

DISCORD BREAKS OUT IN RANKS OF POLITICAL INFANT

BOLL WORM CONFERENCE IS OPENED

Meeting Called at Washington to Settle Eradication of Pest

WASHINGTON, July 14.—Cotton growers representing half a dozen states are here today in a conference called by the federal horticultural board to discuss federal control and cotton planting in the pink boll worm infested areas of Texas and Louisiana. Both Texas and Louisiana enacted new laws dealing with the eradication of the pest. It is said the action of these states may have some effect on several contiguous states in putting into effect the quarantine mandates establishing non-cotton zones.

COX ASSAILS HARDING FOR A STATEMENT

COLUMBUS, July 14.—Charging Harding, the Republican presidential candidate, made his "first" move in a listening post, Cox, the Democratic nominee, today issued a statement replying to Harding's statement that the Wilson administration saddled the League of Nations upon him as the chief campaign issue.

Cox said his campaign will be dedicated to the task of "bringing peace with honor, of readjusting the affairs of civilization and creating a new day out of which I will make the best of the lessons of the past." Cox declared the things which Harding believes vital and pertinent "from his isolated perspective will not in all probability be so regarded by me."

LENINE TELLS HOW SOVIETS MEET PROBLEMS

TOKIO, June 8. (By Mail)—Nikolai Lenin, Soviet premier, today asserted that the most important problem confronting the Soviet government today is how to harmonize capitalism and socialism. He made that statement in an interview in Moscow with the correspondent of the Nichi-Nichi. The correspondent quotes him as saying:

"For that purpose, the Soviet drew up a special understanding which was made public in America some time ago. Some of the Powers mistook the concessions made as a sign of weakness and dispatched expeditionary forces to Russia. The result was a complete failure on their part, financially, militarily and morally."

He admitted that there were yet many difficulties to be overcome before the Soviet government could be established on a solid basis but he believed that the hardest portion of the work had been already accomplished.

"I took Russia," he said, "no fewer than 20 years to master of feudalism and capitalism. There is nothing extraordinary in that. Old systems may be overthrown in a day but it takes a long period to erect a new one. In fact, the longer the period involved, the surer will be the basis of reconstruction."

"The development of a state," Lenin declared, "depends very much upon the education of the rising generation and it is the policy of the Russian Soviet to pay every possible attention to the training of the youthful mind."

"In regard to the economic prospects of new Russia there is being constructed, we believe that effort should be directed first of all to the destruction of the position of landowners in Poland. This is an essential preliminary to the establishment of a permanent peace and, therefore, to the improvement of economic conditions."

DEAF AND DUMB CHILDREN WILL BE GIVEN AID

WASHINGTON, July 14.—Medical associations of the United States have inaugurated a nation-wide campaign for the treatment and education of children who are deaf or dumb or both. A joint committee including members from each organization has been appointed to draw up plans.

Assistants of medical societies, state boards of health and from Congress will be sought in order that the campaign may be made quickly effective. It is planned to list all children suffering from defective oral or auditory organs, to establish day schools throughout the country for the instruction of these special pupils and finally, to standardize the course of instruction, according to the most modern methods.

BOLSHEVIKI DRIVE GOES FARTHER AHEAD

LONDON, July 14.—Further advance by the Bolsheviki in a campaign against the Poles was reported in Tuesday's official communication from Moscow by wireless today.

GERMANS REGRET BEING UNABLE TO SIGN AGREEMENT

SPA, July 14.—No disposition was shown by the German representatives this morning to yield to the allied demands for coal deliveries. "The German delegation regrets the conference may be dissolved without further agreement, but we have done as much as we could," said Minister Simons.

The allied ultimatum appears clearly firm in their decision that Germany shall deliver two million tons of coal monthly.

Premier Lloyd George received German Foreign Minister Simons at the latter's request and told him emphatically the allies are not bluffing with threats of treaty enforcement.

In an effort to compose the differences over the coal deliveries, a series of informal conferences between the allies and Germany were arranged for this afternoon.

Mineral Wells Party Welcomed by Ranger Men

The delegation of Mineral Wells business men who are touring the oil fields in automobiles to "get acquainted," drove into Ranger this afternoon headed by W. J. Ronke and several other Ranger citizens who went to Strawn to meet the delegation.

The crowd made Strawn about 11 o'clock and had lunch in that city. Following lunch they began the trip to Ranger.

On arrival they were assembled in the vacant building at Main and Austin and Mayor M. H. Hagaman delivered an address of welcome. The mayor, in behalf of the city, extended a warm welcome to the visitors and assured them that Ranger considered it an honor to become acquainted with Mineral Wells. After a response, refreshments were served, under the direction of the Rev. Charles M. Collins, who was master of ceremonies.

Under individual four an hour was spent by the visitors becoming acquainted with the business people and other citizens of Ranger.

From here the party drove to Eastland, the next scheduled stop of their tour. The purpose of the trip is that the business people of Mineral Wells may become better acquainted with the business people of Ranger and other cities of the oil fields in order that all may work to better purpose for the upbuilding of West Texas.

PREPARE PROGRAM FOR WAR VETERAN MEETING IN SEPT.

By International News Service WASHINGTON, July 14.—The program for the twenty-third annual encampment of the Veterans of Foreign Wars, to be held here beginning September 13, follows:

September 13.—General welcoming reception and dance.

September 15.—Trip to National Cemetery at Arlington for memorial service.

September 16.—Evening parade and band concert.

September 17.—Entertainment for ladies auxiliaries delegates and smoker for men delegates.

September 18.—Banquet to newly elected national officers and presentation to new national commander at the Auditorium in the new National Museum.

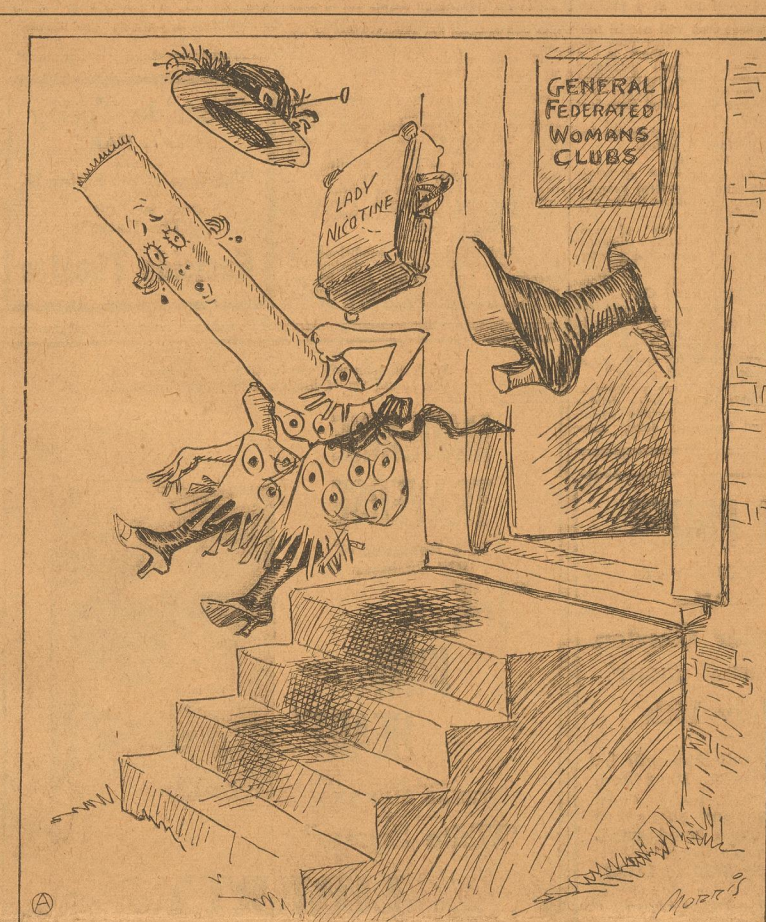

The organization claims a membership of close to 1,000,000 men who have seen service outside the United States.

General Nelson A. Miles, General Pershing, who is honorary commander-in-chief of the order, Admiral W. S. Sims and Representative Keyser C. Johnson of South Dakota, the organization's judge advocate general, will make addresses.

PLENTY OF HELP WAS HAD TO GET OKLA. CROPS IN

OKLAHOMA CITY, July 14.—Harvest hands who gathered the 1920 grain crops of Oklahoma were a husky lot and far above the average harvester, according to W. L. Murphy, assistant state labor commissioner. The labor supply was adequate in every locality of the state this year, Mr. Murphy said. Nearly ten thousand men were used.

KICKED OUT --

JAPAN ISSUE OPENS AGAIN IN THE WEST

SACRAMENTO, July 14.—John Reese, the only American merchant in Florida, Calif., told the house committee investigating Japanese conditions in California today that word was passed to keep Japanese children out of sight while the committee is in that section of the state.

The committee reported seeing only two Japanese children in town.

Chief Buttomer to Big Convention of Fire Fighters

The fire department, the Chamber of Commerce and the city will combine to defray the expenses of Charles L. Buttomer to the joint convention of fire engineers of the United States and Canada which is to be held in Toronto, Canada, July 26 to 30.

It is estimated that \$500 will be necessary to defray the expenses of the trip. Of this amount the fire boys will pay \$200, the finance committee of the Chamber of Commerce have recommended that body donate \$100 of the amount needed, and A. Davenport, fire commissioner, has stated that he will see that the balance of the amount needed is forthcoming.

