## NIGHT RIDERS RAID MEXICAN CAMPS

### Gulf Co. Rescinds Embargo On Crude

#### GENERAL OFFICE ORDERS TAKING OF ENTIRE RUN

Step Believed to Indicate Bottom Price Reached.

International News Service. FORT WORTH, Feb. 15.—Southwestern general offices of the Gulf Production company announced here today that the 50 per cent purchase rule on oil had been rescinded. This rule, put into effect sixty days ago, provided that only one-half of the oil offered the pipe line would be purchased while the other half would be put in storage. The action of the Gulf company is taken to mean that oil prices are now at rock bottom.

The local offices of the Gulf Production company at noon today had not received orders to rescind the buying rule and begin taking all crude from its pipe lines. Neither had other local offices of the larger companies received such instructions.

However, it was said from the Gulf pipe line office that the report was probably true. This action comes directly on the heels of the Humble company raising the price of crude to \$2, and one independent operator views the action as meaning the forerunner of a fight for cheap oil now on the market.

The Gulf price for crude remains at \$1.75, it is understood.

"GAS" DOWN AT FORT WORTH. International News Service. FORT WORTH, Feb. 15.—Retail gasoline prices fell to 22 cents per gallon here this morning, a reduction of 3 cents.

STANDARD CUTS AGAIN. PITTSBURGH, Pa., Feb. 15.—The Joseph Soap Agency, purchasers for Standard Oil today announced further price reduction on the best grade of crude oil ranging from 10 cents to 50 cents.

MEXICANS WILL ASK WALL STREET FOR MONEY TO REBUILD RAILWAYS. SAN ANTONIO, Feb. 15.—The Obregon government has received an estimate of 17,000,000 pesos for rebuilding railroads of Mexico. It is understood that steps will be taken to borrow the necessary money for the work from Wall Street interests who are reported in Mexico city at the present time.

CAPTAIN WARDEN DEAD. DALLAS, Feb. 15.—Captain R. M. Warden, former well-known Texas police officer, is dead in Los Angeles, according to private telegrams received here. During fifty years' service in Texas the dead man was warden of the penitentiary, sheriff of Potter county, United States deputy marshal of the northern district and held many other offices.

'Religious Bums' Have No Place in Zion, Says Voliva, and Courts Back Him Up. ZION, Ill., Feb. 15.—The signboard still stands in Zion.

It gives what it calls a "perfectly plain notice" that "persons coming in here to hold meetings... need not expect any courtesy from Zion."

A verdict handed down by Judge Claire C. Edwards of the circuit court, Waukegan, disposes a \$700,000 suit filed against Wilbur Glenn Voliva by Thomas H. Nelson, Robert Murdoch, Charles Warren, and P. B. Johnson. The suit grew out of the signboard which Voliva erected on property controlled by him opposite the Grace Missionary church, of which Nelson is pastor. Denunciations were sustained by Judge Edwards, who contended that the bulletin board in question contained no specific reference to any of the parties who instigated the suit.

The wording on the big sign follows: "A PERFECTLY PLAIN NOTICE. This city was established by Zion people and for Zion people only. It is the ex-

clusive headquarters of the Christian Catholic Apostolic church in Zion, and the private church home of its officers and members.

"No gentleman, not to mention a Christian, would break into a church settlement and attempt to hold meetings, or to establish a counter-organization. Those who do are nothing more nor less than religious bums, tramps and vagabonds, with less honor than a gang of highway robbers and thugs. Get out of this community, if you have a drop of honest blood, and go and establish a settlement of your own.

#### OIL FIELD BANK CASHIER SHOT DEAD BY BANDIT

HOUSTON, Feb. 15.—The state bank at Blue Ridge, an oil town near here, was held up and robbed by a lone bandit shortly after the opening of this morning. Cashier Kerby was shot to death and the bandit escaped with a large amount of loot. Sheriff T. A. Binford and a posse of officers are searching for the bandit.

#### INJUNCTION BARS USE OF HOTEL AS GAMBLING HOUSE

Special to the Times. EASTLAND, Feb. 15.—Fines of approximately \$1,800 were collected from the men caught in the raid on the Commercial hotel at Ranger Saturday night by state rangers, and yesterday a temporary injunction was secured by County Attorney Dunnigan against Cleve Barnes, Alf Jordan or any of their employes, restraining them from using the hotel as a gambling house. The petition sets up the two recent raids made on the hotel and alleges that within the last thirty days this place has become commonly known as a public gambling house and place where people commonly resort to gambling.

#### REPUBLICANS GATHER IN LAST CONFERENCE BEFORE INAUGURATION

International News Service. ST. AUGUSTINE, Fla., Feb. 15.—The political chieftains of the Republican party are gathering here this week for what probably will be the last major conference with President-elect Harding prior to March 4. Will H. Hays, the national chairman, arrived last night, and was closed with the President-elect until a late hour.

Harry M. Daugherty, the personal and political advisor of the next President, who is looked upon as the next attorney general, will arrive here Wednesday. Later in the week Fred Upham, the party's national treasurer, will come to make a report on the state of the Republican exchequer, which closed the campaign with a deficit of more than a million dollars, and which has been a source of more or less embarrassment to the party leaders.

#### LANDIS' CRITIC MAY BE IN CONTEMPT OF COURT

International News Service. CHICAGO, Feb. 15.—Lawyers of Chicago, coming to the defense of Federal Judge K. M. Landis, who has been attacked in the United States Senate by Senator Dial of South Carolina for his action in the case of an Ottawa, Ill., bank teller accused of embezzlement, raised the point today that Senator Dial may have been in contempt of court.

"The courts have held in a number of decisions," said Harry Standidge, former president of the Illinois lawyers' association, "that discussion of a case still in court is contempt of court. In this case Senator Dial is criticizing Judge Landis in a case which is not completed. Judge Landis has announced that he has not yet decided what sentence he will impose upon the bank clerk."

#### CORPORATION WILL FINANCE COTTON CROP

By Associated Press. NEW ORLEANS, Feb. 15.—The Federal International Banking company is today a going concern with a loaning power of \$17,500,000 to aid the financing movement of southern crops to foreign markets.

#### CASTLES IN SPAIN OF BRITISH PREMIER

International News Service. LONDON, Feb. 15.—King George in addressing an open session of the British parliament today said: "That he hopes for an early trade agreement between Great Britain and Russia; deplored the criminal violence of those in Ireland who seek to set up an independent republic; expressed hope for the early restoration of tranquility in the Near East; promised drastic economy in government expenditures; spoke of the efforts of the British government to revive trade and earnestly trusted that the new political responsibilities of the Indian people would alleviate unrest in India."

#### INDEPENDENTS TO MEET HERE ON THURSDAY

Want Organization to Meet Crisis; General Meeting Is Planned.

SAY THEY HAVE ENOUGH STORAGE FOR SIXTY DAYS. Wall Street Journal Reveals Vast Wealth Big Companies Have on Hand.

With the belief in their minds that they are being slowly squeezed to death through the curtailment of production and the lower price of oil, the independent operators of Ranger and Breckenridge are making a desperate effort to combine for protection. To this end a small meeting was held yesterday afternoon in the Chamber of Commerce rooms and a second meeting called for Thursday evening at 7 o'clock, in the same place.

An effort also is being made to call committees from all chambers of commerce in the oil districts of Texas and Oklahoma to meet next Monday at Fort Worth to promulgate action that the independents say will save them from bankruptcy.

Storage for Sixty Days. At the meeting yesterday it was stated that a survey had been made of the storage facilities of the independents in this field and that if they would get together and properly organize this storage, it would be sufficient to care for all their production for sixty days, thus saving them the necessity of selling their oil at what was termed "robber" prices.

The belief that the small companies are being purposely squeezed to death by the giants is proven, it was said, by a clipping from the Wall Street Journal of last Friday which was read in the meeting. The outstanding features of the Journal's statement are:

"The independents of the oil industry shows that Standard Oil and the other big companies, which are also amply supplied with funds, built up great reserves of oil under conditions which are now ruling and which later as prices advanced, formed the basis of large earnings.

Some Cash. "Standard Oil in the last eighteen months has obtained \$350,000,000 in cash through the sale of securities to the public. The leading Standard Oil units have built up huge surpluses over a period of years. Standard Oil of New Jersey alone had a surplus of \$399,000,000 at the end of 1919; Standard Oil of New York, \$142,000,000; Prairie Oil and Gas company, \$70,000,000; Atlantic Refining \$67,000,000; Standard Oil of Indiana, \$80,000,000; and the Standard Oil of Ohio, \$63,000,000, all on the same date. These figures serve to illustrate the financial position of these companies in connection with the opportunities to enter the crude oil market and buy big reserves at low prices.

"In 1914 when the big Cushing production broke the crude oil market, these facilities had to be built practically overnight. Yet it did not interfere with the Prairie Oil and Gas company purchasing and storing over 40,000,000 barrels of crude oil.

"At present Prairie Oil and Gas company has steel tankage capable of holding 54,000,000 barrels of oil, or which 40,000,000 barrels is empty. This tankage is all connected with the fields by a complete system of pipe lines."

#### JEALOUSY CAUSES MAN TO KILL RIVAL BABIES, SELF

International News Service. SAN FRANCISCO, Feb. 15.—There are dead and a 4 months old baby is dying as a result of the jealousy of Myron Black. Early today Black shot and instantly killed Raymond Bush, a roomer in his home, fatally wounded his daughter, Ellen, who died, and seriously wounded his 4 months old baby, Roday. He then turned the gun on himself and died instantly. Mrs. Black, who declares that her husband's jealousy caused the tragedy, was uninjured.

#### FORTIFICATIONS BILL UP.

WASHINGTON, Feb. 15.—A total of \$8,058,017 for fortifications and coast defense is provided in an appropriation bill reported today by the house appropriations committee. The sum allowed is \$27,618,516 less than the estimates and \$10,775,425 less than the appropriation for the current year. It is more than \$1,378,550 than allowed for fortifications in 1919, excluding the money allocated for fortifying the Panama canal.

#### RANGERS MUSTN'T DRINK.

AUSTIN, Feb. 15.—Governor Neff today told Adjutant General Baxton, Prohibition Enforcement Officer Beckman, captains of the rangers and new rangers that the laws of Texas must be enforced, at a special conference.

#### OPEN MEETING WILL DISCUSS LOWER COSTS

Citizens Will Argue For and Against Reductions Tomorrow Night. The question of reduced prices will be the subject for discussion at the Chamber of Commerce forum Wednesday evening. At that time the organization will seek all the information that individuals can bring it, in order to determine what lower prices, if any, should go into effect for the betterment of the city.

#### MAY ABOLISH STATE HIGHWAY DEPARTMENT

International News Service. AUSTIN, Feb. 15.—While the first issues of Gov. Neff's economy program were being drawn in the house today over the bill to abolish the markets and warehouse department and consolidate the duties thereof with the agricultural department, another bill was introduced in the house by Representative Baker of Young county, seeking to abolish the highway department and place the functions thereof under the railroad commission.

