STATE GETS NEW EVIDENCE INTO RECORD

TEXAS HAS 756 OIL COMPANIES NOW PRODUCING

Oil Refineries in State Total 121; Crude Petroleum Industry Important.

Special to the Times

DALLAS, Aug. 31.—There are now 756 different oil entities paying a production tax in Texas, of which number, the six dominant companies: Gulf, Humble, Humphreys, Magnolia, Texas and Sinclair, pay 37.4 per cent, which the remaining 58.7 per cent is paid by smaller companies and individual operators, according to a statement made today by Burt C. Blanton, industrial engineer and manager of the industrial department of the Texas Chamber of Commerce, who is making a state-wide survey of Texas industries.

"Texas now has 121 oil refineries with a total daily rated capacity of approximately 450,000 barrels," Mr. Blanton said, "and a total of approximately 56,000 persons are employed in the oil industry in Texas, with an average daily pay of more than \$2,000 a year."

"Oil companies in the state of Texas paid approximately \$16,815,000 in royalties for the year 1922."

Texas Oil Production.

"The total number of barrels of oil refined in Texas for the year 1922, including imports and Texas production, amounted to approximately 120,000,000 barrels, while the state of Texas produces in excess of 100,000,000 barrels of petroleum a year," said Mr. Blanton.

"The special taxes alone, paid by oil companies, are practically 10 per cent of the total revenue of the state, and are collected over and above the ad valorem taxes paid, and no other wealth-producing industry pays an occupation tax."

"The amount paid in wages, lease rentals, bonuses and special taxes by oil companies operating in Texas is approximately \$145,504,725 a year."

"If this sum was distributed, based on the present population of the state, it would equal approximately \$90 per capita."

"These figures do not include cost of materials, machinery, insurance and federal taxes, to say nothing of dry holes drilled, for dry holes drilled in Texas average in excess of 1,000 per annum, and represent a total cost, which is a dead loss of \$15,000,000."

Quarter Billion Annually.

"The value of refined petroleum products in Texas amounts to approximately \$250,000,000 a year," Mr. Blanton said.

"Texas oil companies own over 7,500 oil tank cars. There are over 6,500 miles of oil pipe lines in Texas. The estimated oil reserve of Texas is 700,000,000 barrels, exclusive of the gulf coast."

"The natural gasoline plants in Texas comprise a total of 89 plants, 46 being absorption plants and 43 compression plants, while the total daily rated capacity amounts to 377,707,000 cubic feet of gas."

"Natural gasoline plants in Texas represent an investment in excess of \$6,000,000," Mr. Blanton said, "while the capital invested in oil refineries exceeds \$75,000,000."

DEBTS OF GOVERNOR OF INDIANA MOUNT ABOVE ONE MILLION

By United Press

INDIANAPOLIS, Aug. 31.—Governor Warren T. McCray of Indiana today faced 100 creditors and told them he could not meet his financial obligations. His reverses, brought on by the depression which agricultural interests throughout the country are facing, have been severe, and his debts are estimated between \$1,000,000 and \$2,000,000.

The governor said he was ready to turn over to a committee of five his land holdings, about 1,500 acres, all improved; his blooded livestock, about one-half million dollars of notes and other property.

Mrs. McCray, standing loyally beside her husband, has agreed to waive her right to the one-third interest in the property to which she is entitled by law.

BRECKENRIDGE.—Wolves have been killing considerable livestock in various parts of this county, according to reports received here. Hunting parties are to be organized soon to kill off the marauders.

League of Nations Awaits Invitation To Adjust Dispute

HUGHES DEFINES MONROE POLICY OF THE NATION

Secretary of State Discusses Doctrine Before American Bar Association.

By Associated Press

MINNEAPOLIS, Minn., Aug. 31.—The Monroe Doctrine was defined here Thursday by Secretary Hughes as embodying a policy vitally related to national safety, inimical to no just interest in Latin-America or elsewhere, and imposing no barrier to wider international co-operation in the promotion of peace and understanding.

Speaking before the American Bar association, the secretary declared that while the doctrine in no way established a "protectorate" over other American republics, American rights and obligations not specifically outlined by Monroe in this famous message had sometimes made intervention in some Latin American states an absolute necessity. He recalled that the right to intervene in Cuba is a matter of record in the treaty of 1904, although he added that the United States would rather, if possible, continue in its present role of "friendly adviser."

"Taking the doctrine as it has been and as it is believed to remain," said Mr. Hughes, "I desire to comment upon certain points, which, as I believe, deserve special emphasis at this time."

For Self-Defense.

"First, the Monroe doctrine is not a policy of aggression; it is a policy of self-defense. It was asserted at a time when the danger of foreign aggression in this hemisphere was very real, when the new American states had not yet established a firm basis of independent national life, and we were menaced by threats of Old World powers directed against republican institutions. But the achievements of the century have not altered the scope of the doctrine or changed its basis. It still remains an assertion of the principle of national security. As such, it is obviously not exclusive."

"Secondly, as the policy embodied in the Monroe doctrine is distinctively the policy of the United States, the government of the United States reserves to itself its definition, interpretation, and application. This government has welcomed the recognition by other governments of the fact and soundness of this policy and of the appropriateness of its application from time to time."

U. S. Acts Alone.

"But the United States has not been disposed to enter into engagements which would have the effect of submitting to any other power to any concert of powers the determination either of the occasions upon which the principles of the Monroe doctrine shall be invoked or of the measures that shall be taken in giving it effect. As President Wilson observed: 'The Monroe doctrine was proclaimed by the United States on her own authority. It always has been maintained and always will be maintained upon her own responsibility.'"

"This implies neither suspicion nor estrangement. It simply means that the United States is asserting a separate national right of self-defense, and that in the exercise of this right it must have an unhampered discretion."

"Third, the policy of the Monroe doctrine does not infringe upon the independence and sovereignty of other American states. Misconception upon this point is the only disturbing influence in our relations with Latin-American states. The declaration of our purpose to oppose what is inimical to our safety does not imply an attempt to establish a protectorate any more than a similar assertion by any one of the great southern republics of opposition to conduct on the part of any of the others endangering its security would aim at the establishment of a protectorate."

(CONTINUED ON PAGE TWO).

Has No Right To Interfere Between Italy and Greece Unless Requested To Do So.

By United Press

ATHENS, Aug. 31.—The Greek nation has sent an appeal to the League of Nations to intervene in the critical situation caused by the Italian demands, the Greek legation here informed the United Press.

The appeal to Geneva for the council of the League of Nations to use its good offices immediately was forwarded this morning, it was stated.

By Associated Press

GENEVA, Aug. 31.—The League of Nations will not interfere in the controversy that has arisen between Italy and Greece following the assassination of five Italian officials, members of a boundary commission in Albania, unless Greece requests intervention.

Members of the league's council which met here today, said the league has no right to intervene unless requested to do so by one of the parties in the controversy.

Italy Is Not Satisfied With Greek Answer

ROME, Aug. 31.—The Italian cabinet at a meeting today to consider the Greek reply to its ultimatum, found it unacceptable, the Stefani agency says.

The Italian government in a semi-official statement today urged Italian newspapers not to publish the movements of the military and naval forces. The government threatens severe measures against those who refuse to do so.