A special train will leave Dallas on July 23 for Toronto.

The convention is a joint meeting of the fire heads of both the United States and Canada and is also attended by many representatives of companies handling fire engines and fire equipment.

QUARANTINE ZONE IN PLAGUE AREA MAY BE EXTENDED

AUSTIN, July 14.—State health officer Goddard left today for Beaumont to confer with J. P. White of the United States public health service on definite arrangements to extend the bubonic plague survey now nearing completion in Jefferson county, to other sections on the Texas coast in the quarantine area.

FISH—NOTHING MORE.

By International News Service LONDON, July 14.—"Revolution" in giant red letters, glares from a sign in Twickenham, a suburb. "Everybody reads, then squints and with difficulty follows the small lettering below."

BRYAN CRITICIZES BOTH PARTIES FOR DRY PLANK STAND

BOISE, Idaho, July 14.—William J. Bryan in an address here last night severely censured both Democrats and Republicans for the nominal support of alleged wet candidates and their failure to make recognition in platforms of America's fight for prohibition and their failure to adopt dry planks.

The uncertainty and ambiguity of both parties' League of Nations planks also were criticized.

MEXICAN ARMY SHAKE UP HAS BEEN ORDERED

WASHINGTON, July 14.—Reorganization of the Mexican army on the Chilean plan has been entrusted to the board appointed by President Huerta, said a dispatch received today by the new government representatives here.

The board is instructed to report as soon as possible. The dispatch declared the revolutionists of General Osuna and General Guajarda in Coahuila are in no way connected with the new regime, denied Pablo Gonzales is involved in the revolution.

WIDOW TEN YEARS HAS LETTER FROM HUSBAND SOLDIER

TOKIO, July 14.—A letter has been received from a man reported killed in the Russo-Japanese war in North Manchuria by his supposed widow, who has been married to a second husband for nearly ten years.

A sergeant named Jinkichi Onishi has been missing since the battle of Liaoyang. The authorities as well as the family of the soldier concluded that he had been killed on the field, and funeral ceremonies were observed. His "widow" subsequently married again, two children being born by the second husband. Now nearly 17 years since the "death" of her first husband was reported, he writes, reporting himself safe in a hospital in Petrograd.

According to his letter, at the time of the Russo-Japanese war, he was taken prisoner and has ever since been imprisoned in a dungeon, which he was never allowed to leave, until, after 17 years confinement, he fell ill and was removed to a hospital in Petrograd.

BASTILLE DAY IS OBSERVED WITH FITTING TRIBUTE

WASHINGTON, July 14.—The French color floated today from Government buildings alongside the American flag as Washington paid honor to France in commemoration of Bastille day. The French flag was also widely displayed from business houses and residences.

Secretary Baker placed wreaths on the graves of French Soldiers in Arlington National Cemetery. The President sent a message to the French President and Pershing sent a message on behalf of American soldiers who fought in France to Marshall Foch.

CLERK'S CARELESSNESS WILL NOT INVALIDATE BILL

AUSTIN, July 14.—Failure of the enrolling clerk to insert the enacting clause in the bill providing an increase of twenty-five dollars a month to deputy county officials does not invalidate the bill, according to the attorney general.

\$1,968 CHECK GOES ASTRAY; ARREST MADE

Employe of Company Held Pending Investigation of Case

A check for nearly \$2,000 on a Ranger company has gone astray and an employe of the company who had started on his vacation is under arrest.

The check, for \$1,968, was drawn on the Texas Pipe Line company to the order of H. D. Hart. He never had possession of it. It was deposited July 7 in the Guaranty Bank & Trust company, by a man posing as Hart, who a day later drew on the account for \$1,200 and still later drew again for \$450.

Lewis L. Chadkens, former assistant chief clerk for the pipe line company in Ranger, was arrested in Fort Worth Monday in connection with the case and was brought here yesterday by C. C. Hamilton, assistant chief of police, for investigation.

The check, which was deposited with one other, was being held by the pipe line company pending some arrangement with Mr. Hart, who is an employe of the company at Breckenridge. It lay in the desk of the chief clerk, E. F. Corrigan, and no one but Chadkens, the superintendent and Corrigan knew that it was in existence.

On July 7 the check was deposited in the bank to the account of H. D. Hart, who, it is said, never had an account at the Guaranty bank before. On July 9 Chadkens left for his vacation. In the meantime, a check for \$1,200 had been cashed against the new account. The man who drew the money stated that it was for a pay roll and asked that it be in bills of \$100 denominations.

On Saturday, July 10, the official of the pipe line said a draft was drawn against the account for \$450 through a bank in Fort Worth. On advice from Ranger, Chadkens was detained the following Monday and returned here.

The police say that they found in Chadkens' trunk a pass book issued by the local bank in Hart's name with a \$1,968 item entered in its columns.

Chadkens has been assistant chief clerk for the Texas Pipe Line company in Ranger for about nine months.

CISCO DOCTOR NOTES SANITARY IMPROVEMENTS

Dr. J. H. Gregory, city health officer of Cisco and secretary of the Eastland County Medical society, took occasion yesterday to praise the improvement effected in sanitary conditions here in the last six months.

Dr. Gregory was in this city to attend the Eastland County Medical society meeting.

"I was surprised and pleased to note the rapid strides Ranger is making in the matter of sanitation," commented the doctor. "Since I was here last January a marvelous change has been effected. I can see that an improvement of at least 100 per cent has been brought about."

Dr. Gregory commented on the low rate of sickness here and predicted an even better record in the matter of sickness.

RADICALS MAY RUN NEW PARTY

Forty-Eighters Oppose Socialist Plans of More Forward Branches

CHICAGO, July 14.—Hopes for the survival of the new fusion party were at low ebb as all night conferences of the new body's resolutions committee continued today in efforts to get together a platform suitable to Senator LaFollette. The forty-eighters are bitterly opposed to the more socialistic ideas of the radical labor faction.

In this stand they have the support of LaFollette and of several minor organizations subscribing to the political combine. The first evidence of possible breaking up of the new party was when the single taxers withdrew and adopted a one plank platform and nominated Robert C. Macaulay, of Philadelphia, for President.

The majority report of the platform committee prepared, presented chiefly by the Labor party opinion, the members of the committee of forty-eight stood ready after its presentation to give notice that LaFollette would not run for president upon it. As the consequence the report was held back in an effort to adjust the differences.

WHEAT TRADING WILL BE BEGUN AGAIN IN CHI.

CHICAGO, July 14.—Plans for the resumption of trading in wheat futures commencing tomorrow morning was announced today by the directors of the board of trade. The probable opening price of December wheat varies from \$2.50 to \$2.75 in the opinion of traders.

Deliveries will be quoted for December and March. Members were notified that as the Lever act continues in force until the termination of the state of war with Germany, war-time supervision of contracts for future delivery in store by grade alone must be continued and applied to trading. The directors authorized the executive officers to exercise such supervision under strict secrecy with full power to order curtailments or adjustments whenever the public welfare or interest of the board seemed to require.

DIXIE HIGHWAY MAN MEETS GOOD ROADS COMMITTEE

R. S. Shields, a representative of the Dixie Overland Highway Association will meet with the good roads committee of the Chamber of Commerce at four o'clock this afternoon. Mr. Shields endeavor to recruit new members of the association here and will take up the question of raising road markings for the highway through this county.

The Dixie Overland highway will run from Atlanta, Georgia, to Los Angeles, California. From Weatherford to Abilene it will follow the same route as the Hanksville highway. It has been designed to pass through this city.

Something Is Wrong. Who Is to Blame? What Are YOU Going to Do About It?

A special writer, thoroughly familiar with the conditions, past and present, in Eastland county, has been engaged to present these facts to readers of the Daily Times.

(This is the tenth of a series of articles on conditions in Eastland county.—Editor.)

The impotency of law enforcement, as has been pointed to and emphasized throughout this series of articles, may be easily traced, and is necessarily attributable, to many causes. Through the medium of statutory laws society presumes and designs to designate the things people must not do. Through the medium of statutory laws, society is presumed to set forth the compact under which society operates as an organization, and through this compact specifies the penalties that will be inflicted upon members who violate the terms of the organization's compact. But after all, law is merely a theory and an experiment. It is a reality and an accomplished end only to the extent that it is enforced, and it is enforced only to the extent of the willingness or the ability of those charged with its enforcement.

The prosecuting department of the county, district and state, are the tribunals created and maintained for the purpose of enforcing the compact which society enters into between its members as to what constitutes an offense against society as a whole. To give an efficient administration of affairs the prosecuting department must have: first, the co-operation of the peace officers under its jurisdiction; second, it must have the co-operation of society through the im-

Something Is Wrong. Who Is to Blame? What Are YOU Going to Do About It?

A special writer, thoroughly familiar with the conditions, past and present, in Eastland county, has been engaged to present these facts to readers of the Daily Times.

(This is the tenth of a series of articles on conditions in Eastland county.—Editor.)

The impotency of law enforcement, as has been pointed to and emphasized throughout this series of articles, may be easily traced, and is necessarily attributable, to many causes. Through the medium of statutory laws society presumes and designs to designate the things people must not do. Through the medium of statutory laws, society is presumed to set forth the compact under which society operates as an organization, and through this compact specifies the penalties that will be inflicted upon members who violate the terms of the organization's compact. But after all, law is merely a theory and an experiment. It is a reality and an accomplished end only to the extent that it is enforced, and it is enforced only to the extent of the willingness or the ability of those charged with its enforcement.

