

LIBERALS WILL JOIN UNDER LABOR PARTY STANDARD

GIVE GERMANY MORE TIME TO MAKE ANSWER

Allow Another Day to Concede to Coal Deliveries Ultimatum

SPA, July 13.—Allied prime ministers decided not to insist upon the Germans replying to the ultimatum regarding coal deliveries at 3 o'clock today to permit the Germans to defer their reply until tomorrow. The allies originally demanded the monthly delivery of 2,200,000 tons of coal by the Germans. The Germans offered 1,100,000, but the allies demanded the two million. The ultimatum informed the Germans they must agree by 3 o'clock to the last demand or the allies would take measures to enforce the terms of the treaty of Versailles.

Bolivia Ousts President and Jails Cabinet

LIMA, Peru, July 13.—Revolution has broken out in Bolivia, according to a dispatch received from Lapaz yesterday which said the government has been overthrown and the president with his cabinet are made prisoners. Bautista Saucedra assumed power supported by the army. Newspapers here commenting say the revolution is "a crushing defeat of the pro-Chilean policy pursued by the Bolivian government and vindicates community interests existing between Peru and Bolivia."

ABSENTEE VOTERS' ACT INTERPRETED BY ATTY GENERAL

AUSTIN, July 13.—Voters desiring to take advantage of the absentee voters act must do so between July 14 and 21, according to a ruling of the attorney general. The law provides that voters absent from polling places shall appear in person before the county clerk of the county of their residence, who will supply them with the official ballot.

MEXICAN BANKS TO BE ADMITTED TO STATE CHAIN

MEXICO CITY, July 13.—All private banks in Mexico will be permitted to become integral parts of the national banking system, according to Manuel Padres, under secretary of the treasury in the newspaper "Universal" today.

GOVERNOR HOBBY BACK AT CAPITAL

AUSTIN, July 13.—After an absence of nearly three weeks, Governor Hobby is back at his capital desk today. He returned last night from San Francisco, where he went as a delegate to the Democratic convention, accompanied by Mrs. Hobby.

COUNTY BALLOT WILL BE LONG, COMPREHENSIVE

A meeting of the county Democratic executive committee was held in Cisco yesterday afternoon. V. V. Cooper, precinct chairman from Ranger, attended the meeting. Bids for ballots to be used in the primary were received and compared, but on account of one large printing company's bid not being in, final action in awarding the contract for printing the tickets was not taken.

Numerous inquiries have been received by the county chairman, G. Fisk, of Cisco, asking whether ex-soldiers can vote without a poll tax and whether it is necessary for an ex-service man to have lived in the state a year and in the county six months in order to be a qualified voter. Service men point out that in some cases they did not return from the army until less than six months ago. Mr. Fisk has wired the state Democratic executive committee for complete instructions regarding these questions.

Mr. Cooper, local chairman, stated this morning that twelve men will be used to hold the election here if they can be secured. Complete tabulation will be kept so that when the polls close the result of the election can be announced at once.

Mr. Cooper said a place to hold the election had not been secured. He mentioned the rear of the F. and M. State bank as a good place if it could be arranged for. With the primary only ten days off, increased interest is being manifested in county and state politics. Voters will have an opportunity to express their choice on applications for all offices from constable to governor to congressmen. This year's ballot in this county will be one of the longest ever printed. About the only candidate in the county who has no opposition is Judge G. L. Davenport of this city, who was recently appointed judge of the 91st judicial district. This district was created by the last special session of the legislature and following a movement by a large number of Judge Davenport's friends in all parts of the county, he was appointed by Governor Hobby. The appointment holds good until the general election in November. Having received assurances that he would be chosen for the office, Judge Davenport filed his name with the county committee as a candidate, without opposition.

CHINESE PREPARE TO GREET JUNKET FROM U S CONGRESS

SHANGHAI, June 16.—(By Mail.)—Plans to extend an elaborate welcome to a party of American congressmen coming to China in July are well under way in Shanghai by order of the Peking government. The view expressed in official quarters is that this visit of the congressmen affords the first opportunity for China to express its gratitude to the United States for the stand that was taken at Washington upon the Shantung question.

WOMEN GOOD BALLAST FOR 'SHIP OF STATE'

COLUMBUS, Ohio, July 13.—American men will find women good ballast for the ship of state. This is the declaration made by Mrs. H. O. Havemeyer, New York, addressing local suffragists at a luncheon here. "We do not want to take the enfranchisement away from the men. We only want ours. They can keep their and share ours, once we get it," she said. "Here I am with eleven grandchildren and white hair endeavoring to secure what every man in the country has as a gift. "We women are not going to be used as fodder for political machines."

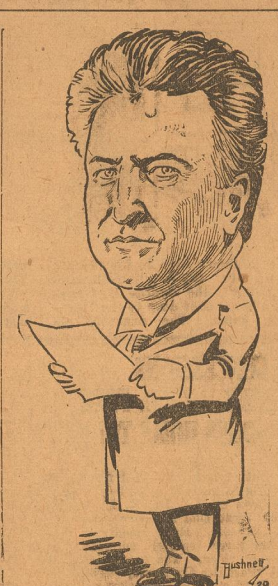

Leaders in the Proposed New Party

FRANK P. WALSH of Missouri would run for president on a third party platform if it declared for the immediate independence of Ireland. Walsh has long been one of the war horses of the Democratic party. He came into especial prominence during the first Wilson campaign, but since then he has broken with the President and some time ago he issued a public statement criticizing Wilson's "dictatorial" policies.

WILLIAM R. HEARST, publisher of a chain of newspapers, says he will support a third party if it declares unequivocally against a league of nations. Some think Hearst is fishing for the nomination himself.

SENATOR ROBERT M. LA FOLLETTE of Wisconsin appears to be the popular choice of third partites in Chicago for the presidential nomination.

TWO MILLION ALIENS PREPARE TO RETURN TO NATIVE LANDS

NEW YORK, July 13.—More than two and one-half million foreign born residents of the United States are waiting to go back to the land of their birth, said P. A. Baker, superintendent of the Department of Immigration. Lack of steamship passenger facilities unsettled conditions in Europe and currency deflations are some of the reasons for their being unable to return to their homes, he said.

FOUR NEW STATE BANKS GRANTED RIGHT TO OPEN

AUSTIN, July 13.—Four new state banks have been granted permits to do business in Texas by the State Banking board. They are: First State Bank of Naples, Morris county, capital stock \$30,000; G. B. Martin, president; Samuel Heath, cashier. Guaranty State Bank of Georgetown, Williamson county, capital stock \$50,000; C. R. Mayfield, president; Buford Mayfield, cashier. First State Bank of Utopia, Uvalde county, capital stock \$20,000; G. W. Curtis, president; R. K. Ward, cashier. Chester State Bank of Chester, Tyler county, capital stock \$10,000; Alex. Thompson, president; G. C. Enloe, cashier.

TURK IN PARIS TO SIGN TREATY

Damad Ferid Pasha, who heads the Turkish cabinet, is here shown on his arrival in Paris to sign the peace treaty. The grand vizier is a liberal and because of his views his life was recently attempted in his home in Constantinople.

The investigation of the committee shows that every city which has instituted some kind of financial assistance for its people to build more homes has been well repaid. The committee has recommended that a housing corporation be organized here with a minimum capitalization of \$50,000. The committee believes there is sufficient demand for such an organization and is willing to begin the sale of stock in a corporation as soon as these demands are definitely determined. The committee invites everyone interested in the subject of more homes for Ranger to consult with them and give them any information which would help guide their actions in solving the question. They particularly desire information on the number of permanent homes there are in Ranger now offered for sale.

HARVEST LABOR CONDITIONS ARE GOOD IN KANSAS

KANSAS CITY, Mo., July 13.—The harvest labor situation in Kansas and the Southwest is generally good, according to officials of the federal trade employment bureau in Kansas City, Kan., and the Missouri bureau of farm labor, conducted by state authorities with federal aid in Kansas City, Mo. At the opening of this month a surplus of farm labor was evident. There were a number of instances of men who come from the harvest, declaring that they had been unable to find employment. At the end of the first week in July scattered requests were received for more harvest laborers to be sent to counties in northwestern Kansas, a need which is being filled, according to the federal employment agents.

Generally speaking, the Southwest has been supplied with all the harvest labor necessary as soon as the wheat crop was ready for cutting this season. Indeed, a number of men who came west to work in the harvest fields were kept waiting for some because rains had delayed the wheat harvest. A wage standard of 70 cents and hour, agreed upon by farmers in the wheat belt of Kansas and announced through the state labor commissioner, Samuel Crawford, attracted many workers. There have been repeated reports, which are credited by the federal farm labor workers, of wage-cutting on the part of farmers who found for the first time in years that the crop supply is still somewhat short. It is better than in other sections of the country and better than it has been here in past years. Railroad officials were not inclined to agree with this rather optimistic estimate. The 1920 wheat crop is beginning to reach Hutchinson, Kan. It is said to average better than for many years, testing from 60 to 62 pounds to the bushel and bringing \$2.43 to \$2.50 per bushel. Yields run from 12 to 20 bushels to the acre, farmers declare. "Grasshopper planted" wheat is reported to have turned out well in many places. In their attacks on wheat fields last fall, grasshoppers cut the heads off the wheat, causing them to drop to the ground, which resulted in tracts of volunteer wheat. Near Lyons a grower reported that he had a yield of 20 bushels from a "grasshopper planted" tract. Extension of credits to farmers unable to market last year's wheat because of car shortage has been promised by federal reserve boards, according to newsmen of the Kansas committee who have returned from Washington after conference with the interstate commerce commission.

COURT REFUSES TO INTERFERE WITH SUFF AMENDMENT

WASHINGTON, July 13.—Justice Bailey in the District of Columbia supreme court today dismissed proceedings brought by Charles Fairbanks, president of the American Constitutional League, to prevent the promulgation of the ratification of the suffrage amendment and to test the validity of the equal suffrage law. The court held it was without authority to inquire into the action of the state legislatures in ratifying the suffrage amendment, and it had no authority to pass upon the validity of the amendment.

