Sugar Prices Hit Fast Toboggan Slide

FOURTH DECLINE WITHIN A WEEK MAY BE STARTER

Refiners Cut Sugar Price 23 Points Today, Bringing It Down to 2 1-2c Pound

NEW YORK, July 13.—The price of refined sugar was reduced still further by the big sugar companies today. Federal refinery started sugar on the toboggan when it reduced refined 23 points to 8 1-2 cents. This action was followed immediately by the National Sugar refinery, Warner and Arbuckle.

This is the fourth decline reported in less than one week.

Dallas Woman Hurt With 29 Others in Train Catastrophe

MEMPHIS, Tenn., July 13.—One man was killed and 30 injured, several seriously, early today when a train on the Southern railway was derailed two miles east of Larkinsville, Ala., according to reports received here.

Fifteen of those most seriously injured are in a hospital at Huntsville, Ala. Four Pullman cars and two coaches of the train which was out of New York en route to Memphis, were torn loose from the engine and other cars and were hurled down an embankment, overturning.

L. Carr, 19, of Durham, N. C., was killed. It was stated that at least 12 were seriously hurt, including Mrs. G. T. Greaves of Dallas.

FINGER PRINT ON BOTTLE LEADS TO MURDERER.

DALLAS, July 13.—A finger print found on an empty bottle in a grocery store which had been robbed here led to the arrest and conviction of Ernest Lawson, negro, and former convict and to a confession to implication from Blaine Dyer, also a negro and escaped convict, in the murder of J. R. Cain, special officer, who was shot in the head as he looked into a store which the negroes were robbing.

Dyer was arrested here on a charge of burglary and when his Bertillon measurements were taken they were found to correspond exactly to those found on an empty bottle the day following Cain's death. Dyer confessed to a part in the crime and implicated Lawson, who he said fired the shot which killed Cain.

Lawson admitted the killing of Cain and seeking revenge on Dyer for "squealing" said Dyer killed Motor Cycle Officer J. C. Gibson, who met his death in the same manner as Cain some weeks before. Dyer, however, insists that Lawson committed both killings.

Lawson was found guilty after forty minutes deliberation on the part of the jury. He was given the death penalty.

Dyer has not been tried.

TURNIP PATCH FAILS TO HIDE MOONSHINE ENTRUSTED TO IT

BEAUMONT, July 13.—A patch of turnips deeply planted is the latest camouflage for bootleggers. A thin layer of earth was found by officers to be covering 100 gallons of mash and 25 gallons of the finished product.

NEW MEXICO EDITOR FOUND GUILTY CONTEMPT OF COURT LAS VEGAS, N. M., July 13.—Carl C. Magee, editor of the Albuquerque Tribune today was held guilty of contempt of court against Judge J. D. Leahy for publishing statements derogatory to Judge Leahy and other officials.

BRECKENRIDGE LIONS PLAY BALL TO WIN

Capture Game From Ranger Den by a Score of 5 to 1.

Playing in the fashion of Class D ball tossers, the Breckenridge and Ranger Lions baseball clubs surprised the spectators, who went out to see comedy and tragedy mixed up in the plays yesterday afternoon at the city ball park. It was not a slow game, nor was it chock full of errors. The final score was really 5 to 1 in favor of Breckenridge, and both sides were only able to gather a total of 10 hits.

All of this, too, in spite of the fact that a steady shower halted the game for 15 minutes and the infield was heavy when play was resumed.

The Ranger Lions faced a battery of two old college stars, Tol Pendleton of Princeton and Carl Ferguson of Trinity university, catcher and pitcher respectively. Pendleton was on the Princeton varsity for three years and was a member of the All-American football eleven several years before the World war.

Galloway started for Ranger and excepting that he was a bit wild, he twirled a nice game. Two of the runs tallied by the visitors in the sixth were the result of free passes. J. M. White, who replaced "Rip" after two men walked, steadied down after giving a base on balls and allowing Anderson to sacrifice Ferguson home.

Ranger's only score came in the fifth inning. Jones rolled to Smizer, who allowed the ball to get the best of him and he was safe. Logsdon delivered a timely bingle to right field. Larson, rising to the occasion, brought Jones home with a single. White bunted and was thrown out at first. Bates struck out. Newton rolled to Ferguson and was out at first. Two men died on base. A two-bagger would have tied the score at this juncture of the game.

It began to shower when the Ranger Lions took the field. It drizzled until the first half of the second inning with Breckenridge at the bat and it then burst into a heavy shower. Umpire Mendenhall in his official capacity hesitatingly called the game, much to the regret of the spectators, who feared the game wouldn't be completed. The spectators, themselves, crawled gradually back into the stands until they were almost two-thirds of the way up. In a little while the rain ceased and play was resumed for seven innings.

STATE BOARD OF EDUCATION JUST MEETS AUSTIN, July 13.—The meeting of the state board of education today only considered routine matters. The board is expected to pass on the text book contract controversy when Governor Neff returns from his Panama trip.

Ranger Elks Plan A Jubilee Week; Meet Tonight

Grand Exalted Ruler Harry A. Logsdon of the Elks wants all members to be present at the clubhouse tonight to give their views on the proposed Elks Jubilee week.

"We want to begin making our plans tonight and begin appointing committees," he said. "It will be a big thing for Ranger. We're going to invite Elks from Breckenridge, Cisco and Eastland to be with us. One night will be for Cisco, another for Eastland. We will have a different program each night, so you won't see the same thing every night."

Merchants will be asked to exhibit and there will be an industrial display, showing products made in Ranger.

Building and Loan Plans in Ranger Up For Consideration

Letters relating to the organization of a building and loan association here from out of town interested persons have been received by Ove Overson, member of the home building committee of the Chamber of Commerce, and will be discussed at a meeting of the committee at 2 o'clock this afternoon.

J. W. Sanders, chairman of the committee, reported today that he is getting co-operation from Ranger clubs and organizations in enlarging his committee. He is asking clubs to appoint persons from their membership to the home ownership committee.

CANADA THRESHING BIGGEST WHEAT CROP IN ITS HISTORY

MONTREAL, Canada, July 13.—The largest wheat crop in Canadian history is now being threshed. It is estimated at 500,000,000 bushels by the dominion bureau, which predicts a record crop.

The wheat acreage is announced at 22,159,300 acres, a decrease of 253,393 from last year, but the condition of the crop is placed at 106 compared with 95 last year.

In anticipation of an increased crop, the Canadian Pacific railroad has added to its equipment 16 new engines and 2,000 box cars.

The Times Will Not Publish Paper On Saturdays

The Sunday edition of the Ranger Times will have the undivided attention of the Times' staff all day Saturday and up to the hour of publication at midnight Saturday night in an effort to make it the best Sunday morning newspaper published in West Texas.