ITALY FOLLOWS ITS SECOND DEMAND WITH ACTION WITH FLEET

By United Press

LONDON, Aug. 31.—It is reported in dispatches from Rome that a second ultimatum has been sent to Greece giving that nation 24 hours in which to accede to all the Italian demands on penalty of the Italians moving on Corfu and the Italian fleets occupying the Straits of Tarento.

It was announced, too, that the Italian fleet had begun operations in Greek waters, an Italian squadron having appeared before Corfu and demanded surrender of the garrison there. The danger of war appears more imminent.

It is reported here in dispatches from Athens that martial law has been declared in that city and surrounding country.

TEXAS LEGIONNAIRES TO MEET NEXT IN BROWNWOOD

GALVESTON, Aug. 31.—Brownwood was unanimously selected as the next meeting place of the American Legion during the closing session of that body in this city Thursday afternoon, while Dr. M. W. Sherwood of Temple was elected state commander for the ensuing year.

SOMERVELL CO. ATTORNEY WILL RESIGN HIS OFFICE

By Associated Press

FORT WORTH, Aug. 31.—E. L. Roark, county attorney of Somervell county, arrested in liquor raids, will resign, he announced today. He said that he was innocent of the charge but that he desired not to be put into the attitude of prosecuting himself.

Sheriff T. W. Davis, also arrested, said he would not resign. A successor to Roark will be appointed next Monday when the county commission meets.

MEXICO AND U. S. AGAIN STAND ON FRIENDLY BASIS

Recognition Accorded and Full Diplomatic Relations Are Resumed.

By Associated Press

WASHINGTON, Aug. 31.—The United States and Mexico have agreed to resume full diplomatic relations.

A formal announcement of the agreement was made at the state department today.

The restoration of relations carries with it full recognition by the United States of the government of President Obregon. It resulted from negotiations recently carried out in Mexico City by Charles B. Warren and John Barton Payne. The United States embassy at Mexico City and the Mexican embassy at Washington are to be restored at once to official standing for the first time since the collapse of the Carranza regime and all claims will be referred to a special committee for settlement.

The deciding of claims which will be one of the first official acts after the resumption of relations, has been approved by the two governments and the affixing of signatures is expected to take place in two or three weeks.

Acting Secretary Phillips announced the resolution to "resume relations" in a formal statement issued at noon, as follows:

"The government of the United States and the government of Mexico in view of the report and recommendation from the respective committees, as the result of the United States-Mexico conference held in the City of Mexico from May 14, 1923 to Aug. 15, 1923, will resume diplomatic relations but in the absence of the appointment of ambassadors, they will be accredited by the respective charge d' affaires."

COTTON CROP FORECAST SHOWS MILLION BALES ABOVE LAST YEAR

By Associated Press

WASHINGTON, Aug. 31.—A cotton production forecast of the 1923 crop of 10,788,000 bales of 500 pounds each was made today by the department of agriculture. The forecast was based on the condition of the crop, Aug. 25, which was 64.1 per cent normal, indicating a yield of about 134.8-10 pounds per acre. Last month's estimate was 11,516,000 bales, based on 67.2 condition, which would indicate a yield of about 142.9 pounds per acre.

The cotton crop of last year was 9,761,817 bales.

The condition in Texas on Aug. 15 was 55 per cent of normal and the estimated production 3,722,000 bales.

New Jersey Mob Attacks Klansmen At Perth Amboy

By United Press

PERTH AMBOY, N. J., Aug. 31.—The last of a Ku Klux Klan gathering attacked by a mob while holding a session in their hall last night, escaped from the building at 5 o'clock this morning, being spirited away by the police in patrol wagons. Three were arrested for carrying concealed weapons and scores were severely beaten.

The members had gathered for a meeting early last night when a mob gathered and stormed the hall in which the assembly was being held. The police were called and formed a cordon about the hall and attempted to disperse the mob. The firemen were called and turned a high pressure of water on the mob, but failed to stop them from forcing their way into the hall where 300 klansmen were holding their meeting.

By 5 o'clock this morning, however, the combined force of police, firemen and state constabulary had driven back the mob and removed the klansmen in safety.

WASHINGTON, Aug. 30.—F. Edward Scobey, of San Antonio, director of the mint, today resigned his office, which President Coolidge is said to have accepted with regret. Scobey, a close friend of the late president, gave as his reason the fact that he "came in with Harding and wanted to go out with him."

Saner of Dallas Elected President American Bar Asso.

By United Press

MINNEAPOLIS, Aug. 31.—R. E. L. Saner of Dallas was today elected president of the American Bar association just before adjournment of the annual convention.

The bar association today voted approval of the Harding-Hughes plan for United States participation in an international court of justice at The Hague.

BATTLING BOUT OF FISTIC FOUR DRAWING CROWD

Labor Day Meet Arranged by Lions Is Proving Very Popular.

Ringside seats for the boxing show at the Liberty theatre Monday night are nearly all sold. One hundred tickets were placed on sale at different downtown drug stores early in the week by J. M. White, chairman of the Lions club athletic committee.

The Oil City pharmacy, Crawford's and Harman's reported today all of the 20 ringside tickets left at each place sold. The Texas Drug store reported half of the 20 tickets sold at noon today.

When the hundred seats have been sold, no more will be offered for sale, White said. One hundred is the capacity of the stage at the Liberty theatre.

The seats on the lower floor are selling steadily. A big crowd is anticipated and many desiring seats on the orchestra floor will buy their tickets at the box office on the night of show.

Friends of Pirtle Rainey and J. B. Houghton are rallying to their support. Although McCleskey and Pug Seale of Eastland and Amarillo respectively don't make their residence here regularly, the men are fairly well known here.

TWO PATROLS OF RANGER BOY SCOUTS OFF ON SHORT HIKE

Ranger Boy Scouts of patrols Nos. 1 and 2 boarded automobiles this afternoon for a two-day session of sport and fun near Hunters' Rest in Palo Pinto county. Private citizens and some firms furnished the machines to take the boys over into the county on the northeast of Eastland county.

The boys took their pack equipment and were attired in khaki. This will be the last summer hike. Scoutmasters Wasaff and Pettitt will be with the boys.

LAREDO.—The new telephone exchange building of the Southwestern Telephone company here is practically completed. It is of the most modern type and equipment.

Battleship Colorado, Commissioned Today at Camden, N. J., Is the "Most Powerful Fighting Machine Afloat"

WASHINGTON, Aug. 30.—The addition of the battleship Colorado, which was commissioned at Camden, N. J., today to the United States battle fleet, once more places the navy in undisputed possession of that trophy of marine construction, "the most powerful fighting machine afloat."

Naval engineers of the principal maritime powers practically without exception have conceded that the 33,000-ton, 21 knot monster, electrically equipped throughout and with the ability to toss eight tons of metal and explosives 34,500 yards, is without an equal on any of the seven seas.

Formal acceptance of the Colorado by the navy department today marks the end of the work of rounding out the first line of the United States battle fleet as allotted by the five-year treaty. During the next eight years—until 1931—no keel will be laid in any American yard for a first class naval ship. In that year work will be begun on ships to replace three of the present fleet.

