J. E. VINES IS MYSTERIOUSLY SLAIN

ROAD BUILDING IS KEEPING 100 TEAMS BUSY

Judge Starnes Tells of Progress in \$4,500,000 Highway Program.

Work has started on the \$4,500,000 road program. This is the answer that County Judge C. R. Starnes made to the question: "When are we going to start our good roads?"

TWO WHISKY STILLS FOUND BY RAIDERS

Two Men Arrested at One Place—No One Found at the Other.

Two whisky stills have been captured by local peace officers within the past few days. Both affairs were home-made and of small capacities.

JOURNALISTS HERE AHEAD OF SCHEDULE

Rain Causes Writer-Soldiers to Change Plan of Oil Field Tour.

The "Fighting Journalists" arrived in the city at 1:20 o'clock this afternoon, one day ahead of their schedule.

Dere Is Trouble? Yah?

MISSING BOY'S FATE LINKED WITH MYSTERY OF BODY FOUND WHEN HOUSE IS BURNED DOWN

WEATHERFORD, Texas, May 5.—The sudden disappearance of Herschel Erwin, aged 20 years, from this city last Thursday is a mystery that has not yet been solved.

SHOOTING OF BUSINESS MAN LINKED WITH ESCAPE FROM JAIL OF TWO MEN

J. E. Vines, aged about 50, manager of the Texas Implement company on Walnut street, was shot and mortally wounded shortly before 9 o'clock last night.

Two men who escaped from the local jail at 3 o'clock yesterday afternoon are suspected of the killing, but considerable mystery surrounds the affair.

The shooting occurred about fifty yards east of the Mid-Kansas crossing, four blocks north of the Texas & Pacific depot. According to the story told last night by two men who were present at the shooting, Vines' death resulted when he walked into a hold-up of which the two men were the victims.

One of the bandits went through their pockets and took their valuables. Before he had finished this task, they said, Mr. Vines walked up from the east.

According to their story, Vines refused to throw up his hands when ordered to do so. One of the robbers then fired, the bullet striking him in the right side and penetrating the liver and lodging under the skin in his back.

Every effort will be made to apprehend the men who did the killing. In the darkness and confusion of the storm which threatened early last night a number of persons living nearby heard the shot, but all seemed to think it was further off than it really was.

A middle-aged woman living in a few steps of where Vines fell said she looked out the window immediately after the shot and saw a crowd of men gathering.

Special Agent Pigg has the automatic pistol which was found by Vines' side. A raincoat was also found and it is believed that he had the pistol wrapped in the raincoat.

It was not learned what errand had carried Mr. Vines to that part of town last night.

A number of hold-ups have occurred at the crossing which was the scene of last night's tragedy. Residents of Lackland addition generally use the crossing in walking home.

Yesterday afternoon they escaped from the runaround of the local jail, making their getaway at about 3 o'clock. The runaround was in very bad repair at the time.

FANS CONTRIBUTE QUICKLY TO FUND TO COVER GRANDSTAND

In singles, doubles and honors the baseball fans are coming in with the dollars to put the roof over the grandstand at Municipal park.

CARRANZA USING AIRPLANES TO HIT ENCIRCLING REBELS

WASHINGTON, May 5.—Carranza is using airplanes to harass rebels holding towns in the neighborhood of the capital, according to advices today to revolutionary agents here.

FOUR KILLED, FIVE HURT IN A HEAVY WINDSTORM SO SAY DALLAS REPORTS

DALLAS, May 5.—A man named Rogers was killed, and five persons were injured at Wilmer, 14 miles south of Dallas, and three persons were reported killed near Grand Prairie last night by the windstorm, according to reports received here.

TEXAS TESTING FARM SELLS 85 CENT COTTON

LUBBOCK, May 5.—A bale of long staple cotton, grown on irrigated land at the state experiment farm here, sold at eighty-five cents a pound.

More Warships Are Sent to Watch Turbulent Mexico

WASHINGTON, May 5.—Secretary Daniels today ordered the division of destroyers now at New York with the Atlantic fleet to sail immediately for Key West where the destroyers will be held for possible duty in Mexican waters.

SENATOR JOHNSON WINS CALIFORNIA CONTEST WITH HERBERT HOOVER

SAN FRANCISCO, May 5.—Senator Johnson today stood as Republican presidential preference in his home state.

CHILD FALLS FROM AUTO; DAD RETURNS TO GET HIM

JOPLIN, Mo., May 5.—While riding in his motor car the other night with his wife and two small sons, Charles Wells was startled to hear the older boy shout:

"Hey, dad, stop! Dick fell out back there." Bringing the car to a sudden halt, Wells gave "first aid" to the four-year-old who fortunately suffered only a few scratches.

COUNTY PARTY BACKS WILSON AND GOV. HOBBY

Democrats at Eastland Convention Elect Delegates for San Antonio.

The county Democratic convention held yesterday in Eastland endorsed the administration of both Woodrow Wilson and Governor W. P. Hobby.

KEEGAN STARTS TODAY ON AN EXTENDED TOUR

W. S. Keegan, who is secretary of the California Land and Oil Association, will start today on a three months' tour of several western states in the interest of his company.

ST. PAUL MAYOR WINS FIGHT FOR NEW TERM

ST. PAUL, Minn., May 5.—Mayor L. C. Hodgson was re-elected, defeating William Malone, labor candidate, by 2,400 votes on the face of nearly complete official returns.

PLAN TO CLOSE STORES EARLY THIS SUMMER

That clerks may have an opportunity this summer of getting out in the evening a movement is being agitated by J. M. White of the White Dry Goods company and other to get all the merchants to close their places of business at 6:30 o'clock in the evening.

J. M. White Urges United Action by Ranger's Merchants.

Mr. White also declared that the clerks deserved some consideration. According to his statement the majority of them start their duties at 8 o'clock or earlier in the morning and work continuously until 8 or 10 at night.

Women employed in the Dallas, Texas, office of the Texas & Pacific railroad company have asked permission of the district attorney to wear overalls the same as the men.

EVERYONE OUT IN BIG DRIVE TO "CLEAN UP"

All Ranger joined today in the "clean-up" drive.

The work started early and was carried on with enthusiasm. Splendid results were reported.

The school children as well as adults are heart and soul in the big clean-up that is being staged.

Among the children there has been developed a real patriotic spirit in the work and they are throwing themselves into the work. Then, too, there are prizes to be won.

Many wagons, trucks and individual workers were in the alleys of the downtown districts carrying out the accumulated trash. All paper will be burned in spots designated by the fire chief. Trash that won't burn will be carried to the disposal plant.

In the school districts the supervisors were out early getting their organization into shape.

PRIZE HOG COST \$2,000. OSAWATOMIE, Kan., May 5.—William Hunt, owner of Fairholme farm, near here, possesses what is believed to be one of the most valuable hogs in Kansas.

The animal was recently purchased by Hunt at a cost of \$2,000. It will head his herd of spotted Poland Chinas.

NOOZIE

THE SUNSHINE KID.

It won't break your back to help along today in the clean-up day work, and my eyes, it will give you a good appetite.

At the Leading Amusement Houses TODAY

LIBERTY—Lina Cavallieri in "A WOMAN OF IMPULSE."

LONE STAR—Marguerite Clark in "EASY TO GET."

LAMB—"TOBY'S BOW," featuring Tom Moore. Presents "TROUBLESOME MRS. BROWN."

QUEEN—John Barrymore in "THE DICTATOR."

LONE STAR.

Marguerite Clark Returns.

The first picture made by Marguerite Clark since her return to New York from California, where she made five photo-plays recently, is "Easy to Get," which will be the feature at the Lone Star theater today. It is described as a romantic comedy of the light vivacious type for which Miss Clark is famous. The heroine is a two-hour-old bride, who over-hears her husband tell a friend that all women are "easy to get." Thinking to teach him a needed lesson, she disappears and leads him a merry chase through a series of unexpected adventures and finally makes him pay a \$5,000 ransom to a gang of crooks in order to get her back.