All efforts will be centered hereafter on Saturday to make the Sunday morning edition of the Ranger Times a real winner and for that reason no paper will be issued Saturday afternoon as heretofore. Saturday afternoon is a busy time with most people and they have little time to read a newspaper. The advertisers know this and prefer to place their advertisements on other afternoons of the week and on Sunday morning, because they know the people read the Times and read their ads.

Should any event of unusual importance occur early Saturday, either locally or elsewhere, the times will get out a Saturday afternoon extra so the people may be kept advised of the latest happenings.

Watch for Sunday morning's edition of the Times, which will carry all the news of local happenings and all the world news of importance. The time that heretofore has been divided between the Saturday afternoon and Sunday morning editions will hereafter be given wholly to the Sunday morning edition.

RANGER AND MINERAL WELLS DUE TO PLAY OFF TIE IN FIRST HALF OF OIL BELT GOLF TOURNAMENT

Dempsey to Fight Firpo on Labor Day Tex Rickard Says

Jack Dempsey and Luis Firpo will meet in the arena for a fight to determine the heavyweight championship on Labor day, Tex Rickard said today. Rickard said he had not decided on a place for the fight, but indicated it would be staged in the arena where Firpo knocked out Willard last night.

Kearns, manager of the champion, said he wanted a fight with Firpo on Labor day. "This Firpo is a strong, rugged fellow and a natural fighter," said Kearns. "He will give Dempsey a great fight."

Official figures on the attendance last night may not be known for several days, but the crowd was estimated at more than 100,000 and the receipts at close to \$600,000. This would make Willard's share about \$150,000 while Firpo would receive about \$120,000.

Heroine Receives Quarter-Million Dollar Bequest

LOS ANGELES, July 13.—Mrs. Clara May Miller, saleswoman for an oil syndicate, has announced receipt of a letter from a Boston law firm telling her she had been left \$250,000 in the will of Theodore Tibbits, leather manufacturer of Lynn, Mass., whom she saved from drowning when he was a small boy.

About 25 years ago, Mrs. Miller said, she was a member of a party crossing the Bay of Fundy on a steamship. Tibbits, then a precocious youngster, climbed on the railing and fell overboard. Mrs. Miller, then Miss Clara Beckwith, although fully dressed, immediately jumped into the sea and rescued the boy after a hard struggle.

Tibbits' father gave her \$1,000 to buy clothes to replace those ruined in saving his son, she said, and the Canadian authorities gave her a medal for heroism. Shortly afterwards, she added, she was married, and the incident had been nearly forgotten when she received notice Tibbits had remembered her in a codicil to his will.

She expects to go to Boston soon, as the estate will be probated there within 60 days.

CHICAGO TO TEACH HER YOUTH TO FLY

CHICAGO, July 13.—The Air Board of Chicago believes that airplanes will be as common as automobiles in ten years and in August will open a flying school for boys and girls.

The youngsters will be instructed in flying and building model airplanes. Terrence Vincent, director of McKinley park, Chicago, will be in charge. Several play-grounds organizations and a yacht club will cooperate.

"The youngsters will learn fundamental scientific facts about aviation," Vincent said. "This will be through work with models. Since most of us will fly to and from our vacations—maybe to and from our work—in ten years, it is well that we so teach these boys and girls who will be users of airplanes."

Girls make just as good pilots as men and are equally skillful in modeling planes, Vincent asserted.

Weatherford Leading the League With Eastland and Breckenridge Following for Last Half of Season Announced.

Whether Mineral Wells and Ranger will play off the golf tournament tie remains to be seen, officials of the local golf team say. Mineral Wells was scheduled to come here early last month. A heavy rain preceding the match caused the Mineral Wells club officials to call off the match as they intended to motor over.

Ranger club officials promptly asked for a match on the following Sunday, an open date for both clubs. Mineral Wells acceded but on the Saturday night before the day of the match, a message was received by W. H. Fouke, president of the club, calling off the match. No reasons were given in the telegram for the cancellation of the match. The weather was fine on that day.

Local members of the golf team believe it is up to Mineral Wells to state their attitude.

Schedules Ahead.

Official schedule of the Oil Belt Golf association for the last half of the season has been released by Secretary W. I. Clark of Eastland. It follows:

- July 22—Eastland at Mineral Wells, Breckenridge at Strawn, Ranger at Weatherford.
- Aug. 5—Mineral Wells at Strawn, Weatherford at Eastland, Breckenridge at Ranger.
- Aug. 19—Ranger at Mineral Wells, Strawn at Eastland, Weatherford at Breckenridge.
- Sept. 9—Breckenridge at Mineral Wells.
- Strawn at Weatherford, Eastland at Ranger.
- Sept. 23—Mineral Wells at Weatherford.
- Ranger at Strawn, Eastland at Breckenridge.

Standing of Clubs.

The Weatherford won the first half of the Oil Belt Golf association tournament, according to the standing sent out by Secretary Clark. Ranger and Mineral Wells tied for fourth place, Eastland and Breckenridge stood second and third respectively. Strawn had to be content with the cellar position.

Here are the percentages:
Weatherford1,000
Eastland300
Breckenridge600
Ranger250
Mineral Wells250
Strawn000

U. S. SENATOR DILLINGHAM OF VERMONT IS DEAD

MONTPELIER, Vt., July 13.—United States Senator William P. Dillingham of Vermont died here late last night. He was 80 years of age.

Senator Dillingham was born at Waterbury, Vt., Dec. 12, 1843. He was a member of the Vermont house of representatives and later of the senate, was governor of Vermont from 1888 to 1890 and was elected United States senator in October, 1900, to fill a vacancy caused by the death of Justin S. Morrill. He was re-elected in 1902, in 1908, in 1914 and in 1920.

WASHINGTON, July 13.—Important changes in the senate leadership will result from the death of Senator Dillingham. He was in line to become chairman of the judiciary committee at the next session. Senator Brandegee of Connecticut is next in line.

Dillingham was one of the veteran Republican stalwarts and had served prominently in many capacities in legal affairs and especially in immigration legislation.

In recent years he was chairman of the elections and special privileges committee, controlling the seating of senators. This will probably go to Senator Spencer of Missouri.

"Thirteen" Jinx Encompasses Port Arthur Youth

PORT ARTHUR, Texas, July 13.—Henry Gardner of 1313 Thirteenth street was 13 years old today and celebrated his thirteenth birthday by killing a black cat which crossed his path shortly before he stepped on a nail. There are 13 letters in his name, his sweetheart is aged 13, his mother's age is 39 (three times 13) and his father's age is 52 (four times 13). After the black cat episode, his father locked him in the house until the jinx had passed.