The new Queen of the Seas is de-

scribed in marine circles as "a vast experimental laboratory." The most advanced designs in ship equipment of every sort have been installed from her huge propelling motors to the dainty electric potato peelers in the galley. These will be tested arduously and the results placed at the disposal of American shipbuilders for their guidance in building the national merchant marine and the future navy.

Authorized in the navy bill of 1916, the Colorado was constructed at the Camden yards of the New York Shipbuilding company on a "cost plus fee" basis which brought her total cost to \$27,000,000.

The Colorado will possess all the conveniences of a well equipped city. Within her hull are spacious quarters for her complement of 1,469 officers and men, as well as reading and writing rooms, a recreation room, special ladies' room for visitors, laundry without limitation as to the number of pieces to be handled, a barber shop, a tailor shop, cobbler shop and moving picture theatre.

MARRIAGE.

Never marry but for love, but see that thou lovest what is lovely.—William Penn.

DEFENSE CALLS WITNESSES IN STARKEY TRIAL

Prosecution Introduces Justice of Peace McDonald to Read Docket Names.

EASTLAND, Aug. 31.—The state rested this morning at 10 o'clock after placing two witnesses on the stand.

J. H. McDonald, justice of the peace at Cisco, was brought to the stand and Henry Harris, another eye-witness, and a negro employe of Brown's testified as state witnesses.

McDonald brought into the courtroom this morning the names of the negroes that Pet Brown had asked the justice of the peace to read off to him two days before the killing. Some other negro names were brought up and defense counsel, B. W. Patterson, objected to their names being brought in. After considerable argument the jury was taken from the courtroom. The court heard the testimony and argument of both counsel and ruled that it was immaterial and was not to be used. The jury was then brought back and the testimony of McDonald resumed.

The state counsel attempted to show that Starkey had been making raids on Pet Brown's construction camp and collecting fines from the negroes which were not turned in to the court. The defense contended that this had nothing to do with the killing and offered their objections to this. The justice of the peace, however, was allowed to explain that it was the custom of his office to allow Constable Starkey to collect and assess fines, and turn them in, and it was not necessary for the negroes to be brought into the court.

The last state witness on the stand was Henry Harris, an eye-witness to the shooting. Harris testified that Brown employed white men as foremen, and about an equal number of white men and negroes as laborers.

The negro related how he went to the prostrate body of his master, and called three times: "Mr. Pet; Mr. Pet; Mr. Pet." He said he and Alf Dillard carried Mr. Brown's body to the car.

First witness for the defense was D. Seaborne, who lives on the road near the construction camp. He testified that he had told Starkey a few days before the tragedy that the negroes were meeting there every Saturday night and having games, and the raid followed his request.

B. B. Poe, deputy sheriff, was kept on the stand for over two hours, and was vigorously cross-examined by Senator Joe Burkett. He stayed close to his testimony in the former trial. He is the most important witness in the case perhaps.

Poe testified that he went to Leary with Mr. Starkey about sundown and returned to Cisco about 10 o'clock and went with Starkey to make a raid on the negro camp. He then told the same story of the killing as in the first trial and was on the witness stand at the noon recess.

The trial of L. J. Starkey, charged with the killing of Pet Brown in Cisco last May, was begun yesterday afternoon, the state placing Mrs. Hester Brown, wife of the deceased on the stand as the first witness.

Mrs. Brown told of the tragedy which resulted in the death of Pet Brown. She broke down at intervals when she was relating the story of how she rushed her husband to the hospital from the construction camp where the shooting occurred. She said her husband had held the title of champion middleweight wrestler of the world and had won trophies, belts and other prizes for his feats.

Alph Dillard, a negro employe of Brown, was next witness and he testified that he was in the camp where the shooting took place. He said that he had wrestled with Mr. Brown. Dillard is a giant in physique. His testimony was unchanged in cross-examination by Defense Attorney B. W. Patterson.

The court room was packed to capacity. There was no night session last night. Court adjourned at 6:30 o'clock and reconvened at 8:30 this morning.

The jury is composed of men from nearly every box in the county. There are three from Eastland, and three from Gorman, three from Desdemona, and one each from Pioneer, Nimrod and Romney. Ranger and Cisco jurors were either excused or challenged preemptorily or by the attorneys for both sides.

BIBLE THOUGHT.
 THE SINNER.—Therefore to him that knoweth to do good, and doeth it not, to him it is sin.—James 4:17.

HONESTY IN NEWS WRITING.
 The camouflage of authorship—as practiced in the sporting pages of our newspapers and as shown up by this publication repeatedly—is attacked in the current issue of The Dearborn Independent. We wonder if the newspaper executive thinks he is fooling his readers with this kind of stuff—Babe Ruth with his analysis of ball games, Jack Dempsey press agenting his own fights, Luis Firpo turning fine English phrases when his English vocabulary—as he speaks it—is limited to a few words, and other sport celebrities airing their views in the press as if they wrote the articles themselves. No wonder the American reading public has lost confidence in the sporting pages.

We welcome Henry Ford to our list of converts in the fight we have waged for years against the unscrupulous newspapermen who have debauched the pages of their papers with untruths, press agent yarns and inaccuracies. Mr. Ford writes: "Honesty and accuracy in reporting are qualities which seem largely to have passed from the editorial rooms to the big-city dailies. Sensationalism in writing and in the handling of news, and the very type of news that is featured have succeeded in breaking down old-time traditions and practices. It is possible that before the press is entirely discredited everywhere that a beating-back will be attempted. It is not too late, now, but soon will be." This publication has shown up some of the practices among the sporting writers, has exposed the ulterior motives back of many signed articles, and has revealed how many subsidies were paid certain writers for the purpose of controlling the policy of the paper and creating false impressions with the public. As a result of these exposures, some of the publishers instituted reforms in their staffs that lessened the evil, but others purposely or otherwise remain blind. Mr. Ford sounds a warning that they would do well to heed.—Collyer's Eye, Chicago.

In other words, the United States supreme court rules that out beyond the three-mile limit the ocean is constitutionally, internationally, unalterably and everlastingly wet.—Springfield Union.

Senator Reed declares that Harding's world court plan is treason. Coming from Senator Reed this stamps the world court with reason instead of treason.—Louisville Courier-Journal.

Maybe they have bootleg stuff in France, too, as it is a French savant who asserts that the earth does not really turn on its axis, but merely seems to.—Chicago News.

Mr. Julius Barnes says that the average home of today has three times the things of the home of 20 years ago.—Boston Transcript.

ITALIAN EMBASSY AT LONDON DENIES WAR REPORT

By Associated Press.
 LONDON, Aug. 31.—The Italian embassy emphatically denied that Italy has declared war when information that alarmist reports circulated in the United States had referred to the steps taken by Italy.

HUGHES DEFINES MONROE POLICY OF THE NATION

(Continued from page 1.)

