Federal Meat Seizure Likely, Anderson Says

Ceiling Retention Blow To Industry Hopes Of Decontrol

WASHINGTON, Oct. 1 (AP)—The worsening meat shortage brought an official threat today of government seizure of all market-bound livestock.

That unprecedented step was described by Secretary of Agriculture Clinton P. Anderson as "a very real danger that day by day becomes more of a possibility."

Anderson's assertion to a group of New Mexico cattlemen coincided with his formal announcement through the Agriculture Department here that meat must remain on the government's list of scarce farm products.

At the same time Anderson erased from the list — and from price control — all canned fruits, juices, nectars and corn, along with fresh and frozen salmon, oat cereals and rum.

What lingering hopes the meat industry might still have had that the way might be cleared for lifting OPA ceilings were dashed by the announcement here.

Anderson made the point more emphatic in his Albuquerque address yesterday by declaring that any new decontrol period would simply lead to "feast and then famine."

It was not immediately clear here whether the requisitioning step Anderson mentioned as "a very real danger" would be designed to channel more meat into regular channels or merely to assure the armed services and hospitals of a greater supply.

Anderson held out still another warning to the stockmen — that the long standing fight against importing Argentine beef into this country might be reopened by public demand.

The Army disclosed yesterday that it is trying to buy some of its meat intended for overseas use from Argentine. Present sanitary regulations prevent the importation of Argentine meat into this country.

Anderson's short supply list was the second monthly forecast he is required to give under terms of the new price control act.

New Evidence Links Klan, German Bund

WASHINGTON, Oct. 1 (AP)—The Justice Department said today it has uncovered evidence establishing links between the Ku Klux Klan and the German-American Bund from 1937 to 1941.

An official who has read the evidence said it "definitely proves that the two organizations collaborated to promote racial and religious dissension prior to the war."

He told a reporter that government agents investigating Klan activities ferreted out the evidence of Bund-Klan ties.

The department has promised swift prosecution of the Klan if any violations of federal laws are found.

The official said the evidence of collaboration includes: 1. Documentary statements that in 1937 the two organizations discussed the formation of an anti-labor third party as a move to align labor against other elements of the population.

2. Records of a joint meeting by Klan and Bund officials at Camp Norland, N.Y., in 1940.

3. An affidavit that an assistant Bund director stated in 1937 the Bund was cooperating with the Klan and "similar organizations" because "our aims are similar in many ways."

Termining these "just a sample" of the evidence of Klan-Bund ties, the official said government agents still are investigating the Klan in New York, Michigan, Tennessee, Florida, California, Mississippi and Georgia.

Dates Set For Fall Food Show Here

Howard county's annual fall food show is to be held on Nov. 15 and 16, County Agent Durward Lester announced today.

A budget for prize funds was approved several days ago by the chamber of commerce, which sponsors the show each year.

Exhibits will feature all types of field and garden crops grown in the county and a number of educational exhibits, Lester said. Catalogs for prospective entrants are to be ready within about two weeks.

Several Hurt In New Clash At MGM Studio

HOLLYWOOD, Oct. 1 (AP)—Several men were injured when police and sheriff's deputies clashed today with a parade of pickets at Metro-Goldwyn-Mayer studio.

As the paraders resisted efforts of the officers to drive them back, night sticks were brought into use and a number of men on both sides went down.

A call was issued for police reserves and ambulances. The parade followed a meeting last night of veterans of both world wars at which a demonstration in sympathy with studio union pickets was planned.

Shortly before 8 o'clock and following the reading for the second time this morning of a court order forbidding mass picketing, about 400 men, many of them in military uniforms, lined up in two companies and started a march behind a United States flag.

Commanded by former army and navy officers, they bore placards that read: "We fought for our country and for the ideals of Roosevelt."

When the paraders disregarded orders of sheriff's officers to get back from the studio gates, the deputies started pushing them back and violence broke out.

Several pickets were beaten in the melee and the sheriff's men also suffered casualties. Two of the latter cocked their pistols menacingly before they were able to rescue fellow officers who had gone down in the fighting. A dozen arrests were made.

Three In Lubbock For Water Meeting

City Manager B. J. McDaniel, J. H. Greene, chamber of commerce manager, and Iva Honeycutt, member of the Big Spring city commission, left this morning for Lubbock where they were to attend a discussion on West Texas underground water resources today.

The meeting, which was called jointly by the City of Lubbock and the Lubbock chamber of commerce, was expected to include a discussion of recent reports on decreases in water well levels in the South Plains area.

Delay In Home Building Probed By Senate Group

WASHINGTON, Oct. 1 (AP)—It has had complaints about fraternization of high army officers with Germans.

Completing the preliminary inquiries may delay formal hearings in both the housing and military government investigations for several weeks. Also several members are pre-occupied with election campaigns.

Kilgore, who is a candidate for re-election, left for West Virginia immediately after the committee completed its scrutiny of the Canal project yesterday.

That hearing was held primarily to learn why the joint chiefs of staff recommended in October, 1943, that the \$135,000,000 project for development of an oil field in northern Canada should be completed, although high civilian officials wanted to drop it.

Seamen Walk Out As Conciliation Efforts Collapse

By The Associated Press CIO seamen and longshoremen struck in East and West Coast ports today after collapse of contract negotiations with ship operators—posing a new threat of a complete paralysis of the nation's maritime fleet.

The strike of 15,000 members of the Marine Engineers Beneficial Association who operate virtually all engine rooms in the American Merchant Marine, went into effect at midnight last night when their contract expired and after Washington talks bogged down. The AFL organization of deck officers quit work at midnight at the expiration of their contract.

The government gave up at 3 a. m. (CST) its final frantic efforts to produce an agreement before daybreak. The Labor Department scheduled new talks for this afternoon.

Hope of averting the second port tieup in less than a month crumbled last night when Pacific ship-owners rejected the demands of the two unions for a more favorable hiring system.

Even after that, Federal conciliators kept union leaders and East Coast shipowners in session four hours past the midnight strike deadline, seeking a separate Eastern agreement.

Members "struck" immediately in New York while West Coast members were to join their colleagues later today.

The Marine Engineers, together with the AFL Masters, Mates and Pilots, had demanded preferential hiring of union members.

Longshoremen involved in the dispute are members of Harry Bridges' CIO International Longshoremen's and Warehousemen's union who had demanded a 33-cent-an-hour pay raise from West Coast operators in negotiations at San Francisco. The hike would bring their pay to \$1.70 an hour.

