CHICAGO UNDER LIVESTOCK EMBARGO

AMERICAN CITY RANGER DRIVE READY FOR GUN

Organization Experts Prepare to Widen C. of C.'s Scope.

A campaign for a "Greater Ranger" through a greater Chamber of Commerce will be launched officially within the next few days.

The movement has been under way for several weeks, and was definitely decided upon in February, when plans for a reorganization were presented to the board of directors of the chamber by D. H. McFarland of the American City bureau of New York.

A campaign to enroll at least 1,000 members in the chamber will be conducted, and a program of work covering present and future needs of the city will be adopted.

The campaign will be conducted on the biggest possible scale. Several weeks will be given to the preparatory work. Many conferences of citizens will be held in the working out of the plans and the adoption of a definite plan to insure well rounded growth to the future of the city.

The forward movement will be conducted by the Chamber of Commerce with the assistance of experts from the American City bureau. Mr. McFarland, who will be manager of the campaign, arrived in Ranger Tuesday morning and immediately got in conference with officers of the chamber and others.

Headquarters have been opened up in rooms 106 and 107, Marston building.

There is opportunity here, according to Mr. McFarland, to have the largest Chamber of Commerce in proportion to population in the entire country. He declared that a community that could build in two years what has been done in Ranger in the face of freight congestion, outcrops and labor and material shortages could have a city of commerce equal to any and could build a city in the face of any difficulty. He said that ever since his visit here six weeks ago, when he met the board of directors of the Chamber of Commerce, he felt that this campaign would attract national attention because of the results.

"I have never had a campaign under conditions just like these," he continued. "I expect to find an absence of conditions that work against progress in most communities. Here you have a reblooded citizenship of men in action. They have already moved their remarkable initiative and determination to get things done in the face of hardships. They have shown their faith in the future of Ranger by the permanent structures that have been built or are now being built. I believe that there is nothing within reason that such men cannot accomplish if they will work together under good leadership and according to a definite plan.

"Charles M. Schwab, the steel king, speaking once at a chamber of commerce banquet in the East, said that if he could have his selection of men and could place them in the center of the Sahara desert, he could show within ten years as a result of their work a city of a million people. What Mr. Schwab meant was that the right kind of men could build a city anywhere. They would find something to capitalize. Where there are both great natural resources and men, a city of almost any size can be built."

For several months directors of the Chamber of Commerce and other leaders have been discussing plans for enlarging the organization and increasing its efficiency. After an investigation of many of the most progressive organizations in the entire country, the American City bureau of New York was invited to send a representative here to outline its service in organizing modern chambers of commerce. Mr. McFarland met with the board of directors six weeks ago, with the result that they voted unanimously to secure the services of the bureau in directing the campaign.

The American City bureau has been conducting campaigns for chambers of commerce for seven years and has operated in over 200 cities of the United States and Canada. Its service consists of the membership campaign, covering a period of four or five weeks; the installation service, covering four weeks, in which the new working machinery to modernize the organization is installed, and the continuation service, which covers a period of three years.

The bureau staff in the campaign here will be: D. H. McFarland, campaign manager; Walter Parcell, publicity director; Clarence Dupuy, assistant manager, and J. R. Meeker, office manager. Messrs. Parcell and Dupuy are now completing the Chamber of Commerce campaign at Ardmore, Okla., and will arrive here next week.

Military Training Issue of Struggle at Kansas Caucus

By Associated Press

SALINA, Kan., March 30.—Universal military training, party leaders predict, will be the principal issue to be threshed out in resolutions at the republican state convention here March 31. While the gathering is for the purpose of selecting four delegates at large and four alternates to the national G. O. P. convention, and to choose two presidential electors-at-large, interest is keen as to what resolutions are to be adopted and particularly on what side of the military training issue the convention will align itself. It is not expected that the delegates to the national convention will be instructed.

There will be 1,018 delegates at the convention, a large increase over the number at the 1916 party, due to the enfranchisement of women in the state. About two hundred and fifty of the delegates this year will be women.

Among those whom the convention probably will consider for delegates at large to the national convention are W. J. Bayne of Atchison, former governor; H. H. Motter, Olathe, chairman of the Republican state committee; Emerson Carey of Hutchinson; W. W. Watson of Salina; D. W. Mulyant of Topeka; Major Charles Browne of Horton, and Mrs. Minnie J. Grinstead of Liberal, member of the legislature.

District delegates to the national convention will be chosen by congressional district convention, preceding the state caucuses. Among the prominent candidates for district delegates are William Allen White and W. Y. Morgan.

The primary election at which state and congressional candidates are to be nominated, including a candidate to succeed United States Senator Charles Curtis, will be held August 31.

Still another convention, devoted to the adoption of a state platform, is scheduled for August 31. The delegates to the platform convention will consist of candidates nominated at the primary and the chairman of the Republican county committees.

GOVERNMENT ASKS RECEIVER IN TEXAS OKLAHOMA FIGHT

By Associated Press

WASHINGTON, March 30.—The government has filed motions for permission to intervene in the controversy over the Texas-Oklahoma oil land and that Texas be enjoined from granting title or permits to land located north of the river's south bank.

The motion asks also that the court likewise enjoin Oklahoma and Texas authorities from permitting their representatives from trespassing upon the contested land, or sinking additional oil or gas wells and that a receiver be appointed to take charge of all lands together with the oil, machinery and tools and operate the wells already sunk.

ENLARGED LIBRARY PLAN STIMULATES WIDE INTEREST

AUSTIN, Texas, March 30.—Miss Elizabeth H. West, state librarian and regional director for the American Library association who has just returned from a trip through Arizona, said that she found much interest in regard to the enlarged library program and a feeling that the object and purposes of this educational movement would mean a great deal to library development of the Southwest.

"All the library workers with whom I have talked," said Miss West, "were very much interested in the possibility of co-operation among the states of the Southwest."

The library workers of Oklahoma also seem to feel that there should be closer co-operation between states in this region, and that it will be possible and highly desirable to arrange for a joint meeting of library workers of the Southwest in the near future.

UNIFORM SYSTEM OF BOOKKEEPING ADOPTED

AUSTIN, Texas, March 30.—The state board of control has devised a uniform system of bookkeeping to be used at all state institutions under its control. This system will afford a complete check of all merchandise and supplies furnished the institutions.

It will not be inaugurated, however, until after the supreme court has passed upon the provisions of the board of control act, which provides for the abolishment of boards of managers of several institutions. The control board is also making an inventory of all state property held, departments and institutions.

GERMANS FORGET THE REVOLUTION AND GO TO THE RACES

Just how seriously the Germans take their revolution is indicated by this picture, received a few days ago from Germany. It was taken at Mariendorf, near Berlin, on the recent occasion of the horse races there. Everyone in the throng seems to be well dressed. There is not a rag in sight.

LYBARGER HAY BARN BURNED; LOSS IS \$4,000

Five hundred bales of hay and a small quantity of other feed; two trunks and some bedding were lost in a fire which destroyed a hay barn belonging to George Lybarger, on Oak street, about 3 a. m. Tuesday. Mr. Lybarger placed his loss at \$2,000, with \$1,000 insurance. The building is valued at \$2,000.

According to Mr. Lybarger, who was sleeping in the rear of the building, the fire had its origin in the front end of the building and when he awoke the entire front was in flames. Cause of the fire was not learned.

