

JUDGE LANDIS QUITS BENCH FOR BASEBALL

Chicago Newspaper "Breaks Confidence" and His Intention Becomes Known.

CHICAGO, May 4.—Judge K. M. Landis will give up his job as judge of the federal court here in order to devote all his time to his position as high baseball commissioner. His resignation according to present indications will take effect early in June.

It has long been known among Judge Landis' friends that he would give up the bench.

Since the attack was made on him in congress because of the fact that he held two positions the judge has planned to quit the court.

He would not quit under fire, however, and would not leave while the impeachment proceedings were pending.

Judge Landis said today he had not presented his resignation yet.

"I have not said anything which could be construed as a statement that I have resigned," the judge said.

Several months ago he told newspaper men in confidence that he would resign.

Breaking of this confidence by a Chicago newspaper today resulted in the fact becoming known before the judge had planned.

BURGLARS GET \$1,000 WORTH OF GROCERIES

Burglars Tuesday night raided the Walker-Smith wholesale grocery house and made away with eight cases of cigarettes, a few cases of near-beer and a quantity of sugar and flour. A truck was used to haul away the plunder.

Entrance was made through a rear window, which, it is said, had been left unfastened. The knee prints of the intruders were plainly visible where they crawled over a stack of flour. They left through a front window, after loading the goods into a truck which had been backed up against the platform facing the railroad.

No one in the rooming house on the second floor of the building was awakened. The loss is about \$1,000.

RUMOR SAYS MOORE WELL, EASTLAND, IS IN

EASTLAND, May 4.—The rumor is prevalent here in Eastland that the Moore well, east of Carbon, and nine miles south of here, is down a little better than 3,200 feet and making both oil and gas. So far we have been unable to verify the report. This well is in wild cat territory, and if the report is true, will prove quite a scope of territory south of Eastland.

Josephus Daniels Tells Story of American Navy's Exploits In World War

ARTICLE XXI.

STORY OF THOSE THRILLING DAYS WHEN U-BOATS RAIDED U. S. COAST

By Josephus Daniels

Former Secretary of the Navy—1913 to 1921

Copyright 1921, by John F. Dille. Copyright by National Newspaper Service. Copyright in Great Britain, Canada and throughout Europe. All rights reserved, including translation into foreign languages, including the Scandinavian. Unauthorized reprinting for any purpose forbidden.

When the U-boats came to America—The Sunday sensation and the Monday alarm—"Why don't you recall our destroyers from Europe?"—How we kept the ocean lanes of transport open—Not a day lost—All records broken for carrying troops while subs played in our front yard—Story of the six that crossed the sea—Deutschland, our friendly visitor in 1916 comes with guns and torpedoes in 1918.

One of the liveliest days of the whole war for the navy department was Monday, June 3, 1918. It will be many a year before I forget it.

Sunday a U-boat had suddenly bobbed up about forty or fifty miles off the New Jersey coast and sunk four schooners.

That was hard-hitting for a war hypothetically 3,000 miles away.

It certainly stirred things up in our corner of Washington. When I received the newspaper correspondents that Monday morning I faced a fire of questions as rapid as that of any machine gun in France.

"What is the navy doing to protect shipping?"

"Why did it let the submarine sink vessels?"

"Why did you sink the U-boat?"

"Why do you recall our destroyers?"

PUP, "BAD" BOY'S PAL, SENT TO REFORMATORY WITH LAD, FOR CONTEMPT

"Send me, send my dog," sobbed 12-year-old Billy Dunlop, as he faced Judge Ben Lindsey in the juvenile court in Denver when he was sentenced to the state reform school as an incorrigible. In sentencing the lad Judge Lindsey placed his hand on his shoulder and "Trixie," Billy's mongrel pup, who had accompanied his young master to court, growled and seized the judge's trousers. Judge Lindsey, moved by the loyalty of the pair, saw it way to grant the boy's request. "Billy," he said, "your dog is in contempt of court and I'll draw a formal order committing him to the state industrial school with you, for attacking the court." And the "bad" boy and his yellow pup started off for the reform school together.

SCHOOL BONDS, \$250,000, TO BE PRINTED SOON

Efforts Will Then Be Made By Trustees to Place The Securities.

The issue of \$250,000 in school bonds will be printed shortly and offered for sale, according to M. H. Smith, president of the board. He will go to Austin probably Thursday for the purpose of having the bonds printed. M. H. Hagaman, secretary of the board may accompany him and if he does it will not be necessary to have the bonds returned here to the secretary's signature, Mr. Smith said.

As quickly as this detail is attended to it is expected that the trustees will make an effort to place the securities.

Already the plans for the building are being drawn. This work is in the hands of David S. Castle, architect of Abilene. M. T. Clements, manager of the Ranger office for Mr. Castle is now in Abilene helping perfect the blue prints. This work it is thought will be completed shortly.

The school board it is thought will begin construction of the building as quickly as the cash can be received from the sale of the bonds.

By lifting the hand you can distinguish by the pressure and the muscular effort the difference between a weight of nineteen and a half and one of twenty ounces.

TURKEY AND GREECE MUST BE NEUTRAL

By Associated Press.

CONSTANTINOPLE, May 4.—Greece and the Sultan's government have been notified by the Allied high commission here that the neutrality of Constantinople and the straits must be observed.

WHITE OIL CO.'S NANNIE WALKER NO. 3 NEAR PAY

The White Oil Company's Nannie Walker No. 3, which was deepened from around 2,000 feet after the Tee Pee's big strike in the Stewart No. 2 at 3,750 feet, is down nearly to where the big pay is expected, and the success of the operation will be known by Sunday, it is reported.

If the Walker makes a good well, it will be regarded by oil operators as proving the existence of an undeveloped sand in this district and will mean the opening up of a good-sized area to development in the future.

Several locations have been made in this district, twelve miles north of Ranger, since the Stewart came in.

OIL COMPANY IS FACING SUIT FOR FORECLOSURE

By United Press.

DALLAS, May 4.—The Great State Petroleum Company with headquarters here are named defendant in a foreclosure suit totalling \$448,383.34, filed in United States district court by R. W. Lynch, H. L. Tidwell and other interest holders in the company. Petitioners ask foreclosure of notes against eight acres of oil land in the famous block 97, Red River land, near Burk Burnett valued at \$500,000.

A federal receiver was recently appointed for the Great State Company.

ORANGE GETS THIRD WELL; EXCITEMENT IS RUNNING HIGH

By United Press.

ORANGE, Texas, May 4.—Activities said to rival those of the old Ranger field caught Orange in a whirlwind today as the third oil well in the last two weeks came in flowing 1,200 barrels a day.

The well is on the Brownie Babbett lease and extends the field one-half mile south of its present limit.

Five new drilling operations started today. The oil is said to be almost pure with no trace of water.

GOOD SAMARITAN IS
ROBBED AFTER GIVING
YOUNG MEN A LIFT

Special to The Times.

WAXAHACHIE, May 4.—Two young men who were given a ride from Waco to Dallas last night in a Ford car by a Dallas man held up and robbed the driver of his car and fifty dollars in cash, a gold watch and a package of cigarettes. The young men were riding in the rear seat of the car jostling and having a good time when they attacked the driver and demanded everything he had at the muzzle of a pistol. They put him out and left him standing in the road and drove the car on toward Dallas.

Dallas Negress Wins Title To Rich Louisiana Oil Land

By HARRY E. CAYLOR United Press Correspondent.

DALLAS, May 4.—A negress sat in a tumble down shack in the negro quarters on Hill street here today and stoically refused to get excited over the battle involving millions' attorneys are waging about her claims to oil lands.

Lillie Gussie Taylor, the negress, who explained to visitors that her "health" is poorly, and "Ah ain't no great hand to talk no-how," merely shrugged her shoulders when reporters told her she had won her suit in the Louisiana state supreme court that established her title insofar as state courts are concerned to what her attorneys declared is the biggest producing lease in the great Homer, La., oil field.

The land about three miles from the town of Homer, has already produced about \$5,500,000 worth of oil, according to Foster, Looney and Wilkinson, Shreveport, La., the law firm representing her. A suit pending in the circuit court of appeals at New Orleans will with the state court verdict complete establishment of title if she wins it, her lawyers said, and will probably make her one of the richest negroes in the world.

