

MEXICO ASKS TO SEND TROOPS OVER LINE

C. OF C. TEAMS IN DRIVE LED BY STOCKMAN

Twenty-five Captains Are Pledged at First Organization Meeting.

Responding to the demand already apparent for the tickets for the Greater Ranger dinner on Tuesday evening next, they have been placed in both the Chamber of Commerce and the headquarters of the chamber's campaign, in the Marston building.

Indications are that the attendance will tax the capacity of the new Mission garage, where the dinner will be served at 8:30. Most of the men who have already secured their reservations have taken tickets for two or more, which means that the attendance of women will be quite large. The committee in charge of the affair announces that a special welcome awaits women, for it is expected they will take fully as much interest in the new civic-commercial movement as the men.

Teams Being Formed. Actual work on the formation of the team organization which will make the campaign was commenced last evening, when at a meeting in Moose temple, about twenty-five of the captains were pledged. Ralph G. Stockman is to be the commander-in-chief of the team forces, he having accepted the post of general chairman.

The organization will consist of nine majors, each in command of four captains, who will each lead teams of five men including themselves. This will provide an effective force of 100. In emphasizing the desirability of such a large organization, D. H. McFarland, the campaign director, said that "a dozen men might go out and do this job in perhaps six months, whereas 20 can do it in a few hours."

Mr. McFarland showed how this can be accomplished by telling of the campaign plans. It is proposed to make the drive next week on Wednesday, Thursday and Friday. If the teams work faithfully two and a half hours each of those days, the whole task may be completed in seven and one-half hours, "and I have yet to hear of the first man in Ranger who is not willing to give that amount of his time to this certain method of making the Ranger of our ambitions come true," added Mr. McFarland.

Looking Ahead. The campaign director also placed emphasis on the three-year feature of the movement. "In spite of the remarkable advancement in Ranger in one year," he told the team men, "you can hardly expect to complete your city building program in the coming year. Therefore, we are placing this campaign on a three-year basis. Members will be asked to join the new Chamber of Commerce for three years, with the distinct understanding, of course, that if they leave the city, die or become bankrupt, the pledge is to be automatically void." The best experience of cities everywhere, Mr. McFarland said, is the three-year plan, for it insures continuance of interest and the ability to make a program which will be carried through. It is also, he said, obviously impossible to make one of these campaigns every year. The three-year plan was unanimously approved by the men present.

Ranger Suggested for 1921 Meeting of State Legion

Leont Watson, editor of the Texas Legionnaire and state publicity director of the American Legion, spoke to the members of Carl Barnes post at last night's meeting, commending them on the legion quarters and suggesting that Ranger was the place where the 1921 state convention should be held. Speaking as a member of Bothwell Kane post, Fort Worth, he pledged the support of that chapter of 1,500 members to bring the next meeting to Ranger.

Committees for plans for the observance of Memorial Day and for the providing of musical entertainment at the Greater Ranger banquet at the Mission garage Tuesday were appointed by Finance Officer R. H. Hansford, acting post commander.

Many members of the legion were in attendance at the Chamber of Commerce organization meeting. The Ashner girls from the Hippodrome, with Charles Rodman at the piano, furnished several songs numbers which the boys enjoyed. The entertainment was furnished through the co-operation of Charles B. Sexton of the Douthitt-Wilson company, who is a member of Birmingham post No. 1, American Legion. Mr. Rodman also is a former service man.

Mr. Gillett expects to steadily continue operations at the well now until it is completed.

RANGER'S GREAT SEWER SYSTEM IS COMPLETED

Contractors Finish Work on 35-Mile Job, Costing \$220,000.

At a total price of \$220,000 the James Contracting company has completed thirty-five miles of sewerage for the city. They have also built a large capacity disposal plant at a cost of \$35,000.

The city has accepted the work as done by this company and is today making final payments on the contracts. The James Contracting company is moving its equipment to Eastland. The company has contracts both in Eastland and Cisco.

Sewer bonds were voted by the city several months ago to lay the sewers that have been completed. With the exception of one or two outlying and sparsely settled additions, the entire city now has sewer connections.

The disposal plant is a smooth working affair and of such capacity to care for the needs of Ranger for several years.

HEN WITHOUT BILL RESEMBLES MONKEY

International News Service. NEW YORK, April 16.—A black hen that looks and acts like a monkey is the unique window display in a hardware store on Grand street, Brooklyn.

