

West Texas—Tonight and Friday, partly cloudy, probably showers in north portion, cooler in extreme southeast portion.

What are the aims which are at the same time duties? They are the perfecting of ourselves, the happiness of others.—Kant.

WYOMING RIVER IS DAMMED BY BIG LANDSLIDE

WYOMING RIVER IS DAMMED BY BIG LANDSLIDE

Tumbling Mountain Creates Huge Lake Which Submerges Property Causing Big Loss

CHEYENNE, Wyo., June 25.—Three huge ranches, each totaling 300,000 acres, were completely submerged by the lake formed when a giant avalanche completely dammed the Gros Ventres river, 20 miles east of Jackson, Tuesday, according to messages reaching here today.

CHEYENNE, Wyo., June 25.—A great landslide has dammed the Gros Ventres river in northwest Wyoming, according to reports. The first report said that hundreds of acres of timber had been buried beneath the tumbling mountain and the slopes of a national forest had been laid bare by the rush of rocks and boulders.

'More Cotton on Fewer Acres' Contest To Close August 1

DALLAS, June 25.—In order to afford every Texas cotton grower opportunity to enter the state-wide "more cotton on fewer acres" contest final date for entry has been set for Aug. 1. This will give all those farmers a chance to enter who got a late start in planting their cotton and who thought they were out of the running.

It does not matter what shape the field is in. If a creek or ditch runs through the field that will make no difference as long as both sides can be measured just so that there are five acres, no more, no less.

E. V. SPENCE IS CHOSEN SAN ANGELO CITY MANAGER

SAN ANGELO, June 25.—E. V. Spence, for three years mayor of Alice, has been employed as city manager of San Angelo, succeeding Ernest I. Jackson, resigned. He will assume his new duties July 1. Spence is a civil engineer, graduating from Texas A. & M. college in 1911. He was an officer in the engineering corps during the world war, and has since taken a course in city management.

WOULD-BE NOTARY PUBLIC HAS BIT OF BAD LUCK

AUSTIN, June 25.—Misspelling of the name of Clarence O. (Big Boy) Kraft, retired Texas league baseball home run king, in the confirmation by the senate of his appointment as a notary public, has resulted in a complication which may only be worked out by resorting to the courts, according to State Senator Robert A. Stuart, of Fort Worth, who was in Austin today.

LUBBOCK—Texas Technological college under construction at cost of \$1,000,000, expected to be finished for opening classes in September.

Greece In Throes Of New Revolution

ATHENS, Greece, June 25.—A new revolution has broken out in Greece and the cabinet has resigned. The president has asked M. Papanastasiou to form a new cabinet. Papanastasiou undertook to form the cabinet in collaboration with General Panagios as war minister.

Ambassador Sheffield Will Carry Note to President Calles

WASHINGTON, June 25.—American Ambassador Sheffield will soon depart for Mexico City with a note to President Calles that is expected to close the "Mexican incident," which created such a furor in diplomatic circles last week, it was learned today.

NEW YORK, June 25.—James R. Sheffield, American ambassador to Mexico, was operated on at St. Luke's hospital here today. The operation was pronounced successful.

DEFENSE DAY, WHY IT IS AND WHAT IT DOES

Annual Conference of Citizens To Prove Strength of Armed Reserves.

By Capt. Leonard Withington, 179th Infantry Brigade, 90th Division.

What is Defense Day, and why? It is an annual observance—this year on July 4—for the following purposes: 1.—To emphasize the responsibility of the individual citizen for his share of the national defense under the American idea of democracy.

It is the direct descendant of the annual "muster day" of our colonial and early national days when the organized and unorganized militia met one day a year for the same purpose.

It is not a military gesture, it is not militaristic propaganda, it is not a threat. Practically all other nations have great military maneuvers simulating warfare of the various kind no one takes them as special threats against anyone.

It is our first demonstration of real faith in democratic defense in a democratic republic.

RAILWAY MERGER ARGUMENT YET IS BEING HEARD

WASHINGTON, June 25.—Additional voluntary consolidation of railroads will be encouraged by the proposed Van Sweringen plans, W. J. Cunningham, transportation expert of Harvard University, told the interstate commerce commission today.

YOUNG MAN FOUND DEAD

PLAINVIEW, June 25.—Owen Bryan, a young man employed on the Wright farm near here for several weeks, was found dead in the pasture late yesterday, a shotgun being near the body. His home was in Groom, Texas.

PETITION FOR REFERENDUM IS BEING SOUGHT

Must be Filed in Oklahoma Tonight to Prevent Pending of Repeal Anti-Evolution Law

OKLAHOMA CITY, June 25.—Unless the petition with the required number of signatures is filed with the secretary of state against the free text book law before midnight tonight, Oklahoma will not have an anti-evolution law. The free text book law repealed by the last legislature carried with it a clause stating that books advanced the theory of evolution could not be used in the public schools.

