference will be held in Ranger today and tomorrow, attended by the various church delegates comprising this district. Questions concerning the welfare of the Methodist church and other important matters will come up before the delegates for discussion.

A large delegation of Eastland Methodists headed by Rev. J. H. Stewart, pastor of the First Methodist church of Eastland, are in Ranger today attending the district conference of the Methodist church for the Cisco district.

Among the Eastland delegates are Rev. and Mrs. Stewart, R. E. Sikes, Earl Bender, T. L. Overbey, J. A. Caton, Mrs. J. A. Caton, George Brogdon, and Mrs. F. J. Drago.

### Russian Communists Expect To Achieve World Revolution

MOSCOW, May 5.—The communist party is conferring regarding the problems of the communist internationale. Gregory Zinoviev, secretary of the latter body, again today repudiated the suggestion that the internationale had any connection with the bomb outrage at Sofia cathedral in which many were killed.

Predicting that the allies will try to play President Hindenburg of Germany against Russian Zinoviev quoted Andrew Mellon, American secretary of the treasury, as saying that Hindenburg's election strengthened conservatism against bolshevism. The speaker rejected the idea that Russia cannot achieve socialism because the world revolution is afar off.

"We must remind our comrades that we expect final victory on an international scale, and that having conquered in one country we shall do all that is possible to support the revolutionary movement in other countries," he said.

### Development of Gas Adding to Industry

HOUSTON, May 5.—Universal use of gas in industry and the home is an inevitable development of the future and will result in a gas industry, three times its present size, according to H. C. Abell, president of the American Gas association, in an address today before the convention of the Southwestern Public service association.

In addition to holding the office of president of the national association of manufactured gas companies in this country and Canada, Mr. Abell is vice president of the Electric Bond & Share company, of New York. He has been associated with the public utility business in the southwest for 20 years.

While we marvel at present-day inventions like the radio and wired photography, Mr. Abell declared that the gas industry is making strides that will completely revolutionize the living habits of Americans of the next generation.

"America will be the first nation to have its homes heated by gas, thermostatically controlled," he said. "We will be the first nation to discard ice for gas-operated refrigerators; the first to universally adopt the temperature method of cooking food by gas, and the first to outlaw smoke, soot and ashes by gas heat instead of solid fuel for all heating processes in shops and factories."

### GULF PIPE LINE COMPANY INCREASES CAPACITY

LUFKIN.—Capacity of the Gulf Pipe Line company's line from Smackover, Ark., to booster station junction, north of here, will be increased 4,000 barrels a day. The present capacity is 8,000 barrels a day.

Six loops of six and eight-inch pipe will be distributed over 80 miles of line between Dabberly, La. and Lufkin. The line probably will be finished May 15. Three crews, one working on each end and one in the middle, are being used.

Production of Smackover is around 20,000 barrels a day, part of which is being stored.

### CHAMBER OF COMMERCE IS THE LODESTAR

Shrine Day Convention In Mineral Wells Paves Way for Big Events Today.

MINERAL WELLS, May 5.—Shriners day, the opening day of the West Texas Chamber of Commerce, meeting here in seventh annual convention, was replete with spectacular drills by the Moslah patrol of Fort Worth. Many of the visiting shriners of other temples joined in the high parade held in the afternoon.

The roads leading into Mineral Wells were jammed with automobiles carrying delegates to the convention, while special trains carried additional thousands into town. Between 10,000 and 12,000 visitors jammed the resort city all full of good fellowship and the carnival spirit. Some estimates placed the attendance at more than 30,000.

Dozens of bands, the flower of West Texas, vied with one another throughout the day in the band contests and in leading the parades of their respective organizations as they arrived in town.

A full days program occupied the attention of delegates and visitors on the initial day, from the business session in the new convention hall during the morning to the closing event of the day the ball tendered by Miss Jane Beeler as "Miss Mineral Wells" in honor of the matrons and maids of honor and visiting sponsors, held in the evening at the country club.

Following a luncheon Monday given by the Mineral Wells Chamber of Commerce for officers and directors of the West Texas Chamber of Commerce, brief talks were made by: L. E. Seaman of Mineral Wells, Clifford B. Jones of Spang, William Ochs of San Antonio, former Lieutenant Governor Lynch Davidson, of Houston, Leonard Whittington, republican party organizer in Texas, and Porter Whaley manager of the West Texas Chamber of Commerce.

U. S. Senator Earle B. Mayfield arrived Monday with his accustomed smile. U. S. Congressman Fritz G. Latham, Lieutenant Governor Barry Miller also came in late Monday. U. S. Senator Morris Sheppard, who is due to speak Wednesday, was expected here today.

Ranger Boy Scouts, 27 in number, made a splendid showing when the Ranger delegation descended in force on Mineral Wells shortly before noon today. Nearly one thousand delegates arrived from Ranger today, bringing the number of the delegation from the metropolis of the oil belt to well above one thousand, many having come yesterday.

The boy scouts under the leadership of Senior Patrol Leader Jack Sanderford, came in a truck of the Leveille-Maher Motor company, of Ranger and in a few private cars, but at the edge of Mineral Wells they tumbled into infantry formation and marched well and bravely through the streets, following the Ranger, Texas, Ranger Band, which already has made a big hit in Mineral Wells, although here only a little while. B. H. Peacock, city engineer of Ranger and one of the scoutmasters, accompanied the boys, but did not march with them.

The roll of the Ranger Boy Scouts patrol here follows:  
Jack Sanderford, senior patrol leader; Carl Pratt, Richard Alsworth, Bobby Sanderford and Vincent Bennett, patrol leaders; Frank Plumley, E. Mitchell, H. Simpson, Leon Burns, Denzil Kelly, E. Horton, Polk Robinson, Donald Champion, Rex Alsworth, A. W. Bishop, Sidney Long, Fred Grant, Lewis Greag, J. R. Roberts and James Garver White.

### CONVENTION NOTES.

Miss Mary Massa, representing Ranger at the West Texas Chamber of Commerce convention, as Miss Ranger, arrived in Mineral Wells Monday. Miss Massa was accompanied by Howell Gullahorn.

Mrs. J. L. Thompson, who is Madame Ranger, arrived in Mineral Wells Monday afternoon, accompanied by Mr. J. L. Thompson.

Many Ranger people are in Mineral Wells, but a larger delegation is expected over today. Ranger headquarters are at 410 Oak street.