"ADVICE IS PLENTIFUL." "Ah ain't got this money yet," she reminded friends today who sought to plan for her what to do with "all that money." She punctuated the remark with a cough and drew a ragged shawl about her shoulders and huddled closer to the dim flame of the oil lamp that behind drawn blinds flickered its rays about the darkened room and reflected from what was once a red rug.

The woman's fight for fortune centers about land in Claiborne Parish, La., that she once abandoned as worthless, lawyers declared. She moved off it after inheriting it from her parents and according to claims in the suit, George West, another negro, squatted on it on alleged pretense of title. It is West with whom she is fighting.

TWO COMPANIES INVOLVED.

Two of the greatest oil companies in the Homer field are much involved by the suit. The Gulf Refining Company leased the land from West and has been producing oil.

On the strength of the negress's claim, the Caddo Central has obtained a lease from her, and should she win, the Caddo will claim oil rights and Lillie's attorneys will demand reimbursement for the oil already obtained.

The exact amount of money Lillie will realize if she wins will be hard to estimate. The lands are variously estimated worth from eight to fifteen million dollars. Her lawyers, finding her in poverty, accepted the suit on a 50-50 basis, getting half the winnings. She has also disposed of a part of her share in the claims, it was announced.

"Lillie went to work today as usual. 'Ain't no use to get excited about it now,'" she commented.

She has no intention of moving into better quarters, she said, and intimidated strongly in advance she is not in the receiving line for proposals somebody told her would be forthcoming.

"Lillie's kind of quiet, and nobody pays much attention to her around here," commented a young negro next door. "Be, you can tell the world she's popular from now on, heah's a boy that's goin' to do a little hangin' around hisself."

APPEALS COURT SUSTAINS THREE MURDER CASES

By United Press.

AUSTIN, May 4.—Cases of Jordan Israel and Jose Flores, given the death penalty for the murder of deputy sheriff Oscar Sharpe of Falls county, during an attempted jail delivery, were affirmed by the court of criminal appeals.

Affirmance was ordered in the case of T. H. Roberts from Walker county, sentenced to eight years in the penitentiary for assault with intent to murder his wife. Roberts, according to records, has for a long time been engaged as convict guard.

The case of E. H. Gaines from Tarrant county, sentenced to 50 years for the murder of a street car conductor in Fort Worth was affirmed.

RECEIVER ASSUMES CHARGE OF RANGER REFINING AND P. L. CO.

By United Press.

EASTLAND, May 4.—Word has been received in this city that K. A. Crowley, an attorney of Eastland, has been appointed one of the receivers of the Ranger Refining and Pipe Line Co., by a federal judge sitting in Kansas City. Crowley has given bond in the sum of \$100,000 and taken charge.

JURY IN CASE OF BOY BOND THIEF DISAGREES

By United Press.

CHICAGO, May 4.—The jury in the case of Willie Dalton, 17-year-old employe of the Northern Trust company, who walked out of the bank with \$72,000 in Liberty bonds, reported a disagreement today and was discharged.

The jury had been out since 1 p. m. Tuesday.

AVIATRIX FINDS MATRIMONY MORE DANGEROUS THAN DOING TAIL SPINS

Mme. Jane Catalano & Filippo Catalano

"He threw me out of our home and told me never to return," said Mrs. Jane Herveux Catalano, well-known French aviatrix and bride of two months, in the West Side court, New York, the other day when she appeared to obtain a summons for her husband, charging desertion and non-support. Mme. Catalano, armed with the summons, went back to her home and Mons. Catalano again ejected her and tore the summons to bits, she told the magistrate. A policeman served the new summons. Mme. Catalano is 33 and her husband is ten years her junior. She has a school of aviation in New York.

82 NEW MEMBERS ADDED TO C. OF C. IN 3-HOUR DRIVE

Promises Indicate Drive Will Greatly Exceed Expectations.

Eighty-two new members for the Chamber of Commerce were obtained in three hours Wednesday morning by eight teams which went over the top in a one-day drive. Twenty-two others were listed as promising to sign.

This total was regarded as highly successful at the noon luncheon attended by thirty-six workers. William A. Hart of the American Citizens bureau said it far exceeded the work done at Ardmore, where twelve teams only obtained seventy new members and at Bartlesville, where ten teams turned in seventy.

There will be careful follow-up of the campaign, it was announced, and it is expected that the Ranger chamber will show a total of 150 new members before the team captains are satisfied that full results have been obtained.

Clewell's Team Leads.

Captain Clewells' team headed the list with twenty new members. Captain Williams' was second with fifteen signed and ten additional promised. J. T. Gullahorn turned in eleven for his team and four additional to be signed up Thursday. Gifford Clegg reported seven signed and eight promised. Captain Gwynne turned in nine and Captain Pearson five. A. Davenport and R. B. Waggoner were tailenders with two each. Manager Peters listed several who came in individually, making the total eighty-two.

After the announcement of results, the various workers were called on in an "experience meeting" to tell of the various objections they had encountered. The one that gave the most trouble, it seemed, was lack of knowledge as to what the chamber had accomplished during the last year, and the shortness of time in which to give the information.

Mr. Hart wound up the gathering with a talk on the public forum and the best method of obtaining results from it. It is planned to make this feature of the chamber's work more prominent and more interesting to all members during the coming year.

MAN KILLED, 4 INJURED WHEN AUTO CRASHES

Machine Plunges 200 Feet Down Embankment Near Plainview.

By United Press.

PLAINVIEW, Texas, May 4.—Earl Thresh, 45, was instantly killed yesterday afternoon and his wife, three children and his sister-in-law, Mrs. Susie Thresh, were seriously injured when an automobile plunged down an embankment two hundred feet high, near here.

Late reports from a farmhouse where the injured members of the party were taken said that Mrs. Susie Thresh could not survive. She suffered a dislocated neck and internal injuries.

The members of the two families were en route to Hale Center, near here, to visit relatives when Thresh lost control of the car on the high embankment as he attempted to round a curve.

PYRAMID WELL NOT BROUGHT IN NEAR EDHOBBY

By United Press.

The Pyramid Oil Company has not brought in a well near Edhobby and is still about 100 feet above where the pay is expected, is the statement of E. J. McQuillen, the drilling contractor, and of Mills Davenport, who went out to the well Tuesday.

The tale of 100 barrels at the top of the lime was brought to town by an excited farmer, who had seen one barrel of oil brought up, it was said, and was told to Ranger oil men who credited the report.

The well is now thirty-seven feet in the lime at 3,024 feet and has a showing of oil. Pay is not looked for until the bit gets around 3,100.

RIOTERS IN SILESIA KILL SEVEN PERSONS

By United Press.

BERLIN, May 4.—Seven persons were killed at Antonienhelle, upper Silesia yesterday, by Polish rioters, according to reports here today.

The district was said to have been quiet by Italian troops who suffered some casualties. The disturbances grew out of false reports that certain portions of Upper Silesia had been awarded to Poland by the allied supreme council.

CITY WILL AID CITY-COUNTY HOSPITAL FUND

Commission Favors Construction at Once and Names Committee on Plans.

The city will take immediate steps to produce its share of the funds for the City-County municipal hospital and to this end yesterday afternoon appointed Drs. W. C. Palmer and A. K. Weir as a committee to visit all physicians to see what portion of the \$30,000 worth of warrants it will have to issue to meet its share of the cost.

The city commission went on record favoring the construction of the building with as little delay as possible and it was thought possible if the warrants could not be sold at this time a contractor could be found who would take the contract and accept the warrants as pay.

Free Dump.

Among other important business the commission empowered Dr. R. H. Hodges, sanitary commissioner, to make a deal whereby dumping privileges would be free to everyone at the city dumping grounds. The sanitary committee had agreed to maintain the place, according to Dr. Hodges if the city would pay the water bill at the disposal plant. This the commission agreed to do since in the past it has been paying half the bill.

The free dumping right when it is granted will not apply to dead horses or other large animals. A fee of \$10 will have to be paid for the burning of the carcass of a horse. Under this plan it is believed that many more persons will be encouraged to use the dumping ground instead of throwing trash out indiscriminately as is now the case in some instances. Under present arrangements a charge of 25 cents is made for each wagon-load that is accepted at the dumping place.