Colorado Educator Ridicules Tennessee Anti-Evolution Law

BOULDER, Colo., June 25.—Public education in America is seriously menaced if the Tennessee doctrine gains ground that truth may be fixed by a court of law. Dr. George Norlin, president of the University of Colorado, told 3,000 summer school students here.

Students In Summer Have Classes Mostly During the Morning

Special Correspondence. AUSTIN, June 25.—In order that more work may be covered in each course, classes meet five times a week during the summer session of the University of Texas, as compared with the schedule of classes three times a week during the long session.

Ranger Plans For Handicap Gun Shoot In Ranger July 4th

A handicap shoot for the Fourth of July celebration will be held by the Ranger Gun club. All members of the club are urged to attend the shoot to be held tomorrow afternoon at 4:30 o'clock at the Ranger Gun club range.

BRECKENRIDGE MAN IS GIVEN AN APPOINTMENT

AUSTIN, June 25.—Earl Callaway was today appointed chief clerk of the oil and gas division of the railroad commission. He was formerly tax collector of Mitchell county and later served as deputy clerk in the court of civil appeals at Fort Worth.

DONALD LOWRY, NOTED CONVICT-AUTHOR, DIES

PHOENIX, June 25.—Donald Lowry, noted convict-author of San Francisco, and formerly of Dallas, died at a private home here last night, 10 days after his release from the penitentiary.

MEXICAN BANDITS SHOOT UP TOWN IN STATE OF SONORA

NOGALES, Ariz., June 25.—Several Chinese were killed and considerable loot carried away by bandits who entered Magdalena, Sonora, and "shot up the town," according to advices received here today.

COMPANY PLEADS GUILTY TO DEFAUDING RAILROADS

NF W YORK June 25.—The Universal Car Loading and Distributing Company was fined \$20,000 today after pleading guilty of violating section 10 of the Interstate Commerce Commission Act regarding false billing of goods. They entered a plea of guilty of defrauding the Michigan Central and Lehigh Valley railroads carriers of goods shipped by the company.

BULLETS FIRED INTO SPEEDING CAR WOUND MAN

M. V. Rumph Fatally Shot In Fort Worth By Motor Cops Stopping Automobile.

FORT WORTH, June 25.—W. V. Rumph, 30, was fatally wounded here last night when motorcycle policemen fired upon a speeding automobile in a downtown section. Two bullets punctured the gas tank and a third went through the rear curtain, striking Rumph in the head. Three other men in the car were arrested.

Kansas Jail Guarded To Prevent Rescue Of Band of Gunmen

CONCORDIA, Kan., June 25.—Extra guards were stationed around the county jail here today where five Kansas City gunmen and Charles B. Davies are held, following their arrest on charges of assault to kill in connection with the alleged plot to slay Mrs. Davies. Davies, a retired merchant and prominent clubman, confessed that he hired the bandits to kill his wife. He is held in \$10,000 bond.

Kansas City Alarmed By Report of Band Of Flying Yeggmen

KANSAS CITY, Mo., June 25.—Local police developed "cricks" in their respective necks today scanning the sky for airplane bandits who didn't exist. A telephone report from officers at Marion, Kan., 200 miles southwest of here, told of two daring bandits swooping down on the town of Lincolnville near there in a "big white" airplane, robbing the bank of \$300 and soaring away into the sky.

Ranger Boy Scouts To Have Important Meeting Friday Night

Ranger Boy Scouts will hold their regular weekly meeting tomorrow night at 7:30 o'clock sharp at the Methodist church. All scouts are to attend in uniform if possible, Scoutmaster Bailey said.

Proclamation by Mayor Hodges to Suspend Business In Ranger July 4

Whereas, the national independence day, July 4, is and should be celebrated throughout the nation as a national holiday, on which all business is suspended and the people join in the proper observance of the anniversary of the signing of the Declaration of Independence of the United States, and

ITALY WANTS EASY TERMS IN DEBT SETTLEMENT WITH U. S.

WASHINGTON, June 25.—Italy will seek better terms with the United States than were granted Great Britain. It was indicated here today as Ambassador Martini opened parleys with the debt funding commission. Where the British obtained interest rates at 3 per cent for the first 10 years and 3 1/2 per cent for the succeeding 52 years on deferred payments, Italy believes her financial condition warrants something easier.

THIRTY-FIVE PRISONERS ESCAPE FROM PENITENTIARY

AUSTIN, June 25.—While pardons by the governor are running high, escapes continue at the state penitentiary and state farm, according to the monthly report of the state prison commission, received in Austin today. The total number of escapes last month was 35, including two from the Neff honor farm. One convict on parole and two on furlough escaped.