RUSSO-LATVIAN PEACE PARLEYS MOVE FORWARD

MOSCOW, July 13.—Russo-Latvian peace negotiations are progressing favorably and at least four points virtually have been agreed upon. They are: Recognition of Latvian independence and the renunciation by Russia of all claims of sovereignty in Latvia. The fixing of boundaries, subject to joint commission of delimitation, basing its decision on ethnographic and economic principles. In the former Drissa district a plebiscite shall be held. Mutual engagements shall be taken to prohibit the presence in Russian or Latvian territory of armed forces inimical to either country, or the recruiting and transportation of troops or war material by countries at war with either power. Russia and Latvia agree to forbid the formation or presence in their respective countries of any groups or organizations with pretensions to or designs against the government of the other party to the treaty. The state of war shall cease from the date of the conclusion of the treaty. The Latvian delegation is not entirely in accord with the Russian method proposed for holding the plebiscite, which excludes the non-working elements, and demands abstention by both Russia and Latvia from agitation or propaganda against the existing governments. Economic provisions of the treaty will be referred to a joint commission.

MEX. NEWSPAPER EXPLAIN BLANK SPACES REASON

MEXICO CITY, July 13.—Blank spots in Mexican newspapers circulating in the United States which gave rise to reports of censorship having been re-established and explained by publishers to be caused by the fact that the United States laws prohibit the circulation of publications carrying lottery advertisements and the withdrawal of these advertisements from editions to be sent across the boundary left blank spaces.

BODYGUARD OF G. O. P. NOMINEE

James Sloan, known as "Jimmy" to three presidents, Roosevelt, Taft and Wilson, will again become a familiar figure this fall to people who welcome presidential nominees. Jimmy will be Senator Harding's bodyguard throughout the campaign.

Something is wrong. Who is to blame? What are YOU going to do about it? A special writer, thoroughly familiar with the conditions, past and present, in Eastland county, has been engaged to present these facts to readers of the Daily Times.

COMMITTEE OF FORTY-EIGHT AND ALLIED PARTIES FORM ONE PLATFORM WITH WORKERS

FRIENDS GLAD MRS. HARDING STARTS ON WAY

MARION, Ohio, July 13.—Many women of Marion, girlhood acquaintances friends or chums of Mrs. Warren G. Harding, wife of the Republican nominee for the presidency, are enthusiastic over the possibility that she may reside at the White House. They say she is well fitted for the duties of a president's wife because "she has a mind of her own, generally manages to get what she wants is thoroughly democratic, likes to give and go to parties, is interested in a hundred and one things, knows how to talk to everyone including men and once she knows you, always knows you." Some Marion residents say that Mrs. Harding has contributed in important ways to Mr. Harding's success in life. Mrs. Harding was born here, August 15, 1860, and was reared in this city where she attended grammar and high schools. Afterwards she studied music at the Cincinnati Conservatory of Music. As Florence Kling, daughter of Amos Kling, banker and one of the most wealthy men in Marion, she is described by a girlhood friend, Mrs. Margaret Young, as "one of the best horsewomen I have ever seen. She rode and drove more like a man than a girl," said Mrs. Young, who said she was more accustomed in those days to seeing Florence Kling dashing swiftly up the street on Billy, her saddle horse, than walking with the other girls in her social circle. Other girlhood friends of Mrs. Harding told of the times when they used to "pile into Florence's phaeton and ride with perfect confidence behind her speedy Billy." Florence Kling was married to Warren G. Harding, then as now newspaper publisher, on July 8, 1891 in their present home in Mount Vernon, Marion. For more than 12 years, until illness prevented, Mrs. Harding was circulation manager of the STAR, her husband's newspaper. In addition she was the registration bureau for complaints, addressing manager and angel to the newsboys. When Mrs. Harding returns to Marion and meets any of the boys who carried papers for the Senator when she was circulation manager, she puts them on the back, it is said, and remarks: "Here is one of my boys—he will be famous some day." Mrs. Harding has been a member of "The Twigs," a card club of Marion, for many years.

RELIEF WORKERS WILL AID POLES IN INVADED LAND

WARSAW, July 13.—Although American relief workers have been forced to flee from cities near the battle lines where the Russian Bolsheviks are engaging Polish forces in a terrific battle over a wide area, children who have been aided will not be permitted to suffer, according to advices received by American relief officials here. Providing for the destitute will be taken up by the Bolshevik organizations in the area wrested from the Poles. The loss of the city of Minsk by the Poles was announced today from official headquarters. SWISS PROFITEER FINED MORE THAN 2 MILLIONS

LATE BULLETINS

COLUMBUS, Ohio, July 13.—Governor Cox, Democratic presidential nominee announced today he will hold a conference with President Wilson at the White House next Sunday morning. The announcement was made following a telephone conversation between Cox and Secretary Tumulty, Roosevelt, the vice presidential nominee, will also be at the conference, according to a Washington announcement.

GENEVA, Switzerland, July 13.—A Swiss multi-millionaire, company promoter and financier, M. Jules Bloch, who made enormous profits during the war and declared only a portion for taxation, was fined by the federal commission at Berne the record sum of 16,000,000 francs, which, according to the present rate of exchange, amounts to more than \$2,600,000. The case has been pending since the armistice.

Something Is Wrong. Who Is to Blame? What Are YOU Going to Do About It?

(This is the ninth in a series of articles on conditions in Eastland county.—Editor.) The purpose of the last article was to show that conditions of which there has been such long and loud complaint could not be wholly charged to the Ranger police department, bad as it has been from time to time. Conceding that conditions have by no means been confined to the municipality of Ranger, and the Ranger police department could only be an excuse and not a justification of much of the local offenses around this town. There has been too much complaint about conditions here over which a higher authority than the local police force had absolute jurisdiction any time it elected to exercise that jurisdiction. There has been almost constant friction between the police department and the sheriff's department. Who was at fault in this matter is a question for every one to determine according to his own judgment or prejudice in the matter. There is one thing certain and generally admitted. The sheriff of Eastland county is a man of courage and cool judgment. He is the kind of man you don't defy with impunity. He is a man you don't scare at all nor fool long on any proposition. He has at least five men

of the same character under him as deputies. The worst of the bad men on the Ranger police force never had this bunch of county peace officers scared, intimidated or very badly fooled at any time. Not one whit of the alleged failure to enforce the laws in Ranger, Desdemona or anywhere else in Eastland county can be charged to the incompetency or lack of courage and lack of training and ability to cope with the situation on the part of the sheriff's force and department. And yet there has been complaint on top of complaint and ugly rumor after ugly rumor. But get out and try to run one of these ugly rumors down and you don't get anywhere. If anybody knows anything they fail to produce the proof. In the course of its many trysts, Ranger has had at least one man as chief of police under whose administration there was general satisfaction. At least there was no scandal while he was head of the police department. He voluntarily threw up the job. The only explanation he is reported to have made was that sentiment was not behind him and with

CHICAGO, July 13.—The proposed amalgamation of the primary political groups in one new party today hinged on two joint conferences of the labor party. After fifty hours of conference failed to bring the labor and committee of forty-eight together they adopted an ultimatum to proceed with the adoption of their own platform and the selection of candidates if the conference is not finished. Delegates urged that the labor party "forget all about the forty-eight leaders and go after the farmers in their convention." They said the farmers' strength in the other meeting had no real affinity with the "plutes and subtle slick lawyers" who they asserted comprise the leadership of the forty-eight group. Amalgamation of principal groups attempting to form the new party here were effected today. The committee for forty-eight voted to join the national labor party. A large Non-partisan league group delegation and Single Taxers marched into the labor convention and announced they had decided to amalgamate. Rev. George C. Richmond in a prayer before the committee of forty-eight, gave thanks for the Russian revolution and "the new spirit of self-assertiveness among the negroes" and in Ireland. His blessing of Eugene Debs "in his prison cell" was interrupted with cheers. Rev. George C. Richmond opened the forty-eight convention with a prayer received with cheers. "We are not concerned with heaven or hell, it is in this world we are interested in, as Jesus failed, so do we. We are corrupt, mean and low visioned, and selfish. Forgive us, oh God! and in the great revolution coming save us from national dissolution." During the separate session the forty-eighters voted to recommend a platform for "public ownership and Democratic control of transportation, including stockyards, large abattoirs, grain elevators, terminal warehouses, pipe lines and tanks." "The Democratic control" by workers and their representatives, was the labor party demand. Harry Neuberger of New York, discussing this plank before the convention, said, "We may not be able to grab the entire earth at this time but we can take steps in that direction." Before adjourning the labor party session indicated the new party plan to nominate a presidential candidate and state tickets in some sections. The combined convention took up the

D. H. BIGGERS CORRECTS ADV. BLANTON SENT

CORRECTION OF FALSE STATEMENT.

Some time ago Tom L. Blanton had plate matter stuff published in newspapers throughout the district, in which he made false and slanderous charges and insinuations against me. These articles were signed by W. W. Blanton, brother and private secretary, and alleged campaign manager for Tom L. Blanton. As private secretary to his brother, W. W. Blanton draws a salary of \$2,000 per year from the government. In the plate matter stuff the charge and insinuation made first, that I am receiving money from Sam Gompers for my fight on Blanton, and second, that this must be so since I cannot pay the Clyde Truck Growers' association a bill of \$62.70.

The insinuation that I have received one cent of compensation or the promise of one cent of compensation from Sam Gompers or any other source is false in toto. There is no secret about why I am fighting Blanton and it is for a money consideration. I own a first-class newspaper plant at Olden, Texas, have considerable farming interest near Lubbock, have a few thousand dollars cash and good notes and some other property all subject to execution. Blanton knew this when he insinuated that I was a pauper, or he could have learned the facts by a very hurried investigation.

In his attack on me, Blanton published a letter purporting to have been written by the secretary of the Clyde Truck Growers' association. I never saw nor heard of this individual before. For many years I had bought my stuff from J. H. Burkett, then of Clyde, now with the state agricultural department. When Mr. Burkett left Clyde I continued to buy plants, etc. from the Clyde association. I refer to Mr. Burkett and the books of the Clyde Truck Growers' association as evidence of the fact that I always made prompt settlement for stuff bought. We had no trouble whatever until the spring of 1917. Mr. H. T. Stewart of Lubbock, was associated with me that year. We simply handled plants for our own use and as an accommodation to the farmers of the Lubbock community. Mr. Stewart merely charged enough above actual cost of stuff to partially reimburse him for trouble and actual expense. He complained a great deal about the condition in which stuff arrived from Clyde. Finally he received a shipment out of which he was unable to get express charges, this stuff being shipped direct to me. Personally I offered to pay the Clyde association thirty dollars out of my own pocket, and this was thirty dollars more than the stuff had brought. They refused to settle on this basis and finally sued me. I employed a lawyer, and the last account I had of the matter was that the association had dropped it. Any time they get a judgment against me they can get their money, for I am worth it.

