SCANDAL DRAWS DARK PALL OVER G. O. P. CAMPAIGN

People in Senate Galleries Re-
flect Sentiment of People
of the Nation.

WASHINGTON, March 24.—If public feeling in the country at large is even approximately reflected in the sentiments expressed by the men and women who daily crowd the senate galleries during the debate on the Teapot Dome scandal, the republican administration is facing an overwhelming defeat at the polls next November. Republican senators on the floor of the senate may later now and then a feeble defense of the corruptionists involved in this infamy; the folk in the galleries show only signs of disgust and indignation.

Indicate Bigger Jury
This jury of men and women hearing testimony and arguments in the case of the people against the "plunderers" is unquestionably representative of the nation. Politically, socially and geographically, these galleries are a cross-section of the American public. They are clearly from all parts of the country, of all the different political divisions, and from every walk of life. Their collective sentiments and opinions undoubtedly are typical of those to be found in any average community in the United States.

And what is remarkable about this jury of average Americans? In the first place its unmistakable sense and signs of shock at the disclosures of the corruption, dishonesty and betrayal of which their sworn officials are being proved guilty; in the second place, the spontaneousness and sincerity with which it voices its condemnation of the betrayers and applauds their accusers. This it does, sometimes, in disregard of the rules which would compel hearers of this story of scandal to remain silent during its recital. There is a breach of the senate's rules when the galleries show what is in their hearts, but by the same token they interpret the soul of America.

Not once have the senate galleries revealed by any sign their sympathy with the men and the methods involved in this Teapot Dome scandal. Not once have they failed to demonstrate their approval of all that was said in denunciation and their scorn for all that was uttered in defense of these men and methods. Behold, these galleries react to the evidence, one can only believe that the American people, as a vastly bigger gallery, is responding in the same way and to the same purpose. And that means the end of the present regime!

Mellon Tax Bill Dead.
Reactionary republican senators are telling President Coolidge that the Mellon bill, which died in the house, can not be revived in the senate. They are warning him that far from expecting the senate to turn back to the Mellon plan, the president must reconcile himself to a closer approach to the Garner (dem.) bill.

Senator Watson (Ind.) is one republican senator who has been trying to prepare the president's mind for what is morally certain to happen in the senate. "Watson is a hierophant of the reactionaries, but he foresees the course tax legislation is about to take in the senate. He has informed the president that 'the supporters of higher surtaxes have the votes to increase the rates over those in the bill passed by the house.' That means an increase to a point above 37.1-2 per cent, and it may be as high as 44 per cent.

Democratic and progressive republican votes are necessary to the adoption of any bill. To the extent that a measure has the support of democrats and progressives it will be a demerit from the Mellon plan and an approach to the Garner bill, which means that it will benefit chiefly the smaller tax payers.

If President Coolidge vetoes that sort of tax reduction, say the democrats, he will get his answer at the polls next November.

DEATH ATTENDS COLLISION OF SHIPS IN THE THAMES

LONDON, March 24.—The United States liner American Merchant collided with the freighter Matanus near Thames Haven about 4 a. m. today, sinking her. Eight persons were reported killed. The American Merchant was badly damaged and had to be beached.

IDA M. TARBELL ILL IN OKLAHOMA WITH INFLUENZA

PAWHUSKA, Okla., March 24.—Ida M. Tarbell, widely known writer, was confined to her room here today with influenza. Physicians said her condition was not serious. She was stricken Sunday.
Miss Tarbell has been here several days gathering material for a series of oil articles.

Senate Would Learn More About Death Of Jess Smith

WASHINGTON, March 24.—The senate Daugherty committee, which recessed because of the illness of Senator Wheeler, has decided to dig deeper into the circumstances surrounding the death of Jesse Smith, Attorney General Daugherty's intimate friend, who was found dead, supposedly a suicide in Daugherty's apartment.

Although Miss Roxie Stinson expressed denial of any intention of hinting at Smith's murder, Senator Brookhart said today the senate committee had decided to investigate all phases of Smith's death, in view of the fact that no autopsy had been made at the time of his death.

Senator Brookhart said he expected to call in Dr. Nesbit, coroner for District of Columbia and ask him to explain his failure to perform an autopsy.

"There was no need of an autopsy," Dr. Nesbit said. "There was no mystery or unusual circumstances, although I filed a certificate of suicide."