New City Hall.

The matter of a new city hall came up for discussion. Sanford Dean, sanitary commissioner, stated that he was in favor of immediate construction.

Mayor Gholson was doubtful if a decent price could be obtained for the city hall bonds at this time and doubted the feasibility of going into the matter. Dr. Hodges favored making an effort to find a market for the bonds. Commissioners Newham and Davenport rather sided with the mayor.

Street Cleaning.

When the matter of the paved streets being so dirty on Sunday came up Mr. Newham said he would make an effort to have Main street and the most important intersections swept on Saturday night.

The mayor called attention of the sanitary commissioner to the fact that persons along lower Main street were in the habit of pouring dirty water into the gutters. Dr. Hodges said that the practice would have to stop.

CAUSE OF MAN'S INJURY MAY NEVER BE KNOWN

By United Press.

What struck W. P. Niver, Tee Pee gas engine repairman, may never be known. Niver is in the Clinical hospital, suffering from cerebral concussion, but is conscious and will recover in a few days, it is said.

Niver remembers falling on his face while in the pump house. Then he got up, staggered outside and called to two men who were working near by. That is all he remembers until he woke up in the hospital, where he had been taken.

The wound is in the back of the head and the doctor thinks he must either have fallen backward or been hit by some missile. It is said that a stone with blood on it was found in the pump house after the accident, but the men who came to Nivers' aid are not known.

FREIGHT TRAIN WRECKED AND ENGINEER DIES

By United Press.

SAPULPA, Okla., May 4.—William D. Randall, engineer of Monette, Mo., was killed and his fireman, T. N. Garrett, was seriously injured when a Frisco freight train was wrecked at Osanna, about five miles east of Aston, Oklahoma, at 7:30 this morning, according to announcement made at the Frisco offices here. The cause of the wreck has not been determined.

The engine and a dozen freight cars were thrown off its track. The engine rolled down an embankment burying Randall beneath it. His body has not been recovered.

Garrett jumped, probably saving his life, although he was scalded and bruised. A. E. Thomas, brakeman, was scalded slightly. All three train men are from Monette, Mo.

Physicians were sent to the wreck from Aston.

LAMB
Anton Lang, known the world over as the man who portrays the Christus in the passion play at Oberammergau Bavaria, has been made a special charge of the European Relief Council of which Herbert Hoover is Chairman.

Early in the world's war, the newspapers in America carried cable dispatches that Herr Lang had been conscripted in the German army. The thousands of Americans who had seen the memorable performance at Oberammergau, immediately recognized the incongruity of transforming the hereditary portrayor of the Prince of Peace into a Warrior. Since that time little had been heard from Herr Lang and it is not known whether he had survived the war.

This production with its extraordinary musical setting, will be presented for the first time in Ranger starting today and running for two days at the Lamb Theatre.

TEMPLE
Elizabeth Meehan Williams, who appears in "The Plaything of Broadway," Reallart's second starring vehicle for Justine Johnstone, was the center of a melstrom of comment last summer concerning the appearance of women in public in bathing costumes.

Miss Williams, one of the best known American women swimmers, was in charge of the municipal bathing beach at Detroit. Daily lessons were given there to women, and to excite interest in the beach and its advantages Miss Williams and city executives planned a mermaid's frolic.

Many of Detroit's best known daughters agreed to appear in the frolic, which included a parade through the business section of the city. The parade was staged, the participants, in costumes a la Mack Sennett, riding on large trucks.

MAJESTIC.
Frank Mayo, the vigorous star of "The Brute Breaker" and other big Universal features, will be the principal attraction at the Majestic Theatre today and Thursday in his newest fast action picture drama, "The Magnificent Brute."

CAR THIEVES CUT MAN'S AUTO LOOSE FROM GARAGE FLOOR
The Dodge car of K. D. Steffins, flower shop proprietor, was stolen last night from his home north of the Sinclair camp, outside of the city limits.
The thieves sawed the lock from the garage door and cut the chains with which the car was bound to the floor, it was reported.

Jasper Club Foots Around, Kicks Over The Scenery—There's the "Other" Woman

"You know that stuff I was handing you yesterday about the women always putting the men on the defensive and driving them to the divorce courts?" Jasper Jones asked the reporter as they sat down in a drugless drug store and flirited with death in the form of a slug of "Lake". The reporter did remember it and admitted as much and also used the occasion to compliment Jasper on his courage in speaking right out loud and telling womenkind what is the matter with them.

"You talk about that defensive stuff," Jasper went on when he had gotten over near strangulation from sampling the beverage the nice young man with the slicked back hair had placed in front of him. "My wife did more than that to me and honest I hadn't done a thing.

Ha! The Secret!
"But believe me or not, boy, she had me going. The whole trouble lay in the fact that I have a young and handsome woman working in my shop, and I went home with a subtle—almost intangible—odour of lilac perfume ascending from my manly coat, and my wife don't use that kind a'tall. As soon as she smelt it she hooked it up with that young woman.

"Isn't that just real feminine logic? Without a doubt she imagined she could see that girl cuddled up on my

chest in fond embrace and thereby leaving that fragrant smell. I'll admit that it could have been possible but it wasn't. I tried it once alright and I like that woman a lot since and I have a wholesome respect for the wallop that she carries in that right arm of hers. Jess Willard hasn't much on her.

That's What They All Say.
But as I was saying, my wife smelted that perfume when she handed me the salute to the "setting sun." She kinder sniffed like a bird dog getting the first trail of a covey but I felt all right; I hadn't had a thing that whole day except that bottle of beverage you and I drank here yesterday. She sniffed again, then her eyes turned cold. I knew something was coming. She demanded to know where I got that perfume that was hanging to my shoulder.

"I know," she said, "you have had some woman in your arms." Now, whaddaya mean, turpentine? I ask you can you beat that and the only thing I had done was to sprinkle a little of the stuff on my coat to kill the odour of turpentine I had spilled there while working in my shop. Believe me or not, I had killed it and it looked like it was going to be the breaking up of a happy home.

Hail! A Hero!
"I am going right down there and

snatch that blonde-haired woman bald-headed she said. She probably meant it too; only I got busy with the soft-pedal stuff. Called her sweet woman and all that kind of guff and finally got her to listen while I explained the circumstances. Because she had complained of the odour of turpentine on me herself, she finally consented to believe what I said. But after she did believe it she declared that I had never put perfume on myself for her sake and she guessed I did it for some other girl.

"Now, I ask you, ain't women hell?"
The scratch of a lion's claw is almost as deadly as his bite, for he never cleans his nails, and he always carries under them rotting meat that is rank with deadly germs. Flies and water bugs do the same thing on a smaller scale; and: "Don't forget," says the U. S. Public Health service, "that they never wipe their feet."

BUM COOKS TOO OFTEN CAPSIZE DOMESTIC BEANS

This Leads to Indigestion and Divorce Court, U. of T. Instructor Says.

Special to the Times.

AUSTIN, May 4.—Judge W. S. Simkins of the faculty of the Law School of the University of Texas, declares that the chief cause of marital trouble and divorce decrees is indigestion and wants all young women to study home economics. Although Judge Simkins has for more than thirty years been training embryo lawyers of Texas at the University, he is quite willing that legal practice be limited by reduction in the number of divorce cases.

"Who," asks Judge Simkins with Samuel Butler, "can love a man whose liver is out of order?" And thus he advises young ladies harboring serious intentions against the first blessedness of man to learn first of all the art of producing gastronomic harmony by good cooking.

No Comfort No Love. "Incompatibility of temper is nothing but distemper caused by poorly prepared food and disordered houses. Most quarrels arise from physical discomfort. Shortly after marriage love is much less important to a man than edible biscuits. Man is a comfort-loving animal, and love without comfort is impossible. When we come home from business in the afternoon, we do not like to find our homes unswart and dusty, our wives at card parties, and for dinner cold and unpalatable food. In such families as that you cannot expect to find concord long. And therefore it seems to me that all women should receive some of the old-time training in domestic art."