RADIO PROGRAM

Radio programs are announced for tonight as follows: Fort Worth, station WBAP, 475.9 meters. 7:30 to 8:30 p. m.—Classical concert arranged by Miss Helen Brandeis. (C.B.L.) 9:30 to 10:45 p. m.—Lone Star Four Male Quartet. (W. E. B.) Dallas, station WFAA, 475.9 meters. 6:30 to 7:30 p. m.—Carl D. Green and his orchestra, a violin choir. 8:30 to 9:30 p. m.—Wednesday morning chorus club in recital of popular airs. 11 p. m. to midnight—Jefferson theater entertainers. Midnight to 1 a. m.—Harry Hunt's imperial orchestra, from Lake Cliff pavilion.

LAWYER DENIES GUILT PROVED BY EVIDENCE

Shepherd's Attorney Tries To Ridicule State's Case and Criticizes Miss Pope.

CRIMINAL COURTRoomS, CHICAGO, June 25.—"Charges that William D. Shepherd murdered Billy McClintock are flimsy and ridiculous," William Scott Stewart, chief defense counsel, declared today in his argument for acquittal. Step by step he went over the state's testimony and laughed it off as insufficient to find his client guilty.

Ranger DeMolays Elect Officers For Next Three Months

Officers for the ensuing three months term of office of the Ranger chapter Order of DeMolay were elected last night at the regular meeting in the Masonic hall. In addition, two representatives were elected to represent the Ranger chapter at one of the four national DeMolay camps this summer and degrees were conferred on seven new members from Desdemona. Rex Thomas was elected master councillor; Jack Galloway, senior councillor; Clay McCoy of Desdemona, junior councillor. The rest of the officers being appointive, a list will be announced later, the new master councillor said.

SHANGHAI STRUGGLING IN FOURTH WEEK OF STRIKE

SHANGHAI, June 25.—The city of Shanghai is struggling through its fourth week of the strike with all business paralyzed. A majority of the able-bodied men in the foreign settlement are members of the volunteer police reserve and patrol the city every night. The center of violence is said to have shifted to Hong Kong.

MacMillan Agrees to Carry Naval Radio

WASHINGTON, June 25.—Commander Donald MacMillan today wired the National Geographic society, backers of his expedition, that he was entirely in accord with Secretary of the Navy Wilbur and his desire to assure the safety of the accompanying naval flyers and would load the standard radio equipment as requested.

SPLENDID RAIN WILL BENEFIT FARM CROPS

A splendid rain, varying from an inch to an inch and a quarter, fell over a good portion of Eastland county Wednesday afternoon. According to reports from other sections of the county, the fall was heaviest at Eastland. Flatwoods, Carbon, Gorman and Hilborn communities report good rains. The rainfall was accompanied by a strong wind from the northeast that drove the rain until it fell like small hail. It began falling shortly before 5 o'clock, following a day of dark thunder clouds and occasional rumble of thunder.

Eastland To Build Tourist and City Park

Through the untiring efforts of W. E. Dakan, H. E. Lawrence, members of the city commission and possibly a few other individuals, Eastland is to have a municipally owned and controlled tourist and city park that will be second to none on the Bankhead highway. Deeds to the land are being drawn and plans are being made for the park.

High Tract Leased From T. & P. Railroad To Be Cleared and Improved.

The park, which will be arranged for a combination city park and recreation ground and tourist park, is located just at the western city limits, or rather is just southwest of the city and is just one block off the Bankhead highway to the south. It includes the large, high, flat topped mountain, owned by the Texas & Pacific railroad company, which has given the city a 25-year lease on it, with an extension option, for a nominal sum.

To Dress Up Mountain.

The mountain, which is the highest in this section of the country, is flat and level on top and is covered with a forest of trees of various sizes as well as considerable undergrowth. The undergrowth is to be cleared away and the trees trimmed. A graded driveway is to be built around the crest of the mountain. High and Neblett streets are to be regraded and graveled, which will afford an excellent driveway from the Bankhead highway that will approach the park from two sides, the north and west.

May Be Taken Into City.

City Secretary W. E. Dakan, who, perhaps, has been the most active of any individual in securing the park site, has been working on the proposition for two or three months and has a wonderful collection of data, secured from numerous sources touching on parks and park equipment.

Work in the Official Campers Manages.

The city commission will pass an ordinance for the governing of the park and a city employee will be in charge of it and will be on duty day and night. Water, sewer and gas mains now reach to the foot of the mountain and will be extended into the park. Light service will also be extended to include the park, in fact it is the intention of the city commission to bring the park within the city limits.

City Secretary Dakan States that the park is to be equipped with all modern equipment for tourists parks and that the city park section will have all modern equipment, including devices for their recreation.

Workmen are to be put to work on the ground clearing up the ground and following this engineers will begin making a survey preparatory to the construction of the permanent buildings, etc.