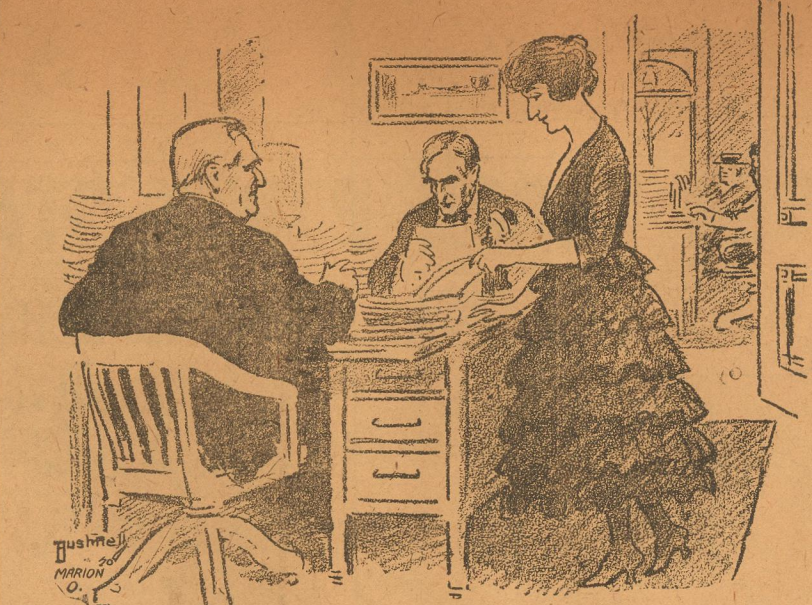

I refer to the banks and business men of Eastland, to the banks and business men of Lubbock, to the West-Cullum Paper Co., of Dallas, and to other printers' supply houses as to my financial standing and debt paying record, and not to Tom L. Blanton, who has been impeached in the Congressional Record.

Mr. H. T. Stewart is one of the best-known citizens of Lubbock county. He is a farmer and a good one, a man who pays his debts and stands high in the Lubbock community. Here is an affidavit which Mr. Stewart voluntarily makes regarding the Clyde transaction.

H. T. Stewart, of Lubbock, Lubbock county, Texas, hereby make affidavit to the following facts:

In the spring of 1917 I was associated with Don H. Biggers in the matter of handling plants, fruits and produce. During that spring we bought considerable stuff, particularly plants from the Clyde Truck Growers' association. Much of this stuff reached us in bad condition, but we accepted and made full payments for same until we finally received a shipment as I now recall was made direct to Don H. Biggers, this shipment being ruined and practically worthless and for which we felt no payments should be made. The amount of this particular shipment as I remember, was \$62.50. For all other

SENATOR HARDING SKETCHED ON THE JOB AT MARION

Cartoonist Bushnell, in Marion, Ohio, following Senator Harding's return to his home town, found the Republican nominee right on the job. Senator Harding is shown here in his private office in the "administration building"—the George B. Christian home next door to the Harding home. The senator, his private secretary, George B. Christian, Jr., and one of his private stenographers, Miss Cornelia Mattern, are busy night and day.

staff we had received from the Clyde Truck Growers' association we made prompt and full payments.

Mr. Biggers had bought much stuff from the association previous to the spring of 1917 and evidently had a well established credit with them, as they shipped stuff "open account."

We realized less than the amount of express from the \$62.50 shipment.

H. T. STEWART

Subscribed and sworn to before me by H. T. Stewart this 17th day of June, A. D. 1920.

J. E. VICKERS,
Notary Public, Lubbock county, Texas.
(Signed) DON. H. BIGGERS.

BODY OF WOMAN POISON VICTIM TO CASPER FOR BURIAL

The body of Mrs. Josephine Ivey, who died as a result of strychnine poisoning Sunday afternoon will be sent to Casper, Wyoming tonight by the Jones-Cox Undertaking company for burial.

Mrs. Ivey was 27 years old and a Russian by birth. She has no relatives in this part of the country, so far as is known. She has been in this city for some time and was manager of the Caspary rooms at the time of her death.

FRENCH LAUNCH HCL CAMPAIGN

By Associated Press

PARIS, June 25.—(By Mail.)—A determined campaign against the high cost of living in France has been inaugurated by the French press. "Buy nothing but the utmost necessities, drop in prices is coming" is the caption which many newspapers carry in heavy black type in the center of their news sheets. Newspapers of all shades and opinion, all over the country, have joined in the campaign with the result that noticeable fall in the wholesale prices has been realized. This has not yet affected retail prices, however. An appeal is to be made to the consumers to organize a week's strike to bring down the price of fresh vegetables.

TRIAL OF TWENTY COMMUNISTS IS STILL ON AT CHI.

By Associated Press

CHICAGO, July 13.—The battle cry of the Bolsheviks was chanted at the opening of all sessions of the Communist party in Chicago last September, George F. R. Cumberow testified in the trial of twenty members of the Communist labor party today. The counsel for the defendants, charged with violating the sedition act, waived the opening state-

A CARD OF THANKS.

I desire to thank the people of Ranger for their many kindnesses and considerations shown us during our recent sorrow and sadness connected with the passing away of my wife. It seems that our friends left nothing undone that would add to our consolation under the circumstances; and when we look back upon the past after the shadow has cleared away it will continue to be with a heart full of gratitude to our many friends who came to us in a darkened hour and cheered the way as only human fellowship can do.

VAN WALTON AND FAMILY.

ODD CONCESSIONS MARK B.Y.P.U. FETE HODGES HOME TONIGHT

Preparations are completed for the B. Y. P. U. lawn festival, to be held tonight on the lawn of the Dr. R. H. Hodges home on West Elm street, opposite the Cherry Blossom. Refreshments will be served on three special entertainment features provided. The concessions are entitled "Paradise on Earth," "The Mysterious Bat" and "What Makes the Butterfly."

The public is cordially invited to attend the fete. Proceeds will go to the B. Y. P. U. fund.

Enlisted men of the national guard who, on July 1, 1921, shall be from 19 to 22 years of age, with one year of training in that unit, will be eligible for selection as applicants for admission to the United States Military academy at West Point.

MARRIAGE LICENSES

Marriage licenses issued in the office of the county clerk for the week ending July 10:

Loy E. Simmons and Elna Agnew, Leary.

H. E. Colum and Clara McDermott, Cross Plains.

Walter VonTrecee Cobb, Nabors, Texas, and Altus Wright, Eastland.

BABE IS IDOL OF HOUSEHOLD WHERE MRS. J. M. COX RULES; SOCIETY MAKES VAIN APPEAL

DAYTON, July 13.—Mrs. James M. Cox, wife of the Democratic Presidential candidate, is a woman of great charm, possessing those traits which endear her to a legion of friends.

She is decidedly domestic in her tastes and when not engaged in attending to her flowers and vegetable gardens, is giving strict attention to the winsome little miss, Anna Cox, whom her appearance in the Cox home at Trail's End, December 1. Both the Governor and Mrs. Cox are wrapped up in the new corner, and are never happier than when they are lavishing their love upon the mite of humanity.

Much of Mrs. Cox's time is devoted to her family and home, while her distinguished husband is attending to his official duties. She has never had a nurse for her daughter, and each afternoon, if the weather is favorable, finds Mrs. Cox taking the youngster out for a ride. When not at the executive mansion in Columbus the Governor and his wife spend their time at Trail's End, the city.

Home duties and her hobby of gardening make such a demand on Mrs. Cox that she neglects largely social activities. These are confined to Wednesday afternoon receptions or teas at the executive mansion.

Mrs. Cox is a peculiarly domestic type of woman. The inclination in this direction induced her, upon the death of her mother, to give up her college course in the East and take charge of the home of her father and care for her two younger brothers. Before her marriage she was Miss Margaretta Blair, daughter of Thompson S. Blair, Jr., prominent Chicago business man.

She loves the out-of-doors as much as the Governor himself, and is frequent, his companion in recreation of this sort. She hunts, sails or rows a boat, plays golf, rides horseback, swims, and is a real rival of her husband at fishing during her annual summer vacation at a lake in Northern Michigan.

Mrs. Cox has much charm and personality. She is of medium height, and has an abundance of beautiful auburn hair.

MAY NOT SELL NATIONAL LAND IN PALESTINE WADHAM ARRAIGNED WAIVES PRELIMINARY AND MAKES A BOND

NEW YORK, July 13.—While the Jewish people will be permitted to develop and reap the harvest from the land purchased in Palestine by the Jewish National Fund also be privileged to leave it to their children, they can never sell it. This is in accordance with the plan of the fund to nationalize the land in Palestine and eliminate land speculation as announced here by Dr. Baer Epstein, the fund's special commissioner, who has just arrived from England.

The fund, he said, will spend \$1,250,000 during the next year for the purchase of barren land which will be reclaimed and made fit for settlement by Jewish renters.

More than 7,000,000 French francs, Dr. Epstein added, have already been spent in buying and cultivating 6,000 acres of what now is fertile Palestine land and in developing six agricultural colonies and a dozen individual farms.

"The fund not only has purchased land for farming," he said, "but it has made extensive purchases in Jerusalem, Tiberias, Haifa, Jaffa, Safed and other principal cities of Palestine. This land is to be used exclusively for public buildings."

Harry Wadham, who was arrested Saturday night with about three gallons of whisky in two suit cases, was arraigned before Justice of the Peace McPatter yesterday for preliminary hearing on a charge of transporting whisky. Examining trial was waived and bond fixed at \$1,000 which was made.

Wadham was arrested in front of the Prince Rupert hotel Saturday night after he had alighted from an automobile with two suit cases in his hands. On examination, the suit cases were found to contain corn whisky.

Since the beginning of the world war in 1914, the United States has rolled up a trade balance of approximately \$17,000,000,000 against the world.

TORES JOIN IN CO-OPERATE FOR FOREIGN BUYING

By Associated Press

PARIS, July 13.—A new plan for buying abroad for American department stores, has just begun operations here on a large scale. Department stores in Los Angeles, Minneapolis, San Francisco, Boston, Pittsburgh, Detroit, Toledo, Dallas, St. Louis, Cleveland and Sacramento have formed a buying company for doing directly with manufacturers and to cut out all the commissions and charges of intermediaries.

ROCKEFELLER JR. GIVES UP AUTO TOUR BECAUSE HE CAN'T BUY GASOLINE

LOS ANGELES, July 13.—John D. Rockefeller Jr. has been forced to curtail his automobile tour of Southern California because he cannot buy gas.

Although he and his father own more gas than anyone else in the world, he ran out yesterday. He joined the throng of automobilists, making a tour of the gas stations.