### Ranger, Cisco, Eastland and Rising Star Will Enter a Float in the Parade at Mineral Wells Today that will emphasize the poultry industry in Eastland county. This float will be one of the features of the parade.

### H. P. Jackson Named Mayor of El Paso Succeeding Dudley

EL PASO, May 5.—H. P. Jackson, finance commissioner of El Paso, was unanimously elected today to fill out the unexpired term of Mayor R. M. Dudley who died last Friday. Jackson will serve almost two years under today's election.

**BIBLE THOUGHT**  
Let that therefore abide in you which ye have heard from the beginning. If that which ye have heard from the beginning shall remain in you, ye also shall continue in the Son, and in the Father.—I John 2:24.

**THE MOST LAWLESS NATION.**  
Should it not alarm us to learn that more robberies are committed in a year in New York or Chicago than in all England, including Scotland and Wales? Should we not hang our heads in shame to discover that, on the basis of each 100,000 population, homicides were seven times as numerous last year in the United States as they were even in Spain, and that America is the most lawless country in the world?

The average age at which crime is committed has been lowered in the last five years by at least three years. Most crimes are now committed by boys. It is terrible thing to read that "the average hardened criminal is about 17."

There are causes, of course, and nearly every investigator traces these causes back into the home, the moving pictures, the school and the church.

There are remedies, too, in better churches, better schools, and better homes—but as these remedies involve pronounced effort we prefer to wait for the other fellow to act—and crime continues to multiply.

**THE FLAG OF PEACE.**  
"Flag Week," which this year will be the week of May 23-30 will be an event of more than the usual importance in arousing all Americans, but particularly the boys and girls of the land, to a keener sense of their own responsibilities, as well as a better understanding of the symbolism of the flag.

The United States Flag association is arranging a program designed to affect the effort to make it appear that the national emblem inspires only thoughts of war. It is these who have sought to discourage its display on schoolhouses, on public buildings and elsewhere. The lesson sought to be impressed is that the flag is emblematic of peace rather than of war, and that true patriotism may be expressed in a rededication of all hopes and desires to the cause which teaches a continuing and true patriotism.

The Japanese government frowns upon foreign loans, holding that they are inimical to business interests of the nation. The minister of finance points out that the importation of foreign capital now amounts to \$1,600,000,000 yen, for which the country will have to pay more than 1,000,000 yen as interest each year to the foreign money lenders, increasing the national burden. While the government cannot enforce restriction, it is indicated that firms making loans abroad will be made to suffer in other ways.

A Detroit grand jury declares that several departments of the city administration is honeycombed with graft, corruption, theft and extravagance, and names five prominent men for whom it demands arrest and punishment. The list includes paving contractors, a banker and heads of departments. There are more than one kind of bootleggers, but they all come under the same head.

By order of the postmaster general transcontinental air mail service will be reduced to less than 29 hours between New York and San Francisco. When the air is full of Ford flyers the government will be compelled to establish an air patrol to keep the right-of-way clear.

### WESTMINSTER GUILD MEETS WITH MRS. CASH.

Members of the Westminster guild met Monday afternoon at the home of Mrs. Walter Cash where a delightful social hour was enjoyed and plans were made for decorating the Presbyterian church for Mothers' day. The hostess served delicious refreshments. Those present were: Mrs. H. B. Horton, Mrs. C. S. Bronstadt, Mrs. K. C. Jones, Mrs. J. M. Ralston, Mrs. C. C. Austin, Mrs. R. M. Morrison, Mrs. W. R. Lowe, Mrs. Katherine Potts, Mrs. G. P. McCobb, Mrs. Peters, Mrs. J. J. Kelly, Mrs. C. F. Underwood, Mrs. Katherine Gilson, Mrs. T. J. Holmsley and Mrs. W. P. Lacy.

### MRS. DEMMER HOSTESS TO ST. RITA'S SOCIETY.

St. Rita's Altar society had its monthly business meeting on Monday afternoon with Mrs. Demmer in the home of Mrs. Nannie Walker on Caddo road. Plans were completed for the party which will be given Friday afternoon at 2:30 o'clock at St. Rita's Catholic school for the ladies of Breckenridge, Eastland and Cisco. The Ranger altar society will be hostess and has planned many novel and entertaining features for the afternoon. Those present on Monday were Mrs. Smith, Mrs. Yonker, Mrs. W. N. Bourdeau, Mrs. Campbell, Mrs. Whalen, Mrs. Higginbotham, Mrs. Demmer, Mrs. Sullivan, Mrs. Becker, Mrs. Charles Dyar, Mrs. P. J. O'Donnell, Mrs. George Fingler, Mrs. W. N. McDonald.

### WILLIAMS-WRENN MARRIAGE SOLEMNIZED.

The marriage of Miss Lula Wrenn to Mr. J. U. Williams took place Sunday evening at 8 o'clock at the office of Justice J. N. McFatter, Rev. A. L. Leake, pastor of the Central Baptist church, officiating. Mr. Williams is a big builder and the young couple will continue to reside in Ranger.

### ST. MARY'S GUILD MEETS WITH MRS. COOZE.

St. Mary's Episcopal guild had an enjoyable meeting on Monday with Mrs. W. H. Cooze at her home in the Tee Pee camp. The ladies sewed and made further plans for the Friday night dance. Refreshing sherbet and cake were served. Hostess for the next meeting will be announced later.

### PERSONALS.

Mrs. T. J. Holmsley, formerly a resident of Ranger, was here for a few days visiting friends, and left this morning for her home in San Benito.

Mrs. Sam H. Davis is spending a few days with Mrs. Saunders Gregg.

### INSTRUMENTS RECORDED.

Warranty Deed—L. A. Hightower to W. H. Whitworth, east 2-3 of one acre of land being part of D. W. Funderburg survey, Eastland county; \$50.

Warranty Deed—W. H. Whitworth to R. A. Brown, east 2-3 of one acre tract of land out of D. W. Funderburg survey, Eastland county; \$50.

Warranty Deed—L. M. Bishop to Emma Bishop, 1-7 interest in tract of land in town of Gorman; \$400.

Warranty Deed—A. J. Bishop to L. M. Bishop, part of lot 2, block 21, town of Gorman; second tract being part of A. Smelzer survey, Eastland county, containing 438 1/2 acres of land more or less; \$950.

### Supports Widows

Paul Fountain, 11-year-old evan; list of Sulphur Springs, Ark., is believed to be the youngest evangelist in the world. On the proceeds of his work as a traveling preacher he supports an institution for destitute widows with small children and sends youths to college.