DAVENPORT MAY SPEAK TONIGHT AT SABANNAH

Judge George L. Davenport has received an invitation from W. N. Black of Savannah to discuss campaign issues with Judge Jones in the Savannah school house tonight. Judge Davenport has written that he will be there if it is possible, for Judge Jones appears to have preferred to do all the talking at most of the meetings and has been chary in extending invitations to share the attention of the audiences. Judge Davenport, writing to Mr. Black says:

"Your letter of the 18th, inst., extending me an invitation to meet Judge Jones in an open discussion at Savannah school house Monday night, March 24, was promptly received and I desire to express my appreciation for the invitation extended. Not knowing of this appointment until your letter was received, I am not quite sure that I can arrange to be present, as I had previously assigned a number of important cases for trial on the 24th, inst. If it is at all possible to be there without neglecting my official duties, I can assure you that I will be very glad to avail myself of this opportunity of meeting the citizens of your community, and defending my record as a public official."

"However, this may be, it is my intention to arrange as early as my official duties will permit, speaking dates in every community of the county, including Savannah, and will extend to Judge Jones a special invitation to meet me, and will accord him an equal division of time. This is a courtesy, however, that Judge Jones has not seen proper to extend in the past, and but for your courtesy in advising me by this communication, I probably would not have known of it."

"Again thanking you for this courtesy shown me."

RANGER CLUB TO HEAR STUMP SPEECHES TONIGHT

There will be a program of music and entertainment features, including readings and recitations, James Davenport, president of the club, announced today. Singie Smith's jazz band of Fort Worth will play.

SIoux FALLS, S. D., March 24.—Every man for himself became the rule today as political aspirants of South Dakota went into the home stretch of a bitter primary race.

FIRE CHIEF E. A. CHAPMAN RESIGNS PLACE

Wishes to Quit at the End of
March; Has Made Splendid
Record.

E. A. Chapman, chief of the fire department of Ranger for the last 14 months, has offered his resignation to the city commission to be effective April 1. No successor has been appointed yet. "He hasn't been replaced yet," Dr. C. O. Terrell, fire commissioner, said today.

Chapman will go from here to San Antonio to spend the month of April. After attending the Knights Templar commandery in San Antonio the last week of April, he will, accompanied by his mother and sister, go on an outdoor journey.

The fire losses for 1923 were but one-tenth of the amount for the preceding year. Chapman took charge of the department the last week of January, 1923.

"The public has been kind to me," Chapman told a reporter. "And I leave here with a host of friends. I went in under disagreeable conditions. In time we had harmony."

The office of fire chief pays \$150 a month.

The personnel of the fire department changed, like it does in most any city, every now and then, but Chapman was always untiring in getting his new men familiar with their duties.

Last spring he made plans to organize a volunteer department to supplement the regular men, but because of the lack of interest among the young men of the city, he was forced to drop his plans. He has always shown a keen interest in fire prevention work and when the nation-wide campaign was announced last winter, Chapman went to work and organized a local campaign.

The grounds on the west side of the fire engine house were beautified last spring at his suggestion.

KILLED MOHER TO STOP HER SUFFERING

GENEVA, March 24.—A girl who killed her invalid mother to relieve her of further suffering has been acquitted of murder and set free here.

Miss Helene Moher nursed her mother with the utmost devotion for many weeks, but she could not stop the pain, and she was tortured by seeing her mother suffer. So she gave her mother three doses of veronal, which were fatal.

Three medical specialists declared at the trial that the girl was of sound mind and that her filial sentiments were intensely developed. They concluded that after a severe moral struggle she was driven by her excessive love of her mother to kill her to terminate her suffering.

Japan Alarmed By Threatened Action Of Russian Soviet

LONDON, March 24.—A Central News dispatch from Tokio says the Japanese ministry of war has announced receipt of advices to the effect that the soviet government is threatening to mobilize its army.

Japan is not preparing to act at the present time, says the Central News, but "should Russia proceed with war like intentions, Japan will join with other powers in a formal protest of appeal to the Washington pact signers and insist on maintaining the integrity of jeopardized Chinese territory."

Presumably the Tokio dispatch intends to suggest that Russia is mobilizing against China because of differences that have arisen between those countries over a recent agreement.