Secret of Happiness. Since Judge Simkins is known as the man who fired the first shot of the civil war, at Fort Sumpter, and was one of the organizers of the Ku Klux Klan, his life cannot be called one of unbroken calm. He declares, however, that he has been singularly happy for almost eighty years, and attributes this to the fact that his wife was the best house-keeper he ever saw.

"The happiest homes," he says, "are those in which one finds the best house-keepers. My experience has taught me that calories wisely administered is the best insurance against divorce. My advice to young men is to find graduates of the department of home economics before they take any marriage vows. To young ladies, I say, 'learn domestic economy and it will be a simple matter to find the husband upon whom to practice what you have learned.'"

TEXAS MOTHERS FORM MEMORIAL TO SOLDIERS

AUSTIN, May 4.—The Mothers' Memorial Association of Texas, Boys of the World War, with headquarters at San Antonio, are to build and equip a soldiers' and sailors' memorial hall at Texas hall in memory of all Texas boys participating in the war was granted a charter by the state department today.

The association will have no capital stock. The hall proposed is to be used for a boarding and lodging place for boys and young men attending the university. Home surroundings at a minimum cost will be the aim of the plan, it was said.

YOU CAN STILL BLAME HIM FOR THE WEATHER YOU GET

When the weather forecast predicts a clear, sunny day but it turns out to be a chilly, rainy day, here is the gentleman to blame. Charles F. Marvin, for many years director of the Weather Bureau, was recently reappointed to the post by President Harding.

NEGRO BAPTISTS OF RANGER CELEBRATE PASTOR'S ANNIVERSARY

The negro Baptist church of Ranger last week celebrated the first anniversary of service of the pastor, Rev. J. W. Washington, with an excellent program rendered by members of all departments.

Several white friends attended the banquet given in the pastor's honor and were well served. The anniversary sermon Sunday morning was preached by the Rev. Boyd, who is here in the interest of Camp's Normal and Industrial College for negroes. It was a philosophical and logical appeal. Rev. M. F. Drury of the East Ranger Baptist church spoke at the evening service on "The Problems of a Church in Ranger." Several of the church officers also attended.

PRESIDENT DELAYS DISARMAMENT ACTION

WASHINGTON, May 4.—President Harding today won the consent of house leaders to delay action on disarmament proposals pending in congress.

Proposed hearings on the Rogers resolution which proposed an international disarmament conference will be called off as a result of the agreement between the president and sponsors of the resolution, who will make no attempt to push it until the president indicates he is ready.

SOUTH DAKOTA IS IN GRIP OF BIG OIL CRAZE

Epidemic Rages in Wildcat Territory Within 60 Miles of Pierre.

By Associated Press

PIERRE, S. D., May 4.—Western South Dakota is in the grip of an embryonic oil craze, the further development of which will depend upon the success or failure of a dozen or more "wild cat" wells now being drilled in various parts of the state, from the Missouri river to the Wyoming and Montana boundary lines.

The epidemic, or whatever it may be called, is raging most severely within a radius of sixty miles of this, the capital city, where speculation has been rife for many years because of certain formations, as to whether or not the western oil fields extended this far east.

Based on recent geological surveys of Montana, geologists agree on the general theory that the field in that state extends from northwest to southeast and if it continues southeastward must extend into South Dakota. These geologists also agree that the surface indications are as prominent in the suspected South Dakota oil area as in the proven Montana and Wyoming fields.

Fossils, shell and various prehistoric formations are present here, it is said, which are necessary to form the oil containers. Geologists who have made surveys in this state say that in certain sections it is their opinion oil should be found at a depth of from 2,500 to 3,500 feet. Fred A. Davies of Lewistown, Mont., and L. G. Cree of Lusk, Wyoming, both of whom made separate surveys of the western half of the state last fall, declare there is oil under certain sections but in what quantity they refused to estimate.

FRANCE CELEBRATING PASSING OF CENTURY SINCE NAPOLEON DIED

By Associated Press

PARIS, May 4.—France today began a two-day observance of the centenary of the death of Napoleon. At 5:40 Tuesday afternoon a salvo of artillery at the Invalides will mark the passing of a century since the death of the great warrior and will close the exercises. Memorial services were held today at the Notre Dame cathedral. Cardinal Dubois, arch-bishop of Paris presided, and a great throng heard the famous requiem mass of Berlioz with more than 500 singers.

WILHELM WAITED FOR HIS VANE NOT IN VAIN

BERLIN, May 4.—The weather vane and cement pole to which it was attached has disappeared from before Castle Bellevue, here.

It now adorns the former kaiser's castle in Holland; and thereby hangs a tale showing another of the kaiser's foibles. When he first occupied Castle Bellevue in the Tiergarten section here, he missed the weathercock to which he was accustomed in his forty-seven other castles. He was angry, for he had the theory that he must know which way the wind blew before taking his daily stroll, lest by going in the wrong direction he take cold in one ear, which was sensitive. The court attendants had an electrical device installed over his desk, registering the wind direction. This didn't jibe with his majesty's ideas, so he had the weather vane and mast erected in the yard where he could see it every morning. He was quite happy.

Then he went to Holland. He settled in the Castle Doorn. He saw at once upon entering his work chamber that something was lacking. The weather vane? Ah, yes, the weather vane!

There was nothing nearby whereto attach the vane, so he wrote the Prussian finance ministry here to please send the Bellevue weather vane. The vane arrived in Doorn, but Wilhelm was still unhappy, for the mast was missing.

The **NASH Four**

PERFORMANCE

The highly satisfactory way in which NASH MOTORS behave in use over a long period of time is necessarily but a reflection of the advanced engineering and manufacturing practices which obtain in the big shops where they are built. To perform right a car must be built right and "Quality" must be the prime consideration. NASH MOTORS are manufactured to a quality standard. They must give a greater term of service for the money you spend.

Call at our show rooms and ask for a demonstration of The Nash-Four

SALESMAN STEALS MAN'S WIFE, NAME MARRIAGE LICENSE

By Associated Press

CHICAGO, May 4.—Running away with another man's wife is wrong enough, but when a love pirate also takes the husband's name and his marriage certificate, the limit has been reached.

This is the view of William Creason of Muskegon, Mich. He has caused the arrest of his wife, Luella

Creason, and Frank E. Baker, a New York salesman. Judge Heap of the Morals court, sent Baker to the workhouse for 30 days.

With the debonair New York salesman on his way to the Bridewell, his wife properly repentant and the marriage certificate once more in his possession, Creason's anger began to wane. It was not difficult for the court to arrange a reconciliation between the young couple.

Creason and his wife came to Chicago several months ago. A month ago the husband lost his position and returned to Muskegon. His wife decided to remain here. After her husband had departed she met Baker. He took the name of Creason and used the marriage license when he sought to obtain rooms in an apartment building.

Meanwhile Creason's letters to his wife remained unanswered. This brought him to Chicago in haste and he caused the pair's arrest.

WASHINGTON, May 4.—Interstate Commerce Commission today ordered that the Texas State rate be reopened for the purpose of considering the propriety of rates on cotton linters in Texas and fixed a hearing for May 9, before Examiner Healy at Austin.

FARM AID.

This is not, perhaps, the best time in the year to talk of farming operations and their encouragement, because virtually all farming that will come to fruition this year has been started and there will be no changes either in plans or locations until after the harvest.

It might be worthy of note, however that Rising Star, which is in Eastland county and in the oil fields, is giving thought to progressive development of agriculture. Only recently the bankers and business men of that town decided to finance the importation of pure bred stock for the purpose of increasing the profits from the hog raising industry in that section.

That is a move that Ranger boosters could well consider. The better the stock, the larger and quicker the profits, and in a short time, in many communities that have tried it, the returns have been big.

It is an instance of rural encouragement that not only redounds to the benefit of both country and city, but binds the two together in a community of interest.

Ranger should formulate some definite program of farm aid if she is to reap the fullest benefit from the agricultural possibilities of this district.

Lloyd George is the only statesman who has learned anything from the war. He has mastered the art of going in a zigzag course to avoid torpedoes.—New York Post.

The British don't especially care whether or not Lloyd George really got them into this, provided he will get them out.—Charleston News and Courier.

There are 10,000 illiterates in the District of Columbia, but this is said to be no reflection on the members of Congress.—Chicago News.