**Want Ads Will Pay**

## RANGER CLOSES SHOPS BECAUSE OF CONVENTION

Merchants and Their Employes Start Early For Big West Texas Gathering.

Ranger's delegation that will arrive in Mineral Wells in time for the big parade got under way about 6:30 o'clock this morning with a caravan of 300 cars. A crowd of 500 people waited patiently for the vanguard of the caravan to start, late arrivals dropping in rubbing sleepy eyes.

Many of the delegation were brought out of bed by the shriek of the roof siren atop the fire station. Thinking that a fire had broken out they leaped from bed, woke up and then realized that it was time to leave for Mineral Wells. Gathering at the Ranger Chamber of Commerce, the people milled around, talking among themselves until finally they got started with the Ranger Texas Ranger band leading.

Closing of the leading stores of Ranger featured the early morning development. Unable to come to any definite agreement, most of the stores indicated that they would remain open although allowing the majority of their employes to go.

J. M. White & Co. did not open at all. Mr. White taking his employes in a group and all carrying their lunch with them, for a regular picnic at the convention.

A group of the merchants, headed by Abe Davis, got together and agreed to close at 11 o'clock. Some of them closed at 9 to allow their employes an earlier start for Mineral Wells if they desired to go.

White's, the Boston store, Joseph's, Davis' and the Globe all closed their doors. Practically every cleaning establishment in Ranger closed this morning, all going to the convention. Barber shops agreed early this morning to close at noon today and many then left for "the Wells" at that time.

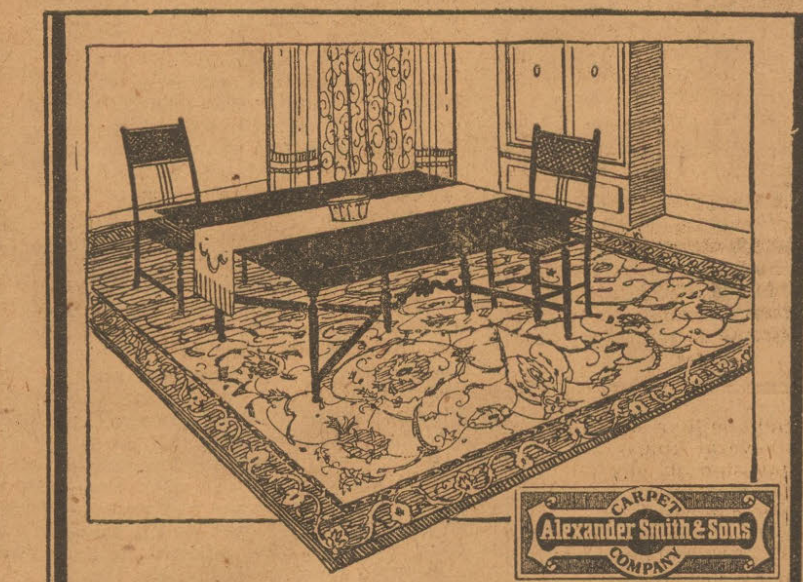

## BIG REVIVAL PLANNED FOR REST OF WEEK

Services in Eastland Methodist Tabernacle Awakening Much Interest

The revival meetings being held at the First Methodist church in Eastland under the direction of the pastor, Rev. J. H. Stewart, are growing in interest and attendance. Last night was High school night and the audience was large and enthusiastic. The service was pronounced a great success.

Tonight Mrs. Stewart, wife of the pastor, will occupy the pulpit and speak on a subject of vital interest to all. A great throng of both women and men are expected to be present to hear this message.

Wednesday night one of the best

## There Is No Satisfactory Substitute for a Wool Rug

**WOOL SEAMLESS RUGS**

## The Soft Spot

services of the week is planned. There will be some 20 or 30 minutes of the time devoted to the singing of the old songs, the songs the father and mother sang. All are urged to attend this service and are assured that the song service alone, conducted by Alfred R. Wells, will be well worth attending.

Friday night there will be a special service for boys and girls. Mr. Wells, who leads in the song service and works with the boys and girls, has greatly interested the young folks and they have become enthusiastic in the work. Nearly 200 were present at the service yesterday.

There will be another service with the young folks this afternoon at 4 o'clock and Thursday afternoon at 4 o'clock. There will be no Friday afternoon service with the children, but instead all will combine with the service Friday night. It is hoped that a large number of parents will be present at the Friday night meeting.

The pastor yesterday expressed his appreciation of the large number of people who are attending the services and assisting in the meeting. At the same time he said there were a number of people, especially men, who should be attending the services more regularly and urged them to come often during the remainder of the meeting, which

parents might see for themselves just what the pupils were doing. Heretofore this exhibit for the South Ward has been held at the school building, but it will be held this time at the Sikes building, West Main street, which is known as the L. B. Wright company building.

Principal Ed Layton of the South Ward stated this morning that the exhibit would be on display from 9 o'clock Thursday morning until 5 o'clock that afternoon. He and the other South Ward teachers are very anxious that as many patrons as possible see the exhibit as it will enable them to more readily understand and see the progress being made by the pupils. There will be no admission charges.

WOMAN KILLED IN CRASH WHEN STEERING GEAR FAILS

CROCKETT, Texas, May 5.—Mrs. Nettie Garrett, daughter of Mr. and Mrs. O. W. Wolf, six miles east of Crockett, was killed instantly in an automobile wreck one mile north of Jasper. The steering gear went wrong and the car ran off a 20-foot embankment. She was accompanied by a small boy, her stepson, who escaped with minor injuries.

Ranger Hi Wins Game, 13 to 8, From Mineral Wells Hi

Special Correspondence. MINERAL WELLS, May 5.—Ranger High Bulldogs, hitting the ball over Mineral Wells High at Mineral Wells yesterday afternoon. The Bulldogs made several errors, but by hitting the ball hard and due to several errors made by the Resorters the Ranger nine won easily. A. Glenn, E. Glenn, Killingsworth and Mills of Ranger got home runs. Taylor got a triple. Harvey for Ranger pitched a good game allowing only 8 hits, while Cunningham of the Resorters allowed 12 hits. Harvey also done good work at the bat.

The same teams meet at Mineral Wells today. Batteries: Mineral Wells, Cunningham and Porter; Ranger, Harvey and Phillips; time of game, two hours and ten minutes.

