

TEXAS COAL STRIKE ENDS IN AMICABLE AGREEMENT

MAYOR'S ROAD COMMITTEE HOLDS FIRST MEETING AND RECOMMENDS BETTER ROUTE

The road committee appointed several days ago by the Chamber of Commerce to investigate the good roads program of the Eastland county commissioners' court with the view of obtaining for Ranger its full quota of good roads met yesterday in Mayor M. H. Hagaman's office with Engineer Ehrensberg.

The engineer reported to the committee the locations of the roads out of Ranger. The east and west road, known as the Bankhead highway, was the only permanent location which had been made, he said. He also said that three right-of-way condemnation proceedings are pending between Ranger and the Eastland county line.

Ranger Boy Scorns Risk on Airplane in Flight; Times Reader Will Ride Ship That Carries Daredevil Oakley

Arthur Oakley, daredevil of the skies, who today gives his initial exhibition in Ranger over Municipal park, formerly was a Ranger boy. He is well known here and since his first successes in the happy pastime of flying with death, he wished to return to his old home to form.

Mr. Oakley's parents moved from Ranger in 1918, prior to the discovery of oil. They went to Abilene and from there, he indulged his inclination for aerobatics by going on the road with Eddie Stinson, famous flyer, in the days when just fancy flying was enough to thrill the folks of the ground.

Through arrangement of the Times with H. S. Murray, former army pilot, and manager of Oakley, the Times will offer a free ride to its readers, if any of them wish to see how the ground looks to Oakley as he goes through his tricks.

He dangled and dragged, bumping along the cars, until the plane caught hold and was able to pick up a little altitude, to the relief of the civilian spectators and army officers, three plane loads of whom had come from Ellington field for the stunt.

One of the calm and experienced pilots of the Oakley party will be at the "stick." The program of aerial aerobatics given today will be repeated tomorrow afternoon over the ball park, it was arranged today between Manager Jim Galloway of the Nitros, and Manager Murray of the flight group in which Oakley is the chief sensation maker.

Next Friday will be Oakley Day at Fair park. The program of aerial aerobatics given today will be repeated tomorrow afternoon over the ball park, it was arranged today between Manager Jim Galloway of the Nitros, and Manager Murray of the flight group in which Oakley is the chief sensation maker.

WICHITA FALLS WORKERS MAY VOTE TO GO ON STRIKE

WICHITA FALLS, May 28.—The organized oil field, gas well and refinery workers of Wichita Falls and vicinity, numbering several thousand, held a meeting last night in connection with the labor situation. Labor leaders said the United Oil Workers will vote in a few days on joining building crafts in a general strike to protest against open shop movement.

WOULD PERMIT MORE BOOZE FOR DOCTORS

WASHINGTON, May 28.—In an effort to defeat the "indiscriminate sale" of liquor on physicians' prescriptions, Commissioner Williams of the bureau of internal revenue issued a ruling today limiting the number of permits allowed each physician to 100 for each three months except "with good cause."

Times' Free Airplane Ride Any Reader Is Eligible

Lieutenant H. S. Murray, former army pilot, manager of Daredevil Oakley, who has thrilled thousands with his aerial breath-taking aerobatics, will give a free airplane ride to a Times reader Sunday.

Name _____ Address _____

New Mexican Leaders in Fighting Togs

General Obregon (left) with General Gonzales in Mexico City After General Carranza's Flight.

Overthrowing Carranza was a man-size job, and in the heat of the struggle General Obregon went countless and never even stopped to shave. The photo, taken shortly after Carranza's downfall, shows the two great leaders of the revolutionary movement, Obregon and Gonzales, surrounded by their followers in Mexico City. Note that Obregon's right arm is missing.

Much Business Covered Today by Legislature

AUSTIN, May 28.—An amendment to the fire insurance commission law was submitted to the Legislature by the governor today. It proposes to remove the limitations restricting the commission's expenditures to \$120,000 a year. Under the present law a tax of one and one-fourth per cent of the gross business insurance companies produces \$200,000 and only \$120,000 can be spent.

STREET WORK STOPS IF BONDS ARE NOT SOLD

Money Must Be Raised at Once or Paving Work Will Be Dropped.

All paving contracts in Ranger now under way must be discontinued unless the citizens of the city absorb the paving bond issue of \$200,000. This stand was definitely taken this morning by the city commissioners to a meeting of business men representing the Chamber of Commerce, the Rotary club, and the bankers.

Border Peace Is First Aim of New Chief

MEXICO CITY, May 28.—Alvaro Obregon declared today that if he is elected to the presidency of Mexico he will seek to bring about amicable relations between Mexico and all other countries, "especially those next to us on the American continent. One of my greatest days would be that on which the soldiers that are now stationed to guard all frontiers to our countries are withdrawn."

DIAX DECLARES HE IS LOYAL TO GOVERNMENT

VERA CRUZ, May 28.—Felix Diaz who was reported yesterday as being hostile to the Huerta regime in Mexico notified the authorities he is friendly to the government. He is at Misantla awaiting a decision of the new government relative to his leaving Mexico, according to definite information to authorities.

IRISH RESOLUTION IS REPORTED OUT

WASHINGTON, May 28.—A resolution "viewing with grave concern" conditions in Ireland and "expressing sympathy with aspirations of the Irish people for a government of their own choice" was reported out today by the House Foreign Relations committee by eleven to seven vote.

PATENTS ARE GRANTED TEXAS INVENTORS

WASHINGTON, May 28.—The following patents have been granted to Texans: William N. Allen, San Antonio, vehicle wheel; Charles H. Gollsher, Belleville, discharge device for cottonseed unloaders; George M. Haunon, Belton, fly-killing device; Thomas E. Henderson, Fort Worth, cold process of repairing radiators of internal combustion engines; John L. Johnson, Humble, pump; William A. Nash, Plainview, device for extracting automobiles from mud, sand or ditches; Wilmer Threadgill, Laredo, device for picking cotton; Charles Wendelken, Tivola, bank-check writer.

TEACHERS' PAY RAISED.

CLEVELAND, Ohio, May 28.—The board of education today adopted the new salary schedules for teachers proposed by Dr. Frank E. Spaulding, superintendent of schools, and increased the maximum for high school teachers \$300 over Dr. Spaulding's suggestion of \$3,000.

SEEKS \$25,000 DAMAGES FOR BREACH OF PROMISE

MIDDLETOWN, N. Y., May 28.—In the supreme court at Goshen, today before Justice Soeger and a jury, trial was commenced of an action of Miss Mildred A. Dunn of Port Jervis, against Earl William Kellam of the same place, for \$26,000 for alleged breach of promise. The plaintiff is a sister of Miss Madeline Dunn, night superintendent of the Neurological hospital, New York.

Pennsylvania furnished the largest number of general officers who served in the army during the world war.

Ranger School Year Ended by Session Today

Today marked the closing of the school term for the city. All schools except the one at Tiffin will be relegated to the care of the janitors until next September. The Tiffin school will be continued for another week, to make up for a week lost at the beginning of the term.

Practically no class work has been done the last three days, the time being devoted to examinations. This morning teachers were busy grading papers and making out report cards. Books were checked in this afternoon and children received their cards—concrete reminders of a year's hard work.

A good many of the smaller children at the Central school amused themselves on the playgrounds this morning. A number of parents dropped in for a friendly chat with teachers. Playground equipment, which was ordered several weeks ago, has arrived, and a slide has been put up at the Central school and one at the Young school.

The intermediate department of the Central school held its exercises last night at the Methodist church. The program was well attended. The High school will give its class play tonight at the Opera House and indications point to a very large crowd. The title of the play is "Margery Makes Good." Sixteen high school students make up the main cast.

EFFORT TO PASS PEACE BILL OVER VETO IS FAILURE

WASHINGTON, May 28.—An effort to override the President's veto of the peace resolution failed today in the House by 219 for to 152 against, just 29 less than the required two-thirds majority. The conference report on the long pending water power bill was approved by the Senate. The measure now goes to the President.

G.O.P. DELEGATES PREPARE FOR WAR WITH "REGULARS"

FORT WORTH, May 28.—The Texas Republicans opposing the seating of the "regular" delegation at Chicago assembled here today for a final conference before leaving for Chicago tonight to lay their claims before the national committee Monday. E. M. Wright of Fort Worth is chairman of the delegation.

GEN. WOOD SPENT \$5,301 IN INDIANA CAMPAIGN

INDIANAPOLIS, May 28.—Major General Leonard Wood's campaign for the presidential nomination on the republican ticket in Indiana cost \$5,301.65, according to a detailed report filed with the Marion county clerk today by Irving W. Jansma, treasurer of the Wood campaign committee for Indiana.

Wheeler to Nominate Johnson.

CHICAGO, May 28.—Senator Hiram Wheeler of California will be placed in nomination for president at the Republican National convention by Charles S. Wheeler of San Francisco, it was announced at Johnson headquarters here today.

ARTILLERY IS READY FOR ALLIED COMMISSION CALL

PARIS, May 28.—Germany submitted a statement to the Allied control commission declaring 25,000 pieces of German artillery remain to be destroyed and that 8,000 have been broken up, according to the Echo de Paris.

THE "AMERICAN DOUGHBOY"

PARIS, May 28.—President Wilson ordered a Memorial day wreath to be laid upon the statue of the "American Doughboy" in Surance cemetery. The American ambassador will place it there on Sunday. The President instructed his favorite flower vendor while he was in Paris to prepare the floral tributes.

MINE OWNERS MEET MINERS TO END ISSUE

Matter of Cost of Explosives Conceded Union by Coal Operators.

FORT WORTH, May 28.—After a conference of several days a strike of coal miners in the west and south Texas oil fields was averted, it was announced this morning by John Wilkinson, district representative of the American Federation of Coal Miners.

Early this week the miners made their demands of the operators, asking better terms for the purchase of explosives used in contract work, a lower rate for coal delivered to the homes of the miners and based a wage increase demand upon the settlement of the two issues.

COAL MINERS WILL STAND BY RULING

WILKES-BARRE, May 20.—Anthracite miners will abide by the decision of the presidential coal commission to settle the wage dispute. All danger of the stoppage of work in the hard coal region is passed, Thomas Kennedy, president of District No. 7, said today.

COAL COST IS DESCRIBED IN GOV'T REPORT

WASHINGTON, D. C., May 28.—Bituminous coal operators in Texas realized in February a price of \$4.71 a ton on their product at the mine, the federal trade commission announced today. Operators, the commission's statement said, claimed that the cost of production was \$4.00 a ton, leaving the margin of 11 cents a ton.

The investigation in February is the first the federal trade commission has made in Texas since 1918. It shows that according to the claim of the operators that while they are getting a larger price than in 1918 their margin is only a fourth of what it was two years ago.