The strikers already have received assurances from other Maritime unions that they would support picket lines—as was the case in the 17-day CIO-AFL Maritime strike which ended recently in an arbitration award granting parity of wages to both unions.

COON ASKS HELP AT RED CROSS

The Red Cross has the beginning of a promising managerie, Mrs. Moree Sawtell, secretary, declared Tuesday morning.

A too-noxy boon wriggled his way into the air conditioning unit at the Red Cross rooms and was unable to wriggle his way out again. A visitor in the office was in conference, looked up and there behind the grill of the air conditioner was the strangely marked face of the little animal.

Community Chest Meeting Called

A meeting of representatives from participating agencies in the Community Chest has been called for 4 p. m. Thursday by Ira Thurman, Chest chairman.

At the session, scheduled for room No. 2, Settles hotel, a date for the combined chest drive which would include the major social and welfare agencies of the city, is due to be set.

Thurman also is due to go over organization plans with representatives and to set up key committee chairman and an executive board. Thereafter, it is anticipated that the Chest program will take shape rapidly in anticipation of the community-wide appeal for support of agencies.

Turtle Ends Record-Setting Flight In Ohio

Four Men, Kangaroo Fly Over 10,000 Miles In 55 Hours

COLUMBUS, O., Oct. 1 (AP)—The Truculent Turtle, navy patrol bomber, landed at Port Columbus at 11:28 a. m. (CST) today, completing a record-breaking non-stop flight of 11,237 miles from Perth, Australia. The unofficial elapsed time was 55 hours and 18 minutes.

The twin-engined Lockheed Neptune P2V, carrying a crew of four men and a baby kangaroo, thereby exceeded by 3,321 miles the non-stop mark of 7,916 miles set last November by the Army's B29 "Dream Boat."

On hand to greet the long-distance flyers were members of the Columbus Naval Air Station plus delegations of Navy officials who flew here from Washington and Chicago headed by Admiral Richard W. Ewen commanding officer of the Naval Air Reserve training station at Glenview, Ill.

The fliers, headed by Cmdr. Thomas D. Davies of Cleveland, were to be given a flight physical examination for fatigue immediately. Then they were to relate their experiences to newsmen.

The plane had checked with radio stations north of Sacramento, Calif., just after midnight. The crew first planned to set down at Des Moines, Ia., then decided to push on eastward to Ohio's capital.

The four men emerged from the plane looking tired and haggard. The commander said the Turtle bucked head winds all the way to the West Coast of the United States, running into cold weather and ice just off America.

Terrific tail winds pushed the Turtle along as far as Ogdon, Utah, but from that point, Davies said, the assistance of the wind was lost.

New Suit Filed Seeking Negro School At Austin

AUSTIN, Oct. 1 (AP)—A mandamus suit to force the Board of Regents of the University of Texas to establish a branch university for Negroes in Austin has been filed in 53rd District Court by Dr. Everett H. Givens, Negro dentist.

The Supreme Court last week held that it had no jurisdiction in such original suit, implying that Givens should apply in District Court for the mandamus.

Givens contends that the Board of Regents for more than six years has failed to follow the mandate of an election—provided for by the State Constitution—directing that a Negro state university be established in the capital.

He said he wished to take a re-fresher course in dentistry and dental surgery, and that no such instruction is now available to Negroes in Texas.

In that respect, the suit was similar to one filed by Heman Marion Sweat, a Houston Negro, who sought admission to the University of Texas as a law student. A thus far unexecuted judgment of the 126th District Court directed that he be admitted, but Judge Roy C. Archer deferred until Dec. 17 issuance of an order in the case to give the state time to establish a separate law school for Negroes.

Meanwhile, a bi-racial commission appointed by Gov. Coke R. Stevenson is studying the question.

Seven Sent To Prison; Three Given Acquittal Over Russia's Protest

NUERNBERG, Oct. 1 (AP)—The international war crimes tribunal today decreed death on the gallows for 12 leaders of the Adolf Hitler gang, sentenced seven to prison, and—with Russia dissenting—acquitted three defendants.

The court, after sentencing to death Hermann Goering, Joachim von Ribbentrop and 10 other Nazi henchmen, announced that Russia had protested against the tribunal's acquittal of Franz von Papen, Hjalmar Schacht and Hans Fritzsche. The Soviet judge, Maj. Gen. I. T. Nikitchenko, also protested that Rudolf Hess should have been hanged instead of receiving the life imprisonment sentence the court handed him, and objected to yesterday's acquittal of the general staff and high command.

Judges of Britain, the United States and France joined in the majority opinion, which now will be carried out by the allied control council, representing all four allies.

Legal officials of the American Military Government said that if any of the three Nazi leaders acquitted were returned to the US zone of Occupation they probably would be tried by Germans under the zone's denazification law.

The officials said because Schacht and Von Papen owned property in more than one zone it was conjectured to which they might be returned. Legal experts in Berlin expressed belief the Russians might get custody of Fritzsche, whom they arrested in Berlin and delivered to Nuernberg for trial.

Justice Robert H. Jackson, chief US prosecutor, expressed regret that "the tribunal has felt constrained to acquit Schacht and Von Papen and to decline to declare the criminality of the general staff." He said in a formal statement that "the effect of these acquittals on the further prosecution of industrialists and militarists which have been planned will have to be studied from the text of the opinion."

Goering was first. He strode into the courtroom flanked by two military policemen. His gray suit hung limply about his once ample figure. Chief Justice Lawrence looked sternly down from the bench and sentenced the number 2 Nazi to death by hanging. Under the glare of the lights, Goering's face was sickly.

Gray and sallow, Von Ribbentrop stood stunned as the death sentence was pronounced. He had to be helped out by military policemen.

Others sentenced to death were Field Marshal Wilhelm Keitel, Ernest Kaltenbrunner, Alfred Rosenberg, Hans Frank, Wilhelm Frick, Julius Streicher, Fritz Sauckel, Col. Gen. Alfred Jodl, Arthur Seyss-Inquart, and Martin Bormann (in absentia).

Rudolf Hess, third ranking German until his strange wartime flight to Scotland, was sentenced to life imprisonment.

Also sentenced to life were Walther Funk and Grand Adm. Erich Raeder.

Those acquitted were Franz von Papen, the old gray diplomat who led intrigues in both World Wars; Hjalmar Schacht, the German finance wizard; and Hans Fritzsche, deputy propaganda minister for Paul Joseph Goebbels, a suicide.

Grand Adm. Karl Doenitz, who surrendered Germany, and was fuhrer in the last few days of the war, received a ten year sentence.

