

**THE WEATHER**  
West Texas tonight fair, warm-  
er in south portion. Saturday  
partly cloudy weather.

**SENTENCE SERMON**  
A king may be a fool, a thing  
of straw, but if he serves to  
frighten our enemies and secure  
our prosperity, it is well enough.  
A scarecrow is a thing of straw,  
but it protects the corn.—Pope.

## JIM FERGUSON SAYS 20 MEN LIED TO HIM

### CONSTITUTION RALLY TONIGHT IN HIGH SCHOOL

Ranger Bar Association to Put on Program and Everybody Urged to Attend.

Celebrating Constitution week, as set aside by the American Bar association, the Ranger Bar association has arranged a program to be given at 8 o'clock tonight in the auditorium of the Ranger High school. Every citizen of Ranger is urged to be present and all citizens of Eastland county are invited to attend. A special invitation is extended to the school children.

Sam K. Wasaff is president and Milton T. Lyman secretary of the Ranger Bar association. The program, arranged by a committee consisting of Judge George L. Davenport, Lytton R. Taylor, L. R. Pearson, E. O. McNew, superintendent of schools, and the Rev. W. H. Johnson is as follows:

Introduction by Sam K. Wasaff, who will also speak on "The Constitution."

A talk by the Rev. W. H. Johnson on the text, "Remove not the ancient landmarks which thy fathers have set, Proverbs 22:28."

Address by Judge A. E. Firmin, "What the Bill of Rights in the Constitution Has Meant to the American People, and What It Means Today."

Address by Lytton R. Taylor, "Watchwords of the Constitution: A Government of Laws and Not of Men; Liberty Under the Law; Equal Opportunity to All Citizens."

Address by Ove Overson, "The Services of John Marshall in Making Our Constitution the Supreme Law of the Land."

Address by Mrs. M. H. Hagaman, "To Uphold the Constitution in His Daily Life and Activities Is the Duty of Each and Every Good Citizen."

Address by Judge George L. Davenport, "The Setting and Inspiration of the United States Constitution; the Magna Charta, the English Bill of Rights, the Mayflower Compact, Declaration of Independence and Articles of Confederation."

### SAN ANTONIO WILL NOT PERMIT PARADE OF KU KLUX KLAN

SAN ANTONIO, Sept. 21.—Approximately 500 extra police have been sworn in by the city authorities to prevent the Ku Klux Klan from staging a mammoth parade tonight as an aftermath of a public initiation at the speedway. The special officers were sworn in following the passage of an emergency ordinance by the city commission at its last meeting, at which it was reported that the Klan would attempt to stage a parade at the conclusion of the initiation ceremonies.

Klan officials have denied that any parade in violation of the law was contemplated or is to be staged.

### GERMAN POLICE DOG HAS "COLLEGE DEGREES"

SAN ANTONIO, Sept. 21.—Ego Von Sooblad, German police dog, owned by L. G. Mansford, of this city, is college bred.

For Ego holds several degrees and diplomas from a German dog college.

He has been declared proficient in the following:  
Police work.  
Catching thieves.  
Patrolling a beat.  
Taking prisoners.  
Protecting a policeman.  
Herding sheep and cattle.

The educated dog is a native of Germany and had to learn to understand the English language when he was brought to this country, according to his master.

### FAT MEN, WHO WANT TO BE SLIM, FORM CLUB

DALLAS, Sept. 21.—Fat men who have perspired and worked at the Y. M. C. A. here in their efforts to become slim have become so fond of each other's company that they have organized a club which will be social in nature.

The only requirements for entrance into the club are rolls of fat and a record of three months training at the "Y."

SHOW YOUR EARS, LADIES, IF YOU PLEASE

Madame Ruth, of Chicago, an authority on hairdressing, is shown here demonstrating how the hair is done high up on the head, revealing milady's ears, which she has so long been concealing. This style, she declares, will prevail this fall and winter—undressing the ears in cool weather, like wearing furs in summer. The hairdress shown here is known as the Spanish style.

### REBEKAHS AND ODD FELLOWS IN SESSION

Semi-Annual Meeting of County Association Draws Big Attendance.

Nearly 1,000 Odd Fellows and Rebekahs gathered in Cisco last night for the semi-annual meeting of the Eastland County Association of Odd Fellows and Rebekahs, according to R. H. Cunningham, noble grand of the Ranger Odd Fellows. There was a nice attendance in the afternoon too.

The next meeting will be held at Desdemona the first week in March. Ranger entertained the Eastland county Odd Fellows last March.

Lieut. Gov. W. T. Davidson did not come as expected, having failed to make train connections, according to a telegram received. J. D. Barker of Cisco and Mrs. J. D. Alexander of Cisco, president of the assembly, gave the addresses of welcome. May Thomas of Eastland and R. H. Cunningham of Ranger responded.

The Desdemona degree team was present and conferred the degrees. Progressive Rebekah lodge of Ranger did the Rebekah degree work.

The Odd Fellows met in the K. of P. lodge rooms and the Rebekahs in the Odd Fellows hall. It is estimated that 50 persons attended from Ranger.

Odd Fellows encampment, district No. 24, comprising all of Eastland and Callahan counties, part of Stephens, Pano Pinto, Shackelford, Parker and Erath counties, will meet in Ranger on Oct. 12 for a night session. The annual drill ceremonies and supper will be programmed, according to R. H. Cunningham, captain of the Ranger canton.

Ranger Odd Fellows have bought a plot of ground at Evergreen cemetery as a resting place for deceased brothers of the lodge. The ground will be beautified and fenced in at once, it was said by an official of the lodge today.

### NEW YORK NEWSPAPERS AGAIN APPEARING, BUT STRIKE NOT YET SETTLED

NEW YORK, Sept. 21.—New York City is gradually getting its voice back. The evening newspapers, with their thousand and one stories of daily life, were appearing on the street today and the city began to awake from the lethargy into which the silence of the press had thrown it.

There was no sign this afternoon of a break in the pressman's strike. The publishers failed this morning to deal with Major George L. Berry, president of the International Pressmen's union, but were to meet him at 4 o'clock this afternoon. Major Berry told the United Press he did not know what would be done with his suggestion that the charter of Local 25 be revoked and a new union formed or what would be the final outcome. Local 25 has been suspended.

AUSTIN.—Four members of the city commission have declared their opposition to granting a license as asked for a jitney line that proposes to operate thirty cars. The plan is considered to be doomed to failure as a consequence.

### Price of Gasoline Goes Tumbling Down

#### TEXAS MOVING TO LEADERSHIP AMONG STATES

Advancing in Agriculture, Industry and Commerce, Says Splawn.

COLLEGE STATION, Texas, Sept. 21.—The part which the agricultural and mechanical college of Texas as well as similar schools will play in the future industrial development of the nation was outlined by Dr. Walter Splawn, member of the state railroad commission, in an address at the opening exercises of the A. & M. college here today.

Commissioner Splawn declared that Texas in the future will be a leader among other states not only in agricultural pursuits, but in industrial and commercial activities. He said that upon the shoulders of the trained technical experts instructed in the colleges and universities will fall the task of meeting the industrial and commercial problems which the state will face.

"The industrial revolution which started in England a century and a half ago has played an important part in the development of our nation and state," Doctor Splawn said. "It is difficult for us to realize that only 100 years ago Americans began their migration to Texas. Within the memory of this generation, free land disappeared in this state.

Two Types of Farmers. "Two types of farmers migrated to the states: One, the commercial farmer, who was interested in growing staple crops for market; the other, the self sufficient farmer, who tilled his land primarily to grow things that his own household would need and consume. The industrial revolution resulted in many changes, not only in agricultural pursuits, but also in the manufacturing pursuit. Labor saving machines were invented and with these came the development of great factories and the development of large cities.

"These changes in turn brought the realization that men must be trained to man the great factories and to meet the problems of an industrial society. It was further realized that if the farmer was to be a specialist, he would have to have a training to fit him for his work. This has been the cause of such great institutions as the Agricultural and Mechanical college here.

Call for Specialists. "The call of the nation today is for specialists, farmers who are specialists, electrical engineers, civil and mechanical engineers. Likewise, there is the demand for organizers for these specialists. Recent investigations tend to show that production in some of the leading industries is only 50 per cent efficient and that it could be doubled without adding a single laborer, but merely through improving business organization.

"Texas will always lead in agriculture, because we have the land," Commissioner Splawn concluded. "Moreover, Texas with her 16,000 miles of railroads, with other lines building, with her vast supplies of natural resources, is destined to become one of the leading industrial and commercial sections of the entire country."

#### TWO CONVICTED MEN WILL ASK FOR NEW TRIALS

ABILENE, Sept. 21.—With a motion for a new trial already filed in the case of Tom Ross, given 20 years for the murder of H. L. Roberson, it was said today that a similar motion would be made for Milt Goode, sentenced last night to serve 25 years in the state penitentiary. If the district court does not grant the motion, an appeal will be made to a higher court.

