

WILL INVITE U. S. TO LONDON CONFERENCE WITH SOVIET

Wheat Breaks Badly on Chicago and Kansas City Markets

ARMISTICE IMPOSSIBLE UNTIL 30TH

Probable That Military Operations Will Continue Until That Date.

WAR VETERAN, CHURCH HEAD, BURIED TODAY

Rev. R. Duncan, "Father of Baptist Church" Laid to Rest.

The Rev. R. Duncan, 73 years old, Confederate war veteran, and one of the oldest settlers of Ranger, died in the family home on the eastern outskirts of the city yesterday afternoon at 4 o'clock and was buried in the family plot in the Ranger cemetery at 11 o'clock this morning under the rites of the Masonic lodge.

Five children, Mrs. Hayden Neal, Mrs. Charles Holston, Mrs. Grady Wilson, and Albert and Maddox Duncan, survive the Rev. Mr. Duncan. Three other children, J. Paul Duncan, Mrs. L. A. Bradford, and Mrs. Bond, are dead.

The Rev. Mr. Duncan came to Ranger from Mississippi in 1892. He settled near what is now the Cooper addition to the city of Ranger. In 1903, together with his son-in-law, Hayden Neal, he purchased the place near Hillcrest, which was his home at his death. For many years he has been a member of the Masonic lodge.

He was called by the older settlers "the father of the Baptist church in Ranger." It was through his efforts many years ago that the first Baptist church was organized. At that time the little church, which is now a second-hand store on Pine street, was built and he was its first pastor.

Because the church had only a handful of members and were not able to pay, the Rev. Mr. Duncan served their spiritual needs without any salary recompense. He was paid in the respect and love of the community. His pastors were secured but up until he became a semi-invalid, five years ago, he was tireless in his work for the church.

It is said by those who lived through those days that his devotion to the church and his people was an inspiration to many that carried them through trying times. In addition to being pastor of the church, Rev. Mr. Duncan was superintendent of the Baptist Sunday school for many years.

The Jones-Cox company was in charge of funeral arrangements.

Per Capita School Fund Will Gain if Parents Register

It will be necessary for the parents of children who have moved to Ranger since last March, and who anticipated sending their children to the local schools, to apply to E. A. Ringold for a transfer before Aug. 1 in order that the per capita school fund for such child will be properly credited to the Ranger school district.

HOLLANDERS CALL WILLIAM'S NEW HOME "FORTY-HECTARE CAGE"

By Associated Press. DOORN, Holland, July 27.—The former German Emperor William, while professing a desire to lead a quiet life of a country gentleman, has nevertheless created a little court around him—somewhat larger than that which he had at Amerongen—and Dutch newspapers have already begun calling Doorn "The Little Potsdam."

The allies' demands upon Holland to guard the former emperor closely have made it impossible for William to mingle with the Dutch country gentry who have estates about Doorn and the house where he is said to expect to spend his remaining days is just like a little bit of Germany.

Strict military order prevails outside the house of Doorn, where passively and not too curious. Within, the discipline is Prussian. William's only associates are German. His entire staff, including approximately forty servants, are German, with one exception, the village barber, a Dutchman, is called in now and then to trim his hair or beard.

When at Amerongen, William went frequently to the village of Amerongen, but now, he is seldom seen outside the wire fence of his estate, which villagers call his "forty-hectare cage." Forty hectares are about eighty acres.

The few times he has been out, he has paid visits to his former host, Count Benckwicz, at Amerongen. Now and then, the former crown prince or others of William's sons have been permitted to visit the estate, largely because of the illness of their mother, but, from day to day, William seldom sees any new faces—only his daily associates.

K. C. DAIRIES REFUSE MILK DELIVERIES TILL ORDINANCE CHANGED

KANSAS CITY, July 27.—Four leading dairies made no deliveries today but advertised in a morning paper that a milk ordinance exists. They gave notice to consumers that they would supply no more milk under the present milk grading ordinance, which they styled "unreasonable and placing milk on list of prohibitive luxuries."

COOKE COUNTY FARMERS ESTABLISH COUNTY LIBRARY. By Associated Press. AUSTIN, Texas, July 27.—Cooke county is the first in Texas to provide for the establishment of a county library on petition, according to Miss Elizabeth West, state librarian, who has just been advised of the action of the county commissioners of that county.

Under the new county library law there are two methods by which county libraries may be established: one on the initiative of the county commissioners, and the other by petition. Dallas county was the first to establish a library on the initiative of the county commissioners.

Two hundred and fifty of the books which the American Library association has entrusted to the state library for distribution will be given to Cooke county when the library is put into commission, said Miss West. So long as the books hold out, the same number will be given to other counties containing no town of more than 20,000 population.

GOOD WHEAT HARVEST IN WELLINGTON DISTRICT. WELLINGTON, July 27.—Fifteen to twenty thousand bushels of wheat of the late crop is now stored here. Approximately twenty cars will be shipped out as soon as cars can be obtained.

Wheat is making from twenty to twenty-two bushels per acre. John Jones, residing northwest of town, has wheat that averaged twenty bushels to the acre and tested 62 pounds. This is regarded as extra good for soft wheat. Some wheat in the county tests as high as 63 pounds, according to a report to the West Texas Chamber of Commerce.

By Associated Press. CORPUS CHRISTI, Texas, July 27.—I. W. Howard, a farmer residing near it, claims the champion rat catcher of Texas. Two cats, trained to bring their "kill to the house recently killed thirty-five rats and a rabbit in four nights.

The first night they killed nine rats, depositing them in a box on the back veranda. The next night's tally was eleven rats and a rabbit; eight rats were killed the third and seven the fourth nights.

Hi Fellers, Let's Make It a Three-Cornered Bout

MAN HUNT STILL ON IN TRUNK MURDER CASE

CHICAGO, July 27.—Police are continuing the search for Eugene Leroy, wanted in connection with the shipping of a nude and mutilated body of a woman from Detroit to New York. Failure of Policeman Trumbull of Detroit to identify a man held in the name of Millen as Scott has resulted in new clues being looked for.

Investigation of the report of a Pullman porter that a man answering Leroy's description came from Detroit to Chicago recently and crossed the porter's suspicions through remarks he made. The man was accompanied by a woman and said he was going to Los Angeles. Western railroad centers have been wired.

DETROIT, July 27.—A new theory was injected into the trunk murder mystery today when Mrs. Leo Trumbull, wife of a patrolman friend of Leroy's, told the police Mrs. Eugene Leroy confided in her that she was about to become a mother.

The police are hunting for a second trunk believed to contain vital organs of the body known to have been sent from the address where the Leroy's lived.