The prosecuting department of the county, district and state, are the tribunals created and maintained for the purpose of enforcing the compact which society enters into between its members as to what constitutes an offense against society as a whole. To give an efficient administration of affairs the prosecuting department must have: first, the co-operation of the peace officers under its jurisdiction; second, it must have the co-operation of society through the im-

partial but interested and active co-operation of grand juries and petit juries, but this department must also be possessed of sufficient diligence and ability to assemble the full array of its testimony and to present the law as it applies in any particular case and on any specified subject. After all, the enforcement of the law is strictly cumulative. The judge is presumed to be purely an impartial arbiter. His position is that of no bias against nor prejudice for, but to safeguard against this an appeal may be had against any error he may make. The defendant, but no appeal lies against any error he may make in favor of the defendant.

Prevention Difficult

By the very nature of our system of trial the prosecution is charged with a much greater burden than is the defense. The prosecution must prove that a crime has been committed by the person so charged. The presiding judge may, by some honest error or mistake in the construction of law, enable the defendant to go free. From this error and result there is no appeal. But should the court err against the defendant, and this error lead to or result in conviction, from this error there is appeal to a higher court for correction and relief. In short it requires more ability, more energy and more knowl-

WOOD'S DAUGHTER GOES TO FRANCE

Miss Louise Wood, photographed just before sailing.

Miss Louise Wood, daughter of Major General Leonard Wood, sailed a few days ago for France, where she will act as a driver for the American committee for devastated France. Miss Wood, who rather closely resembles in appearance her famous father, is shown here in the uniform she will wear while engaged in her work abroad.

Improvement In Middle West In Crop Conditions

CHICAGO, July 14.—Marked improvement in the principal food crops of the Middle West has been reported in the last few weeks, in contrast to the unfavorable prospects earlier in the season which gave rise to some alarm. "There is no danger that the country will starve this year," is the comment of J. R. Howard, president of the American Farm Bureau Federation, in reviewing the situation.

President Howard reports that the crop prospect is now very fair and that wheat is really better. Corn production promises to be a little under normal, but it is well cultivated and clean and should turn out well with good weather in July and August.

While the wheat crop will not be normal the crop condition is very fair. As against a lighter average there is a heavy carry over. Howard estimated that 30 per cent of last year's wheat remains on farms today. In Kansas and Oklahoma a better wheat crop than last year is expected.

Oats are very short and show no improvement, Mr. Howard added.

Crops are reported late. North Dakota sends word of better crop conditions than for several years. Reports from various states in the producing sections follow:

Concordia, Kan.—Shortage of man-power in the harvest fields has prompted the organization of a peace-time counter-part of the famous war-time "Waacs." The peace-time nomenclature is "Women's Auxiliary Agricultural Corps."

"It is the only way to meet the crisis," said one of the women leaders, in the movement. "There is much work that we can do and the work has to be done. Male applicants for work are so scarce and want too much money."

The harvest "Waacs" are working in the harvest fields by the score driving "headers" and binders, shocking wheat, raking hay and frequently doing more strenuous labor.

KANSAS CITY, Mo.—Wheat harvesting is getting under way in earnest in the wheat district south of Wichita Kan., according to A. L. Barkan, in charge of the United States free employment service in Kansas City. He says a much heavier yield will be harvested than was anticipated a few weeks ago and adds that rains have improved wheat conditions greatly in northwestern Kansas. Other crops are in good condition, according to his information.

TOPEKA, Kan.—Almost ideal conditions the last few weeks have prevailed for crop planting and growth in Kansas. The condition of practically all crops is declared "excellent" by both Federal and state crop authorities. In the last two months official estimates on the wheat crop now being harvested have increased from 92,000,000 bushels to 111,000,000.

FARGO, N. D.—Crop conditions in North Dakota are better than they have been for several years. Small grains in the Red River valley are reported in excellent condition, sufficient rains falling in that section to reduce materially the grasshopper menace. In the western part of the state small grains are in good condition, but the rainfall there has been light and farmers are apprehensive on account of the grasshoppers. The 1920 small grain average in the state is 20 per cent less than last year's.

OKLAHOMA CITY, Ok.—Oklahoma's growing crops generally are in better condition than a year ago, according to Federal and state authorities here. Recent rains have greatly benefited corn and cotton, according to H. H. Schultz, Federal crop reporter, and have interfered little with the harvesting of wheat, oats, and barley, now in progress. Digging of potatoes is on in full. The second cutting of alfalfa is ready.

DALLAS, Tex.—Crop conditions in Texas improved materially during the three-week period ending June 20, according to the Texas Industrial Congress. All crops are reported from 30 to 40 days

late, however, but with generally favorable weather since June 1 farmers are said to have made "wonderful progress in planting, replanting and cultivating."

FRENCH BEGGAR WINS FORTUNES ON HORSE RACES

PARIS.—"Father Cherry" (Le Pere la Cerise), an aged seller of newspapers has suddenly become famous through counting \$25,000 in public under the eyes of the vigilant police, who promptly arrested him on suspicion.

Shabby, dirty, haggard and apparently a pauper, he was seated on a bench in the Tuileries Gardens putting a lot of banknotes into a greasy bag. At the police station he explained that the money was his own and that he had won it in

the last three weeks by betting on the races. Investigation proved his statement to be true and he was set free. Then his troubles really began. History was published in the papers and when he appeared at the races next day a multitude of eager betters surrounded him and on knowing his system and which horses he had picked for that day, they

Then he disappeared but enterprising reporters allege that he has been seen at the races since then with beard shaved and hair cut as a disguise. As one writer puts it: "He has become a sort of legend. Paris has christened him 'Le Pere la Cerise,' which in itself contains a whole chapter of racing superstition. Bad luck in French is called guigne, signifying the small cherry known as the blackheart. But it is a word never used for fear of misfortune by initiates, who use as an equivalent the less magic word of cerise—a short and sweet euphemism."

CHECK TOURISTS WHO DEFACE THE NATIONAL PARK

YELLOWSTONE PARK, Wyo., July 14.—Unthinking tourists who deface the beautiful natural formations of Yellowstone National Park by writing their names and crude sentiments in geyser bowls and on hot springs terraces are meeting with quick discipline this year.

Under an effective system of registration, every tourist entering the park now is being checked in on arrival and checked out on departure and his method of travel noted. If in his own automobile, the state number of the machine is recorded. With such information available, conversations like the following are sometimes heard over the park telephone system:

"Hello, hello. Is this the north entrance? All right, Chief Ranger's Office speaking. John Q. Blank, travelling in automobile with state license No. 245, wrote his name yesterday in Faithful basin. Hold him when the car checks out."

And when the automobile arrives at the north gate, or any other of the park's four entrances, Mr. Blank or Mrs. Blank or Miss Blank, if they should offend, for women are not exempt—is fetched back to headquarters and told politely but firmly that such vandalism will not be tolerated. If he or she is willing to remedy the damage by erasing the writing, the incident may be allowed to end there. Otherwise the law takes its course before a United States Commissioner resident in the park. Heavy penalties are provided by statute for injuring the formations in any way.

MARRIAGE LICENSES

Issued July 12 and 13, 1920.
 George Lowery, and Neal Williams, Cisco.
 Harley Cochran, and Isabell Griffith, Ranger.
 W. E. Madearis, and Myria Robinson, Cisco.

URGE BERLIN WORKMEN TO PREPARE FOR STRIKE

BERLIN, July 14.—Handbills and posters in the workers' sections of Berlin urge the laboring classes to stock up their larders for the next general strike. "No power on earth except hunger can compel you to work," says one of these dodgers. "Provide yourselves with whatever staple provisions you can get together. These are better munitions than shot and shell. Save something daily from your little wages for assembling food supplies, and you are unconquerable. Awake from your lethargy!"

P. S.: BRING HIM—SURE HE'LL LIKE IT

PEOPLE OTHER THAN INDIANS ONCE IN TEXAS

AUSTIN, July 14.—Evidence that Texas was inhabited by a prehistoric people different from the Indian who roamed the plains when the first white man came has been unearthed by James E. Pease, professor of anthropology of the University of Texas. The early inhabitants, he said, lived a nomad-like existence, roaming from one part of the wilderness to another and killing with rude stone weapons, animals and even humans for food.

In co-operation with the Smithsonian Institute bureau of ethnology, Professor Pease has been investigating the mounds for more than a year, he reported.

"The life history of these people have been read from the records they left in their burned-rock mounds or kitchen middens," the professor said. "These mounds are piles of broken and charred bits of limestone three or four feet high and sometimes as long as 100 feet. They are made up of the kitchen refuse of these prehistoric people who had regular camp sites at frequent intervals along the Edwards Plateau, extending from Austin westward to New Mexico.

"These people evidently were advanced to the stage of neolithic culture, an earlier age than the period of neolithic culture to which most of the American Indians belonged. These early Texas inhabitants had arrows and spears tipped with flint points, chipped but not polished. They did not polish their stone weapons, nor did they engage in any form of agriculture. They were, however, skillful skin dressers for we have found skin scraping tools made of flint."