Baldur von Schirach, Hitler youth leader, and Albert Speer, German munitions minister, both were sentenced to 20 years in prison.

Constantin von Neurath, former German foreign minister and later "protector of Bohemia and Moravia," was given 15 years.

All defense attorneys announced before the verdicts were pronounced that they intended to appeal to the Allied Control Commission in Berlin if their clients were convicted and sentenced to die. Some of the defendants felt last night they might escape the death penalty.

Cattle Growers Ask Meat Condition Study

ALBUQUERQUE, N. M., Oct. 1 (AP)—A proposal that President Truman authorize a special study of meat industry conditions by a committee representing both consumers and producers came today from the New Mexico Cattle Growers Association.

By resolution, the cattle growers urged the President to convolve its own committee at once to suggest steps toward restoring meat to the nation's dinner tables. The resolution declared renewal of meat controls revived the black market and demonstrated the OPA cannot control such activity.

Texas Awarded

MANILA, Oct. 1 (AP)—Capt. Carroll D. Reynolds, Mineral Wells, Tex., commander of the destroyer Selfridge in the Guadalcanal and other early South Pacific campaigns, was awarded the Legion of Merit today.

Tons Of Dressed Meat Ordered Held In Massachusetts Investigation

BOSTON, Oct. 1 (AP)—State officials today sought the identity of owners of 4,000,000 pounds of dressed meat discovered in a large freezing plant by special investigators ordered by Democratic Governor Maurice J. Tobin to determine if any of the scarce commodity was being "deliberately withheld from consumers."

Massachusetts state police and public health inspectors reported to Tobin last night that of the 6,000,000 pounds of meat found in a waterfront establishment, 2,000,000 pounds was army property and 4,000,000 pounds was owned privately.

Tobin immediately wired Secretary of War Robert Patterson asking the army to release 25 percent of its allotment—including beef, pork and lamb—to meet critical needs of hospitals, some of which fed horse meat to patients last week.

### Cool Weather, Sunny Skies

By The Associated Press  
Good sleeping weather prevailed over Texas last night.

The cool air and clear skies of the last 24 hours were varied only in the Rio Grande Valley, where locally heavy showers fell yesterday. Skies cleared rapidly in the area this morning as the cool wave moved south and eastward.

Minimum temperatures throughout the state early today were mostly in the low 50's except in the extreme southern part, where low temperatures were in the 60's. Yesterday afternoon maximums were in the 70's except along the coast where 80's were reported to the US weather bureau.

Sulphur Springs reported the coldest weather with 44 degrees early this morning. Texarkana had 45 degrees and Amarillo 50. Typical minimums over the state included Dallas 53, Abilene 53, Laredo 52, El Paso 58, Houston 54 and Brownsville 69.

Brownsville recorded the highest temperature in the state yesterday afternoon with an 82.

### Make This Home Recipe To Take Off Ugly Fat

It's simple, it's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe your own. Make this recipe your own. It's easy—no trouble at all, and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcenate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slimness. Note how quickly bigst disappears—how much better you feel. More alive, youthful appearing and active.

*How much light is ENOUGH to study arithmetic?*

Arithmetic requires concentration, close attention to small type, extra work for young eyes. BETTER LIGHT is needed for such exacting work to help prevent unnecessary eye fatigue, drowsiness, lack of interest.

Check carefully the lamp your children use for studying—be sure the lamp bulb is large enough—at least 100-watt or 150-watt size—and see that it has a shade which spreads the light—prevents glare.

# Free Press: Liberty, Freedom

"A Free Press—Voice of Freedom; Guardian of Liberty."  
Under this slogan, National Newspaper week is being observed this week the length and breadth of the land.

We believe that there is more than a slogan in this thought, that it is more than something on the label.

The average citizen pays tribute to the ideal of free speech and a free press. He does not, however, translate this idea into deep feeling, for he does not take the time or effort to visualize the results of losing this vital shield of democracy.

It would be naive or deceitful to argue that all newspapers justify their existence in fulfilling their obligations to gather and disseminate unbiased and uncensored news, and to comment intelligently and vigorously on the issues as they see them.

Newspapers are manned by human beings. Some of them are militant, some of them are brilliant, some of them are easy-going, some lazy and a paltry few are lacking in some of the basic moral attributes. But by and large, most people in the newspaper profession are imbued with an ideal of justice and honesty, have a good measure of fearlessness when the chips are down, and have a greater inspiration to service than their sometimes cynical front will admit.

The vast majority of American newspapers realize that the privilege of a free press carries with it a fearful responsibility.

The Nation Today—James Marlow

## Economic Monopoly Under Probe

WASHINGTON. (AP)—The concentration of economic power in fewer and larger corporations will be examined, starting Oct. 15, in hearings by a House subcommittee on monopoly.

The chairman, Rep. Kefauver, Tennessee Democrat—says his committee wants to find out what steps are being taken, particularly by government agencies, to stop this trend.

It is a trend that has been going on more than half a century. It was increased by the war. Kefauver considers it one of the "gravest, basic issues of our time."

A few months ago the government's smaller War Plants Corporation (SWPC) made a report on this subject—economic concentration among big firms—to the Senate's committee on small business problems.

The report was called "economic concentration and World War II." It did not pretend to be an up-to-the-minute study, for it pointed out:

No census of manufacturing industries has been made since 1939—before the war—so it is impossible at this time to prepare a complete and definitive report."

Kefauver's committee, therefore, may obtain some current information of economic power among the giants of industry.

Kefauver, as have many others before him, fears that too much of this kind of concentrated power among the giants will threaten the existence of small business.

Nothing how the war added to the giants' power, the SWPC report said:

"What will be the effect of this wartime concentration upon the peacetime economy? Will the heart of the problem, will the wartime gains in concentration be retained or increased, or will the economy return to its pre-war state—which, it should not be forgotten, was already highly concentrated."

Hal Boyle's Notebook

**Along Liberty Highway**  
By ROBERT EUNSON (For Hal Boyle)

PARIS. (AP)—European monuments to American soldier dead of World War II will include a memorial highway 600 miles long from Metz to Metz.

Major G. De La Vasselais, former Third Army liaison officer and mayor of St. Symphorian, the guiding hand behind the project, was present in August when the first of 600 torches to mark the miles along the way was ignited to dedicate officially the "Liberty Highway" to the memory of the Third Army.

There has been some misunderstanding and not a little feeling between the French city of Metz and the Grand Duchy of Luxembourg regarding the final official resting place of General Patton's body.