CHICAGO WAGING WAR IN EARNEST ON AUTO SPEEDERS—GO TO JAIL

CHICAGO, July 13.—With a total of 338 automobile killings so far this year, the authorities are determined to take more drastic steps to reduce this slaughter. All speeders and reckless drivers are being arrested, booked at the nearest police station and forced to give bond for trial, instead of merely being handed an arrest slip by traffic officers.

This will do away with the custom of attorneys appearing for the offenders and getting them off with a reprimand or a light fine. It also will give the police a look at the speeder and he will be more closely watched hereafter.

Judge Glicker of Chester, Ill., who has been called in to preside over the vacation season, is creating consternation among the drunken automobile and truck drivers by sending them to jail instead of imposing a trifling fine.

WOUNDED MAN SAYS BOOTLEGGERS SHOT HIM

WICHITA FALLS, July 13.—Frank Zimmerman, 55, was shot and seriously wounded this morning in the Freeman-Hampton pool in the Archer county oil field. He told officers he was the victim of bootleggers and that he had been warned to leave the community. Six suspects have been arrested.

CALIFORNIA WELL BLOWS MUD HIGH IN THE AIR

LONG BEACH, Cal., July 13.—Blowing a huge stream of mud high in the air, an outlying well, Union Community No. 11, was still out of control today. The eruption has caused suspension of activities in the Signal Hill oil field for an area of several blocks.

Good Will Most Valuable Asset for A Newspaper

Good will is the most valuable asset of any successful business. Without it, no enterprise can succeed. With it, any enterprise will be a winner.

And when it comes to "good will," there is nothing more wonderful than the good will of the advertisers who, week after week, bring or phone their ads to the Times. They have given their good will to the Times because they know the Times delivers the goods.

When they have something to sell, the Times sells it for them in record time. When they want to buy something, they read in the Times where they can buy that article at the most reasonable price.

The home circulation of the Times is the largest in the history of the paper. Good will again is the secret of this circulation. And service—both in news and in advertising—is the reason for the good will. A newspaper is as good as its readers and advertisers. No wonder the Ranger Times is without a peer.

FRANCE STIRRED TO ACTIVITY BY BRITISH LEADER

Premier Baldwin's Condemnation of French Ruhr Policy Followed by More of It.

BERLIN, July 13.—French troops have occupied the third industrial city of the Rhineland, Elberfeld, and also Garmen, on the edge of the Ruhr region, according to advices received here today.

The town of Limburg, just beyond Coblenz bridgehead, which Americans formerly held, was occupied by the French yesterday as a permanent base. At Barmen several of the city officials were arrested, after which the French withdrew. It is understood operations were undertaken to impose penalties for numerous affairs, including the disarming of two French soldiers by German police and several acts of alleged sabotage.

GERMAN EXPECTATIONS WARPED BY FRENCH

BERLIN, July 13.—Just as the Germans are trying to figure out the advantages to this country forecast by British Premier Baldwin in his address to the house of commons, news was received here that French troops had entered Westphalia and occupied Barmen. The latter is a leading industrial city, has nearly 200,000 population, is one of the most important in the Rhineland and its loss is serious to Germany.

It was hoped here the French would resist the temptation to make further advances in view of the British statement. Elberfeld was also occupied by the French, it was later announced.

CONVICTED OIL FRAUD OPERATOR GETS LIBERTY FOR SON'S FUNERAL

FORT WORTH, July 13.—J. W. (Hog Creek) Carruth, convicted oil operator on charges of using the United States mail to defraud, who was taken to the federal prison at Leavenworth two weeks ago to serve a sentence of a year and a day, will be brought back to Fort Worth to attend the funeral of his young son who died today. An order to that effect was signed by Federal Judge Wilson. The youth was ill with a fever when his father entered a plea of guilty.

EXCESSIVE HEAT INDUCES MAN TO TAKE HIS LIFE

WICHITA, Kan., July 13.—Walker S. Harris, 56, shot and killed himself this morning at the home of his sister. Illness and the excessive heat of the last 10 days is the assigned cause.

BUSINESS CONDITIONS SHOWN TO BE GOOD

WASHINGTON, July 13.—Evidence of the gradual restoration of general business and particularly in agricultural industries was given in the report of the War Finance corporation, ending June 30. The corporation advances aggregated only \$43,761,000, while more than \$146,000,000 was repaid on loans.

BUSINESS AND PROFESSIONAL WOMEN CLOSING CONVENTION

PORTLAND, Ore., July 13.—The business sessions of the fifth annual convention of the Business and Professional Women's club will end today with the election of officers for the next two years.

Selection of the 1924 convention city is likely to be left to the incoming executive board and probably will not be announced at the convention. Dallas and Kansas City are both bidding for it.

RUSSIAN REFUGEES TO BE SENT BACK TO BOLSHEVIKS

SAN FRANCISCO, Calif., July 13. All of the 526 Russian refugees who were brought to the United States in a government transport after they had fled from the Russian bolshevik will be deported as undesirable aliens, immigration authorities announced today. The Russians are being held at Angel's Island until opportunity is presented to send them back.

BIBLE THOUGHT.
WHAT GOD WILL DO:—He will swallow up death in victory; and the Lord God will wipe away tears from off all faces; and the rebuke of his people shall he take away from off all the earth: for the Lord hath spoken.—Isaiah 25:8.

CHAPLAINS IN THE ARMY.
 Under existing laws veterinarians may obtain higher rank and obtain advancement more quickly than chaplains of the army. The churches are asking that this discrimination be removed; not that there is anything wrong with the veterinary, but it is just that the clergyman who looks after the souls of the men is, under existing conditions, given less consideration than the man who looks after the health of the horses and mules. The same thing is true of the doctors and dentists. They also have advantages denied the chaplains.

Every effort will be made by the general committee on army and navy chaplains of the federal council of churches to have congress remove this discrimination. In addition, congress will be asked to make provision to increase the number of chaplains so that every soldier, wherever stationed, may have full opportunity to receive the personal counsel, guidance and service of a chaplain. The army itself, it is believed, will welcome this, as the value of religion in the army is being realized more and more.

If things have to get as bad as they can be before they can get better, Europe soon ought to begin hitting.—Detroit News.

Recruits for the Chinese army must now show a three years' course in banditry.—Boston Transcript.

Uncle Sam is now living within his means, but, of course, he cannot expect all of his nieces and nephews to do likewise.—Indianapolis News.

Vesuvius is having a first-class eruption, proving that Italy continues to know how to attract sightseers.—Chicago News.

Science announces a new invention to make ships steady in rolling seas. What is it—the Volstead law?—Kansas City Times.

The federal prohibition agents working in New York state ought to be able to get in a little overtime from now on.—Indianapolis News.

With everyone grumbling about the high cost of living, it should not be forgotten that there is one commodity that has gone down in price rather than up. According to the United States Bureau of Labor, the cost of electricity shows a reduction of 2.4 per cent compared with its cost during the last half of 1924.