Police Doubt Truth Of Alleged Holdup

DALLAS, May 5.—Charges of embezzlement were filed here today against Milton Voorhees in connection with an alleged payroll robbery last Saturday. Voorhees reported to police that three bandits held him up and escaped with a payroll of \$790 after blinding him by throwing red pepper into his eyes.

WOODMEN OF THE WORLD IN TEXAS HOLDING ENCAMPMENT

AUSTIN, May 5.—One thousand Woodmen of the World of Texas gathered here today in annual encampment to continue two days. Fifteen camps are represented and are under command of Major Vordie, state commander of the Forester division of the Woodmen.

EVERETT TRUE

BY CONDO

We had rather be disgusted with our pay than disgusted with our job.

Why argue about who is head of the house? The boss of the happiest home we have seen is four months old.

Women are so curious. They refuse to believe things unless they are true.

Instead of spring cleaning many of us take advantage of the silly season to clutter up our minds with trash.

One of the best business friends you can have is a clean shirt.

The older the argument the harder it falls.

It takes nerve for a young spruce tree to grow up knowing it may become paper for a cheap novel.

The chances are you wish you were in some other person's shoes, and if you were they would hurt.

Traveling to see new things isn't always as interesting as sitting still and seeing the old ones change.

Work hard and save your money and when you are old you can have the things only young people can enjoy. (Copyright, 1925, NEA Service, Inc.)

'Present Generation Is Most Hopeful In History'—Lindsey

KANSAS CITY, May 4.—The present generation, for all the charges brought against modern youth, is the most hopeful in history, according to Juvenile Judge Ben K. Lindsey, Denver. Judge Lindsey, who stopped here enroute east, told newspaper men that because of the "tremendous temptations they are subjected to," it is amazing modern youngsters can be good. "Boys and girls of today are good, compared to their youthful predecessors," Judge Lindsey said. "The great fault of American parents and teachers is that they do not do enough to teach children to think, but try only to make them be good. "Prepare the youth for the path; not the path for the youth," the jurist concluded.

Navy Dirigible Makes Fast Flight To Porto Rico

By United Press. MAYAGUEZ, Porto Rico, May 5. The navy dirigible Los Angeles arrived here last night, but did not moor immediately to the mastship Catoca. Thousands of persons waited for hours for a glimpse of the giant airship, which covered the 1,300 miles between Lakehurst, N. J., and Mayaguez in about 32 hours.

HOUSTON CITY EMPLOYEE IS KILLED BY TRAIN

By United Press. HOUSTON, May 5.—P. J. Owen, 55, city employee, was killed here today by a Gulf Coast passenger train running between Houston and New Orleans. Witnesses said that Owen was walking down the middle of the track and did not hear the warning whistle.

TWO UPSETS

WHILE one ball game doesn't make a season, two theories were rudely jolted in the opening day games.

During my tour of the spring training camps every manager predicted that the pitching would be much improved.

Incidentally, all of them were of the opinion that home run hitting would be greatly curtailed. They scoffed at the idea that Babe Ruth had a chance to make 60 home runs.

I am inclined to string along with the managers in the belief that the pitching will be better, but the opening day happenings certainly upset the dope, momentarily at least.

Fifteen home runs were made in the two major leagues—13 in the American, and two in the National. Looks as if the ball is still quite lively.

HOME RUNS

IT is a rather singular fact that the two home runs made in the National League were contributed by the Chicago Cubs' battery, Alexander and Hartnett.

Equally unusual was a home run by Pinch Hitter Frank Welch of the Athletics with two men on the bases.

Another event out of the ordinary in the home run line was a circuit drive by First Baseman Poole of the Athletics, making his big league debut.

Poole is subbing at first base for Joe Hauser, who probably will be out of the game for the entire year with a broken kneecap. Hauser is noted for his home run wallop.

Few openings have ever been featured by such an epidemic of home runs. However, I look for the germ to abate and doubt if the four-base totals of this year will approach that of last season.

KOKOMO LONG LIFE TIRES ARE NOT AN EXPERIMENT

They have been made and used for over 30 years. They stand today as the acme of perfection, as they did more than three three decades ago on America's first automobile. Note the "side wall bumpers"

### Coast Guards Wound Rum Runner, Capture Launch and Cargo

By United Press.  
 ASBURY PARK, N. J., May 5.—Following an exciting half hour, during which shots were fired and one rum runner wounded, coast guards today captured a 45-foot launch with a cargo of 250 cases of whisky.

Three men on the rum boat escaped, the wounded man being literally carried in the arms of his companions.

### MOVIE STORY TELLERS IS WORLD'S NEED TODAY

HOLLYWOOD, April 4.—"A school for actors." You've heard about plenty of cheap grafting schools. Now one of the greatest producing companies, Paramount, is starting a school for actors. It's silly. We already have too many actors or almost actors or people who think they are actors.

The movies need "story tellers." Plenty of people, millions of them, try to write movie stories, but they don't know how to write in movie form. It is a new literature. It demands a new structure, a new treatment. When I say "movie story tellers," I mean writers to the finished manuscript, known as a continuity, with the actual story visualized just as it will appear on the screen—with each close up and camera angle placed. That is very intricate and difficult.

Every studio, every day, conducts such a school informally. The beginners learn from the masters. There is the greatest need and opportunity of the movies. We have plenty of actors. Forget the "actor school," Mr. Paramount, and train more "story tellers."

**C. A. ALLINGHAM, PIONEER OF WILBARGER COUNTY, DIES**  
 VERNON, Texas, May 5.—Charles A. Allingham, 77 years old, pioneer farmer, cattleman and banker of Wilbarger county, died suddenly at his home here Sunday night of heart disease. Funeral services were held here today at 11 o'clock and the body forwarded to Cameron, Ill., his birthplace, for burial. He is survived by a brother, J. H. Allingham, Laplatte, Mo., and a sister, Miss Sallie Allingham.

**TRUCK IS USED TO DELIVER WEDDING CAKE**  
 DALLAS.—A truck was necessary for delivery of a wedding cake at the nuptials of Miss Mildred Jackson and Edward Doyle here recently.

The cake measured six feet in height, 36 inches in diameter and eight feet around. Figures and other "mural" decorations were made of icing. The pastry masterpiece was surmounted with miniature forms of the contracting couple.

To start the ordinary electric street car requires fifteen thousand times as much electrical energy as to light up the average incandescent electric lamp bulb.