The Eastland Chamber of Commerce, which has been working for some time to have an adequate tourists park for the city, and the various clubs and similar organizations, including the Lions and Rotarians, are to be asked to assist in the equipping of the new park, City Secretary Dakan said.

The city officials appreciate very much the action of President J. B. Lancaster of the Texas & Pacific railroad company in leasing them the park, the land owned by his company, for without this it would have been impossible for the city to have had a park of this kind so splendidly located. In their letter to the commission advising them of their agreement to lease the land to the city, the Texas & Pacific railroad officials emphasized the fact that it was because they desired to assist the city and her citizens and felt that they could do so in this way.

EASTLAND TO BUILD TOURIST AND CITY PARK

BIBLE THOUGHT.
For I am with thee, and no man shall set on thee to hurt thee.—Acts 18:10.

Police authorities in England are looking for a barber who has married a dozen well-to-do women during the past two or three years. No one knows his right name. Some of these women married this Don Juan after two days of courtship, and all of them admit that they knew nothing about him. Woman, as a rule, puts her whole stock of youth and beauty and joy into her marriage, but many of them pick a husband with less care than they use to buy a pair of shoes. A woman of mature experience advises: "Never marry until nothing else seems worth while"—but what's the use of advice?

Senator William R. McKinley, of Illinois, who has just returned from a tour of Europe, told President Coolidge that Europe has given up all hope of persuading the United States to enter the League of Nations, but is so anxious to have American support that it will admit Uncle Sam to membership in the world court on practically any terms. Intimations from reliable sources indicate that the president, as well as Senator Borah and a large number of statesmen, now favor a re-organization of the Hague tribunal.

The cry of the business man that the government keep out of business has been cast into the discard. The department of commerce asserts that business men representing an output of more than 30 billion dollars, have desks in the department where they are conducting inquiries and seeking government aid. Farmers have evidently set a bad example in this particular.

Life guards at the different beaches have formed unions and adopted working rules. Guards have got in the habit of saving pretty girls and throwing homely ones back. They won't be allowed to show any preference, and no girl can be saved more than three times a week.

For the imprisonment of the human soul in the shackles of dogma, our ancestors paid the price of a thousand years' stagnation and the death torture of thousands of loyal souls. On the release of those shackles the whole of our modern civilization is founded.

EYES AND THE "MOVIES"
NEWARK, N. J.—An evening at the "movies" in a well ventilated theater is in the majority of cases less fatiguing to the eyes than an equal period of concentrated reading, according to Dr. Charles W. Crankshaw, director of the Infirmary of the Prudential Insurance company of America, Newark, N. J., where the 5,700 employees at the home office of this organization come under his supervision. The high percentage of defective vision in this country, in this physician's opinion, is not related to the national craze for the "movies."

FRIDAY EVENT
20th Century Club meets with Mrs. M. L. Holland at 9:30 a. m.

SHOWER FOR DEPARTING MEMBER.

On Tuesday afternoon the members of the Presbyterian Women's Auxiliary and the Westminster Guild held a joint meeting at their club rooms on Marston street, at which time they gave a miscellaneous shower for Mrs. C. T. McCobb, who is leaving Ranger soon for a new home in the east. Mrs. J. J. Kelly and Mrs. W. R. Lowe were hostesses for the Guild and Mrs. Baker and Mrs. Getts were hostesses for the auxiliary. Refreshments of ice cream and cake were served.

Mrs. McCobb, the honoree of the occasion, has been a faithful worker in the church and its societies, and the many beautiful and useful gifts she received in the shower, evidenced the place she has in the hearts of her co-workers.

GOLF AND BREAKFAST.
Mrs. W. C. Palmer started the social life of Ranger off at an early

hour this morning, when she entertained a few friends at golf, followed by breakfast at the Gholson Hotel Coffee Shoppe, in honor of Mrs. Royal C. Styles of Waco. Cars left the city at 6 o'clock for the Country Club and a foursome was waged in which the prize, some dainty handkerchiefs, were awarded to Mrs. Harry Logsdon, who made the course in fifty-two strokes. Mrs. Palmer, as a pretty remembrance to the honoree, presented her with a lovely handkerchief. Mrs. Styles played a splendid game, but a account of being used to grass fairway, she was at a little disadvantage over some of the local players. However, she has a wonderful swing and her playing demonstrated good training. After the game, the party drove back to the city, and were served a beautifully appointed breakfast at the Gholson.

Those who enjoyed this pleasant morning outing were: Mmes. Royal C. Styles, Paul Lacy, E. E. Crawford, Harry Logsdon, Walter Cash, Hall Walker, J. A. Shackelford and the hostess.