The alarm was not turned in until the flames had made such headway that nothing could be done to save the building and contents. The fire department confined its efforts to preventing the fire from spreading.

FIVE-YEAR SENTENCE IMPOSED ON WEALTHY DRAFT EVADER, N. Y.

NEW YORK, March 30.—Grover Cleveland Bergdoll, wealthy lawyer Philadelphia, who was recently court-martialed for desertion, because of his alleged failure to report for military service under the draft laws, was sentenced to five years' imprisonment, according to the decision of the court made public here today.

SIXTY MILLION AIR PROGRAM NEXT YEAR IS RECOMMENDED

WASHINGTON, March 30.—Appropriation of \$60,000,000 for army aviation in 1921 was recommended today to House military committee by Major General Menoher, director of the air service.

MOTHER AND DAUGHTER AT SCHOOL TOGETHER

NORMAN, Okla., March 30.—How would you like to have your mother for a schoolmate while attending the university? Few university students can boast of this unique experience, but when Margaret Murray Jones of Lawton, Okla., came to the University of Oklahoma here her mother came with her. Margaret is 15 years old and a freshman in the college of arts and sciences. Her mother, Mrs. Mary Fisher Jones, is a senior in the same college.

Mrs. Jones attended the Missouri state normal school and Holyoke college, finishing in 1897 but failing to obtain a degree. She is now studying to complete her work.

KING OF DENMARK DEFIES SOCIALIST DEMOCRATS

COPENHAGEN, March 30.—King Christian announced today his refusal to comply with the ultimatum of Socialist Democrats demanding the reinstatement of the Zahlem ministry, which was dismissed by the king, and other actions in connection with the government crisis.

Storm Region Emerges from Its Wreckage

By Associated Press

CHICAGO, March 30.—The death toll of Sunday's tornadoes which ripped paths of destruction through sections of eight states stood at 158 early today, with fears expressed that reports from isolated regions and deaths among the injured would increase the total.

The stricken communities were emerging today from the wreckage wrought by the storm and relief measures for thousands of injured and homeless were well under way. No accurate estimate of the total property damage, which runs into millions, could be made.

In Illinois it is estimated at \$6,000,000, in western Ohio, \$2,000,000; Michigan, \$2,000,000, and Georgia, more than \$1,000,000.

Assembly Backs Decision Barring Five Socialists

By Associated Press

ALBANY, March 30.—Charges of infidelity made against the five Socialist members of the New York state assembly have been sustained by a majority of the assembly judiciary committee in a 20,000-word report submitted to the legislature today. It says their seats should be declared vacant.

Enactment of a law to prevent any organization which admits aliens to membership from occupying the position of a political party on the official state ballot is advocated. Socialist assemblymen, the report states, "are not obedient to the constitution and laws of the United States and New York state, nor desirous of the welfare of the country, nor in hearty accord and sympathy with its government and institutions."

PLAY EQUIPMENT WILL MAKE HAPPY SCHOOL CHILDREN

The children of the Central Primary, the Cooper and the Young schools are going to be made happy. Through the efforts of the Teachers and Parents club, playground equipment has been ordered for them. The Central school will have a slide and giant stride, the Cooper school a giant stride and six ladders, and the Young school will have two slides, one giant stride and two horizontal bars.

The money for this equipment was obtained by the club from their play which was held some time ago.

CLERKS IN MUNICIPAL OFFICES STRIKE, CHICAGO

CHICAGO, March 30.—Clerks, stenographers and bookkeepers employed in municipal offices here went on a strike today for higher salaries, threatening the paralysis of city business.

GERMANS GIVE ASSURANCE OF HARMLESSNESS

By Associated Press

PARIS, March 30.—Assurances have been given by the German government that it will not send into the Ruhr valley any more regular troops than allowed by the terms of the Versailles treaty. The German delegation called on Premier Millerand last night and told him that German troops in the Ruhr district did not exceed the number allowed, and declared that no more troops would be sent there without allied authorization.

WOMAN SUFFRAGE IN KENTUCKY ASSURED; BILL SIGNED TODAY

By Associated Press

FRANKFORT, March 30.—Suffrage for women in Kentucky in the next Presidential election was apparently assured today by the action of Governor Morrow in signing the measure passed by the legislature granting women the right to vote for Presidential electors.

N. Y. STATE LEAGUE OF WOMEN VOTERS THREATENS STRIKE

By Associated Press

ALBANY, N. Y., March 30.—Warning that Republican women who are members of the New York state league of women voters will go on a strike on election day, or go into other parties if the state legislature does not act favorably on welfare bills is contained in a letter sent by the league today to William Hays, chairman of the Republican national committee.

REVIVAL METHODS BEST IN SETTLING STRIKES

By Associated Press

CLEVELAND, March 30.—The appeal of the revivalist to the religious feeling is more effective in settling labor disputes than is calculated argument, according to J. J. Walsh, federal labor conciliator of Indianapolis. For two years he has been bringing strikers and employers together by sermons. And yet he says he never heard of an evangelist.

"Sometimes its a little difficult at the start to break through the hard crusts of manufacturers and labor men," Mr. Walsh declared, "but down in almost every man's heart is a religious feeling and once he is convinced of one's sincerity, he does not wait long to follow."

"A settlement based on genuine righteousness and repentance is much more sound than an adjustment of details, leaving bitter feeling still rankling on one side or the other."

Mr. Walsh has just settled a packers' strike here, involving about 1,500 men. A year ago he settled a similar strike in St. Joseph, Mo., where 7,000 men were out, by telling both sides to repent and clasp hands. For seven years prior to his appointment as conciliator in 1918 Mr. Walsh was state factory inspector in Indiana. Before then he was a machinist.

Clean-up Army's Offensive Starts 8 a. m. Wednesday

The army to take the offensive against all cans, paper, dirt and trash in the city is beginning to mobilize and under the leadership of John H. Moore will begin a one day's engagement against the common enemy at 8 a. m. Wednesday.

To assist Mr. Moore as supervisor there have been appointed O. G. Abernathy, R. H. Hansford, J. T. Harless, S. McClellan, W. O. Overholser, Ralph Stockman, B. F. Freeman, C. E. Morgan, C. J. Dietrich, S. M. Shell, Joe Holland, Tom Holland and B. L. Williams. It will be the duty of these men to see that the workers are properly located in their respective duties and have their coats off. No absence without leave excuses will be accepted.

The rank and file will be the citizens of the town. The matter of cleaning up is viewed as a matter of civic duty, and everybody is expected to help.

The Business and Working Men's club through the chairman of its clean-up committee has offered a prize for the cleanest premises after clean-up day.

In order to expedite the work all trash from private homes must be placed along the streets where it can be easily collected by the wagons and trucks which have been volunteered for this service.

All workers are requested to meet at the police department building at 8 o'clock Wednesday morning. Wednesday night all workers will be the guests of the Business and Working Men's club at a dance to be given in the American Legion hall.

MEXICAN CONGRESS WOULD PUNISH A HIGH OFFICIAL

By Associated Press

EL PASO, March 30.—The Mexican national congress today submitted a memorandum to Carranza requesting that he authorize the attorney general to punish a high official for causing the arrest of two congressmen, according to a Mexico City newspaper.

The police charged that the congressmen threw powdered poison mixed with confetti during a recent reception for Ygnacio Bonillas, in Mexico City. Many onlookers became ill and fainted from the effects of the poison.