G.P.P. DELEGATES PREPARE FOR WAR WITH "REGULARS"

FORT WORTH, May 28.—The Texas Republicans opposing the seating of the "regular" delegation at Chicago assembled here today for a final conference before leaving for Chicago tonight to lay their claims before the national committee Monday. E. M. Wright of Fort Worth is chairman of the delegation.

GERMAN FIRMS ASK IF WAR IS ENDED

BERLIN, May 28.—Action to establish through diplomatic channels whether American firms can take advantage of the technical state of war between the United States and Germany to cancel contracts with German firms may be taken by the German chamber of commerce. The situation arose when an American firm closed a contract for the delivery of goods valued at 4,000,000 marks and, it is alleged, cancelled the contract when a rise in the market made the purchase price disadvantageous.

TO OTHER WOMEN.

PARIS, May 28.—Sisterly affection and deepest sympathy for the American women whose husbands, sons, brothers and sweethearts fell during the war is expressed in a message received by the Paris Memorial committee from the Society of French Homes, members of which are French women who know the horrors of the war and the heartaches attending it. The message was inspired by the arrival of many sorrowing mothers here.

THE SUNSHINE KID.

Ranger finishes the school year today with a scholastic population 50 per cent greater than at the same time last year.

At the Leading Amusement Houses TODAY

- LAMB—"Down on the Farm."
- LONE STAR—Wallace Reid in "The Dancin' Fool."
- LIBERTY—Edythe Sterling in "The One Way Trail."
- OPERA HOUSE—Cracker Jack's Musical Comedy company and Charlie Chaplin in "The Count."
- HIPPODROME—"The Midget Musical Follies" present "Bad Checks."
- QUEEN—"Miss Arizona."

LONE STAR.

"The Dancin' Fool" Was Pleasant Task for Wallace Reid.

Wallace Reid, the handsome screen star, is very lucky. He has been able to make play out of his work, because his starring roles recently have called upon him to do exactly the things that he enjoys doing, take "Excuse My Dust." In that speedy photoplay, Wallace had the role of a speed demon auto salesman. Now if there is anything Mr. Reid is keen for out of hours it is racing about in a fast racing car.

Then came "The Dancin' Fool," which will be at the Lone Star theatre today. In this picture Wallace is cast as a rube who comes to New York and becomes a sensation as a cabaret dancer. Again the heavy player was right in his element. He likes jazz music and he loves to dance. With attractive Bebe Daniels as a partner, he practiced long hours on the studio stage at a series of unique dances that, it is claimed, will prove sensational when shown on the screen.

"The Dancin' Fool" was adapted by Clara Kennedy from Henry Payson Dowst's well known magazine story of the same name. Sam Wood directed the film, and it is a Paramount Arcraft.

LIBERTY.

"Girl Who Dared" for Equestrian Star Word has just reached the office of Republic Pictures, of which L. J. Selznick is advisory director, that Edythe Sterling's next picture to follow her present release, "The One-Way Trail," will be called, "The Girl Who Dared." It is described as an intensely dramatic story through with a series of unrequited climaxes.

The new story, her third for Republic, is now being cut and edited in the West. "The One-Way Trail," probably as startling a picture of the great Caridian Northwest as has ever been filmed, is now the feature attraction at the Liberty theatre. Rarely do movie audiences have such a chance to be entertained.

QUEEN.

H. B. Warner Puts Up Hand-to-Hand Fight With Hindu Rowdies.

In "For a Woman's Honor," H. B. Warner's new production distributed by Exhibitors Mutual, the noted English actor is called upon to put up a stiff hand-to-hand battle with half a dozen Hindu thugs. Warner, though lean and attenuated, is no mean scrapper, as the following remarks he overheard between two Hindus after the scene will testify:

"Sahib Warner, he is a rough man and strong like ox," said one greasy and muscular Oriental to a grizzled Mohammedan who had also been in the scrap. "My head it hurt like hell!"

"You spake the truth, my son, responded the bewiskered one, "The hairs of my honorable beard are less by the score, and by Siva and the Great Prophet, my bones do ache."

Coming tomorrow to the Queen.

LAMB.

Driving Away Glooms.

The "Gloom-bug" which has infected the mind and heart and very soul of the pessimist for years and years is sure to be destroyed if Mack Sennett, the comedy king, has his way. He has been spending the better part of his young life finding ways and means by which this infection can be destroyed and with each of his big special productions his doses come nearer and nearer. The real "gloom" dispeller is at last found in his latest five reeler, "Down on the Farm," which is released by United Artists and will be at the Lamb theatre today. Sennett, when he first began to find the remedy was in despair for he found that most people were pessimists, but he has gradually wormed his ideas of laugh into their beings with the result that he now has a following that numbers more than thirty millions, and with each getting at least a thousand laughs out of his latest sensational comedy the thirty billion laughs should have at least some effect on the populace.

ALSO DANCE TONIGHT

Music by Jameson's Jazz Entertainers

OIL MEN RUSH TO ALPINE TO INSPECT WELLS

PECOS, May 27.—Reports of three wells which have come in or are expected to come in have Pecos oil men on edge with expectations. A larger number of them left in automobiles for Alpine on receipt of the word that the Wilson well near that place was standing 1,000 feet in oil. This hole is down 1,280 feet.

No sooner had this party left than word came from Toyah that the Stanton well in section 41, block 58, school lands, six miles north of this city, was standing in oil for nearly 200 feet. The hole is but 230 feet deep and the oil has been reported as rising from 170 feet during the day. This sand is believed to be the one uncovered by the Jourdon well in section 22, at 363 feet, and should this prove to be the case an intensive campaign of development probably will result. Estimated production of the well is hard to obtain, although it is believed that these wells will make paying production, especially if it is pumped in groups. The fact that oil has steadily risen in the well argues well for its production. The Jourdon well drilled into the oil sand with a casing full of water as there was no cap rock or other indication of oil. The water has been cased off.

The Minerva, on which the hopes of the Pecos oil men had been based, has been unable to shut off the flow of water, although it is believed to be sitting on top of the Bell sand. The hole was bailed out Wednesday with undoubted showings of oil, but water has kept running into the hole. Although the casing has been pulled and reset, indications are that the water is running in through the joints, and a 5 1/2-inch casing with a packer on the end is to be run into the hole.

PECOS OIL COMPANY MAKES LOCATION IN WARD COUNTY FIELD

BARSTOW, May 28.—The Ranger Pecos Oil company, of Ranger, has announced in writing locations made in Ward county, in sections 3 to 8, block 0, and 75 to 80 in block N. Standard rigs will be used exclusively with contracts calling for 3,500 feet, unless oil is found in paying quantities at a lesser depth.

The Ranger-Pecos Oil company also announced two locations in Loving county, which adjoins Ward, on sections 21 to 23, block C-24, and 1 to 26 in block C-25. These also call for deep tests.

The Dominion Oil company had in Barston a number of trucks hauling their tools, rigs, etc., to their locations in section 6, block 33; section 25, block 33, and section 197 in block 24, from the siding where twelve carloads were brought for these three locations.

The field superintendent, G. E. Ross, said that the spudding in of their location on section 197, block 34, was delayed because their engine, en route from the East, was in the railroad wreck thirty miles east of Barstow two weeks ago.

BRASS TACKS—PLUS.

Has there ever been any great achievement in the arts, in fact in anything that has pushed the earth along a little bit, without a motive power above the idea of some gain? Even with riches beckoning somewhere in the offing, hasn't the big idea, the creative impulse, the glow of possible achievement, the sense of power in the mere idea, been the plus quantity that has driven the brass tacks home?

We have had a great awakening, to be sure, and the sound of the hammer on the brass-tacks idea makes a great noise in the land. The sound is that of the hammer of Thor and it has become the tocsin of discontent, unrest, and greed.

The old slogan of art for art's sake is not quite dead, but it is slowly dying, dying peacefully, still believing that there is no art, no ideal, no inspiration worth a drachma, a farthing, we'd better say a copper cent, that is not at the outset based on the cost plus contract.

The cost we'll put in the years of study and work and aspiration, the nervous force, the temperament, the personality, the education. These things have no real fact and figure unless we can compile statistics of the time spent in preparation measured in days' wages.

From certain comments of the day we opine that the education of the architect has been for these many years started on a foundation of the plus quantity idea, when, of course, according to the new idea it should have been begun on pay dirt or certainly upon a preliminary foundation of brass tacks. The times have changed since Pericles was a power in the land where rose the Parthenon, since Rome was built, since Bramante and Michael Angelo and Leonardo da Vinci lived, since Inigo Jones and Wren gave England a great name in architecture. And we'll name no names, but there are some of our readers who will think of names even in our own land—where brass tacks are said to be the only fitting fasteners worth a thought—that live in memory first of all by their plus value.

THE GRAY SQUIRREL.

"Things can't go on this way—what is going to happen?"

You have heard it many times of late. Flour or some other commodity soars a little closer to the moon, a little farther away from the consume, and you probably comment:

"I don't know what we are coming to."

Yet few of us are readily discouraged. Generally speaking, while the air may be surrounded with ominous mutterings, the American people as a whole are far from the Serbian bogs of despair.

"We have the money, let's spend it before it gets cold," sings out the money-maddened multitude. Landlords, crazed by avarice, take a look at the homeless horde and up goes the rent another peg. Profiteers in other lines, without cause or reason, have changed the golden rule to read, "Get a plenty while the getting is good." Artisans, finding themselves in possession of undreamed power, crowd

GETTING AHEAD.

The business of getting ahead requires close personal attention. It is an important business. The following statistics given out by Dismore W. Hume, federal district director of the governmental savings division, are significant. Each is a sermon on thrift and saving.

Ninety per cent of the business men of the United States reach old age without an adequate income. Nineteen out of twenty people fail to provide for old age or their families.

Thirty-five per cent of the widows in this country are in want. Ninety per cent of the children in the United States must leave school before reaching the eighth grade.

Eighty per cent of the adult population in the United States leaves no estate at death.

One or more War Savings Stamps invested in every pay day will help to make one's business of getting ahead a success.

MRS. SPARROW HAWK COMES ALONG.

Tinker Bob did not quite understand just how it was done, that is how Jerry the Jay was held fast to the limb on the tree. But Major Pole Cat knew all about it and so did Sammy Squirrel. You see Jerry had been acting up ever since the King went on his journey to Bird Heaven and Major Pole Cat had planned to fix Jerry for being so saucy. He went to Sammy Squirrel for advice and Sammy said that he would tend to the matter.

It wasn't long after Major left Sammy until Mrs. Sparrow Hawk came along. "Where are you going," asked Jerry, as he noticed a bundle in her talons.

"I'm going to build me a home where I can raise my children." "Well, why don't you build it here. This is a fine place, for this tree is tall and no one ever molests this place. And then I would be glad to watch your home while you go for food."