#### BULGARIAN REVOLUTION DECLARED TO BE BROKEN

LONDON, Sept. 21.—The Bulgarian revolution against the government of Professor Zankoff has been broken, according to dispatches from the London Chronicle correspondent. The communist movement which threatened the new regime has been destroyed, the report says, and the government is now busily engaged in restoring order.

In Fort Worth It Sells at 10 Cents a Gallon and in Dallas at 13 Cents With Prospect of Going Lower. Attorney General Called to Consider Situation.

DALLAS, Sept. 21.—Ten cents or less a gallon for gasoline was predicted by a number of retail dealers today when a majority of the large distributors posted a rate of 13 cents to consumers. Some of the smaller stations are selling below 13 cents. The price has been reduced from 16 cents a gallon.

#### GASOLINE SELLING AT TEN CENTS IN FORT WORTH

FORT WORTH, Sept. 21.—Gasoline was selling at many local filling stations today at 10 cents a gallon. The cuts made yesterday by independents were met this morning by the Magnolia Petroleum company, which cut its price from 11 to 10 cents.

#### ATTORNEY GENERALS ARE CALLED FOR CONFERENCE

LINCOLN, Neb., Sept. 21.—Attorney General Stillman has called a national conference of all the attorney generals at the Old Colony club, Chicago, Oct. 15, 16, and 17, to investigate the national gasoline situation. The conference is a result from the action taken at the national meeting of attorney generals at Minneapolis.

#### Whisky Robbers Tap Warehouse and Make Rich Haul

ST. LOUIS, Sept. 21.—Authorities have asserted that the amount of liquor spirited away from the bonded warehouse of a local distillery amounted to 893 barrels holding approximately 42 gallons each.

This is said to be the biggest whiskey robbery since enactment of the national prohibition law, and the total value at the present retail price of whiskey would be \$1,800,288.

The whiskey contents had been removed from barrels which were then filled with water. The thefts had occurred since last June, when the last legitimate withdrawals were made. No barrels had been removed from the premises. A watchman has been on duty day and night and a guard on duty.

The tax on the stolen whiskey amounted to more than \$75,000 and the government officials explained that this could be collected from the bonding company.

#### COURT DENIES MOTION TO DISMISS BARNES CASE

EASTLAND, Sept. 21.—Motion of attorneys for Cleve Barnes, indicted for possession of liquor on his premises, that the case be dismissed on the grounds that the whole jury list was illegally made up, was denied this morning by Judge G. L. Davenport.

Joe Burkett, representing Barnes, served notice that he would ask for a continuance of the case when court convened this afternoon.

The confiscation of whiskey, said to be worth \$18,000 in May, 1922, on Barnes' premises in Ranger attracted considerable attention at the time. The case has been continued from time to time.

#### RIO GRANDE IS NEARING HIGHEST KNOWN FLOOD STAGE

EAGLE PASS, Texas, Sept. 21.—Fears of a disastrous flood in the Rio Grande were felt here today as the water was rapidly nearing the highest flood stage ever known. The Pecos river is pouring its flood waters into the Rio Grande and scores of workmen are busy today south of here strengthening the levees.

#### RANGER SPOT PRICES BRING COTTON HERE

More Than 300 Bales Ginned This Year and Much on the Way.

The cotton market was active in the closing hours today. Ranger spot cotton was stronger today than yesterday. Early this afternoon it was at 29.6. Yesterday the price was 28.10.

The New York market was not so strong as yesterday at the close for October cotton but December cotton brought a better price. October and December cotton was lower at New Orleans and also at Liverpool. The opening and closing prices today, posted on a bulletin board in the W. E. Davis jewelry store in the Gholson hotel building were:

New York—October—Open 29.65; close 29.30 to 29.35. December—Open, 29.20; close 28.85 to 28.90.

New Orleans—October—Open 28.85; close 28.67 to 28.39. December—Open 28.75; close 28.30 to 28.35.

Minneapolis—October—Open 16.51; close 16.43. December—Open 16.06; close 16.01.

The quotations at Davis' are for every 15 minutes of trading during the days business at the exchanges. Slightly more than 300 bales have been ginned at the Moss cotton gin, according to E. H. Mills.

Considerable buying is reported in Ranger. This is the first year since 1918 that Ranger people became interested in the cotton market to a great degree as at present because of the lack of a gin and the decrease of cotton growing with the coming of oil.

#### WALTON SILENT AS TO INTENTIONS REGARDING CALL OF LEGISLATURE

OKLAHOMA CITY, Sept. 21.—The military court of inquiry which last night assumed a place of outstanding importance relative to conditions in Oklahoma with the announcement of sensational testimony introduced involving Ku Klux Klan members in law violations was being divided today into several sections in order to hasten the work. More than a score of witnesses were examined this morning. Grand Goblin N. C. Jewett of the Klan has not been summoned, according to Col. William Graves, president of the court.

Nate Hantaman of Tulsa, whose flogging more than a month ago caused Governor Walton to place that city under martial law, appeared at headquarters today, but the purpose of his coming was not learned.

Governor Walton said last night he would have a final announcement today about the call of the legislature for next Wednesday, but had not broken his silence this afternoon. Adjutant General Markham said no troops had been mobilized since the contingent from Kingfisher had been brought to the capital.

#### HOUSE OF DAVID COLONY DISSOLUTION IS SOUGHT

GRAND RAPIDS, Mich., Sept. 21.—Suit seeking dissolution of the House of David Colony at Benton Harbor, Mich., and the appointment of a receiver, was filed today in the United States district court here by Mrs. Estella A. Meldrin, member of the cult for 20 years.

Mrs. Meldrin, according to the attorneys, brought action against the colony after being convinced that "King David" Parnell had been guilty of misconduct with women and girls at Shiloh.

#### ASSISTANT ATTORNEY GENERAL MEACHUM DIES

AUSTIN, Sept. 21.—W. W. Meachum, Jr., assistant attorney general, died at a local hospital last night after a brief illness. Death was caused by acute Bright's disease.

He is survived by his widow and two children, his mother and a brother living in Houston.

### 'Stand Firm Says Man Who Lost Office

Former Governor of Texas Urges Oklahoma Executive to Be Warned By His Mistake and Keep the Legislature From Meeting. Must Be Aware of Influences.

TEMPLE, Texas, Sept. 21.—Former Governor James E. Ferguson put himself on record today as squarely behind Governor Walton of Oklahoma in his fight against the Ku Klux Klan. In a letter to the Oklahoma executive he said:

"I want to commend your stand against the insidious Ku Klux Klan. By all means let me urge you to stand firm in your announced determination to prevent any meeting of the legislature. You might be warned and benefit by my mistake, and I urge you to beware of any influence that may be brought to bear in an effort to persuade you to change your mind.

"I had 20 liars in the Texas legislature to vote for my impeachment after they had promised me their support if I would call the legislature to meet."

### Klan Grand Dragon Declares Governor Is Flaying Him

OKLAHOMA CITY, Sept. 21.—Charging that he was being flayed without mercy for political purposes by Governor J. C. Walton, N. C. Jewett, grand dragon of the Ku Klux Klan in Oklahoma, today declared his only recourse was to the courts.

Terming the findings of the military courts as libel and an effort to assassinate his good name, Jewett said he would welcome an investigation through the civil court channels. "Under martial law conditions, the less said the better," said Jewett. "The governor is making war on the Klan, on which he is staking his political favor throughout the state. It will all come out in the wash. At present the governor has the limelight, but whether he will hold it is another question."

### GRAND GOBLIN KIMBRO SAYS HE HAS NOTHING TO HIDE

HOUSTON, Sept. 21.—George B. Kimbro, Jr., of Houston, grand goblin of the Ku Klux Klan, realm of the Mississippi valley, admitted here today that he was the Klan official who told Dr. A. A. Maupin of Oklahoma City of the whipping of negroes in Texas by klansmen.

Dr. Maupin testified before a military court in Oklahoma City that a grand goblin of the state of Texas told him how they whipped a negro at Galveston. "So far as I can see, he got it pretty straight," Kimbro said, referring to Maupin's testimony. "In substance the story was true. I have nothing to hide."

### TRIAL OF STRENGTH, CIVIL COURTS VERSUS MILITARY, IN PROSPECT

TULSA, Okla., Sept. 21.—Preparations were being made by opponents of Governor Walton today to launch court proceedings to remove the military overseers from the office of Sheriff Sanford. It was expected suits would be filed late today or early Saturday, Representative Disney, a house leader, said.

### WOMAN DRIVES COUPE INTO LARGE SHOWCASE

DENTON, Sept. 21.—C. E. Miller and J. E. Angell were holding an animated conversation beside a large showcase at the entrance to Russell-Gray-Jones store here when they were knocked down by a runaway Ford coupe.

**BIBLE THOUGHT**  
**HUMILITY OF CHRIST:**—Let this mind be in you, which was also in Christ Jesus. Let nothing be done through strife or vainglory, but in lowliness of mind let each esteem other better than themselves.—Phil. 2:5,3.