BUSH TO MEET WITH POULTRY RAISERS IN RANGER TUESDAY NIGHT

To ascertain if there is sufficient volume for carlot shipments of poultry products as part of the co-operative marketing scheme, R. H. Bush, county agent, will be in Ranger tomorrow to meet the farmers, farm women and poultrymen of this section.

He will be at the Ranger Chamber of Commerce rooms on the second floor of the Guaranty bank building at 7:30 p. m. He requests that poultrymen turn out that he can ascertain the interest in a co-operative exchange. The attendance at this and other meetings in the county will determine what is to be done with marketing problems.

AMIENS, France.—Death had no sting for M. Jules Tantom, owner of a music hall and a moving picture house. His last request was fulfilled by the dignified orchestra of a musical society of which he was president, and the latest songs of the music hall were played during the funeral services. Bananas are all the rage in dancing halls here now.

SLAYING OF WOMAN IS DEEP MYSTERY.

DR. ZEO ZOE WILKINS.

Deep mystery surrounds the murder in Kansas City, Mo., of Dr. Zeo Zoe Wilkins, six times a bride, whose body was found in her home here.

SENATE BEGINS PROCEEDINGS TO PUT HARRY SINCLAIR IN JAIL

WASHINGTON, March 24.—The senate today ordered contempt proceedings instituted by federal authorities against Harry F. Sinclair, lessee of Teapot Dome, for his refusal to answer questions before the oil investigating committee.

The contempt order was instituted at the instance of Chief Prosecutor Walsh, who cited the oil magnate for contempt and the senate formally approved his action. The next step is up to the federal district attorney who will lay the matter before the federal grand jury.

If the grand jury finds him guilty of contempt he faces prosecution and jail sentence until he tells the story of his relations with former Secretary of the Interior Albert Fall, from whom he obtained his naval oil lease.

Moving that the president of the senate be directed to certify the facts of Sinclair's contempt of the committee to the district court of the District of Columbia, Senator Walsh expressed the hope that he would be given the limit of the law.

The vote on the motion made by Walsh, directing the president of the senate to instruct the district attorney for action was 72 to 1. Senator Elkins, West Virginia, Republican, was the only senator to cast a negative vote.

The action was rushed through the senate in record time, only 20 minutes' debate preceding the election.

Daugherty Probing Committee To Meet Again Wednesday

WASHINGTON, March 24.—The scheduled session of the senate Daugherty investigating committee was called off this morning shortly before the meeting time by Chairman Brookhart because of the illness of Senator Wheeler, Montana, chief prosecutor of the inquiry, and Senator Jones of Washington, a member of the committee. Brookhart set the next session of the committee for Wednesday, when the examination of Mrs. Roxie Stinson will be resumed.

MANNINGTON DENIES GETTING PERMITS FOR LIQUOR WITHDRAWALS

PARIS, France, March 24.—"Attorney General Daugherty was never in my house in Washington during the six months I occupied it," Howard Mannington, lessee of the "little green house" in K street, and missing witness in the senate Daugherty investigation, declared today in a written statement.

Regarding alleged conferences in that house with Jesse Smith, Daugherty and others, as charged by witnesses, "none such was ever held," the statement continues.

"I never secured permits for liquor withdrawals in any year," declared Mannington. "I have been absent from Washington for two and a half years and have no knowledge of matters that are now the subject of inquiry."

Mannington's name was mentioned by witnesses in connection with an alleged conspiracy to obtain permits for the withdrawal of liquor from bonded warehouses.

MEMPHIS BANK OFFICER TAKES HIS OWN LIFE

Robert S. Polk, Just Returned From Flight, Goes on Long-Journey.

MEMPHIS, Tenn., March 24.—Robert S. Polk, deposed vice president of the biggest bank in this part of the South, killed himself at his home here early today, firing a bullet through his brain. He was an officer of the Union & Planters Bank & Trust company.

The suicide followed the return of Polk from El Paso Saturday, and a statement by bank officials and his relatives that all would be explained. Polk's flight to El Paso followed discovery of a shortage in his accounts which is estimated at \$61,000. He returned from El Paso in the company of two El Paso officers, but it was denied that he was under arrest.

When Polk reached Memphis Saturday afternoon he was met at the train by bank directors and officers, who expressed confidence in his ability to make restitution and explain. When the body was found by relatives and servants who rushed to his room when the shot was heard, Polk was lying in a pool of blood. He was in his night clothing and apparently was sitting on the edge of his bed when he fired the shot.