Since his death last winter, following an auto accident in Germany, the mayor of Metz has requested removal of Patton's body from the cemetery in Luxembourg to Metz, where it would rest at the foot of a memorial at the end of "Liberty Highway."

(Since Luxembourg was once General Patton's headquarters and units of the Third Army liberated the Grand Duchy the people of Luxembourg are not a little jealous of their trust and refused to listen to the demands from Metz.

Grand Duchess Charlotte and members of the Royal Family have taken personal charge of the General's grave. Each of the more than 10,000 other soldiers' graves in Luxembourg has been adopted by a family charged with seeing that the grave is properly cared for and decorated on holidays.

It is in this spirit that they have become virtual zealots in defense of a free press.

It is in this spirit also that they have realized that there cannot be prostitution of the privilege without eventually bringing wrath against a free press. Here and there, selfish people slip over the line. Now and then subversive and partisan interests flare up, but in the main the Fourth Estate moves steadily down the line.

So long as a free press does exist and is held in such regard by the members of the newspaper profession, it will stand as a safeguard of democracy. The right to speak may lay dormant for ever so long, but at the proper moment it may be revived with force. Despite partisan and individual claims, there can be no totalitarian government in this country so long as a free press remains, unless it be by the consent of the people.

Newspapers cannot, nor do they have a desire to, control the thinking or actions of the American people. But they do have a desire and a responsibility to speak out on the issues and to stimulate people to thought. They cannot do that under a censorship of any shade. They must be left free to speak as they please. They will not always be right, but even in error, if honest, they will be demonstrating the ideal of free speech in action. But being of the people, and since the people ultimately, if enlightened, will find the right way, so will the newspapers as the servant of the people.

## WHEN BOTH SIDES ARE UNHAPPY

Broadway—Jack O'Brian

## Miss Cinderella Martin

NEW YORK — Mary Martin, the little Weatherford, Texas lass who beat her fists against Hollywood's door in an unavailing attempt to become a screen star only to quit and go to Broadway and be "discovered" at a stratospheric film salary, has had some incredibly Cinderellaish things happen to her.

First she sang a Cole Porter tune called "My Heart Belongs To Daddy" in a musical comedy, "Leave It To Me," accompanying her sprightly singing with a modestly arranged strip tease, and the movie scouts started waving large bills in front of her.

Nothing how the war added to the giants' power, the SWPC report said: "What will be the effect of this wartime concentration upon the peacetime economy? Will the heart of the problem, will the wartime gains in concentration be retained or increased, or will the economy return to its pre-war state—which, it should not be forgotten, was already highly concentrated."

Now, to top off her brilliant theatrical accomplishments, Noel Coward has written a new opera-tailored exactly to her theatrical measurements.

The night Mary sang "My Heart Belongs To Daddy," one of the horde of backstage congratulators was a gentleman in a British dinner jacket and manner, who shook her hand and told her how wonderful she was. Mary looked a little confused, and when it was obvious she didn't know to whom she was talking, the gentleman put her into a farther tizzy when he said, "I'm Noel Coward and I think you are simply wonderful." When Mary caught her breath, she said, "Mr. Coward, do you think I'll ever be good enough to appear in London in a revival of 'Bitter Sweet'?" To which the elegant Mr. C. gallantly replied: "Mary, you'll come to London all right, but when you do, you'll appear in a play I write especially for you."

"As time went on," Mary said, "I thought he'd forgotten, but a short time ago I received a cable from him." It said:

"Dear Mary: You said some years ago you'd like to appear in London. I want to write an opera-tailored exactly to your measurements. The book is not actually written until I know whether or not you can pay it. If I would give me much pleasure to introduce you to London audiences. Love, Noel Coward."

MARY is taking off for London any day. The girl who once almost went back to Weatherford, Texas, to take up her old job teaching dancing now is one of the most celebrated stage, screen and radio stars in the world. And what was the turning point which started her toward her present glittering position?

This usually modest and shy young lady was asked to sing for some friends of Lawrence Schwab, the Broadway producer. Mary was used to being stopped after singing one number, so when faced with this request, she stomped into the room and announced: "I want to sing four songs or I don't want to sing at all!"

"Well," she continued, "I sang the four songs and started out the door before they could say I wouldn't do. One of the men after me said 'Wait a minute, Miss Martin. You've just sung your way into my new show. Meet me at the theater tomorrow.'"

"Imagine my surprise when he told me he was the songwriter—Cole Porter."

## Washington Merry-Go-Round—Drew Pearson

# Green Complains Of Food Shortage

WASHINGTON — The AFL's portly president, Bill Green, attended a recent meeting of the President's Reconversion Advisory Committee called to discuss a new wage-price formula. In the course of the meeting, Bill also rose and made a speech — quite a lengthy speech in which he was especially bitter against OPA and price controls. Apparently forgetting how AFL officials, paid by him, had lobbied vigorously to pass the OPA act, he claimed the country was going to pot because of OPA.

While member of the committee twisted and squirmed, he echoed his old enemy — now friend — John L. Lewis in attacking the "meat famine."

Green aimed his remarks primarily at Mrs. Anna Rosenberg, a close Roosevelt adviser and long-time friend of labor. Glaring at Mrs. Rosenberg as if she were personally responsible, Green talked on. As he talked, the famine became worse.

Finally Mrs. Rosenberg could stand it no longer.

"What you say may be true, Mr. Green. But you certainly look like you're getting your fair share of the food supply," Mrs. Rosenberg said, eyeing Green's rotund waist line.

Inwardly if not outwardly deflated, Mrs. Green sat down. Eric Johnston, former president of the US Chamber of Commerce, then arose but was only able to hold the floor a few minutes before Green was on his feet again repeating what he had said, like a worn record. Wearing, Nathaniel Dyke of Arkansas, a public member of the board, solemnly stood up and said:

"You win, Mr. Green. But only because you have more wind than anyone else in this room."

The meeting then adjourned.

**Democratic Meat Debate**  
Senator Theodore Green of Rhode Island got in some hot licks against the meat packers at the closed-door meeting of the Democratic Executive Committee last week.

"If the government can take over coal mines on strike, I don't see why it cannot take over these big packing companies," Green told Democratic bigwigs. "They are on strike in a sense against the consumers by helping to keep meat off the market, and the public should have some protection against them."

The Rhode Islander demanded that the Justice Department begin an immediate investigation to determine the financial interest of the big packers in cattle ranches and to ascertain if there is any conspiracy between the packers and stock raisers in keeping meat off the market.