It is believed an examination of the organs might reveal whether the death was due to a criminal operation. Mrs. Trumbull will go to New York to view the body.

Police declared it had been established that Mrs. Leroy planned suicide before her death.

RATS GNAWING COTTON BOLLS IN SOUTH TEXAS. By Associated Press. CORPUS CHRISTI, Texas, July 27.—I. W. Howard, a farmer residing near it, claims the champion rat catcher of Texas. Two cats, trained to bring their "kill to the house recently killed thirty-five rats and a rabbit in four nights.

The first night they killed nine rats, depositing them in a box on the back veranda. The next night's tally was eleven rats and a rabbit; eight rats were killed the third and seven the fourth nights.

Rats have multiplied so rapidly in the country districts that they are destroying cotton by gnawing holes in the young plants. Farmers are planning a campaign of extermination in order to save their corn and other stored grain this fall.

LOONEY GIVES HIS SUPPORT TO PAT M. NEFF

GREENVILLE, July 27.—Attorney General Looney today issued a statement that he would not support Joseph W. Bailey in the runoff primary. He issued the statement, he said, "to stop speculation as to my position."

Declares Bailey "Has Tried to Destroy Democratic Party."

DALLAS, July 27.—Returns received by the Texas Election Bureau Tuesday morning gave Bailey the biggest lead over Neff in the votes cast in the Saturday primary election began. Reports from 240 counties give Bailey 5,061 votes lead over Neff. Of these counties forty-eight show complete returns.

A total of 397,491 votes have been accounted for in the governor's race. The standing is: Bailey, 134,095; Neff, 41,986; Neff, 129,034; Thomas, 89,376.

Returns are coming in very slowly. Indications are that there will not be a complete count for several days.

Other votes counted: Neff, 66,245 for, 31,936 against.

Davidson is leading for lieutenant governor, with 78,337. Johnson is next with 55,123.

Buying Orgy Shows Decline; Autos First Hit

ST. LOUIS, July 27.—Extravagant buying is rapidly subsiding despite the fact that the purchasing power of the public is not diminished, says the monthly report of the eighth federal reserve district. Advice from department stores indicate that customers are demanding the worth of their money in quantity and quality. Statements from the bond houses say the public is buying Liberty bonds with eagerness.

POLICE ASSIST CHICAGO BOOZE TRAFFIC, CLAIM

CHICAGO, July 27.—The chief of police is investigating reports that the police extend aid to saloonkeepers in the purchase of liquor. The investigation was started following the arrest of a detective sergeant on that charge last night.

Federal prohibition officers in Chicago have been complaining for some time that the police department refuses to assist in the liquor law enforcement. They go even further and say that the police are active in assisting evasion of the law. One agent charges that patrolmen tell men at what saloons real liquor may be obtained.

A large per cent of the old-time saloons remained in business after prohibition measures went into effect, and the plan of operation is to sell the hard goods at one price for a few days and then shift it to another, while the first barroom reverts to legitimate soft drink business, it is said.

FT. WORTH TO PLAINS RAILROAD BENEFIT TO VAST TERRITORY

LOCKNEY, July 27.—Lockney and other towns in this section of the state have been asked to stir up interest in the proposed railway from Fort Worth to the plains section, according to word received by the West Texas Chamber of Commerce.

Plainview and other towns in this section are vitally interested in a short line railroad from the plains to Fort Worth to cut down mileage and time in marketing the plains livestock and wheat and other crops.

Probably no other section of the Southwest is today prospering greater than this, nor is there any section which is feeling the great tide of immigration flowing westward like Floyd county. Hundreds of acres of sod land is being broken up this year to add to the immense wheat crop expected to be harvested in 1921.

FLOYDADA FARMERS TO BUILD CO-OPERATIVE GIN

Special to The Times. FLOYDADA, July 27.—Another instance of the leaven that leavens the whole is revealed this week by the spirit of community co-operation in Floydada, when farmers will build their own gin. It is planned to incorporate for \$20,000. A site for the gin has been selected and construction awaits arrival of machinery.

WEAKNESS OF YESTERDAY CONTINUES

Stop Loss Selling Orders Held Responsible for Break

KANSAS CITY, July 27.—Wheat futures dropped 13 and 14 cents here today. Corn futures were down 5 cents at the close of the grain market here.

CHICAGO, July 27.—Sensational breaks in prices took place today in the wheat market. The finish of trading showed losses of 11 1/4 to 14 cents per bushel, in addition to the extreme drop yesterday of 8 cents. The new crash was due chiefly to selling of a stop loss character by discouraged holders.

March delivery closed at \$2.37 against \$2.51 last night.

CEMENT BEDS NEAR RISING STAR AMONG LARGEST IN COUNTRY

Special to The Times. RISING STAR, July 27.—Interest is being revived in the cement beds in the mountains south of town in view of the present scarcity of cement and the immense building campaign that is forecast by the development of the local oil field.

According to a geological report to the West Texas Chamber of Commerce the cement beds are reported among the largest in the country and of a superior grade would be easy and light in expense by reason of the gas available in this section. The sand in this section is also good for making cement blocks, a few buildings of which have been erected in Rising Star.

Rising Star is situated not only favorably for the development of its oil resources, but it has building material and natural resources which are now being studied with a view to early exploitation, according to statements recently made here.

DICKSON ORPHANAGE SEEKS AID HERE FOR HOMELESS NEGROES

J. E. Taliver, field agent for the Dickson orphanage and industrial school for negroes, is in town today seeking funds to aid in supporting the institution. The orphanage is located at Gilmer, Texas.

The institution is the only one of its kind for negroes in Texas. It takes homeless negro children and provides them with a home and educates them along general lines and also teaches them a trade or profession. A number of bankers and Ranger business men have subscribed to the support of the school.

DOZEN FINGERS AND TOES. WANTS THEM CUT OFF

By International News Service. NEW YORK, July 27.—When Paul Anderson, eleven years old of Riverdale-on-Hudson, was admitted to Bellevue hospital recently the authorities discovered that he had in their midst a physical freak.

The lad had twelve toes and twelve fingers, the small toe and small finger being duplicated by Mother Nature. He was admitted to the hospital to permit the amputation of the superfluous members.

CORPUS CHRISTI WOMEN FORM HOUSEWIVES LEAGUE

CORPUS CHRISTI, Texas, July 27.—The club women of Corpus Christi have organized a housewives league which has started a drive in connection with the national movement to lower the prices of commodities. The league has adopted a platform endorsing the effort of the department of justice to prosecute profiteers and agreeing that members shall curtail their buying to actual necessities in order that the supply may catch up with the demand in the nation.