Racing has its legitimate literature, but the police get mighty particular about it once in a great while.—Pittsburg Gazette-Times.

Sir Thomas Lipton says he will send a yacht over for the America's cup next year, and, since there is nothing to put in it, why not let him have it?—Detroit Free Press.

Once our literature is made clean, perhaps somebody will devise a way to make it interesting.—Baltimore Sun.

The Atlantic ocean is big enough for several more Leviathans.—Boston Transcript.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Sheet of Water Protects Firemen

Ample protection is afforded the firemen of an eastern city with the adoption of an interesting type of fire-fighting equipment. The unit is mounted on a two-wheeled cart, so that it can be brought up quickly to be used against a fire at close range. The cart accommodates a fireman who sits in it, and is able to handle a powerful stream of water from a nozzle directly in front of him. A "gusher" pipe is mounted on the cart behind him, which sprays a curtain of water all around him, so that a

"safety wall" of water protects him and serves amply to prevent blisters and burns. The nozzle proper is mounted in a ball socket, so that it can be swung in any direction with equal facility. It can be connected to four, and even six lines of hose, and throws a stream of water 125 feet into the air.

"Knock-'Em-Dead" Rat Trap

A mechanical rat killer with a heavy spring and a rotating double hammer which strikes the animal on the head and throws him from 5 to 8 feet, is the latest in traps. This device automatically resets itself for the next blow, and two safety catches prevent accidental discharge. The rat is thrown away at once and leaves no odor to scare away other

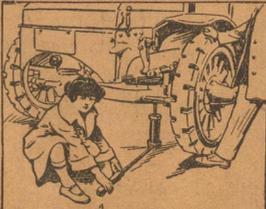

The trap is made in two sizes, one for rats and one for mice.

Drills Horizontal Holes Straight

Anyone who has ever used a brace and bit knows that in the drilling of horizontal holes there is a great tendency to raise or lower the brace a trifle while drilling, which, of course, results in the hole being drilled at an angle. To overcome this tendency, slip a large washer that is free from burrs over the bit so that it rests on the smooth shank. As soon as the bit is held at an angle the washer will travel one way or the other, and the workman can correct the fault instantly.

Bottled Fluid Can Lift Tons

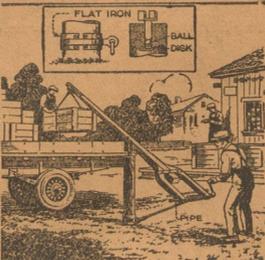

Sinbad's genii flask has been outdone in real life by the invention of an expanding fluid easily carried in steel bottles by a child. The power may be released by a valve and used with jacks or other lifting devices to raise street cars, autos, and heavy weights. It is estimated that the

power of the expanding fluid will raise 30,000 pounds in three seconds if properly applied.

A Simple Derrick for Farms

A handy and efficient derrick can be built in a short time from material found on nearly every farm. It consists of a discarded wagon tongue, pivoted on a fence post so as to revolve freely, and fitted with a simple winch for raising the load. An iron pivot yoke is forged to the shape shown, or one may be built up of flat and round iron. A hole is drilled in the post

top to accommodate the shank, an iron disk and a steel ball, taken from an old ball bearing, being set in the hole as shown, to make an easy-running bearing. The yoke straddles the tongue at its balancing point, a bolt being passed through a hole drilled in each. The winch consists of 1/2-in. pipe and fittings, and is arranged as indicated, the winch shaft passing through holes drilled through the ends of the "hounds." One end of a stout cable is securely fastened to the winch shaft, and the other end to an iron collar that is an easy fit around the bottom of the post. This collar is held in position by half collars above and below it, screwed to the post. Hooks or clamps to suit the load are suspended from the outer end of the tongue. A rod, sliding through the ends of the hounds, near the winch shaft, as indicated, is pulled out to keep the crank from revolving when it is desired to swing the load. With this arrangement it is possible for one man to operate the derrick unassisted.

BOY RESCUES INFANT FROM BURNING HOUSE

By Associated Press
 DALLAS, July 13.—Gale Warren, 14, rushed into a burning house and rescued the three-months-old baby of Mr. and Mrs. Harry Jopjoe. The boy noticed the house on fire, looked through a window and saw a baby on the bed, the mother having gone to a neighboring store. He smashed a window, crawled through and brought the baby out.

ALABAMA CLINGS TO HER CONVICT LEASING SYSTEM

MONTGOMERY, Ala., July 13.—Alabama's fight to abolish the convict leasing system in the state, the only remaining state in the union to lease convicts, failed today in the house by a vote of 54 to 22 for a resolution declaring that no further action on leasing of convicts would be taken at this session.

Come to ice cream party, Gus Coleman's lawn, Tuesday night; benefit Episcopal church.—Advertisement.

ALPINE A committee named by President H. W. Morelock of the Sul Ross Teachers' college here, is preparing plans for organizing a football team for the school this fall. Application will be filed with normal regents soon for a coach.

OIL WELL COMES IN NEAR GORMAN FOR GOOD PRODUCTION

Gorman oil men were "pepped up" yesterday with the coming in of a well on the Ross farm for a reported 600 barrels production. The well was drilled by the Magnolia Petroleum company.

DRY FORCES IN CONGRESS HAVE PROBLEM AHEAD

By Associated Press
 WASHINGTON, July 13.—Dry forces in congress are looking forward with much concern to a situation which seems likely to arise at the next session.

By a combination of circumstances the men now likely to become chairmen of the house and senate judiciary committees, which have charge of prohibition legislation are Senator Brandegee of Connecticut and Representative Graham of Pennsylvania, both of whom voted against the eighteenth amendment and who have refused to be counted with the drys.

FORMER PRESIDENT MAY BE CALLED AS WITNESS

By Associated Press
 WASHINGTON, July 13.—A subpoena for former President Wilson whose testimony may be sought in the government's trial against Charles W. Morse in connection with a war-time shipping contract, has been prepared at the request of counsel for defense.
 Morse's attorneys would not say if the subpoena would be served nor what line of testimony the former President would give.

Paris Views With Wonder American Palm Beach Suits

Special to the Times
 PARIS July 13.—Palm Beach suits have got Paris' goat. The blaze city where Raymond Duncan's pupils wander clad in simple tunics and sandals, where Algerian and Moroccan sheiks in bernouses and fezes strut about, and where the wildest Balkan costumes attract no attention, gapes in amazement at Yankees strolling in cream colored suits as cool as cucumbers.
 The present heat wave is the first time Palm Beach suits have been seen in number on the streets of Paris. Already three shops catering to Americans are showing Palm Beach cloth in the windows, offering to make suits in 48 hours for 1,000 francs (about \$63.)
 For the first time in 30 years the police permit kids to bathe and swim in the Seine.