EVENING BRIDGE.
Another delightful honor accorded Mrs. Royal C. Styles, of Waco, was an informal bridge party, Wednesday evening, at the home of Mr. and Mrs. C. B. Schram, in the Gholson addition. Mrs. Gifford Clegg made high score for the ladies, and Mr. Paul Lacy for the men. A dainty salad course followed the game. Mr. and Mrs. Schram extended their gracious hospitality to Mr. and Mrs. Gifford Clegg, L. E. Eldridge, Paul Lacy Walker Cash, Mrs. Royal C. Styles, and Mr. Paul Ryan.

PASTIME CLUB.
Dr. and Mrs. Harry Logsdon entertained the Pastime Club, Tuesday evening, at their home in the Cooper addition. Bridge was the diversion and when the scores were evened up it was found that Mrs. Jack Gulla-

horn carried off ladies' high honors, and Mrs. Ray Vaughn of Cisco, the ladies' low score, while Mr. Paul Lacy had high score for the men, and Mr. Rany Vaughn of Cisco, men's low score honors.

When the cards were laid aside, the hostess served a perfectly appointed salad course, to the following club members and guests: Mr. and Mrs. Jack Gullahorn, Paul Lacy, Chas. Conley, E. E. Crawford, Roy Jameson, A. N. Harkrider, Ray Vaughn of Cisco, Mrs. Royal C. Styles of Waco.

PERSONALS.
Mr. and Mrs. Walter D. Smith of Buffalo, N. Y., spent Tuesday and Wednesday at the Gholson, the guest of Mr. and Mrs. Jack Sullivan. Mr. and Mrs. Sullivan are both em-Worthington Pump Company of New York.

Mrs. S. P. Booth and little son have returned from a visit to Mrs. S. P. Hodge in Corsicana. Mrs. Hodge was a former resident of Ranger.

STEAMER LEAVES CHINA SHORT OF CHINESE HELP

By United Press.
MANILA, P. I., June 25.—Passengers aboard the liner President Adams, from Hong Kong, reported that they were forced to wait on tables, clean their own cabins, etc., due to the strike of stewards before leaving Hong Kong. As the strike went into effect the liner President Adams dashed suddenly from the pier to prevent loss of the entire Chinese crew.

Heavy irons are no longer needed for pressing hats. Instead, an electrically heated sand bag recently invented, which fits over the molds, can be used.

Ranger Business Houses, For Most Part, Plan to Close Their Doors For July 4th

Merchants of Ranger agreed at a meeting of the Ranger Retail Merchants' association to close part or all day, Saturday, July 4. This was done not only because the fourth of July is a national holiday, but to assist the big celebration that is scheduled for the fourth to be carried out without any hindrance, and make the day a real holiday. Mrs. Alice True, secretary of the association, said: "Several members of the Retail Merchants' association met in the as-

sociation's office Wednesday afternoon and discussed the matter of closing on the fourth of July. "As this day comes on Saturday, the grocers decided that they would open their stores all or part of the day, as they have so many things that are perishable. "It was decided that the dry goods and department stores would remain open late Friday night, or about the same as they usually do on Saturday night, and the stores would remain closed on Saturday."

Foreign Legation In Peking Under Guard

By United Press.
PEKIN, June 25.—Within barbed wire fences, Chinese soldiers and gendarmes were guarding the entrance to the foreign legation quarter today while Peking held parades and demonstrations, but on a smaller scale than had been anticipated. These were intended as a protest against the foreigners and as a celebration of the dragon boat festival.

The French minister has protested against the killing of a French citizen at Canton two days ago, declaring that responsibility for the events rests fully upon the Chinese. He claims that firing from within the concession against Chinese paraders at that place was in self-defense and has reserved the right to make a claim for reparation.

Jubilee Singers to Be Heard Tonight at The Methodist Church

A picked quartet from the jubilee singers of Texas college at Tyler will sing tonight at 8:30 o'clock at the Ranger Methodist church. They will sing jubilee songs and old plantation melodies. Admission will be free, but a silver offering will be taken up.

The Texas college is maintained under auspices of the Colored Methodist Episcopal church. The singers in Ranger today have letters from civic clubs and other organizations in all parts of Texas testifying to their ability as singers and the pleasure the people get in hearing them. It is expected that a large audience will be out to greet them tonight.

PORT ARTHUR—Several streets to be improved at once.

AN IMPORTANT CHANGE IN POLICY

STUDEBAKER herewith announces the discontinuance of the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months, *we shall keep them up-to-date all of the time*—with every improvement and refinement made available by our great engineering and manufacturing resources. This policy not only directly benefits present Studebaker owners, but it also enables purchasers of new cars to obtain models that are always modern—without the necessity of waiting for annual changes, and without the danger of their new cars becoming obsolete.

BACK of this new policy is an amazing story—of interest to everyone who owns or expects to own an automobile.

The dramatic success of the present line of Studebaker Cars is one reason for this important change. Month after month we keep breaking records—sales keep piling up. This year we will sell almost four times as many automobiles as we produced in the big boom year which followed the war.