"I'll just do that very thing," said Mrs. Sparrow Hawk. "If you will promise not to let anyone disturb the things I bring here for my nest," Sammy was very glad to promise anything that was right.

"But tell me what you have in the bundle, for that doesn't look very much like food or material for a nest," said Sammy.

"Oh, of course it would not do for a nest for you," said Mrs. Sparrow Hawk. "This is a bundle of bitter gum from the spruce tree."

"Where Are You Going?" asked Sammy, as He Noticed a Bundle in One of Her Talons.

"Well, what in the world can you do with that in building a nest?" Sammy was astonished to think of spruce gum as nest material.

I always use this to cover the limbs and twigs. Then I stick the other feathers and twigs and leaves to it, and then when the nest is built I spread the gum all around the nest so my enemies will not molest my home. You see it keeps the bugs and ants away from my nest while I am away, and then some of them get caught in the gum and I have a feast when I return."

This was the funniest thing Sammy Squirrel ever heard of. He knew very well that it would never do for him to have spruce gum in his nest, for it would pull all of the hair off his back.

Mrs. Sparrow Hawk left her spruce gum all spread out on a limb, and this was the very limb that Jerry the Jay was invited to stand upon by Sammy, and the longer he stood the deeper his feet sank into the gum. While Jerry was telling the story to the others about him, Sammy slipped down and told Major. So we find Jerry in trouble again.

Tomorrow, Jerry in Danger.

MEETING CALLED IN INTEREST OF ELECTRIC LINE

STAMFORD, May 28.—Representatives between Cleburne and the oil fields, including Glen Rose, Ranger, Eastland, Cisco, Desdemona, will meet at 2 p. m., June 4, in the district court room at Stephenville to organize an interurban electric line between Cleburne and the oil fields via Glen Rose. The announcement has just been sent to all towns in the affected territory by D. C. Ashmore, secretary of the Stephenville Chamber of Commerce.

The proposed route runs from Cleburne to Cisco or some other point in the oil field and includes the towns of Glen Rose, Stephenville, Desdemona, Ranger, Eastland and Cisco, with probably a branch line into Breckenridge to connect with an electric line to be built eastward to Fort Worth. The proposed line would be about 125 miles in length and would open up a important new agricultural and mineral territory. This is the line which the West Texas Chamber of

Commerce is helping the interested towns to promote. Interest in the line is rife. Glen Rose citizens are willing to do more than their part to consummate such a line, and it is understood that Cleburne is also eager to get a line to the West. Stephenville, Desdemona, Ranger and Eastland have all signified their desire to be enlisted in any worthy and legitimate move looking to the coupling up of oil field towns with the mesh of electric interurban lines in North Texas reaching the trade centers of Fort Worth, Waco and Dallas. Prominent speakers and capitalists are expected to attend the Stephenville meeting.

ALL THE NEWS OF THE OILBELT LEAGUE

Smoke Boyer Wins Second Shut-Out Of Week, 2 to 0

It was a day of pleasant repetitions. Smoke Boyer went to the hill for the Nitros the second time this week and for the second shutout game. This time the Eastland Judges were the victims, 2 to 0. And for the second time, in as many days, Joey Tate broke up a ball game with a real drive. The only scoring of the day came in the fourth, after Jim Galloway and Dude Mooney singled. Joey cut to deep left center and on his triple, Jim and Dude rode home.

Boyer opposed Dorough, Eastland's ace, and Dorough, too, pitched a good game. He didn't issue a walk. His teammates hoisted him into trouble in the second, but he pulled out. In the fourth, that well grouped trio of clouts earned two runs against him. At no other time was he in danger.

Boyer pitched winning ball all the way along. His only walk was issued to Bratcher in the first, after two were gone. He ended the round by whiffing Lewis, the Judges' star slugger. He started the second with two more strikeouts, on Gross and Payne and then threw high to first on Johnson's easy chace. But he threw out Hahn a moment later.

Thomas cracked a clean single to center two were gone in the third and then Bratcher hit into the box and was out when it caromed to Crow.

Hahn got a life in the fifth after one was down, on Jim fumble and was doubled neatly by Lavey, who took Dorough's drive. Standifer got an infield tap to start the sixth and was forced out at second, Galloway to Fatskammer. The little feller would have had two, had Standifer interfered and nearly knocked Bratcher down. Flash threw wild and Thomas took second, advancing on Bratcher's sacrifice and dying when Gross lofted to Fatskammer.

Tate threw away Dorough's grounder in the eighth, and the Eastland flogger took second. Boyer tightened and whiffed Standifer and Thomas lined to Fatskammer, who doubled Dorough at second, the Nitros' second double play.

Lewis got a life on Flash's hobble in the ninth, but Gross boosted to Clapp and Boyer whiffed Payne.

All in All. In all, six more than the minimum faced Smoke. Two got real hits, one after one was out and one after two were out; the other scored hit was an infield tap and the man who got it died at second. Five men reached first on errors, two to be nipped later in double plays. One drew a walk. It was pretty pitching, just as was Boyer's debut.

The Nitros threatened to score in the second when Dude Mooney got a life on Standifer's error and Tate tapped to third. It was an infield blow, but Gross tried to fling the speedy Joe out at first and threw it away, while on the dead run, putting Dude on third, Joe on second, none down. Browning lifted a short fly to Hahn and Dude made the mistake of coming in too far. He was caught out, Hahn to Lewis to Gross. Crow ended the short rally by hoisting a foul to Bratcher.

Jim was second man up in the fourth, after Lavey had rolled out, Standifer to Bratcher. Jim got Dorough into the hole three and one, right away, then took a strike. It may have been his play to take another, but the ball came right where he wanted it, waist high, and he poked it to center. Mooney sent him to second and got a life by arching a single back of second.

JUDGES AGAIN TOMORROW.

The closing game of the series with Maloney's Eastland Judges will be played tomorrow. Then the Nitros are off on the road again. If Adkins is not ready to take his turn yet, it will be Hodsoph again tomorrow. The college boy flung a world-beater game in his first appearance Tuesday. Arthur Oakley will furnish the fans some aerial thrills at today's contest, after the close of the game, which starts at 3:30 p. m.

TOO MUCH TATE

Table with columns: EASTLAND, ABRHPOAE, Standifer, Thomas, Bratcher, Lewis, Gross, Payne, Johnson, Hahn, Dorough.

RANGER

Table with columns: RANGER, ABRHPOAE, Fatskammer, Clapp, Lovelace, Galloway, Mooney, Tate, Browning, Crow, Boyer.

NITRO NOTES.

Clapp was back in the game again, which was welcome. He was not feeling himself as yet and got no hits, but handled two chances.

Bub Crow took first again yesterday. Jim let Vick go, as he didn't look fast enough to be gatekeeper for the Nitros.

Mooney ran bases poorly in the second, when he led off too far from third on Browning's short fly. It was not long enough for a sacrifice.

Tate might have scored, in the fourth, on a neat squeeze on which he and Big Boy teamed, but he got a late start and the play beat him in, Gross to Lewis. However, Joey, did his share, yesterday, as Wednesday—won the game, that's all.

Jim took a vicious cut at one and let his bat go, in the sixth, and caught Mooney a tough one on the ankle. It nearly laid Dude out, for a minute, but he took his turn at bat and got a hand for it.

Payne robbed lit' Flaskammer in the eighth. The Rabbit poled one to short center that was marked single, but the Judges' center fiddler took in a flashy run. He just did reach it.

Bratcher hit a dirty one into the box in the third. It looked like a single. It struck Boyer in the ankle, shot off to his left and rolled into Crow's glove, in ample time to make the out.

Jim made a pretty play on Hahn in the seventh, handling his grounder for the third out.

SCOUTS KEEP THE BUDDIES ON WAY DOWN, EIGHT-THREE

GORMAN, May 28.—Cisco defeated Gorman here yesterday by a score of 8 to 3. Much argument was evident between the umpire and the players. Both teams play again today. Score: GORMAN.

Table with columns: GORMAN, ABRHPO, Gorman, Eastland, Cisco, Mineral Wells, Ranger.

Table with columns: King, Ershaw, Johnson, York, Kolznick.

Table with columns: Totals, Score by innings, Cisco, Gorman.

Summary. Errors: Burkhead 3, Thrash, Whitney, McMillan, Neeley; hits, off Baldrige 2 in 2-3 inning, 3 runs off Baldrige in 2-3 inning; 5 hits and 4 runs off June in 3 innings; two-base hits, Thrash, Wasserman, Gresenback.

MORE CHOP HITS NEEDED, OPINION OF THIS RANGERITE

A Fan, a real bug, with the right spirit and an idea that may be worth considering, submits this:

"Times Sport Editor: "Dear Sir: Just a line from a fan who has seen his first game of ball in the Ranger park.

"Have been too busy balling the jack on a drilling well and today has been the first opportunity to see a game. I must commend the manager for his judgment in material.

"The game today (It was Wednesday's 3-1 victory over Cisco) was much enjoyed by myself and I sure would like to see the Nitros win some more games and get out of the cellar.

"I am not going to criticize their work, but my first game leads me to make a little suggestion, viz.: Get your men to put more time on their chop hitting and not try to 'kill the pill' every time up, but keep 'em on the ground. Of course, the pitching has much to account for in that. I should say very nearly every one up tried to kill it for a homer, which may break up many a ball game, but I've found the singles and doubles are what win the most games.

"I have all Ranger's interests at heart and am an ex-ballplayer myself. Sincerely, A. FAN."

CHICAGO ATHLETE IN SERIOUS SHAPE

By Associated Press

CHICAGO, May 28.—Summer Veasey, captain of the Chicago university gymnastic team of 1917-18 and national intercollegiate tumbling champion, is in the hospital today, paralyzed from the waist down as the result of a fall from a motorcycle. His back is broken, and he may not live.

Yours for straight, legitimate business THE Guarantee SHOE COMPANY 105 South Marston Street Poe Building "BUY YOUR SHOES IN A SHOE STORE"

Surprised Indeed Are We At the enormous crowds visiting our stores and availing themselves of this unusual selling campaign. True, we expected big crowds at all the stores, but this event has been a success beyond our most sanguine expectations. The sacrifice has not been in vain, we have been privileged to serve the greatest number of people in the same length of time in the history of our business. We have saved those taking advantage of our unusual offerings many thousands of dollars. But best of all we are finding quite a few manufacturers who are willing to operate with us in this move, thereby enabling us to continue this sale. We today are more determined than ever before to continue this fight against further advances. We have pledged ourselves to confine our purchases to houses willing to assist us in this fight. We are always in close touch with the primary markets of this country and are continually in search of reasonably priced goods to enable us to continue offering standard merchandise at substantial savings. Today or tomorrow make up a list of your wants, ask our sales force to explain to you the savings you will be able to effect in making the purchase from us. It will agreeably surprise you. In the meantime, tell your friends and neighbors about this unusual event. You will be rendering them a valuable service. Richardson-Brown Co., Inc. "The Place Where You Will Eventually Trade"

This 'Furniture' Is Well Suited to Interior Finish

"Furniture" nowadays may consist of nearly anything. The loose classification of furniture is known to Eastland county deputy sheriffs, who noticed a truck yesterday standing on a street east of the T. & P. railroad and observed that the truck contained a pile of mattresses and various articles of furniture. On the side of the truck was painted a sign which read, "Furniture hauled overland to Ranger."