Walter Edwards was brought East with Miss Clark to direct the picture, which is a Paramount Artcraft.

OPERA HOUSE.

"The Day She Paid."

Another Universal production, "The Day She Paid," is coming to the Opera House Thursday. This feature is based on a story by Fannie Hurst, "Oats for the Woman," which appeared in the Cosmopolitan magazine and which created considerable discussion at the time.

If a man sows his wild oats he can repent and be forgiven; but society eternally frowns upon the woman who has violated the conventions. Why should the double standard be applied to men and not to the gentler sex?

This is the question that will be suggested by all who see "The Day She Paid." The theme is cleverly handled in a story of surpassing interest, and Rex Ingram, the director, has taken advantage of the many opportunities afforded by the story.

In "The Day She Paid" Francis Billington appears as the head model in a New York ladies' wear emporium, who, under a false promise of marriage, has had an affair with her employer, portrayed by Harry Van Meter. Several years later she is offered marriage by a rich merchant from up-state, played by Charles Clay, and securing a promise of silence from her former lover, accepts the proposal. Her husband is a widower with two daughters, a child of 4 and a girl of 10. Several years later, while visiting his prosperous customer, the New York manufacturer meets and is infatuated with the step-daughter of his former model, and in order to save the girl from a fate similar to her early experience, she is compelled to confess her indiscretion. How her husband, bound by the narrow conventions of society, receives her confession, how the young daughter is threatened by an unfortunate alliance and how the self-sacrifice of the woman finally wins its own reward, are told in a series of interesting scenes.

RED CROSS LOOKING FOR L. G. HARENSAPE

Efforts are being made by the Ranger chapter of the Red Cross to locate Louis Gibbs Harsnape, who is said to be known here as Jack Henry Reed. The Red Cross has been informed that Harsnape's parents, who are old, are in need of his help.

Dr. Jeff Halford specializes on crown and bridge work—Adv.

JOHN-A-DREAMS

X. RUSHING WATERS, RESTLESS WAVES.

Hark now and I will tell you of the meaning of water and waves. So common are dreams that bring us in contact with the wet element that they form a considerable portion of our night visions. In fact, their significance is such that the interpretations refer to nearly every phase of everyday life. One of the most beautiful and happy dreams takes the sleeper to the seashore and while the eye watches the white-capped breakers the ear drinks in the ocean's mellow voices.

The waves are full of whispers wild and sweet; They call to me—incessantly. * * *

Wild and sweet indeed, for these sights and sounds presage happiness in love. Whether old or young, man or woman, the bliss of heart's-ease is the dreamer's lot for the time being. Should storms arise, whipping up the ocean's waters, a misunderstanding will mar the sweet experience, but the interruption will not last.

If you have seen a river in your dream, recall, as you awaken, whether its water was clear or muddy. The former, especially if the current was swift, means that you are being carried by the force of circumstances towards events which will demand quick decision as your part and the dream urges you on not to hesitate but to act with inflexible determination. If the water is muddy, you are being warned that your efforts to solve the most important problem which confronts you at the time are wrong and that nothing short of a complete change in your methods will lead to the better results you seek.

If you are swimming and your stroke remains strong, the one of opposite sex towards whom your heart inclines will remain true to you, even though suspicious or deceptive circumstances may have created doubts in your mind about his or her loyalty. But if you seem in danger of drowning you may well make up your mind that no manner of sacrifice or devotion will ever suffice to make the heart of your loved one completely yours.

If a man sees a small river gliding swiftly along, this signifies that he will soon marry a pretty maiden, and

if the dreamer is a married man, that his wife loves him better than he knows and that he should reward her affections with a great devotion. To a maiden this dream portends that the man who is destined to make her happy will soon ask her to be his wife, and to a married woman, that her husband will love her better and more as time goes on. Such a river

knows the way to sea; Without a pilot it runs and falls, Blessing all lands with its charity.

If you dream that a river runs right through your room, a baffling, mystifying, frightening event will soon come into your life. You must be prepared for the unexpected, you must steel your nerves to hear a shock: O! River, darkling River; Gliding on, This is a mystery that never rests. Even while the living slumber.

In a general way, to dream of water refers to unexpected domestic events. To see a bath, signifies guests. To take one a slight illness. To plunge your hands into water is a sign of disturbance. To drink water signifies a marriage or birth in your family. To spill water is a warning to guard your words because you are about to say or reveal something you had better keep to yourself. To have water splash on you is an omen of small gains and to find yourself sporting in water in company with others, whether it be the ocean, a river, lake or pool, is a certain forerunner of a jolly occasion.

If you dream of falling into water then swim on to shore, a happy thought will strike you which will result in much profit. If, after the plunge, you feel yourself drowning you will sustain a severe money loss. If you see a waterfall you will take an unexpected and pleasant trip and if you see a narrow brook, someone plans to surprise you with a pleasant visit.

Dreams referring to trips on water and to things that happen during these trips belong into an entirely different class and of these I will speak some other time.

In the next chapter I shall tell you of dreams of loneliness.

John-A-Dreams will be glad to inter-

pret dream experiences sent to the Editor of the Ranger Times, by its readers. No replies will, however, be given privately and no fee will at any time be asked or accepted. It is distinctly understood that there can be no guarantee when such questions will be answered though, every effort will be made to satisfy inquiries within three or four weeks.

TWO-POUND CISCO TROUT JUMPS INTO BOAT

By Associated Press. CISCO, May 5.—Mayor Williamson declared that there were fish in a nearby lake, and two Cisco men doubted his judgment enough to try to prove him wrong by fishing in it.

They issued at the morning and afternoon "without a bite" but just as they were rowing to shore a two-pound trout jumped in the boat. The anglers are now wondering whether the action of the fish was intended as a reflection upon their methods of fishing, as the mayor intimated.

"HERB" HAS WHISKEY'S SMELL AND TASTE

VANCOUVER, B. C., May 5.—A special analysis is to be made of an "herb" which, when immersed in water smells and tastes like whiskey, but is said actually to possess "more authority." Gun Shee, an Oriental, found the "herb," according to his claim when he was arrested charged with violation of the prohibition laws.

Shee refused to say whether the "herb" was found locally or imported.

TWO WOMEN BANDITS HOLD UP TWO MEN

By Associated Press. WICHITA FALLS, May 5.—A precedent in crime for Wichita Falls was set when two men were held up at a revolver point and robbed by two negro women, the men were relieved of \$58, they declared. Two women were arrested and identified by the victims as the highway-women.

HIGH SCHOOL STUDENTS WEAR MISFIT CLOTHING

SPRINGFIELD, Ill., May 5.—Tim overall craze hit Springfield's high schools with a bang. Students who at first appeared in the denim next came to school in all the grotesque attire they could obtain from relegated garments of the family wardrobes. There were daddy's trousers old and worn; misfit shoes of high and low cuts, one kind on one foot and another kind on the other; patched pants and high top boots. Even girls took up the fad and donned crazy quilt dresses, bordering on the masquerade. Principals and teachers took the movement kindly believing it will wear off as soon as the novelty disappears. It began, however, a week ago and to date is going as strong as ever.

WOMEN START "HATLESS" DRIVE

SPRINGFIELD, Mass., May 5.—Enter the "hatless" drive. Prominent club women have formed an organization the principal purpose of which is to reduce the high cost of millinery by going without their "chapeaux" during the warmer weather. The movement, which is gaining many recruits, is expected to result in a saving of many hundred dollars to the women.

MARRIAGE STEPMOTHER

TOPEKA, Kan., May 4.—Charles Robbins, 45, married his stepmother here the other day. Robbins' father died two years ago.

We extract teeth absolutely without pain. Dr. Jeff Halford.—Adv.

LADIES IN NEW CLUB MEET AT ELKS' HOME

A business meeting of the new club which a number of ladies of the town are organizing will be held Thursday afternoon at 3 o'clock at the Elks' home on Main street.