The congressmen were released pending investigation.

STATE FIXES UNITS OF BUTTER AND MILK SALES AS STANDARDS

By Associated Press

AUSTIN, March 30.—Orders fixing legal units in which butter and milk may be offered for sale in Texas have been issued by the state superintendent of weights and measures, to be effective April 1. The orders provide that butter may be sold only in full pounds of sixteen ounces, half pounds and quarter pounds. This does not apply to butter in bulk.

Milk may be sold only in gallons of 231 cubic inches, half gallons, quarts, pints, half pints and gills.

CHICAGO BANKERS WILL ASSIST HOME BUILDERS BY LOAN

By Associated Press

CHICAGO, March 30.—Chicago bankers will lend \$100,000,000 during 1920 to home builders in an effort to end the housing shortage, it was announced today. Part of this fund will be made available immediately to enable the tornado victims to rebuild their homes.

WELL AT GUNSGIGHT MAKING 2,400 BARRELS AFTER SHOT

The Thorpe well No. 1, at Gunsgight, formerly owned by the Sammies Oil company, responded to a shot of 420 quarts Saturday night and made an initial production of 2,400 barrels.

This well was drilled to a depth of 1,724 feet by the Sammies Oil company and a 2,000,000 cubic feet gas well was struck. The well was sold to the Plateau Oil company which drilled to the Caddo sand.

Excitement is running high, and the town of Gunsgight is taking on the appearance of a real boom town, with hundreds of people flocking there daily.

EXCITEMENT HIGH RESULT OF BLAIR WELL AT MAY

By Associated Press

Dr. H. C. Bowden of this city has just returned from a visit to May. He reports much excitement there over the Blair well, which was drilled in a few days ago. There is much activity in real estate and oil leases.

WORKERS CALL ON WASHINGTON FOR MEDIATORS

Federal Judge Refuses Help Unless Work Is Resumed.

By Associated Press

CHICAGO, March 30.—Livestock shipments to the Chicago market, with the exception of horses, were under embargo today because of the strike of 900 members of the Livestock Handlers' union employed by the Union stock yards and the transit companies.

Continuance of the strike for a week, the packing company officials announce, would cause suspension of work in their plants and throw 50,000 employes into idleness. Hundreds of loaded cars are held on the outskirts of Chicago today and provisions are being made to divert them to other markets.

The men walked out yesterday, company officials charged, in violation of their agreement to settle all wage disputes by arbitration before Federal Judge Alshuler.

Union heads have telegraphed Washington, asking that federal mediators be sent here following the refusal of Judge Alshuler, who has arbitrated other stock yard troubles, to act unless the men went back to work.

The dealings today are restricted to a few holdover animals. No quotations have been made.

LUMBERMEN MEET FRIDAY NIGHT FOR MORE DRIVE TALK

Plans to capture the next annual meeting of the State Lumbermen's association held the attention of the Lumbermen's club at a well attended meeting Monday night in the Chamber of Commerce offices.

Another meeting of the organization will be held Friday night to complete plans for the drive to secure the 1921 association for Ranger. Delegates will be sent to the association, which meets in San Antonio April 13.

Since the lumber industry here ranks with the best cities in the state, it is thought that Ranger has a good chance to bring the state organization here next year.

POLAND MAY CALL UPON ALLIES FOR AID AGAINST REDS

By Associated Press

WASHINGTON, March 30.—Poland will call upon the League of Nations for allied reinforcements, it was said at the Polish legation here today, if Bolshevik armies threaten to break the Polish eastern lines of defense. While France, it is understood, has given tacit promise of military co-operation, the changed military situation in Germany has made the extent of French aid doubtful.

Unless the Bolshevik front is materially strengthened, Major Brynk, Polish military attaché, declared that the present Polish regular force could hold its own.

MINERS WAGE COMMISSION PREDICTS EARLY AGREEMENT

By Associated Press

NEW YORK, March 30.—Members of the scale committee of the operators and miners began the hearings today and predicted that the wage agreement based on President Wilson's bituminous commission's findings would be signed within a week.

John L. Lewis, president of the United Mine Workers, said that common sense would rule throughout the conference and that there would be no reason for further delay in clearing up the bituminous situation. The miners want at least thirty-one per cent increase and a seven-hour day. The commission awards twenty-seven per cent increase and an eight-hour day.

STRIKE OF MEXICAN R. R. MEN IS THREATENED

By Associated Press

AGUA PRITA, Sonora, March 30.—Unless demands of the railroad men of Mexico are granted by April 2, a general strike of the Southern Pacific lines in Mexico will be declared, the governor of Sonora telegraphs the railroad officials here.

OPERA HOUSE—High-class Vaudeville and Pictorial. Seven attractions.

HIPPODROME—Harry Feldman's "Whirly Girl" Musical comedy.

QUEEN—June Elvidge in "The Love Defender."

Food Supply Is Health Barometer Asserts Professor Wasserman

By FRANK E. MASON
International News Service Staff Correspondent.

BERLIN, March 30.—"Tuberculosis is the delicate indicator which shows whether a nation's stomach is getting enough food," says Professor August Wasserman, the inventor of the test which bears his name, and one of the foremost physicians of Germany.

I was surprised to see what a comparatively young man this noted scientist is; he can not be over 50 years of age. He has the energy and bustle that reminds one of an American physician rather than the pose and poise often met in European professional men.

German industrial leaders and employers are complaining because German workers are producing only about three-quarters as much as they did in 1914," said the doctor. "These business men are quite sensible in what they demand of their machinery, but they don't seem to understand that the human body is also a machine, reducible to simple mechanical laws.

"The German workman has decreased 15 per cent in muscular tissue and 20 per cent in fat. These figures are conservative and are based on the examination of thousands of men. The power of these human engines is less than it was in 1914, therefore the human bodies are not capable of producing so much energy in work.

"We hear a great deal today about the crying need of raw material in Germany," said Professor Wasserman. "There is but one foremost need: that is, fuel to keep the human machines from being scrapped. And of this fuel fat is the most important. The German workman must be built up again; his reserve strength is gone.

"You ask me what German medical science learned during the war. Of course we have made progress in surgery; but by and large we may say that the worst surgical cases died and the lighter ones recovered. It was in the two great plagues of mankind, of interest to America as well as to Germany, in which we made scientific progress during the war. These are tuberculosis and syphilis.

"Before the war Germany had probably the severest laws of any country in the world to isolate tubercular patients and to make impossible the spread of the disease. From 1898 to 1914 we had a steadily decreasing curve of tubercular cases.

"Then, when food conditions in Germany became nearly impossible in

1916 and 1917 we saw tuberculosis steadily increasing, despite the fact that the same strict laws and the same preventive measures were enforced as before. This taught us that two things were to be taken into account in this disease, first the bacillus and second the human resistance. Perhaps I had better say in the order of importance, first the human resistance and second the bacillus.

"Examination shows that practically all people carry some tubercular bacilli. Only when their resistance is worn down does the bacillus become dangerous. We have established by charting thousands of cases that as the resistance of a people is lowered by undernourishment tuberculosis increases exactly in proportion.

"Our charts show that the curve of lessened food products is inversely identical with the curve of increasing tuberculosis, allowing about six months' time for the disease to take effect.

"This discovery is of sociological as well as of medical importance. Show me the health reports of a community in which workmen are striking because they assert they're getting starvation wages and I will tell you whether they have a real or a fancied grievance. These figures are a delicate and absolutely sure indicator of sociological conditions.