Owners report endurance records, even beyond our greatest expectations. Out in the rugged mountain regions where Studebaker sells four times its normal proportion of cars, owners talk about these models in the most extravagant terms. In 1924 the Corporation's sale of repair parts dropped to \$10 per car per year. Mechanical stamina under severe usage—remarkable performance under the most difficult travel conditions—these are the qualities for which Studebaker Cars have long been noted.

Surely, these significant facts prove beyond any shadow of doubt that Studebaker Cars are so soundly

engineered and manufactured and so eminently satisfactory in the hands of owners, that drastic annual changes are not required.

Improvements and refinements will be made from time to time. New features will be added. When our engineering department (maintained at a cost of more than half a million dollars a year) devises an improvement in any model, it will be made without regard to the calendar.

As in the past, we shall continue to pioneer vital betterments that have proved their merit through practical use. Alert, aggressive, receptive to new ideas, resourceful in executing them, guided by scientific research and spurred by imagination, the Studebaker organization proposes to build better motor cars than ever before.

Now you may buy a Studebaker on any day of the year with the confident assurance that the sturdy, thrifty, one-profit car you drive away will not be stigmatized by any act of ours as a "last year's model." Today, in even more generous measure than in the past, Studebaker Cars offer the utmost value for the money.

KATY SUED FOR DAMAGES FOR PERSONAL INJURIES

Mrs. M. F. Jay, aged widow of Gorman, has filed suit in the Eighty-eighth district court in Eastland against the Missouri, Kansas & Texas Railroad company of Texas, for \$10,100 for alleged damages for personal injuries.

Mrs. Jay, who is past 70 years of age, alleges that in December, 1923, while riding as a passenger on the defendant company's train from Morgan, Texas, to Gorman, Texas, she fell and fractured the bones in her thigh and hip and that the fall was caused by the carelessness of the defendant's employes in suddenly jerking the train while the plaintiff was walking to get a drink of water. The petition further alleges that when she arrived at Gorman after the accident she was met at the depot by a physician, that the said physician gave her medical attention and treated her for several days thereafter.

Plaintiff recites in her allegations that she made a settlement with the railroad company by the term of which she was paid \$300, but alleges that the settlement was made upon the advice of her physician, who, he claims she later learned was really an employe of the railroad company and working in their interest.

TWO MILLION PIMPLE VICTIMS SWEAR BY IT

Sounds like a big figure, and it is big. That many times during the year people go to their nearest store and ask for Black and White Ointment and Soap, because they have come to depend on them to keep their skin free from pimples, blotches, bumps, eczema, rash, tetter, "breaking out," etc.

You won't know what real happiness and fun is until you make yourself presentable, so to speak, to the people who want to associate only with those who are good to look at. Begin using Black and White Ointment and Soap and feel the thrills girls, women and men experience when they see their ugly skin clearing up, feeling smooth and looking lovely.

They are both economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both Ointment and Soap.

Texas Has High Place In Cement Making In South

The chance discovery of limestone in Texas by William Loyd, an Englishman, while game hunting near San Antonio, gave Texas an early start in what is now one of the nation's most important industries—the manufacture of portland cement. Loyd's discovery led to the establishment of the first Texas plant in 1880. From this humble beginning

a great industry has been developed and Texas now maintains second place among the portland cement producing states of the south.

The six Texas plants last year produced 4,566,000 barrels of portland cement, according to the U. S. geological survey, which is one and a half million barrels less than the combined capacity of 6,000,000 barrels. During the year 4,488,000 barrels were shipped from the plants, leaving at the end of the 12 months period stocks of 356,000 barrels.

Texas-made cement is used in many ways. Concrete road build-

ing, for which figures are best available, will probably be as large in 1925 as last year. In 1924, 103 miles of concrete rural highways were built in this state, bringing the total highway mileage to 469 miles.

The clatter of the first Texas mill has now given way to the mighty roar of huge plants, each of which can turn out more portland cement in an hour than the original San Antonio plant produced in an entire week. The motive power of the original plant was furnished by a miniature steam engine whose fly-wheel had wooden spokes. The Texas mills

of today are run by powerful steam turbines, internal combustion engines and electric motors, which develop some 17,000 horse power. Other innovations have made the manufacture of portland cement a highly complex process of more than 80 distinct operations, a process which has eliminated the guess work of early day manufacturing.

Texas oil is the fuel generally used by the plants and in 1924 it is estimated about 47,000,000 gallons were burned, chiefly in heating the mammoth kilns to a temperature of more than 2,500 degrees Fahrenheit in or-

der to burn the raw materials into small balls of clinker which are ground into cement. A large quantity of coal is also used.

Texas cotton also plays an important part in the cement industry, not only in this state but throughout the country. More than 240,000,000 cotton cement sacks are in service in the United States. Although cement sacks are returnable some 65,000,000 new bags were made last year to replace those lost or destroyed.