"The kitchen middens which we discovered are the only thing of their kind in America, so far as I know, although they have been found in other parts of the world. At these sites, camps were located with a great fireplace in the center over which hung slabs of limestone were placed a sort of primitive stove upon which to cook the meat the inhabitants killed.

"We know these people were cannibals for among the refuse heaps have been found human bones split apart in order to get at the marrow.

"The soft limestone slabs, being exposed to the weather, broke from time to time and were cast aside nearby, to be replaced by new ones.

"In the course of our investigations we have completely examined some fifteen of these mounds and in them have found thousands of splendid specimens of chipped arrow and spear heads, as well as scraping tools and other implements. Bones of the deer which were prevalent in this region are found in profusion, indicating that this was the principal article of diet."

Professor Pease said he was assisted in his researches by Dr. J. Walter Fawcett, head of the Smithsonian bureau of ethnology, and that the report of the investigation is to be published by the Smithsonian Institution. The University of Texas will retain possession of a collec-

tion of material unearthed. This will form a museum in anthropology. When the present investigation on the Edwards Plateau has been concluded work will be started upon the "funeral mounds" in East Texas, which are the work of an entirely different race of people, according to Professor Pease. These people, he said, lived in a later period. Their pottery and polished weapons have been found in the mounds.

Cox Determined To Stump Nation In Own Interests

DAYTON, Ohio.—The presidential campaign of Governor James M. Cox will be outlined at a conference of Franklin D. Roosevelt, vice presidential nominee; Homer S. Cummings, chairman of the Democratic national committee; E. H. Moore, Cox manager at San Francisco, and other Democrats.

Cox said he desires to plunge into an active campaign at the earliest possible date. Only the protests of many prominent Democratic leaders will deter him from making a tour, it was said.

The date for the Cox-Roosevelt meeting depends on when the naval official reaches Dayton. Cox plans to visit his birthplace, Jacksonburg, Ohio, about twenty-five miles from here, to greet his blood relatives.

Switched to Golf. The Democratic nominee is eager to make the Middle West his first battle ground. That Cox is itching to get into the campaign fight was revealed when he spoke to the Ohio State Golf association at the Dayton Country club.

Several times he came near to speaking on politics, but switched to golf. He told the golfers he will keep his part of the campaign free from bitter personalities.

"Regardless of consequences, Senator Harding and I will be the same splendid friends which we have been for many years," he said.

Cox told how Harding and he jokingly predicted their nomination after a meeting of the Associated Ohio Dailies a few months ago, when the association endorsed the two to head the party tickets.

Cox urged the golf association to encourage homebuilding as one of the surest means of stimulating real patriotism.

Better Days Ahead. "Better days are just ahead, and I believe clean, open competition in politics will help bring them," he said. "It is a good thing that once every four years we lift our eyes off the commercial ledger and put them on the flag."

Once it seemed that Cox would bring up the prohibition issue, but he switched, remarking he knew when he was on "thin political ice."

Cox, addressing the golfers, spoke of the intimate relation existing between Senator Harding and himself as fellow newspaper publishers and golfers.

He recalled the meeting of the Ohio Dailies association last winter, in which

they both were proposed as the respective candidates of the two parties and elected facetiously. "Who knows but what the two editors and golfers arranged the whole thing between themselves and were playing the game together?"

Something is Wrong.

(Continued from Page 1)

edge of the law to prosecute successfully than it does to successfully defend. It is far easier to secure evidence for the defense than it is to secure evidence with which to convict. Naturally and of self-preservation necessity the defendant presents all of the actual evidence possible, and as such artificial evidence as the circumstances will permit. He naturally conceals all testimony that would be prejudicial to his case. In the preparation of its testimony and preparation of its case the prosecution is generally confronted by the dislike of persons to become involved in criminal proceedings, even as witnesses. Through motives of sympathy persons will inconvenience themselves and go to considerable trouble to give testimony for a person charged with a crime when they know something that might result in proving innocence and conferring liberty. But the same person would keep out of the way and remain silent rather than give testimony against a person in whom they have no concern. The great majority of people do not like to be witnesses for the prosecution unless prejudiced against the defendant or wrought up by the seriousness of the offense.

And this is perhaps not so bad after all. There are few persons who do not, in some way and to some degree, violate the law every day, perhaps frequently every day. Tall tales, witnesses of little character and no good motives might burden the court dockets against men most scrupulous and conscientious in their desires to conform to and comply with the laws. But the trouble is that good people let bad things go by rather than make remonstrance. They don't want to be a witness and shirk their duty and the responsibility of citizenship purely for their own peace of mind and personal convenience. When this same person becomes the victim of the same character of offense then it is that he discovers to his sorrow

that his duty shirking proclivities is the common fault of all members of the firm known as society, operating through the common compact of the law.

Society Unbusinesslike.

The members of a business firm who do not look after their business will soon find their business in mighty bad shape, no matter how faithful and efficient their employees may be. Considering the slack methods society follows in the management of its business the wonder is that society has any business left. Local conditions positively reflect the degree to which society attends to or neglects business. People may become too busy or too indifferent to care about anything but self. These kind of people just let things take their own course and how uproariously if later on that course doesn't suit them. They can mould public sentiment with a vengeance when they get started, but failing to start soon enough piles up more work than can be cleared away in a few hours or days.

The prosecuting department of Eastland county has had a great deal of all this to contend with. Naturally it has been beset both by temptations and discouragements. It has had the gatling guns of criticism turned on it from every direction.

The prosecuting department of Eastland county has had a great deal of all this to contend with. Naturally it has been beset both by temptations and discouragements. It has had the gatling guns of criticism turned on it from every direction.

WE ACT AS TRUSTEE For ROYALTY SYNDICATES. We have a few good leases priced reasonable, in Panola and Shelby Counties. Bankers Trust Company DALLAS TEXAS

The question is how many of these criticisms are deserved? How many of them are without foundation or merit? The office of county and district attorney in Eastland county is one of the most important of all offices in this county. In fact, it is the most important. It is second to no office of similar powers and duties in the state. In the next issue we shall speak of some of the rumors and criticisms to which this department has been subjected, and of some of the stories that have been investigated, together with the results of such investigations.

Goodyear Skill—as Represented in Tires for Small Cars

The high relative value built into Goodyear Tires, of the 30 x 3, 30 x 3½ and 31 x 4-inch sizes, results directly from the extraordinary skill and care applied to their manufacture.

To make their quality available widely, Goodyear operates the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at our nearest Service Station.

Go there for the exceptional value in these tires, made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread, \$2350

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread, \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size in \$450 waterproof bag.

GOODYEAR

Gwynne-Hall & Co.

SERVICE STATION
837 Blackwell Road, Ranger

How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

HELPING SELF-HELPERS

There is a saying quite commonly known that "God helps those who help themselves." It is equally true that people help those who help themselves. The case of Ranger's city bonds, which were voted a few months ago, is a case in point. The public announcement that it was desirable to place the city bonds in the hands of the money centers of the country could not handle these bonds, the placing of which was vital to the city's progress, Ranger people took them themselves. When they had been canvassed it was announced that the citizens had shown their interest in the town, pledging by purchase approximately \$200,000 of these bonds, and this too, remember, with the most denunciation being \$1,000,000 automatically eliminated a large number of potential buyers.

Immediately this news went out there was a market for Ranger securities. An offering of Austin has already sold \$407,000 worth and now has an offering of \$200,000 more and a Dallas offering for a large block of \$1,000,000. Perhaps this is merely a coincidence. But it is a logical supposition that the expression by Ranger citizens in its future has also given confidence in it.

OUR WORST BRIDGE

Holes in the flooring of the bridge over the creek at this point it is believed that this bridge should be replaced. In this connection it might be noted that under Texas court decisions the city would be responsible in case of injury to person or property because of highways not being in a proper state of repair. The dividend return from money put in damages is very small.

More Anonymous Letters Some reason unknown to the Times is a common practice to send unsigned communications and comments to news columns for publication. What reason there is for sending these articles anonymously is not clear. Occasionally there is one, of course, who the writer would not care to acknowledge. But in the main these letters are nothing of which the author should be ashamed. Perhaps it is a sort of modesty, a fear that his ideas may not get the approval of the public in

any Barber Shop FOR SERVICE are the oldest shop in the city, and try to be the best. Try Us.

general and that if it is unsigned he will escape any controversy or ridicule. This is perhaps good and sufficient reason for a request that the signature not be published. But it is not a sufficient reason for expecting a newspaper to print the communication without knowing its origin. For its own protection the Times, as do all newspapers, must insist that all articles intended for publication shall be signed. The signature will not be published, of course, if the author does not desire it, but the editor of the Times must know from whom it comes. Otherwise the communication cannot be published.

ABSENTEE AND SOLDIER VOTES

County Clerk Earl Bender was in Ranger Tuesday and called attention to

BY Laura A Kirkman

Raspberry and Gooseberry Jam and Jelly Red Raspberry Jam with Currant Juice—Wash and crush the fruit, allowing to each quart of the berries 1/2 cup strained currant juice. Let stand for 12 minutes, then turn into the preserving kettle, bring to boil and let simmer for 30 minutes. Have ready sugar which has been heated in the oven, allowing 3/4 of the quantity of the uncooked berries and add this to the preserving kettle, cook down until a little of the syrup "jells" when tried on a plate. Put in small glasses, covering with paraffin when cool.