MONTREAL RANKS SECOND IN FOREIGN COMMERCE

MONTREAL, July 27.—The port of Montreal, in relation to the value of foreign commerce passing through it, ranks second in the western hemisphere and seventh in the world, according to the annual report of the harbor commissioners covering port operations during 1919, which has just been issued.

Whisky in Cocoanuts. KINGSTON, Jamaica, July 27.—There is hardly a ship coming here from America whose crew do not purchase a quantity of rum and whisky. As much as \$60 is being paid for a case of the beverage, an increase of 100 percent. Evidence has been disclosed that whisky and other spirits are being smuggled into the United States in bags of cocoanuts.

PARIS, July 27.—Premier Millerand left today for Bologna to discuss with Lloyd George the Russian Soviet proposal for a conference between the Allies and the Soviet government. It is reported that Millerand gave as preliminary conditions to entering negotiations with the Russians the acknowledgment by the Soviet of international engagements of the former Russian government and confirmation by the Russian people of the Soviet's authority.

He probably will refuse to agree to the request contained in the Russian note for the surrender of General Wrangle, anti-Bolshevik leader in southern Russia, and will ask the United States to participate in the London conference.

VIENNA, July 27.—The Soviet military command has notified the Polish commander that it is unable to arrange a date before July 30 for preliminary armistice meeting.

A Russian wireless message intercepted here says the Soviet will know how to secure a peace that will make such rapacious invasions as Poland's forever impossible.

PRESERVATION OF PEACE OBJECT OF ANGLO-JAP TREATY

TOKIO, June 27.—The Anglo-Japanese alliance does not run counter to the League of Nations, wrote Premier Hara, favoring a renewal of the pact, in the course of a contribution to a properly current issue of the Japanese Diplomatic Review.

Mr. Hara declared that the English alliance is intended for the preservation of peace and order in the Far East, with no particular country its objective. The Japanese were determined to improve the relations with China and to develop the rich natural resources of China. It was a good thing, he thought, that the United States was taking an economic interest in China. But while the interest of the United States was economical, to Japan the relations with China were really a question of life and death for the nation. He hoped this fact would be appreciated in a sympathetic way by the American people.

Concerning Siberia the premier wrote: "The original object of Japan's expedition to Siberia was to aid the Czechoslovaks. In the meantime, however, Siberia has undergone serious upheavals, endangering the peace and order in Manchuria and Mongolia. This is the reason why Japan cannot evacuate the country as soon as she expected. However, when peace and order have been restored in Siberia, safeguarding the life and property of Japanese residents, and ensuring freedom of communications, the Japanese troops will be withdrawn, with the repatriation of the Czechoslovaks."

"REPOSSES PEOPLE OF THEIR GOVERNMENT" SAYS GOV. COOLIDGE

NORTHAMPTON, Mass., July 27.—Rescue from the reactions of the war are described as the transcendent need of the nation in the address of Governor Coolidge, accepting formally the Republican nomination for Vice President. He said the chief task lying before us is repossessing the people of their government and property.

He found another source of gravest public concern in "the reactionary tendency to substitute private will for public will." It has been the disposition on the part of some individuals and groups to inquire whether they liked a law and if not to disregard it and prevent its execution by methods of direct action, he said. "Observation of the law is the greatest solvent of public ills," he added.

LEGLESS MAN TRIES TO SAVE DROWNING BATHER

By International News Service. BALTIMORE, Md., July 27.—Seized with cramps while bathing in the Patapsco river, Louis Fried, twenty-one years old of New York City, was drowned. Charles Zimmerman, a legless man, seated on a pier watching the young New Yorker, plunged overboard and attempted a rescue.

He located the body, but because of his physical handicap Zimmerman was unable to bring it to the surface. The legless man shouted for assistance and the body was recovered.

COON WOLF HELD FOR HOUSTON COUNTY OFFICERS

On a warrant from Crockett, Houston county, the police department yesterday arrested Coon Wolf and placed him in city jail. Wolf, the police say, is charged with horse stealing.

LATE BULLETINS

ATHENS—King Alexander of Greece makes formal entry into Adrianople today with troops, it is reported. The Turkish Nationalist forces fled to the mountains on the Bulgarian frontier.

LOS ANGELES—Another slight earthquake was felt here at 12:02 a. m. today.

The Times Gives You the News.

The Times' election service proved again that the best is none too good for readers of The Times. The Sunday issue had returns on the governor's race that were eight hours fresher than The Times' nearest rival. On the state race, it carried authentic returns of the Texas Election Bureau, in addition to its Associated Press reports. As complete county returns as were available were printed, as well as the Ranger count and reports gathered by all the newspapers of the Seventeenth congressional district, on the Blanton-Grisham race. Monday's Times had Texas Election Bureau results, Associated Press reports and tabulated returns of the county. The Times gives you the news.

JOHN-A-DREAMS

LXXVII. WHEN YOU DREAM OF SHOES

The most unimportant things may be of great importance, in dreams. Shoes are among them. A whole world of prophesies may come to you through sole leather. The first and most significant of them all is the dream knowledge that the weather is bad and you are wearing stout shoes—

Let firm, well-hammered soles protect thy feet.
 Through freezing snows and rains, and soaking sleet—

and you may be sure that all your undertakings will be successful, that your enemies will be powerless against you, that there will be no thorns on your path and that, though danger may come, you will be able to step out of its way.

To dream that you are wearing shoes which are too large for you, is generally accepted as a sign of pitfalls, obstacles and little troubles—

Should the big last extend the sole too wide,
 Each stone will wrench the unwary step aside.
 The sudden turn may stretch the swelling vein,
 Thy cracking joint unhinge or ankle sprain.

Another dream, though not serious in its meaning, yet rather unpleasant in its possible consequences, is one in which the sleeper's shoes are too small and hurt:

And when too small the modish shoe are worn,
 You'll judge the seasons by your shooting corn.

If you see new shoes on other people this means gaiety in your home, if you wear them yourself, a new and very happy experience. If you notice a man's shoes in your room and are very much surprised, you will receive a visit from a man of whom you think very much and whose voice makes your nerve tingle.

To see baby shoes is a certain sign of marriage, if the dreamer is single; of childbirth, if she be a wife. To have a shoe thrown at you is equivalent to a money gift, to have shoes given you as a present means that you will spend money in order to please some one, and his or her pleasure will be nothing as compared with the satisfaction you will experience in seeing the recipient pleased.