White phosphorous is dangerous to workers in match factories that use it because it eats the bony structure of the human body.

Make your next cake with Mrs. Tucker's

AND notice how light, how soft and tender it is. Cake made with Mrs. Tucker's Shortening is never coarse and heavy as so often is the case if you use lard. And Mrs. Tucker's cake stays fresh considerably longer than one made with ordinary shortening.
 Mrs. Tucker's is a fine vegetable shortening, absolutely pure, rich and wholesome. You have only to see it to appreciate its snow-white purity. And you need only use one pail to realize the economy and the superiority of Mrs. Tucker's for all shortening purposes.
 Mrs. Tucker's is a southern product. Be sure to get the blue pail with Mrs. Tucker's picture on it.

Mrs. Tucker's Shortening
 Made exclusively of choice Cotton Seed Oil. The South's own cooking fat.

GERMANY LOSES 187 SUBMARINES IN WORLD WAR

First Authentic Report Shows
5,364 Officers and Men Also
Lost Lives.

By Associated Press
WASHINGTON, July 13.—One hundred and seventy-eight German submarines were "lost in action" during the war, according to an official report just received by the naval department. The loss in personnel is given as 5,364, of whom 515 were officers. These figures are believed by officials here to be the first authentic information on this subject to be obtained. Four years were consumed, the author of the report asserts, in checking official records and interviewing members of the German admiralty who had charge of under-sea craft.

Depth charges accounted for 37 submarines, fixed mines for 36, fights with enemy submarines 20, engine and other trouble 14, torpedo boats, destroyers and subchasers 13, accidental ramming eight, armed fishing craft six, airplane (bombing) six, and submarine nets six. Twenty-one submarines were demolished or otherwise disposed of to prevent their capture by the enemy. Three were sunk by regular patrol vessels of the enemy, three by armed auxiliaries, two by cruisers and two by artillery fire from the shore. One was sunk by a liner at the entrance to the British main base of Scapa Flow, the famous U-29 under Capt. Weddigen.

A chart accompanying the report shows that 56 of the under-sea boats were lost in the English channel, 26 in the North Sea, 16 in the Mediterranean, 16 on the East coast of England, 12 off the Dutch coast, three near Heligoland, two in Scapa Flow, and the remainder in far-separated spots in the world's oceans.

Of the boats interned before the German fleet was delivered to the allies, the report says, five were sold to Spain and two to Holland while 14 were demolished.

Inspection of the boats of ship-building firms holding contracts showed that 281 submarines had been delivered and 197 were under construction when the armistice was signed.

Henry Ford Is Threatened With Suit for Libel

NEW YORK, July 13.—Herman Bernstein, editor of the Jewish Tribune, has announced that he had retained Samuel Untermyer to institute a libel suit against Henry Ford. The basis of the action will be an article in the Dearborn Independent which, according to Mr. Bernstein, charged Bernstein with being a "spy" of the "mythical combination of international Jewish bankers."

In a letter to Ford, Bernstein said he would wait 10 days to give Ford an opportunity to accept personal services in the suit. Bernstein made it clear that in launching the action he did not seek any result other than vindication. It was indicated the editor, as part of his suit, might give Ford an opportunity to defend his attitude with respect to Jewery.

"In an issue of the Dearborn Independent of Aug. 20, 1921," wrote Bernstein, in explanation of his suit, "you published a scurrilous and libelous article concerning me, in which I was represented, among other things, as a sort of spy in the service of your mythical combination of international Jewish bankers against whom you have been directing grotesque assaults based upon a tissue of fabrications that indicate an extent of ignorance and imbecility and of race hatred and bigotry that are beyond human understanding."

CLUB BOYS AND GIRLS OF FOUR COUNTIES IN CAMP AT EASTLAND

Special to the Times.
EASTLAND, July 13.—Boys and girls clubs of four counties, Eastland, Stephens, Comanche and Erath, started off the day with a course in poultry instruction. Then there was a parade and some yells at 9 o'clock. E. S. Pritchard gave an address of welcome and he was followed by A. L. Burge, secretary of the Eastland Chamber of Commerce. Mrs. W. K. Jackson gave a short talk. A response was made by Archie Spruill. The visiting boys and girls were the guests of the chamber of commerce at luncheon.

This afternoon the boys and girls went to Cisco on a sight seeing trip. There was competitive poultry judging early in the afternoon.

Each club will prepare its own supper tonight.

Tomorrow morning there will be a song and yell practice at the park. There are prizes for winning essays on certain subjects, for the best stunt put on by a club and for highest score in poultry judging. All the prizes will be awarded Saturday afternoon.

Local Discontent Keeps Poppinig Up In Soviet Russia

MOSCOW, July 13.—Few and perhaps unimportant as they are, just enough counter revolutionary acts and plots have been revealed in Soviet Russia in the last few months to indicate that, on the one hand, all opposition to the Bolshevik regime has not died down, and, on the other, that the communist government may be justified, from its standpoint, in maintaining semi-martial law in some districts.

Americans and other foreigners who spend a few weeks or months in Russia and find everything moving forward apparently smoothly under the communist dictatorship, sometimes go home and report that everybody is contented with the present state of affairs. This seems true in Moscow and other central Russian cities, but a careful day-by-day perusal of the official newspapers shows that every now and then a plot pops up, and that an undercurrent of opposition, weak but persistent, is running beneath the surface in many provinces.

One reads laconic announcements that two persons have been shot here, another there, some more in another place, for counter revolutionary activity or participation in "banditry." This in the Ukraine and Cossack regions is just another name for roving armed opposition to the red army.

Once in a great while come announcements of more important plots such as the one recently discovered in Georgia. This resulted in the execution of 15 persons and had as its aim the separation of the entire Caucasus from Soviet Russia.

These counter revolutionary activities are nothing like as widespread as a year or two ago, but they are sufficiently important to keep the secret police and red army constantly on the watch.

Plain Facts About Ice

—We have built an ice plant in Ranger big enough to serve a town twice the size of Ranger, and, at best, we can only hope to sell half our capacity at home.

—We pay our taxes here, help support all civic organizations and have always been ready to contribute to movements for the public good.

—WE HAVE NO PROTECTION WHATEVER IN THE WAY OF A FRANCHISE FROM THE CITY. Anybody with a dollar and a desire can go into the ice business.

—When we took over the delivery of ice we made reductions of from 11c to 25c per hundred pounds. And, mind you, this was VOLUNTARILY—we did not have in sight one penny's reduction in the cost of manufacture. We were paying boom prices for water, fuel, taxes and everything else.

—We installed an ice scoring machine at considerable expense to protect our customers from being short-weighted.

—We painted every wagon and truck on the job so that Ranger could boast of having the best looking ice delivery equipment in this part of the state.

—We set a standard of service that is not surpassed in any town in the state.