### Non-Stop Flight

Lieutenant Ben H. Hyatt, flight officer of the naval air station at San Diego, Calif., will try a non-stop flight from Seattle to San Diego early in May, piloting a section Douglas torpedo plane, shown below. The route is more than 4,400 miles.

Thirty-eight million dollars, a sum to ransom several kings of the first order, is invested in electric public utility companies by two New York life insurance companies owning \$20,000,000 worth of these securities and the balance—\$18,000,000—has been so invested by the Metropolitan Life Insurance company.

The British board of trade will require, after July 1, that one out of every ten lifeboats carried by ocean liners be equipped with a radio broadcasting and receiving set.

### PEOPLE AVOID YOU IF YOU ARE PIMPLY

A boy or girl may have ever so perfect a face, neck and poise, but if even one little pimple, blotch, bump or red spot shows, it ruins their whole appearance. You know how true this is, because you just naturally avoid people whose appearance is not pleasing.

These things are no longer to be endured, however, because thousands of people are getting rid of the worst and most stubborn cases of such skin diseases easily and quickly by using Black and White Ointment, and Soap. It seems like magic to eczema, ring-worm, itch, "breaking out," etc.

Dealers everywhere are recommending Black and White Ointment, and Soap, now. They are economically priced in liberal size packages. The 50c size Ointment contains three times as much as the liberal 25c size.—Adv.

### Ailanthus, Chinese 'Tree of Heaven,' May Be Useful For Good Paper Pulp

WASHINGTON. — Although the shortage of wood for making various kinds of paper and the threat of a Canadian embargo on spruce for newsprint have not put any substitutes for spruce or other important pulpwoods into wide use commercially, the stimulation to research in paper processes has had some interesting results. Several new processes yet to be given the final test of commercial practicability have been developed at the Forest Products Laboratory of the U. S. Forest service which is releasing the information in connection with the observance of American forest week, April 27 to May 3.

**Make Pest Useful.**  
The development of a process for making book and lithograph paper from ailanthus — the Chinaman's "tree of Heaven" — although it came about as a result of a local over-supply of this wood, may some day help to solve the problem of pulpwood scarcity. Ailanthus, formerly cultivated for ornamental purposes in Pennsylvania, has—in a slight degree like the rabbits imported into Australia—become a pest. The tree seeds heavily, reproduces easily, and is hardy and free from insect attack. More remarkable than these qualities is its ability to grow to pulpwood size, even in a temperate climate, at 10 to 15 years intervals when allowed to reproduce by the coppice—sprouting from the stump—method. This rate of growth is not even equaled by the year long growth in forests of hardwood and softwoods in the south. The use of the drain on aspen, of which we already import annually 170,000 cords from Canada, and to some extent the

drain on the all-important spruce, for some long-fibered stock such as spruce must be mixed with aspen to make a strong book paper by usual processes. Ailanthus has a fiber of sufficient length to give a strong paper when used alone.

Another newly-developed process may shift some of the demand from spruce to the faster-growing aspen. This process utilizes 100 per cent aspen in the production of a grade of book paper which forms "required the addition of large amounts of spruce and hemlock paper."

**Paper From Hardwood.**  
Most completely substitutive of the processes being tried out is one which produced newsprint from hardwoods. In laboratory experiments with this process nine-tenths of a cord of black gum has been made to produce a ton of newsprint, a considerable improvement over the usual yield of a ton of newsprint from 1.2 cords of spruce. Similar satisfactory results have been obtained with tupelo gum and the high yield and excellent natural color of the pulps tried gives promise that such broadleaf woods as birch, beech, maple, aspen, and cottonwood may be used profitably in the manufacture of newsprint. One advantage of this process, should it prove feasible on a commercial scale, is that it would relieve some of the demand for spruce which necessitates the importation of 870,000 cords of that wood from Canada, a supply source that may be cut off by a Canadian embargo. Another advantage is that it utilizes some woods not greatly in demand for lumber and still present in rather extensive stands in the south.

### Constipation destroys beauty—get positive relief with Kellogg's ALL-BRAN

**Beware of constipation's many dread diseases.**

Constipation backs the poisons of the intestine up into your body. Constipation leads to over forty diseases. Blotchy complexions, sick headaches, circles under eyes, unpleasant breath, etc., are caused by constipation. Rid yourself permanently of this dangerous illness. Do it the safe, sure way, the way doctors recommend—eat Kellogg's ALL-BRAN regularly.

Only ALL-BRAN can be wholly effective. That is what Kellogg's is—100 per cent bran. It works as nature works. It sweeps and cleans the intestine. If eaten regularly, it will permanently relieve the most chronic cases—is guaranteed to do so or your grocer returns the purchase price.

Kellogg's ALL-BRAN is ready-to-eat. You will like its nut-like flavor. Try the many delicious recipes on every package. Eat at least two tablespoons daily—in chronic cases, with every meal.

Buy a package of Kellogg's ALL-BRAN today. Made in Battle Creek, Michigan, and sold by all grocers. Served by all leading restaurants and hotels.

## Modern Payroll Check Plan Displacing Old Pay Envelope

### Industry's New System Appeals to Employer and Employee.

**BLIND MAN** evolved the simplest payroll plan of which there is any record in the United States.

The late Charles "Broadway" Rouse, a picturesque New York character, for many years had a store on lower Broadway. He recruited his employees from the down-and-outers. Their daily wage was fixed at one dollar. Every evening Rouse stationed himself at the employees' exit with a bag of silver dollars. As each employee passed, Rouse dipped his hand into the bag and brought forth a shining "cartwheel."

For Rouse it was an ideal plan. However, changing conditions have brought a woe-filled freight of complications which are combining to supplant the cash payroll with a new system. The pay-roll check has come into being. The time-honored line filing tedious past the cashier's window on Saturday afternoon is about to pass into tradition, and the bank check is becoming familiar to thousands, who previously had known only government currency.

**When the Whistle Blows**  
A feature of the pay-by-check plan that has met with general favor among employees is the distribution of the pay checks to the men while they are at their various tasks. The Saturday noon whistle ends the week. The pay-roll line has gone. There is no quibbling over errors in amounts. The check speaks for itself. There are no lost pay envelopes, and a lost check

means merely the issuance of a duplicate.