To find yourself with only one foot shod shows indecision in an important matter. Satin shoes are the dream-sign of the bride, especially if they are white. Shiny boots betoken a trip, muddy ones a long ramble in the country, in the course of which you will be told many sweet things.

To see a soldier's boots means that a man you value highly will be compelled to say farewell for quite a time. The action of putting on your shoe is a sign that a matter which has fretted you somewhat, will come to a quick decision, in all likelihood through your own determination of bringing it to a head. A young girl who dreams that she will know very soon whether the man or whom she has set her heart really cares enough for her to ask her hand in marriage, a married woman will probably have an argument with her husband when it is over they will love each other better than before.

Answers to Dream Questions.
 Mary Lee C. says: The first part of your dream (the hard work, and later the horse's advice) means that, at present you are in quite a little trouble, but you will meet a friend who will not only advise you how to get out of the difficulty but will also actually assist you. Finding the hair ornaments means that, after having been rid of your cares, you will have great hopes of the future and spend quite a little money. Soon, however, a new care will arise, but out of this trouble the same friend will again help you, but a lot of gossip will start whereupon you will try to conceal your further doings from those who do not like you. To your great and pleasant surprise you will then find more friends, people who you did not think liked you very much. In this manner your position will be vastly improved, both in money matters and otherwise and in a few months time you will be better off in every respect than you ever were before.

Mrs. J. M.: There will be quite some excitement in your family, in all likelihood over some slight illness which, at first, you will believe to be serious. But soon you will learn that your fears were groundless. Soon after this scare is over you and your husband will be confronted with the question of moving to another city, as an opportunity will offer itself which will seem excellent. Those who will want your husband take this chance will pursue him and with their advice (the bill) and the matter will be finally left to your decision. You will be able to see clearly (the spectacles) that it would not be to his advantage to accept and you will remain in your present home.

The next chapter will deal with Smoking.

A measurement of 102,312 soldiers of the U. S. army was made for better fitting uniforms, which will result in the best dressed fighting men in the world.

Final official statistics show that 1,662,872 French soldiers were killed during the world war. Of this number the details of the fate of 361,854 are unknown.

IMPROVED CROP CONDITIONS FORECAST EASIER CREDIT, SAYS DALLAS FED. RESERVE BOARD

DALLAS, Texas, July 27.—Developments that produced a favorable and clarifying effect upon the business situation in the southwest were witnessed during June, stated the monthly review of business and industrial conditions in the Eleventh federal reserve district by the federal reserve bank of Dallas for that month.

Improved crop conditions, the passing of the spirit of hesitancy and suspense with respect to the outcome of the Chicago and San Francisco conventions, and the growth of a more optimistic view on the part of business and banking interests of the policy of loan restrictions inaugurated under the council and advice of the federal reserve board," said the review, "have all contributed to a brighter outlook.

Banking
 "Industrial and business enterprises which at first were inclined to 'view with alarm' the discrimination applied by the banks in apportioning credit, as during the war, on the basis of essential needs, are finding that most of their fears are groundless, and as a general rule are accepting the new order of finance not only willingly but with conviction that the ultimate result will be to secure for business a firmer foundation and sounder basis for building up an enduring prosperity.

A quiet tone continued to dominate mercantile transactions in June. Buying in the retail, as well as primary markets, was conducted with the same spirit of caution and controlled by the same discrimination in favor of immediate

CRESTONE PEAK, COLO., CLIMBED FIRST TIME

DENVER, July 27.—The summit of Crestone Peak, 14,233 feet above the sea level, has been conquered for the first time in the history of mountain climbing in Colorado, according to word received here from the San Isabel forest, in southern Colorado.

Fighting their way upward through deep banks of snow, scaling cliffs where at times they hung suspended by their fingers with a sheer drop of a thousand feet beneath them, and passing thru an electrical storm that literally lifted the hair from their heads, four expert climbers of the Colorado Mountain club negotiated the perilous peak after a ten-hour struggle up the ten miles from the foot of the mountain, which is the highest peak of the Sangre de Cristo Range.

Crestone "needles" has been considered unclimbable for many years, but finally succumbed to the intrepid sportsmen, headed by Jack Henrich, a rancher of the San Isabel National forest. "We started climbing at 10:30 in the morning," said Henrich, "and after overcoming tremendous obstacles in the way of deep snow banks, steep cliffs and a severe electrical storm, we reached the summit shortly after 4 o'clock in the afternoon."

JOHN H. PACKER, well-known electrical engineer, of Liberty, Mo., who says that to look at him today no one would ever take him to be the same man he was before Tanlac restored his health. Has gained forty-four pounds.

"For two years previous to the time I began taking Tanlac, I lived principally on a raw-egg diet. During this time I was laid up in the hospital for five months and practically no hope was held out for my recovery. I don't suppose any man had a worse case of stomach trouble than I did, in fact they said I could not live."

Tanlac did not seem to help me much at first, and I had almost made up my mind to give it up, but if I had given it up it would have been the mistake of my life. I stuck to it for a fair test and am thankful that I did for after finishing my fourth bottle, my appetite was better and I noticed myself improving.

"This encouraged me to keep on taking it and in two months I was able to eat a good square meal and digest it as good as anybody. Then it wasn't long until I got so I could go back to my work and at the time I had finished my last bottle, I found I had actually gained forty-four pounds in weight."

"To look at me today no one would ever take me to be the same man I was when I began taking Tanlac."

The above remarkable statement was made recently by John H. Packer, well-known electrical engineer of Liberty, Missouri. Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

tions of major importance were recorded during the month.

Agriculture
 "Agriculture and livestock conditions were on the whole satisfactory. A larger yield of grain than was anticipated seemed to be assured. Cotton, though favored by marked improvement of growing conditions, was in many sections of the district attacked by the boll weevil and other insects, and the size of this year's crop, already conceded to be a short one, will depend upon the extent to which it is favored by hot, dry weather during the remainder of the season.

"Labor conditions have gradually been improving, according to reports received. The slackening in construction work and various other industrial activities has a tendency to stimulate competition for employment, resulting in a greater efficiency as well as supply of labor."

Car Shortage
 "One problem of immediate and pressing importance confronting the district

at this time is the matter of obtaining freight cars to move the new grain crop. With an estimated production of 17,000,000 bushels of wheat in the Panhandle alone, the demand for prompt action in providing transportation facilities to move it is dedicated both by the danger of losses from weather damage and the necessity for releasing credit tied up in the crop."
 (Continued on page 4.)

"Well," drawled the unassuming listener, after the self-appointed hero of the war had ended his narrative of his thrilling exploits. "Of course, I never had nothing particular happen to me, but still one time I did something rather risky."