Raspberry Jelly—Combine 2-3 raspberries strained juice and 1-3 strained currant juice and cook these juices for 20 minutes. Then add an equal measure of heated sugar to that of the strained juice. Let cook until it "jells" and store in small glasses, covering with paraffin when cool.

Gooseberry Jam.—Stem and wash the berries and put them in the preserving kettle with just enough water to prevent burning, smash the fruit well and let cook until it is softened. Then add as much heated sugar as there is fruit pulp and simmer until thick. If desired, equal parts of gooseberries and currants may be used.

Raspberry jam without Currant Juice.—Pick over the raspberries. Mash a few in the bottom of the preserving kettle and then add a few more mashing

the workings of the absentee voters' law, by the exercise of which those who will be absent from their polling places on election day will still be able to express their preferences.

According to a ruling by the state attorney general, anyone desiring to take advantage of this law may do so by calling on the county clerk, who will furnish him a copy of the ballot. The voter will mark the ballot and deposit it with the county clerk, who will forward it to the election judges of the voter's precinct.

Mr. Bender also stressed the fact that the law entitling soldiers of the late war to vote without payment of poll tax is still in effect. In case of a lost or misplaced discharge, an affidavit will be acceptable, the same as in the case of a lost poll tax receipt, he says.

LITTLE BENNY'S NOTE BOO By Lee Pope

I spilt ink all over pops desk yesterday afternoon, and after supper he was reading the sporting page and I was standing there wondering how to start to tell him, and I sed, Pop, Wich he didnot say anything back, and I sed, Pop, Lissen to the nightingale, sed Pop, Meaning me, and I sed Pop, I got something I want to confess to you. The doose you have, sed pop.

Yes sir, I sed, I was going past your desk today, and I picked up that big round paper wate made out of glass and threw it up in the air a little ways on account of thinking I was going to catch it agene, and I didnt, but it didnt brake it eny, all it did was neck a little pece of the edge and you mite never notice it if I hadent of told you.

Thats very unfortunate, sed pop, but I am glad you told me, because honesty is the best policy, and we will say no more about it.

Wat do you think it fell on wen it fell, pop? I sed, it fell on your silver pen holder and bent it part out of shape but not all the way.

Confound it, sed pop, then pen holder is worth 10 dollars, O well, maybe I can have it straightened, its a good thing for you that you told me before I found it out for myself, thats all.

And after it lit the pen holder it bounched, pop, and wats do you think bounched into, I sed, it bounched into the ink well and necked it rite over, but it didnt brake it eny, and the ink went all over a lot of papers laying there.

O it did, did it, sed pop, well my slimmer is going all over something, too. Wich it did.

SCOTCH HOOGH, "WAY UP," DEMAND GREATEST EVER

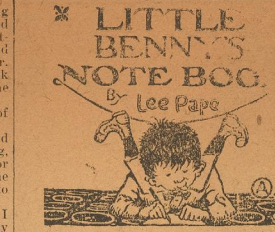

LONDON, July 14.—The world's consumption capacity or desire for Scotch whiskey has taken a startling jump in the past three months.

Since the government controlled price of bottled whiskey was advanced from ten shillings to twelve shillings six pence a bottle, the domestic demand has advanced enormously. Distillers have more orders booked than they can fill.

Simultaneously the foreign orders have rolled in in daily increasing numbers, perhaps partly due to the cessation of manufacture in America.

"If we could ripen" all the whiskey we now have in bond, and release it, we could sell every gallon we own," a prominent distiller declared to the International News Service.

"Every distiller in Great Britain could completely sell out his stock, close up his plants, retire wealthy enough to forget the whiskey business and let whoever desired carry on the trade. We would have to worry about future markets."

THROUGH TRAIN SERVICE BETWEEN BRECKENRIDGE, RANGER AND DUBLIN, TEXAS

via

W. F. R. & Ft. W. R. R.

(Wichita Falls, Ranger & Fort Worth Railroad)

EFFECTIVE SUNDAY, JUNE 27, 1920, ON THE FOLLOWING SCHEDULE

WALLEN PERKINS GOODWIN NO. 1 SOLD FOR MILLION DOLLARS IS TALK HEARD IN BRECKENRIDGE

Special to Times.
Breckenridge, July 13.—The Walker Perkins well on the Goodwin tract in the north edge of town has been sold for \$1,000,000 to the Oriental Oil Company, of Dallas, according to persistent rumor in Breckenridge. J. J. Perkins, joint owner of the well refuses to deny or affirm the proposition but says that a contract had been entered into for the sale of the same. The well is located in the heart of Petroleum Heights, an addition

to the city of Breckenridge, an alias forty acres in the lease. It is in the five thousand barrel class and is holding up well since it came in two weeks ago. This is the largest oil transaction in Breckenridge for some time.
Higginbotham No. 4, Snowden & McSweeney, two miles north of Breckenridge came in today at noon after drilling nine feet in the sand and is making 3,300 barrels of oil a day. The well came in natural and the bit is in the hole. The flow is continuous and not by heads.

Northeast Pool is in Foreground With T-P Jennings

The northeast extension of the Ranger territory has again come into the limelight with the E. Y. Jennings B. 3 of the T. P. Coal and Oil Company making between 400 and 500 barrels from the top of the lime at 3,182 feet. It will be drilled in tomorrow. A big well is reasonably certain.

The Jennings B. 3 is located about a quarter of a mile from Jennings B. 2. Not far distant is the J. M. Gholson tract where Gholson No. 8 has proven a fine producer and No. 9 is on the sand at 3,175 and is drilling in.

Texas Company's J. C. Littleton No. 18, in the Pleasant Grove neighborhood, is a completion at 3,384 feet. It is making 500 barrels natural production. No. 17, on the same tract has also been completed. It is flowing 200 barrels, total depth, 3378 feet.

The Blackwell test of Hughes et al., on a line between the Olden and Desdemona pools, will be shot today with 30 quarts. It has been bailing oil from the deep sand for some time. It is being watched with interest on account of the fact that it may open up several miles of acreage and prove a connecting link between Desdemona and West-Ranger territory.

BUFFALO BILL HAD NOTHING ON THIS MARKSMAN

"Bob" Ensley's ability as a wing shot being the subject of discussion, a bunch of ball fans proceeded to tell of remarkable shots. This one was awarded the "cookies."

"Home in Ireland there was a man who used to stand on one side of a barn, after placing a boy on the other side with a gun pointing upward. As a crow would fly over the barn to a cornfield the man would cry out, 'Shoot!'"

The boy would pull the trigger—mind you, he couldn't see the crow—and the shot would bring down the crow."
Some shots.

Bodies of French soldiers buried at the front will be returned to their relatives and reinterred in cemeteries in villages, towns and cities where their parents or next of kin reside. Reinterment will begin about Nov. 1.

Right To Junk Kansas Railroad Taken To Courts

TOPEKA, Kan.—If a railroad receives money from the counties, cities, townships and other municipal subdivisions for building the line, can the bondholders or stockholders junk the property and leave these people without transportation? That is the question which is going to be fought out in the Kansas courts between the state and the Kansas City Northwestern railroad. Richard J. Hopkins, attorney general, has already served notice upon the company that the state intends to sue that the property is not sold as junk.

It is an actual fact that the property at this time can be sold for more money than it actually cost to build the railroad. The steel is worth so many times its cost that the bond holders would realize much of their investment by the junking of the property. It is asserted by some that there might even be a profit for the stockholders. This is regarded as doubtful.

The road is more than a hundred miles long and runs through northeastern Kansas. It was formerly owned by the Missouri Pacific but was returned to the original stockholders at the time of the reorganization of the road. Several branch lines were released from Missouri Pacific control. The road has never been profitable because it has been milked by the larger roads. It never had any division of traffic from any other road. But it does furnish the only railway transportation for approximately 125,000 persons.

\$20,000 a Mile Voted in Bonds. Every county, every city and every township through which the road was built voted \$20,000 a mile in railway aid bonds to help build the line. The bonds were issued in exchange for common stock. Now the legal question is, can the bondholders of the road remove any obligation the company has toward the people it served and who voted taxes to help build the property? It is asserted that there is no decision bearing directly on this point in the court records.

As a matter of fact, it was only when the prices of steel went skyrocketing that it became worth while junking any railroad property. There have been a few short lines abandoned, but in most instances there were no court proceedings and other lines gave more convenient service.

In the case of the Kansas City Northwestern the people will not have any service left without doubling and tripling the haul. Many towns will be left 10 to 20 miles from a railroad.

The state may undertake the operation of the railroad through the organization of a company composed of representatives which voted the bonds. The state will contend that as these municipalities voted bonds that the people are entitled to have the railroad left for railroad purposes. If the owners do not care to operate the property, then the state can come in and operate it and give the service the taxes voted require.

Taxes Held to Be First Claim. There have been numerous court decisions regarding the obligations of rail-

roads to the public and it has long been decided that taxes are the first monetary claim against a railroad or other public utility. Next comes wages and then comes interest and dividends. The state will contend that there is even a greater obligation where the people voted bonds to help build a railroad and that unless the owners of the road actually return the money to the municipalities that they have no right to junk the property. In reality it is a claim that a railroad once built partially with public money always has a public obligation which comes before the claims of the bondholders or stockholders or anyone else.