Nor is the paymaster sorry. A million and a half dollars stolen and 32 men killed by pay-roll bandits is the twelve months' toll that has had tremendous effect in introducing the check plan. Property insurance can cover the loss of money, but there remains the hazard of life to which business men hesitate to expose their employees. Transportation of large sums of cash through the streets, over highways or on trains creates a lure to which all too many bandits are anxious to succumb. The lesson of prevention has been driven home to the business man, and the pay-roll bandit is finding leaner and leaner pickings.

**Time and Money Saved**  
Heads of large industries who have abandoned the cash system in favor of the check plan state that the community is equally interested with the employer and employee in pay-roll methods.

On the one hand the old practice of paying by cash makes possible extensive pay-roll robberies, jeopardizes lives of paymasters and messengers; imposes unnecessary burdens upon police departments; induces extravagance among hundreds of people; and is generally an economic loss to the community.

On the other hand, paying by check prevents loss and crime; saves the cost of pay-roll insurance; releases police for normal duties; encourages thrift among employees and increases bank deposits; and makes more capital available for home building and community improvements.

These are the outstanding benefits as viewed after the plan has been put into operation. But sometimes employers are inclined to hesitate to pay by check out of fear of misunderstanding on the part of employees.

**Employees' Viewpoint**  
Often a natural misgiving as to the reason for the change may influence the employee, say employers. We may be inclined to regard the check as necessitating an additional step in the collection of his pay. Necessity for cashing his check before he is able to spend any part of it may occur to him as a thoroughly practical objection.

In actual practice, however, employees using the check plan say that these difficulties almost invariably disappear when the employee finds himself a portion of his check with the savings bank, and when he finds that getting a check cashed in a country where six billion checks are written annually is a simple undertaking.

**Changed Attitude**  
Surveys by business organizations and large industries have shown that almost invariably, where employees feared to break away from the old pay-envelope system, they have very emphatically become far more emphatic in support of the pay-by-check plan, and would oppose any attempt to pay them in cash.

These investigations have further determined that modern protection methods, safeguarding checks against forgery or alteration, have definitely established this form of currency in the confidence of the employee and the public.

### MOM'N POP BY TAYLOR

**THEN IF YOU'LL GIVE ME FIFTY CENTS I'LL GO DOWN AND BUY YOU AN EXTRA ONE—THEN YOU CAN LET ME BORROW IT.**

### Insomnia Becomes Common Complaint

NEWARK, N. J., April 20.—A jazz age has made insomnia a common complaint, and the increased use of drugs can, in a measure, be traced to a desire to relieve sleeplessness superinduced by an abnormal mode of living, says Dr. Chester T. Brown, of this city.

"Habit-forming drugs at best offer only temporary relief," says Dr. Brown, who is associate medical director of the Prudential Insurance company, "and the only real relief to be obtained is through the leading of a normal and sane life, mentally and physically."

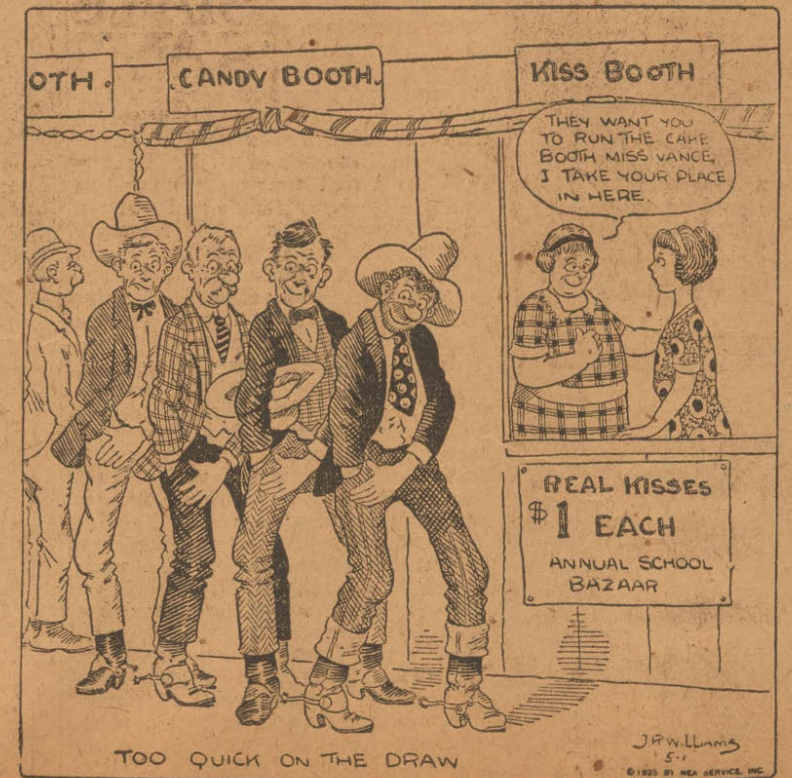

Serious cases of insomnia, he warns, require the services of a competent physician, and he considers any case serious that necessitates the use of drugs can, in a measure, be many cases of insomnia of minor significance that can be relieved by a few mental and physical adjustments, he adds.

"Sleeplessness operates in a vicious circle," Dr. Brown says. "Worry, nervousness and excitement cause wakefulness; then a man worries because he cannot sleep, and sleep becomes the more remote. Some people fall asleep much more readily than others; sleep comes to them as soon as the head touches the pillow. To others it comes only after hours of waiting.

"However, a glass of milk, warm or otherwise, as one prefers, often has a soothing effect and induces sleep. And in some cases a hot bath just before retiring is advisable.

"If you can't sleep, forget it and

**THEY WANT YOU TO RUN THE CANDY BOOTH MISS VANCE, I TAKE YOUR PLACE IN HERE.**

**REAL MISSES \$1 EACH ANNUAL SCHOOL BAZAAR**

**TOO QUICK ON THE DRAW**

you probably will," Dr. Brown advises. "At any rate the time spent awake in bed is not a total loss, for a certain amount of rest and relaxation is obtained, even though sleep never comes. And sleep will come if the physical and mental conditions are normal."

Ranger—More than 2,000 acres of silica land have been found near here and as there is an abundance of cheap gas this section is very inviting to glass factories in that both railroad and highway connection with cities in all directions are already made.

## Why I Prefer To Live In and Do Business In Ranger

"I prefer to live and do business in Ranger because this is a progressive town," said D. Joseph of Joseph Dry Goods store. "The spirit of co-operation shown, not only among the business men but by the entire citizenship, in bringing about the growth of the town insures the future development of the natural resources of the Ranger territory.