The hen has no bill and as a result its face strongly resembles that of a monkey. It has no claws, so that its feet also resemble those of a monkey. It spends most of its time climbing about its crate, which is three feet high and three feet wide. The hardware dealer said he bought the freak about three weeks ago from a poultry man in the neighborhood. He said he would not sell it because it has proved a great business getter.

HOME DESTROYED BY FIRE, BABY WEARS DOLL'S CLOTHES

International News Service. CINCINNATI, April 16.—The children and grandchildren of Virginia Hensley will enjoy hearing her tell about the time when she wore doll clothes.

Little Virginia is one year old. The home occupied by the child and her parents, Mr. and Mrs. Fred Hensley, burned down here a week night ago. Unable to get their clothing, the mother was forced to grab her scantily-clad daughter and get out of the burning building.

Fifteen-year-old Henry Kordenbrock was attracted by the flames. He lived across the street from the burning residence. Nothing of the clothes he wore of the babe, he hurried home and returned with some of his sister's doll clothes, which Mrs. Hensley put on little Virginia.

Strikers were returning to work at several railroad centers today, however, and in certain sections where industries have been forced to close preparations are being made to resume operations.

A year ago the governor refused a similar request.

HOBBS NOT ASKED. AUSTIN, April 16.—Governor Hobbs announced today that the Mexican request to send troops through Texas had not been received and refused comment.

Boy of 20 Hasn't Much Sense, Rules Fort Worth Judge

FORT WORTH, April 16.—"Youth is indiscreet; in fact, a boy twenty years of age has no sense," was the opinion expressed by Judge James C. Wilson here recently when W. C. Heath, aged twenty, was arraigned to be sentenced for the theft of a carton of cigarettes from a freight car.

Ordinarily, the judge declared, the boy would have received a sentence in the penitentiary.

"Boys haven't much sense at twenty years and I don't know but what you are yarning out of this," the judge told the boy, after considering the case. "I probably would yam, too, if I were in your fix. But, at any rate, I do not like to send a boy to the penitentiary, so I will just fine you \$100."

LITTLE WEATHERFORD GIRL LOOKS FAR AHEAD

AUSTIN, April 16.—An unusual instance of looking far ahead has come to the notice of Mrs. Nell Carothers, director of the woman's building of the University of Texas. She has just received an application for a room in the woman's building for the session of 1923-24 from Miss Mary Lulu Shadle, thirteen years of age, of Weatherford, Texas. Miss Shadle is the daughter of Mr. and Mrs. Sam Shadle of that place.

The application theories and the hearing in the woman's building is the farthest ahead of any that has so far been received by Mrs. Carothers. There is always a long waiting list for rooms and this fact emphasizes the need of more dormitory accommodations at the university, it is pointed out.

Three Now Claim \$5,000 Figuring in Army Graft Case

DETROIT.—Ownership of the \$5,000 fund which figured so prominently in the so-called \$30,000,000 army salvage graft trial in the federal court, resulted in the conviction of three of the defendants and the acquittal of three others, will be tried by the supreme court.

The money, it is alleged, was turned over to Grant Hugh Browne by Burt Harris and Monroe Bardach as a part of a bribe of \$10,000. Browne turned the money over to Captain Nicholson. The latter was arrested in the Statler hotel as he was dividing the fund with Lieutenant B. T. Reamy, who exposed the plot. Then it was turned over to District Attorney John E. Kinnane, who held it as evidence.

Recently, Thomas Felder, attorney for Browne, claimed the money on an assignment made for attorney fees. George Monaghan, for Bardach, filed a claim for his client's share.

Lucking, Murphy & Helfman have entered a claim on behalf of Harris. Mr. Kinnane has refused to turn over the \$5,000 to anyone, saying it belongs to the government by confiscation.

Meanwhile Levi Cooke, representing Nicholson, in whose possession the money was before his arrest, is yet to be heard from.

W. W. would continue its efforts as long as it is organized.

Efficiency Talk at Moose Hall on Monday, April 26

Under the auspices of the Chamber of Commerce, W. F. Brennan of the lecture bureau of the National Cash Register company will give a lecture in Ranger Monday night, April 26, on business efficiency.

The lecture will be illustrated throughout with moving pictures and slides.

Advertising, organization, personal efficiency, window displays and other points dealing with a successful business will be illustrated and discussed.