"Yes?" queried the hero patronizingly. "and what was that?"
 "Well, I was shaving and using my periscope for a looking-glass and the German trenches were so near that when I got through I found I had shaved; Jerry by mistake."—American Legion Weekly.

BATTING AVERAGES. Table with columns: Player, G, AB, R, H, TB, 2B, 3B, HR, SB, BB, SO, PCT. Lists players like Penn, Ranger, Taylor, Gorman, etc.

PITCHING AVERAGES. Table with columns: Player, Club, IP, AB, H, R, SH, HR, BB, SO, WP, W, L, P. Lists players like Smith, Gorman, Hill, etc.

CLUB BATTING, CLUB FIELDING, FIELDING AVERAGES. Multiple tables showing team statistics for various clubs.

Hudspeth's Walks and York's Slips Cost First Game

With four games yet to play with the leading Resorts, the Nitos have a chance to pass them...

Frank Hudspeth's wildness and Jack York's bad day in the field cost the Nitos the first game of the critical series...

It started, as did all the Resorts' rallies, with a walk, issued to Buddie Bristow, first up in the second...

Bill Burns, the Resorts' new pitcher, used to play in the same circles as Manager Jim on the Pacific Coast...

Jack York had a bad day in the field. He started in the first inning with a flashy one-hand stab of a wild throw...

Mason, who has won a place in the hearts of Nitro fans by the smash which broke up Sunday's game in Gorman...

The Nitos showed well in the fifth, when Jim scooped one out of the dust and threw low to York on Toner. Stidelle

Mooney played a stellar game in center, covering a wide range of territory and garnering seven put-outs.

took third. Bristow drove to Mooney, ending it. Byers, first up in the eleventh, drew a pass...

Mooney robbed Stidelle in the ninth, with two out. It was a smoky one, but Dude hardly had to move to take it...

Schilz robbed Tommy Lovelace and nipped a Nitro rally in the first, when he had been thrown out at the plate...

Rose, Resorts center fielder, came in for a good deal of ragging. He whiffed three times, and kicked on it.

Two with the Resorts today and two more tomorrow. The box score: EASTLAND—AB R H PO A E

Score by innings: 4 0 1 2 3 4 5 6 7 8 9 10 11 12

Summary: Stolen bases, Baldridge, King, Anderson; two-base hits, Burkhead; Beard; three-base hits, Beard, Flagg; double plays, Beard to Anderson...

Games Today. Mineral Wells at Ranger (two games), Eastland at Abilene, Gorman at Cisco.

Results Yesterday. Mineral Wells 3, Ranger 2 (11 innings); Cisco 7, Gorman 3, Abilene 9, Eastland 4.

Games Today. Fort Worth at Houston, Shreveport at San Antonio, Dallas 17, Houston 2.

double to the left barrier and Clapp didn't get the ball first try. When he did he relayed to Jim, who threw Toner out at the plate...

Mooney played a stellar game in center, covering a wide range of territory and garnering seven put-outs.

The Nitos showed well in the fifth, when Jim scooped one out of the dust and threw low to York on Toner. Stidelle

EX-WATERMELONS.

Somewhere in Texas there was an excellent watermelon crop this year. Judging by the price, the quantity may not have been anything exceptional, but the quality, it would seem from the cordia reception given them by Ranger palates is most excellent. In fact, one might say that the flavor is unusually good.

There is one thing, though, about consuming this luscious fruit of the vine. And that is this: the remains of a deceased watermelon advertise their presence in a manner wholly offensive to sensitive nostrils. They are the essence of pollution and the leaving of rinds scattered in public places should be stopped. It is probable that the licensed eating places remove this refuse promptly; a least their premises give no evidence that this is not done. But there are outlying haunts of the itinerant watermelon vender where rinds are permitted to fall where they may, to the disgust of the passersby.

One of these is the team track of the Texas & Pacific railway, just east of the depot. Ordinarily there are several cars of melons placed there by speculators in this product. And around these cars are always a number of semi-dressed melons in various stages of the morning after. Scores of automobiles and pedestrians from the East Side pass these cars daily, and their thoughts, if expressed, would probably be in words unprintable. These decaying rinds are an offense to the senses and a menace to sanitation.

If there are ordinances to force these itinerant melon dealers to clean up the ground around their cars it should be enforced. If there is none, one should be passed promptly.

AND THEN—

It would seem to the casual observer especially one from the cities of the state that local drivers put their automobile and flippers through their paces with extreme recklessness. The small number of accidents would seem to offer testimony that this is not the case. But it is evident to all that many drivers, if not reckless, at least drive with a cheerful abandon that will some day result in a crash. The rules of the road are violated without a qualm, it would appear. Driving down the wrong side of the street is so common that it has almost ceased to be noticed. Parking on the wrong side of the street also confuses traffic.

But the worst of all is the nonuse of arm signals. The unwritten rules of the road provide that as a courtesy and safeguard to fellow travelers one shall signal a halt or a turn by an extended arm. Failure to give this signal almost resulted in a smash last night. The driver of a large car made a complete turn at Austin and Main streets. The driver gave no signal of his intentions. Another car was coming east on Main. Seeing no signal, it proceeded on its way—at a trifle excessive rate of speed, perhaps. The result was that the orbits of the two vehicles missed merging into one by a narrow margin.

A little more regard for the fellow vehicleist will prevent the accidents that some day inevitably will occur under the present disregard for the rules of the roads.

News Item—Liquor now is being smuggled into the United States in cocoanuts. But don't be in a hurry to buy up all the cocoanuts in town. The chance of an accidental mixture of shipments is very small.

Revival Meeting

Continues at East Ranger Baptist Church with fine interest. You should not miss hearing the great sermons the Evangelist brings each time.

The singer will organize the boosters' choir at 8 o'clock this evening. M. F. DRURY, Pastor.

Tinker Bob Stories by Carlisle H. Holcomb

THE HUNTER'S GARDEN SUFFERS

Old Solomon Sun comes slowly up in the east and smiles on all of the Forest Dwellers and on the King. Tinker Bob was glad for he wanted the Day of Frolic to be a success, and it could not be a success at all unless Mr. Sun came out to make it warm and bright. Red Fox, who had to wear the King's stick, was appointed by the King to prepare the soft drinks for the day. It started out to be a warm day and the King knew that some of the performers would be thirsty before they were through.

Tinker Bob had a bucket made from a gourd that grew by his Palace wall. He sent Red Fox to the spring at the foot of the hill to get fresh water. Three-legs the Musk Rat had brought some sassafras roots and Chief Porky

Rippling Rhymes by Walt Mason

AFTER CONVENTIONS.