Irish Prisoner Urged Fighting "Guerilla" War

DUBLIN, Ireland, April 10.—By Mail.—An article entitled "guerilla warfare" which sheds new light on assassinations in Ireland has been discovered in the effects of Paul John Vignois of Cork, recently tried by court martial and sentenced to six months' imprisonment "for having in his possession an issue of the official organ of the Irish volunteers."

"It is the duty of volunteers to recognize in all their plans, in methods of training and study and in their general outlook, the existence of this state of guerilla warfare and all that it implies," says the article, which has been made public in an official communication. "It is our business to develop those guerilla tactics which we have found most serviceable in dealing with actual conditions in Ireland at present, and to bring them to the highest pitch of perfection of which they are capable. It is our business to wage war against the forces of the invaders whenever and wherever we find it can be done most effectively."

"Of all forms of small wars, that most dreaded by imperialist armies of conquest is prolonged guerilla warfare in which they are unable to obtain a moment's security nor gain any opportunity of effectively crushing their foe. Practically do they dread the adoption of well-organized guerilla tactics by a civilized foe of keen intelligence and courage. Surprises, ambushes, raids on their fortified positions, sniping of their stragglers, the capturing of their arms and equipment, interruption of their communications, interference with their intelligence, are to be apprehended by them daily, and their forces are driven more and more into the position of invested garrisons in the midst of a hostile country, afraid to venture from their strongholds except in force, living in a state of perpetual apprehension. That such a state of affairs exists to a great extent in Ireland at present is obvious to all and it is the business of the Irish volunteers to see to it that it continues to grow more intense and more menacing to the invaders."

WAR MINE WORKER BUILDS NEW CANAL BY QUICK EXPLOSION

ROME, April 11.—(By Mail.)—Don Gelasio Caetani, a brother of Prince Caetani, the American-trained engineer, who laid the mine which blew off the top of the mountain Col di Lana during the war, burying hundreds of Austrian soldiers beneath it, has dynamited a canal into existence from Lake Caprolace to the Mediterranean sea.

The work was undertaken by direction of the prince, also known as the Duke of Sermoneta, head of the Caetani family, in the Pontine Marshes, near the duke's vast estate of Cieterma, forty miles from Rome.

The Pontine Marshes constitute the swampy forest country which stretches between Roman Campagna and Terracina, a region which the prince has labored for years to reclaim. On the seashore of this strange volcanic region there are three lakes or lagoons, called Fogliano, Monaci and Caprolace, communicating with each other, into which at high tide all kinds of fish find their way, remaining there to breed and fatten for the Roman market, to which every day some ten to forty hundredweight are shipped. Only one, that of Fogliano, is directly connected with the sea, and in order to unite that of Caprolace with the neighboring Mediterranean, and to greatly increase the yield of fish, Prince Caetani decided to exploit a series of mines so as to form a canal between this lake and the sea.

The undertaking took fifty tons of explosives and 1,200 large bombs or five times as much as was required to destroy the mountain top. It was successful, opening a channel to the sea.

BOOK ON CHURCH DRAWS COMMENT FROM MINISTERS

Tyler Dennett, director of publicity for the interchurch world movement is the author of a new book, "A Better Way," which has created a storm in American Protestant church circles. He says we must teach economic freedom as well as spiritual freedom. His views are described as "radical" and even "bolshievisic" by certain clergymen.

"SWAT THE FLY" CALL SOUNDED IN RANGER BY INSPECTOR STOWE

Sanitary Inspector Stowe is out after the housefly. He says that all cafe owners and business men of every kind, will be compelled to screen all places which might possibly furnish a breeding ground for the pest.

The practice indulged in by some of throwing water, fruit peelings and garbage from the kitchen out the back door attracts thousands of flies and should be stopped, he said.

At the clean-up officially set for tomorrow, it is hoped that the city will be rid of trash for the first time in its existence.

The Bank of Ranger has taken the lead and put up a neat, painted trash box in front of its place of business on Main street. The box cost about \$30 and is of pleasing design and an ornament to the city.

More than 100 women are employed as chemists by German industrial concerns.

May Is Month Of Holidays In All Lands

Holidays during May, including bank and public holidays, are shown in the following list prepared by the Guaranty Trust Co. of New York:

Saturday, May 1—Argentina (Labor Day), Costa Rica, Czechoslovakia, Haiti, Philippine Islands.

Tuesday, May 25—Argentina (Independence day), Uruguay, (Liberty day).

Wednesday, May 26—Baltic States.

Thursday, May 27—Rumania.

Sunday, May 30—Cyprus, Don Republic, Greece, North Russia, South Russia, Siberia and Ukraine, Panama (unofficial).

In the United States: Decoration day in 40 states and in all American possessions. (See May 31.)

Monday, May 31—Basutoland, South Africa, Union, Bechuanaland, Panama (probably).

Decoration day will be celebrated on this date in the following states: Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming; also in Alaska, Hawaii, Philippine Islands and Porto Rico.

AGED MAN PENNILESS: SUES CHILDREN FOR AID

SPRINGFIELD, Ill., May 5.—William Sharp, 71, blind and penniless, asks "what does it get a man to raise a family of five children?" Especially when they leave you with a mere pittance for support in your old age.

Because of the question he has filed suit in the circuit court here against all of his children, alleging insufficient support. One son, he claims, who has property valued at \$48,000, contributes but \$8 a month to his aged livelihood. The total contributions, he decares, amounts to "a pittance."

It is not enough to live on. Mr. Sharp feebly protests at a time that his children be compelled to donate \$40 or \$50 a month to him.

Everyone should do something today to help in the great "clean-up" day drive. Every scrap of rubbish picked up and burned will add something to Ranger's attractiveness.

The old story is being told again in Mexico. "Bandits" are killing Americans. Something may yet be done to cure the Mexicans who have the habit of being bandits.

Senator Bailey is coming to Ranger to deliver an address. The action of the precinct convention here must make Ranger look like a green oasis in the eyes of Mr. Bailey.

Ranger's baseball fans want the grandstand at the ball park covered, so that they can "sit at mine ease in mine own grandstand." The fans usually get what they want.

A "swat-the-fly" drive has been started by Sanitary Inspector Stove along with the "clean-up" campaign. This is the right time to "swat the fly." If the work is done thoroughly now, there will be more real comfort when the warm days come.

Some attention should be paid as soon as possible by Ranger's road builders to the street crossing at the T. & P. railroad station. It is a place of heavy traffic. A team attached to a truck was stalled there yesterday evening, giving a spectacle to a crowd. But those spectacles should be a thing of the past in Ranger.

GASOLINE "RATIONS"

Discussing the gasoline situation in its current issue, the Oil Weekly says:

Promise or threat of a rationing of gasoline by the government is contained in press dispatches from Washington, with the statement that stocks of gasoline have been depleted to the point where there is less than sixty days' supply on hand, at the present rate of consumption.

In this connection it is interesting to know that figures from the bureau of mines showed many times during 1918 that stocks of gasoline had been depleted to a point where there was less than

forty-five days' and even thirty days' supply on hand—and with the nation engaged in a war demanding gasoline as an important factor.

Rationing the nation will make its gasoline stocks last longer, it is true, but the only way to solve the problem properly is to produce more gasoline.

The government's attitude toward the oil industry has been anything but favorable for an increase in gasoline production. This statement applies not only to federal but to state governments. The oil industry has been looked upon as fit meat for the politicians. It has been held up for taxes that were all out of proportion to the share which the industry should pay, and the only manner in which an increased supply of refined products can be secured has been looked upon with suspicion. The crude price increases which have been made during the past five months have all been justified by conditions, and the only criticism that could be advanced is that the price of the refined product should have been increased more than it has.

Recently one oil company had a claim made upon it for \$27,000,000 back taxes. Finally the government reduced its claim to around \$3,000.

Such tactics injure the financial standing of a company, and play a big part in the financing of a legitimate company's operations. The spectacle of the soundest companies in the United States paying seven and eight per cent for its money isn't founded altogether on the present general financial stringency. Rather, the present tension is caused by such tactics as outlined above, and by the permission which the government has, perhaps unwittingly, given to a flood of worthless oil securities.