Mr. Brennan carries his own equipment and the only requirement is that the local Chamber of Commerce furnish a hall in which to give the lecture. No charge for admittance will be made.

C. A. Yunkers, advance man of the bureau, was in the city yesterday making the necessary arrangements. In discussing the work as being done by the National company, Mr. Yunkers said that the lecture had been given in every town of the United States of 50,000 or more and in many of them twice. As an example of what the work is Mr. Yunkers said in the cases of window displays the lecturer would show by moving pictures just what a good display was and why, also giving pictures of bad displays and explaining why they were bad.

He also made the statement that every business man, regardless of the nature of his business would find many ideas in the lecture applicable to his own line.

The Chamber of Commerce has arranged for the Moose hall in which to hold the lecture.

WEATHERFORD PLANT HAS TO BORROW COAL; OTHER CURRENT NEWS

WEATHERFORD, Texas, April 15.—The local light and water plant was supplied with a car of coal by the local laundry yesterday, which will keep the plant operating for a while longer. The switchmen's strike caught the light company with an exhausted supply of fuel. The light company is preparing to use

natural gas and will be connected up with this fuel within a few days.

An agreement was reached between the county and city officials whereby the public square will be paved full width. It will be pleasing news to us all as there was some doubt existing as to what action was going to be taken in regard to paving the square.

Theo. Yarbrough, K. of R. & S. of Lone Star Lodge No. 4, K. of P., has been appointed a member of the committee to arrange the program for the K. of R. and S. association meeting which will be held in Galveston in May.

The Parker-Palo Pinto County Medical association held a very interesting meeting in this city Tuesday. Several prominent physicians delivered addresses and there were also talks by trained nurses. The evening's entertainment was greatly enhanced by a pleasing recitation by little Miss Erma Lee Phillips, entitled "Some Little Bug Will Get You Some Day," which was very appropriate for the occasion.

Nolan Queen, newly elected mayor, was duly installed into that office at an adjourned meeting of the city commission. The retiring mayor, Rev. W. M. Bunch, made an address, saying that while he was retiring from the head of the city government, he would ever work for the good of the city.

Weatherford's first block of real paving is now completed and there is being another bond issue agitated to extend the paving to the city limits.

There is also quite a lot of agitation regarding a new high school building for this city. The Chamber of Commerce is working on the matter and likely a bond issue will be voted for this purpose. Weatherford already ranks high as a school town and the erection of a new high school building will add materially to our schooling facilities.

Five Men Held in Tangle Over Little Motor Kar

DALLAS, April 15.—Five men associated with the promotion of the Little Motor Kar company which was placed in receivership were remanded to jail for preliminary hearing next Friday on charges of using the mails to defraud. They were unable to give the \$25,000 bail demanded of each.

The men arrested are William S. Livesey, president of the Little Motor Kar company; R. L. McCoy, vice president; George W. Stricker, secretary-treasurer, and Herman Stricker and J. H. Crow, both employees of the company. The charges were preferred by postoffice inspectors, alleging fraudulent use of the mails and conspiracy to defraud.

In the receivership proceedings, Everett S. Owens was appointed receiver for the property, the petition having been filed by certain stockholders, who alleged mismanagement of the company's affairs.

Petitioners charged that stock sales for the Little Motor Kar company had netted the concern about \$1,000,000, but that the company had left only about \$300,000 in assets.

The company was organized a year ago with a capital stock of \$100,000. This later was increased first to \$1,000,000 and subsequently to \$3,000,000. There are said to be about 30,000 stockholders in Texas, Oklahoma, Missouri, Illinois and Pennsylvania.

You are a Stockholder in the greatest business in the world

YOU are going to do an act this month whose influence will carry around the world.

It will seem a simple thing to you—merely making a gift in the Interchurch World Campaign.

But in Church hospitals all over the country sick people will be made happier, for part of your gift will go to them.

In scores of children's homes supported by the Church more children will have a chance.

In China where there is one doctor to every 400,000 people (America has one to every 712) the Church's medical forces will be strengthened and encouraged.

Babies who might have died

In India where a third of the babies die before their second year, the lives of babies will be saved.

Church schools and colleges will share your gift [half of America's 450,000 students in institutions of higher grade are in Church institutions].

In preachers' homes where preachers' wives have patched and darned and wetted their work with their tears, life will be happier and better. [80% of the preachers now are paid less than \$20 a week.]

These are some of the things your money will do. And this is

What your money will not do

It will not put two Churches where only one should be. The Movement means thirty denominations pledged to prevent duplication and waste.