The senate refused today to favor remaining in Austin until the appropriations bills have been passed and all important measures shall have been disposed of.

#### PLENTY OF JOY RIDING CHASING RUM RUNNERS ABOUT LAREDO SECTION

Associated Press. LAREDO, Tex., Feb. 15.—There is much activity in this section in the enforcement of the federal prohibition law. The customs and immigration inspectors are handicapped by being few in number, but hardly a day passes without the arrest of some alleged smuggler, in some cases considerable quantities of rum, the fiery Mexican drink distilled from the magney sap, being seized.

The local authorities get in their work when the smugglers succeed, as is sometimes the case, in evading the guards at the river bank and getting some distance into the interior. Deputy sheriffs, aided by police officers and other peace officers, frequently round up automobiles and other vehicles loaded with the contraband liquor some distance from the boundary, and as the penalties inflicted by the state court, the illicit traders naturally fear the state officers more than the federal guards.

In some cases pistol duels take place, some of the smugglers being desperate enough to take any risk, and a few of the smugglers have been killed or wounded.

During the past few weeks enough liquor has been seized to supply several saloons with stocks and apparently it has all intended for the interior, as the people living on the border do not care to risk dealing with the "bootleggers" in view of the penalties of the Volstead act, and they can easily cross into Mexico and get what they want.

#### SEAMAN ARRESTED IN PLOT TO BLOW UP PRESIDENT'S YACHT

International News Service. LONDON, Feb. 15.—Eight persons, including a woman, were killed, when a train carrying forty British soldiers and a number of civilians was ambushed today near Tishamon, in County Cork. A violent battle ensued around the train. In addition to the dead, many persons were wounded.

#### GOOD ROADS WORKERS PLAN CAMPAIGN TONIGHT

Good roads workers meet at "lunch" tonight at 7 o'clock to talk over plans for tomorrow's campaign among property-holders and individuals for \$15,000. All members of the construction and finance committee and twenty-five team captains have been asked to be present.

#### DEFUNCT MOTOR OFFICIALS NOT HELD BY STATE

DALLAS, Feb. 15.—Twenty-one indictments charging embezzling of the funds of the Little Motor Car company, and blanket indictments charging conspiracy to embezzle, returned against William Livezey, R. L. McCoy and George Strickler, were dismissed from the state courts, it was learned today. The three men are now on trial in the federal courts charged with using the mails to defraud.

The state indictments, according to the records of the courts where cases were filed, were dismissed on the motion of the district attorney Pearson on Dec. 8, 1920, "because the evidence in all was considered insufficient to obtain a conviction."

#### SENATE COMMITTEE ASKS HOUSTON TO LAY OFF FOREIGN LOANS

International News Service. WASHINGTON, Feb. 15.—The senate judiciary committee today informed Secretary of the Treasury Houston that it is the sense of that committee that he should make no further extension of credit to any foreign government or any commitments, past or present, until the committee has had an opportunity to determine all the facts surrounding foreign loans and make a report to the senate.

#### CHILD TOOK REST; THEN STARTED TALKING AGAIN

International News Service. WAUKEGAN, Ill., Feb. 15.—Eight-year-old Miriam Reuben was still talking today, despite a rest of two and one-half hours late yesterday. Marked improvement, however, was noted, and it is credited by physicians that she will be entirely recovered from her strange malady within two weeks.

#### ARMY FLIERS NOW BELIEVE PIERSON DEAD

International News Service. SAN ANTONIO, Feb. 15.—Somewhere amid the canyons and sandhills of the great Southwestern desert, Lieut. Alex. Pierson Jr., transcontinental flier, lies dead. This is the belief of his flying comrades at Kelly Field and his home station at Douglas, Arizona. They think he was either instantly killed when his plane crashed in a forced landing or was mortally injured and died beside the wreckage of his plane while awaiting his comrades to discover his whereabouts and come to his aid.

#### THREE SUFFERERS FROM SLEEPING SICKNESS

AUSTIN, Feb. 15.—Three cases of sleeping sickness were reported to the state board of health during January, according to a report made by Dr. Henton M. Carriek, state health officer. The health officer insisted that there is no cause for alarm.

#### SEAMAN ARRESTED IN PLOT TO BLOW UP PRESIDENT'S YACHT

By Associated Press. WASHINGTON, Feb. 15.—On the heels of rumors of a plot to blow up the president's yacht, Mayflower, a seaman on the yacht was placed under arrest today, the navy department announced. Navy department officials stated that the seaman had asked permission of a boat-swain to be allowed to go off duty from the Mayflower at a certain hour during the night, stating he wished to bring a package aboard and intimating that he would be willing to pay a big sum of money for the privilege.

#### HILLSBORO BANKER DIES WHILE SITTING AT DESK

HILLSBORO, Feb. 15.—The body of W. E. Embree, well known local banker, who died last night, is being prepared today for shipment to his former home at Warrenburg, Mo., for burial.

#### MEN BEATEN, WOMEN AND BABIES DRAGGED FROM BEDS BY PARTY

Outbreak Follows Warning Signs Posted Two Weeks Ago; Peace Officers Will Extend Protection to Workers. With the darkness of night covering their deeds, fifteen to twenty masked night riders last night visited Mexican camps and struck cold, chilling terror into the hearts of men, women and children.

Women and children were dragged from tents and men beaten and abused and their furniture broken. One woman in a delicate condition, through fright, gave premature birth to a child.

The visits were made and the deeds done, according to contractors who work this class of labor, between the hours of 9 and 12 o'clock. In every case the denizens of the camps were given notice to leave Ranger before sundown today.

Mayor Calls Meeting. This morning representatives of the Hamon railroad, the Mexican company, the Eastland Hill truck crusher and the Mescly Contracting company laid the matter before Mayor M. H. Liguana. A meeting of the police and county officers and the state rangers stationed here, was called and it was decided to protect all Mexican, negro and other honest labor in the city of Ranger, at any cost and at all hazards, and to wage a ruthless war on drifters.

This is the second demonstration made against the Mexicans in the past two weeks. On the former occasion, signs were posted in their camps notifying them to leave the city at once. However, this notice was not obeyed and it is thought to have brought forth the deeds of last night.

Camps visited are situated on the Tiffin road; on the Hamon railroad near the Sinclair camp, and south of the Texas & Pacific station. According to reports some of the night-riders were horseback, and some were on foot. All were masked.

No Make Believe. Several of the men of the camps, it is said, were badly beaten about the head; women and children were dragged forth and their camps more or less devastated. All were abused in strong language, if the reports brought to their employers by the Mexicans are true.

Ranger has twenty-two peace officers, including the rangers and this morning they all agreed to patrol the city closer and give the Mexicans and other labor all the protection possible. Several of the contractors also expressed the determination to add armed forces to see that their employes are not intimidated.

The police department was instructed to use every means in its power to bring the perpetrators of the acts last night before the law to answer for their deeds and if found the city has stated that they will be prosecuted to the full limit, regardless of the expense.

#### GRAND JURY RETURNS MURDER INDICTMENT AGAINST LITTLETON

EASTLAND, Feb. 15.—The Eastland county grand jury reconvened this morning and promptly returned an indictment against John Littleton, charging him with the murder of Cal Yancey on Jan. 26.

#### WON'T EXHUME BODIES OF MURDERED COUPLE

MOROCCO, Ind., Feb. 15.—Prosecutor J. C. Murphy announced today he would not allow the bodies of Mr. and Mrs. W. C. Davis to be exhumed. Ralph Davis, their son, is held in jail charged with the murder of his parents.

BY BILLY DE BECK

### PROGRAM

LAMB—D. W. Griffith's "The Love Flower," also comedy, "Get-up Napoleon," and Pathe News.

TEMPLE—"Forbidden Fruit," with a powerful cast; also Universal comedy and Selznick News.

MAJESTIC—Five acts Loew Vaudeville and picture, Franklyn Farnum in "The Struggle."

LIBERTY—William S. Hart in "The Disciple" and Big "V" Comedy, "Flips and Flops."

## FLOUT BLOOD TEST AS PROOF OF PARENTAGE

### Medics Pooh-Pooh Experiment on Baby Whom Father Disowns.

NEW YORK, Feb. 15.—Out of the West there has come an extraordinary story of a blood test to be made in order to determine the parentage of a child whose legal father has asserted that the infant is not his. Virginia Vittori, of San Francisco, is the baby in dispute. She is three months old. Her parents are divorced.

Fifty dollars a month alimony was awarded for the care of Mrs. Vittori and the child. Vittori said that he would willingly support the child if it were proved to be his own, but refused to pay in the absence of proof.

Mrs. Vittori's lawyer told Judge Thomas F. Graham that the record would show a precedent in which a test of the blood of father and child established relationship. Judge Graham postponed the trial and directed that all legal and scientific data on the question be submitted.

"Tenuous," Says Schultze. Blood specialists in this city expressed extreme doubt last night that any such test would be conclusive. In Bellevue it was said that the blood of a child and that of a parent are frequently so different that when blood transfusion is desired an unrelated person must be obtained.

Dr. Otto H. Schultze of Cornell, considered one of the leading analytical blood specialists in the state, said point blank that the theory was erroneous. He added:

"It would be a mighty valuable discovery, perhaps, but it is nature. The theory may be sound but in practice it is impossible. We can detect the difference between the blood of humans and of other animals. We can ascertain whether blood comes from a dog or sheep, for instance or a goat or a rabbit and so on; but we can determine very little regarding the blood of individual within the same race and genus.

Black and White Alibi. "No one can tell whether a given specimen of blood comes from a black man or a white man, for there is no difference there that can be detected, any more than between the blood of individuals of other races. There was a novel play, I believe, in which the plot pivoted on the blood test between a black man and a white man, but outside the field of fiction it cannot be done.

"Perhaps the finest distinction which it is possible to define at present is that between the blood of an adult and of a child. I was recently able to prove blood samples to have been drawn from a child's veins because the blood contained a preponderance of single celled white corpuscles whereas adult blood contains a preponderance of multicellular corpuscles.

"But that, of course, would not establish relationship between any adult and any infant. The San Francisco attempt will be interesting to observe, but I am satisfied it will not establish anything."

### 20 DEATHS BY FIRE IN STATE DURING JANUARY

AUSTIN, Texas, Feb. 15.—Twenty deaths and forty-one injuries was the fire toll for Texas during January, according to a report received at the office of G. W. Tilley, state fire marshal. Most of the monthly fires, said Mr. Tilley, as shown by reports, were caused by negligence or carelessness, and "might easily have been prevented."

