

CARRANZA REPORTED ON EVE OF FLIGHT

Fighting Journalists Appreciate "Oil Hound Ball" Which Climaxes Pause of Oil Tourists in Ranger

"Friend," confided the writer... A. E. F. yet, leaning on the varnished rail for comfort and support, "friend, I have never seen anything like this in my life."

"By Gum—Guess I Need a Haircut!"

REBELS MOBILIZING AS RUMORS SPREAD OF PRESIDENT'S FLIGHT

EL PASO, May 7.—While reports are numerous here that President Carranza either has left or intends leaving Mexico City soon, troops are being mobilized in Juarez, according to an announcement by General Gonzalez Escobar, commander at Juarez.

Not Confirmed at Washington. WASHINGTON, May 7.—A private message from Mexico, via Laredo, saying that President Carranza already had left the capital for Vera Cruz, was unconfirmed in official circles early today.

PROFITEERING MAKES DEMAND FOR MORE PAY Railway Brotherhoods Study Show Three-Fold Relation. WASHINGTON, May 7.—A study of profiteering in American industry, made under the auspices of the railway brotherhoods was presented to the labor board today in support of the railway workers' demands for higher pay and in refutation of the charge that increased labor costs are responsible for the high cost of living.

Refugees Start World's Newest Government

REVAL, Estonia, May 7.—The youngest government in the world is one that has just been set up by a colony of 25,000 Russian refugees that followed the army of Yudenith into the borderlands of Estonia. These people in small colonies of several hundred each are living on old Baltic estates in mansions that formerly housed barons whose titles date back many centuries.

ENGLAND APPROACHES NEGOTIATIONS WITH RUSSIAN BOLSHEVICS

LONDON, May 7.—Great Britain is on the eve of negotiations with Soviet Russia, a Moscow wireless message asserts. Military conversations, it is declared, are desired by England in order that definite negotiations may be begun concerning the cessation of the Bolshevik advance into Crimea and British officers would participate in the negotiations.

NEW PICTURE OF RAIL BOARD HEAD

R. M. Barton. This picture of R. M. Barton was taken in Washington since his appointment as head of the railroad labor board. He was appointed by President Wilson as a representative of the public on the board. For many years he was a member of the Tennessee court of appeals.

Legion Here Votes in Favor of Bonus Bill

The Carl Barnes post of the American Legion last night went on record as favoring the bonus bill, with five optional plans of compensation as outlined in Congress. A motion to this effect carried unopposedly.

TWO WITNESSES PARTLY CLEAR VINES MYSTERY

Much of the mystery in the murder of J. E. Vines on Tuesday night has been cleared. Chief of Detectives Homer C. Gambill said today that Henry Enich and Harry Flower, the two men who were being robbed by the highwaymen who killed Mr. Vines, went to the police station last night and made a statement of what occurred at the time the Ranger business man was shot.

"Moonshine" Not Recognized in the Eyes of the Law

SEATTLE, May 7.—"Moonshine" does not exist legally. Despite the fact that it is the official cognomen applied in Kentucky and Tennessee to the pure distillate of the corn and more recently to the fiery beverage derived from the secret treatment of raisins, it has no standing in Federal court.

FATHER FINDS HIS SON AFTER 12-YEAR SEARCH

International News Service. OLEAN, N. Y., May 5.—Parted from his only son twelve years ago, Thomas F. Sullivan of Brooklyn, had reached the end of a seven years' search for Thomas F. Sullivan, Jr. There was a reunion in Westline, Pa., across the state line from Ohio. The son, nineteen years old, is a chemical wood worker.

Storm Damages Mineral Wells; Loss \$100,000

MINERAL WELLS, Tex., May 7.—Severe wind, accompanied by heavy rain, damaged property valued at \$100,000 last night. A new building belonging to the Hyatt Croft Motor company caved in, the result of a landslide on East mountain. The loss was \$10,000.

COTTON CROP CONDITION IS WORST IN HISTORY, SAYS GROWERS LEADER

FORT WORTH, May 7.—President Lyday of the Texas Farmers Union, estimated today that the rains this week have placed the Texas cotton crop in the worst condition in history. The flooding and washing of fields, he said, added to the loss inflicted by late frosts and cold.

JOHNSON WILL NOT ACCEDE NOMINATION FOR VICE-PRESIDENCY

WASHINGTON, May 7.—Senator Johnson today supplemented the statement of his campaign manager that under no circumstances would he accept the nomination for the vice presidency by making a formal and direct statement to that effect himself.

BANK COMMISSIONER ISSUES CALL FOR CONDITION MAY 4

AUSTIN, May 7.—A call for the statement of condition of state banks at the close of business May 4 has been issued by the commissioner of insurance and banking.

BOOSTING WORLD PRESS CONGRESS

Virgilio Rodriguez Beteta, organizer and president of the Associated Press of Central America, is in the United States to create interest in the world press congress to be held in Australia next October. He will visit also the Latin-American countries and Spain on the same mission. He is publisher of El Diario de Centro America, the oldest and one of the most influential newspapers in Guatemala City.

Gonzales Complicates Situation. WASHINGTON, May 7.—General Murguía has been sent into Puebla to attack the forces of General Pablo Gonzalez and an engagement has already occurred at Otumba, between Mexico City and the city of Puebla. Authoritative authorities today said Gonzalez had declared that he was not in a league with the Obregonistas and would resist them. This is regarded as complicating the situation in Mexico. Gonzalez has declared martial law in Puebla City, according to these advices, and has exacted a loan of 200 pesos from the population.

NEUVO LAREDO THREATENED

LAREDO, May 7.—Sixty employees of the Mexican customs and immigration service at Nuevo Laredo, opposite here, today declared themselves "Obregonistas" and notified the military authorities they would attack the federal garrison unless the town was surrendered by 2 o'clock this afternoon. The Mexican consul at Laredo said that the rebels did not have sufficient force to make a successful attack against the Nuevo Laredo garrison.

MASS OF REFUGEES IS MAKING FOOD SCARCE IN CRIMEA

THEODOSIA, Crimea, May 7.—With thousands of Russian refugees crowding the little town of Theodosia, where the American Red Cross has established its relief headquarters for South Russia, has become the biggest port on the Black sea. Concentrating on the task of getting the fleeing Russians, many of whom have traveled on foot from places as far away as Petrograd, to places of safety, the United States Near East squadron has made Theodosia a regular port of call and is sending every available cargo boat and war vessel here to transport the distracted refugees to Constantinople, whence they are routed to various points established by the Red Cross in Asia Minor and the Balkan Peninsula.

NOOZIE

CHEER UP! IN TWENTY YEARS ABOUT THE GOOD OLD DAYS. The Sunshine Kid. Ranger's revival of the old days for the visiting newspaper men gave the city a permanent place in their affections.

At the Leading Amusement Houses TODAY

LIBERTY—Tom Mix in "THE CYCLONE."
LONE STAR—Charles Ray in "ALARM CLOCK ANDY."
LAMB—Peggy Hyland in "BLACK SHADOWS."
OPERA HOUSE—Francelia Billington in "THE DAY SHE PAID"; also Amy Butler with her beautiful girls.
HIPPODROME—"Baby Vampires" Musical Comedy Co. presents "BLACK JESSE JAMES," and feature picture.
QUEEN—Madge Kennedy in "STRICTLY CONFIDENTIAL," and Texas Guinan in "Little Miss Deputy."

LIBERTY.

Tom Mix in New Play Surpasses Tom Mix.

Tom Mix, it is safe, has accomplished in "The Cyclone," which William Fox will present today at the Liberty theatre, what no other film hero has succeeded in doing—he has surpassed Tom Mix.

This is a stupendous feat, as the thousands of fans whom he has thrilled by his peerless daring in such superb Fox productions as "The Speed Maniac" and "The Feud" will attest. Reports from places where this picture has been shown declare that Mix grips the imagination of his audiences and whips their blood to mountain torrent velocity by his display of courage and agility.

The story of "The Cyclone," which is a tale of the Canadian Northwest Mounted Police, deals with a series of stirring episodes leading up to a stunt climax that shows the cowpuncher star at his best. The ultra stunt was undertaken by the actor and his director after considerable deliberation. Mix rejected every modification suggested with a view to his personal safety, and insisted upon enacting the crowning episode in all its magnificent daring.

Coleen Moore plays opposite Mix as the coveted girl, and is a beautiful, very feminine prize for his very masculine prowess.

The rest of the cast is exceptionally strong, as it necessarily must be to support leads of such high caliber.

LONE STAR.

Girl Works Change in Charles Ray in Latest Photoplay.

Somebody said something once about the month of March "coming in like a lamb and going out like a lion." Charles Ray is like that in his new "Thomas H. Ince" picture, "Alarm Clock," which will be the attraction at the Lone Star theatre for three days commencing today.

At the beginning he's a mild-mannered and timid salesman, who, if you stepped on his toes would apologize for having toes at all. He couldn't help it. He was naturally shy, and he stuttered something fearful. So, despite his efforts to emulate the firm's star salesman, William Binker, Charlie was rapidly falling by the wayside, when a pretty girl and kind providence straightened out his backbone. Then the fun began to fly. "Alarm Clock Andy" is declared to

be in the boyish star's best manner. It was written by Agnes C. Johnston and directed by Jerome Storm. It is a Paramount Artcraft picture.

OPERA HOUSE.

A double bill of vaudeville is offered at the Opera House today and tomorrow, and in addition a feature picture. Several of the vaudeville acts are unusually good. The offering which will probably be enjoyed the most is a song and dance act by two small girls—about five years old, apparently.

A slip of a girl, less than twelve years old, according to announcement of her husky partner, lifts the man clear off the floor and stands on one foot while holding him up. He weighs on the upward of 200 pounds. At yesterday's performance she lifted a 236 pound man from the audience.

Lifting all the furniture in the house and balancing it on his chin is nothing to one artist. A heavy wagon wheel causes him no more trouble.

PET SNAKES IS NEWEST CRAZE OF FASHIONABLE WOMEN LIVING IN PARIS

PARIS, May 7.—"Seeing snakes" will be the regular daily experience of husbands in Paris if the newest craze of fashionable women here gains popularity.

A stylishly attired woman taking tea at Claridges the other day suddenly opened her bag and carelessly uncoiled a slender green-and-gold snake, about two feet long, which wiggled to the floor and disappeared up the trouser leg of a terrified waiter, who fainted on the spot.

Rushing to the waiter, the woman calmly extracted the pet, replacing it in her handbag, and swept indignantly out of the restaurant. Afterward she complained to the management that her favorite reptile was indisposed as a result of having bitten a plebian waiter.

The manager requested her to move, explaining that while he had kennels and cat houses and bird cages, and even an aquarium for his guests' pets, he had neglected to provide a habitable home for snakes.

Today, however, he discovered that no fewer than five women in the hotel own reptile pets and refuse to part with their "little darlings" which they maintain are perfectly harmless.

The snakes were obtained by their present owners from Mme. Phisalix, wife of the inventor of the anti-snake bite serum, who is now ill as a result of her refusal to counteract a snake bite because she wanted to make a scientific experiment.

Mme. Phisalix herself does not think snakes are suitable pets. She prefers toads, which she says are ever so affectionate, never forget a kind act, and, what is more, contrary to the general supposition, have very cleanly habits.

TROTSKY-LENINE POSSESS \$100,000,000 IN GOLD

LONDON, May 7.—British authorities have information that the Trotsky-Lenine government is possessed of more than \$600,000,000 in gold and precious jewels, seized from individuals, corporations and largely from the Russian church.