After six stations had turned him down Rockefeller sent his car to the garage.

FAMILY SEEKS OLD MAN LOST IN WEST TEXAS

Somewhere in Dallas an old man, blind in one eye, sickly and weak from many years of toil and suffering is wondering alone, while his distracted wife and children have asked the Salvation Army to locate him.

From Kaufman, Texas, an appeal came to Lieutenant Colonel Wood, chief divisional officer of the Salvation Army in the Southwest, asking for his assistance in locating the missing man. Immediately the full machinery of the Salvation Army's missing friends bureau was put in motion and a wide search commenced for the man.

Written in a childish schoolgirl hand the letter of little Edna Brandt told how her father wandered off a few days ago and was believed to have been seen in Dallas. He wore a blue shirt, gray trousers and a gray hat. He is about 5 feet 6 inches in height and is blind in one eye. He is a swede and speaks only a little English.

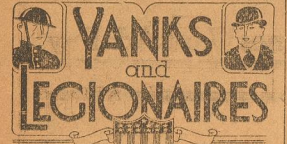

It is believed by the distracted family that the father's mind has been weakened from an attack of influenza which he suffered last February.

"We have been all over trying to find him," Edna's letter to Colonel Wood says, "but it seems all in vain. I thought that you could help us in some way. He went off in his everyday clothes without a cent in his pockets."

If it is all possible for the Salvation Army to find the missing man he will be located. The missing friends bureau stretches out all over the world and last year 1917 inquiries were answered.

The missing friends bureau is one of the many facilities that are being placed at the disposal of rural districts through the Salvation Army's home service program. Already in sixty counties in the Southwest the Salvation Army has been received with open arms by the leading citizens and men and women of prominence have formed county advisory boards which are acting as the Salvation Army's agents in correcting local conditions.

Extension of this nationwide service is the main plank of the army's 1920 home service program.

Forceful Facts Concerning the Interests of Former Soldiers, Sailors and Marines.

France has 400,000 war orphans. Germany lost 1,350,000 men in the World War.

The official proportion for an American flag is 10:3:9.

England has a National Union of ex-servicemen and women.

The state of Illinois lost 4,200 soldiers in the World War.

There are 9,000 American Legion posts throughout the United States.

Eighty per cent of the battlefields of France are now under cultivation.

Originated by Napoleon, the picturesque red trousers of the French army are to be abolished.

War loss by Great Britain in the World War is estimated between 750,000 to 850,000 killed.

The United States government has preparations ready for the round-up of 173,941 draft dodgers.

Fines paid in court martial trials of the U. S. army go toward the support of national soldiers' homes.

The port of Duhome in France is selected as the port of embarkation of American dead to the United States.

The estimated World War cost was forty million lives of which some ten million were lost on the battlefields.

Cuticura Shampoos Mean Healthy Hair

Especially if preceded by touches of Cuticura Ointment to spots of dandruff, itching and irritation. This treatment does much to keep the scalp clean and healthy and to promote hair growth.

WAR RISK BUREAU HAS NEW RULES COVERING INSURANCE CONVERSION

WAR RISK—IS NO 3. New conditions under which lapsed or cancelled war risk (term) insurance may be reinstated, generous in scope, and of vast importance to millions of former service men throughout the country, are announced by Director E. G. Chalmers-Jones of the bureau of war risk insurance with the approval of Secretary of the Treasury D. F. Houston.

The new policy is officially designated as "T. D. 61 W. R.," effective July 1, 1920. The features of most interest to former service men provide for reinstatement, or reinstatement and conversion, of lapsed or cancelled war risk (term) insurance under conditions substantially as follows:

Two Monthly Premiums.
1. In all cases the applicant must tender at least two monthly premiums on the amount of insurance to be reinstated, or reinstated and converted, with his application.

2. The applicant also must comply with the following requirements in reference to health to the satisfaction of the director of the bureau of war risk insurance:

When insurance lapsed or was canceled prior to July 1, 1920, and when application is made within eighteen months succeeding the month of discharge or resignation, but prior to January 1, 1921, the applicant must be in as good health as at the date of discharge or resignation, or at the expiration of the grace period, whichever is the later date, and so state in his application.

The foregoing is an extremely liberal provision and presents an opportunity for a very large class of former service men to reinstate any time up to January 1, 1921, without a medical examination, by simply paying two monthly premiums on the amount of insurance they wish to reinstate and making their own statement of health with application.

On and after January 1, 1921, and prior to July 1, 1921, in cases where insurance lapsed or was canceled prior to July 1, 1920, and regardless of how long applicant has been discharged,

the applicant must be in good health, as stated in a signed statement that he is in good health, and also a report of a full medical examination, made at the applicant's expense, by a reputable physician licensed to practice medicine.

Reinstatement or reinstatement and conversion of war risk (term) insurance lapsed or canceled on or after July 1, 1920,

(a) Within three calendar months, including the calendar month for which the unpaid premium was due, provided that the applicant is in good health and

(b) After three months, including the so states in his written application, calendar month for which the premium was due, provided that the applicant is in good health and so states in his application for reinstatement, and further, that he substantiates his application by a short medical certificate, made at the applicant's expense by a reputable physician licensed to practice medicine.

A big-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it—not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

SAYS MOUNTAIN LION STEAK WORLD'S FINEST

DENVER, July 13.—A healthy walrus at the high cost of food will be delivered, and the meat supply in the Rocky Mountain region materially increased if Dr. Walter H. Bailey's recent announcement is heeded.

Following a state wide campaign to annihilate the predatory mountain lion that has been so destructive to domestic animals during the past winter, comes the epicurean advice of the physician that the flesh of the mountain lion makes the "finest eating in the world." Mountain lion steak, Dr. Bailey declares, is a feast fit for a king, and he also recommends muskrat and bobcat meat as highly palatable and nutritious.

RANGER'S RED CROSS.

The Red Cross operates on a limited amount of funds in each district. The problems of the oil field are multitudinous, the problem of dealing with cases of distress and sickness among ex-servicemen and their wives and families also is a large one. The local Red Cross nurse expects to be in a position to handle civilian relief work before long.

Recently a woman in the last stages of tuberculosis gave birth to a child. The husband, a former service man, was in bad health and the family was destitute. The man was working what time he could work, but his earnings were not sufficient to support the family and pay for proper care and medical attention for his wife.

The Red Cross secured a tent and the family moved from crowded and insanitary quarters to this tent, on the edge of town where dust was not a nuisance and the air was good. The child was sent to South Texas on the advice of a physician, who said its life could be saved. The mother is past hope. With her it is only a matter of time.

In this case the Red Cross has probably saved one life and prolonged another. Work like this deserves the encouragement and support of all good citizens. In attending chiefly to cases involving war veterans, the Red Cross is not discriminating. It is simply a matter of making a restricted allowance go as far as it can. Many service men and their families in need of aid are not aided. The worst cases are picked out and acted on.

As a matter of fact, the Red Cross performs a great service to civilians and the community generally through a supervision of sanitary conditions and a general campaign of education. Many a young mother of this city has blessed the Red Cross nurse for her kindly interest in children and her helpful and expert advice. The Red Cross nurse here put on a campaign for the extermination of rats and mice six months before other cities, took up the fight. Thousands of rodents were destroyed through the efforts of school children inspired by the zeal of the nurse.

As any war veteran knows, the Red Cross is a blessing, the best loved organization in the world outside of the churches. Its workers are almost without exception persons who spend their lives in doing good to others, who work long hours and watch patiently at the bedside of strangers, who are cheery and helpful to all they meet, and on whose advice regarding health conditions reliance can be placed. These workers receive small pay and their remuneration is the knowledge that they are of real service to the community in which they are stationed. All who understand the trying conditions under which they labor and the many spheres of usefulness which they fill will look on their activity with favor and aid the organization whenever possible.

DISHWASHING

Since it has been amply proven that the microorganism that causes typhoid fever may be found on all sorts of dirty dishes, as well as those which cause sore throat, boils and various skin eruptions, it behooves the careful housewife or the careless in particular, in washing dishes in summer when the temperature is highly favorable for the multiplication and activities of these bugs to mind her p's and q's.

These microscopic bugs flourish under just the same conditions that favor the life of all small things such as insects with fragile wings and crawlers of every sort. People on this account run more risk eating in certain public places than they guess. One hotel brings about the eight processes in its dishwashing.

various composition in order to find a reliable disinfectant bath for soda water glasses and other drinking utensils. Boiling water they think would not kill one of the dangerous microorganisms present on dirty dishes, and prevented but two from growing, much less merely warm water. Since fabric or towels are easily contaminated glasses were not to be wiped. A great deal may be said on the subject. I have the greatest fear of the coffee and tea pot that go into dishwasher. Never let them.—Chicago Tribune.

HOUSEHOLD HINTS

To Help Bread Rise—When setting yeast mixture, heat the gas oven so that the floor of the oven is just barely warm. Bread, coffee cake and rolls have been found to come up in half the time in this way.

To Prevent Mayonnaise From Curdling—In making an oil, add 1 teaspoon water to the egg yolk, beat thoroughly, then add about half a teaspoon at a time of the oil as usual. Mayonnaise made in this way will never curdle.

A handy kitchen catch-all may be made of a small board, either round or square, covered with a thick layer of cotton, and then with ericenne or sateen. Screw in hooks and a place is ready for pins, needles, thimbles, scissors, keys, etc.

If there is a shelf over the kitchen sink, put small hooks under and at the back. Also put screw eyes in the carrying knife, fork, can opener, strainer, egg-beater, spatula or any article in constant use, and hang them on the hooks. Many miles of steps will be saved.

Advertising cook books often have valuable hints and recipes, but where to put them is a problem. This may be solved by making a case the order of a shoe box with pockets of several different sizes. Tack this to the pantry door and the books may be readily found. A pocket for pencils added is very handy.

Some Hints. To make a button stay on as long as the button lasts, push over the top of the button, then sew over the pin, fasten on the bottom, pull the pin out, and the button will stay on forever.

To keep the needle from slipping off the thread, tie a knot near the needle and you will have no trouble.

Always make your buttonholes on a piece of white goods, then sew them on the garment where you want them. When the button is sewn out the buttonholes can be used again.

To make small ruffles look like they are pleated by machine after they are ironed, tack the needle out of the sewing machine, put in the shirrer and run the ruffle through this.

A heavy unthreaded needle on the machine rim along the edge where you wish to crochet will form the holes just the right distance apart, and will make the crocheting easier.