"If I read in the newspapers tomorrow that tuberculosis has increased tremendously on the East Side of New York city and around the stockyards quarter of Chicago, sitting here in Berlin I can assure you that something has happened to decrease the food supplies in the large city, either poorer quality or insufficient food.

"As to the so-called social disease, we had it under control in the army because of the strict military regulations and discipline as we never could have done in civilian cases. As a result we had an excellent opportunity to watch closely a large number of cases.

"We learned that if the patient reports to the physician and takes salvarsan after infection, but soon enough afterward so that the Wassermann test still shows negative, the patient can be quickly and positively healed in nearly 100 per cent of the cases.

"If he waits until the disease has had a start and the Wassermann shows positive we can cure about 70 per cent.

"The result of the discovery of the cause of healing if the disease be caught in its earliest stages is that the German government is officially

making an extensive educational campaign among the young students and young workmen. Every first aid station in our cities is directed by the government to give treatments free and to make a Wassermann test not only free but without asking the name of the patient. By these means we hope within the next few years to show the same results in cutting down syphilis that we made earlier with tuberculosis."

FIRE THREATENING CHRONICLE OFFICE DISCOVERED IN TIME

Special to The Times.
EASTLAND, March 30.—What came near being a serious fire was discovered yesterday at 11 o'clock on the inside and rear of the Eastland Chronicle office. No one was in the building and had not been in the office for about six hours, but the men in the West Side barber shop heard the noise of the fire and gained entrance from the back and with a few buckets of water extinguished the flames, which might otherwise have ruined both the Chronicle office and the barber shop in a few minutes longer. The damage to the Chronicle is estimated to be \$400.

UNITED STATES SHIP ESCAPES REDS' FIRE AS HARBOR IS TAKEN

By Associated Press.
NONOROSSISK, Russia, March 30.—Thousands of General Denikine's volunteer soldiers went over to the Soviet and most of the remainder boarded ships for Crimea with Denikine when the Bolsheviks occupied the city Saturday. The only ships resisting the Bolsheviks were the Russians, which fired a few shells. The United States cruiser Galveston, the last war ship to leave the harbor was not fired on, although the British and French warships were under fire.

MANY BRITISH WEALTHY BECAUSE OF GREAT WAR

International News Service.
LONDON.—Eighty thousand persons in Britain were raised to the rank of "half portion" millionaires by the war.

Sir John Anderson, chairman of the board of inland revenue, told the House of Commons committee which is considering the question of taxing war fortunes that 80,000 persons during the war achieved incomes of 5,000 pounds or better.

The committee, however, is having real difficulty in devising a means of test whereby it can determine who really war profiteers.

"It is impossible to devise a scheme by which the profiteer can be especially dealt with, as with the war."

"Till the day of judgment we won't now who he is."

Alcohol on Kidneys

The constant, regular or irregular use of beverages containing alcohol, will sooner or later make trouble for the kidneys. Sometimes an excess acid secretion is formed, but usually the beginning of urinary trouble is denoted by an excess alkaline secretion giving rise to frequent desire of urination, followed by pain, burning, scalding, with irritation manifest in the passage. The urine highly colored and strong of odor should be corrected with

as they stimulate normal secretion, allay inflammation, purify and restore natural action promptly.
FOR YOU
Sold by all druggists.

DEPUTY BERRY NALLS HEARS FROM OLD CA

Special to The Times.
EASTLAND, March 30.—Berr, Nalls, who was convicted on an indictment in the district court more than a year ago and given three years in the penitentiary, since that conviction and since an appeal was perfected in the case, has been made deputy sheriff waiting for the court of criminal appeals to act on his case. Just last week the court of appeals reversed the case because of a defective charge to the jury. The case will be docketed and set for trial in the district court, probably during the May term.

19—HOUSES FOR SALE.

SIX-ROOM house, furnished complete. Will sell furniture and rent house. No. 510 Mesquite.

KOLCHAK ARMY MELTED AWAY THRU ORATORY

NEW YORK, March 30.—How an army of 80,000 Kolchak troops "melted away" by desertion to the Bolsheviks, following a speech made to prisoners of war by Leon Trotzky, in Omsk, Siberia, two days after that city's evacuation by the All-Russian forces, was told here today by Major General I. Thord-Gray, a former officer of the British, Canadian and All-Russian armies just returned from Vladivostok.

Trotzky, he said, addressing the prisoners as "comrades," said they would be welcomed by the red army if they cared to join. Captive officers, he said, who wanted to return to Kolchak would be given safe escort and 2,000 rubles each. A number of the prisoners accepted the offer and, returning to their own lines, told what Trotzky had done. Within two weeks, General Thord-Gray said, Kolchak had practically no army and a few months later was executed.

General Thord-Gray went to Siberia with a Canadian expedition and was taken prisoner by the Bolsheviks when they captured Vladivostok. Before leaving, two attempts, he said, were made to assassinate him. Toward the last, he said, the Bolshevik troops showed better morale than Kolchak's men. They also had one machine gun for every twenty men, he said, whereas the Kolchak army had only three with every battalion, almost 600 men. During the retreat of the Kolchak army, a 2,000-mile retirement, they were driven before machine guns but seldom before rifle fire. General Sakharoff, the All-Russian war minister and chief of staff, he said, "lost the army at Omsk without a fight."

MRS. NANNIE WEBB CURTIS DIES AFTER LONG ILLNESS

DALLAS, March 30.—Mrs. Nannie Webb Curtis, president of the Texas Women's Christian Temperance Union and past president of the national association, died today after a lingering illness. She was 59 years old.

EARTHQUAKE SHOCK RECORDED AT CHICAGO

CHICAGO, March 30.—An earthquake shock of considerable intensity was recorded today at the weather bureau. It was approximately 1,200 miles away.

SLAIN MEXICAN'S BROTHER IS ON WAY TO RANGER

A telegram has been received by Justice of the Peace McFatter from Jose Chavez of Crystal City, Texas, father of Alberto Chavez, Mexican foreman who was killed Sunday. According to the telegram, a brother of Chavez is on the way here to take charge of the body.

The cause of the killing is thought to have been a dispute arising from Chavez' action in discharging a Mexican laborer working under him. The Mexican who is sought in connection with the shooting has not been apprehended.

PUMP BEING INSTALLED AT BELL WELL, NEAR PECOS

In a letter to the Daily Times from Pecos, Thurlow McCoy, local oil operator, reports that the Bell well recently drilled in is making about two barrels of high-grade oil daily. Excitement is subsiding waiting the outcome of the pump which is being installed at this well.

The price of acreage in the Pecos field took leaps upward when the Bell well was drilled in, reaching in many instances, the high mark of \$500 per acre.

SPRING FEVER
Following Colds, Grip or Flu, Thin, Watery or Poisoned Blood
(BY DR. VALENTINE MOTT.)
At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.
Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.
SAN MARCIAL, N. MEX.—"I suffered for two years with frequent headache and pain in my left side and the small of my back. I was despondent and so nervous the least racket would upset me. I wrote to the Specialists at the Invalids' Hotel, and was advised to use Dr. Pierce's Golden Medical Discovery and the Anuric Tablets. I did so and immediately began to get better. My symptoms disappeared and in two months' time my health was regained. I took six bottles of each medicine and a few of the 'Pleasant Pellets' for regulating my bowels. I am now in perfect health and enjoying life.
"I cannot say too much in praise of these medicines and the kind and courteous attention given me."—Miss MAMIE COYSLAND.