The consumption of oil is increasing. The production of oil during the month of April showed a decline as compared with March.

The answer to the problem so created is—produce oil. And every encouragement should be given the legitimate producer in this effort.

BOYS AND BANKERS.

Agent Extensive Service, Agricultural and Mechanical College of Texas.

Perhaps it is not an exaggeration to state that the farm boys and bankers of the state are doing more to advance agriculture in the state than any similar group. Their efforts have, no doubt, had definite effect in accelerating the hog industry. During the year of 1909 the tension service secured definite information to the effect that 127 banks and a few individuals gave financial assistance to club boys in purchasing purebred hogs, calves and sheep. The report also shows that these banks loaned a total sum of \$63,408.00 to boys. They, too, assisted in distributing 1,640 head of hogs, and of this number 1,481 were pure bred. There were also a rather large number of calves and sheep distributed.

It should be remembered that the figures are just for the year 1909, and, no doubt, is only a partial representation, for it was impossible to get reports on all.

A number of counties have been changed in a period of two or three years from a county of scrub hogs and bacon-buying people to a county of pure-bred hogs and hog shippers. It not only has its economical value, but stimulates interest in the younger generation and is paving the way for better agriculture. While pigs are being made into hogs, boys are being made into men that will be an asset to the country.

Most bankers consider a direct loan the boys for the purpose of buying a pig, calf, etc., on his own personal note as one of the best moral risks that can be made. His parents may be careless and negligent in their own business affairs, but they are anxious for their sons to grow up to be honorable, upright business men who meet their obligations properly. This is parental instinct. Therefore, as a rule, they will do everything in their power, even if they neglect their own business obligations, to see that their sons make good their pledges.

If the present work that is being done by the farm boys and bankers in Texas is continued, we are destined for some greater agricultural advancement in the future.

PLAN STATE FISH HATCHERY IN MISSOURI

International News Service. SPRINGFIELD, Mo., May 1.—Construction of a state fish hatchery at Theota park, five miles southwest of here, is expected to start soon. State Game and Fish Commissioner Tim Birmingham is said to have completed arrangements for the hatchery, which will be used for the propagation of all the Missouri varieties of bass, croppie, perch, jack salmon, channel cat and later some varieties of trout. The hatchery, it is understood, will cost approximately \$25,000, and when in full operation will turn out millions of spawn annually for restocking the streams and lakes of Missouri.

Answer—Wash and starch it, fold it lengthwise so that it is double, and put it on your curtain stretcher, allowing the ruffle to fall over the side. When dry, press the ruffle with the iron. This method results in a perfectly even spread.

Efficient Housekeeping

BY Laura A Kirkman

ANSWERED LETTERS.

B-side—"I have a slight scorch stain on a new cotton dress. How can I remove it?"
Answer—Wet with soapuds and place in the sun. Repeat process until successful.

Mr. L. L. F.—"I have a large wool carpet badly in need of cleaning. My grandmother used to have a formula for some home-made cleaning and brightening fluid for rugs, plush chairs, etc., and I am wondering if you could give me this particular one; I remember it contained soap tree bark, ammonia, white soap and borax. Can you tell me the right proportions to use, of these ingredients?"
Answer—I am glad to say that I happen to be familiar with this old formula. Here it is:

Old Fashioned Cleaning Fluid for rugs, carpets and plush—Boil one ounce of soap tree bark in one gallon of water for ten minutes. Strain through a cloth and add one gallon of warm water, one-half pint of ammonia, two bars of fine white soap shaved finely, and one-half pound of borax. Let all boil for ten minutes, stirring constantly. Then pour the fluid into a four gallon jar and fill the jar to the top with cold water. When cool it will resemble soft soap. Use in the following way: Dust the article to be cleaned, put a little of the cleaning fluid on and rub with a soft brush; then rub with a soft cloth wet with warm water, finishing with a soft, dry cloth. Clean only a small place at a time.

Subscriber—"How shall I launder my net bed spread?"
Answer—Wash and starch it, fold it lengthwise so that it is double, and put it on your curtain stretcher, allowing the ruffle to fall over the side. When dry, press the ruffle with the iron. This method results in a perfectly even spread.

Mr. D. F. G.—My husband and I have just moved into a rented house, but we are building one of our own, and in

the meantime I am confronted with the problem of making my large Siuyra bedroom rug fit into a space too small for it. What would you advise me to do—turn it under on one end and use it, or store it in the attic until the new house is ready, putting down rag rugs in the bedrooms? The bedroom floor is not of hard wood and would require painting, so it would be more economical to use the rug if I could."

Answer—Many housekeepers in this predicament make a box pleat on the wrong side of the rug at some part which is the least noticed in your case, perhaps under the bed, pressing it down and securing the edges together neatly on the proper side by sewing the pleat with strong waxed thread or dental floss procurable at any drug store. I would advise you to do this. The pleat may be let out when the time comes to use the rug in its full size, and no harm will have been done.
Tomorrow—A Simple Home Supper.

"FLU" REAPPEARS IN KANSAS.

DELPHOS, Kan., May 5.—The "flu" again has appeared in the Sunflower state. Ten families suffering from the disease were placed under strict quarantine here the other day.

Most of the patients are high school students who were inoculated with anti-influenza serum.

TEXAS COUPLE MARRIED, DIVORCED, REMARRIED; ALL IN THREE MONTHS

By Associated Press. GAINESVILLE, Texas, May 5.—Married, divorced and re-married within three months in the matrimonial record established here by W. R. Lewis and Mrs. Lewis, who was Goldie Hughes before the first marriage.

When the couple appeared to secure license for the second marriage the county clerk told the groom that he would have to secure consent from the bride's parents, as she was only sixteen years old. "You have it right here somewhere—"

the one I gave you when we were married on January 13," Lewis told the clerk.

The clerk found in his records the parents' consent written in due form and investigation developed that the couple had been divorced on April 13.

Another hitch threatened when it was learned that Mrs. Lewis' maiden name had not been restored by the divorce court but the groom had the license issued to himself and Miss Goldie Hughes, and Justice J. P. Hall duplicated the ceremony performed on January 13.

The inability to secure men to care for the grounds at Wellesley college has caused many of the girl undergraduates there to take up the duties of laborers for which they are paid at the rate of 30 cents an hour.

Free Yourself From The Pangs of Rheumatism

The Right Treatment Will Break Your Shackles.

You who are afflicted with Rheumatism know from experience just how excruciating the pangs of the disease are. You know also, if you have had rheumatism for any length of time that there is no real relief to be expected from the use of liniments and lotions.

Rheumatism is a stubborn disease, and its pangs and pains cannot be wiped out as if by magic. A disease that is so full of torture and renders so many people absolutely helpless, is a deep-seated one; it is not on the surface, hence it cannot be reached by external, surface remedies. Lotions, liniments and ointments applied to the surface may in some cases deaden the pain for the time being, but until you attack the disease at its foundation, you are making no progress toward a cure. Many forms of Rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight.

In fact the longer you delay treating the disease through the blood, the further you are getting from ridding yourself from the disease. And because so many people treat the pain, and not the disease itself, is one reason why Rheumatism increases in severity year by year.

The most satisfactory remedy for Rheumatism is S. S. S., because it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of all impurities, and is a sure antidote to the germs of Rheumatism. Being purely vegetable, without a particle of mineral or chemical in its composition, it works by eliminating and forcing out of the blood all impurities, acting as a tonic to the entire system at the same time. It has been used for more than fifty years, and scores of sufferers from Rheumatism give it unstinted praise.

S. S. S. is sold by druggists everywhere, and any of them will tell you that it is a thoroughly honest and reliable old remedy. You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser 12/Swift Laboratory, Atlanta, Ga.