Probably the sorest bunch of kids in the world will be found at Edmonton, Alberta, where the school teachers are out on strike.—Buffalo Express.

No emergency can arise in the world without managing to meet Lloyd George sooner or later.—Houston Post.

It is not easy to understand what advantage it is to Cork to have an itinerant New York.—Toledo Blade.

THE WOMAN WHO SAW

The woman stood the other day in the court of one of the biggest city hospitals, watching the derelicts of humanity coming and going through the many doors and entrances. Many types she saw, both old and young, but nearly all dejected in spite of the bright sunshine with which the court was filled. Invalids sat about in chairs. New patients were brought in by ambulance and car. Nurses and orderlies hurried from place to place, all absorbed in the business of the moment.

Presently, in answer to an unheard summons "the walking cases" came from every direction, evidently proceeding toward a dining hall. Little cheer was visible in their apathetic faces. Then out from the bushes at the side of the wall came a dirty black and white kitten, looking like the veriest wreck of a mispent day, furtive and ashamed. "Look, there's Little Salvation. I'm going to catch her," said one of the blue-clad women, darting after the kitten, while the others watched the chase. She returned triumphant, the kitten clasped tightly in her arms, and every face by this time aglow with shining interest.

"Why do you call that kitten 'Little Salvation'?" queried the woman. "Why, 'cause that's what she is," returned a gaunt old dame in blue calico. "There ain't nobody here but who feels better when that little cat's around, and Mary Ann, that lost her baby and her mind both keeps cuddling that little cat and loves it, and the nurse says it's a-helping her get better. Sure she's Little Salvation."

"You Said It."
The woman was waiting for her change, idly toying with some strings of bright beads. This is a fragment of the conversation she overheard:

"I'll say she is! Funny ain't the word for her! Didja hear about her finding a bag on the subway?"

"Get out! How'd she ever find anything? Her head's always in the clouds."

"The bag wasn't any 'count, but it had a V in it. Whatja think she said to me? 'Poll, what do you think a 'lost ad' would cost?' I nearly screamed. 'My Gawd, Mary, don't cha know? 'Finders's keepers, losers's weepers.' She shook her head in that soft, foolish way she has 'n said: 'Oh, Poll, look how shiny the bag is! And the bill is folded so thin! It makes me sorry!'"

"Well, if I know anything, she ain't no kin to Johnnie D."
"You said it! Why, she's still wearin' her winter hat. That fiver would have paid the first instalment on a spring one."

"Oh, she's funny, all right! That's the word!"

"For Peter's Sake."
Saint Marks-in-the-Bouwerie came into the Woman's vision unexpectedly on one of her prowling trips. Old, old, and beautifully old, as she hoped she might be when her time came. Its 1799-ness is written all over it, but in mellow beauty. The interior and exterior of this old landmark is suitably broad, quite true to its Holland Dutch origin. The faded news, time-darkened memorial tables with their quaint inscriptions, worn floor and tall candles, carried the Woman back to the dim, romantic past and set her musing understandingly over that trip Petrus Stuyvesant made to Holland, chagrined and broken-hearted, to explain why his beloved New Amsterdam had been surrendered to the invading English. It seemed a very long while ago, and now she stood over the tomb where the old fighter had been laid under the corner stone of this old church.

But it is impossible to hold one mood long in New York. As the woman swung the door open in passing into the outer vestibule, she glanced into an open closet, and there stood a powerful vacuum cleaner. Smiling sadly over its very efficient modernity she offered this plea. "Please please, spare dear irascible old Petrus the sight and sound of you. He earned so well his deep sleep."

DOG HILL PARAGRAPHS
By GEORGE BINGHAM.

Luke Mathewsia went to the barber shop Tuesday with the intention of getting his whiskers trimmed, but the wind was blowing too strong and Dock told him to come back when his whiskers quieted down.

The fire department at Bounding Billows wishes to say that whenever there is a fire they would appreciate it if they were given official notice of it as soon as possible, as two houses have recently burned without them being notified.

Poke Eazley spent Friday afternoon on the banks of Gander creek fishing, and almost caught the first big fish of the season.

EAST ST. LOUIS, Ill., May 4.—Taking of testimony in the trial of Loren Williamson, jointly charged with Guy Kyle of robbing the mails at Mt. Vernon, Ill., of \$175,000 will start today.

TINKER BOB STORIES

By CARLYSLE H. HOLCOMB.

MR. WREN HEARS SOME NEWS.

Silky, the Monkey, and Tinker-Bob, the King of the Forest, sat on a log together watching the actions of Mr. and Mrs. Wren and Jack the Rabbit. It is indeed surprising the interest that is evinced in the feathered creatures by Mr. Rabbit. And too it is strange to think Mr. Rabbit is always anxious to know about the welfare of the birds. "Well, I do declare," he said as he stood on his hind feet and greeted Mrs. Wren, "I wasn't looking for you so soon."

"You never can tell," said Tinker Bob, "when Jenny and Mr. Wren will come back, but we're glad to see them, aren't we Mr. Rabbit?"

"Glad to see them is right. When I see Jenny Wren about I know Jack Frost has gone back home to stay till the chestnuts and the dahhage are ripe. It just makes me feel so good to see these folks I can hardly contain myself. But where are the robins? I haven't had a chance to talk with them yet. They must be very busy building just now."

"O Mercy, haven't you heard about the trouble between the Robin family and that saucy Sparrow?"

I venture that Bob cat had a great time when you were away in the Southland King," said Mrs. Wren. "Tut, tut, tut, tut, tut, tut, tut. Mr. Wren came up all excited, 'come on Jenny or we will not have that beautiful place I found. That Sparrow told Jerry that if he found it he would fill it full of stones. Now you have stayed about here talking so long that he may be there and have the hole in the limb all filled up. I don't like to scold but if we have a home this summer we will have to get it when that Sparrow isn't looking.' Now Jenny felt very badly to think she had wasted so much time talking."

"Never mind," said Tinker Bob, "I'll see to it that the saucy Sparrow does you no harm."
(Tomorrow—Silky Meets Major Again.)

"O Mercy, haven't you heard about the trouble between the Robin family and that saucy Sparrow?"

and the months in which enemy submarines were operating almost continuously off our coast were the very months in which we broke all records for troop transportation.

Germany, she ran foul of the North sea barrage, composed almost wholly of American mines laid by American vessels, and she was so badly damaged that she sank. Twenty-one of her survivors were landed on the Norwegian coast; the fate of the rest of the crew is unknown.

U-Boat Sinks Light Ship.
The U-149 left Germany about a week later than the U-156, and worked in American waters in July and August. She chiefly distinguished herself by the wanton sinking of the Diamond Shoe's light ship, off Cape Hatteras. Near the end of August, after a temporary disappearance she came up again away to the north. She sank the British s-samer Pleiades. The latter returned her fire and the U-149, damaged and leaking, quit the fight. The U-117 a more recent arrival, went to her aid, and accompanied her back to Kiel, where they arrived on October 25th.

The Deutschland, or the U-155, arrived early in August. She made a fair record for damage done before she returned home. It was the Deutschland which fought a duel with the U. S. S. Frank H. Buck, in which the U-boat got the worst of it. The Buck reported that two of her shots took effect, and the Deutschland submerged. She was not injured enough to put her out of commission, however. A few days later we heard from her again sinking ships. But on September 13 she ran into another chosen victim which declined to be victimized without an argument. The British merchantman, Newby Hall returned her fire and a shell put her forward gun temporarily out of action. The U-155 made off.

For a week she seems to have engaged in mine laying off Halifax and the Nova Scotian coast. Then she got back in the fighting game and had a battle with the American steamship Amphion, to which she did serious damage. After an hour's duel, however, the Amphion was still afloat and the Deutschland abandoned the fight.

Sinks the Unsinkable.
On her way back to Germany she sank the Lucia, known as the "unsinkable" ship because she was fitted up with buoyancy boxes. This device did not keep her from sinking, but it kept her afloat twenty-four hours after she was torpedoed.

The Deutschland reached home on November 15, four days after the armistice ended hostilities.

The U-152 never came within close range of our ships. She appeared far out and in midocean, but she was with American ships. She fought a duel with the Ticonderoga. The navy crew

would be without military effect.