The Leavenworth & Topeka Railroad, some 50 miles long, is a little different situation because it was built by a private family. The court ordered she remain in the family until she is twenty-four years old. If, however, this plan does not prove acceptable to the wife in the family, Clara is to report to the court.

Coming here from Lestart, West Virginia, where her parents and eight brothers and sisters live, Clara found employment in a factory where she met a man from Pennsylvania who made love to her and then betrayed her.

KILLS CHILD, HOUR OLD, CONFESSES, IS PAROLED

International News Service.
AKRON, Ohio, July 14.—Although admitting killing her new-born babe and pleading guilty to manslaughter, pretty twenty-one-year-old Clara Marr escapes with a parole and a suspended sentence to the state reformatory for women.

When the babe was an hour old the young mother cut its throat and stabbed the back of its neck with a knife similar to those used in local rubber shops, according to County Prosecutor Roetzel, who asked the court to extend clemency to Miss Marr, who, he said had been betrayed by a coward on a false promise of marriage. Her betrayer disappeared.

Clara has been given employment in a private family. The court ordered she remain in the family until she is twenty-four years old. If, however, this plan does not prove acceptable to the wife in the family, Clara is to report to the court.

PARIS SCULPTOR CALLED ARTIST IN TRUE SENSE

By Associated Press.
PARIS, June 25.—(By Mail.)—Paul Adolphe Darde, awarded the coveted Paris national prize for his marbles "Faun" and "Eternal Suffering" is greeted by critics as a genius, in the real sense of that abused word.

Darde, in the simple telling of his career, stands out among artists. He is not trained in the academic way. He was a student of the region of Lodeve in the wine country of southern France. Son of a small farmer, he watched a flock or worked the ground until he was twenty. He fought in the war and today, famous, he is only thirty-one.

The big, powerful, blond-bearded peasant, began drawing, he says, when he was eight but felt his own way until he took a drawing course in the Lodeve high school and later studied at Montpellier, getting, as he says, guidance in his first steps.

Through the counsel of his two art teachers he came to Paris. He spent five weeks here in the government art institute and worked three days in Rodin's studio. With that aim grip of the classic school and the modernity of Rodin, Darde began the working in marble and metal that made experience his teacher.

"I have no preference in schools," Darde says. "I love all that is beautiful in art as in life." He has been likened most closely to Rodin, but he admires first of all the work of Jean Goujon and secondly that of Barye and Rodin of modern art.

The "Faun" is a massive, vigorous conception, sneering, cynical and sensual. "Eternal Suffering" represents a woman's head, snake-entwined, with a face, upturned, in anguish and almost distorted as if with physical pain.

Darde works directly in marble without a wax or plaster model.

Distribution of 4,765,000 Victory Medals is being made to members of the army, navy and marine corps who were in service between April 6, 1917, and Nov. 11, 1918. Special insignias are presented to men who saw wactive service.

What Is the Condition of Your Blood Supply?

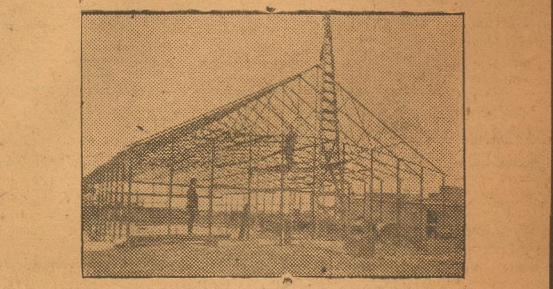

Highly Important to Keep It Free
From Impurities.

For this purpose, no remedy can equal S. S. S., the fine old blood purifier that has been in constant use for more than fifty years.

Did you know that ninety per cent of all human ailments depend upon the condition of your blood? You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust.

Get a bottle of S. S. S. at your druggstore today, and note how promptly it gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, Swift Laboratory, Atlanta, Ga.

FIREPROOF BUILDING TRUSS BETTER THAN BRICK CHEAPER THAN WOOD

Your new shop that you are figuring on building must be fireproof. It must be built so that no space will be lost with post and pillar supports. This can be eliminated by using the Welded Truss, as in the illustration.

Special Notice to the Public

Despite rumors afloat to the contrary, Ranger Cafe has no connection with any other cafe, restaurant or eating place of this city. Ranger Cafe is owned and operated by private parties who devote their time and attention to the successful management of Ranger Cafe exclusively.

We have established a successful institution here, based on a policy of service, quality and fair dealings to the eating public, a fact, we believe, the eating public of Ranger truly appreciates.

Ranger Cafe is open for banquet or private dinner engagements at all times. On Monday evening of this week we were caterers to the Odd Fellows banquet and on Tuesday evening to the Eastland County Medical Association. Many similar organizations are also planning banquets here.

The food served at Ranger Cafe is the best obtainable and the service, all the even most fastidious patrons could desire.

Ranger Cafe

"Waiting to Serve
and to Please You"

Backed by the truth

—You have heard people read an advertisement and then say "I don't believe it."

—Sometimes this has been true for dishonest people have advertised. Very few now-a-days, thank goodness.

—We have established a successful business in Ranger through honest advertising and honest merchandise. We would rather underestimate the merits of our goods and have you pleasantly surprised at the values received—than to have you leave our store feeling that the goods we advertise were not up to your expectations.

—That's why we want you to know that every advertisement we insert is a guarantee of real value to you. —Satisfaction, or your money back, is our motto.

Nitros Unable to Hit in Pinch and Lose Final 7 to 1

BUDDIES AGAIN TOMORROW

Popboy Smith's Gorman Buddies, enjoying a lay-over with no game in Ranger yesterday, open a three game series here today. Lefty Adkins is first out against the hard hitting lads from down county and will have the advantage of facing a batting order containing a preponderance of southpaw hitters. Nick Carter is second out, tomorrow, with Boyer and Hill to wind up the series, Friday.

For eight innings Cheeves of Eastland and Hudspeth of Ranger duelled a tight match, with the advantage with the boys from the county side. But after the eighth, it was all one way and Ranger's rally in the ninth was only a matter of form, to save the family name, so to speak. Mooney and Tate hammered over the home run to keep the home boys from being shut out. As it was, the final was 7 to 1.

The duel which lasted for the first seven frames was for the benefit of three error hunters and a veteran baseballer. In the stand were Jack Doyle of the Chicago Cubs, B. E. Chambers of the Cincinnati Reds, Teddy Sullivan, daddy of Texas baseball and Scott Smith, ivory masher for the Galveston Pirates.

Cheeves acquitted himself nobly for the visiting boys and Hudspeth didn't look so bad. He can blame no one for his loss, however, for he had his share of what misplays were made. Cheeves at his Best

The Judge flinger, himself a boy of only nineteen summers, and about the same number of falls, springs and whippers, flung tight ball permitting but three hits up to the ninth and being in danger but twice. He pulled out of two holes, in the second and sixth, fanned over the Nitros, four of them being Penn, and issued three passes. He had plenty of stuff and good control.

Jim Galloway and Jack York did all of the Nitro hitting up to the ninth, when Duke Mooney and Joe Tate stepped in after all was lost save honor. Even that was threatened.

Harding opened the scoring with one down in the first, cracking a single in the second. Gross boosted to Tate, then Hartwick laced a triple to right on which Harding rode home. Bratcher left Hartwick stranded by driving to Clapp.

Another was added on misplays and ones in the fourth. Gross swung one Tate, who mused it up. Hartwick and Penn couldn't handle it. Bratcher rolled another bunt down the alley. Penn and Hind tangled on it. Hind it and had no play at third and was late to make it at first. It was a then Lewis boosted a fly to right.

Then Lewis boosted a fly to right. In the same direction, on which trick took third, having been held second by York's inter-ception of Lewis' throw-in on Lewis. Payne another tall one, which Galloway ending it.

Our Chances
The Nitros passed up a good chance but things on an even basis in the second, when Galloway led off with a can single and advanced on a wild throw. Lovelace and Mason lofted to enter, Mason's fly being a hard chance for Payne. Penn whiffed as was his habit yesterday.

Hartwick. Tate doubled to right and second when Hahn dropped Lovelace's Mooney showed some fast base-running in making the plate. Tate was held on sky ball. Mason filled the sacks by walking. Then Penn—well, he pinch whiffed.

The Judges lost one the day before, on their manager's temper. Without him for he was banished into civilian clothes for the day yesterday—they took it back and won one by almost the reverse score.

NITRO NOTES.

Jimmy Maloney, in addition to the \$100 fine, drew an indefinite suspension for his childish display of Monday. Five more Jess Price of the telegraphic information from President J. Walter Morris and Jimmy reluctantly made his way to the club house as the game opened and changed into his long pants. The Judges thrived under the leadership of Joe Lewis, acting manager.

Bill Edgar, the sixth man on the Nitro staff, has been placed with the Eastland club. In addition to Maloney, the new utility man still suffering from a scalping from a flung bat Sunday, Manager Jim has signed Red Moise, who is good at utility. Red can don the mask, pad and shin guards should Penn have any hard luck. Penn has had to bear the brunt lately, with no relief.

The Gorman Buddies, who played the last game of the Mineral Wells series there as a part of a double header Sunday had a rest yesterday and came over to Ranger. Some of them were in the stand.

In the sixth frame Payne made an odd out. He ran into York and knocked the ball from his hands, after Jack took Jim's throw. Then he kept on running. The Jack had to run him down. He should have been out, for interference, anyway.