Prosperity brings with it an intoxication. Forget your enemies and remember your friends.

For good dentistry, see Dr. Jeff Halford.—Adv.

SPORTS SUITS FOR SUMMER COMBINE DIFFERENT SILKS

The newest models for summer sports wear are suits which have the coat or jacket of one material, usually a plain silk, and the skirt of a figured silk which may be pleated or gathered. This suit shown here is made of a new silk material with a cream coat and a skirt of the same kind of silk, the same color but figured in purple. Collar and cuffs on the coat are of the same material as the skirt and they are detachable. The hat is of the same silk, braided in purple.

KUT HERO COMES TO SEE AMERICA

Maj. Gen. Sir Charles V. F. Townshend, photographed on arrival in the United States.

Maj. Gen. Sir Charles V. F. Townshend, hero of Kut, has just come over from England to pass a five months' furlough seeing the U. S. "I am so much interested in America and our blood cousins that if the United States should have a war tomorrow I would offer my sword and myself to her," said General Townshend on his arrival in New York.

Many Divorce Suits Pending British Courts

LONDON.—The heaviest list of divorce suit cases in the history of the British law courts is scheduled for trial soon.

There is a total of 1,388 cases to be tried, which is 600 more than in 1919 and over 800 in excess of 1918. There are also a number of the "part heard" cases from the last term of court and a lot in the reserve list, so that altogether 1,755 suits will have to be considered by His Majesty's judges.

One of the most interesting suits—interesting, that is, in view of the standing of the parties—is that of Lady K. de V. Somerset, who is petitioning for a divorce against Captain H. C. S. A. Somerset, Miss Madeline Seymour, one of England's famous actresses, is presenting an undefended suit against her husband, Gerald Reid-Kellett, to whom she was married in 1916. Mrs. Sherwood Kelly, the wife of Colonel John Sherwood Kelly, V. C., who was also married in 1916, petitions for a divorce. And

among the "left overs" from the last session are the suits of Viscountess E. Torrington, Lady V. H. Williams and the Hon. C. E. Cholmondeley, who are at continuing actions against their husbands.

OIL OVER DERRICK AT NEW GORMAN WELL

GORMAN, May 7.—It is reported that Humble's W. D. White No. 1, five miles west of Gorman, is in and a better well than the Hilborn. The gas pressure is high and oil is going over the derrick.

Also to Be Envied.

OIL NEWS

Oil Well in Necessity Yields \$1,000,000 Three Months Flow

NECESSITY, May 7.—Crowley No. 1-B, the oil well of the Gulf Production company on the Necessity townsite, which came in three months ago, has produced up to the beginning of this month more than \$1,000,000 worth of oil. The royalty of the Crowley estate, owners of the royalty, is more than \$125,000.

Like many other famous producers, this well is near a cemetery. The Pleasant Grove cemetery is surrounded by some of the biggest wells in the Ranger field, the Desdemona church lot poured forth a tremendous flood of oil, the Meriman and other church lots were surrounded by big wells.

The Sinclair's Manning No. 3, two miles south of Caddo, was shot Wednesday at 3,195 feet. The shot increased the gas flow but not the flow of oil. The well is now flowing about 2,000 cubic feet of gas. There is oil in the hole which is now being cleaned out.

The well of the Stephens Oil syndicate on the Mary Pratt farm, which lies about four miles northwest of the town of Breckenridge, Stephens county, and feet, with the five inch drill and should strike the oil sand during this week.

Gilbert Johnson, Fort Worth operator, is on the ground.

The J. B. Herrington No. 6 of the Humble company came in for 500 barrels Wednesday. The well is two miles from Necessity.

Oil Convention Plan for Mexico Is Announced

The Mexican Review, the official publication of the Carranza government, has announced that plans are being made to hold a convention of all persons interested in the petroleum industry at Mexico City. The meeting will be held under the auspices of the Confederation of Industrial Chamber of Commerce (Mexico), and will take up, among others, the following questions:

1. The nationalization of petroleum deposits in Mexico.
2. The greatest impulse to be given to the exploitation of petroleum deposits.
3. Improvement of the methods of exploitation.
4. Harmonization of the interests of foreign and native investors in order to secure the greatest economy in such work.
5. Exact interpretation of the petroleum legislation of Mexico in order to promote the greatest development of the industry without detriment to the interests of the nation, of the private parties interested or the manufacturers.
6. Facilities for exploitation.
7. Markets for combustibles.
8. General questions affecting the petroleum industry.

POSTOFFICE HANDLED MORE MAIL IN APRIL

Postal business for April shows a slight decline over the highest month recorded here, but registers an increase over March. Figures compiled today show 4,835 money orders issued, to the amount of \$90,500.

Postal receipts, not including box-rent, amount to \$6,450.

RUBE GOLDBERG'S BOOBS—Yes, We're All Trying to Talk the Country Back on Its Feet

RECEIVER CONTROLS ONE HUNDRED AND SEVENTY RED RIVER OIL WELLS

WICHITA FALLS, May 7.—Receiver Frederic Delane, acting for the United States pending the settlement of the suit over the lowlands of Red river, is now in control of 170 producing wells, with a total production of 8,800 barrels, in the river bed pool and in the north part of blocks 96, 87 and 98, and the Meadows survey, taking in a part of the C. T. Taylor lands, the Morgan Evans, and the north part of block 819, 823 and 821.

Oklahoma and the United States filed the suit for the Texas bank and lowlands on Red river, under claim that the river had changed its course since its early treaties defining the state boundary.

The receiver expressed himself much surprised on finding out the production, on which his only previous information had been press stories, which referred to the properties under controversy as being worth \$250,000,000 and put the production as around 4,000 barrels. The out-of-the-state has been estimating the production evidently on the reports of flush production of some of the river bed wells, and as a consequence the actual producing figures were not a little startling, even to those who kept in touch with the field and knew how the wells, after producing most a year, had dropped off.

Wells that had an initial flow of well over a thousand barrels are now making thirty-five and forty barrels, while the wells with smaller production are down correspondingly.

\$9,500 BARRELS OF OIL CLAIBORNE INCREASE

SHREVEPORT, May 7.—In the North Louisiana field for the past week there were twenty-three oil producers, five gasers and four failures.

The Claiborne district report 9,500 barrels additional. There were 1,700 barrels additional Red River production, 300 barrels additional at De Soto and fifty barrels additional at Caddo.

The production continued steady with Claiborne and Red River leading. The figures follow:

| | |
|--------------|---------|
| Claiborne | 84,025 |
| Red River | 21,850 |
| Caddo, light | 9,015 |
| Caddo, heavy | 7,760 |
| De Soto | 2,050 |
| Total | 123,900 |

THINKS AMERICANS DO NOT EAT SERIOUSLY

PARIS, May 7.—American food, as served in restaurants there, did not favorably impress Clemont Tomere, who visited the United States last fall and has written a book on the trip.

Americans do not consider eating seriously enough, she indicates, and try to 'simplify the performance.'

The only food that appears to have made an appeal to the duchess were red bananas, California apples and oranges and 'hams of Virginia.'

KANSAS CITIAN GUEST OF MR. AND MRS. W. W. LUMSDEN

Miss Virginia MonCravie of Kansas City is the guest of Mr. and Mrs. William Lumsden at their home in Chisholm place. Mrs. Lumsden, with Miss MonCravie, returned this week from Kansas City after a two weeks' visit there, where Miss MonCravie has just completed an engagement in concert work.

THE "CLEAN-UP DRIVE"

Work of great value to Ranger was done on "Clean-up Day" by the men, women and children who got back of that undertaking and made it a success. Ranger is a more attractive city today than it was before the house cleaning, and those labored to make the city more beautiful merit the esteem and approbation of everyone.

But the work of cleaning should not stop with clean-up day. It should be continued steadily in the future. Rubbish and waste paper should not be allowed to collect anywhere. A little work done now and then will keep the premises free from litter.

Safety and beauty as well make the "clean-up" call.

There is always danger in a lot of waste paper piled up in yards or back of buildings. If these piles of waste paper catch fire they may cause serious damage.

FILIPINO TENANTS.

High rents are not confined to one part of the world. The tenant is playing more everywhere.

Dispatches from Manila say that there are serious disputes between tenants and landlords in the Philippine Islands.

This shows that the high cost of living is pinching people away off on the other side of the world.

The story of the vexatious housing problem in England and other European countries is already well known. Concerning the trouble in the Philippines, a dispatch says:

"So serious has the dispute between landlords and tenants become in the Philippines that the governor-general, Francis Burton Harrison, has called the attention of the legislature to the need of enacting laws to protect the poorer people from excessive charges for rent. Mr. Harrison in a message to the legislature recommended legislation giving the judges of the lower courts the right to say how much rent shall be paid in cases where tenants make complaints. The governor asserted that acrimonious disputes are now in progress between the landlords and tenants in many vicinities of the Philippines.

"One method proposed in the legislature to solve the housing problem in the city of Manila is to appropriate \$500,000 for the erection of four large apartment houses each to contain 250 rooms. Eighty per cent of the rents from these buildings would be deposited with the government and used as it accumulates for the construction of additional buildings."

VITAL TO PROSPERITY. The situation in China is the best evidence the world offers that good roads and good transportation facilities are vital to the prosperity of a nation. Because China is backward in the matter of good roads and good transportation, farmers in some districts are getting only ten cents a bushel for their wheat. They were not able to sell their grain during the war at the high wartime prices because the cost of moving it to the port cities was a barrier to such an undertaking.

This means that China loses millions, perhaps billions, of dollars which could be saved through the building of railroads or the use of motor trucks. But to get good service from the trucks, good roads must first be built.

A "Good Roads Campaign" is needed in China.

A few American road builders and a few American automobile salesmen could add substantially to the wealth of China.

HULL, Eng., May 7.—Thomas Donkin, who has nothing but legs and hands, was married here to Ivy Bellard, a smiling bride, who walked proudly beside her husband's wheel chair as friends showered them with confetti.

THEY THANK WILSON FOR ALLOWING THEM TO GO HAIRCUTLESS

Members of the House of David, religious cult, recently called at the White House to thank President Wilson for permitting them to retain their unshorn locks while in draft camps. Allowing their hair to grow long is part of their creed.

Farmer, Fearing to Lose Child, Kills His Wife

DAWSON, Ky., May 7.—Despondency over domestic troubles and the belief that he was about to lose the custody of his four-year-old daughter, are supposed to have the motives for a triple tragedy here when Sherman Hammonds, fifty-three years old, shot and killed his wife, Mrs. Nora Hammonds, twenty-three years old; his sister-in-law, Mrs. John Hammonds, twenty-five years old, and then turned the revolver upon himself and sent a bullet crashing through his brain. Hammonds formerly lived near Hopkinsville. He was a wealthy farmer and stockman.

The tragedy took place at the home of John Hammonds, a brother of the crazed man, where Mrs. Nora Hammonds had been brooding over his trouble, friends said, and asserted he would kill himself and daughter before giving her up to his wife on the court's order. He remarked repeatedly, it was said, that "none of us will go to court." The hearing of Mrs. Hammonds' suit for separation was scheduled for next Tuesday.

Hammonds first shot and killed his wife. The first bullet struck her in the arm. As she ran from the room, a second bullet penetrated her back, killing her instantly.

Cursing like a madman, Hammonds entered the next room, crying out for his child.

Mrs. John Hammonds pleaded with him: "For God's sake, Sherman, don't kill the child!"

