LEGISLATIVE FIGHT ON ANTI-JAP LAW

MAN CHARGED WITH CASING THEFT SKIPS FOUR BONDS

Bonds Declared Forfeited But Believed Invalid Because Under Wrong Charge.

Special to the Times. EASTLAND, Jan. 12.—Four bonds of \$2,000 each against Sam Figenholtz were forfeited yesterday in the Eighty-eighth district court, presided over by Judge E. A. Hill. It is thought that the bonds are invalid, because they recite that Figenholtz was charged in each case with theft of property of over \$50, while the charges against him are for receiving and concealing large quantities of oil well casing. Thus it is said that he is bound for crimes under which he is not indicted, which may invalidate the bonds.

The bonds were approved by a former sheriff and signed by W. J. Mays, Charlie Mays, and T. M. Mirrick. These cases have been pending for months and officers have been searching diligently for Figenholtz but thus far have not located him.

MANY KILLED IN BOLSHEVIKI RIOTS IN INDIA

International News Service. ALLAHABAD, India, Jan. 12.—Rioting in the provinces of Agwa and Oudh is spreading and many persons have been killed. Six hundred arrests have been made in the district of Rae Bareilly. A trainload of armed police has been rushed to the scene and two companies of troops tried to storm the jail at Rae Bareilly. The troops fired, killing three and wounding seven. The police fired upon a mob, killing four. An urgent call has been sent out by the sultan of Tur for British troops to suppress disorder. The disturbances began when the big landowners tried to break up the Soviets, which have been established in numerous villages. The Soviet movement is spreading and is said to have more than 100,000 adherents.

AUTOMOBILE DRIVER CHARGED WITH MURDER OF FORT WORTH YOUTH

Special Leased Wire. FORT WORTH, Jan. 12.—As the result of the death here Monday afternoon of Roy Young, a school boy, a charge of murder has been filed against N. S. Morgan, automobile mechanic, who it is said caused the boy's death by running him down with an automobile. Morgan was arrested by Harry Hamilton, county detective, and placed under a \$3,000 bond, which was made.

The boy was crossing the road in front of Van Zandt school when hit by the car. Two teachers, who saw the accident, claim that the driver was on the wrong side of the road and traveling at a high rate of speed. Morgan picked the boy up, and with the help of the teachers, carried him to the hospital, where he died shortly afterwards.

FINANCING BILL FOR NITRATE PLANT PASSED BY SENATE

International News Service. WASHINGTON, Jan. 12.—The senate this afternoon passed the Wadsworth amendment to the nitrate bill providing for the financing of the operation of the nitrating plant at Muscle Shoals, Ala. The vote was 34 to 32. The amendment provides for the issuance of 125,000 shares of common stock at 100 per cent. The nitrate corporation also is directed to issue 7 per cent bonds to an amount equal to one-half the cost of the construction of the plant.

FUEL EXPENSES AT STATE UNIVERSITY

AUSTIN, Jan. 12.—According to figures from the auditor's office at the University of Texas, the fuel expenses for the main University for the past year were \$21,701.53, and the light bill amount to \$6,194.77. These figures show an average monthly expenditure of \$1,813.48 for fuel and \$511.45 for lighting.

IRISH LORD MAYOR WHO CAME TO U. S. AS STOWAWAY FIGHTS DEPORTATION

Daniel O'Callaghan and Peter MacSwiney.

Daniel O'Callaghan, lord mayor of Cork, and Peter MacSwiney, photographed at Newport News, Va., upon their arrival as stowaways. Officials at Washington state that unless the lord mayor is able to establish that he is a political refugee he is in imminent danger of being deported by the state department.

RANGER MAN WHO GOVERNMENT OF TOOK BIG CHECK FRENCH PREMIER GETS TWO YEARS IS OVERTURNED

International News Service. FORT WORTH, Jan. 12.—Arthur F. Hines of Ranger, who entered a plea of guilty in December before the federal court here under charge of extracting a \$10,740 check from the Ranger post-office, was sentenced to two years in the penitentiary today by Federal Judge Wilson.

The check was being sent by an oil company to a teaming contractor at Ranger when Hines secured the combination to his postoffice box and removed it. With two other men he was arrested in Fort Worth while trying to secure funds on the check, which had been deposited at a local bank. The other men are being held, pending trial.

BUYER'S TESTIMONY MUST BE OBTAINED TO CONVICT BOOTLEGGER

International News Service. AUSTIN, Jan. 12.—Corroborating testimony of the purchaser is necessary before conviction can be obtained of a person charged with selling liquor in violation of the Dean prohibition law, said a decision of the criminal court of appeals this afternoon in reversing and remanding the case of Eugene Franklin from Kaufman county, who had been sentenced to two years in the penitentiary.

PANHANDLE CATTLE WILL SUFFER IF FREEZE COMES

International News Service. FORT WORTH, Jan. 12.—Despite blizzard weather throughout the Panhandle ranch district, little suffering and loss has been reported by stockmen. Danger undoes a freeze as cattle will therefore be protected from reaching range vegetation. Snow and sleet today extended from North Texas as far south as Fort Worth.

AUSTIN HAS RECORD TEMPERATURE FOR JAN.

AUSTIN, Jan. 12.—Temperature records for January have been broken here this year, according to Fred Morris, mechanic in the college of engineering, who is in charge of the University of Texas weather observatory. Recently the thermometer registered 80 degrees Fahrenheit, which is the highest January temperature recorded at this bureau. Started in 1904, the University weather observatory is conducted on a co-operative basis with the weather bureau at Washington. However, all instruments and apparatus are owned by the university. Reports are made daily to the government weather bureau.

THREE MEN BREAK OUT OF TWO FORT WORTH JAILS

International News Service. FORT WORTH, Jan. 12.—Three prisoners are missing from jail here today. Two men escaped from the county jail and one from the city jail during the night.

WILSON'S PLANS NOT CHANGED BY 'SIMPLIFICATION'

By Associated Press. WASHINGTON, Jan. 12.—The changes in the plans for the inauguration of President-elect Warren Harding will not interfere with the intention of President Wilson to accompany Harding to the capital, where the latter will take the oath of office, it was learned today. Thus Wilson on March 4 will make his first appearance at the capital in more than a year and a half. It will also be his last appearance as president of the United States. The plan of Wilson for the inauguration are not expected to be affected by the changes made in the inaugural ceremonies at the request of President-elect Harding. After Harding takes the oath of office, he and Mrs. Harding, in accordance with custom, will be expected to entertain Mr. and Mrs. Wilson at luncheon.