RANGER 50,000 IN 1920

For Sale or Exchange
Ranches and Improved Farms in Lubbock, Hale and Adjoining Counties
Can take Ranger or Eastland property or good royalties on some of it. Don't bet all your money on one game—balance up by investing some in good Farming and Ranch Land
which is fast becoming the best agricultural country in Texas. All we ask is you go with us on one of our trips and you will do like the others we have taken, and buy... Land is selling fast and advancing rapidly.
We Have Land from \$10.00 an Acre and Up
In any size tract. The most conservative bankers and business men of this city are buying and trading for our land... Come in and talk it over. We will show you land which made a bale of cotton per acre this year, and other crops in proportion on land which can be bought for \$50.00 and less per acre. We go on another trip this week and have several going with us. So see us at once.

All Nature and Mankind

Is dressed up with new colors and new coverings in keeping with Spring's message of rejuvenation. Why not give your home the same aspect? If you do not its dullness and seediness will be all the more pronounced against the brighter surroundings. There are practical and economical reasons, too, why you should paint up and clean up now. It will keep your home in good condition—better able to resist the wear and undermining of rain and grime. Better figure with us now.

Clean Up and Paint Up

RANGER'S
CLEAN-UP
DAY

Wed., March 31

Mayor Hagan has designated tomorrow, Wednesday, March 31st, as a general clean-up for Ranger. Co-operating with the Chamber of Commerce and the Business and Working Men's Club, Ranger citizens are asked "to turn to" and lend a helping hand in cleaning up and beautifying our city. It is the duty of every man, woman and child to assist in this work. It is respectfully requested that every one in the city co-operate in doing their share toward this commendable and dutiful task. Below is listed a group of Ranger's foremost merchants who handle supplies and materials that will be of aid to you in carrying on the clean-up work.

Tomorrow Is Clean - Up Day

Let's all put a shoulder to the wheel and push for the honor and glory—and cleanliness of Ranger.

To each person buying \$10.00 worth of groceries at our regular prices tomorrow we will give, absolutely free, his (or her) choice of any broom in our stock. This will be our contribution toward the clean-up job in addition to our own efforts on our premises.

Other Specials:

- 4 Pkgs. Rub-No-More Washing Powder . . . \$.25
- 9 Pkgs. Rub-No-More Washing Powder50
- 19 Pkgs. Rub-No-More Washing Powder . . . 1.00

OUR COTTON CROP.

To the outside world and a majority of the residents, Eastland county is known as a community devoid of farms. Newspaper correspondents and others in order to draw contrast and weave romance into their stories of sudden fortunes in oil have painted pictures of a handful of people struggling year by year against an infertile and drought-ridden soil. In answer to these stories the ginners' report for 1919 is in circulation. It gives the approximate value of Eastland county's cotton crop for the year 1919, including the seed, as \$2,753,820. This report gives Eastland county credit for having ginned 15,299 bales of cotton in 1919.

Dry figures are not easily grasped. To approach the matter from another angle, the value of last year's cotton crop can be readily seen. If the amount of the crop of cotton, together with the seed, as computed, were divided equally it would give to each of 1,377 men \$2,000 per year as income. On the basis of four people for each head of a family, Eastland's cotton crop would have given approximately 5,508 people a means of livelihood.

At the beginning of the year 1919, the population of the county had not yet reached the heights it has now attained, and produce from the farm did not have a ready market. Butter and eggs did not have ready sale and were either consumed at home or placed on the market at small prices. Perishable vegetables could not be sold in such quantities as would make raising them profitable.

That condition is now past. In the coming years this line of farm work will receive more and more attention. In a very short time truck should grow to outrank the value of even the cotton that will be raised.

Water can be found in the wells in the county at shallow depth which can and will be utilized for the purpose of irrigating truck farms. Where water is available and proper attention is given to fertilizing, the soil in this section can be made to produce \$1,000 to every acre of tilled land.

That this additional source of revenue for many additional people will naturally come is inevitable. Around every large center hundreds of acres of ground, regardless of its nature, so long as it is not rock, have been converted into small truck farms to supply the demand for farm produce.

Beaumont is an example of this truth. The land in that vicinity has small fertility. Excess of rainfall, followed with excessive droughts must be met, yet there are hundreds of small farmers that earn a comfortable livelihood from a few acres of ground. In addition to its truck, Beaumont has a wonderful rice crop every year.

The analogy of Jefferson and Eastland counties was chosen with a purpose. Twenty years ago oil was found on Spindle Top, near Beaumont. The entire field did not cover more than twenty acres. Oil was then selling for ten cents per barrel. In a short time the high excitement died down and the resulting quiet seemed to bear the earmarks of stagnation. However, natural resources, among which were the farms, were developed. Factories and wholesale houses came in and Beaumont is a thriving city of 30,000 people.

In the ginners report as published, the total ginnings of 171 counties are given. Of this number Eastland county outranks 110 of them in the amount of the staple produced. Add to this the impetus of having a ready market for every possible product of the farm, and Eastland should become one of the leading farm counties of Texas.

Brief Texas Notes

DALLAS, March 30.—With a grain of pop corn, almost sprouting out of her right ear, little Agnes Foster of Canton, Texas, was brought to Dallas and the growth was removed. Agnes was playing with her brother a week ago and the youngsters put pop corn in her ear. It started to sprout and deafness was threatened.

AUSTIN, March 30.—There were 57,520 babies born in Texas during 1919, according to reports made to the bureau of vital statistics and just compiled. White boy babies outnumbered white girls 2,327, there being 26,745 of the former and 24,417 of the latter. Negro babies were divided 2,648 boys and 2,543 girls. There were 1,170 still births during the year.

Triplets came to nine whites and two negroes; while 437 sets of white twins and 67 sets of negro twins were born during the year.

AUSTIN, March 30.—In order that the state board of health may have reliable data upon health problems of Texas municipalities, the state health officer is mailing questionnaires asking concerning garbage collection and disposal, mosquito control and water supplies.

AUSTIN, March 30.—May 1 has been designated as Better School Day by the state superintendent of public instruction. Upon this day tags will be sold to raise funds for an educational campaign to be launched in October.

be expended in the county which provides it, while the other half will be assigned to the state campaign fund.

CORPUS CHRISTI, March 30.—Ninety-one per cent of the farmers who received aid from the American Red Cross because of the losses sustained by the tropical hurricane of September 14 last, used the help in putting in new crops and again becoming self-sustaining, according to the official report of A. W. Jones, Jr., director of South Texas disaster relief. Farmers were given help in Neuces, San Patricio, Kleberg and Jim Wells counties.

AUSTIN, March 30.—What is declared to be proof that education pays no matter what occupation is pursued, is furnished in a summary of a survey of 3,353 women in industry in Fort Worth, which has been completed by the woman's division of the department of labor.

The lowest average salary is \$13.05 a week, and this is the average of thirty-nine women who have completed only the first grade. Eleven women who have gone through the second grade, average \$14.65. The third average with forty-five workers, is \$14.75. Fourth grade, ninety-three workers, average \$14.34; fifth grade, 163 workers, \$15.54; sixth grade, 651 workers, \$15.54; ninth grade, 579 workers, \$16.20; tenth grade, 420 workers, \$17.25; eleventh grade, 173 workers, \$18.66; twelfth grade, 341 workers, \$19.30; college, 173 workers, \$22.71.