GIDDINGS—Work on new sewer line progressing.

PROTECT THE BIRDS FOR THEY PROTECT CROPS

Insect Pests Abated In Proportion As iBrd Life Abounds.

Insects and grubs cause an annual loss of \$800,000,000 to the agricultural interests of the United States, and our people pay another \$800,000,000 each year trying to get rid of these pests. This heavy expenditure, the burden of which is borne in large part by farmers, fruit growers and gardeners, would be reduced if adequate provision were constantly made for the needs of our valuable insectivorous birds, including protection for their lives.

Birds, according to the biological survey of the United States department of agriculture, are one of nature's important agencies for keeping down the overwhelming hordes of insect life. Nest boxes should be put up and shrubbery planted to make up for the disappearance of the hollow trees and young wild growth in which the birds once built their nests. Water for drinking and bathing should be supplied in the summer season and shelter and food provided in winter. Protection of birds from their natural and unnatural enemies is not the least important consideration.

The boy with the air rifle, the native or the foreign-born adult with his gun, the red squirrel and other small animals, the rainstorm and the windstorm, and the house cat all take their toll of wild-bird life. Years ago the depredations of the cat on birds caused little concern, but now that probably twenty-five million cats blanket the United States, people are waking up to the increasing necessity of protecting birds against them. It is not necessary that householders part with their pets, but these potential bird destroyers should be kept from unduly increasing if the effort is to be made more effective to prevent them from killing the song birds.

During the nesting season especially watchful care is needed, particularly at the time when the fledglings, unable to make full use of their undeveloped wings, flutter to the ground. The sight of helpless young birds hopping across the lawn excites the predatory instinct of even a well-fed house cat. In a short time the wings of these birds will have grown strong enough for them to fly a little way, when the danger of being caught is lessened. Until the young birds can look out for themselves the cat should not be allowed to leave the house, unless closely watched.

Roosevelt said, "It is the duty of every man, woman and child to protect the birds." Everyone who realizes the incalculable number of insects which even one bird will destroy in a season should be willing to take some pains to protect these charming and useful little allies of the farmer and orchardist.

During the nesting season of our wild birds the United States department of agriculture asks that all persons try to protect from harm from all sources the birds which live in the vicinity of their homes and fields.

DALLAS — Local contractor awarded contract for double incinerator to be built here at cost of \$40,500.

DAN HORN NEWS

Special Correspondence.

DAN HORN, June 25.—Everybody is busy chopping cotton and fighting weeds and grass.

An oil well is being drilled on W. B. Starr's farm.

Quite a crowd from here attended the singing convention at Eastland Sunday.

Miss Stella Horn was the guest Sunday of Miss Bertha Livingston. Mr. and Mrs. Erwin Yeager are the proud parents of a baby boy, Edgar Glenn, born Monday.

Mr. and Mrs. A. G. Spaegle and family of Scranton visited his family, Mr. and Mrs. J. D. Speegle, Sunday.

Mrs. G. L. McCullough spent Sunday afternoon with Mrs. John Stuteville, who is ill, but who is reported improving.

Tom Rice of Plainview is visiting friends here.

Mrs. B. Yeager, Mrs. Neal Pippins and Mrs. Vida Agnew were guests of T. B. Harris Sunday.

Miss Ruth Ramsey, home demonstration agent, was in the community Tuesday but the club members were so busy working in the fields that no meeting was held. She visited most of the girls to how they were progressing with their club work.

SCRANTON NEWS

SCRANTON, June 25.—Bro. Gardner of Cisco preached here Sunday morning and evening.

Mrs. Tom Haislip of Lamesa is visiting her parents, Mr. and Mrs. Rutherford.

Mrs. Griffith, our former pastor's wife and her daughter and three children, are visiting in the community.

Mr. and Mrs. Lester Foster were dinner guests Sunday of Mr. and Mrs. Rutherford.

SUMMER SESSION GIRLS AT UNIVERSITY DULY CARED FOR

AUSTIN, June 22.—Girls attending the University of Texas during the summer session are governed by regulations of the dean of women

and the various house-mothers, just as the co-eds of the long session. House regulations for women students have recently been announced by Miss Lucy J. Newton, dean of women. The girls are requested to conduct themselves always in a proper and decorous manner. They are

expected to occupy a room engaged until the end of the term, unless given special permission to move. Quiet hours must be maintained in every rooming house after eight every night except Friday and Saturday nights and on holidays. All girls must be in by eleven o'clock every night except Friday and Saturday nights, when parties are attended.

Co-eds are not permitted to room in lodging houses where men also reside, according to rules passed by the general faculty and the board of regents. During the summer session only, men and women students may take their meals at the same house, although there is a regulation against this situation during the long session.