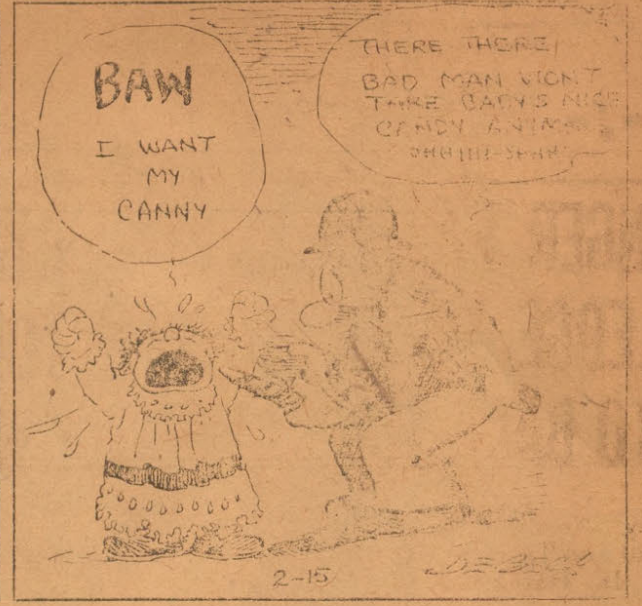

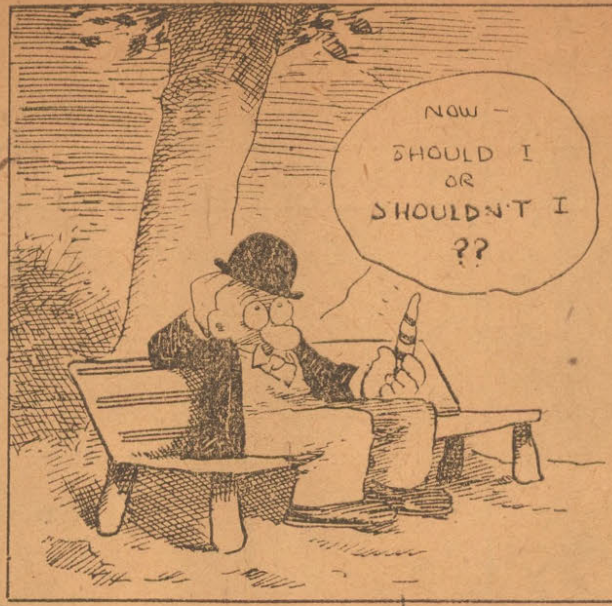

"The department of state fire marshal," Mr. Tilley said, "is going to put forth every effort possible this year to reduce our annual toll of life and property caused by preventable fires, and we ask the loyal co-operation of all good citizens in our efforts to reduce our stupendous fire waste."

### HONEYMOON ENDED ON 4th DAY WITH BEATING; SUIT ONE MONTH LATER

Mrs. Anne Pauley de Conde, wife of Syn de Conde, who was awarded \$150 a week alimony in the New York Supreme court after Justice Ford had heard the story of her almost unusual honeymoon. Mrs. de Conde said that they had been on their honeymoon but four days when her husband struck her in the face and disfigured her. She left him immediately and started a separation suit one month later.

## Barney Couldn't Have Candy on His Conscience—

## FOUR MARRIED COUPLES IN THREE ROOMS, NEW YORK HOUSING PROBE REVEALS; 100,000 HOMES NEEDED

NEW YORK, Feb. 15.—There are 100,000 families living in apartments with other families in this city. Owners are violating the law without restraint and herding human beings into already crowded tenements and dwelling houses.

Dr. Royal S. Copeland, health commissioner, could turn thousands of families and thousands of individuals roaming with families into the streets if he literally enforced the law.

The health law requires there be 200 cubic feet of air space for each person in a tenement house. Many thousands live under conditions which do not permit them 10 feet of cubic air space.

These facts were established by Commissioner Copeland in a survey of the housing situation begun by his inspectors yesterday.

Twelve in Three Rooms. Cases were found of tenements, or apartment houses, originally intended for even ten families, sheltering nearly twice that number and a lot of roomers in addition. In one house four young married couples were found with one child each living in three rooms.

The data collected yesterday by the health department inspectors will be used by the commissioner today at the hearing before the board of aldermen. He proposes to refute the statements by certain real estate operators that there is no housing shortage in this city.

The commissioner makes the point that here he to enforce the sanitary regulations the situation would be unthinkable, except in the sections of the upper West Side and parts of the East Side where apartments rent from \$2,000 upward. Where they should be renting for \$25 to \$40 there are none to be had and land lords have them unlawfully overcrowded.

Need Ten Story Tenements. The contrasting situation is that in ten-story apartments on the upper and mid-West Side where there are on the average four persons to each apartment in the lower and mid-East a five or six story tenement will have anywhere from 50 to 200. Ten story tenements are few and one of these will house 600 to 70 persons of all ages.

The four married couples living in that the commissioner called indecent conditions were found in East Sixty first street. All four couples have had three rooms with their young babies more than a year. The wives were some with the children yesterday when the inspector called.

One of the wives, with her babe in arms, said she and her husband met the couples while seeking quarters.

The spokesman for the three said a mere able to pay \$30 or even \$40 rent at that they sought in vain for months to find rooms within their means. A year split by the \$25 rent charged for the three rooms. The kitchen is utilized for sleeping purposes with the aid of a hakedown bed.

8-Family House Has 16. In Fifty-third street, near Third avenue, there is an apartment house that has built for eight families. The inspector found sixteen families, and twelve four roomers besides paying rent to them.

On the same block was another apartment building constructed to shelter twelve families. In this building there are more than 100 persons, including thirty children under ten years. The number of families crowded in the six floors is twenty-four and there are ten roomers in addition.

A so-called apartment house in Thirty-eighth street, near Ninth avenue, intended to house seventeen families, was found to be sheltering thirty-two families and ten roomers. Here there are twenty-six children under ten years.

An apartment building in East Sixty second street held thirty-seven families and thirty-four roomers, although it was built to accommodate only twenty families.

In East Seventy-first street, near Second avenue, there is an apartment house that holds thirty-four families instead of only twenty-four, the number its construction permit calls for. Besides there are forty-six roomers.

The number of children in these two buildings is sixty-one. These conditions have existed for more than two years. Tenants said they had tried to find other quarters within their ability to pay but had failed.

To Collect Data. Health Commissioner Copeland said last night that he would collect the data from the inspectors this morning and collate it for his argument in the afternoon before the board of aldermen. He said:

"I propose to prove that the real estate men are wrong in saying there is no housing shortage. I propose to prove that there are 100,000 families living in with other families. This because they cannot find other homes."

"We have thousands of violations on file in this department. If I was to enforce the law on them the conditions would be intolerable. I would be compelled to turn families and individuals out of thousands of buildings because of the plumbing and sanitary regulations. The survey has just begun and when it is finished I will have specific information that will arouse the people of this city."

"No matter what real estate men say there are hundreds of thousands suffering living conditions that should not be permitted. How can we enforce the law and throw them out of even the impossible homes they have? Humanity forbids it, notwithstanding the law."

## ILLINOIS KIDDIES HOLD COSTUME ICE CARNIVAL

Several hundred children of Winnetka, Ill., made merry on the ice of the lake of the Indian Hill Country club at a recent fancy costume ice carnival. The photo shows Jane Rogers and Jack Davies, who both carried off costume prizes.

## TALIAFERRO FIELD, WHERE MANY FAMOUS AIRMEN CRASHED TO DEATH, TO BE ABANDONED FEB. 23

International News Service. FORT WORTH, Feb. 15.—The last Texas aviation field will go under the auction block February 23, when the federal government disposes of Taliaferro field here. And after July 1 the vibrant hum of "bird of the air" will be a thing of the past insofar as government promotion of aviation is concerned in this state. Carruthers field was the first to pass out after the signing of the armistice. And then followed the abandonment of Live field at Dallas, Call field at Wichita Falls, Ellington field at Houston; Rice field at Waco and the Aviation Repair depot at Dallas, all established in the emergency of war with Germany.

Barron field, now a centralization center for aviation equipment in the South west, will pass out the latter part of June. It is not now an aviation field, actual work having been ended several months back. More than 300 army airplanes will be shipped from Barron field to the War department between now and July 1.

Barron field is where Ormer Locklear, king of air stunt flyers, trained. It was there that he first pulled the stunt that made him famous and ultimately ended in his death at Los Angeles.

At the three aviation fields in Fort Worth there occurred during the training period, 102 fatalities. In the course of approximately 100,000 hours of flights. Scions of wealth, aristocracy, politics, theatricals and athletic prowess were among those who met their deaths either

at Taliaferro, Carruthers or Barron fields. Vernon Castle, famous dancing star, was killed at Carruthers, while at Taliaferro, Lieutenant Peyton C. March, son of General Peyton C. March, chief of staff at the War department, fell 1,000 feet to his death. Barron field was the death ground of Captain Robert Leet, field adjutant, and Captain DeWitt Payne fell also to his death.

## FLOODING ALSACE WITH PROPAGANDA FAVORING GERMANY

International News Service. PARIS, Feb. 15.—According to Excelsior, German propaganda in Alsace and Lorraine is taking vast proportions. Thousands of pamphlets containing abusive articles against France are poured into the two provinces weekly. Newspapers published in Baden, Baden, considered as the capital of German propaganda, publish similar articles and urge Germans who have remained in Alsace and Lorraine to help the propaganda bureau. The Heimatsdienst, which is the principal organ of propaganda, and which the French newspapers say is evidently inspired by official circles, publishes figures showing that more than twenty-eight million Germans live in foreign countries and that this force should be used in propagating German culture. The figures show that there are more than 9,000,000 Germans in the United States, 600,000 in Central and South America, 115,000 in Belgium, 1,000,000 in Czechoslovakia, 700,000 in Jugoslavia, 300,000 in Hungary and 1,000,000 in Austria. Thus the propaganda services understand that the whole population of the latter country are German and there can be little wonder that the

service boasts the union of Austria and Germany. Likewise, the Heimatsdienst says all the population of Danzig and Luxembourg are German.

In Germany illustrated books are printed containing souvenirs of Alsace and Lorraine and are distributed to former inhabitants of these provinces. These books carry a message from Hindenburg in which the former army commander openly preaches revenge.

Another review, Reichswart, is edited by Count Ernst von Reventlow. It publishes every week and apart from its criticism of French administration prints letters it is supposed to receive from Alsatians complaining of being separated from the "homeland." It also attempts to prove the Germanic race of the Alsatians and says the province is being strangled economically.

Dancers in the ballet of the State Opera House in Berlin, Germany, are paid a salary of \$5 a month, out of which they must buy their own slippers.

RANGER FANS PLEDGE \$2,500 TO BACK TEAM

Money Needed for Moving Stand and Training Expenses Is Half Raised.

Ranger baseball fans pledged themselves last night to sell more than \$1,000 worth of opening game tickets at the smoker held in the Lone Star banquet hall. This brings the total amount of tickets sold to nearly \$2,500, according to the announcement of President Fleming, following the volunteer offering of fans to take tickets and either keep them or sell them to friends.

President Fleming called on M. H. Smith to tell the fans present the status of the baseball situation in Ranger. Smith reviewed the difficulties encountered last year, detailed all the expense incident to moving the park and told of the plans for financing the teams and putting the new park and grandstand in shape for the coming season.