Women engaged as garment workers, in laundries, hotels and restaurants, packing houses, telephone exchanges, mercantile establishments and offices were interviewed in arriving at the above average, and in every industry the women's earning capacity is greater when her education was best.

Another significant fact disclosed by the survey was that of the 3,353 women workers interviewed, 2,999 were more than 21 years old; 461 were between 19 and 20 years of age, and

St. Paul Lowest, Boston Highest, in Food Costs

By Associated Press. CINCINNATI, March 30.—Cincinnati ranks third lowest with reference to food costs in separate cities and second lowest with reference to food costs in industrial districts, according to an analysis of government statistics made by the industrial department of the Cincinnati Chamber of Commerce.

The cost of food in Cincinnati approximates 8.6 per cent lower than the average in twenty-three industrial cities of the country whose food prices were examined. It is 3.1 per cent higher than St. Paul, the city with the lowest costs, and 2.4 lower than Boston, the city with the highest costs.

It was found that the food costs were lowest in the North Central division of Ohio, Illinois, Indiana, Michigan, Missouri, Wisconsin, Minnesota and Nebraska. The average costs in these states range 6.4 per cent lower than the average for the United States.

The south central division, which includes Kentucky, Tennessee and other southern states, is third lowest. The North and South Atlantic states, comprising the states along the Atlantic coast, report highest costs, with the South Atlantic states far in the lead with costs averaging 13.2 per cent higher than the district in which Cincinnati is located.

The table of food costs as issued by the industrial department of the Chamber of Commerce in cities and in industrial districts, follows:

St. Paul	100
Minneapolis	101.2
Cincinnati	103.1
St. Louis	104.5
Indianapolis	104.6
Milwaukee	105.4
San Francisco	106.2
Chicago	106.5
Kansas City	106.6
Columbus	106.8
Detroit	108.5
Buffalo	110.2
Cleveland	111.7
Louisville	113.8
New Orleans	113.3
New York	117.0
Pittsburgh	117.8
Philadelphia	116.7
Newark	119.4
Baltimore	122
Birmingham	122.8
Atlanta	125.3
Boston	127.5

EPISCOPALIAN LEADER IN WEST TEXAS DIES

FORT WORTH, March 30.—Rev. Thomas J. McKay, founder of the first Episcopal church here and called the father of the denomination in West Texas, died yesterday at Omaha, Neb.

793 were between 15 and 19 years old. A large majority, 2,009, were single; 925 were married, 280 widowed; and 139 divorced. Of the whole number, 1,234 were boarding and paying an average weekly rate of \$7.22. Of the 2,563 living at home, only 494 paid board.

Discharges

Coster, ship's cook third class, Navy Recruiting station, San Francisco.

T. & P. ROUNDHOUSE AT BIG SPRINGS ABLAZE, SAYS WIRE

A report received by the local office of the Texas and Pacific railroad over the wire stated that the roundhouse and shops of the Texas & Pacific Railroad company at Big Springs, Texas, were on fire and would likely be a total loss.

CIGARETTES NOT GUILTY. SAYS CHICAGO GAS CO.

By Associated Press. CHICAGO, March 30.—The statement attributed to Dr. M. B. Williams, evangelist of this city, before a meeting of the ministerial union at Toledo recently, to the effect that the Chicago Gas Co. had found 12,000 uncorrected mistakes in billing in ninety days, the blame for which was placed by company officials

to the cause of the men smoking cigarettes, is emphatically denied by officials of the company here. The People's Gas, Light and Coke company officers explain that if those mistakes were made in 1918 by men who were employed in the places of men who had gone to war and the mistakes were attributed by the gas company to the lack of skill on the part of these girls.

MRS. L. HIXSON ONLY WEIGHED 79 POUNDS

She Has Gained 36 Pounds By Taking Tanlac And Now Weighs 115 Lbs.—Says Tanlac Has Been the Greatest Blessing of Her Life.

"I weighed only seventy-nine pounds when I began taking Tanlac, but now I weigh 115 and am feeling better than I have in seven years," was the unusual statement made by Mrs. Lucile Hixson, living at 2032 Broadway, Kansas City, Mo., a few days ago. "Before I began taking Tanlac," continued Mrs. Hixson, "I had become so weak from seven years of suffering that at times I wasn't able to stand on my feet. What I ate nearly always disagreed with me and made gas form so bad that I could hardly get my breath. I was badly constipated and had a pain across the small of my back and my nerves were upset. I was troubled with dull headaches just about all the time and often I had fainting, dizzy spells and I was never able to walk any distance before I felt exhausted.

"My uncle recommended Tanlac to me and now since it has entirely overcome my troubles I will never get through praising it. I am not troubled with indigestion or gas at all and I am eating anything and everything I want and digesting it perfectly. Headaches and dizzy spells have all left me an my constipated condition has been relieved. My nerves are in fine condition and the pain across the small of my back has disappeared altogether. I have gained thirty-six pounds in weight, can do my household work by myself and am stronger than I have been in years. Tanlac has certainly been the greatest blessing of my life and I will never be able to praise it enough for what it has done for me."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

WATER SUPPLY AND RAILROADS RESPONSIBLE FOR SWEETWATER'S GOOD GROWTH AND PROSPERITY

W. HAMILTON WRIGHT, West Texas Chamber of Commerce. SWEETWATER, March 29.—Located on three trunk line railways which reach practically every considerable point in West Texas, Sweetwater is making a bid for wholesale and jobbing business which are seeking locations to grow up with the rapidly expanding West. There has been a wonderful building development in Nolan county since the rains have come again. Sweetwater gives credit to its great water supply and railroads for the phenomenal growth it has had in the last few months. Water has been a strong inducement to large enterprises which have recently located here. Seven miles south of the city on Sweetwater creek, which has its source in the Marvyn hills, is located Lake Trammel with its 1,500,000,000 gallons of water, fed by flood, spring and subterranean strata of water. This body of water is several miles long and attains a width of approximately a mile at some points. A large arthen dam built so that the pressure of the stored water is thrown against the sides of the lake instead of against the dam itself is a valuable feature insuring permanency of the dam itself. The dam and lake with its pipe connection with the city will build from water provided by a municipal bond issue of \$320,000, held in 1914. Sweetwater has cheap water rates, with a minimum of \$1.25 for 3,000 gallons, additional gallons being graduated down from twenty cents to ten cents a thousand. The lake is 200 feet higher than the city, which gives a gravity flow with a high pressure in Sweetwater. No pumping station is needed. A tall standpipe has been erected on a knoll in west Sweetwater which is filled with water for additional fire purposes.