The varied industries of Ranger give the town a good payroll the year around, making it possible to show a steady increase in business. Ranger is the center of the oil, gas, gasoline and poultry industries of this section of the state and is fast coming back as an agricultural town. The entire county is served by the wholesale distributing houses, whose headquarters are in Ranger."

Mr. Joseph came to Ranger Jan. 18, 1919, from Healdton, Okla., and opened for business in a boom shack immediately back of the Boston store, South Rusk street, where he had a floor space of 18 by 50 feet. Remaining in the shack until Dec. 11, 1920, Mr. Joseph then moved to his present location, where he has built up a business that is exceeded by no department store in West Texas.

Enjoying a steady increase in business since he first opened his store, Mr. Joseph is delighted with the prospects of Ranger becoming the leading town between Fort Worth and El Paso.

"Ranger is already recognized as the leading town between Fort Worth and Abilene and in the near future I believe she will excel that town," he said. "Look at the progress made by Ranger in the last few years. From a straggling village into a modern little town with all modern conveniences and progressive business firms, despite the continued bank closings that have failed to quench the fighting spirit of its citizens. Schools of Ranger are recognized as being among the best in this section and they are affiliated with leading institutions of the southwest. The churches of Ranger are ahead of any in mid-West Texas and are steadily improving.

"For the period of January, February, March and April we have exceeded our business for the same period last year by 18 per cent. That is an average, as this month will better last April business by 30 per cent. On the whole, we are exceeding last year's business every month and expect to show a growth for every month throughout the year over last year."

**CENTRAL BAPTISTS HAVE SERVICES IN OPEN AIR**

There were six additions to Central Baptist church Sunday and 23 were baptized. There have been 70 additions to the congregation the last two weeks.

Services last night were conducted in the open air on the Ringgold lot. Every seat was taken. Services will be continued Sunday evenings at the same place. A special feature of the services last night was the special music. A quartet, Little, Stubblefield, Little and Underwood, and a solo by Mrs. Maseron were enjoyed by all. A large chorus of 40 voices led the singing of the congregation. Pastor A. L. Leuke exhorted the new members as well as the entire membership to steadfastness and loyalty.

Mothers' day services will be conducted at the church next Sunday morning. Mrs. J. M. White has charge of the arrangements.

### GERMANS USE GARBAGE TO MAKE RUM FOR U. S.

German garbage and swill are the sources of some alcohol now on sale in the rum fleet off the Atlantic coast.

This has been revealed by a government official who not only had official information to the effect, but, one, who had, in "stufhing" about the fleet, discovered some of this garbage alcohol.

"The stuff is distilled from garbage and swill in Germany, and shipped over here to be offered on the rum fleet as alcohol cheaper than corn liquor from local bootleggers," said the official. It was selling at six gallons for seven dollars.

### Facts about Child-birth

It has been proven conclusively that much of the suffering, pain and dread experienced during expectancy, as well as at child-birth is entirely unnecessary.

An eminent physician, Dr. J. H. Holmes, expert in this science, first produced the great remedy "Mother's Friend," which aids the muscles and tissues to expand more easily, during the constant readjustment, month after month, right up to the climax of child-birth.

"Mother's Friend" is applied externally. Three generations of expectant mothers have used it. Pains disappeared in two days after using "Mother's Friend," writes a user. "I owe my life to Mother's Friend," declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

**FREE BOOKLET**  
Write Bradford Regulator Co., Dept. B-A 28, Atlanta, Ga., for free booklet giving many facts every expectant mother should know. "Mother's Friend" is sold at all good drug stores—everywhere.

"Better Things a Little Cheaper"

### Amarillo Girl Most Representative On the University of Texas Campus

AUSTIN, May 5.—Miss Rachel Dunaway, of Amarillo, was selected as the most representative girl on the University of Texas campus and was presented with the silver loving cup, the award donated by the Houston chapter of the American association of University Women, at the annual senior swingout held recently. Other girls found worthy of consideration by the committee were Ruth Penick, Rosemary Walling, Anna Caswell and Margaret Schoch, all of Austin.

The committee making the award was composed of Miss Lucy J. Newton, dean of women; Miss Anna Hiss, director of the department of physical training for women; Miss Ione Spears, secretary of the University Young Women's Christian association; Miss Frances Cox, representing cap and gown; and Miss Ruth Ropes of the woman's council. Each of the 28 women's organizations on the campus was entitled to send in names

of those whom they considered worthy of receiving this cup.

Miss Dunaway, a senior in the department of journalism, was given this award, first of all, because of her excellent scholarship, and her active participation and contribution to all lines of work on the campus, according to Miss Newton, chairman of the committee. For the past year Miss Dunaway has been entirely self-supporting. For the past two years she has been a student assistant in the department of English.

Miss Dunaway is given the distinction of being one of the most popular students of the university campus, as is evidenced by her many varied interests. She was among those recently honored with election to Phi Beta Kappa, honorary academic scholarship society. She is a member of Cap and Gown, senior society; Mortar Board, national honor society; Orpheus, honorary dancing club; Orange Jackets, the university

co-ed "jop" organization; national president of the students council of the Y. W. C. A.; Theta Sigma Phi, honorary professional journalism society for women; Alpha Phi Epsilon, honorary literary society; Scribner's, writer's society composed of a group of students and faculty members of the university; managing editor of the Longhorn, literary publication of the university students; issue editor on the Daily Texan, student newspaper; and a member of Reagan Literary society. Miss Dunaway is also a member of Gamma Phi Beta, a social sorority.

"Through her work in the Young Women's Christian association, Miss Dunaway has become widely known in many different states," says Miss Newton.

Samuel M. Vauclain, president of the Baldwin Locomotive Works, has announced that his company is experimenting with a railway locomotive driven by electricity generated by a Diesel engine.

Foreign made electrical household appliances, cooking utensils and toys are not always safe, according to the National Safety Council, which has adopted a special resolution warning the general public against purchasing and using these foreign articles. This is because the electrical appliances made in other lands are so frequently of faulty design and construction as to make their use highly dangerous.

## Stewart's Washington Letter

BY CHARLES P. STEWART  
NEA Service Writer

WASHINGTON — Washingtonians are engaged in a strenuous campaign for at least some small measure of self-government.

It's a very natural thing for them to want. Here's a city of nearly a half million inhabitants whose laws are made for them by a body not one of whose members belongs to the community the laws are made for.

How would Detroit or Minneapolis or Seattle enjoy having their mayors appointed by a resident of Northampton, Mass., and their boards of aldermen elected exclusively outside their own states? Washington enjoys it exactly that well.