Examination of the contents of the truck by the deputies revealed ten cases of bottled in bond whiskey. The liquor was turned over to Sheriff Lawrence, who took it to Eastland. The driver of the cargo was placed under arrest.

RANGER STORAGE CO. TO BUILD TO MEET CITY'S REQUIREMENTS

Following the Times news story telling of shortage of storage space in Ranger, comes the announcement of the Ranger Transfer and Storage company that a new reinforced concrete fireproof warehouse, with 24,000 feet of floor space, private locked rooms, concrete vaults for valuables and a small refrigerating room, will be in operation within a few months. The site of the new plant is almost determined. Construction is expected to start in two weeks.

SINCLAIR OIL OUT WITH CHALLENGE TO RANGER BALL CLUBS

Sinclair Oil and Gas company, is in the field with a fast ball club and "arin" for a game Sunday with any local aggregation. The club is under the management of James "Scotty" Barton, and any clubs wanting games may arrange them by calling D. R. Robinson, telephone 214, stock material department.

OH SKINNY! LET'S GO OUT FISHING!

Local fishermen and persons who aspire to be fishermen or have vague hopes of being fishermen, and persons who have had memories with regard to certain disillusioning times when they sought to garner fish and garnered them not, are more or less excited over a spectacle seen yesterday afternoon—that of a man with a catfish of the "mud" variety measuring fifteen inches in length.

The possessor of the fish declared that he caught it in a "tank" about half a mile from town, says there are more like it in the same place.

B. AND W.M. CLUB VOTES TO FOLLOW UP PETITION TO AUSTIN

Several members of the Business and Workingmen's club resolved last night to send a delegate to Austin to follow up a petition the club sent to the governor and the attorney general five weeks ago, asking that an investigation of all county officials of Eastland county be headed by the attorney general's department.

Rev. William Johnson, pastor of the First Baptist church, was delegated to go to Austin to investigate. Members of the club said they have been informed that a petition was sent from Eastland soon after the one from this city went out. They are curious to know what was said in the other petition and by whom it was sent. Rev. Johnson will be asked to gather any information available regarding this petition.

The document from Ranger was sent by registered mail and a return receipt was received by the secretary of the club. The document was signed by the post commander and the secretary of the American Legion and by several ministers of the city and by the president and secretary of the Business and Workingmen's club.

F. W. Hazzard is moving into his new home in the Cooper addition this week.

JAMES DAVENPORT WORSHIPFUL MASTER FOR THE SECOND TIME

James A. Davenport was elected worshipful master of the Ranger Masonic lodge at its regular meeting Thursday night. This is his second election to this office for Mr. Davenport. He served in that position in the Masonic year of 1916-17.

Other officers elected are Louis H. Ducker, senior warden; W. R. Jones, junior warden; Willford J. Cozze, treasurer; F. E. Langston, re-elected secretary; J. S. Burgess, tiler. The officers appointed are F. E. Skinner, senior deacon; W. E. Skinner, junior deacon; R. B. Waggoman, senior steward; Fred Gipson, junior steward and W. T. J. Bishop, chaplain.

The retiring elective officers are W. T. Harrison, worshipful master; Howard R. Gholson, senior warden; C. E. May, junior warden; J. E. T. Peters, treasurer; Charles Hatcock, tiler. The installation of the newly elected officers will take place June 24.

Miss Anna Laura Cooper is visiting friends in Abilene and will attend the school exercises at Simmons college.

PERSONALS

Mrs. O. R. Cooper and daughter, Florine, of Breckenridge, are visiting Mr. and Mrs. V. V. Cooper, Cooper addition.

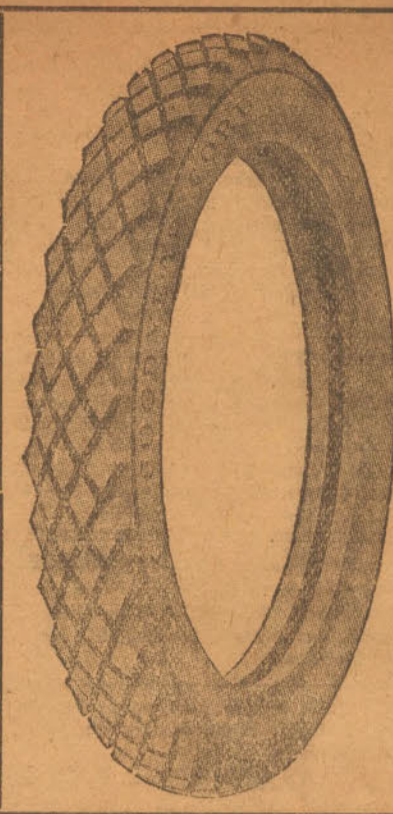

Mrs. Ralph G. Stockman left today for an extended trip to points north. She will visit relatives in Cleveland, Ohio, and from there will go to Columbus. Later she will be joined by Mr. Stockman at Chicago and from there a trip will be taken into the state of Wisconsin. Mrs. Stockman expects to be away about six weeks.

L. P. SPAULDING TO ABILENE ON BANK OF RANGER CASE

L. P. Spaulding went to Abilene last night to investigate the petition filed in the federal court by the defunct Bank of Ranger. Mr. Spaulding was chosen to represent depositors of the bank.

NEW AUTOMOBILE SHOP STARTS ON PINE STREET

An automobile shop has been opened on Pine street that does upholstering, top rebuilding, and automobile painting. Rhodes and Simpson are the owners of the shop. In addition to this work they have the agency for the Cole 8 and the King 8 automobiles.

TO LAY KEEL OF WORLD'S LARGEST BATTLESHIP AT QUINCY, MASS., THIS YEAR

By Associated Press
QUINCY, MASS., May 28.—The keel of the world's biggest warship will be laid down here within six months. The battle cruiser Lexington, combining in a degree unequalled by any ship of war now built or building the qualities of powerful armament and high speed, has taken form in drawings and awaits the arrival of materials to be advanced from the hands of the architect to those of the builder. By fall it is estimated, the prospective queen of the United States navy will become a ship under construction instead of an ambitious plan.

The Lexington is the name-ship of a class of battle cruisers which will give Uncle Sam within four years a fleet of six big-gun fighting ships unmatched by anything then afloat. Her sister-ships, the Constellation, Saratoga, Ranger, Constitution and United States, are also under contract. They bring names out of the old navy with which to develop for the first new capital vessels of the post-war fleet a traditional background for fresh exploits.

With the others of its class, the Lexington will be a whole of a ship. It will displace 43,200 tons and will have the power of 18,000 horses, as measured in mechanical terms. Its length of 874 feet is within 46 feet of the length of the Leviathan, monster passenger liner. The 104 feet of width of the Lexington will make that floating gun platform broader than any passenger ship.

The Lexington, which is to be equipped with electric drive, will attain a speed of thirty-five knots. This cruiser speed, higher than that of many destroyers, is the object of much of the designing that entered into the creation of the Lexington class. Armor will be sacrificed to make possible the thirty-five knot speed—

the main belt being only five inches thick at its maximum as compared with the twelve-inch steel belt on most battleships, but armament will be of tremendous power. The Lexington thus will have not only the strategic advantage of high speed but will be able to fire a heavier charge over a greater distance than any other battleship for which the plans are known.

The Lexington in action will speak with a voice of sixteen-inch guns, of which she will have eight. The navies of Great Britain, France and Italy contain no gun greater than fifteen inches and that of Japan includes sixteen-inch guns only on battleships of twenty-four knot speed which are now under construction. Unlike the dreadnought class' reliance on big guns exclusively, the Lexington will carry sixteen six-inch guns as a secondary armament.

Taking a page from the naval lessons of war, the designers of the Lexington have equipped the ship with four anti-aircraft guns, eight torpedo tubes, four of which are submerged and four on deck and with means of defense against aerial bombs and aerial torpedoes. Defense against submarine torpedoes will be obtained through fore and aft torpedo defense bulkheads, by which the stability of the vessel will be preserved no matter where she is pierced. Under any conditions but an explosion, it is claimed, the Lexington class of warship should prove unsinkable.

An indication of the Lexington's greatness is afforded by comparison with the British warship Hood, which when it is floated will be the biggest ship in the British navy and afloat:

Speed—Lexington, thirty-five knots; Hood, thirty-one knots.
Displacement—Lexington, 43,200 tons; Hood, 41,200 tons.
Length—Lexington, 874 feet; Hood, 860 feet.
Horsepower—Lexington, 180,000; Hood, 144,000.
Big guns—Lexington, eight sixteen-inch; Hood, eight fifteen-inch.
Main armor—Lexington, five-inch; Hood, twelve-inch.

FARM SPECIAL IS INVITED TO STOP AT IOWA FAIR

Special to The Times.
DALLAS, May 28.—An invitation to the members of the Texas Farm Boy special to attend the Iowa state fair during August has been received by Walton Peter, manager of the agricultural department of the Texas Chamber of Commerce, from G. E. Hamilton of the Des Moines Chamber of Commerce, who states that arrangements will be made to furnish the boys with entertainment. Des Moines is the home of United States Secretary of Agriculture Edwin T. Meredith. Arrangements have already been made for reception to the Texas farm boys upon his farm near that city.

Letters are being received from all parts of the United States urging managers of the Farm Boy special to include them in the itinerary. Besides the affairs mentioned, visits to Niagara Falls, Canada, the national capital, Mount Vernon and Arlington, a trip down the Potomac aboard the president's yacht, and a two-day tour of the Blue Grass region of Kentucky are on the tentative program of the Texas farm boys' trip through eighteen states during the last three weeks of August.

PUBLIC TOWEL AND CUP ARE BANNED

By Associated Press
AUSTIN, May 28.—The roller towel and the public drinking cup have been placed under the ban by the state health department, which has just issued a warning to all summer resorts in advance of the annual rush to observe sanitary laws of the state.

Campers are also urged to use care in securing drinking water, and are warned not to use creek water without first boiling or purifying it. Their co-operation is also requested in leaving camp sites clean, and a request is made that care be used not to pollute the soil.

NATION DEDICATES MEMORIAL TO SOLDIER DEAD AT ARLINGTON

Part of the throng which crowded the Arlington Memorial Amphitheatre during the dedication ceremonies. A huge crowd, including many notables, was present at the recent dedication ceremonies of the Arlington Memorial Amphitheatre in the Arlington, Va., national cemetery. This beautiful structure is a memorial to America's soldier dead and was erected to provide a suitable place for memorial exercises in the cemetery. It is the finest monument any nation ever raised to its heroes.