Historic now the great conventions, at which our fognorn statesmen raved; both parties seek of those intentions, with which the Hades' streets are paved. Both parties frown on those abuses which make our lives one long ordeal, and both could cook the sinful gooses of profiteers who gouge and steal. I listened to the keynote speeches, applauded when the stunts were done; of all the pebbles on our beaches, I missed, "these statesmen take the bun." I'm glad our woes will soon

MR. BRYAN DECLINES.

In their attempt to draft Mr. Bryan or service as their presidential candidate, the Prohibitionists at Lincoln, Neb., were guilty of a grave discourtesy to their honored co-worker. It was a poor way to repay him for all that he had done for the cause to which they have dedicated themselves. After holding their national convention at his door and proclaiming him "that peerless moral and political leader," the best compliment they could have paid him would have been to respect his scruples and leave him to a life of philosophical calm.

Mr. Bryan is a man of conscience, of moderate views, a lover of peace and good will among men, and a hater of petty political strife. To place him in command of the prohibition forces after all these years of modest effort would be to make an excessive sacrifice of his resources of eloquence. There is a more profitable field in which he can employ them. The privilege of leading some thousands of prohibitionists to certain defeat is hardly to be considered after attaining the distinction of having been three times beaten as the Democratic candidate.

Mr. Bryan is no slacker, no draft evader. He is entitled without reproach to lead that he has reached the age of retirement and to point with pride to his ears.

21—LEGAL NOTICES

NOTICE OF DISSOLUTION—Notice is hereby given that the partnership lately existing between J. P. Hivick and Charles Moler of Eastland county, state of Texas, under the firm name of Hivick & Moler, was dissolved by mutual consent on July 7, 1920. All debts owing to said partnership are to be received by Charles Moler and any demands on said partnership are to be presented to Charles Moler for payment. This 20th day of July, 1920.—Charles Moler, J. P. Hivick.

Strawn Shallow Pool Produces 2 More Good Wells

The Texas-Pacific Coal & Oil company has two more good wells in the Strawn shallow-sand district. A. D. Holertz No. 16, in the Holertz pool, eight miles northwest of Strawn, is a 300-barrel producer, from the shallow sand at 1,602 to 1,618, natural flow.

Stuart & Sons' No. 122 is flowing seventy-five barrels through sixty feet of cave at a total depth of 1,623 feet. The well is cleaning out and is expected to make 200 or 300 barrels when completed.

The T. P. has twenty star rigs at work on the Stuart and Holertz tracts. Wells in this field can be drilled comparatively small expense and production has proven the most uniform and consistent of any part of the West Texas fields.

Mid-Kansas No. 1 Douglass Adds to Stephens Co. Figures

The J. W. Douglass No. 1 of the Mid-Kansas company, north of Ivan, is making sixty barrels an hour, twelve feet in the lime at 3,275. It is an offset to the Milan of the same company which was completed some time ago, but is a much better well than the Milan. Pipe line connections have been made.

While this well proves no new territory, it affords fresh proof that northern Stephens county is the leader of Texas oil regions. Over half the production of Stephens county is now coming from the district north of Breckenridge, at the extent of territory which has only been scratched furnishes good evidence that development in this region is far from its peak.

HOMER A BLOOMER; ARKANSAS CERTAIN OF HEAVY ACTION

Oil men who are familiar with the "inside" of the Louisiana districts around Homer and Bull Bayou state that operations there have proven very disappointing. An oil man who recently returned from an eighteen month stay in fields of Louisiana stated on his return that reports of 20,000 and 40,000 wells are in many instances gross exaggerations. He said that very few wells in Louisiana have ever held up to 10,000 barrel production for a week's time after being drilled in and that the life of most of the salt dome gushers was so short that often they did not yap drilling expenses.

This scout stated that Arkansas is certain to experience a big development this fall and winter. He said the Hunter well in Arkansas is a real find.

JOE DARNELL WELL IF PHILLIPS FLOWS BEFORE DRILLING IN

The Joe Darnell No. 1 of the Phillips Petroleum company, in the Lyden pool of northern Stephens county, is producing 250 barrels of oil from the top of the line at 3,215 feet. It is near the Mid-Kansas company's Hill well a fine producer. It will be drilled in this week.

ONE-TENTH ACRE IN TOMATOES NETS \$200

RIISING STAR, July 27.—One-tenth of an acre in tomatoes has netted J. W. Hancock, two miles northeast of town, the sum of \$130 and by the time the crop is all sold he expects to have realized therefrom not less than \$200. He also has a patch of Irish potatoes covering 500 square yards from which he sold to the amount of \$65 and kept \$20 worth for himself. Rising Star truck opportunities are now great, says the West Texas Chamber of Commerce.

Breck Pool Crowds Burk for Head in Texas Production

BRECKENRIDGE, July 26.—The Cooper-Henderson's Martin No. 5 that was shot with sixty quarts of nitroglycerine a few days ago is now making under the gauge 800 barrels a day. Their Martin No. 4, adjoining this well has come in and is making 1,000 barrels per day. The pay sand was struck at 3127 feet, and has been drilled in thirty-five feet. This makes the fourth well belonging to Cooper and Henderson in their Martin tract during the last sixty days and they have two more in this same tract now on the top of the sand. It is further interesting in that this proves up all of their interests in the Martin survey which consists of 280 acres adjoining the town on the north and west side. They are now making four more locations on the same tract. In the north field, within the next thirty days there should be recorded from 100 to 150 completions and Stephens county ought to strike the pay with at least 200 wells in that time. The splendid record of the latest wells coming in swelling the production to such an extent has enlivened an intense and growing interest in the Breckenridge pool and all operators with the sportsman's instinct have been watching the race between Breckenridge and Burk Burnett as Breckenridge has slowly crowded Burk Burnett for the lead. It is easily expected that including the recent completions in the Breckenridge pool, Breckenridge will outstrip Burk Burnett. The Louisiana-Stephens Oil corporation, Fred B. Foster, president, announces the completion of their new well in the Puck's tract 1300 feet from the Ibeix in the southwest edge of town pay was struck at 3120 feet and 27 feet was drilled into the sand. This well is now making 700 barrels per day flowing by heads, every twenty minutes. The owners have not decided whether or not it will be shot with nitroglycerine but it is very likely that it will. This well spudded in May 21 and was completed in sixty days. It is largely owned by Pittsburgh, St. Louis and San Francisco people. W. W. Fish, local engineer reports four new locations for the Carteret Oil company in the south side of Breckenridge field and the timbers are on the ground for two rigs. The Gulf's No. 1 on the L. A. Stokes tract, just south of town, has struck the Strawn sands at 2,000 feet. The company, however will drill on into the deeper sands. The Sugar Loaf Oil Gas company has made a location on Block six in the Banks addition and the derrick is about completed and the tools are on the ground. C. H. Clark and J. B. Alexander have made locations on Block 64 and 45 in the city of Breckenridge. Higginbotham No. 3 Snowden and McSweeney, one mile north of Breckenridge that came in July 22, for 7,200 barrels is making more than 8,000 barrels daily.