**CHRISTIANITY ADVANCING**

In a land where some 298,000,000 of the 318,000,000 population in Hindu, or Moslem, or Buddhist, with another 15,000,000 divided among a score of lesser creeds, it well may seem misleading to use the word "advance" as regards Christianity. Yet it is exact. More: It is encouraging. For the solemn fact is that present-day India is exhibiting to the Western world a movement surely making away from its immemorial past, toward the mental frontier of Europe.

For a generation and more the energy of Occidental materialism has been stirring these Oriental folk and now the heaven of Christianity is working among them. They have long been called the most religious-minded people in two hemispheres, and why should there not grow up in their midst a truly spiritual form of Christianity?

India's Christians now number 4,750,000—only that in the gigantic total of the crowded races dwelling between Cape Comoros and the Himalayas! But there were not 880,000 a dozen years ago. The increase in that brief span has risen close to 23 per cent. As that rate of growth is maintained (and there appears no present reason to doubt such development) it becomes impossible to over-estimate the influence of the movement upon the future of the ancient land.

It is not only that Christianity, as usually so taken, is gaining ground; it is that the Christian idea is growing every day more fixedly permanent. The missionary workers from the West are scorned often enough; the rivalry of the sects which have sent them into Asia is usually derided—and yet this mighty India more and more is coming to contemplate religion as something kind, not cruel, and to recognize existence as something beautiful, not grimly hard.—Christian Science Monitor.

We often wonder what would be a convenient time to pay a quarterly installment of the income tax.—Ohio State Journal.

Europe keeps the brink of war well trodden.—Detroit News.

Senator Hiram Johnson's call on President Coolidge lasted just three minutes. Evidently he didn't tell the president all about the European situation.—Manchester Union.

**CENTRAL SCHOOL P. T. A. MEETS THIS AFTERNOON**

The Parent-Teacher club of the Central school will meet this afternoon at 4 o'clock in room 33 of the high school building. A large attendance is expected.

**DALLAS.**—Hard luck pursues O. Baker in the form of broken arms. The lad fractured his forearm while skipping rope a few days ago. This was the third time in the last few months that young Baker has sustained a broken arm.

# What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

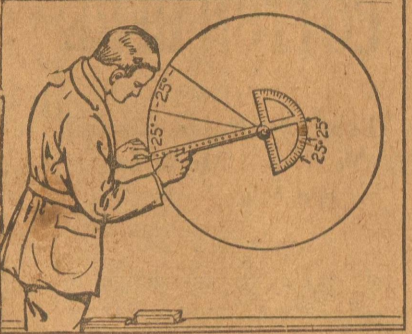

**Rolling Dice By Airplane Latest of Sports**

With giant dice made of light material, aviators now play the game of dice from their airplanes as one of the latest American sports. Placed in front of the machine, the propeller is twirled, and the rush of air sends the dice rolling down the field with the plane in pursuit. The cubes are then placed in position again.

**Suction Cup Holds Ruler Against Blackboard**

For teaching classes in subjects that require accurate drawings, a blackboard

has been provided with a drawing set that can be instantly attached by a suction cup, from which the instruments swing on a pivot, permitting the use of protractor, divider, T-square, rule, and angles. The force of the suction is sufficient to hold the set to the surface of the board for 15 minutes, when the outfit may be removed or replaced at the same point. Being vertical, this device may be seen from any part of a room, and makes it easier for the lecturer to illustrate his subjects.

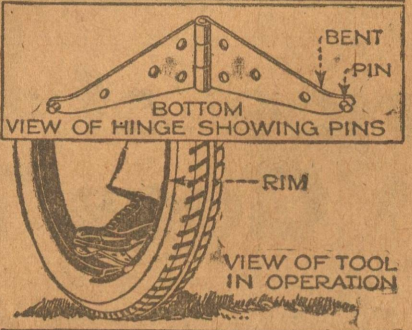

**Ship Found on Big Iceberg Reveals Mystery of Sea**

For centuries mystery ships have sailed the seas, guided only by the winds of chance. One of them was found by a steamer captain rounding the Horn recently. While groping his way into the open, a gigantic mass of ice carrying a large three-masted schooner, with its boats still in the clefts, was sighted. Efforts were made to find the survivors but no trace of them was discovered. Another sea tragedy was added to the already long list of those as yet unsolved when a Greenland whaler came upon a strange looking derelict, battered and weather-worn, apparently built in the last century and ice bound for years. A boarding crew found in the cabin the body of a young woman, preserved by the arctic frosts. Near a long dead fire was the remains of a young man, still holding a flint and steel.

**Rim Spreader for Changing Tires**

A common 8-in. barn-door hinge can be used to good advantage for spreading automobile rims when changing tires. If the rims are perfectly plain at the split it will be necessary to drill two 3/8-in. holes

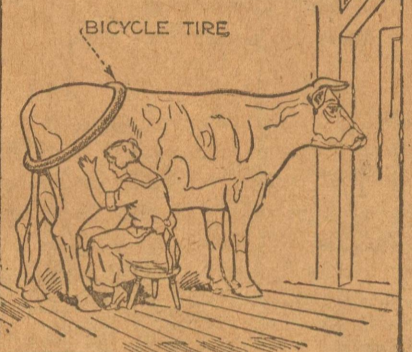

about 4 in. from the ends. Two pins are riveted or welded to the end of the hinge and each end is then bent as shown. The pins are inserted into the holes drilled in the rim and the hinge is pushed down with the foot, thus spreading the rim. If there are studs on the rim, the hinge can be used without pins, by simply butting the ends

against the studs, notching the ends if necessary to prevent the hinge from slipping.

**"Anchoring" the Cow's Tail**

Anyone who has milked cows has suffered from the annoyance caused by the animal switching its tail around to chase the flies. This trouble can be prevented very easily if there is an old bicycle

tire lying around the yard. The tire is simply thrown over the cow's back as shown. This idea has been tried and found very effective.

**LIONS LOOKING INTO PROPOSED SITES FOR RANGER ATHLETIC CLUB**

The Lions club yesterday noon appointed a membership committee for the proposed new athletic club. The committee headed by J. M. White, made a brief report on possible locations. White said that three vacant theatre buildings in Ranger are being considered, the Rex, Southland and Lone Star.

According to C. E. Maddocks, real estate man, who has maps of down-

town Ranger business property, the Southland has dimensions of 40x100, the Rex 48x100 and the Lone Star 25x75.

**JURY FINDS GOOD GUILTY, VERDICT IS 25 YEARS**

*Special to the Times.*  
 ABILENE, Texas, Sept. 21.—Milt Good was convicted of murder in connection with the killing of Cattle Inspector Roberson at Seminole several months ago and a verdict of 25 years in the penitentiary returned by the jury, which reported at 7 o'clock last night after deliberating three and one-half hours.

**NEEDLESS FIRE ALARM TURNED IN FOR TRASH FIRE**

Some became uneasy over a trash fire on the Texas company's property about 7:30 o'clock this morning and called the fire department. When the firemen reached the scene the trash fire was under control.

His success at Lausanne seems to entitle the Turk to be known as the Slick Man of Europe.—Springfield (Mass.) Union.

**THURBER HERE SATURDAY FOR THE LAST TIME**

Captain Dalmasso and his Miners will probably make their last appearance of the 1923 season in Ranger tomorrow afternoon at the city ball park. The Snappers have won one more game than the Miners in their tilt and Captain Adams and his gang are going to play a brand of ball to keep it from being tied, the Snappers say.

**TREMENDOUS SCENES IN FAIRBANKS MOVIE AT LIBERTY THEATRE**

When Douglas Fairbanks began his great production, "Douglas Fairbanks in Robin Hood," his latest photoplay for United Artists release, which is to be shown at the Liberty theatre, starting tomorrow, the first scene filmed was an interior, and Paul Dickey, playing Sir Guy Gisbourne, the villain, killed a man nine times. This happened in the tent of Richard Coner de Lion on the road to the Holy Land with the Third Crusade.

The scenes are taken from the stirring times in England of which Sir Walter Scott has written in Ivanhoe and other novels, and shows Robin Hood as a knight in the tournaments and as leader of the most famous robber band in history. The court, tournament and battle scenes are immense productions.

"In starting this production," said Allan Dwan, who directed Mr. Fairbanks in this feature, "we felt much as we did when we went to the Grand Canyon several years ago to make scenes for 'The Modern Musketeer.' We didn't undertake to photograph the canyon at once—its magnitude appalled us. It was so vast, so big. So we played around the corals for the first few days, photographing scenes featuring the horses and mules. Finally we got up courage enough to take a crack at the canyon.

"That's the way it was in starting on this new spectacle. At first we thought we would crash right into one of the big scenes showing a thousand knights in armor lined up for a tournament. But this undertaking was so big that it staggered us. So instead we decided to photograph the scene in Richard's tent, which we figured would give us courage enough to try one of the big out-door shots showing the resplendent knights with their plumed helmets and flashing spears."