—You cannot deny that we have fulfilled every part of our obligation to the National Association of Ice Industries, namely, GOOD ICE, FULL WEIGHT AND GOOD SERVICE.

NOW COMES THE QUESTION OF PRICE.

—In most lines of business a few cents per pound is considered a FAIR PROFIT. But in the ice business we have to furnish you the ice, give you "year round" service and get our profit out of a total of LESS THAN A CENT A POUND.

—But the question with the home plant is always "who will you depend on to serve you during the eight months of the year that it is unprofitable to handle ice?" If the home plant could shut down and cut off all expenses at the end of the profitable season and not open up until it became profitable again, things would be vastly different in the ice business. But such is not the case.

—There are many who have to use ice all fall, winter and spring, and they expect to pay the same price the year round. If we charged them what it cost us to make and deliver it in the winter months they could not afford to pay it.

—We do 68 per cent of our years' business in the short space of four months—the other 32 per cent is scattered over the remaining eight months with some months running as low as 1.25 per cent.

NOW—AFTER READING ABOVE, ANSWER THIS

—Are you doing us right when you DEPEND on us all the year, take advantage of our service when you have to, sleep peacefully at night secure in the knowledge that if the other fellow is out of ice we will have a plenty, and then go out and buy ice shipped in from some far-off land, you running the risk of short-weight and sending the biggest part of your ice money out of circulation as far as you are concerned?

Eighty-Four Cents Out of Every Dollar
We Take In Is Spent In Ranger.

We are the only Ice Company out of the five here during the boom who has ever stayed through the winter months. And you have no guarantee that we will not keep this reputation.

SPORTS

FIRPO WINS IN 8TH ROUND; BIG JESS POPULAR

Crowd of 100,000 Persons Sees Fight; Cheered for De-feated Fighter.

Special to the Times

JERSEY CITY, July 13.—Louis Firpo, Argentinian challenger to the title held by Jack Dempsey, won from Jess Willard last night in the eighth round. It started with a terrific right to the jaw of Willard. Scouting victory, Firpo followed up with two crushing jabs to the stomach of Willard. He went down and at the count of 10 was still on the floor trying to raise himself up.

A crowd of 100,000 persons saw the fight. Firpo, the first to enter the ring, received a good ovation. He was wearing a checkered bath robe, described as the marvel of the ages. Willard stepped through the ropes a minute later, wearing a pair of dark green tights and a white cord around his waist. He wore an old, gray coat over his shoulders. He received a tremendous ovation, exceeding that given to Firpo.

The crowd was plainly for Willard. When Jess lifted Firpo from the ring in the third round the crowd cheered frantically. Louis was wild in many of his punches, missing fire frequently. He used boring tactics frequently. Willard would stop him with his left.

DEMPESEY COMMENTS ON FIRPO-WILLARD FIGHT

By United Press

LOS ANGELES, July 13.—Jack Dempsey, heavyweight champion surveyed with some surprise today announcement of Luis Firpo, of the Pampas, as the logical contender for the championship.

"I thought that if Firpo was going to get him he would do so in the first five or six rounds," the champion said, commenting on Firpo's victory over Willard in last night's bout. "Jess apparently could not get into such good condition as he thought possible. This was shown by the way he took the count on one knee. He was practically all in physically and could not pull himself into an upright position."

RECORD CROWD GATHERS TO SEE GIANTS IN RING

By Associated Press

NEW YORK, July 13.—The "second battle of the giants" passed into prize ring history last night and wrote a new record for fight crowds anywhere in the world. More than 100,000 fight fans thronged the ring-side last night to see Luis Firpo of Argentine knock out Jess Willard in the eighth round, and about 25,000 more were turned away in the last hour's rush for the gate.

Willard's share of the gate receipts is announced at about \$120,000 and Firpo's share at about \$80,000. Firpo this morning looked fondly at the contract he had agreed to with Tex Rickard to fight Dempsey for the heavyweight championship.

AMERICAN OUT-DOOR GAMES NOW ARE PLAYED BY CHINESE CHILDREN

By Associated Press

NEW YORK, July 13.—Chinese schoolboys playing baseball on the lot, or lining up for football practice in the school yard, would probably make an unexpected picture with which to replace our American fancies of oriental children in always staid and decorative poses.

But these are the games which Chinese boys do play, more than any others, according to Dr. Hou-Ki-Hu of Nankin, China, who is studying in this country on a fellowship of the International Health board of the Rockefeller foundation. As part of his field work toward obtaining the degree of Doctor of Public Health from Johns Hopkins university, Dr. Hu is now engaged in making a study of the work of the American Child Health association, a national organization working for the improvement of methods and standards of child health care, with a staff of health and educational experts engaged in research and practical demonstrations throughout the country.

"Before American games came with the Americans into China," Dr. Hu says, "Chinese children did not play—at least not in your sense of play. My grandfather and my father did not play games and the games I learned when I was a boy in school were American sports."

"Little girls in China used to sew and learn household tasks, but they had no active games. Now Chinese children play like children in this country. They have learned how in the American schools, and through American workers who have brought your kind of play to the children of China."

BONHAM.—Grief over the loss of her son, two years ago, is believed to have caused the death of Mrs. L. C. Penwell, 68, here.

WASHINGTON U'S VICTORY SHOWS GENERALSHIP

By PAUL R. MALLON, United Press Staff Correspondent. NEW YORK, July 13.—Courage—the kind that made David whip Goliath, Daniel brave the lions' boat-house and Napoleon fight forever—is the heading on the chapter in rowing history which records the recent victory of the University of Washington in the intercollegiate regatta at Poughkeepsie.

The crew from Puget Sound made a 3,000-mile trip across the continent to the Palisades, only to find a few days before the big race that fate was working against them. Foe Walling, the start stroke, got a scratch on his knee. The doctors scented blood poison. There were hasty consultations and it was finally decided that he might row, thought his knee was pained and stiff.

Walling rowed all right. He pulled his boat ahead at the opportune moment in the second mile, kept it there and then fought off the Navy in a desperate finish. It was a fitting setting for the great scene. A misty, discouraging rain blew from the east and the gloom of night was settling over the giant palisades, which shadow the Hudson. Just before the race Washington was not considered to have more than a ghost of a chance.

With Walling in excellent condition, the Washington crew was not considered more than a "dark horse." But that didn't worry the westerners. It seemed they had planned to win this particular race and they didn't care much whether the fates

were with them or not. They were going to win anyway. They planned every move out in detail. They fixed it so the coxswain would wave a little red flag when they held the lead and avoid the situation which developed last year, when they were unable to hear the coxswain and let the Navy steal the race from them in the last few yards. The signal worked perfectly and helped them immeasurably when the Navy crew started its sprint down the stretch.