"Our first duty," I said to the newspaper men that morning, "is to keep open the road to France, to protect troopships an supply vessels. We are doing all we can to protect all shipping and commerce, but that must be our first thought."

And that policy was so well carried out that one troopship or transport was delayed in sailing a single day.

Little Benny's Note Book
Lee Pape

Inventions.
There are many new inventions nowadays that people used to miss without knowing they were missing. This is one of the lucky things about living in the 20th century instead of the 1st or 2nd. Another lucky thing about living now instead of formerly is that you are still alive.

One of the most important inventions is the telephone, which rings any hour of the day or night so you can talk to somebody that maybe you never even saw and maybe you wouldn't even want to see. You can also talk to your friends just as easy. When anybody in the olden days had a long piece of wire they just used it to fix things around the house instead of wasting time thinking about trying to talk through it, while now all you have to do to talk throo the telephone wire is just call up and if you get the rite number you know exactly who your talking to, and if you get the rong number you don't.

Another important invention is the electric lite, which saves us the trouble and expense of tarning on the gas every time we want a lite and also makes the matches last longer. Ever since the invention of the electric lite all you have to do to make a dark room disappear is just push a button.

Another important invention is the camera, which takes your picture and shows you exactly how you looked that minute no matter how much you change later. When you are all grown up you can look at a picture of how you used to look when you was a baby and realize how much you have improved.

2 other important inventions are the locomotive, which does all the work in a train of cars, and the fonograph, which gives us the privilege of tarning off the music whenever we don't feel like hearing it.

Joseph Daniels Tells Story of American Navy's Exploits in World War

(Continued From Page One.)

No Recall of Destroyers.

Obviously it was quite impossible for the navy department to satisfy all these inquiries, or to answer the very pointed questions of the newspapermen. We could not tell the public what we were doing; what ships were being sent out, and where. We might just as well have cabled the information to Germany.

Most of our destroyers and other patrol craft were in European waters, but we had no idea of recalling them. In the first place, to cover every point where submarines might appear, to patrol adequately the waters of our long coast line and to convoy all coastwise shipping—which was what excited individuals were insisting we should do—would have taken not less than a thousand vessels.

In the second place, nothing would have suited Germany's purpose better than to scare us into withdrawing our forces from the European hunting grounds, and perhaps abandoning our mine barrage across the North sea.

We were doing everything possible, but we realized that we would have to accept the likelihood of some small craft being sunk—possibly a few steamers; but that at all costs we must keep the line of communication clear by which troops and supplies were carried to the fighting front.

Must Keep Road Open.
Germany had sent her U-boats across the sea mainly for the purpose of interrupting the transportation of troops and supplies. Failing in this, their long and perilous adventure

LEFTY ADKINS HURLS SHUTOUT BALL AND DRIVES IN NITRO RUNS

Lovelace Makes Record of Ten Putouts in Outfield; Squeeze Play Gives Ranger's First Run; Singleton Out Again; Abilene Minus Three Men.

ABILENE, May 4.—Pitching and batting himself to victory, Lefty Adkins shut out the Eagles here Tuesday, winning by the score of 3 to 0. The Ranger twirler got a total of three safeties out of four tries and one of these was for two bases. He held the Abilene crew to six scattered bingles and was never seriously threatened.

Except for the first inning, when a score was annexed by the Nitros on a couple of errors, the visitors made their scores by steadily clouting the ball. Gomez Hill, who tossed for Abilene, was unable to hold the heavy hitting Ranger men and they collected nine safeties off his delivery, including two doubles and a triple.

A new record was set for put outs in the outfield by Lovelace. The swift centerfielder sacked everything that came into the field except one ball which he allowed Tolar to capture. Ten put outs were marked up by his credit and in addition to that he got an assist in a fast double play.

The first score of the game came in the first session. Clopp knocked one so high that it flirited with the clouds a few minutes before it came down and Whitehead missed it. York tried to sacrifice, but the ball rose slowly just over Hill's head and both men were safe before the ball could be fielded. Both men advanced on Lovelace's sacrifice. Tate, the next man up, attempted to bunt and complete a squeeze play. Hill rushed up to receive the bunt, dropped the ball and before he could pick it up, the first run was scored and Tate was safe at first.

Kemper interfered with the bat of Harding in the second and Harding added a stolen base a few minutes later to the free pass. He scored on Adkins' ringing double. Another run was added in the seventh on two clean

CISCO TAKES HITFEST FROM SWEETWATER

Sweetwater, May 4.—Cisco slugged her way to victory Tuesday, final score being 10-5. The locals stopped a big rally in the eighth inning, scoring six runs, but Cisco came right back and scored four. The hitting star was Griesbeck, who neatly furnished the fielding feature with a running one-handed catch.

And now we have the woman dental hygienist. She does not pull nor fill teeth and consequently is not a terror to children. Instead, she limits her work to cleaning and polishing the teeth above the gums. The United States Public Health service says that this is most helpful in making the gums healthy and in preventing decay. Twelve states have already legalized such practice by women.

BRONCS LOSE HURLING DUEL TO RESORTERS

SAN ANGELO, May 4.—A walk to Brashear spelled the downfall of Moore in a pitchers' battle here Tuesday and the Broncos lost to the Resorters, 2 to 1. The free pass was followed by Kreighbaum's double and Johnston, sent in to hit for Knight, drove Brashear across with a single.

Both clubs scored in the sixth. Mineral Wells made one when Briscoe singled, went to third on Langford's hit and counted when Byers threw wild to second in an attempt to cut off Langford's steal. A triple by Lewis and Duff's sacrifice fly gave the Broncos a run.

A pipe's a pal packed with P. A.!

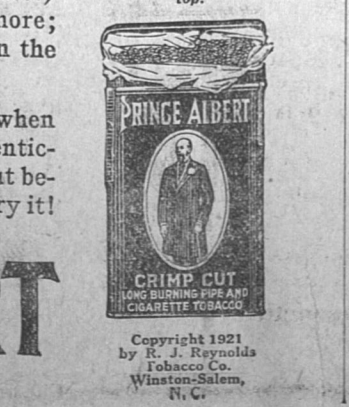

Seven days out of every week you'll get real smoke joy and real smoke contentment—if you'll get close-up to a jimmy pipe! Buy one and know that for yourself! Packed with cool, delightful, fragrant Prince Albert, a pipe's the greatest treat, the happiest and most appetizing smokeslant you ever had handed out!

You can clum it with a pipe—and you will—once you know that Prince Albert is free from bite and parch! (Cut out by our exclusive patented process!) Why—every puff of P. A. makes you want two more; every puff hits the bullseye harder and truer than the last! You can't resist such delight!

And, you'll get the smokesurprise of your life when you roll up a cigarette with Prince Albert! Such enticing flavor you never did know! And, P. A. stays put because it's crimp cut—and it's a cinch to roll! You try it!

PRINCE ALBERT

the national joy smoke

THIS TIME LAST YEAR. Cincinnati went into the lead in the National League race by beating the Cubs. Joe Leonard, of the Washington Club, died from appendicitis. Wally Schang reported to Red Sox and was reinstated. The Giants and the Phils used thirty-two players. Detroit scored two runs in the ninth and beat Cleveland 2 to 1.

VETERAN ENGINEER'S TRAVELS EQUAL SIXTY-FIVE EARTH CIRCLES

SIoux CITY, May 4.—Sixty-five times around the world, is the rail-mile record of C. A. Bates, veteran engineer employed by the Northwestern railroad, during his forty-two years of service with the railroad. During this time Mr. Bates has gained the unique record of never having been in a wreck. Once an angry bull nearly derailed an engine which he was driving, but the only casualty was the bull.

Mr. Bates became associated with the Northwestern line on September 2, 1885. Continuously he has been in its employ and at the age of 63 he is driving the Chicago Limited between Sioux City and Carroll. There is another thing that Mr. Bates is quite proud of. That is that twelve years ago he worked a 367-day year. He was making trips daily to the end of his run and back doing a double

"trick." One day his relief was sick, so he again doubled up and put in two extra days, explaining the unusual working year.