Must Safeguard Future.
 "Fourth. There are, indeed, modern conditions and recent events which can not fail to engage our attention. We have grown rich and powerful, but we have not outgrown the necessity, in justice to ourselves and without injustice to others, of safeguarding our future peace and security. By building the Panama canal we have not only established a new and convenient highway of commerce, but we have created exigencies and new conditions of strategy and defense. It is for us to protect that highway. It may also be necessary for us at some time to build another canal between the Atlantic and the Pacific oceans, and to protect that. I believe that the sentiment of the American people is practically unanimous that in the interest of our national safety we could not yield to any foreign power the control of the Panama canal, or the approaches to it, or the obtaining of any position which would interfere with our right of protection or would menace the freedom of our communications.

"The disturbed conditions and revolutionary tendencies in some of the Central American republics have given great solicitude to the government of the United States, and its efforts have been directed to the promotion of tranquility and stability. This is in the interest of the maintenance of the unimpaired integrity and sovereignty of these republics.

Draws Nations Together.
 "Fifth. It is apparent that the Monroe doctrine does not stand in the way of Pan-American co-operation; rather it affords the necessary foundation for that co-operation in the independence and security of American states. With the aim of furthering this Pan-American co-operation there have been five Pan-American conferences, the last of which was recently held in Santiago. The best results of these conferences are not to be found in any formal acts or statements but in the generation of helpful and friendly influences which draw peoples together through a better mutual understanding.

"The essential condition of co-operation is peace, and this government is constant in its endeavors to promote peace in this hemisphere by using its good offices, whenever they are welcome, in eliminating the causes of strife, and in making provision for the settlement of disputes that can not be adjusted by diplomacy. Almost all the boundary disputes in Latin America have been settled, and those that remain are in process of adjustment.

COAL OPERATORS AND MINERS APPEAR TO BE GETTING TOGETHER

HARRISBURG, Aug. 31.—Anthracite operators and mine union officials today returned their answers to Governor Pinchot's peace proposals for averting the suspension of mining.
 The men accepted them on a basis for continuing the negotiations, while the operators agreed to a flat 10 per cent wage increase on the condition that an agreement putting it into effect over a number of years be made.

NORTH SEEKING TO SOLVE ITS NEGRO PROBLEM

St. Louis Adds 30,000 in Eight Months to Colored Population There.

By HERBERT LITTLE
 (United Press Staff Correspondent)
 ST. LOUIS, Mo., Aug. 29.—Thirty thousand negroes, settling in St. Louis in the first eight months of 1923, have brought the city face to face with two big problems—that of housing the newcomers and that of halting the invasion of disease.

The menace of disease is being fought by a score of policemen and a special corps meeting every incoming train. Both whites and blacks are vaccinated, unless they already are immunized. Seventeen cases of smallpox in June and July gave the alarm.

Housing is more difficult. There are no new homes being built for the negroes. The 1920 census gave St. Louis a negro population of 70,000, and there were barely enough buildings to house them then.

Relief agencies investigating reported that as many as 12 negroes have been found living in a house intended for one small family.

Landlords are unwilling to make repairs at present high prices of construction. Responsibility for unsanitary conditions rests both upon the landlords and the new arrivals, most of whom are unaccustomed to city living conditions.

Two other problems in connection with the negro from the South have the city leaders worried. One is that of continuing harmonious relations between the two races and the other is the result of the city's political life.

Make City Safely Republican.
 The administration of the city now is Republican and the estimated 15,000 added voters will serve only to strengthen the G. O. P. There were 30,000 negro voters in the last election here, practically all Republicans.

Formation of an inter-racial commission, composed of five whites and five colored men, to work out ways of avoiding friction between the two races and to find ways of housing the surplus colored population, is being urged by leaders in racial affairs, composed of persons elected by a Such a commission in Philadelphia,

conference of all civic groups, has operated successfully in adjusting the city to the new negro.

"We are seeking to do in St. Louis in advance of any racial trouble what other large cities, particularly Chicago, have found necessary to do after such trouble," said C. K. Robinson, president of the St. Louis Clarion, leading negro newspaper.

"We know that the housing situation is acute. The negro must find additional residential space. It will be one of the tasks of the commission to determine where the negro can go without causing friction."

Rents in the negro tenement district have mounted from 20 to 40 per cent, according to colored real estate agents.

The negroes who come to St. Louis are from Arkansas, Tennessee, Mississippi, Alabama and Texas. About 80 per cent of them settle here or in the surrounding industrial district. The other 20 per cent, along with a large number of St. Louis negroes, are moving to steel mills in Youngstown, O.; Pittsburgh and Chicago, and automobile factories in Michigan.

Migration into and through here in January was from 200 to 300 per week. It has reached a weekly peak of 2,000.

Penniless Immigrants.
 Most of the negroes are penniless. The biggest factor in the exodus is the high wages offered by industrial plants through labor agencies.

A significant feature of the migration is that a large proportion of the negroes are between 17 and 19 years

Most of the negroes "tote" their total possessions in a paper bundle. A few carry paste-board suit-cases. Extra numbers of arrivals every Sunday are explained by the fact that the men can draw as much of a week's pay as possible for their railroad fare.

DAVID BEATTY, WEALTHY OIL OPERATOR, DIES

By Associated Press.
 LOS ANGELES, Aug. 31.—David Beatty, wealthy oil man and realtor, who was said to have been the first to drill in the Beaumont field in 1900, died suddenly at the Los Angeles Country club last night. He had been ill for several months but showed signs of recovery.

DALLAS.—There'll be plenty of bands at the State fair of Texas, Dallas, Oct. 13-23 this year. The Magnolia Petroleum company is sending at organization up from Houston for the full 26 days. The Taft Ranch company will have its own band at its big exhibit, for daily concerts, and Al Sweet will be back again, along with Art Landry's famous Chicago orchestra, which will hold forth in the coliseum with the "Mardi-gold Garden Revue."

Four Years Ago In Ranger

Taken from the files of the Ranger Daily Times, Aug. 31, 1919:
 Seventy-five miles of steel for the Hamon-Kell line are ready to be laid down in Ranger. Seventy miles more are ready to be laid down as soon as they can be used.

Dr. J. A. Shackelford, formerly with the Texas & Pacific railroad and later with the A. E. F. in France, has located in Ranger and will practice medicine in this city.

Why Should Men Go to Seed When They Have Time to Sprout? Interesting, If True, Incidents Relating to Production of Oil and Leisure.

By P. G. T.

Some office men and executives of local oil companies are having an easy time since the large companies have been pro-rating the oil they buy. Business has turned to laziness and employees are enjoying the slump.

As usual in cases where men have soft jobs, the less they have to do the less they want to do. Jobs that were hard are easy, but are hard because they are so easy.

One guy was so lazy he almost died from starvation. He reached a stage where he was too tired to go for his meals. The other day he ordered a malted milk sent up to his office and let it set untouched. The soda keef forgot to furnish straws and he couldn't get up pep enough to hold the glass and drink.

Another bird was discovered at noon in his office almost dead from pain and loss of blood. Some one had left a razor laying open, sharp edge up, on his chair and he sat on it the first thing in the morning. He didn't have energy enough to get up or phone for a doctor.

One drug store cowboy gets on the job at 8 a. m. and spends a hard five minutes opening up the mail. After this strenuous exercise he rests the rest of the day, waiting for some business to turn up. He's been waiting seven hours and 55 minutes a day ever since the slump became effective and no business has come in yet. He won't leave the office because he wants to give service for value received. He is known among production men as an energetic worker.