Livestock Body in Session Will Attack Problems

EL PASO, Jan. 12.—Better market prices for livestock, especially beef; how to restock thousands of acres of land on the depleted ranges of Mexico and in the western and southwestern parts of the United States, and how to obtain credit to finance the cattle industry, will be some of the big problems which members of the American National Livestock association hope to solve, partly at least, at their annual convention which convened here today for sessions to last through Jan. 14. Officers arrived ahead of the sessions to complete the drafting of resolutions, attend to details of the program and arrange for the entertainment of the expected 1,200 or 1,500 guests. The officers of the association are: J. B. Kendrick, United States senator from Wyoming, president; C. M. O'Donel of Bell Ranch, N. M.; M. K. Parsons of Salt Lake City, Utah; Isaac Baer, Meeker, Colo.; E. L. Burke, Omaha, Neb.; Luke C. Britz, Marfa, Texas; William Pollman, Baker, Ore.; vice presidents, and T. W. Tomlinson of Denver, secretary, and J. W. Springer of Denver, treasurer.

Some of the officers of the organization, in discussing the restocking of the Mexican pasture lands, declare that it would be years before sufficient cattle could be had to do it with. There hardly are enough cattle, they say, to restock home grazing lands. During the decade of revolutions in Mexico, the cattlemen say, many Mexican ranches were devastated, cattle driven away by the hundreds and slaughtered ruthlessly, the big portion of the meat and all the hides being lost. Many places were left desolate. Over hundreds of square miles of pasture lands in Mexico never were stocked, the cattle raisers point out. Much of the land so neglected is along the Rio Grande river, where the water is available, the climate ideal and where ranches would not be far removed from markets. With that a double problem is raised—restocking devastated districts and putting cattle on heretofore unutilized ranges.

EXTRA COAT CAUSED AIRPLANE ACCIDENT

International News Service. Tiptonville, Tenn., Jan. 12.—Search for the bodies of Captain George H. Mitchell of Toronto, Canada, pilot, and Carl Fisher, Dayton, Ohio, mechanic, who were drowned when their hydroplane fell into the Mississippi river near here late Sunday, were redoubled today following the finding of the airplane in the river's bottom near here. It was in eighteen feet of water. Fragments of the pilot's coat, badly torn, and other evidences led seachers to believe the accident was due to the pilot's extra overcoat carried in the seat, becoming entangled with the propeller.

BRITISH DEBTS TO U. S. PUT UP TO HARDING

WASHINGTON, Jan. 12.—The Harding cabinet may confront the British debts to the United States as one of its first problems. A sudden turn in plans today, forecasted unexpected delays in the meeting between English and American financial representatives, virtually will leave the major part of adjusting the big \$5,000,000,000 debt to the United States up to President-elect Harding.

WESTERN UNION TO OPEN TELEGRAPHY SCHOOL AT SWEETWATER SOON

SWEETWATER, Jan. 12.—The Western Union Telegraph company, which has taken a long lease on the upper floor of the Ragland building on the north side of the square, will shortly move into it with its big relay department. The company is now working more than thirty telegraphers here. More than seventy-five wires are "broken" here and relayed. Two new transcontinental telegraph wires will shortly be routed through here, with relay station here. These wires will run from New York to San Francisco and Sweetwater will be the only place in this entire section that one can "listen in" on them, according to local officials. The Western Union Telegraph company will also install a free school of telegraphy here. Some of the students will receive a salary while learning the mysteries of the dots and dashes.

BRICKMAKING EXPERT TESTS RANGER SHALE

A man in Ranger, who is an expert brickmaker, has found a bed of shale near the city, with which he is now conducting experiments in brickmaking. If the quantity is ample and conforms up to his expectations, he will make an effort to have the bed exploited either through individual efforts or through the Chamber of Commerce. The man who is conducting the experiments operated a brick plant for years in a northern state and thoroughly understands the technique of brick making.

NECESSITY ROAD WILL BE PUT IN SHAPE

Bridge to Be Rebuilt and Road Graded by County, Webb Promises.

The bridge about two and one-half miles northwest of Ranger on the Necessity road, will be rebuilt immediately, according to assurances given by County Commissioner Ernest Webb when C. C. Hammons of the Chamber of Commerce and L. L. Rector called on him at Eastland Tuesday afternoon. This bridge has been missing for nearly a year, since a heavy truck broke it in the middle and a freshet carried it away. This forced a bad detour at this point.

Mr. Webb promised that he would have the necessary materials on the ground within the next few days, but thought the Chamber of Commerce should pay for the labor, which will be only a small portion of the cost. He took this position, he said, because he had no bridge builders and for the county to do all the work it would be necessary to advertise for bids, which would mean considerable delay. Rector says he has an expert bridge builder down at his boiler works, and it is expected that this bid spot will be straightened out as soon as the weather moderates.

Not only will the bridge be replaced, but Mr. Webb also will have the county's large grader, which is now working over the Gulf Production company's supply depot near Tiffin, moved to the Necessity road and will keep it there until the road is in good shape from Ranger to the county line.

HOBBY WANTS STATE AID FOR HOME OWNERS

By Associated Press. AUSTIN, Jan. 12.—In one of a series of messages to the state legislature today, Governor Hobby dealt with the state's financial condition and recommended the "speedy enactment of a joint resolution amending the constitution so as to permit the state to lend its credit for the purpose of aiding the homeless to acquire homes, and the landless to acquire lands."

FORT WORTH GAS BILLS WILL BE ARBITRATED

International News Service. FORT WORTH, Jan. 12.—An arbitration committee will decide whether bills here for December were too high, it was announced today, following a conference between city commissioners and officials of the gas company. Hundreds of complaints have been received that the bills were double and triple those of the previous month.

WOMEN ARE INVADING SMART SERVICE CLUBS

International News Service. LONDON, Jan. 12.—Women are invading the smartest and many of the oldest service clubs in London. The Cavalry, the Justice, United Services and the Grenadier clubs permit lady guests, and now the visits of lady friends of the members are under discussion at the United Services club and the Army and Navy. At the United Services club an official said that the committee was considering the admission of ladies dining room with drawing and cloak rooms. "So many members live out of town," said the official, "and when they come to town they meet their friends, the friends have to send their wives out and so many members live out of town." The latest institution, and its success has already been proved.