Jack pulled a bad one which cost nothing on the third out in the eighth. He took Payne's hopper and ran toward the bag but tossed the ball toward the box, one-handed, before he reached the base. Price missed it, or Payne would have been safe. Jack realized his mistake, and started to make amends, but saw that Price had missed it and went on.

Harding showed some real stuff on Lovelace in the fifth. Tommy was first up and bounded one thru the box that looked mighty like an infield blow. Harding came in on the rush, took the ball but went to the dust in getting it, and threw from where he fell in time to retire Tommy. It was a dinger.

Gross went over between the stand and the skeleton of the bleachers to get Galloway's foul in the fourth. It was a long chance and not without risk. He went to the bleachers again on Clapp in the sixth, but missed the ball and beamed himself in falling against the structure. It was game baseball, though taking a long chance.

Anyway, the Nitros won the series, have a total count of ten won and four lost with Eastland for the season, and are still at the top of the pile.

Those slugging buddies today.

JOHN KING'S HITTING BIGGEST FACTOR IN VICTORY OF SCOUTS

Special to The Times.
CISCO, July 13.—King's home run hitting was the feature of Cisco's 13 to 4 victory over Abilene. King clouted one for four sacks in the first with one man on and another in the second with the bases full. Manager Young of the Abilene club was chased out of the park for the second time during the series. The score:

Games This Week

Today—Sinclair vs. Ranger Tobacco, Municipal park.
Thursday—Ranger Shops vs. Tee Pee, Municipal park.

EMPIRE SITUATION IN CITY LEAGUE CRITICAL

An appeal is made to the baseball loving public of Ranger and the former stars of the diamond, who are familiar with the rules and regulations of the game to assist in solving the problem of umpires which has confronted the league officials ever since its organization, by volunteering their services as such in the twilight games which are being played. There are few things which can make a game more frankish than can be found up to officiate in this capacity it will greatly add to the interest of the game and stop the wrangling which has been evident at most of the games just because the "ump" calls them as he sees them and not as the spectator or player with money on the game sees them.

SHOP TEAM OUT FOR REVENGE ON TEXAS PACIFIC

Smarting under the sting of defeat from their last meeting with the nine representing the Tee Pee Coal & Oil, the boys from the Ranger Shops are out to chase Box from the Box in regulation time and thus hand him his third defeat of the season. The Shop team has played errorless ball for the past three games and have hopes of continuing this good showing by giving their iron man "Wagner" the best support ever handed out.

The following is the probable lineup for the game at Municipal Park on Thursday: Routhon having developed a shyness in his arm will probably be found in the outfield with Big Boy Hudson taking his place. Wagner, who has won every game since being available for the team will probably mount the box, with the remaining lineup following as usual: Jensen or Dunnigan lb, Eberle, 2b, Ed Dunigan, ss Brock 3b, Beatty, cf, Hellinghausen and Routhon or Cowser, rf.

LEAGUE MEETING FRIDAY

All representative club managers, together with the board of directors are requested to attend a meeting of the City League to be held Friday evening at 8 o'clock at the office of the Ranger Times. Matters pertaining to eligibility of players and discussion of playing rules are slated as the topic in question.

"Aunt Sally - she knew how all right"

WHEN I was small, I USED to watch, AUNT SALLY, PUT UP fruit, AND VEGETABLES, FOR THE winter. I REMEMBER how, SHE PACKED it all, IN CLEAN glass jars, AND SEALED the tops, WITH PARAFFIN, TO KEEP out, ALL THE air and keep, THE JUICY flavor in, AND ALL the winter, THANKS TO her, WE HAD the fruits, OF SUMMER on our table, SO WHEN I happened, ON SOME cigarettes, WRAPPED NEATLY up, IN A glassine jacket, I DIDN'T think, IT WAS just for looks, BUT RATHER that, THE EXTRA wrapper, KEPT AIR and dampness, ALL OUTSIDE, AND GODNESS in, SO THAT'S another, BLAME GOOD reason why, "THEY SATISFY."

LEADERSHIP OF PROGRESS

The Studebaker Corporation has gained this leadership thru their efficiency, skill and manufacturing experience, as only years of experiment can develop.

CRIME ON DECREASE, SHERIFF LEAVES POST

ATLANTA, Michigan, July 14.—Because of a lack of business to keep the office alive, Robert McLellan has tendered his resignation as sheriff of Montmorency county.

GENERAL S. B. M. YOUNG, 81 YEARS OLD, ENLISTED AS PRIVATE IN THE UNITED STATES VOLUNTEER INFANTRY IN APRIL, 1861, AND ROSE TO THE COMMAND OF CHIEF-IN-STAFF.

After fifty-nine years of service in the army, he has resigned from active duty.

SUMMER TRAVELERS WILL WANT NAVY TAFFETA FROCKS

For that dark gown one must always have no matter what the season navy taffeta is perhaps the favored fabric. Navy taffeta frocks are almost a necessity for the woman who travels, for she wants something which will pack easily.

The taffeta frock needs but a bit of pressing, a shaking out or a fresh white collar to make it look new. Here is a pretty model which will do for any time of year and will be particularly good for summer travelers.

Miss Alice S. Tyler.

A woman now holds the presidency of the American Library Association, making the third woman to be honored in this way in the more than forty years of the association's history.

Miss Alice S. Tyler, director of the Western Reserve University library school at Cleveland, Ohio, was elected to the chief office of the organization at the recent conference held in Colorado Springs. The organization is comprised of more than 4,000 librarians of the United States and Canada.

BUDDIES AND PLUTO BOYS ENJOY HOLIDAY AFTER DOUBLE BILL

GORMAN, July 13.—Gorman and Minnow Wells clubs have enjoyed an all-day holiday, the last game of the three game series having been played as part of the double header which the clubs divided here Sunday.

M'CLESKEY DRUG STORE ENLARGES TO DOUBLE SIZE

The McCleskey pharmacy, in the McCleskey hotel building, is enlarging and refitting to double its size and will be, when finished, a modern drug store and fountain.

HEALTH LECTURE WITH PICTURES AT CHURCH SATURDAY

The state board of health will give a free lecture, illustrated with moving pictures, on child health and child health centers at the Baptist tabernacle Saturday, July 17.

McCleskey Hotel to be Remodeled and Made Modern

Contracts have been closed by C. S. McClure and E. J. Henry for the entire remodeling of the McCleskey hotel. The plumbing contract, covering \$11,000 of work, has been awarded to R. D. Lincoln on carefully prepared estimates which he submitted seven weeks ago. The entire hotel will be changed. Every room will be remodeled to have bath and running hot and cold water. The rooms will be redecorated and hung with new draperies. New rugs will be laid. The work of remodeling and refitting is expected to take thirty days. It is intended to make the McCleskey a thoroughly modern and attractive hotel.

Mining Interests Move To Revive Gold Industry

SIoux FALLS, S. D.—The mining committee of the Deadwood Business Men's club and mining interests of the Black Hills have taken the initiative in organizing the gold mining interests of the United States and Alaska, so the gold mining industry can obtain the relief needed from congress to again place it on a paying basis. Evidence is to be introduced in congress proving that unless a greater price is paid for gold, or an increase of not less than \$10 an ounce, the gold mining industry may be considered a thing of the past.

Gold mining, the chief and oldest industry of Alaska and the one which has made it famous in song and story, is practically at a standstill in Alaska, due to the skyward movement of material and labor costs and the failure of a similar movement in the gold standard, according to George B. Grigsby, formerly of Sioux Falls, who is now a resident of Juneau and Democratic delegate from the territory. Old Spirit of Alaska Gone During a brief visit to Sioux Falls he stated that Dawson and Juneau were no longer the towns they were in the days of the gold rush, when the saloons were open and money flowed like water. The life, the atmosphere, the spirit of Alaska, as portrayed so vividly by many writers is missing and the once famous country of romance is donning the cloak of civilization, according to Grigsby.

He stated that the Treadwell mines, known as the greatest gold producers in the world, have closed down, as have practically all the other great gold mines in the territory. "Where it formerly cost from \$4 to \$9 to take out a cubic yard of dirt in the mines," said Grigsby, "it costs today in the neighborhood of \$18." And yet the price of gold remains about the same. It can readily be seen therefore that where formerly a good profit could be made at the industry, there is no profit and more or less of a loss in the game now.

CLAIMS SUIT-CASE, FINDS POLICE ARE WAITING FOR HIM

W. P. Roberts was arrested last night by the police department at Smith's check stand on Commerce street and was charged today with theft of over \$30. It is alleged by E. O. Thurston, who filed the complaint against Roberts, that Roberts entered his room in the Prairie hotel sometime yesterday and carried away a suitcase and several articles of clothing belonging to him and also clothing belonging to other roomers of the hotel to the estimated value of \$100. The suitcase with the clothing in it was found at Smith's check stand, and was identified by Thurston. The police watched the place and arrested Roberts when he later came to claim the goods.

DALLAS EDITOR'S CO-OPERATION IS ASSURED RANGER

Co-operation of the Dallas News, leader of Dallas newspapers, with the Ranger Chamber of Commerce was assured by George McQuaid, managing editor, in a conference with a Ranger committee in Dallas recently. Mr. McQuaid said that the News was in harmony with Ranger's plans for a greater city, and wanted more news of the action here. The committee which visited him consisted of H. S. Cole, M. H. Smith, M. R. Newnam and R. D. Lincoln. Mr. McQuaid was formerly a resident of Ranger, and for several months was director of publicity and manager of townships for the Wichita Falls, Ranger & Fort Worth railroad.