Eastland Calls Three Pitchers; Loses to Nitros

EASTLAND, May 5.—The Ranger Nitros beat the Eastland team here yesterday afternoon to the tune of 7 to 5. Eastland used three pitchers and they were all hit hard.

Hill, who was on the mound for Ranger, got away with a bad start and three runs were scored before he tightened up.

In the eighth inning Ranger drove in four runs with six hits, one of which went out of the park for a circuit.

The features of the game were a sensational catch by Payne, Eastland left fielder, and the hitting of "Big Boy" Browning.

Browning, in five times up, garnered two single, two home runs, and a trip to the water bucket.

Eagles Defeat Cisco Before Abilene Fans

ABILENE, May 5.—Abilene opened the season at home by defeating Cisco 4 to 0, before a crowd of 3,000 fans.

Hits at opportune time, scored runs. Young started ball rolling by a double in the first frame, scoring Allison.

The game was featured by the pitching of Gaines. He allowed only two hits. Only thirty-one men faced the big pitcher.

Score by innings: R H E
Abilene 110 110 000—4 8 2
Cisco 000 000 000—0 2 4

Batteries: Gaines and Pemberton; Harding and Grisenbeck. Umpires Dale and Price.

Gorman's Seven Home Runs Slay Mineral Wells

GORMAN, May 5.—Gorman defeated Mineral Wells, 19 to 4, Tuesday.

Gorman's business houses closed and the crowd was a record-breaker.

Features of the game were the pitching of Richburg for Gorman and the seven home runs knocked by Gorman players.

Dancing Now Puts Stars of Football in Condition for Grid

AMHERST, Mass., May 5.—Folk-dancing as training for football is being given candidates for the Massachusetts Agricultural college every this spring.

Instead of lunging and charging against a tackling dummy, husky candidates for places on the "Aggies" line are being taught the intricacies and graces of the English folk-dances.

Thirty men, with the broadness of shoulder and bulk of frame necessary to the efficient football lineman, are learning to do gracefully the handkerchief folk-dance known as "Laudanum Banches," and to trip lightly through the other steps of the old dancing school.

For a time they were embarrassed as, waving handkerchiefs in the air they pirouetted on one toe with an arm and hand extended, but they have since taken to the dance and appear to enjoy it.

The object of the dancing instruction to the football men is to improve the co-ordination of mind and muscle and to keep the players constantly "on their toes."

ITALY LIKES BOXING.

ROME, Italy, May 5.—Boxing and prize fighting have just gained some headway in Italy. As a result, embryonic sporting writers are being born whose efforts for flowery descriptions eclipse even the vernacular of American sporting columns. Here is the report of the provincial papers:

"There was vivacious animation in the impatient crowd when there appeared on the scene what seemed to be two gun emissaries that had just come out of battle. They were scantily attired, so much so that they nearly froze to the teeth. Then there sounded a fanfare of trumpets right into the ears of the waiting crowd and it was as if the wrath of God had been let loose.

"Then there were the sporting bloods who frothed at the mouth because the public was ignorant of the beauty and passion of the sport and because the spectators did not take the sport seriously. This delicious sport—as the English call it, "the manly art of self-defense"—was prohibited before the war. But then, the war was fought for liberty and right, at least, the right to enjoy oneself even at the risk of others losing their lives.

"The two raffians were placed in the 'ring' (a cord which separates them from the crowd). After some preliminaries, the two began to launch blows at one another—a truly intellectual amusement to watch. One of the two, by virtue of his being light weight champion, gave the other a severe punch in the stomach. The other returned a punch to the jaw as if nothing had happened. The public laughed and commented.

"Then the heavyweight delivered an elegant punch to the face of the light-weight and he fell to the floor. His friends came to his assistance and put a sponge to his mouth, jabbering he was 'yellow.'

Miss Marie Antoinette Zaplicka, just now near the end of a lecture tour in America, has the unique record of having been the only woman member of anthropological expeditions into the heart of the Caucasus and Siberia.

STEEL BASEBALL PARK FENCE TO BE BUILT FOR STEPHENVILLE COLLEGE

The citizens of Stephenville are putting forth a campaign for the purpose of raising \$4,000 with which to build a steel fence around the ball park of John Tarleton Agricultural college. This is the most elaborate fence around any college ball park in Texas. This amount is now practically subscribed, and will be in the hands of the college authorities within the next five days.

The student body, faculty, and the citizens of Stephenville have just raised \$300 for the purpose of erecting a memorial flag pole for the college. The city council of Stephenville has ordered the main highway leading from the city to the college to be brilliantly lighted. The citizens have been boosting the construction of sidewalks on the streets leading from the college to the city. A great many walks are now under construction. These factors are indicative of the progressive spirit of the citizens of Stephenville, and of their faith in, and loyalty to, John Tarleton Agricultural college.

AFRICANS NOW PAY MORE COWS TO GET WIVES THEY WANT

International News Service.

LONDON, May 5.—Even the price of wives has gone up! Lord Dewar, the distiller, who has just returned from Africa, has revealed this startling increase of development of the African matrimonial market.

"I spent some time in the Congo, where the natives are severely practical," said Lord Dewar. "They are not troubled with some of the little niceties of civilized life, especially in the matter of courtship. When a native wishes to win a bride he does not dress up in his best clothes and purchase flowers and candy. He selects a stout club and without any thought whatsoever of his personal adornment he starts forth on his quest. But there is butter in wives, also, and that is where the high cost of living is hitting the Congo natives. There was a time when a fine upstanding, sixteen hands high wife cost four spearheads. Now she costs eight spearheads, and there is a possibility that the price may go to ten spearheads, which would be a calamity indeed, for the production of spearheads is not keeping up with the rising cost of wives.

"In the cattle raising part of the Congo the medium of barter is cattle. In the good old pre-war days a wife and a regular belt, with black shiny face and thick topknot of kinky hair, cost four cows. Now that same belle brings eight cows and there is much clamor over the increased price.

"The young men in the Congo are much disturbed, while the young women are more or less proud of the fact that they can only be bought by a man with a thick bankroll of spearheads or a large pasture full of cows.

The Bell Telephone company is the largest employer of girls of any industrial concern in the world. Two hundred thousand of its 250,000 employes, scattered over the length and breadth of the nation are girls and women.

The Lash and the Wash

Under the burning suns of Africa the slaves in diamond fields used to be made to keep working under the lash when the heat had sapped their energy.

But how about America, where free women drudge under the hot sun and over steaming wash boilers doing the family wash? There is a more humane, efficient and modern way. Send your laundry work to us.

"THAT LITTLE GAME" --- Kidding a Sorehead

THAT'S FUNNY, AIN'T IT? EACH ONE OF THOSE BIRDS DREW ONE CARD AND THEY BOTH MADE 'QUEEN HIGH STRAIGHTS' TIE HANDS.

WHAT? YOU WIN? YOU WIN THIS WHOLE POT? YOU DO NOT! WE SPLIT THIS POT!

HENRY, NOW LISTEN, YOU SAID YOU FILLED YOURS ON THE END, BUT I FILLED MINE IN THE MIDDLE, THEREFORE I GET THE ENTIRE POT! MINE WAS THE HARDEST TO MAKE.

SURE! THAS RIGHT! HE GETS THE POT AND A MEDAL BESIDES.

NOTICE THE PURTY TEETH HENRY HAS?

C'MON, HAVE A HEART! CUT THE CLOWN STUFF! GIMME THE CARDS! MY DEAL.

GETS SOME EASY.

TO AID COACH WHITAKER

AUSTIN, Texas, May 4.—Charles E. Seddon, all western guard from the Ohio state university, has been selected by Coach Berry M. Whitaker of the University of Texas, as his assistant to have supervision of the linemen of the Longhorn squad during the 1920 season.

Seddon won recognition as one of the lightest guards of the western conference and during the past season was on the coaching staff of the University of Tennessee. He weighs only 145 pounds, and played one year at center and two years at guard for Ohio State. He is to report to the university at the beginning of the fall football training.

Dr. Jeff Halford, painless dentist, main at Marston street.—Adv.