The U. S. Public Health service calls attention to the fact that only twenty-three states have efficient birth registration laws; eighteen have all sorts of legal troubles later in life—in providing citizenship, in voting, and in inheriting for instance. Don't forget to make sure that the new arrival in your home has been registered.

AT SIXTY-EIGHT SUFFERING OF LIFETIME ENDS

"From childhood until I got Tanlac, I suffered from indigestion and stomach trouble," said Mrs. J. A. Burrington, 540 Stanford Ave., Los Angeles.

MRS. J. A. BURRINGTON Los Angeles, Calif.

Calif., "and that's been a long time, for I'm now in my sixty-eighth year. I remember when I was a child I was kept on a strict diet of lime water and milk for weeks and I have been in constant distress all these years. I suffered terribly from bloating and had to be very careful of what I ate. I became so weak and nervous I could hardly go about my housework and was in a miserable condition.

"About two years ago my husband got such splendid results from Tanlac he insisted on my taking it and the medicine wasn't but a little while in ridding me of my trouble. It gave me a splendid appetite and I could enjoy a good hearty meal, even things I hadn't dared touch before, without any fear of it troubling me.

"Then I had the influenza and became dreadfully sick and weak, but only took four bottles of Tanlac to build me up again to where I'm now feeling better than at any time I can remember. I have gained eleven pounds in weight, too, and words can't express the gratitude I feel toward Tanlac. I keep Tanlac in the house all the time now, for I know it is a medicine that can be depended upon."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

London has one pedigree searcher, one macaroni manufacturer, two baby pacifier makers, two coats-on-arms carvers and ten stringers of pearls.

ARGENTINA MAY BE ONE OF BIG OIL SOURCES

Latest Well Brought in Continues to Flow 1,200 Barrels Daily.

BUENOS AIRES, May 4.—Experts in oil production say that, as a result of the rich discoveries of oil in the Comodoro Rivadavia field, Argentina may become one of the world's great sources of fuel. The Well No. 123 which came in on February 28, with an initial production of about 1,200 barrels an hour is continuing to flow at approximately the same amount.

The Comodoro Rivadavia oil producing area is located in the territory of Chubut, in the region called Patagonia, and is more than 600 miles southwest of Buenos Aires. It was discovered in 1907 when a deep test was being made in an effort to locate a water supply. The government, exercising its ownership of mineral rights, set aside 12,500 acres of land in the district and began the work of exploring the field. Later, another 12,500 acres was reserved.

Since that time 123 wells, have been sunk and production has gradually increased up to the present. In 1920 the total production was more than 1,000,000 barrels. The oil is heavy with small kerosene and gasoline content and is used principally as fuel oil, being sold to a number of industries in the country. Drilling depths are between 1,500 and 1,800 feet.

Until well No. 123 was brought in, all the wells had shown small production although several of them were gushers and had an initial production passing the 1,000-barrel mark. Practically every well drilled found oil in paying quantities.

Some Private Production. Outside of the government's reserved area there is some production by private companies. Several Argentine railroads that plan to burn oil instead of wood or coal recently made a contract with one of these companies and have undertaken an extensive campaign of exploration.

The completion of the big well has served to call attention once more to the other districts of Argentina that are ranked as favorable for oil production. An American oil engineer who is familiar with prospects from the northern border of the country to Tierra del Fuego told the correspondent that he looked for Argentina to develop into one of the producing centers of the world. He regards as especially favorable some sections of Jujuy, Mendoza, Neuquen and Santa Cruz.

Whether these prove to be producing areas or not, it is known that English and American companies, together with companies representing other nations, are actively at work trying to get a foothold in the country.

"At the present time," said an authority, "English interests are much more largely represented in Argentina than American. For several years

BRIDE OF MULTI-MILLIONAIRE STEEL MAGNATE

Mrs. John H. Flagler

Here is the first picture of the young divorcee who was secretly married to John H. Flagler, multi-millionaire steel magnate, at Copake Falls, New York, recently. Mrs. Flagler formerly was Miss Beatrice Frances Wennecker, of Brooklyn. Her first husband was James Divischi, Jr., whom she divorced in June, 1920. She is thirty-three years old.

They have been quietly scouting and studying the country. I look for Argentina within the next few years to become a large oil producing region. American companies should not hold back because of the impossibility of securing large concessions unless they are content to find Argentina's best oil lands in the hands of the British if the country is proved to be an oil reservoir."

Worth; John Hill, Ranger, Miss Lee Nora Galin, Ranger; Charlie Miller, Tiffin, Selma Morton, Weatherford; Boyd Henson, Eastland, Miss Rose Etter, Brownwood.

A woman 5 feet 2 inches in height may properly weigh 113 pounds; 5 feet 3 inches, 119 pounds, and 5 feet 4 inches, 130 pounds.

S. D. SENATOR JUMPED FROM WELL DIGGING TO WASHINGTON.

Senator Norbeck

From well digger to the United States Senate is the record made by Senator Peter Norbeck, of South Dakota, one of the new members of the Upper House. At the age of twenty-five Senator Norbeck started on a business career as a well digger. He had been interested in artesian wells and well machinery since his early youth. He entered politics in 1900 and has served three terms as State Senator, two terms as Lieutenant Governor and two terms as Governor of his State. A Republican, he was elected last November to succeed ex-Senator E. S. Johnson, Democrat.

WOMAN IS CONVICTED ON LUNACY CHARGE

EASTLAND, May 4.—Mrs. Eula Owen, aged 34, and wife of S. H. Owen, of Ranzer, was convicted on charge of lunacy in the county court of law Tuesday, and will doubtless be sent to the asylum as soon as the necessary arrangements can be made. The unfortunate woman who was brought here and placed in jail Monday, is the mother of three children.

An octave in sound is produced by double the number of vibrations per second of its fundamental.

BUSINESS DIRECTORY

Listed in alphabetical arrangement are herewith given the names of business firms and professions of Ranger. Consult this Directory for responsible and progressive citizenship. They want your business and are giving you a standing invitation to look them up—their addresses are for your guidance.

SHRINERS ATTENTION

Notice to All Newly Created Shriners

DANCE INITIATION

All Shriners and their ladies are cordially invited and expected to be present at the reception and dance to be given by the Ranger Shrine Club in the Ghoslon Hotel Thursday evening, May fifth, nine o'clock.

An invitation is extended to all visiting nobles and especially to the newly created Shriners. The dance is given in their honor.

This reception and dance is for Shriners and their ladies EXCLUSIVELY.

Musis by Illinois Five Informal. Wear Your Fez Entertainment Committee.

The Ranger Shrine Club will meet at Masonic Temple in session extraordinary for the purpose of initiating all newly created nobles into the Ranger Shrine Club, Friday evening at 8 o'clock, May 6.

Those nobles who do not report for initiation will be taken up by the PATROL and it is unpleasant to dwell upon the fate of such. A word to the wise should be sufficient.

A smoker and buffet luncheon as well as several vaudeville performances will follow the initiation. Every Shriner in Ranger and Eastland county should be present for this affair. By order of the President, NOBLE HARKRIDER, ENTERTAINMENT COMMITTEE

Then With a Weenie Roast in Moonlit Glade Thusly Business Women's Plans Are Laid

A weenie roast!—down where the river is streaming, where fireflies are gleaming, where night owls are dreaming—come!

That's the entertainment the Business Women's club will offer to its masculine friends on the night of May 17.

Plans are tentative as yet, but the almanac has been consulted and it is known there will be a moon. Trucks will take the club members and their favored friends to some place where there is wood and gloomy nooks and maybe a sparkling stream, beside which fires will be built and "hot dogs" roasted to a turn or maybe boiled, but without sauer kraut.

There also is a chance for any man able to concoct the hobo's delight, "a mulligan."

The outing was the principal subject of discussion at the monthly

meeting Tuesday night, but plans for the rooms in the Marston building, which will be occupied jointly with the 1920 club and the library, were talked over.

Incidentally, the business women have all been supplied with library tickets, and they'll nick you for a dollar if you don't watch out.

NINETY MOROS KILLED IN THE SULU ISLANDS

MANILA, Philippines, May 4.—Ninety Moros, including Mah Ujah Untong, religious fanatic leader, were killed Sunday by a detachment of Philippine constabulary in an engagement near Taglibi, island of Sulu, some 500 miles from here, according to advices received here today.