MOTOR TRUCK RUNS OVER MAN CRUSHES LEG

T. & P. Crossing Has First Accident When Drummer Is Run Down.

The Texas & Pacific Main street crossing claimed its first victim last night when H. J. Oppenheimer was run down in the darkness by an automobile truck and suffered a crushed leg. The injured man does not know from which direction the truck was coming nor where it went. Its speed never slackened after he was hit, he said. The accident happened at 7 o'clock. Oppenheimer was coming toward Main street and was about half way between the main line of the railroad and Railroad avenue when struck by the truck, which passed over his left leg. The crossing is not lighted and the injured man does not know whether the machine that hit him had lights or not. Lay by Roadside.

Another car soon afterward struck the grip Oppenheimer was carrying and on investigating, the driver found the injured man lying by the roadside, and went for the Milford ambulance. He was carried to the offices of Drs. Weir & Swan and later taken to the Ranger hospital. The injured man is a traveling salesman and his home is in St. Louis. His people have been notified.

ALL NATIONS WOULD DISARM, BLISS THINKS

WASHINGTON, Jan. 12.—Should the United States call upon the nations of the world for a "full, free and fair discussion regarding the reduction of armaments, a favorable response would be prompt and inevitable," the House committee was told today by General Tasker H. Bliss, a former American representative at the supreme war council at Paris. Nations that would come to such a conference and refuse to agree to any proposition looking toward disarmament, or at least to reduction of their military establishments," said Bliss, "could be written down as next to Germany, and the United States could make its plans accordingly. Secretary Daniels submitted tables to show that while the present effective fighting strength of the British navy included 338 ships of 1,588,442 tons, compared to 330 ships of 770,432 tons for America, the completion of the authorized building program in this country in 1925 will give a tonnage superiority of a ratio of 1.35 to 1 with approximately an equal number of ships.

RATS AND RABBITS DESTROYING CROPS IN HAMILTON COUNTY

International News Service. FORT WORTH, Jan. 12.—A plague of rats and rabbits is threatening destruction of the wheat crops in Hamilton county, according to an appeal received today by the Texas Grain Dealers' association from Hamilton mill operators. They ask aid in combating the menace.

WASHINGTON, Jan. 12.—Attorney General Palmer today ordered that an appeal be taken to the United States circuit court of appeals for the Eighth district from the decision of Federal Judge Van Valkenburgh of Kansas City, restraining enforcement by criminal proceedings under the Lever act of the order of the secretary of agriculture against increased commission rates for selling and handling livestock at Kansas City.

FARM MACHINERY MAKERS QUIT WHEN WAGES ARE REDUCED

International News Service. PEORIA, Ill., Jan. 12.—Several hundred workmen who found notice of a 20 per cent reduction in wages posted at the Holt Manufacturing company, manufacturers of farm implements, when they arrived at the plant today, refused to accept the reduction and returned to their homes. Holt employees, according to company officials, have been averaging from 75 cents to \$1.25 per hour. Business depressions is given as the reason for the wage reduction.

After the Thaw—Plant Trees

The Times' supply of 500 trees, received several days ago, has now dwindled to eighty poplars, said by local men with a knowledge of trees to be the best to plant in this section. Directly after the freeze and rain that is now prevailing would be an ideal time to plant trees, it is said by experts. The ground will be mellow and full of moisture, which will give the trees the start they need to grow rapidly. The trees in the Times' warehouse are fully protected from the danger of freezing, and will be in good condition when the thaw comes. It would be advisable for those who care to be certain of getting a supply to take their allotment now. They are being offered at a price that cannot be duplicated. The Times is acting only as a means through which the demand can be met and is not taking any profit for itself.

RAIN PROMISES ENOUGH WATER FOR DRILLING

Believed Few More Days Will Enable Breck Operations to Resume.

Rain, for which oil operators and companies in the region of Breckenridge have been praying for the past several weeks, is here. Should it continue for a few days more, local operators who have heldings in that region are of the opinion that the situation at Breckenridge, due to the water shortage, will be relieved to a large extent.

Only recently, and meaning the throwing out of employment of something like 1,000 to 1,500 men, directly and indirectly, the water shortage became so severe in that district that nearly every string of tools in the Breckenridge district, save those of the big companies who had water of their own stored away, were forced to close down. On one day over 127 strings of tools, drilling in the towns of that city, were forced to shut down, and all tool companies were warned to rush to completion what work they had on hand, as water would not be guaranteed them for even ten days.

Rush Water Main.

Steps are already in progress toward the building of a six-inch water main from Crystal Falls, some thirteen miles north of Breckenridge, for transporting water to the scene of operations. The money has been partially raised by citizens of the community and oil corporations operating in that vicinity. Many men are already working on the line from Crystal Falls and it is expected that the line will have been completed within the near future.

Previous to the rain, however, in addition to the water main from Crystal Falls into Breckenridge, arrangements were rapidly materializing into the connection of many oil wells in the field with necessary current for operation from the Leon river, six miles south of Ranger. It is also understood that this arrangement in many cases will be carried to completion, despite the advent of rain.

With the coming of rain, the men who have been temporary out of work, will shortly be back on the job, as the various companies begin to feel the effects of it. It is understood.

"Let it rain a few days and the crisis is over," operators declare, "for within a short while we should have completed water connections from elsewhere."

Church Plans to Form Co-operative World Agencies

BOSTON, Jan. 12.—Organizations of the Unitarian church cooperating for the first time will assemble here today in the first regular meeting of the Central Council of Unitarian Agencies.

The council is termed a "sort of league of nations of the Unitarian church," by Dr. Curtis W. Reese of Chicago, clerk of the council. He characterized it here as the "biggest forward step in cooperation ever taken by the Unitarian church in the United States."

Fourteen Unitarian agencies make up the new council. Heretofore each has worked entirely independently of the others, Dr. Reese said. In the future they will cooperate in all matters in which they have interests involved, but each agency will maintain independence as regards its own affairs as before.

Purpose of the council are thus set forth by Dr. Reese:

"To provide a point of contact between our various denominational societies and agencies, through their recognized representatives, in order to facilitate understanding and sympathy among them.

"To study such programs of co-operative tasks as may be submitted, recommending measures and methods by which such tasks can be effectively done, and providing an opportunity as occasions arise when the several co-operating organizations may discuss their various functions and help one another in defining their separate spheres.

Serve as Clearing House.
"To serve as a clearing house of information about the things that are being done by its constituent bodies through which information may be conveyed to each and to the public.