It will not be spent in useless overhead. At least a million dollars will be saved by the merging of thirty campaigns into one united effort.

Your life will be at work in every land

Whether you are a Church member, or whether you merely contribute, you will put your life to work—through the Church—in every corner of the World. And long after your life is over its influence will survive and serve.

These are the terms in which to think of the Church.

We have thought too long about it in terms of little things. Let us get a picture this month of its world-wide sweep. Let us stop thinking of ourselves as givers of pennies.

We are fellow-workers with Almighty God—stockholders in the greatest business in the world.

UNREST IN THE HOME.

It is a sad picture presented to the country by James Fitzgerald, secretary of the St. Vincent De Paul Society of Detroit, who says that observations in the Michigan city during the past three months, indicate that mother-love is no longer the mighty influence of the past among wives there.

It would be a sorry thing if the "unrest" which has spread so rapidly should shake the granite foundations of womanhood, and those who love their country hope that other places are not like Detroit, where, it is said, an increasing number of women are deserting their families.

Mr. Fitzgerald points out that although laws against wife desertion are considered entirely too lax, machinery can be set in motion to bring a deserting husband back in some cases, but, he says, there is nothing in the statutes which makes a mother liable except in cases where infants are abandoned.

"The result seems to be," Fitzgerald declared, "that social workers generally are viewing this new tendency on the part of mothers with a great deal of alarm. It is bad enough when a man forgets his duty and leaves his family in distress, but when a mother forgets her love and her instinctive desire to protect her young, what can society do. So far as money goes, the children de-

Why You Should Get Behind Chamber of Commerce Drive

"What is the place of the professional man, the lawyer, doctor, geologist, in the Chamber of Commerce?" was asked and answered today in view of the membership drive to be made by the Ranger chamber next week.

"The best way to answer that question is to ask another," it was said. "Ask the professional man if he has thought of the future of his own and other men's children in relation to Ranger; if this is the city where he wants those children to remain and make their careers? Of course this question applies to every father in Ranger and all will answer in the same way.

"But the fact will remain that unless Ranger continues to be a city of good opportunity, those children will not

be fed and clothed. But there is no substitute in the world for motherhood. And no effort which we can make to obtain a substitute ever really fills the bill.

"In one case a mother deserted three children, eloping with the family boarder. The husband was buying a house on contract and the wife's chief dissatisfaction was that she was obliged to care for one of the children who is paralyzed. Through free medical aid the boy is now able to walk. The mother took with her the two-year-old baby, \$100 and considerable of the house furnishings.

"A large proportion of desertions are among young married couples. A twenty-four-year-old wife whose husband came here from Cleveland five months ago and is earning sixty cents an hour ran away March 10, leaving a baby less than a year old. An Italian wife who came to Detroit from Paris, France, six years ago, ran away in November, leaving two children behind."

stay here. There are scores of standstill cities in this country which are spending millions of the taxpayers' money to educate young folks for the benefit of forward-looking, progressive cities. This cannot be said of Ranger, of course, and no Ranger father wants to make it possible to say it in the future.

"This is a specific field in which the Chamber of Commerce should find and will be active. Encouragement of activities among the boys and girls of the city which will make them proud citizens in a few years is a great duty of the chamber. In co-operation with the various organizations which will soon be working effectively along these lines, the Chamber of Commerce will be of immense service in directing the thought and energy of the young people toward the rebuilding of the city.

"The live Chamber of Commerce is constantly reaching out into the ranks of the young folks and making use of their abilities. This inevitably trains them to think of their home town as the finest place in the world, and when they reach manhood and womanhood they will stay right here in Ranger to make their future progress on the community.

"All this has an immediate and continuing benefit. It adds to the population, to the earning and spending power of the people, to the spirit of enterprise of the community. It will keep the industrial plants steadily in operation. It will add to the value of every piece of property and business.

"Perhaps more important than anything else, the Chamber of Commerce offers the professional man the means of co-operating with his fellow citizens for the general good of the community. Business men turn naturally to the chamber to give advice; the lawyer and doctor can do so more than has been their habit. The chamber needs them and they need the chamber."

PHILLIES, PIRATES AND BROWNS WILL BE INTERESTING CLUBS, BUT NOT CONTENDERS

Jimmy Austin, Brown vet, is scooping one up; George Gibson, new Pirate boss, is warming up his hurlers and, below, Gavy Cravath is looking his crew over.