A Dinner of Leftovers. A small portion of each of the following was left over from dinner: Boiled beef, many beans, cottage cheese and spongecake. For dinner the following day I put the meat, some potatoes and an onion through the foodchopper; with the addition of a beaten egg, some crackers and seasoning, doubled the amount which was moulded into small cakes and fried in a little brown.

With the stock from the beef, a chopped onion, a tablespoonful of browned flour and the beans, cooked until creamy, I had a fine soup. I made a tapioca cream with a pint of milk, 1 beaten egg, 1 heaping tablespoonful each of tapioca and sugar, and lemon flavoring, with a tiny pinch of salt. After cooling, cream was poured over the slices of the spongecake for dessert.

We had lettuce salad. The lettuce was cut into small pieces, with a sprinkling of salt and a dressing made as follows, poured over it while warm: 2 table-spoonfuls of bacon fat, heated in pan with a very small portion of flour; add vinegar and a tablespoonful sugar.

JOHN-A-DREAMS

IXIV. FOUL WORDS AND GREAT OATHS.

Invariably when we are troubled by dreams in which foul words are used, curses or oaths, we awaken with a feeling of having had an unpleasant experience and the impression is almost inevitable that we are on the threshold of untoward events. Yet, in most instances the exact opposite is the case.

The exceptions are those in which foul words come from the lips of people for whom you care. By foul words I do not mean curses, but obscene and indecent language. Such dream expressions indicate beyond the shadow of a doubt that in the hearts of the people who utter them there lurk hidden views of which you are not aware, and which they have so far successfully concealed from you. Your dream then comes in the form of a revelation, designed to acquaint you with the truth, calculated to warn you against those who under a refined or pleasant mask are hiding the serpents of vulgarity and shamelessness.

Mark you, in saying this I refer only to people of whom you think much. If, on the other hand, such utterances come from the lips of people whom you dislike or who dislike you, persons who bear you a grudge or whom you rightly suspect of being inclined to do you harm, then your dream shows that you are absolutely safe from their intrigue and that their foul language is merely the dream manifestation of their disappointment at being unable to hurt you.

Now let us proceed to curses and oaths. Ours as this may seem, these are good signs, merely the distorted dream reflections of pleasant words. This is especially true if such expressions are used by a man you think the most of. It is merely a case of.

Jack was embarrassed—never hero more. And as he knew not what to say, he swore.

If such an episode occurs in your dream you may rest assured that it will require only a very few words from you to make your hero, in real life, say things far more pleasing to your ear than the bravest curse.

SCOTS WITH \$40,000,000. LOOK ABOUT FOR HOME. WINNEPEG—Trying to find a place in which to establish a home worthy of a fortune of \$40,000,000 is the bother-some task of Mr. and Mrs. John Campbell of Aberdeen, Scotland.

They made the money out of plantations they acquired several years ago in Java; they sold out some time ago to the government of Java for a sum close to \$50,000,000. After touring Northern Canada they went on to California.

Efficient Housekeeping BY Laura A Kirkman

ANSWERED LETTERS.

Miss A. H.—Could you give me a recipe for preparing salted beef in some other way than boiling it? We are so tired of eating it that way.

Answer—"The only other way to prepare it is to smoke it. If you have no smoke house you will have to erect one or turn some other small out-building into one. Salted beef is excellent smoked and sliced thin; in this form it is also called 'pickled beef' perhaps you will appreciate it by that name."

Reader of Your Column.—We have just moved into a new house and find that we have some mint growing near our cellar door. Can you tell me of a way to make jelly of this? Answer: Mint jelly. Pare and cube 1 pound of cooking apples. Add to them enough water to prevent burning and cook until tender. Drain through cheesecloth as for apple jelly. Cook 1 pint of this fruit juice for 10 minutes, then add to it 1 1/2 cups of fresh mint leaves and cook for 2 or 3 minutes longer. Add the juice of 12 lemons and the exact amount of sugar to equal the fruit juice. Continue to cook until ready to "jell," then color with a few drops of green vegetable coloring matter and strain into two jelly glasses. The mint flavor will be delicate and delicious.

Four-Year Subscriber.—I am soon to give a birthday party for my 17-year-old son and have the menu and games planned but am short one feature—a contest of some kind. Can you suggest some kind of contest in which the prizes would be candy, straw something with a pencil or model something out of clay?

Tinker Bob Stories by Carlyle H. Holcomb

MRS. LARK GOES TO SEE HER FRIEND. Said Tinker Bob to Mrs. Meadow Lark: "Why do you fly so high?"

"I try to reach the sky," said Mrs. Meadow Lark. "You are the highest flyer I ever saw," said Tinker Bob. "Don't you ever go down to earth?"

"Yes, indeed, I go down to earth many times each day because I like to visit my friends in the meadows and forest and the river."

"Well, well," exclaimed Tinker Bob, "who can your friends be in the river? I didn't suppose any bird that flies as high as you had any friends in the river."

"Tinker Bob sat in the doorway of his palace, thinking of the wonderful creatures that lived in the Forest. Each one seemed to have a certain task to do, and each one seemed to get discouraged at times just like folks in the world. Then there are those like Mrs. Meadow Lark that seem to be born to sing all the day long and drive trouble away."

"Well, this is a great old world after all," said the King. "Tomorrow—Mr. Turtle and Mr. Carp."

"Oh, yes," replied Mrs. Meadow Lark. "I have a very fine friend in the river. His name is Mr. Frog. You surely know him. He comes out on the bank and sings for me every night."

Palace Thinking of the Wonderful Creatures That Liv in the Forest.

BITS OF HUMOR

Face Looked Familiar. Dinah was a product of New Orleans, a big, plump, "yaller gal," who could cook the finest dinners for miles around. One day a new butler appeared upon the scene, and Dinah's mistress noticed that she took a great interest in the man.

At last her mistress could stand her curiosity no longer and asked: "Dinah, do you know the new man?" Dinah took another long and scrutinizing look and reminiscently replied: "Well, I dunno, Miss Alet, but I think he was my first husband."—Pittsburgh Chronicle-telegraph.

In a Quandary. "I'm in a tough position," declared the judge who had resigned to resume the practice of law. "Been employed to try to get a new trial for a man I sent to jail."

Cost the Same. "What's the difference between a luxury and a necessity?" "There is no difference at all nowadays."—Detroit Free Press.

His Rather Odd Name. A newspaper man not long at the capital met a man in the corridors whom he had often seen and whom he thought he knew. He addressed his supposed acquaintance.

"I see you here often. Do you work here?" "Yes."

"What's your line?" "I'm what they call a senator."

"Caught the newspaperman tried to bluff it out. "Oh, yes, yes," he said: "I remember you perfectly. How stupid of me. You're Senator—Senator—Senator!"

"No help comes. As if thinking aloud: "It's a short and rather odd name." "Yes, it is."

More pawing of the air and vain efforts to recall. "It's Smith," suggested the senator.

"Oh, yes; of course, I remember you perfectly. How stupid of me. You're Smith of Arkansas!"

"No! Smith of Maryland. I told you it was an odd name."—Philadelphia Evening Ledger.

Catty. Jack: Hasn't that girl a kind face? Jill: Yes, a funny kind.—Pitt Courier.

VICTORY MEDALS FOR ALL EX-SERVICE MEN

The Victory Medal is a beautifully designed medal which is being issued to all soldiers and ex-soldiers as a mark of appreciation of their service in the world war.

If you were in the army in any capacity between April 6, 1917, and November 11, 1918, and your service was honorable, you are entitled to it.

To get it, send your discharge certificate to the Army Recruiting office, 1514 Main street, Dallas, Texas. The officer in charge will make out your application for you and return your discharge by registered mail.

It will simplify matters very much if you will send in your original discharge. It will be handled carefully and returned to you by registered mail. However, if you do not wish to trust it to the mails you can write to the recruiting officer for special blank on which an extract copy of the discharge may be prepared. He will send you the blank forms requested with instructions how to fill them out.

When you apply for this form, be sure to give your Rank At Time Of Discharge.

If you are the next kin of any person who died in the service or since discharge, you may make application in the same way for his medal and it will be sent to you. By next of kin is meant the following, in order, who is living: wife, eldest son, eldest daughter, father, mother, eldest brother, eldest sister. In all correspondence with the recruiting officer about the Victory Medal, mark your envelope "Victory Medal."

When you send in your discharge be sure to give your full and correct address so that your discharge certificate can be returned and your medal sent you.

Marriage Licenses

Monta Williams to Esta Lee Daniels, Gorman.

Pont Archer and Lucy Martin. Claud W. Colwell and Clara M. Ivy, Ranger.

S. S. Smith and Annie Berry, Wayland.

WAR RELIC DISPLAY BRINGS FAR-FLUNG BUDDIES TOGETHER

Ever and anon it happens that "buddies" who saw service in the late unpleasantness cross each other's path. That happens often enough to be rather commonplace, especially among those who served in the National Guard and National Army organizations.

Two lads—one from Ohio, the other from California—who went overseas together with the Canadians in 1915 and were separated five months later by the gassing of one, met in Ranger, it does seem that fate has laid a directing hand upon the affair.

Sam Mann, lifesaver at Shamrock park, dropped into the war relic display on Main street being conducted by D. S. Murphy.

Their glances met. "Why—I know you, you're—Sam." "Yes, I'm Sam. And you're—Spuds." (Never is there a Murphy who isn't known as "Spuds.")

Then followed a session which in days gone by would have begun with "Here's how!" Mann had been gassed in one of the early attacks, returned to America and discharged because of disability. He recovered sufficiently to go over again with a United States medical unit. Murphy had continued on line duty until the spring of 1918, when gas in his eyes put him in the hospital for the remainder of the duration. He is a picture of the old outfit in which the two lads met after war.

Of thirty-six in their section of machine gunners, only six came through. Murphy says.

On his return to California after the armistice Murphy was approached to loan his war relics to the California branch of the Committee for the Relief of Deported France.

Seven ex-soldiers threw in their trophies. Copies of captured German documents were obtained from the French consul at San Francisco. Authentic signal corps pictures—200 of them—of the American activities in France were obtained from the United States department. These with the battlefield souvenirs made an exhibit which toured California with great benefit to the committee. Afterwards the Salvation Army was assisted in its campaign. Then, believing the interest shown in California would be equaled in other localities, the exhibit was brought for a tour of the Southwest. The display will be in Ranger until Thursday. No admission is charged. Those interested, but those who wish may contribute to the expenses of the trip.