Cheap Water Rates. "We make no mistake in offering free water to induce new factories, colleges and institutions to come here," said George H. Sheppard, secretary of the Sweetwater Board of City Development, "but we have all the water that will be needed here for scores of years, at an attractive price. The lake has been a strong drawing card." Sweetwater has an imposing and large high school and three brick ward schools. Nine months' term has been made possible this year. The minimum salary of Sweetwater teachers has been fixed at \$75 a month. The Board of City Development is now raising \$5,000 to supplement their salaries. Sweetwater has seventy-five blocks of paved streets. Asphalt macadam is the principal material used. The Bankhead National highway runs through this city, the main line following the Texas & Pacific railway, with a scenic or White mountain branch leaving here to traverse the western plains into the Roswell and Alamogordo region. State highway No. 4 from Del Rio to Canadian and highway No. 7 or the Colorado to Florida highway, following the Santa Fe almost the entire distance through Texas, passes through this city. Sweetwater has three trunk line railways: The Santa Fe, Orient and Texas & Pacific. The first named has division points here, large shops and round house. It is reported here that the Texas & Pacific is expecting to make this point a division headquarters and build large shops and round house. Trucking facilities here are so numerous that many large industries and branch houses have been established. At present there is a great demand for warehouse facilities. Sears, Roebuck & company sometime ago established a large branch implement and hardware house from which West Texas, draws its material from mail-order houses.

Rex Refinery. The Rex Oil and Refining company is erecting just south of town on the Orient railway, a five-unit 2,500-barrel oil refinery. Sweetwater was not asked to put up a bonus to secure this valuable enterprise. Only a limited amount of stock was placed on sale in this city. The company owns valuable producing wells in Stephens, Palo Pinto, Eastland, Comanche and Brown counties. One unit of the plant has been practically completed. R. L. Ray of Fort Worth is president, M. H. Roberts of the same city, vice president; J. H. Bullock, Fort Worth, secretary-treasurer; P. P. Pierce, Fort Worth, director; J. A. Mullins, Sweetwater, director and superintendent of the refining department. Oil will be refined at this plant April 15. The company owns thirty-one acres of trackage property and has a two-inch water pipe supplying it from Lake Trammel.

J. B. Ballard of Roysse City is completing a 500-barrel flour mill on the Santa Fe line in the north part of the city. It is the purpose of the owner to have the mill operating by June 1. One of the largest creameries in West Texas is now being built. In connection therewith will be an immense ice cream factory which will distribute its products throughout this region. In this connection G. H. Sheppard, secretary of the board of city development, declared that an unusually large number of fine dairy cattle are being imported and the production of milk and butter was becoming of great importance. Many large herds of Jerseys are now to be found here and there.

Appreciating the splendid railroad facilities a company with considerable capital has erected a large broom factory in the city. The first broom went

to G. H. Sheppard. This company at present imports its broom corn, but farmers of the Sweetwater territory are being encouraged to raise the product at home, having been offered top prices for their products. The owners came from Winniwood, Okla. Sweetwater now calls for Sweetwater-made brooms. The Sweetwater Machinery company has just entered the business world of the city with a very large and costly plant. It is the purpose of the company shortly to establish a large foundry here. This acquisition was secured through the board of city development about ninety days ago.

Tractor Company. The Armstrong Farm Tractor company will soon start construction of its large assembling plant here. The company will manufacture an improved farm tractor invented by Ira Armstrong. The company already has on hand \$100,000 to put this project over. Mr. Armstrong has gone to Detroit and other large auto centers to study plant construction. On his return, contract will be let. The company will put up a large administration building on the Santa Fe tracks and factory on the Orient. The company later will make a small farm truck. Mr. Armstrong is a strong believer in enclosed gears on trucks and tractors in the West where so much sand is flying through the air. On account of the assembling plant being located here it is believed that an almost perfect machine at a startlingly low sale price. Mr. Armstrong is a practical farmer. He has tested out all his tractors and has given demonstrations which clearly reveal their worth.

Three wholesale grocery, one wholesale lumber and a number of wholesale houses and a wholesale and retail wind-

mill distributing house have headquarters here. A large planing mill was recently installed. A large cotton gin supply house was recently located here to distribute to West Texas. A compress this year pressed between 60,000 and 75,000 bales. Local wagon receipts of cotton approximated 20,000 bales. Mr. Sheppard of the board of city development declares that the demand for ware-

(Continued on page 8)

SUFFERED 30 YEARS WITH RHEUMATISM; CURED BY BREEDEN'S RHEUMATIC COMPOUND.

Mrs. C. A. Carroll, R. F. D. No. 3, Campbell, Texas, writes: "I take great pleasure in writing you a few lines for your medicine. I had the rheumatism for thirty years and had tried every doctor I had lived near but never got any relief—only for a little while. I was told of your wonderful medicine but I had tried so many things I did not try it for a while—just afraid it would not do any good—but I decided to try it. I hadn't used half of one bottle till I felt a great deal better. By the time the bottle was gone I could sleep at night. I was so proud of what it had done for me that I got another bottle, and I can truthfully say that I am sound and well."

"After what it has done for me, Mr. Hollidness ordered some more of it and it went like hot cakes. He ordered more and more now he can hardly keep it in stock." Rheumatism is usually very painful. Breeden's Rheumatic Compound will give you quick relief from pain, although it contains no narcotics nor anything harmful. It will not hurt your stomach; you can eat your regular diet while taking the medicine; you do not have to use other medicines in connection with it to get good results. It is not recommended for all the ills of the human family, and does not contain medicine for different diseases but it is a preparation for rheumatism, therefore, it has no equal in the treatment of this ailment. It gives relief where others fail. It is supreme in its field. It is not high priced. Try a bottle today.

Sold by Ranger Drug Co., Ranger, Texas.

WATER SUPPLY AND RAILROADS

(Continued from page 7)

house room and buildings for packing and rubber houses is greater than the supply now building.

Two large business houses are now under construction. The Texas Bank and Trust company contemplates building a splendid building on the site now occupied by the Masonic temple. The new structure will be in dimensions 40x150 feet, and from three to five stories in height. The Masonic lodge is preparing to erect a large building on Oak street, to be probably three stories. The Elks will probably build a large brick on their property on Third street. Local capital contemplates building a modern apartment house with twelve compartments, at a cost of \$25,000. A saw mill concern of East Texas has entered the building field here and will erect eight modern homes at once and more as the demand may require.

Oil Fever Alive.

The oil development has not "cooled down," according to George H. Shepard, who reports fifteen deep test wells being drilled within a radius of twenty-five miles of the city. Fifteen more contracts are expected to be let shortly. Most of these wells will be drilled to a depth of not less than 3,500 feet. The greatest depth yet reached in local wells is 3,300 feet. At times it was thought that oil in paying quantities had been found. Geological reports are unusually favorable for the development of a valuable oil field in this broken section.

The Western Union Telegraph company is preparing to install a multiplex relay station here which, it is said, will employ about thirty to fifty operators and other employees. Transcontinental lines will be broken here for repeating station purposes. The building now occupied will be made a two-story brick, the upper floor for the relay force and the lower for the Sweetwater office. This is a valuable acquisition to the city.

One of the greatest industries ever established in West Texas is now about to be acquired for Sweetwater. The company has a capital of \$12,000,000 and it proposes to invest several millions of dollars in plant building to manufacture certain commodities from a peculiar and inexhaustible supply which has been found at the edge of Sweetwater. The company would employ at least 2,000 men. Announcement of the location of Sweetwater for this plant is expected momentarily. The recommendation of its engineers and other officials has been made. The new plant is expected to double the payroll of the city. The company at present owns some of the largest mills of its kind in the United States. The Southwest trade is now sought. The valuable crude material needed is in abundance here.

Sweetwater has the largest deposits of silica sand to be found in the Southwest. The mountains to the south of the city are almost wholly composed of it, so that glass making could be engaged in here by big companies if the fuel were available. It is hoped that a large gasser will be brought in so that these valuable deposits may be worked here. The sand is of such fine texture that when thrown into a heated stove it readily melts and forms a perfect glass.