Manager Sled Allen asserted that approximately \$5,000 would be needed to pay for the transferring of the grandstand and fence to the new grounds, and for expenses to cover the thirty-day training season of players before the opening of the season. While nearly half of this amount has been pledged through the sale of opening-day tickets, he stated that probably \$1,000 could be raised for the club by the sale of concessions and advertising space on the ball park fence.

Those taking tickets last night to either keep or sell them were: H. E. Clewell 25, W. R. Fleming 20, A. J. Lowther, Sun Co., 20; E. W. Chapman 12, Mills Davenport 10, J. P. Scott 10, J. G. Winsett 10, M. Alexander 10, Karl Jones 10, J. T. Summers 10, Ray Grand Deal 10, Ed. Dugan 10, R. V. Galoway 10, T. L. Owens 10, W. H. Smith 10, W. R. Hodges 10, Dr. A. N. Harkrider 10, Carl Steinberg 5, H. E. Clewell 2.

TAD'S TID-BITS

International News Service. LONESOME BENNAH LEONARD. Was there ever a guy as lonesome as our lightweight champion, Benny Leonard? Maybe you can think of some one, we can't. Just think of a little 135 pounder with no playmates. Never in the history of the lightweight division was a boy so far out of his class. Maybe Gans, near the close of his career, was lonesome, but he had Nelson coming. Here's Leonard without a boy in the world of his weight worthy of a battle with him.

We hear that Willie Jackson is thinking of taking on Benny. He's just THINKING, that's all. They tried to get Jackson to fight Leonard for the Red Cross benefit here two years ago and Willie almost died with fright. We heard later he wouldn't agree to get into the ring with Benny unless the champion agreed not to get MAD.

Benny did agree to hit easy and it was such a miserable six-round bout that the fans razzed it from start to finish. Do you think that Jackson has changed his mind in the meantime? What? Can't hear you.

Fans at the Jackson-Fitzsimmons thing the other night wondered if the pair were FIRST CLASS LIGHTWEIGHTS.

Where would they have been five years ago with the boys we had then, such as K. O. Brown, Tommy Murphy, Bert Keyes, Ad Wolgast, Leach Cross and Tony Bender?

Eelo answers—WHERE?

BANTAM CHAMP SCRAPS TONIGHT AT FORT WORTH

International News Service.

FORT WORTH, Feb. 15.—The bantamweight boxing championship of the world today is within the grasp of a Texan. Dandy Dick Griffin, Texas star bantam, will battle for the crown at the bat Spook show coliseum tonight against Joe Lynch, who trounced Pete Herman and thereby won the championship several months ago.

Griffin has twice fallen before the onslaught of Lynch, but claims that he will redeem himself tonight, when he faces the New Yorker before the largest crowd that ever has assembled for a boxing event in the state of Texas.

With seats selling at from \$3 to \$10, the house was practically sold out at noon today. Grover C. Godfrey, promoter of the bout, announced to the International News Service this afternoon.

Lynch draws down a guarantee of \$5,000 for his part in the match. Griffin, in order to get a crack at the bantam crown, is content to take a small percentage of the net, the remainder of the net proceeds to go to the fund for relief of starving Europeans.

VETERANS TOP FIELDING LIST FOR LAST YEAR

By JACK VEIOCK.

International News Sporting Editor. NEW YORK, Feb. 15.—Veteran players led the fielders in five positions during the 1920 season, according to the official National league fielding averages, made public today.

Morris Rath, who came back to the big show in 1919, just in time to cut a world's series melon with the Cincinnati Reds, headed the second basemen of his league with a percentage of .977. Rogers Hornsby made the most putouts, 343, and also topped all others in assists with 524, while his total number of chances, 901, shows that Rogers was a busy lad around second base. Rath's work, however, was dependable and consistent, if not flashy, and speaks well for a veteran who, once with the White Sox, had drifted into the minors only to be resurrected and help win a National league championship.

Charley Deal, who was a member of the Braves back in 1914, but who has been playing the hot corner for the Cubs of late, topped the third-sackers of the old league with .973. Norman Bowckel, of Boston, made the most putouts—219—and had the greatest number of chances, taking part in 518 plays. Since joining the Cubs Deal's playing has improved and the figures speak for themselves. However, it is probable that players like Deal and Rath, methodical and consistent, stand where they do because of these very charitable characteristics. Such players will not or cannot cover the same amount of ground as players like Hornsby and Frisch, for example, and therefore do not muss up difficult chances for which infielders are often given errors when the play should be scored a hit.

Baneroff Heads Shortstops. Another veteran, Davey Baneroff, showed the way to the shortstops in fielding. Davey finished the season with .955, having taken part in 150 games, with 1,005 total chances and only 45 errors. Baneroff had more chances by far than any other shortstopper in the National league.

He also led in putouts and assists. Hollocher, Maranville and Fletcher ranked in order after Baneroff.

Cooper, who has been with the Dodgers for years, was the best fielding catcher. Otto fielded .986 and also made the most putouts, 418. Ivy Wingo caught the greatest number of games, 107, and George O'Neill, of the Braves, the most assists, 153. Vern Clemens, of the Cardinals, had the greatest number of total chances, 531.

Wilbur Cooper of the Pirates, stands at the head of the pitchers in fielding, with .989. Art Nehf, of the Giants, made the most putouts, 18; Grover Alexander had the most assists, 105, and Burleigh Grimes the greatest number of total chances, 119.

Of the four triple plays of the National league Pittsburgh executed two, an odd feature being that Wilbur Cooper, while pitching July 7, and again on Aug. 21, began both triple plays for Pittsburgh by catching fly balls batted by Mack Wheat.

Pittsburgh leads in fielding with an average of .971. Brooklyn and St. Louis are tied for the most putouts, with 4,277 each. New York had the most assists, 2,240, and greatest number of fielding chances, 6,682. New York made the most double plays, 137. St. Louis had the most left on bases, 1,116, and Cincinnati the least, 984.

John Sharp Williams may be succeeded in the United States senate by a woman—Miss Belle Kenney, of Flora, Miss., suffragist, prohibition lecturer and traveler, who has announced her candidacy for the seat held by Williams.

WISCONSIN AND MICHIGAN WANT 'WETTEST' TOWN

By Associated Press.

DETROIT, Feb. 15.—The friendly controversy between Michigan and Wisconsin over possession of a strip of land comprising about 120 square miles, and that has resulted in the effort of Wisconsin to have the entire northern Michigan peninsula separated from Michigan and annexed to Wisconsin, had its start eighty-four years ago, when Michigan was admitted to statehood.

The tract in dispute, that has an assessed valuation of less than \$10,000,000, has been a part of Wisconsin since the boundary line was established in 1837, but Michigan repeatedly has claimed the district on the ground that an error was made by the surveyors.

A few years ago the Michigan legislature created a special commission to arbitrate the dispute, but the governor of Wisconsin at that time declared there was nothing to arbitrate. The Michigan commission is to make another attempt at arbitration, a new governor having taken office in Wisconsin Jan. 1. Members of the Michigan commission have announced suit may be started in the United States supreme court to settle the boundary question if Wisconsin again refuses arbitration.

The strip of land over which the eighty-four year old dispute has been waged contains the town of Hurley, scene of the recent prohibition raids.

Michigan came into possession of the upper peninsula as a result of the so-called "Toledo war," that resulted in 1835, or two years before Michigan became a state. Ohio had been admitted to statehood in 1802 with an indefinite northern boundary. The act of 1805, organizing Michigan territory, had fixed the Michigan boundary to include the land in which the city of Toledo and adjacent territory is located. When Governor Lucas of Ohio issued a proclamation assuming control of the district the governor of Michigan called on the militia, which proceeded to Toledo to prevent Ohio from taking control. A few shots were fired but there was no bloodshed.

Congress settled the dispute by granting the land to Ohio and giving Michigan the northern peninsula.

SAN SABA PLANNING "CLEAN-UP CAMPAIGN" FOR LOCALITY

SAN SABA, Feb. 15.—San Saba's greatest campaign of clean-up will be inaugurated in the next few days, according to Mayor James H. Baker. "Every property owner will be required not only to cut all weeds, but to burn all rubbish and litter accumulated during the summer and winter months."

FIRE RISK KEY-RATE REDUCED.

HASKELL, Feb. 15.—The fire insurance key-rate in Haskell has been reduced two cents due to fire prevention study in the local schools introduced by Principal C. C. Miniara. Another reduction due to splendid fire record for the last three years is the fulcrum upon which the city council will seek another reduction.

TWELVE-YEAR-OLD BOY SCOUT GIVES SKIN TO SAVE "BUDDY'S" LIFE

The Boy Scout pledge to "help others when possible" was exemplified in San Francisco when Richard Weaver, twelve-year-old scout, gave up 100 square inches of skin from his back and legs to be grafted onto the back of eight-year-old Vernon Garnett, his playmate, who was burned by hot tar. The cuticle transfer saved young Garnett's life.

LOW GRADE TEXAS COTTON TO WORK IMPORTANT PART IN REHABILITATION OF EUROPE

By Associated Press.

GALVESTON, Feb. 15.—Low grade Texas cotton, a drag on the market in America, has a definite part to play in the rehabilitation of European textile industries, according to W. W. Morrison, executive secretary of the Galveston cotton exchange. The supply of this low grade cotton, Mr. Morrison said, has been excessive for more than four years, and with the exception of the 1920 yield, every crop during the last four years has made the supply more unwieldy.

"This accumulation of low grade cotton," Mr. Morrison declared, "is due to well defined causes. This government exacted high grade in the manufacture of our supplies, as did also foreign governments purchasing in this country. Spinners and labor, also, not engaged on war contracts, found it much more profitable to manufacture the better grades. Subsequently the spinners generally have neglected the low grades of the staple for the same reason, while until recent months labor in many instances refused to work in the manufacture of any but the better grades."

"Snap" cotton, another drag on the American market, is attributed by Mr. Morrison to the scarcity of farm labor and the high cost of harvesting. This "snap" grade is that cotton which is pulled along with its burs, the farmers depending upon the spinning process to refine the cotton. For the same reason, according to Mr. Morrison, the amount of

"bolles," or immature cotton, has definitely increased.

"An account of the ban placed on low grade cotton by this and other countries and the distaste of spinners and labor for any but the better grades," Mr. Morrison said, "this great bulk of low grade cotton has developed in this country, its very lack of mobility having the effect of weakening the economic structure not only in the South, but throughout the entire United States."

Apprehensions that long term credits to Europe in connection with the movement of the low grade staple would be a "bad risk" were discounted by the Galveston cotton man. It had been pointed out that, because of the long time that must elapse before payment might be made, a higher price must be charged for the low grade article than would be asked if sold for cash or ordinary thirty to sixty day credits. Therefore, according to the persons, the low grade cotton would be selling as high as high grade cotton to those manufacturers who were able to pay cash.