Mr. and Mrs. Will St. John, Charles Link and Misses Roper and Alice Reid visited friends in this city Sunday afternoon.

Allied Warships Shelling Way In Sea Of Marmora

CONSTANTINOPLE, July 13.—British warships bombarding the Turkish Nationalists this morning was the signal for a general scurrying of Allied warships to various points in the Sea of Marmora and the Bosphorus, where the Nationalists are resisting the Allied occupation of the Straits.

In consequence of the insurgents' activities, Constantinople was crowded with refugees of all nationalities fleeing from the Adriatic side of the Bosphorus. The Nationalists raided Beicos, ten miles south of Constantinople on the Adriatic shore of the Bosphorus, just opposite Robert College. Another band simultaneously raided Martepce, fifteen miles east of Constantinople on the Sea of Marmora.

Rush Dreadnaughts to Defense
British and Greek troops as well as dreadnaughts and destroyers were rushed to resist the Nationalists, who did some extensive plundering before they were driven back into the mountains.

Beicos is a popular summer place with a gambling Casino, the management of which has not dared to open it this year because of the danger of raids. The summer colony here of about 10,000 persons fled to the water front when the raiders appeared, trying to escape from the bandits. Many persons said boatsmen \$250 to row them two miles across the Bosphorus. One British officer was captured by the bandits and several Punjabis and many Nationalists were killed and others wounded in the fighting.

The warships were engaged in shelling the mountains all day in an effort to drive the bandits away from the Bosphorus.

Reinforcement of the great mosque at Brussa and destruction of the town by airplane attacks are threatened in an ultimatum received by the Governor of Brussa from Vice Admiral de Robeck. The warships were in charge of British landing parties along the Sea of Marmora.

British prestige has suffered a hard blow in the result of landing parties at various points in Turkish waters. Turkish Nationalists, realizing that the British have not sufficient troops available to support their marines, have been defying the navy all along the Bosphorus, the Dardanelles and the Sea of Marmora.

British warships are constantly firing at gun nests established by the Nationalists in the mountains near the ports in the area to be jointly occupied by the Allies under the treaty, but Nationalist snipers continue operations so close to the shore as to endanger shipping.

Extensive fortifications have been made by the British at Beicos, near the entrance of the Bosphorus where the dreadnaught Iron Duke today has been shelling Nationalist bands in the surrounding mountains.

Turks are holding forty Greek girls and men at Brussa as hostages and are threatening their execution if the British bombard the city.

Greek troops have swept the country west of Baloukassar clear of Turks as far north as Adrenit. They have also landed large forces at Charlek on the Dardanelles and expect to eliminate the Turks from the provinces of Bigla shortly.

Observers, who accompanied the Greeks say the Turkish forces offered little resistance, except at Pergama and outside Baloukassar.

The Greek advance was so rapid and unexpected that the Turks were unable to destroy the railway, which, with its retreat was in such disorder that the Greeks easily inflicted great losses and took many prisoners, with a few casualties among themselves. It was found unnecessary for the Greek forces to shell any towns, as all hoisted the white flag when they approached.

Conditions are somewhat different to the eastward, where it is expected, the Nationalists will have better co-operation on the part of the local population in defense of the Bagdad railway. Eskishahr, the junction of the Bagdad and Ankara railways, is the point where the heaviest fighting is anticipated.

British observers predict that the Nationalist movement will collapse within a fortnight. They say the fall of Eskishahr will result in the complete isolation of the Ankara government.

STAYED OFF THE EARTH WHOLE DAY

M. Bonsotrot in his flying togs.

A new world's record for sustained flight was established recently by Pilot Bonsotrot of France when he drove his "Solitath" plane through the air miles above the earth's surface for a few minutes more than twenty-four hours.

SKY COPS SEE CHANCE TO BE OF SERVICE IN WATCHING AIR TRAFFIC

NEW YORK, July 12.—The America's cup races off Sandy Hook this month promise to solve the question of "Why New York's sky cops?"
Ever since the police department's aviation division was formed humorists have portrayed duties which might be, but which never will be performed by the bluecoated aviators. Now, however, with giant sloops resuming their racing after a martial interruption, the "sky cops" find a task at hand—that of keeping the course free from aircraft.
During the trials between Shamrock IV and the twenty-three-meter Shamrock, which have been held almost daily off the Jersey shore, airplanes have followed in the wake of the yachts like gulls. Judging from the interest taken in the trials by aeronauts, yachtsmen fear that the sky will be dark with planes on the days of the race.
It is almost certain that seaplanes and land planes within flying distance of New York—and this is no mean distance—will buzz Hookwards when Shamrock IV meets Resolute. Even a dirigible now and then may be expected to stick its gaseous prov over the course. With development of aircraft during the war, yacht chasing promises to become a popular sport.
Indeed, planes are digging into the business of tugs and launches which have always transported a great part of New York's population to Jersey waters on the days of the races. Owners of private planes are booking passengers at rates which make even the tugmen look agast.
Truth to tell, yachtsmen are becoming just a little worried. It is not that they fear so much a plane will crash down on the deck of racing craft as that they may cluster in such groups as to play pranks with the air and rob vigilant, wind-chasing skippers of an experience acquired through years.
And it is right here that the "sky cops" may have their duty to perform. Direction of traffic at several thousand feet promises this year to be an interesting sidelight of the big show.

WANTS THOSE WHO FAIL IN WEDLOCK TO BE PUNISHED

International News Service.
LONDON, July 12.—The stocks and the ducking stool for those who are unfaithful to their marriage vows.
Lady Becham, secretary of the marriage defense council, comes out boldly on the above platform.
"The breach of the Seventh Commandment should be punishable by law," Lady Becham declares. "Much of the wrong doing in the world is the fault of those who do not realize that it is wrong."
"What the divorce reformers want and what they are getting in the Buckmaster bill now before parliament is simply the abolition of the monogamic principle."
"They are trying deliberately to upset the moral foundations of the British character."
"In days like these when Britain stands before the world for all that is solid and good in the moral progress of humanity, the discrediting of British family life is no mere national affair, but the concern of the whole world."
"In America we see the evil effect upon the nation of easy divorce. We cannot afford to fall into the same condition here."

SERVICE MEN ARE UNEMPLOYED SAYS ENGLISH REPORT

LONDON, July 13.—Debate in Parliament has disclosed that 192,000 former service men are unemployed and have made claim to the government aid for that reason. Of these 24,600 are disabled.
Approximately 140,000 disabled soldiers and sailors have found employment among the 16,969 firms which engaged with the government to help them.
Although many trade unions have volunteered to assist the government to reduce the number of unemployed, Field Marshal Lord Haig has bitterly attacked other unions for alleged discrimination against former service men, particularly those who were disabled in the war.
Lord Haig has issued an appeal to employers and others to help him find employment for his former comrades in the field.
General Nelson A. Miles and General S. B. M. Young are the only men in the United States bearing the rank of lieutenant-general.

MANGO CULTURE TO BE TAKEN UP IN STATES

WASHINGTON.—Development of the mango as commercial fruit is being taken up by experts in the U. S. Department of Agriculture.
The East Indian Mango is one of the great fruits of the world, according to the department. "To those who have really tested the good sorts of it the peach loses its place of honor."
In the early days of the European settlement in the United States the mango was given a "brink eye." Early travelers were more anxious to describe its peculiarities than its virtues.
Today the mangoes are worth about twenty-five cents apiece. It is being developed and will become one of the foremost fruits of Southern Florida, according to the Agricultural Department.
There are now fruiting at the Department Plant Instruction Field Station at Miami, Fla., about twenty varieties of mangoes which are selections from about seventy varieties.

JAPANESE NAVY SIGNALS FROM SHIP TO PLANE

TOKIO, July 13.—The Japanese navy has established a wireless telephone service between warships and airplanes on the wing. According to navy authorities, improved wireless telephone apparatus is now installed on board all the warships belonging to the first squadron and will be extended to all warships during the present year.
General orders for the recall to active duty of 20,000 naval reservists for a period of one year to eighteen months has been issued.

OKLAHOMA WOMAN GAINS TWENTY-EIGHT POUNDS

Gwinn Says His Wife Had Fallen Off to 88-Pounds-Tanlac Builds Her Up and She Has Been in Perfect Health Ever Since.

"My wife had fallen off until she weighed only eighty-five pounds, but today she weighs one hundred and sixteen pounds and is the very picture of health," was the remarkable statement made recently by O. C. Gwinn, 801 East Kalamazoo street, Muskogee, Oklahoma, while telling of the recovery of his wife, Mrs. Janie Gwinn, by taking Tanlac.
"Yes, sir, it seems almost too good to be true that my wife is a well and strong woman after we had nearly given up hope for her. In 1913 she suffered a general breakdown and an operation was necessary. After that she didn't seem to be able to get back her strength and from then on her health gradually became worse. Her stomach was all upset and it looked like everything she ate soured and caused her no end of misery. She suffered something awful from gas and bloating, and at times her breath seemed to be shut off entirely and I thought she was smothering to death. Why, I was afraid to leave her for fear she would have one of these smothering spells and pass away. She was badly constipated and all this was taking something for this as well as for her other troubles. Her nerves were shattered and a good night's rest was out of the question. Her kidneys worried her constantly and her complexion became pale and sallow. She lost weight until she was about as near a human frame as a person ever gets, in fact, she was a complete nervous and physical wreck."
"Finally, we decided to try Tanlac and when I bought her the first bottle I consider it the wisest move I ever made in my life. Why, I was surprised to see how fast my wife started improving and by the time she had finished the fourth bottle her troubles had all disappeared. Her appetite got a new start and her big gain in weight, twenty-eight pounds, shows how well what she ate agreed with her. The smothering spells stopped coming on and it wasn't long until her kidneys were in fine condition. This was all six months ago and from that day to this she has been in perfect health. She looks like herself once more and is doing the house work all by herself. I join with her in praising Tanlac and every time I get a chance I always put in a good word for it."
Tanlac is sold in Ranger by Phillips Bros. and in Eastland by Butler Drug Co.—Adv.

