Served 19 Years and Until Recently as Associate Justice of U. S. Supreme Court.

By Associated Press MACKINAC ISLAND, Mich., July 9.—William R. Day, former associate justice of the United States supreme court, died at his cottage here this morning. With him were his son, William L. Day, and the latters' wife. The funeral will be at Canton, Ohio, next Thursday.

Judge Day was a notable figure in the national government for more than a quarter of a century, both in executive and judicial capacity. He resigned from the supreme court in November, 1922, to become umpire of the commission on war claims, from which he resigned May 15 of this year after it had developed that the activities and requirements of the supreme court where he worked for 19 years had impaired his health.

Judge Day was born in Ravenna. Ohio, April 17, 1849, being a son of Judge Luther Day of the supreme court of Ohio. He graduated from the University of Michigan in 1870, was admitted to the Ohio bar in 1872 and began the practice of law in Canton. He was appointed assistant secretary of state by President McKinley in April, 1897, and was made secretary of state in April, 1898, from which position he resigned to accept chairmanship of the commission which negotiated the treaty of peace with Spain at the close of the Sp ish-American war. Engine Goes "Dead" and Quick Landing Necessary; Plane Slightly Damaged.

By United Press

ST. JOSEPH, Mo., July 9 .- Lieut. Russell Maughan, attempting a dawn to dark flight from New York to San Francisco, and who started from the Atlantic coast this morning just as the first streak of the approaching dawn appeared on the horizon, was forced down at 1:05 o'clock today at Avenue City, Mo., about 10 miles

north of this place. Lieutenant Maughan said that he had been having engine trouble and finally the engine had gone "dead," so that it was necessary that he seek a landing. He came down in a field at Avenue City and his plane was broken in alighting, so that he will be unable to continue his flight.

Lieutenant Maughan had completed nearly one-half of the journey, but was behind his schedule and would have found it difficult to arrive in San Francisco before dark. He is determined to accomplish the task, however, and said he proposed to make another try within a few

A large crowd had gathered at Rosecranm Field to welcome the aviator and there was much disappointment when the news was received that the plane had been forced down.

MITCHELL FIELD, N. Y., July 9. -Lieut. Russell L. Maughan, piloting a Curtis pursuit plane, today hopped off at 3:56 eastern standard time, on the first lap of his dawn to dark flight across the continent. He expected to reach San Francisco in 16 1-2 hours, covering a distance of 2,640 miles at an average speed of 160 miles an hour. Four stops were planned, at Dayton, Ohio, St. Joseph, Mo., Cheyenne, Wyo., and Salduro, Utah, to refuel and rests of not ex-

ceeding 30 minutes. The object of the flight, according to the commanding officer here, is to blaze a trail for transporting in one day a fleet of airplanes from coast to coast in the event of an attack by hostile forces upon the United States, and also to suggest the establishment of landing fields.

Maughan holds the air speed record of the world, 236 miles an hour and his plane is capable of making 172 miles an hour. The plane has a 400-horsepower engine.

SOME HARD FACTS ABOUT SOFT MONEY

By JOHN OAKWOOD

When a 'armer takes his product | to manipulate the base of the curto market and sells it for, say, a dol- rency. They would change it from the jar a bushel, he is dependent upon the gold standard to a fiat money plan honesty of two measures—the dollar | -from a gold guarantee to the mere and the bushel.

The other day a crossroads store- farmer wouldn't be watching the keeper got sent to jail for manipulating a trick bushel basket with a false bottom that would slide up and the year he has his thousand dollars. down in a way that was grand, gloomy and mysterious. When using it to measure stuff he bought from a farmer, he'd secretly shove the bottom down until it held at least a bushel and a quarter but he are a bushel and a quarter but he was a bushel and a point of the was a bushel a and a quarter, but he would only credit him with a bushel. The buying power of the farmer's product was thereby depreciated by about twenty money folks haven't much confidence

Finally the farmers thereabouts got and a quarter in paper money for wise to the fact that the only way they could get what was coming to them was to enforce a reliable standard of measurement. So they put a good stiff jail penalty on using a fake measure, laid for that storekeeper with the trick basket and sent

Politicians in Europe have been manipulating the other measure—the and a quarter of his product, and in money measure—in much the same the second case he would have to give way. Some of them in America want a dollar and a quarter of his money to tamper likewise with the dollar.
Here is about the way it would work out. Suppose, when the farmer brought his product to market, the basket measure was honest enough and he got a dollar bill for each bushel. He'd take his dollars home and save them. Perhaps he planned to buy some land next his own for a thousand dollars, and figured that in a year or so he could make it.

But meanwhile the politicians start comes in.