"To function in other forms of co-operative work for which there may be now no adequate provision."

The Unitarian central council consists of some 25 members, being made up of the following:

President and secretary of the American Unitarian association, president and secretary of the Alliance Unitarian Women, president and secretary of the Laymen's League, president and secretary of the Young People's Religious Union, president and editor of the Christian Register, secretary of the council, chairman and the chairman of the council, chairman of the Unitarian Campaign committee, secretary of the Western Unitarian conference. Heads of the following departments of the American Unitarian association: Finance, publication, church extension, and religious education, president of the Meadville Theological school, president of the Pacific Unitarian school, for the Ministry, secretary of the Service Pension Society, and secretary of the Society for Ministerial Relief.

MORTUARY

MRS. WILSE DYE.
Mrs. Wilse Dye, 69 years old, died Monday night at her home on Tiffin street, Mrs. O. P. Collins of Tiffin, after an illness lasting 48 days. In the direction of the funeral the company she was buried at the place of interment in the Evergreen cemetery. Rev. W. H. Johnson conducted the services.

Hunting Bargains in Ranger

Bargains discovered in trips through Ranger shops and department stores are here presented briefly for the benefit of Times readers.

One of the clever new spring dresses at Humes' is a combination of black pique twill and heavy black satin. The lower part of the blouse and upper part of skirt are of the satin. Joined to the twill with a pattern of black silk braid. The satin collar and cuffs are edged with a green ribbon. There is a big reduction at this store on all furs, chokers, scarfs and capes, all guaranteed. Woolen hose, in different colors and patterns, regularly priced at \$2.75, are now being sold here for \$1.98 a pair.

The Vogue Millinery shop has just received a shipment of smart new saleros in nylon, lycree and hemp braids, in all the new shapes. There are rolled and straight brims, and crowns of fancy shades. These are very reasonably priced at from \$5.00 up. The Vogue also carries Venita hair nets, and fringe shapes, at 15c each.

Felt slippers, very comfortable these cold mornings, regularly priced at \$2.50 to \$3.50, are on sale at the Guarantee Shoe company at the special prices of \$1.75 and \$1.85.

COLUMBUS SECRETARY WILL BE HERE THURSDAY

C. S. Thomas, secretary of the Columbus baseball club, will let no grass grow under his feet in coming to Ranger. He will be here Thursday on the 1:26 or the Sunshine, according to a telegram received last night by the Chamber of Commerce. Thomas will be in Ranger several days looking over the situation here as to park facilities, hotel arrangements for his hired hands and such like matters that tend to produce efficiency in the athlete. He will spend a day or two at the big baseball meeting in Chicago and should be in a position to dispense some dose as to the latest developments in the various snaffles which go to feed the hot stove league.

COURAGE, SUITORS! SWEET STUFF HITS PRICE TOBoggAN

The high price of wooing is on the decline. Today a box of chocolates can be bought for "Sweetie" at 10 per cent less than it could yesterday, and the price is considerably below that of a year ago.

After an investigation, it can't be ascertained whether the lower price is caused by the decline in sugar or the price of highly-colored paper of which the boxes are made. Both factors may have helped. At any rate, when the hour of nine approaches the gay young swain's old bankroll does not receive such a jolt as it passes by the "corner drug store" on his way to see "Love's Young Dream."

BIBLE QUOTED AS INDORSING HIGHWAY WORK

General Invitation Extended to Attend Thursday Night's Meeting.

Go through. Go through the gates. Prepare ye a way for the people, and his name shall be known. O city on the hill, as the city sought out—the city not forsaken, Chapter xlii, Isaiah, the City Builder.

With this text, the Chamber of Commerce and Retail Merchants' association is today sending to their members a letter urging attendance at the Good Roads meeting called by the Retail Merchants' association for Thursday night at 8 o'clock at the Lone Star hall on Austin street. The letter is signed by J. E. T. Peters, manager of the Chamber of Commerce, M. O. Burt, secretary of the Retail Merchants, and H. S. Cole, president of the Rotary club.

It follows: "City Builder: Just now the alarmist is wagging a wicked tongue in spite of the fact that people must still buy groceries and clothes and other necessities.

"No great calamity has overtaken us. We are today the most powerful nation in the world and the master of our destiny.

"Our own city of Ranger occupies a strategic position in the oil fields and we have the type of manhood who possess within their own souls that high spirit which builds cities.

"Rome ruled the world because of her highways. On next Thursday night, Jan. 13, you are earnestly requested to be present at a meeting in the Lone Star on Austin street at 8 p. m. Practical plans that will build roads will be adopted.

"With proper roads the future of our city is boundless, everything else will come—population, prosperity and permanence.

"WE NEED YOU THERE. Every organization in the city will be represented."

EL PASO MERCHANT VISITS SON IN RANGER; CONGRATULATES US

S. J. Schwartz, of the Popular Dry Goods Store of El Paso, visited his son, Irving Schwartz, of the Popular Store of Ranger, this week. It was his first visit since the oil boom days and he was very much impressed over Ranger.

Mr. Schwartz was impressed by the fact that all merchants seemed to be doing good business and all seemed to be prosperous. This, he said, was more than he could say for other cities he had visited. Mr. Schwartz left here for the east to investigate the clothing market conditions.

SOCIETY

Has someone visited you, or have you entertained? We shall be very glad to receive such items for publication.

CARD PARTY AT ST. RITA'S RECTORY.

A benefit card party will be given this evening at the rectory of the St. Rita's Catholic church. The hostesses will be Mrs. J. C. Miller, Mrs. W. E. McNaillan, Mrs. L. E. Parr and Mrs. G. W. Jennings. Everyone is invited.

This is one of a series of such parties planned by the ladies of the church for each two weeks during the winter months.

POLICEMEN FIND BUSINESS VERY DULL

Ranger policemen are finding business dull. One charge of drunkenness and one for vagrancy was yesterday's total. For days arrests have been few. Neither has there been thefts or burglaries reported. Car stealing, which had almost reached an epidemic before the holidays, has almost ceased. Only one car has been reported stolen in two weeks.

Officers are wondering if the quiet does not presage a crime wave. It is said that for a city of this size, that crime is far below normal at this time.

PERSONALS

John Townsley, formerly of the Boston Store, now located in Sulphur, Oklahoma, spent yesterday in Ranger.

A. Joseph has returned from a short business trip to Fort Worth.

Every soldier attached to the American forces in Germany is a member of the American Red Cross.