The magnitude of this feature is such that several months were required in which to "shoot" it.

A \$10,000,000 electric power development program will start in British Columbia early in 1924 when a dam across the southern end of Lake Alouette will be constructed. The penstock of this dam will be a 4,000-foot tunnel through a mountain. Construction of this dam and tunnel will cost \$1,500,000 and will add 12,000 horsepower to the generating capacity of the company contemplating it.

**Ranger Schools Are Provided With Best Water To Be Had**

High school pupils drink electrified water, piped to the building on South Marston from the plant of the Ranger Distilled Water plant, E. O. McNew, superintendent of the public schools said today, in an answer to a query of a Times reporter. It had been reported that city water was being piped to the bubblers in the high school corridors.

**DODSON IS ELECTED PRESIDENT OF THE RANGER COUNTRY CLUB**

J. M. Dodson was elected president of the Ranger Country club last night at a meeting of the members. He succeeds W. H. Fouke, who recently moved to Los Angeles with his family. Other officers elected were: E. E. Crawford, vice president; O. L. Phillips, secretary; directors, H. A. Logsdon, C. A. Conley, O. L. Phillips and J. M. White. H. U. Pond was made chairman of the grounds committee and Dr. C. C. Craig, captain of the Golf team.

**Poincare Will Not Entertain Late German Proposals**

*By United Press*  
 BERLIN, Sept. 21.—Premier Poincare of France is the stumbling block which is preventing acceptance of the latest German proposal for evacuation of the Ruhr and Rhineland, according to the views of officials here.

Chancellor Stresemann urged the French ambassador to submit the German proposals to his government, but the latter refused when he learned the Germans had attached conditions to the offer. Stresemann then approached the Belgian ambassador and the Belgian agreed to submit Germany's offer, claiming that it amounts practically to complete capitulation.

**RUHR AND RHINELAND DATA BEING SOUGHT**

*By Associated Press*  
 PARIS, Sept. 21.—Prime Minister Baldwin of Great Britain had been

gone from the office of Premier Poincare only a little while this evening when Marshal Poch arrived, followed closely by the French Rhineland minister and the ministers of public works, finance and transfers.

A conference lasting two hours was held at which every feature of the Ruhr and Rhineland situation was discussed. The subject of the conference was to place the premises in possession of data that will enable them to give the necessary instructions to the Rhineland commanders and the allied ambassadors in Berlin when they take up the Ruhr question, as they are expected to do at an early date.

**Why the Lions Won the Ball Game; Tale of a Hungry Man at the Lunch Counter; a Fight and the Finish; Also Another Sad Finale.**

By P. G. T.

"Swede" Larson, one of the Lion Tamers, says that the Rotarians were to be complimented on yesterday's game for their "snappy" get up. The four Snapper players worked with the Rotarians all right but the Rotarians had been going around so much that they were too dizzy to play good baseball, consequent score 10-7 favor of the zoo.

There is a restaurant in our town which dares you to "try to get in" all over the windows and on the menu. "Try to get in" is its motto.

The other day a poor, hungry guy saw this sign, he didn't have any jack but made up his mind he'd take this "try-to-get-in" dare and see what happened.

The chow house was jammed to the guards. By crawling on his hands and knees this dude managed to get in between two stools. When he came up for air appetizing grub was flying in all directions.

A spaghetti inhaler was flirting with the succulent vegetable endeavoring to drag it to his mouth on a fork. The hungry bird got slugged between the nose and chin with an eel of spaghetti and tried a bit of inhalation himself. He got the work full.

A vegetarian was holding a piece of pie in one hand and eating a slam sandwich, apparently held in the other. Our hungry bimbo took a couple of bites out of the pie.

"Say," said the vegetarian, "what-ya eatin' off a my pie fer?" "What am I eatin' off a your pie fer?" says the hungry bloke, "what I'd like to know is what-ya eatin' off a that bimbo's slam sandwich fer. Hey, bimbo, this here vegetarian is eatin' off a your slam sandwich."

"Damme ain't," says the bimbo. "I don't know nothin' about it," says the vegetarian.

"You're liar," says the bimbo. Then there was a fight and the hungry grifter grabbed the meals of the vegetarian and rambled forth on his way beyond.

We could have stretched this here defective story out into three or four more chapters but it was getting so obvious we had better stop "rat now."

#### CHAPTER 4TH.

After several hours of deep thought, during which Croox did nothing but bite his ears and change colors, he finally became galvanized (so he wouldn't rush) into action.

"Grewsome, I have the secret of this ship. This water we have been drinking tastes very familiar, like water from Ranger."

Croox reached out the port hole and scooped up a key-hole saw fish from the ocean and proceeded to saw recklessly into the bulkhead. A trickle of water flowed from the hole, he tasted it. "Just as I thought, Ranger water. These villains are running water to England, which is against the law of that country. Every one of them should swing for it. The United States should prevent this water running." Croox continued to saw madly.

Suddenly the bulk head broke and a great rush of water drenched us. There was no stopping it, it continued to rise. Croox was shorter than I and I saw him sink chokingly beneath the swirling waters. We had unearched the secret only to be drowned like rats in a trap before we could make an arrest and collect the reward. Water engulfed my head and then all was blackness. 'S death.

There ain't any more. So far as we both know Croox and Grewsome have done their last detecting. Of course in the event another crime is committed they might come to life so they can detect it.

### MRS. SARAH HODGES OF NECESSITY DIES; WAS WEST TEXAS PIONEER

Mrs. Sarah Hodges of Necessity, 71 years of age, died at 6 o'clock Thursday evening. She was a resident of West Texas for many years and was married in Stephens county to John Hodges about 35 years ago. Ten children, seven boys and three girls, were born to them and all are living near the old home except one son who moved to Kansas.

#### WOMAN WHO ATTACKED FAIR GETS 5-YEAR SENTENCE

EASTLAND, Sept. 5.—Fred Motorman, convicted on an assault to kill charge, was sentenced to five years in the penitentiary by Judge G. L. Davenport in the Ninety-first district court.

Motorman was chased by a crowd and captured after an attack on H. Fair, Ranger jeweler, in his store on South Rusk street.

#### WICHITA FALLS, Sept. 21.—The reward for faithfulness should go to the local deputy sheriff who waited for two suspects whom he wanted to arrest for 24 hours while they were in jail, unknown to him.

The aged couple are the parents of seven children, five of whom are living. Living descendants have been traced to the fifth generation.

#### WICHITA FALLS, Sept. 21.—The reward for faithfulness should go to the local deputy sheriff who waited for two suspects whom he wanted to arrest for 24 hours while they were in jail, unknown to him.

Accordingly he took up his vigil. He remained on duty 24 hours and was starting a second shift when he learned the two men were in jail all the time.

### Four Years Ago In Ranger

Taken from the files of the Ranger Daily Times, Sept. 21, 1919: Boshgetorian and Cobbell, architects of this city, are drawing plans for a moving picture theatre for the Lamb Theatre company. E. Lamb, the owner, intends to secure a fine orchestra for the theatre and show only high-class pictures.

Leville-Maher, who have the local agency for the Ford Motor company, have purchased a corner lot on Main street, just east of the Eureka Tool company. The purchasers plan to erect a substantial structure of brick tile to be used as a salesroom and service shop.

### WILLIAMSON COUNTY COUPLE MARRIED FOR SEVENTY-TWO YEARS

SWEETWATER, Texas, Sept. 21.—Married 72 years ago, yet still happy! That is the record set by Mr. and Mrs. W. E. Williamson, of Florence, Williamson county, grandparents of W. E. Wade, of Sweetwater.

Mr. and Mrs. Williams lay claim to being the oldest married couple in Texas. They are 91 and 93 years of age, respectively, yet they still claim to be young. Those closely acquainted with the couple declare that their mental faculties have been retained to a surprising degree.

The aged couple are the parents of seven children, five of whom are living. Living descendants have been traced to the fifth generation.

### AIRMAIL PILOTS IN THE ST. LOUIS RACES

ST. LOUIS, Sept. 18.—Eight or 10 pilots of the government airmail, with their planes, will be sent to the international air races at St. Louis field here to compete in the special 50-kilometer triangular course, a to-Oct. 3, the postoffice department has notified the air board.

Several of the flyers who participated in the successful transcontinental flights will be included. The race is six times around the 50-kilometer triangular course, a total of 186 1/2 miles. Prizes consist of the Detroit News air mail trophy and \$1,500 in cash.

Speed nearly as fast as that of the 200-kilometer Pulitzer world's speed trophy race the same day is expected to be attained.

**Vigorous Old Age**

WHY separate youth and old age with a deep and ever-widening abyss?

The bloom of youth and the hardy, ruddy glow of Old Age—sixteen and sixty—should be separated only by the span of years and not by varying differences of physical wholesomeness.