Circumstances arouse new interest in the teams that will wear the Philly, Brown and Pirate uniforms this year, but none of these clubs seems to have a look-in as a flag contender. George Gibson starts his career as Pirate pilot. Gavy Cravath is launching on his first full season as Philly boss. St. Louis scribes have about decided that this season will see the passing of Jimmy Austin, veteran third basing star.

Big Estate Shared by One Year Old Girl in Chicago

International News Service.

CHICAGO, April 16.—Add to the list of the country's "baby millionaires" or at least near millionaires, little Miss Anne Blaine of Chicago, one year and not quite four months.

The great-granddaughter of James G. Blaine, Republican political leader of the '80's, who came near being president of the United States at one time, the baby heiress is of almost equally distinguished ancestry on another side of the family, being also a great-granddaughter of Cyrus H. McCormick, and the granddaughter of Mrs. Emmons Blaine.

Recently in the probate court here it was discovered that the little miss is heir to a half share of the estate of her late father, Emmons Blaine, Jr., the baby's share amounting, it is estimated, to more than \$300,000.

C. of C. Campaign to Put Ranger at Head of List

Ranger is out for a world's record, with every prospect of making it.

Reference has been made several times in the preparations for the expansion and reorganization campaign of the Chamber of Commerce to the fact that if the drive nets at least 2,000 members who, at \$25 per year, will provide an income of not less than \$50,000, Ranger will lead every other city in the United States and Canada in the per capita support of its civic-commercial organization.

Examination today of the records proves that this will be true. The per capita support in Ranger will not only be larger than that of any other city, but it will exceed the best figures elsewhere by about 50 per cent. It is true that in two places in this country, the amount of money available for Chamber of Commerce purposes is larger than it will be in Ranger, but this fact is explained by the existence of so-called sustaining funds, which are wholly in addition to the regular incomes of the chambers.

Both of these towns are quite small, under 4,000 population, and the sustaining funds were created for special purposes.

In the table below are shown the per capita incomes of the Chamber of Commerce in all cities where the amount exceeds \$1.00. It would seem that Ranger in making a record of \$2.31, which is based on \$50,000 per year, will set up a mark which will be almost at its peak in other communities for some years to come.

RABBIT CATCHERS FOR HAT TRADE GET \$160

International News Service.
NEW YORK, April 15.—"I have been advised that Australian rabbit catchers now are earning as much as \$100 a week," says Aaron Naumberg, president of the Hatters' Fur Catchers' association, just returned from Europe.

Mr. Naumberg doesn't say whether or not it takes a week for an Australian rabbit catcher to catch a rabbit, but he asserts that rabbit skins necessary in the manufacture of hats that sold for 18 pence the pound in London in 1913 now are selling for 300 pence.

Chicago Thinks New York Exceeds in Extravagance

International News Service.
CHICAGO, April 15.—Is Chicago the most extravagant city in America? Perish the thought! The distinction belongs to New York.

Chicagoans who know said so after reading a report from the federal reserve board at Washington that "the people of the Chicago district are the most extravagant in the country."

"How absurd," said Mrs. John A. Carpenter, a society leader. "Did the board overlook New York? I wonder? Every body knows that there's more reckless spending in New York than here. Of course, money is being spent throughout the nation on a bigger scale than ever

before, but Chicago doesn't take the lead. The women of Chicago are not unduly extravagant at any rate."

"I do not believe that the people of the Middle West are more extravagant than the people elsewhere," said the head of a large department store. "I cannot agree with this report."

Oil Well Mystery Solved; Is Part of C. of C. Drive

Rigger's oil well mystery was solved today. The rig which has been erected at Main and Marston streets is intended for use to show the progress day by day next week of the Chamber of Commerce drive.

The face toward lower Main street is to be covered with panels calling attention to the campaign. At one side of the latter, above the panels, will be a huge thermometer. As the "mercury" rises in this, the scale will visualize the "gassing" of the oil of civic-commercial enthusiasm in Ranger, in the words of one of the campaign committee.

STOP HEADACHE AVOID DANGER

Doctors Advise Aspirinal Elixir to Remove Cause as well as Relieve the Pain Quicker. Absolutely Safe.