At the luncheon, ex-governor Ed Rivers of Georgia put Hannegan on the spot regarding Democratic National Committee sponsorship of Henry Wallace's speeches.

Rivers made it clear he didn't want Wallace to do any official speaking.

Hannegan, however, stood his ground.

"The Democratic National Committee," he said, "will assist any state or county organization in arranging for Henry Wallace's appearance during the campaign. We don't send out speakers unless we're asked to. So if anybody asks for Wallace, we'll send him out."

"Does that go for Claude Pepper, too?" asked Senator Green.

"Yes," Hannegan replied.

"Is this the same procedure you are following with all other speakers?" Green asked.

"Yes," replied Hannegan.

NOTE — Mayor Kelly of Chicago, Ed Flynn of the Bronx, and Gov. Bob Kerr of Oklahoma were the hottest on the meat situation during the closed-door meeting. Kelly said he didn't care who was responsible but he knew the Democrats were going to lose a lot of votes if someone didn't do something about the meat situation in a hurry. Governor Kerr favored dropping meat controls until after the election while Flynn agreed with Mayor Kelly.

**Truman's Black Tie**  
When members of the State Department for Educational, Scientific and Cultural Cooperation met with President Truman last week, they shook hands and were carefully introduced, one at a time, by Assistant Secretary of State Bill Benton.

The handshaking concluded, Benton explained that he had not intended to make individual introductions, but that the president insisted. Then he added, "Mr. President, here is your group — all Democratically elected."

Most delegates did not hear the president say under his breath: "With a big 'D' or a little 'd,' Bill!"

In normal voice Truman then explained that he had requested the individual introductions because, "I've got to keep my handshaking arm trim in an election year. I especially like to give it a workout on a bi-partisan group."

The president told the group he thinks its contribution to world peace can be as great as that of any other agency in the world. He concluded his remarks by saying what he most desires is "peace in the world and unity at home."

The chief executive, who ordinarily goes in for colorful haberdashery, was wearing a solemn black tie. As he finished his plea for domestic unity, a loud whisper came from the group of educators: "That explains the black tie — he's mourning for Henry Wallace."

**Capital Chaff**  
Undersecretary of State Dean Acheson picked an ideal time for his vacation, the moment of the Wallace-Byrnes feud. He was the happiest man in the administration to have missed the fight. ... Sighed Mildred Eaton, one of Wallace's secretaries, when informed her boss had resigned, "we haven't got through unpacking from our last move yet." ... Devout Catholic Phil Murray has had some interesting experiences with the Russians. Murray has been entertaining Russian, trade-unions, finds them bursting with ideas for keeping the peace. Murray is trying to get more Russians to visit the USA and vice versa. ... President Truman is urging Jimmy Byrnes to take a vacation after he returns from Paris. ... Mrs. Truman refused to use a White House car while vacationing in Missouri. She drove her own car all around Independence, gave her chauffeur a vacation.

\* PRINCIPLE No. 10

To consecrate and sanctify our comradeship by our devotion to mutual helpfulness

—From the Preamble to the Constitution of The American Legion

A never-failing interest in comradeship is found wherever there is an American Legion Post. From the day in 1919 that we first found our World War I war-disabled suffering for lack of hospital care—to the present when we must again exert all our energies in behalf of the disabled of World War II—it commands respect by its exemplification of the spirit of helpfulness.

Working devotedly together for a worthy cause naturally draws people closely together. We started this comradeship in 1917, replighted it in 1941, and thanks to the organizers of our American Legion, the good work is still going on. We are not merely carrying on in a routine manner but are serving in an ever widening and deepened sphere of influence.

Aid for sick and disabled veterans, help for widows and children of our buddies who have answered the last summons, child welfare in all its phases, employment for veterans, Sons of the Legion, boys' state, junior baseball, Americanism program, program to further education, legislative program for betterment of community, state, and national laws, disaster relief—these are some of the many worthwhile activities the Legion has always carried on—whether our beloved country is at war or at peace. The degree of your participation in these services is a good measure of your devotion to mutual helpfulness. Let's all volunteer our services with enthusiasm and serve intelligently.

# Four Southwest Conference Grid Elevens Plagued By Injury Jinx

By The Associated Press  
Injuries, ineligibility and resignations are plaguing five Southwest Conference football teams and indications are that only Texas and Rice, tabbed to battle it out for the conference crown, will be at full-strength for Saturday games.

TCU, Texas A&M, SMU and Arkansas have a total of 12 players on the hospital list and the Fort Worth Frogs have lost two additional men because of scholastic ineligibility. Frank Kimbrough, coach of Baylor's Bears at Waco, revealed last night that M. L. (Kit) Kittrell, quarterback for the 1941 and 1942 Bear elevens, has turned in his uniform.

Baylor officials said that Kittrell, in resigning, indicated that he felt he was not getting in enough playing time. The Bears have broken even in their first two games, defeating Southwestern and losing to TCU. They will be idle this week.

# Hank Oana To Toe Slab For Rebels In Opening Game Of Dixie Series

ATLANTA, Oct. 1 (AP)—The first Dixie Series since 1942 gets underway here tonight between the Atlanta Crackers of the Southern Association and the Texas League's Dallas Rebels. Game time is 7:15 p. m. (CST).

Atlanta won a ninth-inning 2-1 victory over the Memphis Chicks here last night in the seventh and deciding game of the Southern's Shaughnessy playoff. Dallas has been hanging around for several days waiting for the weather-delayed series to be completed.

Probable pitchers are Shelby Kinney for the Crackers and Hank Oana for the Rebels.

The teams will play two games here and return to Dallas for resumption of the seven-game series.

After the Crackers pushed across a single run in the opening inning against Memphis last night, the Chicks tied the score on two hits and a fly ball in the seventh.

In the bottom half of the ninth, Atlanta's Lloyd Gearhart singled and took second on a sacrifice. In intentional walk and an infield hit filled the bases, setting the stage for Charlie Glock's single which brought in the big run.

# LOOKING 'EM OVER

With TOMMY HART

Typical intracranialophiles (lovers of the underdog) are Big Spring's vast colony of baseball lovers who have followed the spirited National league race down to the wire.

Time was when Our Town proved a hot-bed of St. Louis Cardinal supporters, who invariably pulled for the Missourians because the Mound City is closest to our precincts and many a Red Bird regular got his start in Texas.

However, the Dodgers' gallant scrap in the face of terrific odds plus the fact that Leo Durocher built his club around one or two great ball players and a bunch of cast offs and had them believing they constituted a formidable unit has obviously shifted the sentiment of the bulk of the local followers to the side of the Ebbetts Field gang.