Vigorous old age is within the grasp of all. S. S. S. brings that hale and hearty feeling back with a rush. Rich red blood is the greatest enemy of weakening, health undermining Old Age. S. S. S. builds Red Blood Cells. Rich, red blood coursing through your veins sweeps away impurities that retard the proper functioning of your system. Old Age—once a dreaded agony becomes a vigorous, enjoyable, care free time of life.

S. S. S. is made of carefully selected herbs and barks—scientifically prepared and proportioned. Welcome Old Age when it comes. Be ready to withstand the attacks of diseases that follow in its wake. Meet Old Age with a hearty handshake. A handshake that speaks of well being—of a vigorous, clear thinking, red blooded constitution. S. S. S. is your best friend when Old Age is soon rounding the corner. Get a bottle and drive care and worry away. All leading drug stores carry it. The large size is the more economical.

#### "WORSE THAN PAIN"

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. G. Bowman, of 1319 Front Street, this city.

"I was so run-down in health I could hardly go. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I was no pleasure to myself.

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart.

"This nervous condition was worse than pain.

"Some one told me of Cardui, and I decided to use it.

"After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well.

"I have never found anything better for a run-down condition.

If you suffer as this Louisiana lady did, you, too, should find Cardui helpful for your troubles.

Get a bottle of Cardui, today. NC-144

**NOTICE**

There will be an important meeting Friday night, Sept. 21, 8 p. m., Elks' Club, to discuss final plans for our Big Circus.

Much of the success of the proposition depends on YOU. Kindly arrange to be there.

L. L. Neal, Secy.

FORT WORTH. — Tarrant county's first venirewoman received a check for \$1 for her appearance in district court. Her name is Miss E. M. Feltz, daughter of a wealthy Crowley county rancher.

BIG SPRING. — A new engine installed by the West Texas Electric company, in the plant here, adds to the capacity of the plant to such an extent that it is now the largest power plant between Sweetwater and El Paso.

Tickets for the Ranger Style Show and vaudeville now on reservation at Crawford's Pharmacy. — Advertisement.

# LIONS TRAMPLE ROTARIANS AND SNAPPERS, 10-7

The combined Rotarians-Snappers outfit couldn't stop the onrushing Lions at the city ball park yesterday afternoon and were crushed beneath the latter's paws, 10 to 7, in a seven-inning affray.

As there were no hundreds of people in the grandstands, so scintillating baseball was lacking. Not even one player on both sides shone. The star player, the fellow who throws the ball to first one second before the runners gets there, or whangs the ball down the foul line for a safety, or who toes the bag a moment before the baseman puts the ball to him, was conspicuous by his absence.

John (Sparkplug) O'Keefe played third for the Rotarians and the conviction was general on the bench that he was extremely friendly to the Lions at times. He coquetted with a Lion batsman on almost every occasion. But he turned away this suspicion by his hitting.

Gus Coleman was Convinced. Gus Coleman, president of the Rotarians, and manager by virtue of this office, the official baseball club, was thoroughly convinced before the game started that he had a lineup that would tame the Lions. Why not? There was B. Lane behind the bat, O'Keefe at third, Bud Dinsmore at shortstop, "Peaches" Ridings in right field, Dot Scoggins at first and Al McKay in left field, every bloom-in' one of them professional baseball players, men who will gather together Saturday to represent the Ranger Snappers when the crack Thurber club comes to town.

Lo, behold, the Lions playing without a single "ringer" scored two runs in the first inning and repeated in the second frame. The R.-S. aggregation tallied twice in the first and three in the third but had this lead snatched away from them in the fourth for the rest of the game.

Always a Run Ahead. J. M. White, the Lions' mainstay this season, was not invincible against the enemy, but his club always managed to make a run or two more per inning than the opposition. Gifford Clegg was on the firing line for the Rotarians, and J. C. Smith, the man with the "trick delivery," substituted when Clegg had to go home.

R. V. Galloway took White's place on the mound in the fifth and he struck out three men in a row in the fifth, including Dinsmore and Ridings. It was murmured around that Sim Simmons didn't call every ball a ball and every strike a strike, but his decisions stuck and as far as the Times writer knows Sam is not a fugitive today.

One player who had an interesting analysis to make of his plays was Gus Coleman. Explaining why he didn't get under one ball, he said: "I just put my hand out in the wrong direction." He deeply regretted his error.

Dr. H. A. Logsdon held his pitchers down but his pegs to second were a trifle short and there was an epidemic of base stealing to second.

The game was for the benefit of the Ranger High school football team. However, the boys and girls stayed away.

The lineup: Rotarians—Lane, c; Clegg, p; Smith, p; Karl Jones, 2b; O'Keefe, 3b; Dinsmore, ss; Ridings, rf; Scoggins, 1b; Coleman, cf; McKay, rf.

Lions—Bates, rf; Shaw, rf; K. C. Jones, ss; Newton, rf; Terrell, 3b; McElreath, rf; Craig, 2b; Galloway, 1b; Larson, cf; Logsdon, c; White, p; Pond, 1b.

## Fight Films Show Dempsey to Have Won Bout Fairly

NEW YORK, Sept. 21.—The Dempsey-Firpo fight pictures were shown for the first time yesterday afternoon and clarified some of the disputed points of the fight. The pictures were shown at B. S. Moss' Broadway theatre. They were made by Leon J. Britton, under a special contract with Tex Rickard. There is a fast and slow movie of the first round and a fast movie of the second. The pictures reveal that Dempsey knocked Firpo down seven times in the first round and twice in the second, including the knockout.

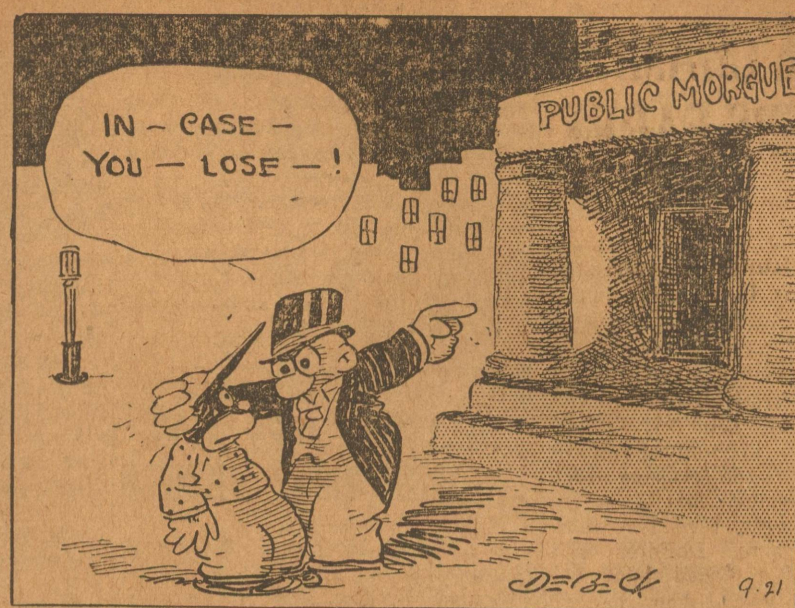

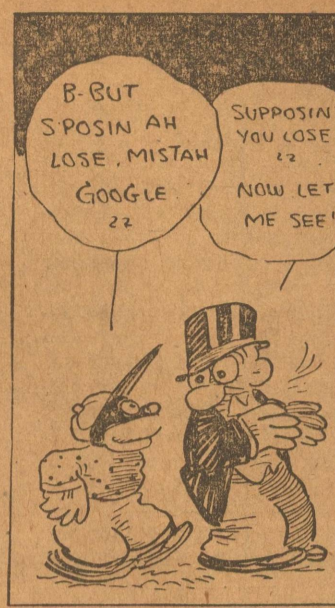

No Foul Blow Struck. There was a question whether Dempsey, when he first knocked Firpo down, had hit the Argentine while he was turning his head to listen to something Referee Johnny Gallagher was saying. The picture shows Firpo's head down and slightly turned. Dempsey is fighting very close and the blow is not apparent.

Did Dempsey hit Firpo on the third knockout before Firpo had got up? That was another question. The picture shows that after that knockout Firpo rolled over at the count of nine and had both his hands and knees off the ground, but was in a sort of squatting position when

## OWNER OF NEW YORK GIANTS UNDER INDICTMENT

Charles A. Stoneham.

Charles A. Stoneham, multi-millionaire owner of the New York Giants, is under indictment by a federal grand jury in New York City on the charge of perjury, resulting from testimony he gave before the referee in bankruptcy in the hearing of the case of Fuller & McGee, stock brokers, who failed for \$5,000,000. Stoneham's checks to the firm, he swore, were loans, made at the solicitation of Thomas A. Foley, Tammany leader. It is alleged in the indictment that the \$175,000 "loan" was really Stoneham's one-quarter interest in the failed concern. Stoneham, before he bought the Giants, was a leading New York stock broker.

Dempsey rushed in on him and floored him again with a short right to the jaw.