PROFESSOR TO HUNT RELICS IN MEX. CITY

AUSTIN, Texas, July 13.—Important research work in the archives of the city of Mexico will be made by Dr. Charles W. Hackatt, adjunct professor of Latin American history in the University of Texas, who left a few days ago for that country. Dr. Hackatt also expects to purchase rare and valuable books relating to the history of the early Spanish conquerors and will supervise the copying of many old manuscripts for the University library. This work is regarded as being of great historical value to the southwest and to Texas in particular.
During the field of history has been recently explored and historical data of major importance is expected from the work which Dr. Hackatt has undertaken for the University.
Dr. Herbert E. Bolton, formerly a professor of history in the University now at the University of California, is one of the pioneers in this field of Latin American history. Several years ago, while teaching in the University of Texas, Dr. Bolton made a trip to the City of Old Mexico to make a survey of the old Spanish and Mexican archives. Subsequently he published a guide to these archives. The blazing of the trail by Dr. Bolton has made it possible for subsequent researchers to be made.
These records cover the history of Mexico and the Spanish southwest from the conquest of Cortez in 1519 to recent times. There are collections of official reports from all the provinces which one time belonged to Spain and which now belong to the southwest. Many of these valuable historical records have laid for centuries in their repository. Some of them are very rare and are of much interest to the people of the United States. The last decade of revolution in Mexico with all its attendant desolation and devastation has left these archives intact.
After the conquest of Mexico by Cortez in 1519, Spain began the establishment of provinces there. Gradually these web-like lines of civilization were pushed northward. Always in the wake of the Spanish conquerors came the missionaries who established missions and schools. Long before Jamestown was thought of, and a century before the Pilgrim fathers landed in New England, Spain had begun to establish provinces in Mexico, and later extended her power into what is now Western United States.
The advanced civilization of Mexico that was developed in those early times is not generally appreciated, historians claim. Eight years before the beginning

Manager Maloney Forfeits Game By Refusing To Play

EASTLAND AGAIN TODAY. Eastland Judges play the final game of the series today, before the Gorman Buddies open a three-game series here Wednesday.

Ranger added another game to the won column and Eastland another to the lost column via the protest route yesterday, in a difference of opinion between Manager Jim Maloney of the Judges and Umpire Jess Price.

MALONEY FINED HUNDRED BUCKS FOR FORFEITING

Jim Maloney takes a \$100 fine for refusing to play the game at Municipal park yesterday. That is the league rule, in the event of the argument Jimmy said he would be gosh-blamed if he was going to pay it, but that's for the league president to say.

ROOF BURGLAR'S ROOMMATE NOW UNDER ARREST

John Billingsley was arrested yesterday in connection with the burglary of the Popular store on South Austin street early Sunday morning.

WELLS ARE WINNERS AFTER DIVIDING A DOUBLE BILL SUNDAY

GORMAN, July 12.—Mineral Wells took the second game of the series here today by a score of 7 to 3. Mineral Wells and Gorman divided a double-header yesterday. The score:

CITY LEAGUE

Table with columns: Team, Games, Won, Lost, Pct. Includes teams like St. Paul, St. Louis, etc.

MISS HELEN LUDWIG IN HER BASEBALL TOGS

Miss Helen Ludwig, eighteen, of Louisville, Ky., who until quite recently played first base on the Standard Oil Company's Polarine team in the Twin City League, has been benched simply because she is a girl.

NOTHING TO WEAR IS SAFE PLAIN FOR THIS WOMAN

Returning to her home Sunday morning after a short visit out of town, Mrs. M. W. McClain, 22 Irvin street, discovered that practically her entire wardrobe had been stolen by a marauder who had affected an entrance into the residence by tearing the screen from a back window.

BOGGUS BUSTS UP SCOUTS' PLAYHOUSE IN ELEVENTH ROUND

CISCO, July 12.—Bogbus' single in the eleventh with two men on won the second game for Abilene here today, 7 to 5. Rugged play on both sides featured the game. The score:

Table with columns: Club, Games, Won, Lost, Pct. Includes teams like Abilene, Mineral Wells, etc.

HOW THEY STAND WEST TEXAS LEAGUE

Table with columns: Club, Games, Won, Lost, Pct. Includes teams like Abilene, Mineral Wells, etc.

AMERICAN LEAGUE

Table with columns: Club, Games, Won, Lost, Pct. Includes teams like Cleveland, New York, etc.

NATIONAL LEAGUE

Table with columns: Club, Games, Won, Lost, Pct. Includes teams like Brooklyn, Cincinnati, etc.

PIKE'S PEAK SCALED ONE HUNDRED YEARS AGO; COLORADO SPRINGS TO CELEBRATE ANNIVERSARY

Pike's Peak from Colorado Springs and (below) a glimpse of the automobile highway that leads to the top

The 100th anniversary of the first ascent of Pike's Peak will be celebrated in Colorado Springs on July 14, when special exercises will be held at the summit and along the automobile highway that climbs eighteen miles over a serpentine route to the top, 14,109 feet above sea level. Although Zebulon M. Pike, the explorer, first discovered Pike's Peak in 1806, he never scaled the mountain, deeming the task impossible. The feat was first accomplished fourteen years later.

WELL COMES IN WITH PROSPECT OF BIG FUTURE

BREKENRIDGE, Texas, July 13.—Martin No. 2, Cooper-Henderson, in the northwest limits of the city is making 600 barrels after being shot with sixty quarts of nitroglycerine. The response was immediate with a flow that promises that the well will graduate into the 2,000 barrel class.

Walker Cadwell, No. 2, Walker, four and a half miles west of Breckenridge is an eighteen million foot gasser. The workmen while attempting to lubricate the well narrowly escaped death when the connections blew up. The crew had left the mouth of the well but a few minutes previously and were working on the engine when the explosion occurred, a violent one that did considerable damage to the property.

The eight connections that have been in use here previously are now found to be not strong enough to hold the heavy pressure of the field. C. F. Smith, deputy supervisor of the railroad commission says there will be no further delays because of weak connections, for provision will be made to provide equipment of such strength that the gas will be contained.

Instruments Filed

Following is a list of instruments filed for record in the office of the county clerk July 10:

W. B. Gregg to P. F. Paschall, assignment, undivided two-thirds interest in the S. 60 acres of the S. W. 1-4 of section 55, block 4, and the 2-3 interest in 36-acre strip referred to as the N. W. 1-4 of section 56, block 4, H. & T. C. R. Co. survey in Eastland county.

John T. Sudduth to Ollie Tribble, assignment, 1 acre undivided interest in a 20-acre tract off the S. side of the N. 60 acres of the above described tract, being a part of section No. 2 surveyed by Columbus Tap Ry. Co. 81.

J. R. Clem et al to Clem Lumber Co., warranty deed, part of the 225 acres of the S. J. Robinson survey, abstract 423, described as beginning at an iron pin in the ground, same point being the most northern point in the west line of the G. W. Dawson WB line W. 285.8 feet, N. E. 688.4 ft., S. 425 ft., W. 324.8 ft., N. E. 225.6 ft. to beginning; \$10.

Mrs. E. D. Leveridge to E. H. Baker, warranty deed, lot 3 in block 4 subdivision of block No. 129 in Cisco, Eastland county; \$400.

W. C. Starnes et al to E. W. F. & Gulf railroad Co., deed, a strip of land 100 ft. in width, 50 ft. on each side of the center line of the E. W. F. & Gulf railroad, containing 7.75 acres; \$50.

U. M. Simon to Sam B. Glass, deed, lot 3 in block 3 in Byrens & Riddle addition to Ranger; \$275.

J. N. Stovall and wife to W. F. Bennett, warranty deed, S. 1-2 of block 4 of Sully addition to Rising Star, and being 142-1-2 ft. N. and S. and 152 ft. E. and W. and being the S. 1-2 of a tract decided to J. N. Stovall by R. L. Brown; \$250.

J. R. Bucy et al to Carl S. Eggle, warranty deed, lot 1 in block 1 of Bucy warranty deed, lot 1 in block 1 of Bucy addition to Rising star, Eastland county; \$400.

W. F. Turner to E. W. F. & Gulf railroad, deed, being the E. portion of lot 4, block 4, and bordering 55 ft. on lot 3, block 4, and bordering 15 ft. on lot 5, block 4, in the May addition to Mangum, Eastland county; \$50.

S. W. Stiles to H. R. Hinman, warranty deed, lots 7, 8, 9 and 10 in block 45, Carbon, Eastland county; \$10.

AUSTIN BROKER TAKES OPTION ON CITY BONDS

An option to run twenty days has been granted C. W. Arlitt, bond broker of Austin, on \$200,000 worth of the municipal bonds of Ranger. This amount is in addition to the \$107,000 worth of the bonds which have been sold to Eastern capitalists in the past few weeks by this firm to whom delivery has been made.

MGR. J. E. T. PETERS ON STUDY TRIP TO OTHER C. OF C.'S

Judge J. E. T. Peters, manager of the Chamber of Commerce, left yesterday for Fort Worth to study methods used in the Chamber of Commerce at that place. From Fort Worth Judge Peters will visit Dallas and Sherman for the purpose of studying methods used in those two cities.

HIGHER RATES ON COTTON LINTERS ASKED BY ROADS

AUSTIN, July 13.—The proposition of an advance in rates on cotton and cotton linters has been set for hearing on Tuesday, July 20, by the Texas Railroad Commission on application of the Texas railroads.

The roads point out in their application that this increase is sought because of the fact that effective August 15, 1920, the interior Texas compresses have decided to make an increase of five cents per 100 pounds in compression charges on cotton, such allowance or increase to include the expenses of loading and topping of all compressed cotton and cotton linters, and insurance in transit.

When Texas linters were served with notice of the proposed increase in compression charges, the operation and traffic representatives held a meeting and recommended that at the July hearing of the commission a proposition to advance the rates on cotton and cotton linters be made to the same extent that it found an advance in compression charges has been justified.

Twenty-four secretaries of the Y. M. C. A. have been accorded the degree of officer de l'Academie by France for service during the world war.

UTAH FARMER IS MEREDITH'S AID

Elmer D. Ball.

Elmer D. Ball of the Iowa Agricultural college has been named assistant secretary of agriculture. He is an agricultural scientist and also a practical farmer. He owns and operates a farm in Utah. He was born in Athens, Vt., and was raised on a farm in Iowa. He has been a teacher in agricultural colleges and an investigator of agricultural problems.

TOKIO TO HAVE FIRST SUBWAY IN NIPPON ISLE

TOKIO, June 16.—(By Mail.)—Tokio is to have a subway, the first in Japan, a charter for which has just been granted. This is part of a big plan for improvements in transportation facilities in Tokio and Osaka which will involve the expenditure of many millions of dollars. The decision of the authorities to undertake these improvements has followed bitter complaints of poor service.

Owing to the increasing population the street cars of Tokio are so overcrowded that it is a common sight to see passengers hanging precariously from the platforms, while public taxicabs are insufficient to meet the demand. Tokio will spend \$10,000,000 in street improvement.