But all the plans and red flags in the world wouldn't have done them any good, if they didn't have the red-blooded determination of thoroughbred sportsmen to fight all odds and win. Their feat will live forever in rowing history as an example of what a man can do if he wants to.

SNAPPERS TO HAVE HOLIDAY SUNDAY FROM WORK ON DIAMOND

Leeray will not come here Sunday. The Snappers management today cancelled the game and will give the players a holiday. The club was unable to complete arrangements to bring a team of high caliber here Sunday and finally negotiated with some baseball men of Leeray, who said they would like to bring a team down here. The Snapper club was later advised of the team's standing and the game was immediately cancelled.

The next game will be next Wednesday, when the Snyder Tigers, who are out on a road trip, will be here for one game. The Tigers are coming a great distance to meet clubs in Stephens and Eastland counties, and are traveling on a reputation made in this and other seasons.

COW AND CALF IN DETROIT ZOO ATTRACT CHILDREN OF THE CITY

DETROIT, July 13.—An ordinary cow and calf are the prize exhibits at the Detroit zoo. The cow and calf were given honor pens in the zoo when 1,750 children in three schools here declared they had never

seen an honest-to-goodness milch cow. When news that so many children had never seen a cow was published, a kindly dairyman presented "Princess" and her month-old calf, both Holsteins, to the city. Seeing that each student visited the zoo for a glimpse of the cow and calf is one of the duties of Detroit's school teachers.

ELLIS.—Acting in response to a petition signed by scores of citizens, the commissioners' court has ordered a special election for July 30 to provide a bond issue of \$750,000 for the construction of roads. England has grown from 8,000,000 to 32,000,000 in 100 years, representing the natural increase of the native population.

D. 1923, the same being the 6th day of August, A. D. 1923, then and there to answer a petition filed in said court on the 7th day of July, A. D. 1923, in a suit numbered on the docket of said court as No. 10,195, where in Beatrice Horn is plaintiff, and Bishop M. Horn is defendant, and said petition alleging that plaintiff and defendant were lawfully married on January 31st, 1919, in Lamar county, Texas; that they continued to live together as husband and wife until about the 25th day of December, 1921, when, by reason of the cruel and harsh treatment and improper conduct of defendant toward plaintiff, she was forced and compelled to permanently abandon him; that defendant applied the most opprobrious and vilest epithets and abused this plaintiff and that just prior to their separation struck her with his fist; that said marriage relations still exist and that their further living together is insupportable, the premises considered. Plaintiff prays that said marriage be declared null and void and for her maiden name restored to that of Beatrice Smith, and for costs of suit.

Herein fail not, and have before said court, at its aforesaid next regular term, this writ with your return thereon, show how you have executed the same. Given under my hand and the seal of said court, at office in Eastland this 7th day of July, A. D. 1923. (seal) ROY NUNNALLY, Clerk, District Court, Eastland County. By WILBOURNE B. COLLIE, Deputy.

A Chance for Every Reader to Get a New Bible

Main Drag Stuff BY P. G. T.

We drove over to Eastland, a suburb of Ranger, the other night in one of Maurice Leveille's "Baby Lincolns." The perfect brick road was crowded with cars and some one mentioned that Eastland county must have one-way roads pretty soon. Maurice said that the last time he was in Detroit he found himself driving the wrong way on a one-way street. A six-foot policeman stopped him and bellowed, "Hey, don't you know this is a one-way street?" "Well," answered Maurice (or an expression that sounded like that) "I'm only driving one way, ain't I?"

Speaking of suburbs, we believe the most mysterious suburb of Ranger is Thurber. On our last trip over there we saw several large and expensive cars parked beside the dreariest looking shacks in the world. A man who was dressed like the chauffeur of a trash wagon seemed to be giving orders to the well attired people in one car. He talked a Latin or Spanish dialect. The well dressed people followed his orders and later we saw them, apparently extremely happy at having done good work, their car laden with sacks that appeared to be full of old iron or bottles. Can any one tell us why wealthy people should demean themselves to become errand boys for such a poorly dressed man? It's too deep for me. You figure it out.

Barbers are retailing to the trade a new hair cut that they call either "some back" or "comb back." One name or the other is very appropriate. The front hair combs way back to the nap of the neck and you have to come back about once every three days to keep it from touching the shoulders. They slipped one of those over on me when I was asleep in the barber chair the other day and I feel like a little white woolly dog. Am going to have a regular old-fashioned army hair cut as soon as I can raise the four bits. This is a great game for the barbers, but tough on the unsuspecting public.

Confectionaries are handling a new piece of nickel goods called "Soul Kiss" that is becoming quite popular. We hadn't heard about the things in our store until yesterday and the boss got some while I was out. About 3 o'clock in the afternoon a keen lady walked in and asked for a "soul kiss." Cupid knows I wanted to give her one, but I didn't know we had 'em in the store and personally didn't have the courage to give her the kind I hoped she asked for.

P. S.—She was a perfectly strange lady.

Have you noticed McGurk's snappy drawings of the female inhabitants of the Island of Patootie? If he draws 'em any better there will be no need for beauty choruses in the musical shows around this country next season.

Remember the old days of the stereoscope (before flivvers were popular) when you could sit in the parlor with your best girl and look through one of those instruments and see life-

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

"SHOP OF SERVICE"

like pictures of Niagara Falls, etc.? Well, one of the film companies is putting out a folding pocket stereoscope with views of "The Hunchback of Notre Dame" to all their exhibitors. Bill Palmer has one and these "stills" surely look life-like. Seems as though you could walk right into the picture if it was big enough. Bill says that some day, not far off, the stereoscopic idea will be applied to the screen, then the movies will look more natural than the stage ever dared to. If wine and beer and hard "tikker" are prevalent in the United States when these natural movies are working it will be a common occurrence to see some inebriate try to mix up in a battle with Jack Hoxie, Doug, or other athletic film stars. They'll have to invent invisible bars to put in front of the screen to keep the audience from mixing in with the picture. Who says the age of invention is over?

Manitoba Votes Against Sale of Wines and Beer

WINNIPEG, Canada, July 13.—Manitoba province voted against the sale of beer and light wines in public places by a majority of about 32,000, according to final returns from a recent referendum voting. The question was whether hotels might be permitted to sell light beverages with meals.

The question of governmental supervision recently was voted in the affirmative by more than 35,000 majority and this will be made effective when the legislature meets.