Yesterday I saw Mr. Lewis on the street and he gave me a rapped up box to take home to pop. Which I started to, and some of the fellows was playing a game of marbles in the next block and I put the rapped up box on somebodys front steps and got in the game on account of me havin' 7 marbles, wich in about 20 minutes I dident have any and kepp on going home, and after supper pop sed to me, Mother, did Lewis stop heer today with a package for me? And ma sed, No and pop sed, Confound it, not a thing to smook and I jest had my mouth all set for one of those segars, wate till I see Lewis tomorrow. Ill ball him out good and proper, wait till I get hold of him, thats all.

Me thinking, Gosh, G. I bet that was the box. Meaning the rapped up one, and I sed, Maybe it wasnt his fault, maybe he gave them to somebody to take home, sutch as me and maybe I left them on somebodys front steps while I played marbles and then forgot them. Wich pop jest stared at me as if he didnt know who was dreamin, him or me, and I sed, Shall I run down now, pop, and see if theyre still there?

You bring those segars to me inside of 20 minutes or take the consequences, sed pop. Wich I quick ran down to the place and nuthin wasent there but the bare front steps and I rang the bell and a lady came to the door and I asked her if enybody had saw a rapped up box, and she sed, My goodness, husband wont be pleased at all, he was hoping nobody would come for those segars, and he's smooked 2 already. And she braxt out the box with 2 segars out, and pop was so glad to get the rest he never sed enything about the 2, so I didnt haif to take eny consequences.

"POP" CRABTREE.
 "Yes, son, I aim to sell my first royalty today and I will give you half of the ten thousand dollars I get," said Steve Crabtree. "Hit will make you a nice little nest-egg and you'll want to git married before long anyhow I reckon."
 That day Crabtree sold more royalty than he expected, and he received twenty thousand dollars instead of half that amount.

Telling his son about it he said, "I allow twenty-five hundred dollars is all I could let you have now. After all that's more than I had at your age by a long sight."

A week passed and Crabtree, senior, told his son one morning, "I been aimin' to make out that check to you all along. The New York company's lease on the two hundred acre pasture runs out tomorrow, and they can't git my land again for no two-bits an acre. When I lease the pasture I'll make out your part."

Two days later he closed a renewal with the company for two hundred dollars an acre. That night he puffed at his short hair pipe a long time in silence and at last remarked to his son:

"I been thinkin' this money business over a good deal lately. Of course, I'm going to help you out now. You've stuck on the old place through dry years and all. But too much money ain't a good thing for a young fellow. A thousand dollars would go a long way to help you git set up housekeepin'." When I married your mammy I had to stand the livery stable man off for hiring a buggy to take her home in."

The next day a party of New York oil men accompanied by a prominent geologist came to look over the old man's property and decided that it was in line for big production. They offered him two thousand dollars for his five hundred acres in fee. He accepted the offer.

In discussing the sale with his son that

night he spat twice and lapsed into a short silence and then remarked, "After all, John, the only fun a man has when he gets old is in lookin' back over when he was young. If he makes his own money it's allus a source of pride to git to tell about it. You'll have to shift for yourself, son. I might start you out with a hundred dollars though. Course I'm gittin' up in years and I orter take care of what little I got, but I'll give you a hundred dollars whenever you marry that gal."

FISH MORE PLENTIFUL ALONG GULF COAST

AUSTIN, Texas, May 5.—Fish are more plentiful in the bays along the Gulf coast this year than for many seasons past, according to John R. Jefferson, chief deputy of the game, fish and oyster commission, who has just returned from an inspection trip along the coastal bays extending from Matagorda to Aransas Pass. Mr. Jefferson reports that the condition of the oyster beds is also good and that the young oysters are growing well. The beds seems to have recovered, he said, from the effects of the storm last fall.

The destruction of many fishing boats in the storm, and the re-establishment of the state regulations for protection of fish which were removed during the war, were given by Mr. Jefferson as the reason for the good supply of fish. He says that the storm also cut new channels along the islands which afford the fish additional passage as they swim from the spawning beds in the Gulf to the bays.

The only woman violin maker in Ohio and probably in the United States is Mrs. J. W. Klein of Norwalk. The instruments are all of her own make.

STOP HEADACHE REMOVE CAUSE

Your Money Back While You Wait at Counter if Aspirinal Elixir Does Not Relieve in Two Minutes; Absolutely Safe.

You can save half an hour or more of headache pain by taking the new Aspirinal Elixir instead of the slow acting tablets that have to wait so long to be digested and absorbed. Aspirinal being liquid acts almost instantly and is preferred by the doctors for the reason that it is not dangerous to the heart.

The next time you have a headache go to your nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonful in a little water. With your watch in hand count off two minutes and call for your money back, as per manufacturer's guarantee, if you can't feel your headache fading away within the time limit.

Doctors recommend and druggists guarantee Aspirinal because they know it acts so much quicker, without the slightest danger to the heart and because it removes the cause of bilious and sick headaches by its gentle action on the liver. Aspirinal corrects biliousness and constipation thereby preventing the return of your headache next day. All druggists invite and expect you to try Aspirinal, so don't be bashful. Everybody is doing it. Same guarantee applies to colds, coughs and neural-

STUDENTS OF SPANISH CELEBRATE DOWNFALL OF MAXIMILIAN'S RULE

By MARY BLEDSOE.
 AUSTIN, Texas, May 5.—La Tertulia, the Spanish club of the University of Texas, composed of advanced students of Spanish, will hold a unique festival today, in commemoration of Mexican overthrow of French dominance under Maximilian.

POTTED PLANTS NOW BOOTY OF THIEVES

AUSTIN, Texas, May 5.—Gasoline filling stations here which have recently received special attention from burglars who hauled small safes away to smelt them at their leisure, were more recently subject to less pretentious vandalism by thieves who stole potted plants and flowers which were placed to beautify the driveways.

OIL NEWS

DRILLERS AT PECOS REPORT AN ELUSIVE SHOWING OF OIL

PECOS, Texas, May 5.—A small production of several barrels of high grade lubricating oil a day has not proven sufficient to delay the owners of the numerous drills from their downward race in search of the larger production strack twenty-two miles north of Pecos, by the Bell discovery well.
Practically every well operating in the Bell pool has reported one or more showings of the migratory lubricating oil similar to that of the Toyah product at 100 to 200 feet, but have continued to drill, and the developments of this week should reveal much as to the actual condition in this new oil area.
Casing troubles have faced Pecos valley drillers during the past week, but much of these have been overcome and drills are again going downward, several of them being within striking distance of the Bell sands.
A report of the drilling wells of the Bell pool in the early part of this week was as follows:
Bell discovery well, resumed pumping after installing sand screen and new pump.
Minerva No. 1, 8¾-inch casing set at 440 feet, drilling beyond 500 feet.
Citizens-Oil and Gas Co., 8-inch casing set at 575 feet and drilling.
Bell Reeves, 8¾-inch casing set at 510 feet, ready to set 6½ casing.
Lucky 13, 8¾-inch casing set at 530 feet; 6-inch casing going down beyond 60 feet.
Grogan, drilling at 240 feet.
Dominion No. 1, drilling at beyond 520 feet.
A. C. F. (Finley & Anderson) drill at 425 feet; 10-inch casing set at 230 feet.
Slater, drilling at 150 feet; 10-inch casing set.
Harry D. Day, drilling at beyond 200 feet.
Abner Davis No. 1, drilling at beyond 200 feet.
Tex-Plains, drilling at beyond 200 feet.
Three rigs spudded in early this week. These were Pope & Smith, on section 19 block 2, H. & G. N. survey, adjoining the Lucky 13, Slater and Bradburn on the same section adjoining Bell Reeves and the Dominion No. 1, and Pope & Flynn on section 16, between the Bell Reeves and Commonwealth wells. The latter well on section 18, is also ready to spud in.
The Hawkeye-Texas Oil company has erected their derricks a half mile south of the Citizens on section 9, and the Bell No. 2, the deep test, has a standard rig ready to start drilling as soon as the 5½-inch casing arrives.
With the increase in drilling activity has come similar increase in number of new contracts. J. O. Stewart has taken over the contract for the Pecos-Reeves Oil company from the Warn et al. interests on sections 20, 21 and 22, block C-19, lying along the river between the Laura and Bell wells, and has let the contract for the first well to Adams & Son of Fort Worth, who are to spud in late this week. The contract calls for night and day drilling.
The Texas Oil Exchange has contracted to drill two wells on scrap section 68, three miles southeast of the Bell, for George D. Coon. This drilling will protect 16 sections of permits, the grouping of which has not yet been determined.
The first commercial shipment of oil has been made from the Toyah fields 25 miles northwest of Pecos. This was a small consignment that went to Shreveport refiners, who are to test it. There are numerous wells in the Toyah fields standing in oil, but the production from these small wells has not yet proven sufficient to justify regular shipments. The Stanton interests in this field are now awaiting the arrival of a central crating plant which will be used to operate their seventeen shallow wells now standing in oil.
Many of the operators in the Toyah field are no longer after an oil of high