Show Dempsey's Exit. The picture reveals the blows leading up to the memorable knocking of Dempsey into the laps of the newspaper men. They had been boxing in the center of the ring. Firpo's right shot out; he landed his first clean blow full on Dempsey's jaw. Dempsey's head shot back. It was apparent that he had got a bad jolt. Firpo twice rushed him to the ropes and rained a series of eight swinging blows on the champion. Six of them told.

After the seventh blow Dempsey was sagging on the ropes. The eighth hit him in the angle formed by his neck and shoulder. It was more a push than a punch. He went down.

Dempsey Sways. Firpo did not, it seems, neglect his opportunity at this moment. When Dempsey got up he whanged away at him again and showered him with six stiff blows. Dempsey swayed and then clinched. Firpo pushed him to the ropes again. Then Dempsey recovered and the bell rang.

Dempsey floored his man in the first round with an arrangement of short body blows, followed by blows on the face. Firpo's attack was by way of his well known swinging blows, always telegraphed.

In the second round Dempsey tore after Firpo and Firpo stood back, defensively, lashing out viciously, but still apparently on the defensive. Dempsey caught Firpo with his head down and gave him a jolt on the jaw with the right. Firpo went down for a count of nine.

Blows Rained on Firpo. He got up and hung to Dempsey. The champion banged at him with overhead rights and lefts. The knockout came when Dempsey hit the challenger twice on the body, left and right, and then twice in the same way on the face.

Firpo fell on his back, his hands flopped out. As Gallagher counted, it could be seen he was trying to get up. He made two unsuccessful tries before the referee had reached six. After the count of six he rolled over on his stomach, tried twice to pull the right leg up and couldn't.

## TRAINERS CAN'T MAKE CHAMPION BOXERS-FARRELL

Some Old Timers Say Firpo Didn't Blunder in Discarding DeForest.

By HENRY L. FARRELL, United Press Sports Editor.  
NEW YORK, Sept. 21.—Not all of the old-timers and only a few of the wise men of the present day are willing to admit that Luis Angel Firpo blundered terribly when he discarded Jimmy DeForest as his trainer and replaced him with a South American, who had been schooled in boxing in a movie house.

When Firpo announced after he had won his two big fights with Brennan and Willard that he had decided he could get along without the fancy-priced services of DeForest, the boys sat back in the jury box and decreed that Firpo had more mistakes ready to be used than he could ever find place for.

Others, however, figured that it was not only Firpo's own business to do as he saw fit, but they found a trace of wisdom in his decision to save money and fight his own way.

Firpo explained that when he fought his own way he won without trouble and that when he tried to put into practice the teaching of his professor, he nearly had his block knocked off.

The previous alibi for Firpo was that he was not temperamentally equipped to learn a style of fighting so far removed from the natural instinct in him to club and bring down. It was said that he could not be too hot-headed and that he forgot all his lessons when he was pushed in the kisser.

At Atlantic City, where Firpo was trained for the Dempsey fight and where had gathered all the sages of the writing and fighting game, another defense was advanced in favor of Firpo.

"Who is there in the United States really qualified to teach a fighter the game and make him a winner?" it was asked.

There was no candidate agreed upon. In the ensuing argument it was agreed by all the sages that no one could have taught "Fitz" to fight, that no one could have improved upon Wolgast, McGovern or Gans and it was practically agreed that there is no trainer in the country who could really teach Firpo how to fight, even if he had the disposition to carry out instructions.

In Firpo's case it is not that he lacks the capacity to learn or that he is a dumbbell. On the contrary, he is a quick thinker, a smart man in and out of the ring, but he could not be taught to do something that he felt down in his heart was the wrong way for him.

Fighters are born many times more than they are made. The greatest trainer or ring professor in the world could not make a champion unless he had the material, and even when the makings are there, the production is not possible unless ideal conditions prevail.

No great fighter or champion of the present day has a tutor. Perhaps it might follow that a champion does not need to be taught and that

he has to be almost perfect to reach the top.

Dempsey, Gibbons, Leonard, Tendler, Walker, Lynch, Dundee and Villa have trainers, but their labors consist mostly in rubbing and massaging. Most of the champions do not like to have a trainer telling them how they are to fight.

Leonard is one exception, but the case at hand is also exceptional. The lightweight champion said that his trainer, Mannie Seamon, gave him invaluable instructions in the proper method of beating Lew Tender when they met this summer in New York.

Tendler, however, was a left-handed fighter and Leonard knew that his trainer had followed Tendler very closely and had studied his style so closely that he was able to imitate the left-hander almost perfectly.

## TIRE AND TUBE THEFTS BECOME TOO NUMEROUS

An epidemic of tire and tube thefts has broken out in Ranger and vicinity and included with a big haul reported from Cisco during the night, the losses to owners have gone into the four figures. Six different cases of robbery have been reported to the Ranger police department during the last 72 hours.

R. E. Barker of Highland park reported the loss of a Seiberling cord tire, one tube and one rim. A wheel was also stolen but discarded about one half mile from the scene of the theft.

A filling station at Cisco notified the police that 11 tires and four tubes, all new, had been removed from the station during the night. Ove Overson, Ranger attorney, reported the removal of a tire from his automobile while it was parked on North Austin street. A tube and rim was also stolen. J. C. Smith lost a Seiberling cord, tube and rim, which he had never used. Four Standard cord tires were stolen from 210 South Ruske street, according to a complaint to the department. A Seiberling tire, tube and rim, stolen from Barney Carter's residence on Ranger Heights several days ago, was recovered Wednesday night with the arrest of two men, who were given an examining trial yesterday evening in Justice J. N. McFatter's office. One was released under \$1,000 bond and the other was remanded to the county jail after failing to get bond.

## Delicious Cake Icings Made When Using Karo Syrups

Most housewives rely on sugar for cake icing, but that is because they do not know what delicious and quickly made icings may be had by using Karo syrups, both red and blue labels. The following recipes will be a delightful surprise to many cooks.

**Marshmallow Icing.**  
One and one-third cups sugar, 1-2 cup cold water, 1 tablespoon Karo, red label, 1 egg white, 1/2 tablespoon marshmallow cream or 6 marshmal-

## AMERICA'S "MOST DISTINGUISHED FARM GIRL"

Miss Peggy Keith, 15.

Upon Miss Peggy Keith, a 15-year-old girl of Warrenton, Va., has been bestowed the title of "America's most distinguished farm girl" by the United States department of agriculture. She raises ponies, dogs, chickens and cattle, is an expert canner and produce grower, and can qualify as a judge in any livestock show. Miss Keith won her title in competition with 600,000 boys and girls from all sections of the United States and will be sent to the Eastern States exposition at Springfield, Mass., by the department of agriculture as a reward.

**Flavoring.** Boil Karo and water until syrup spins a long thread. Pour slowly onto stiffly beaten egg whites, add marshmallows or marshmallow cream, and continue to beat until icing piles up. This icing is fluffy and smooth if properly made, and of a creamy consistency, yet firm on top.

**Chocolate Fudge Frosting.**  
One and 1-2 cups brown sugar, 2 tablespoons Karo, blue label, 1 tablespoon Mazola, 1-2 cup sweet milk, 1 square chocolate. Cook slowly for 15 minutes, or until it forms a soft ball when dropped in cold water. Cool for 10 minutes. Beat until creamy.

**BAND MEETING CALLED.**  
Henry Schmidt, instructor of the Ranger band, has called a special rehearsal for tonight in the band room in the DeGross hotel building on South Marston street.

**GETS SUPPORT HERE TOO.**  
The many people here who have gotten such wonderful results from Black and White Ointment for pimples, blotches, bumps, "breaking out," eczema, rash, itching, etc., are proving their gratitude by giving it the most wholehearted and enthusiastic word-of-mouth publicity ever known.

The fact that Black and White Ointment is already selling at the phenomenal and unheard of rate of nearly two million packages a year, proves louder than words can tell how dependable it is to people who had never before been able to get relief from their skin troubles by using anything else.

Black and White Ointment is economically priced in liberal size packages. The 50c size contains three times as much as the 25c size. All dealers have it.—Advertisement.

ANNONA.—The electric transmission line of the Clarksville Light company has been extended to this city and Annona is now being served with electric power and lights.

EL PASO.—Federal authorities are on the lookout for "bunco" artists who are reported engaged in their activities among Mexican laborers en route from Mexico to the United States.

WAXAHACHIE.—A new electrically operated pumping plant for the city's water supply that has been in operation for several months, is saving the city just one-half of the former cost of pumping the water from the artesian wells that supply the city.

ROBY.—The trade trip of the Abilene Chamber of Commerce recently visited this city and made an excursion over the Roby and Northern railroad, the first electrified railroad in west Texas.

# CHAIN STORES HAVE CREATED AMERICAN BUSINESS ROMANCE

NEW YORK, Sept. 15.—One of the greatest romances in American retail business has been the growth of chain grocery stores, 200,000 of which now transact slightly less than 10-per cent of the nation's retail grocery business, estimated at \$20,000,000,000 annually. If the present ratio of growth is maintained, this will be increased to 25 per cent within the next five years.