In marketing their fabrics, it was felt by some, the manufacturer who bought the low grade of staple could not compete with his rival, who bought a good grade cotton for cash and could very nearly meet his competitor's prices for a finished product. Mr. Morrison believed that most of the high grade cotton sold to Europe already had been fabricated

and had found its way into the channels of commerce. "Reports indicate that continental Europe needs and can absorb the large part of the low grade staple in this country," Mr. Morrison continued, "particularly Germany and the older Balkan states. "Long time credits must be extended, however, if they are to be profitable to gain an economic foothold. "Plans for extending these credits are now well advanced and on a basis which justifies a confidence in their success. In fact," Mr. Morrison declared, "some low grade cotton already is moving in response to these plans." The constructive effect of the movement of the South's low grade cotton to Europe, Mr. Morrison said he believed, will be felt in Europe long before it is felt in this country. When Europe does begin to pay for its cotton, he said, there will result in this country a material disposition of the reactionary effect this unwieldy supply had long exercised on our economic and industrial life.

Advertisement for Force. Overpowering Strength. There's an untold satisfaction in the consciousness of superior physical power. It kills doubt and fear and, in their place, gives life to courage and confidence. More knowledge that your strength, mental and physical, is equal to the occasion, places you in a zone of safety, protected from the opposing currents of life. FORCE, the master-rebuilder makes men and women equal to emergencies; enables them to subdue obstacles and overcome the barrier which stand in their way to a field of larger development and wider usefulness, by building up within their bodies a surplus of energy, strength and endurance. FORCE is sold by reliable druggists everywhere, and is good for men, women and children alike. "It Makes For Strength".

WORKED ROADS VS. NEGLECTED
ROADS.

Hico, Texas, is situated in the corner
of Hamilton county, in a location similar
to Ranger's in Eastland county. Like
Ranger, it has had roads. Unlike Ran-
ger, it has some good roads. The good
roads, like the bad roads, are dirt, just
dirt. They are not subjected to oil-field
traffic, of course. Nevertheless they
show what can be done by systematic
grading and such like work.

Hamilton county has looked after its
roads. One can open up and lead the old
car roll. Erath county hasn't paid much
attention to the roads which run down
to within a mile or so of Hico. Seemingly
they are not important. You know how
that is.

Now the moral of this tale is that
proper drainage and doing small repairs
before they become serious will keep a
road passable, even under oil field traf-
fic. Hico's trade territory is fifteen
miles in one direction, and two or three
in another, because of roads. Ranger's
territory trade likewise will depend upon
its approachability. That will apply
here as well as there.

Therefore, the property owners who
are approached tomorrow, if they value their
holdings here, should support the move-
ment to which the merchants have al-
ready contributed so loyally. As a town's
trade territory grows, so does that town
grow and prosper also.

And speaking of roads, there are about
five spots, three of them on the hills,
which make the pasture route to Thurber
virtually impassable. That's about half
a mile out of twenty. One may get over
there all right, if he is lucky, skillful and
careful. Whether he can get back, espe-
cially after staying awhile, is doubtful.

SHIVERING IN ANTICIPATION.

Whether Mr. Harding is really making
much ado about the comparative merits
of various gentlemen for cabinet posts is
problematic. There are so many eligible
gentlemen to be canvassed that it would
probably take several hours to reach a
decision, even if the President-elect were
free from a horde of voluntary advisers.
And that he is not. Harding was put
forward as one would who would be a
personally conducted candidate. Since
then differences have arisen as to who
is going to rule in the Republican ranks.
The volunteers all have candidates.
Therein, we venture to wager, is Har-
ding's dilemma. It is not altogether a
question of whom he wants and whom he
shall please. There's some small bother
over whom he is to peevish also.

And making a decision, like taking that
cold bath, is put off until the last mo-
ment.

RIPLING RHYMES
By Walt Mason

LARCENY.
Some fellow came and swiped my cow
while I was fast asleep, but sorrow does
not erase my brow, I do not wall and
weep. And if I wept and wall'd at all
it is because I'm sick to think a fellow
has the gall to play so punk a trick.
For it'll plain his heart is wrong, his
conscience is a fake; his life will be no
grand sweet song, but just a long,
dreary woe. He'll skulk about his na-
tive land, a haunted moral wreck; in fear
that some policeman's hand will grasp
him by the neck. He'll drift along from
crime to crime, instead of earning kale,
and when he isn't serving time he'll be
out hunting bail. And so I don't de-
nounce or hate the boob who pinched
my cow; I merely pity such a skate, and
wonder his future, now. When any per-
son does me harm, at first my words are
grim: I say I'd give an outlaw form to
even things with him. If I could meet
him face to face, with order I maintain,
I'd leave his remnants o'er the place.
He leaves upon the plain. But when
my royal wrath has cooled, and I have
ceased to curse, I soon regret the things
I doled, and all my foolish fuss. A
punishment severe and strong is sure as
things can be to hit the man who's doing
wrong—but 'twill not come from me.

For the first time, probably, in his pub-
lic career, Victor Berger approves the
Agerican courts.—New York Telegraph.

THE WOMAN WHO SAW

The Mighty Have Fallen.

Over in Newark you can buy real art
—a Venus, a Barye lion, a bust of any
of your heroes, for a quarter up from the
basket of Giovanni, who peddles his
wares through all the seasons to those
who feel that it is high time to re-
legate the Rogers group to the attic and
replace it with "southern modern." But
Giovanni has not succeeded in changing
the taste of all in Newark—some still
prefer "near beer," nearer and yet more
near.

One morning last week he took his
stand on a busy corner close to a "cafe,"
where his trade was brisk. He was in
high good humor, and when a great
trickman lurched from the saloon door
in the general direction of Giovanni's
basket, that sunny son of Italy held high
above his head a bust of Garibaldi, ex-
claiming as the reelng one approached,
"Here buy, de bus' of a great man! Spen-
de dollah on de great Garibaldi!"

The man turned, and with a sweep
of his arm turned Garibaldi to a few scat-
tered bits of plaster. Then he shouted
to the infuriated Italian, "You an' your
Garibaldi kin go to hell!"
Giovanni turned purple. Words failed
him; he began groping in his basket.
Suddenly he drew out a bust, and flinging
it into a thousand pieces on the ground,
he shook his fist at the maligner of his
hero and yelled: "See, I gotta you! It
ees your Georgea de Wash; now, you
and your Georgea de Wash can go to
de hell!"

Other Lands, Other Customs.

They laid aside their furs, drew off
their gloves, and settled themselves for
a good lunch. While they waited for
the menu they looked about with interest,
for they were in unexplored territory.
But they had the souls of adventurers,
and the place was really delightful. If
only the food proved as inviting as the
restaurant.

Scallops and salad, with coffee, and
a dessert to be selected later, were ordered,
and then the waiter vanished. The short
slim one reached for her bag. "I'm sure
we'll have time for a cigarette," she said,
as she rummaged for the "makins." And
the tall, plump one agreed.

Scarcely had they scratched the first
search before an agitated head waiter
rushed to their table. "I'm sorry, ladies,
but that is not permitted!"

"Not permitted?" Both grinned, al-
most welcoming the interruption. "Not
permitted?" This was wonderful! They
really were explosives. "In this day?"

"No, ladies, it is not permitted. But
if you wish to smoke there is a comfort-
able dressing room provided for the pur-
pose." And then, as a final apology and
explanation, he concluded, "You see this
is Brooklyn, and not New York."

Could any conclusion have been more
convincing?

Comrades.

The Business Girl, mentally pictures
herself as belonging to the motherly class,
but what with the little short skirted
"girls, and what with the Tam of Shanter
this season, there's no telling age by
appearance. Anyway, as she hurried
home from the library the other after-
noon, with two volumes of William James
and a notebook under her arm, some very
late kept in kindergarten were emerg-
ing from the side door of St. Joseph's
School at Washington Place. Came a
slight tug at her skirt and an elfin voice
in her ears, looking down she saw
the most beautiful, story-eyed little son
of Italy peering up at her with an audac-
ious smile and this is what he said:
"Which school did you have to stay in
at?"

And somehow the Girl felt very young
again as she went on down her street,
with an inner exultation over this sud-
denly established camaraderie with the
little kents. Instead of freeling Wash-
ington Place she trod the rosy corridors
of her own kindergarten days. Nor did
she care a bit how many little fine lines
she could see around her own eyes when
she looked closely in the mirror. She had
been claimed by Youth.

School Days—School Days.

"Four men teachers, and each worse
than the other?"

The Woman looked up from her mag-
azine at the not-quite-flappers, who were
on their way to school.

"And the one who's teaching bookkeep-
ing, he's short and fat and ugly. And
he gave me ninety, although, honest, I
don't know a thing I'm doing. He said
when Miss Harriet left we were going
to get a good looking blonde, but then they
went and—"

"I know. Isn't it awful!" consoled the
other fourteen-year-old.

"Isn't it? But I fixed our stenogra-
phy teacher the other day. I just told
him I didn't see how a man could teach
in a girl's high school. It's such a lazy
life—nothing to do but sit down with
a book and look smart. I guess it hurt
his feelings, but—Here's Fourteenth
Street! Gee, this'll be the first time I've
been early in a week!"

AND NOW TO COLLECT

"Tinker Bob"
Stories
by Carlyle H. Holcomb

TINKER MEETS HIS FRIEND.

Tinker Bob was interested in knowing
whose familiar voice it was calling from
the distance. It made him think he was
again in the Forest of the North Land.
Then suddenly the voice was silent. It
was not heard again. Tinker looked
about everywhere but could see no one.

The country around was all so very
different. Everything was green on the
ground. The leaves on the trees looked
fresh. It was very warm, and as the
sun was very low and darkness was com-
ing on, Tinker decided to find a place
where he and Lady Duck could sleep all
through the night. Then he would ex-
plore about the next day.

Lady Duck had located a place that
suited her, under a tree with low hang-
ing branches. The tree stood on the side
of a bank, and she thought it would be
an ideal place. "Quack, quack," said she,
"there's a place that looks very good to
me, and it will be all right for you too."

"Tinker was not sure that it would be
all right for him because this was a
strange country and no one knew him.
So he tapped the Stone of Knowledge to
tell him if it was a good place for him to
sleep. When he did this, the Beautiful
Creature came and when Tinker climbed
into the basket the Fairy creature took
the basket into the tree, and made it fast.
So Tinker knew that it was intended for
him to sleep in the Magic Basket in the
tree and that it would be dangerous to
stay alone on the ground.

He took Lady Duck with him and when
it grew dark they went to sleep. But
they hadn't slept very long till they were
awakened by the sound of peculiar sniff-
ing and whining. This was all very new
to Tinker for it did not sound like that of
any creature of the Forest. Lady Duck
laid very quiet and listened. "Tinker tried
to see who it was but it was so dark that
he could not see. But he could hear the
whining and the sniffing. It didn't sound
very good either. It was not in the tree

The Fairy Creature Took the Basket
Into the Tree, and Made it Fast.

so there was no use of paying any at-
tention to it.