University girls realize the protective value of the regulations, it is stated, and cooperative with the dean of women and the house mothers. At all times girls are expected to leave information with the house-mother when leaving the house, as to where they are going, with whom, and when they will return. Such information enables the house mother to reach a student at any time, if necessary, and insures her absolute protection, while in the university, it is stated.

PROCEEDINGS IN COURT OF CRIMINAL APPEALS

AUSTIN, June 25.—The following proceedings were had in the court of criminal appeals Wednesday: Affirmed—John Ainsworth, from Eastland; Corine Carles, from Hale; Tom Barnes, from Lamar; P. L. Carmickle, from Hale; John Donahue, from Eastland.

GIDDINGS—Work started on sewer disposal plant south of here. Houston—This season's movement of baled cotton from here to Philadelphia greater than in any previous year.

VEGETABLES AND VITAMINS

Kellogg Company Dietetic Expert Discusses Their Value

(By Barbara Brooks, Kellogg Company, Home Economics Department, Battle Creek, Mich.)

It is quite probable that were Alice in Wonderland to be written today, there would be talk of "vegetables and vitamins" as well as "shoes and ships and sealing wax." Of course, "cabbages and kings" would still be in the story and most of us would appreciate the fact that cabbage is a food perfectly suitable for both royalty and common folks. Usually when a product becomes popular, either through the trend of fashion or from a health standpoint, its price increases. Fortunately this has not been true in the case of fruits and vegetables, and the knowledge that they are excellent sources of vitamins has not inflated their costs. Choose the fruits and vegetables which are in season. The fact that they are scarce does not add to their food value. Strawberries in June are as good for you as in January—and better in flavor.

A current magazine article lists fruits and vegetables according to their price per pound. The ones costing less than 10 cents are: Fresh fruits—apples and bananas in season. Fresh vegetables—beets, cabbage, carrots, kale, onions, parsnips, potatoes, pumpkin, rutabaga, sauerkraut, squash, tomatoes (in fall season), turnips. Dried—peas and beans.

Those costing from 10 to 20 cents a pound are: Fresh fruits—peaches and the fall fruits in season, oranges and cranberries. Fresh vegetables—celery, chard, cucumbers, and the smaller squashes, dandelion and mustard and other spring greens; eggplant, kohlrabi, okra, spinach in full season, fresh tomatoes (at most seasons). Dried—certain of the fruits.

Those costing from 20 to 30 cents a pound are: Fresh fruits—Strawberries and the spring fruits in season. Fresh vegetables—Brussels sprouts, cauliflower, cucumbers (most of the year) eggplant, lettuce (when most abundant), green peas, radishes, spinach (except when most abundant), string beans. Dried—certain fruits.

Those costing from 30 to 50 cents a pound are: Asparagus, French artichokes, French endive, lettuce (most of the year), green peppers, radishes and cucumbers and some other vegetables (when out of season) the most expensive fruits. This classification shows that the best vegetables are not the highest priced. The six listed as the most useful to the people of this country are cabbage, kale, spinach, tomatoes, rutabaga, and potatoes.

We cannot end any talk on food values without at least mentioning coarse cereals. Dark breads, like the common vegetables are coming back on our tables. Although we do not depend on them for vitamins, they are valuable because of their fiber and mineral content. Either a quick bread, such as bran muffins, or bran, graham or wholewheat yeast bread should be eaten at least once a day. A good and wholesome dinner menu would be: A vegetable plate—sliced tomatoes, baked potatoes, buttered spinach, and creamed carrots, bran muffins; milk and fruit.

PORT ARTHUR—Oil shipments DECATUR—Local milk shipping for May totaled 1,953,383 barrels, stations report a maximum of shipments according to report.

INVENTIONS CHANGE HABITS OF PEOPLE

Telephone, automobiles and typewriters should be classed among the most important inventions in modern times, declares Dean Howard McClenahan of Princeton university. "To the telephone and typewriter we owe the great economic changes of the present day, while the automobile is responsible for the shift in the moral and social background which has taken place in the last few years. In recent years efficiency has been the keynote of our whole life, both business and social, and these inventions have been largely responsible for this change. The telephone and typewriter have enormously increased the efficiency of modern business, making the amount of work a man was capable of in a short time ago seem very little when compared with modern standards."

OPERA IN ENGLISH

"When in America, do as Americans do," urges Edward Johnson, Metropolitan opera tenor, who believes American audiences should have the privilege of hearing the great operas sung in their own, rather than a foreign, language. He asked: "Why shouldn't Falstaff and Othello be sung in English, instead of Italian? After all they are from Shakespeare, and Shakespeare was English. It is just a matter of getting used to it, and some day we shall have it." Practicing his belief on accommodating audiences, the tenor, a native of Canada, when in Italy sings under the name "Edouardo di Giovanni," but next winter when he makes a concert tour of the United States he will appear as plain "Edward Johnson."