ONCE on a time, when the capital was just a little cluster of shacks on the Potomac flats and the rest of the

country was chipping in to build it up into a fine city, the present arrangement doubtless was all right. But now the Washingtonians feel as if they were of age and would like to vote, at any rate, on purely local questions, and have something to say about the taxes they pay and various other things that concern them a good deal more than they concern anybody else.

WHAT they want and what they are likely to get, however, are two entirely different propositions. The congressional idea is that the Washingtonians ought to be grateful for all they've had done for them. "Yes, we know," groan the Wash-

ingtonians, the way all subject peoples do, "but gosh! how we want to be free!"

## Ride on GENUINE LOW AIR PRESSURE

IF YOU can cut down the air pressure in your balloon tires it will add just that much more to their cushioning effect.

Maybe you can't do this safely with your present make of balloon tires.

But you can with the new U.S. "Royal low-pressure Balloons—

Because— These tires have the new U.S. "Low-Pressure Tread." This tread gives a much greater area of road contact than a round tread.

It distributes the load evenly over the tread surface and reduces the weight on the individual tread blocks. This does away with early, uneven and disfiguring tread wear.

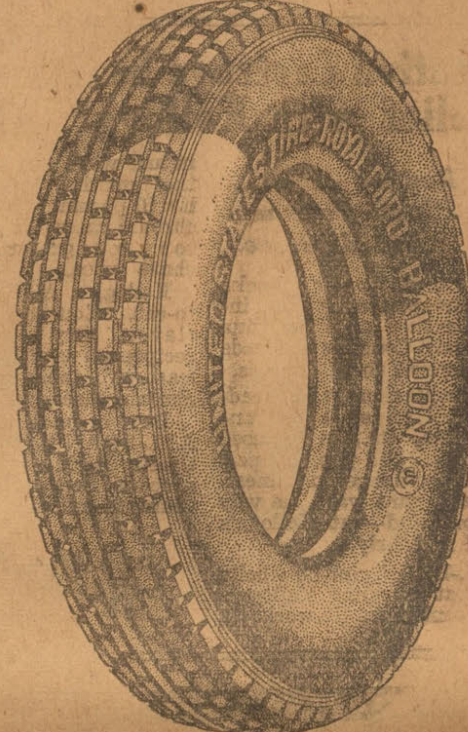

U.S. Royal Balloon gives long service even at lower air pressures than have been recommended in the past.

For in addition to this new Low-Pressure tread they are built of Latex-Treated Web Cord. The only cord construction in which the cords are webbed together with pure rubber latex. This gives maximum strength and maximum flexibility.

Don't compromise on balloon tire pressures any longer.

Ride on genuine low pressure. It will surprise you to know what a difference it makes.

### Avoid Mistakes In Hopper Poisoning

By R. R. REPERT  
Entomologist Extension Service, A. & M. College of Texas.

Mistake No. 1 has already been made in poisoning grasshoppers in 1925.

The poison bran mash as recommended by A. & M. College has proven fully effective in killing grasshoppers. Last year failures were reported, but investigation in every instance showed some detail of mixing or distributing had been neglected.

April 7, of this year, the extension service sent out press letter Vol. 1, No. 1, on grasshopper control, giving the formula and going into considerable detail. Where a good grade of amyl acetate could be obtained, this was advised in place of lemons.

### MANY APPARENTLY "OLD WOMEN" ARE YOUNG IN YEARS

Suffering and Pain Makes Them Look Old Before Their Time. Mysterious Malady Is the Cause.

It is positively distressing to see the number of young women today who, at thirty, go about looking like they are at least forty. At the pain and suffering which they endure is reflected in their looks and you can easily tell when a woman or girl has failed to safeguard her health.

The discoverers of St. Joseph's G. F. P. believed that if they could find the dreaded malady which is preying on women, and provide a relief for it they would be able to end most of the pains in back and sides, the headaches, nausea, loss of appetite, and that awful feeling of depression, conditions which have made many women virtually slaves to suffering for so many years.

How well they succeeded by their years of patient effort is best told by the praises of the thousands of happy women whose enthusiasm over the wonderful changes that St. Joseph's G. F. P. has brought about in their condition knows no bounds.

Through the use of G. F. P. many thin, frail and nervous women have become strong, steady and happy again; young girls who formerly suffered from irregularity, pain, sickness and embarrassment are made regular and relieved of pain; women are enabled to realize the wonderful blessings of motherhood with surprising ease; and women in later years pass through the change of life with so little difficulty as to scarcely realize that they have been through this remarkable transformation. When women realize that this great change in their former condition is brought about by this phenomenal medicine, nothing can keep them from praising the wonderful St. Joseph's G. F. P.

Worry and depression over her failure to regain her health will "age" any woman prematurely. When the generative organs are freed from the catarrhal inflammation, which keeps them weak, nervous and irritable, women quickly become miracles of restored vitality, with that cheerful and buoyant appearance of youth.

Women Now Depend on  
**St. Joseph's G.F.P.**  
To Restore Their Vitality

### Avoid Mistakes In Hopper Poisoning

being cheaper, more effective, and more easily mixed. Especial care was taken to advise, "high grade amyl acetate" and to "avoid bronzing liquids." In spite of this, we have already found that bronzing liquid is being sold to the farmers in large quantities for the purpose of killing grasshoppers.

Bronzing liquids contain amyl acetate, but mixed with other materials in such quantities that it often repels the hoppers instead of attracting them. Only a high grade amyl acetate should be used, such as "C. P." or "Technical No. 1." A high grade of amyl acetate suitable for use in poison bait can be purchased at less than \$6 per gallon, and we will be glad to put your druggist in touch with a source at this price if he cannot obtain it otherwise.

We wish to emphasize the necessity of following closely all details of mixing and distributing. "Don't" are obvious, but must be used here.

1. Don't substitute bronzing liquids or other low grade products for high grade amyl acetate.
2. Don't use calcium arsenate or lead arsenate. Be sure your poison is either white arsenic or paris green.
3. Don't use corn syrup. Cane molasses is necessary, and a low grade cane molasses is best.
4. Don't put the mash out in piles. Sow it broadcast.

### Avoid Mistakes In Hopper Poisoning

Since 1909 Detroit's population has increased 364 per cent, and in the same time the number of telephones in the automobile capital of the United States has experienced 1,966 per cent.