TWO GIRLS CHARGED WITH LURING MEN INTO CLUTCHES OF BANDITS

DALLAS, March 24.—Two flappers were held here today, charged with luring two young men into a bandit's trap.

They were detained on complaint of Wallace Rhoades and L. M. Martin, who claim they were driven to a lonely spot and relieved of their watches and \$10 by men waiting there.

"We were riding in the girls' auto when the bandits stuck us up," Rhoades said. "The girls carried considerable money and jewelry but they weren't bothered."

TEXANS FROM KENTUCKY PLAN BIG HOME COMING

DALLAS, March 24.—A trainload of former Kentuckians from Texas will attend the home coming celebration in Louisville, June 16.

Sam P. Cochran, president of the Kentucky Colonels' club of Texas, said there were 45,000 ex-Kentuckians in Texas, all of whom have been invited to join the organization.

"We expect 20 pullmans of former Kentuckians to leave Dallas for the Louisville celebration," he said.

CREAGER BUTTS IN AND HINDERS PROBE CHARGED

Senate Committee Begins Inquiry Which Involves Leading Texas Republican.

WASHINGTON, March 24.—Because R. B. Creager, republican national committeeman from Texas, said he was "credulous and over-enthusiastic," Postal Inspector Donaldson was relieved of an investigation of alleged land frauds in Texas, Brush Simmons, chief postal inspector testified today before the senate committee investigating Texas land frauds.

Simmons told the committee that Creager and several other men had come to the postoffice department and asked Postmaster Will Hays about the government investigation while it was going on.

"Did Donaldson ever have a chance to present evidence to the district attorney?" asked James R. Page, counsel for some persons who are said to have lost money in land investments.

Simmons did not directly answer Page but said he called Donaldson in and discussed several cases assigned to him. Subsequently another inspector, named Williams, was ordered to continue the investigation, Simmons said.

Before Simmons could be further questioned about Donaldson's removal the committee recessed to meet again at 3 o'clock.

Creager, Simmons said, objected to the regular procedure followed in postoffice investigations. "Page asked, 'Yes,' Simmons replied.

Page read the original petition of land buyers in Cameron county asking for an investigation by the postoffice department of the "most gigantic land fraud perpetrated in the United States."

TWO ARCHBISHOPS OF AMERICA ELEVATED TO RANK OF CARDINALS

ROME, March 24.—Archbishops Patrick J. Hayes of New York and George W. Mundelein of Chicago became America's new cardinals in the catholic church today. At 10 o'clock this morning, his holiness, Pope Pius, convened the secret consistory and announced the elevation of the American archbishops.

The holy father then read the allocation setting forth reasons for the church honoring the United States, paying high tribute to American genius and in support with American capitalists have rendered the work of the church.

GARMENT WORKERS TO HOLD MEETING IN PHILADELPHIA

PHILADELPHIA, March 24.—The sixth biennial convention of the Amalgamated Clothing Workers of America, including 350 delegates from all clothing markets in the United States and Canada, will convene in Philadelphia May 12.

The decision to hold the convention in this city instead of New York, as originally planned, was reached after a referendum vote of the entire membership had been taken at the instance of the Philadelphia branch of the organization.

It is desired that the convention be held here to give impetus to the campaign of organization now being conducted by the amalgamated clothing workers in this city.

Philadelphia is declared to be practically the only large clothing market which is not completely organized. The efforts of the local membership will be concentrated on the organization of the unorganized tailors of this city.

Plans for the reception and entertainment of the delegates to the convention are now under way.

BIBLE THOUGHT
POWER OF THE WORD—For the word of God is quick, and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart. —Hebrews 4:12.

BLUE LAWS AND THE RISING GENERATION
Laboring on Sunday is a heinous offense in many parts of the down East commonwealths. In certain towns of Pennsylvania, it is esteemed a sinful and un-Christian act to wear a collar and tie to church; some of the extremely pious will have it a moral sin to wear such gaudy symbols of pride and worldliness on their clothing as buttons.

In the south there are many towns so rigorously righteous that they will not tolerate persons of another denomination in the vicinity. Methodists accordingly have a hard time in a Baptist neighborhood, and vice versa.