DRILLERS AT PECOS REPORT AN ELUSIVE SHOWING OF OIL

gasoline content believed to lie under the shallow strata, and similar to that produced by the Bell well which has been marketed for as high as 5 a barrel. The Shannon-Jordan well in section 22, block 59, school lands, is reported to have struck a sand producing this oil during the past week, and much interest will attach to the development of this well.
The Dominion Oil company has the timbers on the ground for the first of their wells in the Soda lake region of Ward county, 12 miles northeast of Pecos. The Trans-Pecos well in this county has spudded in with a gasoline engine and is about 200 feet down. The Dominion people have located a big tank for stream water which they are to pipe from the Yarboro wells three miles distant.
Much development is planned in Culberson county. The Tom Owens well in Central Culberson county is now drilling at 600 feet, while the Black River Petroleum Co., and the Los-Pecos syndicate are making extensive plans for the development of the northern part of this county.

Instruments Filed

Instruments filed for record in the office of Earl Bender, on May 4:
Pioneer Townsite Co. to Baker Du-lac warranty deed, lot 8, block 35, Pioneer; \$30.
A. G. Haunecy to Joe J. Massad, warranty deed, lot 7, block F-3, Boone addition, Eastland, \$1,000.
A. A. Tate and T. S. Allen to R. M. Lass, assignment oil and gas lease, 8 10 acres off 25-acre tract of Lake Bryan survey; \$1, etc.
R. Dixie White to Amos G. Channey, warranty deed, tract 224218 of block F-3, part Thornton Thatcher survey, Eastland, \$1, etc.
Lee R. Vance et ux. to R. E. Sikos, warranty deed, W 10 feet lots 12, 13 and 14, block 8, Sunset Heights subdivision of block 42, Daugherty's addition; Eastland; \$10.
W. P. M. Willson et ux. to J. A. Tilton, warranty deed, lot 2, Luse addition; Cisco; \$400.
A. J. Olson et ux. to G. H. Carter, warranty deed, lot 40, Olson addition, Cisco; \$100.
A. J. Olson et ux. to T. C. Carter, warranty deed, lots 25 and 33 of the Olson addition to Cisco; \$200.
M. M. Jackson to J. L. Powell, assignment oil and gas lease, NW 1-4 SE 1-4 section 56, block 4, H. & T. C. Ry. Co., 40 acres; \$1.
M. M. Jackson to J. L. Powell, assignment of oil and gas lease, 8 70 acres W 1-2 NW 1-4 section 12, D. & D. A. lands; \$1.
J. W. Triplett to A. H. Hall, warranty deed, lot 1, subdivision lot 3 block 94, Cisco; tract 50x115 feet; \$650.
J. W. Clark et ux. to Eleanor Roberts, tract 150x175 feet of W 1-4, section 28, B. R. B. & C. Ry. Co. survey, Rising Star.
M. M. Jackson to H. H. Packwood, assignment oil and gas lease, 120 acres, E 1-2 tract of section 14, block 6, E. T. Ry. Co. survey; Eastland county; \$1.
C. U. Connelley to City of Eastland, warranty deed, tract of 1.285 acres block C7, Eastland, \$1,056.

W. G. Swenson to H. O. Wooten, partition deed, mineral interest, 45 acres W. T. Cooper survey, 18 1-2 acres off S end William Nolen preempt survey; 1.
W. G. Swenson to H. O. Wooten, mineral partition deed, 93 1-2 acres of Mary Furry survey; \$1.
W. G. Swenson to H. O. Wooten et al. mineral partition deed, 148 acres section 2, T. & N. O. Ry. Co., land and 131 7-8 acres of J. B. Conway pre-empt survey; \$1.
W. G. Swenson to H. O. Wooten et al. mineral partition deed, 50 acres of Mary Furry survey, Eastland county; \$1.
W. G. Swenson to Geo. L. Paxton et al. mineral partition deed, 160 acres, SE 1-4 section 10, block 4, H. & T. C. Ry. Co. survey; \$1.
W. G. Swenson to Ed S. Hughes et al. mineral partition deed, 50 acres of SW corner J. P. Rubus survey; \$1.

ALL WRONG WAS HER LIVER

Before Taking Black-Draught, Missouri Lady Was Troubled With Constipation, Headache and Bad Taste in Mouth.

Grandin, Mo.—Mrs. Susa Brooks, of this place, writes: "Some time ago I was in a bad fix, with stomach and liver trouble. I did not feel good at any time. I was very constipated and had headaches from this condition, and had a continual hurting in my stomach, and bad taste in my mouth. Could tell my liver was all wrong. "I had known of Black-Draught, so decided to try it myself. I began with a large dose or doses, gradually getting to smaller doses. It regulated my bowels, relieved me of the hurting in my stomach, cleaned off my liver and made me feel like a new person." "If you get up in the morning feeling as tired as you did when you went to bed—achy, coated tongue, bad taste in mouth, sallow complexion—then your liver has not done its full duty, and your system has absorbed the poisons which your liver should have taken away. An occasional dose of Thedford's Black-Draught will help this important organ to function properly. Get a package of Thedford's Black-Draught liver medicine today. Druggists sell it, or call on you.—Adv.

Madlen Leaves Vulcan to Manage Calif. Oil Ass'n

To accept the general management of California Land and Oil association, L. S. Madlen, superintendent of the Vulcan Oil company, has resigned and has assumed his new duties. He left yesterday for Brown county to look over some oil property with a view of purchasing and making development.

Mr. Madlen is one of the best known oil field superintendents in the Ranger field and the company he has just left has had phenomenal success, due a great deal to his ability and management. He has had a remarkable success as an engineer and construction superintendent.

The California Land and Oil association has nearly 3,000 acres of leases in Usher and Camp counties, in which development is planned. Several wells are being drilled by the large companies near their acreage.

Mr. Madlen will give all of his attention to the management of the company.

MISS DAVENPORT BRIDE OF A. E. LINDQUIST AT A PRETTY CEREMONY HERE

Miss Fay Davenport was married to A. E. Lindquist this morning at 10 o'clock. The ceremony occurred at the home of the bride's parents, Judge and Mrs. G. L. Davenport. A number of relatives and intimate friends were present. The double ring ceremony was used and Rev. Webb of the Methodist church officiated.

The bride has been one of the most popular of the younger social set here. Mr. Lindquist was formerly connected with the advertising department of the Daily Times. He is now with the soil improvement committee of the National Fertilizer's association, with headquarters in Chicago.

RANGER DRUG CO.

IRELAND'S TROUBLES REPORTED INCREASED BY "CATTLE DRIVERS"

DUBLIN, April 19 (By Mail).—Conflicts over land attended by organized "cattle drivers" to intimidate land owners and compel them to sell have been added lately to Ireland's other troubles. The disturbances are a revival of conditions which prevailed 30 or more years ago when farmers and graziers were forced by similar methods to sell large land holdings.