The greatest gypsum deposits in the West are to be found east of Sweetwater and they will be worked in a short time, it is believed.

Electric Power.

Sweetwater has one of the largest electric power stations in West Texas. It is well equipped to take care of the needs of the small empire. Sweetwater, Roscoe, Lorraine and Colorado now draw their electricity from this plant.

Nolan county citizens are awakening to the wonderful possibilities offered by sheep raising. At present it is figured that there are 20,000 sheep in the county, as against less than 4,200 four years ago. The slogan in the county is "A flock of sheep for every farmer." It is believed that the Sweetwater Wool Growers' association this summer will concentrate not less than 500,000 pounds of wool in this city to stimulate wool growers coming here to buy.

Nolan county has probably the best court house in West Texas. It was contracted for at \$100,000, but required an expenditure of more than \$125,000 before completion. It is an embodiment of convenience, comfort and utility.

Galloway Leads Nitros in First Spring Workout

Jim Galloway and the first of his prospective Nitros broke in the Ranger park Monday afternoon with a few preliminary heaves and some careful exercise. Weather was ideal for training. The new field, on which workmen are busy with drags, looks fair to be a fast playing field.

Carpenters are busy on the grand stand, the frame work of which is rising now and although Texas Jim has had to cancel several of the pre-season games, no further delay from this cause is anticipated. April 9 is the day of the first exhibition and Ham Patterson that day will bring his Dallas Marines here for a clash. It will be followed Saturday and Sunday by games with Eastland. The following Saturday and Sunday, the Nitros will play at Eastland.

As the field is laid out, the batter faces southwest and left field is the sun field, in late afternoon. The entire playing field is smooth, and the box has the customary gentle elevation. As it looks now, right field will be the home run district, but the distance is deceptive and Jim is authority for the statement that it will take a 350 blow to clear that barricade, which entitles the batter to a round trip, it would seem.

Monday's workout was only mild. It included, besides, Pilot Jim, Catchers Browning and Kelly, Pitchers Lynch and McGowan, Infielders Anderson and Dillard and Outfielders Mungers, Mooney and London.

Among those present also was Lionel Meise, who may be entitled to that name before the bar, but who is "Red" on the diamond. Red lunged for Galveston in 1912 and was coach for Southwestern university in 1917. He would like a berth on the Nitros for home games, but his practice, outside the ball park, that is, will not permit the road trips.

Marriage Licenses

Marriage licenses issued from the office of the county clerk: Ora Derr, Abilene, and Miss Addie R. Kirksey, Comyn, Texas. H. Lawson and Miss Pearl Andrews, Ranger. Martine Martinez and Miss Librada Agilar, Eastland. V. V. Huntington and Miss Granie Westerman, Nimrod.

Following are marriage licenses issued from the office of the county clerk for the week ending March 27: G. C. Sweet and Mrs. Lizzie Caldwell, Cisco. J. C. Butler, Wingate, and Mrs. Ruth Herron, San Benito. Henry C. Ray and Miss Mittie Margon, Cisco. Guy A. Martin, Eastland, and Miss Pearl White, Cisco. Frank Williams and Miss Lavada Owens, Eastland. James M. Ralston and Miss Gertrude Nicol, Ranger. Albert Smith and Miss Edna Henry, Desdemona. J. B. Allgood, Eastland, and Miss Violet Drake, Wastella, Texas. Wesley Taylor Hinson and Anna May Maxwell, Gunsight. Edgar V. Vickers and Miss Minnie Brennan, Ranger. Ben L. Butterworth and Mrs. Elsie Shuts Breckenridge. E. A. McBeth and Miss Nellie Earp, Rising Star. Edd Johnson, Dublin, and Miss Ila Hogan, Romney. Willie Mitchell and Miss Mary E. Farrow, Eastland. Walter Earnest and Miss Bertha Ernest, Ranger. Charlie Blackshear and Miss Izetta May Mason, Ranger. James P. Ray and Miss Fay Wilson, Ranger. Ora Derr, Abilene, and Miss Addie B. Kirksey, Carnyn. H. Lawson and Miss Pearl Andrews, Ranger.

District Court

EASTLAND, March 30.—Judge E. A. Hill convened the district court this morning and took up non-jury cases set for today. Although there are about thirty cases set down for trial today, none of the cases could be tried, one side or the other having good reasons for delay or continuance. The following cases were dismissed for want of prosecution: Mrs. Bettie Woods, guardian, vs. Henry Woods. Bob McKinney vs. W. M. Jay et al. H. H. Murray vs. C. F. Morris. Mrs. M. C. Hunter vs. W. L. Ramsey.

The court in the disposition of criminal business during last week made remarkable progress, there having been one murder case, five other contested and three pleas of guilty cases disposed of. The fact is that the epidemic of flu during the winter has passed entirely and it is now much easier to get parties and witnesses to appear in court.

W. C. Hicks, an oil man operating with Wiles, was in the city Tuesday. Mr. Hicks reports having two wells in, two on top of the sand, and two rigs complete ready to begin drilling. Miss Willie Campbell and her sister, Mrs. Roberts, are here from Abilene. They will be in the stenographic department of the American City Bureau. J. R. Meeker, who is associated with the American City Bureau, had the misfortune Monday while attempting to jump from a railroad trestle to the abutment beneath, of dislocating his knee cap. It was necessary for the attending physicians to place the injured knee in a plaster cast. Mr. Meeker is able to be about on crutches. Mrs. J. B. Moore, who was injured by a blow on the head in a small railroad wreck, about ten days ago, has almost recovered from her accident. Alex Armstrong, formerly city secretary, but now located in Pecos, is in Ranger on business. R. G. Stockman and R. L. Ley, who are associated with the Stock-

and a week will see all departments closed.

The stock yards companies admit that all their men are out. These employees, numbering less than 900, they say, are striking for an increase of 35 to 840 monthly and elimination of Sunday work. They are receiving from \$115 to \$154 monthly.

PERSONALS

W. C. Hicks, an oil man operating with Wiles, was in the city Tuesday. Mr. Hicks reports having two wells in, two on top of the sand, and two rigs complete ready to begin drilling.

STOCK YARD STRIKE WILL TIE UP MEAT PACKERS IN A WEEK

CHICAGO, March 20.—Nearly 50,000 employees of the packing companies will be idle if the strike of workers at the union stock yards, began Saturday, continues, packers declare.

An Armour official says that they have enough livestock on hand for today, but that a gradual close-down will be necessary if the strike continues.

Emery Shirts

Come to us when you buy your shirts and see the unusual value we can give you.

We sell the EMERY Shirt. No matter what the standards by which you judge a shirt, we can more than please you with the EMERY.

The EMERY is the only shirt on which you'll find the patented EMERY Neck-ban-tab.

Note the detail shown in the small illustration. When your shirt comes back from the laundry with the back buttonhole starched down tight, just pull the Tab and the buttonhole opens instantly.

You get your correct sleeve length in EMERY Shirts; patterns always of the latest style, and correctly balanced in fronts and cuffs; fine fabrics, closely stitched seams, clear pearl buttons, and a fit all over, that sets and looks like custom-made.

We'll be glad to show you all the advantages of the Emery Shirt.

Priced \$3.50, \$4.00, \$5.00 and \$7.50
