Crude Oil Is Flowing From New Wildcat Well

T. & P. TICKET OFFICE ROBBER LEAVES CLEW

MOORMAN AND OTHERS GET OIL NEAR LACASA

Pay Sand Reached at 3,618 Feet and Flow Expected to Go Above 500 Barrels

A new producing formation was discovered for Ranger territory with the drilling in of the McCleskey No. 1 of Cull Moorman, of Ranger, and associates Saturday evening for a producing well.

The oil is pouring from an open hole, as every little casing had been set when the top of the lime was struck unexpectedly.

The McCleskey well is virtually a wildcat well, the closest production being about three-fourths of a mile west, with a large area extending in all directions that has never been drilled.

Three Men Killed Two Others Wounded In Road House Battle

CORPUS CHRISTI, July 6.—Three men are dead and two others in a serious condition here today as the result of a gun battle in a road house Sunday night.

The dead are: Paul McAllister, deputy game warden; R. B. Bledsoe, deputy constable in Nueces county; and C. M. Bisbee, constable in Nueces county.

Rufus McMurray of Three Rivers, Texas, who was shot several miles away and George Rider of San Diego, shot below the heart, is expected to recover.

Little information concerning the shooting affray could be learned, because of the death and injury of the participants. It is believed however, that Bisbee and his deputies entered the road house with the intention of raiding it.

Bledsoe and Bisbee have taken part in several shooting scrapes recently. Bledsoe had more or less trouble in San Antonio before going to Corpus Christi. He engaged in a shooting affray shortly after arriving.

ONLY ROW BETWEEN LOCAL OFFICERS, RANGER REPORTS

AUSTIN, July 6.—Capt. Monroe Fox, of the state rangers, who happened to be in Corpus Christi during the gun battle between local officers, advised the adjutant general Monday that it was purely a row between officers and that there was no need of state rangers.

BARNEY CARTER GETS ANOTHER GOOD PRODUCER

Well Also Making Several Million Cubic Feet Gas; Drilling Activity Resumed

The Langford No. 4 of Barney Carter of Ranger, W. M. Thomson of Denver, was drilled in Sunday morning for an estimated 500 barrel flow, at a depth of about 3,545 feet.

Drilling in the Langford No. 4 well makes the first producer in several weeks and operators are confident that a number of others will be drilled very soon.

Although wells that were drilled in dry at the usual depth of the lake Eastland sand were called dry, the drilling is being continued for the Ranger pay at 3,740 feet.

GILMAN-CONWAY GET GOOD WELL AT CROSS CUT

Field Has Eighty Producing Wells and Twenty-Five New Locations Made

Special Correspondence.

BROWNWOOD, Texas, July 6.—With the bringing in of the Gilman & Conway Bros. well No. 7 on the Newton tract in the North Brown county or Cross Cut field, renewed activity is manifested in that section.

The Cross Cut field now is about seven miles in length and two miles in width and, according to Mr. Wakefield, apparently is extending east and west, with a trend toward the southwest in the direction of the Byrd field.

There are about 80 producing wells in the Cross Cut field, twenty-five new locations have just been made and 25 new drilling contracts have just been placed in a bank at Cross Cut. There are 50 wildcat propositions outside of proven territory and the general belief is that these will open up some new oil territory.

The Humble Oil company is making preparations to build a pipe line from its big relay station in the Byrd field, recently completed, to the Cross Cut field. The Prairie Pipe Line company and the DeLeon Pipe Line company are now handling all the output of the Cross Cut field, and in addition the Phillips company is putting in a big gas boosting station to boost a vast volume of gas from the Cross Cut gas wells to the two big casinghead plants of the company at Pioneer.

According to Mr. Wakefield, there is at least \$3,500,000 invested in the Cross Cut oil area and the field is just started in the way of a real development.

PEOPLE CAUGHT IN BIG JAM ON HIGH BRIDGE

Police Called Out In New York To Help Dissolve the Crowd.

NEW YORK, July 6.—Police reserves were called out today to assist in getting 100,000 workers from Brooklyn to Manhattan after rapid transit trains were stopped on the Williamsburg bridge.

A giant girder beneath the bridge had been burned off by a short circuit, making the bridge unsafe for the travel of trains. Buses and surface cars took the place of the trains, but were hardly able to take care of the crowd.