With an enrollment of more than a million, few organizations of national scope have grown so rapidly as has the American Legion.

GULLAHORN, Mgr.

U. S. Conscience Would Prevent Intervention

By Associated Press
 MEXICO CITY, July 24.—Senator Guillermo Lavagna declares in a statement he has just published that he believes the idea of American intervention in Mexico "very soon will be discredited and that this sole factor in creating hate and distrust between the two peoples will disappear forever."
 Senator Lavagna endeavors to interpret to Mexicans the ideas of Americans, as one who formerly lived in the United States. In part he says:
 "I do not admit that American interventionists represent the national conscience of the American people. They represent only one class, the usurious capitalists. The honest and conscientious men who form the government never admit them to their deliberations."
 "Neither do I admit that the American interventionists can deceive with their calumnies and false theories the laborious citizens of that republic. The American people are very credulous, but it has been deceived so often, it has suffered so much from the magnates of the dollar that it knows their methods, distrusts them and fears and repudiates them. I have faith in the moral personality of the American people."
 "I assert that Mexico, in the last ten years of civil war, has made more progress in cultivating civic spirit and has its progress on more solid bases than in all its previous years of existence as a nation. Naturally we must wait long for the world to convince itself of this but truth and justice, even tardily, always triumph and will confound our gratuitous detractors with the malediction of history."
 "We Mexicans are forming our codes, working out our destiny as a free nation. We are, naturally, making many errors. But do these justify other nations, simply because they are strong, in trampling upon our dignity as an independent people, in killing us? If this happens, we can cry: "Might is Right" and "Deutsch land Uber Alles."

THE WOMAN WHO SAW

Magna Cum Laude.
 There is a certain little restaurant not far from one of the city's universities where the Woman often snatches a hurried lunch. To this particularly attractive eating place come learned professors from the college near by who appreciate the home cooking, good food and general cleanliness.
 Quarters are somewhat contracted and the limited number of patrons are at times crowded closely together, making confidential conversation impossible. The Woman is often a willing listener to illuminating bits of wisdom which fall from scholarly lips, and has picked up many a valuable piece of information.
 One recent sunny day she learned of the esteem in which a certain well known woman was regarded by the eminent professors. As her name was mentioned the Woman, apparently absorbed in a highbrow magazine, pricked up her ears. There was no dissenting voice, one and all agreed in praising this particularly brilliant specimen of the weaker sex, admitting that she was endowed with qualities not possessed by her less gifted sisters.
 But it remained for the dean of the company to pay the highest tribute to her wisdom. From the standpoint of mere man there could be no greater compliment. "Yes," he said, almost regretfully, "she is certainly a very gifted woman. I consider she has almost a 'masculine' mind."

An Involuntary Slot Machine.
 The Woman was fortunate enough to find a seat in the open car she boarded the other day, but the Girl who climbed in after her was not so lucky. She stood. Abstracting a nickel from her purse the Girl held it out toward the conductor, who wormed his way along the running board in her direction. He was on the point of taking it when he caught the eye of a passenger who wished to alight at the next corner, and jerked hastily at the bell instead. The car stopped with a jolt and a grinding of brakes, and the young woman who sat directly beneath the Girl's outstretched arm gave a convulsive wiggle and turned indignantly.
 "What did you drop down my back?" she asked in outraged tones.
 "Oh!" gasped the Girl, "I—oh—it must have been my nickel! I'm so sorry."
 "It's cold," complained the unwilling slot machine, bitterly.

They looked at one another belligerently for a second or two then, becoming conscious of the amusement of their fellow passengers, the funny side of it became apparent to them also, and they smiled and then laughed. The last the Woman saw of them they were chatting amicably, and the Human Slot Machine had insisted on paying the Girl's fare.
 "I can get the nickel back later," she explained, with a giggle.

The Thanks She Got.
 The crowd was great at the lace counter and there was much jostling. As the Woman waited for a parcel and change she wondered if the much talked of, much advertised discount might not be more than paid for in wear and tear. Vigorously elbowed at the left, she turned to see beside her a tall, angular woman with a face unaccustomed to smiles and her hair drawn tightly back, with ears all together too prominent in this day when ears are not much worn. Looking down she noticed that a large handbag carried on her neighbor's arm was hanging open, and the Woman in good Samaritan fashion, acquainted her with the fact. Instead of the thanks usual in such circumstances she of the open bag exclaimed in strident tones: "Oh, it is, is it? Well, I wonder how much is gone out of it?" For a moment the Woman was breathless. She started to retort, and then, remembering that it had been said of old that "he who ruleth his spirit is greater than he who taketh a city," she held her peace, as the handbag was shut with a snap and its owner drew away from the danger zone.

BLUE POLKA DOT TIES LATEST FASHION CRAZE

By International News Service
 NEW YORK, July 26.—Blue polka-dot bow neckties are mere man's latest fashion craze. Haberdashers reported that the demand for dotted blue "bat wings" eclipsed any run in recent years. The craze is due, they declare, to newspaper photographs which show Sir Thomas Lipton, the famous Englishman, and Senator Warren G. Harding, the republican candidate, wearing the tidy "bat wings."
 Bebe Daniels thinks all of this talk about whether or not a girl should be permitted to wear socks is absolutely ridiculous. "Why shouldn't a girl wear socks?" she asks. "They're cool, comfortable and less expensive than stockings. I don't say she should wear them so low and her dresses so short that every time she takes a step her bare leg will show. A girl can wear anything and still be a charming, sweet, refined person provided she knows how to wear it. Socks are just like cosmetics. You must know how to use them."

It seems that we have yet to hear the worst from Mexico. Her new president sings tenor.—Baltimore American.

Bound to Lose.
 International News Service.
 LONDON, July 20.—Cream is free of control in England today; anybody can buy who has the price. So ends another post-war paradox.
 Heretofore, cream has been obtainable only "for babies and invalids," and the cream, when purchased, displayed a notice on the container stating that the cream therein contained a preservative and was "not suitable for babies or invalids."
 We'd like to make a nice healthy bet with any movie fan in the country that he or she wouldn't recognize Mary Miles Minter in one part of her latest Reelart picture, "Sweet Lavender." If Mary's name wasn't printed right there on the screen to reassure you and let you know at whom you were looking. You'll have an opportunity to see whether you'd like Mary better as a brunette. She wears a black wig, and an old-fashioned dress—in the role of her own mother!