True, the Cardinals still have their local supporters—the dyed-in-the-wool rooters who have been on the Breardon band wagon since the days of the famed Gas House Gang. They are simply not as prolific as before.

Ed Stevens won a lot of local backers to the Dodger side. It was only a few years ago that Ed was trying to master the trick of playing first base in the local ball orchard. Then, a big league career seemed as unlikely to the youth as a trip to the moon. Now, Big Ed is sporting Brooklyn livery. Big Spring will have a personal interest in the World Series for the first time ever, if The Burns wipe out the Red Birds in the extra round of play.

Hal Steck, big chief of the local chapter of the American Legion, was one of the 90,000 persons or so who sat in on the Los Angeles Rams-All-Star grid classic at Soldier's Field in Chicago last month; which the collegians won with yards to spare.

Hal was lucky in getting through the gates. Having failed to spear a pastebore prior to game time, he was standing in line for the \$1 ducaats (which would have been all the way back to Lake Michigan) when a gaffer chanced by, selling \$6.60 seats for—\$6.60.

Big Spring's Olie Cordill isn't breaking into the Miami football Seahawks' lineup in their All-American Conference games these days but other Texans are managing to play quite regularly.

Against the San Francisco 49ers a couple of weeks ago a pass from Charley Price (Texas A&M) to Preston Johnston (SMU) to Prince Scott (Texas Tech) gave the professionals from the Gator state a touchdown. The Miami team's losing streak endured, however, as Dick Renfro paced the 49ers to a 21-14 victory.

Marion Pugh (also of A&M and a former Fort Worth schoolboy sensation) was the Miami trigger man but some of his strategy backfired.

Best man in the Seahawk life was Kenneth Whitlow, who was Cordell's team mate at Rice in the late '30s.

The game was played in Kezar Stadium in San Francisco.

Gaither Nowell, who has served as professional and manager of the past seven years, has become manager of the country club at Bryan. Nowell isn't exactly a newcomer to that section, since he served in a similar capacity from 1925 through '31.

He'll probably handle the A&M college links team in addition to his other duties.

Speck Saunders the Oklahoma prepster who understudied Jackie Crain at the University of Texas for three years, is the football sensation of the New York Yankee (AAC) camp.

Saunders weighs 210 pounds, is fast and can chunk the pighide for distance.

# Odessans Not A 'One-Man' Club, Scouts Caution

For the information of those fans who are expecting the Odessa Broncs to be a "one-man" team in their outing with the Big Spring High School Steers in the football game here Friday night, they should be alerted for other threats.

Grid scouts coming back from the Odessa-Hollis, Okla., bout of last week end insist a 156-pound halfback by the name of Pug Gabriel is every inch a football player and may prove more troublesome to the Steers than the vaunted Byron Townsend. Townsend goes at 174 pounds and will be at full-back.

Then there's Sonny Holderman, a 145-pound blocking back who gave the Bovines a lot of trouble last fall, and Hayden Fry, 155-pound quarter.

Odessa's ends, Billy and Bobby Morrison, are supposed to be fully as good as the Bronc superlative wing combination of a year ago.

Boasting a 192-pound tackle—Pat Ewert—the Hosses will outweigh the Bovines by several pounds in the forward wall.

# Dozier, Ramsey Kegling Leaders

In a night of furious activity that saw ten men ring up games of 200 or better, Douglass Hotel, Dozier's Quint, Nathan's Jewelry and Runyan's Independents chalked a triumph over the Howze's league play at the West Texas Recreational center Monday.

Douglass, led by smooth stroking W. E. "Red" Ramsey, registered a triumph over Pete Howze's gang. Dozier throttled Elmo Watson. The Jewelers fanned out State Drug while Runyan's five took care of Big Spring Neon. All margins of victory were by 2 and 1 counts.

Ramsey scored a series of 590 but had to take a back seat to E. B. Dozier, who penciled in 601 points on his scoring sheet. Howze boasted a 234 for high singles, finishing seven pins ahead of Ramsey while Douglass' team checked in with a 2808 for team high. Howze's representatives were more than 200 pins off that stride, scoring 2596, but managed to take second place.

As announced by Al Cipriani, one of the officials of the league, the league schedule is set up to run 28 weeks and will run through next March.

# Layne Leading Kicker, Passer

By The Associated Press  
Blond Bobby Layne of Texas makes the minutes count. He has played less than a half in two games this season yet is pacing the Southwest Conference in two of its statistical departments.

Layne has pitched 10 passes and connected with seven for 200 yards, which probably is the top passing mark in the nation to date. He has punted twice for 111 yards—an average of 55.5.

Figures released today by James H. Stewart, conference executive secretary, show Layne to be far out in front in passing. Aubrey Fowler of Arkansas is second with five completions in nine throws for 139 and Paul Campbell of Texas is third with four connections in seven tries for 124. Bill Moxley of Southern Methodist is second to Layne in punting with an average of 45.5 yards on two boots.

Ken Holland of Arkansas continues to lead the ground-gainers with 137 yards net on 21 carries in two games. Jerry Mangum of Baylor is second with 126 yards on 19 carries and Byron Gillory of Texas is third with 119 yards on 16 jaunts.

In pass-receiving Clyde Scott of Arkansas tops the field, taking three for 97 yards.

In team offense Texas is the leader with 947 yards in two games—500 rushing and 447 passing. Baylor leads in rushing with 517 yards but has only 94 in the air.

The name Japan is a corruption of the Chinese word Zapangn, meaning source of the sun.

Newfoundland is the oldest British colony in terms of discovery.

REISER WILL BE FAN—With the aid of a crutch and the shoulders of Manager Leo Durocher (right) injured Dodger outfielder Fete Reiser boards a train at Pennsylvania Station for St. Louis. Reiser broke a bone in his left leg, Sept. 26, and can only be a loyal fan as his teammates battle the Cardinals in the playoff for the National league pennant. (AP Wirephoto)

# Branca Durocher's Choice For Opener With Cards

Howie Pollett Will Mount Knob If He Shows He's Ready

ST. LOUIS, Oct. 1 (AP)—Through out 154 games and a 14-8 season edge for St. Louis over Brooklyn and start the real 1946 National League race today as Managers Eddie Dyer and Leo Durocher match wits and strategy in the opener of a three-game tie play-off—the first ever held in major league baseball.

Howie Pollett, the Cardinals' ailing No. 1 hurler, probably holds the key to the situation in the aching muscles of his left side. The slender Southpaw has been poison to the Brook.