CANINE HERO OF WAR IS DECORATED BY BUSINESS CLUB

International News Service. PHILADELPHIA, Pa.—Among the war heroes decorated over the country at Independence Day exercises was a three-legged dog which saw service in France as a mascot of the 109th Infantry. The animal was presented with a silver medal by the South Germantown (Pa.) Business Men's association. The medal was provided by the Women's Society for the Prevention of Cruelty to Animals. The dog accompanied a soldier named McCool to France. Both were wounded, the dog having a leg shot off. McCool, before his death in a hospital, gave the dog to a buddy, and the latter, upon his return, gave the dog to a Philadelphia woman. The dog catchers recently captured the dog, and when it was claimed by his owner its history was revealed.

Mrs. C. M. Collins, wife of Rev. Collins of the Presbyterian church left yesterday afternoon for Waxahatchie, where she will attend the annual chautauqua of the Presbyterian church. She will be gone about a week.

Inquiry Reveals Elwell As King Of 'Bootleggers'

NEW YORK, July 14.—Federal authorities, investigating the many sited life of Joseph B. Elwell, have come into possession of facts tending to show that, in the three months prior to his murder, the bridge whist expert and turfman was the moving spirit in one of the biggest "whisky rings" in the country. The authorities say Elwell was no piker when it came to "bootlegging." He was not numbered among the hundreds of "rascals" who were shipping large quantities of liquor in the hundreds of thousands of dollars.

From what has been learned by investigators for the government, Elwell capitalized to the fullest extent the friendship with men and women of means, whose companionship he shared in the fashionable winter and summer colonies on the Atlantic coast. When his string in the beach stables slumped in form and the whist expert began to find it difficult to get into a "parking garage," he naturally drifted into "bootlegging" and several weeks after his advent into that form of endeavor he and his coterie with which he surrounded himself for the purpose, were shipping large quantities of liquor to hot spots, where his merchandise sold for large sums.

Information with respect to Elwell's "bootlegging" deals is considered of such importance by officials that James Shevlin, supervising prohibition agent for the district, left New York last night for Washington, where he will consult his associates in the procedure to be pursued by officials of this district. Important Arrests Expected. The belief was that within two days there will be several important arrests made by prohibition agents and that much of the mystery of the murder of Elwell will be dissipated.

While the federal agents were rounding up their end of the interlocking situation, the District Attorney and his assistants were engaged in demonstrating their belief that some of the witnesses they have examined have not been as frank in some of their statements as they could have wished.

District Attorney Swann centered his fire on William H. Pendleton of Cedarhurst, L. I., a friend of the slain gambler. Swann issued a statement setting forth his belief that Pendleton had "made numerous contradictions" in the course of the numerous examinations he has submitted to since the murder. Pendleton has denied from the first that he was in New York on the night before the murder. The District Attorney declares that he has witnesses who contradict Pendleton on this point. Representative of what the District Attorney says, Pendleton adheres to his original story. In an interview the turfman declares emphatically he spent the night before the murder on Long Island, and substantiates his declaration by naming his whereabouts on that night. He also names with whom he was in company.

PERSHING GIVEN JEWELLED SWORD

General Pershing receiving the sword from Ambassador Geddes.

The British ambassador to the United States, Sir Auckland Geddes, recently presented to Gen. Pershing a magnificent sword, jeweled, chased and engraved in commemoration of the splendid services rendered during the war by General Pershing and the men who fought under him. The sword was a gift from the corporation and city of London, delayed until London's jewelers could be released from their military tasks or enough to fashion the gift with all possible care.

"THAT LITTLE GAME" === "Choking" the Top Card

WHATTA YOU MEAN, — "CHOKE THE TOP ONE"?

HE MEANS "BURN THE TOP ONE". GET RID OF IT! THROW IT FACE UP ON THE TABLE.

NIX ON THAT! I WONT STAND FOR THAT! THERES EIGHT IN THE GAME. — I GET MY DRAW FROM THE DISSY" AND YOU WANNA THROU ONE AWAY! NOTHIN' DOIN'!

WE ALWAYS DO IT. WHERE I PLAY! IT'S LEGITIMATE.

I KNOW THE ONE THAT OUGHTA BE CHOKED!

COME ON! COME ON! NO INNOVATIONS! LETS HAVE CARDS! C'MON! TWO! TWO!

LOOK HOW YOU'RE HOLDIN' THAT CARD! NO WONDER HE WANTS IT BURNED.

THREE! THREE! THREE!

JOHN-A-DREAMS
LXX. Clocks and Watches Tick in Your Dreams. Clocks figure in many tales of mystery as well as in many narrations of inexplicable things that have really happened. In dreams, too, they have a deep significance. At times the omen is good, at others bad, and much depends upon the hour shown on the dial. If you see the hands at midnight, or hear the clock strike the dread hour, know that you will experience strange things, weird and perplexing. I am not given to speak often of the supernatural, but it is written that those who note the mystic hour in their dreams are chosen to hear or otherwise receive messages not for ordinary mortals. I will not go deeper into this subject—let me know if such a vision comes to you, and relate all its incidents; and I shall then try to read its meaning, for . . . the witching midnight hour oft brings Knowledge of strange, mysterious things. It is accepted that the hours between seven in the morning and noon mean troubles, those between noon and seven at night cheerful things, those between seven at night and eleven, amorous adventures. Then comes the midnight hour of which I have already spoken. And the span between midnight and seven in the morning signifies health and good spirits. So, if you dream of clocks, observe the hour they show, if you can. It determines the meaning of your dream. In a general way, to see a clock or to hear it strike, without being able to tell the time, is a sign of an appointment which will be made with you or for you, and the place where the clock stands, or the person or persons present at the time, decide the rest of the interpretation. But if you see a clock's blank dial, especially if you are amazed at the absence of the hands, then you will miss an excellent opportunity which would have meant much advancement and good fortune, but through some fault of your own, or through some untoward circumstance, the chance will pass by and you will learn too late that fortune knocked at your door while you were out. It is quite different with watches. They always mean gifts. According to the apparent value or beauty of the watch you see in your dream, you may judge the value of the gift, and the person who wears the watch will be the one to remember you with the present. If it is your own, then the dream is a forerunner of extravagance on your part—you will go to an expensiver, for purely selfish reasons and purposes, which will be neither wise nor necessary. To break a watch is hard—it signifies that you will sustain losses. To merely hold one, without giving thought to the identity of the owner, is a sign of a visit from the doctor. To lose one means gain in leisure—as though time will mean nothing to you and the hours will flit by most pleasantly. To see a very old and odd watch or clock without any of the accompanying episodes above enumerated, is a forerunner of a message from the past—a visit or letter from a very aged relative, perhaps some sort of gain which does not mean much materially but has sentimental value. If you dream that you receive a watch as a gift you will be deeply disappointed—how deeply is best seen from the fact that girl, about to be married, has this vision, her wedding day will be postponed. To dream of Pens and Writing will be the next chapter's subject.

OXFORD GIVEN SCHOLARSHIP BY ENGLISHMAN
By Associated Press. LONDON, July 14.—Viscount Rothermere has given the University of Oxford 20,000 pounds for the establishment and endowment of a professorship of history of the United States of America, which will be known as the Harold Vyvyan Harmsworth Professorship of American History, in memory of his son, Captain Harold Vyvyan Harmsworth, of the Irish Guards, formerly a commander of Christ Church, who was killed in the war. Under the conditions of the endowment the holder of the professorship must at the time of his election be a citizen of the United States. He shall hold the professorship for 10 years, and shall be eligible for appointment for another 10 years. The appointment shall be made by an electoral board consisting of the American ambassador at the time of the election, who shall have a casting vote, the chancellor of the university, an elector nominated by the university, and Lord Rothermere and each succeeding holder of the Viscountcy. Lord Rothermere has endowed two other professorships at English Universities. In 1910 he gave 20,000 pounds to Cambridge University for the foundation of the King Edward VII Chair of English Literature, and in 1918 he gave a similar sum to Cambridge as an endowment fund for the Vere Harmsworth Professorship of Naval History, in memory of his second son, who was killed in the battle of the Ancre. Dr. J. S. Hamilton, who was called to Plainview, Texas, after the death of his father last week in Mountain Air, New Mexico, is expected to return within a few days. The elder John Hamilton was a former resident of Plainview.

A Remarkable Record
"Ch'ella mi creda"
(That She May Believe Me)
from "The Girl of the Golden West"
sung by Edward Johnson
This is the farewell of "Dick Johnson" (otherwise Ramerrez) who is about to pay the penalty for his misdeeds by swinging from the end of a rope. The aria, though brief, is one of Puccini's finest—the crowning moment perhaps of the entire opera.
Victor Red Seal Record, 64866
Two rollicking records that everyone will want to hear again and again.
"The Moon Shines on the Moonshine"
Sung by Sidney Phillips
"So Long! So-Long!"
Sung by Victor Roberts
The former is the plaint of a poor soul bewailing the dry days that are upon him. "So Long! So-Long" is a love song of Ming Toy and Che-Long. It has a catchy melody that makes the dancers dance.
Victor Double-faced Record, 18672