Hammonds' answer was a bullet in the back of his sister-in-law, who turned to run after Hammonds raised his revolver to fire.

Mrs. C. B. Shutes, a neighbor, hearing the shots inside the house, and suspecting trouble, rescued the child, who was playing in the back yard.

SOLDIER STARTS LAWSUIT TO PROVE HE IS ALIVE

GENEVA, May 7.—It is not often that a man has the chance to sign his own "death" certificate, but this has happened to a French soldier named Bregot, of Belfort, who, although in good health, has been officially reported as "missing" and then as "killed."

NEW BLOUSE AND SEPARATE SKIRT

There's an oriental touch to many of the new separate blouses which are making their bow in the shop windows. Brilliant silk tassels and the odd design on this blouse smack of Japan. The skirt is a smart sports model made of silk with a colored block design in it.

KITTENS AND CATS.

No matter how small a kitten is, it will be a cat if it waits long enough. This proves that all cats used to be kittens once, but they never will again. When a cat has kittens it generally has secret at once, being more of a seer than if it only had one, even if it wasn't expected to have any.

A cat has 9 lives, most cats being prittly reckless the first 7 or 8 on account of knowing their more coming. If you see a cat setting and looking at a dog with a fresh expression you know its probably because its got more than one life left and dont half to be careful yet.

Kittens are more playful than cats. If you hold up a piece of string to a kitten, it will chase it all around joyfully, but if you hold up a piece of string to a cat, it will just set there and look at you as if it was wondering why you dont chase it around yourself if you want it chased around.

Kittens dont open their eyes for 9 days, and when they do some are surprised and some afraid, depending on what they expected to see.

Cats hate water worse than anything, and their sensations must be fierce when somebody drowns them in it.

When cats are mad they put the middle of their back up, their favorite food is fish and milk, their voice is pinkest at night, and when people want to talk to them without knowing their name they just call them iKitty Kitty.

YOUNG MEXICAN CRUSHED BY CARS DIES IN HOSPITAL

The Mexican who suffered a crushed leg as a result of being caught between two freight cars on the Wichita Falls, Ranger & Fort Worth railroad Wednesday night is dead as a result of his injury. He was carried to the Ranger General Hospital after the accident, where physicians amputated his leg in an effort to save his life. The man's name is Catrino Mendosa.

He was 22 years old and leaves a newly-married wife and several brothers. Burial will be held in the local cemetery.

One Distinction. America produces more male and soapstone than all the rest of the world combined.

Syracuse Girl Flees Terrors of Red Russia

THEODOSIA, Crimea.—After two years of hardship and adventure in Soviet Russia, Miss Elizabeth Hollinger, of Syracuse, New York, has made good her escape through the South Russian zone of hostilities and reached safety at the American Red Cross refuge here. She is one of thousands of refugees who are now crowding the shores of the Black sea, seeking an exit through Russia's "back door."

Miss Hollinger, who has resided for the past twenty years in Russia, was living at Kieff when the town was occupied by the troops of the Soviet army, fearing violence, she left her home and hid for days in the local cemetery, visiting by night the dwelling of some humble friend who secretly provided her with food. Eventually her hiding place was discovered and she was arrested. On account of her nationality she was immediately released and allowed to return in a state of complete exhaustion, numbed with cold and half starved. She has now almost recovered from her trying experience and is temporarily engaged here as a Russian interpreter. She plans shortly to return to her home in Syracuse.

"Russia during the past two years," she says, "has been a terrible nightmare. I never want to see it again. All I desire is to efface forever from my memory the events of the last twenty-four months."

Marriage Licenses

Marriage license issued by office of Earl Bender, county clerk, May 6th: Arthur K. Diviniddle of Vaughn, N. Mex., and Miss Bess Roe Beatty, Carbon.

One license to parties from Ranger, not for publication.

R. W. Moore to Miss Opal Dasset, both of Cisco.

Aged 94, Still Follows Hounds. LONDON, May 7.—England's oldest follower of the hounds is Captain Thomas Dallas-Yorke, father of the Duchess of Portland, who is 94. He says he's still happiest when in the saddle.

Efficient Housekeeping

BY Laura A. Kirkman

THE FERTILE VEGETABLE GARDEN.

"Why didn't my vegetable garden flourish last season?" is the content of four letters which I have received from readers. "I followed all the rules of planting and gave it the greatest care—but the results were poor. Is there anything I can do to make this year's better?"

I believe that the trouble lay in these amateur gardeners not understanding these five underlying principles of vegetable production: The furnishing of humus, sufficient sunshine, proper watering, good ventilation and perfect drainage.

Approximately 80 elements are found in the composition of the earth, 13 of this number being necessary to plant life. No, ten of these necessary thirteen elements are found in the soil almost everywhere, but growing vegetables require only a small amount of this commonly found number. The three other elements which make up the thirteen, are the ones the vegetables require in large quantities, and they are rare. These three rare and most essential elements are: nitrogen, potassium and phosphorus—and they can be supplied by humus, the product of decay.

1. The furnishing of humus, then, is a most important measure. Nature furnishes her own humus to enrich the soil. When a leaf or tree trunk falls, it decays and this decay—the black, gummy stuff which forest loam consists—is called "humus."

The gardener who can not enrich his soil with rich forest soil, must do the next best thing—he must add to it material that will decay just as twigs and leaves of the forest decay (anything that decays will add humus to the soil). He should, of course, take care to add only material that will decay quickly such as straw, potato parings, apple skins and cores, etc.

2. Most vegetable gardens require all the sunlight there is, but all need at least five hours of sunlight—if this is not possible, then there is little use in planting a vegetable garden.

3. Watering is understood by most persons.

4. Good ventilation is secured by continually stirring up the soil around the plants; this enables the sun to penetrate the loose earth and the air to circulate among the earth's pores.

5. Proper drainage is achieved by mixing with the soil substances which will make it more porous—such as sifted coal ashes, manure, humus, a little sand and wood ashes—together with deep digging.

\$500 PACKED IN HER GROCERIES BY MISTAKE

International News Service. JOLIET, Ill.—Only a farmer's wife, but honest as the day is long is Mrs. William Metzger of near Joliet. When she returned home from a grocery purchasing trip in Joliet the other day she found an extra package in her provender basket. She opened it and found \$500 inside, all in genuine bills. Amazed, she returned to the store. There the cashier and proprietor were in hysterics. But they became calm as soon as Mrs. Metzger asked "who put the money in my basket?" It was disclosed that the cashier had just prepared the store's cash for banking when Mrs. Metzger came in the first time. Called behind the counter, the cashier took the money with him. Stopping a moment to wait on a customer, the cashier laid the money down on the counter. A clerk alongside him who was wrapping Mrs. Metzger's order without inspection took the money package and dumped it into Mrs. Metzger's basket. Then the fun began. But Mrs. Metzger made them all happy again by returning the money. She was offered a fifty-dollar reward, but refused.

TIMES WANT ADS PAY BIG

The Following is a Copy of a Letter We Received This Morning: Somewhere in Texas.

Mr. C. J. Harper, Commercial Hotel, Ranger, Texas.

Dear Sir: Just read your ad in the Ranger Daily Times on the reduction of rates at the Commercial Hotel. You deserve a picture in the Hall of Fame. The last time I was in Ranger I went to your hotel and inquired of the genial clerk the rate on a room for a week and the said genial clerk whispered to me over the desk that the lowest rate was just \$18.00. Imagine it! Jesse James would blush for shame before he would extort such a price. Captain Kidd was a saint compared to that clerk. Now I can stop at your hotel for \$10 a week. Please book me for a month. I am happy.

Yours, CHAS. T. DAVIS.

Ranger is the Gateway to the Oil Fields. Thousands of strangers come within our gates daily. We must treat them fairly. Upon the walls of the hotel will be inscribed: "Under this roof you need no formal introduction. Speak to others as you would have them speak to you, and do it first."

At Philadelphia: Boston 220 030 001-8 15 1. Philadelphia 101 211 000-6 12 4. Batteries: Scott and Gowdy; Smith and Traggesser.

Charlie Hickman.

"Piano Legs for sheriff." That's the way some of the political posters in Monongalia county, W. Va., may read this fall. For Charlie Hickman, former big league ball player, affectionately called by the aforementioned nickname of "piano legs," is running for the aforesaid office.

Hickman has been mayor of Morgantown, W. Va., for two terms and has decided that that's time enough on one job. Hickman was hooked up with West Virginia's history many years ago. He played on the first baseball team that West Virginia University, pride of the state, possessed. And he was one of the big stars. His hitting attracted the attention of the big league scouts and he went up to play in the big show for 19 years. He played in seven of the 19 big-time towns, Cleveland, Detroit, Philadelphia, Washington, New York, Chicago and Boston.

"Cheerful Charlie" was another name hung on the big fellow because of his happy-go-lucky disposition. The sunny nature has helped him build up a big following in and around Morgantown.

THE NEW PITCHING CODE.

Here are the main things the pitcher cannot do under the 1920 amendments to the rules: Rub the ball in the soil or on his uniform to roughen it. Discard the ball with licorice or any foreign substance.

Roughen the surface of the ball with sand or emery paper. Bounce the ball to another player in order that its surface may be roughened.

Pitch a ball that has been "doctored" by another player under penalty of arbitrary suspension for ten days. Drop the ball in the act of delivering it to the batter, which now constitutes a balk in both major leagues.

*Expectorate on the ball. (*This rule does not apply to pitchers nominated to use the spit ball this season.)

AUTOMATIC DEVICE FEEDS CHICKENS AT SET HOURS

HASTINGS-ON-HUDSON, N.Y., May 7.—Francis P. Graef, who occupies a residence on the Chrystie estate here, has hit upon a device for feeding young chickens that fixes their meal times right to the minutes. The feed is placed in an elevated box and a slide is arranged in the bottom. A string is fastened to the slide and tied to the key of a big alarm clock. The clock is set for a certain hour, and when the alarm goes off it winds up the cord on the key, thus tightening the cord and pulling out the slide from the bottom of the box, releasing the feed, which pours over a pyramid shaped elevated structure. The pyramid scatters the feed around for the chickens. The device, not having been patented by Graef, is still free to all the world.

ALTROCK MAY BE LOSING HIS SIGHT BUT NOT HIS PEI

Nick in action on the coaching line.

Nick Altrock, greatest baseball comedian of them all, has announced that he may be forced to wear a pair of "cheaters" part of the time because his eyes are getting a bit dim. Nick says, too, that he has a little trouble with his dogs. But he hasn't lost any of his pep or his funny antics, his funny work this year with the Senators shows.

Many Students From West Texas at Austin Meet

AUSTIN, Texas, May 7.—Hundreds of delegates from West Texas have arrived for the university interscholastic league meet, which began yesterday afternoon and continues through Saturday. Boys are being cared for in the national guard barracks at Camp Mabry, and hundreds of private homes in the city have been thrown open to entertain the girls. Teams from West Texas districts, which will compete in tennis preliminaries, both doubles and singles contests, beginning today, are as follows:

District One—Hereford, James McIntyre and Guyton Guthrie. Kress School, Clinic Kerr and Ora Davenport. District Two—Lubbock, Arnett Pearson and Jack Griswold. Idalton, Svbil Weaver and Flora Mitchell. Snyder, Marie Palmer. District Three—Childress, Ed Drews and Bill Coffey. Knox City, Lucille Park and Ben Keny. District Four—Electra, Marie Johnson and Thelma Wington. Wichita Falls, Charles Cook and Frank Patton. District Seven—Colorado, Earl King and John Prude. Abilene, Elizabeth Arlington, Mary C. Heald and Maggie Belle Hays. Stamford, Fred Langston. District Eight—Mineral Wells, Robert Yeager and James Potter. Palo Pinto, Clara Belle Smith and A. Marshall. District Eleven—Midland, Wesley Benton and Thomas S. Crockett. District Twelve—San Angelo, Jack Robertson and Ivan Bell. Sonora, Bernice Glascock and Katherine Cole. District Thirteen—Alpine, Frank Cross and Walter Caldwell. Alpha, Yates and Minerva Jones. Marfa, Penelope Snyder.