Thousands rushed to board the surface cars and buses going over the bridge and in a short time nearly 100,000 persons were crowded together in one mass. Women fainted as the crowd from the rear crushed those in the front into a hot, sticky mass of humanity.

Thousands Homeless In Galacia Because of Terrific Floods

LONDON, July 6.—Three hundred thousand people have been made homeless by floods in Eastern and Western Galacia, according to the Daily News Prague correspondent.

Lonnie Willis, Alleged Lone Bandit, Makes Statement Implicating Baggageman

Special detectives of the Texas & Pacific railroad working with Ranger police and the sheriff of Eastland county have arrested Lonnie Willis, about 24 years of age, on a charge of holding up and robbing W. H. Lassater, night ticket agent of the T. & P. at Ranger, about 4 o'clock last Monday morning.

Willis, who follows the occupation of a truck driver, was brought to Ranger and the police claim to have obtained a signed statement from him in which he implicated W. E. Clark, baggageman of the T. & P. railroad, who was in the ticket office with Lassater when the lone bandit held them up. Clark was arrested, but refused to make any statement, according to the police, except "I have nothing to say, until I see my lawyer."

Entering the ticket office preparatory to sweeping out, Clark left the door open and Willis, entering with a handkerchief tied over his face, ordered both men to "put 'em up." He backed them into a corner, obtained the keys to the cash drawer from Lassater, helped himself to the cash, about \$99 in all, and then backed out of the door, warning the men not to follow for five minutes.

BIBLE THOUGHT. He doth execute the judgment of the fatherless and widow, and loveth the stranger, in giving him food and raiment.—Deuteronomy 10:8.

CAUSE OF CHINA'S REVOLT.

For a long time China was the dominant power in Asia. Her influence extended as far west as Aden, whose sultan paid tribute to her. Nepal, Sikkim and Bhutan, in northern India, were among her dependencies. Her boundaries in Central Asia touched the boundaries of Persia, and the valleys of the Amur and the Ussuri, on the northeast, also were hers.

For hundreds of years her territory has been treated by other nations as a fund to be drawn upon for the expansion of their own territorial domain. Today Aden, Ceylon, Sikkim, Bhutan, Nepal, Malacca and Burma all belong to the British empire, which also has established a colony at Hongkong, once a part of China. Siam is independent. Cambodia, Cochinchina, Annam and Tonquin form French Indo-China, and France also has a lease to Kiangnan, in the province of Kiangnan. The Sulu Archipelago long ago passed under the rule of Spain, and by Spain was ceded to the United States. The Loochoos and Korea were taken by Japan, which also has annexed Formosa and the Pescadores and leased a portion of the Liaotung peninsula. Russia has occupied a great part of Central Asia that once bowed to the sway of Peking, and also has extended her boundaries to the banks of the Amur and annexed the Siberian maritime province east of the Ussuri and reaching the borders of Korea.

Thus the great empire of China has been gradually eaten away to the fringes. What would be the natural and proper resentment of a person who had been himself "gradually eaten away to the fringes," one arm clipped, his tongue split, one arm wrenched out, one leg amputated, the toes of the other foot cut off one after another without anesthetic relief and one eye blinded? Would there not be eventually produced a tone of mind pardonably irritable? Would not every red-blooded American sympathize with such an individual?

That advertising gives the public the faith and confidence in the advertisers which is no necessary to their success.

That advertising of quality brings volume sales and no come-backs.

That business concerns who seek a steady business, must be steady advertisers.

When the Dam Gave Way

The dam that held the water supply for the town of Horton, Kas., collapsed after a series of heavy rains and every able-bodied citizen worked for hours to prevent the flooding of the town and destruction of crops. The lake that was released by the dam's collapse was two miles long, half a mile wide and 35 feet deep.

Boxing Bouts Give Entertainment to Enthusiastic Fans

Rain that started falling about 3 o'clock in the afternoon Saturday spoiled the plans for the huge pyrotechnic display planned for the night's entertainment, which was to be held at the baseball park, but the prize fights scheduled for the big open-air arena were held at the Liberty theatre.

Plenty of fighting was staged for the benefit of the crowd that jammed the seating capacity of the theatre. "Fighting" Dick Bowers of Breckenridge knocked out Green Evans in the fourth round in a six bout without any trouble whatsoever. "Sailor" Hawkins of Stephenville threw in the sponge in the first few rounds of his fight with "Dutch" Caldwell of Dublin. The real scrap of the evening was between "Shorty" Houghton of Ranger and "Battling Rusty" Cahill of Graham with Cahill being given the referee's decision. Howard McCleskey of Eastland knocked out K. O. Haworth of Fort Worth while "Bougher" Red of Breckenridge and "Bustem" Hughes of Wichita Falls, 14-year-old youngsters, staged a real fight for the fans.