A certain pipe line foreman hasn't laid any lines in so long that he is afraid he'll forget how. He takes his gang out every day and they wash and paint the pipe above ground and polish any brass that can be found on the lease. He is doing this because he has always been attracted by a sea-faring existence and thinks he can get a job as ship captain if he gets laid off.

Another foreman is working his gang on seeding grass plots around tanks and rigs. He also plants shrubbery and keeps the grass mowed and green as it comes up. This bird is looking forward to a job as John D.'s chief gardener.

Yes, it's a sad story, mates. The oil business has been sliding down on its own grease lately, but cheer up. It won't be long before storage oil is used up and then we expect to see the California fields go to salt water any day. They are so close to the ocean, you know.

A Rangerite says: "They is one fault I got to find with yesterday's Times. This here boxin' exhibit that was put on 'between two ball players in front of the Gholson was write up on the front page instead o' 'bein' printed in the sport section."

KERENS IS ENCOURAGED WHEN THE EGG HATCHES

WACO, Texas, Aug. 30.—Kerens, Texas, wants itself on the map. In connection with the publicity campaign towards this end, the editor of a local paper received the following note: "Dear Editor: "One day last week a man brought some eggs into Kerens and seven of them were bad, and C. C. Day, the egg man, just put them back. This morning Mr. Day went to clean out and found one of the eggs had hatched, and the chicken is doing fine. So you can't tell what might happen in Kerens. Come on over."

WARD MURDER TRIAL EXPECTED TO BE SENSATIONAL

Above: Walter S. Ward, Clarence Peters & Mrs. Walter S. Ward Below: Ralph Ward, George Ward, Justice Wagner & City-Gen. Sherman

Sensations are expected when Walter S. Ward of New York and New Rochelle, multi-millionaire baker, is placed on trial in White Plains, N. Y., before Justice Robert Wagner, charged with the murder of Clarence Peters. The trial is scheduled to begin Sept. 4. Peters, a former marine, was discharged from a Southern training camp only a few days before his body was found on a lonely road in Westchester county. Ward later surrendered and said he killed Peters in a revolver duel that followed a plot to blackmail him. He declined to tell what the blackmail plot was. One indictment charging murder was dismissed, but Governor Al Smith ordered a special grand jury to take up the case, and Ward was re-indicted. Much bitterness was displayed in an effort to keep from the grand jury cables that passed between Ralph Ward, Walter Ward's brother, and George Ward, their father, in which Ralph asked the father's permission to give large sums of money to Walter, but which the father refused if the money was to go for blackmail. The elder Ward has kept out of the jurisdiction of the courts ever since. Attorney General Carl Sherman is scheduled to try the case himself. Mrs. Walter S. Ward has stuck loyally by her husband.

Cleanliness In the Poultry House Pays

Sanitary Surroundings for Fowls Means Success For Poultryman.

By SETH W. SHOEMAKER, (Director, School of Agriculture, International Correspondence School, Scranton, Pa.)

Cleanliness in the poultry house is more essential to success than many people appreciate. The fact that the man with the unsanitary house can get along fairly well for some time is often misleading. When trouble comes as a result of uncleanness, it is very often serious.

The happy, contented hen is the one that lays the best, and to keep the hens happy they must be kept in surroundings that are not conducive to sickness.

To get sufficient exercise hens must scratch for their grains in litter on the floor, and unless this is clean, the hen will be constantly eating material that may give her indigestion.

Unless the hen house is systematically cleaned, there is a great accumulation of manure in it. The average hen will consume about four to five ounces of feed a day. This means that 100 hens in a poultry house will consume 20 to 25 pounds, including the grain grit, charcoal and green stuff. Since the proportion of this which is digested is small, the greater part of it will accumulate in the house unless the house is well cleaned.

Change Litter Frequently. The litter in the house should be changed as often as seems necessary. This should be taken out at least once in two weeks and the floor scraped clean.

A top layer of litter should be maintained on the floor about four or five inches deep, and may consist of a number of materials. Wheat, straw, either whole or chopped shavings, shredded corn stalks and rye, oats and barley straw may be used. There are also several litters on the market made out of moss that are good when they can be purchased at a fair price.

The dropping boards underneath

the roosts should be cleaned at least twice a week and some poultrymen clean them more frequently. Many poultrymen prefer to have dropping boards covered with galvanized iron in order to make them more sanitary. Occasionally the dropping board should be washed off with a good disinfectant.

Poultry manure is valuable as a fertilizer, but a great detriment when allowed to remain inside the house. Therefore, in order to get the best results it should be taken out frequently and spread on the ground.

If this is done regularly many of the ills that chickens are heir to will never be visited upon them.

LUBBOCK, Aug. 31.—Lubbock again went over the top with a vote of 247 to 28 in favor of the charter

amendment raising the tax limit from \$1.50 to \$2.50, permitting the \$500,000 bond election for storm sewers and street paving that will be called immediately.

CHANGE OF LIFE

Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Alma, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of Route 2, this place, said:

"I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up."

"I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling."

"I would get depressed and out of heart."

"I began to feel, after awhile, there was no use to try to get well. This is all wrong, for it makes a person worse."

"I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results."

"I took one bottle (of Cardui), then I saw I wasn't so nervous, so kept it up. Gradually the nervousness left me. I began to eat and sleep better. Was soon well, and all right. Cardui did wonders for me, and I certainly do recommend it."

Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others.

VOICE AMPLIFIER IS A GREAT AID IN CAMPAIGN SPEAKING

CHICAGO, Ill., Aug. 28.—Fewer cracked or strained voices as the result of strenuous political speaking campaigns in 1924 elections, and which at the same time may reach a much wider constituency, is seen in the applications of the loud-speaking device used so successfully by the late President Harding on his tour to Alaska.

Candidates will be enabled to address millions of citizens without vocal strain or discomfort, it is indicated, as the instrument can be installed in any location, while atmospheric conditions cannot affect its operation.

President Harding was able, without straining his voice, to make himself heard to thousands surrounding the observation end of his car. Speakers of long experience have stated that ordinarily only a few hundred can hear an open-air address by the average speaker and then they must

be close. The speech amplifying system is composed of three portable transmitters mounted on the railing of the car's observation platform; a control room in which is located the operating rack with its amplifiers and accessory apparatus; five projectors mounted in a semi-circle on a specially built extension to the observation hood, and the signal system. The sound waves of the speaker's voice are absorbed by the transmitters and conveyed by wires to the control room where they are amplified and then delivered to the projectors on the roof, which serve as megaphones in delivering the words.

The signal system is arranged so as to enable the audience observer and the platform and control operators to converse by signals. If the observer in the crowd thinks additional volume is needed, he signals the plat-

form man, who makes the desired changes.

SAN ANTONIO.—Ten new street cars have been ordered by the Public Service company for use here. They are modern, lightweight double-truck cars and will seat 48 persons each.

ROBS CALOMEL OF
NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known by the drug trade as "Calotabs." Calomel, the most generally useful of all medicines, thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

SPORTS

PONY EXPRESS RIDERS RACING ACROSS PLAINS

Crossing From Missouri River to Pacific Coast as Did Pioneers.