BORROW MONEY TO PAY TAXES, IF NECESSARY

It would be cheaper for those who have not the ready cash with which to pay their taxes to borrow the amount needed, according to Fred Dreinhof, tax collector. This is true, he says, because on Feb. 1, a penalty of 10 per cent will be added to all unpaid amounts, and would equal the amount of interest that would have to be paid on borrowed money. From Feb. 1 interest at the rate of 10 per cent is charged on all taxes unpaid at that date.

The warning is being sounded because taxes are not being paid at the rate they should be this, the tax-paying month. Considerable less than half the amount due has come into the city treasury.

However, from now until Jan. 21, it is expected that each day will register an increase over that of the day before, and a majority of the amount due will be paid before the date on which penalty is added.

TRACTOR CONCERN COMPLETES PLANT AT SWEETWATER

SWEETWATER, Jan. 12.—At a cost of several thousand dollars the Armstrong Tractor company, a new manufacturing concern here, has completed its large tractor and motor plant building here. It has dimensions 74x150 feet and was built of truseon steel and "acres" of glass. The machinery for the plant has been shipped and is expected to arrive shortly. It is located along an industrial track on the Santa Fe railroad.

The company will shortly begin the manufacture of a heavy truck and improved type of farm tractor.

Final figures on army casualties of American soldiers in the world war list 34,240 killed and 224,083 wounded.

CHRIST II. WENT DOWN TO RANGER, FELL AMONG COPS

Even as the Bible teaches us that Jesus had a hard time on earth, his appointed understudy, who has been in Ranger, is finding it a hard, cruel world, peopled with rough policemen who tell a gentle pastor in words not very gentle to "beat it."

That is the thing that happened to the gentleman when he came to Ranger, here, loaded, with flowing flaxen mane and a Jacob's staff. Chief of Police Cooper told him to "beat it" and Patrolman John Moore took pleasure in seeing that the order was obeyed.

In sending him away the police followed the old adage which says, "Do unto others as others do unto you." The department at Fort Worth had wished Christ's understudy off on Ranger, or at least they told him to beat it and started him this way. Not to be outdone in generosity, the local department, contrary to the wishes of the traveler, placed him on an eastbound train and started him back toward the place from whence he came.

The two little girls, dressed in boy's

clothing, who trudged around with him so uncomplainingly, were placed on the same train. A hard-hearted policeman remarked this morning that he would "bet a dog" but that wherever he was today he was wearing shoes.

PROPERTY VALUATION AT SWEETWATER SHOWS HALF MILLION GAP

SWEETWATER, Jan. 12.—Property valuation in Sweetwater expanded half a million dollars from 1919 to 1920, according to figures given out here today.

The valuation of the county for assessment increased more than a million dollars. In round numbers the assessed valuation of city property is \$4,000,000 and for the county, \$9,000,000. It has been estimated that these figures represent only about 25 per cent of the intrinsic value. Many citizens are favoring high valuation and lessening of tax rates.

WILL VISIT JAPAN.

International News Service. TOKIO, Jan. 12.—It was announced in Tokio recently that General Bramwell Booth, head of the Salvation Army, will visit Tokio next spring.

What is MOTHER'S FRIEND

Simply and tersely stated, MOTHER'S FRIEND is just exactly what the name implies—a friend and help to mothers.

It has been made and sold for more than half a century. If it did not possess the value claimed for it, MOTHER'S FRIEND could not possibly have remained on the market. For only that which is really worth while and beneficial can survive.

The mothers who appreciate MOTHER'S FRIEND the most, and who are loudest in their praise of it, are those who unfortunately did not use it with their first baby, and who, through its use with the second one, were able to fully realize the relief it gave them.

DIDN'T EVEN NEED THE DOCTOR
"Dear Sir: I am willing and anxious to tell my mother about MOTHER'S FRIEND. It did me so much good that I wouldn't be without it if it cost \$5.00 a bottle. With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I only had a nurse; we had no time to get a doctor because I wasn't very sick and only sick about ten or fifteen minutes.
"Any mother can write me and I will only be too glad to give her advice. Yours truly,"
MRS. C. J. HARTMAN,
112 Palm St., Scranton, Pa.

SICK ONLY THREE HOURS, "MOTHER'S FRIEND" USED, COMPARED WITH FOUR DAYS SUFFERING WITHOUT IT
"Before using Mother's Friend I suffered from Wednesday till Sunday. With my next child I used Mother's Friend and was sick only about three hours."
MRS. OLIVE VANDEN,
10 Grape St., Gallipolis, O.

— Health and Happiness for Women —
Every woman seeks happiness as the thing to be most desired. Fortunately, the right to happiness is denied to no woman, regardless of her sphere in life. The first and foremost essential is good health. For, without good health, strive after happiness as she may, it is beyond her reach. If she will accept the advice of thousands of women, who have been benefited, she will take Dr. J. Bradfield's Female Regulator—a tonic for women and for troubles peculiar to their sex, which has been sold by drug stores for more than 60 years. Dr. J. Bradfield's Female Regulator is put up in \$1.00 bottles.

BY BILLY DE BECK.

PROGRAM

MAJESTIC—Hawaiian Butterfly Musical Comedy, also Picture, Clara Kimball Young in "The Feast of Life"...

MAJESTIC

Aurora Fernandez, a poor Cuban girl, is persuaded against her will to become betrothed to Don Armada, a wealthy Cuban...

Celida, dying of a broken heart, confesses to Pedro and Father Venture, and Pedro, to avenge Celida, summons all the fishermen in the village and leads them against Armada...

Notwithstanding her pleadings not to kill her husband, he is about to strike when he sees that Don Armada is blind. This awakens his pity and he leaves the house.

Don Armada has an operation performed on his eyes which proves successful but the physicians warn him that any shock may result in blindness for life. Aurora, in the meantime, has been carrying on clandestine meetings with Pedro, and Armada, hoping to find out who Aurora's lover is, tells her that the operation has been a failure...

LAMB

The Lamb theater announces as the feature attraction, beginning today, "The Dwelling Place of Light," a Benjamin B. Hampton production...

"The Dwelling Place of Light" is said to tell a fascinating story of life as it is lived today, dealing, among other things, with a theme of universal appeal: the personal freedom of women...

It is the fight of Sex against Ambition. Once, set apart from man and kept in her place in a greater or a lesser degree, this problem confronted only a comparatively small portion of womankind...