FRENCH SENDS NEW CHIEF COMMANDER TO MOROCCO

PARIS, July 6.—General Guillaumat, formerly military commander of Paris, is believed to have been selected the commander in chief of Morocco, to carry on the fight against the Rifian chieftain, Abd-El-Krim. Premier Painleve presented the general to President Daumerygue today and this was taken as confirmation of his selection as leader in Morocco. Marshal Lyvaute, hitherto chief of Morocco, will remain resident general, but the new appointment would mean the separation of the military from the civil administration.

Put New Mercury in Largest Thermometer

THE complicated business of renewing the mercury in the Colgate & Co. thermometer, the largest in the world, located on the famous Atlantic City boardwalk, was undertaken recently by workmen, assisted by bathing girls. They performed the perilous feat of mounting the 50-foot temperature recorder and replacing the worn red bulbseyes which, for the past five years, have informed the promulgating public (according to Atlantic City reactors) that they were neither too hot nor too cold. The instrument is electrically operated by night, the temperature being recorded by means of electric lamps and bulbseyes; during the day, it is operated by an endless belt. Each degree is a half a foot high. The electric illumination has an average consumption per hour of 15 kilowatts.

Chestnut & Smith Defeat Petroleum Co. Nine, Score 7 to 1

The Chestnut & Smith nine defeated the Phillips Petroleum nine from Breckenridge by a score of 7 to 1 in a fast game played at Nitro park yesterday afternoon. Harvey for Ranger pitched excellent ball and was given fine support, both in the field and with the stick. Harvey whiffed several of the Phillips men, allowing only five hits. The Chestnut & Smith team has a fast club, having defeated two teams from Fort Worth, some of the fastest in the Fort Worth major city league, and several semi-pro and amateur teams in this district. A fairly large crowd saw yesterday's game.

CHERRY PLAYING BASEBALL.

Blair Cherry, Ranger High coach, is now in Tahoka, Texas, playing baseball, but expects to return to Ranger in the near future and begin preparation for a winning football team next year. Cherry will attend the coaching school conducted by Knute Rockne, famous Notre Dame coach, at Austin in August. Cherry will have a good nucleus of last year's eleven to build on, and several new men who will be in Ranger High school next year are expected to strengthen the team.

Billy Evans Says

OLD AGE VS. YOUTH "OLD AGE" doesn't always bow to "Youth" in all forms of athletics.

When it comes to the 1925 brand of pitching in the major leagues the edge is very much with "Old Age."

Experience holds quite a margin over mere ability plus ambition. In other words it looms up as a big year for the veteran pitchers. Walter Johnson in his nineteenth campaign was the first big leaguer to win 10 ball games. And during the 1924 world series many of the experts wrote the baseball obituary of the "Speed King." In the National League, Jack Scott, who has twice as a supposedly dead arm, won his tenth game a few days after Johnson had reached that figure. Other veterans like Rixey and Donohue of Cincinnati, Rommel of Philadelphia and Meadows of Pittsburgh are just a game behind Johnson and Scott. I would say that the batting increase was due 75 per cent to the lively ball and 25 per cent to a drop in the pitching standards of the majors.

STRAWN DEDICATES HER NEW TOURIST PARK

STRAWN, July 6.—Strawn dedicated the new tourist park, located on the Bankhead highway, near Palo Pinto creek, by a three-day celebration and pageant. The pageant presented by Strawn people was very good. All of the programs were given in the new park, as well as a Fourth of July dance. A five-piece orchestra played the accompaniment for the pageant and the band played afternoon and night at all performances. Everything was free. The new park is now open to tourists and would be a credit to any town. The park was equipped by Strawn people.