By Associated Press.
ST. JOSEPH, Mo., Aug. 31.—Riders of the Pony Express are again traversing the western plains after an absence of 63 years. Men on horseback are engaged in a race between the Missouri river and the Pacific coast.

Two teams of riders were expected to battle against each other, but this was abandoned at the last moment. The riders are mostly sons of farmers. Members of the United States cavalry did not enter the race, as was anticipated.

Conditions are as near approximating conditions in 1860 as weeks of preparation could make them. At that time the Pony Express riders made a record of 7 days, 21 hours, actual riding time.

The riders were ferried across the river and started on their way this morning. Horses will be changed every 10 miles and fresh riders will take up and carry on the mail pouches at each 50 miles. Horses will be changed each mile in the mountainous districts. Arriving at state lines at night, the riders will be halted until daylight so they may pass through all the large cities during the day-time.

About 25 riders are participating in the contest and some 200 horses will be used.

BEAUMONT.—The new office building here of the Eastern Texas Electric company is almost completed. It will contain features to appeal to the civic interests of Beaumont and to aid in upbuilding such interests.

RANGER POUNDS DELEON PITCHERS ND CAPTURE GAME EIGHTEEN TO SIX

Ranger pounded two DeLeon pitchers at will yesterday at the city ball park and won by the score of 18 to 6. Goss Cobb started for the visitors and a total of 10 hits were made before he retired at the beginning of the sixth inning in favor of "Slick" Moore, spitball thrower, who fared still worse. Nine hits were made during his short stay in the box.

Bob Deason, pitching his first game for the Snappers rapped the ball to left center field in the eighth for three bases. John O'Keefe got four hits, including three singles and a homer. Scoggins made a triple in the third frame. Bud Dinsmore got two hits but along with a base on balls and a wild throw by Third Baseman McClellan, he got on base four times and tallied each time.

Snappers Score Every Inning.
The Snappers scored in every inning, a new achievement for them. Rainey caught for the Snappers and he hit the ball viciously. He got three singles, one two-bagger and stole a base. He caught a nice game. He has been before a Ranger audience on several previous occasions, coming here with the Olden team. His work has always been favorably commented upon.

Deason got eight strikeouts and gave one pass. The visitors got 11 hits. He had a lot of stuff on his balls for four or five innings but in the first two and the seventh the visitors bunched their hits.

Put Up Improved Game.
Except for one inning, the Snappers played errorless ball. In the sixth, three errors and one hit gave the DeLeon team three unearned runs in their game yesterday than was shown Sunday against Breckenridge. This augurs well for a fighting team against Thurber in the series opening here Saturday.

First Baseman Conley did the heavy stick work for his team. He got a two-bagger and a home run. Moore, DeLeon's left fielder has a dandy whip. He threw O'Keefe out at the plate in the second inning from his position in left field after McClellan singled to his garden. He came near getting Scoggins after the latter had slammed the ball to deep right center field. He threw the ball to McClellan at third but he had to jump from the bag to bring the ball down.

McClellan scored in the seventh on a single and three passed balls. Moore's ball broke twice in front and on the plate, getting away from his catcher.

DeLeon	0	0	0	0	1	1	1	1	1	6
Ranger	4	11	14	1	1	1	1	1	1	18

NOTES OF THE GAME.
It is folly for a club to take the road continuously with but three pitchers. The effect of this policy has been seen here on several occasions this season. It has meant the unmerciful pounding of even a first-class twirler. Yesterday, Cobb was hit pitilessly. It is said that he has pitched out of his turn numberless times this summer. Moore, rated high, relieved Cobb in the sixth after pitching against the Breckenridge club Tuesday and it was not a hard stunt for the Snappers to solve his spitball delivery.

The sun got into Adams' eyes in the sixth inning and caused him to let a ball get through his glove, which he had extended up above his head to get a high throw from Dinsmore.

There were a number of DeLeon fans in the stands, which caused Manager Tom Holden of the visitors to remark to the Times writer that half of the spectators were from his little town. The attendance was poor yesterday.

BROWNWOOD GUN CLUB TO HOLD SHOOT MONDAY

The Brownwood Gun club will hold a shoot on Labor day. There will be 200 rock programs with a loving cup for high gun and \$150 in prize money. Several match shots will be shot during the day. There will be class shooting, and loving cups will be given to high gun of each class.

All of the prizes will be awarded on day of the shoot. The Southern hotel will be headquarters for the trap shooters.

WEATHERFORD TO PLAY AT BRECKENRIDGE MONDAY

Little has been heard of the Weatherford baseball club, which will play the Breckenridge Dynamas at Breckenridge on Labor day. This will be the first game for Weatherford in this section this season.

FIGHTING FACE OF THE "DEMON" ANGEL

Here is a splendid close-up of the fighting face of "Demon" Angel Luis Firpo, Argentine heavyweight, who is to meet Jack Dempsey in New York on Sept. 14, for the world's heavyweight championship. Firpo is doing his training at Atlantic City, N. J.

GREB AND WILSON TAKE MATTERS EASY BEFORE FIGHT
NEW YORK, Aug. 31.—Beyond indulging in exercise of the lightest kind, both Harry Greb and Johnny Wilson today took matters easy while awaiting the bell that will send them on their 15-round journey toward the middleweight championship at the Polo Grounds tonight.

LEADING BALL TEAMS OF OIL BELT PLAY CRUCIAL GAMES SOON

The games scheduled for Saturday, Sunday and Labor day in the oil belt are going to decide the championship aspirations of several baseball clubs.

Saturday will see Thurber and Ranger battling at Parks and Breckenridge against Parks Camp. Sunday, the same teams meet again.

Labor day, Ranger meets Cisco and Parks Camp goes up against Thurber at Thurber.

Here is how the series between the opposing teams stand: Thurber 3, Ranger 3; Parks Camp 2, Thurber 2; Breckenridge 1, Parks Camp 6.

Fans can readily see that Thurber and Ranger and Parks Camp and Thurber are campaigning how to break the tie in games in their favor. As for Breckenridge and Parks Camp, it is one-sided but Parks Camp hasn't met the Dynamas since the acquisition of the wrecking crew, headed by Don Flynn, et al.

AN ORDINANCE
PROHIBITING PARADES ON THE STREETS OR SIDEWALKS OF THE CITY OF RANGER, TEXAS, WITHOUT A PERMIT; ASSESSING A PENALTY AND DECLARING AN EMERGENCY;
BE IT ORDAINED BY THE CITY OF RANGER:
Section 1. It shall be unlawful for any parade to be held on any of the streets or sidewalks of the City of Ranger, Texas, unless the person or persons staging such parade shall first obtain a permit from the City Secretary permitting such parade.
Section 2. Any person violating any of the provisions of Section 1 above, or who shall take part in any parade staged on any of the streets or sidewalks of the City of Ranger, Texas, without a permit having been issued therefor, as herein provided, shall be deemed guilty of a misdemeanor, and, upon conviction, shall be fined in any sum not less than \$10.00 nor more than \$100.00.
Section 3. The fact that no ordinance is at present in force prohibiting parades on the streets or sidewalks of the City of Ranger, Texas, creates an emergency requiring the rule that ordinances be read at more than one meeting of the City Commission be suspended, and said rule is here now suspended, and this ordinance shall take effect and be in force from and after its passage.
Passed this 28th day of August, 1923.
Approved, this, the 28th day of August, 1923.
R. H. HODGES,
Mayor of the City of Ranger, Texas.
Attest:
E. A. RINGOLD,
City Secretary.