Feed Many in Germany From Friends Fund

By Associated Press
BERLIN, May 17.—The American Friends Service committee now is feeding 100,000 of the undernourished children of Germany of whom there, according to estimates based on physicians' reports, at least 1,000. Only one-tenth of them are being cared for as the committee can feed only those seriously or dangerously underfed.

In a kindergarten at Schoenberg, a large district where the Berlin poor cluster like bees, the correspondent saw several hundred pale-faced children ravenously attack the meal the committee daily provides. It was a ground-floor room with big windows flush with the street. Every window had a dodo of swarming little ones. They stood on the sidewalk peering in, noses flattened against the panes, their big round eyes eagerly watching the children in the room feasting.

Most of those on the outside were in the class of merely undernourished, for whom no aid is available. Fraulein Margaret Barth, a well known educator who, as the head of the local committee, supervises all the feeding arrangements in the Schoenberg district, sighed as she glanced at those wistful faces at the windows, and turned away.

"On the first day, she said, "we permitted the parents to come to see their children fed. They wept with gratitude. We didn't let them come again. They were hungry themselves and their pinched faces were more than we could bear in a place where food was being served."
Cocoa, milk, flour, sugar, rice, peas,

beans and lard are the foodstuffs supplied by the American Friends committee. Of the different menus afforded the most popular among the Berlin children is a kind of porridge made of flour, condensed milk, sugar and lard, eaten with a roll.

Sixty per cent flour is furnished. Fraulein Barth spoke of it with enthusiasm. "Such flour hasn't been seen in Berlin for years," she exclaimed. "Crowds come to look at it."

The committee began work in Germany the latter part of February. The Kapp revolution and the consequent disorders in Saxony and the Ruhr greatly interfered with operations. However, in Berlin, 50,000 of the estimated 90,000 to 100,000 needy children are now being fed, and the work in the provinces is being extended as fast as conditions permit. It is hoped soon to reach all the most urgent cases throughout the country. Germany has been divided into eleven districts, with Berlin as headquarters and the principal substations at Hamburg, Leipzig, Dresden and Chemnitz. The organization is said to have sufficient funds to continue its mission in Germany until the harvest begins to come in, about August 1. German crop prospects are poor, however, and the harvest is expected to give only temporary relief.

Every child receiving food has been reported by a registered physician as underfed. Political or religious considerations play no part in the children's selection. The food received from the committee is in addition, it has been stipulated, to the regular rations allowed by the German authorities.

A few weeks of regular feeding makes a remarkable difference in the appearance of the children. Little ones that look to be nine years old are actually 13 or 14 "grow up amazingly," as one of the kitchen attendants put it.

In addition to children up to 14, nursing and expectant mothers also share in the committee's bounty.

TEXAS UNIVERSITY DEVELOPES BRICK-TESTING LABORATORY TO BUILD UP STATE INDUSTRY

AUSTIN, May 28.—One of the experiments made this year by the chemical laboratory of the University of Texas is the testing of clay materials in the state which are suitable for brick making. The end in view is to find especially high grade clay for the manufacture of building, paving and fire brick. Samples were sent in by persons interested in deposits and are tested in the laboratory. From the experiments it is possible to obtain conclusions as to the commercial value of the deposits and to give advice on the best machinery and methods of manufacture.

The department has a down-draft muffle furnace, arranged to use oil or gas as fuel. Temperatures as high as 1,750 degrees centigrade may be reached. The temperature is controlled by a pyrometer, and burning is carried on at such a rate that it takes from thirty to forty-three hours to complete one firing.

The material to be tested is ground and moulded by hand in small metal moulds. It is air-dried and then dried in an oven before being fired. Samples are taken at various temperatures beginning with one at which common brick will burn and rising to that of fire brick.

After firing tests are made on the shrinkage, the tensile strength, hardness and absorption quality of the brick. When promising results are obtained, a man is sent out to make further investigations at the deposit to determine the feasibility of developing the deposit.

Some clays have already proved good; others are not so valuable. So far nothing has been found which comes up to the standard of fire brick, but much of the material is suitable for paving brick, and most of the samples are good enough for common building brick. The department expects to find better samples when the work is further under way. It is the opinion of R. A. McNeess, in charge of the experimental work, that new clay deposits should be valuable at this time, because as the country developed industrially, more building material is needed.

The shortage of lumber has increased the demand for clay building material, and the development of manufacturing industries in the state has called for ore fire brick. The discovery of deposits of brick clay in Texas may mean millions of dollars to Texas in decreasing the freight rate and in bringing in new industries, Mr. McNeess said.

Experiments in clay testing have just been started this year, and most of the work has been done since Christmas when the machinery and furnaces were ready for operation. Bad weather interfered with collecting samples during the winter months. Work similar to these experiments has been carried on at universities in Illinois, Iowa and New Jersey.

AMAZED WHEN MONEY IS SENT TO MISSIONS

LONDON, May 11.—The Archbishop of Canterbury has expressed his envy and amazement at the way in which Americans are subscribing money to foreign missions abroad. He said at the annual meeting of the Society for Promotion of Christian Knowledge that the witness of the society in this country were really in a parlous plight while across the Atlantic they somehow had a genius for raising sums of money for charitable and religious objects which put England to shame.

"It made one's mouth water," the archbishop said, "to read that the Methodist Episcopal church has secured promises for their mission work for the next five years of 33,000,000 pounds. Its foreign mission board was able to make an annual appropriation of 2,000,000 pounds while the Church of England was struggling along to get another 20,000 pounds."

Before the war only 345,000 persons held British government securities; the number is now 18,000,000.

BUMPER APPLE CROP FORECASTED IN VA.

WINCHESTER, Va., May 28.—A record apple crop is indicated in the Shenandoah-Cumberland district, extending 215 miles from Staunton, Va., to Harrisburg, Pa., which has approximately 3,000,000 bearing trees. Weather conditions during the winter and spring were more favorable than in several years, say expert growers. No damage from frost has been reported and the blooms have set well. The district, according to federal horticulturists, is one of the most important apple producing sections of the country.

EIGHT GLASS EYES.

WINCHESTER, Va., May 27.—Officials of Loudoun county are endeavoring to unravel the mystery surrounding two skeletons found in a cave difficult of access in a high bluff of rock near Blumont, Va. Anatomists declare the skeletons to be those of a man and woman. Beside the bones were found a revolver and eight glass eyes. Hunters last winter found a skeleton not far away from the cave.

Time—Six weeks later.
Musical Numbers.
"I Know What It Means to be Lonesome," Alice and Edith.
"A Bangalow for Two," Margery, Alice, Josephine, Earl, Philip and chorus.
"Mandy," finale by entire company.
Music by Opera House orchestra.

ANNIVERSARY OF PEACE WILL COME LATE NEXT MONTH

International News Service.
LONDON, May 28.—The first anniversary of the signing of the treaty of Versailles will be June 28, but of all the land formerly held by the German empire and parceled out by "mandates" under the League of Nations, not one mandate has yet become legal or official. All the territories are held today by military forces. It is the same with vast areas formerly within the Turkish empire and which have also been parceled out among the victorious allies.

The League of Nations Covenant provides a schedule of assorted mandates, but as yet none of the powers which have taken up such "mandates" as suit their fancy have seen fit to give the League more than a paper-mache existence or to trouble overmuch about complying with the rules and regulations of mandates as set forth in the covenant.

Japan still holds the former German Pacific ocean islands north of the equator and Australia and New Zealand those south of it, by military force. It is the same with German Southwest Africa, German East Africa, the Cameroons, Togoland, Palestine, Mesopotamia, Syria and portions of Anatolia.

DEBS TO BE TENDERED SOCIALIST NOMINATION AT PRISON CEREMONY

ATLANTA, May 28.—The strangest ceremony in the history of American politics and a scene unique in the annals of prisons will take place Saturday morning at the federal penitentiary near Atlanta when Eugene V. Debs, convict No. 2653, serving a ten years' sentence for sedition, will formally be tendered the nomination for the president of the United States. The Socialists of Atlanta and other supporters of Debs will hold a mass meeting Sunday afternoon in Atlanta, but the candidate about whom the speeches will center will be unable to attend, although but a few miles away.

Among the personages who will call upon Candidate Debs at the federal prison and will speak at the mass meeting are Seymour Stedman of Chicago, candidate for vice president on the Socialist ticket with Debs; James O'Neal, editor of the New York Call, the principal Socialist newspaper, and Otto Branstetter of Chicago, national executive secretary of the Socialist party.

Julius Gerber of New York and Dr. Mudge Patton Stephens of Terre Haute have been appointed official representatives of the party to notify Debs of his nomination.

The ceremonies at the prison will be simple. Debs has been notified and has expressed his willingness to accept the nomination. He will be unable to make a speech in behalf of his candidacy; he can make no tours of the country; will be unable to raise a hand in behalf of his election, unless he is pardoned or a general amnesty given such prisoners before the November elections.

FORGOT HIS TREASURE SPOT, DIGS UP ENTIRE YARD

International News Service.
HOQUIAM, May 28.—Working far into the night by the light of a lantern, digging up his back yard, Mike Paulovich aroused interest here as an exemplar of the home gardener. But the secret has leaked out. Mike is not trying to defeat the food trust by home gardening. He is seeking treasure. Several months ago, with no faith in banks, he buried his savings in the back yard. A few days ago he sought to exhume his hoard prior to returning to the old country, but forgot exactly where he put it. So he is now plowing up his whole yard. He resents the aid of his neighbors.

"Sugar stays off senility," says the Cincinnati Enquirer. Then why not give our poor, overworked United States Senate a bonus—and pay it all in sugar?—New Orleans Times-Picayune.

PRICE FIXERS ALLOW CLOTHING MEN 6.1 PER CENT

SAN ANTONIO, May 28.—Gross profits of 33 1/3 per cent of the selling price, which it is estimated will allow a net profit of 6.1 per cent, was fixed yesterday as a fair profit on men's clothing and furnishings by W. A. Cooke, state fair price commissioner. The ruling followed a hearing attended by representatives of the clothing dealers and by the general public. Retail clothiers agreed to the profit fixed.

Cooke announced that a meeting on prices fixed for women's apparel would be held if dealers and consumers could not be gotten together.

Public Ownership and Liquor Control Will Be Discussed by British Labor Party Leaders

By FLOYD MACGRIFF.

LONDON, May 27.—Public ownership and control of the liquor trade—regarded by British prohibitionists as a trade movement to unload their properties by the liquor trade as the first step towards prohibition, and by the workers as a compromise between prohibition and profiteering—promises to be one of the most warmly debated subjects at the labor party's June convention.