Dyer won't know if Pollett, who has been knocked out of the box by Chicago in his last two starts, can take his turn until he lets him warm up in the Sportsman Park before the game.

If he's "right," Pollett will pitch and Card supporters who have made their favorites a surprising 13 to 20 choice will breathe more easily. If not, Dyer will fall back on Murry Dickson, a wiry right-hander who has beaten the Dodgers three times and lost once on relief.

There is no secret in the fact that Dyer has pointed his Cardinal club for Durocher's club all season long. He confided before the season that "Brooklyn is the team to beat."

There is no key figure holding the fate of the Dodger's master plan. It is based on Durocher's hunches and uncanny ability to call on the right men at the right time. Brimming with confidence, as usual, the Dodger manager has collected Ralph Branca, a 20-year-old collegian from Mt. Vernon, N. Y., to hurl the vital game, Branca has been extremely effective against the Birds.

Durocher's prize gamble of the year involved Branca in his last start against St. Louis on Sept. 14. Branca spun a three-hit, 5-0 shutout. It was the kid's first complete game of the year.

The first game is a "big one" for the Redbirds, just as every game has been for the past three weeks. This really is one they have to win for a flip of the coin sends them back to Brooklyn for the second game Thursday and a third game Friday, if necessary.

Unlike the World Series, the players do not share in the receipts of the play-off games, but President Sam Breadon of the Cards announced his players would be paid off for the week on a pro-rata basis of their season's salary.

Arrangements are being made to send the bodies of the children, Linda, 3, and James, 3 months of age, to Copiaca. Funeral services will be held there when the father, a Shell Oil Company employe, arrives from Maricao, Venezuela.

The first US patent was issued in 1790 to Samuel Hopkins for a new method of making pot and pearl ashes.

# Lunacy Hearing Set For Young Mother

LIBERTY, Oct. 1 (AP)—Liberty County officials were doubtful whether a lunacy jury would be able to question Mrs. A. H. Brent, 21-year-old Cleveland mother charged with murder of her two children by drowning them in the bathtub.

County officials said Mrs. Brent was in a hysterical condition and that the hearing was postponed yesterday until today. The young mother is under the care of a trained nurse at the Liberty county jail.

Arrangements are being made to send the bodies of the children, Linda, 3, and James, 3 months of age, to Copiaca. Funeral services will be held there when the father, a Shell Oil Company employe, arrives from Maricao, Venezuela.

The first US patent was issued in 1790 to Samuel Hopkins for a new method of making pot and pearl ashes.

# Viennese Girls Sneer At Fuss Over Nylons

VIENNA (UP)—America's fuss about nylon stockings has left Vienna womenhood nonplused. They simply can't understand it.

Young Viennese women, always suntan-conscious even in the more lush days before the war, prefer bare legs in summer.

"If we must wear stockings at all, we want something better in appearance than those horrible, flesh-colored hose," one Viennese girl said. "Better no stockings at all than those vulgar appearing things that are supposed to be a stimulus to the masculine sex."

The girl was a good-looking brunette, and her opinion was typical of several questioned.

"My stockings, sun-tanned legs are better bait for any man than those dead stockings with no liveli color. That is, if I'm interested in impressing men," she added coyly.

Her sentiments were echoed by a blonde and a red-head accosted by a nylon-curious United Press correspondent.

"Well, in the first place, I don't have any nylons," said the blonde. "In the second place, I wouldn't want any, anyway. I want to wear only decent stockings."

"Me, too," the red-head said. "I want my suntan."

# Bank Robber Quickly Caught

DENTON, Oct. 1 (AP)—Charges of robbery with side arms were to be filed here today against a 23-year old Dallas man in connection with the robbery late yesterday of the Lewisville, Denton county, bank.

County Attorney W. K. Baldridge said the man was captured several minutes after the robbery. Approximately \$1,200 was taken in the holdup.

Baldridge said the armed man entered the bank through a side door and herded employees into a vault after obtaining the money.

The employees, through use of a telephone in the vault, notified the Lewisville telephone operator.

Baldridge said the operator, in seeking aid, contacted Bob Hilliard of Lewisville, who got in a car, drove down the highway toward Dallas. He saw the man in a field and captured him at the point of a shotgun.

The captured man was brought to Denton by Deputy Sheriffs Buster Gibbs and Sam Gentry and State Liquor Control Officer Woodie Mints.

# Army Calls Larger Number Of Draftees

WASHINGTON, Oct. 1 (AP)—The Army called on Selective Service today for an October draft quota of 33,000 men, up 10,000 from September.

There was no change in the age group to be called — 19 through 26.

The draft quota was raised without explanation on the heels of War Department orders to speed the release of some 300,000 non-volunteer enlisted men.

Volunteer enlistments, meanwhile, continued to exceed advance estimates. In the first two weeks of September 23,239 signed up for the regular Army — nearly as many as has been expected for the full month.

# STUDENTS STRIKE FOR GI PLAYERS

GLASSBORO, N. J., Oct. 1 (AP)—The 650 pupils at Glassboro high school marched out of the school yesterday protesting a state law barring three 19-year-old fellow pupils, all war veterans, from playing on the school football team.

Flanked by girl cheer leaders, the entire student body staged a half-hour parade, waving placards, some of which read: "All Work and No Play," "We Served Our Country. Why Can't We Play Now?" "We Want a Square Deal for our Ex-GIs."

The pupils arrived at the usual time, but assembled in the gymnasium, picked up placards, declared they were on strike and marched out.

# STATEMENT OF THE OWNER, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933.

Of the Big Spring Daily Herald published daily except Saturday at Big Spring, Texas, for Oct. 1, 1946, STATE OF TEXAS COUNTY OF HOWARD AS:

Before me a Notary Public in and for the State and county aforesaid, personally appeared R. W. Whipkey, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Big Spring Daily Herald and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, R. W. Whipkey, Big Spring, Texas.  
 Editor, R. W. Whipkey, Big Spring, Texas.  
 Managing Editor, Joe Pickle, Big Spring, Texas.  
 Business Manager, M. K. House, Sr., Big Spring, Texas.

2. That the owner (if owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.)

Big Spring Herald, Inc., Big Spring, Texas.  
 Bernard Hanks, Abilene, Texas.  
 Houston Hartie, San Angelo, Texas.  
 R. W. Whipkey, Big Spring, Texas.  
 M. K. House, Sr., Big Spring, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.)

None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise to paid subscribers during the twelve months preceding the date shown above is 5,271. (This information is required from daily publications only.)