EFFICIENCY AND SYSTEM SAVED LIFE OF CHICAGO CHURCH, PASTOR SAYS

CHICAGO, Jan. 12.—Business methods will boom the ordinary church and mean the saving of its life in the opinion of officials of the Campbell Park Presbyterian church of Chicago...

JOHN H. BERNs of Cincinnati, Ohio, who says his wonderful restoration to health since taking Tanlac has astonished all his friends, has gained twenty pounds...

"I don't know what it is, but there is something about Tanlac that certainly does the work," he said, "and I finally believe if it hadn't been for this medicine I wouldn't be here now..."

Barney Can't Figure This Out—

British Press Scores Race in Ship Building

Says to Join Japan Against U. S. Would Be to Sound Knell of Empire.

LONDON, Jan. 12.—Any attempt by Great Britain to build a big navy in competition with the United States would be "absolutely disastrous," say some of the leading weekly periodicals of London...

The Spectator condemns the post-war resurgence of "navalism" under the caption, "The Naval Skin Game." "Against whom should we be building?" it asks...

"Any suggestion of a 'two-keels to one' naval policy as directed against the United States the Spectator dismisses as ludicrous, and it underscores the phrase: 'We must not form our policy on the possibility of a war with America.'"

"If ever we joined with Japan against America, we should have sounded the knell of the British empire," the paper concludes.

The Nation, which brands big navalism as sheer lunacy, also strongly opposes naval competition with the United States, which it says will have a navy superior to the British in 1924...

West Texas Wool Growers Will Have Cooperative Body

Plans Include Building of Bonded Warehouse at Galveston; Federal Feature.

W. HAMILTON WRIGHT, Staff Correspondent. SWEETWATER, Jan. 12.—Organization of wool and mohair growers of the state into a co-operative association under the wings of the federal co-operative bureau and building of a bonded warehouse at Galveston are some of the important steps which are now being taken...

The plans comprehend the concentration of wool and mohair at Galveston, selling and shipping to Boston by water, effecting a saving in freight alone of a sufficient amount to take care of the storage charges at Galveston pending sale.

Following the Dallas meeting the state will be divided into districts for careful canvassing. Later the board of directors chosen at the Dallas meeting will convene and select an executive board composed exclusively of bona fide growers.

Until the association is enabled to build its own large bonded warehouse a warehouse on the water-front at Galveston will be leased from the Sealey interests. Wool may be unloaded from cars on one side and loaded into ships on the other.

THE WOMAN WHO SAW

The Domestic Touch.

Margaret is one of those lovable domestic women whose hands are always busy with some soft fabric into which she weaves exquisite little stitches, or wool that she fashions into some comfy garment. She is never idle. The Woman has known her since she was a pink and white little girl with golden curls and immaculate hair ribbons, and it is a welcome day that finds the Woman in the home that shelters Margaret, the bride, and her young architect husband.

"Thereby hangs a tale," she said. "Tell," commanded the Woman. "You know I met Dick last June in the Berkshire and that six weeks later I was married to him?" She held up the silk stocking appreciatively and continued: "I went to the mountains for rest . . . and to forget some one else. So, you see, I wasn't interested in men. But I liked Dick. And we talked a lot, and trapped, and played tennis. Sometimes he read aloud, while I sewed."

"I see," murmured the Woman, "and then?" "One day I was mending stockings. I don't know what happened, it was all over so quickly. But we were engaged . . . and afterward, when I looked for the stocking I had been mending I simply couldn't find it anywhere. Dick hunted too but it had absolutely vanished."

Margaret stopped for a minute, smiling to herself, and the Woman knew that she was several miles away. "Today I cleaned the closets and aired Dick's summer suits, and put mothballs in them and in the pocket of his old sweater I found this stocking! Here is the needle still sticking in it."

And the Woman, going down town in the subway in the late afternoon checked to herself. "You can't beat the domestic touch! It fetches 'em."

Every Night Is Mother's Night.

Passing along Grand street, the Woman was attracted by the sign outside of a moving picture house which read: "The Quest of Happiness." Underneath was the picture of a sweet young thing, wrapped in the arms of a suave man. Now, the Woman has never seen the "movies" in Grand street, and noticing that there were several baby carriages of various descriptions arrayed in front of the house on the sidewalk, and that people were crowding in, she determined to have a long inside. "It must be mother's night," she thought, as she found her way to a seat through the darkness.

But there was nothing to indicate anything unusual, either in the pictures or the audience. It was the same old theme, "Right forever on the scaffold, wrong forever on the throne," and the audience laughed and hissed as the villain won or lost. She was on the point of leaving, disappointed, when someone appeared in the aisle beside her and called out: "The baby in the white buggy is crying."

"It must be mother's night," the Woman mumbled, still puzzled at the choice of pictures. But the small boy next to her, hearing her remark, explained politely. "Now, it ain't. They allus call out if the babies cry."

Convinced. Enid was at the "why" age. Mother was weary of answering all her questions, but still she endeavored to explain that it was the world went around the sun when Enid asked why the sun went around. Mother went upstairs feeling that she hadn't succeeded very well.

That evening Enid insisted upon walking round and round the table despite Mother's protestations. She was a little unsteady when she finally stopped and then, to her astonishment, she couldn't stand up straight!

"Oh, Mother," she cried, "if you walk around the table a few times, then you know the world goes round."

Slumpitis

"Tinker Bob" Stories by Carlyle H. Holcomb

JERRY HEARS THE STORY. Tinker Bob was very glad to see Jerry, the Jay bird, because Jerry had been so near to him in the Great Forest.

"What are you stopping here for?" Tinker asked Jerry. "Thief, thief," cried Jerry. "I like oranges as well as any one."

"Where is the man that owns these oranges?" "Thief, thief, I don't know anything about him. I like oranges."

"We have made a trip to the land of Cotton Mice where we had a wonderful time, and they gave us presents and wanted us to stop on our way back. I think we shall do that, too," said Tinker Bob.

"Thief, thief, I heard all about it. I guess I knew all about it before you went to the Cotton land. I knew that Lady Duck captured some of these fellows when she was down here several years ago. You see, it is hard to keep anything from me for I have a lot of friends in the land of the orange groves and the Cotton."

"When Lady Duck heard this she was almost ready to faint, for she didn't think anyone in the world knew anything about her action so long past. But that is the way it goes, she thought, one can't ever do anything without Jerry, the Jay bird, knowing something about it."

"Quack, quack," said Lady Duck, "who ever told you anything about what happened so long ago, I never told anyone about it."