Not long ago, a New England church fined a man for driving nails on the Sabbath. It was only a few years ago, comparatively speaking, when persons who violated tradition by riding bicycles to church were looked on with unbecoming suspicion. The tempest that was raised when motion pictures first were shown on Sunday has not yet ceased its thunderings along the horizon. Many communities still ban film shows altogether on Sunday.

Sunday motoring is a form of pleasure that occasionally has been forbidden, and many forms of sport are under a ban in various parts of the United States, the nature of pleasures forbidden being dependent on geographical location and local sentiment, to a great extent.

Sunday newspapers are barred out of parts of North America, regardless of the fact that most all the work is done on Saturday, while the Monday paper is prepared on Sunday.

The sentiment of one generation with regard to what ought to be forbidden is usually far different from that of the generations that precedes or follows. But all are alike in their inability to see beyond the moment and to perceive the general foolishness and instability of the taboo, for whatever is "verbotten" to the elders is almost certain to be the thing favored above all else by the rising generation.

SERIOUS CHARGE BY AN EMINENT JURIST
With more than 200 fortunes in the United States estimated at over \$50,000,000 apiece—one of them amounting to \$1,800,000,000—and with many annual incomes exceeding \$5,000,000, there is little wonder that the modest worker, straining every effort to make both ends meet, feels somewhat abused at having to contribute his or her mite toward the country's income taxes.

At that, however, if these vast fortunes were all being used profitably to the nation's welfare, there would be little that could be said. Chief Justice Walter Clark of the supreme court of North Carolina, in commenting on this subject, is quoted as having recently declared: "These enormous fortunes control politics. They corrupt public life, destroy equality, and debauch morality and public opinion by systematic propaganda."

If one-tenth of this is true, it is time that the American people sat up and took definite notice.

This is a good time to study politics at night classes. Courses in dodging, viewing with alarm, pointing with pride, and watching war clouds, would be very appropriate.

Hella Temple Doing Splendid Work For Crippled Children

Two years ago the nobles of Hella temple had an idea; today it is a reality. A children's hospital, equipped with every hospital necessity and representing an approximate cost of \$300,000, has been erected in Dallas and was opened for operation November 1 last, and has been running at full capacity. Fifty-one little patients are now receiving treatment in this hospital, going through the process of being made whole, while 32 patients since the opening day have been discharged with extremely satisfactory results.

The citizenship of Eastland should be grateful to the Dallas Shrine temple for its interest in cases handled from this vicinity, particularly in the case of Billy Gatis, an Eastland child, recently discharged from the hospital where he was treated for club foot. The case was admitted through the kindly efforts of J. W. Simons, E. E. Wood and Will M. Wood.

The members of Hella temple are now engaged in promoting a Shrine circus, a liberal percentage of the proceeds of which will go to the hospital maintenance fund. Official announcement has been made of the ceremonial session of Hella temple, which will be held on Friday, April 25, at Dallas, and at which time a large number of candidates will be initiated into the secrets of the Mystic Shrine, sometimes called the playground of Masonry.

EASTLAND HIGH DEBATERS DEFEAT BRECKENRIDGE

The boys' and girls' debating teams of Eastland met the boys' and girls' debating teams of Breckenridge here at the high school auditorium Saturday night, the Eastland teams carrying off all honors. The subject of the debate was, "Resolved that the United States Should Join the League of Nations."

The Eastland girls defended the negative side of the question. The Eastland boys had the affirmative side of the same question. The judges were Earl Bender, M. McCollough and Rev. J. N. Wooten.

MOTHER DESERTS HER FAMILY OF SEVEN CHILDREN

ORANGE, Tex., March 24.—County Judge Ed. S. McCarver, a character on the bench of Orange county, is a worthy descendant of that famed justice of old—King Solomon, his friends claim. He has proven that he can straighten out almost any kind of marital difficulties.

Recently a mother deserted her family of seven children, who lived cooped up in a shack on the banks of the river until their plight was discovered by neighbors. When it was found that the mother had definitely left her brood, Judge McCarver secured homes for each of the seven tots. The adoption agreement provided that the children were to be allowed to visit their brothers and sisters at least once a month.

The building will probably be ready for occupancy about June 15.

It was thought for a while that he might lose his left hand, but the doctors say now that it has been saved and will be all right.