The maicoonts complain that most of the good land in the south and west of Ireland is being used for grazing purposes and that the are unable to purchase it. Consequently they have resorted to the "cattle drives" and threats of bodily harm to the owners. It is very difficult to police all the country and many of the drives have resulted in three or four farmers losing all their cattle at one swoop.

The intimidators are represented as renters who are demanding longer leases of land, small owners and a certain number of holders of comparatively large tracts who believe their neighbors' land used for grazing is more suitable for tillage than the ground they are trying to cultivate.

"It's the same story again of the eighties," said a former south of Ireland land holder. They forced us to cut up our large holdings then by use of the same methods now employed."

The land troubles should not be confused with crimes resulting from the political unrest. It is separate and distinct and shows evidence of being on the increase.

CHEMISTRY STUDENTS INCREASE IN NUMBER AT UNIVERSITY OF T.

By OTIS MILLER.

Students at University of Texas. ATUSTEN, Texas, May 5.—The school of chemistry probably shows a greater increase in enrollment than any other department of the University of Texas. So great was the enrollment in this department that new laboratory equipment had to be installed in the building formerly occupied by classes in manual training work. In order to take care of the large number of students desiring work in the school of chemistry a number of advanced students were made student assistants.

There are over 300 students taking chemistry here. This course is prerequisite to all other courses. Students who wish to go deeper into chemistry than chemistry one, are required to take chemistry two, prior to undertaking more advanced work. Faculty members in the school of chemistry attribute the large increase in the number of students in this department to the general desire created by the war for more practical and technical learning and the further fact that business of all kinds is demanding men with special training. Preparations are being made to handle an even larger number of students next year. New laboratory equipment is being received every week and orders have been placed for additional equipment that will make the University of Texas' chemistry laboratories as complete as those of any institution in the South.

E. P. Schoch is chairman of the school of chemistry. H. W. Harper, J. R. Bailey and W. A. Felsing complete the regular faculty.

Organic chemistry seems to interest the largest number of students, which is probably due to the fact that all pre-

medic students are required to do work in this field of chemistry. But for this fact the professional students doing work in inorganic chemistry would outnumber the students in organic chemistry. According to members of the school of chemistry faculty there are great opportunities in the field of business chemistry. Manufacturing concerns of almost every nature are seeking trained chemists to work in their plants, it is stated.

FLOATING EXPO IS TO PUBLISH ITS OWN PAPER

International News Service. SEATTLE, Wash., May 5.—The first floating exposition from America which will leave during May for an eight-months cruise throughout South America, Australia and the Orient is going to have its own newspaper. M. E. Fisher, the director of exhibits, promises that it will be a real one, with a managing editor, a city editor, and the usual staff of reporters, photographers and movie operators.

Several hundred manufacturers will go ashore at each point and have engaged exhibit space on the ship, and nearly four hundred of them or their representatives will make the trip.

The paper is to be a daily, containing all the latest local gossip and wireless news. Fisher's only worry connected with the paper is how to keep himself from being mobbed by representatives of the press who wish to make the trip.

MESSANGER BOYS DEMAND \$23 A WEEK

CHICAGO, May 5.—The Telegraph Messengers' union presented demands today to the telegraph companies for an eight-hour day and \$23 a week for day and \$25 for night work.

BISHOP MOORE COMING TO RANGER TO CONDUCT CONFIRMATION SERVICES

Archdeacon Harry Violen of the Episcopal church, at his service Sunday, announced that Bishop Moore of Dallas would be in Ranger in a short time to perform the confirmation service. Delegates were also elected Sunday by the Episcopal church to attend the conference to be held in Dallas on May 20.

PERSONALS

T. W. Murta, publisher of the Oil Field Review at Dallas, is in the city on business connected with its publication. Mr. Murta will visit the various towns of the Ranger field before returning to Dallas.

Dwight E. Broed, secretary of the Texas Public Health Association of Austin, is in Ranger today on business.

J. S. Barlow, city engineer, left today the Ranger field before returning to Dallas to look after oil land holdings he has in that section.

Mary Roberts Rinehart, noted writer, always classed as an anti-suffragist, has announced herself as a candidate for delegate-at-large from Pennsylvania to the Republican convention.

JUVENILE TRAINING SCHOOL RUNS FARM

ATUSTEN, Texas, May 5.—The State Juvenile Training school at Gatesville is practically self-sustaining, according to Adam Johnson, member of the state board of control, who has just returned from a trip on inspection of the school. Of the 80 inmates of the place, 200 are negro boys, and all are given an education as well as being taught a useful occupation. Mr. Johnson said he was pleased with the discipline under which the school is maintained.

All of the bread eaten at the institution is baked by the boys, and they also make their own clothes. A farm of 1,500 acres is maintained entirely by the labor of the boys. One-half of the boys work in the forenoon and attend school in the afternoon while the other half goes to school in the morning and work at the various trades and on the farm in the afternoon. Mr. Johnson said the board of control may decide to recommend an appropriation at the next regular session of the legislature to enlarge the capacity of the school.

SINCLAIR CO. OPENS ANOTHER PRODUCER

Hitting the sand in its J. B. Strand No. 1 well in Stephens county, the Sinclair Consolidated company, it is reported, has brought in a flow of about fifteen barrels daily. The well is now at a depth of 2,063 feet. The sand was struck at 2,047 feet.

The Williams well of Vulcan company, which is about a mile way, has a flow of about 800 barrels at a depth of 2,130 feet.

Marie C. Brechin of Long Beach, Calif., whom the vice-presidency of the United States might possibly be conferred, is a noted club worker and white ribbon lecturer of international fame.

The City of the Hour . . .

In the middle of sixty square miles of proven and rapidly developing oil territory that is the best in Stephens County. In a territory that is served by no other railroad than the Wichita Falls, Ranger & Fort Worth, the oil fields line that is building by Hamon & Kell with an eye single to placing transportation facilities where they are most needed.

Breckwalker will be Opened May tenth

This new town is eight miles north of Frankell. It is the same distance south of Breckenridge. It is on the Wichita Falls, Ranger & Fort Worth Railroad that is now operating trains for sixty miles through the oil fields with its southern terminus at Dublin, where connections are made with two great systems, thus forever avoiding congestions of freight for the oil fields. The thousands of new oil wells to be drilled in this section and the refineries, tanks, gasoline plants and other necessary equipment of an oil field will be handled through and distributed from Breckwalker. For years to come this new town will be the distributing point and the market place for a great oil fields development. It is a superb point for business. Its lots will increase in value as the development proceeds and the town grows. This new oil fields center will be opened

MONDAY, MAY 10th

The sale of lots will continue from day to day thereafter on the townsite. But the first day's sale will probably see many of the choice lots sold, for the interest in the oil fields of Stephens county is deep backed by the merits of the fields as shown by past and present performance.

Plats of Breckwalker with the prices of all lots printed on them will be available on the opening day of the sale on the townsite. There will be no auction, and no lots will be sold in advance of the opening date. Persons who first make selections will be the purchasers of the lots they select. The prices are right. And the initial payment is only 10 per cent of the list price of the lots. The balance may be paid in ten equal monthly installments. It is an unusual opportunity to acquire real estate that is increasing rapidly in value on a margin that is insignificant and which promises profits alike to the investor and to the business man.

The site of Breckwalker was selected by Jake L. Hamon, Frank Kell, and Breckenridge Stephens Walker, for whom the town was named. All agreed that there is no better location in the entire Texas oil fields for a town that should become the metropolis of the fields.

Persons who would meet opportunity half way should be on the townsite early on the morning of May 10 and thus have all the advantages that can come to the investor in a new oil fields town on a new oil fields railroad.

Breckwalker was named for Breckenridge Stephens Walker of Breckenridge, one of the men who have amassed millions in the oil fields immediately adjacent to this new town and who owns large acreage in the vicinity. Mr. Walker selected the new townsite and says that it is the best place in Stephens county for a great new oil fields town.