HUMANS LIKE JAZZ, SO SCIENTISTS REPORT BUT ANIMALS DON'T

NEW YORK, May 4.—Humans may like jazz, but animals don't.

This was the conclusion reached by a group of scientists who recently assembled in the Central Park zoo to see what a saxophone and traps would do to the emotions of monkeys, lions, leopards, elephants and other jungle beasts.

A quintet of musicians guaranteed to tug anything from Wagner down was massed in front of the monkey cages for the first laboratory test to determine whether the line "music hath charms to soothe the savage breast" was, after all only poetic license.

According to a corps of unscientific reporters who journeyed to the zoo with scientists from Columbia University, American Museum of Natural History and New York Zoological Park, the monkeys registered

emotion all right—but of a rather savage kind.

Then the latest jazz was banged into the ears of lions and their mates. All hopped to their feet, with fur bristling.

As for Mrs. Murphy, Hippopotamus, she merely wrecked the experiment by diving into her tank and shutting out the racket. The elephants seemed to tremble with rage.

Only one beast was found that apparently was able to endure, if not enjoy, jazz. That was Bagheeta, the leonardess. But when a hymn was played, she started a six-day race around the cage, spitting sparks.

The scientists however, put a question mark after Bagheeta's test, for attention was called to the fact that, at the moment, a keeper whom she chose to relish only as a potential meal, had just passed her cage.

AUSTIN, May 4.—Phelps and Dewes of San Antonio, architects were today selected by the building committee as architects for the construction of the American Legion hospital at Kerrville.

SOCIETY AND ORGANIZATIONS

FLOWER SALE.

The Women's circle of the Presbyterian church decided at the last meeting to have a flower and candy sale all day on Saturday, May 7th, at the Woman's exchange. All kinds of cut flowers, potted plants and ferns will be sold, and home-made and other candies. The funds from the sale will be used for the benefit of the circle.

CANTATA REHEARSAL.

Rehearsal of the cantata, "Jephthah's daughter," will be held Thursday evening at the Presbyterian church. Members of the cast and those interested in the production are asked to be present.

Mr. and Mrs. J. H. Keller of 909 Pershing street, entertained in honor of their daughter, Mrs. C. D. Tribbey, of Oklahoma City with six tables of progressive games. A salad course was served and carnations were given each guest as favor. Mrs. Tribbey left for her home in Oklahoma City. The following guests were present: Mesdames Woods, Skillern, Lyle, Newman, Rhoads, White, Lauderdale, Taylor, Lyman, White, Hubbard, Palmer, Wakefield, Burden Beck, Yarger and Cunningham of Cisco; Kaylor, Conway and Clark.

PERSONALS.

Fred E. Stotts, manager of the Majestic flower shop, returned Wednesday from a two-weeks' business trip to Waco, Dallas and other points.

Clyde Jones of Jones & Deffenbach has returned from Dallas, where he obtained the agency for Ranger for the Lee Puncture-proof tire.

Mrs. F. D. Bostaph left Wednesday for a month's visit at her old home in Pinesville, O. Mrs. Bostaph will visit Baltimore and New York before her return.

EVANGELIST BASSETT PREACHES SERMON ON SANCTITY OF HOME

Declaring the downfall of many a man and woman could be traced to some defect in the home, Evangelist Bassett addressed another large audience at the First Baptist church last night. The evangelist spoke upon the subject of "Home," taking his text from the Book of Proverbs, twenty-second chapter and sixth verse, "Train up a child in the way he should go; and when he is old he will not depart from it."

"The homes are like mighty streams pouring forth currents into this great world and they ought to be the centers of the purest and noblest things of earth and nothing should ever be permitted to wriggle its infamous carcass across its threshold to assassinate virtue or murder any thought that might lead your boy or girl to 'ward God,'" Mr. Bassett said. "I believe the proper setting for the home is the most important thing in the world and you will never settle it right till you first settle that as a father and mother you have Christ to be in that home."

"I do not believe that a Christian woman should marry a man who repudiates the Gospel of the Lord Jesus Christ. If you could look into a few homes and see broken-hearted mothers and wives that have suffered worse than death, because of the brutality, profanity and rascality of their Godless husbands, the young women would think of many times before they contemplate marriage. Make your home right with God tonight. There is only one way to do it and that is to take Jesus Christ into the home and it will be the greatest step toward changing the home. God is ready and willing to forgive you your sins, no matter how black your sins may be."

YOUNG BUSINESS MAN WILL RETURN AND TAKE HIS OLD RANGER JOB

W. H. Bell, formerly manager of the Federal bakery of Ranger, now traveling auditor for the Federal System of Bakeries, with headquarters in Oklahoma City, will return to Ran-

ger May 15 and take up his duties as manager of the system's bakery here.

Ranger friends were advised yesterday. Mr. Bell is declared by Ranger young women to have been one of the most popular young men in the city.

"To have been" is right, for Mr. Bell is no longer popular with Ranger young women. That is, not in the same way, and perhaps not as much. Now they worship, if at all, from afar. For Mr. Bell, while he is assured a warm welcome by his for-

mer friends in Ranger, has lost somewhat of his former standing among the fair sex of the world's most famous oil center.

He is married. A young woman described as a "petite brunette," whose home is in Oklahoma City, grabbed him when the Ranger girls weren't looking. She was Miss Chelson.

The transmission of sensations along our nerves is sometimes likened to the flow of electricity in a wire, but it is immensely slower, its speed being only about 100 feet a second.

Greater Values, Bigger Bargains for Thursday at

DOLLAR DAY

DAINTINESS AND DELICACY CURED BY USE OF BUTTER

The careful housekeeper is always on the alert for new and delicious dishes to serve her family. When these dishes can be made high in food value without sacrificing any of their good features, and when, in addition, they can be made to contain a vital food property that makes children grow and grown folks feel better, she is more than interested.

Below we give a group of tested recipes for a number of new and unusual dishes, all using butter to round out the other good qualities of the dish and all therefore containing a liberal portion of "vitamines," the growth-producing property found only in butter-fat and the yellow parts of eggs.

NEW POTATO DRESSING.

(Potatoes for Six.)

- 1-4 cup cracker crumbs
- 1-2 cup Mistletoe Butter.
- 1-4 cup boiling water.
- 4 tablespoons minced parsley
- 1-2 teaspoon paprika

Blend the cracker powder with the butter, then beat in the boiling water. Add the seasonings, and pour, very hot, over the potatoes after they are in the dish ready to serve.

SOFT GINGER BREAD.

- 1 cup Mistletoe Butter.
- 1 cup brown sugar
- 1 cup sour milk
- 1 cup black molasses
- 2 eggs
- 1 teaspoon ginger
- 1 teaspoon soda
- 3 cups flour

Cream the sugar with the butter and the eggs. Add the milk and molasses, then the soda, flour and ginger sifted together twice. Pour in a greased shallow pan and bake until firm. In the case of about forty minutes. If the bread falls, cracks or is heavy 'tis baked at too high temperature.

BROWN SUGAR SAUCE.

- 1-2 cup Mistletoe Butter
- 1-2 cups brown sugar
- 1 cup water
- 1 teaspoon cinnamon
- 1-2 teaspoon nutmeg

Cook the sugar, water and butter for five minutes. Add spices and serve very hot over apple dumplings or any pudding.

COOKED SALAD DRESSING.

(To have on hand.)

- 2 egg yolks
- 1 tablespoon flour
- 1 tablespoon sugar
- 1 tablespoon salt
- 1-2 cup cider vinegar
- 3-4 cup boiling water
- Cayenne—paprika
- 1-2 cup Mistletoe Butter

Beat the egg yolks, salt and sugar until light. Blend in the flour and vinegar. Beat in the boiling water until thick. Melt the butter and beat it with a fork. Put this dressing aside to use as needed. One tablespoonful of it beaten in a cup of whipped cream, will serve four or six fruit salads.

GROCERIES

—and don't forget—

Mistletoe CREAMERY BUTTER

Cream from supervised dairies, pasteurized, churned and seasoned in snow-white, modern creameries—Nothing added except salt

Made by Mistletoe Creamery Co. San Antonio—Fort Worth