This public ownership and control proposal is supported by the National Amalgamated Union of Shop Assistants, Warehousemen and Clerks; by the British Iron, Steel and Kindred Trades association; by the General Union of Textile Workers; by the Railway Clerks' association; and by various local labor bodies.

Coming local option in various Scottish districts and the Carlisle experiment in reducing hours of liquor sale and number of saloons should be watched without prejudice, several local labor parties urge.

Next to liquor, lack of housing accommodation, despite grandiose schemes put forward by the government, holds first interest in the June agenda on domestic affairs. Some ten schemes are put forward which their sponsors declare would ease or remedy the situation if adopted by the government.

Labor is dissatisfied with the electoral laws, judges by the number of reform proposals, including proportional representation, more than 100 schools also are wanted, the Sanysea Labor association declaring only a small part of the nation's youth has access to such education. Free education for all is likewise urged by Southwark, London.

Reformation of the nation's life insurance scheme for workers, compensation in accidents, assistance of hospitals hard hit by the war, and better public health service to the workers is demanded by Glasgow Trades and Labor council.

As to unemployment, various resolutions will urge the government to provide work and union rate of pay for all men and women unable to get jobs. Wandsworth (London) urges the unemployed be set to work building houses.

One local trades council urges a campaign for a forty-hour week, as against the Trades Union congress' decision to fight for a maximum week of forty-four hours.

Direct action as a labor party policy is urged by the Marylebone organization, which declares "the time is approaching when the workers must be prepared for

a conflict between themselves and the state, since industries are coming, like the railways, to be nationalized, and any labor fight should be by all rather than one section of the workers." The independent labor party offers a resolution for establishment of the soviet system on a modified plan.

As to land, always an irritant in British political life, the National Agricultural Laborers' and Rural Workers' union offers the simple remedy of abolition of private ownership of the land, the state taking it over. The Reading local urges confiscation of the land, while the independent labor party, in its nationalization of the land resolution, says "socialization of the land is the very foundation of the co-operative commonwealth," which it is seeking to establish. The independents, incidentally, represent a very small part of the workers.

Railway clerks demand that the railways be purchased by the state straight off. Other local organizations call for nationalization of electricity, banking, gas, water and transport services. All appear to want more democratic control in industry; one suggests guild socialism to be the only remedy for existing unrest.

These are some of the more important topics that will be debated for four days in June.

Of the total registrants (24,234,021) in the selective draft in this country, 38.22 per cent were held for military service, 2.50 per cent were given agricultural deferment, 39.57 per cent were given dependency deferments, 1.81 per cent industrial deferment, 8.33 per cent were aliens, 5.27 per cent were physically disqualified, and .72 of 1 per cent were deserters.

Little Benny's
By Lee Pape
Note Book

Yestidday I noked out one frunt tooth trying to jump the fire plug without touching it with my hands, being a loose tooth anyway on account of me going to have another one in the same place, and I started to go home with a empty space in my mouth instead of a tooth, thinking, G, wen ma sees this she'll think I had a fearse accident, I better brako it to her easy.

Which I did, standing in the hall outside of ma's room and saying, Hello ma, are you in there?

Yes, are you out there? sed ma.

Part of me is I sed.

Wat, wat on erth do you meen? sed ma.

Now don't start to get worried ma, it aint hardly enything, wats a broken arm? I sed.

Benny, sed ma loud as enything. And she jumped up and ran out and saw me standing there with both my arms looking like they avt to look, saying, You wicked boy wat do you meen by frightening your mother like that, wats the matter with your arm?

Nuthin ma, I'm breaking it easy, it aint my arm, its my leg, its sliely out of place, I sed.

Wat leg, wich leg, O my goodness, sed ma.

No, it aint, ma, no it aint I quick sed, I'm breaking it easy, its ony a frut tooth out, look, ma.

And I opened my mouth so she could see the hole and she gave me 2 fearse cracks on the side of the face, saying, You crazy thing, I brake sunthing elts for you, that wat I'll do.

And she started to look as if she was going to give me 2 more cracks, and I quick run up stairs insted of waiting to find out.

Prooving you mite as well leave people find out things for theirselfs.

STAMP SALES AT AUSTIN MOUNT TO MILLION

AUSTIN, May 28.—The sale of stamps through the Austin postoffice, which became accounting office for 1,100 other postoffices of the state on March 15, has increased nearly a million dollars, according to C. E. Huddleston, assistant postmaster, since that date. He said that \$250,000 is paid out monthly through this office to rural mail carriers of Texas.

RETURN GERMANS.

SHANGHAI, May 28.—Most of the German war prisoners held in camps in Japan and in China have now been repatriated. A contingent has just passed through Shanghai.

MAY AMEND TAX LAW TO CHANGE TAX DATES

AUSTIN, May 28.—Amendments to the road laws proposing registration of motor vehicles in May or October instead of January, as at present, is advocated by State Comptroller Mark L. Wiginton as a relief to county tax collectors who he said, are swamped with work during January. He has written to each tax collector of the state and asked them to urge the governor to submit the proposed amendment during the present special session.

Y. M. C. A. SCOPE IN CHINA HAS BROADENED OUT

TIENTSIN, China, May 8.—Enlargement of the work of the Young Men's Christian association in China is planned as an outcome of the international convention of the association just held in Tientsin. A large number of new branches are to be established and 100 more secretaries are to be recruited.

Breckwalker Now Has Regular Train Service

The newest and best oil fields town in Texas is BRECKWALKER, eight miles south of Breckenridge, twenty miles north of Ranger, and in the midst of a community of three thousand persons that are engaged in developing the oil fields there that are producing the biggest and most enduring wells in Texas. The wonderful well of the Gulf Production Company on the K. Stoker lease that is making 9,000 barrels a day is just three miles from Breckwalker. The great development of all the big companies in Stephens County centers at this new town. Several of the big companies have large camps in the neighborhood of Breckwalker and it has been for a long time a center of oil field activity despite that it was twenty miles from a railroad. Now that it has railroad service Breckwalker is growing faster than any other town in Texas.

The Wichita Falls, Ranger and Fort Worth Railroad

Has completed its tracks from Dublin into Breckwalker and will begin operation of trains daily. The first train will be run into Breckwalker

SATURDAY, MAY 29th

This special train to open the service on the new oil fields road north of Frankell will be operated from Dublin to Breckwalker, leaving Dublin at 7 a. m., Ranger at 10 a. m., Frankell at 11 a. m., and arriving at Breckwalker at noon. Returning the train will leave Breckwalker at 5 p. m., arriving at Frankell at 5:50, Ranger at 6:35, and Dublin at 9 p. m.

Breckwalker is an oil fields opportunity. Its location is in the very heart of the big development. The people who are in the vicinity of the town afford a population to make it an active center at once. The amount of development that is under way and the value of the production of oil together with the amounts that are being expended daily in the development of the field assure Breckwalker of a rapid growth and promise definitely large returns for persons who go there to engage in business.

There are openings in Breckwalker for all lines of business. The prices of the lots are low. The terms of sale are easy. Ten per cent of the purchase price may be paid in cash and the remainder in ten equal monthly installments. The townsite is attractive and has every natural advantage.

The combination of regular railway train service and a territory that is producing more oil than any other like territory in Texas, and the development just beginning, makes the Breckwalker proposition one that no live person who would make quick profits can afford to pass by.

First Train Runs Saturday, May 29

Regular daily train service will be maintained thereafter. Beginning in a few days through trains will be run from Fort Worth via Dublin to Breckwalker and intermediate points on the Wichita Falls, Ranger & Fort Worth Railroad, setting out sleepers at Breckwalker each morning and picking them up for return each evening.

potpourri, fragrant powders, and where she made up bowls of dried petals from gardens of individuals, preserved wedding bouquets, etc. In this way she believed she would come in contact with persons who cared for fragrances and in finding a common meeting ground she would learn of individual tastes and preferences.

"One thing that amuses me in my superficial observation of men is that they like red. Most men and boys love red roses, red neckties, red carpets. Also I have learned that most men like a faint, subtle perfume on the women they go about with, but, for fear of being thought effeminate, poetic or artistic, they pretend they don't. The more cultivated an individual, the more difficult he is to be enticed in perfume. We are beginning to appreciate the subtle art of odors, odors that a generation or two ago would have been hardly perceptible to the senses at all. A person whose artistic development has been neglected is apt to need the heavy scent of a tube rose or a cinnamon flower or some equally compelling odor."

Patsy explained all these observations to Joe, who was becoming really interested in her little shop. He had helped her to fit it up; he had racked up curtains, painted furniture to make it harmonize with the surroundings and he found himself spending every spare moment in the pleasant environment of Patsy's shop.

"What do you know about my aura Patsy?" he asked, suddenly, one day when helping her.

"More than I'd care to tell you, Joe."

Joe looked up at her. The tone of her voice had seemed strange.

"If it times with the color of your blush just now, it must be some aura," she remarked half merrily, half seriously. Then he went over to where she sat among the basket of rose petals.

"Patsy, why don't you make a study of the flower of all emotions—love? I love you so much and I've been afraid to tell you until I heard that note in your voice just now when you spoke of—of me. Won't you promise to marry me—you do love me—and I'll help you all I can, dear?"

Patsy's blush had deepened in color and her eyes had gathered a wonderful light. "It—it might be interesting to—find the perfume, Joe," she said, as she stepped close to her.

And then, for long moments, the study of the fragrance of mere rose petals from other people's gardens was forgotten.

APPE HOUSE ROMANCE AMUSES LONDON ZOO MEN

International News Service.

LONDON, May 27.—Every official at the Zoological Gardens is watching with tender interest a budding romance at the ape house.

A fair young chimpanzee, Gladys, has just arrived, and there were at once claimants for her paw, Mickey, the veteran chimpanzee, who is also "father of the zoo," was rejected on Gladys's behalf as too crusty a bachelor. Percy, the other chimpanzee, was chosen as being more suitable in age and disposition.

So Gladys, in her dainty little traveling box, was pushed bodily into Percy's cage and the door of the box was opened.

It was love at first sight for Percy, but Gladys declined to "leave her little wooden hut." Percy then crowded himself into her traveling box, while all the other officials of the zoo stood round and beamed on his suit. It was a pretty sight—for a bit.

Percy put his arms around his fiancée and they actually seemed to kiss. Percy "old her of the splendors in the outside world."

Gladys did not budge.

Percy tried polite persuasion, suggesting a stroll outside.

Gladys did not budge.

Percy went outside and "cooed" to his bride.

Percy then caught Gladys by the scruff

of her neck and nearly pulled her head off.

Gladys did not budge, but the zoo officials did. They instantly reconsidered Percy's position (and disposition) and removed Gladys and the box in a flash.