"Thief, thief," cried Jerry, "You know when any of the creatures do wrong it always comes out. I have friends who tell me about such things." Jerry was glad to hold his own against Lady Duck.

"Quack, quack, I know you are all right."

Old Manuscripts Reveal Conquest of 'New Spain'

AUSTIN, Texas, Jan. 12.—Odds are steadily being made to the University of Texas collection of manuscripts and documents on Texas history, generally conceded to be the most comprehensive and valuable collection in existence.

One of the most recent additions is the "History of the Conquest of New Spain," brought from Mexico by Dr. C. W. Hackett of the department of history and presented to the university by Luther Stark, a member of the board of regents.

The largest group in the collection is that known as the Bexar Archives, written in Spanish, and giving an account of the first permanent settlement in Texas in 1730.

STATE TREASURY IS IN EXCELLENT CONDITION NOW

Report Shows Balance of \$13,552,115.90 and Enormous Increase in Taxable Values.

AUSTIN, Jan. 12.—The splendid condition of the Texas treasury on Sept. 1, 1920, is called to the attention of Governor W. P. Hobby by M. L. Wightman, state comptroller, in his annual report to the Texas executive.

The balance to all funds in the treasury was \$13,552,115.90, which was the difference between the total receipts of \$48,302,801.83 and the total disbursements of \$34,750,685.93.

An increase of \$167,052,707 is shown in the taxable values of Texas. The total valuation for 1920 was \$3,367,347,912 as compared with \$3,200,295,205 for 1919.

A decrease of \$3,102,088 is shown in the taxes charged on the rolls for 1920 as compared with 1919, the cause being given as the reduction in tax rates for 1920 from 35c to 22c.

The receipts in the comptroller's department from the Dean prohibition law, from date of its effect, Oct. 24, 1919, to Aug. 21, 1920, were \$13,612.13.

The report continues regarding the statement of the state's finances: "The splendid statement of the state's finances as heretofore shown is largely due to the passage of legislation increasing the state's revenue from sources other than a direct tax and the principal increase of income has been derived from gross receipts tax on oil."

The gross receipts tax of 1 1/2 per cent on oil from Sept. 1, 1919 to Aug. 21, 1920, was \$3,018,432.73. The report shows that from the bill taxing oil production, \$8,809,035.18 was received during Governor Hobby's last term of office.

The comptroller suggested that if the legislature would provide expenses for a man to travel in the oil fields and collect this tax, one-half million dollars might be added to the state's revenue. He said he was informed that many oil companies were not paying the tax and cited a recent two-day visit to one field where he collected \$32,020.72.

Equalization of taxes also was suggested in the report. A probable solution would be creation of a state board of classification, Mr. Wightman said.

U. S. WILL RECOGNIZE NEW GREEK GOVERNMENT

WASHINGTON, Jan. 11.—The United States will soon issue new letters of credence to Greece, the state department announced this afternoon. It will constitute recognition of the new Greek government. This action takes the former attitude, however, that there is no interruption in the Greek government.

PRESBYTERIAN CONGREGATION MEETS SUNDAY AT CHURCH

There will be a congregational meeting at the Presbyterian church Sunday morning. All members are requested to be present.

Mary Watkins and Loretta Miner was standing in front of Mary Watkins' house, and Puds Sinking had a piece of black crayon and I had a good idea, saying, Hay Puds, I tell you lets wait, lets blacken our faces all up like a minstrel show and go up to Mary and Loretta and start to crack minstrel jokes and they'll think we are funny as the dence.

Meeting us, and Loretta Miner sed, Dont they look perfectly awful? Proving they didnt know wat we was supposed to be, and I sed, Ladies and gentlemen allow me to introduce you to the Park Ave. Minstrels, and Puds sed Good morning Mr. Bones, wy does a chicken cross the road?

I dont know, Mr. Tambo, wy does a chicken cross the road? I sed, and Puds sed, Because the road cant cross him.

Being a pritty good of a jock and Mary Watkins sed, Sutch a perfectly terrible jock, wats funny about that? and Loretta Miner sed, Nothing.

Good morning Mr. Tambo, I hear you ate a cupple of rotten eggs for breakfast this morning, I sed and Puds sed, thats 2 bad.

Being a even better of a jock, and Mary Watkins sed, O my, is that supposed to be funny? and Loretta Miner sed, I hope not.

Aw heck, come on, Puds, I sed, and Puds sed, Sure, wats the use staying around heer, nobody heers got any sents of humor.

Meeting Mary and Loretta, and we waked away proud, and at supper time I was sent up stairs 3 times to wash my face on account of the crayon being even harder to get off than wat it was to get on.

"BLUE LAW" HEAD TO PURIFY MOVIES

DES MOINES, Iowa, Jan. 12.—Unrest among the people can be stopped by the development of parks, particularly those owned by the state, Richard Lieber, director of the Indiana Department of Conservation, told the national conference on parks here Tuesday.

PARK DEVELOPMENT WOULD REMEDY UNREST AMONG PEOPLE, SAID

asserting that parks "are social safety valves on the seething and strained boilers of humanity."

"The road back to nature," Mr. Lieber said, "is the safe one and no enterprise can do more for the good of all the people than our glorious parks."

"Thinking of the state parks in all states as places of rest and service quarters for interstate automobile travelers," said Mr. Lieber, "I can visualize many places along the highways that connect our centers of population with the centers of recreation that would be glad and willing to make provisions for the wayfarer."

"Travel has largely given way to the individual manner of the automobile, and hence we must think up a supplementary service to this modern mode of locomotion by supplying the needed intermediary provisions for rest."

"All of us have seen compromises along the highways; automobile tents, trailers, improvised kitchens and laundries. The people that carry on this fashion are by no means gypsies, but generally staid, home and nature loving folk who merely are gratifying the most natural wish of sightseeing. Many of these tourists are bound for the romantic and picturesque west and provisions must be made to take care of this constantly increasing stream by providing adequate stop-overs, not camps or hotels."

THE REGULAR UNITED STATES ARMY IS NOW BEING CUT THREE TIMES WHAT IT WAS BEFORE ENTERING THE WAR IN 1917.

An Advertising Editorial of Interest to Readers

Fitness in Footwear

"The apparel oft proclaims the man," said Polonius, but had he been more concerned with being accurate than with making an epigram he would have said that a man's feet are ALWAYS an index to his mental attitudes, and that the things they tell are not always the things that he would have known about himself.