KENTUCKY DERBY, CLASSIC OF TURF, RUN TOMORROW

LOUISVILLE, Ky., May 7.—The probable field for the Kentucky Derby at a mile and a quarter here tomorrow is shaping in a manner, according to horsemen, which gives promise of making it one of the most open Derbies in the forty-six-year history of the race. The horse which will go to the post the favorite in this richest of American turf classics already is a question of wide interest and thoughtful speculation. At this time, Damask, Harry Payne Whitney's winter track star, is said to be as fit as any that ever faced the barrier, and a large following. Those, however, who believe Damask does not possess the class of some of his eligible rivals, pin their faith to Blazes, the son of Wrack-Blazing Star, owned by Bal Barr. They point to his performances, both in the mud and on a fast track, as evidence of his worth and especially a race at Saratoga last year at 5 1/2 furlongs, which he won in a gallop in 1:05 1/5 over a high class field.

Blazes, however, has a rival in Donacanna in the stable of former Congressman George W. Left of New York. Bred for the distance, he is sturdily built, but with plenty of length. A considerable number say that the horse which beats Donacanna will win the race. Mr. Left also has another string to his bow in On Watch, among whose impressive claims to distinction is that he is the son of the unbeaten Colin. He is said not to have trained as well as his stable mate, but as a readily track. Prince Pal, owned by Simas & Oliver, and Sterling, C. C. Van Meter's probable candidate, have shared with the Left pair and Damask the interest of that contingent which find turf instruction and entertainment in witnessing trials of Derby eligibles. The work of each, it is said, compare favorably with the best in training.

Golden Brown, in the Jefford stable; Major T. C. McDowell's High Command; E. R. Bradley's by Golly and Best Pal; John N. Camden's Lorraine, W. F. Polson's Peace Pennant and T. F. Henry's The Swimmer, have trained so well that turf followers have given them consideration.

Patches, Simpleton, Grand Slam, Miss Jimma, Westwood, Alex Jr., Black Hackle, Brookholt and Ronlean also are accounted as having more than an outside chance. This summary, however, fails to take into account the rivalry between H. Guy Bedwell, trainer for Commander J. K. Ross, the Canadian turfman, and "Jimmy" Rowe, trainer for the Whitney stable. Horsemen are speculating on what thoroughbred each will send to the post. Bedwell overcame tradition last year by taking both first and second prizes in Derby with Sir Barton and Billy Kelly, respectively, while Rowe achieved a record when he sent the filly Regret to the post in 1915 and won.

In the Whitney string are John P. Grier, which last year earned recognition as the best two-year-old with the exception of Man O' War; Upsat, the only juvenile to finish in front of Man O' War; Dr. Clark, Amaze, Afternoon, Cobwebs, Levithian and Wildair. It is believed Rowe will bring at least one of them here to run as an entry with Damask.

Among the Ross eligibles are Constancy, Irish Dancer, King Thrush, Trench Mortar, Royal Jester and Fair Sam Dore. Irish Dancer, Royal Jester and Trench Mortar did not start last year. It is said that one of them may have shown in trials enough to justify Bedwell's confidence that the three-year-olds under his training can flash first under the wire in the premier event at Churchill Downs which carries \$30,000 in added money.

"SOUL MATES" BAD ENOUGH, BUT BUYING 'EM NIGHTIES!

SAN FRANCISCO, May 7.—Association with "soul mates" was bad enough, but when Charles E. Prentice "squandered his money" in purchasing them nightgowns Mrs. Jennie L. Prentice filed suit for divorce in which she makes the soul mate and nightgown charges. "Gracie" is the name of the "soul mate," Mrs. Prentice says, but she failed to learn her last name.

NEW RULES TO CURB PITCHERS WILL BE TESTED THIS SEASON TO DETERMINE THEIR UTILITY

By JACK VEIOCK, International News Service. NEW YORK.—"The pitching staff constitutes at least sixty per cent of the strength of a ball club." The speaker was John J. McGraw, the doughty manager of the Giants. The statement, coming from McGraw, who has always shown a strong preference for the "old army game"—plenty of lousy slugging—is significant. It proves that although McGraw has ever considered consistent and timely batting one of the greatest factors in the moulding of a winning team, he has not failed to appreciate the great defensive advantage of a strong staff of twirlers.

It may be said of the average well-balanced ball club, that it is as strong as its pitchers. A majority of students of baseball agree to this, and because of pitching the new code under which the hurlers started to work this season, and the styles of modern pitching, is a timely topic for discussion. What the pitchers cannot do under the amendments to the pitching rules this year make interesting food for the student of the game. In the accompanying table we have set forth the new amendments very briefly and without comment, for the result of their enforcement can only be conjectured until the pitchers have worked under them for at least one season.

The purpose of the amendments to the pitching rules is to curb the slabbies, who have always held the upper hand; to put an end to the use of freigs, and to increase batting. That the purpose will succeed seems certain, but no one can say to what extent, for the pitcher, as a rule, is a wily fellow. "Give me pitchers and I'll finish up with the best of them!" Managers in both major leagues and in the minors have made this statement to club owners for years, for a staff of

good pitchers is the greatest asset a ball club can have. Many mediocre teams have won laurels through the medium of crack pitching staffs. The Chicago White Sox of 1906, famous as the "hitless wonders," were able to win a world's championship because of the sterling worth of Ed Walsh, Nick Altrock, Doc White and Soldier Boy Owens.

The sensational Boston Braves of 1914 came from last place in July and eventually captured the world's title, thanks to the excellent slabwork of Rudolph, Tyler and James. Alexander pitched the Phillies into their first National League pennant in 1915, and the following year the work of Brooklyn pitchers enabled the Dodgers to win the pennant. Eddie Cicotte, star heater of the White Sox, hurled the Chicago team to two American championships in 1917 and 1918, with the able assistance of two or three teammates who managed to throw enough victories into the balance to put Chicago across.

But now the pitchers are curbed. Now there is a greater premium on batting—perhaps. Today the winning pitcher must win fame through natural channels and in his particular division of the national game a good head, good control and a good curve ball means more than ever before. In looking at the pitchers of the present day one sometimes wonders just how much they differ from the great pitchers of the past. Modern pitchers are unquestionably more thoroughly steeped in baseball knowledge than the members of their fraternity were some twenty or thirty years ago, but after all the styles they use are not much different, with the exception of the freaks that are now taboo, and even the freaks are not all modern tricks of the pitcher's art, though some of the present day hurlers have improved upon them. (To be continued.)

HEINIE GROH'S BOTTLE BAT QUEER ONE BUT HEINIE FIGURES IT'S A HIT-GETTER

Heinie and his new bat.

Heinie Groh, demon shortstop of the Cincinnati Reds and one of the best little run-getters in the business, has designed a new-fangled bat which he says will bring the club and him more runs this year. Instead of being tapered from the large end gradually to the handle end, Heinie's bat holds one size, 8 1/2 inches circumference, for a distance of fifteen inches from the business end. Then it is tapered quickly down to the handle size of 3 1/2 inches. Heinie says the bat gives him more hitting surface and a wider range for gripping. When Heinie holds his new bat in his freak style it's hard to tell what the pitches and infielders think.

CONTRIBUTION TO FUND FOR MUNICIPAL PARK TO BUY SOME SHINGLES

G. E. Silkwood, in doing his share for Ranger park fund, has expressed a very definite use for his contribution, which came into the Times office Thursday afternoon.

His check, made to the secretary of the Ranger Park association, is for \$5. Its purpose, as Mr. Silkwood said when he turned it in, is "to buy shingles for the roof of the grandstand."

How They Work It.
Jud Tunkins says a few people seem to have a pretty easy time in life simply by getting the reputation of being hard to please.

Disappointing Dog.
Jack—What sort of a dog is that you have—a pointer?
Joe—No; a disappointer!—Boys' Life.

CALIFORNIA CITIZEN'S DEATH BRINGS ABOUT A PATHETIC TANGLE

International News Service.
BOSTON, May 7.—One of the most pathetic cases in the annals of the local immigration bureau came to light in the death in Providence hospital of Manuel Amaral, of Irvington, Calif. With Amaral in the hospital were his wife and five children, the oldest seven, who has just come to this country with him from their home in the Azores.

Amaral had lived in this country, with frequent visits home, for twenty-five years. Eight years ago he married Amelia Souza, of the Island of Horta. About three months ago he went back, broke up his home in the Azores and brought his family to this country to live. On the voyage over, two of the children contracted measles. In order not to separate the little family, the authorities sent all of them to the hospital. While there the father contracted pneumonia.

The tragic situation of the family is puzzling the immigration officials. While no barrier existed to their entry into this country as long as Amaral was alive, and while there was a home waiting for them on the west coast, they are without means of support. Pending consultation with relatives, both in the Azores and in California, the family will be brought here and held at the immigration station.

TRAFFIC DEPARTMENT WEST TEXAS C. OF C. BUSY

STAMFORD, May 7.—The main offices of the West Texas Chamber of Commerce in this city are beehives of activity as a result of tasks placed upon it recently. Manager Porter A. Whaley declares that a large number of new commercial organizations are being organized in West Texas, which he takes as a very good evidence of the awakening of the West to its vast and unlimited possibilities.

The traffic department is being called upon frequently by telegram to relieve serious traffic conditions which arise by reason of adverse rail problems. That the

organization is filling a need is clear to those who will watch for a few hours the great transactions of the headquarters office at Stamford.

Removes Ink Stains.
To remove red ink stains from table lined spread freshly-made mustard, over the stain and leave about half an hour. Then sponge off and all trace of the ink will have gone.

Hospitals for Incubables.
The establishment in the United States of at least four hospitals for incubables to be under church control, is an important recommendation to the hospital program now being mapped out by the Interchurch World movement.

Gain Living From the Sea.
The Japanese are the only people who have ever undertaken the systematic planting and harvesting of seaweed and other marine vegetation.

It is a question whether life was meant to be hard; it is certain that we can make it so.

YOUNG ADDITION IS KEEPIN' ON AFTER REGULAR CLEAN-UP

Residents of Young addition intend to "keep on a-keepin' on" after trash in the addition until none remains. They have extended the official clean-up day and now have four teams and eight men hauling trash.

Twenty business men living in Young addition have contributed to a fund to pay the men. The use of the wagons and teams was donated by teaming contractors living in the neighborhood.

LOST—Yellow Canary Bird with black markings. Finder phone 37 and receive liberal reward.

FAMED FOR HER LOVE OF THINGS DOMESTIC JANE NOVAK IS NOW SUING FOR DIVORCE

Jane Novak, famous motion picture star, has always been known as a most devoted wife and mother off-screen, being known for her domesticity. Now this ideal picture is to be spoiled because reports coming from the coast say that Jane Novak is suing her husband, Frank Newburg, for divorce. The Newburgs have been married five years and have a little daughter three years old.