The medical profession is strongly opposed to the use of headache remedies that merely relieve the pain. They are warning the public that the cause of the headache should also be removed. That is why physicians and druggists are so delighted with the new Aspirinal Elixir that is sold under the two-minute guarantee. They know Aspirinal also removes the cause of bilious and sick headaches by gently acting on the liver, correcting biliousness and constipation and preventing the return of the headache next day.

Epidemic of Picketing Among Backers of All Sorts of Causes Wanting Action by Authorities in National Capital

WASHINGTON, April 16.—Political picketing, often of the peaceful sort, and more often with militant accompaniments, is running epidemic in Washington again and the thousands of tourists who make the national capital their Mecca all year round again see bands of women slowly parading about the streets bearing banners with a wide variety of inscriptions.

Seemingly, every cause which wishes to impress its demands, arguments or protests on "the powers that be" ultimately adopts the picketing system which was first introduced in the capital by a branch of the woman suffragists about ten years ago.

The latest to adopt the method are women espousing the cause of Irish freedom and there have directed their protests against the British embassy. Their campaign has caused somewhat of a flurry because it is not without its international aspects.

Question of Law Involved. The British embassy, for instance, is foreign territory; whether the sidewalk in front of it is American territory, no one has essayed to decide.

British humor all but broke up the picketing of the British embassy, with its possibilities of disagreeable incidents of an international flavor, when on the first day, the embassy officials sent out and invited the pickets in to afternoon tea.

With the adoption by congress of the resolution for the woman suffrage amendment to the constitution, the suffragists laid off, but they had first organized in a local association of negroes who were demanding the dismissal of a man of their race from the local school administration. So the negro women in combination picketed the streets surrounding the school administration buildings bearing banners. Their picketing, however, was intermittent, and the negro educator to whom they objected still holds his job.

British humor all but broke up the picketing of the British embassy, with its possibilities of disagreeable incidents of an international flavor, when on the first day, the embassy officials sent out and invited the pickets in to afternoon tea.

Always a Crowd Watching. The embassy is on Connecticut avenue in the heart of the downtown business and residence district not far from Dupont circle. The neighborhood might be compared to Fifth avenue in New York in the fifties.

Thousands of shoppers, tourists and government clerks and officials on their way to office pass by and for days there was always a small crowd watching the pickets and looting for a souvenir. The old and deserted Austrian embassy, once the scene of social gaieties in the prosperous days of the Hapsburgs, stands grim, silent and dusty just across the street. Nobody knows who owns it now, it is a highly valuable piece of property gone begging. Not far away is the house James G. Blaine occupied while secretary of state. Dolly Madison's house is not far off in another direction.

Practically every building in the vicinity has housed some notable at some time or other and the neighborhood is a playground for the sight-seeing wags. The pro-Irish pickets selected a barren ground where there will be plenty of onlookers. The first arrests of the Irish pickets were not unaccompanied by elements of humor. The police captain who took them in was Robert Emmett Doyle, rosy checked and blue-eyed, who couldn't possibly deny he was a son of Erin. At the policemen on the job were O'Connell and Regans and Elaberts or bore name unmistakably neither Greek nor Yiddish. Their comments on the proceedings were neutral and humorous.

The whole proceedings was conducted in the height of courtesy and polite for naught. There was no "come along you're pined." Instead, Captain Doyle raised his cap, and with an enquiring smile said: "Ladies, these are policemen who will place you under arrest." Then the men stepped back and the women did the job.

What famous persons do these objects suggest? A hatchet—George Washington—Wrong, Carrie Nation. Long Hair—Samson—Wrong again. The Seven Sutherland Sisters. In fact there's nothing that keeps its youth. So far as I know, but a tree and Truth in the fifties.—Oliver Wendell Holmes

Finds Bootleg Whisky Holds Deadly Poison

DALLAS, April 16.—Whiskey seized by local police officers found it was to the city chemist who announced that an analysis of the fluid showed that it contained concentrated lye. The liquor, described as "white mule," would have meant almost certain death to a person drinking it, the chemist declared.

Bootleggers living in the country have evidently not been content with the slow process of distillation but have added concentrated lye to their mash in order to hurry it up, a doctor declared in warning the people against the poisoned liquor. "By using the lye, the liquor can be turned out overnight, since it gets in the corn mash and dissolves it far more quickly than by the natural process."

It costs the city of Boston \$5,720 to flush its streets, at the rate of .83 cent per 100 square yards.