A bigger project is under way for improving Osaka which Japanese often call the "Manchester of Japan" because it is the chief center of the country's industry. The proposed improvement of the streets alone will cost about \$75,000,000. A new harbor is being built which will cost about \$20,000,000.

Fifty per cent of Osaka's manufactured products are moved through the canals of the city and more will be dug. Fifty million dollars will be expended in constructing a modern sewerage system.

Tokio and Osaka like New York, London and Paris lack lodging for the people. It is quite impossible to hire a "foreign style" or Japanese home in Tokio. Hence the suburbs are constantly extending.

The city of Osaka covers an area of fourteen square miles which is expected to be trebled when the project of greater Osaka is carried out. The population of 2,000,000 is increasing rapidly.

In Tokio and Osaka as in New York, house rents are going up constantly and food is ever rising.

EXPRESS HEARING ON RATES COMES LATE THIS MONTH

AUSTIN, July 13.—Application of the American Railway Express company for an increase in rates will come to a final hearing before the Interstate Commerce Commission on July 23, according to C. E. Gilmore, member of the Texas Railroad Commission, who has recently returned from Washington.

Commissioner Gilmore was a member of the committee of railroad commissioners from twelve states comprising the third zone, which was appointed to gather data and statistics to be presented at the hearing. This data has been presented to the Interstate Commerce Commission.

Since the government will cease to guarantee against heavy loss by the express companies beginning September 1, it is expected that an early decision will follow the final hearing on July 23, declared Commissioner Gilmore. No action, he said, will be taken upon the application of this company for an increase in interstate rates until after the decision of the Interstate Commerce Commission has been made.

ULSTER VOLUNTEERS REVIVED IN IRELAND

BELFAST, Ireland, June 25. (By Mail.)—The Ulster Volunteers have been revived as a result of the recent activities of the Sinn Fein in the north of Ireland, and for several days the towns of Belfast, county Down, has been patrolled by the Ulster forces, following destruction of property in adjoining districts.

All persons suspected of Sinn Fein tenancies have been prohibited from entering Lisbellan, Fermanagh county scene of recent fighting, although some Catholic families in the district have not been molested.

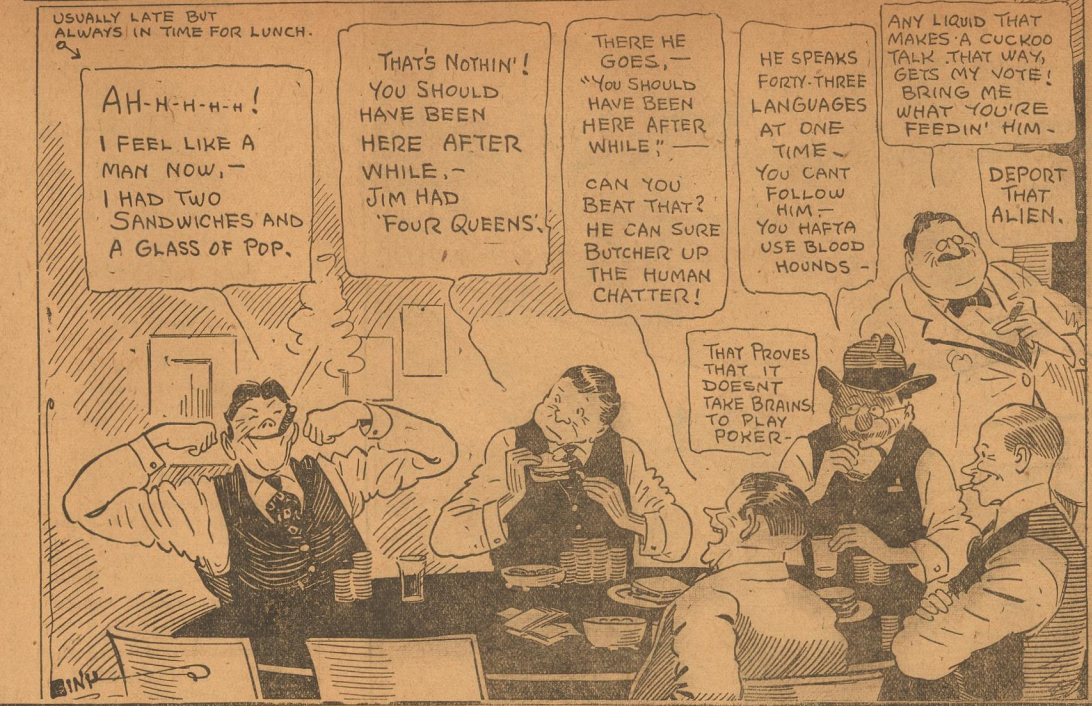

Something is Wrong.

him. He simply didn't want a job where he had to be in with the gang or indifferent in the discharge of his duties toward the public. The best officer in the county is going to be in accord with the prevailing sentiment, be that sentiment good or bad, or he is going to be without the job the first day he knows. No matter how excellent and efficient your officers may be you must have the right kind of public sentiment before you can have the right conditions. It must be a sentiment that asserts itself. A great writer has said: "Morality is, for the most part, a matter of environment." Conduct that might arouse indignation in one community might receive no special notice or create concern in another. That depends entirely on the character of public sentiment. "When in Rome do as Romans do," was certainly good practical advice by the ancient prophet. But if a fellow should drop into Rome today and proceed to do as the Romans did in the centuries past he would soon get in limbo. The Romans have changed their customs and conduct. The same applies to any community. Abuses will continue so long as the public conscience slumbers. There are a hundred cases where public license through the medium of public sentiment nullifies the efficiency of its peace officers to where there is one instance of the public officials leading the community astray. A reform movement is futile unless it has for its object and

"THAT LITTLE GAME" == A Muddled Gabber

USUALLY LATE BUT ALWAYS IN TIME FOR LUNCH.
AH-H-H-H-H!
I FEEL LIKE A MAN NOW, - I HAD TWO SANDWICHES AND A GLASS OF POP.

THAT'S NOTHIN'! YOU SHOULD HAVE BEEN HERE AFTER WHILE, - JIM HAD 'FOUR QUEENS'.

THERE HE GOES, - "YOU SHOULD HAVE BEEN HERE AFTER WHILE" - CAN YOU BEAT THAT? HE CAN SURE BUTCHER UP THE HUMAN CHATTER!

ANY LIQUID THAT MAKES A CUCKOO TALK THAT WAY, GETS MY VOTE! BRING ME WHAT YOU'RE FEEDIN' HIM - HE SPEAKS FORTY-THREE LANGUAGES AT ONE TIME - YOU CANT FOLLOW HIM - YOU HAFYA USE BLOOD HOUNDS - DEPORT THAT ALIEN.

achieves as it works a healthy, practical public sentiment. Has the task of enforcing the law been too big a job for peace officers of Eastland county? Not much. Have these laws been rigidly and impartially enforced. Ask the other fellow, Mr. Public Sentiment. He is the chap that has been making the roar. If he has been howling about nothing ought to shut up and apologize. If he is right he ought to produce positive proof and double his efforts. A change isn't going to better things unless it is a change of the right kind. Swapping a blind horse for one that can't see doesn't improve the official aspects of the case.

Ranger Sentiment Improves. Ranger, and incidentally other towns and communities in this county, but notably Ranger, because it has been the biggest, the busiest and by far the most cosmopolitan in the matter of its citizenship, has had its sore trials in the matter of law enforcement and delinquent official duty. But all the time there has been a great change for the better going on. Public sentiment has grown healthier, more fixed and more self-assertive. It has finally taken charge of the situation to such an extent that its servants on the police force respect it, and those with evil ways and illegal wares are wise enough to note this change and conform or changed conditions. An officer or a common disregard of the law may lord it around for awhile, but the first thing he knows public sentiment develops into a great big something he hadn't anticipated and over into a trash can goes the discarded public sentiment defier.

There is a vast difference between muck raking and educating public sentiment to the true measure of its duties and responsibilities. That is exactly the purpose and mission of this series of articles. Any good man in office is all-right if the demands, ideals and sentiment of the people behind him are likewise all-right. But when things are not right they should be set right, no matter who gets peeved in the transaction. But just as the sheriff's department is higher in authority than the police department, and just as the police department is not at fault in the failure to enforce the laws, except to the extent of its statutory provision and manning by authority, so there is another department that even takes precedence over the sheriff's department. It is the department which, in its final analysis, represents the full majesty of the law, and what about matters in connection with that department. And that will be the subject for the next sermon.

H. A. Cole is in the city from his home in Marshall as a guest of his brother, H. S. Cole.

Systematic Inspection Pays

It certainly pays to have your car inspected at regular intervals. Then if a slight trouble develops it can be repaired before causing serious damage. Our mechanics are very conscientious in this work, recommending repairs only when, in their judgment, it will save you money and trouble if the work is done at once. Then, too, you feel an added confidence in your car when you know that it is always ready to go any time, any where. Ask us what the charges will be for your car--it depends upon the service you wish rendered.

HOME LIFE OF PARIS DIFFERS FROM BIZARRE

PARIS, July 13.—To counteract the belief among Americans that Paris is the world's "modern Babylon," Achille Segard, a French writer, proposes that a large organization be formed immediately to introduce American tourists into French homes this summer and show them the real Parisian families that they never see in the jazz-band cafes.

"We all know many Americans who think they know Paris because they have seen undraped women at the Folies-Bergere or have visited the Moulin Rouge or the restaurants of Montmartre," writes Segard. "There are many others who believe that the beautifully dressed girls who leave their tables in the ultra fashionable cafes to dance with handsome strangers are merely daughters of good families who are enjoying a good time. They do not know that these are the women of the demi-monde."

"To make known to our American friends that it is not in these establishments of pleasure that they may be judged and envied, our middle class our business men, perhaps we should return to the method employed while the American army was in France, and

which has fallen into disuse. At that time a large number of private families expressed their willingness to invite to teas, to garden parties, to lunch or to dinner American soldiers and officers on leave in Paris. The results were excellent and so far as the music halls were concerned it was decisive counter propaganda.

"Why cannot the organizers of this movement take the initiative in another of the same kind? They might study lists of incoming tourists, seek information about them at the United States consulate and revive the custom which has had favorable results.

"The National Tourist office and the

Teaching club of France have taken care of the... from America who have even now begun to arrive. But there is a moral element which these organizations cannot take count of and which must be considered if our great friends from the other side of the Atlantic are to carry back good impressions of France.

The British government has already expended more than ten million dollars to get former soldiers back to the farming land of Australia.

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.