STYLISH NEW PARASOLS FOR NEXT SUMMER'S GARDEN PARTIES

Here are some of the best of the new parasols for next summer. On the extreme left is a parasol of black and white striped silk which is very smart with a white outfit and a black sweater. It is good for town or country wear. The girl at the left is hiding behind a pretty parasol of purple silk with a deep border of beautifully brocaded flowered ribbon. It has a white handle with a purple ring.

The girl at the right has a beautiful creation in yellow silk with Japanese design embroidered

in pastel shades in the center. Black and white combines in the handle and ribs. The parasol in the center is white silk and marked in gray contrast by clusters of roses. The ivory handle and ring are in keeping with the rest of the coloring. At the extreme right is a smart little sun-rain stick made of striped silk in browns and greens on a tan background. The edge is shirred on a cord and an amber and white handle make an interesting combination.

LOSS OF EYE IN THRILLING HIGH DIVES HASN'T HALTED CAREER OF INTREPID GIRL

Miss Helen Carr in one of her diving poses.

Miss Helen Carr, dainty little Brooklyn miss who won fame last year by her spectacular diving at the New York Hippodrome, continues her career despite the fact that she has lost the sight of one eye through injury to it in striking the water while doing a swan dive. Her graceful dives of 122 feet into a tank on the stage are without an equal in the swimming game.

CALIFORNIA GIRL WEDS PERSIAN

Left to right: Mirza Ahmad Schrab, his bride and the minister, with book in hand.

The marriage of Juanita Storch of Oakland, Cal., to Mirza Ahmad Schrab, former secretary of the Persian legation, was celebrated recently with appropriate Persian ceremonies in the presence of delegates representing fifty Bahai assemblies from all parts of the world. Rev. Howard C. Ives performed the ceremony.

WELSH MINERS BALLOT ON GOVERNMENT WAGE INCREASE OFFER

The Morrision miners voting.

Acceptance of the British government's proposed settlement of the miners' wage demands was left to a vote of the miners. The pic-

ture shows how the men voted at the Copper Pit, Morrision, Wales. The ballot box was balanced on an old bucket near the entrance to

the mine shaft. Miners dropped in their ballots between shifts. The unrest in the mines is one of England's big problems.

HOW BRITISH HAVE GAINED IN ASIA MINOR

Figures indicate main points gained.

Reports from San Remo announce that by the terms of the Turkish treaty Great Britain gets: 1—Control of the Dardanelles, 2—The Bagdad railway, 3—Palestine, 4—Mesopotamia, 5—A protectorate over Hedjaz, 6—A confirmation of sovereignty over Egypt and the Suez canal, 7—The Caucasus, its railway, and the ports of Batum and Baku, the latter with its rich oil fields, 8—The British already have a protectorate that virtually amounts to ownership over Persia, 9—The British, with Italy and France as lesser partners, hold Constantinople. British forces guard the city behind trenches. The shaded portions show what Great Britain obtains in Asia Minor by the present treaty. The Caucasus before the war belonged to Russia.

MENOSKEY IS GOING GOOD FOR RED SOX; EIBEL, ANOTHER NEWCOMER, DELIVERING

Mike Menoskey and Hack Eibel.

The success of the Red Sox outfit so far this season has been a surprise. They are picked to finish with the also-rans, but they are right up among 'em now. Mike Menoskey, outfielder obtained from Washington, is going good. He is hitting at a 300 gait and fielding well. Hack Eibel, a new utility man picked up by Ed Barrow, has broken into three games and looks good. He collected one bingle in three trips to the plate and played in left field and at second base.

SHE'S DEMOCRATIC DELEGATE NAMED FROM PHILIPPINES

Miss Bessie Agnes Dwyer.

Miss Bessie Agnes Dwyer, lawyer, librarian and lecturer on the Philippines, has been named as delegate to the national Democratic convention at San Francisco by the Democratic party of the Philippine islands. Miss Dwyer spent sixteen years in the Philippines in the service of the medical bureau. She returned to Washington in 1919 and since then has been traveling about the country speaking before women's clubs and other organizations about the Philippines.

IN THE LIMELIGHT AT THE GERMAN CAPITAL

Eugene Ernst, Gustave Noske, Chancellor Mueller and Herr Schmidt photographed on the Reichstag steps.

These photos were taken after the first meeting of the new German cabinet following the farcical Kapp revolt. Herr Mueller is

chancellor of the new cabinet. Herr Schmidt is minister of economics. Gustave Noske, formerly minister of defense, tendered his resignation

and Lt. Gessler was given that portfolio. Eugene Ernst, police president of Berlin during the revolt, resigned.

FIRST WOMAN TO ADDRESS THE U. S. C. OF C. MEETING

Mrs. Sophia E. Delavan.

To Mrs. Sophia E. Delavan of Chicago goes the distinction and honor of being the first woman ever to address a national convention of the U. S. chamber of commerce. She is the head of a large manufacturing concern and spoke on "Women in Organization, Industry and Production" at the eighth annual convention of the U. S. chamber of commerce held at Atlantic City.

Ranger's Future Is Topic Tonight at Conference

Delegates of two or more from every civic, fraternal and religious organization in the city together, with all interested citizens will meet tonight with F. B. Barnes, community service organizer, in the lobby of the Theodore hotel to discuss community upbuilding.

The following program will be discussed and plans formed to carry out those parts which are endorsed by the meeting.

1. A Community House, a place to hold meetings of the citizens; a building large enough to accommodate about 1,000 to 1,200 people seated, and which will provide a rest place for strangers, and provided for the comfort of those who have no place to go, a reading and library room, an information bureau, a place for entertainment, a building open to the public at all times; the meeting place for the American Legion, Business and Workingmen's club, the Chamber of Commerce, labor organizations, churches, etc.

2. A constructive recreation program, including supervised playground in connection with the school buildings.

3. Community centers, under the direction of a neighborhood organization in each of the school buildings.

4. Boys and girls organizations, Boy Scouts.

5. Public Parks as a regular department of city administration activities.

6. Occasional spectacular citywide festivals.

7. Municipal picnic.

8. Song festival.

9. Parents, dramatic.

10. Holiday celebrations.

11. A Community band.

12. A Business Women's club with suitable club rooms, where co-operative housekeeping could be a feature.

13. A public library organization, the temporary quarters to be in the Community House.

14. A citizens' health and sanitary organization or depot of community service.

15. Information service, at the Community House or depot.

16. Travelers aid.

17. Relief Work—Providing a committee or department of public relief, in charge of a trained secretary and co-operating with the city health department, the Red Cross and the Salvation Army and any other relief organization. The providing of a free ward in the hospital.

18. PRETTY DANCER KILLS HERSELF WITH HATPIN

BUDAPEST, May 7.—Yusi Kaczos, a pretty Hungarian dancer, after attempting the life of a police officer, stabbed herself to death today in tragic circumstances in the central Hungarian police station.

On learning that her lover, Miklos Zehner, had been arrested on a charge of being concerned in a plot to re-establish the Soviet in Hungary, she obtained permission to visit him while he was undergoing a preliminary examination in the police station. After an affectionate greeting she asked the detective in charge of the case if she might speak to him alone for a moment. He assented.

After protesting her lover's innocence and pleading in vain for clemency, she said: "Then it means he will die or at the best suffer life-long imprisonment?"

"I am afraid it is so," answered the police officer. Kaczos thereupon pulled out a revolver she had hidden in her dress and leveled it at the detective. But he was too quick and disarmed her before she could pull the trigger. While waiting to be removed into a cell she pulled out a hatpin and pressed it into her heart, where it broke off short but not before a mortal wound had been inflicted.

PORTER WHALEY AT MEETING OF SECRETARIES, N. ORLEANS

STAMFORD, May 7.—Porter A. Whaley, manager of the West Texas Chamber of Commerce, left for New Orleans Tuesday to attend the Southern Commercial Executives' association convention, before which he will make an address.

PERSONALS

W. N. Toldan, special agent for the Western Indemnity company of Dallas, and L. A. Fain, auditor for the concern, are in this city on business connected with their company.

J. M. Strupper, general freight and passenger agent for the Wichita Falls, Ranger and Fort Worth railroad, yesterday from a trip to Fort Worth and other points, where he spent several days.

M. T. Clements has just returned from a business visit to Abilene.

W. L. Gibson, general superintendent of the McKenzie Construction company, is in San Antonio for a visit of several days.

A. J. Richardson of the McKenzie Construction company returned yesterday from Dallas.

TWENTIETH CENTURY CLUB IS NEW ORGANIZATION OF GREATER RANGER'S LADIES

The ladies interested in forming a woman's study club met Thursday afternoon at the Elks' home to complete the organization, which was begun some time ago.

The committee on Construction and By-Laws, composed of Mesdames William Clegg, M. H. Smith, F. D. Bostaph, M. H. Haganann, E. B. Road, George Davenport, and O. L. Phillips, reported its work complete.

The report was adopted, and constitution and by-laws, signed by those present.

The club shall be known in future as "The NineteenTwenty" Club—this name having been chosen by popular vote, and incorporated in the constitution.

Mesdames Dr. Hojnes and William Clegg were elected as delegates to represent the club at the community service meeting with Mr. B. Barnes at Theodore Hotel Friday evening.

The club will meet every Thursday afternoon of this month at 3 o'clock in the Elks' home.

WORK FOR WEST TEXAS WINS WICHITA FALLS BANKERS APPROVAL

WICHITA FALLS, May 7.—The confidence that the banking interests of Texas' largest oil city have in the efforts and endeavors of the West Texas Chamber of Commerce was shown a few days ago when the following endorsement was given:

"The associated bank members of the Wichita Falls Clearing House association, realizing the good work and the efforts put forth by the West Texas Chamber of Commerce, heartily endorse its movements and have agreed to subscribe for 100 memberships in the organization for one year.

W. M. McCREGOR, President."

TENDLER AND PAPIN TO FIGHT 12 ROUNDS MAY 12

NEW YORK, May 4.—To Lew Tendler and Georges Papiin will come the honor of fighting the first important 12 round bout in New Jersey. Johnny Dundee and Willie Jackson were to have celebrated the event with a spat on May 6, before the Newark Sportsmen's club, but Dundee suffered a cut eye in a bout with the Friars' club of San Francisco, at the Friars' club the other night.

The bout between Tendler and Papiin, the French lightweight champion, had already been arranged by Dave Driscoll for the Arena A. C. in Jersey City on Wednesday, May 12, and the bout therefore will be the first real good one under the new order of things.

The Real Term.

"I wrote up those athletic achievements from some magazine footnotes. I should call them feet notes."

Aerial Boosting Plan for W. Texas Is Winning Favor

STAMFORD, Texas, May 7.—The great national educational campaign being organized by the West Texas Chamber of Commerce is meeting with unusual success and the towns and cities so far visited have been eager to enter this stupendous display which is estimated to be seen by over 5,000,000 people of the North and East.

The party expects to leave West Texas as early in June as possible with the two airplanes blazing the way from town to town of the 250 points throughout the sixteen states that will be visited. These will serve to publish throughout the country the fact that the specially constructed exhibition car is following together with some 12,000 feet of motion picture film which will be shown in the towns visited.

It is the unscrupulous promoter who is injuring the reputation of West Texas today, as the northern land agents harmed much of Texas some years ago by herding people into this country and selling them lands at several times its market value. Twenty-five thousand families last year sold out their farms and migrated to Canada. This country needs this type of people, but in order to get them the West Texas Chamber of Commerce must tell them the truth. In the early '60's John C. Fremont was sent west by Congress to determine how far west agriculture could be carried. He reported that it never rained west of the 98th meridian and the geographers accordingly mapped West Texas as the Great American Desert. In 1917 and 1918 newspapers of the nation heralded the fact that West Texas was burnt out, but in the good years, notably in 1920, they failed to advertise the West.