After a while the sound was not heard
and Lady Duck said: "Quack, quack,
that was one of the dangerous creatures
of these parts. I am glad we did not
stay on the ground or we both might have
been eaten and the Forest would never
again see its King." They slept again.

The night went by, from this time,
very rapidly, and when the first ray of
morning light came Tinker was awak-
ened again with that familiar sound that
he had heard the night before. It brought
joy to his heart for now he knew who it
was and he went at once to see if he
could find where she was.

It was Mrs. Red Robin who was so
dear to the King of the Forest. "Come,"
said she, "I'll show you my friends of
the south."

Tomorrow—Tinker Bob in the Midst of
His Friends.

entirely cover the wearer and be imper-
vious to this liquid, still allowing water
vapor to pass through. Work along this
line is being pushed by this service, but
the problem is an extremely difficult one
and it is probable that several years will
be required to develop such a material,
if it is possible to do so at all.

"It is probable that cities can be pro-
tected by chemical guns, but this also
will require time for development.

"The most logical defense is an air
force more powerful than that possessed
by any other power. At the present
time, if our country were attacked by an
enemy with a superior air force, our en-
tire army would be annihilated, for it
could do nothing whatever to defend it-
self. During the Argentine defensive in
the recent war, the entire first American
army of a million and a quarter men
occupied an area approximately 40 kilo-
meters long by 20 kilometers wide. If
Germany had had 4,000 tons of this ma-
terial and 300 to 400 planes equipped in
this way for its distribution, the entire
first army would have been annihilated
in 10 to 12 hours.

Importance of Science.

"It is desired to emphasize the impor-
tance of scientific research, as compared
with a large army, as the more effective
and less expensive means of protecting
our country. During the past war gas
produced over 30 per cent of our casu-
alties; in the future the percentage of de-
fensive new development, but if scientific
research on military problems is not
continued on an efficient basis another
development will be made and an enemy
will use it against us before we have
worked out a defense."

The army appropriation bill carries
\$1,500,000 for the chemical warfare ser-
vice, an effort to reduce the amount on
the floor of the house having failed.

HORSE THROWS GIRL RIDER.

Special to the Times.
CARBON, Feb. 15.—Accidents report-
ed here this week included that to Miss
Ha Ferrell of the Davis community, who
sustained a broken ankle when a horse
she was riding shied and threw her; and
that to the Anax and Murray boys who,
on a hunt, ignited a match near a leaky
gas pipe and were badly burned.

WILLS HUSBAND TO
LIFE-LONG FRIEND

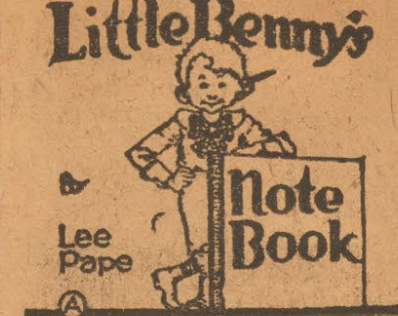

When Mrs. Orren Shearer of San
Francisco saw death approaching she
called her dearest friend, Mrs. Lillie Pow-
er, a widow, to her bedside, and placing
the woman's hand in that of her faithful
husband, made the final request that
upon her death Mrs. Fowler take her
place as the wife of the man to whom
she had been married for many years.
Both the husband and Mrs. Fowler
agreed and shortly after Mrs. Shearer's
death they were married.

HENS VIE IN EGG
FOR EGG CONTEST

LINCOLN, Neb., Feb. 15.—The hens
in the nation-wide egg laying contest con-
ducted by the Nebraska college of agri-
culture are refusing to join in the cus-
tomary winter strike. Twenty-three of
them laid 23 or more eggs during De-
cember; one laid 27 eggs and four laid
25 each. During November and Decem-
ber, the first two months of the present
contest, one hen laid a total of 50 eggs,
and ten laid 30 or more eggs each.

Among the twenty-three "high" layers
during December were the following
breeds: Seven White Leghorns, four
White Wyandottes, four White Orping-
tons, two White Rocks, two Barred
Rocks, one Rhode Island Red, and three
Buff Orpingtons. The highest layer and
the second highest layer were White Or-
pingtons.

Six hundred hens, representing breed-
ers in nine states are entered in the con-
test, the purpose of which is to encour-
age the breeding of better laying strains
of poultry.

Little Bemmies
Note Book
Lee Pape

As fellows was standing around the
lamp post before supper, and Leroy
Shooster sed, Hay fellows, whose coming
out tonight anybody coming out, tonight.
I ain't allowed to come out any more
at night on account of this crime wave, sed
Sid Hunt, and us other fellows sed, G
neither are we, gosh its fierce all the rob-
bers and burglars and things, hohy
smoaks, gosh, hohy.

Which jest then some man started to go
past with his hat pulled down over his
eyes, being a suspicious looking man, with
long legs and a short mustash, and Puds
Stinkins whispered, Hay fellows, I bet
thats a pickpocket or something, look at
the way he wawks.

G, wat do you say we follow him and
maybe we'll catch him picking somebodys
pocket or something and maybe we'll get
a reward, Esed. Which we started to do,
being me and Puds Stinkins and Sid Hunt
and Sam Cross and Skinny Martin and
Leroy Shooster, and we followed him
about 5 blocks without making any noise
so he wouldn't look around, which he
only did once, being the second time Puds
Stinkins tred on his heels on account of
following him a little too close, the man
saying, Look wate youre wawking will
you, Wat is this enyway, a perrade?

Meaning all us fellows rite in back of
him, and we didnt say wether it was or
not, and pritty soon he went in a cigar
store and us fellows all wawked in after
him to see if he was going to hold up the
cigar man or anything, which the cigar
man was saying to him, Good aftirnoon
Mr. Willson, it looks like rain but not as
much as it did, wats you going to have
today Mr. Willson?

Which us fellows started to whisper to
each other, G, he knows him, he knows
his name and everything, And we started
to go out of the store agen and the cigar
man sed, Hay, wats rong with you boys,
wats the idee flocking in here, and then
flocking out agen? Which us fellows
started to run out insted of wawk out,
the obiect being to get out as quick as
possible, wich we did.

PICKED FOR CABINET
POST, SAYS REPORT

HARD BOILED RABBITS
INVADE MARYLAND TOWN

WASHINGTON, Feb. 15.—"Fero-
cious" jack rabbits that waway women
and children, chase dogs and play with
cats in the streets are causing consider-
able alarm in Hyattsville, Md., accord-
ing to reports from that suburb of Wash-
ington.

So bold have the rabbits become in
their depredations that the town council
is said to be seriously considering a pro-
posal to provide guards for little children
who carry their lunches to school. Many
women are afraid to venture from their
homes at night for fear they may be at-
tacked by one or more of the "rowdy"
rabbits, which apparently have been
driven by hunger to invade the town.
Meanwhile, Hyattsville canines are wear-
ing a hang-down look and their tails are
between their legs.

The late "Custer wolf" had nothing
on Hyattsville's jack rabbits for ferocity,
if the tales that are coming out of that
town can be credited. One townsman re-
ports that he was held up at his door by
an unusually fierce specimen, which re-
fused to depart until fed.

Another declares he frustrated a blood-
thirsty attack upon a woman who was
reckless enough to carry a market basket
along the street with a bunch of celery
protruding. Others tell wild stories of
still wilder rabbits eating raw meat and
fish heads.

HENS VIE IN EGG
FOR EGG CONTEST

LINCOLN, Neb., Feb. 15.—The hens
in the nation-wide egg laying contest con-

All
a Matter
of Habit

An Automatic Heart
On the Hot Iron
The Work of a Friend
Plenty of Good Habits

AN EDITORIAL
ON BUYING

Man is a creature of habit.

Some of his habits are good
and some of them are bad.
Most of them are good, because
the human animal is so delicate
an organism that there has to
be a Republican majority of
good habits to keep him going.

In fact, good habits are not
only an economy of effort—
making it possible to accom-
plish more with less effort of the
will—they are also the funda-
mental pre-suppositions that
make life at all possible.

The heart has a good habit
of pumping blood without your
having to think about it.

The lungs have a good habit
of supplying the system with
oxygen.

The nerves have a good habit
of sending instantaneous mes-
sages to the brain about what
is happening to you.

The nerves have a good habit
that when they send the
message to your brain that your
hand has touched something
too hot they do not wait for the
General Staff in your head to
call a conference of your num-
erous impulses and inhibitions
to determine whether or not to
remove the hand from the hot
object. Your nerves have a
habit of sending back a mes-
sage about what to do right
away.

The same thing holds true of
affairs on a higher plane.

A man keeps his contracts,
pays his bills, supports his
family, votes and goes through
all the ordinary actions of daily
life as a citizen and civilized
human being because he has
these good habits, and he leads
a good life when he has good
habits.

A man buys largely as a mat-
ter of habit.

He buys at a place he likes
because he is well treated and
he finds the values satisfactory.
More likely than not the word
of a friend or the printed word
of a friendly advertisement got
him there to begin with.

And the store where he buys
let him know about any special
sales of stock pleasantly and ef-
fectively, because they have
the habit of telling him such
things through their advertis-
ing, and he has the habit of
noting what they say because
he has the habit of reading ad-
vertisements with interest and
confidence.

The American people are a
friendly, good natured race.
While we have enough bad
habits, we also can look our-
selves over impartially and see
that we have some good ones.

Pre-eminently characteristic
of us is our habitual interest
in and appreciation of advertis-
ing.

We know that this interest
is a good habit because we
know what it can do and has
done for every one of us.

Advertising itself is a good
habit.

In fact, advertising and read-
ing advertising are two of the
best American habits!

CLASSIFIED ADVERTISING RATES AND REGULATIONS in the Daily Times, Ranger, Texas

Use These Papers to Cover the Oil Fields

THE FORT WORTH RECORD WICHITA FALLS RECORD-NEWS THE RANGER DAILY TIMES Combined Classified Rate.

Table with 2 columns: Words, Rate. Rows include 15 Words, 20 Words, 25 Words, 30 Words, 35 Words, 40 Words, 45 Words, 50 Words, 55 Words, 60 Words, 65 Words, 70 Words.

Forward copy to any of the three papers, with your remittance. Copy will be run first possible issue after receipt.

No advertisement accepted for less than 25 cents. The above rates are for consecutive Daily and Sunday insertions without change of copy.

No advertisement accepted on a "fill forbidden" order; a specific number of insertions must be given.

Notice to discontinue advertisements must be given in writing, otherwise we are not responsible.

NURSEERY STOCK-From grower to orchard; thirty-five years' standing at one place. You ought to know us. Catalogue free. Murray Nursery, Wilds Point Texas.

14-FOR SALE-Real Estate

MISSOURI-85 down \$5 monthly buys 40 acres truck and poultry land near town Southern Missouri. Price \$240. Send for bargain list. Box 35, T. B. Jarroll, Mt. Vernon, Ill.