Economy of operation by reason of the fact that the business is transacted on a cash basis with a heavy turnover and small profits, and the rapid development of American suburban and community life, have been the two main factors responsible for this tremendous growth. Scientific investigation has revealed that a community of 1,000 persons will permit the operation of a chain grocery store at satisfactory profits, though the store can serve several times that number.

Other large chain store concerns are the J. C. Penny Co., operating 382 department stores doing an annual business of more than \$50,000,000; the S. S. Kresge Company with 212 stores and annual gross business in excess of \$65,000,000; Schulte Retail Stores Corporation with 239 stores in 1922, doing an annual business of nearly \$25,000,000; the United Drug Company with more than 250 stores; the R. G. Kinney company operating 131 shoe stores; the McCarty Stores Corporation with 165 stores; the S. A. Kress Company with 150 stores and the Melville Shoe Corporation with 62 stores.

## RANKING OFFICER IN U. S. NAVY IS NATIVE TEXAN

DENTON, Sept. 20.—Denton claims the honor of having produced the ranking officer of the United States navy, Admiral E. W. Eberle. Admiral Eberle was recently appointed chief of navy operations by Secretary of Navy Denby. This position is considered the ranking one of the naval forces of the country.

Admiral Eberle was born in Denton and began his education in the public schools here. He was appointed to the United States naval academy from Arkansas in 1881, and received his commission as ensign in July, 1887. Immediately, the young officer went to sea in command of a small boat. Later he was placed in charge of a battleship division and given a corresponding increase in rank. In time he came to be placed in command of the Pacific fleet.

When Admiral Eberle was named chief of operations, he succeeded Admiral Robert E. Coontz. Admiral Eberle relinquished command of the United States battle fleet to his successor, Admiral S. S. Robison, at San Diego.

BEAUMONT.—The new office building of the Eastern Texas Electric company is almost completed. It will contain features that will add to the civic interests of Beaumont.

GALVESTON.—New one-man street cars are being added to the equipment of the Galveston Electric company to assist in handling the increasing traffic.

## WILL KEEP AMERICA SUPPLIED WITH COAL

Clyde B. Aitchison and Francis Wadleigh.

In the event of a strike of the anthracite coal miners, Francis Wadleigh, federal fuel administrator, will have charge of the situation and will ration out anthracite substitutes, such as bituminous coke and oil, throughout the country. Clyde B. Aitchison, interstate commerce commissioner, has been charged by President Coolidge with the task of giving such substitutes priority on the railroads and to see that no section of the nation is lacking in fuel.

## FISHERMAN EVOLVES METHOD TO OBTAIN BAIT WITH

FON DU LAC, Wis., Sept. 19.—After reading how earth disturbances cause all living things to scurry to the surface of the ground, Albert Narens, local barber, discovered a new way to gather bait for his fishing trips.

Albert is an ardent knight of the rod and reel, and perhaps uses more bait than any other man in this city. One day he read of earth tremors in South America. The correspondent gave a graphic description of how rats, snakes and other creatures rapidly made for the top of the earth.

Early the next morning he went out into the garden, drove a stout piece of board into the ground a few feet, and then drove a rough board rapidly over the end. The process caused a rasping sound, producing a vibration in the ground. The disturbance, he says, caused the angle worms to hurry to the surface, and now he gets his bait without a spade.

GROESBECK.—A "Ford" parade will be an unusual feature of the second trades day in Groesbeck to be staged in September by the local Chamber of Commerce. Only Ford automobiles will be permitted to enter the parade and a variety of prizes are being offered. Over 10,000 persons are expected to be present.

## St. Louis Would Keep Negroes In Outlined Districts

ST. LOUIS, Sept. 20.—Establishment of exclusive negro residential sections of this city to take care of the colored population's 50 per cent increase since 1920 has been approved by the 375 members of the St. Louis real estate exchange.

Three districts have been set aside and the members of the exchange will sell no property to negroes outside of these districts, as far as possible.

The districts are the ones in which the densest negro populations now are located. One district, now housing 5,000, is capable of holding 30,000, realtors said. Another district, in which between 50,000 and 55,000 negroes now live, has a capacity of 100,000.

The negro population has increased from 65,000 in 1920 to 100,000, practically all of the increase coming from the south, authorities estimate.

Organization of a home financing association to assist negroes in building their own homes in these districts has been proposed in plans submitted by the real estate men to leaders among the negroes. No action has been taken yet on this offer, which provided that a committee would appeal to the citizens of the city to raise capital to meet, dollar-for-dollar, the money raised by each negro, the money raised to be lent through recognized loan associations on easy terms.

**Suspicion Aroused.**  
The first chain grocery stores in the country were viewed with suspicion on the theory that the lower prices they charged meant inferior products. This feeling, however, has to a large extent disappeared, mainly due to the fact that the chain stores have offered nationally advertised articles at prices below those charged by independent grocers.

The pioneer in the chain store field was the great Atlantic & Pacific Tea Company, which was established in 1828. This concern has more than 8,000 stores doing an annual business of approximately \$210,000,000. Unlike a number of other chain store concerns, the ownership and control of this organization has remained in the hands of one family.

The second largest chain grocery firm is the Jones Bros. Tea Company, which started with one store in Scranton, Pa., in 1872, and now has 620 stores in 200 cities, doing an annual business of approximately \$40,000,000.

The Jewel Tea company has 527 branches from which 21,864 wagons and motor truck routes operate in 43 states. Scattered throughout the country also are more than 300 Piggly Wiggly stores, also they are not all owned by the same corporation.

Perhaps the greatest chain store concern in the country outside the grocery field is the W. F. Woolworth Co., which started with one store in Lancaster, Pa., in 1879 and now operates more than 1,200 stores doing an annual gross business of over \$167,000,000. The United Cigars stores have approximately 2,450 stores.

## ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known by the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no gripping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

**Eggs Certainly Is Eggs-But-**

A BAD egg is worth less than nothing. Even if it's just a little "off" you don't want it around.

That's exactly the way with valve cups. A valve cup that isn't going to last and isn't going to pump the oil, ought never to be put in your well. If you had it given to you wrapped in a twenty dollar bill, that wouldn't make up for what you lose in wages and well lying idle while you pull out for re-cupping.

Tell your dealer you must have Darcova, and that substitutes, even if they're not very bad, are worse than no good.

**Texas has proved its taste!**

I knew it would; I felt certain sure that when Texans realized they were not getting Kellogg's Corn Flakes—and realized that they were missing—that our sales would go steadily up and up.

And, they have! Once folks get the extra-flavor, extra-crispness and extra-substantial flakes that have made Kellogg's Corn Flakes the largest selling ready-to-eat cereal in the world, they KNOW that they never before knew how good corn flakes could be!

This is just the time to start eating Kellogg's Corn Flakes!

Texas also buys great quantities of our Kellogg's BRAN, cooked and krumbled, and Kellogg's Shredded Whole-wheat KRUM-BLES.

# DAUGHTER OF TEXAS PARENTS ENTERS NEW YORK HIGH SCHOOL WHEN ONLY EIGHT YEARS OF AGE

By HAZEL ROSS  
(Written for the United Press)  
NEW YORK, Sept. 19.—Pity the poor prodigy!

Nine-year-old Elizabeth Benson, of California, child wonder who recently "broke the scale" in the Binet-Simon mentality tests with a world's record intelligence quotient of 214 arrived in town recently and entered high school here as a freshman.

Somewhat fagged from her journey, but still clutching a well-thumbed volume of "The Count of Monte Cristo," young Miss Benson, who is only eight pounds overweight (poor child) was met by her mother, professionally known as Anne Austin, magazine editor and writer, and a flock of reporters.

"New York?" said Miss Benson, when approached by this popular subject. "Why, New York is wonderful—immense, and all that. But, frankly, I never have cared much for large cities. Broadway?" She stared at the glittering maze of Times Square as the taxi sped uptown. "No, I can't say Broadway matters much to me one way or the other. Hollywood is ever so much nicer—the people there are real. I've heard New Yorkers are just auto-matons. I can understand that—a city of six millions must be unwieldy, mechanically driven. I should think that becoming merely one unit among six million would be devitalizing—but it may have just the opposite effect. I don't know."

### Born in College.

Young Miss Benson, whose father is Charles Benson, Texas newspaper man, was born when her mother, at 17, and her father at 20, were college students. They remained in college until she was two years old.

Elizabeth entered school two months before she was five, and while still five was promoted to the fourth grade.

After the divorce of her father and mother, she entered school in Los Angeles, where last year, at the age of 8, she completed the eighth grade. Elizabeth's report card, brought from Texas, staggered Los Angeles teachers, who refused to accept a child of her age in such advanced classes.

She was given the Binet-Simon mentality tests. Terman version, therefore, to determine her fitness for this grade, and rated a mental age of 19 years one month, with an "intelligence quotient" of 2.14, the world's record.