FOUND CARDUI GREAT BENEFIT South Carolina Lady Suffered Until She Couldn't Stay Up or Go Anywhere. Tells How Cardui Helped Her Get Well. Batesburg, S. C.—In telling how she found relief from troubles that had caused her much suffering, Mrs. E. E. Oswald, of this place, says: "Each month I would begin to suffer with my back and head. My limbs would ache and I would chill. I wouldn't be able to stay up, no matter what I wanted to do, or where I wanted to go. My people tried giving me different medicines and teas and tonics, yet I didn't get any better.

"Some one told me of Cardui, and I began to take it. I noticed it helped me, I kept it up. After a few months I didn't have any trouble. For about six months I used it, before

"I found I was all right, and from that day to this have never had any trouble at this time. I have taken it since, a bottle or two in the winter, especially when I have been exposed, and would take a cold, for I consider it the best thing a woman can take to tone up the system, keep off nervousness, and increase the appetite. I certainly know it has been of great benefit to me."

If you are weak, nervous, or suffer from womanly troubles such as Mrs. Oswald mentions, take Cardui, the Woman Tonic. All good druggists sell Cardui.

Going One Better. When Tilly's little brother read what her fiance had written in her birthday book he surreptitiously added a little on his own, and this was how it read: "Oh, what so rare as a day in June!" "A Chinaman and pickers!"

City Commission Puts Hearty O.K. On Shamrock Park

Unqualified endorsement of the Shamrock park project and the man behind it has been given in the form of a resolution by the city commissioners. Preliminary work is about completed and actual construction which is aimed to transform the lake in Ranger Heights and the surrounding property into a beauty spot and pleasure center will start soon.

The council's resolution reads: "Whereas, The Shamrock Amusement company has been organized for the purpose of building, erecting, improving and beautifying what is now known as Mirror lake, in the city of Ranger, and

"Whereas, R. D. Clancy and A. Patterson, promoters of said amusement company, are gentlemen of the highest honor and integrity, with broad visions as to the needs, wants and necessities of an amusement park; and

"Whereas, The operations and plans on which the said amusement company is to be conducted have been submitted to us and the drawings of the views, buildings, improvements of the landscape architecture have been submitted to us, and

"Whereas, We have an abiding faith in the future of our city and its people, and

"Whereas, We believe that the proposed park, as so designated and arranged and planned, will furnish a place of amusement, rest and recreation for the men, women and children and a place which will be especially fitted for the comfort and convenience of the children, where they will at all times be welcomed and have free access to snail park and playground, with attendants on the ground to look after their every safety, comfort and convenience, and

"Whereas, Be it resolved by the mayor and board of commissioners of the city of Ranger, that we do hereby most heartily endorse the movement of our fellow townsmen, Mr. Clancy and Mr. Patterson, and congratulate them upon their broad visions and the confidence they have in the people of this city to lead them every aid and support in the furtherance of their plans and to urge citizens to have the same faith and confidence in the future of our city and the same interest in its future progress and prosperity.

"Be it hereby resolved, that a copy of these resolutions be sent to the Shamrock Amusement Company and a copy to the Ranger Daily Times, with the request that it be published in their valued columns.

Each grain of sand is made up of the finest shells that were once the home of living animals. Before its life ended each of these animals built for itself a casket of exquisite beauty which it left behind to form a particle of the countless sands of the seashore.

ROULETTE A POPULAR PARLOR GAME IN ENGLAND

International News Service.
LONDON, April 16.—Roulette is coming into its own as a popular parlor game in suburban residential districts and has even ousted jazz from its erstwhile front rank as a social attraction.

"No young people's entertainment is considered complete," writes John Sinclair in the Daily Sketch, "until the green cloth has been produced, the croupiers appointed and the red, white and blue counters put into rapid circulation. And these counters mean money."

Limited to small sums though most of this gambling generally is, I have recently seen girls in their teens lose in an evening sums which five or ten years ago their elder sisters would have regarded as unusually generous for a quarter's dress allowance.

"And always, whether the maximum is sixpence or a pound note on a single number, I have noticed that it is the feminine punter who chooses the laziest chances."

THIEVES THROW SAFE INTO RIVER AFTER ROBBING IT

International News Service.
WICHITA, Kans., April 16.—Something new in the burglary line was sprung here a few mornings ago when robbers entered the office of the Jewel Tea company, took a medium-sized safe, placed it on a hand truck and pushed it seven blocks to the banks of the Arkansas river.

There they leisurely applied a charge of soap to the safe's door, secured \$1,200 in cash and dumped the strong box into the river.