FOR SALE-48 1/2 acres improved land and pasture together with 1-4 oil royalty, 5 miles south of Ranger, at a bargain, write L. A. Galloway, Weatherford, Tex. Neco, Ariz.

OIL

IBEX WELL MUST BE CLEANED OUT TO LEARN VALUE

By HAMILTON WRIGHT, Times Staff Correspondent.

STAMFORD, Feb. 15.-The true value of the Ihex well on the Judge William Poindecker ranch twelve miles east of Albany and forty miles from Stamford, Tex., is not known until it has been cleaned out, although yesterday it was making 300 barrels under the section of a million feet of gas from the "bridge." It is believed that it will be more than a 1,000 barrel well.

Lorne York, driller on the West-York well of the Texas Venture company, four miles northeast of Stamford, is very optimistic over the prospects of his well coming in, declaring that he believed it would be a better one than the Ihex.

York said today that the Kouri No. 1 well, ten miles east of Haskell, has been placed in his charge to clear of water which has been a deterrent in determining its real oil production capacity. Mr. Kouri is reported to have enlisted Mr. York's services because the latter is known to be thorough and thoroughly experienced. The two strings of 5 3/4 and 6 5/8 inch casing will be pulled and the hole cleaned out. Underpinning for a seat for the 6 5/8 inch casing will then be started. Mr. York is confident with the shutting off of water a good well will result.

NO BASIS FOR REPORT OF KOURI GUSHER

Special to the Times. STAMFORD, Feb. 15.-A rumor to the effect that the Kouri No. 1 well ten miles east of Haskell had struck a vein of oil that was making 100 barrels a day was proved untrue by the Times representative here today, despite the fact that a newspaper in one of the towns in the territory had issued an "extra" giving a description of the pseudo-gusher.

A telephone message received by the Times correspondent today indicated that no further progress had been made in setting the packer or developing the oil stratum that developed several weeks ago. However, everyone is optimistic over the prospects of this test proving to be a commercial producer when the water can be pinched away from the oil sand.

14-FOR SALE-Real Estate

80-ACRE Fruit and Produce farm, 2,400 apple, 450 pears; also plums, cherries, other small fruits; great home market; no shipping necessary; good roads; 2 miles town, churches, schools, 9 miles county seat; registered name "Fairview Fruit Farm." It is in the corn belt of Illinois; best of land and good for fruits. O. Nesbitt, Olivet, Ill.

FOR SALE OR LEASE-30 acres, 1 mile east Cisco, at a bargain, L. A. Galloway, Weatherford, Texas.

15-HOUSES FOR SALE

FOR SALE-4-room house furnished; price \$450. Barker, 403 Main.

FOR SALE-2-room house furnished, 427 North Rusk.

16-AUTOMOBILES

FOR SALE or exchange, got it on a debt and will sell at big bargain, Duplex truck with vech and trailer; terms, or will take part trade, Black Bros., Farm-amount hotel.

FOR SALE-Ford touring car body, 427 North Rusk St.

FOR SALE-Dodge touring car, good rubber, new battery, body not much; will make good speedster. One 2-ton highway trailer, good condition. Parts for Sellen 2-ton truck. One truck which, new, Midway Garage.

TRAFFIC 2-TON TRUCK-Good pneumatic tires, first class condition; Filling Station, 309 N. Marston st.

18-WANTED-Miscellaneous

FURNITURE bought, sold, exchanged. Have moved to 403 Main St. Barker's Furniture Store.

WANTED-A chance to pay you more cash for your second hand furniture and stoves. New and Second Hand Store, 210 Austin st., phone 270.

20-OIL, GAS AND MINERAL

SILVER MINE-Near Neco, Ariz., in Mexico, values as high as \$190 per ton; efficient management; write for details. A. E. Round, Secretary and Treasurer, Neco, Ariz.

RESUMPTION OF DRILLING NOTED AT BIG SPRING

By HAMILTON WRIGHT, Times Staff Correspondent.

BIG SPRING, Feb. 15.-A general resumption of drilling in this territory was reported last week with prospects that something definite in the shape of an oil well will develop shortly. Some of the late developments are:

General Oil company is now preparing to work on five wells. Last week work was resumed on Read No. 1 in east Howard county. Casing will be set to 3,250 feet to shut off water and drilling will be resumed.

Five miles northwest the Sand Hill No. 1 well probably has been completed with a standard rig from 1,450 feet to which depth a rotary was used.

McDowell Recovers Casing. Six-inch casing in the McDowell No. 1 has been reported fished out and an effort made to get a lost fishing spear. Considerable oil showing is reported here and a shot of "nitro" will probably be administered.

On the Neal well a reaming job characterizes development. It was necessary here to set 2,500 feet of 6 5/8 inch casing to shut off water at 2,700 feet.

Drilling is temporarily suspended on the Roberts No. 1, which is reported idle at 2,500 feet while a fishing job goes forward.

The Euders-Cushing test on the Cushing ranch in Glascock county was halted last week by a fuel shortage, which has now been overcome. At 945 feet an oil showing was reported similar to that at 650 feet. Ten-inch casing was set in at 1,000 feet and successfully shut off the water. A reddish sand stratum is now reported and progress is expected to be rapid.

No progress at present is reported from the Quinn No. 1 of the Big Spring Production company, locally called the "Home" company. A night watchman keeps vigil there since the well was taken over by the Federal Service Development System.

Wildcat Tests.

It is reported that a large company is preparing to take over the test southwest of Gail, in Borden county, known as the Ukrainian. Unless the deal is consummated J. K. Smith will prepare for drilling resumption by March 1, it is reported here.

In the eastern part of Dawson county the test well of the Dawson Oil & Gas company is setting 8-inch casing. The oil stratum at 1,800 feet will be tested out. It is believed that commercial oil in quantity has been found.

The Underwriters No. 1 in Mitchell county is producing about 20 barrels on the pump. The Underwriters No. 2 responded to a shot and is estimated to be producing 15 barrels.

MUCH OIL ACTIVITY REPORTED FROM WEST TEXAS PAY DISTRICT

COLEMAN, Feb. 15.-Latest development in the local oil fields reported here recently are:

Idaho Oil & Refining Co. moving derrick on Howington survey, Dibley tract, Garner Oil Co., completed derrick on Keane survey, Dibley ranch.

Magnolia Co. Morris tract, a rig ready to spud in its No. 11 sometime this week.

On the Dibley tract the Jim Ned well, completed a few days ago as a small gusher, is increasing gas flow to 5,000-600 feet and making eight barrels of oil, according to local reports.

On the Adams tract, the Texas-Arizona company is shut down on top of the sand and will resume drilling shortly at 2,800 feet.

Locations are reported for the Bailey and Brown counties, east of the Jim Ned well, and another near the Grosvenor well in Brown county.

On the Gideon tract in Brown county Bowen-Bailey No. 1, after a shot with 200 quarts at 2,500 feet, is making 3,000,000 feet of gas and some oil. Boiler is being moved back to clean out.

The Pope No. 8 of the Gladys Bell Co. in the Santa Anna field, is drilling at around 300 feet.

On the Holt tract about one-half mile north of the Pope wells, the Santa Anna Oil syndicate is said to have made a location. C. E. G. old field manager, is optimistic over the prospects.

CONCHO COUNTY TEST MAY BE A PRODUCER

Special to the Times. BRADY, Feb. 15.-The Texas Meers company well in Concho county has prospects of becoming a producer. It is now decreasing from 1,367 to 1,675 feet. At 1,260 feet a gas sand was struck, the gas from which burned in a flame eight feet high from the 8-inch casing. Eight feet of this sand was drilled through and at 1,273 feet had five feet of oil sand. Both sands were cased off. At 1,675 feet a hard black lime was struck, 35 feet being drilled through. After drilling through two feet of shale, an oil sand was struck. With the underpinning completed this vein will be tested.

The Prairie test across the river in Coleman county had 80 feet of lime and two gas showings between 1,610 and 1,710 feet. No sand has been struck in this well.

Austria women invented the so-called "continental" method of knitting, which is faster than any other and involves fewer motions. The Austrian women claim to be the fastest knitters in the world.

SOCIETY

Has someone visited you, or have you entertained? We shall be very glad to receive such items for publication.

MRS. TAYLOR ENTERTAINS.

Mrs. Earl Taylor entertained a few friends in her home Monday afternoon at a Valentine party. On entering the door the guests agreed with the poet who said, "Man makes the house; woman the home." Mrs. Taylor's home showed skillful touches of decoration of red and white, all indicating the day. The tapestries were draped with red hearts, pierced by white arrows; the colonade was festooned with double hearts; the dining table was bedecked with hearts of crimson.

The refreshments, arranged out in this scheme; chicken salad served in baskets of four hearts. The plate favors were feathered arrows piercing a heart, on which was written in white the name of the hostess and the date.

In the contest, Mrs. T. J. Lauderdale's well first prize, Mrs. P. Boone, the body. Both gifts were worth working for.

Those present were: Misses, C. H. Moffett, M. O. Bart, L. B. Taylor, Roy Smith, W. E. Burke, E. B. Reid, W. H. Burden, A. H. Kinnard, G. W. Clegg, F. E. Hodge, T. L. Lauderdale, A. C. Harkrider, C. C. Craig, S. P. Boone, C. J. Dietrich, B. B. Lillis.

MISSIONARY SOCIETY MEETS.

The Missionary society met at the Presbyterian church Monday at 2:30 p. m. The first chapter of the mission study was discussed and enjoyed by all present, after which the remainder of the program was carried out.

The Presbyterian ladies are asked to meet at the Women's exchange Wednesday afternoon at 2 o'clock and go to the circle meeting. Cars will be at the exchange to convey all to the home of Mrs. Ghoslen.

The Presbyterian ladies have their day of prayer Friday afternoon, Feb. 18. Those who can not get there by 1 p. m. are urged to come later. All ladies of every denomination are invited.

VALENTINE PARTY AT METHODIST CHURCH

A Valentine party was given last night in the basement of the Methodist church by the Ladies' Missionary society to their husbands. Fifty couples were present and card and board games were played until a late hour. The color scheme of red and white hearts was carried out in the refreshments of cake and the dessert.

MUCH OIL ACTIVITY REPORTED FROM WEST TEXAS PAY DISTRICT

COLEMAN, Feb. 15.-Latest development in the local oil fields reported here recently are:

Idaho Oil & Refining Co. moving derrick on Howington survey, Dibley tract, Garner Oil Co., completed derrick on Keane survey, Dibley ranch.

Magnolia Co. Morris tract, a rig ready to spud in its No. 11 sometime this week.

On the Dibley tract the Jim Ned well, completed a few days ago as a small gusher, is increasing gas flow to 5,000-600 feet and making eight barrels of oil, according to local reports.

On the Adams tract, the Texas-Arizona company is shut down on top of the sand and will resume drilling shortly at 2,800 feet.