Percy was heart-broken, but the present scheme is to keep them apart until Gladys has made real friends with Harold, the keeper. Once she trusts her custodian she can be turned into Percy's cage again. She is active enough to keep out of Percy's way, and will then go to Harold for protection, instead of being terrified of both.

The death sentence on American soldiers was executed in thirty-five cases; ten in France and twenty-five in the United States.

Terrible Tortures From Itching Skin Diseases
No Sure Relief Until the Cause Is Removed.

When the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are removed from the blood.

Genuine relief therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause. Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders.

NEW RAILROAD FILES ITS ARTICLES OF INCORPORATION

AUSTIN, May 28.—The Winnsboro and Gilmer Railroad company has filed articles of incorporation with the secretary of state. The company is capitalized at \$127,000, and according to J. H. Beavers, attorney, proposes to operate thirty-one miles of road which has been purchased from the Marshall and East Texas Railroad company, and which runs through Wood and Upshur counties between Winnsboro and Gilmer. The officers are: S. Kinkaid, Dallas, president; W. E. Stevenson, Winnsboro, vice-president; Jordan Alois, Winnsboro, secretary-treasurer.

Times Short Story

By HARMONY WELLER

"The only talent I have," sighed Patsy Van Buren, "is my nose!"

"Nose—a talent?" Joe Robinson exclaimed. "I'd never call mine by that name, Pat," he laughed, examining his own in an opposite mirror.

"Well—by any other name it smells as sweetly," Patsy retorted. "But I don't mean my nose, itself—I mean my sense of smell. It is surely developed to a high degree that might be classed among the talents."

"Much good it'll do you, methinks," Joe consoled her. "Now if it were your sense of taste you might be a tea-taster or a judge of good liquor—if the latter weren't among the extinct professions."

"I can see very plainly that I am going to get no satisfaction from struggling for an outlet for my creative ability—which I know I have in spite of all you home folks' pessimism on the subject! Something tells me to use this extraordinary sense of smell of mine—but how?"

Joe seemed perplexed. "That's all very well, but how can one make a living—or even an approach to one from it?"

"I suppose," said Patsy, "you are not far enough advanced to conceive of a girl going in for perfumes and fragrances that might appeal to the individual per-

sonality. Men and women have very distinct colors in their auras, and if colors have tones, one for each, as has been proven you know, why should not colors have perfumes? And then, to follow it up, why shouldn't I, with my finely attuned sense of smell, be able to detect the fragrance of an individual's aura colors and try to duplicate them in extracts or powders or toilet accessories?"

Joe scratched his head impotently, but his eyes looked thoughtful. "Yes—I suppose it could be developed, but everyone would think you were crazy and only the 'nutty' ones would come to you, wouldn't they?" he asked, half in jest, half in earnest. He was fond of Patsy, his chum from childhood, and he did not want to seem too hard on her.

"Perhaps it would be difficult, at first, Joe. But I don't have to make an immediate living, you know, with father and mother to take care of me. And it has been my experience in watching the development of any of the arts or any phase of them, as soon as you begin to educate people in the direction that they reach, and find many who have already been interested, but for the lack of someone of understanding have kept it to themselves."

That's true, too. Human beings are

afraid of being ridiculed, and they frequently smother their best selves and sit about making trivial small talk instead of opening up what might prove to be an enlightening subject."

"Why, Joe, even you are beginning to think," Patsy remarked, patting him affectionately.

"Even I?" Joe admitted, nodding. "But you just go to it, Patsy, and if I can help you, I'll do it."

"Thank—I'll probably need you, Joe," Patsy said. "But now I am making a study of the fragrance of colors. For instance, a red rose smells quite different from a white one. I have a lot of tests I want to make today, so—so long, Joe."

Patsy almost danced off to her little third-floor studio room, where, all alone, she had been working on her theory of colors, perfumes and human auras. Until now she had said almost nothing about her intentions, although it was known that she had a wonderfully esthetic development in her sense of smell.

In time her plans took effect in the form of a diminutive shop and studio where she handled exclusive perfumes,

JOHN-A-DREAMS

XXXVI. YOU SEE A WEDDING IN DREAMLAND-CHURCH.

I have a request from a reader to interpret dreams of marriage. It will be impossible for me to exhaust the subject in one chapter, but I shall gladly tell her and all my readers, of the meaning of some of the many ways in which this vision may invade your sleep.

The workings of the sub-conscious mind are such that dreams in which the sleeper becomes the principal at a slumber-wedding usually come to unmarried women, while married women more often dream of weddings of others. But I might say in passing that if a married woman dreams that she herself is a bride, particularly when the man with whom she stands at the altar is not her husband, she will soon be drawn into the affairs of a family of friends where the question of the daughter's wedding has stirred up deep strife and caused many tears.

Today, I shall speak only of dream-weddings other than the sleeper's. In most cases, such visions are good omens, for Grave authors say, and witty poets sing: That honest wedlock is a glorious thing, And dreams of weddings happy hours bring.

and unless certain peculiar incidents mar the even run of the apparition, it will be followed by good luck, many festivities, much satisfaction and rich gifts. If you kiss a bride, especially if she is gowned in her wedding dress, a secret will be imparted to you which, if well guarded, may result in great gains. But should the bride refuse to kiss you, then a secret which you entrusted to some one will be betrayed.

The sound of wedding bells or wedding music is the omen of a journey at the end of which you will find happiness and peace. To see a bride run towards you, a young woman relative is in deep trouble and will appeal to you for help. If you sit in a church pew, and the wedding procession passes by you and you see the bride's face plainly and notice other things in considerable detail, in more detail in fact than you could do in real life, you will soon discover that there are false friends around you and that you must look sharp to escape their intrigues.

If you see an ugly bride, such a one as might make you say: "There swims no goose so gray, but soon or late She finds some honest gander for her mate."

some one will make a clumsy attempt to injure you, but you will have no trouble in coming out of the conflict with flying colors. If you feel great unhappiness at seeing a wedding, a young bride whom you know well will die in childbirth. If the persons whose wedding you are witnessing are either too young or too old to become husband and wife, or one of them is so far over or under the other's age that the ceremony becomes a farce, a crime will be committed in circles where you are well acquainted and should you recognize one of the parties as friend or relative, you will have thus received mysterious foreknowledge of the identity of either the victim or the perpetrator of the crime.

A wedding party, especially if you are among the merry participants, is a forerunner of a strange experience, at home or in foreign lands, to speak to the minister at a wedding is the prelude to a christening and to eat at a wedding festivity means that, before long, you will be the guest of a hospitable house.

Sordid, unpleasant, almost humiliating business transactions are foreshadowed by being present at a second marriage:

The instances that second marriage move, Are base respects of thrift, but none of love.

In fact, if you happen to know the bride or groom whom you see in such a dream, then you know, too, with whom these unpleasant relations will bring you in contact, and if it can in any way be done, avoid all possibility of entering into the deal.

Jack O.—Dreams of linen mean prosperity.

Anonymous.—To fall from a ladder is a sign that you have engaged in a dangerous adventure and unless you desist, you will come to grief.

No. 11.—Am I to conclude from your signature and the preceding sentence that

ITCH!
Money back without question if HUNT'S Salve fails in the treatment of ITCH, ECZEMA, RINGWORM, TETTER, or other itching skin diseases. Try a 75 cent box at our risk.

you are in jail? If this is the case you will have to be very explicit in describing your dream, for it will be necessary for me to weigh carefully how much of it was true vision and how much due to the nerve strain produced by your misfortune.

Mrs. Joseph I.—To see somebody's swollen jaw is a sign of sudden wealth but, unless you tell me whose jaw was swollen I will not be able to say whether the good fortune will be yours or another's.

Anxious Dreamer.—Under no circumstances may you send me a fee. I accept no payments from my readers, nor have I dream books to sell. In good time, every subject which may reasonably be expected to appear in dreams, will be explained in this column.

The next chapter will deal with the dark subject of Murder.

John-A-Dreams will be glad to interpret dream experiences sent to the Editor of the Daily Times, by its readers. No replies will, however, be given privately and no fee will at any time be asked or accepted. It is distinctly understood that there can be no guarantee when such questions will be answered, though every effort will be made to satisfy inquirers within three or four weeks.

WILL USE PORTABLE SCHOOLS IN GEORGIA DISTRICT

SAVANNAH, Ga., May 28.—The board of education of Chatham county, of which Savannah is the county seat, expects to buy a number of portable school houses to meet the congested condition of the public schools. Each will accommodate about 50 pupils and cost about \$1,000.

Why pay rent for light housekeeping rooms when you can buy a place like mine for your price on your own terms. I have an army tent, all screened in, also 8x16 screened in sleeping porch, attached with sanitary toilet; furnished, stud frame and all boarded with matched lumber, beaver boarded all around inside; in the coolest place in town, half way up the hill, out of the dust and mud; good neighborhood; back of Ranger distilled water plant.

Inquire of Mrs. Bartlett, 307 Hodges Street.

Colorful divisional shoulder insignia can be worn by members of the U. S. Army by order of the war department.

The Ninth, Tenth, Eleventh, Twelfth, Thirteenth and Fourteenth divisions were organized, but never got to France.