Her test sheet from the Los Angeles public schools bears this footnote: This is the highest I. Q. ever recorded. The previous high record is 1.86."

### Fit to Teach High School.

In the Miller mental ability test, which Elizabeth took "for fun" with a group of teachers applying for positions, her score was 86. The average score of 694 teachers was 87.5. If mentality and aptitude were the sole requirement, Elizabeth would therefore be qualified to teach in the Los Angeles high schools.

Given a reading test in philosophy with a group of professors of the University of California, southern branch, she rated 15 points higher than the faculty.

Her mother, professionally known as Anne Austin, is editor of Real Life Stories, and associate editor of Screenland.

She declares Elizabeth "just grew." She has never been taught at home never has brought a book home to study. She is slow in mathematics which she detests, and deficient in music. She cannot sing at all.

But she has a vocabulary of 13,800 words, and finds her chief delight in reading Dickens, Thackeray, Barrie and Poe. Just now Dumas is engrossing her attention.

### PLAINVIEW PLANS INTENSIVE GROWING OF VEGETABLES

Special to the Times

PLAINVIEW, Sept. 20.—A \$20,000 corporation has been organized here for the purpose of growing and marketing truck grown near Plainview. The Ellord truck farm has been purchased by the newly created corporation, the land selling for approximately \$125 per acre. The tract contains 120 acres. An experienced irrigation man, probably from Colorado, will be engaged to manage and operate the farm.

Small tracts of land will be rented from the large tract to truck growers. Plainview is thus planning a direct test in truck growing for Northwest Texas, and plans to supply the local and Amarillo market.

ABILENE. A special election has been called in this county on Oct. 16 to vote on the proposal to issue \$350,000 bonds for highway improvements. If the issue is approved, it is estimated \$650,000 will be received from state and federal aid on the projects.

HOUSTON.—An extensive trade excursion into Mexico is being planned by the local chamber of commerce for Houston business men. A special train carrying the excursionists will leave here Oct. 6, returning Oct. 21. The principal cities of the neighbor republic will be visited.

### BERGDOLL'S GOLD DUG UP IN MARYLAND?

Grover Cleveland Bergdoll, millionaire son of a German-American brewer, of Philadelphia, notorious slacker in the World war, escaped from a federal prison, where he was serving a term as a deserter, by asking permission to go to Maryland to dig up \$110,000 in gold he said he had buried there. He went to Germany, where lately he killed a man who tried to kidnap him and bring him back to America. Now a mountaineer named Houser, living near Hagerstown, Md., says he has dug up a box containing \$105,000. Howard Wheeler, a 10-year-old boy, claims to have seen it first and demands the money. This photograph shows where it was found. Houser's sister denies he found any money, alleging the entire affair was a practical joke, but the government officials are investigating and will seize the money if it is found.

### CAMP LOGAN PASSES WHOLLY INTO MEMORY

HOUSTON, Sept. 18.—Workmen are busily engaged in removing the remains of Camp Logan, famous army camp located in this place during the World war. The government's last work in abandonment of the camp was accomplished a few days ago when buildings and equipment were sold at public auction. The government received from the auction \$21,417 for the entire camp which is estimated to have cost \$1,000,000.

A total of 118 buildings were sold. These buildings were estimated to have contained 8,000,000 feet of lumber. Other supplies sold at the auction included 800 tons of coal; 800 cords of wood; electrical and plumbing fixtures; machinery; tools. Buyers of the materials have 16 days in which to remove them from the grounds.

### OIL OPERATIONS ON INDIAN LANDS

Supervision of oil and gas producing operations on Indian lands under the Shawnee, Ponca and Pawnee agencies in Oklahoma has been assigned by the department of interior to Raymond M. Carr, assistant petroleum engineer of the bureau of mines. Supervision of similar operations on Indian lands within the Kiowa, Comanche and Apache reservations has been assigned to H. C. George, petroleum engineer of the bureau of mines. This assignment, together with his detail to certain other areas under the five civilized tribes, places Mr. George in charge of oil and gas operations on all Indian lands in Southern Oklahoma.

# Chinese Influence Will Be Seen In Young Maid's Dress

By United Press  
EL PASO, Sept. 20.—If some afternoon you should stroll down an El Paso street and suddenly come upon a gorgeous dragon gleaming on the foot of some petite maid, don't rush up and want to kill the animal.

Because—The Chinese influence in young maids' dress has stolen in on El Paso, and according to local modistes, will be here throughout the fall.

In addition to dragons, young "Miss El Paso" will be adorned with sparkling earrings, longer and larger than ever, barrets, dazzling combs, bandeaus, tiaras, and glittering anklets. Bangs will be the vogue in hair-dressing, necklaces will be of the short variety and fasten close around the neck. Mah Jong jewelry—heavy jade and gold bracelets and hat adornments, decorated with Chinese characters, will be worn.

### MISSING LECTURER NOW AT HIS HOME IN SINTON

AUSTIN, Sept. 19.—Rev. J. W. Renfro, national Ku Klux Klan lecturer, who has been missing since Aug. 22, has returned to his home at Sinton, Texas, according to information given out at ranger headquarters. Renfro, who is a Baptist minister, passed through Houston last night en route to his home.

### THERMAL DECOMPOSITION OF OIL SHALE

S. R. Zimmerly, formerly a research fellow in the department of metallurgical research of the University of Utah, has been retained by the department of interior to conduct certain research at the Intermountain experiment station of the bureau of mines on the thermal decomposition of oil shale. This work has for its object the determination of the rate of formation of oil from oil shale. The apparatus, method and procedure are similar to that used for new poles and cables and considered determining the rate of formation of bitumen, using sealed tubes. The operating temperature, however, is higher.

BRYAN.—Mrs. Burt White, 81 years of age, claims to be the champion cotton picker in point of age in Texas. Recently Mrs. White picked 90 pounds of cotton in one day. She lives five miles west of Bryan.

BRADY.—Construction work by the West Texas Telephone company rebuilding the local exchange is under way here. The work includes the use of new poles and cables and consideration of the rate of formation of bitumen, using sealed tubes. The operating temperature, however, is higher.

**Each perfect shaped bean cooked to a turn**

A special White Swan recipe and the experience of White Swan cooks prevent under- or over-cooking. A selection of the finest tomatoes and not too much pork make a sauce with a new taste—a flavor all its own that will bring you back for more.

Serve them just as they come from the can, or heat them if you prefer—either way they add zest to the meal. Even if you are tired of ordinary beans, you can begin all over again with White Swan Brand. And the cost is no more.

The reputation of fifty other White Swan food products over a period of more than half a century could not be maintained by anything but the best.

Your grocer has White Swan Pork and Beans in two sizes—10c and 15c.

**Class Attendance To Be Required At Texas University**

AUSTIN, Sept. 19.—Decidedly the most important change in rules concerning the students of the University of Texas for the 1923-24 session is said to be the negative hour rule pertaining to class attendance and absence, which was recently passed by the faculty too late to be incorporated with other regulations in the University catalogue.

In past years, it has been possible for students to make up the work lost by class absence and to satisfy the degree requirements by obtaining passing grades in the various courses registered for. According to the new rule, it will be necessary for each student to have credit for 90 hours class attendance per full course in addition to passing grades in the course.

**Excuses Not Accepted.**  
No excuse for absence will be accepted and no leaves of absence or temporary withdrawals will be granted, exceptions being made of terms or mid-term examinations.

Formerly, excuses were granted for absence due to illness, and each student was allowed three hours ab-

sence for each one-third course registered for. A student now absent during one term for more than one-tenth of the total number of exercises at which he is due will be dropped from the rolls of the University and will be readmitted only at the discretion of the dean. A student absent any one term from as many as one-fifth of the exercises of a class, unless he was absent from one-fifth of each of his classes, regardless of the cause of the absence, will be dropped from that class.

The total course credits of a student, measured in hours, 90 hours for full course, will be reduced one hour negative credit for each absence. A class missed will be a class lost so far as credit hours are concerned, except that before incurring a negative credit, a student will be allowed an absence and a half for each one-third course registered for during the term, the required physical training counting as a third of a course each term. In order to overcome negative hours due to study, students will have to take extra courses.

**Partial Exceptions.**  
Exceptions will be made where absences in one term are due to prolonged sickness or participation in an approved student activity, in that the total allowance for one term may upon written petition approved by the dean, be transferred from one term of a long session to another term of

the same session. In checking up for a degree, one absence per twenty hours of credit may be offset by reducing the number of honor points one point per absence, thus allowing a student of high scholarship more privileges than a student of low standing.

In addition to affecting the credit hours of the student, absences will also affect unfavorably the score points of the student. Each student must make at least an average of thirty points per one-third course on the courses required and counted for the degree, the point value of the grades A, B, C, and D being 42, 36, 30, and 24 respectively. Each absence of a student during a term reduces this score by one, except that one absence and a half is allowed for each one-third of a course registered for during the term, the required physical training counting as a third of a course each term.