Locations are reported for the Bailey and Brown counties, east of the Jim Ned well, and another near the Grosvenor well in Brown county.

On the Gideon tract in Brown county Bowen-Bailey No. 1, after a shot with 200 quarts at 2,500 feet, is making 3,000,000 feet of gas and some oil. Boiler is being moved back to clean out.

The Pope No. 8 of the Gladys Bell Co. in the Santa Anna field, is drilling at around 300 feet.

On the Holt tract about one-half mile north of the Pope wells, the Santa Anna Oil syndicate is said to have made a location. C. E. G. old field manager, is optimistic over the prospects.

PARENT-TEACHERS' OF CENTRAL SCHOOL TO HAVE 'GET-ACQUAINTED' MEET

Central Parent-Teachers' association will have a get-together meeting Friday at 8 o'clock at the Central intermediate school building for the purpose of getting acquainted. Everyone is invited to attend. The following program will be rendered:

Opening Address-Mr. McNew. Chorus-High School Girls' Choral Club. Piano Solo-Mary McNeil. Reading-Miss Hunter. Song-Miss Bost. Dance-Evelyn Lawn, Nellie Hammon, Thelma Labin. Violin-Mrs. R. B. Jones. Reading-Miss Davis. Trio-Blanch Garbow, Mamie Ruth Langston, Myrtle Clemmer. Piano Solo-Dorothy Walker. Reading-Miss Pratt. Song-Miss Douglas.

PARENT-TEACHERS' ASSOCIATION OF COOPER SCHOOL

The Parent-Teachers' association of the Cooper school will hold its regular meeting at the school building Wednesday at 3:30 o'clock, with Mrs. C. O. Jensen as leader.

The following program has been arranged: Demonstrate a lesson-Miss Annie Cooper. Reading-Violet Wickware. Song-Sixth Grade. Reading-Lena Boyette. Reading-Rosa Bunch.

The program will be followed by a business meeting. All the parents are cordially invited to be present.

POLL TAX RECEIPTS IN HASKELL COUNTY DECREASE IN PAST YEAR

SPECIAL TO THE TIMES. HASKELL, Feb. 15.-Total poll tax receipts issued in Haskell county as announced by Collector Charles M. Connor are 2,287, a loss of seventy-six from last year. Only twenty-five exemptions were issued compared with forty-three last year.

TEN THOUSAND RABBITS ARE EXTERMINATED IN DRIAE

SPECIAL TO THE TIMES. GOLDSBURG, Feb. 15.-As a result of a five days drive against jack and cottontail rab rabbits in this section R. H. Weede announces that not less than 10,000 of the rodents have been slaughtered. Autos and trucks followed the roundup and transported the men to and from the lines, saving time and wear and tear. The women of the community served an appetizing dinner.

# STONE CRUSHER GRINDING ROCK FOR HIGHWAYS

## Trench Railways From France Will Haul Product to Highways.

Special to the Times. EASTLAND, Feb. 15.—A trial run was made Monday afternoon of the big rock crusher of the Fleming & Stitzer Road Building company on the Truly estate, a short distance southeast of this city.

Workmen have been engaged for several days in getting the crusher in shape to start work and the trial run, made with only two crushers in operation, was successful.

This giant crusher will have a capacity of about 1,200 cubic yards of crushed rock per day. It is built beside a big rock quarry, the rock is loosened by air drills and then carried up tracks by a donkey engine. It is then dumped into bins and from there is fed to the crushers. At present only two crushers have been installed but the third crusher has arrived at the plant and the cement bed for it is now being laid.

From the trenches of France to Eastland county is quite a step, but the cars and engines, which will soon be doing the prosaic work of pulling crushed rock for road work in this county, have made the trip.

These little armored cars were built for the United States government for use in the trenches of France. They are covered completely with armor about one-quarter of an inch thick. However, most of this armor has been removed, since they have now been assigned to a less dangerous task.

It is expected that the crusher will be completed and turning out rock in about ten days.

Several miles of fabricated track for the little trains has arrived and will be laid shortly and will soon be hauling rock for the roads of this county.

# WILL DAM UP FLOOD OF BOOZE ACROSS NORTHERN BORDERS

DETROIT, Feb. 15.—In an effort to halt wholesale rum running into the United States from Canada and thus throttle what is said to be one of the chief sources in the country for illicit liquor, government prohibition agents during the coming year will confine their energies largely to northern Michigan, particularly in the vicinity of Sault Ste. Marie. This statement was made here by Frank D. Richardson of Chicago, supervising special prohibition agents for the central division, comprising the states of Michigan, Wisconsin, Indiana and Illinois.

Mr. Richardson announced he had authoritative information that liquor was being smuggled into the United States at Sault Ste. Marie "by airplane, boat and train."

"Detroit and the immediate vicinity has been found to be the best police district in the central division," the supervising agent said. "Northern Michigan is one of the worst and that district is to be cleared of bootleggers, rum runners and similar law violators, just as we cleaned up Hurley, Wis."

# RETURN OF BOOZE IS SOUGHT IN SOUTH DAKOTA BY BILL INTRODUCED IN LEGISLATURE

PIERRE, S. D., Feb. 15.—Personal liberty, which includes a way whereby those who are temperate and good citizens as the term "good citizen" is defined can manufacture, buy and sell liquors that are termed "stimulating," is the keynote of a bill introduced in the legislature here by Representative Fred C. Ohman, at the request of R. O. Richards of Mitchell, S. D.

The bill follows accurately the platform upon which Richard ran for governor in the primary last year.

The bill provides that "On and after the enactment of this law every person of legal age not convicted of crime or detained in state institutions shall again be accorded moral liberty in diet under law and order as provided in this act."

The bill defines a citizen as "a respected person who is moral and therefore entitled to respect and personal liberty in every way and entitled to enter the state, moral, civil service and to vote, to sell, buy and use stimulants by complying with the legal requirement of residents, and naturalization and federal statutes."

The word stimulant is defined in the bill as "any pure vinous malt, brewed, fermented or distilled pure liquors containing the pure spirit of wine from fruits and seeds—not toxin, rectified, poisonous or impure, and not used in a drunkard's way for beverage purposes; but in a temperate way for stimulating purposes."

The term "intoxicating liquors" is defined in the bill as "any rectified poisonous, impure liquor, such as moonshine, poisonous home brew and immature wine."

The bill would declare immoral and prohibited, the saloon or any form of public place for the sale of intoxicating liquor or stimulants by the glass or individual drink for beverage, medicinal or stimulating purposes.

The bill says, however, that "No person, active manager of any firm, business, club, association or corporation within this state shall manufacture, import or aid in importing, for sale, barter or trade, any spirituous or vinous liquors, except upon issuance of a 'municipal moral permit.'"

To obtain this permit, the bill provides for an application in writing to be published by the clerk or auditor in three issues of the daily or weekly newspaper with the largest circulation, giving the date and hour of the meeting of the commissioners to decide upon the application.

At this time the public must have opportunity to object or endorse the granting of the application. If the application is granted a bond of \$5,000 must be filed for faithful performance and compliance with the act and with the federal statutes.

The issuance of the "municipal moral permit" shall be limited to regular registered pharmacists and to the citizen in

charge as active managers of each retail and wholesale grocery concern, provided that all vinous and brew for "stimulant" purposes shall be sold in the original package and the proper pure food stamp attached.

The bill then provides that the auditor shall keep a book known as the municipal moral permit book where the list of permits shall be kept. It also provides that each permit holder shall keep a book which will record the names of all persons of which he is notified by the clerk of courts to have been deprived of their citizenship and they shall be entered as "moral delinquent."

All moral delinquents are not only deprived by the bill of obtaining a "municipal moral permit" but also deprived of voting and their citizenship is forfeited, which automatically prevents them from buying stimulants.

The bill continues: "Any persons, not a regularly licensed practicing physician, who directly or indirectly, knowingly or willfully sells or gives stimulants to a moral delinquent person who has lost his citizenship shall upon trial and conviction thereof forfeit his or her citizenship."

The word moral or morality is defined as the "essence of law by a standard citizenship to mean individual responsibility in personal conduct, evidenced by the practice and support of temperance, good will, self-respect, respect for the state and for justice of service."

The word moral or morality is defined as the "essence of law by a standard citizenship to mean individual responsibility in personal conduct, evidenced by the practice and support of temperance, good will, self-respect, respect for the state and for justice of service."

# PROBE FINDING OF BOMBS IN OFFICES OF ROYALIST PAPER

LISBON, Feb. 15.—Two women who left a handbag containing six dynamite bombs in the office of the royalist newspaper Monarchia, just before that office was raided by the police the other day, have been arrested. Their apprehension tends to clear up a mystery connected with the case.

It is learned that the police raid was made because they had discovered the delivery of the bombs but the editor of the newspaper asserts that the women who brought the bombs to the office in his absence were absolutely unknown to him.

He declared that the whole affair was a trap to compromise the faction of royalists represented by the Monarchia, and denied that the party was preparing for any armed conspiracy at this moment, as such an act, he said, "would only delay the suicide of the present regime."

The police have discovered that one of the women who carried the bombs to the office of the Monarchia did so at the request of her husband, a man who was in prison for implication in some past royalist uprisings, and who died last week while still a prisoner. Just before his death, his wife said, he told her to take a handbag which had been for a long time in their house to the newspaper office and give it to one of the editors, Lieutenant Luiz Chaves. She declares that she obeyed her husband's request without any knowledge of the bag's contents.

The police followed her to the newspaper office, found the bombs, closed and sealed the office and made several arrests. Lieutenant Chaves could not be found.

The hundreds of royalists who are loyal to the former King Manuel and who have been in prison for more than two years since the last royalist rising are in despair over this affair, which they believe will postpone indefinitely the amnesty to political prisoners which they have long been promised. For several nights following the raid on the Monarchia, sanguinary conflicts took place

# DETECTIVE RECOVERS TWO HORSES TAKEN HERE

Two horses said to have been stolen in Ranger have been recovered, one in Strawn and the other in Mineral Wells, by Police Detective Hugh Barr.

A Shetland pony belonging to Mr. Flaherty of the Sun company was ridden away several days ago. It was found in Strawn.

A horse was hired Sunday from Ross Brothers by a man who said he wanted to ride to Tiffin and back. Yesterday the police had a message from Mineral Wells that a man there had traded off a horse under such conditions that it looked suspicious. Barr advised that the man be held. Late yesterday afternoon he located the owner of the horse as being Ross brothers.

The man arrested gave his name as John Wallace and a warrant has been issued for him. He will be returned to Ranger today.

# PARK NEAR SAN SABA TO ATTRACT MANY TOURISTS

SAN SABA, Feb. 15.—Rissen Park, midway of Spring creek and the river, is being greatly improved in readiness for the large town and tourist crowds. In addition to putting out grass exhibits of pecans and other native nuts and products the park is being made presentable and adaptable for the large automobile campaign parties steadily increasing here.