FORMER DRY LEADER ORDERED TO JAIL BY COURT IN NEW YORK

NEW YORK, March 24.—William H. Anderson, former state superintendent of the Anti-Saloon league, convicted of forgery and sentenced to serve between one and two years, must go to jail immediately unless his counsel manages to find some plausible cause for intervention. Supreme Court Justice Wagner today denied his motion for a certificate of reasonable doubt which would have permitted Anderson his liberty on bond pending hearing on his appeal.

"The Hunchback of Notre Dame," the greatest screen attraction of the age, opened Sunday at the Connellee theatre for a three days run, giving four shows daily, matinee at 2 and 4; the night shows starting at 7 and 9 o'clock.

For more than a year, the one

thought uppermost in Mr. Laemmle's mind had been the making of this photodrama—the completion of a classic which would surpass everything previously attempted, not only at the Universal studio, but at any other. That this has been done is the unanimous verdict of those who have been fortunate enough to see it, and these same critics admit most freely that it even exceeds any ideas which they had formed regarding it.

In the first place, Victor Hugo's immortal masterpiece is so replete with dramatic action that never before has there been a picturization of a work of fiction which lends itself so perfectly to this form of drama. But the main idea of Mr. Laemmle's intentions was that this motion picture classic would be made on the most lavish scale, a scale which the story truly

Accordingly the best character actor of the day was secured for the part of "Quasimodo," Mr. Lon Chaney, and no expense was spared in the making—the total cost of the com-

pleted production being over a million and a quarter dollars. A cast of principals was then engaged which sounds like a "Who's Who" in film-dom. In addition over 3,000 trained actors were secured for the scenes which required them. The huge reproduction of the Cathedral of Notre Dame is one of the most perfect ever conceived.

"The Hunchback of Notre Dame" astonishes everyone with the drama-

S.S.S. stops Rheumatism

And with it pain and its probability of reaching the heart.

"My Rheumatism is all gone." again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run-down men and women, beautifies complexions, makes the flesh firmer. Start S. S. S. today. It is sold at all good drug stores. The larger size is more economical.

"FLOWING GOLD" DRAWS BIG CROWDS TO LAMB THEATER

Movie fans have waited long to see that stirring drama, "Flowing Gold," arranged from the novel of same name by Rex Beach, which is now being exhibited to crowded houses at the Lamb theater, Ranger. The picture is a thrilling one of the boom days in Ranger, when folks of all sorts, good, bad and indifferent crowded into the town, some even riding on the cowcatcher because that was the only place in the train where a foothold could be found.

The Lamb theater was crowded to the doors, with even standing room at a premium during both afternoon and evening on Sunday.
The scenes are quick and snappy and interest holds at a height until the very end of the pictures. Ranger in all its crowded days, with Main street a veritable sea of mud is shown in several of the pictures. The picture is being shown again today and tonight.

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.
Don't stay gray! Try it! No one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.—Advertisement.

KANSAS CITY POLICE OFFICER CHARGED WITH CRIME OF MUTILATION

KANSAS CITY, March 24.—Authorities today sought Benjamin Butler, an officer at the Central police station, on the charge of mutilating Dewey Quarles.

Quarles, at St. Luke's hospital, said that while at work, Butler and another man appeared and placed him under arrest. They took him to a deserted house and accused him of having improper relations with Mrs. Butler and then performed an operation on him.

The officers are then alleged to have taken him to the hospital where he showed his police department badge. Butler returned to the police station and was seen washing his hands by a lieutenant. Asked what happened, Butler replied: "I just cut a man up."

The lieutenant thought he was joking and paid no more attention to the statement until Butler was found missing.
Mrs. Butler was called to headquarters and questioned, but denied all knowledge of relations with Quarles.

PIONEER RANCHMAN DIES.

DOG CATCHER USES BLANDISHMENTS TO CAPTURE COY CANINES

"Come here, doggie," said a boy as he whistled the familiar call of one who beckons or wants attention.

It was a small shaggy black and white dog. Playful like, he ran a short distance in the direction of the boy who whistled and then stood on his hind legs, while his tail brushed the ground and his front legs stood out straight. He didn't sense danger, for everyone had been kind to him because of his friendliness.

The boy bent and picked the friendly dog up and carried him to the city dog wagon. With a dozen others, he was carried to the pound. Unless he is redeemed he must pay the penalty of being unlicensed—death by a pistol shot.