RANGER MAGNOLIAS WIN GAME FROM EASTLAND

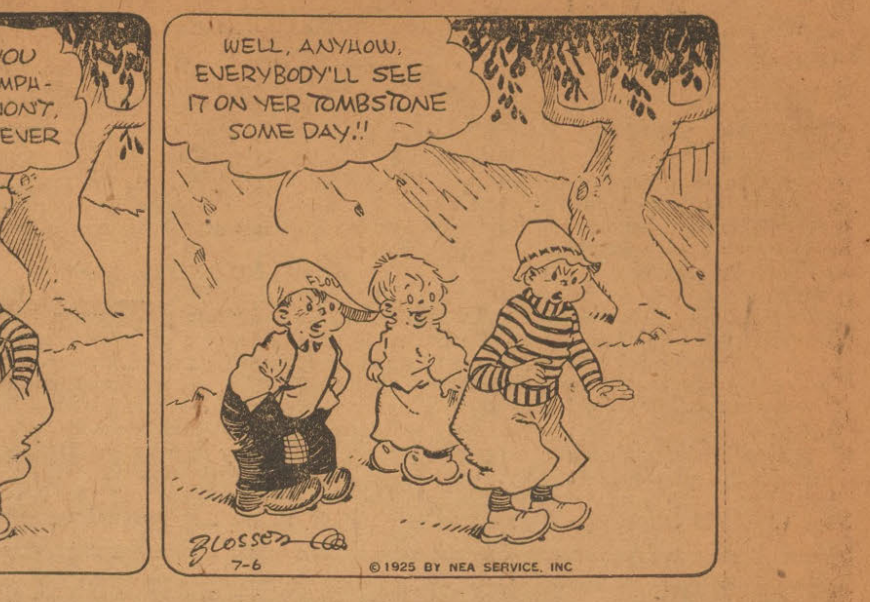

The Ranger Magnolias defeated Eastland in a baseball game at Connelley park Sunday afternoon, the score being 6 to 1.

TWO NEGROES REPORT ROBBED BY HI-JACKERS

Two Eastland negroes have reported to the police that they were held up at the point of a pistol by two white men Saturday night and robbed of what money they had on their persons, one of them giving up five dollars and the other one dollar. The negroes said they were walking toward town near the Ringling depot when the two hi-jackers drove up by the side of them in a Ford car and leveled a pistol at them and told them to hand up their money, and when this was done drove off.

Germany Takes Disarmament Note in Manner of Apparent Satisfaction

By E. A. MATHIS,
United Press Staff Correspondent.
BERLIN, July 4.—"The disarmament note in a way gives us satisfaction," is the paradoxical view expressed by the German military authorities to the United Press. In the Reichswehr ministry the note is regarded as proof of Germany's disarmament. It is pointed out that a complaint that 34 cannons are not exactly in proper shape is a mere trifle compared to the acknowledged destruction of 33,544 pieces of artillery.

The military authorities are not sufficiently informed to discuss the questions referring to the police and to the destruction of industrial

machinery. The other military complaints are looked upon as equally unimportant. It seems safe to forecast that in these matters the Reichswehr ministry is not going to make serious difficulties to come to a settlement.

Security Not Endangered.
The view prevails that the security of France is certainly not endangered by the presence of a few extra guns or some millions of blank cartridges. On the other hand, Germany feels that its military power is already so broken that the withdrawal of a few horseshoes or tins of pork and beans is not vital. Therefore there should be not the least difficulty in making mutual concessions.

Stewart's Washington Letter

BY CHARLES P. STEWART
NEA Service Writer

WASHINGTON—Washington's all excited over the Doheny and Sinclair oil decisions. The capital feels a proprietary interest in these cases. Here they started in the senate. Here they'll wind up, in the supreme court.

In the meantime Washington's watching developments, as they break out, here and there.

It's no exaggeration to say they've got her guessing—the shape they've been taking in the last few weeks.

FIRST, Federal Judge Paul J. McCormick of Los Angeles fooled Washington by deciding the Doheny case in the government's favor. Washington expected a decision the other way.

However, Doheny having lost, "Sinclair surely will," thought Washington, for all the dope indicated that the government's evidence against the Sinclair lease was a good deal stronger than against the Doheny lease.

And then Federal Judge T. Blake Kennedy of Cheyenne decided in favor of Sinclair.

JUDGE McCORMICK found evidence of fraud in ex-Secretary of the Interior Fall's deal with Doheny. Judge Kennedy found no such evidence in Fall's deal with Sinclair.

There's nothing inconsistent in that. They were different transactions. There may have been fraud in one and not in the other.

Still, Washington was surprised.

Of the two, she had been a little less suspicious of the Doheny than of the Sinclair lease.

Fall and Doheny had been old pals. Doheny was the type of man to help out a friend who was in hard financial luck.