Think New Road to Wiles Opens Wide Trade Area

The Chamber of Commerce, believing that the road now being built to Wiles through the efforts of L. S. Madden, construction engineer of the Vulcan Oil company, will open a wide trade area for the business men of Ranger, have endorsed the project and subscribed \$500 towards its completion.

The road is a direct route to Wiles and brings that section three miles nearer to Ranger. By the old routes it has been ten miles. It is also ten miles from Wiles to Strawn.

The Vulcan Oil company built three miles of the road at their own expense. The amount in cash needed to complete the project was \$7,500. Of this amount \$2,700 remains to be pledged.

In addition to those who have supported the road building movement whose names have been published, the following have made contribution:

Chamber of Commerce, \$500; Davenport Hardware company, \$25; American Tank company, \$50; Stonewall Jackson Lumber company, \$25; Black-Sivalls and Bryson, \$50; Ranger Hardware company, \$50.

The Automobile Men's association will undertake to raise \$1,000 of the amount needed among members of the organization.

TO ALL GERMANIES

International News Service.
LONDON.—The supreme council may extend the right hand of fellowship and the loan of a "river" to the late enemy, but not so the Variety Artists' federation.

Efforts have been made to book German music hall artists for "turns" in this country. The Internationale Artiste-Logo in Berlin is as anxious to get German artists in British playhouses and has proposed that if fifteen German performers are admitted to England, eighty-five English artists may book in Germany.

BRITISH EMPIRE UNION FIGHTS INDUSTRIAL UNREST
International News Service.
LONDON.—The British Empire union is trying to raise 250,000 pounds to fight "industrial unrest and Bolshevism," which it declares to be due to teaching false economics at labor colleges. The union believes the vast majority of workers are not revolutionary, and that if Bolshevik propaganda is met with counter-blasts of truth, the menace will disappear.
The co-operation of employers, and similar organizations are asked to co-operate with labor in "removal of grievances, by promoting profit-sharing schemes, by encouragement of high wages based on production and in other ways, as is done in America." Movies will be used.

4 p. m. Saturday

Jack Shires, over whom the Nitros and the Galveston Pirates have battled, amicably since early in the season, is one of the boys now and will make his bow to the Nitro fans when the home boys tie into the Cisco Scouts at Municipal park at 4 p. m. tomorrow.
Charles Clapp, outfielder, has been secured from Beaumont and will report by next Tuesday. As the boys will line up tomorrow, Shires will be at first, Anderson at second, Smith at short, Jim, himself, at third; Tate, left; Mooner, center; and McDougal or Lovelace, right.
Munger, who is in good shape, will start the game, with Browning receiving, and March and McGown in reserve.
Weather has been ideal for workouts and Jim Galloway has kept the boys busy these days. The park is in excellent shape.

BREEDEN'S RHEUMATIC COMPOUND CURED LOUISIANA MAN; TWENTY FIVE YEARS A VICTIM OF RHEUMATISM

Mr. Walter J. Sherman of Plain Dealing, La., says: "I was for more than twenty-five years a victim of rheumatism, constantly suffering with pains in all parts of my body. For three months, commencing in December and lasting until March 20, 1919, I could not dress myself nor take off my shoes without help. I answered an ad in the Commercial Appeal and bought my first bottle on the corner of Main and Beal. Before the bottle was half taken up I was improving, so I ordered two bottles and took it all according to directions, and now I am a well man. "I had tried many kinds of medicine recommended for rheumatism without any relief. I feel it a duty we owe our citizens to recommend Breeden's Rheumatic Compound to all who suffer with this awful disease. It makes no difference how old or how young you are, it will cure all who will give it a fair trial. The price is within the reach of everybody."

"I received the 96 bottles from J. K. and after opening up the package I sold 12 bottles in thirty minutes."

Rheumatism is usually very painful. Breeden's Rheumatic Compound will give you quick relief from pain, although it contains no narcotics nor anything harmful. It will not hurt your stomach; you can eat your regular diet while taking the medicine; you do not have to use other medicines in connection with it to get good results. It is not recommended for all the ills of the human family and does not contain medicines for different diseases but it is a preparation for rheumatism, therefore, it has no equal in the treatment of this ailment. It gives quick relief where others fail. It is sure in its field. It is not high priced. Try a bottle today. Sold by Ranger Drug Co., Ranger, Texas. Adv.