The airplane and truck trip will tell the benighted people of the East and North so that they will be brought to the West rather than be carried by developing railroads to the frigid jungles of the Canadian provinces.

LONDON BOATMEN OBJECT TO MOVING FAMOUS OLD SHIP

LONDON.—The "Victory," the ship on which Nelson fought and died, is to have another voyage and the watermen who make their living by rowing visitors to and from the celebrated vessel are in arms about it.

The "Victory" is only going into the dock for needed repairs to the masts and rigging, but the watermen have shown to the powers that be how they will lose for that time the revenue which visitors daily give them. So, instead of keeping the ship in dock for a long time she will only be there for about three weeks and other work necessary will be carried out at her moorings in Portsmouth harbor without interruption to the visitors.

A large influx of Americans is expected in England this summer and Portsmouth is one of the "show places" for such transients. The "Victory" is of course one of their Meccas and the watermen would not contemplate with much satisfaction the removal of the celebrated ship. Therefore, the admiralty has hurriedly arranged for the return of the "Victory" as soon as possible to her proper moorings.

MOTHERS' CLUB MAKES TUESDAY "PIE DAY"

The Mothers' club of the Cooper school met yesterday at the school building.

It was decided at the meeting that Tuesday of each week would be "pie day" at the school, and donations of pie would be solicited.

The pies are sold by the club to the children and funds are applied upon books for the library.

Next Wednesday the club meets with Mrs. R. G. Stockman. Everyone interested in the schools are requested to be present.

Wants American Exposition Ships Sent Abroad

LOUISVILLE, Ky., May 7.—American manufacturers and commercial organizations are being urged to adopt the idea of the British and Japanese and send exhibition ships abroad to display American goods in foreign ports.

Mr. McLean has called the attention of various commercial organizations to the fact that Japan as well as Great Britain has adopted this plan in her race for the world's trade and that these ships will be sent around the world carrying exhibits of Japanese manufactured goods.

WOMEN WRITERS MEET SOON IN SAN ANGELO

SAN ANGELO, May 6.—Preparations are being made here by civic organizations, assisted by the board of city development, for the 1920 convention of the Texas Women's Press association, which will be held here May 12 and 13.

Mrs. J. D. Alexander of Cisco is president, Mrs. J. H. Kirkpatrick of San Antonio is first vice-president, Mrs. Madeline Sinclair of Denison is second vice-president, Mrs. Agnes Greer of Fort Worth is corresponding secretary and Mrs. W. H. Wright of Dallas is recording secretary.

MARKET INSPECTORS CONFERENCE ENDED

AUSTIN, May 6.—The field inspectors and employees of the bureau of markets and warehouses and weights and measures have just completed their semi-annual conference here.

Using "Movies" in Fight Against Increasing Rent

CHICAGO, May 7.—The movies are to be employed by the organized tenants of Rogers Park, a suburb of Chicago, in their fight against rent profiteering.

"When human rights clash with property rights, human rights should prevail," Theodore Roosevelt.

The leader of the Rogers Park organization is preparing to use the courts, when necessary, against the profiteering landlord, and ultimately hopes to secure legislation, Mr. Patterson said.

CATHOLIC MISSIONARIES LEAVE SOON FOR CHINA

OMAHA, Neb., May 7.—The beginning of vigorous Catholic missionary work in China by American Catholics is forecast in the sailing May 25 from Seattle of a party of Catholic priests, which, according to the Rev. Edward J. Galvin, includes the first large group of Catholic missionaries to be sent from this country to China.

The delegation going to the Orient this month is sent to an important central embracing the city of Han Yang, to which the American society was appointed several months ago by the Holy See.

GIRLS WALK 50 MILES IN THREE-DAY "HIKE"

AUSTIN, May 6.—Two University of Texas co-eds hiked from Austin to New Braunfels, a distance of fifty miles, in three days.

LEADERS OF NATIONAL WOMAN'S PARTY HEAR SUFFRAGE CASE IN SUPREME COURT

Left to right: Mrs. Richard Wainwright, Mrs. Abby Scott Baker and Miss Sue White, photographed on arrival at the hearing.

Prominent members of the national woman's party attended the Supreme Court hearing on the Ohio Suffrage Referendum case.

ROAD BOND MONEY FOR ROAD WORK ONLY

AUSTIN, Texas, May 7.—There is no authority for county commissioners to authorize payment of a deputy county clerk out of money voted for the purpose of building and maintaining public highways, according to an opinion of the attorney general's department.

DOCTOR GIVES 1541 WHISKY PRESCRIPTIONS

LOUISVILLE, Ky., May 7.—Fifteen hundred and forty-one prescriptions for whisky as a medicine have been written by two Louisville physicians alone since January 16, according to testimony before United States Commissioner Stauchfield.

New Problems of World Trade Will Be Weighed

SAN FRANCISCO, May 7.—America's new world trade problems are to be discussed at the National Foreign Trade convention to be held here May 12-15, under the auspices of the National Foreign Trade Council.

American foreign traders, importers and exporters, from all the states, from ten nations on the Pacific and from parts of Europe are expected to attend.

Among the convention session topics will be "Fundamentals of Our Foreign Trade," "Financing Foreign Trade," "Foreign Trade Policies," "Need for a Bargaining Tariff," "Banking Service to Foreign Trade."

NEW TEXAS RULING ON CARBON BLACK

AUSTIN, Texas, May 7.—Wasteful processes of manufacturing carbon black by incomplete combustion now frequently used is prohibited by the laws of this state, but the employment of such appliances as will save a useable commercial gas in the manufacture of carbon black is not prohibited.

TEACHER, 80 YEARS OLD, AT EDUCATORS' MEETING

JEFFERSON CITY, Mo., May 7.—Prof. W. H. Lynch, 80 years old and teaching regularly, was an interesting figure at the recent annual meeting of county school superintendents here.

Several business men are forming an association for the purchase of tugs and barges to be employed in transporting coal wood from the lower Trinity river valley to Dallas.

Jailer to Take Lodgers During Derby Day Rush

LOUISVILLE, Ky., May 7.—James H. Barr, jailer of the Jefferson county jail at Louisville, announces that he is considering utilizing part of his establishment as a "hotel" on special occasions, such as Derby Day.

"WETS" PAY \$15,000 IN FINES AT EL PASO

AUSTIN, May 6.—More than \$15,000 collected as fines from violators of the national prohibition law by Judge Dival West at El Paso during a recent term of federal court there was brought to Austin by W. P. Hatchford, deputy marshal.

U. S. NAVY'S BIGGEST DREADNAUGHT HAS NOVEL FIGHTING TOP; NEARS COMPLETION

The U. S. navy's biggest and most powerful dreadnaught, the U. S. S. Tennessee, is being rushed to completion at the Brooklyn navy yard for commission some time in May. One new feature of the big warship is the new design of the fighting tops. They are constructed to hold the latest appliances developed during the world war. The ship has 12 four-inch guns.

A section of the U. S. S. Tennessee showing the fighting tops.

Great Britain Now Is Leading U. S. in Building Ships

By FLOYD MACGRIFF, International News Service Staff Correspondent. LONDON, May 7.—Great Britain today has on her shipways nearly half of the tonnage under construction throughout the world. The United States is second, and is steadily falling behind England.

Here are the world's comparative ship-building figures as compiled by Lloyd's up to April 1: Great Britain, 3,394,000 tons; United States, 2,573,000 tons; rest of world, 1,974,000 tons.

To show how shipbuilding in England has "come back," this table is sufficient: Britain's output in 1919, 1,620,442 tons; under construction today, 3,394,000 tons.

United States' output in 1919, 4,075,335 tons; under construction in United States, 2,573,000 tons.

Thus the United States today is about 900,000 tons behind Great Britain. The United States yards are building 335 vessels, as compared to England's 865, of which 237 are between 5,000 and 10,000 tons each, and 62 are between 10,000 and 25,000 tons.

Italy has increased tonnage under construction by 41,000 tons amounting in all to 355,000 tons. Holland shows an increase of 38,000 tons at 366,000. France has an increase of 23,000 tons at 240,000. Japan is building 285,000 tons of shipping and Canada 157,000 tons.

On April 1, 1919, the world's ship-building stood thus: England, 2,222,449; other countries, 5,889,915.

Thus England has reduced her ship-building deficiency, compared to the rest of the world, by more than three to one. Compared with figures of six years ago the total ship construction work in the British Isles has been increased by 1,503,000, while tonnage building abroad has advanced 9,065,000 tons.

The most interesting aspect of ship construction is the advent of the internal-combustion engine, in which Scandinavian countries lead. The United States Shipping Board has converted a number of coal-burning steamers into motor-propelled craft. Italy also is adopting this system to overcome coal difficulties. All together, there are 151 motor ships under construction.

Some Scandinavian concerns say they have cut their operating expenses by 50 per cent by installation of the Diesel engine. Experts figure that such ships eventually will dominate the seas.

FIVE CHILDREN IN 20 MONTHS.

International News Service. GREENSBURG, Pa., May 7.—Two girls were born to Mr. and Mrs. Thomas Lang recently, making five children born in the family in twenty months. In August, 1918, Mrs. Lang gave birth to two girls and a boy.

Watch the Color of Your Skin

Yellow Means You Need Calotabs, the De-Nauseated Calomel Tablet That Is Purified From Nausea and Danger.

Feel mean, look yellow? Your liver is out of fix! The poisonous bile is being retained in your system. You need a good dose of calomel for it is the only thing that will do the work. Why not try Calotabs, the improved calomel tablet that is as delightful to take as it is beneficial in cleansing the liver and purifying the system? Calotabs contain all of the valuable medicinal qualities of calomel but are freed from the unpleasant and dangerous effects. One tablet at bedtime, with a swallow of water—that's all. No taste, no griping, no nausea, no salts. You wake up in the morning feeling fine, with a clean liver and a hearty appetite. Eat what you please—no danger. Calotabs are sold only in original, sealed packages. Price thirty-five cents. The finest medicine in the world for biliousness, indigestion, headaches and constipation. So fine that your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. Adv.

TEXAS TOWN SEES FUTURE AS GREAT HEALTH RESORT

SAN ANGELO, Texas, May 7.—Christoval, twenty-two miles south of this city, is destined to become one of the leading health resorts in the Southwest with the advent of railroad connection. Already remarkable cures of skin diseases, including eczema, have been pronounced, bringing strong endorsements from leading physicians over the country. The San Angelo board of city development, with the co-operation of the West Texas Chamber of Commerce, proposes to advertise this resort so as to assist in its benefits to mankind and bring about the establishment of another watering place in the West.

A few years ago in drilling for oil at Christoval a strong flow of sulphur water, together with other ingredients as per chemical analysis, was found. It has proved most beneficial from actual experiments in a small bath house that was constructed for the cure of eczema, all kinds of skin diseases, rheumatism and other body ailments. Letters of recommendation from leading physicians, as well as several hundreds who have been treated, will verify the healing effects of the water. Christoval is located on the south bank of the South Concho river, which abounds in fish and hunting lands are near. The scenery is unsurpassed. The Orient railroad is now planning to project its Del Rio line from this city, which will pass through Christoval. Capital is needed for the building of large bath houses and hotel to take care of the crowds which will surely come as the stories of the efficacious waters are more widely circulated.