It should be the concern of all men, just as it is of all gentlewomen, to see that feet are clothed neatly and as befits the occasion. It also follows that economy in buying should be emphasized. But can one have shoes for every occasion—shoes for morning, noon and night, as it were—and exercise economy?

We assert that one can: In the first place, shoes last longer and look better if the wearer changes them frequently. It is, therefore, economy to own a number of pairs of shoes at the same time.

The recognition of this fact has been one of the reasons for the development of such diversity in footwear. It explains, in part, why special shoes have been created for different occasions, and why particular men and women insist upon changing their shoes just as they change from their street clothes to appropriate dress for the opera or for dinner or for dancing.

In the next place, economy, as interpreted in these days, means taking immediate advantage of all buying opportunities which have "quality" merchandise as their foundation. Values should receive the closest scrutiny.

Every pair of shoes bought should stand the "quality test"—quality in materials, quality in workmanship, quality in style. Buying shoes according to that standard of value is true economy, and it means shoe satisfaction to the discriminating purchaser.

Here is a way in which you may exercise this shoe economy. In the columns of this newspaper are printed the shoe news of the best and smartest shoe stores and shops.

These advertisements are both a guide to wise buying and a guide to the latest and best styles in footwear for all occasions. Shoe merchants are now giving the men and women of this city unusual opportunities to select their footwear from diverse stocks at prices which make it possible to possess the number of pairs of shoes needful for the season's wardrobe.

Read the announcements of advertisers as they appear in these columns, and make your shoe selections from their reasonable, value-giving stocks.

Passage of India Act Means New Rule for Land

Aim Is to Defeat Present Governmental Failure, Say British.

By Associated Press
 LONDON, Jan. 12.—The new law for the government of India went into effect with the opening of the new year, and for the first time in the history of India under British rule the elections for government posts are going on in accordance with the provisions of the new government of India act.

The stated aim of the new act are "to introduce more responsible government in India." The preamble of the act sums up the general purposes as follows:

Parliament's Policy.
 "It is the declared policy of parliament to provide for the increasing association of Indians in every branch of Indian administration and for the gradual development of self-governing institutions, with a view to the progressive realization of responsible government in British India as an integral part of the empire."

"Progress in giving effect to this policy can only be achieved by successive stages and it is expedient that substantial steps in this direction should now be taken."

Plan Outlined.
 "The time and manner of each advance can be determined only by parliament upon whom responsibility lies for the welfare and advancement of the Indian people."

"The action of parliament in such matters must be guided by the co-operation received from those on whom new opportunities of service will be conferred and by the extent to which it is found that confidence can be reposed in their sense of responsibility."

"Concurrently with the gradual development of self-governing institutions in the provinces of India, it is expedient to give to those provinces in provincial matters the largest measure of independence of the government of India which is compatible with the due discharge by the latter of its own responsibilities."

Under the terms of the act, elections are being held for seats in the provincial legislative councils and the Indian legislature, these being the only bodies for which the act provides popular elections. About 5,000,000 persons are enfranchised by the act, or about 1.5 per cent of the entire population.

The executive government in India consists under the new law of a governor general appointed by the secretary of state for India in London; an executive council of nine, three members of which shall be Indians (heretofore only one member of six was an Indian); a council of state, comprising sixty members.

 "Hot Biscuit!"

No doubt you have said often to a friend:
 "How I wish I could find a place where I could get good hot biscuits, like home."
 Well, we have them—continuously from 11 a. m. to 9 p. m. and they are always Red Hot.—Everything else is the very best and the most reasonable to be found in Ranger.

ected and appointed, and a legislative assembly of 140 members, of whom 100 shall be elected and the rest appointed by the governor general of India.
 The governor general shall be president of the council of state and has veto power over legislation which comes from the legislative assembly. The legislative assembly can introduce legislation, subject to the approval of the governor general in the council of state. Final action on the budget rests with the governor general and the council of state. Both the governor general and the council are given power over tariff and revenues. Army and navy affairs remain under the sole control of the governor.

MOSSULMANS WORSHIP AT MOSQUE IN MEMORY OF FREDERICK WILHELM

By Associated Press.
 WUENSDOERF, Germany, Jan. 12.—A reminder of the time when the former Emperor William attempted to pose as a leader in the Moslem world, remains here in the form of a Mohammedan mosque, which was erected by the kaiser in the first years of the world war. Eight hundred orthodox adherents of the teachings of the Koran regularly worship in it.

It is the only mosque in Germany and William II built it for the benefit of the Cossack and Kirghis Tartar war prisoners who were captured while serving with the Russians and French. An internment camp surrounds it. Under the law of the Koran, the mosque must never be destroyed.

There has been considerable criticism of the former emperor for having erected it and for the present government for maintaining it. In reply, the officials declare it is their duty to give the interned Tartars an opportunity to worship according to the dictates of their faith. They point out that destruction of the mosque would be a serious offense in the eyes of all Mohammedans.

Mme. Grassot has just quit the French stage after eighty-five years of being before the footlights. Despite her years she still possesses splendid health and does not wear glasses and enjoys a retentive memory of five hundred comedies in which she starred during her career.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal. Medicated with Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While you Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

DOCTORS USE CALOTABS FOR COLDS AND FLU

Influenza and Grippe, Like Ordinary Colds, Require Calotabs, the Purified and Refined Calomel Tablets That Are Nauseless, Safe and Sure.

Doctors are warning the public that simple colds and mild cases of influenza often lead to pneumonia and other serious complications. They say that every cold should receive immediate treatment and that the first step in the treatment is to make sure that the bowels are kept open.

For this purpose Calotabs, the perfected, nausealess calomel tablets are the surest, best and most agreeable laxative.

One Calotab at bedtime with a swallow of water—that's all, no salts, no nausea, and no upsetting of the digestion and appetite. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

For your protection, Calotabs are sold only in original sealed packages, price thirty-five cents. All druggists recommend and guarantee Calotabs and are authorized to refund the price if you are not delighted with them.—Adv.

RANGER DRUG CO.

CHICAGO, Jan. 12.—Adding stench to gas as a means of detecting leaks is recommended to the National Safety Council here in a communication received from the United States Bureau of Mines.

"Blue water gas is especially dangerous, as it is almost odorless. Natural gas also has little odor. Many gas explosions, some of which wreck buildings, might be prevented by using a warning stench." Accidental asphyxiation caused 204 deaths in Chicago in 1920, according to reports of the National Safety Council.