That, he said, was all there was to that \$100,000 loan he made to Fall. It sounded a bit fishy, but Washington recognized there was a chance it might be true.

Sinclair, on the other hand, wasn't sized up as the kind of individual to let good money go for nothing.

Yet Judge McCormick refused

to swallow the explanations of Fall and Doheny, while Judge Kennedy readily accepted those of Fall and Sinclair.

NEVERTHELESS, both judges may—theoretically—be right as to the matter of fraud.

They can't both be right concerning the question of the late President Harding's power to transfer control of the government's oil lands from the navy to the interior department.

Judge McCormick says Harding exceeded his authority when he made this transfer, that the land remained the navy's in spite of him, and that Fall's lease to Doheny was void because he was disposing of what belonged to another department.

According to McCormick, it was void regardless of the question of any crooked deal between Fall and Doheny—though McCormick added, incidentally, that the deal was crooked, too.

Judge Kennedy holds that President Harding did act within his rights, so the Sinclair deal is o.k.

Kennedy agrees that it wouldn't have been o.k. if Fall and Sinclair had framed it crookedly, but he finds no evidence that they did.

THE nub of the dispute to be settled on appeal is whether President Harding did what the law entitled him to do, or went too far.

If he went too far the leases to Doheny and Sinclair are no good, and it's unnecessary, so far as the civil suits are concerned, to discuss the fraud issue.

If not, the leases stand, unless fraud is proved.

THE criminal cases still hang in the air. Doheny probably will want to stave his off, hoping for a reversal of Judge McCormick's decision. Sinclair is apt to seek rapid action, before any higher court has time to spoil Judge Kennedy's vindication of him.

The civil and criminal actions are different, of course, but courts have considerable influence with one another, back and forth.

It seems to be more difficult to come to an agreement in those questions which affect the sentimental side and which the Reichswehr looks upon as intended to offend its pride. This is especially the case regarding the position of General von Seeckt. The Reichswehr is largely indebted to the general who is really the man who made the new German army, and a loss in rank would be intensely resented. The practical change in case the general reverted to the powers which were conferred upon him in 1919 is nil. The only difference from the present state of affairs would be that Seeckt could not punish the commanding German generals, all his

other powers would remain exactly the same.

Indian Giving.
The Reichswehr also resents that the disarmament note "takes away with one hand what it just gave with the other." Thus the permission granted to the German army to have gas masks is without use when the establishment controlling the efficiency of the masks must be abolished.

The only charge which the Reichswehr itself considers as founded refers to its accepting volunteers for a short period. The acceptance of such "Zustimmung" has been strictly forbidden, and the ministry claims that its orders are carried out. Nevertheless this point re-

mains delicate, and while the leading men of the Reichswehr seem to be honest about the matter, well-informed circles doubt whether the lower grades carry out the command of the ministry. Not only socialistic circles accuse the military of taking extra recruits, but particularly the extreme right declare that secret recruiting is still going on and that the semi-militaristic organizations of the right are more or less entitled to join the army for a short period to be ready for "der tag."

PRIZE WINNERS IN CISCO BATHING REVUE

CROSBYTON.—The plant of the Cap Rock Light and Power company here has been acquired by the Texas Utilities company.

STRAINER MOST OBSCURE CAUSE OF OVERHEATING

Of all the causes of motor heating perhaps the most obscure and insidious cause is that of the clogged strainer. The ordinary driver or motorist, or even the one with a long record of satisfactory performance, often does not know that hidden deep under the vault-like steel covering of the engine, is a strainer with a very fine mesh, the purpose of which is to strain all the impurity from the oil that is circulating through the motor. This strainer covers the suction pipe of the oil pump, and gradually becomes filled with the sediment that accumulates in the very best grade of lubricating oil. When this occurs, the oil cannot flow through the suction pipe to the parts needing lubrication, and friction starts in. Frictional heat, combined with the high cylinder heat, is given off far too rapidly to be adequately cooled by the water circulating around the water cycle. As the heat generates, the red line in the heat indicating instrument goes toward the top, thus warning the driver that something is wrong. If all other ordinary causes for heat generation seem to be working properly, have your mechanic look for this defect.

The heat indicator is placed on the radiator cap of the car so that the driver does not have to take his eyes from the road, a fact which adds to the safety of his and passing cars.

LUEDERS.—The West Texas Utilities company is building an electric transmission line to this place from Stamford. The distance is fifteen miles.