SAVE HALF HOUR OF HEADACHE

Aspironal Elixir Relieves Right Now—Tablets and Powders Must Wait to be Digested. Absolutely Safe.

The next time you have a headache go to your nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonful in a little water. With your watch in your hand count off two minutes and call for your money back, as per manufacturer's guarantee. If you can't feel your headache fading away within the time limit.

Doctors recommend and druggists guarantee Aspironal because they know it acts so much quicker, without the slightest danger to the heart and because it removes the cause of bilious and sick headaches by its gentle action on the liver. Aspironal corrects biliousness and constipation, thereby preventing the return of your headache next day. All druggists invite and expect you to try Aspironal, so don't be bashful. Everybody is doing it. Same guarantee applies to colds, coughs and neuralgia. Adv.

Declares a Need of More Forests in United States

WASHINGTON, May 7.—And now comes another reason for the high cost of living. This time it is trees. There are not enough trees to go round.

"Production and more production is the one thing that everybody seems to agree upon as the antidote for the high cost of living, but who will produce the forests that provide the wood and the paper that keeps 10 per cent of an industry going," asks Charles Lathrop Pack, president of the American Forestry Association. "We are using up our forests almost three times faster than we are replenishing them. We cannot step out into the open market and order a billion feet of lumber grown for delivery day after tomorrow or week after next. We may be able to figure on how much wheat or how much corn we can ship on a given date, or make plans for the production of a thousand automobiles, for in these cases the matter of production is but a matter of days or weeks. Not so with trees, for with trees it is a matter of years.

"Just the other day some two hundred thousand acres of timber land was bought up by a match concern. The tons consumption of pulp wood from which print paper is made has increased enormously. The war made a great drain on our timber resources. Newspaper publishers wrestled with the newsprint situation at their last meeting and will continue to wrestle with it for some time. It is safe to predict. When we stop to think that our forests are the basis of all national prosperity and that nothing is being done looking to a national forest policy, we must as business men stop indeed. Here is the situation:

"Use of newsprint has increased 200 per cent in twenty years. Ten years ago the United States produced its entire supply of pulp wood, but now two-thirds of it is imported. This means freight rates to be added to the purchase price. Of all the paper used in the United States 22 per cent is used by newspapers. Only one newsprint plant has been constructed in the United States since 1909.

"But newspaper publishers are not the only ones hit," continued Mr. Pack. "In other industries the need of wood is as great. Over 52,000 manufacturers depend on the forests for raw materials, and work is given 1,130,000 men in wood-using plants. The value of the product of these establishments amounts to 10 per cent of the total value of all manufacturers. The capital invested totals \$3,000,000,000, or 13 per cent of the aggregate manufacturing investment.

"Production is the word, as we all agree, but production must be begun at one of the prime sources of our nation's wealth, the nation's forests."

"To Those Who Appreciate the Best" POSTOFFICE BARBER SHOP Solicits your patronage and offers you the most modern eight-chair shop, together with the most courteous and best workmen that can be had. Special Attention to Children. BOYS' AND GIRLS' HAIRCUTS AND "BOBS"

The Lash and the Wash

Under the burning suns of Africa the slaves in diamond fields used to be made to keep working under the lash when the heat has sapped their energy. But how about America, where free women drudge under the hot sun and over steaming wash boilers doing the family wash. There is a more humane, efficient and modern way. Send your laundry work to us.

CAN REDEEM SCHOOL BONDS BEFORE MATURITY

AUSTIN, Tex., May 7.—School districts have been granted permission by the state board of education to redeem their bonds which are owned by the board, before maturity, if they so desire. The object of this is to allow districts that have collected part of their sinking fund to redeem part of their bonds im-

mediately, thus giving the board some cash to reinvest in new school bonds. The board adopted this policy in hope of giving relief to a number of school districts in the state whose bonds the board is now unable to purchase for lack of available funds. Comptroller M. L. Wiginton, who proposed the plan, estimates that 1,000,000 will be made available immediately.

the bond market it is almost impossible for school districts to sell their bonds in the open market." Mr. Wiginton declared. Bah! When a woman pulls the wool over a man's eyes you can hardly blame him if he looks sheepish.—Cartoons Magazine.

STUDENTS HONOR ATHLETE. MINNEAPOLIS, Minn., May 7.—Vernon M. Williams, center on the 1919 University of Minnesota football eleven, has been elected president of the university athletic board of control, in the student poll. Williams received 945 votes as against the 572 given Neal G. Arnstun, another football star.

COLLEGE PRESIDENT A POPULAR SHRINER
ABILENE, May 6.—J. D. Sandifer, president of Simmons college, Abilene, was the most popular novice of the 1200 who journeyed across the hot sands of the Mystic Shrine at Moslah Temple, Fort Worth, during the spring ceremonial. His popularity was rewarded in the presentation of a beautiful diamond ring. He made his mark on this characteristic platform: "A silver-tongued orator and a rebel who does not yet know that the Yankees licked us." It has been said of him: "He is the greatest president of the greatest college in the greatest city of the greatest state in the greatest nation during the greatest age in the world's history." His own platform: "I am for world-wide prohibition, woman suffrage, League of Nations, Woodrow Wilson and Texas."

FEELING BLUE ALL THE TIME
Before Taking Cardui, This Georgia Lady Suffered Until She Would Have to Sit Down to Do House-work. Was Dizzy and Weak.

Dalton, Ga.—Mrs. V. A. Burnett, of Route 6, says: "I got down with my back and sides, not able to do my work. I suffered a great deal. I had a depressed, blue feeling all the time. "I couldn't rest at night. I was nervous. I would be dizzy and just no account at all. "I would have to sit down while trying to do the housework. It seemed I couldn't get my breath. I was afraid I would get past going altogether. "I heard of Cardui and began using it. I could see after a half bottle it was helping me, so I kept it up . . . and soon I was like a new person. "I knew Cardui did the work, for no other medicine I took ever helped me as it did. I certainly can recommend . . . Cardui." This well known medicine, which Mrs. Burnett says helped her, is a mild, medicinal, purely vegetable tonic, for over 40 years used by thousands of women, with similar results to those which this Georgia lady obtained. Cardui should help you, too. Try it.

BIG RUSH TO DIAMOND FIELD FOUND IN AFRICA RIVALS OLD "GOLD DAYS"

LONDON.—Two men were killed and scores injured in the diamond rush which occurred in the Tangua district in South Africa, according to reports received from Johannesburg.

The rush, the greatest in the history of the diamond industry, was accompanied by scenes of extraordinary activity. The wildest excitement prevailed among the prospective diggers, among whom were included men representative of practically every business and profession in the union. Many of these men formed themselves into "holiday syndicates" and the demand for professional runners was great.

Hundreds of police were imported to the Tlaping district by the authorities in order to cope with the unprecedented rush, and considering the magnitude of the undertaking comparatively little trouble was experienced.

As the pegging ground was some distance from the starting point, the crowd lined up and awaited the signal to go. At the crack of the pistol the race started and the large area was demarcated by the diggers in almost record time. Experts say the new field will be the most productive in the world, judging from results already obtained.

BEAUMONT, Tex., May 6.—A Beaumont newspaper prints the following concerning a freak flower plant grown here: "Nature has started a conservation experiment in Mrs. J. B. Gaston's flower garden at 1035 Orange street. Making two flowers of two different species grow on the same stem in the latest freak found in flowers here recently.

"Mrs. Gaston has a pink rose bush which bears prolifically. Last year she planted a pink hollyhock on each side of the rose bush. The plants were set close together. When the rose bush began to bloom, a peculiar phenomenon was noted. Out of the yellow center of each rose came a hollyhock bud, full size and showing the pink of the hollyhock blossom through the openings of the green stamens. Several days later, when the first roses were beginning to shed their pink petals, the hollyhock began to bloom. The rose is perfectly normal, and so is the hollyhock blossom which comes out of the center of the rose.

ENDEAVORING TO SAVE "CONSTITUTION ELM" INDIANAPOLIS, May 7.—The state department of conservation is endeavoring to save the life of the historic "constitution elm tree," located at Corydon. The tree has been attacked by insects. It was under the spreading branches of this tree that papers were executed declaring Indiana a sovereign state.

JOHN-A-DREAMS HOW ICE FORETELLS NEXT YEAR'S EVENTS.

"I have dreamed of ice and how I know the future."

An ancient poet's words these, but true today as then. But, mark you, you cannot dismiss a dream in which you saw or touched ice as you do others, for the prophecies it is said to carry do not refer to today or tomorrow alone, but take in the whole succeeding year and may not come true until the twelve-month has rolled around. These, then, are dreams well worth noting down, so that their meaning may be borne in mind through the four seasons.

If you see ice, in cakes, on a body of water, or in solid masses, the sign is favorable. It usually denotes the happy ending of a love affair, the consummation of a wish of the heart, the ultimate scattering of the clouds that made Cupid blink in disappointment. More than that, it means that he or she whom you have chosen will prove loyal, good and amiable, and a companion such as your sweetest desires have often pictured. When men of affairs or business women over the age of 40 dream of ice in this manner, however, the vision's meaning is changed from love's dear tracings to the more material picture of success in money matters.

All this, remember, is true if you see ice. But if you touch it, or if its cold breath strikes a chill through your body, then the exact opposite of all these things will happen. The choice of your heart is false or, if true, will prove a disappointment. Your business affairs will go wrong, your finances shrink.

Cold, cold the world; and colder yet The hearts of men.

Failure and even misfortune will be the lot of those who dream of sliding or skating on ice. In some cases, it may mean merely an unprofitable enterprise. In others, especially if you fall, or in some other manner feel the icy contact, the danger to your safety is far more serious. If you happen to be a lover you will soon discover that your sweetheart is fickle, perhaps even unfaithful. Military men who dream thus, it is said, will be called to hard duty and into the midst of dangers, and married women may look forward to disagreements with their husbands, or unpleasant discoveries about them, even to divorce. The peasant women of the south of France believe that to dream of touching ice means that their husbands may become unfaithful. There may be truth in this. All signs point to something of the sort, all experiences bear out the unhappy prediction to some extent at least. Quite different is the case when the ice you see enhances the beauty of a landscape, when it glitters on

wintry branches, when, as if after an ice storm, it covers every bough with a filament of dazzling diamonds. When you see

each light spray nodding and twinkling in the breath of heaven, Strudded with the brilliant water-drops.

then you may brush aside the cares of the day and the fears of the morrow as though they never existed, and look into the future with joyous hope, for if unloved, your heart will soon have its desire; if poor, your worldly goods will increase; if engaged in unpleasant pursuits, you will change them for those that make for contentment; if engaged in a court action, you will win; if in a disagreement with another, yours will be the victory.

Have you noticed how in this dream, the appearance of nature's charms changes evil to good, darkness to light? Always rely on this: the things that God made to please and rejoice the eyes of man never spell ill. To dream of them as you slumber means to awaken to fair fortune.

"Fire and Flame" will be the text of the next chapter.

John-A-Dreams will be glad to interpret dream experiences sent to the editor of the Daily Times by its readers. No replies will, however, be given privately and no fee will at any time be asked or accepted. It is distinctly understood that there can be no guarantee when such questions will be answered, though every effort will be made to satisfy inquirers within three or four weeks.

Italy's Trade Position Now Called Better

LONDON, May 6.—The low value the Italian lira, now worth about one-fourth of its pre-war value, does not reflect the true economic situation of Italy, according to the financial editor of the Manchester Guardian, who states that Italy is in a better position today than any of her neighbors.