WILSON MEETS HARSH CRITICS AS DID LINCOLN

Educator Will Show Wrong Ideas Entertained About Former President.

By Associated Press.
URBANA, Ill., Aug. 30.—To prove what he states is the falsity of some of the current beliefs and conclusions as expressed in much of the literature on Abraham Lincoln, Dr. D. K. Dodge of the department of English, University of Illinois, this school year will conduct a course in Lincoln's letters and speeches. Dr. Dodge is regarded as one of the greatest living authorities on Lincoln.

"I expect to show by documentary evidence that Lincoln's famous Gettysburg speech was not scratched on the back of an envelope while he was riding to that famous battlefield, but was one of his most carefully prepared speeches and one upon which he worked about 10 days," Dr. Dodge said in announcing the course.

"The 'lost speech' supposed to have been delivered at Bloomington, Ill., was not lost at all, as it was delivered the next day at Galena, Ill. Contemporary newspapers described in detail the meetings at which Lincoln spoke, but it was not then the custom of reporters to attempt to quote the speeches and thus it was natural that no record of his remarks are found.

"Just as Washington's home paper called him 'an old fool' for signing the United States constitution, one Springfield newspaper ridiculed Lincoln's Gettysburg address, referring to his gestures 'as those of a clown.'"

This point is brought out by Dr. Dodge to indicate that much of the idealism with which Lincoln is regarded today was absent while he was president, and added that "criticism of President Woodrow Wilson was very mild, compared with that which Lincoln met."

FIGHT EXPECTED ON PROPOSAL OF SECOND TERM OFFICE

GALVESTON, Aug. 30.—Adoption of resolutions and the election of officers were the main things before the closing session of the third annual convention of the Women's auxiliary, Texas department of the American Legion today.

Recommendation by the committee on by-laws and constitution of an amendment providing for a second term for a president, which is to be considered, is meeting opposition.

JUDGE RANDOLPH GOES TO APPELLATE COURT BENCH

By United Press.
AUSTIN, Aug. 29.—Judge H. C. Randolph of the Texas commission of appeals has been appointed associate justice of the 8th court of civil appeals at Amarillo, to succeed Judge E. L. Cleet, resigned. Announcement of the appointment was made today upon receipt of a message from Governor Neff, who was in Lubbock to attend the Tech celebration. Judge Randolph's successor on the commission has not been named.

Thousands of Letters

LITERALLY thousands of letters recommending the use of S. S. S.—the great blood purifier and system builder—all telling how S. S. S. restores the state of well being by creating red blood cells are received daily by the manufacturers of S. S. S.

What S. S. S. has done for others it will do for you. Is your vitality sapped—your courage gone—your health undermined—your brain misty—the old time fighting spirit missing? Do you want to get back to the days of "once before"—the days when you were young and strong—healthy and buoyant—when your brain was active and your spirit alive with ambition?

S. S. S. is the surest and safest way to restore health, energy and vitality. Since 1826, S. S. S. has been bringing back clear, sparkling eyes—radiant expressions of well-being—building up nerve power—sending red blood coursing through the system—building red blood cells. Your nerve power is born in the blood cell. Increase your red blood cells and watch yourself improve.

S. S. S. makes stronger and healthier bodies—bodies free from impurities—free from rheumatism—free from skin eruptions—eczema, black heads, pimples and boils. Any leading drug store will supply you and, for economy, get a large size bottle.

SSS. Makes You Feel Like Yourself Again

TEXAN FINDS PECAN TREES SAFE FROM HIGH WATER AND PROFITABLE

By Associated Press.
ROCKDALE, Texas, Aug. 29.—The terrific flood that swept down the San Gabriel river and inundating this section in September, 1921, included the farm of Frank Worley in its devastating sweep. His cotton, ready for picking, was ruined as well as his other crops. Worley was left without a sprout on his farm.

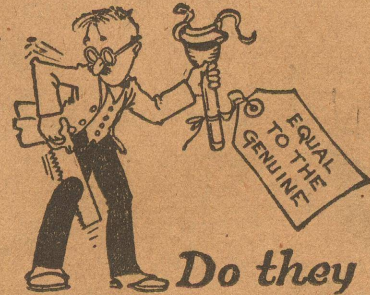

But pecans saved him and now he is making a profitable business out of pecan growing.

Pecan trees, growing wild in the San Gabriel bottoms saved their fruits by growing tall. The water did not reach them. Accordingly Worley set to work gathering these pecans. He harvested and sold approximately \$2,000 worth and met his obligations.

That gave him the idea that pecans would be a profitable crop in this section. He went in strong for it and set out a number of trees. This year, two years later, Worley gathered good crops from the majority of the trees he set out together with the yield from the trees growing wild on his land.

This year he also set out another 175 trees. He figures that if another flood comes his crops will be unhurt.

Former Representative Herrick is a lame duck who got no appointment, but seems to have no trouble in keeping in the limelight.—Detroit Free Press.

Do they really mean it?

Stick to the genuine, and use a substitute only when you can't help yourself. That's what substitutes are for.

Genuine Darcova Valve Cups belong in the well, and there's where they stay, pumping the oil till long after you'd expect to re-cup. For fifteen years Darcova quality has been demonstrated all over the oil country.

The Darcova label is your security. If a valve cup hasn't the name Darcova in it, you know it isn't genuine.

Tell your dealer that only Darcova will do.

Women of Sofia Rejoice In Death Of Stambouliski

By United Press.—
"Stambouliski's dead, now let's get some real shoes" was what Bulgarian society women said in effect when the peasant premier met an untimely end.

The connection between a peasant statesman and high heels may not be apparent, but Bulgarian women had long groaned under Stambouliski's dress regulations. The sturdy old peasant could see no excuse for high heels, and, among other things, he ordered that women must wear shoes with flat heels. Dresses were also ordered to be worn long, and the police were authorized to check dress lengths by actual measurement if necessary.

The women raged, solo and chorus, but Stambouliski's orders had to be obeyed. Immediately on the news of his overthrow and death, fashionable

Sofia rushed the stores and indulged in an orgy of Louis Quinze heels, short skirts and similar frivolities. So great was the demand that Sofia storekeepers were unable to meet it. The new revolutionary government has not yet ventured to interfere with the height of heels or length of dresses.

AMARILLO. — A meeting of the Texas Independent Telephone association for the Panhandle district was held here last week. About 20 companies were represented. L. S. Gardner, secretary of the association, presided over the meeting.

Sponge trade of West Indies gives employment to 500 boats and over 2,000 persons.

NEW BUILDING AT LUBBOCK

By United Press.
LUBBOCK, Aug. 30.—Five new school buildings in eight months was the record set up by the Lubbock Independent School district this week when work was started on the new

\$80,000 Ward school building here.

This is in addition to a \$10,000 contract for repair of the old high school building since the completion of the new building last June, which cost \$150,000.