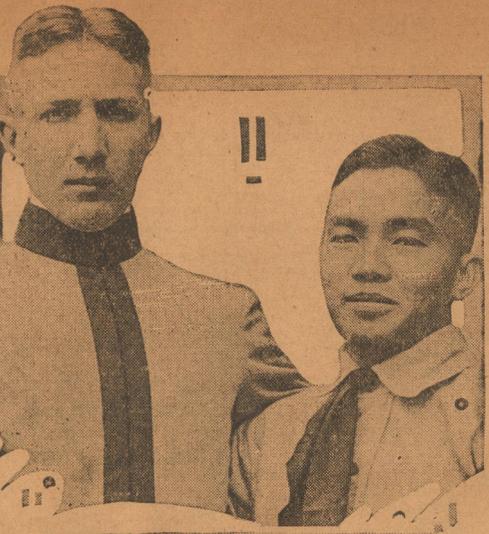

SALVATION ARMY LEADERS ARRIVE TO WORK HERE

Capt. and Mrs. J. W. Batson, who took charge of the Ranger post of the Salvation Army, following the transfer of Ensign and Mrs. George to Denison, today were getting acquainted with their new surroundings and work. The Batsons arrived here about 3 o'clock yesterday afternoon from Corsicana by auto, driving through by way of Dallas.

WIFE BECOMES DUMB AND HUSBAND DEAF, TEMPORARILY

BEAUMONT, Texas, July 13.—Shocked by a bolt of lightning which struck their home about 8:30 o'clock one night, Mrs. L. L. Robichaux of this city was made speechless until 6 o'clock a. m. recently and her husband was made deaf until 1 o'clock in the morning. Attending physicians said neither would suffer permanently.

FUNSTON AND AGUINALDO MEET AS FRIENDS

Frederick Funston Jr. + Emilio Aguinaldo Jr.

Twenty-five years ago Frederick Funston, Sr., then a Brigadier General, penetrated into the mountain fastness of Luzon, with two white companions and some loyal Filipinos, and by daring strategy captured Emilio Aguinaldo, "president" of the Philippines, and leader of the revolt against the American army. Today Frederick Funston, Jr., and Emilio Aguinaldo, Jr., sons of the two men, have just entered the United States Military Academy, at West Point, New York, as plebe cadets and sworn friends.

Tiny Asteroid "Aurora," Pulled And Hauled by Jupiter and Saturn, Giving Astronomers Lot of Trouble

BERKELEY, Cal., July 13.—Dr. A. O. Leuschner, professor of astronomy at the University of California here, Dr. H. Thiele, an assistant astronomer of Lick Observatory, and a number of advanced students have started a computation on the tiny asteroid "Aurora," which was lost to the scientific world for 12 years. An effort is being made by the University of California to solve the motion of Aurora.

The little body, one of the several hundred minor planets which revolve about the sun between Mars and Jupiter, has given astronomers much trouble since its discovery a quarter of a century ago. Although a considerable amount of computing has been done on the asteroid's orbit errors were made many years ago which resulted in the asteroid's becoming "lost" for 12 years.

Several years ago it was rediscovered at some distance from the point where calculations predicted it should be. Working with data resulting from observations of Aurora since her rediscovery, University of California astronomers have been able to detect important errors made by German astronomers years ago.

The problem, local astronomers state, is one of considerable difficulty because of the nearness of the asteroid to Jupiter and Saturn, two mighty bodies which are continually pulling Aurora out of the path laid down for it by the sun. It is to the calculations of the effect of these disturbers that the work is being directed by Professor Leuschner and months of mathematical work will be required before the problem of Aurora's motion is solved, the professor states.

LOCKHART.—Eighty-five descendants of the late Robert A. Brown attended the semi-annual reunion of the Brown family of Caldwell which was held at Brownsboro recently. The day was spent in recounting family experiences.

Poses As "Blind" Beggar in Daytime, Spender at Night

SIoux CITY, Iowa, July 13.—"Blind as a bat" in the daytime, while he begged on the streets and sold pencils, but a gay Lothario at night, riding in his high priced automobile and frequenting the places where "liquid refreshments and women" were on the program, is the picture painted by the police of C. S. Hannum, who, with his smoked eyeglasses, has been a familiar figure on the streets here for years.

Arrested in a raid on a disorderly house he appeared in court immaculately dressed. The usual fine for such breach of conduct is \$15, but in Hannum's instance the court made it \$100. Hannum, unperturbed, peeled five twenties from a great round roll and walked out a free man.

On the witness stand Hannum admitted owning several rooming houses in Omaha from which he derives a substantial income.

RANGER MEN INVITED TO PARTICIPATE IN GUN SHOOT

Doctors Harry A. Logsdon and Walter Jackson have been invited by the Cisco Gun Club to take part in the club's gun shoot this evening. Both men will attend.

Love-birds lay their eggs on a single branch of a tree and the little birds when hatched remain there until ready to fly.

A frame building which was an old Quaker meeting house at Easton, Md., is said to be the oldest of its kind in the United States.

OLD SPANISH CANNON GIVEN TO THE ALAMO ASSOCIATION

SAN ANTONIO, July 13.—The Alamo association has been presented with an old Spanish cannon, said to have been used by the Spanish in their defense of the Alamo against Mexicans in 1836.

W. H. Maverick, the oldest living native of the city, gave the cannon to the association.

The gun was found by Maverick's father in 1851 while excavations were being made for the Maverick home, where the Gibbs building stands at Houston street and Avenue D. The cannon measures nine feet long and has an outside diameter of six inches at the muzzle. It is typical of the class of heavy artillery used by the Spanish in their conquest of the western hemisphere.

Maybe You're a Good Cruesser

—but you've seen shell games and you don't bite.

Well, what about those little valve cups that have to stand the grind of your oil pumping, and cost so much in valuable time and labor when they wear out? Which one is the quality under? You don't need to guess—you know!

Genuine Darcova Valve Cups have the Darcova quality and give Darcova service—others don't. Look for the label, and tell your dealer that nothing else will do but

SURE IT DOES GOOD

Theford's Black-Draught Liver Medicine (Vegetable) Praised by the Head of a Louisiana Family.

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine."

"We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unhealthy matters out of your system.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known as the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

MYSTERY IN IRENE CASTLE'S DIVORCE SUIT

Irene Castle and Capt. R. E. Treman

Irene Castle Treman, widow of the late Captain Vernon Castle, has instituted divorce proceedings, in Paris, against her second husband, Captain Robert E. Treman, wealthy Ithaca, N. Y., manufacturer. Considerable mystery surrounds the affair, for after the divorce suit was filed she was found dining in Paris with her husband and denied she had authorized the filing of the suit.

at loss as to how the wound should be treated.

The ship's wireless operator was asked to flash a call to some passenger ship carrying a doctor and within a few minutes the Calimeris, a United Fruit company vessel en route to Havana answered. The doctor, through the ether, gave instructions to Captain King and the wound was successfully treated. The man was placed in a hospital at Vera Cruz to recuperate.

WAR ON TOY BALLOON.

LOS ANGELES.—The toy balloon man is about to become extinct here. The city council has passed an ordinance prohibiting the sale of toy balloons if filled with inflammable or explosive gas. Many children, it is said, have been injured by the explosion of this variety of balloon.