HUMBLE NEWS

Mr. and Mrs. John Murphy have returned to Humble camp from their honeymoon. Mrs. Murphy formerly was Miss Estelle Isham.
 Mr. and Mrs. W. H. King left Saturday evening for Abilene, from where they will visit various cities throughout the Southwest on their vacation.
 Willie Roquemore, of the traffic department has returned from Dallas where he attended a conference of leading Traffic men of North Texas.
 Jack Ward, pitcher of the Humble baseball team, returned from Weatherford Monday morning.
 Sam Spruce of the warehouse department is rapidly recovering from a slight illness.
 In a closely contested game of tennis Monday evening, W. W. Wallace showed his superiority over 21c. Majors, later winning the championship game from Kirby Hunt, who has 3 victories held the honors of the Humble court.
 Guy Bicketts, chief timekeeper returned yesterday from Olden where he has devoted several days to auditing the pay-rolls of that camp.
 Joe Collins of the Telephone department has returned from Fort Worth where he underwent a serious operation on his left eye.
 Fred Hight, who has been at the Von Keller hospital at Ardmore, Okla. for some time is reported convalescing nicely.
 "Officer," inquired the testy judge, "what's the mumps in the jury room?"
 "Yr honor, the foreman says they're arguing a valuable point."
 "Oh, tell them that they have my approbation, but ask them to be a little more quiet about it."
 "Yr honor," replied the court room dignitary on his return, "th' jury wishes to thank you for your approbation, but the point they're arguing is one pinchole for five dollars a side."—American Legion Weekly.
 "All the world is queer but thee and me," said the old Quaker to his wife, "and thee's a little queer." An admirable exposition of the point of view of each of the faddists that made up the remarkable Forty-eight Non-Partisan-Single Tax-Labor-Populist-Constitutionalist crowd at Chicago.—San Francisco Chronicle.

What is a pneumatic truck tire expected to do

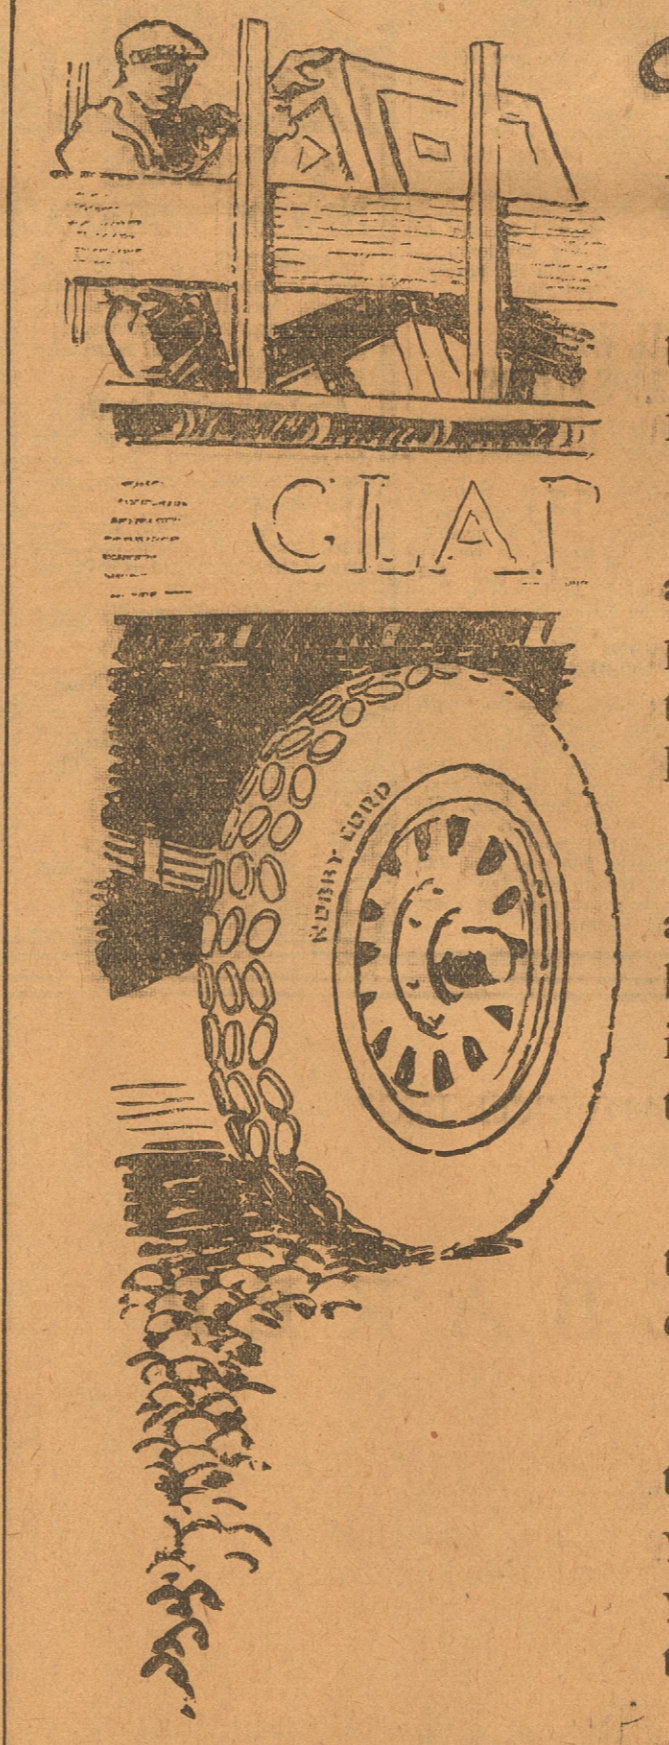

YOU hear a good deal of discussion nowadays over the future of pneumatics in motor truck transportation.

More truck owners would be able to approach this question intelligently, perhaps, if the facts about pneumatic truck tires were only a little better known.

The first pneumatic truck tire created by anyone was given to the public by The United States Rubber Company in 1911, and the U. S. Nobby Cord is today first among pneumatic truck tires.

Designed, built and sold to meet the needs of motor truck owners everywhere—and for no other purpose.

If you are interested in pneumatic truck tires come in and let us give you a few more facts. We believe you will be interested in what we have to tell you.