The 1920 census gave Lubbock a

population of 4,051, and the school enrollment was 1,134.

SATURDAY EVENTS.

Public library opens 10 to 12 and 2 to 6 o'clock in Marston building.

PERSONALS.

Mrs. Edward L. Etier and children of Fort Worth are visiting her father and mother, Mr. and Mrs. W. T. Pitcock.

Paul Whitley of Dallas, general superintendent of the Uvalde Paving company, will arrive tonight to spend the week-end with his wife, who has been spending the summer with her parents, Superintendent E. O. McNew and Mrs. McNew.

Miss Laura Schmuck will leave next week for Kansas City where she will resume her music studies.

Mrs. J. A. Dennis of Blundell street has been spending the week in Goldthwaite with her mother. Mrs. Dennis will drive to Fort Worth Saturday to meet her and bring her home.

FITCOCK-SHEPHERD WEDDING ANNOUNCED.

Invitations have been received in Ranger for the marriage of Miss Medora Shepherd, daughter of Mr. and Mrs. Jurant Shepherd of Fort Worth to Mr. Louis Pitcock of that city, formerly of Ranger. The ceremony will take place Thursday evening, Sept. 6 at 8 o'clock at the Central Methodist church, and a reception for the relatives and members of the bridal party will be held immediately afterward in the new home of the young couple on the Fort Worth-Dallas interurban at Stop Oakland.

Mr. Louis Pitcock is a son of Mr. and Mrs. W. T. Pitcock of this city and a brother of G. C., J. A., and C. T. Pitcock.

MISS SCHMUCK WILL GIVE RECITAL TUESDAY.

Miss Laura Schmuck, talented daughter of Mr. and Mrs. R. M. Schmuck, will give a song recital Tuesday evening, Sept. 4, at the First Baptist church. A general invitation is being extended to all music lovers of the city. There will be no charge for admission.

TWO BOYS SUSPECTED OF STEALING AUTO-MOBILE

Two 15-year-old boys are suspected by the sheriff's department of Stephens county in the theft of a Hudson speedster from that city yesterday, according to a report made to the Ranger police department. The speedster's body is painted black.

REV. A. L. LEAKE IS RETURNING TO RANGER

The Rev. A. L. Leake, pastor of the Central Baptist church, who has been away several weeks conducting revival meetings in several places, and Mrs. Leake, who has been assisting him in the music, will return to Ranger tomorrow. Mr. Leake will occupy his pulpit in the Central Baptist church Sunday morning and evening. At the morning hour he expects, according to his announcement, "to recount victories and discuss challenging tasks of the future."

Mrs. Belle Davis has returned to Ranger from Lucien, Miss., where she was visiting her mother, children and other relatives. She said she would take over the management of the Rothwell hotel, Oct. 1.

MRS. E. L. M'KEE, OF HUNTER'S RANCH, DIES

Mrs. E. L. McKee, 50, who lived on Hunter's ranch, near Palo Pinto, died in a local hospital at 2 a. m. today. Her body was taken overland to Palo Pinto by the Milford Funeral home for funeral services and interment in that city tomorrow afternoon. She is survived by two children, Mrs. E. L. Burleson of Breckenridge, and Mrs. Viola Leady of Thurber. A mother, four sisters and two brothers also survive. Mrs. Jane Hunter, the mother, Mrs. C. D. Freeman of Hunter's ranch and Mrs. Ellen Roberts of Caddo and Mrs. M. E. Mehurin of Palo Pinto; J. O. Hunter of Van Horn and Tom Hunter of Stephenville.

FRAUD IN USE OF TRADEMARKS CONDEMNED

MINNEAPOLIS, Aug. 30.—Uniform state laws framed to punish those guilty of actual fraud in the use of marks or other labels describing merchandise, were recommended to the convention of the American Bar association today by its committee on commerce, trade and commercial law.

"While we already have some state and federal laws relating to the sale of oleomargarine and cold storage foods, your committee is of the opinion that the matter is one which can be dealt with by uniform state laws, framed to punish those guilty of actual fraud," said the report. "A federal statute regulating the use of marks, or labels, if enacted, must be confined in its operations to interstate and foreign commerce, and must leave the very large field of intrastate business entirely unregulated."

"It is now well settled law that any merchant who seeks relief in equity for the infringement of his trademarks, must come into court with clean hands. If he is using deceptive labels or making false statements in his description of his goods, the court will refuse to grant him relief, even

though the party complained of is guilty of infringement.

"Furthermore, there are many trade names and marks in common use which are not conformable to the truth, and yet no one is deceived by their use. For example, 'Panama hats' seldom come from Panama. The word 'silk' is very loosely used. The wholesale dealers are not deceived. They do not require any statute to protect them. Consumers sometimes are misled by retail dealers (and it may be desirable to have some legislation for their protection."

BRECKENRIDGE AUTHORITIES SEARCHING FOR GIRL

Dressed in a checkered gingham dress and wearing a blue hat, a 14-year-old Breckenridge girl was reported to have left that city yesterday by the sheriff's department with a man more than twice her age. They are said to have left in a Ford roadster, according to a statement made to the Ranger police by Sheriff W. O. Head of Breckenridge.

The man believed to have caused the young girl to leave home and his description was telephoned to the police this morning.

SALVATION ARMY TO HOLD SPECIAL MEETING

SALVATION Army officers from Eastland are expected in Ranger tonight to join with the Ranger army in a special meeting which will be begun at 7:30 o'clock in the street and continue at 8 o'clock in the Salvation Army hall.

Envoy Gregory will have charge of the services and will be assisted by soldiers of the army.

DALLAS. — Folks from the "nawth," who have recently taken up their residence in Texas, are looking forward with keenest interest to the State fair, held during the fair at Dallas, Oct. 13-28. Rodeo dates are Oct. 21 to 27, inclusive. The good people who come from north of Mason and Dixon's line are already sounding the slogan: "Ride him, cowboy!"

UNDERGROUND CAVE IS FOUND AT SAN ANTONIO

SAN ANTONIO, Aug. 29.—Blackie Applewhite, negro laborer, received a shock when the pick with which he was digging through solid rock, suddenly plunged out of sight after Blackie had given an extra hard dig with it.

On investigation it was found that the pick had dropped into one of Alamo heights many underground passageways. Curious laborers explored the cave for more than a hun-

dred yards.

The opening led into two rock-walled rooms, the sides of which were smooth as glass.

METHODIST CHURCH TO HAVE ROOF GARDEN

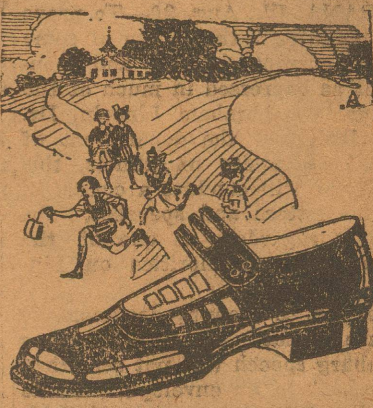

AUSTIN, Aug. 30.—The new Methodist church of Austin will have a roof garden. The building committee recently ordered the contractor to arrange for the roof garden. Services on hot summer nights will be held on the roof, as will other church social functions.