Exchange rates, as regards Italy, the Guardian points out, are largely nominal, for very little business is at present being transacted abroad and reflect keenly the "hypersensitive state of the international money market." And in this respect, he points out that the British pound has advanced far more than the actual improvement in Britain's trade position.

French selling of Italian securities at Paris has served to further depreciate the lira, the Guardian says. Italy's chief lack today is coal, and for smelting has to import hard coal from England and the United States. Little more than half the pre-war amount of coal is being purchased owing to prohibitive cost. Meanwhile, Italy has increased seven-fold the pre-war production of lignite, which is being used for factory fuel. Italy proposes to solve her fuel problem by development of water-power and electrification of railways. Italy also hopes to get coal from Jugoslavia, where coal mining has not been properly pushed.

The Guardian's inquiry in British banking circles shows that the Italian industrial situation is rapidly improving and that great efforts are being made to increase exports. One Italian motor car firm has sold more than \$15,000,000 worth of automobiles to the United States and other countries.

The Italian population, as a whole, is reported to be working hard, and reports of revolutionary outbreaks are not regarded seriously by business men in touch with Italy.

However, mother Italy's imports and exports nor income and expenditures yet balance. The recent Italian loan reached 20 billion lire, or five billions more than the recent French loan. Italy also has increased taxation, which is now four times that of pre-war days.

UNION PACIFIC OPENS CO-OPERATIVE STORE

MINNAPOLIS, May 7.—A co-operative general store has been opened here by employees of the Union Pacific Railroad company. The organization is capitalized at \$5,000, 200 shares at \$25 a share having been sold. Eighty per cent of the stock is owned by railroad employees and the remainder has been sold to workmen in other industries. The railroad company has no interest in the store.

Officers of the new enterprise say they expect to cut the cost of merchandise at least 10 per cent by selling stock-ware at wholesale prices to the stockholders, plus overhead expenses. Any profits accruing are to be divided among the stockholders.

TIMES WANT ADS PAY BIG

CHORUS MAN FALLS HEIR TO FORTUNE AND PROMPTLY WEDS SWEETHEART IN CHORUS

Harry Blake and his bride, nee Miss Mackay.

Harry Blake, until a few days ago, was working his way through Columbia university by singing in the chorus of "Irene" in New York. He was in love with Miss Mackay, also in the chorus. Lack of funds was holding up the romance and threatening his college career. Then lawyers informed him that on attaining his majority he had come into a fortune of \$150,000 left by his father, Charles Blake, a song writer. He married Miss Mackay, quit the chorus and arranged for day class hours at college.

U. S. CLOSELY STUDIES PROGRAMS OUTLINED BY REBELS IN MEXICO

WASHINGTON, May 6.—Official interest in the development of the political phases of the sweeping Mexican revolution is stimulated by the government reports indicating a rapid weakening of President Carranza's grip.

Although any recognition by the United States of the rebel government other than that accorded any defacto force is said to be improbable. It is known that agents of the state department have studied carefully the promulgated program of the rebels and the published assurance of General Alvaro Obregon and other leaders of the revolt that a more friendly attitude toward foreigners is to be adopted.

In marked contrast to the methods used by those who have acted in a similar position, the agents of the Sonora revolutionists here have refrained from making any overtures to the United States government, and it is understood that no plea for special consideration will be made until the success of the rebel movement is assured.

HIGH COST OF SOUP TO BE PROBED NEXT

CHICAGO, May 6.—The high cost of soup is to be the first object of investigation by the newly created high cost of living committee of the city council, it was announced today. Thirty-sliced ham sandwiches and mackerel cuts of pie will come next for investigation.

CONFECTIONERS SAY SHORTAGE OF CANDY IS NOW IMMINENT

COLUMBUS, Ohio, May 6.—That a nationwide candy shortage will be noticeable within sixty days, unless the sugar market improves, is the prediction voiced by the local confectioners.

While on the candy subject—have you noticed that the old-style "all-day sucker" is edging off the market?

Two reasons are assigned by W. C. Diven, secretary of the Ohio Confectioners' club, for the steady decrease in the demand for the kiddies' penny suckers. These suckers are made smaller than their pre-war ancestors and the little boys and girls usually are not content with the candy that one penny will buy.

"The boy or girl with just a penny in the candy market is 'out of luck,'" said Diven.

Hotel for Boys Lacking Homes, Is Chicago Idea

CHICAGO, May 6.—The stray boy who for dinner flattens his nose against the bakery window and who at night sleeps with grown-up tramps in the park or in the back alley shed, will come upon better days if the plan of George W. Brown of Chicago works out.

A hotel for boys, to be operated so far as feasible by boys, and fitted up in a way to attract the youngster who finds himself in vast Chicago temporarily or permanently without a home, is the idea of Mr. Brown, who for a decade has given most of his time to volunteer work among homeless boys. His work has brought him in touch with juvenile court officials in many cities and he has enlisted their support in his efforts to obtain a "transient hotel for boys" between the ages of 14 and 17.

Joseph Tumulty, the President's secretary, a schoolmate of Mr. Brown, has lent his aid to some of Mr. Brown's boy betterment schemes. "The Y. M. C. A. conducts in Chicago a transient hotel for men, a high skyscraper, calculated to give its tenants clean surroundings, morally and physically, but homeless boys under 17, hundreds whom drift into Chicago every week, may rely on the dangerous expedient of seeking a rooming house, or, if without funds may sleep behind ash barrels," Mr. Brown said today. "I have housed scores of these boys in my own home until jobs and recurrent pay days lifted them off the rocks, and I know what even a few days of decent surroundings can do for them."

"The large and properly conducted hotel for which I am working, and which will not be a 'boys' home,' will be equipped to do for thousands and thousands of kids what my feeble efforts have accomplished for a few hundred."

Beginning in a small way during the war, when she started canning on her back porch, Mrs. A. L. Harris of Betterton, Md., has increased her business so much that now she has a large plant, where last year she canned \$37,000 worth of corn and tomatoes. In addition to managing her canning industry, Mrs. Harris takes care of her five children.

TEXAS FARM BOYS ARE GUESTS IN IOWA TRIP OF SECY MEREDITH

AUSTIN, May 7.—One hundred and fifty farm boys will be the guests of United States Secretary of Agriculture Edwin T. Meredith at his home in Des Moines, Iowa, early in August when the Texas Farm Boy Special of five pullman cars arrives in the Iowa capital.

Much interest in the tour of the Texas farm club boys during the first three weeks of August under the direction of the Texas Chamber of Commerce and A. & M. college has been aroused in Washington, says L. W. Hill, farm club field agent of the department of agriculture, who is now visiting Texas and talking before Texas farmers. Arrangements are being made to show the visiting farm boys through the national capital, the White House, Mount Vernon, the Smithsonian institute, the Congressional Library, the navy yard and other points of interest when the special arrives in that city.

A glimpse of Canadian farming will be given the boys by a tour of about 100 miles in the dominion. This feature of the trip, as well as a visit to Niagara Falls, has recently been arranged, announces Walton Poteet, manager of the department of agriculture of the Texas Chamber of Commerce.

PRISONER RELEASED FOR EXPOSING PLOT

KANSAS CITY, May 7.—John Luvullo, whose disclosure of the threat of Pietro Pierri, a fellow Italian, to kill a high federal official during the war, resulted in Pierri's trial and conviction, has had his sentence to the federal penitentiary at Leavenworth commuted and has been released.

Luvullo declared that Pierri, also a prisoner in the Kansas penitentiary at that time, had confided to him that he had been chosen by lot from among a band of anarchists in Chicago to make way with several government officials in order to bring on revolution. Pierri is now at large on bond. He is facing deportation proceedings.

STANDARD CONTAINERS FOR COOKING OILS

AUSTIN, May 6.—Standardization of containers for vegetable cooking oils has been under advisement by the bureau of markets and warehouses, following a hearing. It is probable that a set of regulations prescribing uniform sized containers based upon the gallon and fractions thereof as a unit will be issued by the bureau in the near future, according to D. A. Gregg, chief clerk of the bureau.

You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure. If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and you remove the pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system. Get a bottle of S. S. S., and get on the right treatment to-day. Special medical advice free. Address: Medical Director, 111 Swift Laboratory, Atlanta, Ga.

Bell Well leases cause J. R. Miller to offer his fine Marston street property directly in front of post-office at \$18,000 less than he was formerly offered. Money is very scarce and hard to get and in order to get the cash to invest in Reeves and Culberson county leases will sacrifice my property on Marston street between Main and Walnut for \$7,000 net cash to me.

RANGER, TEXAS

The City of the Hour . . .

In the middle of sixty square miles of proven and rapidly developing oil territory that is the best in Stephens County. In a territory that is served by no other railroad than the Wichita Falls, Ranger & Fort Worth, the oil fields line that is building by Hamon & Kell with an eye single to placing transportation facilities where they are most needed.

Breckwalker will be Opened May tenth

STEPHENS COUNTY'S BEST OIL WELL

The New 3,000-Barrel Well of the Gulf Production Co. on the K. Stoker Lease Is

THREE MILES NORTH OF BRECKWALKER

This is probably the best oil well in Texas and it goes a long way toward establishing the best spot in the wonderful Stephens County oil fields. The pool which this well proves is nearer to Breckwalker and Frankell by twenty miles than to any other railroad point. It assures the immediate and constant growth of Breckwalker as an oil fields metropolis.

Breckwalker was named for Breckenridge Stephens Walker of Breckenridge, one of the men who have amassed millions in the oil fields immediately adjacent to this new town and who owns large acreage in the vicinity. Mr. Walker selected the new townsite and says that it is the best place in Stephens county for a great new oil fields town.

This new town is eight miles north of Frankell. It is the same distance south of Breckenridge. It is on the Wichita Falls, Ranger & Fort Worth Railroad that is now operating trains for sixty miles through the oil fields with its southern terminus at Dublin, where connections are made with two great systems, thus forever avoiding congestions of freight for the oil fields. The thousands of new oil wells to be drilled in this section and the refineries, tanks, gasoline plants and other necessary equipment of an oil field will be handled through and distributed from Breckwalker. For years to come this new town will be the distributing point and the market place for a great oil fields development. It is a superb point for business. Its lots will increase in value as the development proceeds and the town grows. This new oil fields center will be opened

MONDAY, MAY 10th

The sale of lots will continue from day to day thereafter on the townsite. But the first day's sale will probably see many of the choice lots sold, for the interest in the oil fields of Stephens county is deep backed by the merits of the fields as shown by past and present performance.

Plats of Breckwalker with the prices of all lots printed on them will be available on the opening day of the sale on the townsite. There will be no auction, and no lots will be sold in advance of the opening date. Persons who first make selections will be the purchasers of the lots they select. The prices are right. And the initial payment is only 10 per cent of the list price of the lots. The balance may be paid in ten equal monthly installments. It is an unusual opportunity to acquire real estate that is increasing rapidly in value on a margin that is insignificant and which promises profits alike to the investor and to the business man.

The site of Breckwalker was selected by Jake L. Hamon, Frank Kell, and Breckenridge Stephens Walker, for whom the town was named. All agreed that there is no better location in the entire Texas oil fields for a town that should become the metropolis of the fields.

Persons who would meet opportunity half way should be on the townsite early on the morning of May 10 and thus have all the advantages that can come to the investor in a new oil fields town on a new oil fields railroad.

HAMON & KELL, Ranger, Texas