## Business Activity Rises Sharply

AUSTIN, Oct. 1 (AP)—There was a sharp upward turn in business activity in Texas in August but it was not entirely free from troubles, the University of Texas Bureau of Business Research reports.

The present upward movement, which began in July, represents the greatest advance since V-J Day and matches the best wartime gains for a two-month period, said Dr. Robert W. French, bureau director.

Full employment was an actual as well as a statistical fact, production generally approached its wartime peak and trade was a record level, he reported.

He noted these troubles, however: "Industry was still troubled with strikes and shortages of labor and materials. Uneasiness was expressed in some quarters concerning the accelerated rise in prices and the growth of inventories, particularly of raw materials in the hands of manufacturers."

"Responsible government officials urged caution in the granting of loans and the bankers of Texas and elsewhere were warning each other against extending credit on inflated values. No apparent progress was made toward the settlement of the issue of government control or labor-relations during the summer."

## Increasing Wrecks Increase Insurance

AUSTIN, Oct. 1 (AP)—State Casualty Insurance Commissioner J. P. Gibbs advises automobile owners to drive more carefully if they want their car insurance rates reduced.

"Automobile owners must come to realize that this year's accidents make next year's rates and only a decided improvement in accident frequency or in the average cost of accidents in the ensuing months of 1946 will prevent further rate increases," he declared.

Gibbs said a slight improvement in the Texas traffic accident frequency trend in the past two or three months is reflected in a special survey of Texas automobile experience for the first six months of 1946.

The great increase in the average cost of accidents, however, dispel the hope of immediate decreases in certain classes of automobile insurance rates, he declared.

Statistics show that the average loss cost per collision claim has increased from \$74 in 1941 to \$159 in 1945 and to \$164 in the first half of 1946, Gibbs said. Likewise, the average loss cost per property damage liability claim (liability for damage to property of others) has increased from \$28 in 1942 to \$67 in 1945 and to \$73 for the first half of 1946.

## Farm Bureau Sets San Angelo Meet

One of 13 district meetings of the Farm Bureau Federation of Texas will be held at the Cactus hotel in San Angelo on Oct. 10, C. H. DeVaney, Coahoma, district director, has announced.

J. Walter Hammond, state Farm Bureau president, will preside, and Marvin Carter, state organization director will be present.

Chief topic at the meeting will be proposals of officials of government and other groups with reference to the future of agriculture, said DeVaney. The present-day trend toward cheaper agricultural products and proposals greatly resemble the plan followed after World War I when the rapeseed dealt damaging blows not only to agriculture, but the entire economy, according to DeVaney.

Plans also will be discussed for the state-wide membership drive to be conducted simultaneously in all counties the week of Oct. 24-30.

## Here'n There

Dwain Williams, 5-2, wrote home recently from Tokyo Bay where his ship, USS Chilton, a troop transport, had made port after leaving the states Sept. 7. It was the first time he had had opportunity to write since the transport left the west coast. Dwain enlisted March 28 in the Navy for two years.

Among the men discharged between Sept. 26-30 at Fort Sam Houston, are: S-Sgt. Hugh B. Walters, Ellis Homes; Pfc. William T. Brewer, Pfc. Pablo Gonzales, route 1, Pvt. B. D. Mason, 406 Temperance, T-5 Floyd L. Ashley, T-Sgt. Hugh T. Davis, Pfc. Vandoyl Murphree, route 2.

## Number Of Surplus Sales Scheduled

Planning in September will bear fruit in October in a program of 631 offerings of surplus property valued at \$1,205,876,000, the War Assets Administration has announced.

In the Fort Worth region there will be 43 sales, at least one a "site" sale. The October schedule includes all types of surplus stocks except real property. Information on October WAA sales is available at the Fort Worth regional office in the T&P building.

## Stamp Revenue Up Over September 1945

AUSTIN, Oct. 1 (AP)—State revenue from tax stamp sales during September totaled \$2,760,215, an increase of \$180,569 over the same month a year ago, State Treasurer Jesse James has reported.

Cigarette stamps for the month brought \$1,646,065; Liquor \$873,006; prescriptions, \$44; wine, \$24,882; and beer, \$216,267.

Beer, wine and prescription stamp sales were under figures for September, 1945, but increases in cigarette and liquor stamps more than offset the decrease.

## Painless Auditions Devised For Actors

By JEAN MEEGAN  
AP Newsfeatures Writer

NEW YORK — In an old red school house on the fringe of Broadway, an unorthodox graduation exercise was held recently when the American Theater Wing school for GI-theater veterans had its first commencement without speeches, sheepskins, patient relatives, or any pedantic palaver.

The graduation was, in the parlance of the entertainment business, a "show case" — two afternoon and evening performances of scenes from successes like "Yellow Jack," "Waiting for Lefty," "Room Service," "Golden Boy," "A Sound of Hunting" played to an audience of professional people in the market for new talent; Broadway producers, Hollywood talent scouts, stars, agents, and publicity people.

Short Cut in Casting  
In a catch-as-catch-can business where employment depends on whom you know, rabbitfoot luck, and being in the right place at the right time, the Theater Wing has set up a system of double exposure that may make theatrical casting more sensible and selective.

Young talent, which hitherto has cooled its heels in the theater's waiting rooms, has been given the opportunity not only of performing for the powers-that-

be on graduation day, but of working with them daily during the eight weeks' courses of their choice. Teachers at the school are the big shots of Broadway: Agnes DeMille, Alfred Lunt, Margaret Webster, people of that caliber.

Wonders in Radio  
The radio circle, for instance, just about hermetically sealed against newcomers, has been cracked by 40 percent of the veterans taking radio courses — through personal contact of teacher-employer and pupil.

Returns from the other theatrical fronts are not yet but the show case was judged a success by professionals in the front of the house, Maurice Evans sent for six of the performers immediately afterward to read parts for him.

Marjorie Morrow, casting director for Columbia Broadcasting System, commented as she left: "This is the most painless and interesting way of listening to auditions yet devised."

## Court Again Rejects McConnell Hearing

AUSTIN, Oct. 1 (AP)—The Supreme court refused for the second time yesterday to consider the case of J. Carroll McConnell of Fort Worth, who sought a mandamus forcing his certification of the state democratic ballot as the party nominee for associate justice of the Court of Civil Appeals at Fort Worth.

of incumbent Marvin H. Brown. The State Democratic Convention in San Antonio declared Gov. Coke Stevenson's appointee, Earl P. Hall of Henrietta, as the party nominee for the judgeship.