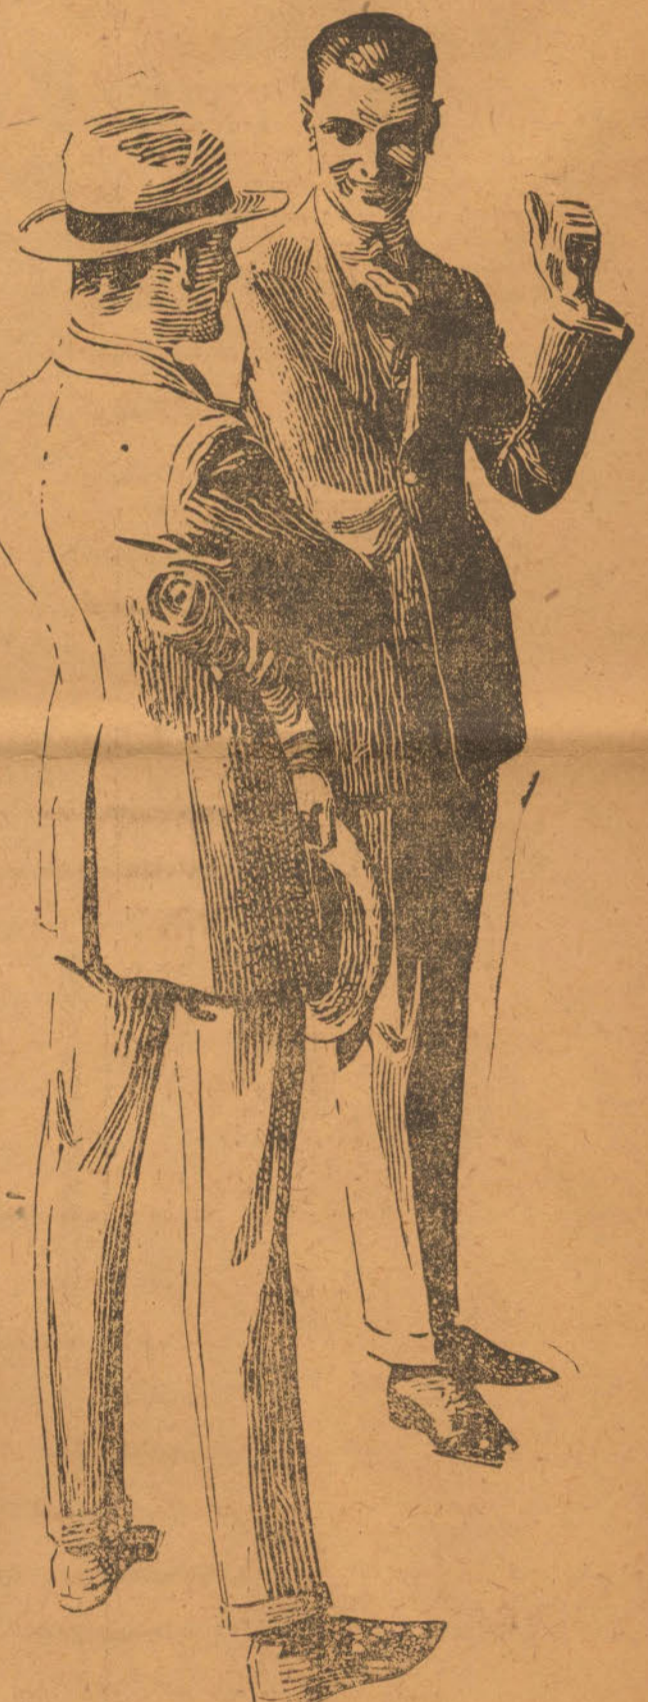

Six former German warships and 124 submarines have been allocated to Great Britain. The United States will get two vessels.

Hotel Southland—Modern, fire-proof; weekly or monthly rates.—Advertisement.

THE REMOVAL OF OLD STAINS.

"I am ashamed to admit it, but I laid away two of my white cotton dresses, last fall, before removing from them some mildew stains—so they have lain all winter with these stains in them. Is there any chance of removing them now?" writes a reader friend.

many excellent commercial ink removers on the market and these are generally very satisfactory, no matter how old the stain. To Remove Old Iron Rust Stains from Cotton Goods.—Combine equal quantities of hydrochloric acid and cold water. Spread the stained part over a bowl of hot water and apply the acid drop by drop until the stain turns a bright yellow; then immerse at once in hot water and rinse thoroughly. Repeat process if necessary. Add a little ammonia or borax to the last rinsing water to neutralize any of the acid which may remain in the goods.

SLAYER WHO REFUSED ESCAPE IN 1893 IS FREED

International News Service. OSSINGTON, N. Y., May 28.—Sing Sing attendants learned that Edward Georgehan, who sprang freedom when facing execution in the death house twenty-seven years ago, has been pardoned from Clinton prison. On April 20, 1893, Thomas Pallister and rank Koehl overpowered two guards, as the time for their execution drew near, and with keys taken from them opened Georgehan's cell and told him to come along. He refused, Pallister and Koehl escaped. Bodies identified as theirs were later found in the Hudson river. Governor Flower changed Georgehan's sentence to life imprisonment.

MOONSHINE DEW FOUND IN A BASKET OF EGGS

International News Service. CHATTANOOGA, Tenn., May 28.—Eggs are the latest camouflage used in North Georgia by the moonshiners. When revenue officers unpacked a suspicious looking basket of hen fruit in a farm wagon they found two gallons of mountain dew underneath.

TOOK OUT LICENSE 45 YEARS AGO—JUST MARRIED

International News Service. PITTSFIELD, Mass., May 28.—Julius I. Boutellier and Augustine Dulvat, highly respected residents of Great Barrington, who took out a marriage license in Pittsfield October 15, 1875, were married for the first time at St. James church rectory in Great Barrington by Rev. Robert Backman, Jr. He is seventy-five and she is seventy-seven. Born in France, they supposed that securing a license was equivalent to marriage and they had lived as husband and wife.

WOMEN'S HATS TRIMMED UNDERNEATH IN PARIS

PARIS, May 28.—Hats are plain on top and trimmed underneath the brim, for a change, and as little trimming is used, in general, the more precious it is the better. The result is a simple-looking hat of fawn-colored suede, for instance, with two huge pearl shields covering the ears.

We don't believe anything Mr. Hoover can say on any of the great economic problems just at this grave crisis will meet with Hiram Johnson's full approval.—Ohio State Journal.

A place you can recommend to your sister, daughter, wife or mother. Hotel Southland.—Adv.

Colonel Bryan talks as if he had swallowed a raisin.—Chicago News.

HOW TO STOP A HEADACHE

Aspirinal Relieves Pain in Two Minutes—Prevents Return by Removing Cause—Absolutely Safe.

Doctors and druggists are delighted with the new Aspirinal Elixir which relieves the pain of headache in two minutes and also removes the cause by gently acting on the liver, overcoming biliousness and constipation and thereby preventing the return of the headache next day. Doctors especially recommend Aspirinal for the reason that it is not dangerous to the heart and does not upset the stomach.

The next time you have a headache go to your nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonful in a little water. With your watch in hand count off two minutes and call for your money back, as per manufacturer's guarantee, if you can't feel your headache fading way within the time limit. Your druggist smiles and expects you to try Aspirinal so don't be bashful. Everybody is doing it. Same guarantee applies to colds, coughs and neuralgia. Adv.

PROHIBITION WILL BE ONE OF THE BIG ISSUES DURING THE CONGRESSIONAL FIGHT

be no "wet plank" written into the planks of the major parties at either Chicago or San Francisco, it became definitely known today.

Both parties have come to the conclusion that they will not go on record one way or the other. Wet leaders, therefore, are expected to make a fight to elect a wet Congress for the purpose of modifying the Volstead law.

Dry leaders generally are willing that the prohibition enforcement matter shall be fought out in the congressional elections, rather than in the presidential. They say they can carry a big margin of the congressional districts.

Consequently, after the Chicago and San Francisco conventions have adjourned without taking any action on the prohibition enforcement measure, the Anti-Saloon league and kindred organizations will start its campaign to tag its enemies and call attention to its friends.

The congressmen who thought that prohibition would not rise up to plague his dreams has been brought to a realization of the fact that he must come out squarely on one side or the other in reference to the enforcement of the Volstead act.

The Anti-Saloon league in calling attention to the forthcoming congressional fight, issued a statement through William R. Anderson, state superintendent for the league in New York.

"The liquor question is an acute political issue today solely because the liquor traffic has gone into politics to prevent the enactment of prohibition in the first place," Anderson said.

Dry congressmen, it became known today, have begun to receive questionnaires from their home Anti-Saloon league organizations, asking if they intend to stand firm. It is said that the questionnaires were sent only to those who voted against the Gallivan resolution to withhold funds for prohibition enforcement.

The plans of the dryers are not so secretive. The foes of liquor are going into an extensive publicity campaign to make sure that while the country is electing a dry president—all the major candidates of both parties are dry—it is not at the same time electing a wet Congress.

Dozens of aspirants in cities like New York, New Orleans, San Francisco, St. Louis, Louisville, Detroit, Cincinnati,

Milwaukee, Cleveland and San Antonio will stand on moist or dripping platforms.

Even among the wets there is a wide divergence of opinion as to what should be asked if a wet Congress were, by any chance, elected. The guesses range from outright repeal of the Volstead act to 2.75 modification. There is also talk that a moist Congress would be asked to pass a law giving states a right to pass enforcement laws of their own.

KEPT HIS PIG IN PARLOR. INSPECTORS REMOVE IT

KANSAS CITY, May 28.—A real case of a "pig in the parlor" was uncovered here the other day.

Sanitary inspectors found a hog being kept on the first floor of the home of Juan De Losa, No. 1860 Terrace Place.

Despite sundry squeals of protest the hog was removed to a more appropriate place of abode and the house was put in a sanitary condition.

FOUND CARDUI GREAT BENEFIT

South Carolina Lady Suffered Until She Couldn't Stay Up or Go Anywhere. Tells How Cardui Helped Her Get Well.

Batesburg, S. C.—In telling how she found relief from troubles that had caused her much suffering, Mrs. E. E. Oswald, of this place, says: "Each month I would begin to suffer with my back and head. My limbs would ache and I would chill. I wouldn't be able to stay up, no matter what I wanted to do, or where I wanted to go. My people tried giving me different medicines and teas, yet I didn't get any better.

"Some one told me of Cardui, and I began to take it. I notice it helped me. I kept it up. After a few months I didn't have any trouble. For about six months I used it, before . . .

"I found I was all right, and from that day to this have never had any trouble at this time. I have taken it since, a bottle or two in the winter, especially when I have been exposed, and would take a cold for I consider it the best thing a woman can take to tone up the system, keep off nervousness, and increase the appetite. I certainly know it has been of great benefit to me."

If you are weak, nervous, or suffer from womanly troubles such as Mrs. Oswald mentions, take Cardui, the Woman's Tonic. All good druggists sell Cardui. Adv.

Go to Bed Grouchy Wake Up Feeling Simply Fine

Wonderful How Calotabs, the De-Nauseated Calomel Tablet, Makes You Feel so Good the Next Morning.

The old-style calomel was the best medicine in the world and the only thing that could straighten out a disordered liver, but it had some serious drawbacks. The gripping and the sickening after effects made many people dread to take it. Now you can take calomel without the slightest objection. One Calotab on the tongue at bedtime with a swallow of water—that's all. No taste, no danger, no nausea, no salts. Next morning your liver is clean, your system purified and you are feeling like a two-year old—with a hearty appetite for breakfast. Eat what you please—no danger.

Calotabs are so perfect that your druggist is authorized to refund the price if you are not delighted. Sold only in original sealed packages, price thirty-five cents. All druggists now have Calotabs.

'My Husband Stays Home Evenings, Now!'

This is what Mrs. Busy Housewife says, now that she has furnished her living room with comfort as the one and only consideration.

You see, Mrs. Busy Housewife reads the daily "Efficient Housekeeping" talks by Laura A. Kirkman, and the frequent little chats on furniture and interior decoration have helped her to make her home a more attractive place to live in.

And what is the result? This: where, before, her husband spent many evenings a week out, now she cannot coax him from the great, easy chairs beside the hearth fire. He declares that the new, harmonious color scheme of the room rests his tired nerves, and that he is, for the first time in their married life, getting 100 per cent comfort from his home.

Any housekeeper can improve her home by reading the "Efficient Housekeeping" talks in the Times.
